

School Trustees Extend Contracts

Olton School Trustees renewed the contracts of three principals and called an election to fill two spots on the board. The action came at a regular Tuesday meeting of the group.

Contracts of High School principal Joe Turner, junior high principal Carl McClure and elementary principal Fred Gordon were all considered and approved at the meeting.

The group also called the trustee election for April 1. Terms of board president Win-

ston Bley and board member O. J. Neeley expire this year. Both men later said they will seek another term on the board.

School Supt. Ray Schultz told the board that Olton may lose two teaching units as a result of this year's enrollment drop. Schultz made the remark in a report on attendance during the board meeting.

Schultz said Olton had 1,197 students enrolled as of Feb. 3. This compared to approximately 1,275 last year at the same time.

The number is also a drop of 120 from the high of 1,317 reached on Nov. 11 of this school year. It is also a drop of 26 from the total enrollment last month at the same time.

Schultz said the school was allowed 51 teacher units and three full-time principals by the State Education Agency at the start of the school year.

He said if attendance kept up at its current rate, the school would be allowed 49 teacher units next year, and one principal would be placed on a part-time basis, acting as a teacher in the remainder of his time.

In other moves, the board accepted low bids of \$250 from L. L. Duke, and \$305.75 from Tom Seawright on two separate buildings on the Bohner school site. Four bids were received on the buildings.

Schultz also reported that

lunchroom operations were running smoothly after a switch last month from two serving lines to one.

Reports showed that per day operating cost of the cafeteria had been reduced by the measure approved by the board last month.

In other action, the group approved the hiring of Mrs. Laura Bryan as art teacher under the Title I funds approved for Olton earlier. Mrs. Bryan attended West Texas State University and was engaged in commercial art work in Canyon before coming to Olton.

The board also approved a \$250 per year raise for Supt. Schultz and discussed a letter from a committee of the local Classroom Teacher Association.

The CTA committee had asked the board to review action taken earlier that cut the salaries of teachers absent from work for personal reasons that did not fall under sick leave requirements.

The board decided to table action on the proposal for further study.

NEW AUTO LICENSES are displayed here by Mrs. Charles Loveless, showing the different type of personalized tags. The tag on the left was ordered by Laui Hair, thus the LH and the four ones represent his four daughters. The tag in the center is the regular tag and the Olton tag is another type of personalized tag.

Hale Center Will Be Final Cage Opponent

Olton High cagers wind up the season Friday against Hale Center on Olton's home court.

In action last Friday and Tuesday, the boys downed Abernathy and lost to Dimmitt, while the girls dropped both their contests.

The Mustang win over Abernathy was the second this season over the Antelopes, a team which previously had never been defeated by Olton.

The Mustangs had an eight-point edge in the contest, 56-48. Jerry Harris was high point man for the Mustangs with 15, while Kenneth Johnson had 14. Pat Bodkin led the rebounding with 13 recoveries.

In the Dimmitt game, the Olton crew lost 77-51. Johnson was high point man with 11, while Bodkin was again the leading rebounder.

In the girls' contests, Abernathy took a 58-49 decision, while Dimmitt won by only two points, 45-43.

Karen Hipp was the leading scorer for the Fillies in the Dimmitt game with 18 points, while Kay Schultz picked up high point honors in the Abernathy contest.

The Friday night games with Hale Center will mark the final contest in Olton colors for three Fillies and four Mustangs.

Farm Fire Caused By Heat Lamp

Olton Volunteer Firemen were called to the J. D. Rodgers farm north of Olton early Monday morning, where a fire was started by a heat lamp being used to keep two sows and small pigs warm.

Rodgers, who was injured trying to fight the fire, was hospitalized with a cut leg and a nail puncture in his foot, along with numerous bruises.

The sows and litters of pigs were all killed and sheds were completely destroyed.

Karen Hipp, Kay Schultz and Donna Smith are all seniors on the Filly squad.

For the Mustangs, Jerry Harris, Roger Thompson, MacArthur Thomas and Jim Smith will all be playing their final game.

For the season, the Fillies

are 13-14 and will have a chance to end the season with a .500 mark.

The Mustangs are now 12-15 for the year. Both clubs possess a 2-4 mark for the second half of district play.

Three Candidates File For Council

Three candidates for two places on the Olton City Council were announced this week.

Incumbent Lester Thompson was one of those signing up, along with Bobby Daugherty and Jimmy Jenkins.

The terms of Parley Myers and Thompson expire this year, along with that of Mayor W. E. Thomas.

Myers filed earlier for the mayor's race.

Daugherty is a lifelong Olton resident. He and his wife Joyce have one son, Joe Bob, 12. He is employed as a painter

and he and his wife attend the Methodist church.

Jenkins moved to Olton in 1955 and operates a paint and body shop.

He and his wife, Uleta, have three sons, Thomas, 14, Jerry, 10 and John, 8.

Thompson and his wife, Wanda, operate a dry cleaning business.

They have two daughters, Mrs. Jimmy DeWayne Parish, and Cherie.

They attend the Methodist Church.

Vegetable Production May Solve Part Of Problem

Diversification. It may not be the answer to many farm problems, but it could prove to be one. The weaknesses of an economy based mainly on two crops was driven home to the Olton area specifically and the South Plains in general by a short cotton crop this past year.

Government payments which paid for acres not in use helped blunt what could have been a disastrous year financially for the Olton area.

But the next time we may not be so lucky. One of the answers could prove to be vegetable production.

Vegetables as a major money crop are already becoming more and more of a reality in many areas.

But vegetable-raising on a large scale needs to become a reality in the next few years in this area.

One of the main arguments against vegetable raising in the area is the shortage of labor. But this argument is becoming less and less valid as research on mechanical harvesting increases.

Two agronomists from Texas A&M last year discussed machinery already being tested in Arizona and California to harvest tomatoes.

No doubt research on machinery for other food crops is going on all over the United States presently.

Another argument is fear of a water shortage in the next few years. Since vegetable production generally requires a large amount of water, this argument carries a lot of weight.

But figures recently released by the High Plains Underground Water District showed Lamb County with less fall in the underground water table than only two other counties, Hockley and Lynn, both largely dryland counties.

Thus, while water will perhaps become a problem in this area someday, we're in good shape now.

Many farmers are already investigating the vegetable production field, but heavy consideration should be given to the idea now by many more.

Before another short cotton crop.

OBSERVATIONS OF A NEWCOMER

By MIKE WALL

The Sponge Is Back

Well, the sponge is back. I thought he had lost my trail after I left college, but it appears tain't so. The sponge is a mysterious little creature that causes mistakes to happen. We first noticed him in the journalism building at Texas Tech. The photography department handles all the picture-taking for both the school yearbook and newspaper and is quite large.

So, everything has to be carefully filed in order to keep up with it.

But we kept having mistakes for some reason or the other. Not a great many, but enough to wonder what was causing them.

Then someone noticed that whenever a mistake occurred, a small sponge used in the darkrooms was always somewhere nearby.

Of course we all realized that the mistakes and the sponge couldn't possibly have anything to do with one another. But just to make sure we took it out and buried it.

Everything rocked along pretty smoothly after that, but one day, a roll of film mysteriously disappeared. And what should appear in the building a few days later? The Sponge, naturally.

After that, we tried everything to make sure the Sponge didn't get too mad at us.

At first we cleared a space in the film cabinet to make sure he had a place to stay. In fact, we kept the cabinet locked just to make sure he stayed.

It didn't help. The next day a roll of film that was developed came out of the chemicals without an image on it.

And the Sponge was out of the cabinet

again. We finally decided the Sponge was just hungry, so we decided to feed it.

In front of its space in the film locker, we would carefully leave soft drinks and candy bars and sometimes a bologna sandwich. And when we came back, they were always gone.

Of course, some of the more skeptical members of the department thought that the head photographer was taking all the food. But they were the ones who thought the head photographer was also responsible for all the mistakes. We knew better.

After that, most of our mistakes cleared up. Oh, we had a few occasional slips. But when we found a mistake, we always checked to see if the sponge had been fed, and sure enough, usually, we would find that no one had bothered to leave anything in front of the film locker for several days.

I had all but forgotten the sponge until a short time ago when a roll of film mysteriously disappeared.

Now, I know that roll of film was on my desk and couldn't have just walked off and gone home.

Then, the next week, a line of type was left out of a story on the front page. It just couldn't be.

That ever-hungry sponge must have found out I'd moved to Olton and decided to pay a visit.

I haven't caught him in our darkroom yet. But just in case, we've started leaving an extra candy bar next to our film supply. Just in case.

ASK AMY

BY AMY ADAMS

SAY IT WITH A "MESSAGE"!

Dear Amy: The other day I asked my mother if I could buy my boyfriend a sweater for Valentine's Day, and she said that it would be better if I didn't. When I asked her why, she said that we haven't known each other long enough and well enough.

We've liked each other ever since last October. I am 17. Should I wait?

One of my girlfriends' boyfriend had bought her a beautiful green and white bulky-knit sweater and I thought it was very nice of him. They haven't been going together very long, in fact, not much longer than Bob and I have.

If it does show bad taste, why? If a sweater isn't suitable, then what would be?

Dear Bonnie: Your mother is right. Teen-agers shouldn't exchange gifts of any real monetary value.

For one thing, they fall in and out of love so often it can get to be an expensive pastime... and a little embarrassing. My son and his friends give token gifts for special occasions and send cards for all occasions. This way everyone's happy... including the Moms.

Dear Amy: I am married and the youngest of 4 children (who are also married). Our parents are up in years, not well and rarely leave their apartment.

This past Christmas, my 2 sisters, my brother and I decided to chip in and buy them a TV set to help pass their time instead of other things they wouldn't enjoy much. My brother and sisters didn't have their share of the money, so I paid for it with the understanding they would pay me so much a week till they paid off their share of the cost. They each gave me 4 payments, then my brother lost his job, one sister's daughter needed an operation, the other sister called me crying the blues about her financial problems.

When we planned this, I didn't get it in writing for the money they owed me, but who would dream your own sisters and brother would back out. Now I don't mind paying for it myself, but I want my parents to know

the truth if I do. What should I do? Do you think I'm right, Amy? Stuck

Dear Stuck: Your sisters' and brother's problems are unfortunate. I doubt if they planned to back out when the purchase was planned. If you are not pressed for the money, give them a few months to get back on their feet. Perhaps then they will be in a better position to pay their share.

Have a heart. There's time enough to tell your parents the truth.

Dear Amy: Perhaps you can help me. I am already a nervous wreck and under a doctor's care. I feel that if things don't get better soon, I may end up in the nut-house. This concerns my mother and my children. I have always tried to stay close to mother and dad, but it seems impossible anymore.

My mother is very stubborn and doesn't agree with the way I am bringing up my children. I set certain limits for them and believe there are some things they can do without. My mother believes I should buy them everything their hearts desire, and if I don't, she does. It is getting so that my children won't listen to me. I can't seem to get it through my mother's head that what she is doing is wrong. She just laughs at it. What can be done? Vexed

Dear Vexed: Every young couple should raise their children the way they see fit without parental interference. The "spoiling" is natural, but to oppose your discipline of your children is wrong. Make your visits to Mom — and her's to you — few and far between and tell her why. In her well-meaning efforts to be a "do-gooder," she is creating a troublesome situation.

PERSONAL TO Hugh (St. Louis):

Success as YOU see it is one who gathers a fortune he doesn't need to leave to people who don't deserve it.

the TRUE PICTURE of AMMO-PHOS FERTILIZERS

(made only by Olin)

AMMO-PHOS is completely different from all of the other types of fertilizer mixtures. It is made by extracting liquid phosphoric acid from ground rock phosphate, using large amounts of sulphuric acid, Ammonia, and in most grades some sulphuric acid are then added. All of these materials are reduced to a thick gray like slurry. If a complete fertilizer mixture is desired, muriate or sulphate of potash is added and all these ingredients are thoroughly mixed. In the next step, AMMO-PHOS now reacted into a chemical compound, is dried into hard dry, uniform size pellets. In pellet form it still remains highly water soluble regardless of the grade of fertilizer.

MRS. BARRY PRESTRIDGE

Lindy Ray, Barry Prestridge Wed In Double Ring Ceremony

In an impressive double ring ceremony performed before an archway of greenery and white gladiolus, Miss Lindy Ray became the bride of Barry Prestridge Saturday, Jan. 28.

Parents of the couple are Mr. and Mrs. Kenneth Ray and Mr. and Mrs. Barton Prestridge.

The vows were exchanged in the First Baptist Church, Olton, with the Rev. John Lewis officiating. The church windows were dressed with greenery and candles and the baptistry window was lighted with spiral candelabra.

Given in marriage by her father, the bride wore a beautiful formal-length gown of candlelight satin, fashioned with an A-line skirt and empire bodice. The fitted bodice and elbow-length sleeves were accented with pearl trimmed re-embroidered lace and the scoop neckline was emphasized with lace scallops.

The removable, chapel-length train was secured at the shoulders. A candlelight satin cabbage rose held her elbow-length veil of silk illusion. She carried a cascading arrangement of glamsias on a wooden-back Bible, which was

given to her when a child, by her mother.

Kenneth Prestridge of Bryan, served his brother as best man and Vicki Ray served her sister as maid of honor.

Bridesmaids were Terri Miller, Olton and Jeanne Stapleton, Petersburg.

Groomsmen were George Jones, Olton and Roy Flournoy of Abilene.

Serving as ushers were George Phillips, Olton; Ronnie Pokorny, Odessa; Paul Mansky, Galveston and Bob DeVille, Kerrville.

Wedding music was presented by Harold Dean Carson at the organ.

Wedding guests were registered by Miss Coy McGill.

The attendants wore floor-length, coral satin dresses styled with A-lineskirts fitted empire bodices, elbow-length sleeves and scoop neckline. Each attendant carried white nosegay arrangements of glamsias.

For her daughter's wedding, Mrs. Ray chose a white knit suit with brown accessories. The groom's mother wore a green wool suit with black accessories.

A reception was held in the home of Mr. and Mrs. Frank Cornelius, immediately following the ceremony.

The lace covered table was centered with the bride's bouquet and bridesmaids flowers. A three-tiered wedding cake graced the table, complemented by silver and crystal appointments.

Members of the houseparty were Mrs. Darrell Glover, Lubbock; Miss Janet Williams, and Miss Janis Williams of Amarillo; and Miss Margaret Harden, Lovington, N. M.

For a wedding trip to New Mexico, the bride chose a brown linen dress with matching double-breasted coat. Her accessories were white alligator shoes and bag.

The bride is a graduate of Olton High School and is a sophomore at Texas Tech. The groom is a senior pre-med student and will graduate in May to go on to Galveston to attend medical school there.

Out-of-town guests were Mr. and Mrs. H. P. Perry Sr., Rule; Mr. and Mrs. Marcus Curtis, Amarillo; Mr. and Mrs. H. P. Perry Jr., Haskell; Mr. and Mrs. Royce Vernon and Son of Lubbock; the Rev. and Mrs. C. E. Wainscott, Plainview; Mr. and Mrs. Ray Flournoy, Pam, Kim, Brad and Greg of Abilene.

The couple are at home in the Tech Village, Lubbock.

New Century Study Club Meet In Owen Jones Home

New Century Study Club met Wednesday, Feb. 1 at noon in the home of Mrs. Owen Jones for a luncheon and social hour. Guests present were Mmes. Rex Chitwood, Robert Duncan and Jack Thomas.

Members present were Mmes. Bob Burgess, M. C. Church, W. B. Dickenson Jr., O. H. Jones, Owen Jones, Forrest Latimer, Elmer McGill, Gilbert Roberson, Leo Smith, J. L. Snider, Archie Sorley, A. J. Spain, Don Spain, Ed Thompson, Fred Thompson, Bill

Turner and DeWayne Wilks. Next meeting will be held in the home of Mrs. Don Spain Wednesday Feb. 15 at 2 p. m. Each member is asked to bring cookies for the Hi-Plains Training Center.

Presents Program

Mrs. Lady Clare Phillips, HD agent, was in charge of the program at the Olton Home Demonstration Club meeting held in the home of Mrs. Homer Curry, Wednesday, Feb. 8.

Mrs. Phillips chose as her subject the "Storing and care of woolsens."

Refreshments of cheese sandwiches, tunnel of fudge cake, and strawberry punch were served.

Those present were Mmes. L. O. Kennedy, Z. D. Miller, L. O. Langley, Lee Simmons, Jack Kirby, Ross Carty, Charles Lewis, Ira Bridges, and Miss Ann Warren. One visitor, Mrs. R. W. Green and the guest speaker were also present.

The next meeting will be at the home of Mrs. Jack Kirby at 2 p. m. Feb. 21, for a program on gift wrapping by Mrs. Lee Simmons.

Bridge and '42' Tourney Slated

Chi Psi Chapter of Beta Sigma Phi will sponsor a bridge and "42" tournament Friday and Saturday Feb. 24-25.

The tourney will be held in the Hart school cafeteria from 7 to 11 p. m. Admission per person will be \$2., for two nights.

Refreshments of coffee and cookies will be served.

Mrs. Kerwin Oliver Honored With Shower

Mrs. Kerwin Oliver, nee Miss Evone Stubblefield of Spade, was honored with a miscellaneous bridal shower Thursday afternoon from 2:30 to 5 in the home of Mrs. D. R. Leonard of Hart Camp.

The serving table was laid with a white crocheted table cloth over blue. A party arrangement of a styrofoam basket trimmed with net and blue roses with a miniature bride and groom standing beneath wedding bells, offset with white tapers with glittered letters spelling "Evone" and "Kerwin", centered the table.

Mrs. J. W. Wells, Mrs. Elma Burleson and Mrs. J. W. Johnson Jr. assisted at the bride's table, serving refreshments of fruit crush, mints and cookies.

The gifts were presented to the honoree by the hostesses, Mmes. Blanton Martin, Elma Burleson, J. W. Wells, Homer Worley, J. W. Johnson Jr., D. R. Leonard, H. V. Lynch, M. W. Wheeler, Dewey Parkey and Miss Virginia Parkey.

Some 60 gifts were registered, the hostess gift being an off-white Martha Washington bedspread.

Housewives Arise

BY KAREN WALL

HOUSEWORK AT A LOPE

Being a member of the employed workers' world plus the "Randomest" of random housewives, I have found that my housework really stacks up during the week.

In order to accomplish the arduous task of catching up on neglected work plus trying to get a little ahead for the coming week, I have developed a technique of doing the housework at a lope.

First of all, I never set a certain day for any specific chore. I could never face my days off if I knew in advance that, say on Thursday I must do all my ironing in the morning then sweep the house by 2 p. m., wash diapers by 3 p. m. and so on. I would much rather just let it happen, should an ill-natured Providence so decree.

Next, I long ago threw out the window somebody's old adage of never doing something unless you do it right.

A hasty swipe at the fingerprints on the wall as I lope by is better than no swipe at all.

With these two rules of thumb in mind, I awaken on my first morning at home, free to attack the first job which fits my mood. This then is rule three to act immediately on whatever housewifely impulse that comes my way.

The secret is though, you must ACT IMMEDIATELY.

No delaying because you don't have the specific newest invention on the market for doing the job. Do it with whatever you have on hand at the time, otherwise the job will never get done.

When I decide to haul out the vacuum cleaner and start giving the house a good going-over, I never start in the same room as I started in the week before.

As I have a tendency to flake out before I have finished the whole house, I am assured by this rule to at least peter out in a different room each time.

Most important of all is never to quit while going in high gear. It's sheer disaster if I stop for even a brief moment to gulp down a cup of coffee or glance over the front page of the morning paper. Somehow the spell is broken and I never quite get back in the swing of things.

Also I have learned that if I leave the living room 'til towards the last, I get more of the house cleaned before I give up the race. It is so easy to stop once that front room is all straight and tidy, I leave it til later and concentrate on the unseen rooms of clutter.

I know that I must clean the living room though because my mother-in-law is likely to drop in any day and I better get it pre-

sentable (She's one of those Spotless wonders that always have everything in order all the time.)

Before I lope off the page, I do want to put in some useful tips I have received in the mail from a reader.

Here are eight grab-bag hints using one of the commonest things, ye ole grocery sack.

Dear Karen,
... I would like to pass along some hints on the common brown paper sack (the grocery store type) that most people burn in their trash, but I have found them very useful in many ways.

First, when baking a fruit pie slip the pie in a paper bag and bake in a preheated oven. No messy stove to clean as the bag catches it - also the pie browns more evenly.

Second, to warm over rolls, bread or even corn bread, place in a paper bag that has been sprinkled with water. You save on foil and it's much easier to warm over yesterday's bread this way.

Third, when you have finished French frying potatoes put them into a paper bag, salt, shake and keep warm by placing in a warm oven until ready to serve. The sack absorbs the excess grease too.

Fourth, use small paper bags and put enough flour in it to flour your chicken by shaking the bag. It distributes the flour more evenly and no mess to clean up.

Fifth, try placing your feet in a paper bag while you are sitting on the bleachers watching a football game on a cold nite. Well, no more cold feet.

Sixth, when taking ice to a get-together, place in a heavy brown bag. It keeps the heat out and ice doesn't melt nearly as fast.

Seventh, paper bags make good liners for your waste paper baskets.

Eighth, use the sacks for wrapping packages to send in the mail. There are many more uses for the common paper bag I am sure and I'd like to read about them in this column.

A Faithful Reader

How about it - have any more uses for the trusty brown bags?

For The Man Past 40

Physical Fitness Tips

Many men over 40 fight their own physical fitness, says Today's Health, the family magazine of the American Medical Association.

These are individuals who assume that because of their age they are no longer capable of much physical effort. One of the greatest dangers to men past 40, says Today's Health, is falling into sedentary ways, either because of job confinement or sheer laziness.

The male past 40 is advised to do two things with regard to physical exercise --

If he is not reasonably adept at a specific sport -- bowling, golf, tennis, or swimming -- he should take instruction in at least one of these or some other form of physical recreation.

He should take an inventory of his physical activity in the course of his regular daily schedule. This includes physical activity on the job and at home. It might include such chores as gardening and maintaining the home, sports activity and what he is doing in the way of regular calisthenic exercises. Often these do not provide enough activity.

For the sedentary person who decides to become more active, a good starting point is walking. This means a brisk posture walk, holding the belt line level and raising the breastbone. Then in addition to regular physical activities start devoting part of the week-

end to a pleasant physical activity like golf, bowling, dancing or swimming -- something that is really enjoyable.

Fifteen minutes of regular exercise every other day is hardly enough to produce noticeable results quickly, but it is a good start. Over a period of time, nevertheless, its benefits will be evident.

With regular physical exercise, the sagging, dragging middle-aged will begin to exhibit a total change in his attitude. He enjoys his meals more and shows more interest in his home. Even his physical appearance is more vital.

For the man past 40 who decides to begin an exercise program, a visit to the physician for a physical examination is advisable, to make certain there are no conditions that would limit exertion.

TOO FEW PATROLMEN

Texas should have three times as many Highway Patrolmen as it does to patrol the vast network of state highways, according to nationwide standards. Governor Connally is going to ask the Legislature to make a substantial increase in the Highway Patrol force and provide adequate salaries to attract and keep qualified men -- and "Texans for Traffic Safety" is actively supporting the proposal.

Residual Effect Of Herbicides On Grain Sorghum Studied

Residual effects of herbicides applications on crops in rotation is included in the research program of the High Plains Research Foundation.

Cotton received applications of three rates of Treflan and two of Dacthal in 1965. Grain sorghum was planted on the same ground in 1966. Scientists at the Foundation found no significant increase or decrease in grain sorghum yields from the carry over of these herbicides.

Cotton received a heavy application of Treflan in 1964. Grain sorghum was planted on the same plots in 1965. The previous years heavy application of Treflan resulted in a delay in growth. Plants under this heavy treatment were shorter until fully headed. They headed ten days later than those with lighter applications of Treflan.

Plants under the heavy Treflan treatment wilted sooner than other applications after each irrigation. There was no significant decrease in yield of grain sorghum in 1965. Farmers report similar effects in the 1966 season.

James Valliant, Soil Scien-

tist, who completed the 1966 herbicide test said, "This study will have to be continued for some time before a definite conclusion can be given as to the residual effects of these toxic herbicides on grain sorghum production."

Grain sorghum producers interested in specific details of this herbicide study can obtain this in the 1966 Research Report of the High Plains Research Foundation. This report will be released to members of the Foundation in the near future.

TAX MAN SAM SEZ:

Do you still have questions about preparing your income tax return after reading the income tax instructions you received in the mail? You may want to buy a copy of "Your Federal Income Tax." This booklet costs 50¢ at any Internal Revenue Service Office. It gives the answer to most questions on your individual income tax return in a clear, easily understood language. A 50¢ investment and a little reading time can save you a lot of tax dollars, or a lot of headaches.

ATTORNEY GENERAL SPEAKS -- Students at state-supported colleges no longer are required to take a "loyalty oath" in the opinion of Atty. Gen. Crawford C. Martin.

Martin said the 1949 act which required the oath of students and faculty was altered in 1953 by a law which covered only paid employees of the school. Some legislators are considering a bill to put students back under the law.

In other opinions, Martin held:

- * District court judges who are members of county juvenile boards must be paid an additional \$325 a month in salaries, and county commissioners cannot pay less.
- * Parks and Wildlife Department has authority to issue deprecation permits for killing of wild birds or animals in Dimmitt, Uvalde, and Zavala Counties.
- * A person convicted of a felony and given a suspended sentence is not barred from applying for and receiving probation under the misdemeanor probation act.
- * Texas inheritance tax provision concerning use of the "resident decedent's" entire estate wherever situated as a factor in determining the rate to be applied to succession of property is constitutional.
- * Presidio Co. Hospital District can levy a tax for initiating operation of the district.
- * TO HAVE OR NOT TO HAVE -- The on-again, off-again proposal to make Guadalupe Mountain lands into a national park is off again, but perhaps only temporarily.
- * A halt that slowed the progress of Texas' transfer of Guadalupe Mountain lands came when Land Commissioner Jerry Sadler went before the Senate Committee on Counties and urged that the rugged lands be made into a state park.
- * Committee had voted to report the bill favorably, subject to insertion of a corrective amendment if needed.

ject to insertion of a corrective amendment if needed.

Possible amendment would provide a safeguard against any subsequent federal legislation that might deprive the state of its bounty in the event of oil or mineral production.

Sadler, however, presented his views and summed up with a declaration that minerals alone, "in a short period of time would more than pay for the total cost of the establishment of a state-owned park in the Guadalupe Mountain area."

Committee members directed that the bill be held back for a hearing and further action later.

JOHN HENDRIX WILSON

Services Are Pending For Johnny Wilson

Services for Lance Corporal John Hendrix Wilson, who died at Clark Air Base, in the Philippine Islands, on Feb. 5, 1967, are pending at Parsons Funeral Home here.

Lance Corporal Wilson, was born Jan. 1, 1948, in Amherst. He had been a resident of the Olton community all his life, until he enlisted in the U. S. Marine Corps, in January 1966. He was a member of the Methodist

Church here in Olton. The body will be transported to Olton, and burial will be in the Olton Cemetery.

Survivors include his parents, Mr. and Mrs. Gene Wilson of Olton, three brothers, Billy Gene Wilson, of Seminole, Okla., Jerrold D. Wilson, of Garland, and Tommy Wilson, of Burgaw, N. C., and one sister, Mrs. Lynda Donn, of Wilmington, Del.

Former Resident Named To International Ass'n

Mrs. Margaret A. Tesovnik, of Bakersfield, Calif., daughter of Mrs. Ruth Roebuck of Olton, has been named as a member of the International Platform Association.

The 63-year-old organization, among whose founders were Mark Twain, William Jennings Bryan and William Howard Taft and among who distinguished members were Theodore Roosevelt, Franklin Roosevelt and John Kennedy, has been instrumental in "bettering the quality of the American platform, particularly as it relates to the field of school assembly programs available to children."

Mrs. Tesovnik, who is listed in "Who's Who of American Women," 1966-67 and "Who's Who in the West," 1967-68, is widely active in education administration areas and civic organizations.

She holds a bachelor of science from West Texas State University and did undergraduate work there as well as the North Texas State University, Columbia, the University of New Mexico, the University of Southern California, Fresno State and San Jose State, returning to WTSU for her Master's in Education.

Mrs. Tesovnik is a graduate of Olton High School and she stated that Olton was home to her and she and her husband, John visit her mother annually during the summer months.

STATE CAPITAL HIGHLIGHTS

Texas legislators are at work on Gov. John Connally's recommendations for raising \$144,200,000 in new taxes which include a "surprise" proposal to legalize the sale of liquor by the drink.

His local-option, mixed-drink endorsement was the major bombshell in an otherwise predictable package based on boosts or adjustments in old-steady sales and business taxes and a transfer of farm road financing to the highway fund.

House Revenue and Tax Committee hearings are due to get under way immediately. Legislative leaders acknowledge some bitter controversies are upcoming for the first major revenue program advanced since Connally took over the governor's office.

In his 25-minute speech to a joint session of the House and Senate, Connally outlined his views on how to raise the \$971,500,000 necessary to carry out his general revenue spending program for the next two years.

Here, in summary, is the governor's tax program: * Repeal the sales tax exemption on all alcoholic beverages, effective July 1. (Should yield \$26,000,000.)

* Increase the gasoline tax 1¢ a gallon (from 5¢ to 6¢), effective July 1. (Since \$24,400,000 of the additional revenue automatically would go to the available school fund, general revenue of this amount would be freed for legislative appropriation. Tax raise would add \$73,200,000 to the state highway fund.)

* Repeal the 1949 Colson-Briscoe Act's general revenue allocation of \$15,000,000 a year to farm-to-market roads and leave financing of these roads to the highway department. (\$30,000,000 general revenue gain.)

* Tax distilled spirits and wine sold by the drink at licensed establishments five-cents-an-ounce. (\$15,000,000 gain.)

* Increase the corporation franchise tax rate from \$2.25 per \$1,000 to \$3. (\$30,900,000.)

* Raise the natural gas production tax from seven to eight per cent of wellhead value, effective July 1. (\$17,800,000.)

Connally said he had tried to fashion "an equitable plan which will impose the least possible burden upon the individual and business taxpayers of this state."

He emphasized that he recommends legalizing liquor by the drink only on a local-option basis and under "strict regulation" with punishment by revocation of licenses for repeat sales of liquor to minors. He hit at the existing "subterfuge" which now permits serving of mixed drinks through "so-called private clubs."

"It is time to bring this matter into the open," the governor said. "It is my considered opinion that a far more wholesome climate will prevail if liquor can be sold by the drink, legally and under tight regulation."

Connally got his biggest applause when he said he would NOT recommend a state college-university tuition increase.

AG REPORT--Texas agriculture is failing to attain its reasonable production potential by as much as a billion dollars a year, the House Interim Committee on Agriculture has found.

"This suggests that Texas agriculture is now operating at only one-half to two-thirds of its capability," the report says.

Committee made three recommendations. They are to set up a Coordinating Board to set agriculture goals, compile annual agri-business statistics, county-by-county, for planning and programming, and pass legislation to permit agriculture to provide funds of its own for research and promotion.

Halfway 4-H Foods Group Studies Meal Preparation, Taken On Guided Tours

Members of the Halfway 4-H Foods Group met recently and prepared a Mexican-Style meal as a project.

The menu consisted of beef enchiladas, guacamole salad in tomato cups served with corn chips and instant caramel pudding.

In preparing the meal, the girls learned the importance of planning so that foods would be finished at the proper time. Attractive and appropriate table settings were illustrated, using the Mexican theme.

A demonstration was given as how to prepare, wash and store fresh vegetables. Points were also given on the safe and proper methods of mincing and chopping foods, and the girls reviewed the proper measurement of dry and liquid ingredients.

Points to consider in preparing for the 4-H Food Show were brought up for discussion by the group.

Girls giving instructions were Linda McEachern, Betty Hart and Alice Baumgardner. Members enrolled in the foods group are Gladys Pinkerton, Leta Kay Goree, Beverly Hartley, Sue Church, Shelia Jacobs and Alice Baumgardner.

Games were conducted by Linda McEachern, with Betty Hart as winner of a guessing game.

Members of the Halfway 4-H Food and Nutrition group recently toured the Cloverlake Plant in Plainview and also a local bakery, as part of their studies of food and nutrition. The group learned about pasteurization of milk and saw the facilities for handling and bottling milk. They were shown how ice cream is made and stored and were given ice cream treats. They also saw the processing of orange drinks and cottage cheese and discussed

ACCIDENT CAUSES

Speed too fast for conditions, driving while drinking, driving on the wrong side of the road and failure to yield right of way are the leading causes of fatal accidents on the rural highways of Texas, says "Texans for Traffic Safety."

TRAFFIC COURTS

Texas needs traffic courts of record for the trial of traffic offenders, in order to better control unsafe drivers, according to "Texans for Traffic Safety." Governor Connally is going to ask the next Legislature to establish such courts, as part of his comprehensive highway safety program.

HIGH TEENAGE DEATH TOLL

Almost one-fourth of all traffic fatalities in Texas in 1965 were youngsters under the age of 20, says "Texans for Traffic Safety." All motorists are urged to use extreme caution in operating a vehicle around children, or with a young passenger in the car.

IMPEDING TRAFFIC UNSAFE

Impeding traffic is against the law in Texas, says "Texans for Traffic Safety." In effect, the group adds, the law says "get with it or get off the road."

WALTER'S

Medicare Insurance Explained To Patients

Medicare beneficiaries who had doctor bills in the last three months of 1966 that counted toward their \$50 doctor bill insurance deductible may now count these same bills toward their deductible for this year, according to Mr. Hutton, social security district manager in Lubbock.

"If you did not have \$50 worth of covered services under medical insurance before Oct. 1, 1966," Mr. Hutton told Medicare beneficiaries in the Lubbock area, "the doctor bills you had in October, November and December before meeting your \$50 deductible for 1966 can also count toward your 1967 deductible."

Under the medical insurance part of Medicare, Mr. Hutton explained, a beneficiary is responsible for the first \$50 in a calendar year for covered services before Medicare starts paying 80 per cent of the rest of the bills. Beneficiaries should save their doctor bills and other bills for services covered by medical insurance until they reach \$50.

A special rule applies for persons who do not have \$50 worth of covered expenses in a year, or whose covered expenses do not reach \$50 until the last three months of the year. In both situations, Mr. Hutton said, any bills you had in the last three months of the year that counted toward part or all of your \$50 deductible may be counted again for the next year's deductible.

"It is particularly important, then, for beneficiaries who received no payment under medical insurance in 1966 because they didn't meet their \$50 deductible, to save their bills for October, November, and December," Mr. Hutton stressed. "If you have bills to show for the last three months, you may not have to pay all of the \$50 deductible for this year."

"For example," Mr. Hutton said, "suppose you visited the doctor once in August after Medicare started on July 1,

and the bill was for \$20. You paid the bill because you knew that medical insurance would not start paying until after the first \$50. Then, in November, you became ill and made several calls to the doctor for a total charge of \$40. Since Medicare starts paying after the first \$50, you would receive \$8.00 or 80 percent of the \$10 you paid over the deductible.

"In addition, because your deductible was not met until the last three months of the year, \$30 of your \$40 bill in November would count toward your \$50 deductible for 1967. After you have had \$20 of covered expenses this year, Medicare will begin paying 80 percent of the rest of your doctors' bills for the year."

"The special rule would also apply if you didn't have enough covered expenses during the entire year to add up to the \$50 deductible, Mr. Hutton said. For example, suppose you had no doctor bills between July 1, when the program started, and Oct. 1. In December you visited the doctor and received a \$25 bill from him. Since you did not meet the \$50 deductible for 1966, Medicare would pay nothing toward the bill. Then, starting in 1967, even though it will be a new calendar year, the \$25 of covered expenses, Medicare will pay 80 percent of bills over that amount."

A representative of the Lubbock Social Security Office will be in Littlefield, Texas on Feb. 14, 21, 28 in the County Courtroom at 9:00 a. m.

HAS GUESTS

Bonnie Brown was hostess to a small dinner party in her home, Saturday night. Attending the party were Era Maye Walthall, Lillian Green and Leona Marcin.

OUT OF HOSPITAL

Mrs. R. D. Bryant returned home Saturday morning from the Littlefield hospital, where she had been hospitalized for 12 days.

Area Residents To Attend Meet Eye Exams May Detect Glaucoma

Texas Farmers Union will honor the 60 Legislature with a reception at the Gondolier Motor Hotel in Austin Tuesday afternoon, Feb. 14, at 4:30 p. m.

Most members of the House and Senate have accepted the invitation to attend and both Lt. Governor Preston Smith and Speaker of the House Ben Barnes are expected. National Farmers Union President Tony T. Dechant of Denver, in Austin for a speaking engagement, will also be present.

The members of the legislature will be greeted at the reception by a welcoming committee of Farmers Union members and their wives from many of the 82 chartered county organizations over the state.

No formal program has been planned and the reception will give the farm organization members an opportunity to get acquainted with the state government leaders and to informally discuss with them the various issues that are of concern to farmers, ranchers and rural people.

Texas Farmers Union, generally considered the fastest growing farm organization in Texas, has long been active on the national legislative scene, but the state leadership indicates that this year marks the beginning of greater emphasis by the group in state legislative activity.

Several Lamb County residents will be attending the Farmers Union-sponsored affair. They are Kenneth Cowley and Arnold Shelby, both from Earth.

VISIT IN EARTH

Mr. and Mrs. Wayne Cole, spent last Sunday with his parents, Mr. and Mrs. R. S. Cole of Earth. Mr. and Mrs. J. F. Cole, of Olton, were guests in the R. S. Cole home also.

VISIT BROOKS

Mr. and Mrs. James T. Brooks of Slaton, visited in the home of their son, Mr. and Mrs. James Brooks Jr., for a few days last week.

Glaucoma is an increasingly serious eye disease which occurs most frequently in persons over the age of 30 and affects at least 2 per cent of people over 40.

A recent article in the Journal of the American Medical Association points out that there are 54,000 men and women blind from glaucoma and that an additional 185,000 people are blind in one eye from this disease. In the United States, there are about 1.2 million people with undiagnosed glaucoma and this disease is responsible for 3,500 new cases of blindness each year.

One type of glaucoma, called chronic glaucoma, causes no symptoms until severe damage has been done, says Today's Health Guide, the manual of health information for the American family. Chronic glaucoma can be detected only by the medical eye physician (ophthalmologist) who uses an instrument to measure the degree of pressure in the eye and another instrument to measure the size of the visual field, or side vision. Every adult over 40 should have a test for eye pressure as well as a test for visual fields when he goes for an eyeglass check.

The second type of glaucoma which affects people over 40 is called acute glaucoma. In this ailment the pressure suddenly rises to a very high level and the attack is accompanied by severe pain, redness and markedly blurred vision. Most often the patient must be placed in a hospital immediately and undergo surgery to relieve the pressure. This is successful in most cases, but prompt treatment is very necessary.

The major problem physicians face in dealing with glaucoma is to detect the disease early enough to begin treatment before serious eye damage is done. Many of the people who have glaucoma don't know it.

It is highly important for persons over 40 to have an annual medical checkup for their eyes, even if they don't wear glasses and have no apparent visual problems.

KITCHEN KORNER

By Lela Gallion

One thing for sure we never know what the weather will be from one day to the next.

We have had some really warm days over the weekend and now we are back to winter again. Sure is hard to keep our menus on an even keel isn't it?

THE ELECTRIC SKILLET'S UNUSUAL TALENTS

Three cheers for the electric skillet! It's practically an all-in-one miniature stove-and-oven. Of course it does all the "normal" frying-pan chores, but it has some very unconventional skills as well.

CASSEROLES: Put the casserole, in its dish, in an electric skillet lined with two layers of aluminum foil. Cover. In a skillet set at 325 degrees F., most casseroles will heat in about an hour, though the top will never get as brown as it would in the oven.

BAKING CAKES: Place the cake pan on a cake rack; cover the skillet. Here, too, don't expect a brown top, but remember it will be covered with frosting.

DEEP FAT-FRYING: At least one manufacturer of electric skillets makes a wire basket that fits into the pan to deep fat-fry such foods as potatoes, shrimp, chicken, croquettes and doughnuts.

TEA MUFFINS

1/3 c. shortening
1/3 c. sugar
1/2 t. vanilla
1 egg
1 3/4 c. sifted enriched flour
2 t. baking powder
1/2 t. salt
2/3 c. milk
Orange marmalade or currant Jelly (optional)

Cream together the shortening, sugar, and vanilla till light and fluffy. Add the egg and beat well. Sift together the dry ingredients. Add to creamed mixture alternately with milk, mixing just to blend.

Drop batter from spoon into greased muffin pans, filling 2/3 full. If desired, top each muffin with a teaspoon of orange marmalade or currant jelly. Bake in hot oven (400 degrees) about 20 minutes or till done.

Serve a basketful of warm Tea Muffins with summer fresh fruit plates.

SKILLET HAM-POTATO SALAD

1/4 c. chopped green onions
1/4 c. chopped green pepper
1 12-ounce can chopped ham, diced
1 T. fat
3 c. cooked cubed potatoes
1/4 t. salt
Dash pepper
1/4 c. mayonnaise or salad dressing
1/2 pound sharp process American cheese, diced (1 1/2 c.)
2 T. chopped parsley

Cook onions, green pepper, and meat in hot fat, stirring occasionally, till meat is lightly browned. Add potatoes, salt, pepper, and mayonnaise. Heat, mixing lightly. Stir in cheese; heat just till it begins to melt. Sprinkle with parsley. Makes 4 servings.

OLD-FASHIONED EGG SALAD

1 head lettuce
6 hard-cooked eggs, sliced
1 large onion, thinly sliced
1/4 c. salad oil
2 T. vinegar
1 t. Worcestershire sauce
1/4 c. shredded sharp American cheese
1 T. minced parsley
1 1/2 t. salt
1/4 t. pepper
Dash paprika

Break lettuce into salad bowl in bite-size pieces. Alternate layers of egg and onion.

Make dressing of salad oil, vinegar, Worcestershire sauce, cheese, parsley, and seasonings. Pour over salad in bowl. Toss lightly; serve. Makes 6 servings.

Hot breads do taste good this time of year and sure do smell good when cooking. I believe the smell of hot bread and rolls cooking is a very good appetizer.

Here are some good sounding and tasting ones. Your friends and family will enjoy the homemade products you serve them.

MOLASSES FRUIT BREAD

2 c. sifted enriched flour
1 tsp. salt
1/2 tsp. soda
3/4 tsp. double acting or 1 1/4 tsp. cream of tartar
1 tsp. baking powder
1 egg, beaten
1/2 c. molasses
1/3 c. sugar
1/4 c. shortening, melted
1 tsp. lemon juice
1 1/2 T. grated lemon rind
1/3 c. chopped figs or dates
1/4 c. sliced citron
1/2 c. chopped nuts
2/3 c. milk

Heat oven to 350 degrees F. (moderate). Sift together first four ingredients. Add egg, molasses, sugar, shortening,

lemon juice and rind, fruits, and nuts. Mix well. Add flour mixture alternately with milk. Mix only until ingredients are blended. Bake one hour or until done in well-greased, lightly floured, 5 x 9 x 3-inch bread pan. Yield: 1 loaf.

RAISIN PALM LEAVES

1/2 c. milk
1/2 c. sugar
1 1/2 tsp. salt
1/4 c. shortening
1/2 c. very warm water
3 packages or cakes yeast, active dry or compressed
2 eggs, beaten
5 cups sifted flour (about)
confectioners' sugar frosting

Scald milk, stir in sugar, salt and shortening, cool to lukewarm. Measure water into large bowl, sprinkle or crumble in yeast, stir until dissolved. Stir in lukewarm milk mixture. Add eggs and 3 cups of flour, beat until smooth. Stir in remaining flour to make soft dough. Turn out onto lightly floured board. Knead until smooth and elastic, about 5 minutes. Place in greased bowl, brush top with soft shortening.

Cover, let rise in warm place, free from draft, until doubled in bulk, about 45 minutes. Punch down, turn out on lightly floured board. Divide dough in half, roll out each half into 12-inch squares. Brush lightly with soft margarine. Sprinkle each square with half of the raisin-cinnamon filling. Roll up as for jelly roll, seal edge firmly.

Cut into 8 equal pieces. Make 2 cuts through each piece, parallel to cut sides and extending to within 1/2 inch of other side. Turn each leaf on its side and spread the three leaves apart into fan shape. Place on greased baking sheets about 2 inches apart. Cover, let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Bake at 350 degrees F. about 35 minutes. Frost when cool with confectioners' sugar frosting. Makes about 16.

RAISIN-CINNAMON FILLING

Combine 1 1/2 cups sugar with 2 teaspoons cinnamon, mix in 1 cup dark or golden seedless raisins.

ORANGE BREAD

1 pkg. or cake yeast, active dry or compressed
1/4 c. very warm water
2 T. sugar
1 tsp. salt
1/4 tsp. mace
1 T. grated orange rind
3/4 c. strained orange juice
1 egg, beaten
2 T. melted margarine or butter
3 1/4 c. sifted flour (about)

Sprinkle or crumble yeast into very warm water in large mixing bowl. Stir until dissolved. Add sugar, salt, mace, orange rind, orange juice, egg, melted margarine or butter and half of the flour; beat until smooth. Add remaining flour to make soft dough; mix well. Turn out onto lightly floured board; knead until smooth and elastic. Place in greased bowl; grease top of dough. Cover. Let rise in warm place, free from draft, until doubled in bulk, about 1 1/2 hours.

Punch down; turn out onto lightly floured board; shape into a loaf. Place in greased 9x5x3-inch loaf pan. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour.

Bake in moderately hot oven (375 deg. F.) 50 minutes, or until done.

SUGAR PLUM COFFEE CAKE

1 1/2 c. sifted enriched flour
2 tsp. baking powder
1/2 tsp. salt
1/2 c. sugar
1 egg, beaten
1/2 c. milk
3 T. melted shortening
sugar plum topping

Sift together flour, baking powder, salt and sugar. Combine egg, milk and shortening. Add to flour mixture, stirring until mixture is smooth. Turn into greased 8-inch square pan. Arrange Sugar Plum Topping on batter, and bake in moderately hot oven (400 deg. F) 25 minutes.

SUGAR PLUM TOPPING

8 to 10 cooked plums or prunes pitted
2 T. sugar
1/4 tsp. cinnamon
Arrange plums or prunes on batter, allowing a piece of fruit for each serving.
Mix sugar and cinnamon and sprinkle over top.
Makes 1 coffee cake.

Chit Chat

BY SANDEE GREGORY AND JANE ANN DUNCAN

It's that time of the year that people start drawing red hearts and arrows and begin thinking of cupid and all those good things. The girls start trying to pick out that "special" box of candy and the boys begin worrying about their pocket books.

All in all, Valentine can bring quite an assortment of things to mind. But this week, let's center our ideas on Cupid and his beloved arrow. Just who is cupid? Well, we asked a few around school who they thought cupid was and here's what they replied.

Ronnie Truelock: When most people see the Valentine cupid they see hearts with arrows through them. Has anyone looked to see what kind of heart it is? It is a girls heart; all of them are girls!

The cupid is a fun loving fellow and girls are the main way of having fun. When this little fellow gets out his bow and those arrows, girls just seem to disappear.

The Valentine cupid had things going his way and things might get pretty dull before he is through having target practice. But if he hits all of the girls there should be a few girl cupids by next year.

Mrs. Holladay: LONG AGO (adverbial phrase telling when THERE (expletive) LIVED (verb) A VERY (adverb telling how) GOOD (adjective describing man) MAN (subject of independent clause) WHOSE NAME WAS ST. VALENTINE (adjective clause), HE (personal pronoun in nominative case) PERFORMED (transitive verb) MANY GOOD DEEDS (direct object) FOR OTHER PEOPLE. AFTER HE DIED (adverbial clause telling when) PEOPLE DECIDED (verb) TO HONOR HIM (infinitive phrase used as direct object) BY CELEBRATING HIS BIRTHDAY (gerund phrase used as object of preposition).

Danny Dial: Cupid stood about 2' 6" in his stocking feet. He was very meek and mild and never said a harsh word. He came in from Mooresville County where all the mooses roam. He had two little horns on each side of his head and a forked tail. Anybody who goes around shooting people with arrows can't be all good.

He got into the habit of shooting people with arrows by sitting around in trees and trying to shoot at mooses, but they ran too fast so he tried shooting at people and he found that ever time he shot a person with one of his arrows they would fall in love. After this he decided that the habit was getting too strong so he quit until each Valentine's Day, when cupid would come out with his forked tail and all to make people fall in love.

YOUNG HEARTS AND VALENTINES

Dear Mom, You are my valentine because you are not a real girl, You are just my mother.

Love, Dale G.

To my favorite boyfriend, If you will be my valentine, I cross my heart I will never look at another boy as long as I live.

Please answer in a hurry. I can only wait till next Tuesday.

Your friend, Cissy.

Dear Mrs. Scott, I hope you have a happy Valentine's Day. I bought you a box of candy as a valentine present.

Love, Mr. Scott P. S. I ate two pieces by mistake.

Happy Valentine's Day to my favorite boyfriends... Love and Kisses, Sunya.

Dearest Jimmy, I love your handsome face. I love your gorgeous eyes. I love your beautiful smile. I love your cute nose. I love your wonderful wavy hair. I love your strong muscles. I would tell you more but I am too shy. Forever, Kathline

To Joe P. Your face is funny. Your legs are skinny. You're really not much, but you're okay for Donna. Happy Valentine, Donna S.

Dear Eddie, Will you be my valentine? Put an X on the blackboard in Mrs. Campbell's room if the answer is yes, between periods. Carol.

To my daddy, You are my valentine. I want to marry you. Don't tell Mommy. She doesn't know yet. Love, Dixie

Dear Francine, Last night I dreamed that you said I don't want any other boy for my valentine except handsome Butchie. What did you dream last night? Butchie.

Floydada's teamwork proved to outdo the Fillies and Mustangs last Friday night because both teams fell to the Whirlwinds. The Fillies just couldn't get together and their tries just didn't match those of the Whirlwinds, but Kay Schultz was high pointer with 15 and Pam Foster and Diana Malone led in the rebounds with six each. For the Mustangs Jerry Harris led in the rebounds and Roger Thompson made the most points with 12 to his credit. As things will happen, the Mustangs lost in the last minute of the well-played game and it was a heart breaker to lose. Both teams will really put out their efforts and teamwork to win the remainder of the district games so let's keep up the support, OHS'ers!!

Hey Mustangs I Let's Beat Abernathy!!

Mr. and Miss OHS have been chosen by the faculty and they are Kay Schultz and Jimmy Schreier. Jimmy is president of the senior class, vice-president of FFA, a best citizen, and a captain of the Mustang football team. Kay is the FFA president, FFA reporter, secretary of the National Honor Society, Lions Club Sweetheart, co-captain of the Fillie team, and she is also a best citizen. Congratulations to two well deserving OHS students.

YEA, FILLIES, HUSTLE AND BEAT ABERNATHY.

In case you haven't heard, the Olton High School "Personality Pin-Ups" were named last week. And they are none other than Valda Jones and MacArthur Thomas. Congrats to you both!!

The Olton Future Teachers met last Wednesday afternoon for their regular meeting. The state convention was discussed and the members were also reminded of career day which will be coming up in March.

In order for the club to raise money to go to the convention, they are baking goods and selling them. If anyone happens to need a warm, moist cake or some good, chewy brownies, be sure and pass the

word around and in hardly any time at all, an Olton FTA'er will be knocking at your door.

All of the FTA'ers are getting ready for the annual FHA Banquet coming up this Saturday night.

Excitement is in the air with new dresses, first of the year banquet tensions, that special boy that is taking you and the small details that make a banquet something special to go to.

This is the first one of the '67 year and everyone seems to be looking forward to going, even the boys!!!

The theme will be WEST SIDE STORY and the entertainment will be a band to play for the assembled group. Two awards will be given to two outstanding homemakers.

We hope that each person that goes has a wonderful time and will always remember the '67 FHA Banquet.

The Olton Choir sang "God is The Light of The World" last Saturday night at the All-Regional Choir Concert in the Coronado High School. Bruce Hines, Harry Max Thomas, Dale DeBerry, Jackie Harrod and Leslie Holladay were the five All-Regional Choir members from Olton.

Share the Children?

Divorce has been described as "a splitting headache," and the description fits. It divides not only man and wife but also the family money, the family furniture, and the family cars.

What about the children? Should they, too, be divided between father and mother?

A divorce court does have that power. After all, assuming that each spouse is a fit parent, each has a strong moral claim to the companionship of the offspring.

But as a rule the law is leery of a share-the-children arrangement, because it means separating the children from each other. The Ford won't miss the Chevrolet. But Johnny may miss—and need—his sister Jane very much indeed.

So, in the vast majority of cases, custody of all the children is awarded to the same parent—to give the children, in the words of one court, "the benefits of constant association as nature intended."

On the other hand, in a particular case, such togetherness may bode more harm than good. For example:

In a case involving two brothers, it appeared that the older boy, a teenager, was already cutting school and acting like a juvenile delinquent. The judge decided on separate custody for the younger boy, to protect him from learning what his older brother was likely to teach.

Considerations of age and sex, too, may induce a court to depart from the usual rule of keeping the children together.

Thus, a judge awarded custody of a girl, 8, to the mother and her brother, 16, to the father. The judge said that a boy "rapidly approaching manhood needs the instruction and discipline which a father can best give."

What about the financial aspects of separate custody? Ordinarily that is not a controlling factor. In one case a father, seeking custody of the older of two children, argued that he could give a child living with him more luxuries than the mother could.

But the court gave both children to the mother, because—in terms of the child's long-term welfare—the material loss would be outweighed by the emotional gain. And, as one judge put it: "The good of the child is superior to all other considerations. It is the polestar."

BILLS, BILLS, BILLS—All 181 legislators have been busy introducing bills they feel should become laws. The range is wide, as always.

Rep. Jake Johnson of San Antonio thinks his bill to legalize the sale of liquor by the drink (labeled the LBJ bill—liquor by the jigger) has a fighting chance. His poll of House members shows 67 for, 41 against and 21 undecided. He's thus only nine votes shy of the 76 votes needed, with 21 members yet to be polled.

Rep. James Slider, of Naples has one to make Texas eligible for highway beautification money from the U. S., and to allow the Highway Department to buy scenic easements to move billboards and junkyards off the roadsides.

Rep. Dick Cory of Victoria wants to repeal the new Code of Criminal Procedure lawmen are fussing about, and to restore the old law.

US Bond Sales

16% Over Goal

United States Savings Bond sales in Lamb County during 1966 totaled \$150,834, according to C. O. Stone, chairman of the Lamb County Savings Bond Committee. The 1966 sales goal for Lamb County was \$130,000 and the total was 16 per cent over the goal.

During 1966 Texans purchased a total of \$153,172,007 in Series E and H Savings Bonds. This represents 104 per cent of the state's goal of \$147.5 million. Sales in Texas during the month of December totaled \$13,790,861 which is an increase of 19 per cent over the same period of 1965.

At Fort Bliss

Danny Ray Grant, son of Mr. and Mrs. C. W. Grant of Lubbock and grandson of Mr. and Mrs. J. T. Grant of Olton, was graduated from Officers Candidate Class of United States Army Infantry School at Fort Benning, Ga. recently, with exercises held in the George C. Marshall Auditorium.

He will be stationed at Fort Bliss at El Paso.

CHECK YOUR SPEED

Speeding should not be confused with driving too fast for conditions, says "Texans for Traffic Safety." If road conditions are such that 20 miles per hour is the maximum safe speed, then a person driving 25 miles per hour is driving too fast for conditions, even though the posted limit may be 30, 45 or even 60 mph.

IN OLTON Visiting in Olton this weekend with their daughters and families were Mr. and Mrs. L. W. Howard of Sunray.

He is generous to those in need.</p> <p>OLTON STATE BANK</p>	<p>A SCOUT IS BRAVE</p> <p>He has the courage to face danger in spite of fear. He will stand up for right against the coaxing of friends or the jeers and threats of his enemies. He scorns defeat.</p> <p>ED THOMPSON IMPLEMENT</p>		
<p>A SCOUT IS CLEAN</p> <p>He keeps clean in body and thought; stands for clean speech, clean habits; and travels with a clean crowd. He practices clean sportsmanship and a clean outlook.</p> <p>ENTERPRISE STUDIO</p>	<p>A SCOUT IS REVERENT</p> <p>He is reverent toward God, faithful in his religious duties, respects the convictions of others in matters of custom and religion. He serves God in his everyday actions.</p> <p>THE OLTON ENTERPRISE</p>		

Scouting rounds a guy out

Scouting rounds a guy out, makes him a bigger guy than he was before — stronger, taller, more self-reliant, better with people, better with himself — helps him be as BIG as he can be. Scouting challenges him to be more than he thought he could be!
