Four Rural Accidents Reported In March

The Highway Patrol investigated four rural accidents in Knox County during the month of March according to Sergeant Frank Jircik, Patrol Supervisor of this area.

These wrecks accounted for two persons injured and an estimated property damage of \$3,525.00.

The rural traffic accident summary for Knox County from January through March of 1963 shows a total of 12 crashes resulting in no persons killed, 6 persons injured and an estimated property damage of \$11,180.

Each year, with the coming of April, it seems natural for motorists to want to get back out on the highway and enjoy the invigorating atmosphere and colorful countryside. Many of these motorists are apt to forget that increased violations of traffic laws play a vital role in the annual traffic accident toll.

The motorist should realize that highway travel multiplies by leaps and bounds in April. The Sergeant stated, "What better time than now to remind motorists, pedestrians, and all street and highway users about the importance of knowing and obeying traffic laws."
