Viet Conferees Make New Peace Overtures

By JOHN M. HIGHTOWER
AP Special Correspondent

MANILA AP) — In a bid for peace, President Johnson and his war allies announced today they are prepared to withdraw forces from South Viet Nam within six months after their conditions for establishing peace are fulfilled.

Winding up the two-day summit meeting, the South Vietnamese regime pledged to hold national elections by next fall.

On the troop pullout, the communique signed by the seven heads of government declared:

"They shall be withdrawn, after close consultation, as the other side withdraws its forces to the North, ceases infiltration and the level of violence thus subsides.

"These forces will be withdrawn as soon as possible and not later than six months after the above conditions have been fulfilled."

Withdrawal of foreign troops from the South has often been stated by the Communists as a necessary condition for a peace settlement. Frequently it has been listed as a specific condition for entering into peace talks.

The announcement was clearly intended as an overture to interest the Communists in starting discussions. However, the communique offered no evidence that in this it might be successful. On the contrary it was stated that Hanoi "has shown no sign of taking any step toward peace by action or by entering into discussions or negotiations."

The communique and two declarations — on the "goals of freedom" and on "peace and progress" in Asia and the Pacific — were signed in the closing session of the seven-nation conference at Malacanang Palace.

The "goals of freedom declaration" carried a pledge of the seven nations to work to build a region of security and progress and to fight hunger, illiteracy and disease.

President Ferdinand E. Marcos of the Philippines was the first to sign the communique. He then passed out copies and the others signed simultaneously.

High spots of the agreements included:

1. An undertaking to work with the International Red Cross "or any other appropriate forum" to discuss an exchange of prisoners of war and immediate repatriation of sick and wounded.

2. Set up consultative machinery on Vietnamese war problems and policies, consisting primarily of meetings between ambassadors in Saigon. Foreign ministers and heads of government of the seven nations are to meet "as required."

3. Declared "our unity, our resolve, and our purpose in seeking together the goals of freedom in Viet Nam and in the Asian and Pacific areas."

4. Agreed on a set of "principles on which we base our hopes for future peace and progress in the Asian and Pacific region."

U.S. officials described the communique section on withdrawal of the allies a significant statement for U.S. policy, though consistent with the U.S. stand because it makes emphatically clear that the Americans do not intend to stay on in South Viet Nam after the North's forces leave.

The pledge was made in this way, at this time, it was said, because of recent charges that the Americans really wanted to stay on.

So far as Washington is concerned, if the North Vietnamese pull out and Hanoi stops supplying the Viet Cong, South Viet Nam can handle its own insurgency problem, these sources said.

They added it would take six months, by realistic reckoning, to pull out the huge U.S. and allied forces now numbering 370,000.

CONDUCT INTERVIEW — Rev. John Gordon, pastor of the First Presbyterian Church (left), and Mrs. Ethel Sowell, state youth chairman for the VFW Auxiliary, interviewed Sgt. 1/c Arnold Eades, who recently returned from Viet Nam with hopes to build a Christian (non-denominational) church for the Vietnamese.

Reserves Force To Maintain Readiness

By BOB HORTONN

WASHINGTON (AP) — The Pentagon plans to maintain the nation's Selected Reserve Force in a high state of readiness at least until mid-1967 as a hedge against any required mobilization.

Maj. Gen. Winston P. Wilson, head of the National Guard Bureau, disclosed this today in assessing the progress of the 150,000-man force, organized a year ago as a first-line backup for the regular Army.

"The results have been fantastic," Wilson said, pointing out that 86 per cent of 423 SRF units tested during the summer passed regular Army battalion-level examinations. Sixty which flunked are being retested.

"This is quite good for part-timers," he said.

The National Guard forms the bulk of the Selected Reserve Force with 131,000 men, compared with the Reserve's 19,000.

Secretary of Defense Robert S. McNamara set up the Selected Reserve Force a year ago during the Viet Nam build-up as an alternative to ordering to active duty Army Reserve or National Guard units.

At the time, some regular Army divisions in the United States were being stripped of resources and converted to training outfits, providing men for the war.

In this situation, McNamara established the SRF as a super-ready force which could be ordered to a crisis spot within nine weeks of alert while home-based Army divisions were rebuilding.

The objective of the select units in the past year has been attained — getting in shape to be able to arrive at a mobilization station on seven days' notice, then undergo eight weeks of brigade and division level training before deployment overseas.

The rapid transition of Guard and Reserve units in the SRF from lower to higher priority outfits has, however, exacted a price.

For one thing, expansion of the priority units' training schedule from 48 to 72 drills a year has resulted in a loss of experienced officers and non-commissioned officers.

Concerned that the point of diminishing returns in training had been reached the Pentagon allowed units passing their summer tests to cut back from 72 drills to 58. Those which failed, however, must remain on the accelerated schedule until they get passing marks.

Now, the NCO and officer loss rate is back at what officers call a "normal" 8 to 10 per cent.

Reds Hammered By Big Bombers

By ROBERT TUCKMAN

SAIGON, South Viet Nam (AP) — U.S. B52 bombers struck at Viet Cong bases in South Viet Nam today but monsoon storms nearly washed out American raids over the Communist north.

The Guam-based bombers hammered at dawn at two suspected Viet Cong troop concentrations 65 miles northwest of Saigon near the Cambodian border.

U.S. planes flew only 21 bombing missions over North Viet Nam Monday, the lowest since May 27.

In the Mekong Delta, South Vietnamese troops overran a cave prison camp of the Viet Cong and set free 13 government soldiers and five women, including a Catholic nun. The prisoners were found handcuffed and starving, a government spokesman said.

Ground fighting in South Viet Nam continued in a lull with only small, sporadic clashes reported.

U.S. military headquarters announced the termination of the 1st Cavalry, Airmobile, Division's Operation Irving, one of the most successful actions of the war. In fighting in mountains and marshlands along the central coast, the helicopter-borne cavalrymen reported killing 681 North Vietnamese and Viet Cong soldiers since Oct. 2.

The "Flying Horsemen" also reported capturing 690 prisoners, screening 4,136 suspects and seizing 210 weapons. The cavalrymen said their own casualties were light.

The operation was a pincer drive coordinated with South Korean and South Vietnamese forces. The Korean force — units of the Tiger Division — continued the mopup north of Qui Nhon, but South Vietnamese troops terminated their operation and reported killing 221 Communists, capturing 618 prisoners and seizing 100 weapons.

Jury Choice Underway

CLEVELAND, Ohio (AP) — "We believe we are making progress with the impaneling of this jury," Judge Francis J. Talty said today as interviewing of prospective jurors for the retrail of Samuel H. Sheppard went into a second day.

Sheppard is on trial in Cuyahoga County Common Court on a charge of second-degree murder in the slaying of his first wife, Marilyn, 12 years ago.

In this morning's session up to recess time two women jurors were interviewed but excused. Monday's six prospective jurors were seated and two others were excused, when Judge Talty ruled them unqualified.

A conference of attorneys delayed start of today's session about 20 minutes. There were some empty seats on the benches in the small oak-paneled courtroom when proceedings got under way. Most of the audience of 25 were newsmen.

Sheppard, wearing a dark suit, sat with his lawyers and took occasional notes.

Mines Bureau Sees Crude Demand Hike

WASHINGTON (AP) — The Bureau of Mines forecast today that market demand for domestic crude oil will be 8.14 million barrels daily during November.

This compares with a forecast of demand for 8.07 million barrels daily during October.

Reports Due On Drive Of United Fund

The Scurry County United Fund campaign already had taken a substantial step forward this morning as plans for the first general report meeting were announced.

The report session is set for 10 a.m. Thursday at the Chamber of Commerce office in the city hall. All division chairmen, workers and officers of the United Fund have been urged to attend.

All workers will be asked to turn in packets and contributions which have been received so far.

In advance of any formal report session, contributions and pledges totaling $6,380.75 had been tabulated up to 11 a.m. today at United Fund Campaign Headquarters. This represents slightly over 21 per cent of the $27,500 goal.

The goal was set to take care of operating budgets of five local organizations, plus a small contribution to the Texas United Fund, which now operates the USO. Organizations sharing in the budget are Boy Scouts, Girl Scouts, American Red Cross, Salvation Army and the Scurry County Boys Club.

Church Campaign Stems From Viet Nam Soap Drive

What began as a "soap for the boys in Viet Nam" drive in Scurry County several months ago ultimately may result in the construction of a new church for the Vietnamese.

Sgt. 1-c Arnold Eades, who returned from Viet Nam after a year's service there, was in Snyder Monday to tell local people about the need for a Christian (nondenominational) church in the Southeast Asian country.

Sgt. Eades told his story in an interview at Radio Station KSNY Monday afternoon, and a radio tape of the interview will be broadcast over the station at 11:45 a.m. Saturday.

The war veteran is a native of Scurry County. He graduated from Ira High School in 1950, and was drafted into the Army during the Korean War. With 15 years service, he is making a career of the Army.

Sgt. Eades was a member of a church in Ira from 1944 until he went into the service.

He said he saw a story of the Scurry County soap drive in the Pacific edition of "Stars and Stripes" — the official newspaper of the U. S. Army. Impressed with the support Scurry Countians were giving the boys overseas, Sgt. Eades wrote a letter of appreciation to Dennis Pomeroy, local resident who helped organize the drive.

Later, the soldier became interested in helping a group of Vietnamese Christians build a church. Then he remembered a note which was placed in a box of soap, candy and razor blades which was sent overseas by the Veterans of Foreign Wars Auxiliary of Snyder.

One of several boxes sent by the Auxiliary went to Sgt. Eades. The note was signed by Mrs. Ethel Sowell, state chairman of the youth committee of the VFW Auxiliary. Remembering this note, Sgt. Eades wrote Mrs. Sowell and asked if she or her organization could help raise the necessary funds for the construction of a Christian Church.

Mrs. Sowell felt that "there are enough Christians in Scurry County who will support the project that it can be brought to a successful conclusion."

She contacted officials of the radio station and they arranged for an interview with Sgt Eades so that he could tell of the need for the church in his own words.

Interviewing the sergeant were the Rev. John A. Gordon, pastor of the First Presbyterian Church, and Mrs. Sowell. Bob Clifton of KSNY opened the interview with an introduction of the persons participating in it.

A total of $4,931.06 will be

See CHURCH Page 2

School Advisory Panels To Report

Citizens advisory committees appointed several weeks ago to study future needs of Snyder Public Schools will make their reports to the board of education this evening.

The report meeting will be held in the high school cafeteria at about 8:30 p.m., or immediately following the Snyder Quarterback Club meeting.

Committees were asked to study possibilities in four areas in which future projects have been regarded as a possibility for some time.

Serving on an air conditioning committee are Gearge Patterson, chairman, Ray Martin, Gene Best, Bob Stewart, Oran Henderson, Skipper Joyce, school representative, and Dillard Teal, liaison member of the board. This committee was asked to make its study with a view toward determining whether air conditioning is needed and if so, possible costs.

A committee to study renovation needs for Travis Junior High School is composed of Mrs. Elmo Crowder, chairman, Billy McCormick, Mrs. Bernhard Bartels, Bill Butler, Bill Sikes, Jack Gorman, school principal, and Max von Roeder, liaison board member.

Bob Crowell is chairman of the high school committee. This committee will report on future needs of the high school plant. Serving with Crowell are Clyde Hall, Mrs. Bob Mahood, Mrs. Richard Stoker, John Carrell, Ben Brock, high school principal, and Bill Schiebel, liaison member of the board.

A committee to study future needs of the athletic plant is headed by Malven Stevenson. Serving with him are Les Francis, Buster Anderson, Dr. R. B. Pierce, Keith Miles, school athletic director, and Ted Crenwelge, liaison member of the board.

Britain To Join Push For N-Pact

By TOM HOGE

UNITED NATIONS, N.Y. (AP)—Britain was expected to add its voice today to the swelling U.N. chorus for speedy agreement on a treaty to ban the spread of nuclear weapons.

Lord Chalfont, Britain's disarmament specialist, was to spell out his government's views in the disarmament debate before the General Assembly's main Political Committee.

[illegible] have expressed belief that the proposed treaty, now deadlocked by U.S.-Soviet differences, will be signed late next year. They believe it is possible agreement may come before the assembly convenes again next September.

Both the United States and the Soviet Union declared at the outset of the U.N. arms debate last week that prospects for agreement on a treaty were improved. Both warned, however, that differences remained.

Main stumbling block has been the role West Germany would play in the nuclear defense of the North Atlantic Treaty Organization.

The Russians contend that West Germany would get its hands on nuclear hardware as part of a multilateral nuclear force—MLF—proposed by the West, but Western officials at the United Nations have expressed the belief that the MLF idea is about to be quietly abandoned.

Britain has been working on a new treaty proposal which would say only what countries could not do and eliminate any complicated provisions about what they could do, such as forming an MLF.

Object of the current U.N. debate is adoption of a stopgap resolution which appeals to all nations to work for a nonproliferation pact and "refrain from any acts" which might hold it up.

The Soviet Union, the United States and 16 other nations are sponsoring this resolution which is expected to meet little or no opposition.

WEATHER

SNYDER TEMPERATURES: High Monday, 76 degrees; low, 33 degrees; reading at 7 a.m. today, 35 degrees.

North Central and Northeast Texas: Fair tonight and Wednesday. Low tonight in 40s. High Wednesday 74 to 82.

Northwest Texas: Fair tonight and Wednesday. Low tonight 36 to 46. High Wednesday 74 to 82.

Coast: North winds 8 to 18 knots tonight and Wednesday.

South Central Texas: Clear to partly cloudy tonight and Wednesday with mild afternoons and cool night. Low tonight 40 to 58. High Wednesday 70 to 82.

Southeast Texas: Clear and cool tonight and Wednesday. Low tonight 42 to 54. High Wednesday 68 to 76.

Southwest Texas east and west Pecos: Mostly clear tonight and Wednesday with mild afternoons and cool at night. Low tonight 34 to 46. High Wednesday 68 to 82.

War Victim's Service Set

The body of Warrant Officer James W. Hargrove, who was killed in action Oct. 18 in Viet Nam, was scheduled to arrive in Rotan today.

Funeral services will be held at 2 p.m. Wednesday at the First Baptist Church in Rotan and burial will be in Rotan Cemetery by Weathersbee Funeral Home.

The body was coming by rail to Sweetwater this morning and then was to be taken on to Rotan.

Mr. Hargrove, 37, was a brother of Dr. Robert Hargrove of Snyder. He was a helicopter pilot. He died after being struck by enemy automatic weapons fire while flying southeast of Saigon.

Grenada Negroes Plan New Protest

GRENADA, Miss. (AP)—Negro leaders plan to continue demonstrations protesting alleged mistreatment of Negro pupils in recently desegregated public schools.

"I expect there will be a lot more arrested before it's over," said J.T. Johnson, a Southern Christian Leadership Conference worker heading a civil rights drive here.

Police arrested 214 marchers, most of them school-age children, Monday when they tried to bypass barricades set up around the city's two previously all-white schools.

The schools have been a point of tension here since opening day, when gangs of white men roved the area, attacking Negro children with chains and ax handles.

All 214 were charged with obstructing normal use of public sidewalks and refusing to obey an order to disperse.

The march came after a weekend in which lawyers took statements from Negro children about alleged mistreatment in school. These were to form the basis of a complaint to the federal court which ordered the desegregation, leaders said.

About 75 pupils walked out of the two previously all-white schools last Friday. They were joined by others who boycotted Negro schools in sympathy. School officials suspended until Nov. 1 all 289 Negro pupils who joined the walkout.

Gayle Wilborn, superintendent of city-county schools, said the school board filed suit in U.S. District Court in Oxford for an injunction "against persons interfering with school operation." A hearing was scheduled for Oct. 31.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Why do so many people — including YOU — defend drunks by giving them high - sounding titles like "alcoholics"? And lend further dignity to their weakness by calling it a "disease"! — I have actually heard intelligent people say that an alcoholic should not be condemned any more than a victim of polio, diabetes, or heart trouble. Really, now! Alcoholism is not CAUGHT, like measles or mumps, Abby. One must cultivate it.

You are forever harping on how those drunks need "understanding." And I, for one, am sick of it!

AN EX-READER

DEAR EX-READER: You need more information than I can give you here. In a nutshell, some can take a drink, or two, or six, and stop. Others need only to sniff the cork and they are powerless to stop drinking until they have lost consciousness — and frequently their jobs, money, families, and self - respect as well.

Psychiatrists say that one who is aware that alcohol can destroy him, but drinks anyway, is unconsciously trying to destroy himself. And if THAT isn't a form of mental illness, what is?

• • •

DEAR ABBY: Is it true that unmarried gals who are interested in a swinging social life should go to Alaska? I hear there are about 50 men for every girl there.

INTERESTED

DEAR INTERESTED: Don't bother. I hear that when it's dark enough to park, it's too cold. And when it's warm enough, it's too light.

• • •

DEAR ABBY; My 12-year-old son came home from school and told me he was given a questionnaire to fill out and sign. Here are some of the questions he said he was asked to answer:

"Do your parents drink? Is there frequent quarreling in your home? Has anyone in your family ever had psychiatric help?"

I feel that these questions do not pertain to my son's school life, and the whole questionnaire was out of order.

I don't want to get my child in trouble by making a big stink, but I want to know what can be done about a situation like this.

HIS MOTHER

DEAR MOTHER: I would first ask my son's teacher who was responsible for the questionnaire. Then I would inquire as to its purpose, and to what use the information would be put.

Having learned that, if I still felt the questionaire was out of order, I would complain to the appropriate authorities, making as big a "stink" as was necessary to protect my privacy.

• • •

CONFIDENTIAL TO BRIDGE EXPERT: **Even if you are a better bridge player than your husband, try to conceal it when possible. Any woman who is smarter than her husband should not be dumb enough to show it.**

• • •

How has the world been treating you? Unload your problems on Dear Abby, Box 69700, Los Angeles, Cal. 90069. For a personal, unpublished reply, enclose a self - addressed, stamped envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send $1.00 to Abby, Box 69700, Los Angeles, Cal. 90069.

City Buries First Victim Of Slide

ABERFAN, Wales (AP) — A tiny coffin with a single spray of red roses was carried through the rubble-strewn streets of Aberfan today. Miners stood with bowed heads, some openly weeping.

It was the first funeral of a child victim of the coal slag that swamped Aberfan's village school and a row of houses Friday with the feared loss of 200 lives, most of them children.

Rescue work was halted as the coffin containing the body of Randolph Tudor, 10, was taken from a white-washed miner's cottage and placed in a cortege of three cars headed by two police motorcycle outriders.

The village fell silent. Traffic was stopped.

In London, Buckingham Palace announced Queen Elizabeth II and Prince Philip will visit Aberfan on Saturday.

After the procession moved out of sight, rescue teams threw themselves back into the effort of clearing the devastation.

So far, 145 bodies have been recovered, nearly all children. Police said they believed another 46 children were dead beneath the mountain of black sludge.

Plans were made for a mass funeral of 60 children Thursday. Organizing the funeral was the Rev. Kenneth Hayes, whose 9-year-old son will be among those laid to rest.

Chinese Defector Wed In Formosa

TAIPEI, Formosa (AP) — Li Tsai-wang, navigator of the Communist air force crew which flew an Ilyushin 28 light bomber to Formosa last November, was married today to a nurse he met in the hospital where he was treated for injuries suffered in the landing.

Li, now a captain in the Chinese Nationalist air force, is 27, his bride, Hsueh Hsun-yun, is 23.

Aussies Fined For Offensive Behavior

MELBOURNE, Australia (AP)—Two men were charged in City Court today with offensive behavior and resisting arrest while demonstrating during President Johnson's visit last week.

Desmond John Files, 23, of suburban Northcote was fined $15 on each count.

Magistrate C.E. Elvish postponed the charge of offensive behavior against the second man, Robert Allen Hopkins, 26, until next May and put him under a $22 good-behavior bond.

Hogs, Ags Get Ready

BY THE ASSOCIATED PRESS

Texas finally got through a football game without injury, a season record for the Longhorns, and the injury situation seemed to be improving all the way around in the Southwest Conference.

Texas beat Rice 14-6 and that helped make things brighter for the Longhorns 'too.

Coach Darrell Royal of Texas couldn't quite go all out in his enthusiasm for escaping the injury jinx one week. He noted there were still some old injuries from previous games and said he didn't think sophomore quarterback Bill Bradley will be able to go full speed all season.

Southern Methodist probably lost starting fullback D. J. Moore for Saturday's game with Texas in Austin. Moore bruised a shoulder against Texas Tech.

Coach J. T. King of Texas Tech was cheered with news that regular quarterback John Scovell, who missed most of the SMU game because of a mild concussion, will be able to play against Rice at Houston Saturday.

Texas A&M may have lost starting offensive center Gary Kovar for the game with Arkansas at College Station Saturday night. Kovar got a hip pointer in the Baylor game and his status is doubtful, but there are two centers behind Kovar.

A sellout crowd of 40,000 is expected for the Aggie-Arkansas game.

Rain Dampen Pace Of Water Sales

Revenues dipped in September for the Colorado River Municipal Water District, and there was prospect of more this month.

Receipts of $129,545 from member cities was down about $6,000 from the same month in 1965, due to rains in August, when sales showing in September occur. September of this year really declined due to unprecedented showers, and these lesser revenues ill be reflected in the October financial statement.

Water sales to oil companies, on the September report, did come up about a thousand dollars in reaching $96,159. Total revenues in September were $229,857 compared to $234,860 a year ago. For the first nine months of the year, receipts stood at $2,020,012, slightly under the $2,053,718 for the comparable period in 1965.

Operating expenditures in September stood at $67,403, or up by $2,000. However, during the first nine months of this year, the district transferred $1,247,640 to the net revenue fund, which is up from the $1,224,255 a year ago. Expenditures in turn are made from the net revenue fund for bond retirement and interest, as well as to other indentured funds.

The district has sold half a billion gallons less water through the nine months period than the previous year. Through September, the district had delivered 8,602,048,000 gallons.

CHURCH

Continued From Page One

needed for the construction and supply of the church. A contribution of $2.30 will pay for a Bible, and a contribution of $1.65 will pay for a New Testament. Funds raised in excess of the amount needed for Bibles will be applied on the church.

If Scurry County people provide sufficient support, then they will be providing a church home for 600 Asian Christians.

"There is a real need for a Christian church there," said Sgt. Eades. It will be located at Dien Ban 18 miles south of Da Nang.

Sgt. Eades is married and the father of three children. He left today for his present home in Columbus, Georgia. His parents, Mr. and Mrs. John J. Eades, reside at 2508 Avenue K in Snyder with another brother, James Warren, 15, and twin sisters, Sheila and Lela, both 12.

Persons wishing to support the project may send their contributions to: Church Project, Box 557, Snyder. It will be forwarded to a Maj. Blower of Tucson, Ariz., who will handle arrangements for the construction in the absence of Sgt. Eades.

Sgt. Eades expects to return to Viet Nam in about a year. He can check on the progress of the church personally then.

Static Electricity Provides Rare Show

SAN FRANCISCO (AP) — "You could hear this crackling sound," said Traffic Officer Richard Weinand at Geary and Stockton streets in downtown San Francisco, "and then you would see puffs of smoke and sparks sort of skipping across the pavement."

One woman said the "thing" jumped across the sidewalk in front of her. Another gave a shriek when it rippled across the pavement on Geary, at her heels.

Pacific Gas & Electric Co. engineers said the "thing" which was seen Monday was static electricity. They said the pavement was good insulation, combined with the low humidity, 30 per cent, static built up and finally discharged on the street, the engineers said.

New Ship Launched

SEATTLE, Wash. (AP) — The Navy amphibious assault ship Shreveport has been launched at the Lockheed Shipbuilding Co. yard. The 570-foot craft is capable of carrying 1,000 troops and their equipment, including tanks, trucks and six large assault helicopters.

Dragging Continues For Man's Body

BURNET, Tex. (AP)—Dragging operations are continuing in a search for the body of Jack Sanford, one of two Oklahoma City men who died in the crash of a light plane.

The plane crashed Sunday into Lake Buchanan, huge Central Texas reservoir. The body of T. C. Pearson was recovered Monday.

Bogota Plans Birth Control

BOGOTA, Colombia (AP) — Colombia's population has exploded from 12 million to 18.4 million in the last 10 years and the government has decided to take steps to control the growth.

President Carlos Lleras Restrepo, fulfilling an election promise plans a nationwide program to provide birth control information, particularly to peasant families in the rural areas.

He has asked for economic aid from the United States and technical assistance from the Population Council and from the Ford Foundation to launch the program.

Reliable sources said the government has received approval for the program from the Roman Catholic Church. They said the Church, which has strongly opposed control of the birth rate in the past, has softened its position in light of the social and economic problems caused by the high birth rate.

Fluvanna News

By MRS. J. R. JONES

Rosser Lee Jones of Midland is a guest in the home of his mother, Mr. and Mrs. Lee Lavender this week.

Mrs. Bobby Lemons and Dawn of Colorado City have been visiting Mr. and Mrs. Hurston Lemons and Buster. Mrs. Lemons returned home on Tuesday leaving Dawn to visit with her grandparents for a few days. Mr. Lemons is in Dallas attending the Fair.

Those attending the Mitchell-Scurry Baptist Association in Loraine from the Fluvanna Baptist Church on Tuesday were Mrs. Lee Lavender, Mrs. Lillie Lee Smith, Mrs. Robert Jones and Bro. Thomas Hall.

Recent guests in the homes of Mrs. L. F. Beaver and Mr. and Mrs. W. J. Beaver were Mrs. C. D. Weems and Mrs. McPherson of Ruidoso, N.M.

Miss Nealy Squyers, Mrs. Alpha Jean Pylant and Hoyt were recent guests in the home of Mr. and Mrs. William Pylant and son of Anton.

Mr. and Mrs. Jerry Fowler and Joe of Azle visited Sunday with his parents, Mr. and Mrs. A. R. Fowler, and Pauline Knox.

Mr. and Mrs. Dicky Mull and children of Farmington, N.M. visited last week with his father, Bill Mull who is ill in Cogdell Hospital.

Mr. H. T. Simpson and Velma Perry of Olathe, Colo. have been visiting their granddaughter and sister, Mr. and Mrs. Gilbert Merritt and girls, and Welch Scriviner.

Mrs. Roberts of Snyder and Mrs. Lonie Ball visited Tuesday with Mrs. Willie Minnick and Mr. and Mrs. Earl Wooten in Lubbock.

Mrs. Ola Stavely of Snyder and Mrs. W. H. Jones left for Amarillo last Friday where they joined Mrs. Jones' sister, Mr. and Mrs. E. H. McCarter of Amarillo, and the group all went to LaJunta, Colo, for the funeral of their sister-in-law, Mrs. Ellen Stavely, whose funeral was held on Saturday.

Mr. and Mrs. Wayne Green of Midland visited Mr. and Mrs. Gilbert Merritt and girls, Welch Scriviner and their guest, Mr. H. T. Simpson and Velma Perry of Olathe, Colo.

Jo Beth Smith, a student at Wayland Baptist College, Plainview, visited last weekend with her grandparents, Mr. and Mrs. Clyde Miller and grandmother, Mrs. Lillie Lee Smith and other relatives. On Sunday afternoon Mrs. Smith and Mr. and Mrs. Joe Landrum accompanied Jo Beth back to Plainview.

Mrs. Caryle Russell of Portales, N.M. spent last weekend with her parents, Mr. and Mrs. Bob Jennings.

Mr. and Mrs. Charlie Hunnicutt visited recently in the home of their son, Mr. and Mrs. Sam Hunnicutt and boys, and Mrs. Marietta Owen of Abilene.

Mrs. Johnny Jacobs of Clovis, N.M. returned to her home on Friday after visiting her parents, Mr. and Mrs. J. M. Hunnicutt since last Sunday.

Mr. and Mrs. Elbert Hedrick of Arizona visited recently in the home of their daughter, Mr. and Mrs. C. A. Daughtrey, Bob, Linda and Steve.

Mr. and Mrs. Preston Hunnicutt and Jan of San Angelo accompanied his parents, Mr. and Mrs. Jack Hunnicutt, to Hobbs, N.M. where they visited Mr. and Mrs. Jackie Hunnicutt and son.

Mrs. R. D. Boyd of Chilton has been visiting her daughter, Mr. and Mrs. Will Thorne for the past two weeks.

Mrs. D. A. Perry of Odessa, Mrs. H. M. Creek of Newport and Mrs. Bobby Warren of Tye, came on Friday for a weekend visit with their father, Mr. and Mrs. J. R. Jones. Saturday night Bobby Warren and Nelda Jo came and they all visited his parents, Mr. and Mrs. Robert Warren. On Sunday Mr. and Mrs. Rodney Summers and Debby Ann of Snyder visited in the Jones home with the group.

Wednesday night Mrs. Lonie Ball and Duke, and Mr. and Mrs. Dean Ball and Zenda visited in the home of Mr. and Mrs. E. L. Ball of Snyder and was met there by Mrs. Freddie Lewis, Tammy and Shannon of Caddo Mills.

Mrs. Lillie Lee Smith and Mrs. J. R. Jones attended the annual WMU meeting at Colonial Hills Baptist Church in Snyder on Thursday.

Bobby Stansell of Big Lake and Joe Weldon Stansell, a student at West Texas State, Canyon, and Mr. and Mrs. Clinton Gregory and girls of Snyder visited last weekend in the home of their parents, Mr. and Mrs. James Stansell and Sandra.

Bro. and Mrs. Thomas Hall visited Shirley Crawford of Abilene and then went on to Winters where he conducted the funeral of Mrs. Sarah Davis on Wednesday.

Mrs. Jessie Sims visited last weekend with her niece, Mr. and Mrs. James Sharb and daughter in Lubbock.

Guests in the home of their aunt, Mrs. Mary Belew were Mrs. Dessie Bennett of Bangs, and Mrs. Mary Nell Penn of Kermit. Mrs. Eunice Nesbitt, who has been here several weeks visiting her sister, returned to her home in Kermit with her daughter on Wednesday.

Mrs. Robert Jones visited Wednesday afternoon in the home of Mrs. W. J. Strickland and was met there by her brother, Clovis Strickland of Tularosa, N.M. who was visiting his mother.

Mr. and Mrs. Robert Wilson of Ralls visited their daughter, Mr. and Mrs. Sam Shoemaker, Carla and Pam last Saturday.

Mrs. Billy Don Kingston of Lubbock gave her husband a surprise going away party at the Fluvanna Community center Saturday night. Billy Don left Monday for the army.

Mr. and Mrs. A. R. Fowler and Pauline Knox attended the funeral of his nephew, John Fowler of Bokchito, Okla. last Sunday.

Mr. and Mrs. Mert Jones visited last weekend with her sister, Mr. and Mrs. Brown in Glen Rose. Mr. Jones returned home on Monday while Mrs. Jones remained with her sister for a few days.

Mr. and Mrs. Ray Fulford were Sunday and Monday guests of his mother, Mrs. H. F. Fulford and his sister, Mr. and Mrs. Ray Walton in Fort Worth.

Saffron Rice

1 cup converted - type rice
2 cups boiling water
1 teaspoon salt
¼ teaspoons ground (powdered) saffron
2 tablespoons butter

In 2-quart saucepan stir together the rice, boiling water, salt and saffron; bring to a boil; cover tightly and cook over very low heat until water is absorbed and rice is cooked through — about 25 minutes. With a fork, stir in the butter and fluff rice. Makes 4 servings.

WOMEN'S CALENDAR

TUESDAY

P-TA Procedure Course is to be held at 7 p.m. in the West Elementary cafeteria. The course is sponsored by the City Council P-TA and hosted by West Elementary P-TA. Instructors will be present.

Atheneum Study Club meets at Martha Ann Woman's Club with Delores Key as hostess.

B&PW Club meets with Ella Boothe and Dell Smith hostesses, 7:30 p.m. at Martha Ann Woman's Club.

Toperettes meet at Stanfield cafeteria.

Family night at Snyder Country Club. 8 p.m.

WEDNESDAY

Snyder Garden Club Standard Table Flower Show at Martha Ann Women's Club. Open to publice 3:30 to 7:30 p.m.

SUNDAY

Duplicate Bridge at Country Club, 1:45 p.m. Open.

Some cooks like to cover pork spareribs that are being barbecued in the oven during most of the baking time; they remove the cover the last 20 to 30 minutes the spareribs are in the oven.

God promises a safe landing, but not a calm passage. Bible Book Store, 1403 Lubbock Highway.

We have a dog, a cat, a rabbit and a '67 Ford.
My father always buys Fords because they never give him any trouble. Our new Ford has doors that lock by themselves... a light that tells us if we need gas... a stereo tape player... and one thing my father doesn't know about.

(A frog I'm keeping in the glove compartment.)

The strongest, quietest, best built Fords in history offer you a lot of great new features. ■ Like Ford's exciting new SelectShift Cruise-O-Matic transmission. It shifts automatically . . . or lets you shift manually for climbing steep hills, downshifting, or just for fun. ■ You can also choose a Convenience Control Panel that will automatically lock doors, warn you if a door is ajar, or fuel is low. ■ Stereo tape player. ■ Comfort-Stream Ventilation that exhausts stale air with the windows closed. ■ And, every solid, substantial '67 Ford is equipped with Ford Motor Company Lifeguard Design Safety Features.

Atlas Delayed By Technical Woes

By HOWARD BENEDICT
AP Aerospace Writer

CAPE KENNEDY, Fla. (AP) — The launching of an Atlas-Centaur rocket on a test flight was postponed today when faulty temperature data came from a radio channel in the second stage.

The trouble developed as the countdown reached five minutes.

No new launching date was set immediately.

The radio channel transmits temperatures recorded on the chambers of two liquid hydrogen engines.

A space agency spokesman said that a land line connected to the rocket on the pad relayed proper data but that the radio channel did not. Without the temperature information, ground stations would not be able to evaluate performance of the second stage during flight.

Main goal of the test flight will be the first double ignition of high-powered hydrogen engines in space.

Preparations continued here for the launching Wednesday of a satellite by the Communications Satellite Corp. The payload, set for a 6:05 p.m. EST liftoff, is to be fired into stationary orbit high above the Pacific to open the first commercial space communications link between North America, Hawaii and Southeast Asia.

Success of the Atlas-Centaur double ignition would fully qualify the rocket for unmanned lunar and planetary flights. It also would provide confidence for the Apollo program, whose Saturn 5 man-to-the-moon rocket will require twin firings of hydrogen engines.

With a restart capability, Centaur would be able to launch to the moon every month of the year. A one-burn mission limits launchings to a period between July and October. The capability also would open up wider periods for launching toward the planets.

Atlas-Centaurs are scheduled to launch a probe toward Venus next year and two vehicles toward Mars in 1969.

To Prove Existence Of The Soul

PHOENIX, Ariz. (AP) — About 18 days will be set aside next year in which to prove scientifically the existence of the human soul.

To the organization which can do this — and at least eight will try — the prize is more than $200,000.

The money was left by James Kidd, an Arizona miner who died in 1951. Kidd's will said his estate would go to any person or group furnishing "some scientific proof of a soul of the human body which leaves at death."

Attorneys believe the money also could be awarded anyone who is merely researching the existence of the soul.

Superior Court Judge Robert L. Myers said Monday a hearing expected to last 18 days would begin next March 6.

Kidd, a bachelor, said in his will he had no heirs.

Seeking to qualify for the money are the California Parapsychology Foundation, Inc., the Arizona Board of Regents, Arizona Foundation for Neurology and Psychiatry, Parapsychology Foundation, Inc., the University of Life Church, Inc., Neurological Sciences Foundation, Physical Research Foundation, Inc., and the Aquarian Foundation.

Holstein Herds Are On Tests

The Registered Holstein herds of Wayland L. Mathis of Snyder (30 cows) and Bill Stansell of Fluvanna (28 cows) have been enrolled in Dairy Herd Improvement Registry production testing, according to the Holstein-Friesian Association of America.

Usually called DHIR, the program is the official production and recording plan conducted by the national Holstein Association in cooperation with the state agricultural colleges. Information gained from this breed improvement service becomes a permanent part of Association records.

DHIR testing was initiated in 1956 to bring the DHIA records of registered Holstein cows into the breed improvement and recognition programs of the nation Holstein organization.

Registered Holstein cows in participating herds are automatically credited with both 305-day and complete lactation records, as received by the Holstein Association on punch cards from the regional DHIA central processing laboratory.

Production data is published for reference by Holstein dairymen everywhere as an aid to improve the quality of their herds.

Blaze Extinguished In Rural Dwelling

City Firemem extinguished a blaze in a frame house five miles southeast of town off the Colorado City Highway about 10 o'clock this morning.

The blaze was caused from a wood stove. There was minor damage to the ceiling of the structure.

There are several owners of the house, including Maybell Ainsworth. The resident was identified as Mrs. W. M. McBroom.

Research Vessel To Collect Marine Life

WAREN, R.I. (AP) — A $150,000 research vessel designed for the Woods Hole, Mass., Marine Biological Laboratory, has been launched at the Blount Marine Corp.

The 65-foot steel boat will be used for collecting specimens of marine life.

Captured UFO Is Traced To Teenagers

TOTOWA, N.J. (AP) — Police caught an Unidentified Flying Object here Monday night.

The thing floated in the air and gave off an eerie glow. Police said they received numerous calls from residents before they finally caught the object.

It was a cluster of helium-filled balloons tied to an aluminum-foil pail into which a lighted candle had been placed.

Officers said they traced the launching of the UFO to a group of teen-agers.

Ancient Romans believed that raisins, washed down with wine, were an antidote against poison hemlock, bee and wasp stings and even mushroom poisoning.

'YEAH, IT WAS QUITE A TRIP' — One horse appears to be talking, and the other listening. It could refer to the annual trail ride by members and guests of the Whistlin' Bit Saddle Club. This year the ride was in the Turkey River Valley near Elkader, Iowa, and it attracted more than 850 riders from Iowa, Wisconsin, Minnesota and Illinois. (AP Wirephoto)

David Falls In Love With Bomber

MEMPHIS, Tenn. (AP) — David Pitts, 13, is in love with a B17 bomber.

David, who lives in Pleasant Grove, Ala., visited Memphis during the summer with his parents to see the Memphis Belle, famous World War II bomber enshrined here.

David became concerned about the condition of the plane and started writing letters to Memphis officials. He wants to help clean up the Memphis Belle.

The Belle's paint is fading and peeling and the plastic on the cockpit and turrets is badly cracked.

The last renovation of the plane was in 1952, and she's been painted only once since then.

The Park Commission gets letters about the plane's condition, but has no jurisdiction since the ship sites on the grounds of National Award Armory.

David, a seventh-grader, became interested when he read a book in school about the Flying Fortresses of World War II.

The Memphis Belle was the first ship to fly 25 combat missions over Europe. She was brought home to headline a recruiting and bond sale drive.

The Belle was brought to Memphis in 1946 after having been saved from the scrap heap. The plane was dedicated as a war memorial at the armory in 1950 under the sponsorship of an American Legion post, but since then there's been no one to take care of it.

To assure survival of the species, the common North American toad can lay 28,000 eggs in a 10-hour period.

Business May Be Liable For Tab On Mental Illness

By JOHN CUNNIFF
AP Business News Analyst

NEW YORK (AP) —Business is becoming as concerned about mental health as the hospitals are, but for a different reason. Somebody has to pay the bill. More and more it looks as if business might be the one.

Medical and disability payments for mental illnesses may well become a fringe benefit if you use recent court cases as a guide. Time after time lately companies have been held liable for employe breakdowns.

A classic example involves payment to a railroad man who suffered a collapse because of what he said were emotional stresses and tensions in operating a traffic system while people shouted at him over loudspeakers.

The costs already are building up. Alcoholism, for example is even now costing industry about $2 billion a year. But this bill is tabulated in lost productivity, in alcohol's proven association with accidents and absenteeism.

The bigger bill, however, is likely to be in medical and disability payments. Emotionally ill persons may be out of work a long time. They could run up bills in the tens of thousands of dollars.

The costs of workmens compensation and insurance premiums is rising. Premiums on compensation alone now run between $2 billion and $2.5 billion a year, even without the possible flood of mental illness claims.

The precedent has been established now that an emotional illness is "compensable" when it originates in a physical injury. A physical injury caused by emotional stress also is payable. Now the law has recognized that a psychiatric illness resulting solely from mental stress may be payable.

In some cases the worker has not even had to prove his illness was caused by his job. Instead, the responsibility was put upon the company to disprove the connection.

Some businessmen feel this is unfair. But others feel business does have an obligation, seven in self interest. Since the problems cost them money, these businessmen reason, let's try to correct them and lessen our costs.

This is occurring, but to a limited degree, in some companies.

In medium-size plants today the medical center usually is staffed by a nurse, perhaps a doctor too, but seldom by a psychiatrist. The psychiatrist is finding a role in some plants, however.

One company that employed a psychiatrist in its medical unit one-half day a week reported 50 to 60 per cent of its alcholics rehabilitated and seven of 10 psychotics returned to work.

Champ Chicken Eater Defends His Title

GAINESVILLE, Ga. (AP) — Curtis Tate successfully defended his title of world champion chicken eater recently by downing 37 pieces of fried chicken—a total of 13½ pounds.

The contest climaxed poultry festival week at Gainesville, which claims to be the broiler capital of the world.

Tate, who weighs 255 pounds, won $100 and a bucket of fried chicken.

May Seek Bond For Jack Ruby

DALLAS (AP)—Phil Burleson, attorney for Jack Ruby, says he might seek bond for the slayer of Lee Harvey Oswald, accused assassin of President John F. Kennedy.

Burleson told a luncheon meeting Monday that he had "very good prospects of getting him (Ruby) out on bail, if we wanted to move in that direction."

However, Burleson said, if Ruby were to be released on bail, he might lose credit for the three years in Dallas County jail on some sentence he might get in the future.

Such credit, he said, would be at the discretion of the judge if Ruby had not been released on bail.

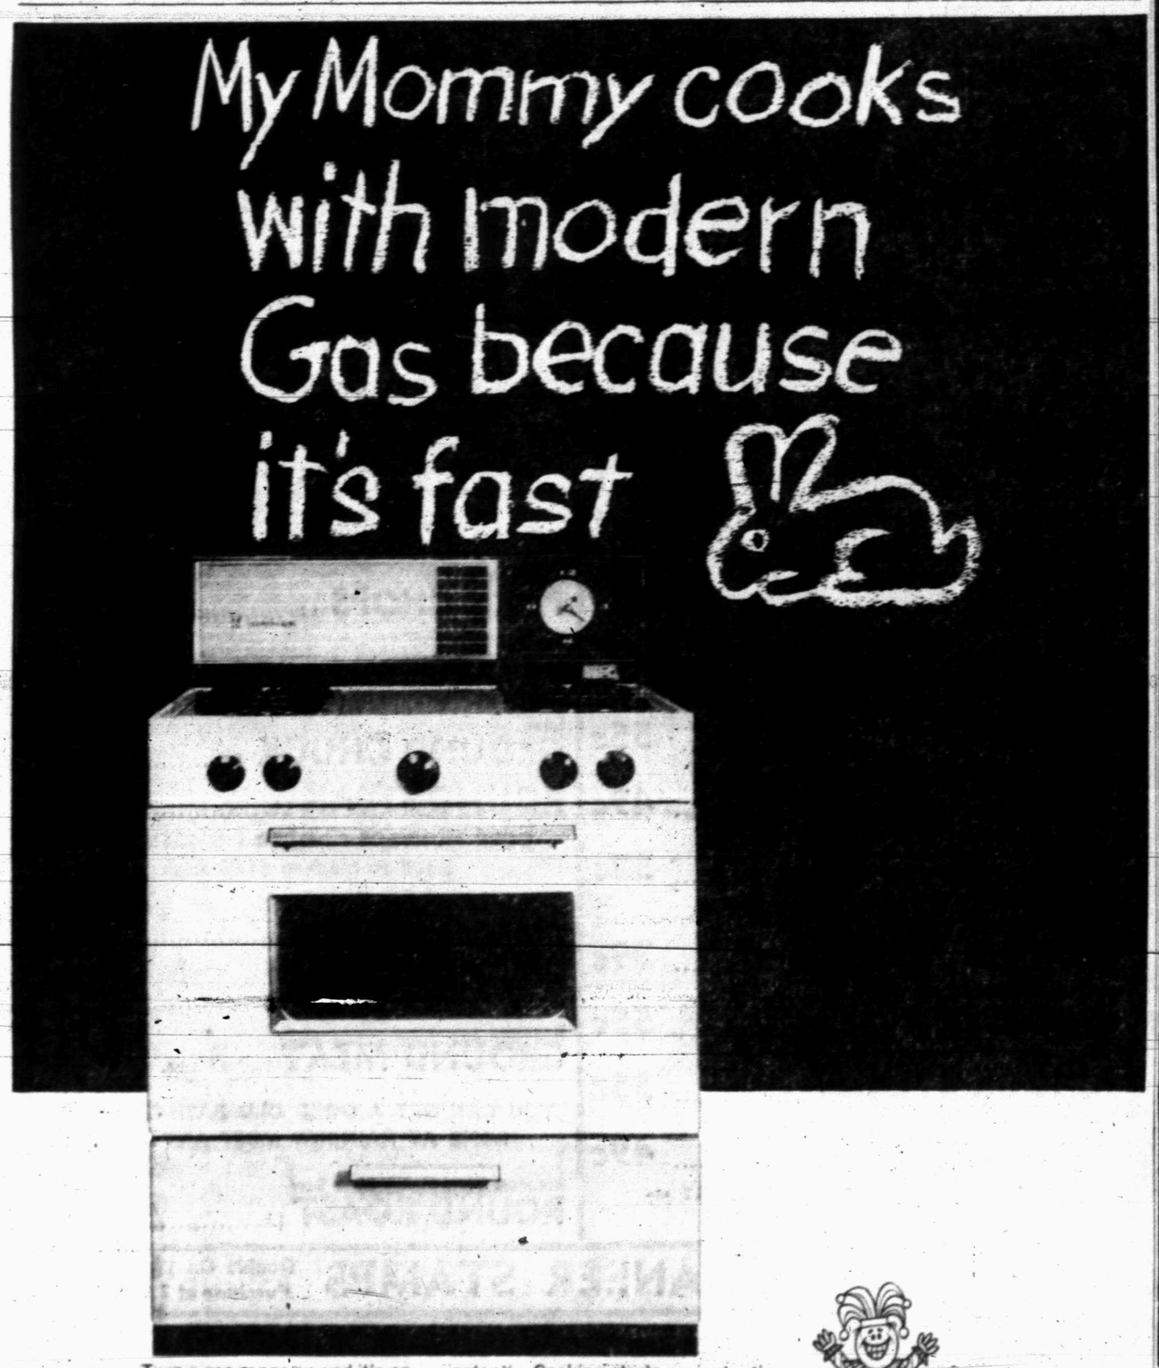

Ruby received a death sentence March 14, 1964, when he was convicted of Oswald's slaying and has been confined since.

The Texas Court of Criminal Appeals, in a ruling contested by the Dallas district attorney's office, overturned Ruby's conviction recently and ordered a new trial outside Dallas County.

Burleson said he mainlyy would be interested in getting Ruby freed so he could work closely with him in preparation for his defense.

Liquid rock in volcanoes is about 450 times as viscous as castor oil.

TAX ANSWERS

This column of questions and answers on federal tax matters is provided by the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

• • •

Q — I got a small scholarship which pays my tuition costs for one semester. Does this have to be counted as taxable income?

A — Scholarships are generally not taxable. It would be advisable to check with your District Director.

Q — You made a mistake in my refund check. Who do I write about it?

A — You should write to your District Director. When any change is made in a refund as requested by the taxpayer when he files his return, an explanation of the change is usually sent. When you receive this, if you have not already, it should answer the question you have about the refund.

Q — Is a trip to another city for medical treatment deductible?

A — It is if the trip is primarily for, and essential to, medical care and not taken for personal reasons. The transportation costs will be deductible but not the costs of meals and lodging unless they are furnished by a hospital.

Q — My boss stopped taking out for Social Security. Why?

A — Probably because the maximum has been withheld for the year. Social Security taxes are withheld on the first $6,600 of wages paid to an employee by the employer. If you have already received that amount from one employer no more will be withheld by that employer for Social Security for the rest of 1966. However, if you work for more than one employer during the year, each employer will withhold Social Security taxes on the first $6,600 of wages paid to you. If your total wages for the year from which Social Security taxes were withheld exceed the $6,600 maximum, the excess withheld may be claimed as a credit on your income tax return.

Q — My neighbor is paying me $25 a week to look after her little girl while she is at work. Is this money taxable?

A — Yes it is. The income should be included with whatever other income you receive to determine whether your gross income was $600 or more. If you file jointly with your husband, the income has to be included with the return you file.

If you determine the nature of the services and provide them in your own home and the amount you receive from your neighbor totals $400 or more for the year, you must file a return and pay self-employment tax. That tax will help you build up retirement benefits under Social Security.

Q — I filed an amended return some months ago and I still haven't received the additional refund I have coming. What's the hold up?

A — The filing of an amended return presents unavoidable delays. Amended returns are considered claims, even if the amended return contains all the information called for, the amended return must be associated with the original return you filed. And if your original return had been pulled out of the normal processing cycle for any reason (it might be taken out for audit for example) the association will take longer. Even after the returns are associated, some amended returns will require an audit which further delays issuance of a refund.

Q — When is the last payment on estimated tax due?

A — If your tax ends December 31 as is the case with most taxpayers, the final estimated tax payment is due January 16, 1967. However, if you file your 1966 return by January 31 and pay the full amount of the balance due, then the final estimated tax payment does not have to be made.

A — I'm a salesman and need a car to cover my route. Can I deduct the purchase price of the car when I file my return?

A — No. However, you may deduct 10 cents for every mile you used the car on your job up to 15,000 miles. If your mileage exceeds that, additional miles traveled on business may be deducted at 7 cents a mile. Tolls, parking and similar items are also deductible.

Instead of this method of deducting your business travel expenses, you may figure the actual operating costs of your car for the year. This involves depreciation, gas and oil, insurance, repairs and other operating costs. Most taxpayers find the mileage method easier.

FBI Nabs Two In La.

BATON ROUGE, La. (AP) — The FBI has made two more arrests in its probe of alleged attempts to bribe Louisiana State University football players.

Joseph Lee Nolan, 26, and Samuel F. Comeaux, 25, both of Baton Rouge, were charged Monday by the FBI with trying to influence by bribery the outcome of six LSU games this season.

Last week the FBI arrested 26-year-old Samuel J. Graziano, a barber, on charges he tried to influence the outcome of LSU games by attempting to bribe three players — starters Billy Masters, Gawain DiBetta and Jim Dousay.

Nolan refused to talk to newsmen.

Court records showed that Nolan is a younger brother of Eugene Nolan, recently convicted in Houston, Tex., on an interstate gambling charge. Eugene Nolan also faces a similar federal charge in Los Angeles.

When Graziano was arrested, Charlie McClendon, the LSU head football coach, said that Dousay, Masters and DiBetta had been cooperating with the FBI for more than a year.

Gunshot Fells College Lineman

COMMERCE, Tex. (AP) — Bruce Butler, starting linebacker on the East Texas State University football team, is in critical condition from gunshot wounds suffered in an accidental shooting near the university campus.

The 19-year-old Corsicana sophomore was struck by a bullet from a .22 caliber pistol while sitting in the front seat of an automobile. It was parked at a drive-in grocery across the street south of the campus.

The accident occurred Monday while Butler and three companions prepared to go target shooting outside the city.

A surgeon at Commerce General Hospital said the youth's condition as critical. The doctor said he removed Butler's spleen.

Wildcats, Tors Pace 3-AAA Race

Lamesa and Littlefield share the lead in the District 3-AAA football race with two victories apiece without a loss.

The Tors and Wildcats vaulted into the front last week with 14-0 and 27-21 victories over Levelland and Sweetwater respectively.

Lake View retained its title hopes with a 7-6 decision over Snyder, and Brownfield, idle last week, held onto fourth place with a 1-1 record. The Tigers of Snyder slipped into a 5th place tie with Levelland. Both teams are 1-2 in league play.

Only Sweetwater appears definitely out of contention with three straight losses, although the Mustangs showed considerable improvement with a great fourth quarter rally against the Wildcats.

Both front runners run into stiff tests this week as Lamesa hosts the ambitious Chiefs from Lake View while Littlefield invades Tiger Stadium in Snyder. Brownfield hopes to retain its chances in a clash at Sweetwater, while Levelland has the week off.

Littlefield and Lamesa also sport the best season marks with identical 5-1 records. Sweetwater had the worst record without a victory in seven outings.

Lamesa has the best record on offense and defense in league action, and the Tors also have yielded the fewest points for the distance. However, Littlefield has posted the most points during the season.

As of this date, everything points to a showdown battle between Lamesa and Littlefield when they collide in Wildcat Stadium Nov. 4.

The record:

(Season)

Team	W	L	T	Pts	opp
Lamesa	5	1	0	131	25
Littlefield	4	2	0	131	80
Brownfield	4	2	0	72	49
Snyder	3	4	0	83	116
Lake View	3	4	0	94	107
Levelland	2	4	1	41	112
Sweetwater	0	7	0	46	135

(District 3-AAA)

Team	W	L	T	Pts	Opp
Lamesa	2	0	0	55	6
Littlefield	2	0	0	43	35
Lake View	2	1	0	40	32
Brownfield	1	1	0	33	30
Snyder	1	2	0	43	48
Levelland	1	2	0	14	45
Sweetwater	0	3	0	28	60

Spiders End Loss String

By DICK COUCH
Associated Press Sports Writer

Ulysses S. Grant took Richmond 101 years ago . . . but the city belongs to Larry Zunich today.

Until last Saturday, everybody had taken Richmond's football team since the middle of the 1964 season. Then Zunich, a hard-working halfback, broke loose for 239 yards as the Spiders trapped Davidson 23-17, ending major college football's longest losing streak at 19 games.

Zunich, who cracked the Southern Conference single-game rushing record and set three school marks, was named Back of the Week today by The Associated Press.

The 21-year-old senior from Portage, Pa., carried the ball 36 times — a Richmond record — and scored on jaunts of 68 and 10 yards in what his coach, Frank Jones, called "one of the greatest rushing efforts I have ever seen."

The Spiders' first victory in six 1966 starts left Kansas State with the longest losing streak in the country. Cincinnati, led by bruising fullback Clem Turner, drubbed K-State 28-14 last Saturday, extending the Wildcats' futility string through 17 games.

Turner, a 225-pound junior, bulled for 267 yards in 29 carries, pushing Zunich for Back of the Week honors.

QB CLUB TO MEET

The Snyder Quarterback Club will meet at 7:30 p.m. today in the high school cafeteria to see films of the Tiger-Chief clash and hear scounting reports on this week's opponent, Littlefield.

Coaches will give reports on their various teams, according to an announcement by Roy Meador, president of the QB Club.

Irish Strengthen Grip On First

BY THE ASSOCIATED PRESS

Notre Dame is batting a solid .780 in the weekly Associated Press college football poll.

The Irish polled 32 of a possible 41 first place ballots in voting by a national panel of sportswriters and broadcasters and remain in front of the Top Ten today.

Notre Dame solidified its hold on the top spot with a 38-0 rout of Oklahoma last Saturday. The defeat dropped the Sooners out of the Top Ten. Their No. 10 berth went to Wyoming, which walloped Utah State 35-10.

Michigan State, which received five first place votes, remained in the poll's No. 2 slot but the Spartans' 41-20 victory over Purdue dropped the Boilermakers out of the Top Ten. Arkansas took the ninth slot with a 41-0 rout of Wichita State.

UCLA remained third followed by defending national champion Alabama, Southern California, Georgia Tech, Florida and Nebraska.

The first six spots were unchanged from last week. Nebraska, seventh a week ago, slipped to No. 8, and Florida stepped up one notch to seventh. The Cornhuskers just got past Colorado 21-19 while the Gators thumped Louisiana State 28-7.

UCLA beat California 28-15, Alabama ripped Vanderbilt 42-6, Southern California shut out Clemson 30-0 and Georgia Tech downed Tulane 35-17.

The Top Ten, with first place votes in parentheses and total points on a 10-9-etc basis:

1.	Notre Dame (32)	397
2.	Michigan State (5)	364
3.	UCLA (2)	310
4.	Alabama (1)	272
5.	Sou. Calif (1)	247
6.	Georgia Tech	186
7.	Florida	172
8.	Nebraska	151
9.	Arkansas	50
10.	Wyoming	31

BERLINSKI UPENDED — Michigan State back Dick Berlinski is upended as he tries to go around his own right end for a two-yard gain in the first quarter of a game with Purdue in East Lansing. Putting Berlinski on his head is Purdue back Bob Corby. Michigan State won, 41 to 20. (AP Wirephoto)

Tigers Are Showing Improvement

Coach Keith Miles of the Snyder Tigers said he is pleased with the way the defense has operated the past couple of weeks. The Tigers have yielded only seven points in the past two games.

"We changed it(the defense) up some after the Lamesa game so that it wouldn't be so complicated," he said.

Miles praised the play of Murry Bowden, Curtis Clay, Mario Tavarez, Frankie Grimmett and Ronnie Shields in the Levelland game, saying they did real well on offense. Defensively, Craig Bell and Joe Breeden were outstanding against the Loboes.

"Clardy did a fine job defensively against Lake View," the coach declared. He added that virtually everyone "did a pretty good job on offense."

He especially praised the work of Rob Golden, who filled in at quarterback for the injured Bowden.

Miles pointed out that the Tiger defense improved considerably in the second half of the Lake View game after Bowden came off the bench.

Monday, the Tigers worked on the kicking game. Miles said he was not satisfied with the way the Tiger backs fielded punts (or rather, didn't field them) at Lake View.

He declared that mediocre coverage on one punt and another defensive mistake were costly.

"We didn't make too many mistakes," said Miles, "but the one we did make hurt us."

The Bengals host Littlefield here Friday. After viewing films of the Wildcats, Coach Miles said Littlefield looks as impressive as if not more impressive than Lamesa.

Clean Up Cage Courts?

MEXICO CITY (AP) — Unless basketball cleans its skirts, it may be tossed out of the Olympic program.

Avery Brundage, the president of the International Olympic Committee, didn't say so but he gave some broad hints at the end of the IOC meetings here over the weekend.

"We are not pleased with the irregularities in basketball in many countries," Brundage told a press conference Monday. He added that the United States was among the choice offenders.

The IOC chief was asked to clarify what he meant by "irregularities."

"The sport is over commercialized," he said. "In many places, it is conducted in a way that is averse to the Olympic amateur code."

WBA Vacates Crown

By CHARLES GREEN

MEXICO CITY (AP) — Carlos Ortiz' world lightweight boxing title is vacant. But Ortiz may defend his crown Nov. 28 in New York against Flash Elorde of the Philippines.

Sounds confusing? It is.

The World Boxing Council declared the title vacant Monday night, the latest development in the Saturday night fiasco in which the referee had one winner and the WBC another.

Ortiz, of Puerto Rico, who won the title in 1962, was given a technical knockout by referee Billy Conn because challenger Ultiminio (Sugar) Ramos had a badly cut left eye.

The crowd went wild, almost rioted until Ramon Velazquez, executive secretary of the WBC, reversed the decision and declared Ramos — a Mexico City resident — the champion because Ortiz refused to start the fight anew.

Everyone got together for a bit of negotiation-by-press conference at a gymnasium Monday night with these results:

1. The title, as far as the WBC is concerned, is vacant.

2. Ortiz will meet Ramos in the same ring Jan. 29 to determine the champion.

3. Ortiz and his manager, Bill Daly were suspended for one year and fined $400 each by the boxing commission of the state of Mexico. The El Toreo bull ring, where the fight was held, is in the state of Mexico just outside the Mexico City limits.

4. Velazquez and the president of the state commission, Fernando Aldape Barrera, shouted at each other angrily because the WBC doesn't think anyone should be fined.

5. Velazquez would not release Ortiz' purse until he signed a contract for the Jan. 29 fight.

A title fight between Ortiz and Elorde has been announced for Nov. 28 in Madison Square Garden.

The main point that Adalpe Barrera made in levying the fines was that Ortiz had left the ring before a public announcement was made of the winner.

"I made Carlos leave the ring," Daly said. "He wanted to stay in there because he wasn't afraid of Ramos and he had him hurt."

JUNIOR KEGLERS — Jo Nell Kesner (left) of the Junior Bowling League gives these youngsters some important pointers on how to roll a bowling ball. The top bowlers in each division of the league are shown with their balls.

Super Pro Foes Meet In Pasadena Bowl?

By MIKE RATHET
Associated Press Sports Writer

NEW YORK (AP) — The Super Bowl game, the first meeting between the champions of the National and American football leagues, almost certainly will be played in the Rose Bowl at Pasadena, Calif.

That's the word in American League circles, where the reasoning goes like this:

Despite the fact the National League is investigating three cities — New Orelans, La., Seattle, Wash., and Cincinnati — for its next expansion franchise, the betting is that the Louisiana city becomes NFL territory for the 1967 season.

That would eliminate New Orleans, Pasadena's chief rival for the Super Bowl game, as a neutral site for the NFL-AFL title game.

Quote of the Week: Bob Pellegrini, one of the Miami Dolphins' assistant coaches was discussing the pass-catching abilities of two rookies, Bob Bruggers of Minnesota and Howard Twilley of Tulsa, and noted that his idea of a lifetime game would match the two.

Said Pellegrini, by way of explaining:

"The first one to die would be the first one to miss."

The Dolphins, by beating Houston 20-13 Sunday, became the first expansion club in either league to win two straight games this first season. . . Joe Namath, the New York Jets' quarterback, scored the first two touchdowns of his pro career against Oakland but also was nailed for a loss while passing for the first time this season. . . The guy who got Namath was Dan Birdwell, the Raiders' defensive tackle. . . The Kansas City Chiefs just missed two records while amassing 614 yards and 56 points against Denver, falling 20 yards short of the yardage record set by Oakland against the Broncos two years ago and three points short of the point record they Denver in 1963. . .

Chiefs Lead Pro Offense

NEW YORK (AP) — Kansas City's high-powered offense with Bert Coan and Mike Garrett running and Len Dawson passing, leads the American Football League.

AFL statistics released today credit the Chiefs with an average of 353.4 yards gained per game. The running game has produced an average of 160.1 yards and the passing 193.3.

Oakland, which upset New York 24-21 Sunday, leads the league in team defense. The Raiders have allowed an average of only 249.9 yards per game—104 rushing and 145.9 passing.

New York, leading the AFL's Eastern Division, is second in both team offense and team defense. The Jets have gained an average of 327.7 yards passing and rushing and allowed an average of 263.1.

Ladd's Thumb Numb

HOUSTON (AP)—Ernie Ladd, the big Houston Oilers tackle hurt Sunday against the Miami Dolphins, will be able to play this weekend against Kansas City, doctors said Monday.

Ladd's left thumb was broken on the first play of the game as he tried to down Dolphins quarterback George Wilson Jr.

Ector Loses Grid Status

DALLAS (AP)— Only four changes were noted in the Dallas News poll of Texas schoolboy football today as San Angelo, McKinney, Sweeny and Forney continued No. 1 in classes AAAA, AAA, AA and A, respectively.

Abilene Cooper, a 20-7 victim of San Angelo last week, dropped out of the AAAA rankings. It was replaced by Brazosport, which was making a return.

Odessa Ector and Gainesville fell out of Class AAA and Monahans and Del Rio marched in.

Grand Saline was the lone casualty in Class AA. Clarksville replaced it in the rankings.

There were no changes in Class A.

Class AAAA — San Angelo Amarillo Tascosa, Nederland, Austin McCallum, Galena Park, Wichita Falls Rider, Highland Park, Dallas Woodrow Wilson, Brazosport, Marshall.

Class AAA — McKinney, Bridge City, Dumas, Brownwood, Donna, San Marcos, Athens, Vernon, Monahans, Del Rio.

Class AA — Sweeny, Iowa Park, Mineola, Plano, Granbury, Hooks, Clarksville.

Class A — Forney, White Deer, Crowell, Sonora, Hallsville, Keller, Dublin, Van Alstyne, Honey Grove, Spur.

SEAGREN EQUALS OLYMPIC RECORD — Bob Seagren, the U.S. pole vaulter from Los Angeles, displays his form during the performance that won him a gold medal in Mexico's Little Olympics in Mexico City. Seagren vaulted 16 feet 8¾ inches to equal the Olympic record held by Fred Hansen, also of the United States. (AP Wirephoto)

Ducats Available

DALLAS (AP)—All of the 25,000 tickets available to the public will be subscribed but that's no reason for fans not to send applications before the Nov. 1 deadline for tickets to the Cotton Bowl football game.

Howard Grubbs, secretary of the Cotton Bowl Athletic Association, said today early sales being conducted by mail already show that more tickets will be sought than are available.

Pile Of Work Waits For Unnamed 90th Congress

By JOE HALL

WASHINGTON (AP) — The 90th Congress, most of which won't be elected for another two weeks already has a pile of work laid out for it.

Social Security, the union shop, unemployment compensation, extension of "Great Society" programs and those presidential proposals which failed in the just-adjourned 89th Congress all are almost certain to be considered.

And a tax raise might be, too.

Which controversial programs get passed, however, may make a shorter list.

Measures which failed during the past two years failed despite better than 2-to-1 Democratic majorities in the Senate and House. Mostly they lost to a Southern Democrat-Republican alignment which even on some legislation that passed cut President Johnson's working majority to a handful of votes, especially in the House.

Virtually no one expects Democrats to gain any House seats in the Nov. 8 election. Predictions average out instead to a 20-to 30-seat gain for Republicans, which could wipe out that slim working majority and hamstring proposals which couldn't survive under more favorable conditions.

All 435 House seats and 35 of the 100 Senate seats are up for election. Little significant Senate swing is expected.

President Johnson announced 10 days before the 89th Congress adourned that he would ask the 90th to increase Social Security benefits and revise the system.

Some members of the 89th wanted to tackle that appealing task before the election but leaders agreed to make it the first major order of business in January.

Organized labor — no big winner in the 89th Congress despite its overwhelming support of Democrats in 1964 — undoubtedly will press again for fixing of federal standards for unemployment compensation payments and repeal of Section 14B of the Taft-Hartley Act, which permits states to ban the union shop.

The 90th Congress must grapple with a budget full of programs enacted in 1965 and 1966 at little initial cost — but with bills which begin to come due next year.

For example, the demonstration cities plan to rebuild large areas of urban blight carried only a $12-million price tag for planning funds in the present fiscal year.

But it authorized $400 million for the spending year beginning next July 1.

Many legislators believe that these mounting costs coupled with steadily climbing Viet Nam war expenditures and pressures to slow down the economy, will require Johnson to ask for an across-the-board income tax boost next year.

A HAPPY MOMENT — Five-year-old Donna enjoys a slide with the aid of her mother, Mrs. David J. Dill, in Hillsboro, Texas. The youngster is the 1967 March of Dimes Poster Child. Born with an open spine, she symbolizes the more than 250,000 children born each year with birth defects. (AP Wirephoto)

Roma Bridge Is Reopened To Mexican Laborer Traffic

ROMA, Tex. (AP) — Arrest of a dozen persons halted efforts to keep Mexican laborers from crossing the Rio Grande to jobs on Texas farms.

Sheriff's deputies cleared 18 persons from International Bridge to this border village after they blocked pedestrian and auto traffic across the span Monday.

Some of the demonstrators sat in the roadway and others stood shoulder to shoulder until officers broke up the blockade. The first taken into custody were Eugene Nelson and Bill Chandler, organizers of the United Farm Workers in Texas' lower Rio Grande Valley.

Officers estimated 50 to 60 men and women took part.

Spokesmen say American farmer workers are unable to compete with Mexican laborers who help cultivate and harvest crops in the semitropical valley.

Demonstrations began last summer in support of union demands for a minimum 1.25 hourly wage. Spokesmen say current pay varies from 40 cents to 1 per hour.

Suspect Held In Burglary

The recent burglary of the Prentis Bass residence in Bassridge Addition apparently was solved Monday afternoon with the arrest of a young man at Stinson's Drug Co. on the north side of the downtown square.

Officers said they recovered items taken in the burglary from the man's car. Arrested was Robert P. Snoody of Memphis, Tenn. Bond was set at $2,000 after he was charged with burglary.

The man tried to cash some blank bank drafts allegedly taken in the burglary, which he filled out, according to officers.

First Play Opens At New Theater

By PAUL RECER

SAN ANTONIO (AP)—"A Different Drummer"—fitting first play for Paul Baker's dream playhouse—opens tonight in the imaginatively designed, ultra-modern Ruth Taylor Theater at Trinity University.

The play is by Trinity drama professor Eugene McKinney and is scheduled to run for 11 performances.

Baker, renowned drama director, made the dedicatory address for his new theater Monday night, describing it as a "great instrument that must be mastered to be played."

Head of the drama department of Trinity and guiding genius of the Frank Lloyd Wright designed Dallas Theater Center, Baker combined with San Antonio architect O'Neil Ford to bring the new Trinity playhouse to reality.

Ford, a Denton native who has designed some of Texas' most beautiful homes and buildings, has been called "a second Frank Lloyd Wright," an appellation to which the late Wright hardly could object.

More than 700 persons, some from Europe, heard Baker speak of the sparkling new complex of three playhouses, classrooms, offices and stage shops that make up the Ruth Taylor Theater.

Stores Are Preparing For Santa

By SALLY RYAN
AP Business News Writer

NEW YORK (AP)—Santa won't hitch up his reindeer for another two months, but the Christmas season already is starting to sparkle in the nation's stores.

An Associated Press survey shows that Christmas will be a little early, partly because of the Viet Nam war.

'Whenever there is a war, people have on their minds getting packages to Sonny," said W.G. Austin, manager of the Kansas City Merchants Association. "It makes them think about Christmas shopping earlier."

John McNavola, manager of a W.T. Grant variety store in Pittsburgh, Pa., said he noticed many persons shopping earlier "because of the boys in Viet Nam." He could tell, he said, because of a big demand for heavy corrugated cartons to ship merchandise and food.

"With the troops overseas and the need for early purchases and early mailing, we have to have our lines out in time," said H.P. Smith, Woolworth regional manager in San Francisco.

In Helena, Mont., Ben Morris, manager of the J.C. Penney department store, said he already is doing 25 to 30 gift wraps a day for Christmas.

Do people complain about early starts for the Christmas shopping season?

"There always have been some complaints about rushing the season," said a spokesman for the Frederick and Nelson department store in Seattle. "But it apparently is becoming more accepted by the public."

"If we waited until Thanksgiving to start, we would still be putting up decorations on New Year's," said Alfred Pierotti of Titche-Goettings in Dallas, Tex. "I've been hearing for the last 20 years that we start earlier every year, but that just isn't true."

5 Children Die In Fire

ALBANY, N.Y. (AP) — Five children, the oldest 7, died Monday night in a fire that flashed through their two-story frame house.

Fire officials said the mother, Bernice Nunn, about 25, who is expecting her sixth child, arrived home shortly after the fire broke out and collapsed when she saw flames leaping from the children's first-floor bedroom windows.

She was treated for shock.

Mrs. Nunn's children were Frank Finley, 1; Lisa Nunn, 3; Lonnie Nunn, 4; Mark Nunn, 5, and Michael Johnson, 7.

Public Notice

NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST THE ESTATE OF J. R. PLANT, SR., DECEASED:

Notice is hereby given that original letters testamentary upon the Estate of J. R. Plant, Sr., deceased, were issued to me, the undersigned, on the 20th day of October, A. D. 1966, in the proceeding indicated below my signature hereto, which is still pending, and that I now hold such letters. All persons having claims against said estate, which is being administered, in the County of Scurry, are hereby required to present the same to me respectively, at the address below given, before suit upon same are barred by the general statutes of limitation, before such estate is closed, and within the time prescribed by law.

Notice to me should be made by mailing all claims to 1814 26th Street, Snyder, Texas.

DATED this 21st day of October, A. D. 1966.

'IT'S AIR POLLUTION OR A POLITICAL SPEECH!'

Business Council's Frown Chills Executive Branch

By STERLING F. GREEN

WASHINGTON (AP) — As far as American industry is concerned, the Business Council is The Establishment.

Outside Washington, it is the least known of the major business organizations. In Washington, it is by far the most influential.

So there were ripples of concern in the administration when, at the council's fall meeting in Hot Springs, Va., last weekend, the first signs appeared of some slight strain in the long honeymoon between big business and President Johnson.

What is the Business Council, and why does its frown send a chill through the executive branch?

The council was the idea of Franklin D. Roosevelt. His aim was to mobilize the talents of the country's foremost businessmen in devising ways to lift the nation out of the Great Depression. It was made an advisory committee to the then Secretary of Commerce Daniel Roper.

By an enormous irony, this creation of the New Deal has become the inmost of in-groups. Its membership roll is a roster of wealth, power and prestige.

And, since the council chooses its own new members, it has acquired the aspect of a self-perpetuating private club. Its gatherings are closed to press and public. When government men attend, they do so as invited speakers or guests.

There are 120 members, not counting about 60 who are "honorary," and the roll includes the top men of scores of the country's greatest corporations — Ford, Du Pont, GM, GE, U.S. Steel, Standard Oil, AT&T, Bank of America, you name it.

The council gives research and advisory services to more than a dozen departments and agencies, including the White House. Many members have taken government posts, some in the Cabinet. But the council has no official status whatever.

Its advice and good will are sought eagerly by bureaucrats, Cabinet officers — and the President.

President Johnson has wined and dined its members at the White House danced with their wives made speeches at their meetings, consulted them on grave decisions and appointed their members to tasks of honor and responsibility.

The council has reciprocated. Its leaders and members have supported him on problems ranging from taxes to the balance of payments. Many of them forsook their Republican labels in 1964 to vote for him and contribute to his campaign.

They considered that he "understood businessmen" — talked their language, shared their views on spending, cost reduction and balanced budgets.

Now they are concerned over inflation and rising wage demands. They fear a tax increase and a squeeze on profits in 1967. So they want the President to do some ruthless budget-cutting.

It's a safe bet that he will, if he can.

Watermelon pickle is particularly attractive when the rind is cut in diamond shapes.

Junior Editors Quiz on DISTANCE

QUESTION: What is the difference between a nautical mile, a land mile and a knot?

* * *

ANSWER: A full circle has 360 degrees, each degree containing 60 minutes, so that a full circle has 21,600 minutes (called minutes of arc). A nautical mile is almost exactly the same as one of these minutes of arc, which makes it a most convenient distance measurement for those who navigate ships and airplanes, since the degree numbers are printed at intervals around most maps and charts. A land or statute mile is different, being slightly shorter than a nautical mile. A nautical mile is equal to 1.1508 land miles. Maps usually show a scale of land miles at the bottom. A knot isn't a measure of distance, but speed. In old sailing ship days, a line with knots tied every 47 feet 3 inches was dropped over the stern as the ship sailed along. The number of knots going overboard in 28 seconds gave the speed of the ship. If 5 knots went over in the 28 seconds, the ship was moving at 5 nautical miles an hour. A sailor would say she was sailing at 5 knots an hour, or, more simply, at 5 knots.

* * *

FOR YOU TO DO: Look at a map in an atlas. Find the degree numbers around the edge and the scale showing statute miles. 10-25

(Will Lawson of Newport News, Va., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Young Singer Is Talent Scout's Dream

By HAL BOYLE

NEW YORK (AP) — Susan Pack is a talent scout's dream.

She is 19, auburn-haired, slender and lovely.

Everyone who meets her is sure this young singer has a great future in show business.

"You could be real big in films," the talent scouts tell her. Or, "When you hit Broadway, they'll forget all about Mary Martin and Julie Andrews."

But Susan, who is so wholesome it almost hurts, simply laughs at these promises of a pie in the sky show business future. Recently she turned down three other contract offers in order to join the New Christy Minstrels, a folk singing group of two girls and seven boys that has made 16 hit record albums in the last five years.

"I'm not interested in films at all," she said. "Film work is too cold. You have to be able to turn your emotions on and off. I'm not sure I can.

"I enjoy working with an audience too much.

"Performing is a lot of fun. But I'm not at all certain I would want it to become a line of work. I like to think of it as a hobby.

"One of the reasons I'm in the Christies is to earn enough to go back to college."

Miss Pack, born in Hollywood, Calif., is the daughter of Mary Norse, a former singer and dancer. Her father is employed by an auto sales firm in Eugene, Ore., where she grew up and attended the University of Oregon for two quarters.

Susan never has taken professional lessons. She sang first at the age of 6 at a P-TA meeting. At 14 she started singing with dance bands. Last year, as "Miss Oregon," she placed sixth in the Miss America pageant at Atlantic City.

Being one of two girls with a troupe of seven handsome lads — most of them in their early 20's — would sound like a real ball to the average American teen-ager, and Miss Pack said that's just what her life is at present.

"They're a great bunch of kids," she said. "It's like a big family, and we have a great time."

But it is also hard work. She and her musical pals give seven or more performances a week, work 50 weeks a year, and travel up to 8,000 miles a week by plane or bus. Troupe members earn from $15,000 to $30,000 yearly out of which they pay for their own hotels rooms and food.

The personnel change from time to time as the performers weary of travel, get married or become soloists on their own.

"There haven't been any marriages within the group," said Susan. "Gee, that would be like marrying your brother or something."

In 1877, Giovanni Virginio Schiaparelli, of the Milan Observatory, reported seeing an astonishing system of lines criss-crossing Mars. He identified them as grooves, or canali, which was misleadingly translated as "canals."

IN TEXAS POLITICS

Candidates' Words More Pointed

BY THE ASSOCIATED PRESS

Growing asperity marked some of the campaign utterances Monday by the two major party candidates for U.S. senator between whom Texas voters will choose Nov. 8.

Atty. Gen. Waggoner Carr, the Democratic nominee, and Sen. John Tower, the Republican bidding for another term, each directed some pointed remarks at the other.

In an evening speech at Paris Junior College, Carr said he was concerned over inequities in the effects of selective service laws and asserted:

"Legislation under this subject comes under the jurisdiction of the Senate Armed Services Committee, of which my opponent is a member. If I had been a member of this committee the last four years, I would not have sat idly by while the inequities go from bad to worse."

At a rally in Denton, Tower accused his opponent of waging "a campaign of bitter personal attack against me." The senator added:

"He (Carr) is not discussing the issues of importance—such as inflation and Viet Nam—because he does not have the experience, knowledge or understanding to be conversant with those issues. . . I expect Texas will repudiate his 'bad mouth.'"

At Lufkin, Carr declared that Tower "cast so many votes against the best interests of Texans that it is difficult to choose the ones that should be emphasized. And at a Tyler luncheon the attorney general brought up the question of civil disobedience.

"Why has he (Tower) been silent during the months of disorder and riots?" asked Carr. ". . . What I want to know is why it took him until October, just a few weeks before election, to decide lawlessness is a problem."

The Republican senator, in turn, said he was accused by Carr before a Fort Worth audience recently of not voting on a foreign aid bill for five years.

"If they will take the trouble to look at the public records," Tower went on, "they will find during my Senate service for Texans that I voted on 112 roll call votes on foreign aid. That's a 112 per cent 'truth gap' for Mr. Carr."

Carr quoted a national news magazine as reporting Connecticut Republicans had collected $400,000 to bolster the campaigns of Tower and GOP office seekers in California and Georgia.

"This poses the question of what could happen if an issue arises with Texas' and Connecticut's interests on opposite sides," the Democratic nominee said. "How sure can anyone be that the junior senator will vote for Texas' interest?"

Tower told supporters in both Dallas and Denton that he expects administration efforts at the next session of Congress to repeal of so-called right-to-work laws, to impose wage and price controls and to raise income taxes—all of which he said he opposes.

"Whenever the administration again challenges our Texas law," the senator said, "I will once again join with senators of both parties . . . to save the right-to-work law."

Aides of Carr said the Fort Worth Star-Telegram and the San Antonio Express and News have endorsed the attorney general, raising to 37 the number of Texas newspapers backing his candidacy.

Headquarters for Tower reported he has received the editorial endorsement of the Denton Record-Chronicle.

Campaign schedules took Carr on to spend today in San Antonio while Tower's itinerary included Pampa, Borger, Hereford and Abilene.

Thinks 20 Children Is Really Enough

AUSTIN (AP)—"I think this is enough," said Mrs. Albert Herrera as she carried her 20th child out of Seton Hospital Monday.

"But if the good Lord gives me more," said the 40-year-old mother, "I will receive them gladly."

Little Gerard Herrera was born Saturday, the son of a produce company truck driver.

Nineteen of Mrs. Herrera's children are living and healthy, ranging in age from 24 to the 3-day-old Gerard.

Said Gerard's mother: "I just thought it would be lovely to have a big family."

Police Use Thieves' Jargon Dictionary

By JAMES M. LONG

ROME (AP) — The shoeman was caught lifting a chicken's slipper and ended up in a birdbath at the dark house after a cattle feeding.

If that's a little hard to follow, it means that a pickpocket stole an Italian's wallet and was put in a cell at the prison after a rough third-degree questioning.

It's all part of thieves' jargon which has been compiled in a dictionary of Italian underworld slang. The Ministry of Interior got it out with the help of and for the aid of police.

When a man is "vestito" — or fully dressed — it means he's carrying a gun. "Un uccello nel cespuglio" — a bird in the bush — is a fugitive on the lam.

The idea of the dictionary is to help police figure out what the thieves, tricksters, kidnapers, yeggs and smugglers are talking about, each in his own idiom, when they are overheard or questioned.

The pickpocket — or shoeman — calls the pocket a rasper and the wallet a slipper or a macaroni.

The bandit who goes out "vestito" calls his pistol a joker and his holdup victim a vincent. An Italian vincent is a chicken.

The experienced burglar is known as a crab and if he goes out on a housebreak job alone he's doing it "for pretty."

The police are called dogs' teeth.

Texan Is Killed

WASHINGTON (AP)— Army Spec. 4 Teddy R. Jordan, son of Mrs. Mattie W. Jordon, Columbus, Tex., was listed Monday by the Defense Department as killed in action in Viet Nam.

Japanese Report Study On Cancer

TOKYO (AP) — Drinking milk seems to help protect some people against stomach cancer, but eating salted pickles every day seems to boost the risk.

These observations come from new studies into the mystery of why people do or do not get stomach cancers and why the risk of stomach cancer generally is coming down.

Cancer researchers suspect a main villain is what people eat, but they agree it is very difficult to blame particular food items or to prove that others are protective.

The puzzle about food was reported today at sessions of the ninth International Cancer Congress.

Japan has one of the highest rate of stomach cancer in the world, along with Chile and Iceland. Dr. Takashi Hirayama of the National Cancer Research Institute told of comparing the diets of stomach cancer patients with Japanese free of the disease.

One main difference was that cancer victims drank less milk, he said. Another was that they used much more salty food, especially salted pickles, a mainstay of the Japanese diet.

People eating a combination of milk, meat and green-yellow vegetables had the lowest incidence or risk, he said.

The rate of stomach cancer in Japan has started to go down recently, and this may be associated with dramatic changes in the diet, particularly in increased milk consumption, said Dr. Hirayama.

Dr. J.F. Higginson, director of the International Agency for Research on Cancer told of a study in the Kansas City area of the United States trying to pinpoint any particular dietary influence. As with other such studies, no single factor was implicated unequivocally, said. But a possible relationship between cooked fats and stomach cancers could not be ruled out, Dr. Higginson said, suggesting that this be looked into in larger surveys in Western countries.

MARGUERETTE HOLT

ANITA HOLT

Snyderites On Program At Gatesville

Marguerette and Anita Holt, Baylor Univeristy students from Snyder, will appear on a special program tonight at Gatesville for members of the Southern Association of Training Schools.

They will present, through music and narration, the life of Stephen Foster, a program they presented for several service clubs and other organizations in Snyder during the past summer They are the daughters of Mr. and Mrs. Wayland G. Holt.

The program tonight was arranged as a feature during a tour of Gatesville State School for Boys by members of the SATS prior to attending the 15th annual SATS convention in Dallas on Wednesday and Thursday.

Twenty - five superintendents of state training schools from Arkansas, Tennessee, Kentucky, Delaware, North and South Carolina, Alabama and Florida have indicated that they will attend the event. Some 125 state training school employes and their wives, along with Gatesville civic leaders also will attend the program.

Excavations Visited By First Lady

By FRANCES LEWINE

MANILA (AP) — Mrs. Lyndon B. Johnson visited an archeological excavation in Manila today and found it so interesting she made an unscheduled trip to another digging 60 miles away.

The American First Lady flew to Calatagan to look at sites of 14th century Ming discoveries after joining wives of the Manila conference leaders earlier on a tour of the Philippine capital that included a visit to an excavation at an old Spanish churchyard.

At the Church of Santa Ana Mrs. Johnson tried her hand at brushing and working with a small digging tool around the spot where a jar was found.

The first ladies went down into the dirt of a 10-foot archeological excavation amid the bones of men who lived here 12 centuries ago.

A cheering crowd of about 800 jammed the church area and as the first ladies left after a half-hour visit pushed in so tightly the visitors could hardly get through to their air-conditioned bus.

Filipino presidential guards with carbines in their hands walked beside Mrs. Johnson to help Secret Service agents and police get through. She reached out to shake a few hands as she went.

The tour included a look at the walled city built in 1590 by the Spaniards.

The Philippine first lady, Mrs. Ferdinand Marcos, is also a beautification proponent and the restoration of the old walls is one of her projects.

Furr's SUPER MARKETS

NOW OPEN IN SNYDER
With Hundreds & Hundreds
OF
EVERY-DAY, STORE-WIDE
REDUCED FOOD PRICES!

Furr's has REALLY DONE SOMETHING About the Rising Cost of Living

We Have Lowered Costs And Are Passing The Benefit Of

REDUCED PRICES ON TO YOU!

To meet today's conditions, we are looking facts squarely in the face and taking a complete "turn-about" in our store operation to do everything within our power to cut food prices. The original super market was founded on the principal of low operating expenses, volume buying and volume selling on a cash n' carry basis. Modern super markets have strayed from this original concept. We added services (many, many costly) and our operating expenses have increased.

BEGINNING IMMEDIATELY, FURR'S WILL:

(1) Discontinue COSTLY PROMOTIONS such as "Let's Go to the Races." (Our last race will be Thursday, October 27).

(2) Established CONTROLLED CHECK CASHING POLICY service for our customers.

(3) REDUCE STORE HOURS, effective today.

(4) REDUCE advertising costs.

We repeat, these savings will be PASSED ON TO YOU!

These economies PLUS the larger volume of business we expect to do enables us to give these EVERYDAY STORE-WIDE LOW PRICES.

We ask your cooperation in exchange for these savings on your TOTAL FOOD BILL.

At FURR'S You CONTINUE TO RECEIVE

- Money Back Guarantee on all purchases
- Complete selection of National Brands
- Extra Care Service with YOU in mind.
- Freshest Fruits & Vegetables; Best in Meats.
- Frontier Stamps, Double on Wednesdays
- The Kind of Store we feel you want.

NEW LOW PRICES On MEATS, PRODUCE GROCERIES FROZEN FOODS

COME IN TODAY

COMPARE

LAST SHOW OF "LET'S GO TO THE RACES" THIS THURSDAY

NEW STORE HOURS:
9:00-6:30 MON. thru SAT.

Furr's SUPER MARKETS

Ladies Make New Appeal; Plan 'Halloween Rebellion'

MIAMI BEACH, Fla. (AP) — The nation's top food store executives, complaining of declining profits, faced new appeals from housewives today to cut their grocery bills.

"We'll boycott their stores," said Mrs. Charles Lundstrom of Miami, president of the Dade County Consumers' League. "If they don't do something about this, we'll picket their hotel."

As the supermarket executives gathered here for a convention to hear a report that their profits dipped last year, the housewives' protest gained momentum.

In Atlanta, Ga., women formed the "We've Had It Club," and at Rockledge, on the east coast of Florida, they were talking about a "Halloween rebellion."

In Miami and Houston, Tex., boycotts were already in progress.

The industry, on the other hand, contends that profits declined last year. A report prepared by Cornell University and released by the National Association of Food Chains Monday showed that profits were 1.31 per cent of sales, down one-tenth of one per cent from last year's 1.41 level.

"Profiteers indeed!" Seymour D. Simpson, executive vice president of Daitch Shopwell Supermarkets, New York, told some 1,000 executives. "We are working on a profit of less than 1 1-3 per cent. This is not proof of our virtue, but rather of our posture and plight."

"This report," he said in an interview later, "won't go into the head of the housewives. They are very emotional. The logic of our balance sheet does not interest them. They wouldn't even bother to study it."

He also discounted the effects of widespread boycott plans.

"I don't see how anybody in his right mind can reduce prices because of boycotts."

Told of the Cornell study, Mrs. Lundstrom, a 65-year-old widow who said she fought and won her first war against an increase in the price of milk in 1937, said:

"That's not so. I don't believe it. They are building new buildings all over. They have so much money they don't know what to do. That is not so."

Food prices have increased 5.2 per cent since 1960, she said.

She planned to send a delegation to carry the league's appeal to Gordon Bloom, president of the food chains association. She said the delegation would ask removal of trading stamps and prizes which she and other housewives say are responsible for the increase in food prices.

Housewives across the nation began forming clubs to protest what they called steadily rising food prices as well as demanding an end to trading stamps.

Also in Georgia, Decatur housewives started a telephone campaign asking friends to shop at smaller markets and bypass the chain stores.

An official of the Georgia Retail Association, Tom Gregory, said profits are at minimum and high costs should be attributed to the increased cost of production, processing and delivery.

Housewives carried signs reading "Bring Prices Down" and "Don't Shop at This Grocery" in their picket lines, in the Houston area.

Houston chain store officials have agreed that food prices are high but told housewives so are other commodities — and salaries.

One major chain, Furr's Inc., operators of more than 70 grocery stores in the Southwest, announced price cuts of up to 14 per cent. A spokesman for the firm said it would drop expensive promotions.

In Denver, Colo., where it all began, the week-old boycott appeared over. Store officials acknowledged that the women's action started price cuts.

One executive said, however, "I don't know how long the lower prices will continue" if sales volume drops.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — The Tourist Department looks after its crops. And after getting visitors down here to look around, the Department is not about to have them turned back by hotels who oversell space.

Thus we have a $400 fine slapped on hostelries who do not honor their reservations.

And this, says department officials, is only the beginning. Much to the delight of both Mexican and foreign travelers.

The geese who are laying the golden eggs are getting a break. This is a long-standing complaint. You make a reservation and when you arrive, nobody in the hotel ever heard of you.

Some of the hotel operators complained that it should work in reverse. People are forever getting reservations and never show up. Costs them a day on a room, sometimes.

The Tourist Department says people have a right to be people. But hotel operators may not be people. They have to be more humane.

One official of the department suggested the hotels might get their licenses cancelled if they persist in such practices. This does not mean that all are guilty. Just enough to make things interesting.

"However," said the official, "these fellows are going along with what we ask of them now. They are very nice. We only had to fine them once or twice so we have no problem now."

There is nothing like reasoning with a man. It maketh his ambitions lie down like the still waters. It keepeth his cup from running over and lousing up his fresh suit.

These are not the only complaints the Tourist Department looks into.

There are squawks about not enough booze in drinks at bars. And the Department slips some of its lady and gentleman inspectors around to see what goes on with the watering-down business. You never know who is sitting beside you.

A bar charges too much for a shot of joy. Out go the inspectors to check up on things.

And now the Department is seriously considering making bars list not only the price of the drink but the quantity of the booze involved. So authorities can rule more easily on what the customer gets.

Know who runs the fleet of green wagons that move around the highways giving you a hand? The Tourist Department.

And everyone calls these vehicles The Green Angels. They always seem to come along at the right time.

Break down on your way to some place and the simplest thing to do is sit there. A Green Angel will be along in a short while and you can flag him down.

They have mechanics and spare parts of all types. Also, gasoline for absent-minded people like me.

Whatever you need, they fix for the cost of the part. No charge for labor. An all-out bid to make the tourist, both foreign and national, feel at ease.

So remember that the next time you get a letter from a hotel saying you have a reservation. You have it, friend. Or they are out $400 U.S.

PRINCELY PAGE BOY — It's not Little Lord Fauntleroy, but Prince Andrew, the 6-year-old son of Queen Elizabeth II, striding into Westminster Abbey in London to act as page boy at a wedding. His parents also attended. It was the wedding of the Marquis of Hamilton to Miss Sacha Phillips. (AP Wirephoto)

Conductor Named

HOUSTON, Tex. (AP) — Andre Previn has been named by the Houston Symphony Society as its new conductor in chief, to replace Sir John Barbirolli next October. Sir John will remain with the orchestra as conductor emeritus.

Funds Approved For Two Texas Projects

WASHINGTON (AP)— Funds for projects at Gunter and Thorndale, Tex., were announced Monday by the Department of Housing and Urban Development.

Thorndale received a $3,600 loan for planning 24 low-rent houses while Gunter received a $600 loan for planning four low-rent houses.

Range Crops Said Best In Years

AUSTIN (AP) — "The most grass in years" was the way the U. S. Department of Agriculture assessed Texas range conditions today.

The department said in its weekly crop-weather report that range conditions are excellent as ranchers face the coming winter.

Cotton harvest reached 34 per cent last week, closing in on the 39 per cent completion at this time in 1965. Harvest in the blacklands reached 79 per cent.

Wheat seeding reached 87 per cent completion, ahead of the 85 per cent at this time last year.

Sorghum combining also was ahead of the 1965 pace, hitting 83 per cent, compared with 81 per cent a year ago.

Rice second cuttings were at the 27 per cent mark.

Freezing temperatures ended High Plains tomato, cucumber, cantaloup and bell pepper deals.

Seeding of the 1967 onion crop began in the Trans-Pecos.

In the Lower Rio Grande Valley, heavy rains caused minor losses of vegetable acreage. Some replanting was needed for carrots and onions and losses were reported by pepper, tomatoes and beet growers.

Rains improved Lower Valley citrus prospects. Picking of early oranges continued and grapefruit movement has started.

It takes four pounds of grapes to make one pound of raisins.

Hill Country Couple See Land Value Slashed In Half

FREDERICKSBURG, Tex. (AP)—A retired couple living on 53 acres of Hill Country land across the Pedernales River from President Johnson's ranch saw a special commissioners court Monday more than slash in half their valuation of the tract.

The move was the latest development in the controversial effort to establish a 265-acre LBJ Park in the vicinity of the LBJ Ranch.

Earl and Martha Sweeney, who said they bought their acreage in 1960 to retire on, said at a three-man Gillespie County special commissioners hearing that the value of the 53 acres was $152,440.

W. C. Brown, an Austin real estate broker representing the trustees of the proposed LBJ Park, had set the value at $46,000.

The special commissioners evaluated the land at $62,500.

The trustees have bought or had condemned all but 70.5 acres of the needed 265. Of the land so far acquired, all has been obtained for $450 an acre.

A Texas state senator charged 10 days ago that the President's prestige had possibly been used to "blackjack" contributions toward setting up the state park.

Mr. and Mrs. Sweeney have led a two-year fight against land condemnation for the project.

Joe Chapman Jr., San Antonio real estate man who owns most of the other 17.5 acres not yet acquired, said he would sell his land, but only at a profit.

"If Lyndon Johnson craves my land as much as he appears to, I will sell same at a profit either to him or his agents," he said in a prepared statement handed to newsmen while he was waiting to testify at the hearing.

"As for gifts from me, he does not get the time of day," Chapman added.

"The sole purpose of this peculiar park is to serve as a buffer zone to keep people out and not let them in," he said.

Nov. 15 has been set as the hearing date for proceedings at which Mr. and Mrs. Sweeney hope to secure a District Court injunction against further condemnation of the land.

Neither side indicated Monday whether they would appeal the session's results to county court.

Mrs. Sweeney testified that, after her husband looked at the 53 acres in 1960, he told her:

"That's just what we have been looking for."

Texas Production Steady Last Week

TULSA, Okla. (AP)— The Oil and Gas Journal reported today that crude oil and lease condensate production increased an average of 18,200 barrels per day last week, hitting 8,271,900 daily.

Output was unchanged in Texas at 2,840,900 barrels a day, Louisiana at 1,868,5; and New Mexico at 339,400, while Oklahoma gained 25,100 daily to 629,400.

An earthquake in Shensi, China, on January 24, 1556, killed 830,000 people.
