## Tri-State HS Rodeo Here Aug. 29 to 31

Wellington will be the host city for a three-day rodeo sponsored by the Tri State High School Rodeo Association Thursday through Saturday, August 29, 30 and 31.

This is the first time an official Tri State High School Rodeo has been held here, and the local sponsor is the Wellington Chapter of Future Farmers of America.

Beginning time each of the three nights is 8:00 p.m.

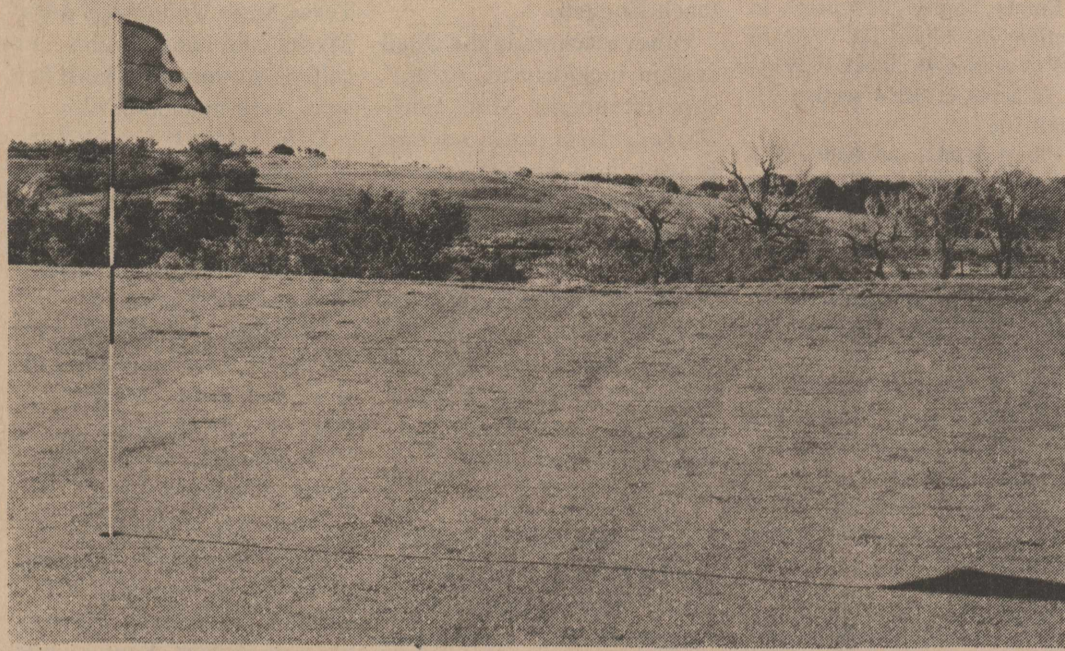

"This is an official high school association rodeo, and it will be completely different from any of the junior rodeos and FFA has sponsored in the past," said Rodney Myrick, chapter sponsor. He is being assisted by Bill Wilson, sponsor of the Rodeo Club for high school students.

This will be the first of the 1974-75 sanctioned high school rodeos in which the participants count points that will determine winners in the various classes at the Amarillo finals in June 1975.

There will be handsome saddles for the All Around Cowboy and All Around Cowgirl. Belt buckles will go to the first, second and third place winners in each event, and team trophies for both boys and girls will be awarded.

The entry list will be many times longer than at any youth rodeo held here, said Mr. Myrick. There should be from 75 to 100 bull riders and probably 50 bareback bronc riders. The complete list of events will be announced.

There will be no events for youngsters 12 years and under.

### VIEW FROM THE NINTH HOLE

The Hay Camp Country Club Golf Course will be opened to members and their guests Thursday, August 15 at 1:00 p.m. Here is the view from the velvety green ninth hole

looking northwest, beyond two lakes hidden in the trees. The smooth area at the top left is another green, equally as smooth and lush.

## Hay Camp Country Club Golf Course Opens Thurs.

Hay Camp Country Club Golf Course will open Thursday August 15, at 1:00 p.m., making available to members and their guests one of the most difficult courses in this part of the southwest—in a setting of unusual natural beauty.

It is part of the developing Hay Camp Complex, and the golf course itself has been in preparation for a year.

Greens are in excellent

condition and fairways continue to improve, said A.B. Dean, owner.

Jim Terry is the golf professional and will be in charge of the pro shop, which is fully equipped to serve members.

"The course has received numerous praiseworthy comments from all over Texas," Mr. Dean said. It promises to be one of the outstanding recreational industries of the Panhandle, he added.

Mr. Terry says he has been associated with only one course more difficult and rougher than Hay Camp, and that was at Los Alamos, New Mexico.

The golf course is located just inside the Hay Camp Country Club grounds, down a short road leading off to the right at the entrance.

The course itself has 9 holes, but there are tees for 18-hole round play. All roads and cart trails are marked.

The course, fully irrigated and set in the scenic beauty of Old Hay Camp Ranch, overlooks two lakes, and promises to be a real test for any experienced golfer or aspirant.

The greens are seeded

with English Seaside Bent Grass, and are spots of emerald green beauty, against a backdrop of native grass and mesquites.

Mr. Dean chose the locations of the tees, Mr. Terry was in charge of building the course.

sidewalk displays, convenient to everyone who comes by. Others will have Sidewalk Sale specials in both indoor and outdoor displays. Some will have all specials inside.

The Chamber of Commerce is sponsoring the sale, with Mack Saied, Jr., Bill Hatch and George Shadid in charge of arrangements. "We believe this is one way we can put before the people of the entire area that Wellington is one of the finest small towns in the Panhandle in which to trade," they declared.

## Wellington Schools Will Begin Classwork on Monday, Aug. 19

Wellington students will return to the classroom Monday, August 19, beginning the 1974-75 school year, Supt. E.W. Clement announced this week.

Final plans for the opening were made in a school board meeting Monday night, August 12.

Mr. Clement estimated the enrollment will be somewhere between 630 and 670. It is impossible to come to a closer figure, since the annual school census is no longer taken, he pointed out.

Students were reminded that they are to register Thursday and Friday, August 15 and 16. High school seniors will register Thursday morning, juniors Thursday afternoon, sophomores Friday morning and freshmen Friday afternoon.

Registration for grades one through three will be Thursday morning and grades four and five Friday afternoon. In junior high the eighth grade will register

Thursday morning, seventh grade Thursday afternoon and sixth grade Friday morning.

With registration completed, the opening day of school will see a full day of classes, the superintendent pointed out.

Buses will run their regular schedule and the cafeteria will be open.

Wellington Schools will see an exceptionally large number of new teachers through out the system. Mr. Clement, the new superintendent, and Junior High Principal Charles Floyd, were in the system already, but went into administrative work. A complete faculty list will be announced next week.

For football players and band students, school is already under way. Grid practice began on two-a-day basis Monday, August 12, and at the same time, band students met to arrange daily practice sessions.

All parents are urged to have their children in school on the opening day, Mr. Clement said.

Garner Altom attended a meeting Monday night in Amarillo of The Emergency Medical Services Committee of the Panhandle Regional Health Council.

The meeting was for the purpose of discussing the implementation of an emergency medical services system for the region.

Following a discussion the Committee authorized Eddie Melin, Director, Panhandle Regional Health Council to proceed with the application and the Committee meet back the second Monday night in September to finalize the application. The funding if granted is primarily in the area of Communications and setting up of an Emergency Medical Service delivery system that would be not more than 60 minutes away from anyone in the Panhandle area.

### WAR OF THE GIANTS

Two corporate superpowers, American Tel & Tel and IBM are about to do battle over who will supply the office of the future. The market is staggering; the data-processing and telephone industries together gross about \$60-billion a year and are growing at a compound growth rate of 13% annually.

The telephone industry enjoys a government regulated status as a monopoly, serving an exclusive territorial area. The data-processing industry is one of the most competitive in the world. The big stake is the communications in the office of tomorrow. Which industry will supply communications gear, typewriters, data-retrieval displays, telephones with pushbuttons which can handle dictation, double as calculators and as computer input and display terminals? The computer manufacturers feel that all of these office activities are natural extensions of their present data-processing activities and they are determined to keep from being "legislated" out of this mushrooming market.

The telephone companies are so determined to stop the growth of computer manufacturers in the communications field that they warned of higher residential rates in North Carolina if competition was permitted. The state utility commission proposed a ban on attaching any equipment to telephone lines unless the equipment was owned and maintained by the telephone companies. North Carolina reconsidered after substantial opposition and has allowed computers and terminals to hook up but the state has banned customer-owned telephones and switchboards. Oklahoma and Utah are considering similar bans.

The key issue is whether the telephone companies should manufacture all products attached to their lines or whether the market for these devices and telephones should evolve naturally and not be restricted to telephone company products and devices. The next question is whether the user should be permitted to own the communications equipment used in his office.

AT&T says it can compete but that fair competition between a regulated company and one that is not regulated just isn't possible.

### Fix-It Tip

One power tool almost every homeowner usually acquires is a portable electric drill. He may never buy another power tool, even desire one, but the electric drill is just about a must.

Variable speed drills are quite common now so that it is easy to use your drill for such chores as driving screws with appropriate bits.

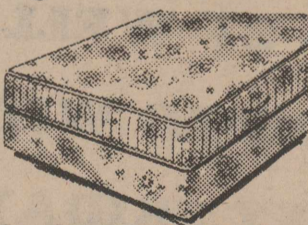

If the drill strains and starts turning slowly or it twists in your hand, slow down. You're applying more pressure than the drill can handle.

## Questions People Ask About the Catholic Church

Q. Do you think there will ever be real peace in the world again?

A. Frankly, no. The only real peace comes from the Prince of Peace, Jesus Our Lord, and that is an internal peace; peace of mind and peace of soul. As long as our leaders leave the Prince of Peace out of their discussions and treaties, there will never be real peace. There will be truces, cease-fires, and cessation of Cold Wars, but these are negative things. They are but the absence of war, not the presence of Peace. I would like to see the entire United Nations just once fall on its collective knees and pray for Peace.

Q. What would be a good brief Catholic newspaper for a Protestant to subscribe to?

A. Two of my favorites would be Our Sunday Visitor from Huntington, Indiana, and Twin Circle from Los Angeles. There are many others, and if you call me, I can give you their addresses. Our Sunday Visitor also has a Spanish edition for our Chicano friends, called Visitante Dominical. Many good Protestants already subscribe to these papers.

## 1974 Football Season Now Less Than a Month Away

When football shoes were issued Wednesday, August 7, we realized how near the 1974 season is to kick-off time—and our own brand of Skyrocket Football.

No College game we will see, nor anything that will come over television, can compare to that spirit-rousing play we will see from our own boys.

Forty-eight pairs of shoes were issued. Several other boys are expected to report this week and a few may drop out before the Hollis game that is the opener.

Nor are we to forget those groups that back up the football team—the younger football players, That Skyrocket Band and the Pep Squad. All contribute to the color that dominates those Friday nights the team plays at home.

All of these need our encouragement. We will be a young team, but under the coaching from WHS's fine staff, they will quickly mold into a capable and aggressive team. At those times when the going is rough—as it will be in District 2-A—the boys and their coaches need our support more than ever.

It is to be remembered, of course, that the first purpose of our high school is to educate our young people. But it is also a fact that our boys and girls have the minds for their studies, and plenty of energy left over to give us some dazzling entertainment each Friday evening through the football season.

### Here to Stay?

J. Edgar Hoover, the late director of the FBI, once said that his organization had such a good public image because it didn't give traffic tickets.

No one likes the traffic officer, be he highway patrolman, city officer or deputy sheriff. He's the most common contact most citizens have with law enforcement. And he usually interrupts some important trip—important to the driver, at least.

Speed limits for many drivers are something for others to observe. Their own business, by golly, requires higher speed and that, they believe, should be their constitutional right.

With the lower 55 miles-per-hour limit, the problem is compounded. Long settled in the 70-m.p.h. habit, more drivers than ever are being tagged by the Texas Department of Public Safety and other agencies.

But there is another side to the coin. The limit was lowered to conserve energy. It ended up saving lives.

Traffic deaths in Dallas, for example, are running 20 behind the rate of a year ago. There is an outside chance that fewer than 100 people will die on the city's streets and freeways this year. That would be the lowest toll in recent memory.

State traffic deaths are down 27 per cent through June. The traffic death rate per 100 million miles driven was 3.4 through April, the lowest since DPS began keeping the statistics in 1937.

To keep drivers reminded, DPS has issued some 56,000 tickets—double the number through the same period last year. Consequently, drivers' complaints are up.

Never has so much flak been fired at such a beneficial law. Maybe the 55-m.p.h. limit should be made permanent. Then drivers could concentrate on obeying it and be kinder to officers whose duty it is to enforce it.—The Dallas Morning News.

## STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Views of citizens on how to save current assets of the Texas coast while permitting its orderly economic development are being sampled in a series of public hearings.

Hearings are a major initial step in development of a Coastal Zone Management Plan.

More than 150 representatives of business, labor, agriculture, industry and environmental groups outlined expectations for the plan at a workshop here last week.

Need for a balance between economic development and protection of natural resources emerged as the key element for the CZM plan.

CZM is concerned with economic development, urban population growth, water supply, local control, residential and resort home development and power plant siting.

Hearings are slated for August 13 in Harlingen, August 18 in Corpus Christi, September 5 in Victoria, September 12 in Beaumont,

September 23 in Houston, September 24 in Galveston and September 27 in Austin.

The technical phase of the program starting in the fall will seek to arrive at estimates of demands on coastal resources, assess capability of resources to support the demands and to evaluate possible management mechanisms.

After more hearings in 1975 and 1976, final recommendations resulting from the plan will be made to the legislature in September, 1976.

DPS CHECK ASKED — Gov. Dolph Briscoe asked a full report on intelligence activities of the Department of Public Safety.

Briscoe said he would not rule out a separate citizens committee inquiry into DPS surveillance of individuals, but he will look at a DPS report before asking any further probe.

Surveillance activities of DPS came under critical scrutiny due to an agent's

report on Robert W. Pomeroy, who led a citizens' group opposing a nuclear power plant near Fort Worth. DPS Director Wilson Speir has apologized for the Pomeroy report, and noted that it was never made a part of DPS permanent files since Pomeroy was not engaged in illegal activity.

Meanwhile, the state Senate's Jurisprudence Committee will have a select sub-committee headed by Sen. Oscar Mauzy of Dallas checking into the Pomeroy case and, generally, into invasion of privacy issues.

AG OPINIONS — Atty. Gen. John Hill held the state Office of Traffic Safety isn't authorized to sell T-shirt with a "drive friendly" logo to finance a traffic safety program.

In other recent opinions, Hill concluded:

• Willacy County cannot use federal revenue sharing funds to support its hospital district or a non-profit clinic for low-income residents.

• Texas Tech University can purchase group term life insurance from mutual companies for its faculty and staff.

• Blood donors over 18 are entitled to the same compensation as those over 21, regardless of a state statute.

• A county may locate its juvenile detention facility in the same building as its county jail, as long as juvenile and adult offenders do not come in contact with each other.

## Reddy's consumer tips on... washers

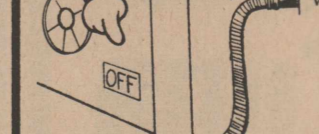

**Plan Ahead**  
Sort clothes according to type of fabric, colorfastness, degree of soil and garment construction. You'll save both hot water and electricity by doing similar items together. Accumulate a full load before running your washer.

**Be Selective**  
Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Look into cold wash detergents.

Use the least amount of detergent that will get your clothes clean—most loads require only an ounce or less! Overloading causes extra strain and wear on your equipment: check the manufacturer's recommendations for load weight. Balance your load by alternating small and large items.

**For Safety Sake**  
Be sure control is "off" before reaching into your washer. If one is necessary, use only a heavy duty extension cord. Be sure your washer is grounded. Keep dry cleaning agents, color remover and Fiberglas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.

Remember, Reddy supplies the energy—but only you can use it wisely!

# Visitors from Six States Attend Two-Day Reunion

Visitors from as far as the Pacific northwest came home over the weekend to join friends and relatives of Marella, Salt Fork and Lillie in observing the three-community reunion.

Festivities began Saturday night with a fish and chicken fry, and an entertainment program of skits and songs.

Sunday brought visiting, a memorial service and short business meeting.

County Judge Zook Thomas, who still lives at Lillie, welcomed the visitors. R.H. Isbell gave the invocation.

Mrs. R.H. Isbell, president of the three-community association, led the memorial service, with Mrs. Thomas giving the list of those from Lillie who have died since the last meeting, Mrs. Ernest Harwell, from the Marella community, and Mrs. Willia Jean Cummings, Hallmark of Hartshorn, Oklahoma, from Salt Fork. To close the service, Hugh Bledsoe, Raymond Horton, Mrs. Rufus Sweat and Mrs. Jack Lowry sang Beyond the Sunset, with Mrs. Kyle Lindley as accompanist.

Coming farthest to attend this reunion was Mrs. Opal Wilson Waite, who lives in Oregon.

The oldest resident of former resident of any of the communities present was Mrs. S.L. Maxwell, while Mrs. Bell Mitchell of Quail, only a little younger, was the next-oldest. Each was presented a gift.

States represented at the reunion were Texas, Oklahoma, New Mexico, Colorado, California and Oregon.

During the business session, Raymond Horton was elected president for the 1975 reunion, and Mrs. Isbell was chosen secretary. Mrs. Harwell will be the activities chairman.

Through the years, these three communities have been strongholds of gospel singing, and much of Sunday afternoon was given over to again to the numbers popular at singings, and wherever a few of the people from Salt Fork, Lillie or Marella gathered for

entertainment. Giving the benediction was Mrs. C.D. Damron, widow of a pastor of the Salt Fork Methodist Church, which later was consolidated with other churches to form Trinity Methodist.

## LETTERS from the People

Wellington Leader Staff:

May I use your paper to congratulate the Homecoming President and committees for a job well done? They did a wonderful job.

But I have a question to ask.

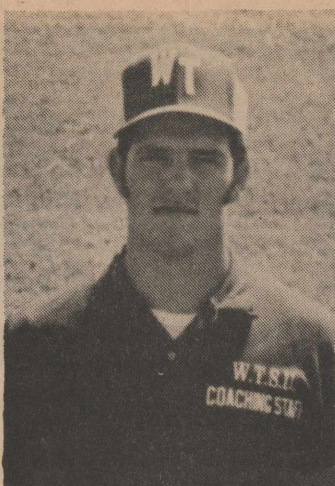

Where are all those "x's" that live in the Panhandle area, especially around Wellington? Some of us came a long way TO SEE YOU and too many of you didn't seem very anxious to see us. I think it is sad how few of you showed when some of you worked so hard, and many came so far.

I'd like to give the class of '65 a special thanks! Your Friday night party was great. Don't know when I've had such a joyous time as I did Friday night.

Saturday night should be set aside for all to be together, one time. I'm sure all being there Saturday night helps keep the thing going.

Again, thanks to those who planned and worked so hard and thanks to '65 for the invitation to be with you.

Sincerely,  
Betty Welch.

# Traveler Runs Afoul Buzzard and the Law

A Norman, Oklahoma, man had the windshield of his borrowed pickup shattered when it was struck by a buzzard Wednesday evening, August 7. The accident occurred about two and one-half miles east of Quail.

The following day, when he returned to see about the vehicle, the man was arrested on a felony charge of car theft from Hall County (a different vehicle) Deputy Sheriff Alvin Minatrea reported.

He identified the man as Earl Ray Williams. With him were his wife, Patsy and his mother, Mrs. Janell Williams, according to the deputy.

Three students en route to evening classes at Clarendon College were first to reach the scene and brought the Williams family to Collingsworth General Hospital. He was found to have glass in one eye and a cut below the eye.

He was taken to a Norman

Hospital by a Collingsworth Volunteer Ambulance Service team, accompanied by his wife and mother. Upon returning the driver and attendant reported Williams had refused to pay the ambulance fee.

Meanwhile, local officers had learned of the charge pending against him at Memphis.

When Williams returned for the pickup Thursday, Deputy Minatrea and Police-man Mike Gilmore made the arrest at South Side Salvage, where the vehicle was held for payment of the tow charge.

Officers were told the damaged pickup belonged to Williams brother.

Bond was set at \$4,000 at a hearing in Memphis and Williams is being held in Collingsworth County Jail, where Hall County prisoners are housed.

Ambulance service officials said arrangements have been made for payment of their fee.
