## Success Has Its Price

By NEA Service  
Being successful really means the discovery of a new world of freedom and responsibility according to Anne Nichols, author of "Able's Irish Rose."

"Success really is no easy thing if a person is genuinely interested in the philosophy of living life and the happiness of his fellow-men," Miss Nichols says. "Position a good wealth attracts the attention of the whole world and it comes knocking at one's door for help, aims and advice."

"One day a large club asks for support in a philanthropic undertaking, the next day ten professional beggars write letters asking for money, the next day somebody very worthy who is suffering comes to me for attention and I have the chance to do something definitely good. I personally have had to guard against fraud and to be alert for the worthy. None of these dare I turn aside without consideration, for I feel success has its price and I must take its responsibilities."

"Though I pay for the privilege with concern and worry, I get my return in satisfaction and the pleasure in knowing that my life is still going on and has not stopped midway."

## Solving Nursing Problems Of Families Of Middle Class Work Of Young Nurse

NEA Service Writer  
NEW YORK, May 9.—Getting a trained nurse by the hour, instead of having to hire her for the whole day, is the new solution to the "financial problem" Mrs. Average Mann has when her sick and needs nursing care.

The nurses themselves are advancing the new plan of hourly nursing in small or large quantities, depending on the needs of the patients.

Rich folks, they say, always can go to hospitals and stay there until they are well, or can have private nurses day and night at home. Poor folks get the expert care of the city's visiting nurses. But Mrs. Average Mann is caught between the two and either has to stretch the budget painfully to get a nurse in or go without the care he needs.

Favored by Organization  
"It is possible now in many cities to secure nurses for 1, 2, 6 or 12 hours, as the patient needs her," Miss Janet M. Gester, headquarters director of the American Nurses' association, explains. This organization, with its 70,000 nurses throughout the country is taking an active interest in the new project of hourly nursing.

"Private duty nursing when a nurse moves in and spends 12 hours a day on the patient's bedside back to the day 25 years ago when nursing was not the technical profession it is today. It belongs to an age when everyone lived in a house with spare rooms and when women with plenty of time and little scientific training were only too glad to move in and stay as long as needed to longer. Nowadays, the small apartments and comparatively small incomes of great masses of so-called "middle class" persons make retained nursing a prohibitive thing.

"Chicago, San Francisco, Gary, New Haven, Detroit and a half dozen other cities are trying out the hourly nursing most successfully. Charges vary from \$1.50 to \$2 an hour for the first hour and from 50 cents to \$1 for every other hour, with three consecutive hours the maximum with any one person.

"Mrs. Smith, just home from the hospital with her first baby, has the nurse and daily bath. Tommy, two years old, has the nurse to dress him. Others nearby have her services also. A dressing changed here, a bath for an aged, bed-ridden mother there; a temperature bath for the fever patient—these are the needs that an hourly nurse satisfies perfectly, and at little cost.

"The new plan would benefit nurses as well as the 2,300,000 persons who, according to statistics, are sick yearly. In spite of the high cost of nursing to the patient, under the regular 12 hour system, it is estimated that the average annual income of the private duty nurse is only \$1,365. Four months of each year are estimated wasted in this profession which has the disadvantages of seasonal occupations.

Full Time Work  
Under the hourly nursing system, one can phone the central hourly nursing organization and get a nurse whenever wanted. And the nurse connected with the plan would have full time employment. The organization responsible for the new system might be either a joint committee from the Visiting Nurse association and the nurses in the district association, as it is in Detroit, or some other combination or organizations. Visiting nurse associations, central registries and other official organizations all are experimenting along these hourly nursing lines.

"Each city would work out its own organization, for this new departure is a community affair and will be developed as each city wants it."

## Moody Urges Giant Bureau For Farmer

SAN ANTONIO, May 9 (AP).—Organization of a south-wide bureau which he said would balance the forming program and handle the cotton situation was advocated by Governor Dan Moody Wednesday in an address before the Texas Bankers' association here.

By organization of such a bureau, the governor said, the ratio of the various products raised by the farmer could be maintained and a better market established. There would not be too great a production of any one product to crowd the market.

The banker, Mr. Moody said, is the guardian of the money for investment, therefore is a great influence in the agricultural and live stock industry. By wisely guarding

this investment and bring diversification, the banks make Texas the first state union.

## "We Can Now Get The Things We Want and Have Money Left."

We were planning to open one of our stores in a far Western town, and the usual announcement had been made in the newspapers of the city. Shortly after that one of our good customers in an adjoining state received the following letter from her niece:

"We are so glad that we are to have a Penney Store here. We can now get the things we want and have money left."

Well expressed, isn't it! We couldn't have done better if we had written the letter to order. For after all that is exactly the aim of every Penney Store—to give you the things you want and then let you depart with some money left over.

Of course we try to serve you courteously and efficiently. A Penney Store is a "homey" place, too, but the solid rock on which we founded our business is giving the people what they want at a price they can afford. You can't beat it.

HUBBERS' HEAVY ARTILLERY WINS OPENER FROM HAMLIN 12 TO 2

JINX HELD ON SOUTHPAWS IS VERY EVIDENT

SCALING DRIVES TWO OUT OF PARK FOR CIRCUIT CLOUDS

The Hubbers have a jinx on left handed choppers and again yesterday afternoon the homecoming swat-smiths drove Oscar Fonken, pitcher of the Pied Pipers sharp-shooting staff, from the hullock in the sixth after a barrage of base hits, only to be relieved by Meyers who fared no better against the Hubber war notes, to win the opening game of the Hamlin series, 12 to 2.

Sam Scalings, keystone for the homebats, cracked out a pair of full circuit clouds in yesterday's game, one over the right field wall in the sixth off Fonken, and the other in the eighth over the left field barrier from the offerings of Meyers.

Raymond (Red) Hill, skipper pro-tem of the Hubbers who has been pushing the locals on to the top of the pennant chase will take the mound today this afternoon against the re-stamped Pipers of Hamlin.

THIS SUMMER WILL BE EASY ONE FOR RING CHAMPS WITH FEW CHANCES FOR LOSING CROWNS, HENRY FARRELL SAYS

By HENRY L. FARRELL, NEA Service Sports Writer. OUT of the seven or more of the championship fights that Tex Rickard is arranging for the summer amusement of the customers there should come one or two new champions. That is, if there is anything in what the boys call the law of averages or tribal agreements limiting the tenure in a pugilistic office.

Looking back over the files it can be seen that Rickard is almost bound by word to produce three or four new champions out of his extravagant program for one in one of those moments when he becomes author he named some of the boys who are now booked to work for him as being over- due for a successor.

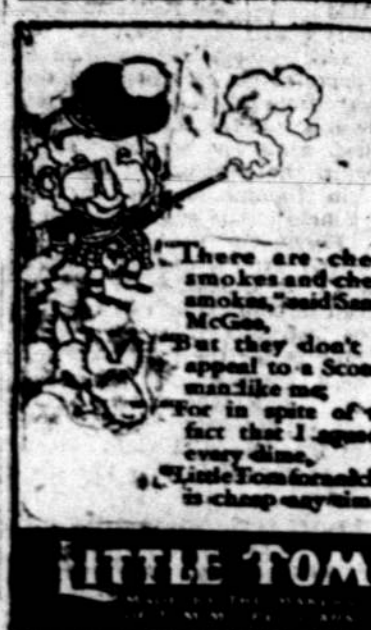

It is quite likely that Rickard has changed his mind by this time and that those who agreed with his expert appraisal of the fighters last winter have changed their minds too.

That goes for Mandell, too, as who believe that the handsome lightweight champion is one of the most underestimated and most underrated fighters of the day.

McGraw seems to be fond of Cohen, and that will be of help to the youngster. It would be silly for McGraw to allow his temper to lose patience with Cohen, but he certainly didn't spare Frisch when Frisch was a recognized and established star.

McGraw lived down the transfer of Frisch and he will live down the swap of Hornsby, even if he didn't have anything to do with the deal. Hornsby wasn't a particular idol at the Polo Grounds and if Cohen only plays an occasional nice game on a Saturday or a Sunday, the club will do very well by him and with him.

take the flyweight championship from Izzy Schwartz. Tod Morgan might be plastered if he were defending the jun lightweight championship against any one other than Eddie 'Cannonball' Martin.

WESTERN TRIP IS DISASTROUS FOR NATIONALS

ALL FOUR CLUBS DROP TUESDAY GAMES IN OPENING SERIES

Thus far the first east-west series has served to bear out pre-season predictions that the National League race of 1928 would develop into a tree-for-all battle involving six or more of the eight clubs.

The New York Giants and Brooklyn Robins went into the west with a firm hold on first and second place, respectively, chiefly because of cut-throat competition among the western teams.

The Cincinnati Reds took advantage of Ed Brandt's wildness to score a 7 to 2 win over the Boston Braves. The Reds tallied four runs in the sixth on two and five passes. Higginbotham had a busy day making three hits, one a homer, and handling eight chances in the field without a bobbie.

The Cubs ran their winning streak to four games by turning back the Robins, 4 to 3. Percy Jones having the edge on Jess Petty in a pitching duel. Kiki Cuyler, injured hand and all, returned to the Cub lineup and drove in two runs.

The Athletics moved up to within two games of the leaders by noosing out the St. Louis Browns at Philadelphia, 4 to 3. Cobb scored the winning run in the seventh on Joe Judge's safe hit.

A four-hit pitching masterpiece by Ed Morris, carried the Boston Red Sox past the Chicago White Sox, 5 to 1, and out of the cellar. The Sox, losing their seventh straight game, dropped into last place.

Billy Evans Doesn't HE HAS A FINE PLAN Want So Awful Much

By BILLY EVANS. If it were possible for a major league club to use one player in the field and another athlete at the bat, the Cleveland Indians would be the best fortified team in the majors at this base.

Unfortunately for the Indians, such a procedure is contrary to baseball law and time will have to work out the third base problem now confronting Manager Roger Peckinpaugh of Cleveland.

In Johnny Hodapp-Cleveland has one of the best hitting third sackers in baseball. He is a natural batsman, and doesn't seem to have any particular weakness. He is greatly feared by American league pitchers and, consequently, is a player who, from an offensive angle, very necessary to the lineup of the Indians.

It was five years ago that I first saw Johnny Hodapp at Plant City, Fla., as third baseman of the Indianapolis team of the American association. At that time I marveled at his fielding far more than his batting. I predicted a major league career for him within a year and he made good for me.

In his first year in the majors Hodapp suffered a broken leg and while the doctors say the limb is as good as ever, it apparently has had a certain detrimental effect on his fielding. One still finds Johnny limping a bit, although he tells you the leg bothers him in no way.

Despite this handicap, Hodapp measures up to major league standards as an infielder and of course has the inside track to the third base job.

Hooks and Slides

After the finish of the 1926 season when Rogers Hornsby was traded away from his champion St. Louis Cardinals to the New York Giants, there was a winter long discussion as to what the Cardinals would do without him.

The Cardinals answered their own question last year. They found that Frank Frisch did more than well as a replacement for Hornsby. The Cards failed to win the pennant, of course, but it was not through the loss of Hornsby or because of Frisch's failure.

Most everyone admitted that Cohen had shown the game to field the position as well as Hornsby had done, but not so much was said for

# TOM BLANTON TO SPEAK HERE IN STATE CAMPAIGN

Congressman Thomas L. Blanton, candidate for the United States Senate from this senatorial district will speak in Lubbock tomorrow night, according to word received here late yesterday. His address here marks his first appearance in this city on a political speaking tour and will be made purely in the interests of his campaign for the place. The time and place of his address was not announced today but it is likely that it will be held in the district court room at about 8:15. He is speaking in Big Spring and Stanton, today and will make short talks in Lamesa and Tahoka tomorrow before speaking here. Friday will find him in Post and Snyder while on Saturday he will talk in Colerado and Merkel, making morning speeches at 11 o'clock, afternoon at 3, and night speeches.

# Olton Delegation To Attend Session

OLTON, May 9.—The Olton delegation will attend the meeting of the district convention of the West Texas Chamber of Commerce held at Lamesa May 10. They will be dressed in the usual overalls dress for which they are noted. A good stunt is planned, however the nature of the stunt is kept a secret. It is expected to be a knock-out.

On the other hand, they do not lack for any support in the convention from the 40 Texas delegates to be chosen in Beaumont. May 22 County Conventions held in that state yesterday indicated a big majority of the state convention delegates would be instructed to work for a dry plank in the democratic platform.

Early signs from the Alabama democratic primary yesterday indicated that Smith was making a losing battle there for a block of the 24 state delegates.

Smith's delegate total, however, will take another jump today when Michigan democrats in convention give him their 30 delegates. The New York governor was unopposed in the preference primary in that state in April. His total slate of pledged and claimed delegates thus far will be raised to 547 1-2, counting Delaware's six chosen yesterday as unopposed, but claimed, for Smith.

Hoover's total will be boosted to 438 pledged and claimed delegates when Maryland republicans swing 19 to his credit in convention later this month.

The life of a pioneer aviator, six years of study and research, \$100,000 in cash—that was the cost of the tragedy pictured above. Leonard W. # MOODY FORCES WIN IN DEMO MEETING HERE

# PLEDGE TO DRY PLANK IS MADE IN COUNTY CONVENTION

Governor Dan Moody's "harmony" program, favoring a prohibition enforcement platform and carrying instruction for a dry candidate rather than a negative instruction and that Texas Democrats vote in a unit in the National convention received unqualified approval here yesterday in the session of the Lubbock Democratic convention held in the 99th district court room. Approximately 300 were present for the convention which moved through its proceedings unopposed and apparently unopposed, the refusal of delegates from Slaton precincts 24, 25 and 26 to sign the party pledge for participation in the convention, being the only marked opposition.

Republicans denounced Resolutions denouncing the Republican party for bribery graft and corruption in high office and especially in the administration during the past eight years, was a high point in the action of the resolutions committee.

Reversing the order, the Lubbock County Republican convention commended the Coolidge administration in its session as one of tranquility, just and prosperity and deplored the action of Democratic party members in following the "grandfather" plan of politics, that of voting the party ticket just because their fathers did.

23 Delegates for G. O. P. Twenty-three delegates from eight precincts in the county were present for the Republican convention which also went through its business in machine-like speed. J. E. Edwards, of Slaton, was se-

lected as a Republican delegate from this county to the state convention in Dallas and Mrs. John L. Vaughan was selected as alternate.

A Republican primary in the next election was predicted by speakers in the convention, the present increasing popularity of the party in the state being referred to.

County Democratic Chairman Frank E. Wheelock called the Democratic convention together and was immediately selected as permanent chairman of the meeting. C. W. Rathiff was selected as secretary.

38 Demos Qualify Before entering the business of the convention Mr. Wheelock called for the qualification of the delegates, that of signing the party pledge. Thirty-eight delegates qualified.

J. H. Godman, W. A. Jackson, L. O. Burford, E. C. Foster, J. K. Wester, G. M. Eubanks, W. R. Buchanan, J. T. T. Garrard, John L. Rathiff, W. W. Campbell, E. L. Klett, D. W. Huckabee, Marvin L. Warlick, S. P. Horne, C. V. Young, W. M. Ross, R. A. Logan and Pink L. Parrish were selected as delegates to the state Democratic convention in Beaumont by the nominating committee. Their names were approved by the convention.

Window shopping through the world

Looking around, comparing, deciding on colors and flavors and textures and designs—"shopping" for many of us is half the fun of buying things and having them.

But before anyone definitely can say "I like that—I'll take it" in order to spend money wisely, some "looking around" must be done.

Looking around by reading the advertisements saves time and trouble and money. For advertisements are the shop windows of a world of merchants.

The advertisements picture, describe, explain the merchandise and the new ideas that are displayed and talked about from Maine to California.

## ALL OF BODIES RECOVERED IN CANAL MISHAP

### ONE STILL MISSING IN STRANGE CASE; ONE BELIEVED ALIVE

(By Associated Press) NEW ORLEANS, May 9.—All of the nine persons who were in Peter Licaut's automobile Sunday afternoon when it left the Hammond-New Orleans highway 25 miles north of here and went into a canal, were accounted for today when Licaut's body was taken from the canal a quarter of a mile from the scene of the tragedy.

The bodies of eight, all relatives of Licaut, were recovered yesterday within a few hours after the car was located in the canal.

**Discovered Tuesday**  
The accident was discovered late yesterday when a negro moss gatherer in a canoe observed the body of Miss Annie Tuminello, one of the victims floating on the surface of the canal. State highway police who had been brought into the search for the missing motorists, were in the vicinity and immediate recovery of the bodies, jammed under crates of strawberries in the closed car, followed.

Divers, who removed the bodies and then raised the car from its upright position in fifteen feet of water, expressed the opinion that the victims had not the barest chance of escape, with the possible exception of the driver, Licaut. The window at the driver's seat was open.

**One Believed Escaped**  
A search was started on the neighboring swamps with the circulation of a rumor that Licaut might have escaped from the automobile and becoming crazed over the tragedy, lost his way in a swamp.

The bodies recovered were: Mrs. Mary Licaut, wife of Peter Licaut; their children, Michaela, 6, Josephine, 4, and Vito, 2; Mrs. Samuel Tuminello, 45, Annie Tuminello, 20, her stepchild, Casper Tuminello, 7, her son, and Michael Canlarro, 65, her father.

## TWO MEXICANS HURT TODAY IN KNIFE BATTLE

### ONE SEVERELY INJURED, OTHER IN JAIL AS RESULT OF SCRAP

One Mexican worker on the Fort Worth-Denver line into Lubbock, Lavardo Torres, is being held by members of the sheriff's department here and a fellow worker whose name was not learned, lie in a serious condition at the construction camp nine miles northeast of Lubbock as a result of an old fashioned knife fight in the camp about 11 o'clock today.

**Claims Was Attacked**  
According to Torres' version of the fight given to local officers, the other Mexican, cursed him as they went into the mess hall and then struck him with an open knife as they came out several minutes later. The fight followed: Both used long bladed knives. Torres has knife wounds on his head, a stab in his right arm muscle above the elbow and three severely lacerated fingers on his left hand.

The other Mexican is suffering from deep stabs in the abdomen and chest, it was said. Torres was brought to Lubbock by Deputy Sheriff J. E. Holmesley of Deakus who was called by railroad officials to the fight scene. His wounds were dressed soon after his arrival here. The other Mexican is being treated at the camp by a physician this afternoon, fear being given for his recovery.

## Accused Negro Is Held To Be Insane

HOUSTON, May 9 (AP)—Moses Chryar, negro preacher, whose electrocution had been ordered for next Tuesday, was placed in the insane ward at the county jail Wednesday after a jury in Judge Whit Boyd's court had found him insane.

A many pointed crown, a wand tipped with a star and a lantern of ancient design, all of iron, were among the exhibits introduced by the defense to show Chryar was of unsound mind.

# J & K ARCH FITTING SHOES

Footwear worthy of the feet of a truly smart woman should have a subtle "difference". J & K Arch Fitting Shoes are "different" because they do not reproduce a style. They interpret it. J & K Shoes are "different" because they do not merely achieve a general effect of comfort. They are especially constructed for the absolutely perfect fitting of the arch, so that every graceful line of the foot, every revelation of its daintiness is heightened. You will appreciate how completely "different" J & K Shoes are when you see our showing of the new J & K Models—and even better when you try them on.

editor told the police that  
the six feet tall dressed in black  
and wearing a black hat had  
at his hotel, and at the point  
gran had ordered him to stop  
ation. When he refused, he

said, the man ordered him to ac-  
company him under threat of death.  
A short distance from the hotel  
they met two other men and after  
entering a taxicab he was blind-  
folded and his lips sealed with ad-  
hesive tape.  
They drove about the city for  
about 25 minutes, he said, and then  
he was led to the second floor of  
a building where the blindfold and  
tape were removed. He was locked  
in a dingy room, lighted only by  
candles and the windows boarded,  
and in the five days was given only  
ham and egg sandwiches to eat and  
coffee. Last night, he said, the men  
again blindfolded and gagged him,  
placed him in a taxicab and again  
drove about the city for 25 minutes  
before he was thrown out of the  
cab.  
LLANO (AP)—More than 40 car-  
loads of vestings, valued at \$80,000  
have been shipped from here the  
past few days. Oklahoma and  
Kansas firms were the purchasers.  
LAMPABAS (AP)—Ten cars of this  
season's motor have been shipped  
from Llano.

Prof. Frank Schlesinger, director of the Yale University observatory, doubts very much that we ever will get into radio communication with the inhabitants of Mars.

Nearly one in every three cases of juvenile delinquency involves children from a broken home, according to figures compiled by Esther Sternlieb of the University of Wisconsin as the result of a five year study.

THE PLAINSMAN
Says:
That Girl on Broadway says the trouble with people who try to say just what they think is that they usually say more so.

Speaking of street lights reminds me of a fellow who was talking to me about the City Commission's consideration of additional street lighting.

There must be a kink in the brain of Owen Oberst. The boy cannot be rational. No one sane in mind would slay seven people.

As the Plainsman sees it each successive murder reacts upon the public very much as each successive bite from a mad dog upon its victims.

Well, Al Smith has milked a cow. Guess that makes him all O. K. with the farm people.

WASHINGTON, Mar. 9.—The rest of the government again is learning who's boss in the House of Representatives.

Women made up a noticeable percentage of those attending the democratic precinct conventions Saturday afternoon, but at most of the boxes they were given a snubbing that was just as surprising as their liberal representation.

SUSPECT IN GIANT ROBBERY IS SLAIN

CHICAGO, May 9 (AP) - Willie Jackson, 28, sought by police and federal authorities as a suspect in the recent Evergreen Park train robbery, was found shot to death beside a new automobile early today. His identity was established by fingerprint experts.

There were no marks of identification on the body and police at first believed him to be a victim of a bootlegging feud. His car carried a New York state registration plate, which led to the theory he was from that state.

Three members of the train robbery gang are now awaiting trial and the authorities were of the opinion that Jackson may have been slain for not playing square with the gang.
