

REGISTRATION FOR CHS STARTS TUESDAY

Through the
Editor's
Spectacles
By GEORGE

This column from time to time has insisted that there is only one way in which to develop retail trade in Cisco commensurate with the support required for a community of this size and with the trade resources around it. At the risk of being tiresome on the subject, the column is going to repeat its conviction today:

Give the farmer a market!

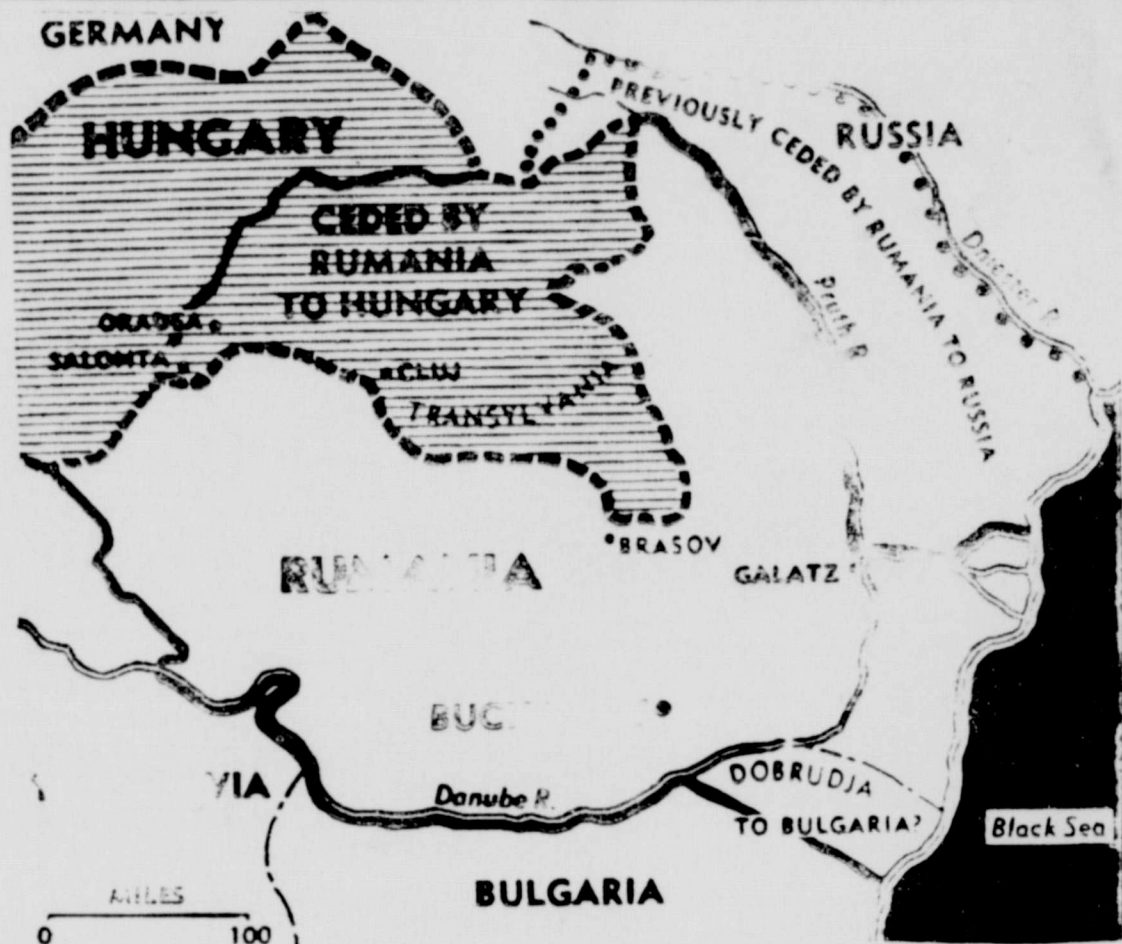

The solution is not a simple one. It involves a great deal more than setting up a place for farmers to come and bring their produce and receive money for it. It is silly to think that any solution so simple could possibly exist. If it were possible to establish a continuing and profitable market for farm goods by merely providing some sort of exchange, how very readily we would and would do so. But it is not easy. On the contrary, the answer to the question concerns a lot of hard work and sound planning, a lot of hardship and a lot of disappointment.

To make a market successful it is essential that the operators of the market profit. A good market must be a good business. An unstable market is an abomination. It is worse than no market at all. To make a market profitable involves a number of factors. There must be stable products, consistent production, good management, fair policies, etc.

It is as hard as the dickens to establish such a center. But unless it is done, the man upon whom our economy now primarily depends will take his produce where the cash is and his business will follow his footsteps. For bless you, dear brother, the old boy down on the farm may wear overalls where you wear pants with creases in them, but he is looking for the same sort of spendulicks that you are chasing—and this being a free country—he will inevitably take his business where the most spendulicks are and where he is welcomed for the business he is able to create. If you are looking at a deserted store now, ponder those facts a while.

A great deal of the reason for the business and helplessness that has affected so many business men in these doldrums is found in the fact that we are accustomed to think in terms of 1928. We have no imagination. We are too concerned with what now exists to consider that there could be any different situation. And yet only the other day a hardware merchant in Cisco, distressed by a case of bread prices and worried, "No, no, no," the hardware men are now doing their best. A year ago, additional to the services offered by the hardware men, the hardware men had set up a method of the hardware men's business in Cisco. (Change is constantly making new business men.)

This Telephotoed map, shows the area that was ceded to Hungary by Rumania at the Vienna conference.

400 Sheep and Goat Raisers Due to Attend Meeting Here

COUNTY-WIDE PROGRAM AT LAKE CISCO

A meeting which is expected to attract more than 400 sheep and goat raisers of Eastland county will be held in the park below Lake Cisco on Friday, September 6, beginning at 9:30 a. m.

The day's program will be made up of a series of educational talks by outstanding authorities on the raising of sheep and goats. At noon a barbecued chevon dinner will be served, and the meeting will adjourn not later than 4 o'clock.

Among speakers to be present are Dr. R. H. Hodges of Ranger, who will explain the solution of some of the problems usually encountered by beginners in sheep and goat raising. W. H. Dameron, superintendent of the ranching experiment station at Sonora, who will tell how to build and preserve pastures. W. R. Nubet, A. & M. extension sheep and goat specialist. A. K. Mackey, secretary of the Texas sheep and goat raisers' association, and R. Beal Pumphrey, who will talk on various phases of goat raising and management.

Every sheep or goat raiser and others interested in the future agricultural prosperity of Eastland county are cordially invited to attend. Women are especially welcomed, it was announced.

Sheep and Goat Raisers to Meet

The Fort Worth meetings of the Westernmost Wool and Mohair Society last night a meeting of all sheep and goat raisers who are interested in taking place at the Cisco Youth Center, at 3 o'clock Tuesday afternoon at which time a program of the organizing a youth office of the association will be discussed.

There will be a social hour at the Cisco Youth Center, at 3 o'clock Tuesday afternoon at which time a program of the organizing a youth office of the association will be discussed.

Honor Man

RAYMOND REAMES

Cisco Youth Named Honor Man in Navy

Raymond Reames, son of Mr. and Mrs. F. T. Reames of Cisco, was recently chosen honor man out of the 121 men in his company at the United States Naval Training Station in San Diego, California, according to word from commanding officers at the station.

He was selected as being "most conspicuous in his attention to duty," and he demonstrated "the most ability to profit from the instruction given," the statement read.

Reames graduated from the Cisco high school in 1936, where, as a senior, he was selected by the students as being the most capable student, and was awarded all the various honors offered.

His high school record was so good that the Cisco Youth Center, at 3 o'clock Tuesday afternoon at which time a program of the organizing a youth office of the association will be discussed.

SQUAD STARTS TRAINING HERE ON MONDAY

Coach J. T. Petty Saturday announced that he would meet all members of the Cisco Lobo squad at the high school building at 4 this afternoon.

The first practice session of the new season will be held at 7 a. m. Monday at Chesley field. There will be two practice sessions daily, he announced.

The Lobos open their 1940 schedule against Eastland here on September 13. There follow three tough A. A. non-conference games with Burk Burnett at Burk Burnett September 20, Sweetwater at Sweetwater, Sept. 27, and Childress at Childress, October 4.

The first conference game will be with Mineral Wells here on October 11. A non-conference fray with San Angelo will be played at San Angelo on October 18, after which the Lobos will play four conference games as follows:

October 25—Stephenville at Cisco;
November 1—Brownwood at Cisco;
November 11—Ranger at Ranger;
November 28—Breckenridge at Breckenridge.

The Lobos will be joined in their practice sessions this week by the 1939 state champions, the Lubbock high school Westerners, and by the Abilene Eagles, a team which has time and again given in the state finals, winning several championships.

The Westerners, coached by a former Lubbock "Coach" Kerner, will arrive this afternoon and establish themselves in the Lubbock hotel.

The Eagles, coached by Dr. J. H. Stephens, will arrive Monday and take up quarters in the Lubbock hotel.

The three squads will not meet until the 1940 season begins in October. The Cisco Lobo squad will be coached by J. T. Petty.

FUNERAL FOR AUTO VICTIM AT 5 TODAY

Girl, 12, Dies of Head Injury When Car Hits Guard Rail

Funeral services will be held at 5 p. m. today for Edith Arnetta Calloway, 12, of Cisco, who was fatally injured early Saturday morning in an automobile accident in which four other occupants of the car were injured, none seriously. Arnetta died almost instantly of a fractured skull. The others were taken to a Ranger hospital for treatment. The girl was thrown from the rear seat through the windshield.

The accident occurred two miles northeast of Ranger on highway 80, about 1 o'clock Saturday morning, when the driver of the automobile, a 1935 Chevrolet, momentarily lost control and the machine crashed into a guard rail.

Other occupants of the automobile were Mrs. C. M. Constant, driver, manager of the Mobley hotel dining room; her daughter, Bonnie Jean; Mrs. Stella Calloway, mother of Arnetta; and Miss Effie Head, Mrs. Constant was the most seriously injured of the four survivors, receiving cuts and bruises and suffering severe shock. Mrs. Calloway, Miss Head and Bonnie Jean received only minor injuries. Arnetta is survived by her mother, nine sisters and four brothers. Her father was killed here several years ago in an automobile accident. Another brother is also dead.

Neil Lane Funeral home is in charge of burial arrangements.

Funeral For Mrs. James At Baird Today

Funeral services will be held at the Methodist church in Baird at 1:30 p. m. today for Mrs. Verda James, about 50, who died very suddenly at her home in Baird Friday morning. She is the mother of Mrs. A. L. (Shy) Osborn of Cisco.

Mrs. James, who had worked as cashier in the Baird office of the West Texas Utilities company for 12 years, is survived by another daughter, Catherine, of Baird, and a son, Billy, of Odessa. Her mother, Mrs. M. J. Gilliland, and a twin sister, Mrs. V. E. Hill, of Baird, also survive.

Mrs. James complained of feeling badly Thursday and remained at home until noon, after which she went to the office and worked until 3 p. m. Early Friday morning, she told her daughter, Catherine, and her granddaughter, Patay Osborn, of Cisco, that she would remain in bed that morning. About 15 minutes later they found her dead.

It was reported that her death was a result of cerebral hemorrhage.

SISTER ILL

C. B. Snyder, prominent Moran rancher, was called to Des Moines, Iowa, Saturday to be at the bedside of a sister, who is seriously ill.

Mr. and Mrs. Frank Vernon and children, Frank, Jr. and Betty Mae, of Dallas, are guests of Mr. and Mrs. William Reagan.

Mrs. Ed Fox of Dallas is visiting her son, H. G. Fox, and Mrs. Fox.

Weather

WEST TEXAS: Another clear, cool afternoon and evening with light to moderate winds. The temperature will be in the 60s and 70s. A few clouds will be seen in the morning. A light breeze will be felt in the evening. A few clouds will be seen in the morning. A light breeze will be felt in the evening.

Dem Nominee Sounds Keynote

Henry A. Wallace is pictured above as he sounded the keynote of his campaign for vice president on the Democratic ticket in a speech at Des Moines, Iowa, accepting the nomination. Wallace bitterly assailed the Republicans as appeasers of the European dictators.

What It Means:

THIS THERMITE BOMBING

By MORGAN M. BEATTY
AP Feature Service Writer

WASHINGTON, Aug. 31.—Read the statements of the Reich high command and the British air ministry with the help of a man who knows his military planes and his bombs and you reach the astonishing conclusion that the air war we're reading about every day is not even well started yet.

It is true, of course, that many lives have been lost, much property damaged. It would be hard to explain to a man who has seen his neighbor die, or to a flier who has spun out of the sky that the air war is not on.

But, if the experts have it right, air fighting up to now is a warm-up for the war to come, and an effort on both sides to crack morale on the other. In the warm-up each side learns the other's long suits, his short-comings. By constantly driving civilians already fed up with war to air-raid shelters, they're inflicting a sort of third degree intended to crack nerves, make people ask for rest, even if their country has to lose a war.

Both Berlin and London Mention It

Experts will tell you that air war—all-out air war—will begin with an eight-letter word spelled "T-H-E-R-M-I-T-E." We've already had fleeting glimpses of the word in the communiques from Berlin and London.

Thermite is a simple mixture of powdered aluminum and powdered iron oxide, all bound up with magnesium wire. Attached is a fuse to set off the magnesium, like a battery sets off a photographer's flash bulb.

When a big package of thermite is dropped, the fuse detonates, sets off the magnesium, and the thermite, thus primed, heats up. Within a few minutes it is a white hot mass of molten metal capable of melting steel. It gets hotter than 3,000 degrees Fahrenheit, which is hotter than any ladle of molten steel in a blast furnace. Therefore, it will set fire to anything inflammable. It is a small river of fire itself.

Just A Package Of Heat
All military men say thermite bombs, or incendiary bombs. But technically the package is no bomb at all. Merely a heater-upper.

It's no secret weapon, either. The military men of all nations know the formula, use it in practice bombing attacks. Secret tests by the American air service, for instance, have convinced authorities that thermite bombing is capable of destroying any big city, and a single big raid might be enough. Maybe two hundred planes, or less.

A city can be levelled by fire, because the present war and previous wars have demonstrated that air raids cannot be stopped. There is no defense against big squadrons of airplanes. Some of them are bound to reach their objectives, no matter what the defending force does.

Will Bring Retaliation

The first great raid with thermite, of course, will bring retaliation with thermite. That's the question mark of the coming air war. Nobody knows what will happen after it starts.

Will the people of either England or Germany rise up, overthrow the government, force a peace at any price to prevent further destruction?

Both Messrs. Hitler and Churchill would like to know the answer to that one. They'd give their right arms for it, for then they'd know whether to start an "all-out" air war.

London Bombed In Third Daylight Raid

LONDON, Aug. 31. (A. P.)—German air raiders dropped bombs in the London area Saturday when the third of their three daylight thrusts carried through the capital's defenses. With the brilliant early afternoon sun at their tails, the attackers executed a lightning assault which left an undetermined number of casualties in a suburb as low as the height of Saturday shopping.

Men, women and children were killed and injured. A redoubt and eight bombs dropped in that sector. Buildings were shaken and clouds of dust were raised. The city was hit by a series of incendiary bombs. (Continued on Page Three)

CLASS WORK WILL BEGIN SEPTEMBER 9

Students Expecting to Attend College Must Get Transcripts

High school registration will begin Tuesday morning at 8:30, according to Principal O. L. Stamey, who asked that all classified seniors be at the school at that hour to receive their schedules. Juniors will register on Wednesday, sophomores on Thursday, and freshmen on Friday, at the same hour, it was stated.

Class work will begin Monday morning, September 9, throughout the entire public school system. At that time the classes will run through their schedules and books will be issued.

Prin. Stamey also pointed out that graduate seniors who expect to attend college either in Cisco or away from home should secure their transcripts from the high school office before leaving. A transfer of high school credits is necessary for entrance into any college.

The Cisco Junior college will open for its first term on September 9. Further announcements respecting the college opening will be made later this week, college authorities said.

Funeral For Ben Shelton On Wednesday

Funeral services will be conducted Wednesday at Datona Beach, Florida, for M. B. (Ben) Shelton, son of Mrs. W. C. Shelton of Cisco, who died Friday morning very unexpectedly.

His sister, Mrs. Robert Mancill, received a message Friday stating that Mr. Shelton had died very suddenly, and later in a conversation with Mr. Shelton's son, it was learned that his death came as the result of a heart attack.

Mr. Shelton, 32, has lived in Florida for 20 years, and for a number of years has been employed by the city of Datona Beach. He is the third son of Mrs. W. C. Shelton, and his death was the first of 12 children in the family, the father having died 15 years ago.

His survivors include his wife and two sons, and four grandchildren of Datona Beach, his mother, Mrs. W. C. Shelton, of Cisco; five sisters, Mrs. E. L. Graham, Mrs. J. W. Wilson, Mrs. Robert Mancill, of Cisco; Mrs. Frank Yoder, of San Antonio, and Mrs. Harry L. Edwards of Houston; and six brothers, S. M. James, M. and C. C. Shelton of Abilene, E. B. W. E. and W. L. of Fort Worth.

Mrs. W. C. Shelton, Mrs. E. L. Graham, Mr. and Mrs. James M. Shelton, and C. C. Shelton left Saturday by way of Fort Worth, where they will be joined by E. B. Shelton. From there they will go to Houston to be joined by Mrs. Edwards and Mrs. Yoder, and on to Datona Beach to attend the funeral.

Press Will Not Be Issued on Labor Day

There will be no edition of the Cisco Daily Press tomorrow, observing the annual custom of declaring a holiday on Labor day. The Eastland county courthouse will also be closed, except for the 25th district court, which will convene a grand jury at 9:30.

CONVALESCING

Mrs. Buette Deul, who has been a surgical patient at a Ranger hospital for the past three weeks, has been discharged and is convalescing at her apartment home at the Fox apartments.

Act of March 3, 1879.

Labor Has Something to Celebrate

AMERICAN labor might be pardoned if it
felt a tinge of loneliness on this Labor
Day.

Except for Great Britain, Canada, Aus-
tralia, Mexico, New Zealand and a scattering
of smaller countries, it now stands alone as
the last great group of free working men.

It is true that this freedom is shadowed
by the looming fact of unemployment, and
that those who are able and willing to work,
yet cannot find work to do, may question the
value of their freedom. Yet even they must
take some hope from the fact that their prob-
lem is foremost in the minds of the rest of
their countrymen, and that the country is
determined never to rest until it is solved.

But for the 35,600,000 men and women
who are today earning their daily bread,
there is pride and strength even in their lone-
liness. They are free. If they want to quit
their job and seek another there is nothing

to prevent save that universal compulsion
that he who would eat must work. If they
decide to band together to seek mutual ad-
vantages through organization, the right is
guaranteed them.

But they have other inestimable advan-
tages. In addition to being workers, they
are also free men and women. They vote for
their leaders and their votes are counted, and
counted equally with any man's vote. They
may themselves aspire to any office, and to
any position in industry. The means to bet-
ter themselves through education are at hand.
Social security laws have given some assur-
ance against the terrors of old age and disa-
bility. There is every prospect that these as-
surances will be made stronger as the years
pass. And beyond laws and constitutions,
there is the old American pull toward the
feeling that one man is, basically, as good as
another, despite differences in education,
ability, position, color, race or creed.

Yes, American labor has a good deal to
be thankful for in 1940. The way in which
it has buckled down to the defense of its
country is evidence that it knows it. True,
it stands almost alone today, but it looks
steadily and confidently forward to another
day, when its example will have drawn many
others to its side.

Willkie's welcome lends justification to
the suspicion that many voters would like to
give the country back to the Indian.

Some people want to shoot every fifth
columnist in the country. Others think every
second one should be shot.

Italy bans petting parties after dark,
another reason why democracy should not
perish from the earth.

The dollar sign was taken from an old
religious symbol. People are still putting a
lot of faith in it.

A thief who swipes ice from housewives'
refrigerators in Columbia, S. C., is one gent
who keeps cool in a slippery business.

It was bound to happen sooner or later
in one of these modern wars. That free-lance
submarine, we mean, which sank the Greek
warship.

'I Hate to Leave the Old Place'

24 Transfers of Tracts of Land In Recent Filing

Transfers of 24 tracts of land
in Eastland county are listed
among recent filings in the office
of the county clerk at Eastland.
Following is a list of recent re-
cordings of real estate transfers:
Warranty Deeds

W. A. Glenn et ux to W. H. Gay,
lot 11, block 3, Glenn addition,
Ranger, \$10.

Colonial Loan & Investment Co.
to R. V. Glenn et ux lot 6, S. E.
Hittson subdivision lot 4, block
92, Cisco, \$1,800.

E. E. Wood et ux to Ozell Mc-
Mahon, part of block D-2, East-
land, \$700.

Earl McNurlen et ux to Billy
Ray McNurlen, undivided one-
half interest to east half of 7-acre
tract, John House survey.

Earl McNurlen to Pearl McNur-
len, west half of 7-acre tract,
John House survey, \$10.

J. R. Thomas to D. B. Ashton,
part of John House survey, \$100.
E. L. Baker et ux to C. V. Rus-
sell et ux, north half of south-
east quarter, section 37 block 2,
ETRY survey, \$200.

C. H. Houston et ux to T. E.
Castleberry, part of east half of
northwest quarter, section 35

block 4, H&TC survey \$15.

J. V. Roberts et ux to R. L.
Donham, part of south 40 acres
Antonio Miller survey, \$10.

B. A. Cramer et ux to H. E.
Phillips, lot 14, block 5, Daugh-
erty addition Eastland, \$937.90.

Continental Gin Co. to H. D.
Ohlenbusch, 2 acres of John F.
Sapp survey, \$800.

Guaranty B&L Co. of Galveston
to F. A. Ringold, lot 12 and west
half of lot 11, block 14, Ranger,
\$1,400.

F. A. Ringold to E. A. Ringold,
certain city lots in Ranger, \$10.

A. W. Norton et ux. of Mrs.
Fannie J. Clark, 20 acre lot of 50
acres of the three and four league
McLennan county school
lands, \$1.

W. H. Gay et ux to A. C. Peck
et ux, lots 11 and 12, block 3,
Glenn addition, Ranger, \$400.

W. W. Layton et ux to S. V.
Pritchard, two tracts of land in
Gorman, \$1,400.

R. L. Westmoreland to J. A.
Westmoreland et al, undivided in-
terest in 50 acres, De Moss sur-
vey, Comanche county, love and
affection.

R. L. Lclair to City of East-
land, lots 34, 35 and 36, block 7,
Neblett addition Eastland, remis-
sion of Taxes.

Oil and Gas Assignments
Fred Morgan to A. J. Heller,
177 acres of northwest quarter
section 37, block 3, H&TC survey,
\$1.

Fred Morgan to John L. Lar-
son, 177 acres northwest half of

section 37, block 3, H&TC survey,
\$1.

C. E. Groover et al to Paul P.
Steed, portion of northwest quar-
ter, section 108, block 3, H&TC
survey, \$1.

C. E. Groover et al to Danciger
Oil Refineries 171 acres section
104, block 3, H&TC survey, \$1.

Ralph D. Herring to Union Cen-
tral Life Ins. Co., lot 2, J. W.
Hall sub. of east third Thomas A.
Howell survey of 96 acres, \$1.

W. J. Dobbs to Max Benshoff
et al, 177 acres of southwest half
section 37, block 3, H&TC survey,
\$1.

Governor Speaks Today on Defense

AUSTIN, Aug. 31. — The part
which Texas will play in the pro-
gram for national defense will be
outlined by Governor W. Lee O'-
Daniel in a radio address today at
8:30 a. m.

The following radio stations will
carry the program: KRBC, Abilene;
KFDA, Amarillo; KNOW,
Austin; KBST, Big Spring; KNEI,
Brady; KFPL, Dublin; KFJZ,
Fort Worth; KLUF, Galveston;
KFRO Longview; KRLH, Mid-
land; KPLT, Paris; KEAW, Rey-
nos; KGKL, San Angelo; KABC,
San Antonio; KRRV, Sherman;
KTEM, Temple; KCMC, Texark-
ana; KGKB, Tyler; KVWC, Ver-
non; WACO, Waco.

The program will be carried by
(Continued on Page Four)

Hunters Will Find More Doves This Season

AUSTIN, Aug. 31 (Sp.)—When
dove hunters blast the lid off the
closed season in Texas on Sept.
1 in the northern part of the
state and on Sept. 15 in the re-
mainder, they will find a far bet-
ter crop of the fast little birds
than last year, the executive sec-
retary of the state game depart-
ment said Saturday after perusing
reports from his game managers
in all parts of the state. All other
types of game are also reported
in excellent shape this year and
more plentiful than in 1939.

Rainfall at the proper times of
the year has provided the moun-
taining doves with an abundance
of food and they have prospered.
Too, conditions in most of the
state were ideal during the nest-
ing season and to raise two and
three broods of birds each year,
have multiplied rapidly, the exe-
cutive secretary said. However,
game managers studying the white
wing situation have reported that
while there are apparently more
birds in the Rio Grande valley
this year, there is a shortage of
certain weeds, especially croton,
upon which the white wing feed,
and there is a possibility the birds
will not remain in the valley as
long as they did last year before
migrating to Mexico.

The mourning dove situation
shapes up like this: An excellent
crop of birds is on hand awaiting
the hunters in west Texas all the
way to El Paso. North central
and central Texas has a better
crop this year than last. More birds
nested in these areas than in 1939,
due to better conditions and a

more abundant food supply. How-
ever, the game manager of the
area warns hunters that the
spot may not be as easy this
year as in some past seasons,
to the fact that doves prob-
ably will not concentrate at tanks
much because of the greater abun-
dance of water.

The panhandle and the remain-
der of northwest Texas is this
year recovering from a severe
drought of several years duration,
but reports indicate that there is
a large increase in mourning doves
in the eastern half of the area, and
there are as many birds this sea-
son in the western portion as there
were last year.

East Texas had an unusually
good nesting period for doves and
the game manager for the pine
woods area from the coast to Tex-
arkana reports an abundance of
birds. South Texas and southwest
Texas also had excellent breeding
seasons and the supply of birds
there is expected to be consid-
erably better this year than last.

White wing doves, half again
as large as mourning doves, and
considered by most hunters as
superior sport due to their antics
in flight, returned to the Rio
Grande valley from Mexico in
larger numbers this year than last,
game managers believe. However,
each year several thousand acres
of nesting ground is being de-
stroyed by the clearing of brush
land for crops and the birds are
being forced to spread to other
sections and have been seen nest-
ing as far north as Medina coun-
ty. However, the big concentra-
tion of these birds is still in Will-
acy and Hidalgo counties.

White wings are just now mov-
ing out into the feeding grounds,
and it is impossible to say what
the immediate effects of the partial
failure of several weed crops
will have upon the birds. They

duction.

Explains Care Of Sweet Potatoes

When to start digging sweet po-
tatoes has long been a problem
facing the potato grower, and to
start digging before the potatoes
are fully matured results in loss
after they are put in storage, ac-
cording to Ruth Ramey, county
home demonstration agent.

Miss Ramey's test for maturity
of sweet potatoes is the break
test. Break open a sweet potato
and see how rapidly the insides
turn brown. If the broken end
dries slowly, it is an indication
that the potato is not mature. If

the broken end dries quickly, the
potato is mature and may be placed
in storage.

Many people already have been
having sweet potatoes large
enough to eat. That's good news
to the homemaker who delights
in the family with unusual appetiz-
ing dishes in season. Try new po-
tatoes sliced and baked in casser-
ole with a small amount of wa-
ter, bits of butter and sprinkled
with sugar. Or French fry sweet
potatoes to a golden brown, and
dust with powdered sugar while
they are draining on absorbent
paper after frying.

Don't forget steamed sweet po-
tatoes browned in drippings from

baked ham or roast. Add pineap-
ple to the ham and potatoes for
an ultra tempting dish.

Way Out West In Kansas

TOPEKA, Kans., Aug. 31. —
An elderly, kindly appearing cou-
ple returned to the theater they
had just left and began search-
ing. A youth tapped the man, and
pointed. There on the floor, in the
aisle, was a pistol. The old man
pocketed it and hurried out.

COINCIDENCE

WINCHESTER Va., Aug. 31.
(P)—Bert Cochran and W. A. Les-
lie, who have worked 25 years in
the same division of a rubber
company at Akron, Ohio, left on
their vacation. When Cochran
arrived at a tourist camp here, he
met Leslie. Neither had known
where the other was going.

NEA Service Staff Correspondent

WASHINGTON. — Senator
Wheeler's revelation that Brit-
ish Sir George Paish told him
Sir George got America into the
last war and was going to get her
into this one, has focused new
attention on the propaganda situ-
ation.

The foreign-agent register at
the State Department reveals, of
course, only those agents who
have been candid enough to set
down in accordance with law the
fact that they are representing a
foreign country.

But it is interesting to note that
of some 400 now registered, by
far the largest number, 194, re-
present the United Kingdom.

Japan has 49, Spain, 18; Russia,
17; Germany, 17; and so on. There
is some wonder, about the status
of those registered to countries
whose present status is now in
doubt: France, 38; Holland, 14;
Norway, 10; Denmark, 9; Hun-
gary, 6; Czechoslovakia, 7; Bel-
gium, 2; Poland, 16, and so on.

Just what sort of activities these
people are conducting, and on
whose behalf, it is hard to say.
Sir George Paish, who has been
fit to lobby among American sen-
ators on American foreign policy,
does not represent his government.
Britain asserts, and Sir George has
not seen fit to register as a foreign
agent.

Auxiliary to Entertain For Young People

Members of the 1940 graduating class of the Cisco high school and all college students are cordially invited to attend a lawn party to be given for them on the lawn of the First Presbyterian church Monday night at 8 o'clock.

It is the annual custom of the Presbyterian auxiliary to entertain with a "going away" party for college students and high school graduates.

Those who plan to attend are asked to telephone either 435, 797J or 66, so that the committee in charge will know how many guests to prepare for.

The Notebook

Monday
The Presbyterian auxiliary will entertain with a lawn party at the church beginning at 8 o'clock. Graduates of the high school class of 1940 and all college students are urged to attend.

Tuesday
There will be no meeting of the First Baptist Women's Missionary society.

The First Christian Women's council will meet at the church at 4 o'clock.

Wednesday
The Women's Society of Christ in Service will meet at the First Methodist church at 4 o'clock.

The First Baptist Junior G. A. will meet at the church at 4 o'clock.

Thursday
The First Industrial Arts club will have its initial luncheon at the home of Mrs. W. W. Wallace at 1 o'clock.

Church of Christ
Bible school, 10 a. m. Morning worship, 11. Sermon subject: Importance of Bible Study. Young people's meeting, 7 p. m. Wednesday service, 8 o'clock. Sermon subject: "Jesus Builds His Church." Prayer meeting Wednesday evening at 8.—D. Lee Hukel, minister.

First Christian Church
Sunday school at 9:45 a. m. Classes for all age groups, and a warm welcome for all who come. The morning worship service is at 10:50, and the pastor will preach on the subject, "The Voyage of Life." A very cordial invitation is extended to the public to worship with us at this service. The evening service will be held in the lawn of the First Methodist church in the union service at 8 p. m. Our monthly Sunday special dollar day offering will be received today to be applied in necessary repair work to the assembly of the church. We are expecting a large offering. The regular monthly meeting of the official board will be held in the ten's Bible class room at 2 o'clock this afternoon. All members of the board are requested to be present.—Rev. J. R. Wright, pastor.

FIRST METHODIST CHURCH
Church school, 9:30, morning worship, 10:50. Sermon subject: "Thy Will Be Done." Young People's meeting 7:15. Evening union service at 8 o'clock on the church lawn. Parents are urged to cooperate with church school teachers in an effort to increase church attendance. The fact that church school and church services are both a part of the morning program of worship is being emphasized. There will be a meeting of the board of stewards at the church Monday night at 7:30.—Joe I. Patterson, pastor.

Well, It's Hard On Us Honest Men, Too
OKLAHOMA CITY, Aug. 31 (AP)—G. W. Walker, U. S. secret service agent, says hot weather is hard on counterfeiters. The reasons:
They have to stand over super-heater stoves to do their "home work."
They have to keep all the doors and windows closed to prevent detection.
Fishing is Alaska's greatest industry.

To Be Married in Dallas Soon

Above is shown Miss Helen Louise Graham of Houston, who will be married Saturday, September 14, to Mr. Bill Harris of Cisco. The wedding will be held in the Adolphus hotel at Dallas.

Couple to be Married In Dallas Soon

On Saturday, September 14, at 7:30 p. m. Miss Helen Louise Graham of Houston, daughter of Mr. and Mrs. D. J. McCallum of Cisco, will be married to Mr. Bill Harris of Cisco, son of C. C. Harris of Eastland. The ceremony will be performed at the Adolphus hotel in Dallas.

Miss Graham will be given in marriage by her brother, C. Howard Graham of Houston. Her only attendant will be Mrs. W. Kenneth Graham, also of Houston. Mr. Harris will be attended by W. Kenneth Graham as best man.

The bride will wear a white crepe sport frock with black accessories, and a shoulder corsage of lilies of the valley. Mrs. Graham will be attired in a sport dress of dusty blue, and her corsage will be pink rosebuds.

Mrs. Mortier Forber of San Antonio will play for nuptial music and during the ceremony Wagner's Wedding March from Lohengrin.

Following the ceremony there will be a wedding dinner at the hotel, after which the bride and groom and their wedding party will dance in the Century room.

To Brother's Wedding
The following day, the young couple and Mr. and Mrs. McCallum will join with a group of friends and relatives and motor to Bossier City, Louisiana, to attend the wedding of the bride's brother, C. Howard Graham to Miss Mary Gordon Tait of that city. This ceremony will be performed at the First Baptist church there.

The two couples plan then to return to Dallas for a short stay, returning to Cisco where Mr. and Mrs. Harris will make their home and where Mr. and Mrs. Graham will visit Mr. Graham's parents.

Lucky Tiger

Monnie Drake, 20-year-old Detroit radio and night club singer whose name has been romantically linked with Barney McCosky, Tiger outfielder, was named Miss Michigan and will represent the state in national beauty contest in Atlantic City.

for London's worst night raid of the war.

Air-besieged Londoners were cheered by an air ministry announcement that a "strong force of RAF bombers again attacked military objectives in the Berlin area" Friday night.

The fresh fury of the German attack defied the mounting toll of German planes brought down. Unofficial reports up to 3 p. m. showed at least 20 bombers and fighters had fallen to British fire around and in the air.

This total ran considerably ahead of the official count.

About the time that the third alarm sent Londoners hastily to cover, the air ministry announced that "at least six enemy planes were shot down today and one enemy bomber last night."

Recent guests of Mr. and Mrs. C. B. Powell were Mr. and Mrs. Herman Scheiblich and children, Edward and Norma Sue of Marlin, Mrs. Aubrey Spencer and sons, Tom and Dick of Dublin, Mr. and Mrs. Phillips and daughter, Sandra, of Weatherford, and Miss Mary Perryman of Birmingham, Alabama.

Club In Cabin Party at Lake Past Week

The 4G club, accompanied by Miss Wynema Bond and Mrs. Robert Mancill, spent the past week in a cabin at Lake Cisco, going out Monday afternoon and returning Friday.

The days were spent in hiking, kodaking, swimming and skating, and each girl was responsible for the preparation of one meal.

During the entire time, 65 guests were registered in the guest book.

Those present were Rose Ann Woods, Gloria Graham, Cathryn Shepard, Jacqueline Rupert, Peggy Gallagher, Dorothy Jean Anderson, Betty Slicker, Wanda June Bond, Patty Jean Boyd of Odessa and Virginia Herndon of Bonne Terre, Missouri.

PERSONALS

Miss Zona Miller has returned from San Antonio, where she attended the graduation at Kelly field Friday morning, and a dinner-dance Friday night.

Mr. and Mrs. G. R. Nance and daughter, Patsy Ruth, are spending the week-end in Abilene and Merkel.

Mr. and Mrs. Otis Thetford, Mrs. Alice Henson and Miss Chrystelle Reynolds are visiting relatives and friends in Fort Worth.

Mr. and Mrs. Mac Stephens and son, Blake, Mrs. Stephen's father, I. J. Lamb, and Misses Dorothy Mayberry and Nadine Huestis, have gone to Athens to spend the week-end. Miss Mayberry, who spent the summer here with her sister, Mrs. Jack Anderson, will remain at her home in Athens.

Mrs. J. E. Spencer and daughter, Alice, Mrs. R. L. Shaw and son, Robert, are spending the week-end in Fort Worth.

Little Johnny Henderson of Wichita Falls is here visiting his grandparents, Mr. and Mrs. John E. Moriarty.

Tom Jones of Houston is spending the week-end here in the home of his mother, Mrs. W. L. Jones.

Miss Theresa Lee has returned to her home in San Antonio after a visit with her parents, Dr. and Mrs. W. P. Lee.

Miss Frances Mills has returned to her home in Winters after a visit in the home of the Rev. and Mrs. Judson Prince.

Miss Gwendolyn Tunnell of Ranger is spending the week-end here in the George Daniels home.

Mr. and Mrs. C. V. Fox and children, Jean and Billy, have gone to Breckenridge, where they will make their home.

Mr. and Mrs. A. L. Jensen and children, Patricia and Charlotte, visited in Goldthwaite last week.

Carlos Medlin of Ranger spent the week-end here.

Mrs. Walter Preston and son, Charles, are visiting in Fort Worth.

Elder Thomas and Frank Nix of Brownwood have been visiting in Cisco.

Mrs. Guyle Greynolds and children, Helen Louise and Guyle, Jr., recently transacted business in Rising Star.

Hershel Clough and Henry Hagaman have returned from a fishing trip to Lake Brownwood.

Man Defeats Nature, Yellowstone Reports

YELLOWSTONE NATIONAL PARK, Aug. 31 (AP)—Getting geysers to perform is a matter of balancing water.

Daisy geyser, which should erupt every 80 to 105 minutes recently failed to spout.

Naturalist George Marler was called. He discovered that Brilliant pool, near Daisy, was overflowing.

He constructed a small dike around Brilliant, raised the level two inches and soon Daisy shot a spout high into the air.

Marler concluded that water in underground channels that connect the pool and geyser, probably had become "unbalanced," but all that was needed to restore order was the added pressure from the extra two inches of water.

Advertising is not an expense—it's the life blood of any business.

Miss Jones Has Luncheon For Frances Mills

Miss Norma Jean Jones was hostess Saturday at a luncheon given for Miss Frances Mills of Winters, house guest of the Rev. and Mrs. Judson Prince. The luncheon was given in the R. D. Jones home.

Places were marked for Misses Frances Mills, Mary Coldwell, Loyce Coats, Dorothy Isenhower, Ruth Roach and Norma Jean Jones.

Specs— (Continued from Page One)

community energy and ambition must build for the future. Instead of trying to take away what another community has developed for itself, vainly trying to "divide the poverty" as Mr. Willkie so succinctly put the matter, we ought to be trying to develop new business and new industry. A Scranton farmer has demonstrated that some of the finest apples and peaches in the country can be grown in Eastland county. Others have developed some of the world's best commercial sweet potatoes. Sheep and goat culture is being demonstrated as a profitable agricultural enterprise. The pecan growing industry is a source of great income possibilities. There are hundreds of opportunities on which to base a future.

But it takes work, courage and imagination. No beneficent government at Austin or Washington can dish out that prosperity. We must make it.

Turkey Steak Isn't Just Bologna

COLUMBIA, Mo., Aug. 31 (AP)—They're raising turkeys so large now that you can have turkey steak.

Jewell Mayes, state agriculture commissioner, says it's so delicious it has a prominent place on midwestern hotel and restaurant menus.

Here's his favorite recipe: The meat should be boned carefully, refrigerated for several days and then sliced across the grain. Pound it to tenderize, and then slow fry in lard and steam. Serve immediately.

TREE NOTE FOR TODAY

YELLOWSTONE NATIONAL PARK, Aug. 31 (AP)—The historic President Arthur tree near Old Faithful Inn in Yellowstone National park has been turned into firewood. It was felled by high winds recently. President Chester Arthur camped near the tree when he visited the park in 1883.

Mexican Stamp Combines Ancient, Modern Symbols

THE monuments of Mexico's ancient glory are united with modern air transport in the Mexican airmail stamp above, of the 1934-35 series of nine values and designs.

Central design of the stamp is a plane flying over Popocatepetl and Ixtaccihuatl, two of Mexico's most famous mountains. Surrounding this scene is a circular design, probably the artist's conception of the Aztec calendar stone.

In the foreground, center, is the Pyramid of the Sun. Although the actual pyramid at Teotihuacan has 243 steps, the stamp shows only 13, the number of months in the Sacred Year. The pyramid on the stamp shows five stages, corresponding to those of the real temple.

The lettering was inspired by inlaid designs found in ancient tombs.

Former Cisco Girl Wed Recently

Mrs. Robt. Reeves, who before her recent marriage in Midland was Miss Glenna Phippen, daughter of Mr. and Mrs. J. L. Phippen of Cisco. The young couple make their home at Midland.

Parents Announce Wedding of Daughter

Mr. and Mrs. J. H. Rouch of Eastland, former residents of Cisco, announce the marriage of their daughter, Ruth, to Mr. J. B. Adams of Cisco.

The young couple were married April 21, in Mineral Wells. They will make their home in Olden.

Mrs. Adams is a graduate of Eastland high school.

Pete Kahagas Guest of Cisco Friends

Pete Kahagas former Ciscoan, now of Houston, is a guest of his old friends, Nick Nicklas and Sam Dragamis of the Savoy Cafe. Pete operated a cafe here during 1919 and 1920, being located in the John Winston building now occupied by the Rawson tin shop. Leaving here in the latter part of 1920 he was in business in Ranger, then later located at

Cisco Couple Are Parents of Girl

Mr. and Mrs. Curtis Yancey are parents of a daughter, Kay Annette, born Friday at their home. Mother and baby are reported doing nicely. Mrs. Yancey is the former Miss Opal Sutton.

Mr. and Mrs. R. J. Butts and daughters, Barbara and Roberta, of Covington, will spend today and Sunday with Mrs. Butts' parents, Mr. and Mrs. O. J. Russell.

Mr. and Mrs. L. E. Boyd and children, Patty, Emily Joe, Billy and Jack, of Odessa, are here for a week's stay with relatives and friends.

Miss Anne Buckley is spending the week-end in Dallas.

Houston where he recently disposed of his cafe business. He will remain here for the next two weeks.

Girls Honor Miss Haynie With Shower

Honoring Miss Jessie Lee Haynie, who is to be married September 28 to Mr. Arthur Gutierrez of Vancouver, Washington, Misses Edleen Armstrong, Mary Louise Poe and Betty Lou Powell entertained with a personal shower in the J. E. Armstrong home Wednesday evening.

A pink and white color scheme was employed in floral decorations and all appointments. Large baskets of flowers in artistic arrangements decorated the rooms.

The dining table was laid with a Madeira cloth and in the center was placed a mirror, bearing a rectangular crystal bowl containing verbenas. White candles in crystal holders were placed at either end of the centerpiece.

The guests were greeted by Miss Armstrong, then registered in the bride's book, presided over by Miss Powell. Miss Poe poured punch.

Those who attended or sent gifts were: Misses Catherine Dragamis, Inka Sherman, Bettyrue Logan, Betty Rose McBride, Jeanne Jamison, Alice Slicker, Catherine Mae McDaniel, Betty Lou Powell, Zona Surles, Katherine Loftin, Dorothy Slaughter, Mildred Kimmel, Jane Moore, Myra Jean Tompkins, Betty Jane Wilkey, Violet Elliott, Anna Jo Tableman, Billy Cole, Marie Hunterman, Wynema Bond, Nanella Bible, Alice Spencer, Ruth McKissick, Cathryne Russell, Larline Poe, Dorothy Jean Walker, Marilyn Shertzer, Lillian Spears, Jane Gilman, Helen Dragamis, Mary Sue Mobley, Marie Tune, Brenda Warwick, Freda Fern Erwin, Betty Mae Davis, Marjorie Moates, Laverne Hampton, Nadine Huestis, Mary Elizabeth Wright, Melvina Heyser, June Morehart Wood, Octavia Jones, Misses Eldon Anderson, Marston Surles, Kessler Thomas, Jack Abel, Oliver Thomas, J. F. Benedict, J. E. Caffrey, James Haynie, J. E. Armstrong, and R. L. Maddox of Mexia.

Sewing Club Meets With Mrs. Crawford

The Stitch and Chatter club met in the home of Mrs. W. E. Crawford Thursday afternoon. An enjoyable afternoon was spent in quilting, and refreshments were served.

The group will meet Thursday, September 3, with Mrs. H. L. Jackson, 500 Avenue H.

Those present were Meses Jay Warren, W. W. Sledge, H. L. Jackson, C. L. Nix and the hostess, Mrs. W. E. Crawford.

GUESTS HERE

Mr. and Mrs. Herman Reimer have as their guests Mr. Reimer's brother and his wife, Mr. and Mrs. J. A. Reimer, and Miss Millie Knowlton of New York city.

Values on Oil Production Are Assessed

"Every county in the West-Central Texas district assesses a value on oil production and oil properties, for both county and state ad valorem properties. Every school district in which oil production is located also assesses an ad valorem value on these same properties."

"This assessment is worked out on the basis of so much per barrel being assessed against each well for each barrel of oil produced on an average day during the year. In addition to this per barrel levy, a valuation is also placed on all pipe, pumping equipment, and other physical properties used in producing oil. On top of this, the landowners who receive royalty payments also have their royalty interests assessed a value, and the total of the county and state ad valorem tax rates are applied to this total valuation."

"For instance—in Jones county, oil production is assessed on an average valuation of \$250.00 per barrel per year. The average well in Jones county has an average daily production of approximately 13 barrels per day. This gives an ad valorem valuation for state and county tax purposes on the production of the average well of \$3,250.00."

"To this is added a valuation of \$1,250.00 per well for equip-

ment. This makes a total of \$4,500.00 ad valorem valuation for the average well in Jones county. To this total is applied the total of county and state tax rate, which for 1935 was \$1.37. This figures out a total of \$61.65 state and county ad valorem tax for the average producing oil well in Jones county."

"In addition, the average producing well in Jones county pays a total of \$35.00 per year school tax to the school district in which the well is located. This runs the total direct ad valorem tax to over \$90.00 per year per well. Approximately the same formula is used in setting up ad valorem values, in not only all of the other counties of the West-Central Texas district, but also in practically every other oil producing county in the state."

"We have not yet found an instance where any person, who was contending that the tax on oil raised, who admitted that there was any such thing as the oil producers and the oil production in this state paying any ad valorem tax. The records of every producing county in Texas will show that this is being done."

"Some people, who admit that the 'stripper' wells can not pay any further taxes, contend that there should be a sliding scale on the gross production tax on oil production. In other words, they offer the idea that the small wells could pay a small amount per barrel, and that as the production of the wells increase, the tax should be increased."

"This idea is unsound for two very practical reasons. The first is that such an arrangement

would not be "equal and uniform taxation." The second is that the added expense that would be necessary to keep daily records on the production of every individual well in the state would be so great that any differential in the per barrel tax would be more than absorbed by the added expense of this detail and routine."

"All the people of West-Central Texas, and of the rest of the state, have the fond hope that they, as individuals, will get more direct benefit from oil production. Every person who owns as much as an acre of land dreams that some day someone will drill an oil well on his property. Every business and professional man in every town in the entire state looks forward to the time when he can enjoy the benefits of increased business brought about by oil development."

"The West-Central Texas territory is now enjoying widespread and marked benefits from petroleum operations. This activity now accounts for the largest single contribution to the economic welfare of the 19 counties of the West-Central district than any one source of revenue."

"In spite of contracted markets and increased costs of operations, the industry will continue to be of proportionate benefit to all of the people of this district, unless a majority of the people are taken in by the demagoguery of uniformed and misinformed agitators."

Industry Grows At End of First Year of War

NEW YORK, Aug. 31 (AP).—American industry headed Saturday for the second year of the war under momentum of a rising production trend, propelled by increasing arms spending.

The late summer upturn seemed to gather speed this week in some markets and industries. Wall street, after the quietest summer in many years, felt an early touch of autumn pep. Stocks and bonds joined the forward march in more active trading.

Worth street—textile trading center noted for its ability to sense how the business winds are blowing—saw an unusual run of buying just before Labor day, when things ordinarily are dull in the wholesale markets.

Swollen war industry payrolls made the cash registers ring out tunes of better business in many communities as cool weather sent big crowds of shoppers into retail district for autumn clothes, household goods and school supplies.

Dun & Bradstreet estimated the late August turnout lifted retail gains 7 to 13 per cent above comparable figures a year ago.

Where much of the increase in purchasing power came from was evident in the July employment figures of the national industrial conference board, a research organization supported largely by industry. The board reported 232,000 workers found jobs in construction industries, the largest gain for any sector of industry during the month.

Federal contracts for naval, air and army bases, together with new defense factories, sped building into the busiest autumn in a decade.

Residential construction at defense centers likewise contributed to the nation's growing industrial payrolls. The Associated Press index of residential building—on the uptrend for months—climbed to a new peak for the year at 107.1 per cent of the 1929-30 level compared with 95 a year ago.

Showing effects mainly of expansion in war and allied industries since the fighting broke out in Europe a year ago, the Associated Press industrial index moved up to 109.8 per cent of the 1929-30 level from 109.0 the previous week.

A year ago, on the threshold of the boom in raw material and with wholesale markets under the initial stimulus of war demand, the index stood at 95.8.

Next to auto accidents, drowning and burns are the principal causes of accidental deaths in the United States.

Hunters Will --

(Continued from Page One)

feed largely upon croton, and this crop is undeveloped due to lack of water during the late season, the seeds being less than 10 per cent normal.

Sportsmen are reminded that the combined state and federal regulation provide an open season from Sept. 1 to Oct. 31, in the counties of Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Haskell, Throckmorton, Young, Jack, Wise, Denton, Collin and Hunt, and all counties to the north, and also the counties of Parker, Tarrant, Dallas, Rockwall, Kaufman, John-

DON'TS FOR DOVE HUNTERS

AUSTIN, Aug. 31 (Sp).—With dove hunting under way, DON'TS which, if followed, will save sportsmen considerable trouble with state and federal game wardens have been formulated by the Texas game department's executive secretary. They include:

Don't shoot doves before sunrise nor after official sunset.

Don't shoot from a car, or along a public road.

Don't shoot doves with any gun except a shotgun larger than ten gauge.

Don't forget to plug your gun permanently to three-shell capacity.

Don't forget your hunting license if you leave the county of your residence.

Don't kill more than 12 doves per day and do not have more than 12 in your possession, white wings and mourning doves.

Don't forget to clean your gun well before taking that first hunting trip of the season.

Don't shoot when you can not see; there might be another hunter behind those trees.

Don't leave gates open, and always get permission to hunt on private land; the trespass law is rather severe.

Don't forget that the quail season does not open until December 1.

son, Hopkins, Ellis, Delta and Franklin.

In the remainder of the state the open season on both species is from Sept. 15 to Nov. 15. Below the Texas-Mexican railway in the Rio Grande valley, however, only four days of shooting each week during the season is allowed by law—on Tuesdays, Thursdays, Saturdays and Sundays—but this exception is not applicable to Webb and Zapata counties.

Shooting hours are from sunrise to sunset. Last year they were from 7 a. m. to sunset.

Neither species may be shot with a gun other than a shotgun, and shotguns larger than No. 10 gauge are prohibited. Repeating or automatic shotguns must be permanently plugged to a three-shell capacity.

The daily bag limit is 12 in the aggregate of both species and the possession limit is the same. Last season the limits were 15. Baiting of doves of either species is prohibited.

While the dove season is expected to be one of the best in a decade, only a reckless person would hazard a prediction on other kinds of hunting, especially deer. While all reports to the executive secretary indicate an increase in deer, turkey, quail, squirrel and javalina, the weather will have much to do with hunting conditions for several species of game. Last year, the temperature remained so high

that little good deer hunting was possible until the closing days of the season, when a cold snap started the deer running.

NAZIS WILL SET UP AIR BASES IN RUMANIA

BUCHAREST, Aug. 31 (AP).—The establishment of German air bases and headquarters for Nazi tank corps and motorized units on Rumanian soil was reported by government circles Saturday to have been agreed upon at the Vienna conference Friday which gave half of Rumania's Transylvania to Hungary.

German planes and soldiers had not put in an appearance in Rumania Saturday, although the Rumanian general staff began mobilization of most of the Balkan kingdom's 1,300,000 men under arms.

Other plans were being rushed to vacate the Northern Transylvania area, ceded to Hungary by the axis powers in an arbitration award. This must be completed in 15 days.

The aroused Rumanian population in Transylvania carried on incessant demonstrations of protest to the government's capitulation.

Tens of thousands of Rumanian peasants flocked to Cluj, ancient Transylvania capital. Here and elsewhere in Transylvania there were frequent anti-Fascist outbreaks with Italy blamed largely for "selling out Rumania," as one speaker put it.

Many Transylvanian groups sent telegrams to King Carol declaring they would refuse to abide by the Vienna decision. An "armed defense corps" will be organized quickly they said.

The tension in Bucharest itself was sharpened by the resignation of minister of public health Vasile Noveanu, an iron guardist, who stepped out as an admission of his "grave error" in agreeing to the Vienna award.

In a dramatic address to King Carol and his 40 closest advisors at a crown council Noveanu declared he had no inkling Germany would impose such an "injustice" on Rumania.

At public mass meetings in Transylvania those who signed the agreement were branded as "traitors." Church bells tolled throughout the night in doleful protest.

Funeral Held For Father of J. C. Hunter

ABILENE, Aug. 31 (Sp).—Joseph A. Hunter, 80, father of J. C. Hunter of Abilene, died at his home at Olden at 9 o'clock Friday night.

Funeral services were held at Eastland at 4 p. m. Saturday. Burial was in the Davidson cemetery at Strawn at 5:30 p. m.

Mr. Hunter was a native of Texas, born in Leon county, June 15, 1860. Most of his life was spent in the farming and road construction business. He had resided in Palo Pinto and Eastland counties 65 years. His health had been failing for the past two years.

Surviving Mr. Hunter are five sons and three daughters, a brother and three sisters. His wife died

Art, Like Mahomet Goes to Mountain

BIG STONE GAP, Va., Aug. 31 (AP).—An art center here in the heart of the Appalachian mountains is bringing art to people who had been 200 miles from the nearest gallery.

The art project, placed by the WPA to study its effect in a community where no painting had existed, drew an attendance of 12,745 in 1936, when it opened and increased to 30,818 in 1939. Average daily attendance in classes is 100, and at exhibitions, 30. Children and adults participate in all activities.

The oldest students is 62, and the youngest five. One "graduate" of the project is studying art in college, with the support of the community.

Exhibits include works of outstanding contemporary artists and local classes. Twenty portraits of judges and court clerks have been painted for courthouses of the area. Weaving, handicrafts, wood-

working and modeling are taught as well as painting.

RUSMAN'S HOLIDAY

MOBERLY, Mo., Aug. 31 (AP).—W. T. Giles and F. M. Rouch, road mechanics, built a streamlined train model, working a in their spare time. It's a powered and capable of carrying 24 passengers in three cars. It said the job was fun.

Railway history in Italy began in 1839, when a five-mile line opened between Naples and Portici.

A Nazi bomb wrecked her home, blasted most of the earth covering off the family air raid shelter—but this London housewife came up smiling. The bombproof lived up to the promise of its name.

Baer Gets \$30,000 for Fighting Him

Max Baer is guaranteed \$30,000 for fighting Patrick Edward Comiskey at Roosevelt Stadium, Jersey City, the week of Sept. 23. Comiskey, shown being rubbed down by his trainer, Johnny Lane, is a 19-year-old Elizabeth heavyweight with a remarkable knock-out record.

German Bomber Felled by Rifle Fire

A German bomber, which was shot down by anti-aircraft fire, is shown on the ground. The aircraft is heavily damaged and is surrounded by soldiers and equipment. The scene is set in a field with trees in the background.

TAKING THE IF OUT OF LIFE

From the time of Hippocrates (the Greek physician who lived about 350 B. C.) until a comparatively short time ago, the physician devoted practically all his time to curing disease AFTER it had developed.

More and more doctors are practicing Preventive Medicine, which is nothing more nor less than the PREVENTION OF DISEASE. As knowledge of definite causes increases, disease falls back before the advance of scientific medicine.

What has become of Smallpox, which was for centuries the scourge of the world? Vaccination is practically wiping it out. What has become of those great fatal epidemics of Yellow Fever and Diphtheria? Scientific medicine has all but eliminated the one, and will gradually eliminate the other as the public co-operates more fully toward prevention.

More recent victories of Scientific Medicine in the fight against sickness are discovery of Insulin for control of diabetes, and discovery of liver and ventricular for pernicious anemia. Many victories remain to be won, but, as you read this, scientific men of medicine are laboring to conquer those yet unconquered diseases.
