The SDN Column

They're telling the story around town of a dog named Maynard. At first glance I would suspect that the canine was named Ken Maynard, that star of the Saturday matinee of hundreds of neighborhood movie houses in an earlier era, except for the fact that his master is Darrell Rains, who is not old enough to be acquianted with the Ken Maynard, star of "horse opera" movies that thrilled millions of small - fry once upon a time.

Anyway, this Maynard, the dog, it seems, has been in trouble with the law on many occasions. In fact, he has a reputation as one of the most frequent guests at the city dog pound. And the other day, according to Bill Seale, Maynard was in his own yard, not bothering anyone, when he spied the animal warden's truck parked nearby. It was a familiar vehicle to Maynard. So, he promptly bolted out of his yard and boarded the truck voluntarily and on his own initiative.

The new upper level Permian Basin University is scheduled to open its doors in September of 1973, which would make it just right for the first graduates of Western Texas College here to enter there for the last two years of undergraduate work. The Permian facility has projected its enrollment at somewhere between 800 and 1,200 students its first semester of operation. They expect it to reach 5,200 students by 1980.

Incidentally, Howard County Junior College will graduate its 1,000th student this spring. Its first graduating class in 1947 had eight members.

Higher education in the United States is 332 years old.

It started at Harvard, which began operating in 1638 and within a few years spread to Princeton, Yale and William and Mary. The first federal aid to education came in 1882 when the Morrell Act was passed, establishing the land grant college movement.

19 KNOWN DEAD, 300 INJURED

Lubbock Struck By Tornado

Damage In The Millions

By TOM DeCOLA
Associated Press Writer

LUBBOCK, Tex. (AP) — A tornado so powerful it ripped great chunks of concrete from buildings struck this city of 170,000 with death estimates today ranging from 19 to 26.

State authorities counted 19 bodies, while newspaper and radio surveys reached a total of 26. Texas Safety Department officers said some dead may still be under debris.

Authorities said 300 or more suffered injuries in the Monday night disaster. Property damage was unofficially calculated in the millions.

"There is no doubt in anybody's mind around here," said a veteran newspaperman, "that it is one of the biggest and most prolonged tornadoes ever to strike Texas."

All persons except rescue workers were blocked out of the downtown area. The National Guard called out 300 men including a medical unit. The state safety department sent 45 units. The Red Cross dispatched six disaster teams with 10 mobile vans.

Cars lay flattened to within two or three feet of the pavement. A Greyhound bus was slammed broadside into a building. The ground floor of the Lubbock Avalanche-Journal was awash from a cloudburst which came with the twister.

The width of the destruction was the greatest tornado observers could remember.

A newspaper executive touring the downtown area shook his head and called it a "nightmare."

Others looked at the severe damage and muttered, "incredible."

The storm left a path of destruction eight miles long.

The blitz winds drilled to earth near the campus of Texas Technological College then sprang along a two-mile route to the heart of the city were it virually demolished scores of buildings, sending glass shrapnel raining over the streets.

Concrete slabs were ripped from buildings and were slammed into cars and other buildings.

This city of some 170,000 persons was plunged into darkness as the maddened winds ripped down power and communications lines.

Pumps which supply the city's water were knocked out and residents were advised to maintain strict water conservation.

Gov. Preston Smith ordered the National Guard mobilized and a curfew was placed over the city.

Even as the winds continued to gust in the storm's aftermath, looters and pillagers began working their way through the damaged downtown area.

A temporary morgue was established at the Smiley Wilson school and homeless victims were being sheltered in the city coliseum.

Over 100 airplanes at the city's airport were damaged or destroyed including a state police jet helicopter.

The airport was closed.

Hospitals began filling quickly and all off-duty doctors and nurses were summoned to work.

The Department of Public Safety dispatched at least 45 units.

Red Cross workers converged on the devastated city from Dallas, Wichita Falls and Waco.

Nine mobile feeding units were sent to provide food for those whose homes were destroyed.

CALLED TO DUTY — The Snyder National Guard Unit — the 231st A Engineering Company — was pressed into emergency service this morning, doing rescue and clean-up work in tornado-devastated Lubbock. Included among 30 men of the local unit who left Snyder for the stricken area this morning with 15 dump trucks are, from left to right, 1st Lt. Cecil D. Vineyard, Sp-4 Larry Lee, S-Sgt. Tommy Cotton and Sp-5 Donald Collier. Vineyard, the unit commander, expected the Snyder men to remain on duty for the next three days.

Big Storm Close To Snyderites

The big storm at Lubbock struck close to home for many Snyder area residents, and the local National Guard unit was called upon to send 30 men and 15 dump trucks to help clear debris.

Otis Glasscock, operator of Snyder Ambulance Service, took an ambulance to Lubbock late last night to help with rescue work. He returned to Snyder at about 11 a.m. today and reported that words could not describe the devastation he saw in the storm area.

Meanwhile many anxious Snyder residents were trying to contact relatives, but were hampered by communications problems.

City Police learned that the father of a local woman was one of the victims. He was identified as Jose Aguilar of Lubbock. However, his daughter, after learning that her father was dead, left the police station before officers learned her identity. They had read the list of the deceased from a Department of Public Safety bulletin released over the police teletype machine.

Some relatives here of persons living in Lubbock were able to get information from other relatives living in other cities but it was difficult if not impossible to establish direct

(See Storm Page 2)

Tornado Death List

LUBBOCK, Tex. (AP) — A partial list compiled by the Texas Department of Public Safety of the dead in the Lubbock Monday night:

1. Dora B. Graves, 45.
2. Thomas Andrew Cook, no age.
3. Mrs. Henry Short, no age.
4. Frank Moreno Canales Jr., no age.
5. Jose Aguilar, no age.
6. Salvador Lopez, no age.
7. Jack Lopez, no age.
8. Kenneth Medlin, no age.
9. Mary Jean Medlin, no age.
10. Alan Ray Medlin, no age.
11. Dusty Medlin, no age.
12. Mrs. Ruth Knight, no age.
13. Mrs. Estefana Paez, 65.
14. Oleta Gonzales, 44.
15. S.C. Glenn, no age.
16. John Stephen Cox, no age.
17. Mrs. Butts, no age.
18. Dale McClinlock, 37.

Today In History

By THE ASSOCIATED PRESS

Today is Tuesday, May 12, the 132nd day of 1970. There are 233 days left in the year.

Today's highlight in history:

On this date in 1937, Britain's King George VI succeeded to the throne on the abdication of his brother, Edward VIII.

On this date:

In 1797, the city of Venice was captured by Napolean after many centuries of independence.

In 1820, the English woman who is considered the founder of modern nursing, Florence Nightingale, was born in Florence, Italy.

In 1932, the body of the kidnaped baby son of Col. and Mrs. Charles A. Lindbergh was found in a wooded area in Hopewell, N. J.

In 1938, a Japanese fleet captured the Chinese island of Amoy.

In 1949, Soviet occupation authorities in Berlin announced that the blockade of land routes to the isolated city had been lifted.

In 1963, President John F. Kennedy disclosed that federal troops had been ordered to bases near riot-torn Birmingham, Ala.

Ten years ago— The United States sent a note to Moscow saying the U-2 flights over Soviet territory were for purely defensive purposes and had no aggressive intent.

Five years ago— It was estimated that 12,000 persons had perished in a cyclonic storm in East Pakistan.

One year ago— General Motors announced a halt in the production of its rear-engine car, the Chevrolet Corvair.

THE WEATHER

SNYDER TEMPERATURES: High Monday, 94 degrees; low, 65 degrees; reading at 7 a.m. today, 72 degrees.

Northwest Texas: Widely scattered thunderstorms, possibly a few severe, in east and south this afternoon and tonight and again in southeast Wednesday afternoon. Otherwise partly cloudy tonight and Wednesday. A little cooler in west and north Wednesday. Low tonight 45 in northwest to 74 in southeast. High Wednesday 82 in northwest to 95 in southeast.

North Central Texas: Partly cloudy and warm. A few thunderstorms, mainly in west, tonight, low 65 to 76. Wednesday mostly cloudy and scattered thunderstorms, high 85 to 95.

Northeast Texas: Partly cloudy and warm tonight and Wednesday. High Wednesday 85 to 95. Low tonight 67 to 75.

South Central Texas: Partly cloudy to cloudy and warm with slight chance of showers or thundershowers, mostly in north, through Wednesday. Low tonight in 70s. High Wednesday 82 to 94.

Southeast Texas: Partly cloudy to cloudy and warm with slight chance of showers or thundershowers through Wednesday. Low tonight 65 to 77. High Wednesday 77 to 89.

Southwest Texas: Partly cloudy and warm with slight chance of showers or thundershowers through Wednesday. Low tonight 63 to 75. High Wednesday 95 to 97.

SNYDER AN ALL-AMERICA CITY

TO ATTACK ARAB GUERRILLA BASES

Israel Lunges Into Lebanon

TEL AVIV (AP) — Israeli armor and warplanes lunged into southern Lebanon to attack Arab guerrilla bases today and Syria and Iraq announced they had joined the battle to help the Lebanese.

Jordanian artillery opened up against the Israelis in the Jordan River Valley about 11 hours after the Israelis launched their attack into the Mt. Hermon area of Lebanon.

The Israelis announced their jet fighter-bombers shot down three Syrian MIG17s over the battle zone, the vicinity of Mt. Hermon where the borders of Israel, Syria and Lebanon come together.

But the Israelis denied there was any major move into Lebanon by Syrian forces.

"They are firing a few shells here and there, but nothing worth mentioning," an Israeli military spokesman said.

The Israelis also denied a report that the Lebanese shot down an Israeli F4 Phantom jet. They said no Phantoms were involved in the attack.

The Lebanese claimed the jet was downed over the Rachaya area and its two-man crew parachuted.

Lebanon called for an urgent session of the U.N. Security Council in New York to consider the Israeli incursion, which was launched before dawn.

A Syrian military spokesman in Damascus claimed Syrian planes intercepted Israeli aircraft raiding Lebanese positions.

Israel's ground attack, launched from the occupied Golan Heights, was designed to flush out several thousand Palestinian guerrillas holed up in caves and gullies on rocky Mt. Hermon.

New Panel Is Planned By Chamber

Chamber of Commerce directors this morning heard reports on several projects and announced formation of a new committee.

The new committee will be an industrial panel which will have as its membership representatives of local industrial concerns.

Loren Sullivan, a new member of the board and head of the trade promotion committee, reported that plans were being made for a sidewalk sale to be held May 20. It will be billed as an "Old Wild West Value Day," and all merchants are being encouraged to participate.

It also was reported that information on Snyder has been furnished for the computer of the Texas Industrial Commission, which will make it possible for such information to be made available instantly for industrial prospects. This service is offered without charge by the Texas Industrial Commission.

Manager Mickey Nunley said the local Industrial Foundation has passed up the opportunity to negotiate with two industries recently because the organization has insufficient funds to make a bid for additional industry at this time.

George Patterson, highway committee chairman, reported on the U. S. Highway 180 Association meeting he attendded last weekend at Carlsbad, N. M. He said that Snyder would be included in a new bbrochure the associatfon plans to bring out soon for distribution.

US, S-Viets Start River Operation

SAIGON (AP) — American and South Vietnamese navy boats have begun operations along a 100-mile stretch of the Cambodian coast to cut off the movement of war supplies to the enemy, the U.S. Command announced today.

The command said in a statement, "There is no intention to interfere with third country or Cambodian traffic or fishing in these waters. This is not a blockade. The Cambodian government has been informed."

The U.S. Navy said in another development that the 7th Fleet has beefed up its carrier strike force in the Gulf of Tonkin off the coast of North Vietnam by stationing a third aircraft carrier there for the first time since the bombing halt 18 months ago.

A 7th Fleet spokesman said the move was taken to meet "operational commitments" but would not elaborate.

Vice President Nguyen Cao Ky of South Vietnam, talking to newsmen in the Cambodian town of Neak Luong said earlier that a blockade began Saturday and involved only vessels of the Vietnamese navy.

"The navy, he said, "has received orders to patrol the coast from the South Vietnamese border to Sihanoukville."

He said the blockade was started after "an agreement between the Lon Nol government and ours."

JC Board Plans For Showing

Trustees of the Scurry County Junior College District last night made plans for showing detailed plans for development of Western Texas College and then conferred for over an hour with their financial adviser.

Joe Smith of First Southwest Co., who has been employed to assist the college district with issuing and selling $3¼ million in bonds, discussed several problems with the trustees. Following the conference, the board made plans to meet with the original junior college steering committee for further discussion.

Architects will be here May 18 to show the board detailed plans for the college plant. This will include a slide presentation, along with other pictures, etc. On May 24, the board plans to have a public showing so that citizens of the area to be served will have an opportunity to see what is planned for Western Texas College.

Board President M. L. Broman, Secretary George Patterson and Board Member William H. Wilson reported that the district highway engineer had expressed interest in a proposed road by the college campus connecting the Big Spring Highway (State 350) and the Colorado City Highway (State 208) and that application for approval would be made to the State Highway Commission in Austin.

Vote On Nominee Set For Today

WASHINGTON (AP) — With scarcely a whisper of opposition, Judge Harry A. Blackmun's Supreme Court nomination headed for almost certain Senate approval today on President Nixon's third try to fill a year-old high court vacancy.

Absent in the confirmation vote was the highly charged political atmosphere accompanying rejection of Nixon's first two nominees, Judges Clement F. Haynsworth of Greenville, S.C., and G. Harrold Carswell of Tallahassee, Fla.

Senators who attacked Haynsworth on ethics grounds and Carswell for his racial record and racial views lined up behind Blackmun, a judge on the 8th U.S. Court of Appeals and a long-time friend of Chief Justice Warren E. Burger.

The stage for Blackmun's confirmation was set Monday when the Senate brought it up. What little debate there was went in his favor. Senators spent most of the time talking about Cambodia.

US Troops Begin Leaving Cambodia

WASHINGTON (AP) — Secretary of Defense Melvin R. Laird said today "several thousand U.S. troops have already been withdrawn [illegible] more would come out by the end of the week and major operations against Communist sanctuaries would be completed by June 15.

The secretary told the Senate Armed Sevices Committee that while the operations "have exceeded our expectations" and all U.S. forces will be out of Cambodia by June 30, the Nixon administraion remains opposed to a proposed limit on U.S. forces in Cambodia approved Monday by the Senate Foreign Relations Committee.

Such a limit, Laird said, might interfere with President Nixon's ability to protect American troops.

The secretary also held out the possibility that future drives will be needed into Cambodia but said that the South Vietnamese would be able to handle these.

"The South Vietnamese will be in a position by the time the rain season ends to handle any such operations should they be necessary in the future, Laird said, adding that such renewed efforts would likely not be needed until next November at the earlier.

He said that "The South Vietnamese have performed very well in this entire operation."

Laird said the Nixon administration has "lived up to the limits of Congress" which barred U.S. combat ground forces in Laos and Thailand. But he noted that the proposed restrictions for Cambodia would go beyond those.

President Nixon is now so firmly committed to a June 30 deadline for withdrawal of American forces from Cambodia officials doubt he could prolong the operation even if he found it militarily advisable to do so.

The truth is still preferable

By Abigail Van Buren

(c) 1970 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: Our daughter, a junior honor student in college, came home for Easter vacation and told us she wasn't going back because she was five months pregnant and beginning to "show."

She said the man [a graduate student] agreed to marry her; but wanted a divorce after the baby was born because "marriage didn't fit into his plans." She refused his offer of marriage and has decided to keep the baby. She says she doesn't believe in signing a child away like a piece of property she can't use right now.

Her father and I are behind her all the way. We are not trash. We are educated, and considered "nice" people.

We've decided to tell people that our daughter's "husband" went to Viet Nam and when he returned he had "changed," so she divorced him. Our clergyman advised us to tell that story and to stick with it.

We still haven't worked out the problem of the baby's name. Any suggestions? NO NAME OR TOWN, PLEASE

DEAR NO NAME: With all due respects to your clergyman, I say the less lying the better. "O, what a tangled web we weave when first we practice to deceive."

DEAR ABBY: Re a letter from "IRKED" whose "beef" was a nurse who talked too much about her profession at a dinner party. My "beef" is just the opposite. I, too, am a nurse, and I wish people would let me forget it when I'm off duty.

When I'm in uniform I am constantly cornered by strangers who want to give me their complete medical history, and expect an instant diagnosis and even suggestions for treatment. I can be standing in a cafeteria line, in a grocery store, or waiting for a bus. When I'm out socially, my friends will do the same. I try to cut them short by asking, "Have you spoken to your family doctor about this," but it rarely shuts them up. So you may sign me . . .

IRKED, TOO

DEAR IRKED: Try the standard squelch used by a doctor-friend of mine when he is asked for professional advice at a cocktail party: "I can't discuss it without a physical examination first. Take your clothes off!"

DEAR ABBY: I am a happily married woman with three children. There is something about which my husband and I disagree, and I want your opinion.

I am a fairly good housekeeper and I have a lot to do. Lately I have been getting up about 4:30 in the morning. I can't get back to sleep again once I'm up, so I very quietly get out of bed, close the bedroom door, and find some housework to do. I'm not "sick" or anything. I'm just all slept out and I wake up. I sometimes wash and wax my floors, do some ironing, and mending and other chores I can't do with three children running in and out.

My husband says I am "nuts!" In fact, we've gotten into some real fights over it. I say it doesn't matter what time I do my work, and as long as I can't sleep, what's the difference? I never disturb him. Am I "nuts" or is my husband being unreasonable?

EARLY BIRD

DEAR EARLY: You are not "nuts." Your husband is unreasonable. [And I am not merely taking the woman's side.] If your husband were to get up at that hour and busy himself, if you objected, I'd say YOU were "unreasonable."

CONFIDENTIAL TO "I. M. DOOMED": Please send me your address. Many readers have responded with a treasury of encouragement for you.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

HOSPITAL NOTES

ADMISSIONS: Earl Brown, Arah Rt.; Don Grant, 2300 Ave. Q; Opal Key, 2807 Westridge Dr.; Paul Neal, Roscoe; Wayne Collins, Rt. 1; Lecair Winston, Box 265; Helen Minton, 3009 Fortieth; Harold Walker, 125 Milburn, Nettie Starnes, 2105 Twenty-sixth; John Wilson, 705 Sixteenth; Lula Bell Fowler, 3309 Twenty-third; Dalta Fox, 3105 Thirty-eighth Pl.

DISMISSALS: Robert Blackman, John Burns, Eva Lopez, Carrie Smith, Kip Ripey.

Equalization Board Meeting July 20

County Commissioners yesterday organized the board of tax equalization and set the public meeting for 9 a.m., July 20, in the commissioner's courtroom. Anyone who has a question about his ad valorem taxes may appear at the meeting.

In other action, the commissioners called for bids by [illegible] lander-mowers for use in Precinct 2 and Precinct 4. They also are accepting bids until May 25 for a used Vibra-plus roller with trade-in of a flat wheel roller for use in Precinct 3.

Fire Is Put Out

City Firemen answered a call to the J. W. Massey, Jr. Rental Sales Company west of town on the Lamesa Highway at 12:10 p.m. The call was prompted by a refrigerator fire.

BIRTHS

Rev. and Mrs. Robert McArthur, 2700 Thirty-sixth, are the parents of a 7 lb. 14½ oz. baby girl, born at 2 p.m. May 8.

Mishaps Are Logged In City, County

There were several motor vehicle mishaps in Snyder and the area yesterday, including a couple of collisions involving minor injuries.

Sam Fields, 58, 3709 Muriel, sustained lacerations when the 1955 Model pickup in which he was a passenger was in collision with a 1970 Model Ford butane truck driven by Edmund Richter of Hermleigh. Driver of the pickup, Charlie Sturdivant, 109 Thirty-fourth Street, and the other driver escaped injury. Owner of the Ford is Ward's Butane Company of Hermleigh. Damage to it was negligible, but damage to the pickup was considerable. Fields was taken to Cogdell Memorial Hospital by private vehicle. The mishap occurred at 5 p.m. Monday one half mile north of Hermleigh.

Howard Brown, 35, a driver for El Paso Natural Gas Company, sustained minor head injuries when his 1967 Model Chevrolet pickup was in collision with a 1960 Model Ford operated by Ben Crave Goodman. The collision occurred at 4:50 p.m. Monday three miles west of Snyder at the intersection of FM 1609 and FM 1607. Brown was taken to Cogdell Memorial Hospital by Snyder Ambulance Service. The pickup was a total loss, and there was minor damage to the other vehicle.

City Police investigated three mishaps Monday.

The first one occurred at 12 a.m. on the high school parking lot. Damage to the parked 1967 Model Mercury of Olin Bunch, 3400 Fortieth Street, was set at $20, and, damage to the 1961 Model Chevrolet of Richie Rodgers, Route 1, was negligible.

At 3:35 a.m., the 1961 Model Ford stationwagon of Pedro Torres Jalmos, 19003 Nineteenth Street, was involved in a 1-car mishap, involving minor injuries to Nicolesa Chavis, 23, 1903 Nineteenth Street. She was taken to Cogdell Memorial Hospital by Snyder Ambulance Service. She was a passenger in the stationwagon, which had damages estimated at $100.

The 1969 Model Pontiac of Ima Jo Ellis, 2903 Avenue Z, was involved in a collision with the 1950 Model Ford pickup of Edith Glover Evans, Route 1, at 11:39 a.m. at the intersection of Twenty-sixth Street and Avenue X. Damage to the Pontiac was set at $50, and damage to the pickup was negligible.

Officers also investigated a two-car collision on Avenue T at Twenty-eighth Street at 9:40 a.m. Sunday.

Damage to the 1962 Model Chevrolet of Ola Stavely, 3405 Houston, was placed at $100, and damage to the 1968 Model Rambler of Pearl C. Smith, 1505 Twenty-seventh Street, was estimated at $150. The mishap also resulted in about $200 damage to 30 feet of fence owned by Robert Dupree, 2800 Avenue T, officers said.

Sound Speakers Reported Stolen

Thieves stole three sound speakers from the press box roof at the Little League diamond in Towle Park either last Friday or Saturday, according to City Police, who said the offenders also sprayed paint on the concession stand door. The loss was placed at $200.

UNUSUAL GROWTH — Ronald Foy, industrial arts instructor at Snyder High School, holds this unusual bull nettle, which was dug up in the south part of Ballinger over the weekend. It has a root that is 8-feet in length.

Six Killed In Augusta Racial Riot

AUGUSTA, Ga. (AP) — An outbreak of racial violence triggered by the beating to death of a teen-age Negro jail inmate has left six persons dead, more than 60 injured and widespread property damage in this east Georgia city.

Firemen, escorted by National Guardsmen and state troopers ordered into the city by Gov. Lester Maddox, gradually brought under control more than 50 fires set Monday night by roving bands of Negroes.

Authorities said the situation was calming early today and that sporadic sniper fire was dying out.

As dawn broke a thin pall of smoke from the dying fires hung over the city.

City officials and Negro leaders called a meeting this morning to try to calm the situation further.

Dallas Fire Claims Four

DALLAS, Tex. (AP) — Four persons died in a four-alarm fire that swept down the ahllway of an apartment building near downtown Dallas early today trapping its victims inside their apartments.

Michael Lee Parker, 19, and his17-year-oldwife, Yvonne, were found huddled in a shower where they retreated in an effort to escape the advancing flames. Both were dead on arrival at Parkland Hospital.

Mr. and Mrs. Michael Schrader were found in the apartment across from the Parkers, lying on the living room floor.

Mrs. Schrader was dead on arrival at Parkland. Mr. Schrader was given mouth-to-mouth resuscitation by fireman A. D. Duncan and was rushed to the hospital still alive. But Schrader died at the hospital.

STORM

(Continued from page 1)

telephone contact between relatives here and in Lubbock.

Jim Farr, Scurry County Sheriff's deputy, learned that his son, Larry, and his wife, lost all of their personal possessions and furniture when the tornado ripped the roof from the second floor of their apartment building near the Texas Tech campus. They were under a mattress in their second floor apartment when the roof was twisted from the building, according to information received here.

Mrs. Geraldine Davis, 510 Thirty-third Street, became anxious early this morning when television reporters said the twister had leveled a bank and caused widespread destruction in the Montgomery Ward store near Fifteenth Street and Avenue Q. The bank is located about half a block from where Mrs. Davis' daughter, husband and infant child live. Attempts to establish telephone contact with them were unsuccessful, but a son of Mrs. Davis' who lives in Dallas was able to contact them from there and he reported the family to be safe.

Similar stories were heard from dozens of other local residents who were unable to contact their relatives.

Brody Paroled On Drug Charges

NEW YORK (AP) — Michael J. Brody, the oleomargarine heir who last winter said he would give away his fortune, has been paroled on a charge of possessing marijuana.

Police arrested Brody Monday night on the East Side apartment.

Homefolks To See Top One-Act Play

Snyder High School's State Championship One-Act-Play, "Elizabeth the Queen," will be presented in public performance Wednesday evening at 8:45 in the High School Auditorium. Although school events are traditionally not scheduled on Wednesday due to church activities, the production hour for the play has been set to come after Wednesday night services in most churches.

This will be the last public performance of the play which took top honors in state AAA competition Saturday night at Hogg Auditorium on the University of Texas Campus in Austin. In the audience that evening were a large contingent of Snyder citizens as well as a number of former students of SHS from various universities in the Austin area.

Critic judges of the play have been generous in their praise of the production at each step of its advancement toward the state contest. At the Zone Competition in April, Bill Cook, head of Baylor University's drama department referred to the play, "as far above the typical high school production." In District competition, George Sorenson, head of Hardin Simmons University Theatre, said, "a beautiful, stunning production. . .at one point, I simply wanted to toss my papers in the air and just sit back and enjoy. . ." At the Regional meet in Odessa, Dr. Gaylan Jane Collier, from TCU's School of Drama remarked, "the one thing which makes this a great show is the command with which you play your roles and that each character is equally strong." At the state contest, Dr. Robert Black, of North Texas State University and president of the Texas Educational Theatre Association, was lavish in his praise of the SHS production, calling it "mature, finished and very polished." Upon learning that the local actors had made the costumes (which caused considerable comment at the state contest) locally and from locally purchased materials his comment was, "Fantastic." Again and again throughout his critique of AAA and AAAA plays, Dr. Black used the Snyder play as an example to the other productions of how they might have improved their shows.

Eight awards were given in AAA conference at the State Contest and Snyder players brought home six of them, including: Plaque for best play, Best Actor (Jamie Boren); Best Actress, (Kathie Martin); All Star Cast Girl, Pam Hartsfield; All Star Cast Boy, Gary Terrell; and Samuel French Award Winner for most outstanding performance in the entire conference (AAA), Kathie Martin. Dr. Black singled out Miss Martin for further comment by stating that she was "by far the most accomplished actress at the entire state meet."

In addition, other cast members and awards they have won enroute to the state finals are: Joe Wilson, All Star Cast at Zone and District and Best Actor at Regional. Brad Maule, All Star Cast at Regional. Remaining members of the cast are: Belita McCravey, Gene Kelley, Mark Brock, Mike Dennis, and stage crew members, Greg Carter, Kay Nell Feather and Lou Alice Mathis.

Admission to the play will be $1 for adults and 50 cents for children under 12.

Suspect In Attack Held

Charges of assult with intent to commit murder have been filed against Pete Hoyle alias John D. Rollins, who is suspected of having attacked Keith Ainsworth, 27, 822 E. Fourteenth Street, Odessa, with a knife at 12:40 a.m. Saturday at the Three D Motel, 1207 Twenty-fifth Street.

Ainsworth was taken to Cogdell Memorial Hospital by, Snyder Ambulance Service. Authorities yesterday described his condition as good. He was treated for cuts on the arms and chest.

Hoyle was arrested by City Police Saturday on a warrant signed by City Judge Gene Dulaney. He was remanded to county jail in lieu of $5,000 bond which was set by Justice of the Peace J. P. Billingsley.

Locals See New Small Chevrolet

The management of Les Francis Chevrolet Co. have just returned from Ft. Worth where they received first details on the new Chevrolet small car to be introduced late this summer.

Les Francis expressed enthusiasm for the new car — named Vega 2300.

"The new little Chevrolet is an exciting and positive answer to the demonstrated need for a small, economical, durable, safe, comfortable and well-styled car built in America to American tastes," he said.

Also attending the day long meeting from Les Francis Chevrolet Co. were: Dale Frost, Parts Mgr.; and Claude Walker, Service Mgr.

"Chevrolet invited the full management team of our dealership to the meeting so we can get a fast start on preparations to give maximum sales, service and parts assistance to every customer the day the Vega 2300 goes on sale," Les Francis said.

Francis said the "little car that does everything well" will come in a full line of four different 2-door models, all with front bucket seats as standard equipment.

Offered will be a four-passenger sedan, a four-passenger hatchback coupe with a fastback roof line, a four-passenger station wagon and a one-passenger panel delivery truck.

Decrusting Peels Age Off, Revitalizes Skin

By E.C. SALMON
Hammond (Ind.) Times
Staff Writer

HAMMOND, Ind. (AP) — A baby comes into the world with flawless skin—smooth, poreless and clear.

Many persons spend the better part of their adult lives trying to return their skin to that same matchless perfection. However, poor diet, careless cleansing habits and the very air they breathe make it a formidable task.

One of the newest beauty treatments for revitalizing the skin involves "decrusting" the outer skin layer. Peeling the dead surface skin from the face is a well known beauty procedure in Europe, but only now is it coming into its own in the United States.

June Cain, co-owner of a local health and beauty salon, explains, "Peeling helps the skin to breathe again."

Her partner, Mrs. Jackie Conn, recently gave Mrs. Cain the treatment.

First, 24 hours in advance of the scheduled decrusting, Mrs. Cain was given an allergy test.

The next step was a sauna bath to clean the skin and open the pores. Then a deep pore cleanser in the form of a liquid cream was spread over her face and neck and removed with a clean towel. Following this, the decrusting lotion, a clear crystal liquid, was smoothed over the skin and left there for one hour.

Mrs. Cain, a native of England, took advantage of the decrusting time to chat about American women and their skin problems.

"People in America expose their faces to the sun far too often," she said. She and Mrs. Conn recommend only 5 to 10 minutes a day of facial exposure to the sun's rays.

"Sun is what really ages skin on the face," asserted Mrs. Cain. She pointed out that women in England show the effects of age far later "because the sun rarely shines over there."

The two women suggest asking a doctor's advice before using a face cream with silicones or hormones. "And a moisturizer should be used under makeup or as a night cream," they added.

Diet is also an important factor in maintaining an attractive appearance," continued Mrs. Cain. "Good food is the best medicine for a skin problem."

One of the most serious facial problems is muscle collapse, which can occur anytime in a person's life. "Really and truly, it's sinful to let a thing like that happen and only plastic surgery can correct it," she added. She recommended a simple set of isometric facial exercises "which force you to use muscles in your head that you never realized you had."

Mrs. Conn began applying the "removing cream" to Mrs. Cain's face, rubbing in a circular motion. As the cream penetrated into the pores, bits of dead skin appeared under Mrs. Conn's massaging hands.

Soon Mrs. Cain's face looked like it was peeling from a good case of sunburn. As Mrs. Conn continued to coax the dead skin to the surface, Mrs. Cain commented her face felt "tingly."

The peeling process also works well for dryness of elbows, knees, shoulder and neck.

As Mrs. Conn applied a toning lotion, Mrs. Cain said she felt so clean, "it was ridiculous! I feel 10 years younger—and look it," she added.

"Most people would be amazed at how much dead skin they shed in a year. In some instances it's enough to fill a mattress."

BEAUTY TREATMENT — Impure, dead skin is coaxed to the surface during the decrusting treatment. This helps the skin breathe again.

AFTER-THE-TREATMENT CONCLUSION — Freshly made-up and smiling, Mrs. June Cain, admitted feeling ridiculously clean after undergoing the decrusting treatment.

Women's Calendar

TUESDAY

Martha Ann Woman's Club Silver Tea honoring life members; installation of officers; 4 p.m.

Installation of PTA officers from all Snyder Schools at Lamar Cafeteria at 7:30 p.m.

Toperettes meet at Stanfield cafeteria, 7 p.m.

Atheneum Study Club meets at Martha Ann Woman's Club; Sammie Jarrell hostess; 4 p.m.

THURSDAY

Twilight Garden Club meets at Martha Ann Woman's Club; pilgrimage and installation of officers; 7:30 p.m.

Ira P-TA meets; executive committee at 2:30 p.m.; regular meeting 3:30 p.m. in study hall.

AAUW meets with Mrs. Sterling Parker, 2701 Thirty-fourth Street; speaker will be Folke With, foreign exchange student; 7:30 p.m.

FRIDAY

Cosmorama Study Club meets; hostesses, Charlene Erwin, Mary Ellen Headstream and Finnie Seale; 3:45 p.m.

Grocery Codes Hard To Crack

By ESTELLE JACKSON
Richmond Times-Dispatch

RICHMOND, Va. (AP) — Ever wonder how fresh the food you really buy is? Ever suspect that the food you're eating may have been standing overly long on the grocery shelf?

The answer is probably marked right on your grocery packages.

Most perishable food products found in supermarkets are marked with a date—either the date of packaging or the date the item is to be withdrawn or "pulled" from the store counter or shelf.

The problem is that most of the dates are in code—and most of the codes are secret.

What is the significance of the numbers marked in purple or black on the undersides of boxes and cans?

In an effort to find the answer, I visited stores of several local supermarket chains. I found some help and encountered some resistance. But I did manage to crack quite a few codes.

A carton of potato salad, one of my first targets, was coded in a fairly common, but baffling, manner. The numbers on the underside of the container read 2081. The manager of the store told me to add the first and last numerals together to learn the month—the third month, March. The "08" represented the day of the month, he said.

(Trouble was the date was March 11, an oversight the manager promptly correctly.)

Meat codes I found difficult to decipher because they vary from chain to chain, from store to store within the same chain and even within the same store.

For example, in one store, fresh meats were marked "23". The 2 stood for the man who wrapped the meat and the 3 represented the day of the week—Wednesday—the meat was wrapped.

Finding the codes on a milk carton can be a strain on the eyes, as they are usually embossed colorlessly on the lip of the wax container. Most milk is coded by pull date— "31" would indicate the carton will be withdrawn on the 31st. One brand codes by the bottling date. A letter represents the week and a number indicates the day. "B4" means the fourth day of the second full week of the month, for example.

Codes can contain more than dates. Some codes also contain symbols representing cities, packing plants, vat number and even shift numbers. Processors say this must be done to identify specific batches for checking the validity of consumer complaints, as in cases where food products must be recalled.

Letter codes can really be perplexing. One technique is to employ a six-letter word, like NEWARK, in which no letters are repeated. Using NEWARK, an N could represent Monday, E Tuesday and so forth. Some manufacturers prefer a 10-letter code, using a word combination like NOURISH EAT. When they reach the end of the 10-day cycle with a T, they can simply start all over again with an N.

Easily understood codes, in which the packaging or expiration dates are written in plain English, fall into the category of "opening coding."

And open coding is what various consumer organizations want. It would be mandatory if a bill now before Congress is passed.

Rep. Leonard Farbstein (D—N.Y.) is the author of the bill, an amendment to the Fair Labeling and Packaging Act. The bill, which has 47 sponsors in Congress, includes provisions for open dating by uniformly using the product's "pull" or expiration date.

Preliminary results of surveys made for Farbstein's office by women investigators in the Washington area were disclosed by Ellis Levin, the congressman's legislative assistant.

"Everything sold is not stale, but a significant amount of food is older than the codes say it should be," said Levin. "We're finding this especially in milk, bread and meat. The greatest abuse is in low income areas. However, middle income area housewives are concerned, too, about paying a lot of money for stale food."

Food industry spokesman maintain that open coding would add to the cost of food and contend it is not necessary because the purpose of coding is to help stores rotate products. They say the codes are not the customers' business.

S. Frank Straus, executive vice president of the Virginia Food Dealers Association, says that coding would "create more problems than it solves.

"Housewives would buy things with the newest and freshest dates," he said. "The last merchandise in would be the first out. This would create a vast problem in that much merchandise would have to be destroyed and credited. Imagine what that would do to the price of food."

Proponents of open coding counter industry arguments by saying that open dating would not be an extra cost, since the industry is already coding food. They argue that open dating has existed for years in some European countries.

Young-Tyner Vows Pledged

Miss Jean Margaret Young, daughter of Mr. and Mrs. W. J. Young, 120 E. Broadway, Portland, Tex., and Wallace Edward Tyner, son of Mr. and Mrs. R. D. Tyner of Athens, were married in Cedar Lane Unitarian Church in Bethesda, Md., on May 2 at 3:30 p.m. Mr. Steve Chandler, associate minister of the church officiated.

Miss Young is a 1966 graduate of Texas Tech University where she was a member of Junior Council and Mortan Board. She taught English two years through the eighth and tenth grades in Tahmuang, Thailand, as a Peace Corps Volunteer.

Mr. Tyner, is a graduate of TCU, having served two years in Mysore, India, as a Peace Corps Volunteer. He has recently been selected to head the Math-Science-Education desk of the Peace Corps office of Volunteer Placement in Washington, D. C.

The couple will be at home at 1862 Mintwood Pl. N. W., Apt. 301, Washington, D. C.

Young Homemakers HD Club Meets

Ruby Butts, county home demonstration agent, presented the program on "Food Costs," at a meeting of the Young Homemakers HD Club in the home of Peggy Adcox.

Mrs. Peggy Foster presided at the business meeting and plans for the crafts day were discussed.

Members answering roll call were Barbara Scrivner, Kathy Welsh, Peggy Foster, Wanda Smith, Harriet Kincheloe and Peggy Adcox. Also attending were two guests, Jan Hall and Dian Pate.

Ordination Of Women Favored

LONDON (AP) — The Anglican Consultative Council has been asked for advice on the recent decision of the Hong Kong Diocesan Synod approving the ordination of women to the priesthood in principle. The vote was by 67 to 25 in favor.

Fire Dept. Auxiliary In Session

The Snyder Fire Department Auxiliary made plans at its meeting at the Central Fire Station to form a travelling committee to help auxiliaries in other towns organize.

This action was taken following a report by Frances Autry, Shirley McCright and Jan Martin on a trip they made to Hamlin to help the auxiliary there get started. The local auxiliary voted to donate $10 to the Hamlin auxiliary.

Reports also were made on the district convention held at Throckmorton on April 11.

The group also discussed cleaning and stocking the auxiliary's emergency trailer, and plans for having a garage sale also were discussed. The local auxiliary already is making plans for the state convention to be held in June in San Antonio.

Folke With, foreign exchange student, showed slides of Norway and spoke to the group, after which a question and answer session was held.

Shirley McCright presided, and 14 members attended the meeting. Hostesses were Beth Guynes and Joy Early, in charge of refreshments, and Rosemary Kohl and Cleo Keller, in charge of entertainment.

Canada Attacking Inflation With More Direct Approach

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — Canada, too, is having its problems with inflation, which suggests that the persistence of this malady in the United States Economy may not be solely the result of an improper approach to the problem.

Canada, however, is attacking the problem a bit more directly. Unlike the United States, where the defeat of inflation is expected to be a natural result of an economic slowdown, Canada is considering direct credit controls.

Moreover, the Canadian government already has developed a program of voluntary restraints on prices and wages that has met with some success during the past few months, although the exact amount cannot be measured.

Here is a comparison of results in the battle against inflation:

Consumer Price Increases: In Canada, nearly 5 per cent, in the United States close to 6 per cent.

Unemployment: In Canada, slightly more than 5 per cent on an annual basis. In the United States, 4.8 per cent in April and rising swiftly.

Industrial Output: In Canada, continuing at a slow pace but showing signs of perking up. In the United States, at a standstill or even falling back some.

Budget: Canada's is in surplus, meaning that the government is restricting economic activity. The U.S. budget also calls for a surplus, but many doubts are arising about the feasability of this in either fiscal 1970 or 1971.

Perhaps the biggest difference is in the interpretation of economists. Many economists believe the United States is in the midst of a mild recession, based on declines in production. Canada's economy is still expanding.

The two economies are suffering from such similar problems however, that the approach to the future in one country may have lessons for the other.

In Canada, the government is considering measures that would restrain the economy even more. Higher taxes are an outside possibility for later this year if prices and wages continue to rise.

That possibility becomes less remote when the wage situation is reviewed. New wage contracts have averaged 9 per cent higher this year, threatening to put inflationary pressures beneath prices. Contract negotiations involve twice as many workers this year as last.

The biggest difference between the United States and Canadian approaches is in the attitude toward credit. The government of Prime Minister Trudeau has proposed consumer credit controls and legislation is planned for June.

Junior Editors Quiz on ANTARCTICA

QUESTION: *If Antarctica is a continent, why doesn't it have a capital?*

* * *

ANSWER: We didn't know continents had capitals. But we invented a mythical roving Junior Editors reporter and sent him down to the Antarctic to find out about it (see picture). He tells us the Antarctic covers a huge area in the Southernmost part of the earth, including the South Pole (see map). Since the sun's rays are slanted when reaching this place, it is cold, cold, cold. Terrific winds drive the snow like sand across a desert. And a kind of icy, snowy desert it is. Animals like penguins and whales live around the edges of this desert, but in the interior nothing but a few microscopic forms of life can live — except for the teams of explorers and scientists sent there from various nations. Antarctic is not a floating slab of sea ice such as is the area around the North Pole, but is actual land supporting a huge icecap rearing up in places into towering mountains covered with snow. For a country or nation to have a capital, says our reporter, you would expect some activity, people working, schools, newspapers, movie theaters. All he found was snow, ice, rock — not even a single supermarket.

5-12

(Marion Rucker of Norwich, Conn., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

NY Shown As Multi-Colored City

NEW YORK (AP) — The latest photographic skills and techniques have been used to display more than 70 "special effects" photographs of New York City at the opening show of the Kodak Gallery and Information Center in midtown Manhattan.

New York is shown in many shades and colors, from many viewpoints and locations—from 12,000 feet in the air to subways below the ground, from Wall Street at sunrise to skyline at sunset, from the George Washington Bridge in red to the Verrazzano Bridge in green, and even an amazin' picture of the final game of the Amazin' Mets World Series victory last fall.

New Actor's Group Formed

HOLLYWOOD (AP) — Ricardo Montalban says he and others are tired of seeing non-Latins in brown makeup and with phony accents playing Latin-type roles on screen and television.

The veteran actor, born in Mexico City, said Thursday at a board meeting of Nosotros, the Spanish word for "we", "We're tired of Anglos playing us."

Nosotros is a newly formed group pledged to fight for advancement of Latin Americans working as actors.

Makeshift Mint Found In Jail

BLOEMFONTEIN, South Africa (AP) — Police worked diligently for four months to put a gang of coin counterfeiters behind bars only to discover the culprits already were in the local jail. Prisoners had organized a makeshift mint with primitive equipment to make 50-cent coins.

Hunter Proud Of Financial Record

By HAL BOYLE

NEW YORK (AP) — "People really loathe success," said producer Ross Hunter. "The hardest thing for a successful person to understand is why other people immediately start knocking—simply because he is a success.

"Yet ironically, in this period of instant everything, everyone wants to be an instant success. Nobody wants to be a starlet. They all want to be a star."

Hunter, still boyish-looking in his late 40's and one of Hollywood's most eligible bachelors, has had both kinds of success in his roller coaster career—easy and hard-won.

An ex-English teacher who in his youth became a $1,000-a-week teen-age idol as an actor, Ross was sidelined a year by an attack of penicillin poisoning. He started again as a $60 studio underling and worked his way to the top as a producer.

Among his big hits have been "Magnificent Obession," "Imitation of Life," "Pillow Talk," "Madame X," and "Thoroughly Modern Millie." His most recent venture, "Airport," based on the best-selling novel, has received pot shots from critics but is doing well at the box office.

Hunter, now embarked on $75-million production schedule for Universal studios, is proud of his financial record.

"Of the 45 films I have made," he remarked, "none has lost money with the possible exception of two. But I believe television sales enabled them to recover their investment."

One of his biggest bonanzas, "Thoroughly Modern Millie," starring Julie Andrews and Carol Channing, cost about $5 million and so far has brought in $52 million.

Like his own hero, the late Irving Thalberg, Ross believes the chief function of the film industry is to provide people with entertainment and an escape from the humdrum problems of life.

"The screens are being flooded by sexploitation films," he said. "That is why the audiences of yesterday are staying at home now watching old movies on television.

"It is not the sex movie, the movie that drags nudity in by the heels, that attracts a mass family audience.

"People want to be moved emotionally. The only excitement of sex is mystery. Sex made too explicit becomes sexless.

"Most people don't care to see movies that make them feel like Peeping Toms.

"The most glorious producer of sex was David Selznick, and he got his effects through close-ups of faces and the eyes. He rarely got below the neck."

Snoring Continues Despite Devices

TALLAHASSEE, Fla. (AP) — Dr. Marcus H. Boulware of Florida State University spent more than 1,000 hours on research for a book "The Riddle of Snoring." His conclusion: about one person in eight snores, and not much can be done about it.

Boulware said 186 antisnoring devices have been registered with the U.S. Patent Office. They include a chin strap to prevent mouth breathing and ball sewn into a nightshirt to keep the subject from sleeping on his back.

But snoring still goes on. Boulware said more men tend to snore than women.

He snores himself. That's what got him interested in writing a book about it.

NANCY

STOCK DEAL — National Basketball Association Commissioner Walter Kennedy, seated, signs the NBA expansion draft designed to stock new Buffalo, Cleveland and Portland teams with players from the NBA's existing 14 teams. Shown with Kennedy are, from left to right, Harry Glickman, vice president of the Portland Trail Blazers; Carl Scheer, president of the Buffalo Braves, and Nick Mileti, president of the Cleveland Cavaliers. Signing took place at the NBA headquarters in New York City Monday. (AP Wirephoto)

Leon Turns It On For Tribe

ABILENE — You get the idea Leon Riggins was only pacing himself in preparation for the Lone Star Conference Track and Field Championships in Alpine.

Riggins, the former Snyder track whiz who runs for the McMurry College Indians, broke loose at the 35th running of the LSC meet Saturday. He ran third in the 100 in a fine time of 9.5, and then ran a tremendous 47.1 anchor leg on the second place mile relay.

The mile relay, figuring not to place, with an injury to Rule junior Larry Lefevre leaving it without its best quarter-miler, surprised the field with a 3:13.7 for second.

It was the second fastest time ever recorded by an Indian relay team. The school record is 3:13.2.

And the Indians, with only an eight-man team, finished fifth in the 10-man field. In fact, only McMurry and second place Southwest Texas could lay claim to three first places.

Rapid Robert Bradley of Munday won the 100 in 9.4 and the 220 in 21.3. Space-ape Rickey Parris went a record 16-6¼ in the pole vault.

Riggins and his Indian teammates head for Billings, Montana, June 5&6 for the NAIA Outdoor Championships.

Athletes at the United States Air Force Academy competed in 152 events in 10 varsity sports last winter.

McGinn, Montreal Mash Mets, 3-0, On 3-Hitter

By TOM SALADINO
Associated Press Sports Writer

Dan McGinn was Montreal Manager Gene Mauch's idea of a surprise but the Expos' reliever, making his annual start, astonished the New York Mets and turned out to be quite a stopper, too.

The hard-throwing southpaw, making his 100th major league appearance, but only his second start—he started once last year—tossed a brilliant three-hitter in blanking the Mets 3-0 Monday night.

In the process the 26-year-old ex-Notre Dame footballer snapped Cy Young Award winner Tom Seaver's regular-season winning streak at 16 and temporarily put the skids to the Expos' slide in which Montreal has won only three of its last nine games.

In other National League action, Atlanta nipped Chicago 7-6 in 10 innings, Pittsburgh whipped Cincinnati 4-1, St. Louis zipped Philadelphia 3-0 and in 14 innings San Francisco downed San Diego 6-5.

In the American League, Chicago bombed Detroit 9-5, New York and Milwaukee played to a 5-5 rain-curtailed tie and California edged Boston 2-1 in 16 innings.

McGinn, a 6-foot, 190-pounder, who appeared in 74 games last year with the Expos and had a 7-10 mark, made his 12th appearance this year and upped his record to 2-1 with his first major league complete game.

"All I heard all day was 'You're going against Seaver.' I guess I was psyched up. Pitching against a guy like that can do it," McGinn said.

"I think he was about due to lose. No matter how great you are it has to happen," McGinn added.

Mauch switched to McGinn instead of scheduled starter Carl Morton, explaining that his unbeaten right-hander had pitched three tough games in a row, the last only three days ago and the extra day's rest would help.

"I've been wasting Dan in the bullpen," Mauch said. "The way we've been going we haven't been in too many games and McGinn couldn't help us out there. Dan was great. He had great stuff and was in command all the way through the nine innings."

Seaver, the 25-year-old right-hander who hadn't lost a regular season game since last August, said:

"You're never overjoyed to lose but I haven't lost in a long time but you don't forget how it feels."

McGinn got all the support he needed when Jim Fairey cracked a solo homer in the second inning. John Bateman added a run-scoring double and Marv Staehle an RBI single as the Expos clipped Seaver for eight hits. Seaver, however, struck out 12, increasing his major league strikeout lead to 72 as the Mets dropped their fourth game in five starts.

Atlanta topped the Cubs on Hank Aaron's 10th-inning homer, helping the Braves to their 12th triumph in 13 games. It was Aaron's fifth homer in six games and his 14th of the season. The winning homer left Aaron five hits shy of the 3,000 milestone.

Rico Carty, the Braves' left fielder, extended his hitting string to 29 straight games with a run-scoring single in the seventh before Johnny Callison tied it for the Cubs at 6-6 with a two-run homer in the bottom half. The Cubs, still atop the NL East with a 2½ game edge, dropped their eighth game in 10 starts.

Left-hander Bob Veale scattered three hits and retired 19 consecutive Reds in one stretch, striking out nine, as the Pirates' Bill Mazeroski doubled home the decisive run in the fifth inning. Willie Stargell had a solo homer and Rich Hebner added three hits for Pittsburgh.

The Cards got a three-run homer from Richie Allen in the ninth inning, backing the four-hit pitching of Steve Carlton and breaking up a pitching duel with the Phils' Jim Bunning.

Allen slammed his 10th blast of the season following a leadoff double by Leron Lee and an intentional walk to Lou Brock. Carlton struck out 10 and Bunning stopped the Cards without a hit for the first five innings.

First baseman Ned Colbert booted pinch hitter Bob Burda's bases-loaded bouncer in the 14th inning, enabled Giants' starter Gaylord Perry, who went 13 innings, to even his record at 4-4. Gary Ross, 1-3, San Diego's fifth pitcher, took the loss.

Dick Dietz had cracked a run-scoring single and Hal Lanier followed with a two-run hit, putting the Giants in front 5-2 in the tenth but the Padres came right back in the bottom half to tie it off Perry, who allowed 10 hits and struck out 12.

Dietz slammed a two-run homer in the fourth while Ollie Brown had a solo shot for San Diego in the ninth.

Moment Of Truth For SHS Tigers

It was the moment of truth for Snyder's Tigers today as they faced Brownfield at 4 o'clock this afternoon in Towle Park with a chance to sack up all of the marbles in the District 3-AAA baseball race.

The Cubs are defending champions and they defeated the Tigers three tilts straight last season to close the throne room door on the Bengals.

Coach Speedy Moffett named Merce Hernandez, senior right hander, to handle the mound assignment.

A Snyder victory over Dunbar last Saturday combined with a Levelland upset of Estacado assured the Bengals of a share of the crown. Another victory would give the Tigers undisputed claim to the throne. The regular season's final tilt is on tap at 1 p.m. Saturday, also in Towle Park, with Estacado providing the opposition.

Junior Golf Tourney Begins

Tee off was on tap today at 4 p.m. in the first round of the 10th annual Junior Golf Tournament at Snyder Country Club. There was to be nine holes of play each day for the next three days.

There are three divisions of the tournament — 7th grade, 8th grade and 9th grade. Record holders in each of the divisions are:

7th grade — Mark Hargrove, 125, 1968.

8th grade — Mitch Rambin, 117, 1965.

9th grade — Mitch Rambin, 112, 1966.

Buffs Grab LA Rookie

By BEN THOMAS
Associated Press Sports Writer

NEW YORK (AP) — The trading began in the National Basketball Association almost before the league's fourth expansion draft in five years had ended.

More deals were in the offing today as the New York Knicks, newly crowned NBA champions, still wondered how they escaped Monday's selections by Buffalo, Portland and Cleveland without losing the key players.

The runnerup Los Angeles Lakers weren't so fortunate, however. The Lakers unexpectedly left rookie guard Dick Garrett, a starter, unprotected. Buffalo quickly grabbed him.

"I was really surprised to see him available," said Eddie Donovan, Buffalo's general manager. "He's a young player and I thought he had done well for the season and in the playoffs."

Buffalo also selected veteran Bailey Howell from the Boston Celtics. Howell was then dealt to Philadelphia for forward Bob Kauffman and a future draft choice or a player to be named later.

Another Boston veteran, Larry Siegfried, was one of the Portland's top picks and the Trail Blazers promptly traded him to San Diego for guard Jim Barnett.

The NBA conducted the draft in secret in the offices of Commissioner Walter Kennedy. The league refused to disclose the order of the selections but the first two choices of each expansion club were released and the remaining 27 picks later were made public in three groups of nine.

Buffalo, which had the first selection, apparently picked Garrett, followed by Ray Scott of Baltimore.

Portland, which selected second throughout while Buffalo and Cleveland rotated, chose Siegfried and LeRoy Ellis of Baltimore.

Cleveland's picks were Luther Rackley of Cincinnati and Walt Wesley of Chicago.

The Knicks, Lakers, Boston, Chicago and San Diego each lost three players, the other established clubs two apiece.

Buffalo appears to have the makings of a fine backcourt. In addition to Garrett, the Braves have Mike Davis, another rookie obtained earlier in a trade from Baltimore, along with Herm Gilliam, Fred Crawford and Em Bryant.

Solid Lineup For Preakness

BALTIMORE (AP) — The lineup for the 95th Preakness on Saturday now appears solid with 13 starters representing 12 betting interests.

Such a field would boost the gross figure to $201,800 with the winner getting $149,300. Both figures represent record payoffs.

James P. Mills' Buzkashi joined the lineup Monday and is expected to arrive at Pimlico Race Course here later this week.

Dust Commander and My Dad George, one-two in the Kentucky Derby, turned in sharp workouts Monday in preparation for Saturday's running of the second leg of the triple crown.

My Dad George went three-quarters of a mile in 1:12 3-5 with exercise boy Don McFarren, who reported the colt "really wanted to run."

Dust Commander got his first workout since arriving from Churchill Downs Saturday. Mike Billingham took the Derby upsetter through five furlongs in 1:02 4-5. Trainer Don Combs said he was pleased.

The lineup includes: Dust Commander, My Dad George, Silent Screen, Native Royalty, Plenty Old, Naskra, Admiral's Shield, Oh Fudge, Robin's Bug, Stop Time, Buzkashi, Personality and High Echelon.

The highest point in Rhode Island is Jerimoth Hill, at 812 feet.

Sun Kings Rise Again In West

By THE ASSOCIATED PRESS

The El Paso Sun Kings won their third straight from Albuquerque Monday night to move back into sole possession of first place in the Texas League's Western Division.

The Sun Kings scored four runs in the seventh and eighth innings to break a 2-2 deadlock for a 6-2 victory.

Starting Dodger pitcher Larry McDowell held the Sun Kings in check through five innings but had to leave with arm trouble in the reliever Jim Raynor took the loss.

Joe Henderson limited Albuquerque to seven hits to get his second victory.

In other games Monday night, Dallas-Fort Worth continued its mastery over Amarillo with an 8-2 victory; Memphis capitalized on Shreveport miscues for a 7-3 victory; and Arkansas scored three times in the ninth to defeat San Antonio 5-4.

Dallas-Fort Worth exploded for seven runs in the second inning and used an 11-hit attack to bury the Giants. The Spurs' big inning included six hits, three walks, and an error.

Greg Arnold was plagued by seven walks, but went the distance to get the pitching victory. Scott McDonald led Spur hitters with three safeties, including a double.

Eastern Division leader Memphis took advantage of Aubrey Gatewood's tricky knuckleball for five runs in the first two innings off the Braves.

Shreveport catcher Faustino Zabala's three passed balls and two wild pitches by Gatewood helped the Blues score three runs in the first and two more in the second.

A home run and triple by shortstop Leo Foster and a home run by Earl Williams accounted for Shreveport's runs.

Frank Vanzin capped Arkansas' three run rally in the ninth with a run-scoring bases-loaded single. The winning blow came after pitcher George Winslow had singled home one run and a wild pitch brought in the tying run in the decisive ninth frame.

Winslow, who allowed two hits in 3 2-3 innings of relief, got the victory. Gary Encerti was the loswer.

Ralph Rickey hit a three-run home run for Shreveport in the sixth for a 4-2 Brave advantage.

YANKS, BREWERS IN 5 TO 5 STANDOFF

By DICK COUCH
Associated Press Sports Writer

The cracks in Detroit's pitching and the crevices in Milwaukee's infield have thrown Mayo Smith for a loss and left Dave Bristol fit to be tied.

Chicago's normally meek White Sox, who had scored a total of eight runs while losing their previous four starts, muscled up against five Detroit pitchers Monday night and pounded the Tigers 9-5.

At Milwaukee, meanwhile, ninth inning fielding lapses and a rainstorm combined to interrupt the Brewers' five-game winning streak as the New York Yankees came from behind to earn a 5-5 standoff.

In the only other game on the American League schedule, California nipped Boston 2-1 in 16 innings despite a record-tying strikeout string by Red Sox' starter Ray Culp.

In National League play, Atlanta shaded the Chicago Cubs 7-6 in 10 innings; Montreal stunned the New York Mets 3-0; Pittsburgh downed Cincinnati 4-1; St. Louis beat Philadelphia 3-0 and San Francisco squeezed past San Diego 6-5 in 14 innings.

The White Sox peppered Joe Niekro and four Detroit relievers for 14 hits, including homers by Ed Herrmann and Luis Aparicio, in their biggest offensive binge of the season.

Smith's Tigers have lost five of their last seven starts while being tattoed for 50 runs.

"We're working on a lot of things," said the perplexed Detroit manager. "We'll have to weather it through."

Herrmann stroked three hits, good for three RBI; Syd O'Brien knocked in three runs and Tom McCraw also contributed three hits to the Chicago assault.

The Brewers blew a 5-2 lead in the ninth, with second baseman John Kennedy and third baseman Tommy Harper committing costly errors, before the game was halted by the rain. It will be replayed in full as part of a July 31 doubleheader.

"We made a lot of mistakes," said Brewers' pilot Bristol. "You can't give a team a fourth, fifth and sixth out in an inning and win.

"But any day that you're alive and healthy isn't wasted."

Pitcher Bob Bolin's home run helped the Brewers build their commanding lead against Mel Stottlemyre, but Kennedy's throwing error and Harper's boot handed the Yanks three unearned runs in the ninth.

The Angels snapped a 1-1 tie in the 16th when Jarvis Tatum doubled, took third on a fly out and scored on Sandy Alomar's fourth hit—a blooper over the drawn-in Boston infield.

Culp struck out the first six California batters he faced, tying the modern major league mark set by Detroit's John Hiller two years ago. The all-time record of nine straight strikeouts azinge start of a game was established in 1884 by the New York Giants' Michael Welch.

The Red Sox led 1-0 and Culp was working on a three-hitter in the eighth, when Tom Egan's single, a sacrifice and infield hits by Alomar and pinch hitter Billy Cowan knotted it.

Dave Laroche, making his first major league appearance, pitched to one batter in the top of the 16th and was credited with the victory.

Girl Jumps Into Detroit Dugout

DETROIT (AP) — A teenage girl jumped into the Detroit Tiger dugout at Monday night's game and was promptly escorted away by an usher.

Maybe that usher shouldn't have been so efficient. Tiger manager Mayo Smith pondered the incident later and said with a laugh: "Damn it. She might have had a pitching job. I'd have sent her in there."

She couldn't have done much worse than Detroit's pitching staff, which continued to falter as the Tigers were crushed by Chicago 9-5 for their eighth loss in the last 11 games.

Refiners To Discuss Oil Spills And Car Pollution

By MAX B. SKELTON
AP Oil Writer

HOUSTON, Tex. (AP) — Oil spills and automobile pollution will be major topics for discussion this week at a meeting of the nation's petroleum refiners, both large and small.

Technical papers ranging from modern catalytic cracking unit design technology to thermodynamic research dominate the agenda of the 35th midyear meeting of the division of refining of the American Petroleum Institute.

A Thursday session on air and water conservation, however, will highlight the problems most oil executives and refiners are giving top priority these days.

Oil spill headaches already have led to tougher federal legislation and regulations and to federal grand jury investigations.

In the area of automobile pollution, the use of lead to improve the anti-knock performance of internal combustion engines is being debated sharply at both industry and governmental levels.

The Department of Health, Education and Welfare now is studying replies submitted by major and independent refiners after a March 20 request by Secy. Robert H. Finch for comments on the problems and timing of removing lead from motor fuel and on the number and types of fuel to be marketed.

Finch's letter to the refiners endorsed federal action to establish and enforce limitations on exhaust emissions.

Most refiners have said they can eliminate lead when necessary but at heavy expense that in the end will have to be shared by consumers. Estimates of the costs for the refining and marketing changes have ranged from $2 to $8 billion.

Several major refiners have expressed opposition to federal action but have said consumers can best be protected by solutions derived from federal leadership in a joint effort by the automotive and petroleum industries.

The Thursday air and water conservation discussions comprise one of 15 sessions to be held from Wednesday through Friday on subjects ranging from industrial noise to hydroprocessing. Preliminary committee sessions get under way Monday.

Thursday presentations will be made on the ability of biological systems to assimilate oils, oil spill cleanup, the impact of gasoline volatility and olefin reduction on the refiner, and exhaust hydrocarbon composition and its relationship to gasoline.

Representatives of Hydroscience Inc. of Westwood, N.J., will discuss a study on problems involved in the discharge of oily substances into domestic sewage treatment works, a problem that has prompted most municipalities to enact strict control ordinances.

Ernest Cotton of Gulf Oil Corp. in Pittsburgh, Pa., will discuss new federal regulations involving oil spill responsibility and the industry's response in meeting its obligations. He also will discuss research and development programs under way to develop equipment and procedures for more effectively dealing with spills.

The costs involved in refinery adjustments aimed at air pollution benefits through gasoline modification will be discussed by W. J. McLeod of the Standard Oil Co. of California at San Francisco.

K. T. Dishart of the E. I. Du Pont de Nemours & Co. at Wilmington, De., will discuss the influence of changes in hydrocarbon composition of leaded gasoline on individual hydrocarbons found in the exhaust of vehicles equipped with various types of emission control systems.

A crow who perched on a live high tension wire near Junagadh, India, was electrocuted and fell into a haystack. The resulting fire destroyed property valued at $666.

SPECIAL WIRING OFFER NOW AT ELECTRIC RANGE DEALERS

LIVE BETTER ELECTRICALLY

INSTALL OFFER SEEN LOCALLY

Electric appliance dealers here participating in an electric range sales campaign are making a special wiring installation offer during April and May to purchasers of electric ranges.

The offer is for purchasers of free-standing electric ranges to be installed in homes served by Texas Electric Service Company.

In order to qualify for the offer, the electric range selected must have at least three surface units and one oven in a single cabinet, and must rest on the floor or on an accessory base and not be considered as a built-in model.

One of the most popular features of electric ranges to the ladies who like to keep their kitchens spic-and-span is the self-cleaning oven. Greasy film and spill-overs disappear like magic from the entire inside of the oven when set for self-cleaning.

Modern electric ranges offer many features to benefit the homemaker and make her life easier. Accurate pushbutton or dial temperature controls and precise even-heat surface elements eliminate pot watching complete meals can be cooked in electric ovens automatically without the homemaker being present.

Self Cleaning Oven Is One Feature Electricity Offers

Many families still cling to the tradition of having a big meal at noon on Sunday, often bringing others home from church with them.

If you are one of these, you cann appreciate some of today's automatic features of a modern electric range.

What could possibly make a homemaker happier on Sunday than to come home from church and have her dinner all cooked and ready for the family and friends to sit down together to eat?

This can be done with many electric ranges. She can put the food in the oven ahead of time, set the automatic timer and the proper heat temperatures and forget it.

Hours later, when the hungry ones come storming into the house ready to eat, all she has to do is take the food out of the oven and put it on the table. No waiting around these days. With the many automatic features offered on today's modern electric ranges, time ceases to be a problem.

And food prepared in ane electric oven keeps its flavor and comes out "just right." Make Sunday dinner a pleasure by preparing it the modern convenient way — on an electric range.

Food Comes Out Fine Every Time Electrically

Women who enjoy cooking find their food comes out perfectly every time when they cook the flameless electric way.

And even those who once hated to cook no longer worry about "slaving over a hot stove" as they enjoy preparing new recipes for their families on a modern electric range.

Take a look at the advantages of a flameless electric range and see how flameless cooking really makes sense.

1. A modern electric range with a self-cleaning oven is one of the happiest helpers a homemaker can have. Just set a dial and oven grime disappears like magic.

2. There's no guessing when you switch on electric heat. You choose an exact, measured amount of heat every time you push a button or set a dial.

3. Because pots and pans come in direct contact with heating coils, electric cooking is fast with maximum efficiency and no wasted heat.

4. Flameless electric ranges cook with less heat, resulting in a cooler kitchen. Almost all of the heat is transferred into the food. And only electric ovens are insulated on all six sides to retain the heat inside the oven where it is wanted, needed and used.

5. Electric cooking is clean cooking with no flame to soil the bottoms of your pans or leave a film on your kitchen walls.

Electric Range Is Good At Noon Sunday Anytime

According to a recent study, three out of four homemakers plan to buy a self-cleaning oven; the majority within the next three years.

Of the women interviewed, 82 per cent expressed a definite preference for electricity as the power source for their new self-cleaning oven.

The overwhelming presence probably arises from the fact that clean, flameless electricity made possible the first self-cleaning ovens and that only electric self-cleaners have been consumer tested in thousands of homes all over America for six years, according to the Live Better Electrically Program.

This six years of cleaning ovens the flameless electric way has saved American homemakers from uncounted hours of unrewarding, messy labor, not to mention the aching backs, snagged stockings, broken finger nails and frayed tempers encountered in the medieval way of cleaning ovens.

An electric self-cleaner is a cinch to use. Just turn on the special cleaning cycle and then get on your way to more pleasant and rewarding pastimes.

Flameless electricity will make baked-on grease and food spills vanish almost magically, leaving in their place about as much ash as one flick from a cigarette. And one wipe with a damp cloth can dispose of that.

Make Happy Cooking Scene With TESCO

"Make the Happy Cooking Scene" is the theme of an electric range sales campaign in which electric appliance dealers here are participating during April and May.

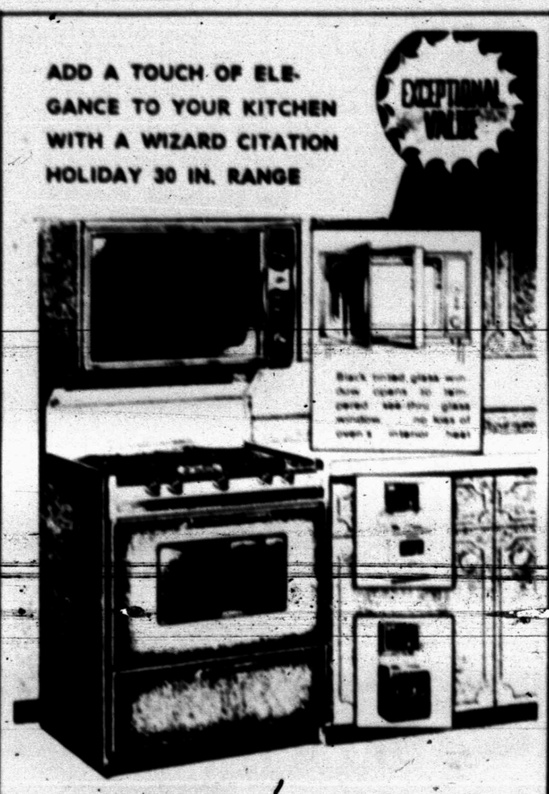

A special wiring installation offer will be made to purchasers of free-standing electric ranges to be installed in homes served by Texas Electric Service Company.

To qualify for the offer, the electric range selected must have at least three surface units and one oven in a single cabinet. It must rest on the floor or on an accessory base and not be considered as a built-in model.

Local appliance dealers have a wide selection of the newest modern electric ranges on display right now. They're packed with up-to-date features that will give you the full range of cooking pleasure, keep you and your kitchen clean and cool, and make meal planning easier than ever.

TAX ANSWERS

This column of questions and answers on federal tax matters is provided by the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

• • •

Q — I didn't claim any exemptions for myself last year and I still came up short when I filed my return. Is there any way I can have more taken out of my pay?

A — Yes, you may ask your employer to withhold additional amounts from your paycheck. You should get a new withholding certificate, Form W-4, from your employer, fill it in and file it with him.

Q — I have a refund coming and I just remembered a deduction I forgot to take. Should I put in for it now or wait until my refund comes?

A — You can make an adjustment in your 1969 return now, even though the refund on your original return has not arrived. To make this change, complete a Form 1040X and send it to your IRS service center. This form and instructions are available at local IRS offices.

You will notice that Form 1040X only calls for information relating to that part of your original return you wish to change. It is not necessary to provide all the information required on the Form 1040 you filed.

Q — Do you have any information about audits? My neighbor was just called in and I'd like to be ready if I have to go in too.

A — Yes. Publication 556, Appeal Rights and Claims for Refund, should be helpful. Send a post card to your District Director to obtain a free copy.

Q — When we cleaned house this Spring, we found a lot of things we didn't want and gave them to a local charitable group. Can we deduct anything for these items?

A — Yes, a charitable deduction is allowed in the situation you describe. You should keep a statement or other record that shows the date of the gift, its fair market value, description of the porperty and the name of the organization that received the item. This information will also be helpful should your return be examined.

Q — If you go overseas to work, do you still have to pay U. S. tax on your income?

A — If you take a job with the U. S. government, your income will be fully taxable. Income from a private concern overseas, however, may be tax free in whole or in part.

For a free copy of Publication 54, Tax Guide for U. S. Citizens Abroad, send a post card to your District Director.

Yarborough Reports On Campaign

AUSTIN (AP) — Sen. Ralph Yarborough claims he spent $270,681 in his unsuccessful bid for re-election, far less than the campaign costs of his opponent, Houston millionaire Lloyd Bentsen Jr.

Bentsen upset Yarborough in the May 2 Democratic primary by almost 91,000 votes.

Yarborough's final expense report filed with the secretary of state's office Monday, showed he spent $152,215 from the time of his first report April 22 of $118,466.

Bentsen's initial expense claim reported expenditures of $488,099, and his final report is virtually certain to raise that figure considerably.

Yarborough's combined expense reports showed he received gifts totaling $147,656 and borrowed $50,000 each from B. Rapoport of Waco and the League City State Bank. He said he has debts of $140,344, including the loans.

Bentsen's final expense report had not been filed late Monday. It must be postmarked by no later than midnight Tuesday.

No other major candidates filed their expense reports Monday except Paul Eggers, Republican candidate for governor, who claimed he had not spent any more money after reporting April 24 that he had expenses of $58,681.

Some of the new major contributors to Yarborough's race included the Swisher County Yarborough campaign in Tulia $2,700, and $1,000 each from G. Shepard of Hale Center, Mrs. G. Hawes of Wharton, W. Heath of Austin, B. Morrison of Dallas, the Action Committee for Rural Electrification in Washington and the Brotherhood of Painters, Decorators and Paperhangers American Political Action Fund of Lafayette, Ind.

White House Appeals To Clergymen

WASHINGTON (AP) — Some clergymen have been contacted by the White House and urged to convey a sense of restraint and reflection in the wake of President Nixon's decision to send troops into Cambodia.

White House officials would not say how many telephone calls were placed Saturday or to whom.

"We didn't ask them to get up in the pulpit and say anything. But we do think it's a good idea to sit back and reflect. He (Nixon) believes it requires calmness from leaders and that a sense of calmness can be conveyed in religious services," one White House official said.

Rev. C. J. Kinsolving, the Episcopal bishop for the Southwest, said he was asked to lead a discussion of the Cambodia situation Sunday with his church members. He sailziore-fused.

A White House spokesman, however, said, "If this gentleman said he was asked to talk about Cambodia, I think he misinterpreted."

The girls were having refreshments during a break in rehearsals for the Miss USA Beauty Pageant at Miami Beach, Fla., this week. (AP Wirephoto)

School Financing Plan Suit Filed

SAN ANTONIO (AP) — A defense motion for dismissal was taken under advisement Monday in a suit challenging the constitutionality of the Texas system of financing public schools.

The suit, filed in federal court, claims pupils in poor school districts receive an inferior education.

The defense argued in a hearing before U. S. Dist. Judge Jack Roberts that the plaintiffs had offered no alternative to the present financing plan.

If the system were declared invalid, Asst. Atty. General Pat Bailey argued, "chaos" would reign in Texas schools. "It is a problem for the legislature," he said.

He also said the plaintiffs should be suing local school districts rather than the state. Named as defendants are Gov. Preston Smith, Texas Education Commissionehzgbw. edgar and theStasi,?A—+LOF Education.

The suit was filed by a -infb3c inEdgewoodSchoolDistricteinb3h in Del Rio. Both districts are predominantly Mexican - American.

Alan Exelrod of the Mexican-American Legal Defense Fund argued that the current plan of distributing money denies children in poor districts an equal education.

For example, he said, districts are reimbursed for the number of teachers hired. He said teachers become "units" and a district's number of "teacher units" is determined by average daily attendance.

He also said state money is distributed on the basis of teachers' salaries. The scale is determined by the degrees and teachers have, he said.

Thissystem,Exelrodargcsviun that have a small income from local taxes. He als said poor districts cannot afford to hire teachers with a large number of degrees.

Inger Stevens Estate Unsettled

LOS ANGELES (AP) — The $162,500 estate of Inger Stevens will remain unsettled pending a Superior Court decision on the claim of a Negro businessman that he married the blonde actress nine years ago.

Miss Stevens, 36, died April 30 after being found unconscious in her Hollywood Hills home. The coroner blamed an overdose of barbiturates.

Isaac L. Jones, 40, asked court Monday to appoint him administrator of the estate, saying he married Miss Stevens in Tijuana, Mexico, in 1961. County Public Administrator Baldo Kristovich opposed the claim, saying there was no evidence of the marriage.

Jones' lawyer, Leo Branton Jr., said Miss Stevens and 0 a$p all except a few close friends and associates to protect the actress' career.

Spiro Agnew Blames TV For Protests

WASHINGTON (AP) — Vice President Spiro T. Agnew has blamed the television industry for youth's fascination with demonstrations and confrontations.

Today's young people "enjoy confrontation because they were brought up on television instead of books," Agnew wrote in the May 16 issue of TV Guide.

"They see action, violence, confrontation on television and they are naturally more conditioned to action than logic," he wrote.

He also raised the question of how many illegal demonstrations are prompted by the presence of a television camera.

"The television industry's obligation extends to the far greater boundaries of responsibility, even if it proves dull—a weighing of the facts and a balanced presentatin of the news."

IN TREATING MENTALLY ILL

New Experiment Getting Results

By ALTON BLAKESLEE

SAN FRANCISCO (AP) — A new experiment in treating the mentally ill puts members of their families into the hospital with them.

And this seems to produce good results, two psychiatrists told the American Psychiatric Association.

Often the person who is put in the hospital is only carrying the symptoms of a disturbed family," and treatment needs to be aimed at the family, they explained.

Drs. Gene M. Abroms and Carl H. Fellner of the University of Wisconsin told Monday of treating 100 patients, with whom 126 members of the families also were admitted to the hospital. The 126 included husbands, wives, parents, brothers and sisters of patients.

Diagnoses were made of the family members as well as the patients. Among the 126, half were considered to have personality disorders.

Thirty per cent of the patients had problems apparently related to marital or family disharmony. Others suffered from neuroses, schizophrenia or other ailments.

For about half of the 100 original patients, improvement of symptoms occurred within 24 hours of the family's admission, the psychiatrists said.

"The sheer force of the family's expressed concern, as well as their willingness concretely to shoulder responsibility for the disturbance and the treatment, seem crucial here," Abroms and Fellner said.

The 100 patients were hospitalized an average of 17 days, and the family members for about 10 days.

Helpful treatment really begins, the doctors said, when the patient and his family accept the idea that "the problem lies between all of them, not just within the patient." Therapy proceeds when the family can sit down together and work out their faulty methods of relating."

It does no good to tell a family that the trouble "is really with all of them, but then let all but one of them go home," the doctors reported.

Special Packaging Bill Passes Senate

WASHINGTON (AP) — A bill requiring hazardous household substances to be packaged in containers difficult for children to open has been passed by the Senate and sent to the House.

The bill approved Monday would authorize the secretary of health, education and welfare to determine what substances require special packaging.

Career Corner
