Camilla Horn, Europe's Latest Cinema Star, Here To Make Fame—And Fortune

Camilla Horn, newest movie goods from Europe.

BY GENE COHN
NEW YORK, Dec. 14.—The comedian who won fame by playing the hind legs of a musical comedy here has nothing on Camilla Horn, latest of Europe's contributions to the American cinema.

Camilla, who arrived the other day from Germany to be the new leading lady to John Barrymore on the United Artists lot, got her start by being the legs of a celebrated UFA actress.

If this sounds peculiar, consider the circumstances: Camilla was waiting around the UFA lot, hoping for an extra role to show up. This particular scene being taken demanded that the star display a pair of shapely legs. It so happened that the star didn't have particularly trim ankles. The director's eyes wandered about the room and encountered Camilla. Within a few moments Camilla's legs were doubling for those of the leading lady.

Perhaps no stranger introduction to the cinema was ever made.

Jannings Sees
But that wasn't all! The picture happened to be featuring Emil Jannings, who was then heading the UFA list of featured players. Jannings had been going about looking for a Marguerite for his then forthcoming production of "Faust." He saw Camilla shyly and a bit blushing revealing her limbs.

"There's the Marguerite I've been looking for," Jannings shouted, and Barrymore went to see her picture and requested that she appear with him. So they brought her to America.

And since a start as leading lady to John Barrymore is nothing more at Camilla's prospects are a bit bright.

Camilla Horn, newest movie goods from Europe.

BY GENE COHN
NEW YORK, Dec. 14.—The comedian who won fame by playing the hind legs of a musical comedy here has nothing on Camilla Horn, latest of Europe's contributions to the American cinema.

Camilla, who arrived the other day from Germany to be the new leading lady to John Barrymore on the United Artists lot, got her start by being the legs of a celebrated UFA actress.

If this sounds peculiar, consider the circumstances: Camilla was waiting around the UFA lot, hoping for an extra role to show up. This particular scene being taken demanded that the star display a pair of shapely legs. It so happened that the star didn't have particularly trim ankles. The director's eyes wandered about the room and encountered Camilla. Within a few moments Camilla's legs were doubling for those of the leading lady.

Perhaps no stranger introduction to the cinema was ever made.

Jannings Sees
But that wasn't all! The picture happened to be featuring Emil Jannings, who was then heading the UFA list of featured players. Jannings had been going about looking for a Marguerite for his then forthcoming production of "Faust." He saw Camilla shyly and a bit blushing revealing her limbs.

"There's the Marguerite I've been looking for," Jannings shouted, and Barrymore went to see her picture and requested that she appear with him. So they brought her to America.

And since a start as leading lady to John Barrymore is nothing more at Camilla's prospects are a bit bright.

Building Program Of Navy Is Given
WASHINGTON, Dec. 14 (AP)—A naval building program annually to cost more than \$700,000,000 and represented as being in harmony with the president's annual plans was transmitted to congress today by Secretary W. B. Wilson.

It would call for construction twenty five light cruisers, six destroyer leaders, 32 submarines and five aircraft carriers. The president would be given authority to suspend construction in his discretion in the event an international conference of limitation of naval armaments.

SISLER SOLD TO SENATORS FOR SUM BELIEVED NEAR \$25,000

DEFINITE SUM PAID IN DEAL NOT DIVULGED

YDE AND SPENCER ARE TRADED BY PIRATES TO INDIANAPOLIS

(By Associated Press)
NEW YORK, Dec. 14.—The sale of George Sisler, famous first baseman of the St. Louis Browns, to Washington was announced today by Phil Hall, president of the Browns. The amount involved was not disclosed, but it was understood to be around \$25,000.

Negotiations for the disposal of Sisler have been in progress ever since the baseball men gathered here for the annual major league meetings. The Athletics and White Sox also were understood to have bid for him.

Triangle Deal Mentioned
Originally a three cornered deal involving the Browns, Senators and Cleveland Indians, was discussed but Billy Evans, Cleveland's new general manager, indicated the outright sale of Sisler to Washington, might prevent a triangular trade. It was reported, nevertheless, that Washington and Cleveland were considering a deal by which the Senators would give Joe Judge, veteran first baseman, in exchange for Joe Shantz, southpaw pitcher, and Glenn Myatt, catcher.

Pirates Trade Yde And Spencer

NEW YORK, Dec. 14 (AP).—The Pittsburgh Pirates today announced the disposal of Emil Yde, southpaw pitcher, and Roy Spencer, catcher, to the Indianapolis club of the American association for a "valuable consideration."

AGGIE CAGERS IN GOOD SHAPE AS GAME NEARS

SQUAD OF 18 OUT FOR PRACTICE WITH KEEN COMPETITION

COLLEGE STATION, Dec. 14.—With the opening game of the season on the horizon, the Aggie cagers are in better shape than a week off, Coach Chuck Bassett is rapidly rounding his Texas Aggie dribblers into shape for the coming basketball season.

The squad now numbers eighteen instead of the mere handful of players at the beginning of practice and keen competition is in evidence during the daily scrimmages now engaging the attention of the squad.

Sikes Not Included

Captain J. V. Sikes, of Leonard, who placed on the all-Southwest Conference football eleven this year and came in for national mention, will not be with the Aggie cagers in their opening game since he and Paul Hunt have accepted invitations to play on the all-West eleven in the East-West game in California, Dec. 26. Hunt and Sikes will leave soon to join other members of the all-West team for practice preparatory for the West Coast game which will be played for the benefit of Crippled Children's Hospital, participation in this game does not affect amateur standing of the players.

While Sikes' absence will no

doubt be felt, Coach Bassett has several other good men on whom he can rely to fill the place of center or guard for Sikes, plays both positions with equal ability. Joe Brown, center on the freshman team last year and M. Darby, and R. J. Blount, both freshman numerical men, this year have been displaying a good brand of basketball in practice and are available for center position.

Webster Big Power

Noah Webster, one of the stars on the Aggie quarter last year, also will be in the line-up. It is felt that he will be added on one of the forwards where he has been playing in the same brilliant style that he showed last season. He is fast, can dribble and pass, and has an almost uncanny ability to shoot the ball into the basket. "Red" Petty, another forward from last year, also has the ability to ring the basket's almost at will, and it is evident that Bassett has a dependable forward in him. H. N. Keeton, W. F. Taylor and W. E. Davis, are other men who may be called upon to play the forwards. Darby, candidate for center, is another forward of ability.

On the guards Bassett will have men who have never represented the Aggies on the basketball floor before, although several of them will be remembered as stellar football and baseball players. Hiram Brantley, captain of the "baseball team," R. Varnell and R. K. Dorsey both of whom were backs on the Aggie eleven this year and J. F. Sevell are outstanding candidates for these positions. H. N. Keeton, who has been mentioned as forward, and R. J. Blount, also mentioned as a center, are two more promising candidates for guards.

COBB AND SCOTT ARE RECORD HOLDERS TO PASS THIS YEAR

(By Associated Press)
NEW YORK, Dec. 14.—Baseball's two most consistent performers are out of the game forever—unless they change their minds again when the sap begins to flow and the teams go south.

By coincidence the unconditional release of Everett Scott by the Toledo Madhens of the American Association followed close upon the release of Tyrus Cobb by the Philadelphia Athletics. The spring-steel shortstop, Scott, in 1925 set an all-time record by playing in his 1,367th consecutive game of major league baseball. Cobb has played ball for 23 years, another all-time record and one of many held by the Georgia Peach.

Baseball is in the blood of both and there still is a chance of a brief return for a grand finale in 1928. Neither has ever been able to resist the lure of the diamond in the spring, although both have enough cash stored away to assure a comfortable living.

In the winter, Scott runs a recreation parlor—billiards and bowling—at Fort Wayne, Ind. During the store league season he invariably decides not to go back to baseball, but the first robin and the first snow always find him fretting for the feel of a glove and the opening of the season finds him back in the game.

Legs tell, and the last two years have found the "Deacon," a little lower in the baseball scale. After setting the record that began with his first game as a member of the Boston Red Sox in 1916,

Famous Eastern Grid Coach Will Take All-Star Football Team To The Coast

WASHINGTON, Dec. 14.—Andy Kerr, Washington and Jefferson college football coach, has been selected to take a team of eastern college stars to the Pacific Coast to play a western contestation in a charity benefit game at San Francisco December 28.

The grid battle between eastern and western college athletes has been an annual event for several years, being sponsored by the Shriner's of the San Francisco district as a method of raising funds for their children's hospital at San Francisco.

Kerr has had exceptional success since he took charge of football at W. & J. two years ago. His 1926 eleven lost but one game, being noised out in the last 30 seconds of play at Philadelphia by Lafayette, which went through its 1925 campaign without meeting defeat.

This year the Washington and Jefferson eleven is one of the foremost in the east. It has victories over Western Maryland, Carnegie Tech, Lafayette and Bucknell in its major engagements.

Its success lies with Pitt in reality is not a blotch on its record, for the Pitt eleven has overwhelmed all other opposition, including the Nebraska team, which is considered one of the most powerful in the country.

Kerr came to W. & J. from the Pacific Coast, spending four years at Leland Stanford. He went to the big western school as an instructor to Pop Warner and introduced the famous system of the "Old Fox" with remarkable success. Previous to going to Stanford, Kerr was coached in Pittsburgh for a number of years.

JOHNSON SAYS CONTROL BEST

IS HURLER'S BIGGEST ASSET, VETERAN BOXMAN SAYS

"Control is a pitcher's greatest asset," says the great Walter Johnson. "That is one thing every pitcher on any club I manage in the minors or majors must work for."

"Wrong methods in warming up are the chief cause of wildness. Most pitchers warm up, seemingly, with but one intent—to limber their muscles before starting the game. That is a serious mistake.

"There should be some thought back of every ball pitched in the preliminary workout just as in the game. I have always made an effort to make my arm answer the call in practice as in a game and therefore have always been favored with good control.

"No pitcher can be truly effective without control."

BROWNS TO BE REMADE ENTRY

MANY NEW FACES WILL BE SEEN WHEN 1928 SEASON OPENS

ST. LOUIS, Dec. 14.—"You can trade any player on the Browns," is the word that Owner Phil Ball has slipped to Manager Dan Howley. "You couldn't win with that ball club, so give them new faces," is said to be the ultimatum the Browns' pilot received.

That makes it appear as if a number of the Browns might figure in trades during the coming winter. It is understood Ball has ex-

pressed a willingness to trade player in the line-up of his if any team can offer something nearly equal in return.

The failure of the Browns season was a distinct disappointment to Owner Phil Ball. He believed he had a club capable of finishing in the first division learned differently. Now he sees new faces in the hopes of interesting fandom.

SENATE MEETS FOR OKLAHOMA PROBE TODAY

HOUSE WILL PRESENT CHARGES OFFERED ON OFFICIALS

(By Associated Press) OKLAHOMA CITY, Dec. 14.—The state senate court of impeachment will convene at its chambers in the capital this afternoon, senators announced today after a half hour session behind closed doors in a hotel. Approximately thirty senators are present on the informal call. Mac Q. Williamson of Pauls Valley, president pro tempore of the organization. A member of the house board of managers announced that that body would go to the senate chambers at the convening hour and formally present charges preferred against Governor Johnston, Harry B. Caswell, president of the board of agriculture, and Chief Justice Fred P. Branson of the state supreme court. Senator W. C. Fidler, of Oklahoma City, stated there was little objection to meeting at the capitol chambers. There was no idea of refusing the permission extended by the governor for the senators to meet, even though the governor announced that they must convene as citizens.

WARRANT MUST BE GENUINE IN SEARCH, RULING

COATS CASE REVERSED ON STATE ADMISSION OF NO WARRANT

(By Associated Press) AUSTIN, Dec. 14.—Officers, although they may have abundance of "probable cause" to search a house for liquor, cannot legally do so without a regular search warrant based not on information but on genuine affidavits, the court of criminal appeals ruled today. The one year liquor sentence given Etta Coats in Schleicher county, was reversed with the decision because the records showed the state admitted lack of a warrant but attempted to set up strong "probable cause," claiming that sufficient. In another case, the court made a marginal informal statement that if "probable cause" becomes the issue in a trial, a district court properly can submit to the jury the question as to whether that cause existed.

Court Denies Case On Slot Machines

AUSTIN, Dec. 14.—The court of criminal appeals today held itself without jurisdiction to try appeals from lower court orders directing the destruction of allegedly illicit slot machines. Jose Franco's appeal from a county court at law judgment in El Paso county on the issue was dismissed. The court held the question not original but one of property rights and indicated only civil courts could go into it.

Finds Legs Character Index

By their legs ye shall know them, sayeth the "legologist," which is what Florence Vernon (above) is. She claims that a woman's legs are an index of character. Thus, thick legs show determination; slender legs, artistic temperament; dainty ankles, pleasant disposition; solid, but shapely legs, pugilistic temperament and just legs, domestic inclinations.

PROBE CALLED OF TELLER ACT IN FIRM'S LOAN

WASHINGTON, Dec. 14.—Commissioner Teller of the shipping board, said today that his conduct had been investigated by the department of justice in connection with a loan made to former Commissioner W. S. Hill by persons connected with west coast shipping interests. The commissioner, who is the Pacific coast representative of the board, said he had told the department that he knew nothing about the case until Mr. Hill, of South Dakota, told "the board" about it. "It was natural for the department of justice to question me regarding the matter," he said. "As I had been financially interested in Swayne and Hoyt (a shipping company of San Francisco) before becoming a member of the board, I sold all the interest I had in boats operated by that company, however, before coming to Washington."

FATALITIES IN AUTO CRASHES MOUNT HIGHER

18,871 DIE IN 1926 FROM AUTOS ALONE REPORT INDICATES

WASHINGTON, Dec. 14.—The department of commerce announced today that in the registration area in continental United States there were 18,871 accidental deaths in 1926 charged to automobiles and other motor vehicles (excluding motorcycles), and that the death rate from this cause was 17.9 per 100,000 population against 17 in 1925, 15.7 in 1924, 14.9 in 1923, and 12.5 in 1922.

Street Car Collisions
It should be noted, however, that the deaths assigned to automobile accidents do not include those due to collisions of automobiles with street cars and with railroad trains. Therefore, as in 1926 there were 484 deaths due to collisions of automobiles with street cars and 1,556 due to collisions with railroad trains, these deaths if added to the 18,871 assigned to automobile accidents would make for the registration area a grand total of 20,911 deaths due to accidents in which automobiles were involved and would raise the rate from 17.9 to 19.9 per 100,000 population.

As in 1926 the registration area included only 89.8 per cent of the total population of the United States, by assuming that the number of deaths from automobile accidents reported in the registration area comprises 89.8 per cent of the number of deaths from automobile accidents in the entire United States, it may be estimated that the total number of deaths in that year due to accidents in which automobiles were involved was approximately 23,344.

In the 36 states for which data are available for the five-year period 1922 to 1926, the number of these deaths as shown in the attached table, increased from 11,187 in 1922 to 17,321 in 1926, and the corresponding rates were 12.6 and 18.2.

LACK OF REPORT ON CHURCH HERE IS UNEXPLAINED

Answering inquiries of members and other interested in this part of the state regarding the fact that nothing is shown in the statistical report of the Northwest Texas conference as to activities of the 23rd Street Methodist church here the past year, Rev. D. C. Ross, Methodist minister, now superannuated, who was one of the organizers of the church, said that the error has caused considerable comment, but that he knows no reason why the report was not included in the minutes of the conference session.

Judging from the annual report one would conclude that the church here is a non-entity. Rev. Ross said, but such is certainly not the case, and the church has been doing a more or less ordinary work.

Live Organization
"Therefore," Rev. Ross added, "it is proper to say that the church is on the map with a live wire organization. In proportion to membership and financial strength, the church here did as well as any church in the district or even in the conference, having raised for all purposes the last conference year approximately \$2,000, which is an average of about \$20 per member on a basis of a membership of about 100."

The church is now well started on its program for the new year under leadership of Rev. McCollum, who came to the charge from Robertson and Estacado, and prospects are bright for another good year.

SALE OF SEALS AIDS PROGRAM OF U. S. HEALTH

PURCHASERS CITED AS SHARE-HOLDERS IN BIG ENTERPRISE

AUSTIN, Dec. 14.—Purchasers of Tuberculosis Christmas Seals are buyers of shares in one of the largest co-operative welfare enterprises in the world, said J. W. Butler, today, banker of Galveston and former president of the Texas Public Health association.

The state organization is the Texas representative of the National Tuberculosis association, which directs the nation-wide sale of the familiar little stickers with the double-barred cross. Mr. Butler has long been active in the work of the Texas Public Health association and is a director of the National Tuberculosis association.

American people have voluntarily contributed \$42,000,000 during the past twenty years to keep the scourge of tuberculosis from their doors. Such a vast sum represents the huge figure of 4,200,000,000 shares of Health at one cent each, sold since 1907.

According to information received from the Texas Public Health association, thousands of school children participate each year in the annual Seal Sale and become both salesmen and shareholders through the sale and purchase of the little health seals. To the educational value of this phase of the Seal Sale is due in large measure the children's knowledge of what they know about the Great White Plague. Most children today understand the meaning of the double-barred cross, the symbol of the world-wide campaign against tuberculosis.

Why play golf? You can get into just as many holes in a so-called family game of bridge any time.

OLTON SCHOOLS ADMITTED INTO SOUTHERN ASS'N

OLTON, Dec. 14.—The Olton high school was admitted to membership in the Southern Association of Secondary Schools and Colleges in a recent meeting held by that association at Jacksonville, Fla.

Few schools of this size can boast of this distinction. All of the credit for this advancement may be given to the superintendent of the Olton schools, Mr. H. P. Webb, and his assistants, who are untiring educators.

The Olton high school now has twenty-one credits of affiliation with the State Department of Education. Commercial subjects are taught, public school music, vocational agriculture, home economics, and the usual line of academic subjects.

Enrollment is 520. The enrollment of the Olton school is five hundred and twenty-nine. Of this number one hundred and sixty are in the high school. The senior class has an enrollment of eighteen, ten of whom boys. So far this year forty-five pupils have been transferred to the Olton school from other districts.

The Olton school furnishes transportation for all children outside the city limits. At present sixteen trucks are used for this purpose. The transportation cost for 1926-27 was approximately \$2.50 per child per month.

FLU-GR VICK'S

Cotton NEW ORLE...

Christmas is nearly here. You have gifts to choose. You want the best, of course.

That wrist watch for Betty Jane must be just the right size, just the right shape and have the latest thing in numerals.

That saxophone for Tom can't be purchased blindly. There are styles and vogues in saxophones just as there are in neckties and collars. You wouldn't feel right if you gave Tom an obsolete saxophone.

So on down the list. Every gift calls for discriminating care. The pleasure of the recipient will be proportionate to your thoughtfulness in making the selection.

Yet with all this regard for quality, you desire prices that are fair. You want every penny to count because you feel that the same principles of economy should apply in gift buying as in day-to-day shopping.

NEW ORLEANS TRADING

NEW ORLEANS, Dec. 14 (AP)—The cotton market opened firm on the news of a sharp decline in the consumption of domestic cotton. Total consumption for the year to date is 25,680 bales. The market after the start January sold to 18.62; March 18.78 and May 18.92; 33 to 37 points above the previous close. The bulge attracted heavy long liquidation and towards the end of the first half hour January sold off to 18.32, March 18.52 and May 18.63, 26 to 30 points down from the highs but still 7 points over yesterday's close.

The market quieted down later as prices gradually rallied on buying and covering. January traded up to 18.46, March 18.66 and May 18.77, 14 points up from the lows and 21 points above the previous close. At noon the market was steady and showed further signs of improvement. Live long liquidation and selling by tired longs had about run their course.

NEW YORK TRADING

NEW YORK, Dec. 14 (AP)—The cotton market opened firm at an advance of 27 to 24 points, after months quickly showing net gains of 34 to 37 points on brisk buying stimulated by relatively firm cables and unexpectedly large figures on the consumption of lint cotton in this country for November.

The advance to 18.50 for January and 18.88 for May met a good deal of realizing and with southern selling, however, and prices eased off 20 to 25 points from the best before the end of the first hour. The volume of business tapered off somewhat later in the morning, but there was liquidation and the bullish view of the domestic consumption figures. Talk of a better spot demand was sufficient to absorb offerings. After selling off to 18.27, or within 3 points of yesterday's closing quotations for January deliveries, the market rallied a few points, with the active months showing net advances of about 15 to 16 points at midday.

MANY VISITORS ATTEND ROTARY LUNCHEON HERE

The program was in charge of R. C. Dickinson, who introduced Hubert Allen, Roscoe Wilson and Walter Ater, who spoke on the matter of classification. Dr. Ater gave a very interesting address on the history of Rotary.

Mexicans Throng Field At Midnight

MEXICO CITY, Dec. 14 (AP)—Mexicans thronged their eyes to the north today, scanning the skies for the approach of an American ambassador of good-will, Colonel Charles A. Lindbergh, flying from Washington in the Spirit of St. Louis.

Before midnight throngs of people started for Valbuena flying field where Lindbergh's non-stop flight was expected to terminate successfully today. ... The interest was evident from noon to midnight. President Calles remained up until after midnight receiving news of Lindbergh's progress from the Associated Press.

Guards About Field

Guards were thrown about the flying field to prevent the crowd from over-running it. It was estimated that before Lindbergh's arrival at midnight, both infantry and cavalrymen would be on the field to prevent a repetition of the boisterous receptions which greeted the trans-Atlantic flier at Paris and London.

A group of army aviators headed by Major Emilio Carranza groomed their planes in preparation for performing stunts over the field when the American arrives. Major Carranza, who recently made the first non-stop flight between Mexico City and Juarez said that the Lindbergh flight would be a great stimulus to aviation in Mexico.

THESE POPULAR COMICS APPEAR EVERY DAY IN THE LUBBOCK DAILY JOURNAL

The Blazing Horizon

THE STORY THUS FAR CALDWELL, Kan. In 1880 was wicked cow town, close to the border of the Indian territory.

CHAPTER IV Craig opened the wallet and produced a faded envelope. "As temporary administrator of Jeff Harrison's estate—which job I took on

that you will stay out!" And Payne's face was grim as he answered. "The proclamation means nothing. Exactly nothing."

Presently Payne spoke. "Which side of the fence are you on? I suppose you're one of the many that think David Payne and his Boomers are fools."

"It's a secret I'm satisfied to let remain with the administrator," said Titus Moore.

"I'm insisting on telling you—and nobody else. Jeff Harrison's wife left him 11 years ago and ran away with another man. This note is her parting word."

"The boy thinks his mother is dead. Says she died in Chicago when he was two years old. It does beat all what unreasonable critters women are. . . . I'm begging your pardon, colonel—I didn't mean any disrespect to Mrs. Moore. I'll be darned if I ever get married. I can't imagine any woman turning Jeff Harrison down to take up with somebody else. I sure did admire that man—he sighed.

"The colonel smiled and brought his hand down on the table, signifying an end to the conversation. "My wife and daughter," he said briefly, "will be coming down from Kansas City next week. I'm buying a hundred yearlings from Colonel Chivington. I want you to take some of the boys and ride over and get them. You'd better get started in a couple of days."

"I'll start tomorrow. Think I'll take Tony along, if he ain't saddle-sore, and show him how to ride herd. It'll be a two day drive. It's all of 35 miles.

He went out whistling. "Tony," he called, "you're going to be busy from now on. We're going to ride near Turkey creek tomorrow and come back with a herd of yearlings. Meantime, you can watch the boys building fence and see what pointers you can pick up. . . . I'm sure make me proud the way you sit that pony."

"I'm glad to hear it. You stated the human side of the case pretty well. There's a legal side, too, and the government knows I'm right, but won't do anything about it."

"That land down there," pointing southward, "was set aside, as you know, for a number of Indian tribes, many of whom ceded their lands in other states to the government in return for a guarantee that they were to be forever unmolested and undisturbed in the Indian territory and never confined within the borders of a state. The government made separate treaties with the different tribes: the Five Nations—Chickasaws, Choctaws, Seminoles, Creeks and Cherokee; the Pawnees, Quapaws, Comanches, Osages—the whole shooting match of them. The strip was turned over to the Cherokee as an outlet and a hunting ground—32,000 square miles of land. Today they've got about as much use for all that land to hunt on as well, you know how the buffalo have been massacred with the coming of the railroads.

"But it's not the strip I'm aiming at first, although the Cherokees don't own the strip, but only the right to pass over it and hunt on it. I'm thinking about those two million acres in the center of the territory, called Oklahoma. That's undisputedly public domain. The Seminoles ceded it back to the government for the use of other friendly Indians and freedmen. I could tell you a long story. If I wanted to, I could show how the Creeks and Seminoles didn't get along together, but I won't. Anyway, the civil war outlawed word-freedmen and the other Indians are well taken care of. As far as I know, there isn't an Indian in Oklahoma—I'm speaking now of that two million acres and not the whole territory, although there's been a bill in congress every year for the last seven or eight, advocating naming the whole business Oklahoma."

He paused, and in the interval banged his fist down on the table. "It's public domain and open to all comers; but if a man goes down there with the intention of settling, the soldiers run him out. Funny, the soldiers are so busy running poor people out they can't see the cattlemen."

"What," asked Lillie, "are you going to do about it?" "Anything I can. For one thing—say, are you sure you're not looking for information to give to someone else?"

"The youth reddened. "I wouldn't have any reason to. My name's Gordon Lillie. People call me Bill on account of my middle name. I'm from Illinois and my folks live near Wellington."
