Senate Stepping Up Hunt For Commies

WASHINGTON — (AP) — The Senate Internal Security Committee has started a far-reaching new search for Communists in government, including the armed forces as well as the civilian agencies.

Disclosing that Saturday, Senator O'Connor (D-Md.), a member of the new committee, said the group also is "beginning work on the problem of penetration from abroad by Communist agents."

The evidence which we have thus far accumulated establishes beyond any doubt that the Communist network in the United States is inspired, organized, controlled and directed in large part by those foreign agents who are sent here under diplomatic immunity and who are working feverishly to destroy us.

As for the new inquiry aimed at finding out whether there are any Reds in federal jobs, O'Connor said one "task force of the committee has commenced work with reference to Communist penetration or influence in the various agencies of our government."

Another group, he added, is working "on the problem of Communist penetration of the armed forces."

Up to now the plans of the internal security group, which is part of the Senate Judiciary Committee, have been a closely guarded secret. Senator McCarthy (D-Nev.), the chairman of both units, has refused to discuss the subject with reporters. There have been no public

BOB GETTEMY

Gettemy Is Named To Succeed Hasse

Bob Gettemy, 39-year-old veteran newspaperman, has been named managing editor of The Pampa Daily News by Ralph M. Juillard, publisher. Gettemy succeeds Warren L. Hasse, who

resigned the post two weeks ago to take over the duties of business manager of the Pampa Daily News. Gettemy will assume his duties immediately.

Gettemy has been employed as a reporter for The Santa Ana (Calif.) Register, a sister publication of The News, for the past two years and 10 months. Gettemy entered the newspaper business in 1938. In 1943 he entered the Army, serving approximately three years, 22 months of his duty being overseas in Europe.

After his discharge in 1946 he joined the staff of the Beatrice (Nebr.) Times as a general assignment man and photographer. On June 10, 1948 he joined the staff of The Register as a suburban editor and has held that post until his present promotion.

He has been married almost 16 years and has an eight-year-old daughter, Susan. His wife's name is Louise. Gettemy drove to Pampa to seek housing facilities. His family will join him later.

The Pampa Chamber of Commerce has received copies of ceiling price Regulation No. 7 for any local businessmen who may be affected by the regulation. The regulation, which affects retailers handling certain goods, is a list of the affected items:

Men's and boys' clothing; women's and children's clothing; shoes; blankets, quilts, spreads, linens; curtains, drapes, drapery hardware; outdoor shades and awnings; yard goods, furniture; women's, teens', children's and toddlers ready-to-wear; floor coverings; floor, table, desk lamps; mattresses, springs, mattress pads and headboards.

The chamber also will have application forms for use in filing and arranging ceiling price charts.

KoReds Resisting On Eastern Front

TOKYO — (AP) — Tank-led U. S. 25th Division infantrymen defended their bridgehead north of the Han River Saturday as the United Nations offensive plodded ahead on the western and central Korean fronts.

On the eastern end, the allies were battling a determined Korean Red effort to take Amidong, three miles north of Pangnim.

The allies' primary purpose still was the destruction of enemy forces rather than conquest of territory. For Wednesday, Thursday and Friday, the first three days of the current drive, the U. S. Eighth Army estimated enemy casualties at 25,000. Saturday's high toll still was to be tabulated.

The 25th Division troops were more than five and one-half miles north of the Han. Their 10-mile wide front was within 15 miles east and slightly north of Red-held Seoul. The next objective appeared to be the road that leads northeast from Seoul to Chunchon.

To the east of the 25th, Greek, British and American troops were punching closer to Hongchong, a key Chinese Communist defense point.

Greeks attached to the first U. S. Cavalry Division registered yesterday's biggest UN gains. They rammed four miles ahead in the rocky, roadless country west of Hoengsong.

The foot-cavalry, moving northeast toward Hongchong along the road from Yongdu, were about eight miles from the Chinese stronghold. Maj. Gen. Charles Palmer, division commander, said, "We are picking up a considerable amount of their material and it looks as though we are killing plenty of them."

The British Commonwealth Brigade, fighting in the same area, registered gains of about one mile.

The U. S. First Marine Division, battling through the mountains on the road from Hoengsong to Hongchong, was about eight miles southeast of Hongchong. The Marines advanced slowly against an enemy well entrenched amid mountain ridges 3,000 feet high.

On the extreme eastern front, South Korean reinforcements were rushed to stem the Red onslaught against Amidong, three miles north of Pangnim.

At last reports the reinforcements were making good progress against light resistance. Earlier one enemy thrust was crushed by an artillery barrage.

The U. S. Seventh Division, fighting in the mountains north of Amidong, maintained contact with the enemy Saturday through extensive patrolling.

Associated Press Correspondent Tom Stone reported from Seventh Division headquarters that an estimated 15,800 North Korean Reds have been spotted in the Amidong sector.

As a striking example of the attrition of Red forces, intelligence officers believed the 15,800 represented eight North Korean divisions. This would average less than 2,000 men to a division, compared with the normal 10,000 each.

All along the front the UN forces were mopping up Red pockets as they advanced. Progress was slow, but methodical. When the doughboys ran into resistance they called for artillery and air aid, then moved in with tanks and small arms.

Spending, Taxes To Provide Hot Sessions For Legislature

AUSTIN — (AP) — Biggest and most explosive questions of the session start coming up in the legislature next week.

How much to spend will lead off. How much and whom to tax will follow.

State finances, meanwhile, was on the brink of red ink. The state comptroller reported the general revenue fund had dropped to a meager \$3,601,508. In another 20 days it was expected to dip a million dollars in the red.

Ly was more ammunition for guns of the Legislature's economy forces who have ridden firm in the saddle so far. But there were signs they may yet be in for a rough ride.

The Senate finance subcommittee relaxed enough to recommend spending three and a half million dollars more than proposed at the session's beginning. Most of the increase would be higher education.

The committee also wrote back into major appropriation bills five state agencies earlier recommended for abolishment. They were the Veterans Affairs Commission, Aeronautics Commission and three river compact commissions.

Committee-approved House bills still were holding out for their abolishment.

Both House and Senate versions of the bills still had the \$15,000,000 annual expenditure for rural roads. Modification of that

spending is one of the key points in the administration's economy program. Unadjusted state salaries were drawing some fire. Even with some increases in

the Senate bills, committee members still insisted on personally examining proposed deep cuts that total \$6,247,753 under present spending before sending recommendations to the Senate floor.

Finnegan is a close friend of President Truman, who as a senator recommended Finnegan for the St. Louis collector's job. Finnegan was named to the post in 1944 by the late President Roosevelt to succeed the late Robert E. Hennegan.

The subcommittee has named Jacobs as a member of an influence ring with White House entree which, it contends, has exerted pressures on the RFC.

This development came as a second group of Senate investigators announced plans to open public hearings Wednesday into whether "influence peddlers" are at work in the field of defense contracts.

This group, a Senate expenditure committee headed by Senator Hoey (D-N.C.), conducted the sensational five-parters inquiry in 1949. It sought to learn whether commission agents and others were using improper pressures to get government business.

Both House and Senate versions of the bills still had the \$15,000,000 annual expenditure for rural roads. Modification of that

RFC Investigators Turn To Missouri

WASHINGTON — (AP) — The Fulbright subcommittee, after touching off a grand jury investigation relating to the Reconstruction Finance Corporation, turned a spotlight today on a Missouri federal tax collector.

It suggested — but did not demand — that the Bureau of Internal Revenue look into relations of James Finnegan, collector of internal revenue in St. Louis, with RFC.

The Senate banking subcommittee, headed by Senator Fulbright (D-Ark.) pointed to testimony by Rex Jacobs, Detroit industrialist, on March 2 that Jacobs once engaged unsuccessfully to lease from the RFC the big plant of Niagara Nickel Co. in Cuba.

Jacobs added that Finnegan was to become a partner in the venture if the lease went through.

In St. Louis, Finnegan said "my relations with the RFC were so remote and the whole thing is so ridiculous that it is not even funny."

He referred to a statement he made Wednesday, in regard to Jacobs' testimony, in which he said: "Some time ago I was offered a connection as attorney for the Nicaro Company. Had this

of the Great Lake states and other regions which could be deeply affected.

Attorney General Price Daniel and John Vancronkhite, representing Gov. Allan Shivers, also attended the meeting. Daniel said the committee's united front and decision to encourage similar organizations in other states was "the most hopeful development possible."

Guy C. Jackson, Jr., of Anahuac was named committee chairman, and Mrs. J. W. Walker of Plainview vice-chairman.

Named to an interstate committee were Mrs. Walker, Robert Lee Bobbitt of San Antonio, Vern Sanford, Austin, Hubert Harrison, Longview, and Rep. J. T. Rutherford, Odessa.

Finance committee members were Walter Long of Austin, Frank Jackson, Austin, Joe Spurlock, Fort Worth, and James Kirkland, Beaumont.

The regular monthly board meeting of the Pampa Chamber of Commerce and Board of City Development will be held Monday noon in the Pine Room of the Schneider Hotel. Gene Falters announced Saturday.

Members will hear reports of several committee activities for the past month and plans will be completed for the holding of a general membership meeting in April designed primarily for the one hundred new members secured in the recent membership campaign.

Pampan Confesses To Burglary After Police Trace Print

A 21-year-old Pampan confessed at 4:40 p.m. Saturday to the Friday night burglary of the Busy Bee Cafe where 11 cartons of cigarettes were taken.

The man, Elijah Williams, 21, of 502 Elm, was traced through a heel print he left on a booth seat underneath an east window where he entered and left. He gained entrance by breaking the glass in the window.

The man, lifted from the seat by Patrolman F. D. Roan, matched the heels of Williams' shoes. Williams was arrested by Patrolman G. W. Callahan just a few hours after the burglary was reported by Jerome Henry, proprietor of the Busy Bee.

Williams was taken to police headquarters where he was questioned by Roan and Asst. Chief of Police J. O. Dumas.

Although he told officers he broke into the cafe, Williams claimed he took only two cartons of cigarettes and "ate some ice cream."

No other details or developments were available by deadline Saturday.

Superfort Missing On Training Flight

LONDON — (AP) — A U. S. Air Force B-29 Superfortress, with a crew of 12 aboard, is missing on a training flight, a spokesman for the Third Air Force said Saturday night.

The plane left the Royal Air Force Base at Lakenheath, Eng., yesterday, on a round-trip flight and was due back Saturday morning. The bomber was reported in the Pine Room of the Schneider Hotel.

Units of the U. S. and British Mediterranean fleets and U. S. Air Force planes are searching in that area.

Superfort Missing On Training Flight

Delegates From 14 Texas Cities Here For 20-30 Meeting

An estimated 55 delegates from 14 Texas cities are attending the 20-30 International sub-district council meeting, which began at 11 a.m. Saturday, and will be terminated at 1 p.m. today.

Convention headquarters is in the Schneider Hotel.

The convention began officially with a business meeting at 2:30 p.m. Saturday, in the basement dining room of the Schneider.

Pending business concerned the organization's current drive to secure funds for the study and treatment of rheumatic fever.

Highlight of the convention was a banquet and dance, Saturday night, in the Moose Hall, with George Grazadio, international vice president from Sacramento, Calif., as guest speaker.

Grazadio arrived Saturday, in a plane piloted by Bill Sullivan, president of the Pampa 20-30 Club.

Other persons of importance who were on hand for this first sub-district convention ever to be held, not only in Pampa, but in Pampa's district five, included Joe Bonafide, Hobbs, N.M., international world council delegate and Chris Furneaux, area trustee. Barry Kay, Amarillo, lieutenant governor of District Five, presided at the business meeting, Saturday, and will preside at the closing meeting today.

The Pampa club was organized in December, 1949, and now has membership of about 21 young men between the ages of 20 and 30.

Business Section Leads In Donations To Red Cross Drive

The business section of Pampa is leading the industrial section in contributions to the American Red Cross drive, according to Mildred Hill, executive secretary.

Workers are gradually beginning to turn in their money they have solicited from their sections of town. By Tuesday afternoon, they will have reported their funds.

Larry Fuller, chairman of Le-fors, has announced a part of the plans for the residential drive to be held there next week. He said that most of the drive will be undertaken during just one day, when workers will call on business firms and residents.

Herman Whately, Pampa chairman, has stated that plans for the Pampa residential drive will be announced later in the week. Mrs. W. R. Campbell is head of the residential drive.

SHERMAN RETURNS

WASHINGTON — (AP) — Adm. Forrest P. Sherman, chief of naval operations, returned Saturday from a 10-day trip to Europe to confer with Gen. Eisenhower.

Sherman was accompanied by his wife and two children. He will remain in the city for several days before returning to his post.

Sherman was accompanied by his wife and two children. He will remain in the city for several days before returning to his post.

Sherman was accompanied by his wife and two children. He will remain in the city for several days before returning to his post.

Russia Stalls Big Four Meet

PARIS — (AP) — The Western powers tried Saturday to meet Russian objections to their program for a Big Four foreign ministers meeting, but got a rebuff from Andrei Gromyko.

After a full week of conferences among the foreign ministers' deputies from the United States, France, Britain and Russia, it generally agreed there had been no progress.

They'll try again Monday. The talks center on words and the meaning of the words used. The deputies can only set up a list of points for the ministers to discuss. Discussion of the matters themselves is supposed to be left to the ministers.

Russia has repeatedly insisted that the original agenda submitted by the western deputies does not cover the items which Russia considers paramount. So Saturday the westerners put forward a new version of one of their items.

The new version specifically mentioned some of the points in interest. The westerners also want to talk about the same thing, but originally had listed them under a general heading. It was hoped that spelling out the individual points would mollify the Russians.

Gromyko, the Soviet deputy foreign minister, took the view that the suggestion was unsatisfactory. He said the western powers were trying to stifle the Russian point of view and reserve the right to speak more fully on the subject later.

The original proposal of the three western powers called for "examination of the causes of present international tensions in Europe and the means to secure a real and lasting improvement in the relations between the U.S.S.R., U.S., United Kingdom and France."

Saturday, to this wording, they added "Such as: measures to eliminate the fear of aggression, fulfillment of present treaty obligations and examinations of the existing levels of armaments and questions concerning Germany in this sphere."

Gas Bill Put To Senate On Saturday

WASHINGTON — (AP) — A bill to remove local natural gas distributing companies from federal regulation was before the Senate Saturday.

Sen. O'Connor (D-Md.) and Sen. Bricker (R-Ohio) put up the measure to amend the Natural Gas Act. Their bill would leave companies distributing gas in one state subject only to state regulation.

America Is Facing Better Game Future

By BOB BRISTER

ATHENS — (AP) — Loaf around some hunter and fisherman hang-out for a couple of hours and somebody's a cinch to start a discussion on how tough things are getting.

The general opinion, and a much talked about one, is that the sportsman of today is living in the tail end of an era — that his grand children will stalk nothing more wily than old tin cans and bottles. Hunting, concludes this school of thought, is on its way out.

The sage of the lure counter, for instance, will always inform his audience that our game supply is fast becoming depleted, that population increases are crowding out wildlife, that plowed land is replacing our forests and that the large number of hunters now taking the field will eventually wipe out every vestige of the oldest sport.

That much talked theory, accepted as it is by a lot of otherwise intelligent sportsmen, is essentially a crock of hooey. And it's dangerous.

In the first place, Americans are just now realizing what the word conservation means. That goes not only for wildlife, but

for forest and water and soil. As a nation, we are backing away from a few hundred years of tearing down — and beginning to build back up again. That fact, in itself, will mean plenty of game for our grandchildren to chase.

For one thing, records and statistics show game, on an overall basis, to be on the upgrade. Many near-extinct species are coming back in numbers, and big game is being restored to areas which have had none for years.

Also, scientific farm procedures are producing more food on less acreage — no crowding out all game. Actually, more and more land, worn out by years of farming, is being put back into pastureland. A few years of natural plant growth transform planted rows into game's natural habitat.

In other words, the outlook now is for more cover in the future, and more game in it. And for better hunting and fishing than we have today, game agencies over the nation are taking into consideration the largest number of hunters and fishermen ever to take the field — but they're also planning the biggest game crop ever helped to its feet by man.

It's a long-range proposition, this conservation, but it pays off. It pays off well enough that the sportsman of today, along with every one of his kids, has plenty to look forward to — and don't let anyone kid you otherwise.

Reds Chipping China's Wall

By SPENCER DAVIS
AP Newsfeatures
SAN FRANCISCO — The Chinese Communists have ambitious plans for Peiping, site of Imperial China's magnificent Forbidden City — now capital of Red China.

Russian city planning experts are said to be taking part in a program to "modernize the city," which Kublai Khan extensively rebuilt as his capital in the 13th Century.

A Peiping radio broadcast credits Soviet city planners with "invaluable assistance" in the modernization scheme.

The broadcast, heard by The Associated Press in San Francisco, quoted Gen. Nieh Jung-cheng, acting chief of staff of the Communist armed forces and also mayor of Peiping, as saying: "A basic change is taking place in the whole trend of city construction. A new Peiping is taking shape."

Gen. Nieh, observing the second anniversary of Peiping's fall to the Chinese Red army, did not say what the building plans included.

However, in the two years since the Reds entered the city, there have been brief accounts of contemplated improvements. These were plans, for a sort of "Red Square" Moscow style.

There was also mention of building stones taken from the ancient Great Wall of China, which runs within 30 miles of Peiping at one point. These were to be used for construction work.

The massive, time resistant walls of Peiping and its towering gates actually separate seven different "cities" inside the one big capital. There is a Tartar city in the north, and a Chinese city in the south, the Imperial city where court dignitaries once lived, and other districts representing periods from its past.

The innermost of these is the "Forbidden City," with its cluster of aging yellow-tile-roofed palaces and cobbled-stone courtyards, richly ornamented with marble.

The Communist improvement program recalls similar efforts by the Japanese during their occupation of Peiping from 1937 until the end of World War II.

Now, under its new Communist masters, Peiping may add an eighth "Red City" to its seven other layers from the past, or it may ignore them as it did the Japanese.

CHICAGO — (AP) — The little mosquito is in for big trouble in the season ahead.

More men than ever before are to be employed in the fight against the pest, reports Dr. Don M. Rees, president of the American Mosquito Control Association.

These specialists will work in control centers in counties and other districts.

"Twenty-five or thirty new, organized units are contemplated in the United States this year," Rees told a reporter. "The ranks are growing. We have demonstrated that mosquitoes can be controlled. We have the modern tools to do the job."

Some 150 leaders in the battle against the public enemies are on their way here to the scattered home bases in the U. S., Canada and Hawaii today. They had spent three days exchanging ideas at the association's annual meeting.

The conferees heard: Campaigns against disease-carrying mosquitoes have paid large dividends in improved health and have helped put some regions on a sounder economic footing.

Dr. Louis L. Williams, chief of the Division of International Health of the U. S. Public Health Service, told of gains aboard this way: "More than 50,000,000 people have received protection against malaria. When about 800,000,000 additional people come under the benefits of control in the tropics and sub-tropics, I don't think there will be any malaria left."

Control on a community-wide basis can be achieved without great expense. An airplane dusted with DDT, with DDT, an insecticide, last June. The mosquito and black fly populations dropped quickly to "negligible or almost zero" levels. The cost: about eight cents per person.

Science is being used to add to man's knowledge of the annoying insect. A small quantity of radioactive phosphorus was put in tanks containing young mosquitoes in the Turlock Mosquito Abatement District in California. They flew off and were caught in traps. Geiger counters detected those that had been in the tanks.

The object was to determine their dispersal pattern. These mosquitoes went a shade less than two miles. Elsewhere they have been known to cover eight miles in three hours.

Dr. A. W. A. Brown of the University of Western Ontario, Canada, came up with the answer to "what draws mosquitoes to people?"

They are attracted by warmth, surface moisture such as sweat, and carbon dioxide which is present in exhaled breath. Black is the most attractive color to them. White has the least lure.

Dr. Brown's advice to all who want to avoid the pests: keep cool and dry, and wear clothing in the lighter and brighter hues. Also, button up your clothing so you won't emanate body warmth and moisture and thus be a sucker for skeeters.

REA APPROVES LOAN
WASHINGTON — (AP) — The Rural Electrification Administration has approved a \$360,000 loan to the Farmers Electric Cooperative of Clovis, N. M.

JOSEPHINE'S RETURN—St. Louis-born singer-dancer Josephine Baker, who captured Paris 25 years ago wearing a girdle of bananas and little else, has returned home for her first Broadway appearance in 15 years and a five-month tour of America. The singer, "about 47 years old," is seen with her French husband, Joe Bouillon, reading congratulatory messages after her opening in New York. For her new routine of "dressed-up" sex, Miss Baker brought along 45 trunks of costumes valued at \$250,000.

Bids To Be Received On 48 Road Projects

AUSTIN — (AP) — The highway department Saturday announced a list of 48 projects — to cost an estimated \$9,500,000 — on which bids will be received March 20 and 21.

The projects involved 879 miles of roadways with emphasis on improving existing facilities, said State Highway Engineer D. C. Greer.

The improvement program, Greer explained, is a hurry-up method of readying Texas transportation arteries for the mobilization impact they are already beginning to feel.

Included in the bid list were 196 miles of new farm to market roads and 136 miles of construction work on the primary highway system. One project was listed for the Gulf Freeway in Houston.

Girl Scout Notes

GIRL SCOUT COUNCIL BOARD MEETING

Mrs. Glen Macourt presided. Dr. Douglas Nelson read the resignation of Mrs. Walter Burleson as office secretary and Mrs. Glen Dawson was recommended to replace Mrs. Burleson.

Leslie Hart, president of the Kiwanis Club, announced that an advisory committee had been appointed from the club to work with the Girl Scout Council.

He also said the club has approved a gift of \$603 to assist in the purchase of tables, dishes, silver and chairs for the newly remodeled Girl Scout House.

Plans were made concerning the combined association and regular board meeting April 6, and the Friendship Fair and open house this weekend.

Attending the board meeting were Mrs. Fred Thompson, Mrs. Carl J. Wright, Mrs. K. E. Cuyler, Mrs. Harold Osborne, Mrs. J. L. Wrinkle, Mrs. Jess Graves, Mrs. M. X. Beard, Jr., Mrs. W. E. Hinton, Mrs. Gene Fatheree, Mrs. High Station, Mrs. Farris Oden, John Garman, Douglas E. Nelson, Mrs. Ethel F. Anderson, Russell Kennedy, Les-

lie Hart and Quentin Williams.

TROOP 25

A slumber party was held Friday at the Girl Scout House. The group first met in the home of Pat Johnson and from there attended the Senior Play, "Cheaper By the Dozen," after which they went to the Girl Scout House to spend the night. Martha Skelley taught the group a new folk dance, thereby receiving her dancing badge.

The skit which is to be presented at the Friendship Fair by the group was then presented.

Working in shifts the girls learned to make fudge. Cookies, punch and popcorn balls were served at midnight. At 8 a.m. the next day, bacon, eggs, jelly,

toast and cocoa were served. Before the party was over, the girls washed all the windows, cleaned and waxed the floors.

Those attending were Martha Skelley, Pat Johnson, Ruth Steward, Myrna Matlock, Jeannie Haley, Carol Carnes, Carol Hughes, Sheila Chisholm, Mary Elizabeth Young, June Smith, Anita Wedgeworth, Beth Slagle, Wynona Orndoff, Jerry Shelton and their leaders, Mrs. J. C. Steward, and Mrs. O. G. Smith.

BROWNIE TROOP 14

A birthday party was held for the members of Brownie Troop 14 recently. Those celebrating birthdays were Sandra Long, Zoan Winegeart, and Mary Alice Coombes. Games were played

and new Brownie songs were learned.

Refreshments were served by Mrs. C. R. Taylor and Mrs. A. J. Winegeart.

Those present were April Austin, Carol Cleveland, Mary Alice Coombes, Mary Margaret Green, Rosie Hartley, Sandra Long, Jackie and Judy Miller, Kathleen Mott, Doris Taylor, Mary Tipps, Linda Warden and Zoan Winegeart.

TROOP 21

This troop met in the home of the leader Mrs. Howard Vineyard recently.

Election of officers was held. Wadene Thomason was elected president; Marcia Kay Monahan, secretary and Jerry Hughes, treasurer.

Three new members, Mary Ellen Inmon, Carolyn Cox and Jerry Hughes were taken into the group.

TROOP 22

Mrs. Harold Osborne entertained the mothers of this troop with a coffee Thursday morning. Plans for the Scout fair were discussed and it was decided that each mother would make a dozen sandwiches to sell in the booth at the fair. Troop 22 will portray an Alaskan Trading Post at the fair.

Plans were also made for an Easter Skating Party to be held March 20. Attending the meeting were Mmes. Tom Price, Bert Arney, Dick Sullins, T. Taylor Price, Tom Anderwald, Fred Newlage, Tom Wade, M. K. Wil-

Marine Wears Blues

WITH THE FIRST MARINE DIVISION IN KOREA — (P) — Marines resting beside a dusty Korean road recently were slack-jawed with amazement as an automatic rifleman strolled

Hams, W. M. Leith, J. A. Grun- dy, Elmer Darnell, Waldon Moore, Walter Hyatt and the hostess.

The regular meeting of Troop 22 was held in the home of Mrs. Harold Osborne on Feb. 24. The girls worked on their hand-tooled belts. Belt designs were drawn and plans were made for the Scout fair.

In Korea Combat Zone

through their position in dress blues.

Marine Private First Class Normal L. Hoeker, 22, of St. Joseph, Mo., explained: "While in California I asked my mother to send me my dress blues. But before they arrived, I was on my way to Korea. The Marine Corps postal section dutifully sent the package after me. Thinking it was a Christmas package delayed because of the rush, I opened it to share the contents with my squad. They dared me to wear them and I did. I just hope the colonel didn't see me."

Three Art Volumes Given To Library

The art shelf at Pampa Public Library has received an addition of three books this week donated by the Pampa Art Club and Roger Long.

"Marks and Monograms on European and Oriental Pottery and Porcelain" is the gigantic reference book donated by the art club. It was compiled by William Chaffers.

The book is a complete survey of every historical period and commentaries on potters, modelers and artists in every European and Oriental country contributing to the art of ceramics. It is illustrated.

Roger Long, son of Mr. and Mrs. A. C. Long, left this week for the Navy. Long has had several art displays in the library and is well-known here for his oils.

"Pablo Picasso," is one of the books Long contributed to the library. It is written by Paul Eluard and translated by Joseph T. Shipley.

The book is a biography and narration of the great modern Spanish painter. In the foreword of the book, the author says: "In that high place, which is the work of Picasso, I have wished to share the inexhaustible delight it gives to me; I have wished to testify, in the field

of terms and forms, to the faith man has in man."

"Picasso" contains both prose and poetry in the descriptions of the paintings which are copied therein.

The other book contributed by Long is "Taos and Its Artists" by Mabel Dodge Luhan. It contains biographical data on artists, their photographs and examples of their works. The artists portrayed here are the ones who have chosen the "provocative landscape (around Taos) that stirs the emotion."

But these are only the new books on the art shelf. There can be found in this section of the library, books which take art from its beginnings in the cave to the most modern trends and their developments.

Sunrise Services Scheduled Mar. 25 In Palo Duro Park

CANYON — A sunrise Easter service will be held in Palo Duro State Park March 25th.

The Amarillo High School Bel Canto Chorus will be presented in special songs and Alvis M. Autrey, leader of the choir, will conduct a massed choir in Easter hymns. Any organized song group interested is invited to contact Mr. Autrey for details on the program.

Special busses will carry the singers to the canyon. A loud speaker system will make it possible for thousands to hear the service.

Rev. Leon Hill, famous evangelist and noted speaker, will deliver the Easter Sermon. He has originated several great Easter outdoor observances and took the lead last year in reviving the Easter Sunrise service at Palo Duro State Park.

Americans Earning World's Highest Pay

LAKE SUCCESS — (AP) — United States citizens enjoy by far the world's biggest average per capita income — \$1,450 apiece — a recent U.N. survey states.

The survey, made by the U.N. Statistical Office, covered 70 countries having about 90 percent of the world's population and still more of its income. Figures were based on official and semi-official statistics for 1949 and on tentative estimates prepared by the U.N. Statistical Office.

The survey also revealed these facts: Eight countries having one-tenth of the world's population received in 1949 over half of the world's income. They were the United States, Australia, Canada, Denmark, New Zealand, Sweden, Switzerland and the United Kingdom.

The Brenner Pass was crossed no fewer than 66 times by various emperors between 793 and 1402, 174 miles.

Stars and Stripes

(Readers are invited to mail or telephone news of men in the Armed Forces. Write or Call Stars and Stripes Editor, Pampa News.)

INS STARS AND STRIPES

Sgt. Carl L. Camp of the air reserve, son of L. L. Camp, 712 W. Francis, has been ordered into active military service.

Reporting to Brooks AFB in San Antonio this week, Camp was processed for immediate duty. Camp, a former student at Southern Methodist University, was connected with Cabot Carbon Co. as an accountant when ordered into active service.

James Hayward Romine, Donald Ray Waters, Bill Alexander, Jimmie Walker and Douglas Corse, all of Mobeetie, all were in the graduating class from boot camp at Great Lakes, Ill., this past week.

2nd Lt. Gerald D. Walker, son of Mr. and Mrs. Gerald M. Walker, 632 N. Nelson, has been assigned to Craig AFB, Ala., as statistical control auditor.

Lt. Nelson entered the Air Force in November, 1942, and received his commission at Pecos AFB upon completion of his advanced pilot training, April 15, 1945.

Marine Pfc. Donald L. Willis, son of Mr. and Mrs. I. T. Willis, 933 Barnard, recently completed his initial training at the Marine Corps Recruit Depot, San Diego, Calif.

Burford F. Reynolds, aviation machinist mate, third class, USN, son of Mr. and Mrs. Marion Reynolds of Shamrock, and husband of Mrs. Wanda A. Reynolds of Redondo Beach, Calif., is serving aboard the seaplane tender USS Pine Island operating in the Far East.

The seaplane tender is the flagship of the Commander, Fleet Air Wing Six, while acting as a floating base for the squadrons of that fleet, which fly Martin Mariners.

Lions Will Elect Officers March 22

The Pampa Lions Club will elect its 1951 officers at the meeting on March 22, according to H. M. Luna, boss Lion.

Three new members were introduced to the club at Thursday's meeting. They were Sheriff Rufe Jordan, Paul C. Camp and Thomas Ray Scott.

Jan Sanders, president of the Kit Kat Klub and a member of the Pampa High School A Cappella Choir, was named sweetheart for the month of March.

Pvt. James E. Jennings, son of Mrs. R. F. Jennings, 533 S. Gray, arrived home this week from Ft. Benning, Ga., where he is stationed with the Eighth Infantry, serving in the medical corps.

Pvt. Jennings lived here eight years before entering service, attending Pampa Junior High School and working at the Worley Hospital.

A veteran of ten and a half years service, M-Sgt. Theodore Cooper, son of Mr. and Mrs. W. H. Cooper, 610 N. Gray, recently reenlisted for an unspecified term in the Army Medical Service of the regular Army at Brooke Medical Center, Fort Sam Houston, Tex., where he is assigned to Brooke Army Hospital as a sergeant major.

The Amarillo Navy recruiting station has announced an unlimited quota for applicants for officers cooks and stewards ratings. This is the only program the Navy has to offer that is unlimited. Immediate enlistment in this program is assured to all applicants who meet the requirements.

The seaman recruit and other programs were increased in New Mexico and West Texas 38 percent for the month of March. Further increases are expected in April and May. The local Navy recruiting station is located in the post office building in Amarillo.

EGG QUALITY

A high-quality egg has a well-rounded and well-center yolk held up by a thick white. Eggs that are of lower quality have the yolks flattened and the whites thin and watery.

EMA FOR VP — The fabulous Ben Peron has been named for vice-president of Argentina to run on a ticket with his husband, Juan D. Peron, in the 1952 election. The Peronist party of Buenos Aires province has announced its support of the man-and-wife team.

Lecture Series Is Postponed

LUBBOCK — (Special) — The annual Willson lecture series will be held on the campus of Texas Technological College April 16-19, instead of earlier as planned. The schedule change was made to permit Dr. W. A. Criswell, pastor of the Dallas First Baptist Church, to serve as speaker.

Dr. Criswell, well-known in the Southwest, will be the fifth lecturer brought to Tech's campus by funds donated by Mr. and Mrs. Jim Willson of Floyd, Tex.

Brazil nuts are the seeds of a large tree which grows throughout tropical America and frequently attains a height of 130 feet.

Animal Husbandry Scholarship Set

LUBBOCK — (Special) — J. S. Bridwell, Wichita Falls, has given Texas Technological College funds to provide an annual scholarship of \$400.

Eligible for the scholarship completion are senior students in the Department of Animal Husbandry who are in need of financial assistance and who plan to engage in practical cattle production.

The recipient of the scholarship must have at least a 1.5 grade average and the winner would be ineligible for any other scholarship administered by the college.

Bridwell is a rancher, independent oil operator and purebred Hereford breeder.

Geology Senior Will Be Honored

LUBBOCK — (Special) — A graduating petroleum geology senior yet to be named — of Texas Technological College will receive the annual merit award from the West Texas Geological Society.

The student will be chosen on the basis of grades, personality, initiative and general ability. He need not be in school at the time of the presentation.

The honoree will be chosen by three faculty members and three students, all of the Department of Geology.

This award was given before the war, but was discontinued in 1945 due to the lack of qualified seniors. The merit award also is offered at Texas Western University.

Water Purifier Works Los Angeles Discovers

LOS ANGELES — (AP) — An answer to one of the great hazards of a major disaster — contamination of a city's water supply — may be a portable purifying unit invented by a California Institute of Technology professor.

Dr. Alexander Goetz' 12-pound "sanitizer" has been tested by county health officials and proven capable of turning murky water from the Los Angeles River into a clear, drinkable liquid.

The unit sucks up water like a small pump and filters it through powdered earth that

removes dangerous bacteria harmless, Dr. Goetz says. He estimates it can be produced for from \$30 to \$50 a unit and can purify 50 quarts of water an hour at a cost of only a few cents per gallon.

Of Great Britain's 56,000,000 acres of land, 30,000,000 are under cultivation or used generally for farming purposes.

'Eyes Of Texas' Composer Humble, Didn't Want Money

BEAUMONT — (AP) — The man who wrote the words to "The Eyes of Texas" never capitalized on it, and was always very humble, his widow recalls.

The song — often called the national anthem of Texas — was written on a laundry wrapping by John Lang Sinclair in 1903. He wrote it in response to a demand by the University of Texas glee club, of which Sinclair was a member, for use in its student minstrel of 1903.

Mrs. Sinclair told her story just before University of Texas Ex-students opened their annual banquet here by singing the song. "John tried and tried. Time for the show drew near — but no song," Mrs. Sinclair remembered.

"So one night glee club men marched into his room in 'B' hall (which stands precariously, yet), handed him cigarettes and locked him in with an ultimatum — the song or else!

"And in the wee hours, out came Mr. Sinclair and 'The Eyes of Texas.'"

The laundry wrapping on which

Sinclair wrote the song is now in the University's archives.

Mrs. Sinclair said the idea behind the lyrics was a takeoff on Dr. Prather, then University president, who often said solemnly: "Young ladies and young gentlemen, the eyes of Texas are upon you!"

"He received a great deal of satisfaction from the way students received his song," Mrs. Sinclair, herself a Texas graduate, said, "but he was very surprised about it. And he was always very humble."

"He never would let anyone

make any money out of the song, although he was approached many times with proposals to have it marketed."

"The students of the University made the song, he always said," she recalled. "And in 1936, after purposely failing to copyright the song himself, he gave the song to the students formally, and allowed the University to copy-right it."

Sinclair was born of Scottish parents near San Antonio. As a young initiate of the violin on his parents' farm, he swung such a squeaky bow he was exiled

to a dry well on the farm for practice lessons.

He kept up his musical interests anyway and joined the University Glee club during his years at Austin. Until his death in 1947, Sinclair had a tax serv-

ice firm in New York. His widow, here for the last few months, is thinking of again making her home in Texas, her native state.

FIRST TWINS—Ellen McDaniel, left, and Helen McDaniel, right, twin daughters of Dr. and Mrs. M. McDaniel, 1322 Coates, display untwin-like attitudes toward having their pictures made by the photographer. Nurse Peggy Ring, one of the staff at Highland General Hospital, is holding the babies. Ellen was born at 11:45 p. m. Thursday, and three minutes later, Helen appeared on the scene. This is the first set of twins for the McDanields, first for the hospital, and are the first to be born neither Dr. or Mrs. McDaniel's families in recent generations. As an interesting side-light, Nurse Ring also is a twin. Mrs. W. L. Morris, 100 S. Faulkner, is the other half of the set. The McDaniel's have two other children, Jim, age 7, and David, 4. (News Photo and En-graving)

City Conference Opens Final Stand

DALLAS — (AP) — The City Con-ference makes its final stand in Texas schoolboy sports today when eight teams from the state's four biggest cities bid for the basket-ball title.

The conference, which is com-posed of schools in San Antonio, Fort Worth, San Antonio and Dal-las, will be combined with large schools in class AA to form a Four-A Division next year.

Champions and runner-up from the four towns will play in the tournament.

Paschal, No. 1 team in Fort Worth, meets Lanier, No. 2 team in San Antonio, in the first game at 2:30 p. m. Lamar, Houston cham-pion, plays Crozier Tech, Dallas No. 2 team, at 4:15 p. m.

Tonight at 7:15, Alamo Heights, San Antonio champion, meets Sam Houston, Houston runner-up. At 9

p. m., Northside, Fort Worth's No. 2 team, plays Sunset, Dallas cham-pion.

Semifinals are scheduled tomor-row morning with the third place

game at 7:20 p. m. and the cham-pionship contest at 9:05 p. m.

John Hopkins University was founded in 1876 by John Hopkins.

American Gives Leg To Italian Cripple

WASHINGTON — (AP) — Amer-ican ships entering the port of Pozzuoli, Italy, should get tender treatment from a one-legged har-bor pilot named Aquilino Montagnaro. An American naval officer supplied the pilot with a new lightweight artificial limb, the one material thing he needed and wanted most, but could not ob-tain.

Capt. Parke H. Brady of the fleet oiler Taluga in August, 1949, noticed that the pilot had trouble-

climbing the snags leaders. Montagnaro was wearing a 24-pound jointless leg of wood and iron. Last year when Brady was in Rome for the Holy Year, he obtained a plaster pattern of Montagnaro's leg. Then he had a local firm build a 6-pound leg of duraluminum with movable joints. An Italian admiral returning home from a mission here delivered the leg to Montagnaro. Authorities of the port of Pozzuoli made a cere-mony out of the presentation.

The first legislative body to as-semble in America met at James Va., in 1619.

Texas A&M Lassos Longhorns, 45-33

COLLEGE STATION — (AP) — Texas A&M gets two more chances at a Texas jinx of 37 years standing and either one could send it to Kansas City as the Southwest Conference representative in the NCAA Regional Basketball Tournament.

The Aggies Friday night hung a 45-33 licking on the Texas Longhorns in the first of a two-out-of-three game series to determine the NCAA entry.

The second and third — if needed — games will be played at Gregory Gymnasium in Austin and that's where the Aggies run into that jinx.

Not since 1934 — when Texas Coach Jack Gray was a junior player — has A&M beaten Texas on the Longhorns' home court.

They missed again this past season and as a result the conference ended in a three-way tie, between A&M, Texas and Texas Christian.

The Aggies eliminated Texas Christian from the playoff earlier this week.

Jewell McDowell made up for the humiliation he suffered in that game with Texas at Austin. There he went scores for the first time in his playing career, thanks to the postage stamp guarding of Frank Womack and George Scaling.

But last night the all-conference guard sank six field goals and two free shots for 14 points and individual scoring honors.

McDowell dunked in 12 points for the Aggies and Buddy Davis made ten.

Joe Ed Falk, James Dowies and Scaling each made eight points for Texas.

The Aggies led at the half, 21-10. In the first four minutes of the second half Texas pulled within three points, but then fell rapidly behind.

Spearman Wins Two Games At Houston
HOUSTON — (AP) — Fort Worth eliminated second seeded Port Arthur, 65-50, yesterday in the opening round of the Texas Amateur Athletic Federation Mens Basketball Tournament.

Defending champion San Angelo breezed to a 62-48 victory over Pasadena.

Other first round results included: Bishop 62, Temple 55; Lubbock 54, Texas City 36; Tyler 54, Corpus Christi 32; Dallas 61, Galveston 40; Spearman 68, San

SPECK SPECULATES

By SPECK REYNOLDS

If you see a stray pitcher running around loose, put a COD stamp on him and send him to Manager Grover Seitz of the Pampa Oilers. Seitz is having some trouble lining up two more hurlers.

Seitz had one pitcher all ready for mound duty this season. The promising baseballer called the Oiler manager and said he was ready to throw the horse hide for Pampa.

The pitcher called Seitz from Atlanta, Ga. It seems he needed some money for transportation to the Gray County seat. Train fare from Atlanta to Pampa is \$47.50, so Grover sent the ball player the money for the trip. The fellow was supposed to arrive here a week ago. Grover is still waiting for the hurler to make his appearance here.

Randy Clay is going to attend the district football banquet at Amarillo this afternoon. Jimmy King, forward for the Pampa Chiefs, got a natural at Highland General Hospital the past week. His new daughter weighed in at seven-eleven. Jimmy Nichols, one-armed golfer, will play an exhibition match here next Saturday at the country club links.

Oiler firstbaseman Virgil Richardson is in dire need of a four-room house. If you have one available, call Warren Hasse at 1121. Oiler baseballers will start arriving in Pampa next week and they will be in need of housing.

Hank Brown, sports writer of the Amarillo Times, had this to say about the recent AAU ruling: "What brought the issue to a head, of course, was not the desire of the commission to 'straighten things out.' It rather was instigated by a team which wanted to get revenge for being declared ineligible themselves."

I take it Brown was talking about the Chiefs. I don't believe it was a revenge motive that kicked out every AAU team Pampa just wanted to see the AAU rules enforced.

Paul Boswell, former Harvester griddler and freshman with the Canyon Buffs, played on defense against the Pampa Harvesters Thursday afternoon.

Tom Chisholm of Pampa student at Notre Dame, fought his way to the University Boxing Tournament at South Bend. The finals are being held Saturday night.

UMPIRE ANNOUNCED
WASHINGTON — (AP) — Keith F. Meyers of Kingsville, Texas, will umpire this year in the Western League. His appointment was made known yesterday.

Antonio 65; Texarkana 78, Midland 65.
Spearman eliminated Baytown 90 to 25, in a second round game.

BAYLOR MENTOR—Coach Bill Henderson of Baylor will be guest speaker at the Harvester basketball banquet in the First Methodist Church at 7:30 Tuesday evening. (News Engraving)

Baylor Mentor To Speak At Harvester Banquet Tuesday

By DUB KING

Sports Publicity Director Baylor University Genial Bill Henderson, Baylor University's basketball coach, will speak at the Pampa High School basketball banquet at 7:30 Tuesday evening in the First Methodist Church.

"Mr. Basketball," as Henderson is known throughout the country, has just concluded his poorest season since returning to the coaching profession from the Air Corps.

Although the 1950-51 Bruins finished in sixth-place in the Southwest Conference, it didn't dim the personable cage mentor's record. He has won or shared part of the conference title four out of six times.

This year's team was fifth in the nation in making free throws. Ralph Johnson, a sensational left-scorer in the conference with 176 points for a 15.7 average per game.

Also the Bears can be credited with tossing the SWC race into a three-way tie this year. After the Texas Christian Frogs had beaten Baylor on its own court by 14 points, the Bears journeyed to Fort Worth and trimmed the Froggies, 61-53, thereby keeping them from winning a clear-cut claim to the title.

Henderson's first year back, 1946, his team won the first conference title for Baylor since 1932. For this he was acclaimed "Coach of the Year."

His 1948 aggregation went further in the NCAA than any SWC team ever went before or since — to the finals in New York City where the Bears lost to Kentucky. Jackie Robinson, his freshman star in '46, was on the Olympic squad with Bill Johnson and James Owens as alternates.

He shared the 1949 championship with both Arkansas and Rice. The Bears might have won this one outright also if Jackie Robinson hadn't been forced to give up basketball because of a knee injury and Bill Johnson hadn't been injured in a car accident midway in the season. The Bears had a 5-1 record when Johnson went out.

And even last year bad luck refused to shine on him to a certain degree as James Owens, another star, gave up his last

year of eligibility to turn pro. Then, too, Don Heathington, one of the greatest ball players ever to play for Baylor, was out part of the season with injuries. Several of the other players; were out with injuries of some kind from time to time also.

But "Mr. Bill," as he is affectionately known all over the Southwest, rallied his squad and they tied Arkansas for the crown. The NCAA committee selected the Bears, with their two victories over the Razorbacks as the Region 6 representative.

The Bears made an excellent showing polishing off favored Brigham Young 56-55, and then losing a heart-breaker to Bradley, 68-66. Even though the Bruins lost it was interesting to note that Bradley was named No. 1 team in the nation at the close of the season while Baylor was even mentioned. The Bears finished fourth in the nation.

Henderson, a graduate of Howard Payne College, came to Baylor from Waco High School in 1936. The Waco team won the championship five years while Henderson was there.

In 1941, Henderson became head basketball coach at Baylor but entered the Air Corps after coaching the 1942 team.

He is married to the former Anna Gibson of Waco. Mr. and Mrs. Henderson have a daughter, Anna, who is employed by Baylor, and a son, Bill, Jr., his team trainer.

Peggy Riley Favored

SAN AUGUSTINE — (AP) — Peggy Riley of Fort Worth is expected today to retire the East Coast Women's Amateur Golf trophy.

She meets Mary Lena Faulk in the finals. Miss Faulk beat Betsy Rawls of Austin 2-1 while Miss Riley trimmed Grace DeMoss 4-3. Miss Riley has two legs on the trophy, from 1948 and 1949 victories.

Pampa Thinclads Grab First In 220 At Time Trials Meet

Jimmy Hayes was the only Harvester thinclad to grab a first place in the time trials at Amarillo Stadium Friday afternoon in 42 degree weather. Hayes

beat Gayle Linkenhoger of Amarillo. Scooter Elmer Wilson churned off a 10.6 in the 100-yard dash, which was good for third place. Quarterback De Wey Cudney placed fourth in the 110-yard dash. The blond haired signal caller ran the distance in 11.5. Cudney also placed fourth in the discus throw. He hurled the plate 106.1.

Other Pampanos who placed were:

Harold Smith came in second in the 440-yard run. The Pampa senior circled the track in 56 seconds. James Smith topped the 200-yard low hurdles in 30.1 to win his heat. However, his time was beaten by six men in the first and second heats. Buddy Cockrell shoved the shot 43 feet and six inches to finish third in that event.

Results:
120-YARD HIGH HURDLES—James Reddick, Phillips, 17.2 seconds; Kenneth McMullen, Amarillo, 17.3; Billy McDonald, Phillips, 19.9; Ronnie Smith, Memphis, 20.3.

440-YARD RELAY — Amarillo

Amarillo, 4 minutes, 50.2 seconds; Dale Imel, White Deer, 4:53; Busby Taylor, Dalhart, 4:56; John Emery, Amarillo, no time.

SHOT PUT — Howard Childers, Amarillo, 48 feet, 7 inches; Edward Jackson, Amarillo, 45-2; Buddy Cockrell, 43-6; Charles Carter, Phillips, 35-2.

100-YARD DASH—Mack Gordon, Amarillo, 10.4 seconds; Tommy Hale, Phillips, 10.5; Elmer Wilson, Pampa, 10.6; Hugh Sox, Amarillo, 11.0.

110-YARD DASH — Stanley Bull, Amarillo, 10.8 seconds; Vance Adams, Memphis, 11.3; Stanley Alexander, Phillips, 11.5; De Wey Cudney, Pampa, 11.5.

440-YARD DASH—First heat: Bob Byrd, Amarillo, 54.2 seconds; Vernon Adams, Memphis, 58.3; Harold Smith, Pampa, 56.0; Clyde Taplen, Memphis, 61.0; Jerry Foose, White Deer, 62.0; Dale Wiley, Phillips, no time.

200-YARD LOW HURDLES — First heat: James Reddick, Phillips, Kenneth McMullen, Amarillo, tied, 28.0 flat; Ronnie Smith, Memphis, 29.0; Second heat: Ted Lock, Amarillo, 28.6; Clarence Creacy, Phillips, 29.3; David Corley, Memphis, 29.6; Third heat: James Smith, Pampa, 30.1; Bobby Burnett, Memphis, 32.0; Joe Bob Browning, Memphis, 32.5.

440-YARD RELAY — Amarillo

(Stanley Bull, Mack Gordon,

Gayle Linkenhoger, Kenneth McMullen), 47.6 seconds; White Deer, 48.4; Pampa, 48.8; Phillips, no time.

380-YARD DASH—Ray Bingham, Amarillo, 2 minutes, 12.5 seconds; Toby Wise, Amarillo, 2:13.5 seconds; Allen Tappa, Phillips, 2:15.0; Billy McDonald, Phillips, no time.

220-YARD DASH — Jimmy Hayes, Pampa, 25.9 seconds; Gayle Linkenhoger, Amarillo, 26.2; Frank Norman, Memphis, 26.5; Jimmy Morrison, Memphis, no time.

DISCUS — Howard Childers, Amarillo, 147 feet, 5 inches; Edward Jackson, Amarillo, 143-6; Warren Tuckness, Amarillo, 127-5; DeWey Cudney, Pampa, 108-1.

POLE VAULT—Johnny Isaacs, Amarillo, 10 feet; Don Tricky, Amarillo, 9-6; Ed Taylor Amarillo, Dale Wiley, Phillips, Leroy McGuffey, Phillips, tied, 9-0.

HIGH JUMP — Warren Tuckness, Amarillo, James Reddick, Phillips, tied, 5 feet, 6 inches.

Grapefruit League Goes Into Action

NEW YORK — (AP) — Baseball's spring training exhibition schedule — or the grapefruit league as it is sometimes called — opens Saturday.

Complete even to a night game at Miami between the Boston Braves and Brooklyn Dodgers, all but one of the 16 major league teams swing into action after some 10 days of intra-camp workouts.

The cry of "batter up" — even exciting to a diamond fan — starts the national past-time off with games at Miami, St. Petersburg, Clearwater, Orlando and Sarasota, Fla., Tucson, Ariz.; San Bernardino and Pasadena, Calif.

Only the Detroit Tigers are idle today. They are listed to play their first exhibition Sunday at Tampa.

Perhaps the top game of the day is at Tucson where the World Champion New York Yankees tangle with the Cleveland Indians. Star Joe DiMaggio probably will not play for the Yankees, but will be there to take his regular lick in batting practice.

Bob Porterfield, Tom Morgan and Max Peterson have been nominated by Manager Casey Stengel to pitch for the World Champions.

The National League titleholders, the Philadelphia Phillies, open at Clearwater against the Boston Braves. The Braves actually are down for day - night competition, meeting the Dodgers at Miami in a night fray after their tangle with the Phils.

The play of the New York Giants, expected to be a contender for the flag this year, will be watched closely at St. Petersburg against the Cardinals. Manager Leo Durocher wants his team to get off to a fast start and plans to field his first team, George Spencer, Monte Kennedy and Norman Fox are slated to pitch.

The performance of Ted Williams, Boston Red Sox slugger, will be of interest, too. Williams injured his elbow in the all-star game last year and has never quite recovered his old swing.

Cooper Decided In Finals At Golden Gloves Tournament

CHICAGO — (AP) — Battling Gene Cooper of Pampa, Texas, fought his way to the finals in the middleweight division in the Golden Gloves Tournament here Friday night, but he dropped the final bout before a buging crowd of 18,835 at Chicago Stadium.

Cooper won an earlier semifinal fight.

Although haymakers were registered in the showdown which lined up the Chicago team for the March 19 meeting with the East's best in the intercity bouts at New York and the International tangle with Europe's champions at the Chicago Stadium March 29.

The top heavyweight was Cleveland's Bobby Jackson as champion after defending titlist, Jesse Brown of Cleveland, was eliminated in the semifinals which preceded the finals last night.

Jackson outpointed Don Robinson of Los Angeles, who had won a semifinal decision from Brown.

The only other titlist returning from 1950, Cleveland's Nate Brooks, copped the 118-pound crown. Brooks, who had won at 112 pounds last year, banded a decision over David Moore of Springfield, Ohio, for the 116-pound title.

Another champion was 112-pound: Pat Riley, of Dallas, a rangy 24-year-old south-paw student at North Texas State, who served three years in the Marine Corps.

Team champion with three title-winners was Cleveland with a total of 23 points — one point for each bout won since the stadium battling started with preliminary rounds Feb. 26-27-28. Fort Worth won second with 21 points, followed by Great Lakes (Ill.) Naval Training Center with 17; Kansas City with 16 or ban worn on the upper arm.

The word brawl formerly was commonly used in Italy to indicate a hired assassin.

Pampa Oilers Have Younger Club Than 1950 Champions

Baseball fever in Pampa is soaring as the 1950 West Texas-New Mexico League champion Oilers make preparation for their 1951 season.

Manager Grover Seitz will take his pitchers and catchers to Abilene next Sunday and give them a seven-day workout before bringing the squad together Monday, March 26, here.

Seitz looks for a good season in '51. He has a younger ball club than last year's champions. He has 14 ball players under 26 years old.

"Under the circumstances, I was surprised to get as young a ball club together," Seitz said. "On paper we have as much power as last year. But we'll miss the big bat of Joltin Joe Fortin."

"However we have two long-ball hitters in catcher Bill Whitehorn and outfielder Chittellier," Seitz added. "I'm still looking for two more pitchers to go along with Pate, Matthews and Faulkner."

The baseball game scheduled here with El Paso, April 12, has been cancelled because of the Arizona-Texas League and Sunset League merging. El Paso had to scratch all its spring games scheduled in this part of Texas. The new league is starting its season early.

Outfielder Homer Matney won't be with the Oilers this season. Matney's injured back made it impossible for him to play every day and he decided to retire. Third baseman Nelson is not going to report, and shortstop Johnny Jeandron is still undecided whether he'll play at Pampa or not.

Last year's star pitcher with the Oilers, Roy Parker, notified Seitz he'd report March 17 for spring drills at Del Rio where Sherman will hold practice. Sherman picked up Parker at the winner baseball meeting in Florida.

The Oilers have 27 players on their list and 19 of these are supposed to report for spring practice here March 26.

Hank Chittellier will add power to the Oilers' garden crew. The 6-foot 3-inch, 190-pound fly catcher blasts a long ball. He played with Wichita Falls in the Big State League in 1947-48.

Whitehorn batted .304 in the Arizona-Texas League last year. He drove in 106 runs, smashed 23 home runs, hit 35 doubles and lined out four triples. He stands 6 feet 2 inches and weighs 205 pounds.

Pitchers and catchers scheduled to report at Abilene next Sunday are:

Pitchers: George Payte, George Matthews, Morgan Carroll, Dial, Ken Falkner and Cletus Younger.

Catchers: Donald Roddy, Jerry Squires, Bill Whitehorn and Fulgham.

All the Oilers will report here Monday, March 26, for spring practice.

Infielders: Virgil Richardson, firstbase; Deck Woldt, secondbase; Del Toro, shortstop; Surez, thirdbase.

Outfielders: Dick Dawson, Wadsworth, Chittellier, Rice, Cottle.

Doubleheader Set

SAN ANTONIO — (AP) — Texas Christian University and Brooke Army Medical Center play a doubleheader baseball bill Saturday to make up for the night game postponed Friday night because of power failure.

Flourspar is a mineral which makes slag more efficient in purifying steel.

Harvesters Play Amarillo Here April 13

The baseball committee of District 1-AA met in Lubbock Saturday morning and it decided to split the district into a north and south half. The Pampa Harvesters will play in the North Half with Amarillo and Borger. The South Half consists of Lubbock, Odessa and Big Spring.

The Harvesters will play eight conference baseball games, meeting Amarillo and Borger four times apiece. The winner of the North Half meets the South Half winner in the best two out of three series. The district winner has to be settled by May 15, and conference games are to be seven innings.

Dwayne Lyon is Pampa's baseball coach.

SCHEDULE

NORTH HALF

April 10 — Borger at Amarillo.

April 13 — Amarillo at Pampa.

April 14 — Pampa at Borger.

April 16 — Pampa at Borger.

April 19 — Pampa at Amarillo.

April 20 — Amarillo at Borger.

April 23 — Amarillo at Borger.

April 24 — Pampa at Amarillo.

April 27 — Amarillo at Pampa.

April 28 — Borger at Pampa.

May 2 — Borger at Amarillo.

May 4 — Borger at Pampa.

SOUTH HALF

March 27 — Big Spring at Lubbock.

March 30 — Lubbock at Odessa.

April 3 — Odessa at Big Spring.

April 6 — Lubbock at Big Spring.

April 10 — Odessa at Lubbock.

April 13 — Odessa at Big Spring.

April 17 — Big Spring at Lubbock.

April 20 — Odessa at Lubbock.

April 24 — Big Spring at Odessa.

April 28 — Lubbock at Big Spring.

May 1 — Lubbock at Odessa.

May 4 — Big Spring at Odessa.

Lefors Punchers Capture Tri-City Meet With 6 Wins

LEFORS — (Special) — The Lefors boxing team took a tri-city meet here Friday night by winning six out of 12 bouts. Shamrock fought four fights and Amarillo fought two.

In a 112-pound bout, Clarence Jones of Shamrock defeated Bill James of Amarillo. The Irish cloutier was eight inches shorter than James, but Jones, stabbing rights and lefts kept the Amarillo puncher on defense.

Pete Perez, Amarillo's state runner up last year, TKO'd Ronald Settle of Shamrock in the second round in a 135-pound scrap. This was by far the best fight of the night with both boys swinging leather from the heels. Perez had too much ring experience for the Shamrock smasher. Coach Callan of Shamrock ended the bout.

Results:

65 pounds — Raymond Haygood, Lefors, defeated Barry Wood, Shamrock.

70 pounds — Joe Jerrigan, Shamrock, TKO'd Johnny Cannon, Lefors, second round.

70 pounds — James Warner, Lefors, defeated Bobby Trimble, Shamrock.

80 pounds — Gaston Tarboch, Shamrock, defeated Don Males, Lefors.

80 pounds — J. D. Redus, Lefors, defeated Manny Perez, Amarillo.

85 pounds — Cecil Saunders, Lefors, defeated Jim Don Keys, Shamrock.

95 pounds — Darwin Teeters, Lefors, defeated B. B. Perez, Amarillo.

118 pounds — David Bronner, Lefors, defeated Wayne Smith, Shamrock.

112 pounds — Clarence Jones, Shamrock, defeated Bill James, Amarillo.

115 pounds — Camely Lopez, Amarillo, defeated Ken Woods, Shamrock.

150 pounds — Jimmy Pennington, Shamrock, defeated Sammy Mofar, Amarillo.

135 pounds — Pete Perez, Amarillo, TKO'd Roland Settle, Shamrock.

Harvester Golfers Tap Hereford, 17-4

The Pampa Harvester golf team posted a 17-4 victory over Hereford High School link crew there Thursday afternoon. Coach Johnny Austin's tee-busters were led by Ronnie Samples who notched a 77 for the 18 holes.

Austin said his boys showed a great deal of improvement and they'll have a good reason if they keep up the good work.

Pampa scores:

Samples, 77; Tommy Cox, 78; John Pitts, 79; Carter Burdette, 84; John Bell, 86; Deb Siowell, 88; and Darrell Godfrey, 90.

11 Harvesters To Attend District Feed At Amarillo

The Pampa Harvesters will represent more than one third of the athletes at the District 1-AA banquet in Amarillo Sunday afternoon. Nine of Coach Tom Tippet's gridders were placed on the first and second teams, and Coach Cliff McNeely had three of his cagers win berths on the first and second quintets.

Pampans attending the banquet are Coaches Tippet, McNeely, A. R. Noonester, Dwayne Lyon and Eustice Frizzell.

Harvesters Jimmy Hayes, DeWay Cudney, Elmer Wilson, Eddie Scheig, Jerry Walker, Gerald Matthews, John Young, Carl Kennedy, Buzz Tarpley, James Claunch and Marvin Bond. Randy Clay will also attend as special guest.

KPDN Will Carry Game If Chiefs Win

Radio Station KPDN will broadcast the finals at the Amarillo Independent Basketball Tournament. That if the Pampa Chiefs defeat Quail in the Semifinals Saturday night.

The Chiefs and Dowells are favored to enter the finals of the game meet. KPDN will start its game broadcast at 8 o'clock Monday night. Warren Hasse will be at the mike.

Back in 1929, Jimmy Nichols, a left handed club. Somehow the game got a hold of him and he began to practice. There does seem to be something about this game of golf that enters a man's veins like a fever. Any way, Nichols began to take a new interest in the game.

In his first practice game he made a score of 212 for nine holes. (While in Fort Lauderdale in February 1949 he shot the Fort Lauderdale course of 18 holes in 66. That's only 6 under par.) He could not seem to get anywhere with that left-handed club and driving the ball from his left side. One day he tried a right-handed club and shifted that left hand over to his right side and drove the ball just as a right-handed golfer with two good arms would drive it. It worked better and before long he was out to break 100 on the 18 hole course. He broke the 100, then 90 and then 80.

Nichols battled on with that right-hand club in his good left hand until he broke into the lower 70s. Then, without money and too proud to borrow from his Fort Worth friends, he started to give exhibitions across the country. At this point, he stressed the fact that he had much help and encouragement from the pro golfers along the way. It was a hard row, and mostly uphill. Sometimes he missed a medal; more than once he slept in a barn or park. And then, finally as is often the case with a game guy, he reached his goal. He tied up with the Spalding people and then it was that he began to eat regularly and sleep in a bed. He finally got married. That was the best break of all.

Jimmy Nichols, formerly a right-hander, who lost his right arm, took a right-hand golf club in his left hand and succeeded in shooting the course in 72. Talk about miracles! Talk about moving mountains! This Texan's spirit overcame the weakness of the flesh and accomplished this incredible feat. Jimmy has been constantly astonishing the huge gallery of fans that follow him with his remarkable shots.

Some of the exploits on the golf course seem impossible, but they are matters of record. In the course of his amazing career he has made seven holes-in-one, and one of them a drive of 336 yards. He actually made a dog-leg hole-in-one standing on the tee with his back to the fairway. Ripley used that feature in his "Believe It or Not" in 1938.

Playing a North Carolina pro one day, Nichols sliced his drive. As this was most unusual on his part, the pro asked him how it happened. "Too much right hand," replied Nichols.

While on tour in 1950 Jimmy has had over 80 rounds at 70 or below. In the Chicago area, he shot five different golf courses in 5 consecutive days — all with the identical scores of 36-32. On April 2nd at Longview Country Club he shot a 30-36, setting a new record for the outgoing 9 holes. In July he tied the record at Cantoocock, New Hampshire, with a 35-29.

Jimmy shot his highest round of 1950 while on exhibition. . . 17.

Post 80 To Hold Cage Tournament

The Senior Scouts Post 80 of the Moose Ward.

In the Chiefs' camp are Harold "Sure Shot" Lewis, Bill "Dead Eye" Campbell, Dewayne "Muscle Head" Koonz, George "Ball Hawk" Depee, and Bobby "Double Dribble" Setts. Don Burns is the cage mentor for the Chiefs.

Game time will be 7:30 each evening.

Irish Thinclads Go To Childress

SHAMROCK — (Special) — Coach B. L. Hill's track stars go to Childress Saturday for a four-day meet with Childress, Memphis and Wellington.

Vaughn Terry is slated to run the quarter and half mile. Vernon Tarbet to pole vault, Paul Hartwick to run on the relay team and the other spots are indefinite, Hill reports.

Others trying for the crew are Dwayne Hager, discus; Mack Terry, who hurled the plate 120 feet Tuesday; John Hartwick, Don Lee, Cayson Evans, Ralph Edwards, James Henderson, Bill Parks, Bennie Parks, Ralph Breland, Bobby Johnson, Norrell Perkins, Billy York, Dean Howard, Charles Francis and Haral Dunham.

As an added attraction on Tuesday night, Post 80 has obtained the mighty "Junior Harlem Globetrotters" to match shots with the "Junior Coblitt-Neffey Chiefs." The Trotters will be led by Jerry "Big Moose" Walker, Dale "Windy" Gantz, Bill "Hobo" Davis, Eugene "Step 'n Fetchit" Bonney and Dean "Lit-

Back in 1929, Jimmy Nichols, a left handed club. Somehow the game got a hold of him and he began to practice. There does seem to be something about this game of golf that enters a man's veins like a fever. Any way, Nichols began to take a new interest in the game.

In his first practice game he made a score of 212 for nine holes. (While in Fort Lauderdale in February 1949 he shot the Fort Lauderdale course of 18 holes in 66. That's only 6 under par.) Baseball Leaders Meet Monday To Pick Commissioner

MIAMI BEACH — (AP) — The big men of major league baseball were assembling today for Monday's joint meeting of major league owners to consider a new baseball commissioner.

An atmosphere of tension was building up.

In St. Petersburg, Fred Saigh said that Baseball Commissioner A. B. (Happy) Chandler was conducting a smear campaign against the men who voted not to keep him in the post.

"The only construction I can place on the development is that Chandler finally has realized that he has no chance of

DOG NOTES

by PETER BOGGS

THE TIGER AND THE DOG

Perhaps you recall reading in the newspapers a few weeks ago about the tragic episode in Detroit that took place before 300 people, many of them children, in which a circus lion killed a tiger. I brought to my mind that a few months ago I had received a confirmed report about an incident regarding a dog and a tiger. I checked through my files and found it, and here are the true facts:

In a province of India, a few years ago, the local maharajah maintained a zoo. Its star exhibit was a gigantic man-eating Bengal

tiger. One day, as the maharajah stood idly in front of the tiger's cage, a mangy little scavenger dog trotted past. The maharajah scooped up the luckless pup and tossed him in between the bars of the cage. That was his highness' idea of fun.

The tiger sprang at the tiny dog, in fury. But the dog was not there. Lately, he dodged the charge. As he slipped to one side, he bit the tiger deeply on the underlip. Again the tiger charged. Again the dog was not there. This time one of the tiger's forepaws received a nasty bite. Over and over again, the mur-

derous charges were repeated, as the battle waged on. Always the dog got out of the way. Always he bit or slashed the giant tiger somewhere.

At last, both combatants paused, panting and tired. By common impulse they touched noses. Then the tiger lay down, and the little dog began to lick his huge enemy's wounds. For the next five years they lived together in the cage, happily and devoted to each other. Then the dog at last succumbed to old age. Two weeks later the tiger died, away, through grief, and died.

I tell this only to remind you readers that quite often a so-called civilized dog will strike up a friendship with a creature of the wild that will last for each other's lifetime.

DOGS IN A DINING ROOM

A few months ago I wrote about how I enjoy the presence, from time to time, of two of my dogs at meals. I told how they lay quietly on the floor. That they didn't beg, that it was fun to slip them a bit of food stealthily, now and then. I said that I enjoyed their companionship but that when I had guests in my home no dogs were allowed in the dining room. In came a number of letters asking me why it was I banned my dogs from the dining room when there were guests if the dogs were as well behaved as I had stated. Here's my answer:

Some people don't like dogs and others don't like to be in the same room with them at meal-times. I have, and I am sure you have, eaten in homes where my host's dogs made pests or themselves by begging for food and by joggling the elbows or knees of those present.

I believe that dogs are like small children during meals. Some behave so that it is a pleasure to have them there. Others spoil everyone's peace of mind and break up the conversation. It is not the fault of the children. It is also not the fault of the dogs. In both cases, it is the fault of the bad training they have received. It is easy to train either of them to obey and to train them to conduct themselves in a quiet and polite fashion.

Should you allow your dog in your dining room? Ask yourself this question: Is your dog a pet or a pest? If he is not a pest, allow him in the dining room occasionally. But not when you have company unless they like dogs.

THESE MUDDY SPRING DAYS

In some places, spring is already here. But in other regions the frost has merely oozed out, leaving the earth a mass of wet mud. In such places your dog perhaps gets more scolding and abuse than he deserves. This through no fault of his. For instance:

He goes out-of-doors for a run. His flying feet spatter mud up onto his shaggy under-body and his sides. Mud gets between his pads and covers his feet. Then you call him back into the house. Naturally the clean floor and the rugs are hideously marked by his footprints and, if he lays down, by the impact of his body. Then what happens. You order him out of the house, in disgrace a disgrace he feels keenly, though he can have no idea what it is all about. As far as he is concerned he has done nothing wrong. You don't like to have your home smeared by mud tracks. I don't blame you. Neither do I. But, again it isn't the dog's fault.

If you will take the simple precaution of keeping a large soft rag near the door, and if you will rub the mud from his feet and body with it before letting him come in, the problem is solved. Actually it is less trouble than swabbing up dried mud from your floors.

SPEED OF A DOG'S TAIL WAG
I don't know why they bothered to figure this out, but a group of scientists did so recently. They found that a pup's tail travels 3 inches with each wag giving a top speed of 900 inches per minute or 85-hundredths of a mile per hour.

KEEP A PICTURE OF YOUR DOG

It is a good idea to have a photograph of your dog—a good clear one. On the back of his picture put your dog's license number and other pertinent information. Then if your dog is ever stolen you will have a distinct likeness, whereby he can be recognized at a glance and proof of ownership established.

Too often if there is a photograph of a dog around the house it is an unrecognizable and blurred snapshot. Just for the fun of it, try describing your dog when he is not before you and you will find how helpful, in an emergency, a good snapshot can be.

THE QUESTION BOX

Question: I am buying a dog from a kennel in another state. Do I pay the cost of shipping the dog or does the kennel?

E. S. N.

Answer: The usual practice is that the buyer pays the shipping costs.

Question: A friend told me that sometimes domesticated dogs are bred to wolves. Is that true?

E. L.

Answer: The only place I know of where that is done, and then only very rarely, is in the far north. There are certain tribes of Eskimos that are said to mate their dogs occasionally with wolves.

One of every four persons in the U. S. lives in a community where a steel mill is located.

Pampan One Of 10 To Get \$500 Award

LUBBOCK —(Special)— Five seniors and five juniors at Texas Technological College including Don Loshier of Pampa have received \$500 scholarship awards each for the spring semester from the Amio Foundation, a non-profit organization interested in research and grants.

Tech is the only school in this region receiving the awards which were established in memory of Robert Glenn Rapp, Oklahoma City oil man. The scholarships were granted on a yearly basis to junior and senior students in petroleum engineering and related fields. An applicant must have at least a two-point (B) grade average and meet other requirements.

Tech seniors receiving the awards are: Aubrey J. Brooks, Jr., petroleum engineering, Lubbock; Charles L. Davidson, chemical engineering, Clovis, N. M.; Louis F. Goss, petroleum engineering, Coleman; Don J. Loshier, petroleum engineering, Pampa; and Edward C. Sessions, petroleum engineering, Ysleta.

Tech junior winners are: J. B. Ashton, chemistry, Lamesa; Alton C. Goodrich, petroleum engineering, Anson; Deway W. Pierce, petroleum engineering, Grand Saline; Robin A. Saunders, petroleum geology, Bradford, Pa.; and R. C. Schlager, petroleum engineering, Rankin.

A junior recipient of the scholarship may apply for a second award his senior year provided he has fulfilled certain on-the-job training requirements during the summer months.

GOA, Portuguese India —(P)— Japan is trying to negotiate for annual exports from Portuguese Goa of 100,000 tons of iron ore and up to 40,000 tons of manganese ore.

Two Nippon representatives said Japan's yearly import needs were at least 6,000,000 tons of iron ore and 400,000 tons of manganese ore.

DIDN'T MAKE IT—These Army Air Force volunteers, and several others who failed to appear, Friday, were told by Sgt. Davis Brown, Army recruiting officer, that their Air Force enlistments would have to be canceled. Broken gave the men, most of whom are 19 or 20 years old, three choices. They could let themselves be drafted, enlist in the regular Army for 21 months, or enlist in the Army for three years. Sgt. Brown asked that the youths inform him of their decision by Monday, when he would return the papers of those not wishing to enlist back to the local draft board. The group above numbers only about half of those requested to appear. Most of them enlisted in the late fall and early winter of 1950. (News Photo and Engraving)

Rig Activity Picks Up Pace

DALLAS — Rotary rigs operating in oilfields of the United States and Canada during the week of March 5 showed a net increase of 48 over the previous week, according to a report to American Association of Oilwell Drilling Contractors by Hughes Tool Co. Most of the increase was reported in Oklahoma, up 36 rigs and in West Texas and New Mexico, up 30. The Gulf Coast area was off 13 units and Illinois was down to a record low of 23 busy rigs, off 8 for the week.

The total for the week of 2202 compares with 2154 in the previous week, 2119 a month ago and with 2042 in the comparable week of 1950.

A comparison by principal areas

for the past two weeks shows: Pacific Coast, up 3; Oklahoma, up 36; Kansas, unchanged; Rocky Mountain, up 6; Canada, down 5; Ark-La-Tex, down 1; West Texas & New Mexico, up 30; Gulf Coast, down 13; Illinois, down 8.

VARY FISH DISHES For a variety of fish dishes for a main dish serve: baked fish with creole sauce; creamed salmon or tuna; codfish cakes with tomato sauce; curried shrimp; lobster a la king.

EVENT POSTPONED — postponed until April 7. Inability of several of the teams to compete tomorrow was the reason. Read the News Classified Ads.

Freedom Program Set By 4-H Clubs In 1951

With the theme, "Working for World Understanding", 4-H club members of the nation are building their work for 1951 around a 14-point freedom program.

The 4-H defense mobilization pledge reads: "As a 4-H Club member and an alert citizen of our nation, I will earnestly work to preserve our deeply rooted spiritual heritage, our time-proven democratic government for free men, and our vast wealth in manifold human and natural resources."

In carrying out this pledge, the 4-H Club member agrees to do all he can, to obtain the best possible education, understand what genuine freedom in democracy means, keep physically fit and strong, produce for home and world use, and to assist in the conservation of all natural and material resources. He further agrees to do all he can to take over tasks of old

7 P. M. Bandit Puts Ceiling On His Take

MOBILE, Ala. — (AP) — Mobile's 7 o'clock bandit — a guy who puts a ceiling on his take — went on the silver standard last night. Tuesday night he robbed Mrs. Harold Matthews of all the one dollar bills in her grocery store, but passed up the fives, tens and twenties.

er members who leave for military service, participate in various defense mobilization and relief campaigns, care for young children, learn and demonstrate labor saving devices, receive training in first aid and home nursing, provide ways of giving comfort to victims of war casualties, and to keep well informed regarding the United Nations and world affairs.

And he will continue to help and write to boys and girls in other lands and help stir the hearts of fellow Americans to a renewed allegiance to the flag of the United States and to the Republic for which it stands.

County-Wide Insurance Is Under Study

CANADIAN — (Special) — Hospitalization insurance under the Texas Blue Cross-Blue Shield plan may be made available soon to all Hemphill County residents — if there are enough families who want it.

At the invitation of the Canadian Chamber of Commerce, Harry Hatch of Amarillo, regional director of the Texas Hospital Service, which administers the Blue Cross plan, met with a group of Canadian men Tuesday night at the City Hall to discuss the possibility of opening membership in a county group.

Blue Cross has not opened enrollment to community groups for the past two years, Hatch told the group, since early experiments with community groups failed.

After hearing proposals of local chamber of commerce representatives, however, and after an open discussion of the plan with the group of nearly fifty business men attending the meeting Tuesday night, Hatch promised to recommend to the state office that group enrollment be made available in this county.

To form a group, however, he stressed the fact that it would be necessary to enroll approximately 50 percent of the families in the

county. Those already enrolled in employee groups, Hatch said, would be counted toward this total. More than 100 families are already members of Blue Cross through various employee groups in the county.

An additional 250 families would have to be enrolled to make the plan work.

Hatch stressed the fact that Blue Cross is a non-profit organization, existing solely for the benefit of its members. "This is not a commercial profit-making plan," he said. If the county group is opened, Hatch warned, only the Blue Cross-Blue Shield "standard service" policies will be available. The wider coverage (higher premiums) offered under "comprehensive" and "preferred" plans is not available now to community groups.

This policy, he said, covers about 60 percent of the doctors' fees, on the average; and a considerable portion of hospital bills.

If the Texas Group Hospital Association agrees to open enrollment for a community group in this county, complete details of the plan will be available, Hatch said. The Canadian Chamber of Commerce had to sponsor the organization of a Community Group in the county for the benefit of all Hemphill County residents. If there is sufficient interest in the plan, efforts will be made by the chamber of commerce directors to secure the necessary enrollment.

PEAS WITH CHICKEN

Cooked green peas are delicious added, with a little diced canned pimiento, to creamed chicken. Serve on split hot biscuits.

Use Common Sense to Take Off That Ugly Fat

Overweight can be a menace to health, but common sense should be the watchword to get rid of the extra pounds. A rigid diet over a prolonged period of time, can do harm. It is advisable that you seek your physician's advice before trying to take off weight via the diet route.

Possibly one bulky person in 10 has some glandular disturbance and that is truly a case for the physician. But for the other 90 per cent, judgment should be used in deciding the "plan" decided on to reduce. Overeating is one of the main contributing causes of excess fat. You may say you do not overeat—that you only eat enough to satisfy your hunger. But your intake of food may be greater than necessary for the energy you expend. Thus, the excess food turns into fat. You can eat all you want—enough to satisfy your hunger—enough to maintain bodily requirements and still eat LESS. Sounds like double talk, but it isn't.

A recent survey among Texas druggists

has shown that there is one outstanding reducing aid on the market that definitely curbs the appetite. At the same time it dehydrates and eliminates. This product contains no harmful drugs. On the other hand it does contain ingredients to make you feel better—more alive, active and peppy. Nearly four million bottles of this preparation have been sold in Texas in the past eight years.

This reducing aid is called Barcenatone. You can get a four ounce bottle of Barcenatone from your druggist. Pour this into a pint bottle and add 12 ounces of canned grapefruit juice. Then just take 2 table-spoonfuls twice a day. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if you reduce pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Promises Vote If Sent To Active Duty

WASHINGTON — (AP) — A Texas soldier wrote Sen. Connally of Texas that if he'd get him transferred to Korea he would be sure and vote for him—when he got back.

The Texan, Pfc. James C. Kemp of Galveston, is stationed on Okinawa.

"Right now they've got me working behind a desk," he wrote, "but I am also a pretty good shot with a rifle, and I figure if they'd put a few more Texans over there the war would be over pretty soon."

"I don't like to ask for favors, sir, but it seems to me I'd be doing a lot more good in Korea and maybe somebody there would like to trade places with me, so if you could help, sir, I'd sure appreciate it and I'd sure vote for you when I get back."

Connally forwarded the letter to Secretary of the Army Pace.

Remember that life is made up of loyalty; loyalty to your friends, loyalty to all things beautiful and good, loyalty to the country in which you live, and above all, for this holds all other loyalties together, loyalty to God.

—Queen Mary

REMODELED—The southeast corner of the playroom of the newly remodeled Girl Scout House is shown here. Even the piano has been repainted. The walls are dark green and the plastic curtains are a darker green with yellow figures. The fireplace is pale green. Besides the playroom, the house includes a kitchen with a new range and a bathroom. Lockers occupy the north end of the playroom where craft supplies for each troop may be stored. (News Photo and Engraving)

Girl Scouts Hold Open House For New Home 2 P.M. Today

Climaxing Girl Scout Birthday Week, the local organization staged a Friendship Fair Saturday night at the junior high school gymnasium and was to have open house from 2 to 6 p.m. today at the newly remodeled Girl Scout House.

Mrs. O. L. Statton and Mrs. R. H. Neinstiel are in charge of the open house. Crafts are on display and refreshments are being served.

The house, donated to the organization by the Kiwanis Club in 1945, has been made 10 feet wider throughout. The house includes a large playroom, a kitchen and bath.

Asbestos shingles have been added to the outside of the house and the interior has been painted and redecorated. New furniture has been installed, along with lockers for each troop to keep supplies for their crafts. A ceiling heater and new floor have been added.

Civic clubs have helped in furnishing the house and all volunteer labor was used. Jeff Lard Contractors worked with Lynn Boyd Lumber Co. in the remodeling. Lawrence Redman did the interior work and the Electric Work D. L. Parker is working on the landscaping.

Plans are to hold most of the Girl Scout activities in the house, which includes the annual association banquets, troop meetings and overnight parties. Twenty-seven booths were in-

AS IT WAS—This is how the Girl Scout House looked before remodeling began last fall. Open house is to be held from 2 to 6 p.m. today in the newly remodeled house, 715 E. Kingsmill. Light brown asbestos shingles have been added to the outside of the house and the door painted a medium green. Interior decoration has been completed throughout. (News Photo and Engraving)

cluded in the Friendship Fair Saturday night. Each local troop had a booth. Some of these booths sold food while others portrayed various countries of the world in which Girl Scouting is active. The dream of the founder of Girl Scouting, Juliette Low, was to make her project international and the annual fair is in her memory.

Crafts were on display and a food was sold during the first part of the fair, which was followed by the program. Mrs. M. X. Beard, Jr., program chairman, made the welcome address. In the grand entry there were

MOBEETIE MRS. ALVIS BURKE

Mr. and Mrs. Aubrey Jeffus visited in the Julius Romines home Sunday.

Mr. and Mrs. Earl Alexander are the parents of a 6 pound, 2 ounce girl born March 3 in Pampa. The baby has been named Earletta.

Mr. and Mrs. Warren Thompson and sons of Amarillo visited with his mother, Mrs. Maggie Thompson in Mobettie Monday.

Mr. and Mrs. R. L. Vanlandingham of Dimmitt spent last weekend in the home of her brother, Doyle Grimes and family.

Mr. and Mrs. Paul Jeffus and daughter, Mary Ruth, and one of her girl friends, are visiting here from Decatur, Ark.

Mr. and Mrs. Bert Thompson visited with his mother, Mrs. Lonnie Thomas and sister, Chestnut, here recently.

Mrs. Tracy Willis visited in Pampa this past week with her father, who was ill.

Mr. and Mrs. DeWitt took over the Mobettie Drug Store this week. They purchased it from Johnny Buck Scribner. Their daughter, Mrs. Joyce Robinson, is helping them.

Mr. and Mrs. C. R. Brown and

two representatives from each troop. One of the representatives wore the costume of the country which her troop had chosen to depict, while the other representative wore the United States Girl Scout uniform.

This was followed with a flag ceremony and the presentation of each troop's contribution to the Juliette Low fund. Mrs. Gene Pattee, fund chairman, took the donations.

Mrs. Harold Osborne was the narrator of the 11 Program Fields. Troops pantomimed each program field, which included agriculture, arts and crafts, community life, health and safety, homemaking, international friendship, literature and dramatics, music and dancing, nature, out-of-doors, and sports and games.

The program was concluded with Taps.

Joe, Mr. and Mrs. Walton, Vernie Mixon, Frank Cox, Billy Joe Eads, Patricia Trimble, Bill Godwin, and Quada Burke attended the basketball game in Amarillo Tuesday night.

Margie Lester opened a beauty shop in Mobettie this week.

Hugh Bailey spent last weekend visiting with Mr. and Mrs. Jap Bailey.

Nannette Tyson, daughter of Mr. and Mrs. N. J. Tyson, returned to Dallas Monday after spending the weekend here.

Palaver de Pampa

SOMETHING IS IN the air—something more than our good old Texas dust, too! I began to have a sneaking suspicion something was amiss when Mr. Peg suddenly became more lavish in attentiveness, more generous about helping with dinner, more interested in our choice of new bedroom drapes, and more insistent that I set aside a few days for a spring shopping trip! All this, plus the fact I heard him rummaging around in the garage last night, brought the dawn—he's got fishin' fever! He's looking ahead to those weekends of enchantment along the banks of lake, pond, river and stream!

REALLY, THERE ARE times that I wonder what men see in fishing and hunting trips. Soon now, Mr. Peg and his pals will head for the fishing holes—they'll wear the same shirt for days, drink coffee made of lake water (they'd never drink that caliber of coffee at home) and let their beards grow out fantastically fast. And besides, the fish (singular) they bring home aching joints, puffed eyes (troutlines encourage late hours) all manner of bug bites and bruises. Natchally, they come home telling the hilarious mishaps that will cause them to just look at one another and call to mind the time "Old Joe let the big one get away," and they'll slap their knees and laugh and laugh while we gals sit back and half grin, never seeing the joke because we weren't there!

THE LITTLE newly-wed of our block is quick to catch on to the tricks of the trade. She's learned from one of our best-liked hostesses that one should in the cupboard is set aside for unexpected guests. Quick, easy things for hors d'oeuvres, cheese spreads and canned meats for sandwiches, and in short, anything delectable that makes a husband always feel safe in saying, "Come on by our house—my wife will fix us a snack tray."

WITH ED MYATT, Howard Buckingham, Herman Darby and Floyd Inel working so hard on the new Pampa Progress Club, I got to thinking there should be at least one more branch of the chamber of commerce. There seems to be a real need for a Coming Events Committee—a group which would schedule all musical, athletic, dramatic and speaking engagements for several weeks in advance. In some cases there would be an accepted conflict of events, but of late there has been this "We would have made our entertainment another date had we known such and such thing was to be held." (Peg, for one, would like to see a little coming events column run in The News—maybe once a week.) But back to the special events committee—it would be well for a club president to be able to call a central committee instead of many committees and ask what's to happen on particular dates and then organizations could steer clear (whenever possible) of conflicting with another group's efforts to bring us entertainment. Not that it happens frequently, but you do remember the nights there were two particularly fine programs you wanted to see and had to make a choice. You remember, too, the nights when there just didn't seem to be a thing to do in Pampa. Just a thought. Maybe somebody can work out a plan. We have a good example next Tuesday night when the Harmon Basketball Banquet is going to conflict with the Rotary Club's Ladies Night.

PANORAMICALLY: We Mamas kept our children while local teachers were at the conference in Amarillo last Friday... a holiday-popping like that... like that... like that... give a good breathing spell for the young ones... Virginia Vaughn, a very popular teacher and linguist, is a refreshing personality... she usually wears skirts and blouses with a tie or such at the neckline... which all seems very appropriate for the classroom... Friendly, likeable Mrs. E. Casey just seems to be overflowing with the joys of living... she was hostess to one of the Presbyterian women's groups Wednesday... Mrs. E. L. Tarpley's house is getting all dressed up for spring... new paint, etc... The Pampa News bunch should be moving into their new building before too long and I know everyone is going to be as glad as I am to go through it... cause a peek through the windows shows that it is going to be a fine addition to our town... The J. B. Browns are such friendly folks... their vivacious, brunette daughter is a honey!... The Raymond Reids are infatigable, I hear... And that new, more radiant glow about Mrs. Floyd Ward is attributed to her forthcoming "grandmotherhood"... Mrs. R. C. Clapp's handsome son, R. C. (Sr.) wearing blue (a very good color for her) and wearing some dear little earbobs... Saw Ben Lockhart along main street the other afternoon... the Lockharts are a couple we have missed since they moved back to their ranch a year or so back... Also will miss the Bob Dukets... think they've already moved farther south... Don't forget the open house at the Girl Scout Little House from 7 to 8 this afternoon... The young 4-H club has been in the limelight all week... Peg's mentioned before how partial she is to this work... Mrs. L. A. Lavery is one of the many loyal leaders... The beauty operators who style the hair of the dozen Gilbreth children in the senior play had red dye from top to toe... They had fun doing it... We had fun at the play, too... it could have played another night... Don't forget the baseball banquet Tuesday evening... and if you want to add just a touch of spring to your outfit that night, well then, in a cluster of violets to your neckline... Thanks to Pearl and Al Springer for the nice letter... I may pick up that bouquet in the spring.

IT SEEMS THAT in other parts of the country people are preoccupied with civilian defense, first aid and nurses aid courses, or other Red Cross volunteer work. Personally, Peg has not given too much thought to civil defense in Pampa, but with the emphasis on the Red Cross drive last week, I was aware more than ever that if there is a war it may well be defensive war. That means that for the first time in our history we have an enemy capable of attacking us at any time, and for that, if no other reason, the Red Cross is carrying the heaviest burden of its existence. This defensive type war makes first aid training more essential than ever, and chapters throughout the country are training groups with the hope of educating one person out of every seven for civil defense. Actually, Red Cross training is a good thing regardless of the present emergency... it's well to be a mother who can handle the dozen and one accidents about the home.

SOME CITIES ARE utilizing every age group. Older girl scouts "baby sit" with the children of mothers who are qualified to teach in first-aid courses. Or they "baby sit" for the mothers who want to train as nurses aides and thereby relieve registered nurses. Our local chapter is equipped to train you—and it can also use your talents. Ask the Red Cross what programs are being planned, and ask what you can do to help. We've given our money—now let's give our time!

THAT MENTION of girl scouts watching children an hour or so while mothers help in Red Cross work may be acceptable in some cases, but actually, it would take a whole troop to hold down the front at our house while I took a civil defense course. Don't know why when we call a "sit" in the children's take unfair advantage of her. The house invariably takes on the appearance of a disaster area by the time we return. But on the other hand, a girl scout troop could get some marvelous experience in combatting mob violence at the home of

PEG O' PAMPA.

All Must Bear Share Of Government Taxes' Allegro Members Are Told

"Ever since people have lived together in a civilized state there has been taxation in some form," Mrs. Jerry Thomas began as she spoke to the Twentieth Century Allegro Tuesday on the topic, "Taxation." The meeting was held in the home of Mrs. Harold Rinehart, 1614 Williston. Mrs. Rinehart and Mrs. Charles Hickman, Jr., were co-hostesses.

Mrs. Thomas, program leader, was assisted by Mrs. Betty Brock and Mrs. Robert Karr.

Continuing her discussion, Mrs. Thomas said "Since 1933 with the gradual socialization of the country, taxation has grown. There are many loopholes in the tax laws and we as tax payers and voters should study taxation and its problems."

Mrs. Thomas introduced Mrs. Brock who spoke on "City, County and State Taxes," saying "Death and taxes are inevitable." She told of the incorporation of Pampa in 1912 with a tax value of \$205,000, saying "The rate of taxation at that time was 25 cents per \$100 on the land. At the present time Pampa has an evaluation of more than 12 millions on the land and more than four millions personal with a taxation rate of \$1.75 per \$100 value. This money is allocated to various sources."

The speaker continued "Pampa is a Home Rule city. It has a mayor and four commissioners. The city gets its authority to tax through the Constitution of

Texas and through the verdicts of our courts. There are other means by which money is collected to run the city besides taxation."

"In 1950, 97 percent of Pampa's city taxes were paid," Mrs. Thomas said. "Our mode of living depends a lot on the city government and the program which we have. We should be interested in our city and elect the right kind of people."

Mrs. Brock then explained the county and state taxes in this way: "The county tax rate is \$1 per \$100 value, and the state tax rate is 75 cents per \$100 value. Since the county collects both its and the state's taxes, it is difficult to distinguish between the two. Money is collected through the ad valorem tax on real estate, personal property, by motor vehicle registration, through the poll tax and through many indirect taxes."

She went on to mention the school tax, which she said is set at \$1 per \$100 value, saying "The state allocated so much money to the various schools per pupil. The oil companies of Texas furnish more money for Texas schools than any other source."

"By adding together our city, county and school taxes we get a tax rate of \$4.47 per \$100 value."

Mrs. Karr, who spoke on Federal taxes, reminded the group that the government has no money. (See GOVERNMENT, Page 14)

Linda Burba, Ernest Russell Marry

WHITE DEER (Special)

—The First Baptist Church, Skellytown, was the scene of the wedding of Miss Linda Burba, daughter of Mr. and Mrs. John L. Burba, Sr., Skellytown, and Ernest Russell, son of Mr. and Mrs. E. Russell, Panhandle, Saturday evening, March 3, at 8 o'clock.

Baskets of white gladioli and ferns, and tall white tapers in seven-branched candelabra formed the background for the double-ring ceremony, read by the pastor, the Rev. M. O. Evans.

Preceding the nuptial vows Miss Billy Joyce Adams played "For You" and "A Love Story," and accompanied Miss Nelda Higginbotham of Panhandle as she sang "At Dawning" and "Because." During the ceremony, Miss Adams played "The Lord's Prayer."

Given in marriage by her father, the bride wore a gown of white satin. The fitted bodice was fashioned with deep points at the waistline, long pointed sleeves, a lace yoke with flowers of the lace applied on the satin outlining the yoke, and a full skirt ending in a short train. Her fingertip veil fell from a white satin Juliet cap, and she carried a white orchid on a white ribbon.

The candles were lighted by Doris Ann Carter and Patricia Mercer. Attending her sister-in-law as matron of honor was Mrs. John L. Burba, Jr., of Houston, who wore a dress of pale orchid taffeta designed with gathered skirt and scalloped neckline. She wore a matching heart-shaped bonnet, and carried a bouquet of yellow roses.

Mrs. Clayton Knapp of Canyon, sister of the bridegroom, and Miss Joan Estes of Skellytown were the bride's other attendants. Their costumes were identical in design to that of the matron of honor, but Mrs. Knapp's was yellow and her bouquet was of blue daisies, while Miss Estes' was aqua and her bouquet was of pink daisies. Arlene Burba, cousin of the bride, served as flower girl. She wore a blue taffeta dress with matching bonnet, and a wristlet of daisies and carried a white basket of flower petals.

Aubrey Russell attended his brother as best man. Oliver Russell, another brother of the bridegroom, and Dee Burba, a brother of the bride, were groomsmen.

The bride's mother was attired in navy blue with white accessories, and the bridegroom's mother wore navy blue with black accessories. Their corsages were of red roses.

At the reception in the church parlor, an arrangement of white gladioli centered the bride's table. Miss Janice Marlar served the three-tiered wedding cake, and Miss Billie Meadows presided at the punch bowl. Miss Ramona Hightower registered the guests. All three are high school classmates of the bride.

Immediately after the reception, the bridal couple left for a trip to New Mexico and Arizona. The bride's traveling costume was of dusty rose, with white and navy accessories, and an orchid corsage. They will be at home at 1905 Fifth Street, Canyon.

Mrs. Russell was graduated last spring from White Deer High School, where she was a member of the National Honor Society, editor of the high school yearbook, and a past worthy adviser of the Order of Rainbow for Girls. At the time of her marriage she was a grand representative from Kansas to the Texas Grand Assembly. She is a freshman at West Texas State College.

Mr. Russell is a graduate of Panhandle High School and a veteran of World War II. A member of Tau Tau Tau Fraternity and the Student Senate, he is a senior at West Texas State College, majoring in business administration.

Among the out-of-town guests were Mr. and Mrs. W. B. Hash and Joann; Mrs. H. H. Threalt; Mrs. G. E. Groninger, Billie and Carolyn; Mr. and Mrs. E. E. Ethridge, Marguerite Nash, Nora Williams, Mr. and Mrs. S. L. Young, and Mr. and Mrs. M. T. Buck, of Pampa.

Mr. and Mrs. Richard Render, Wichita, Kansas; Mrs. Ivan Kirkpatrick, Frederick, Okla.; Mr. and Mrs. T. R. Vernon and Bill Tipton, Okla.; Mr. and Mrs. A. K. (See LINDA BURBA, Page 14)

Wesleyan Guild Has Study Meeting

The Wesleyan Service Guild met in the home of Miss Faye Ann Porter with Mrs. Ben Ogden as co-hostess. Miss Inez Clubb, president, conducted the business session.

Miss Ila Pool gave a devotional from The Lord's Prayer, followed by a solo, "Have Thine Own Way Lord," by Miss Janice Branson, accompanied by Mrs. Irl Smith. Mrs. Earl Parks led the concluding study of the Near East, discussing the political and economic life. She mentioned the impressive worship center of the globe surrounded by three lighted white candles just beneath a map of the Near East. It was arranged by Miss Clubb.

There were 15 members and three visitors present. Guests were Mrs. A. L. Porter, Mrs. Frank Shotwell and Mrs. Russell West. Refreshments were served.

MR. AND MRS. ERNEST RUSSELL

Miss Betty Jones And Harold Hink Are Married In Double-Ring Rites In Clovis Methodist Church

Mr. and Mrs. O. O. Jones, 724 E. Francis, announce the marriage of their daughter, Betty, to Harold Hink, son of Mr. and Mrs. Henry Hink of Kelton.

The double-ring ceremony was read at 4 p.m. Saturday, Feb. 24, in the First Methodist Church in Clovis, N.M. The Rev. Thomas H. Raper officiated.

The bride wore a beige and white gabardine suit with chocolate brown accessories, and a corsage of pink carnations. She wore a pink lace blouse borrowed from her sister, Mrs. James D. Boland, and had a 30-year-old penny in her shoe. She carried a gold Bible presented to her by her father and mother on the day of her marriage.

The bride is a 1943 graduate of Pampa High School, where she was a member of La Rosa Sorority. She is employed by a local group of attorneys.

Mr. Hink was graduated from Kelton High School in 1940. He spent 42 months in the United States Navy during World War II, and is employed by the Cabot Company.

Mr. and Mrs. Hink live at 1301 Duncan.

4-H Club Advisor, Miss Joy Williams

Although out of college but a short time, Miss Joy Williams has already established herself as an important person among the boys and girls of Gray County. In addition to serving as 4-H Council advisor, she is assistant to Mrs. Mary Anne Duke, county home demonstration agent.

Miss Williams was graduated from Texas Technological College in August of last year with a Bachelor of Science Degree in Home Economics Education. She came to Pampa in her present position in October and has been working steadily with the 4-H clubs since that time.

Miss Williams is the daughter of Mr. and Mrs. Milt Williams of near Shamrock.

Coffeys Entertain At Canasta Party

Mr. and Mrs. Cleo Coffey of the Phillips Camp, south of Pampa, entertained a group of friends recently with a canasta party in the Phillips dining hall.

The Easter motif was carried out in a centerpiece of a rabbit dressed for the Easter parade. Prizes were presented to Miss Marilyn Adame, Gerhard Treu and Miss Melba Morris.

Women guests wore Easter bonnets made of crepe paper, and pink angel food cake, lime sherbet and coffee were served.

Present were Mr. and Mrs. Howard Brown, Mr. and Mrs. Robert Orr, Mr. and Mrs. Ben Burgess, Mr. and Mrs. Marvin Stone, Bill Hamilton and Miss Melba Morris, Borger, and Miss Dot Ekins, Miss Murtle Capps, Miss Adame and Mr. Treu.

Wayside HD Members Guests Hold Party

Mr. and Mrs. Clint Caylor and recently in the club house. Mr. and Mrs. W. R. Dunn hosted a party for members of the Wayside Home Demonstration Club members and guests.

Series Of Pre-Nuptial Showers

Compliment Miss Mary Lou Gantz

A bridal shower for Miss Mary Lou Gantz, bride-elect of Donald Moen, was given in the home of Mrs. Paul Crouch, 1700 N. Charles. Hostesses were Mrs. Crouch, Mrs. T. J. Worrell and Mrs. Glenn Radcliff.

The table was laid with white linen and centered with red and white carnations. Other table decorations featured red hearts. The honoree was presented a corsage of white carnations with red hearts.

The guest list included Mmes. Roy Taylor, M. S. Heard, C. B. Guidrey, Robert Coley, Cecil Williams, J. H. Jones, C. D. Herring, Don Gantz, C. J. McNaughton, Homer Dockery, Shelby Gantz, C. L. Thomas, Homer Doggett, Roy Hall, H. R. Kees, H. M. Hassell, J. F. Garrett, C. E. Boswell, T. H. Flood, Bill Smith and T. J. Lafferty.

Mmes. Gwen Johnson, O. O. Drev, Sam Thomas, Jerry Thomas, J. B. Austin, Hal Suttle, Alexander, Edna Watson, Flaudie Gailman, Cloma Satori, Ennis Jones, R. J. Sator, Rusty Ward, Cotton Clay, Bertie Tomlinson and Hap Patterson.

Misses Norma Myatt, Cornelia Cornelius, Josephine Thomas, Verda Ekins, Betty Boswell and Oma Kees and Mrs. George Moen, mother of the bridegroom, to-be, and Mrs. Herman Gantz, mother of the honoree.

What's Cookin' In Gray County HD Club Work

By MARY ANNE DUKE

WINDBREAKS PLANTED

The L. P. Ekins, William Waggoner and the Morley Doss family, all of the Grandview Community, have planted windbreaks.

These windbreak demonstrators are using Chinese elm for the outside row. The new row is of thornless honey locust, the third and fourth rows are of red cedar. The rows are 20 feet apart and the trees are spaced 12 feet apart in the rows.

These seedlings were received from the Texas Forest Service through the Texas Extension Service and through the Gray County Soil Conservation office. See the agent for details if you are interested in windbreak material free or at very low cost.

If you want to see a pretty windbreak which has been growing for about six years, then drive by the Fred Haiduk home, which is located several miles west of the Grandview School. FAMILY NIGHT AT HOME

Have you noticed how much fun your family has when everyone is in for an evening at home?

Lucille Moore, recreation specialist for the Texas Extension Service, suggests a little planning for this special evening at home.

Each day the group had a make-believe trip to some country. If it happened to be Mexico, then all the songs, games and table programs, as well as the special ceremonial and party at night, were planned accordingly.

Even the food was typical.

Miss Moore says your family can do the same.

Some member could plan the menu—another could decorate the table and another could take part in cooking and serving.

Then, when the kitchen is cleaned and the dishes put away, the living room could be the center of interest for the games typical of the country you are visiting. You might have to do a little research in the local library or current magazines to find games, songs, and costumes for the occasion, but while you're doing it, you'll find yourselves appreciating and feeling friendly toward this other country.

Sounds like fun—a make-believe visit with your family to some country for your "evening at home," or for your "community social."

Jacque Holmes And Christal Lowe Wed In Pastor's Home

Mr. and Mrs. Cecil Holmes announce the marriage of their daughter, Jacque, to Christal Lowe on Feb. 25. The single-ring ceremony was read in the home of the Rev. Douglas Carver.

The bridegroom is the son of John Lowe of Hoover.

The bride wore a navy blue suit with red accessories. Mr. and Mrs. Holmes live in Pampa.

A "krazy kitchen" shower in the home of Mrs. C. D. Herring, 120 N. Nelson, was given in honor of Miss Mary Lou Gantz. Mrs. J. F. Garrett assisted.

The table was decorated with a basket of vegetables flanked by blue candles, and baskets of fruit and radishes were used in the living room. A tin plate at the back door served as a knock-knock and the honoree received a corsage made of a "choire girl" and clothes pins tied with ribbon. Corsages of the same type. (See SHOWERS, Page 14)

Home Progress Club, Miami, Told Of Tour

MIAMI (Special) Mrs. C. W. Bowers was hostess to the Home Progress Club Thursday afternoon.

The program was given by Mrs. Paul Sowers of Groom, who told about the trip made by the Bowers family to the Natchez Pilgrimage. Natchez, Miss., in 1860. Mrs. Bowers illustrated her talk with a number of pictures taken on the tour of southern states.

In place of a special feature Mrs. Howard Mulkey presented a gift from the club to Mrs. O. W. Stanford, who resigned as a member.

The hostess served a refreshment plate to guests. Mmes. W. D. Allen, Mabel Arrington, Clyde Hodges, H. E. Baird, and Paul Bowers, and members, Mmes. John Briggs, R. E. Mathers, E. Thompson, R. E. Webster, J. K. McKenzie, Howard Mulkey, Ross Cowan, W. L. Russell, Helene Selber, W. L. Lard, C. C. Carr, O. W. Stanford, J. V. Coffey, and L. A. Maddox.

HD Agent, Assistant Attend Foods School In Pantex Village

Mary Anne Duke, county home demonstration agent, and her assistant, Joy Williams, attended a foods and nutrition school in Pantex Village, Tuesday and Wednesday.

Demonstrations at the school included the preparation and serving of a low cost meal with its purpose to help people in the Panhandle to combat the high cost of living.

Other demonstrations were the how and why of "market basket" gardening, giving tips on buying canned products, and preparing a meal from the deep freeze.

The demonstrations were conducted under the supervision of Miss Frances Reasonover, assistant food specialist from Texas A&M.

VARY FLAVORS

When you're making a menu never repeat the same flavor in two courses. For example, if you serve tomato juice first, don't serve a main dish with a tomato sauce. The exception to this rule is fruit; if, for instance, you are starting a dinner off with grapefruit halves, it is perfectly all right to serve ice cream or cake with a strawberry sauce.

An electronic fault-finder is used to achieve tonal perfection by manufacturers of band and orchestra instruments.

and Mr. and Mrs. Harold Knapp of Canyon.

BEAUTY AFTER FORTY

A HAT IS A HAT—Robert Dudley, noted milliner, creates a headline.

I think that we like hearing a man's view of what he really should look youthful charming and thinks of women. On my lecture tours I hear a lot of comments on Robert Dudley. He tells the women what he thinks about a woman's personality design. He decides a lot of things but mostly what he doesn't look like and wear the same types of hats and clothes just because they are fads of the moment," he says.

As Robert Dudley is a milliner as well as a lecturer, he has great opportunities to study the ways of women and especially the After Forty group, which, he says, is "very interesting." Well, as there are more than 30,000,000 of us, we are interested!

Dudley has charm, poise and a delightful sense of humor but he is never humorous about millinery, and hats he takes very seriously, and so do the women. "Because," says this clever gentleman, "a hat is a head start to a successful appearance."

He likes to discuss the continental woman in relation to the American woman of the After Forty group. He says that we don't accept maturity as cleverly as do the Europeans. "It is hard at being young and looking young," he says.

"The mental picture which you have of yourself as a mature woman, the philosophy which you develop, built up through the years, has come to fruition when you come into your own, your After Forty maturity. Women should wear color; pastels, exquisite cool blues, pink mauves, which do nice things to the skin." Incidentally, Dudley likes silver hair faintly touched with blue. "It's elegant," he says. He thinks that the hat should be the keynote of the costume, should fit the head, "If you wear glasses, expose them, don't try to hide them under a hat brim."

"American fashion designers are superior to European stylists, and a hat is a hat, not a chat being young and looking young," says Robert Dudley.

SHOWERS

(Continued from Page 13)
were presented to Mrs. Gantz and Mrs. Moen, mothers of the couple to be married.

All of the guests wore gingham dresses and kitchen games were played. Refreshments were served.

Present were Meses. J. H.

Jones, Shelby Gantz, Margaret Guidry, H. M. Haasell, N. L. Colgrove, George Gray, Wayne Couch, Glenn Radcliff, Paul Crouch, C. S. Malone, Bert Arney and Jack Merchant.

Misses Norma Myatt, Dorothea Gantz, Jimma Garrett, Gale Her-ring, Elsie Housdon, Patsy Walls, LaJuana Garner; and Mrs. E. B. Stueben of Borger, Mrs. Ray Gibson of Guyton, Okla., Mrs. Herman Gantz, Mrs. George Moen and the guest of honor.

GOVERNMENT

(Continued from Page 13)
except what comes from the people themselves. The income taxes furnish four-fifths of the government's money. There are, besides the income taxes, the estate and inheritance taxes, the gift tax, luxury tax and many hidden taxes.

"In January President Truman presented his 1951-52 budget with great raises in taxes and many new taxes. With all this trying for more taxes, there are some agencies which the government permits to operate tax free. Some of these agencies are the co-operatives, various charities, government owned businesses and educational owned businesses."

The majority of the people today believe these should be taxed, because in most cases they compete with corporations which are heavily taxed."

Mrs. Karr concluded with "everyone must bear his share of government taxes, without exceptions."

Mrs. Brock concluded the program with a definition she once heard — "The art of taxation consists of plucking the goose so as to obtain the largest amount of feathers with the least amount of hissing."

Presiding over the business meeting was Mrs. Charles Hickman, Jr. Mrs. Hickman will become president of the club, succeeding Mrs. Robert Duket who has moved from Pampa. Mrs. Malcolm Wyatt was elected vice president to succeed Mrs. Hickman.

Members present were Meses. Clifford Braly, Betty Brock, George Cree, Jr., Price Doster, Jr., Robert L. Edmondson, John Garmann, J. W. Garman III, Charles Hickman, Jr., Robert Karr, R. E. Reid, Creel Grady, Jerry Thomas, Malcolm Wyatt, Harold Rinehart and J. W. Graham, Jr.

The next meeting of the Twentieth Century Allegro will be March 20 in the home of Mrs. Bill Davis.

JACQUE - HOLMES

(Continued from Page 13)
yellow and blue. Also receiving courages were Mrs. Cecil Holmes and Mrs. Nancy Holmes, mother and great-grandmother of the bride.

The bride's table was laid with a lace cloth centered with a miniature bridal pair on a mirror reflector. Flanking this arrangement were lighted blue and white candles in crystal holders.

Mrs. W. L. Morris and Mrs. Norman Walberg served refreshments and Mrs. Donald Walberg presided at the guest register. Mrs. Love was assisted in opening her gifts by her husband and her mother.

No greater hope have we than in right thinking and right acting, and faith in the blessing of fidelity, courage, patience, and grace. —Mary Baker Eddy —Theodore Roosevelt

Goodrich Bats 1000 Percent On Decisions

District Judge Lewis M. Goodrich was still batting 1000 with the Court of Civil Appeals in Amarillo this year on appeals from 31st District Court.

His third affirmance for 1951 came through the mails late Friday morning from the appellate court, notifying him of affirming his action in the Laketon Wheat Growers vs. H. E. Gray, a civil suit involving a \$1,400 plus loan. Judge Goodrich, in a non-jury trial, awarded a judgment to the plaintiff, Gray's attorney appealed the case but lost again on appeal.

This was the third appeal sent to appellate courts this year, and the third affirmance.

One case was tried last year in Wheeler when Herman Sullivan was sentenced to 35 years for shooting and killing a white teenager in The Flats at Shamrock. Sullivan's attorneys appealed to the Court of Criminal Appeals, but that verdict, too, was upheld by the tribunal.

Since he first took office in 1947 Judge Goodrich "has been shot at" approximately 25 times and reversed only four times.

Wars Force Rough Tactics

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The text for today is: "If we are forced into war, let's not be too finicky about the methods we use in defense, so long as we stay within the laws of civilized warfare."

Lt. Gen. Matthew B. Ridgway, commander of the U. S. Eighth Army in Korea, remarked while touring the battle zone: "We have only one objective - kill Chinese and save ourselves."

That sounds tough - and it is tough. But it's the essence of every commander's task. Probably General Ridgway would be glad to be able to substitute the expression "put out of action" for "kill." But the fact remains that war involves killing, and it's either you or the other fellow.

That brings us up to the killingest weapon man has invented - the atomic bomb. Is the wiping out of whole cities with their populations justifiable in defensive war?

One of the finest military analyses I've seen on this subject comes, not from a soldier but from a scientist - Dr. Vannevar Bush, president of the Carnegie Institute of Washington. He was director of the Office of Scientific Research and Development during the war. This office organized the labors that produced the atomic bomb.

The scientist's thesis was that another world war could be prevented through maintenance of strong ground defenses by the western world, coupled with the development of the atomic bomb.

Said he: "If Russia sent its armies rolling across the German plains tomorrow, we, with our A-bombs and the planes to carry them, would destroy Russia. We could do it without question, as matters stand today."

"The answer to this is that the armies would not roll."

However, Dr. Bush pointed out that we can't depend indefinitely on strategic bombing as sole means of preventing Russian aggression. We must have strong ground forces in Europe to hold back an attacking army, while we strike in other ways.

There we have, it seems to me, the perfect example of legitimate use of the atomic bomb. Obviously if our atomic power should be challenged by an aggressor, it might mean death and destruction for the enemy.

But let's not be over finicky about that.

Rains Give Texas Rivers Small Rise

AUSTIN — (AP) — February rains boosted only slightly the level of Texas streams, the state board of water engineers has reported.

There were small rises on the Sabine, Neches and Trinity River Basins, but flows were abnormally low. At New Braunfels, the flow of the Guadalupe was higher than in January, but still lower than at any other time since 1929.

Singapore Defense Volunteers Lagging

SINGAPORE — (AP) — Residents of this British crown colony aren't falling over themselves in a rush to volunteer for the civil defense corps and auxiliary medical and fire services.

The government's appeal brought in only 42 registrants on the first day of the campaign launched early in February. Men and women over 20 years of age are wanted for the volunteer corps. The government says it wants to create an "efficient fourth arm" to aid the three-fighting services to defend Singapore in the event of war.

Oklahoma, Texas Ags Tie For Mark

NEW YORK — (AP) — The Texas Aggies and Oklahoma A&M are tied among national college basketball teams today for top defensive honors. Each permitted an average of 44.5 points per game. Arkansas, 45.3, ranked third; Texas 47.7 sixth and TCU, 48.9, tenth.

Salutatorian is Betty Jackson, granddaughter of Mr. and Mrs. J. Polk Osborne. She has an average of 93.6 for her four years.

Highest ranking boy in the class of '51 is Carter Burdette, son of Mr. and Mrs. Hugh Burdette. He has an average of 92.8.

chosen field and is today, one of the few, if not the only ranking ceramist who creates his entire product, from pure clay to the finished work of art as displayed in the shops and on museum tables.

At the Brooklyn Museum of Art, he is the only artist who has a whole room devoted to his work.

Patron Keeps Artist From Fleeing Italy

By GEORGE PALMER
FLORENCE — (AP) — Italy nearly lost its top ceramic artist, Guido Gambone, about a year ago. The 41-year-old artisan was all set to emigrate to Brazil in search of better working conditions when a young American art-lover happened along and changed his whole future.

Gambone, a poor, one-legged ceramist who never had a spare penny, was struggling along in his specialized art in a cramped dirt-floor shed near Naples. He was convinced Italy held no future for him and was about to accept an offer from a ceramic factory in Sao Paulo, Brazil. He even had his passport.

At that time, late 1949, a former Harvard man named Leslie White heard about Gambone. The 31-year-old Bostonian visited the artist in his tiny one-man "factory" at Vietri sul Mare, next door to Salerno.

"Look," White said, "don't go to Brazil. Stay here and do your work. If I can get you set up in a decent place to work will you stay in Italy?"

Gambone said he would. White went to work, enlisted a few friends, and among them they gathered enough money to set the artist up in a modern factory in Florence.

And there today for the first time in his life, Gambone is fashioning his delicate art under reasonable circumstances - and according to most critics, he's the hottest thing since the ancient Greeks.

Guido Gambone, a dark-complexioned man with a small black mustache, was born in 1909 in the little town of Montella in Avellino province just north of Salerno in southern Italy.

From his earliest childhood he

wanted to paint. But his father was dead against it. So, at 18, Guido ran away from home and worked as an apprentice in a small ceramic shop.

When he was 25 he lost his right leg in a motorcycle accident. But he never deserted his

Syphilis Rate In Iraq Called High

ALEXANDRIA, Egypt — (AP) — Initial reports of a syphilis control project in rural Iraq indicate that 40 percent of the rural population is infected. A world health organization team is beginning treatment with penicillin in efforts to reduce the number of cases.

WHO headquarters here said that the syphilis survey was made by a mobile team of scientists and technicians. Syphilis and beriberi, which is a congenital or hereditary form of syphilis—have been widespread in the Tigris-Mesopotamia area for centuries. A WHO field report said the amount of syphilis in the towns compares to city populations elsewhere, but that the rate is "much higher" among rural people.

There are 50 varieties of bananas in Hawaii.

RAY EVANS

Evans Speaks At Convention In Milwaukee

A lot of people who never heard of Pampa, Texas, before are due for an earful Tuesday, March 13, when City Engineer Ray Evans reads a paper before the national convention of the American Road Builders Association at Milwaukee, Wis.

Evans was selected by the Portland Cement Assn. to address the three-day convention on use of soil-cement stabilization process because of the city's wide use of soil-cement basing in street paving.

The city engineer left for Chicago Saturday where he will meet representatives of the association and travel from there to Milwaukee. His presence at the convention is at the request, and the expense, of Portland Cement.

The paper Evans wrote outlines, in detail, the process the city goes through in preparing its streets for paving, why the soil-cement type base is used, and where it is more economical than any other type base materials used.

In the early phases of his paper, Evans didn't "spare the horses" in drawing a verbal picture of Pampa and its environs.

Following the convention the city engineer will continue to be the guest of Portland Cement and will be given a private showing of their laboratory facilities in Chicago.

He is scheduled to return to Pampa Saturday.

Actor Defends Bad Men Role

HOLLYWOOD — (AP) — Kirk Douglas was stopping in the studio restaurant to talk to actress Jan Sterling when she said "I don't like you."

This was nothing personal on Miss Sterling's part. She had just seen the picture they had done together and was carried away by his characterization.

This sort of thing happens often with Douglas. People pass by him and mutter, "hello, you rat." He walks: "If people who know me do that, what must the general public think?"

The light-hearted slander he receives is due to the roles he has played during his brief but fast-climbing film career. His first big hit came in "Champion," in which he played a fighter who climbed over his friends and family to get to the top.

He does the newspaper profession up to a fare-the-well in the forthcoming "Ace In The Hole." He plays a reporter who stalls a cavein rescue so he can have a hot story. He is currently taking care of the police by enacting a stone-hearted detective in "The Detective Story."

I cornered Douglas, thinking he might have some tips on how to lose friends and alienate people. "I look at my roles this way: they aren't completely bad guys. I don't believe you could hold the audience's interest throughout a picture if you played that type of role," he explained.

"I think of the roles I play as either strong men with certain weaknesses or weak men with certain strong points. Even though they have bad points, they still have redeeming qualities."

PANDA-MONIUM—That's what probably will reign at the American Toy Fair in New York, where this six-foot-six-inch, 200-pound giant panda will be exhibited. Said to be the biggest stuffed toy ever made, the panda, which Airline Stewardess Jeanie Cherry on his arrival at La Guardia Field from California.

Shamrock Proud Of Band:

Irish Group Boasts Balance, Variety

By GEORGE BURRIS
News Correspondent

SHAMROCK — (Special) — Shamrock High School believes it has one of the best bands in this area. It is under the direction of Ray Showalter, a graduate in music from Texas Technological College, Lubbock.

Showalter, now serving his second year in the Irish system, has 45 members in his high school band. He has good balance in his instrument groups—reeds, brass, and percussion—including a wide assortment of musical instruments.

His clarinetists include B flat, E flat, E flat alto, and B flat bass clarinets, while he has E flat alto saxophones, and a B flat tenor sax, E flat baritone sax, bass sax, flute, piccolo and oboe.

The brass section includes cornets, trombones, French horns in F and E flat. The upright E flat alto horn is especially good for a marching band, reports Showalter.

Basses include concert basses and Sousaphones.

In the percussion section he has bass and snare drums, F and B flat Tympani, concert bells and Gluckenspiels.

"We strive to provide a situation where students may take part in a democratic action," Showalter states. "We are careful to provide situations which will promote and increase interest and appreciation of music, to aid in the socializing process and to promote psychological growth."

Band activities include attendance and participation at every football game. Many intricate maneuvers are practiced and performed at these functions. A smaller band plays at basketball games to give the contests tone and spirit.

Band members will attend the Regional Music Intercollegiate League contest at Canyon and

go to Sayre this spring for a well-balanced repertoire, to inspire all pupils to utilize all musical resources gained from individual technique practice, to or, and interest," concludes Showalter.

There will be an annual spring concert the first week of April. There will be featured soloists then.

Band members played a concert at Kellerville February 20, and took third place at the Dalhart XII reunion parade, a \$35 prize.

Showalter has 39 members in the high school chorus, 21 in the junior high band and 35 in the junior high chorus.

"Our objectives are: perfection of the ensemble in performance

Classics Lead Suggestions For Starting New Library

By GEORGIA SMITH

An empty bookcase and an extra \$50 to spend! But where would you start?

We have made a small survey, asking a mother, a school teacher and a lawyer what they would suggest to a newlywed, a teenager and a young lawyer, especially.

We chose these particular imaginary persons because they would be most likely to be starting a library of their own.

"To round out his basic education he has received in high school," the teacher said. "I think a student should base his library on English classics with just a touch of American literature."

For a beginner, she suggested Webster's Collegiate Dictionary and Bartlett's "Familiar Quotations." To be used for reference, the teacher mentioned the Lincoln Library.

"By the time a student has reached the senior class or is about to be graduated, he should have a full enough understanding of Shakespeare to be able to put his Complete Works to good advantage. Certainly if he is building a library of his own, this will be needed."

"Fireside Dickens," including "David Copperfield," "Oliver Twist," "A Tale of Two Cities,"

and "Pickwick Papers" were suggested.

"The Robe" and "Magnificent Obsession" by Douglas were called "indispensable" by the teacher, but she pointed out that his was a personal idea because many people have criticized Douglas's manner of approaching religion.

Boswell's "Life of Johnson" was suggested to be one of the first books to enter the bookshelf and another fiction book, "Jane Eyre" by Bronte was mentioned as important among the classics.

"The student should choose for his library a volume of poetry by his favorite poet and a volume by his favorite poet and a volume teacher concluded. Other books mentioned for the student were William Allen White's autobiography and Great Modern Short Stories, selected by Bennett A. Cer, a volume of drama and modern American writers.

The housewife and mother of two children said that the Bible and a book of daily devotionals would head her suggestion list, followed closely by a dictionary.

Necessary for any homemaker is a good cookbook and a book of etiquette and entertainment directions. The housewife considers a one-volume encyclopedia enough to start a library because most newlyweds need to save money.

An important addition to the library would be an anthology of poetry by a good poet, the mother suggested, along with an American historical novel by Kenneth Roberts or James Boyd. With the fiction should also be placed a treasury of humor or laughter.

A book that is helpful in every home is "Marriage Relations and Morals" and "Family Relations and Religion."

With the non-fiction books should definitely be a book of hobbies or one that instructs in a particular hobby for the husband or wife or both.

Two good books of current fiction should be in the starter library and these can be built on easily.

A young man going into law practice will need a concrete background of history and psychology. This was pointed out by the lawyer who was questioned.

A history of the world that is told concisely is the best kind to have in a personal library. An excellent one is "An Encyclopedia of World History" compiled and

edited by William L. Langer of Harvard University. Any history of the United States Constitution is also necessary to this library.

"Living Biographies of Famous Philosophers" by Dana Lee Thomas is a book that the lawyer suggests through which a young man can combine enough of the teachings of ageless philosophers to make a definite conclusion of the meaning of life for himself.

On these he can base his own philosophy.

Psychology can be handled in the same way. The study of various theories may be combined into one of the young man's own.

Biographies of famous Americans such as Benjamin Franklin, James Madison, Alexander Hamilton, Thomas Jefferson and Abraham Lincoln can be of great value to a young lawyer and can supply him with a standard of living that he may not be able to find elsewhere.

Satires and political views expressed by the early English writers like Addison and Steele and Jonathan Swift should be a basic part of a young man's library.

Concerning fiction, the lawyer turned to personal views concerning novels and short stories and suggested Guy de Maupassant, Mark Twain and Victor Hugo.

Finally, he said that a book of etiquette is necessary to any young man, but a person that will be seeking clients of good fortune will definitely need a book of Emily Post to guide him.

Sam Houston P-TA Elects Officers; J. B. Linn Speaks

New officers were elected Thursday night at a meeting of the Sam Houston Parent-Teacher Assn., when J. B. Linn, "Uncle Jay," spoke to the group and guests.

"Molding the Child Into the Best Type of Citizen" was the topic of the speech. Linn demonstrated his speech with several persons from the audience participating in the program.

Joe Gordon was the leader and R. Virgil Mott gave the devotional. Arthur Teed presided.

The Sam Houston Choir, including students of the fourth and fifth grades, sang four numbers.

Officers elected were Mrs. G. H. Newberry, president; Mrs. Paul Brown, vice president; Mrs. Aubrey Steele, secretary; Mrs. Joe Steele, treasurer; Mrs. E. S. Williams and Mrs. Joe Gordon, parliamentarian and Mrs. Joe Gordon, city council representatives.

the Isle of Man. The latter pair are under British control. But on Gibraltar and the islands of Malta and Goso, both under British control, right-side driving is the law.

British-controlled areas account for the 10 in the western hemisphere where there is left-side driving. These include Bermuda, the Bahamas, British Honduras, Trinidad, the Leeward and Windward Islands, and Jamaica.

Outside of Britain and Ireland, we only left-side driving is listed for Europe as in Sweden, Iceland, the Channel Islands, and

the U. S. way of driving — the right side of the road — and only 34 drive like the English, on the left side, a U. N. survey showed. Left politically, Russians drive on the right side of the road.

The Outpost

By KAY FANCHER

Last week we told you here about the general organization of the National Guard unit here in Pampa. Battery A of the 474th Field Artillery Observation Battalion. We also mentioned the fact that there would be a tactical problem at Lake McClellan last weekend.

Well, the problem was held and the results were gratifying. The officers of the unit were well satisfied with the work done by the various sections and the communications sections stood out for their work. The type training that was held last weekend proves that the sections can function in the manner prescribed. It is anticipated that more of this type training will be held at a later date. At that time the coordination of the sections within the unit will be stressed and the sections will strive to function as a complete unit.

The officers and men of Battery A would like to thank the local merchants who contributed additional food for the breakfast that was served at the bivouac area.

Right now the unit is preparing for a federal inspection that will be held Tuesday night, March 20. These inspections are held once each year for the purpose of evaluating the unit insofar as organization, strength and training are concerned. Each National Guard unit throughout the United States is rated as to combat efficiency in his manner. It is not done as a harsh criticism, but it is done to aid each unit in accomplishing its purpose.

This will be an inspection first of the administration, supply and maintenance phases and in the evening it will be an inspection of the discipline and appearance of the men and of their training progress.

By the way, there is still room in the unit for a few good men. Any fellows that might be interested can get information by calling 443 any day, Monday through Saturday, and asking for either Lt. Robinson or Warrant Officer Leonard.

Be sure and be with us again next Sunday when there will be another report from this OUTPOST.

Music Scholarships Offered At Tech

LUBBOCK (Special)—A limited number of new music scholarships will be available at Texas Technological College this fall, according to Gene L. Hemmle, head of the Music Department at Tech. Saint Paul's Episcopal Church of Lubbock has established a number of vocal scholarships for students who can qualify.

Instrumental scholarships are being offered by the Lubbock Symphony Association and the Lubbock Music Club.

Dulles Has Done
Much To Put Japs
On Our Side

John Foster Dulles has just given his country and the world a superb demonstration of capable diplomacy at work.

With very little fanfare, he went out to the Far East to talk about a Japanese peace treaty, not only affecting Japan and the U. S. but Australia, New Zealand and the Philippines.

When he came back, he brought the draft of a peace document acceptable in its basic terms to the United States, Japan and our principal Pacific allies. In other words, he has achieved the biggest single forward step toward a treaty since World War II ended.

This job was accomplished by Dulles and whatever staff he may have used. There were no widely heralded peace conferences in gilded government halls. There was no protracted wrangling over terms.

If the draft now on the table can be put into final form without losing any of the excellent harmony which exists among the prospective signatory nations, then before too many months have passed we should be formally at peace with Japan.

It is notable that this country and the others involved propose to move toward a final settlement in the same way they have proceeded thus far: using normal diplomatic channels. Once again, therefore, the too often fruitless big conference will be avoided.

Russia, of course, has no part in these negotiations. The Kremlin has blocked every attempt to attain a Japanese settlement. If it were now invited to participate, it would simply sabotage the discussions by raising impossible demands.

East-West relations in Asia have deteriorated too much for the Soviet Union even to be considered. The only issue in the Orient is how to resist marauding communism, not how to negotiate with it.

That fact is reflected in the terms we and the Japanese are agreed to in the treaty draft agreed back by Dulles. Of their will, the Japs wish to accord us bases for our armed forces in the Japanese islands. This means that Japan is definitely aligned on the side of the West, indeed, considers itself virtually within the American orbit of defense.

It is heartening to find this positive, hopeful element in an area so confused and generally discouraging as the Far East. Japan's industrial might is a key factor there; wisely employed it can do much to lift up the whole of Southeast Asia. But in Communist hands it would be a strong lever pushing the region toward Red oblivion.

A formal treaty with Japan crystallizing this hopeful relationship is earnestly to be desired. For his crucial part in bringing such a treaty nearer reality, Dulles deserves the warm thanks of every American and every free man throughout the globe.

Washington... by Peter Edson

By PETER EDSON
NEA Washington Correspondent

WASHINGTON (NEA) — Recent attempts to smuggle gold out of the United States are disclosing some odd angles to foreign hoarding. Every time there is a political crisis in some part of the world, the desire increases to convert local currencies—which may fluctuate in value for something—into a supposed permanent value, like gold.

That's what starts the gold smugglers to work. They try to get gold out of the United States and into countries where there is little regulation and where the gold can be sold at premium prices.

Last time there was a big effort to get gold out of the United States was in 1949, when Chinese Nationalists were fleeing the Communists. The urge then was to convert real property into gold and flee the country. After

the Nationalists left the mainland, the demand for gold dropped off. Before that, when some 20 European currencies were facing devaluation, there was another big demand for gold. As soon as the currency devaluation was effected, the demand for gold dropped off.

Latest pickup in the gold smuggling racket is the new demand for gold. The new demand is not concentrated to the Far East, however. Every country that faces political unrest or Communist aggression has demands for black market gold. India and the Middle Eastern countries have been good customers. Egypt has a heavy gold ornament trade. South Africa, which produces about half the newly mined gold, has been selling considerable bullion to southern Asia at premium prices. And the South African government exercises constant pressure to have the United States raise its price for newly-mined gold to this free market level.

Fair Enough-Pegler

By WESTBROOK PEGLER

The Communist treason has gone underground and Mr. Hoover of the FBI tells us that our traitors now have permission from the Kremlin to assume deceptive guises. They may even join authentic patriotic societies. Therefore, we should deal warily with organizations which cry out their abhorrence of the treachery but ask us to be careful lest we harm innocent victims of our zeal. We should inquire if such societies were equally tender toward veteran fighters on our side who had suffered persecution and professional boycott for their patriotism, such as the late Jim McGuinness of Hollywood, and the late Ben Stolberg of New York. Did they rush to the defense of Rabbi Benjamin Schultz of Yonkers when he was beaten down for writing a set of articles warning us all against the menace? If so, what says the record? Let us be sure that the record is not so good as the record of these societies and these individuals were not indifferent to injustice inflicted on members of our side by individuals and groups of the other side. We must choose our sides, then our side will need advice from their side as to how to make our fight effective. If we misjudge some nasty little ignoramus with a toothsome make-up who threw in with traitors to flaunt her career in the movies, that petty mistake will hardly compensate the torture of Jimmy and Benny and Rabbi Schultz.

The name of Mrs. Franklin D. Roosevelt appears among 145 names appended to a list of typical publicity promoted by a left called the Committee on National Affairs. This is one of many synthetic groups which operate from the hotel suite of Arthur J. Goldsmith, the plastic dragon of the Waldorf Tower, disguised as "100 East 50th Street." Many of these names are typical and familiar.

On the other hand, we find the Rev. William J. Gibbons, S. J., who would be a Jesuit priest and certainly out of company from Arthur Blais Lane, a fierce anti-Kremlinite, who was our ambassador to Poland; and Martin Quigley, a Catholic, who would knowingly have no truck with an apparatus.

Do these respectable approve the use of the address "100 East 50th Street"? Has any of them ever attended a membership meeting in Goldsmith's suite? I would ask Goldsmith but when I tried to discuss his numerous letterhead layouts he refused to discuss them at all. Why would Father Gibbons and the Messrs. Lane and Quigley lend their dignity to a society whose secretary, Mr. Goldsmith, considers its affairs to be secret even while the society publicly appeals to our citizens to go easy on people who have joined Red organizations?

This publicity "release" teed off with clanging declaration that the free people of the world are in greater danger from communism today "than they were in 1939 from nazism."

But that isn't news, McGuinness and Stolberg and Rabbi Schultz, and yes, Pegler, were saying that years ago.

The needle begins to take effect in the third paragraph with this: "In exposing the fundamental fallacies of the Communist ideology, we must simultaneously and aggressively and unconsciously abetting communism by distorting the truth in the effort to combat the Communist enemy. It is imperative that judgments be based on proven facts and sound reasoning, not rash suspicion and prejudice."

Yes, yes. In the manner of those silent pogroms which hissed that Jim and Benny were Fascists, perhaps? Is that the kind

of judgment "based on proven facts and sound reasoning" that the Committee on National Affairs bespeaks for Eleanor Roosevelt?

Did this committee ever defend Jim or Ben or Rabbi Schultz against "rash suspicions and emotions"?

The committee "therefore urges strict adherence" to a set of "principles." It condemns charges of communism or subversion "that cannot be supported by evidence."

Now let us examine this. After that we can throw the committee and its "principles" on the floor.

First, how are we going to get the case to trial before a competent court? It took ten years and cost the government a million dollars to convict Harry Bridges. These people know it cost Hester McCullough almost \$60,000 and a year of torture to get a hung jury in the Draper-and-Adler case.

They know that the McCulloughs' home was attacked and the little bank account, as well, in this one spectacular attempt to support a charge by evidence. Only by a national appeal for money could they finance their trial, formally judged except by a court?

How else can the issue be joined except by the same ordeal that Hester suffered?

So, all this amounts to a warning to loyal Americans to shut up about Communists and fellow travelers. Let them trust their traitorous defiance on the screen and stage and radio, on the lecture platform and in books.

Eleanor Roosevelt, as I say, is one of those who signed this appeal. I feel that comment on that point would be superfluous.

Success Secrets
This is the story of a man who started something.

His name is Isaac Singer. He was just a "common man." He had very little education. When he got his "big idea," he had already failed in a half a dozen ventures. He didn't even have enough money to give his idea its initial push. He had to borrow \$40 from a friend in order to start it.

Now certainly Isaac Singer wasn't the type of a man one would pick out to start something big — to start something that would influence the lives of millions of people all over the world.

What Singer did with the \$40 borrowed money was to build a sewing machine. Sewing machines had been invented some 20 or more years before and engineers and trained scientists had had a chance to perfect it.

What made an uneducated immigrant with a record of half a dozen failures behind him think he could build a better machine? No one knows. But he had an idea and he worked it out. His model was the first practical sewing machine ever built. It not only worked — it was practical for home use.

Today over 100 million Singer Sewing Machines have been sold. They are found in just about every country on earth — in both civilized and uncivilized lands. This year about 400,000 American women will take sewing lessons from Singer "Sewing Centers."

Maybe Isaac Singer knew what you and I sometimes forget: that creative ideas are sometimes no respecters of persons — they come to the uneducated and the illiterate as well as to the educated and successful. But the secret is, Singer had respect for his idea.

The Curzon Line was the provisional eastern boundary of Poland established by the Supreme Council of the Allies on Dec. 8, 1919.

How many smugglers don't get caught is, of course, unknown. But Treasury and Customs agents keep a close watch on all gold movements. All major transactions in gold are licensed by the Bureau of the Mint. But efforts are made not to put too much burden on small holders of gold if they have legitimate uses for the metal.

If a jeweler, for instance, has no more than 35 ounces of gold on hand at one time, he needs no license. But the gold smuggler tries to build up his stocks by buying from jewelers, a little here and a little there, till he gets a hoard big enough to sneak out. Thirty-five ounces at the government fixed price of \$35 an ounce are worth \$1225. Most of the smugglers try to take out about \$60,000 worth, or under 180 pounds. On the black market, it may be worth from \$100,000 to \$150,000. It's nice business if you can get away with it. There is no profit in it for those who get caught.

One dodge bordering on the legitimate is to ship out the gold as fabricated jewelry — as heavy necklaces or solid gold compacts, for instance. But the price has to be right to make this a profitable trade, and today the price for hoarded gold isn't high enough.

Bureau of the Mint export regulations also interfere. They provide that not more than 80 percent of the value of the article can consist of gold. Manufacturing costs and workmanship have to be 20 percent of the value, and faked valuations are easily detected. Also, if the gold content is more than 80 percent of value, the articles are subject to seizure by the government.

Another big catch is that Eu-

Better Jobs

By R. C. MONROE

What Beliefs Mean Beliefs in Communism are 32-29

Since we are hearing so much energy to fight Communism, it would seem wise to try to determine exactly what we are fighting.

We cannot intelligently discuss things until we do as Voltaire said, "If you would discourse with me, define your terms." And any definition that does not reduce what one is trying to define to principles is no definition. It only adds confusion.

The public seems to be pretty strongly opposed to anyone who belongs to the Communist Party. One has to form beliefs, however, before he can become a member of the Communist Party. It does not seem to me that membership in the Communist Party needs to be so much feared as people who believe in communist ideas.

One of the best definitions I ever read for Communism was written by David Baxter. I think it could also include socialism because socialism and communism are both based on the same principle.

Now listen to this definition of communism that Mr. Baxter wrote in his column:

"Communism is the conclusion that more than one person, or a majority of persons, have a right to do things collectively that it would be wrong and immoral for one person to do."

If that be a true definition of Communism, then most people believe in Communism and do not even know it. And our danger comes from people who believe in Communist beliefs who do not know that they are believers in Communism.

Communism, as defined by Mr. Baxter, is the exact opposite from the principles set forth in the Declaration of Independence. The Declaration of Independence doesn't give the majority the right to coerce the minority or the individual. Remember the Declaration of Independence said: "governments derive their just power from the consent of the governed" — and only the individual himself can give his consent. But Communism, according to this definition, gives more than one person or a majority the right to coerce and rob the minority. The American concept, as set forth in the Declaration of Independence, is in perfect agreement with the Golden Rule and the Ten Commandments. The concept of Communism, as defined by Baxter, is the exact opposite of the Golden Rule and the stealing and coveting Commandments and also the First and Second Commandments. "Thou shalt have no other gods before me" and "Thou shalt not make unto thee any graven image, or any likeness of anything that is in heaven above, or that is in the earth beneath, or that is in the water under the earth." The man who believes in any form of Communism is attempting to worship two principles — two gods — two masters. He is attempting to worship and obey his own individual conscience and at the same time be loyal to the collective will of the majority. In other words, he is worshipping the Golden Calf of the state or the majority rather than the principle of the Golden Rule.

Mr. Baxter's definition of Communism, of course, would make any man a communist in some degree who believes in tariffs, immigration quotas, minimum wages, so-called "social security," collective bargaining as practiced by labor unions, tax supported schools and colleges, tax supported libraries and parks, and in fact any form of support of the government that is not voluntary.

In short, Communism is in the heart of the individual of he believes that two or more people or the majority have a right to use force against an individual to take possession of his property. If he believes that, then he believes in a form of Communism or Socialism and does not believe in the American way of life as set forth in the Declaration of Independence. And the Declaration of Independence was an attempt to put into operation in a big way the principles of the Ten Commandments and the Golden Rule.

To the degree that any people practice the ideologies set forth in the Declaration of Independence and these great moral guides, do they develop character and prosper. To the degree that they believe in any form of communism and Socialism do they degrade their character and lose their self-respect and impoverish themselves.

What we need is to get more people to know what Communism is in our own country and not be so much worried about the Communism in Europe and Russia.

European countries in particular are alert to all of these shipments. They are apt to put heavy guard duties on them, which takes out all the profit. The gold smuggling trade therefore tends to move through the free ports like Tangiers, Macao and Kuwait, or the countries that have no regulations on gold trade, like Lebanon. International Monetary Fund has been trying to break up this trade, but hasn't had too much success.

The total amount of gold moving in illegal trade out of the United States is relatively small when compared to total holdings of more than \$25 billion. One estimate is that \$77 million worth of gold "disappeared" in the U. S. last year. Most of this disappearance was in legitimate manufacture by small jewelers.

It Was a Circus While It Lasted

National Whirligig

By RAY TUCKER

WASHINGTON — Petty and personal rivalries among the bigwigs of the labor movement lie behind their temporary break with the administration, and their refusal to cooperate in the national defense movement until their demands have been met by Defense Mobilizer Charles

Wilson.

Also the real reasons for their attitude become known, it is doubtful if they can hold out for long.

The new wage-freeze formula promulgated by Economic Stabilizer Eric A. Johnston meets most of their demands on this question, permitting them to obtain boosts based on cost of living increases and productivity totals. It also enables them to obtain and improve on fringe benefits such as pensions. They admit privately that they cannot continue their revolt on this basis.

But Mr. Green does not want to quit. He looks forward to the war industrial expansion as an era when he can win new glory. He is bitterly opposed to Mr. Meany's acceptance of an important government job, where he might be able to make himself too powerful, and hasten Mr. Greer's departure from the scene.

Another man willing to become labor's representative inside the Truman-Wilson organization is Walter Reuther, head of the CIO's Automobile Workers' Union. His interest in the job may have diminished since he got another cost-of-living increase for his members, but it is known that he wanted the position.

Young Mr. Reuther has been a constant threat and concern to Mr. Murray, who figures that he is an ambitious man in a hurry for advancement. Indeed, he has been talking to Senator Arthur H. Vandenberg, resigns because of ill health. Mr. Reuther might be appointed to his place by G. Mennen Williams, the Democratic governor of Michigan.

Therefore, Mr. Murray has advised against the appointment of Mr. Reuther. The CIO president explains his attitude publicly by saying the young union leader cannot be spared from his organization, and the president of the union exonerated by a lower court for contempt in the miners' 1949-1950 slowdown strike, his case is still on appeal. In his belief, the railroad unions should have fought their contempt citation until his case was decided by the Supreme Court. He feels that a guilty plea places his case in judicial jeopardy.

In view of these personal and inter-union squabbles, President Truman may be pardoned, if he feels he must crack down on the very groups responsible for a long string of Democratic victories at the polls.

Even when these difficulties are solved, there remains, as always, that theatrical and unpredictable Shakespearean actor, John L. Lewis, president of the United Mine Workers. Having no particular affection for any of the men involved — President Truman and Messrs. Green and Murray — he has given neither advice nor cooperation in the current dilemma.

Again, as usual, he is the trouble-maker. The 1950-1951 increases he obtained for his miners received the Truman-Wilson blessing. They are far larger than the raises given or contemplated for Green-Murray unions.

He has taunted them periodically for their failure to do as much for their members as he has done for his. Alone of the labor bigwigs, he has not resigned from the administration's Labor Advisory Committee. His preferential position is another reason for Green-Murray belligerence.

But John L. also has his grievances, and they are serious. They are based on the railroad switchmen's plea of guilty of contempt in the recent "sick" walkout. It was the first time that high labor officials accepted responsibility for their members' refusal to fulfill contracts or obey government orders.

John L. cannot be blamed if he figures that the plea and fine were a put-up job, worked out between the unions and the administration. He was fined several million dollars for the same offense several years ago. And, although the railroad paralysis affected far more important activities, and millions of more people, in his opinion, the switchmen got off easily with a

Our Unchecked Dictators

By DAVID BAXTER

Not to reflect upon the dignity of that great, fine, ethical gentleman, the President of all these United States, but one of our spies informs me to the effect that during one of his Rotomac cruises the President fell overboard and was rescued from the racing waters of the river by three boys who were fishing along the banks.

The great man was so appreciative that he invited all three boys to the White House, where he thanked them for their service to their country. He concluded by asking what he could do for them.

One boy had always wanted a new bicycle, so the President magnanimously reached for the phone and put in an order for one. The second boy wanted to be a flier so the Chief Executive promptly had him enrolled in a flying school with all expenses paid — the President having a \$50,000 tax-exempt expense account, you know.

The third boy, however, had some real, patriotic aspirations. He said, "Mr. President, I would like to have your promise that when I die I will be buried in Arlington National Cemetery."

"That is quite an honor," the President agreed, "but I'll arrange it. By the way, son, that's an odd request from a boy of your age. How did you happen to think of it?"

"Well," the young man replied unasily, "I was just thinking of what my dad is going to do to me when I tell him I fished you out of the river."

Now isn't that a nice thing to have going around about a man who rose to the highest pinnacle ever reached by a Pendergast politician and who, at our last national election, not only demonstrated that in these days ARMBODY can be President but also proved that P. J. Barnum was 100 per cent correct.

A terrible lack of respect for the Presidential personality seems to prevail amongst our irreverent citizenry. It is most deplorable. I was shocked when two outlandish foreigners attempted to take a pot shot at His Majesty. One of the would-be Booths was killed, of course. I don't know what they'll do to the other one. Being a Republican I'm non-committal about where my personal sympathies lie. I do know, however, that I was even more alarmed and viewed with apprehension when I asked one of the folks in the office what should be done about this chap who was captured, and the reply was, "He doesn't deserve to live, confound him — he MISSED."

I don't know what we're going to do about such lack of respect for the dignity of the Presidential personality but it's just possible we can find the cause of it, anyway.

For one thing, people don't like to be shoved into wars without the consent of Congress. They don't like the usurpation of authority by the executive branch of the government. And for another thing,

total of \$100,000 in court penalties.

There is an even more important reason for John L.'s new anguish of spirit. Although exonerated by a lower court for contempt in the miners' 1949-1950 slowdown strike, his case is still on appeal. In his belief, the railroad unions should have fought their contempt citation until his case was decided by the Supreme Court. He feels that a guilty plea places his case in judicial jeopardy.

In view of these personal and inter-union squabbles, President Truman may be pardoned, if he feels he must crack down on the very groups responsible for a long string of Democratic victories at the polls.

Even when these difficulties are solved, there remains, as always, that theatrical and unpredictable Shakespearean actor, John L. Lewis, president of the United Mine Workers. Having no particular affection for any of the men involved — President Truman and Messrs. Green and Murray — he has given neither advice nor cooperation in the current dilemma.

Again, as usual, he is the trouble-maker. The 1950-1951 increases he obtained for his miners received the Truman-Wilson blessing. They are far larger than the raises given or contemplated for Green-Murray unions.

He has taunted them periodically for their failure to do as much for their members as he has done for his. Alone of the labor bigwigs, he has not resigned from the administration's Labor Advisory Committee. His preferential position is another reason for Green-Murray belligerence.

But John L. also has his grievances, and they are serious. They are based on the railroad switchmen's plea of guilty of contempt in the recent "sick" walkout. It was the first time that high labor officials accepted responsibility for their members' refusal to fulfill contracts or obey government orders.

The Nation's Press

FOR RICHER, FOR POORER

(The Northern Miner)

When counting up your market winnings just note please that the guy with a million dollars is today only half a millionaire. Also, don't gloat about the big profits your firm is making. Just sit down and figure out how far they'd go in replacing your plant and equipment. You'll be astonished and saddened.

And before crowing over big annual increases in your dollar gross find out if your physical volume of business has gone ahead.

The basis for a lot of inner-questioning is provided by the U. S. Department of Commerce. Somebody there has squeezed the inflation water out of the business statistics. The popular thing has been to say that the American gross national product has gloriously increased from \$103 B in 1929 to \$225 B in 1949, and to \$280 B in 1950. Actually (in terms of 1939 dollars) it has increased according to the new realistic figuring, from \$85 B in 1929 to \$142 B in 1949, and to \$153 B in 1950. Quite a difference. A lot of wind and water had gotten into everybody's financial reckonings. Actually, the industrial growth isn't much beyond the population growth of recent years. And many a man who seems to be richer, according to his earnings, is actually poorer because his government bonds, insurance policies and other savings, have been reduced in true worth as a result of the deliberate inflation policy of governments.

Let's always keep in mind that whereas a million francs made a man a millionaire in France in 1814 it makes him today worth only about 3,000.

WASHINGTON (AP) Tallulah Bankhead gate-crashed a private congressional dining room yesterday to get a cup of coffee. She didn't have credentials but she paid the official hostess anyway.

Later she urged the House Appropriations Committee to vote liberal funds for research on the fight against heart disease, cancer and other ailments.

conference in the House press gallery.

Of the gate-crashing incident, the actress daughter of the late horse speaker William B. Bankhead, who is a niece of a senator and granddaughter of another said:

"It was rather funny, darling."

Asked whether she had any political ambitions, and if the capitol had seen the last of the Bankhead dynasty, she replied:

"You have as far as I'm concerned. Heavens, I wouldn't infiltrate that on the country!"

Japan, rich industrial prize rapidly recovering from war, was stripped of 76% U. S. occupation divisions for Korea War. Two National Guard divisions (Oklahoma's 45th and California's 40th) slated to move there.

MILES
0 300

The Newsmag above tells why the U. S. is rushing two National Guard divisions to occupied Japan. The disclosure by Ambassador John Foster Dulles that Russia had seized several small islands in the Habomal group off Northern Japan is just one incident in the growing Soviet buildup of Far Eastern military strength that has both Washington and Tokyo worried.

WASHINGTON — Russian officials also have been reported, without confirmation, in North Korea.

The treaty talks were unexpectedly broken off last Saturday by Soviet Ambassador Jakob Malik, who had several discussions over recent months with John Foster Dulles, the chief American treaty negotiator. The State Department said Malik apparently was acting under instruction from Moscow.

Officials speculated Malik's action might forecast a renewed Russian effort to toss the treaty issue into the council of foreign ministers or that it meant a decision by the Kremlin to renege on complete freedom of religion to bring pressure against the Japanese just when they have the promise of regaining their sovereignty.

The renewed concern over the prisoner threat is intensified by Japan's current defenselessness. American combat troops have been withdrawn because of Korean fighting. The newly formed 75,000-man Japanese po-

lice reserve is rated as a weak support for the limited police forces available to deal with any large scale infiltration attempt.

Evidence of a Soviet military buildup on Sakhalin Island, which is about 50 miles north of Japanese Hokkaido, meantime has resulted in the administration decision to send two U.S. naval warships to Hokkaido. From Sakhalin officials said it is easy to send boats on clandestine trips to the Japanese islands.

Another base for such trips is the Habomai Island group only about three miles off Hokkaido, which Russia has occupied since the war. The island is part of the Kurile Chain assigned to the Soviets at Yalta.

State Department officials are going ahead regardless with preparations to push the treaty to an early completion. Work is scheduled to start in the next few days on transforming the general principles Dulles worked out on his recent Tokyo trip into an actual treaty draft.

Hard Work In 4-H Club Activities Pays Off As Proved By Awards Offered In Contests

More than 118,000 Texas 4-H Club members concluded their observance of National 4-H Club week, Saturday. Last week climaxed a year of full participation by Gray County young people in their club work. These young people, the future leaders of our cities, our county, our state, our nation, and our world, are receiving the best leadership and assistance available and are proving to their families and friends that 4-H Club work is really something worthwhile.

Under the leadership and direction of Foster Whaley and Miss Joy Williams, county 4-H sponsors, club activities in Gray County have been expanded and increased to such an extent that county residents have been made fully aware of the value of 4-H Club work.

Each year, the county clubs follow a definite program laid out for them at the beginning of the year. There is no disorganization in the way the plan is set up and everything goes off according to schedule.

Entirely different programs are set up for the boys and girls, but at certain times during the year, the young people take part in recreation and work programs which run along the same lines and bring them together so that each might see what the other is doing.

One of the outstanding events of the year, as far as the girls are concerned, is the selection of the Gold Star award winner. This girl is selected from a group of entrants from each of the clubs in the county. It's like a beauty contest, with emphasis on achievements instead of beauty.

To be eligible for the Gold Star award, a girl must be outstanding in all phases of club work and should have been in club work for at least three years. Average age of Gold Star girls is 14.

The 1950 Gold Star girl, Margaret Baggerman, of Grandview, is the daughter of Mr. and Mrs. John Baggerman of that community. Miss Baggerman was selected on the merits of her dressmaking ability, the excellence of her canned foods, and her wholehearted participation in club activities. In this light, she was also named co-chairman of the county 4-H council.

Other Gold Star girls who have been selected during the last six years include: Eva Mae Rutledge, Lefors, 1948; Francis Babb, Pampa, 1947; Mildred Baggerman, Grandview, 1946, and LaRue Whipple, Pampa, 1945. No one was selected for the honor in 1949.

One Gold Star girl, Gwendolyn Coutts, who won the honor in 1937, has proved the value of her club work. She is now Mrs. Alvis E. Tabor and has her home in Panhandle, where her husband teaches vocational agriculture in the Panhandle schools. She is the mother of two boys. She graduated from West Texas State College and was home demonstration agent in Cottle County for two years.

Four-H girls receive many awards for their efforts, and two of the most coveted are the Maggie W. Berry and Helen H. Swift scholarships of \$500, offered by the Texas Home Demonstration Assn. The scholarships may be used in any accredited four-year college in Texas.

To be eligible, a girl must have completed or be enrolled in her third year of 4-H work. She must plan to enter college during the year of the judging or be enrolled in college as a freshman, sophomore or junior. She must not have won either of the scholarships previously.

Candidates for the scholarships are nominated by their respective clubs, by a county committee of 4-H girls or by the education committee of the county home demonstration council. A district winner is selected by the district agent and by April 15 of the contest year, a state judging committee appointed by the state home demonstration leader will select state winners.

Girls entered in the contest must submit a copy of their records and achievements, giving detailed accounts of the activities in which they have taken part. These records are used primarily in the selection of the scholarship winners.

Another outstanding event of the year, looked forward to by 4-H Club girls, is the district camp, which will be held at West Texas State College, Canyon, May 28-30, this year. The plans call for using classrooms for crafts and for the girls to stay in the campus dormitories.

The district camp is open to all high-ranking girls who have

their presidents include, Alan Reed, Charlotte Brown; Blue Bell, Peggy O'Neal, White Deer; Grandview, Joey Babcock; Hopkins, Cora Louise Mann; Lefors, Eva Mae Rutledge; McLean, High, Patsy Herndon; McLean Junior High, Nancy Tate, Pampa High, Jacquelyn Robertson, and Pampa Junior High, Nancy Harrison, Hopkins.

Projects of the Gray County clubs for 1951 are bread and other cereal products with main emphasis on yeast breads and clothing.

Business affairs of the county clubs, both boys and girls, are directed by the Gray County 4-H Club Council. This council is composed of representatives from both boys and girls clubs. It meets at least once each month to plan recreational and fund-raising events for the county clubs. For example, the council has agreed to stage at least one recreation night each month, with the next one to be held Friday, March 16, in the American Legion-VFW Hall.

Members of the council are: Margaret Baggerman and Brent Carruth, co-chairmen; David Engle, secretary; Ruben Baggerman, treasurer; Billie Mae Osborne, reporter; Jacquelyn Robertson, program chairman; Glen Harris, recreation chairman; Shirley Keel, finance, and Joe Keel, membership chairman.

One of the outstanding young men in Gray County 4-H work is Joel Wilson, whose Chester White Pig won grand champion in the recent Top 'o Texas Junior Livestock Show. Young Wilson, an 11-year-old from McLean, took both first and second places in the junior fat pig division of the show and then came through to win grand champion.

Something of a story lies behind the winning of that championship award. Last fall, shortly after Wilson obtained his pigs, Ralph Thomas, county agent, and this reporter, visited at the Wilson place on the outskirts of McLean and heard the or sponsors. The nine clubs and Wilsons bewailing the fact that

their pigs were "runts," and would have a hard row to hoe before they would ever develop into mature, prize winning animals. Proof that first impressions don't always count came when Wilson carried away all the honors.

Further evidence of good training that paid off came just a short time ago, when the 4-H grass judging team won second place at the Amarillo Fat Stock Show. Members of the team were John Lloyd Carruth, Joe Keel and Jimmy Keel.

Perfect COFFEE every time Automatically!

LET US SERVE YOU A FREE CUP

Visit our store and taste the most delicious coffee ever made. See how easy and simple it is to make perfect coffee every time in a Sunbeam Automatic Coffeemaker.

• All you do is put in the water and coffee, flip the switch, and forget it. Whether you make 1 cup or 8, you get the same perfection everytime. Only Sunbeam gives you the correct high water heat, vigorous agitation of all the water in the brew-top and uniform brewing time—automatically. That's the secret of perfect coffee-making, controlled automatically in Sunbeam.

Set it... forget it!
Shuts off by itself when the coffee is done... then resets itself to keep the coffee hot AUTOMATICALLY

Sunbeam Automatic COFFEEMASTER

No Watching! No Guesswork! Simple as A-B-C

A

ALL YOU DO IS PUT IN THE WATER AND COFFEE

B

SET IT... FORGET IT! In a few minutes, click! It shuts itself off, then automatically resets to keep coffee hot.

C

LOVELY! COFFEE! SERVES for all occasions. All gem-like chromium. No glass bowls to break.

Students Make Good Jury Panel

NEW BRUNSWICK, N. J. —

One morning in 1936 several students in the news reporting class at The State University's School of Journalism found themselves moved out of the spectators' seats in Judge George Morrison's District Court in New Brunswick, and sworn in as jurors. That was the beginning of a unique learn-by-doing program which Professor Hubert Ede's reporting classes have been carrying on regularly for the past five years.

"The reason I like to have students serve on juries is that they do such a fine job. I don't know that I've ever had any better, more serious jurors than the Rutgers kids," Judge Morrison said.

"There is an age requirement of 21 years for jurors in this state," Judge Morrison explained.

Pampans Receive Five-Year Awards

J. B. Massa and John L. Rankin, operators of the Pampa Culligan Soft Water Service, will be presented five-year service awards at a company meeting in Fort Worth Monday.

The awards, traditional in the industry, salute the pioneers who have made contributions in water conditioning.

Harold F. Werhane, president of the Culligan Zeolite Company, will present the award in recognition of completion of five years of operation here. The local firm provides completely soft water and other water treatment services, including chlorination, filtration, rust removal, and taste and odor control.

"but we hit on the practice of getting both attorneys in a case to waive that limitation, and it's worked out fine."

BUTTONS AN' BEAUX SHARON SMITH

"Well, they all seem to be having a good time anyway!"

Keep Your Eye On KPDN

By KAY FANCHER

It's Sunday again and here we are with our radio listening notebook. Just out of curiosity, I wonder how many of you missed some of our special broadcasts last week. For instance, our two broadcasts last Monday night of Bob Wills and his Texas Playboys, first the talent show and then the dance afterwards. If you missed hearing those two broadcasts you sure missed out on a lot of listening fun.

Then on Wednesday and Thursday afternoons we rebroadcast the Pampa Schools Winter Band Concert and by the way those kids sure did a wonderful job, with their music. Be sure to keep your eye on KPDN for other special broadcasts which are held during every week. Another event that I forgot to mention was the boxing matches that were held a week ago last Saturday night.

They sure were exciting and Warren Hasse was at the mike to bring you the blow-by-blow description. By the way, there are more boxing matches coming up too, the night of March 27th will see the Pampa Boys club meet the Panhandle leather pushers in a team match.

And then the night of April 7th, the Pampa Boys' club will meet Lackney in a team match. You don't want to miss these exciting fights as described by Warren Hasse at ringside.

A few lines ago we mentioned that Bob Wills and his Texas Playboys were on KPDN and we forgot to mention that Rudy Marti had a personal interview with Bob and his pretty songstress, Ramona Reed, and the

winner of the talent contest here in Pampa, on his Variety Time show Tuesday night.

Well let's take some notes now on things other than special broadcasts... for one thing there's a brand new show on KPDN every Saturday morning from 10:45 to 11:00 o'clock. With spring in the air, KPDN brings you the new Your Home Beautiful Show... with decorating expert Betty Moore. Miss Moore describes an appealing, well-planned color scheme for one of the rooms of your home on each Saturday's broadcast. She makes good use of pastels, deep colors and the popular new "deeper than pastel" colors.

Even the names of the rooms she discusses suggest exciting new color schemes and homey charm. Some of the names she uses are: Sunnyside bedroom, Sugar and Spice Kitchen, Wedgewood dining room and the Wineberry living room. The appeal of the show doesn't lie in color alone... because there's music in the form of baritone Johnny Thompson who sings the songs you love to hear... on Your Home Beautiful... on KPDN every Saturday from 10:45 a.m. to 11:00.

Another show that is new on KPDN is a show that has grown very popular throughout the county... called Fulton Lewis Junior at Home. KPDN will carry this show for the first time tonight at 8:45. The show will be carried every Sunday night at this same time from now on.

This is mostly a musical show with a choir. Fulton Lewis always interviews some special guest who then sings a solo for the radio audience.

Well it's about time that we close up our radio listening notebook for another day. Be sure and watch next week's notebook for more news about 1340 on your radio dial—KPDN.

New Oil Reserves Fell Behind Drilling

By MAX SKELTON

HOUSTON — (AP) — Discovery of new oil reserves last year did not keep pace with a record well drilling program.

There were nearly 44,000 well completions last year but estimated proved reserves increased during the 12-month period ending December 31 by only 618,909 barrels.

That is a substantial gain, but one that is dwarfed when placed beside the 1948 gain of 1,792,759,000 barrels. It was in 1948 that the previous completions record of 40,000 was established.

The 1948 additions to reserves are all the more impressive in that actual crude production that year approximated 2,002,448,000 barrels, compared to last year's 1,943,776,000.

Gains in reserves in 1949 more than doubled 1950 — 1,369,045,000 barrels — although there were approximately 4800 fewer completions.

Despite the slump, the 1950 increase sent estimated reserves beyond the 25,000,000,000 barrel mark the first time in history.

The annual joint report of the American Petroleum Institute and the American Gas Association, released Thursday, placed December 31 crude reserves at 25,268,398,000 barrels.

Increased in natural gas liquids improved the 1950 picture. These reserves climbed 538,651,000 barrels. When combined with crude gain, this makes 1,157,560,000 barrels of liquid hydrocarbons having been added to reserves last year.

Natural gas liquids gains in 1949 and 1948, respectively, totaled only 188,229,000 and 286,808,000 barrels.

Congressmen heard a lot last week about petroleum reserves. Oil and gas operators from throughout the country testified before the House Ways and Means Committee in Washington in opposition to a proposed slash in the industry's depletion allowance on taxes.

The committee heard testimony such a reduction would disrupt exploration programs designed to add additional millions of barrels to reserve.

Oilmen for 25 years have been

allowed to deduct 27 1/2 percent of their gross income from their wells while figuring their taxes. Such deductions, however, may not exceed 50 percent of their net income.

Administration leaders have proposed the allowance be cut to 15 percent.

It was the second time in two years for the oilmen to parade before the congressional committee.

The allowance cutback proposal was defeated last year, but industry leaders saw greater cause for fear during the current session of Congress. They speculated that some congressmen would support the allowance a year ago might change their opinions because of the heavy demand for taxes to support the national defense program.

A National Petroleum Council committee last week advised Secretary of the Interior Chapman a reduction in the allowance would seriously curtail exploratory operations, cause declining reserves and productive capacity and bring inevitable increases in prices of petroleum products.

The council's committee on capital and material requirements said the allowance is essential in providing risk capital for the industry.

The committee's primary job is to determine the capital and materials needed to permit the industry to increase the availability of petroleum products by 1,000,000 barrels daily over levels of last November and December.

Egypt Planning Five Percent Tax

CAIRO — (AP) — The Egyptian parliament is considering a government-sponsored bill to levy a flat five percent tax on all salaries.

The tax is now a graduated one, varying from two percent on small incomes to seven percent on bigger ones. Local newspapers quoted the finance minister as saying the new measure would "facilitate calculations in assessing the tax."

New Locations In Panhandle Drop To 17; 3 Oilers Finaled

Seven Gassers Are Completed

Pace of new locations in the Panhandle field slowed somewhat last week from the month's high 25 intentions to drill filed the week ended March 1. Area operators last week staked 17 new locations in nine counties including a wildcat in Oldham County by Superior.

Completions hit a new low with only three oilers completed for 187 bbls. and with seven gas wells for an accumulated potential of 17,292

ANNOUNCEMENTS

Card of Thanks

BEYOND THE VEIL
Veiled from our sight, withheld from our embrace, our dear friend, Lawrence Stalder, who passed away Feb. 28, 1951, is now in the presence of his Heavenly Father. We thank God for his long and happy life, and for the many kind friends and neighbors who have helped him in his earthly journey. We also wish to acknowledge the beautiful service of Bro. Crenshaw in his comforting sermon and for the music furnished by the church choir. To the funeral home for the best services we are indeed grateful.

LAWRENCE STALDER

We wish to express our sincere appreciation to all who in any way helped us to bear our sorrow in the death of our loved one, Lawrence Stalder, who passed away Feb. 28, 1951. To the physicians and staff at Highland General Hospital and to our many kind friends and neighbors, the family of Lawrence Stalder. We also wish to acknowledge the beautiful service of Bro. Crenshaw in his comforting sermon and for the music furnished by the church choir. To the funeral home for the best services we are indeed grateful.

Mrs. Lawrence Stalder and Children

Mr. and Mrs. W. C. Stalder, Rm. H. Stalder.

WE WILL BE OPEN SUNDAY

Woodie & Jack's Used Cars

210 N. Hobart -- Phone 48

ARE YOU DRIVING A HEADACHE?

An old, ratty car sure can get on your nerves! It's about time you drove Old Faithful in here and traded it for a cleaner, better Used Car! You'll feel like a new man at the wheel of one of our fine Used Cars. Cash? Not necessary. Easy terms, if you wish. Take a look at these:

'49 CHEV. Spt. Cpe
R.H. O.K. Extra clean.

'47 CHEV. 2 Dr.
O.K. A Bargain.

'48 CHEV. 2 Dr. Extra
nice. A real buy.

'48 OLDS. 4 Dr. Loaded.
Reconditioned. Very clean.

'48 CHEV. Aero. Loaded.
One owner. A real buy.

'46 CHEV. Good Work Car.
Only \$175.00.

And Many More ...

All Values Galore!
