The winning bid was submitted by Rowles, Winston and Company, Houston brokers, in conjunction with Ditmar and Company, Dallas Rupe and Son, and Mercantile National Bank of Dallas.

Volunteers Needed To Help Boy Who Has Brain Damage

A Rockport-area couple have a son who suffered brain damage at birth. The boy is now receiving a new type of exercise treatment at home which was prescribed by the Institute for the Achievement of Human Potential of Texas at San Antonio.

The parents are hopeful that this new treatment will benefit their son but they need a number of volunteers—women or men—to aid with the home therapy.

"Actually, a volunteer can be taught in five minutes how to assist with a treatment," the mother explained. "Our son is placed on a table, I hold his head, and four helpers move his arms and legs," she said.

To carry out the instructions of the Institute, the parents have been told that their son needs four 5-minute treatments per day.

That is why these folks need help. Anyone interested in helping is asked to call SO-4-6621.

Two Brush Fires Sunday

Rockport and Fulton volunteer firemen were exhausted by midnight Sunday after spending all afternoon and evening putting out two big brush fires.

The first was on Bob Young's property east of Live Oak Country Club. Fire Marshall Elva Mullinax reported that several hundred acres of brush and grass were burned off during the six hours —from about noon to 6 p.m.— in which the firemen fought the blazes.

It required the combined efforts of firemen from the Rockport, Fulton, Aransas Pass and Ingleside fire departments to put out the fire and prevent it from reaching Young's new home.

Shortly after this, at about 7:30 p.m., Rockport and Fulton firemen were summoned to fight another brush fire which had broken out on Travis Bailey's property at the intersection of Highway 35 North and Fulton Road, just south of the causeway.

Mullinax said it took the firemen more than five hours to bring this fire under control. Several acres of brush were consumed and many beautiful live oaks were burned.

The big danger, which the firemen prevented, was the possibility of the fire spreading to nearby gasoline and diesel oil storage tanks.

Pirates Drop Eagles 60-42

By Robert Oliver

The Aransas County High School Pirates dropped the Woodsboro Eagles in a basketball game by a final score of 60-42. The game was played Tuesday night in the Rockport gym where the Pirates are so far undefeated on their home court.

The Pirates, who lost their last game against Tivoli by one point, were able to get back on the winning road as a result of Thomas Lewis being credited with 27 points, David Nava 17, Bart Rozzell eight, Chris Edwards six and Jerry Brundrett two.

Woodsboro came out early in the game with a press defense against the Pirates. However, Rockport found the key to the press very early and had little trouble in playing against it.

When the first half came to an end, the Pirates were leading by a score of 32-19 with Lewis credited with 15 of these first 32 points.

The alert defense playing of David Nava spoiled many Woodsboro attempts at field goals and therefore kept Woodsboro's scoring to a minimum.

The Pirates were able to decrease fundamental errors which made for a better floor game and also gave the Pirates more scoring opportunities.

The Pirates also found considerable improvement on the free throw line as they were able to hit six for 11 shots as compared to six for 10 to Woodsboro.

The Pirates were able to rack up 27 field goal shots in comparison to 18 for Woodsboro. The Pirates were credited with 12 fouls while Woodsboro received only eight fouls.

The leading scored for Woodsboro was Robert Goynes who tallied 20 of the 42 Woodsboro points.

Telephone Rates Are Reduced

A state-wide reduction in telephone rates totaling $6 million annually was announced today by J. D. Hopkins, manager of Southwestern Bell Telephone Company.

This is the second such voluntary rate decrease made by the company during the past two years.

Largest item in the forthcoming reduction is a further lowering of intrastate (calls within Texas) long distance rates, effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance in Texas will have lower rates, varying from 5 to 15 cents less for three minutes depending on distance. Reductions are even greater for calls over three minutes.

For example, here is how the reductions will lower rates for station-to-station calls made during the "day" period:

For a three-minute call, with the first figure representing present cost and the second representing the new cost:

Houston-Dallas, .95, .90; San Antonio-Amarillo, 1.30, 1.20; San Antonio-Port Arthur, 1.05, 1.00; Austin-Ft. Worth, .85, .80; Austin-Galveston, .90, 85; Waco-Victoria, 1.50, 1.41; Corpus Christi-Beaumont, 1.66, 1.59; Brownsville - Lubbock, 2.41, 2.25.

Along with these reductions, all intrastate station-to-station calls which are made after 8 p.m. and all day Sunday will get the lowest night rate. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls are charged at this low rate.

This is the 10th reduction in long distance rates for Texas telephone users since the end of World War II.

"Although technological development continues to play a major role in keeping the cost of telephone service at a reasonable level, this reduction in long distance rates is due in no small part to telephone users themselves," Hopkins said.

"Without the cooperation of our customers in placing their calls by number, using Area Codes, and the overwhelming acceptance of Direct Distance Dialing, it would not have been made possible the series of reductions in rates," he added.

In addition to the lower long distance rates, there will be reductions in some miscellaneous telephone charges, effective Dec. 1 this year. These include:

A reduction in the one-time charge for a color telephone from $7.50 to $5.00;

A reduction in the monthly rate for amplifier telephones to $1.00. The rates now vary from $1.25 to 2.00. (This type telephone is most often used by persons with hearing impediments and at noisy locations.);

Introduction of a flat-rate charge for installing residence service, ranging from $6.00 to $3.50, depending on the size of the town.

This flat-rate, one-time Residence Service Charge will replace the service connection charges now in effect and will enable residence customers to have several telephones installed or changed at one time for the single service charge.

Routine Air Mission Becomes Busy Flight

The tedium of cross-country navigational flight requirements was interrupted twice Sunday, offering 1st Lt. Peter Fleischhacker some unusual opportunities to ply his trade.

Fleischhacker, an F-101B interceptor pilot with the 445th Fighter-Interceptor squadron, and his radar intercept officer, Capt. David H. Eickbusch, were preparing to return home from a weekend cross country to Miramar Naval Air Station, near San Diego, Calif., when they were asked to expedite their takeoff to assist a commercial airliner Boeing 720 Jet.

They climbed to 31,000 feet to intercept the airliner which was in clouds at that altitude.

About 200 miles from Salt Lake City the FAACC asked them to aid an F-100 Supersaber which had lost his airspeed, altitude and vertical velocity indicators.

David H. Eickbush is the son-in-law of Mr. and Mrs. Bill Johnson.

City Council Approves Principle of Sales Tax

The City Council has gone on record in favor of state legislation which would permit a city to impose a 1 per cent sales tax—upon approval by the city's voters—as a means of producing additional revenue.

At the Council meeting Monday night, the aldermen adopted the following resolution:

"Whereas, Texas has changed from a predominantly rural population now nearly 80 per cent urbanized, with more metropolitan centers than any other state; and

"Whereas, Texas cities are fine places to live, with the years of the state's greatest growth yet to come—with nearly all of that growth coming in the cities of Texas; and

"Whereas, it has now become critically apparent that the rapidly expanding needs of Texas cities call for additional sources of revenue at the local level to meet the multiplying demands for growth, expansion, and capital improvements; and

"Whereas, the financial needs of Texas cities cannot any longer be met solely through the non-discretionary reliance on the ad valorem property tax, and

"Whereas, it is the desire of Texas cities to solve their financial problems at the local level rather than turning more and more to state and federal governments; now therefore

"Be is resolved that the City Council of the City of Rockport by this resolution supports legislation authorizing cities to impose a municipal sales tax of one per cent (1%) on a permissive basis, applicable to the same items of tangible personal property upon which the state sales tax is imposed, to be collected by the state and returned to the cities when collected, after approval of a majority of the qualified voters of the city."

Mayor Delmar R. Hiller emphasized that this action by the City Council does not mean that Rockport is going to have a city sales tax in the near future.

"It simply means that we favor legislation making a city sales tax possible, IF the voters of a city vote in favor of it."

In other action, the Council voted to deny seven requests for zoning reclassifications in accordance with recommendations of the Planning and Zoning Commission.

The requests involved property owned by Emory M. Spencer, J. T. Trull and Burl Wagley.

The Council also approved a request by the Antane Butane Gas Division of Aransas Natural Gas Company to build storage facilities for butane gas behind the gas company's present building. Approval was granted subject to approval by the Texas Railroad Commission.

Another matter involving North Street a through street from Live Oak to Church Street. The Council decided to accept an easement from Southern Pacific Company to make this project possible. The south side of the tracks will continue to be used for unloading purposes.

The Council also agreed to a paving request by Robert Orme of Basin Drive-In. The City agreed to pave the streets on the north and east sides of the drive-in area. The paving will extend from the property line to the existing pavement and will cost about $750. In return, Orme agreed to pay for concrete curbing.

Next, the Council voted to pay the expenses of Herman Johnson, City Tax Assessor-Collector, to attend the tax school at the 8th Institute of Tax Assessors in Austin, Dec. 4-6.

Next, the Council voted to apply for membership in the Coastal Bend Regional Planning Commission on a non-paying basis. Emory M. Spencer, Aransas county representative on the commission, also will be the City's representative, according to Hiller.

The final four actions of approval were:

—To have the 1965 Chevrolet police car painted by City Paint and Body Shop for $65.

—To have the civil defense car painted by the same firm for $50.

—To purchase a desk set for the police radio in the city hall for $92.50.

—To hire Bobbie Taylor as a regular employee.

Miss Noralene Hesseltine, daughter of Mr. and Mrs. J. D. Hesseltine, Jr., and James K. Ballou, son of Mrs. Esther and the late A. L. Ballou, were married by N. E. Hicks at the Church of Christ in a very impressive ceremony on Thanksgiving afternoon.

The bride's gown was white chantilly lace over satin with fitted bodice and long tapered lace sleeves. The yoke of the dress had imbedded seeded pearls. A seeded pearl crown held her illusion veil. She carried a nosegay of white carnations with a large white orchid in the center which she detached for her going away corsage.

Her maid of honor was her sister, Paula Hesseltine, and bridesmaids were Janie Ballou, the groom's sister, Lola Jean Lewis and Shirley Hesseltine. The flower girl was Hope Hesseltine and the ring bearer was Mark Hesseltine. The girls were all dressed with pink lace dresses over pink satin. The best man was Jerald Ballou. The groomsmen were Jerry Iles, Steve Weber and Norris Authement.

The reception was held at the Woman's Club. The happy couple left on a wedding trip to Houston immediately following the reception. They are making their home in Rockport at present.

Southwestern Bell announces $6 million rate reduction for Texas Telephone customers

Second Voluntary Reduction For Texans in Two Years

At a time when prices for most goods and services are continuing their upward spiral, Southwestern Bell has announced a voluntary reduction in rates that will result in annual savings of $6 million for Texas telephone users.

Included in the reduction are both Long Distance rates (effective January 1, 1967) and a series of miscellanous telephone charges, (effective December 1, 1966).

Lower Rates on Long Distance Calls Between Cities in Texas

Reductions in intrastate (calls within Texas) Long Distance rates become effective January 1, 1967.

With the reduction, most station-to-station calls over 56 miles in distance will have lower rates, varying from 5 to 15 cents for three minutes, depending on the distance. Reductions are even greater for calls over three minutes.

In addition, all intrastate station-to-station calls which are made after 8 p.m. and all-day Sunday will get the lowest night rate—a maximum charge of 80 cents, plus tax, for three minutes. At present only station-to-station calls which are prepaid (charged to the number placing the call) and credit card calls get this low rate.

This is the 10th reduction in Long Distance rates for Texas telephone users since the end of World War II.

One-Time Color Charge, Other Rates Reduced on December 1

Texans will also enjoy savings on other telephone services, effective December 1, 1966.

These include the one-time charge for telephones in color (from $7.50 to $5). This is also the second reduction in the color charge in the past two years. The original color charge was reduced from $10 to $7.50 on April 1, 1965.

And a new Residence Service Charge will benefit most residence customers who will be arranging for new service and additional service requiring installation. At present, there is a Service Connection Charge on each item of equipment installed. The new flat-rate, one-time Residence Service Charge will enable residence customers to have two or more telephones installed for the price of one.

There will also be a reduction in the monthly rate for amplifier telephones (presently ranging from $1.25 to $2). The new charge will be $1. Amplifier telephones are primarily used by persons with hearing impediments and at noisy locations.

Customer Cooperation Helps Reduce Long Distance Rates

Technological developments continue to play an important part in keeping the cost of telephone service at a reasonable level. But much of the credit for making possible the reductions in Long Distance rates goes to Texas telephone users.

Without the cooperation of our customers in placing their calls by number, using Area Codes, and the taking advantage of Direct Distance Dialing where it is available, it would not have been possible to achieve the operating economies that have made possible these reductions.

We know of no better way, in passing these savings directly back to you, to say **"thank you."**

HERBERT GIST DIES

Herbert Gist of Sinton, who for years taught in San Patricio County schools and did some substitute teaching here, died Tuesday in Leakey, Tex.

Some years ago Gist wrote an article for the Pilot in which he predicted the day would come when the Rockport area would be covered with beautiful homes and industrial plants.

He is survived by his wife, a son and a daughter.

Indians may purchase alcoholic beverages outside reservations. A law prohibiting sales to them has been repealed.

21 Mailing Days Before Christmas

Postmaster M. A. Rowan, Jr., reminds residents today that there are only 21 mailing days before Christmas.

While that may seem like a long time to most people, it is frighteningly short to people in the postal service. Postmaster General Lawrence F. O'Brien has predicted that well over eight billion pieces of mail must be delivered between now and Christmas Eve, a new record.

Everyone is asked to start thinking about their Christmas shopping and mailing now. If all the holiday mail were to hit the postal system at one time, it is obvious there would be difficulty delivering every piece on time.

The Rockport Post Office expects to handle a larger amount of mail during this holiday rush than ever before.

Mailing early and spreading the flow out along the entire pre-Christmas season is the key to better mail service at this time of the year.

Last year the public cooperating was "tremendous." Virtually every piece of holiday mail was delivered before Christmas Day. This year with increased volume because of the continuing strength of the economy, postal officials are hoping to see that fine cooperative spirit again.

Here are some tips: Use Zip Codes on all mail. If there are some Zip Codes that you still need for your mailing list, come to the post office and look them up in our Zip Code directory or give us a call.

Zip Codes are more important than ever this year.

Include a card or piece of paper inside the package with your name and address and that of the person you are sending the parcel to in case the wrapping should be loose and come off. That way, you can be assured your gift will not wind up in the dead parcel office. Also, insert a list of the package's contents.

Address your gifts and greetings clearly so that postal workers will have no difficulty in reading the destination. Use first class postage on greeting cards. This assures their being forwarded if the recipient has moved. Cards that are undeliverable will be returned when you include a return address on the envelope.

The Post Office Department has issued a special five-cent Christmas stamp which will help decorate holiday mail.

Most important, mail early.

FISH REEF STAYS PUT NEAR PORT

Persistence in creating a workable artificial fishing reef in the mid-Texas coastal area is now paying substantial dividends, reports Ernest Simmons, Marine Biologist with the Texas Parks and Wildlife Department.

He said divers found that the new heavy material reef, replacing the experimental junk car design tried ten years ago, is not sinking into Gulf bottom as some had feared.

Anglers long ago began hauling in convincing evidence that the "store-bought" reef plan to lure game fish within reach was a bountiful success.

The reef is in 60 feet of water, six miles southeast of Port Aransas jetties. It is close enough for sportsmen to use light boats to reach the salt water bonanza.

When the artificial reef plan was first introduced with the discarded jalopies, fishermen quickly determined that red snappers, sand trout and other desirable species congregated there.

But tide and currents began scattering the old vehicles. This made many folks unhappy besides the frustrated sports fishermen. Commercial people complained that the mobile wrecks ripped their equipment. Corrosion has since destroyed the steel bodies.

The Port Aransas Boatman's Association and Texas Parks and Wildlife Department located a cache of heavy rubble, comprising mainly of scrapped concrete pipe and culverts. This hollow material had the dual advantage of being weighty enough to stay in place and to provide prowling areas for assorted fishes.

Simmons said the sunken area now is covered with barnacles, sponge, bryozoa and other deep sea growth to convince fish of its authentic qualities.

On the surface a conspicious orange-white buoy provides an easily distinguished marker to help get the fishermen on location.

CHRISTMAS PARTY

The Friendship Sunday School Class has changed the date of its Christmas party from Dec. 8 to Dec. 16. The party will be the usual covered dish supper in the Fellowship Hall at the First Methodist Church. Dinner will be at 6 p.m. Social hour will follow.

This and That *

JOHN KINSEY

Vacations are nice, but so is a job if you like it.

I thoroughly enjoyed my vacation. The weather was ideal, I had a fine visit with my brother-in-law and sister-in-law from Wisconsin, I had fun playing golf, and also had the memorable experience of participating in my daughter's wedding.

But by the end of the vacation I really was looking forward to going back to work. I like writing stories for the Pilot and working for the Chamber of Commerce.

It's a pleasure to get news from such people as J. D. Gray, Chester Barre, Bob Hewes, Delmar Miller, Mary Lake Segler, Herman Johnson, Tom Shults, Ed Harper, Virginia Shivers, Joe Earl Hunt, Ray Brown, Wayne Flenniken, Margaret Weber, Judge Wendell, Paul Sorenson, Bob Mosier, W. E. Beasley, Ruby Hart, Loyce Landrum, Emory M. Spencer, Thelma Barber and others.

Not only do they help me in getting the news, but they also make the day's work pleasant by their friendliness.

* * *

Speaking of our relatives from Wisconsin Rapids, Mr. and Mrs. Merve Sours, they thought the Rockport area was paradise. The weather, of course, was perfection. And, our visitors enjoyed the fishing, golf, the beauty of the bays and the live oaks, the hospitality of the motel where they stayed, the fine food, etc.

Talk about Chamber of Commerce "ambassadors," they went back to Wisconsin singing the praises of Rockport and Fulton.

* * *

I promise that this is the last mention I'll make of our daughter's wedding. Since my "helpful" friends knew I was to walk down the aisle with my daughter's arm in mine, they warned me over and over "not to trip."

This warning was given so often that, just to be on the safe side, I doubled checked my shoe laces just before starting that long, long walk. Everything went fine.

The only unscheduled happening was that the minister dropped the groom's wedding ring as it was handed to him by the matron-of-honor. It fell only to the altar where it was retrieved by the minister.

He said later that he offered a fast prayer that the ring would not fall and roll down the steps.

CARD OF THANKS

We wish to thank the volunteer firemen from Rockport, Fulton, Aransas Pass and Ingleside for their valiant work in putting out the brush fire on our property.

Words of Wisdom *About Saving*

You'll never see a better time than now to save.

Employment is at a high level. Wages are high. Prices of everything are high.

There's the temptation to believe that this condition will last always. It never has. The economic cycle keeps going up and down.

Dollars are cheap now in terms of what they'll buy. Dollars you save now will earn dividends for you.

A year, five years, ten years from now, there may be less employment, wages and prices may be lower. Dollars you save now may open investment opportunity for you then.

That's why this is such a good time to same. And there's no better place than here to save.
