FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, JULY 7, 1927.

NUMBER 19

SATURDAY'S PROGRAM ENDS LEGION PICNIC

Two Baseball Games On Card; Saturday Expected to be Second Feature Day.

With two more baseball games scheduled for this week and the continuance of carnival and mid-way attractions, Legion Week in Floydada will formally be drawn to a close Saturday night. Large crowds have been in attendance at the activities throughout the entire week, Monday, July 4th, afternoon and night marking the largest attendance during the week's celebration. Belief has been expressed by the Legion officials that a crowd nearing the attendance number of Monday, will be present Saturday night when the week is formally closed.

Parade Starts Activities

A patriotic parade, featuring the boys of Floydada and surrounding communities participating in Boys' Week here during the celebration, officially opened the picnic. The parade consisted of some fifty boys in various costumes, including the Boys Scouts of this city who marched in troupe form in the parade. The parade was headed by legion members carrying the post colors and followed by the Floydada Municipal Band.

Carnival shows and mid-way attractions have been furnished throughout the week by the E. P. James Shows. The three rides, five shows and twenty concessions are attracting the majority of the crowds, the entire carnival attractions proving very popular with the picnickers.

In addition to the parade, carnival attractions and band concerts, base ball games with various neighboring towns have furnished amusement for the crowds throughout the week. Two games are scheduled for the remainder of the week. On Friday afternoon, the Floydada team will meet the Petersburg nine and on Saturday they will play against the Quitaque sluggers.

Lockney Defeats Floydada

Following the boys' parade Monday afternoon, the Floydada and Lockney base ball clubs met at the ball park in one of the hardest fought and most interesting games that either club have played this year. The Lockney nine was victorious, winning the game in the ninth inning over the Floydada crew by the score of 2 to 3. The first half of the game was a pitcher's battle, neither Ed Holmes, pitching for Lockney, nor Horn, pitching for Floyd, allowing many hits.

To "Lefty" Holmes, of Sand Hill is owed, to a great extent, the victory of the Lockney swatters. With the scored tied 2 and 2 in the first half of the ninth inning, Holmes got a third bagger from Horn and was later brought in home by Parr, who got a first base hit. Although the Floydada nine staged a rally in the last half of the ninth and succeeded in getting two men on bases, their attempt to score was fruitless and the game ended in favor of the visiting team.

Only one home run was knocked during the game. This by C. Y. Carter, of Floydada, who got a homer in the last half of the fourth inning, when he parked the ball. The following was the Floydada line-up for the Monday game: Keith, cf; Burke, 2d; Carter, ss; May, 3b; Mitchell, 1b; White, lf; Hackby, c; Horn, p; Eubank, rf. The Lockney nine line-up as follows: Vannoy, 2d; Ed Holmes, c; Lefty Holmes, p; Parr, 3b; Stowe, 1b; Bennett, rf; Reiser, ss; Walker, lf; and Womack, cf.

Plans Giant Hatchery For Floydada By Fall

A mammoth hatchery with a total of over 25,000 eggs will be completed in this city by the first of September, if the present plans mature of W. J. Burke, of Silvertown, who is this drawing up the specifications for the new concern. Definite plans as to the location and the probable cost of the new enterprise have not as yet been completed.

Mr. Heald operated a hatchery in Silvertown during the past season and has expressed belief that Floydada is an ideal place for the location of a mammoth hatchery. "At Silvertown during the past season, I operated one machine with a capacity of 12,500 eggs and found that, at many times during the season, a second machine would have been profitable," Mr. Heald stated. "I believe that with the present developments of this county and the probable developments by the fall season, this city will justify the construction of a hatchery that would be a pride of many cities larger than Floydada," he continued.

The giant hatchery outfit will consist of two machines, each with a capacity of 12,500 eggs and will probably be one of the best equipped hatcheries in this section. Mr. Heald plans at the present time to have the plant in operation in time to catch the bulk of the fall season trade, he stated.

Miss Geraldine Massie has as her guest this week Miss Dorothy Faree of Amarillo. She arrived Wednesday to be here several days. Miss Massie and Miss Faree are both members of the Alpha Delta Pi sorority at the University of Texas, where they attended school during the past long session.

Bank Statements Indicate Sound Conditions Here

Statement of the four banks in Floyd County as made to the Comptroller of the Currency for June 30, show a strong financial condition in the county, a study of the figures indicating that never before have the banks shown such big reserves in cash and loans so low in recent years. A combined statement of the banks, including the First National and Floyd County National of Floydada, the First National and Security State of Lockney, shows:

Total loans	\$ 843,791.39
Total cash on hand	1,546,357.17
Total deposits	2,269,164.91

Baptist Church Adopts Plans For New Church

New Edifice For Local Congregation Estimated by Architects to Cost \$40,000 to \$45,000.

Plans for the new church home of the First Baptist Church of Floydada were adopted in church conference by the congregation last Sunday morning, the plans worked out by the building committee being chosen without a dissenting vote. The vote followed discussion of the plans by members of the church and by the representative of the architects who prepared the plans. According to the estimates made the new edifice will cost \$40,000 to \$45,000, and when completed will be one of the most complete buildings for church work in this section.

J. C. Gilliam, who is chairman of the building committee, said this week that the building planned will have an auditorium with a seating capacity of 800 persons, twenty-eight class rooms, assembly rooms, ladies' rooms, pastor's study and kitchen. It will be two-story with basement, and constructed of brick. Other members of the building committee are L. A. Marshall, W. P. Dally, Mrs. Lon V. Smith and G. A. Linder.

The church previous to Sunday morning, had voted to have the committee proceed with the building plans, and the vote was a ratification of their work and the formal declaration of the congregation's plans and aspirations for a new church home.

With the adoption of the plans, details of the specifications for the church will be gone into, and the finance committee, headed by O. L. Stansell, will begin its work. This committee's first meeting will likely be held Monday night of next week, Mr. Stansell said.

Time Turns Back In Its Flight During Contest

Oldtimers in the audience that taxed to capacity the Sand Hill school auditorium last Saturday night were carried back in memory at least to the days of "the sweet long ago" by the strains of popular pieces in vogue when Old Dobbin and the one horse shay held the right-of-way. In the fiddling contest staged as the feature of the entertainment, B. Martin of Floydada carried off first honors. He was given a \$50 violin by R. C. Hollingsworth of Sand Hill. C. R. Mickey was in charge of the arrangements for the affair.

Jigging contests, charleston and guitar picking contests and the serving of a big home-made cake were the other enjoyable numbers offered on the program.

John W. McDonald of Lockney fiddled his way into second place in the maze of string music, barely placing above John Golleher of Sand Hill.

Miss Opal Lee Shurbert of Sand Hill won first and Miss Jewel Wood, sister of Mrs. W. R. Dooley, was awarded second place in an audience decision for the clowning contest entered by six girls.

The Tinnin lad from near CoCoy won first in the jigging contest and R. L. Golleher of Sand Hill was given second place.

A big cake baked by Mrs. A. R. Hanna was auctioned off by Mr. McDonald, as a present for the prettiest girl in the audience. Miss Jewel Wood was selected as the worthy maid. A total sum of \$20.45 was realized from the cake sale.

Over \$56 was netted from the ticket sale, it was stated. Most of the funds realized will be used to defray the expenses of Mrs. Gertrude Holmes who plans to make the trip to the A. & M. Short Course in July.

W. J. Burke Part Owner Forest Show In Dallas

The deal was completed last week and Mr. Burke is now in active charge of the show, planning to make his home in Dallas. The theatre is located on Forest Avenue and Early Street in the suburban section.

Mrs. Burke and her sons, Macly and Maurice will leave Friday to join Mr. Burke.

Mr. Burke who has been prominent here for the past several years in the grain business is making the move mainly for his health, members of his family said.

Leader of Lockhart Evangelistic Party

DR. Wm. J. LOCKHART, introducing Dr. Wm. J. Lockhart, leader of the evangelistic party who will conduct a revival meeting here with the First Christian Church, beginning July 31, and continuing through four Sundays. Nelson & Simpson New Owners Olympic, Royal

New Men Already Established in Picture Show Business in Paducah and Crowell.

The purchase yesterday afternoon of the Olympic and Royal Theatres in Floydada from Tom Kennedy by Simpson & Nelson, owners of two theatres each in Crowell and Paducah, was announced last yesterday by the purchasers, who will take charge of the two shows here on Monday, if all details of the trade go through as planned.

The members of the new firm of owners are R. W. Simpson, of Paducah, and J. A. Nelson, of Fort Worth. The former is active manager of the properties already owned at Paducah and Crowell and will generally supervise the two plants in Floydada, being added to their string of shows. J. G. Deakins, who accompanied the new owners here yesterday, will be local manager of the shows. Mr. Simpson said of him in a brief interview that although a young man Deakins has grown up in the picture show business and is thoroughly competent and may be depended upon to give the people of this section excellent management of the amusement places.

"The first thing we will undertake to do after assuming charge of the Olympic and the Royal in Floydada, will be to install the latest cooling devices in both buildings, Mr. Simpkins of the firm said, "we are going to make these two shows the coolest places in Floydada, our plan being to make an installation that will put 35,000 cubic feet of fresh air into the buildings per minute."

The retiring owner, T. L. Kennedy, purchased the Olympic Theatre early this spring from P. W. Cloud and later the Royal from R. H. Lowry. He has owned and operated the picture show at Matador for a number of years.

"We are greatly pleased with the cordial reception we have received from the few business men we have had the opportunity to meet since being in Floydada," Mr. Nelson said. "This is evidently a live community and we feel hopeful that we are going to hit it off right with your people from the first. Mr. Deakins, whom we are putting here as manager of the shows, you will find anxious to serve the public well. We hope to be able to show pictures that will meet with the approval of the theatre-going public."

The two shows here are both modern installations in the projection rooms.

HALE ROAD BONDS CARRY BY VOTE OF 933 TO 430

Complete returns, with the exception of the Bartonsite box of probably five votes, unofficially tabulated on the Hale County million dollar road bond issue, indicate that the bond issue carried 933 to 430 votes, according to reports received from Plainview.

The issue was voted on June 29 for the purpose of paving a north and south and an east and west highway through Hale County. The east and west highway would connect with the proposed paved highway through Floyd County for which election has been called in this county for August 1.

HARLEY SADLER COMING

Harry Holbrook, advance man for the Harley Sadler Comedian Show, was in Floydada Wednesday of this week making arrangements for this popular show to appear here during the week of August 8 to 13.

Harley Sadler and his own company are well known in this section, Mr. Sadler being a native of the Panhandle country. They have appeared in this city every season for the past few years and have proven very popular with crowds here.

The school plant will be one of the most modern and commodious in the county.

OPEN NEW TOWNSITE ON JULY 22 AND 23

Developers See Great Future For New Town on Denver South Plains Line.

South Plains, new Floyd County town, 17 miles due north of Floydada, being developed on the Denver South Plains line by A. B. Brown of Lockney, and J. S. Edwards of Slaton, will be launched formally on July 22 and 23, when a big auction sale of lots will be held, according to announcement by the South Plains Townsite Company.

Interest Is Pronounced.

Interest in the new town is already pronounced, A. B. Brown, one of the members of the development company, said the first of this week. In addition to a \$30,000 gin now in course of construction in the industrial section of the new town, and one brick building on Main Street already begun, four other buildings of brick will be constructed as soon as the builders can get to them and sites have been reserved by lumber dealers and elevator men. Other brick buildings for business houses, which the developers are not now in position to announce, are also in the offing and will likely be under way in the course of a few weeks.

The new town is expected to attain rapid growth from the first in view of the large territory, already well-developed, generally speaking, that it will serve. It will be fifteen miles northeast of Lockney, seventeen miles due north of Floydada, seventeen miles southwest of Quitaque and thirty miles east of Plainview. The town is situated four miles west of the point where the new Denver line will emerge from the brakes but the territory which it will aid to serve extends in a fan shape northeast and southeast for a much greater distance than that. "We want to make this a substantial community from the beginning," Mr. Brown said. "And in addition to putting some of our own money into substantial buildings, we are going to encourage others to build well and discourage inadequate buildings and shacks at all times."

Auction Sale Planned.

On the opening days, July 22 and 23, an auction sale of lots will be conducted. Col. W. H. Seale, veteran auctioneer of the plains and panhandle, of Floydada, W. A. Nash and Son of Plainview, John McDonald of Lockney, will be in charge of the auction sale, announced. Details of the auction sale, together with terms and other details of the plans for the opening days will be made public as soon as complete plans can be matured. "Not only the homefolk, but investors and business men in general from over the southwest are taking an interest in the plans for South Plains. We are getting letters daily from various points inquiring about the new city we are developing in Floyd County."

Main Street on the plat of the new town is the Silvertown-Floydada Highway. The Denver South Plains line will be at the south end of Main Street which will be 100 feet wide. All other streets in the town will be eighty feet in width.

In the plat is included forty acres off the east side of the S. F. Gilliland land, purchased from Mr. Gilliland by the developers some weeks ago; and also 160 acres purchased from Mrs. Homer Harper lying immediately east of the Gilliland land across the highway. The developers are calling attention of interested investors to the fact that the land is probably as well drained as any piece of land in Floyd County.

1,254,500 Bushels of Wheat 1927 Crop Total

Over one million and a quarter bushels of 1927 wheat is the production record set in Floyd County with eighty-five to ninety per cent of the present crop harvested, a check made Wednesday shows. To date, the county has shipped 733 cars of wheat and the estimated total compiled includes approximate storage in granaries and elevators. The figures obtained show 1,254,500 bushels produced.

Late yields, while testing 54 to 58 has been disappointing in some respects, especially after early yields were considered larger than at first estimated. The harvest at present shows an average of five to nine bushels as compared to fifteen bushels for the early crop. Some smut has been found but in varying amounts.

The price has been steady throughout the season, standing today as for the past two weeks at \$1.20 per bushel. The shipment, according to officials from the different elevator stations over the county is as follows:

Floydada 360 cars or 454,000 bushels, Lockney 260 cars or 364,000 bushels, Muncy 12 cars or 16,000 bushels, Aiken 101 cars or 141,400 bushels, ten to fifteen per cent not harvested 153,300 bushels, in elevators and stored 75,000 bushels.

Help! Hey! Hey! Floydada Shingle Business Rushing

Roof repair business in Floydada is rushing, especially in the residence section, where the demand for shingles and roofing materials and carpenters to put them on the roofs has been almost as great as the ability of the dealers to supply the materials, and greater than the supply of carpenters, since last Friday afternoon when more than one hundred and fifty losses were reported in Floydada caused by the hail.

Local insurance agents have been busy reporting losses to their companies, damages claimed from a few dollars to \$250. In some instances buildings are to be re-roofed, and contractors have taken as many men as possible off of regular contract work in order to get the repair jobs done.

Gaither Special Judge In Condemnation Cases

Judge Wm. McGehee Disqualified in Cases of Denver Right-of-Way Proceedings Near Lockney.

J. C. Gaither, of this city, was named last week by Acting Governor Barry Miller as special judge in the condemnation proceedings to obtain the right-of-way for the Fort Worth & Denver South Plains lines near Lockney, in which cases County Judge Wm. McGehee recently certified his disqualifications to the governor.

In each instance the committee, guaranteeing the right of way to the Denver, and the owners of the land were unable to agree on the amount of charges for the land used and damages to the remainder of the land owned. Owners against whom proceedings were instituted in the name of the railway company by the committee are D. O. A. Miller, Percy W. Boone, J. P. Crawford and J. T. Livesay and wife. The last named have since compromised with the committee out of court.

This week Justice Gaither named Bert Bobbitt, A. S. Cummings and E. W. Holmes as the commission which would hear the case and render a decision on the proper amount of damages to be paid. Should either side be dissatisfied with the commission's findings an appeal can be taken to county court, and thence through regular channels as in other cases. Judge Gaither would only sit in the case should an appeal be taken.

The Silvertown right-of-way committee also have two condemnation proceedings in this county, Dr. E. E. Robinson, of Plainview, being one of the defendants and Paul Kurn and other defendants in the other suit. Dr. Robinson owns a quarter section of land in the north part of the county. He was awarded \$1197.20 by the commission composed of R. E. L. Muncy, N. T. A. Byars and J. C. Gaither and has given notice of appeal from their decision. The commission will hear the facts in the Kurn proceedings on July 18. Kurn and associates also own a quarter section of land.

Stephenson & Thurman also have under construction at Lockney a \$3,000 filling station for Artie Baker on the corner of the same block, south of the Jyington building.

SAND HILL P. T. C. SOCIETY GIVE REMAINING TWO PLAYS

Every person possessing season tickets for the Sand Hill P. T. C. Society plays should preserve them, for the two remaining scheduled plays will be given as soon as possible, according to Ed Holmes, president.

Unavoidable delays last winter due to epidemics prevented the presentations in the order and at the time planned. "We are going to give those plays and we want the ticket holders to anticipate a completion of the schedule as contracted," Holmes said.

TRAFFIC DANGERS INCREASE

There is a traffic evil in Floydada should be remedied at once. Doubling is dangerous for pedestrian motorists, alike, and where the risk heavy there is certain to be a loss. It is to be just another human "jay-walk". Scientists and professional universities have worried sick over the problem of making paths on the campus to save three steps in going. The young and the old will short route between any two spots of everything.

so peculiar about folk when they way through two or of parked cars to the traffic en start off on a forty-five for some store on the op. It just seems natural for it that way. s should cross streets only have marked zones to follow-down-town districts where usually heavy, especially and other busy days for residents, rural shoppers.

parking and jay-walking go hand to endanger human lives. rist will drive in at the curb at proper angle and in three minutes other fellow will park right behind parallel with the curb. At times, "day nights, cars are parked "on the paved portion of meet in Floydada on the west square. three more days remain on the dule of their special activities. everything you can to encourage e lads. If they do a thing wrong, ow them the correct way to execute errand or job. It is a big week for e boys and the more individual inter- given the greater the proportion of orthy results from it all to everybody concerned.

Those citizens who helped direct the work should be complimented for their efficient management. Perhaps every boy was not given the position that he or his parents thought he should have had, but keep in mind the difficult task the directors had in filling all the places from the ranks of the volunteers for the week's activities. They did the best they could and they are deserving of full credit.

GO AHEAD SLOW

"Be sure you are right, then go ahead." An old piece of advice but it is a good one when applied to the motorist at the railway crossing. The A. T. & S. F. road is making a "Cross Crossings Cautiously" campaign to reduce the number of casualties and injuries by encouraging car drivers to be more careful when crossing rail lines. If every motorist in co-operating in this campaign would be sure that he was right and then go ahead slowly at the crossings there would be an appreciable reduction in the demand for stone slabs.

In 1926 there were 2,492 persons killed and 6,991 injured at railroad-highway crossings. There were 202 persons

killed and 1,430 injured by driving cars into sides of trains last year, the Santa Fe statistics show.

The elimination of railroad-highway crossings at grade would end crossing accident, but generations of time and some nineteen billions of dollars are involved in this project.

Railroad engineers are trained, selected and disciplined. Automobile drivers are not. The latter group it is, then, who should observe caution warnings and be sure they are right before going ahead. Stop, look and listen is worth your time. Do it.

It was a great Fourth of July for thousands of people and to many it was just another Monday.

Keep in mind the need for good exhibits at the Floyd County Fair, September 22, 23 and 24.

Be sure that you buy your ticket for the Fathers' and Sons' Banquet at the Andrews Ward Gymnasium. If you do not have a son, borrow a boy and give him a treat.

This and That

M. W. Whitlow, who is now visiting at Eldorado Springs, Mo., spent the Fourth of July at Clinton, Mo., according to advices received here by friends. He said in a recent letter, "My next move will be to Texas sometime in July, as I am wanting to see the good people of the grand old Lone Star State; more especially those of Floyd and adjoining counties."

Usually the individual's interest in his own work decides the amount and the length of his time income.

It is disheartening to see the kiddies of the present civilization grow up without ever feeding an elephant peanuts or to have enjoyed a glass of pink lemonade at the old-time circus.

The location of the carnival in Floydada this week would be a fine place for a municipal auditorium.

After one of these hard-hitting hail storms, a fellow feels like he is ready to trade his part of the country back to the Indians.

'Round The Square

'Round the Square sure is a pretty sight this week. All decorated with flags "n everything", dressed up for the Legion Fourth of July celebration. The picnic is in full swing this week and drawing big crowds. "Oh Skinny, Come on over!"

Our idea of a hero is a boy who can look nonchalant wearing a new straw hat while riding with his girl in the rumble seat of a roadster during a West Texas sandstorm.

This is Boys' Week in Floyd County. The boy on the farm should be given the same privilege as the boys in the town. Why not look up to boys during this week, consider their ideas and make special efforts to instruct the boys in the right way to do things? They need your help and we believe that you will find pleasure in helping them. Remember Boys are the "dandies" during the week.

Why will Floydada soon look like the National Congress? Give it up? Because she is soon to have an unlimited supply of natural gas. Ask me another!

She is so dumb that she thinks Oliver Twist is the brand of chewing tobacco that the ambeer slingers 'Round the Square delight in slinging all over the side walks.

She thinks that a football coach has four wheels and that poaching game is like poaching eggs.

There's lots of difference in folks, says the Amarillo Globe. In a recent issue they tell this little story:

"Four motor tourists—two married couples—entered an Amarillo restaurant the other day. They seated themselves at a table, made known their wants to a waitress in loud and important voices, then proceeded to discuss their trip for the benefit of other patrons in the place. They let it be known that they were from a much larger city than Amarillo; that they had been places and seen things; that they weren't very much impressed with Amarillo—in short, that they weren't ordinary stay-at-homes, but worldly travelers. They continued to talk as they ate, with impressive flourishes.

"The other day, another tourist made a trip from New York to Paris in an airplane. His only comment on arriving was a modest, quiet, "Well, here we are."

"Yes, there's lots of difference in folks."

Soon we should hear of someone introducing the waterproof wrist watch for those who insist on dipping their doughnuts in the coffee.

TRUCK FROM TIPTON ORPHANAGE HERE WEDNESDAY OF THIS WEEK

Completing their schedule tour of this territory, the auto truck from Tipton Orphanage at Tipton, Okla., was in Floydada Wednesday of this week gathering free-will offerings for the orphan children in the home.

All offerings, of money, groceries and other materials were left at the Arwine Drug Co., the proprietor, J. A. Arwine having agreed to cooperate in this manner.

There are 191 children in the orphans' home who are being clothed and fed through charity.

ISSUE OF JULY 10, 1913

Rev. G. I. Britian, pastor of the Floydada Baptist Church, who for some days had been in Whiteflat and Matador on church matters, was taken seriously ill the last week (1913) and for two or three days, life was despaired of, but the reports give his condition much improved and he will sufficiently recover to be taken to a hospital for an operation, it is thought.

Taking advantage of a law which passed the last legislature and which became effective on July 1, 1913 a petition is being circulated in Floydada School District asking the Commissioners' Court to order an election prohibiting pool halls in this precinct.

H. E. Edwards, of Whiteflat, was in Floydada Monday on business.

Dr. R. C. Andrews and J. N. Farris were in Matador Tuesday (1913) to see Rev. G. I. Britian who is ill in that town.

Mrs. Tom P. Steen and daughter, Mina, left Friday (1913) for California, where they will spend the summer months, Mrs. Steen in the hope of regaining better health.

SECOND SUMMER SESSION AT TEXAS TECH OPENS JULY 18

Lubbock, Texas, July 6.—The second term of the summer school at Texas Technological College will open July 18, and run until August 27. Exploration Company's No. 1, Matador Land & Cattle Company, 16 miles northeast of Floydada, which was spudded in last week and is expected to be followed by two or more other tests in the county, is 3,097 feet above sea level.

These figures were ascertained the latter part of last week by Engineer Briscoe, of the Exploration Company's field force. He ran the levels from Floydada, the elevation here determined by the geodetic service of the federal government being 3,180 feet.

The contract depth for drilling on the Hillcrest test is 4,000 feet, it was learned this week, instead of 3,250 feet as at first reported.

BABY DIES IN TUB OF HOT WATER IN AMARILLO NURSERY RECENTLY

J. W. Morrison (Billy), 1-year-old son of Mr. and Mrs. Virgil N. Morrison, 1611 Kentucky St., Amarillo, died at an Amarillo hospital recently following burns received in a bathtub of hot water at a nursery.

A baby playmate, Donald Crumby, was the only one who could give an explanation of the accident and all that the 2-year old tot could say was "baby take bath, baby take bath."

Resuscitation methods applied by Mrs. Ruby Robertson, matron of the nursery failed to revive the child after it had been found in the tub drowning in water that was gradually getting deeper.

The baby was buried at McAdoo, Floyd County, where the family formerly resided. Mr. Morrison is in the employ of a storage and transfer company at Amarillo and Mrs. Morrison worked for the Panhandle laundry. They had left the baby at the nursery while they went to their work.

Frequent

Bilious Attacks

"I suffered with severe bilious attacks which came on me two or three times every month," says Mr. Ollie Miller, of Murray, Ky.

"I would become dizzy. My head would ache terribly, feeling as if it would almost burst. It felt exactly like a tight band was being drawn closer and closer around my temples.

"My stomach would be so upset I could not retain any kind of nourishment for hours. I would have to quit work and go to bed.

"My color was awful. I was yellow and my skin was drawn and dry. I did not have any energy—no ambition to work. I was just about half sick most of the time because of these spells.

"One day one of my neighbors, who has used Thedford's Black-Draught for years, said he had noticed how bad my color was and thought it would help me.

"I got some Black-Draught immediately and began to take it regularly until I got my system clear of the poison I had been absorbing. I soon began to feel better and developed a fine appetite. I had no more bad headaches or bilious spells."

NOTICE TO Land Owners

Due to oil tests starting in Floyd County there is some inquiries for leases and also for Royalty interests. There could be nothing at present to create this demand except the development feature of the game. We might see a big oil field developed in Floyd County and then it might be a blank but while the fever is on is a good time to get some of the money. The land owner has THE LONG END OF THE STRING provided he pulls the string at the right time. When you are offered a fair price for your lease SELL, reserve part of your land in case leases go higher. DON'T get excited and think they have to have your land for they do not, if you won't sell, your neighbor will.

We have some customers now for leases priced right and in right location. Do not lease your land until you have talked to us. We handle leases and Royalties on a commission basis and will do our very best to handle them satisfactorily.

Freakish Twister Ruins Lee Barns, Out Houses

C. F. Veach and Son Narrowly Escape When Barn is Blown Down By Northwest Wind.

A freak "twister" that travelled probably less than three miles and found only one set of improvements in its way, formed Friday afternoon about the time of the heavy rain and hail in Floydada, and traveled northward striking the barns, garage and out houses at the farm of J. A. Lee, four miles northeast of Floydada and demolishing them, before it finally vanished into the air.

C. F. Veach, living on the Lee farm was at the barn attempting to put up the work horses when the blow struck the barn, and he and his young son were buried in the debris, the boy miraculously escaping without any injuries and Mr. Veach with a broken rib and a blow on the forehead that proved not to be serious. The barn, a large one, forty by sixty feet in size, was blown down completely, as were the garage, sheds and chicken houses. The residence in which the Veachs live, was barely out of the path of the storm, Mrs. Veach barely reaching it in time to escape.

Mr. and Mrs. Veach were confirmed in the statement that the storm was travelling northwest by several persons who witnessed it, including two or three combine crews within a mile or two of the scene. W. F. Birch, who was nearly two miles north of it, said the storm formed south east of the Veach place and travelled rapidly northward. It picked up a great deal of dirt as it swirled away and shortly before reaching the Veach house crossed a lake, from which it swirled water a hundred feet in the air it appeared. Earl Rainer, another witness, was watching the little twister as he worked, feeling sure it would turn northeastward shortly. It formed near the Perry place, he said. After it passed the Veach home it continued northwestward, barely missing improvements on the Fred Zimmerman farm before passing out into the atmosphere.

Following the storm Mr. Veach and son extricated themselves from the barn. Mr. Veach was spitting blood and decided it wise to have a physician's examination. When they went to their car it took some time to get the auto from under pieces of lumber and debris but the car was undamaged.

J. A. Lee, the owner of the farm, resides at Shallowater. He bought the place two years ago from L. O. Norman, now of Canyon.

Judge A. B. Duncan left Monday for O'Donnell to attend the Ribble-Cowan debate.

W. A. Kirk returned last week from Silverton, where he had been working for some time in the clerk's office. He is now making his home on his farm near Fairview.

When Cooper set the local record about a month ago in a tournament he birdied four holes on the first nine and parred the remainder for a thirty-two, and on the home stretch birdied two and parred the remainder for a thirty-four.

District Kitchen List Of Winners Announced

Total of 634 Women Take Part in Sixth Annual Event Held For Rural Communities.

District winners in the 1927 Improvement Contest conducted by the Semi-Weekly Farm News, Dallas, and the Extension service of A. & M. College, have been announced by Miss Mildred Horton, state home demonstration agent of the extension service.

Mrs. S. H. Horn of Campbell community and Mrs. Jim Holmes of Sand Hill were winners in Class I and Class II, respectively, in the county contest, the former taking second in District 2, as recently announced.

Inspect District Kitchens. Mrs. Bernice Claytor, home improvement specialist, of the Extension Service, is now visiting the various district winners. After inspection of all the district first prize winning kitchens, the state winners of the entire contest will be announced.

A total of 634 women took part in the improved kitchen contest this year, held for the sixth time. The contest is divided into two classes, Class I includes entries for which the expenditure for improvement does not exceed \$25. Class II is for entries where expenses for improvement are above \$25. The state is divided into nine districts for the purposes of the contests, which gives eighteen first place winners, one in each of the two classes for the nine districts.

During the six years of the contest, nearly three thousand, five hundred Texas housewives have entered the competition and improved their kitchens Miss Horton reports. In addition, many housewives although not competing have been spurred on by the contest to improve their kitchens.

FLOYDADA, TEXAS

Hail Damages Severe in Floydada and Vicinity

Limited Area Visited by Hailstorm That Accompanies Good Rain Over Much Territory.

Floydada, the immediate vicinity east and south and strips as far east as eight or ten miles were visited by a hail storm of rather severe proportions Friday afternoon of last week that destroyed a little wheat and part of the row crops on probably a score of farms.

The hail came with a rain that extended as far east as fifteen miles, south to Blanco Canyon and north past Lockney. Northeast and southwest neither rain nor hail fell for a distance of more than five or six miles. At Floydada ninety-hundredths of an inch of rain was recorded, at Lockney 1.25 inches and portions of the territory, especially that section immediately southeast of Floydada had probably two

inches or more that fell in a very short time. Re-planting on several farms is under way this week. However, the hail damage was not so severe or as general as was first believed.

The hail was the first of any proportions to fall in Floydada for many years. It was much more severe in the east portion of the city than in the western residence section. Several cars that were left standing out in the downtown section had tops broken through and two or three buildings had roofs damaged. Several business houses reported damage to plate glass and in cases of unprotected windows, glasses had to be replaced in windows. Many roofs in the residence section were damaged.

Mrs. Arthur Savage, and little son, Kyle, of Amarillo, returned home last Thursday morning after a visit here with her parents, Mr. and Mrs. C. Snodgrass, and other relatives and friends. Macyl Burke, Bill Dailey and Leroy McDonald left Saturday to spend a few days at Abilene.

THE STATE OF TEXAS
COUNTY OF FLOYD
TO THE RESIDENT PROPERTY TAX PAYING VOTERS OF FLOYD COUNTY, TEXAS.

TAKE NOTICE, that an election will be held on the 1st day of August, 1927, within Floyd County, Texas, to determine if said County shall issue bonds and if a tax shall be levied in payment thereof, in obedience to an election order entered by the Commissioners Court on the 29th day of June, 1927, which is as follows:

ORDER OF COMMISSIONERS COURT ORDERING AN ELECTION TO AUTHORIZE THE ISSUANCE OF COUNTY SPECIAL ROAD BONDS.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Floyd County—Greeting:

YOU ARE HEREBY COMMANDED, That you summon, by making Publication of this Citation in some newspaper published in the County of Floyd if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published once each week for four consecutive weeks previous to the return day hereof, of C. W. DENNEY whose residence is unknown, to be and appear before the Hon. County Court, at the next regular term thereof, to be holden in the County of Floyd, at the Court House thereof, in Floydada on the 18th day of July, A. D., 1927, then and there to answer a Petition filed in said Court, on the 4th day of June, A. D. 1927, in a suit numbered on the docket of said Court No. 554, wherein Artie Baker, Robin Baker, and Alice Baker Smith (joined pro forma by her husband C. W. Smith), a partnership doing business under the firm name of Baker Mercantile Company, are plaintiffs and C. W. Denney is defendant.

The nature of the plaintiffs demand being as follows, to-wit:

Suit on a promissory note dated October 28, 1926, signed by defendant, payable to the order of Baker Mercantile Company on July 15, 1927, at Lockney, in Floyd County, Texas, in the sum of \$300.00, with interest from date at the rate of 10 per cent per annum, and providing for interest on past due interest, and for 10 per cent attorney's fees, secured by a Chattel Mortgage made by defendant in favor of plaintiffs on 75 acres of wheat on the W. W. Sanford Farm in Floyd County, Texas, to be grown by defendant in the year 1927, that said Mortgage provided that either before or after the maturity of said note, if plaintiffs should deem themselves unsafe or insecure, that they might take possession of said property and sell the same as the law directs, in payment of said debt; that defendant has left Floyd County, Texas, and his place of residence is unknown to plaintiffs, and that he secretes himself so that the ordinary process of law cannot be served upon him, and his place of residence is to plaintiffs unknown, and plaintiffs fear that defendant will cause said wheat to be disposed of, and the same is now ready for harvest, and defendant cannot be found, and that the probable value of same is \$350.00; that by reason of the premises, plaintiffs feel themselves unsafe and insecure, and, fearing that said wheat would be wasted, have declared said debt and note due; that said lien against said property is a valid, subsisting and unsatisfied lien in favor of plaintiffs to secure the payment of said note, according to its terms. Plaintiffs pray for citation, for judgment for their said debt, interest, attorney's fees, and cost of suit, with a foreclosure of their lien against said property, and that same be sold as the law directs, and the proceeds applied to the satisfaction of said debt.

And plaintiffs pray for general and special relief, etc.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Floydada, Texas, this the 26th day of June, A. D., 1927.

SOUTH PLAINS

"Where the Plains Begin"

**A Real Opportunity
For Business Man
and Investor**

GRAND OPENING *and Double Header* AUCTION SALE OF LOTS **JULY 22 and 23, 1927**

MR. BUSINESS Man! MR. INVESTOR! Here is the kind of a chance to make money that you meet with only once in a life time—South Plains, where the Silverton-Floydada Highway Crosses the Main Line of the Fort Worth & Denver South Plains Railway; a town laid off and platted by J. S. Edwards, veteran town-builder in the center of an already-developed territory; a town with Plenty of Room to make a real city.

The First Brick Building is already under construction, with four others now contracted to go up just as fast as the builders can get the materials on the ground. A good gin is already going up in the industrial section and locations have been made for other industries, including elevators. The Denver Railway has already platted its grounds, including the site for its station and industrial tracks. Everything is being done to make South Plains a substantial city, not a community of tents and shacks.

PROPERTY IN SOUTH PLAINS WILL BE WORTHWHILE

Note the sketch. Not only is South Plains being started off in a substantial way, it will continue to have a tremendously big territory to serve—a fertile cotton, wheat and dairying country.

Come to this auction sale. Be with the crowds. Get out from your work or business for a day and see the big things that are going on around you. See this opportunity for yourself and grasp it.

Both Business and residence property will be auctioned off on the sale date—and we are preparing some special attractions that will be certain to interest you, even if you do not want to buy.

Plats of the city will be distributed at the sale, and terms will be announced. Other important announcements will be made at the opening of the sale.

What's Doing In West Texas Today

GLEN ROSE—Work on the road from Glen Rose to Walnut Springs will soon be completed. The local chamber of commerce raised more than \$300 to supplement the county funds used on this project.

MOBETTIE—The Pampa-to-Mobettie mail route, now tri-weekly, will soon be operated six days a week, giving it daily classification. The chamber of commerce has been working to get this recognition.

BROWNWOOD—The West Texas Chamber has written chamber of commerce secretaries of its territory to express their sentiments in regard to Brownwood's water application to the State Board of Water Engineers at Austin. The regional organization intervened in the case as a matter of principal, urging that Brownwood's application for an irrigation and storage dam be granted, and denying prior claims of the Syndicate Power Company and Rice Growers of Matagorda, Wharton, and other South Texas counties. The West Texas Chamber holds that agricultural and municipal needs of the West should come first since they have no alternative other than water while power companies have alternatives of energy supply from coal, gas, oil and lignite.

CLOUDCROFT—N. M.—A governor, a mayor, a judge, and other prominent men will be feature speakers on the program provided for the third annual district convention of the Pecos Valley-Inter Mountain District of the West Texas Chamber of Commerce to be held in this Mile High Town on July 9. The interest of the meet will be heightened by the attendance of the West Texas Chamber of Commerce motorcade party which is made up of a most distinguished personnel.

ABERNATHY—Foundation for the south wing addition of the new school building has been completed here and work on laying of brick is under way.

CLAUDE—Natural gas for Claude has been contracted for and assured by September 1. The line will be laid with two or three inch pipe, and will be tapped from the one serving Panhandle at a point one mile east from that city.

STAMFORD—The July issue of "West Texas Today", official publication of the West Texas Chamber of Commerce, will be in the nature of an educational number, and will feature, as did the annual school issue of last year, Texas colleges and educational institutions. It will be off the press about July 15, according to present plans.

HICO—Work is progressing nicely on the heavy construction lines of the Texas-Louisiana Power Company connecting Walnut Springs, Meridian, Irwell, Rice and Glen Rose. The line to American has been completed and the remainder will be finished up within a short time.

QUITAQUE—A grain elevator, coal yard, and feed store is to be erected here at an early date. Glenn Wise, prominent citizen of Briscoe County, has purchased an acre of land in the western part of Quitaque as a building site.

ASPERMONT—The West Texas Utilities Company is putting in improvements here to the extent of six or seven thousand dollars in connection with the high line being built through here. New poles and other equipment are included in the program.

Combines Running at Night at Providence

Providence, June 27.—Mrs. Wade Lovorn was in Plainview last Saturday. Mr. and Mrs. Ira Smith visited at the Smith home last week.

Mrs. Ooley and son of Plainview were in our midst last week looking after Mrs. Ooley's farm here.

A few from here attended the birthday party at the Taylor home Saturday night in the Plainview neighborhood.

D. L. Pullen and mother were in town Saturday last, shopping.

Mr. and Mrs. Walter Allen and two daughters of Amarillo arrived Saturday to visit with Mr. and Mrs. Tom Weeks a few days.

Wheat harvest is in full blast now; the combines are all running at night to get through before the wheat falls, the weather is ideal and the farmers are very busy planting row crops and getting the land ready for another wheat crop.

Mrs. Bud McCarty and daughter of the Prairie View locality visited at the J. W. Gamble home Sunday evening. Jessie Kennedy of Lubbock spent Sunday in our midst.

LINES OF BANKS ON PUBLIC STREAMS DEFINED BY COURTS

What is the banks of a public stream is a question often asked by fishermen. How much space a fisherman has along the water edge is fairly described in an opinion handed down by the Texas supreme court.

"The banks of a stream or river are the water-washed and relatively permanent elevations or acclivities at the outer lines of the river bed which separate the bed from the adjacent upland whether valley or hill and serve to confine the waters within the bed and preserve the course of the rivers when they rise to the highest point at which they are still confined to a definite channel."

This definition by the supreme court of what is the river bank largely puts an end to controversies as to the dividing line of state streams and private property. Sand and gravel are sold from the beds of public streams by the Game, Fish and Oyster Department, which royalties are devoted to construction and maintenance of fish hatcheries. All operators who are taking such material without a permit are subject to prosecution if they continue without such permit.

The legislature two years ago set aside certain coast waters as breeding grounds for fish, in which pole and line fishermen may operate, leaving other waters to seines and nets. A controversy as to which side is getting the best of it is now on in certain sections. While this weighing out, to the factions their just parts, is going on, sharks, porpoises and pelicans are nibbling at the balances after the manner of the monkey in the fable which settled the dispute of two mice and the cheese.
