Last year the Ranger Band missed the Sweepstakes Award by a narrow margin, and director B. D. Walker was determined to win the top honor this year.

In addition to the top honors for the band, the Perryton twirlers dominated that field, capturing 13 first place medals of the 23 that were given during the entire meet.

First place awards for twirling went to Phyllis Vernon, Sydney Slack, Kayleen Schnell, Janye Todd, Glenda McGibbon and Joy Clark in individual competition.

Twirling duets winning superior ratings were Phyllis Vernon and Sydney Slack; Janye Todd and Glenda McGibbon; Kayleen Schnell and Dixie Conley.

Jerry Conner, Ranger Band student director, won the first place award for directing.

Band honors did not stop with the Ranger Band. On Friday, the Perryton junior high band won superior rating in concert. Their marching contest was rained out and no awards were given.

Precise Resigns As Principal, Will Go to Denton

Kenneth Precise, a member of the Perryton school faculty since the fall of 1947, has resigned, effective at the end of the school term.

He and Mrs. Precise will move to Denton, where he will become local agent for the Southwestern Life Insurance Co.

Precise has been principal of the Perryton elementary school since 1948, and held down the post of junior high and elementary school principal until the jobs were divided three years ago.

He is a graduate of Bowie high school and holds both his bachelor and master's degree from North Texas State College.

Mrs. Precise has also been a member of the faculty since they came to Perryton in 1947. She is a graduate of North Texas State College and has served this year as senior class sponsor and school librarian.

Mr. and Mrs. Precise plan to leave Perryton soon after the school term ends on May 20.

400 Club Plans New Drive for More Members

Officers and directors of The 400 Club will meet at the Chamber of Commerce office tonight, Thursday, to plan a new membership drive for the organization.

It has been voted to make the next project the completion of the east end of the Veterans Memorial Building auditorium and to put in the stage and dressing rooms.

Membership in the club is down, due in part to members having moved away, according to John Mayfield, secretary-treasurer.

The 400 Club has spent $4,679.61 at the Veterans Memorial Building since the club was organized two years ago.

Officers of the club for the current year are Walter LaMaster, president; J. H. Stephenson, Jr., first vice president; O. R. Truax, second vice president; Mayfield, secretary-treasurer.

Directors are the current presidents of 17 local civic clubs and organizations.

Wheat Deadline Set for May 20

Ochiltree county wheat growers have until May 20 to get in compliance with their 1955 wheat crop acreage allotment. By that time, according to Jim Latham, chairman of the county ASC committee, the grower must dispose of his excess wheat so that it cannot be harvested for grain or the wheat will not be eligible for price support and the excess wheat will be subject to a marketing quota penalty.

Growers with excess wheat have been notified of their excess acreage and advised as to how the excess acreage may be disposed of to get into compliance. By this time the excess acreage

Bill Lance Is Lion President

W. H. Lance was named president of the Perryton Lions Club Tuesday as officers for the coming year were elected. Officers will be installed July 1. Coke Harlow, president announced.

Irvin Hergert will serve as vice president, Rev. Alvin Klotz as second vice president and Elliott Lee as third vice president. A. P. Spicer was re-elected secretary-treasurer.

Don Thurman will serve as Liontamer and Dude Hart was nominated for the Tailtwister job.

New directors are: Coke Harlow, chariman; Hank Cornelsen, Jud Skaggs and C. A. Sooter.

Prize Play to Be Presented by Speech Classes

The Perryton speech classes will present "I Remember Mama," the prize winning play by John Van Druten, in the school auditorium on Thursday night, May 12, at 8 o'clock.

The play is under the direction of Mrs. Rose Powell.

A cutting of this play won first place in the district one-act play contest and four members of the cast won best actor and actress awards. These four were Barbara Powell, Danny Myers, Larry Watson and Marilyn Reitz.

Members of the cast include these four and Ann Portwood, Connie Edwards, Bill Farrington, Clova Castlebury, Kayleen Schnell, Carla Blackmore, Bill Thrasher, Shirley Stone, Charles Erickson, Wayne Blackley, James Reiswig, Jerry Wilmot, Geraldine Parker, Linda Skaggs and Grace O'Brien.

Too Late, Too Late Says Labor Office

The rains which fell over most of Ochiltree county this week came too late to do much good for the wheat crop, according to the current Farm Labor Bulletin issued by the Texas Employment Commission office in Amarillo. The labor bulletin has this to say about crop prospects in this area: "Reports indicate for all practical purposes, this year's crop can be written off due to dry weather, high winds, and blowing dust. Even the 25,000 acres of irrigated wheat in the area has been severely damaged by green bugs and late freeze." Anybody interested in planting grain sorghum?

School Chorus Annual Concert Set for Monday

Bob Irby, Perryton school chorus director, wil present the junior high and senior high choruses in concert on Monday night, May 9, at the school auditorium, with the program scheduled to begin at 8 o'clock.

The junior high chorus consists of 75 members, and they won a superior rating in the district chorus contests this year. The chorus members will wear their new choir robes which were made by members of the Jennie June Club.

The senior high chorus, consisting of 50 voices, won a superior rating in sight reading and excellent in concert at the district contest.

There will be solos and a number of ensembles presented on the program, Irby said. The public is cordially invited to attend.

Turk Student to Visit Ochiltree County May 22

Ramazan Atil, a native of Turkey, is due to arrive in Ochiltree county on May 22 for a two month period of study under the International Farm Youth Exchange program. This is the same program that will send Ochiltree county 4-H boy Cecil Regier to Iran for four months.

Atil is to stay in this county until July 31, 1955. He will live with various farm families and the program is designed to let him learn about farming methods in this area by actually working on the farm with the families with whom he lives.

He is 26 years of age and has lived on a 3700 acre farm all his life. Major crops on the family farm are cotton, 2,000 acres; wheat, 1,000 acres; barley, 200 acres; and oats, 250 acres. The Atil farm has 42 cows, 2 bulls, and 100 sheep and the work is done with 10 tractors and accompanying equipment.

Delbert Timmons, county agent, said Atil's application form indicated that he was especially interested in the Extension Service and 4-H Club work. The strong 4-H Club program in Ochiltree county is one reason why

County Gets Over Inch Of Moisture

The first rainfall in any significant amount in nearly seven months fell in the Perryton area during the past week, bringing smiles to faces of farmers and businessmen alike, even though the rains came too late to be of much benefit to the 1955 wheat crop.

Enough rain fell, however, to aid some fields of wheat, and the prospects for grain sorghum planting are improved, although the ground is still too dry in most parts of this area for much enthusiasm about spring planting.

The official gauge of Judge Jack Allen measured a total of 1.16 inches during the period from Friday through Monday. A total of .62 inch fell Friday; .24 inch Sunday; another .30 inch Monday.

The rainfall was spotted, with a belt about six miles south of Perryton receiving a deluge Friday afternoon. The rain was measured at 3 inches at the Ben Graham place, but since the rain fell so hard and fast, there was considerable run-off.

The southeast part of the county received good rains during the period, and the Waka area had in excess of an inch. The rain was lighter to the north, with the northwest part of Ochiltree county nearly missed. The northeast part of the county and most of Beaver county received only light showers.

The rainfall was general over the Plains, with the Sunray and Morse areas reporting totals up to seven inches during the three day period.

Phil LaMaster Elected Head Of VFW Post

New commander of the Tri-County Post, Veterans of Foreign Wars, is Phil LaMaster, who was elected at the regular Tuesday meeting. He succeeds Harris Russell, who has served for the past year.

Senior vice commander is Raymond McCurdy and junior vice commander is Allen Good. C. C. Bull was elected quartermaster and Pete LaMaster was named judge advocate.

Elza Kutch is the chaplain; Cyril Frommelt the surgeon; Billy Combs, trustee. Holdover trustees are Robert Holland and Rolland Shearer.

UNUSUAL SIGHT—For the first time in several years, the Ochiltree schoolhouse was surrounded by water Saturday morning following heavy rains in the area about seven miles south of town Friday afternoon. Rain was measured at 3 inches at this spot, and varying amounts fell over the Perryton area.

Crowd Estimated at 2,500 for Canadian Bridge Dedication

A crowd estimated at 2,500 persons attended the dedication of the Canadian River bridge on Highway 70 Friday afternoon. The visitors were served barbecue, heard chairman E. H. Thornton, Jr., of the Texas Highway Commission and other speakers, then witnessed the ribbon cutting ceremony which officially opened the bridge.

The ceremony was held at the north end of the bridge. The barbecue was served by volunteers from Ochiltree, Gray and Roberts counties.

Music was provided by the Amarillo Air Force band and the Pampa junior high school band.

Fred Thompson of Pampa presided at the meeting. Rev. Keith McCormick of Perryton gave the invocation and Max Boyer of Perryton introduced the platform guests. These platform guests were people identified with the 16-year struggle to get the road completed.

Greetings from the three counties were extended by the three county judges of Ochiltree, Roberts and Gray counties. Howard Slaughter of Ochiltree county said that the bridge is more than just a connecting link on Highway 70, as it is a tribute to the spirit of cooperation displayed by the citizens of the three counties.

Following the recognition of state highway officials by Hon. Marshall Formby, state highway commissioner, Frank Culberson of Pampa introduced Hon. E. H. Thornton, Jr., chairman of the State Highway Commission, who gave the main address. Thornton paid tribute to the cooperative spirit of the three counties in allocating their farm-to-mar-

Road-e-o Is Set For May 19 at School Grounds

The second annual Teen-Age Road-e-o, sponsored by the Perryton Jaycees, will be conducted on Thursday, May 19. The Road-e-o will consist of a written examination and a skill test involving driving through prescribed exercises such as parking, smooth stopping and others.

The local winner in this national Jaycee contest will be eligible to compete in the state Road-e-o in June, at Austin. State winners compete for $3,000 in scholarship in a national contest July 25-29 in Washington, D. C.

Richard Wilson won the event in Perryton last year.

Sammy Phelps is general chairman of the Road-e-o, assisted by Jim Wright, J. J. Keim, G. K. Rupprecht, Harold Hudson, Bob Lemon, Herschel Jamison, Bob Black, Keith Flowers, Bruce Baumann, Jim Dunlavy, Joe Cox, Harold Littau, Dale McLain, Mart Farrow, Phil Daley, Max McLarty.

The driving course will be laid out at the sshool grounds. The written test will be given that morning, and those who qualify on the written test will be allowed to take the driving test.

Applications are being received by any of the Jaycee committee members, and by Herschel Jamison, school driver education teacher.

Blue Sox Open Season Sunday

The Perryton Blue Sox will play their opening game of the season at the local ball park Sunday afternoon, meeting the Follett team.

The game will begin at 2:30 p. m. Admission is 50 cents for adults and 25 cents for students.

Bobby Dear will open on the mound for the Blue Sox and Bill Farrington will be the catcher. Dear, a star of the Blue Sox two years ago, mised the past two seasons while in the Army but pitched for some strong service clubs.

Follett has played one game, with Darrouzett, and we are expected to have another fine team this year, according to Blue Sox manager Bill Richardson.

Irrigation Meet Here On May 13

Farmers of the Perryton area are reminded by county agent Delbert Timmons of the irrigation meeting scheduled in the district courtroom on Friday, May 13.

Emphasis will be laid on soil fertility at this meeting, Timmons said. The meeting is scheduled to begin at 10 a. m.

Ben Spears, agronomist for the Extension Service, will speak on soil conservation under irrigation and Dr. W. O. Trogdon will speak about commercial fertilizers.

Concert Drive Shows Decline

The North Plains Concert Association showed a lower membership at the conclusion of the annual drive Saturday. There were 325 members in the association at the end of the drive, compared with more than 500 members last year.

J. W. Erickson, retiring president of the association, said that most of the drop in membership was the loss in out-of-town members from Beaver, Follett, Darrouzett and Booker.

Three concerts were booked for the fall and winter season, and the three that led the list in member balloting were secured for the concert season.

These include Loren Driscoll, lyric tenor, for November; Jeanene Davis, pianist, for March; and The Knickerbockers, mixed quartet, for next April.

The presentation was made Wednesday at the Jaycee meeting. Above, left to right, are C. of C. president Louis Bryan; Rogers; and C. A. Sooter chairman of the Retail Merchants Committee.

Equity Annual Meeting Set for May 12 at Memorial Building

The annual meeting of the Equity will be held Thursday, May 12, at the Veterans Memorial Building, and a crowd of more than 2,000 persons are expected. The meeting will begin at 10 a. m. and there will be a free lunch at noon.

The major items of business will be the financial report, election of directors, and an address by Glen Draper, president of the Union Equity Cooperative Exchange of Enid.

Voting for directors will be by ballot. Nominations will be made at 10:30 a. m. and voting will close at 3 p. m.

There will be several valuable door prizes given away, including a television set.

Net earnings of the Equity totaled $237,059.49 at all stations this year, and the cooperative received another $86,926.97 in patronage refunds from the Union Equity, Producers Grain Corporation and Producers Cooperative Oil Mill. This made the net earnings before income tax $323,986.46.

Federal income tax was $54,384.01 and Oklahoma income tax was $425.44, a total of $54,809.45. After these taxes, the total net earnings were $269,177.01.

This is triple the amount of earnings a year ago, $74,667.17, and more than the 1953 earnings of $75,964.09.

The Equity has interest on stock payable amounting to $33,859.72 and patronage refunds payable totaling $208,399.47, a total of $242,259.19 payable to members of the concern this year.

Total sales during 1954 were $5,335,741.81, making this the largest business institution in this area. Storage space has grown from 5,000 bushels in 1926 to 3,500,000 bushels today with the completion of the new Twichell sub terminal elevator.

A GIRL AND A GOB—Debbie Reynolds and Russ Tamblyn form one of three stellar romantic teams in "Hit the Deck" that opens at the Ellis Theatre, May 10. The musical is filmed in color and Cinemascope.

Hopper Meet is Set for Today

Ranchers of the Wolf Creek agea are invited to a grasshopper control meeting to be held at the Alfalfa school house on Thursday, May 5.

Fred Reese of Amarillo, entomologist for the USDA, will explain the program for spraying for grasshoppers on range land.

The grasshopper infestation is quite bad in the southeastern part of the county, and especially along Wolf Creek, according to county agent Delbert Timmons.

He Started Own Paper When He Needed A Job

AP Newsfeatures

FREMONT, Neb. —When journalism student Paul Bunge couldn't find the kind of a newspaper job he wanted to earn his way through school he started a paper of his own.

Now the 20-year-old Midland College junior is editor and publisher of the Arlington Citizen, a four-page weekly which goes to some 1,100 homes in the nearby Arlington area.

Bunge is his own news writer, advertising solicitor and shop foreman. He hires a part-time printer and his wife, Nadine, pitches in to fold and mail the papers and keep books.

"Running the Citizen and doin my school work keeps me hustling," Bunge admits, but he's been able to maintain a B-plus average in his studies just the same.

Bunge got his first newspaper experience while he was in high school at Auburn, Neb., working for the Nemaha County Herald.

"I think the weekly newspaper has an important place in the life of any rural community," he says, and he intends to make it a full-time job when he graduates.

WORKING HIS WAY through college, Paul Bunge has become publisher of his own paper.

More Printers Sought

DETROIT (AP)—A steadily increasing shortage of skilled journeymen is causing serious concern to the printing industry. A report to the Printing Industry of America indicated that the ratio of apprentices in the industry should be 1 to 5 but is only 1 to 10. The report showed that 23 per cent of the workers in the unionized commercial printing and lithographing industries are older than 55, and that 30 per cent will leave the industry in the next 10 years.

will do the majority of the construction on the new school under the supervision of a competent director. Two-hundred and sixty-five tons of Colorado red stone have already been brought to the ranch from Longmont, Colo. It is being brought to the Ranch by the Denver-Amarillo Express without charge. The building will be of the same stone and style as the housing unit completed by the boys 2½ years ago.

The Peace Officers of America have formed an organization for the purpose of helping the Ranch to build the new school and it will be called the Peace Officers of America School. The citizens of Plainview and Tulia, Texas, are building two classrooms to be known as the Plainview and Tulia rooms and a group of businessmen in Houston, Texas, have formed a Shirt Tail Club in order to build another classroom. Their idea came from the Boys' Ranch slogan, "Furnishing Boys A Shirt Tail to Hang Onto."

It is necessary that Boys' Ranch have its own school because it is not a public school and the majority of the boys have been out of school from one to three years when the Ranch takes them. The teachers live right at the Ranch and work with the boys to give them extra time and help.

The total cost for the building will be $200,000 fully equipped and although all funds have not been raised, the Ranch will build as far as possible and is hoping that it can be completed by the fall term of next year.

Concert Trio Is Highlight Of Season

By Rev. Alvin Klotz

Last concert of the 1955 season was the performance of the Concert Trio, consisting of two piano accordians and a string bass, in a presentation of a varied program of music.

Probably there is a higher rate of mortality among accordian players than most any other instrument. This instrument, of very modern origin, as musical instruments go, has a particular appeal for the budding musician for a number of reasons. For one thing, it makes relatively simple music sound reasonably good, though indeed, with plenty of oom-pah attached.

Then too, there is a dramatic flair about a piano accordian that is hard to resist. All the maneuvering of bellows plus the combination of tab stops and keys in beautiful colors makes a flashy instrument that would attract most anyone. But most accordionists fail to become more than an oom-pah player, for it takes practice and lots of it to achieve artistry on an accordian as well as the oboe, piano, or what have you.

Bill Palmer and Bill Hughes have reached the stage of real artistry as accordionists. Linked up with Len Manno, who played a souped-up (or down, as the case might be) version of a bass viol they developed a teamwork which produced a wonderful evening of entertainment. Manno's contrabass, with the aid of his own invention could go down an additional four notes beyond the conventional bass viol. He too was an artist in his own right, as evidenced in playing of the "Figaro" solo on his viol.

Probably the finest part of the program were the moody, tone poem type of numbers in which the group really played as a trio. In this group would be a lovely Jewish Hymn of Praise by Gaul, an impressionistic Debussy number, and a lovely pastorale written as part of a suite especially for the concert trio.

The program was in no way a conventional program of music for the piano accordian. This group is pioneering in their effort to convince composers and audiences alike that the accordian is capable of doing genuinely serious music. So, except for a very few numbers at the close of the program, the music listed consisted of names like Bach, Brahms, Bizet and other of the great classicists.

Probably the highlight of the program was the really dramatic and colorful playing of Maleguena in abbreviated form. In this one all the stops were pulled and the result was a real capitalizing on all of the spectacular traits that a piano accordian can produce.

Personally, I would class the Concert Trio as the best I've seen in terms of a concert with a popular appeal but a classic touch. Summing it up: If you missed this one you missed the whole season.

TALKING IT OVER—E. H. Thornton, Jr., second from left, talks highways with several Perryton men at the open house held for the highway commission at the Hotel Coffee Shop Friday afternoon. At the left is city councilman Gordon Shackelford. Third from left is County Judge Howard Slaughter and at the right is Mayor Drew Ellis.

President Of Funeral Directors

Alton Boxwell of Perryton was elected president of the Panhandle Funeral Directors Association at the annual meeting last week. He had previously served as secretary and vice president of the organization.

The Panhandle association extends south to Lubbock and takes in some New Mexico firms.

Boxwell and his brother, Howard Boxwell of Amarillo, will attend the state convention of the Texas Funeral Directors Assn. in San Antonio next week.

Punch-line to the year's hottest power story—

Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stopwatches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chevrolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super *Turbo-Fire V8*" *(optional at extra cost) puts 180 h.p. under your toe!*

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!

HE PEOPLE OF THE 18TH ICT:

Farm Situation Continues Troublesome

no one be misled about the s of the farm situation on neral economy. The plight of the farmer is beginning to be felt in many other segments of American life. In our particular section of the country the farmer has been fighting drought conditions for four years. In many instances it is a miracle he has survived. Yet, with full knowledge of the plight of the people, in the drought area, the Department of Agriculture has placed three additional heavy burdens on his back:

FIRST: The rug was jerked out from under him when the grain sorghum price supports were reduced by 15%, the greatest reduction ever visited upon these people. Grain sorghum has been the cash crop of the Panhandle, and in addition has kept much of the land from blowing.

SECOND: The interest rates of particular government loans were increased from 3% to 5%. These were interest rates on money that was being borrowed by farmers to keep their operations going, to keep their children fed and housed, and to remain on the farm where they were raised. It might be noted that many big businesses are being allowed to finance themselves through the government at considerably less than 5%. I ask why a man in distress should be further distressed by such an unconscionable policy.

THIRD: The Farmers Home Administration is being "re-organized." Many here in Washington feel that this is a shoddy political action done for the purpose of creating jobs for party faithfuls and kicking out present employees. It certainly is not being done for economy as was reported by some in the Department. The cost of operation in Texas alone will be an additional $40,000 a year, according to a conservative estimate by an official of the Farmers Home Administration.

Men who have been with that department in the field for a long time and who are in position to expedite the administration of the loans are being downgraded, both in position and salary. There are several other ways to make a man quit in some departments, one being to move him to Alaska; that is, give him his choice of going to Alaska or quitting. The opinion has been voiced here that the so-called "re-organization" is a sordid attempt to gain economic control of many of the small farmers for political reasons. My mail indicates that the farmers generally are very much upset about the situation.

And to add to these blights, nature again punishes us for misuse of the soil by visiting dust storms upon us. These are problems that cannot be answered by funny pictures of a man with an open umbrella leaving Washington for the drought area. The situation has ceased to be humorous, and it is time that the farmers of this section received more beneficial action and less talk.

Boys Ranch Has Lion Program

Sherman Harrison, Jr., assistant manager of Boys' Ranch brought the program to Lions Club Tuesday in the form of two Ranchers, David Ash and Dick Mayott, who sang several songs and thoroughly entertained the Lions.

Harrison then showed a colored film, telling the story of Boys' Ranch. The program was arranged by Sheriff Ray Phagan, who told of the drive being made by the United Peace Officers of America to raise money for a new school building at Boys' Ranch.

Marriage Rules

PITTSBURGH, Pa. (AP)—Married men may annoy their wives, according to a ruling by Judge Anne X. Alpern. Judge Alpern ordered John Chara, 44, to keep away from his divorced wife. Mrs. Chara complained her former spouse kept calling her on the telephone and she objected to some of his remarks.

Judge Alpern, who is married, told Chara:

"You can annoy your wife if you're married to her but not if you're divorced!"

Rent Typewriters—Stewarts

Free Drinks Assailed

LANSING, Mich. (AP)—There is too much free liquor flowing in Michigan to suit some of the state legislators. A bill has been introduced forbidding any manufacturer, warehouseman or wholesaler of liquor to give away more than 48 half pints a month as samples.

An audit of the state liquor control commission showed that more than 30,000 bottles of liquor were given away by salesmen last year.

Chores Needed

LITTLE ROCK (AP)—An optometrist believes modern children are handicapped in learning because they don't get the opportunity to "do things around the house and outside. There isn't a single top-flight mathematician in this country who is city-born and bred," says Dr. A. M. Skeffington of St. Louis. "You need a proper concept of time and space to be a top mathematician."

Skeffington told Arkansas optometrists that too much emphasis has been placed on 20-20 vision, adding:

"A chimpanzee with 20-20 vision isn't the equal of a man."

Cadillac

Class of 1985 !

It would take a long time to determine who won the bet—but we'd be willing to wager that the lad in the picture winds up owning a Cadillac!

We feel so confident because he is starting out like a typical Cadillac owner.

Preponderately, Cadillac owners are self-made men. They just emerge—from everywhere.

But they are usually marked, quite early in life, by industry and thrift and the will to succeed.

That's why we say that this wonderful lad—out earning money to make himself self-sufficient—is very likely to wind up owning a Cadillac. Looking at him, as he labors, we estimate the class of 1985!

We hope we are around to deliver his car when the great day arrives—for it's a great thrill to hand out the keys when an owner comes in for his first Cadillac.

It's worth a lot to see the smile on his face and the gleam in his eye as he settles himself behind the wheel—studies the instrument panel to make sure of the controls—and floats away in the direction of home and a family celebration.

* * *

Of course, for the lad in the picture, the thrill of that first Cadillac is still a great many years away.

But how about *you?* Is the time coming close for *your* dream of a Cadillac to come to a happy ending? If so, we'd be happy—indeed—to see you.

This is a wonderful year for owning a new Cadillac—whether it's your first or your fifth or your tenth. Never before has Cadillac performance been so marvelous—its beauty so arresting—its comfort and handling ease so delightful. It is more decisively than ever—the Standard of the World!

Why not come in today—and check this for yourself? We'll give you the keys and a car—for the most revealing hour you ever spent in a motor car.

Dangerous Goose

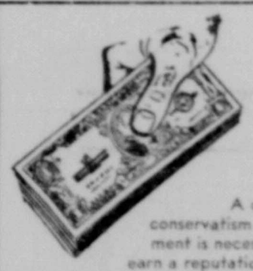

ADA, Okla. (AP)—Bernard Baranaski, 54, is in a hospital with a fractured hip, but he hates to admit he was injured by a goose. A circus worker, he is quick to add it was a big goose—a 15-foot model.

He was driving a six-hitch team of ponies pulling the Mother Goose float. He turned the team suddenly to avoid hitting a woman and the float struck a bale of hay. The goose fell on him.

Old Hat

JACKSONVILLE, Ill. (AP)—Edgar Spires says his black beaver hat is as good as new despite its 82 years. He has attracted considerable attention about town by wearing it.

First bought in 1872, it has been in the family for four generations.

Shortcut for Inserting Zippers

By Dorothy Roe
Associated Press Women's Editor

Even experienced home seamstresses sometimes run into trouble when it comes to doing a smooth, professional job of inserting a zipper.

Pinning and basting a zipper before stitching takes time. Here is a suggestion to speed up zipper insertion, using transparent cellophane tape to hold the zipper in place, instead of pins or basting threads.

The technique is simple. First, run a strip of tape along the right side of your opened seam to hold the edges firmly together (with raw edges turned in along the seam line, of course). Second, turn the fabric and place the zipper along seam line on wrong side of fabric, securing with several crosswise strips of tape. Third, using the zipper foot on your sewing machine, stitch the zipper on the right side, stitching right over the tape. Peel off the tape, and presto—a perfect placket.

Besides speed, there are several good reasons for securing zippers with cellophane tape. Since there is so little handling of the fabric, the seams do not get stretched and the zipper will not pull out of shape. When the zipper is stitched, it lies flat and smooth. With this technique, it's simple to insert a zipper even in such difficult fabrics as satin or velvet.

Local sewing center experts remind you to be careful about selecting the right zipper for your purpose. Zippers come in lengths from 4 to 36 inches, suitable for anything from a dainty blouse to a heavy lumber jacket. Be sure you have a swatch of your fabric along when you buy your zipper, to be sure of perfect color match in zipper and thread.

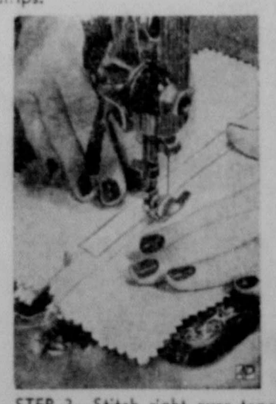

There are other uses for cellophane tape in your sewing room too. Use a piece to secure the loose end of thread on a spool. Use it to hold together leftover scraps of fabric. Use it instead of pins in any fabric where pin holes will show. Use it too, instead of basting plastics, where a pin hole may cause the plastic to tear. And, after a sewing session, use it wrapped wrong side out around your hand to remove bits of thread and lint from your clothes.

ZIPPER TRICK STEP 1—Paste a strip of cellophane tape along right side of opened seam, raw edges in.

STEP 2—Place zipper along seam line on wrong side of fabric and secure with crosswise tape strips.

STEP 3—Stitch right over tape on right side of fabric, using machine ziper foot. Peel off tape.

Tears Solve Emergency

RICHMOND, Va. (AP)—An emergency dash from south Virginia via Roanoke Rapids, N. C., came to a happy ending with a rush of tears in a hospital elevator here.

C. C. Jones Jr., 3, choked on a peanut and was rushed to Roanoke Rapids. At a hospital there the peanut was spotted in the boy's lung. C. C. was sped to Richmond, where there was better equipment to remove it.

As the hospital elevator moved up, the child recalled in terror. With his fright came tears. With the crying came coughing. And with the coughing—the peanut.

Identification!

OKLAHOMA CITY (AP)—Eleven-year-old Gary Haskins, on a visitor's tour of the jail, got his fingerprints taken. After the prints were recorded, Gary commented: "Now I'll get stuck for every crime committeed around the house."

Tent Revival Opens Wednesday

Russell B. Park of San Antonio, an evangelist of "The Voice of Healing" fellowship begins one of the world-wide Salvation and Divine Healing revivals at the big tent cathedral on South Main, beginning Wednesday, May 11 and continuing through May 31.

The revival, open to people of all churches, is sponsored by the Trinity Apostolic Faith churches, the organization with whom the evangelist is associated. The tent revival is cooperating with services of The People's Chapel and Assembly of God in Perryton.

Tommy Pletcher of Perryton is a member of the Park Evangelistic party, and will be heard each night at 7:15 o'clock.

The Voice of Healing fellowship, a world-wide salvation and divine healing revival, is composed of evangelists of many denominations who are engaged in union revivals.

Mrs. Robert E. Goff, Cathy Ann and Robby of Long Island, N. Y. and her sister, Mrs. Bill Terminello and son Billy of New York, N. Y. arrived in Perryton Thursday. Mrs. Goff and children will visit in the A. V. Goff home and Mrs. Terminello and son will visit her aunt, Mrs. R. B. Orrill.

Reds Try Jazz

VIENNA, Austria (AP) — The Communist rulers of Poland have bowed to western-style jazz music, Red newspapers received in Vienna reveal.

"The discrimination against jazz music is over," Warsaw's Zycie Warszawy announced. At the same time, the paper assumed the sponsorship of four jazz concerts in the Polish capital.

But the Communists are not admitting their change of heart in good grace.

"Jazz music is not simly Negro music with wild rhythms," one Red newspaper wrote, "but rather it is the music of American Negroes, who are people threatened with mass murder and longing for freedom.

'Jazz must therefore be considered something like a social bill of indictment against the American rulers," the paper said.

Other papers gave what apparently is the real reason for the permission for jazz. "Our youths are not content with only political songs or music depicting the progress of the working class, they also want music which amuses them," one paper said.

Rotary Fire Fighter

GOVERNMENT CAMP, Ore. (AP) —A state highway department rotary snow plow was pressed into service for fighting a hotel fire at this resort high on the slopes of Mt. Hood.

The hotel burned down but the plume of snow played by the road clearing vehicle helped keep the flames from spreading to other buildings.

A combination of freezing nights and thawing days is needed to stimulate sugar maple trees to produce sap.

MOTHER PRAYS FOR BLIND TRIPLETS TO SEE AGAIN—This little West Texas town, Hart, Tex., burst with pride when its first triplets—Don, Lon and Jon Sitton—were born 9 months ago and then turned to sorrow when it learned they were blind. Nobody has given the parents, Mr. and Mrs. Frank Sitton, much hope that the boys will ever see normally. Doctors say the triplets were afflicted with a disease of the blood vessels found mostly in premature infants. "But I haven't lost hope", said Mrs. Sitton, shown above with the boys. "I keep praying." Because they are blind, their sense of balance is not yet to acute and they can't sit alone. Otherwise they are husky and frisky. (AP Wirephoto)

Wedding Vows Are Solemnized For Miss Baxendale and Mr. Graves

Wedding vows were read Saturday morning, April 23, in the Cathedral of the Sacred Heart in Salina, Kansas for Miss Mary Rita Baxendale and Donald Wayne Graves of Liberal, Kansas.

The bride is the daughter of Mr. and Mrs. G. E. Baxendale of Salina. Mr. Graves is the son of Mr. and Mrs. J. A. Graves, 605 South Grinnell, and the grandson of Mr. and Mrs. F. E. Battin, 816 South Ash.

The Reverend Richard Eilert read the ceremony at 9 o'clock. Baskets of white gladioli decorated the altar for the occasion.

Miss Mary Nichols played a program of nuptial selections and accompanied Mrs. N. V. Napier, soloist.

Given in marriage by her, father, the bride wore a floor-length gown of white nylon tulle, with a floral pattern of Schifili embroidery, over satin. The basque bodice was fashioned with a net yoke, small pointed collar and long fitted sleeves ending in points over the hands.

Her circular veil of imported silk illusion fell from a half-hat of braided tulle trimmed with seed pearls and iridescents. She carried the bridegroom's gift, a white prayer book, topped with a bouquet of red roses.

Miss Bernadine Baxendale of Russell, Kansas, attended her sister as maid of honor. She wore a ballerina-length dress of aqua crystalatte with matching hat and shoes and carried a colonial bouquet of yellow carnations.

The bride's twin brother, Robert Baxendale, attended Mr. Graves as best man.

Ushers were James Baxendale of Russell, Kans., brother of the bride and E. L. Graves of Liberal, brother of the bridegroom.

For her daughter's wedding Mrs. Baxendale chose a black dress and white accessories. Mrs. Graves, the bridegroom's mother, wore a navy blue dress and white accessories. Their corsages were of white carnations.

Miss Elaine Graves of Abilene, sister of the bridegroom, made pictures during the wedding.

Following the ceremony guests were received in the Coronado Room of the Lamar Hotel.

Mrs. James Baxendale registered the guests. Miss Graves played piano selections.

The bride's table was laid with a white linen cloth and decorated with white gladioli. Assisting at the table were Miss Graves, Miss Joan Fitzwater of Salina and Mrs. James Baxendale.

The bride, a graduate of Sacred Heart high school, attended Marymount College. She has been employed by Western Star Mills.

Mr. Graves graduated from Perryton high school with the class of 1949. He attended Oklahoma University at Norman and served in the United States Air Force four years. He served two years at Okinawa. His is employed with the Hood Chevrolet Inc. in Liberal.

After a wedding trip to Mexico City the couple will be at home at 803 North Lincoln Street in Liberal.

For travel Mrs. Graves selected a gold faille, two-piece dress and brown accessories. Her corsage was of red roses.

Among the out-of-town guests at the wedding were Mr. and Mrs. F. E. Battin, Mrs. J. A. Graves and Myron Schroeder of Perryton, Miss Elaine Graves of Abilene and Mr. and Mrs. E. L. Graves of Liberal.

Artist Marvin Moon Honored With Special College Exhbit

CANYON, May 2, (Special)—An artist's progress through four years in college was viewed Sunday when Marvin Moon, Perryton senior, was honored in a one-man show at the opening of exhibits for West Texas State College's first "Festival of the Arts."

Moon's works, including some sculpture and ceramics and about 80 paintings, were displayed in the WT library during the festival. His show will be displayed after May 7 at Amarillo Center, 2101 Harrison, in Amarillo, for a week. A number of traveling exhibits, works of WT's art faculty members, and alumni was also exhibited in the libary, cafeteria and Panhandle-Plains Historical Museum.

Opening event of the Festival was a dinner at 7:30 p. m. Saturday in the cafeteria, when Dr. E. William Doty, University of Texas fine arts college dean, spoke. A recital by Miss Matilda Gaume, pianist, and Royal Brantley, baritone, both assistant professors of music, was held Sunday in the Administration Building auditorium.

A reception for festival guests Sunday at 5 p. m. in the library set the stage for the art exhibits. Moon was honored at the reception, and his works were on display on the library's second floor.

After experimenting in several media, Moon, who has drawn "since I can remember," and has painted about six years, has found himself particularly at home in oils and water colors. His main approach to painting has been through design, symbolism and mood, and he has atteptemd to express these thru use of vaying color.

"I've tried to be influenced as little as posible by the masters or even by my professors here," he said. "It is hard to describe one's style, but I suppose mine would be called contemporary, which really doesn't mean much. It is not 'modern art' as the term usually is defined by most people."

Moon has dealt with people mostly in his painting, because he finds people more expressive than landscapes. Through his work he said he tried to achieve realism through a somewhat exaggerated perspective. Many of his paintings are about college or dormitory life, and he has used his classmates as models rather than as portraits.

Much of his work he feels is immature, but in his exhibit, he plans to display a "cross section of my college work" which shows the progress he has made through instruction and experimentation.

His instruction at WT have praise for Moon's work, and Emilio Caballero, associate professor, said that the young artist's growth has been rapid in that he has definite ideas and concepts.

"Marvin shows a great deal of creative ability in that he is seeking for a very personal expression," Caballero said. "He has developed a style which is his own, and even though he has experimented and explored, he is also a good draftsman and has full knowledge of color."

Moon has received a number of commendations in exhibits during his four years at WT, and he has garnered several prizes in the North Plains Fair exhibits at Perryton.

Moon hopes to continue study toward advanced degrees and eventually to teach art in college. He has been active in art circles at WT, serving this year as president of Kappa Pi, national honorary art fraternity. He is vice-president of Alpha Sigma Xi, social fraternity, and is president of Conner Hall. He designed sets for the Opera Workshop's "Gianni Schicchi," modeling his scenes on the paintings of the Italian Renaissance artists.

Son of Mr. and Mrs. W. A. Moon, 21 North Drake in Perryton, he was one of 32 students named this year to represent WT in "Who's Who Among Students in American Colleges and Universities."

Veterans Forum

Q. Would it be possible for a veteran to receive Public Law 16 training if he has a service-connected disability not severe enough to warrant any payment of compensation?

A. No. One of the legal requirements for Public Law 16 is a compensable service-connected disability. Another requirement is a need for training to overcome the handicap of the disability.

Q. Is there a "ceiling" on combined wages and GI allowance for veterans taking on-the-job training under the Korean GI Bill?

A. Yes; the "ceiling" applies only to on-the-job trainees under the Korean GI Bill. It does not apply to veterans in other types of training. The "ceiling" is $310 a month. When training wages and GI allowance together exceed that amount, the GI allowance will be cut to bring the total within the $310 maximum.

Q. A friend of mine, a Korea veteran, waited four months before applying for Korean GI term insurance, and he was told that he was too late, and had missed the deadline. What is the deadline for getting this insurance?

A. The deadline is 120 days from date of discharge. This deadline usually is a day or so short of four months.

Surprising Conditions

Secretary of Agriculture Ezra Benson has just concluded a two-day tour through the drought-plagued wheat lands of Colorado Kansas, Oklahoma and Texas, and when he finished, he said conditions were worse than he expected.

Just what the people of this area expect him to do about it has never been made quite clear to this newspaper.

We suppose that the government is expected to continue the emergency drought relief program to provide hay and some grain at reduced costs.

The government program of easy terms through the FHA has been a life saver to some, and federal crop insurance was quite helpful until it was stopped.

About the only step the government could take right now would be to put crop insurance back into effect, continue the loans, keep up the emergency feed program. All these stop short of an outright "hand-out" and few have asked for a "hand-out" yet.

Government aid, welcome through it may be, is not the answer to what is wrong with this country. All we need is more moisture like that which fell over the week end.

There's nothing we like better and get less of than a good rain. Give this country that and the government can stop worrying about the farmers here.

Great Need for Roads

The visit of the Texas Highway Commission to Perryton last Friday emphasized the importance of roads to a community, and the commissioners were taken over some of Ochiltree county's dirt roads, where pavement is sought.

Both E. H. Thornton and Marshall Formby said that Ochiltree county is in line for more farm-to-market roads and indicated that locations have been selected for the next program.

Ochiltree county has lagged behind in the construction of paved farm-to-market roads, principally because the county road allotment has been given to State Highway 70 and the bridge. This situation will be corrected, say the state commissioners, when the farm-to-market appropriations are made for the next two years, and it appears that much more farm pavement will appear on the Ochiltree county road map.

One thing about it—if this county is to wait for pavement, the past few years have been ideal for traveling on dirt roads. There have been few, if any, times since 1950 when a car couldn't travel in high gear down any dirt road in the county—mud hasn't been a factor in highway travel.

From the SIDELINE

with HAROLD HUDSON

We know that the American Bar Association frowns upon what they call "advertising," but we can't refrain from passing some praise upon the new Boyer and Lemon law offices. These quarters are strictly first class, and have been planned and furnished down to the last detail. While no open house or any kind of formal opening is planned, we know that Max Boyer and Bob Lemon will be glad to let you look their place over. And it's well worth a look—in fact, Perryton has never had a set of offices quite like these.

Time magazine says that the average reader of its magazine carries $30.70 in his pockets at any given time. This we doubt. Averages are unsatisfactory. The publisher of Time may carry $515 which would make a nice average for a score of financially disabled readers like us whose pocket money is usually less than $5, and most of the time consists of coins only—no bills. This sort of survey only proves the old saying that you can prove anything with figures.

When a married man pulls out a fat wallet, you can bet he has two things—a camera and a child.

We enjoyed a short visit with Marshall Formby, the state highway commissioner, when he came up here Friday afternoon. We were in a class with Formby while taking some refresher work at the University of Texas right after the war. He was getting his masters in journalism and later got a law degree. Anyway, Formby has just recently returned from a trip to Russia, going with a group of radio and newspaper men. He owns or has an interest in radio stations at Hereford, Floydada, Tulia and Seminole.

We were surprised to learn that travel is not so restricted in Russia as we had been led to believe. Marshall said he wasn't followed around, was not denied access to any place except of course defense plants, and that he believed he could have travelled all over the country if he had time. The language barrier is formidable, since there are few English speaking individuals in Russia. But with the aid of a phrase book, he managed to get around all right.

He even found a Baptist church in Moscow, and sent home a story about it. We had supposed there were no churches to amount to anything, and certainly no Baptist churches in Russia. But he said this one seemed to be doing all right, and they invited him to talk, which he did.

We would like to make a trip like this one—but several things prevent our thinking about it very seriously—the principal one being the matter of about $3,500 expenses, which Formby said he paid out on his jaunt. Newspaper people don't have the same kind of money that radio people do, we suppose.

The U. S. Marine recruiter was in the office last week, asking if we would publish a notice about his being here the next time he was in town. After we said the Herald was always glad to help out in the enlistment program, Sgt. Smith remarked that enlistments were being cut way down, and since his travel was based on the number of men he could enlist, he found himself short of gasoline right now. Only two men per month can be taken into the Marines from the Amarillo area, he said. They are full up through July, but would welcome any new applications, he said. All branches of the service are being reduced, and this includes the Marines. Makes it pretty easy on a recruiting sergeant, too.

We were amused to talk with a couple of Pampa people at the highway banquet in Pampa Friday night. They seemed to have the idea that this highway was opening up a virgin territory—that the people north of the river would now make a mad dash to Pampa, money in hand, to buy merchandise from Pampa stores. One fellow was nearly insulted when we said we couldn't think of a thing Pampa stores had that Perryton stores didn't.

That's the truth. Perryton stores do have the same brands of food, clothing, furniture, automobiles, etc., and we think the merchants are just as progressive. True, some people from Perryton leave town to do their shopping. But for the most part, they go to the same place as do the Pampa people who leave town to do their shopping—to Amarillo.

Of course, Pampa has one commodity that Perryton doesn't have—at least not sold openly. This is beer and whiskey, and we suppose that some of the trade that has been going to Borger and Liberal for these commodities will now go south to Pampa. Outside of that, we can't think of a reason for leaving town to trade.

We still maintain that Perryton stands to benefit from the increased flow of traffic over highway 70 much more than it stands to lose trade to people leaving town by the same route.

A neighbor is someone who'll exchange a cupful of sugar for an earful of gossip.

Wolf Creek Philosopher

Great Thinking Takes Time

(Ed. note: The Wolf Creek Philosopher is trying to justify his farming methods this week, but we doubt if he makes it.)

Dear editar:

People are always asking me how I get any farming done when I spend so much time sitting under a tree, but this only goes to show they don't understand the modern world we're living in.

And while I was sitting under a tree yesterday afternoon looking over a newspaper I was pleased to find out that no less a man than the Secretary of State, John Foster Dulles, follows the same principle I do.

That is, he doesn't let the immediate problem at hand get in the way of his deeper thinking, which is the same principle I've been using for years out here on the farm.

The other day, according to this newspaper article, Sec. Dulles was talking with a man about having to fire him, and after the talk the man said, "he was sympathetic but his mind appeared to be elsewhere, on the big international things, like Quemoy and Matsu."

That's exactly the way I am about my farmin operations, and I'm glad to have the Secretary of State following my principles. I'm sympathetic all right with the fact my crops need working, but my mind is elsewhere. Just because a man's garden needs hoeing doesn't mean the international situation should be dropped.

And I'd like to point out that the world situation needs as much thinking about as my farm and if somebody doesn't forego the job of plowing or hand shaking and give some thought to it, plowing and hand shaking may lose their value.

Me and Sec. Dulles have this thing figured out exactly alike, and I hope my neighbors who have been making remarks about the amount of sitting I do will get up on the international level in their thinking and recognize it. It's not that I'm gonna change my habits, and anybody who would chop weeds just to be well thought of is putting a mighty high price on public favor, but if you can attain the latter and still sit under a tree, why not?

Yours faithfully,
J. A.

You'll feel like a pilot without leaving the ground

It's The Hardtop with Four Doors!

Here's the new hit in hardtops that's taking the country by storm – Buick's pioneering and pace-setting 4-Door Riviera. The "convertible" look, with no center posts in the side-window areas – but with separate doors for rear-seat passengers. Shown here is the low-price SPECIAL model – also available in the high-powered CENTURY Series. Both now in volume production to insure prompt deliveries.

Just wait till you switch the pitch of Buick's new Dynaflow*!

How would you like to take the wheel of a high-powered Buick and feel an experience you never felt before in any earth-bound vehicle?

How would you like to do – just by pressing down the gas pedal – what a pilot does when he's ready for take-off?

And how would you like to drive with the happy thought that you're getting plenty of miles per gallon in normal cruising – and the electrifying action of the world's first airplane-principled transmission when you need it for split-second getaway response?

It's all for you when you say the word and slip into the driver's seat of a new Buick with Variable Pitch Dynaflow.*

Not only do you take command of record-high Buick V8 power – and the most envied ride in the industry – and the brawn and heft and luxury of a truly solid automobile.

You also call the turn on twenty propeller-like blades deep inside a wondrous new Dynaflow that's patterned after the principle of the modern plane's variable pitch propeller.

You hold these blades in their high-economy angle when you press the pedal in the normal way – and you get a lot more miles from a tankful of gas.

You switch the pitch of these blades to take-off position when you press the pedal way down – and you get spectacular action *instantly*.

Don't take our word alone that this is thrilling beyond all previous experience.

Talk to anyone who's tried it. Or, better yet, come try it yourself. That way you can learn firsthand why Buick sales are soaring to all-time best-seller highs. Drop in this week, won't you?

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

Thrill of the year is Buick

Installment Conscience

LINCOLN, Neb. (AP)—An unidentified thief has been repaying Jewel Chastain, manager of a service station here, on the installment plan. Chastain has received three "payments" from the conscience-stricken individual who claims to have taken $85 from the station's cash register in February, 1949.

All three letters, unsigned, have carried Omaha postmarks.

The latest remittance was for $55 and apparently cleaned up the debt.

"I really appreciate his sending it back, and I want him to know it," said Chastain.

Santa Fe Crop Report Shows Poor Prospects

Continued poor prospects for the 1955 wheat crop are shown in the Santa Fe Crop report, issued this week by R. I. Cross, agricultural agent in Amarillo. The report follows:

Conditions throughout the winter wheat belt have changed very little during the past month with moisture conditions continuing to follow the pattern established during the past few years. Wheat conditions in the eastern and central part of the territory continue good as a result of sufficient moisture received through the winter and early spring. In the general area west of the 100th meridian moisture has been confined to those small areas where hit-and-miss thundershowers have occured. These local showers often of very high intensity, have been accompanied by severe hail in many cases. In severely windblown communities, these intensive thundershowers have often caused more permanent damage to bare fields than was caused by weeks of high winds.

Late in March and early in April unseasonably low temperatures hit a large portion of the wheat territory. In those areas where the wheat plants had left the winter hardy stage, there is a possibility of a considerable amount of hidden frost damage, the extent of which cannot be determined until the wheat has headed out and started to fill.

Additional moisture in many areas could result in the revival of a considerable amount of acreage which is now sitting in a marginal position and could go on to make a fair to good crop. Without additional moisture this acreage will probably never be cut. Some of the wheat which appeared to be almost dead has made a remarkable recovery in those areas which received rain during the April 10-13 period; however, in these same areas additional moisture and favorable temperature conditions must prevail for the remainder of the growing season in order to produce anything like an average yield.

Serious infestations of greenbugs have shown up in a number of High Plains Texas counties, and the brown wheat mite is doing considerable damage in the Rolling Plains areas. It is an open question as to whether current crop prospects justify any concerted effort to control these insects at this time.

It is very difficult at this time to give anything like a close estimate of the amount of wheat which might be produced because of the wide variety of conditions existing throughout the winter wheat territory. In areas where moisture fell in October and was followed by one of the hit-and-miss showers during February and March, conditions look favorable, while in nearby areas, sometimes less than a mile away, almost complete crop failures are in prospect.

Moisture has been received in the North Texas wheat producing areas and in portions of the Low Rolling Plains. There are also between 200,000 and 250,000 acres of irrigated wheat in the Texas High Plains. With these conditions in mind, it is possible that as much as 15,000,000 bushels of wheat could be produced in Texas if favorable conditions continue from now until harvest.

Christian Science

Services 11 a. m. each Sunday
Public Cordially Invited

The God-given ability of man to overcome evil will be brought out in the Lesson-Sermon on the subject "Adam and Fallen Man," which will be read in Christian Science churches this Sunday.

Readings from the King James Version of the Bible and correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the Lesson-Sermon.

Among the passages to be read from Science and Health is the following: "The divine nature was best expressed in Christ Jesus, who threw upon mortals the truer reflection of God and lifted their lives higher than their poor thought-models would allow—thoughts which presented man as fallen, sick, sinning, and dying" (p. 259).

The Golden Text is from I Corinthians (15:22): "As in Adam all die, even so in Christ shall all be made alive."

The following is the seventh in a series of messages by ministers of this trade area. This week's message was written by W. O. Harmon, Minister of the First Christian Church, 521 South Colgate, Perryton.

WHAT MOST DISTURBS CHRISTIAN LEADERS?

What is it that most disturbs your minister and the consecrated church leaders of his congregation? Small attendance on rainy or dusty days, with yawning empty pews and a lumber yard to preach to? The unbalanced budget? The perpetual pin-pricks of petty criticism, or the tragic dissensions which often destroy the effectiveness of the church and its ministry? Perhaps these, and others of varying nature are most disturbing, but here is the observation of one church leader:

"Our churches are successful. We gain more members, we have more at church, we have bigger budgets, we have more activities, we have better Sunday School materials, and so on. BUT WE CAN'T SEE WE ARE MAKING MUCH OF A DIFFERENCE in our communities or in the lives of the individual members of our congregations and communities. This disturbs me."

Here is the meat of the whole situation, and the thing which ought to give us even more concern. Teaching for Christian living, the fruits of a devoted and changed life, right examples set by laymen in places high and low, are the things for which the world looks among church folks. If they fail to see them, let us not be surprised at the attitudes they take concerning our effectiveness. A raised eye-brow or a shrugd shoulder from an observer, ought always to be a matter of grave concern, for each member of a Church who bears the name Christian, ought to know that he always is the representative of his church, and people judge the church by his life and actions.

Unless the Church is able to raise the moral level of the community, the Church must admit that it is ineffective and failing at its greatest task. Anything that is morally wrong can never be socially right, regardless of what community organization sponsors it. The Minister never should be put on a spot to answer the questions which sometimes come to him. You already know the answer. Is it right to drink a little, to gamble a little, to do other things of like nature? It always is disturbing to your minister to ask him such questions, for he feels that somewhere your Christian training has been sadly neglected.

"Let the church **BE** the Church," every day of the week. It is disturbing indeed, to find that often it is not.

Veterans Land Bill

Both houses voted to submit a constitutional amendment to the people, in November of 1956, calling for an additional $100,000,000 for the veterans land program. Replacement of the Governor and Attorney General as members of the Veterans Land Board, by two appointed members, is specified in the bill.

Governor Allan Shivers and Attorney General John Ben Shepperd repudiated the minutes of the board as compiled by Bascom Giles, former Land Commissioner, and the Board ordered the minutes corrected.

Senator Jimmy Phillips, member of the Senate investigating committee, immediately seized, for photostating, all the old minute books. Phillips said he did this, under committee subpoena, "to make certain that there is a permanent record of the minutes as they were originally entered."

Labor Legislation

Three bills by Sen. George Parkhouse, all fought by organized labor, moved ahead in the House.

The "Ford Motor Bill" was softened, then passed, subject to Senate concurrence. It prohibits unemployment compensation benefits to workmen idled by a strike in other plants owned by their employer. It exempts the workman who makes a good-faith offer to return to his job.

Modified by the House labor committee, and reported favorably, was Parkhouse's bill to eliminate "Port Arthur" strike situations. It wold stop unions from picketing plants where the majority of the workers were non-union.

Misses Loretta and Louise Swink of Liberal, Kans., visited Friday and Saturday with their grandparents, Mr. and Mrs. L. L. Swink and Mary Belle. On Friday they attended the opening of the Canadian River bridge and on Saturday they attended the Spearman celebration.

Arnett Race Meet May 7

The Annual Spring Race Meet will be held in Arnett at the Fair Grounds on Saturday and Sunday, May 7th and 8th at 2:00 p. m. Five Horse Races daily with additional matched races as added attraction.

A Race Meet Dance will be held in the Legion Memorial Hall on Saturday night with the music being furnished by Hurshul Clothier and his Oklahoma Ramblers.

The Ellis County Race Track and Grandstand are convenient for both horsemen and spectators and there is plenty of barn room for 100 horses. The races were very good the past year as there was plenty of horses. If you like to see good horses run, this race meet will be the place to enjoy this annual event.

In the foreground the new 198-horsepower Mercury Montclair 4-door Sedan—newest member in Mercury's dream-car-styled Montclair series.

Now—Mercury Montclair "Dream Car" styling in America's lowest-silhouette 4-door sedan

The same beauty that has made the Mercury Montclair hardtop Coupe one of the year's hottest cars is now available in a 4-door model.

The Montclair hardtop Coupe has been called America's most beautiful car. Many bought it on sight. Many others wanted to buy it. But they had big families. They wanted the beauty of the Montclair but needed the convenience of a four-door model.

Now these people can have their cake and eat it too. For this popular Montclair is now also available as a distinctive 4-door sedan. And not one single inch of the original Montclair beauty has been sacrificed in this new model.

The new 4-door model still has that low, ultra-smart silhouette—only 58¾ inches high. The lines are long and clean—uncluttered by bric-a-brac. It's styling that is exclusive with Mercury—shared by no other car on the road.

And there's new performance to match. For under the hood there's a 198-horsepower SUPER-TORQUE V-8 engine. New features like dual exhausts and high-compression spark plugs put more of Mercury's high horsepower to work for your *everyday* driving. You don't need a superhighway to use it.

But place your order soon if you want early delivery. This new Montclair 4-door is going to be in big demand. Remember, too, that there are 10 more models in 3 series to choose from. A Mercury for every need and budget. We invite you to come in and see, try, and price the Mercury that suits you best.
