"Texas Safest Tractor Driver Contest"

Farmers and ranchers fo Fisher County who operate farm tractors have an opportunity to win statewide recognition as well as prizes, according to an announcement by L. D. Singley, president of the Fisher Conuty Farm Bureau.

Mr. Singley said that the county Farm Bureau will participate in the second annual "Texas Safest Tractor Opertor Contest" sponsored by the Texas Farm Bureau and the Texas Farm and Ranch Safety Council.

Any farmer or rancher who operates a tractor is eligible to enter, Mr. Singley said. Entry blanks, which are available at the county FB office, must be completed and returned to the county office before the deadline of September 15.

The county winner will compete with other county winners in this Farm Bureau district, and the district winner will compete on the state level. The state winner will be announced at the Texas Farm Bureau convention in November in Corpus Christi.

The state winner will receive a $100 savings bond and a trophy His expenses to the TFB convention will be paid, and he will also attend the annual meeting of the Texas Safety Association. The district winner will receive a plaque, and the county winner will be presented a scroll.

Purpose of the contest, the only one of its kind in the United States, is to encourage safety consciousness in tractor operation, the Farm Bureau leader said. Judging is based on answers given to questions on the entry blanks.

Last year's state contest winner was Ed Foster, a Wichita County, farmer.

TO THE VOTERS OF FISHER COUNTY:

Again, I wish to thank the voters of Fisher County for their help and support in the primary election, making it possible for me to be in the run-off.

As the general election nears I find it will be impossible to see each and everyone. I have been out almost every day since the primary trying to see everyone but many have been away from home and for other reasons I have missed seeing many.

Sincerely I would like to see and talk with each voter, but since this is impossible in the short time remaining, I take this means to ask your vote and support at the general election.

I feel I am qualified to care for the duties of the office. I need the office to help me support my family of six young children.

If elected I shall serve everyone to the best of my ability.

Sincerely,

Eva Nell Dennis, candidate for District Clerk, Fisher County.

Holiday Closing Dates Announced

As a request from many of the merchants of Rotan, the Chamber of Commerce has conducted a poll to see what holidays the town would like to observe. Eight days were listed on the question sheet as possible holidays. Of these eight holidays, the town chose to close on six.

The six selected holidays are: New Years Day, Memorial Day, July 4th, Thanksgiving, Christmas and the day after Christmas. The survey showed that the selection of holidays varied with type of business more than any other one factor. For instance, the service stations do their biggest business of the year on holdiays when other people are closed and going some place. For this reason they voted to stay open on some holidays selected by ohter merchants. Businesses which serve the farmer during planting and harvesting season plan to remain open on holidays coming during these rush periods. Therefore, these six days are not required closing in any way but are the holidays selected by the majority of the merchants to observe by closing. The question sheet also asked the question: "Would you like this to be a permanent choice, rather than for one year only?" This question was answered "Yes" by a large majority.

Rev. Polnac To Lead McCaulley Revival

COMMERCIAL EGG PRODUCTION NEW EXTENSION BULLETIN

Successful management of a poultry flock for egg production is dependent upon maintaining a good performance level for the major factors that influence production cost.

Maintaining this performance level is the theme of a bulletin just released by the Texas Agricultural Extension Service. It is entitled "Commercial Egg Production." The authors are Ben Wormeli and Bob J. rifGfin, extension poultry husbandmen.

According to the bulletin, there are six major factors that influence production cost—size of flock, livability, feed efficiency, labor efficiency, rate of lay and money invested.

The bulletin discusses each of these factors as well as other related subjects such as pullet replacements, housing, equipment, litter, lightnig, cooling, feeding and health maintenance.

The publication may be obtained from the local county agricultural agent's office.

The Bible is filled with references, laws and advice concerning agriculture. Prophets of the Old testament taught and recorded many basic agricultural principles and Christ used agriculture as a bsis for many of His parables. New Testament writers also exhibited a keen interest in agriculture.

The Texas Agricultural Extnesion Service has released a leaflet entitled "The Bible and Agriculture". The author is Reagan Brown, extension rural sociologist.

The leaflet states that today farmers talk and practice many of the principles found in the Bible. The lws of nature are the laws of God and success in agriculture may well depend on how htoroughly these laws are understood and applied, it adds.

This publication points out a few Bibical references to agriculture and discusses them. It may alsso be obtained from local county Extension Office.

Farming in the United States remains highly diversified despite the continuing developments in mechanization and automation. John G. McHaey, extension economist, says this is true not only in crops produced, but also in size, in labor spent in production and in investment in land and equipmet.

A recent U. S. Department of Agriculture report on farm costs and returns on family-operated farms for 1957 lists 31 major types of commercial farms and 18 important farming acreas in the nation, says McHaney.

The different types of farms vary considerably in acreage and intensity of use. Farms range in size from an average of 10 acres for poultry farms to 13,340 acres per sheep ranch in the Southwest. Little or no land is cropped on these two types of farms.

Farms with more intensive cropping range from an average of 29 acres harvested on high-labor intensive tobacco farms, to around 425 acres on grain-roughage livestock farms. Avergae labor used ped acre of cropland ranges from 135 hours on tobacco farms to 8 1-2 hours on grain-roughage livestck farms.

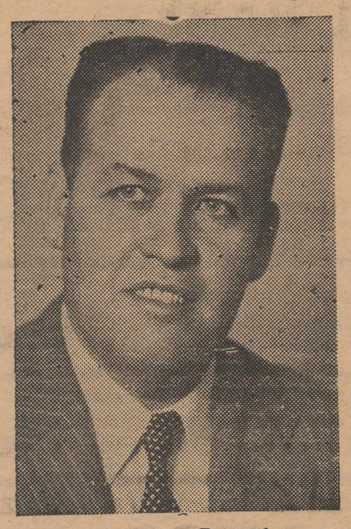

Total investments per farm also vary considerably among the types of farms, points out the economist. Peanut-cotton farms farms averaged a total investment of $10,530 in 1957, while the sheep ranches of the Southwest averaged $177,770. Machinery and equipment investments ranged from $1800 for the peanut-cotton and poultry farms to almost $17,000 on wheat-pea farms.

McHaney also points out that a wide range in total investmenst exsists within a farming type area and among individual farms within the area. Corn Belt farms, for example, range from less than $40,000 to more than $100,000 per farm.

Mr. and Mrs. Dono Day Jr. and daughters Donna and Cheryl and a friend Karen Cole of Ailene visited Mr. and Mrs. Dono Day Sr., Sunday.

Dr. P. D. Terrell, Mrs. Terrell and Julie of McAllen spent Friday night with his parents Mr. and Mrs. W. L. Terrell as they were returning from a vacation of several weeks in the western states.

BAPTISM, AND ITS IMPORTANCE

The fact that the Bible says that "baptism doth also now save us. . " (1 Peter 3:21), will not be disputed by any person who reads and believes the Bible to be God's Holy Word, nor will he say that it is non-essential, for baptim is a command, for Peter says: "And he COMMANDED THEM TO BE BAPTIZED in the name of the Lord." (Acts 10:48), and God has no non-essential commands.

There are only two verses of in all of the Bible that tells how one enters Christ. They are: (Romans 6:3), where the writer says: " . . . . all we who were baptized into Christ Jesus were baptized into His death." Then in Gal. 3:27, the same writer says, "For as many of you as have been baptized into Christ have put on Christ." Without baptism it is impossible to enter into Christ—or to be saved, for salvation is in Christ. (2 Tim. 2:10). One can no more be saved without baptism than he can without faith or repentance. (Heb. 11:6; Luke 13:3).

It will not do for one to say that he believes in baptism, but does not believe it is essential to one's salvation. For an individual to make such a statement shows that he is unacquainted with the subject . . . Recently a preacher with more zeal than knowledge, said that he baptized people because they were already saved. He further stated that Jesus was baptized because he was already the Son of God—not to make Him God's son. It seemed never to have occured to him that Jesus never did anything in his life on earth to make Him God's Son. He was already God's son from his birth of the virgin Mary. Of course Christ was not baptized in order to be saved! Nor was he baptized because he was saved. He never repented to become God's son. But no man today can be saved without repentence. (Luke 13:3). Therefore no person can be scripturally baptized BECAUSE he is saved. For baptism is "FOR"—"unto the remission of sins." (Acts 2:38.) He who states otherwise teaches error!

Baptism is so important that it stands between the sinner and:

1. Salvation. (Mark 16:16;
2. The remission of sins. (Acts 2:38);
3. The washing away of sins. (Acts 22:16);
4. Getting into Christ. (Gal. 3:27);
5. Newness of life. (Rom. 6:3, 4);
6. And of entering the kingdom of God. (John 3:5).

We urge you to consider obeying Him this very day!"Arise, and be baptized. ."

REFRIGERATOR-FREEZER

that needs

NO DEFROSTING

MADE BY

FRIGIDAIRE

FROST-PROOF FOOD KEEPING - WHERE YOU NEVER DEFROST AGAIN

In the Flowing - Cold Refrigerator...

Flowing Cold means super-fast, more uniform chilling for all your fresh foods no matter where you store them — in the refrigerator section or on the door — regardless of outside temperatures.

And Flowing Cold means no more frost! Here's how it works:

Fresh warm air enters the refrigerator section every time you open the door — and is drawn by a fan up and over the hidden Refrig-o-Plate that cools it and removes the excess moisture after which it comes back in at the top as Flowing Cold.

Best of all, the moisture removed is evaporated automatically — there's nothing you have to do!

In the Frost-Proof Freezer...

Completely new and revolutionary — completely different from so-called "automatic" defrosting systems. Frigidaire patented Frost-Proof Freezing actually whisks away heat and moisture before frost can form!

Frost-Proof Cold enters at the top, rear, cooling and removing moisture from the entire freezer. Then this warmer, moist air is drawn out of the freezer across sub-zero freezing plate underneath and completely separate from the freezer, where the air is rechilled, changing warm air into dry, sub-zero Frost-Proof Cold!

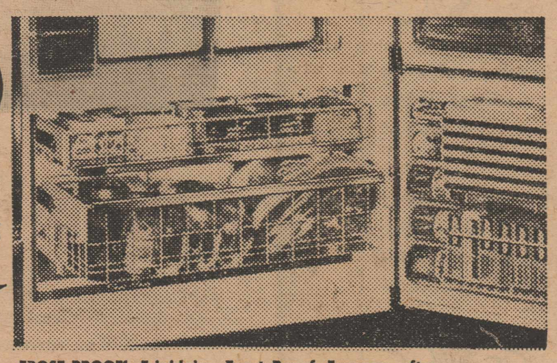

And the moisture, of course, evaporates automatically. Frost never accumulates on freezer walls or on food. No more chipping, scraping at a stubborn ice crust. No more melting frost, no more pans to spill!

FROSTED-UP! Ordinary freezer chest after 30 days. Everything has liberal coating of frost! Some types demand do-it-yourself defrosting. Others apply electric heat to freezer to melt frost. Sometimes frost water drips down on food — refreezes on packages. Foods may thaw, then refreeze — lose flavor and vitamins!

Not this

This

FROST-PROOF! Frigidaire Frost-Proof Freezer after months or even years! Not a whisker of frost in sight! The secret is a new kind of circulating cold — dry, sub-zero cold — that's hungry for heat and thirsty for moisture. Carries away warm air and moisture before frost can form! Freezes foods faster — keeps them frozen.

Social Security Amounts Paid In Fisher County

$14,763 in social security benefits was paid to some 369 persons in Fisher County for the month of December, 1957, according to official figures just received by R. R. Tuley, Jr., district manager for the Social Security Administration in Abilene.

This represents an increase of some 30-35% over comparable figures for December 1956, he added.

These payments went to retired men and women past retirement age (62 for women, 65 for men), to severely disabled persons past age 50, to wives and dependent husbands of retired persons, to children of retired or deceased parents (either under 18 or disabled since before age 18), to widows, dependent widowers, and dependent parents (if no spouse or child eligible for payment).

Tuley urges all persons past retirement age to contact a representative of the Abilene social security office as soon as possible, if they have had as much as two or three years of social security credits on their last and present earnings, to avoid possible loss of benefits thru a misunderstanding of what is meant by "retirement". Too, upon the death of anyone holding a social security card, injuiry should be made regarding the possibility of survivor benefits due some members of the family. Delays in making inquiries can result in the loss of some benefits.

The figures for Fisher County are furhter broken down by benefit category in the following table:

Retired and disability, 191 persons, $9,599 monthly.

Wives and husbands 82, $2,138 monthly.

Children 60, $1,440 monthly.

Widows, Widowers and Parents, 36, $1,586 monthly.

Mrs. W. B. Tillotson, Ann and Berna Lou Martin went to Fort Worth Saturday to visit relatives, they also went to Dallas and Berna Lou left there by plane Thursday to return to her home in Nashville, Tenn., after spending the summer here with her uncle and family, Mr. and Mrs. W. Care Of Milk In Hot Weather

Here are ideas to help you get the best from that quart of milk this summer:

- Get milk off the doorstep as soon as possible after delivery.
- Wipe the container with a clean, damp cloth and store in the coldest part of your refrigerator (but not the freezer compartment).

- When handling don't touch or wipe the pouring surface of the container. It has been kept sterile with a covering cap put on by your dairy.
- Limit the moments when milk is out of your refrigerator as much as possible. This not only keeps milk cold and sanitary but also protects it from light. Ordinary daylight deteriorates flavor and vitamin values in milk.

- Don't pour unused milk back in the container. Losses of flavor or vitamin values in the exposed milk will effect your entire refrigerated supply. Same with cream.

In other words, give yourself a break by caring for the milk you buy as carefully as has the dairy farmer and distributor whose brand you prefer. Keep it cold, clean, covered, and in the dark, says the National Dairy Council.

MAX CARRIKER:

Family Man

Like other successful family men in our area, Max Carriker knows from years of experience the meaning of responsibility, leadership, judgement, patience and selfless devotion. Those same qualities are always necessary in men who successfully serve their area in public office. The Max Carriker family, shown in the photograph above, is a close-knit and happy group. "One for all and all for one" is the way they describe themselves. From left to right, they are Stuart, Mrs. Carriker, Diane and Stevie. They will represent our area, too, if you vote August 23 for

MAX CARRIKER, State Representative, 91st District

(This advertisement paid for by friends of Max Carriker)

TO THE VOTERS OF FISHER COUNTY

With the second primary just a matter of days away, I again want to express my sincere appreciation to you good people of Fisher County for your fine support and confidence during my time as your County Judge. It is my desire to serve you another term in that office.

I want to remind you that I am a Democrat and have always voted a straight Democratic ticket.

Some of the most progressive steps made in the last few years are:

1. Retirement of the couty's debt as fast as possible, on which much progress has been made.
2. Extension of Farm-to-Market roads.
3. Establishing of a county Welfare Program to aid the needy, aged and underprivileged.

I am profoundly interested in continuing these measures and furthering others which are for economical improvement of the county.

Being a Veteran of World War II, I propose to continue the Veterans' Service Division that our county has provided for quite some time.

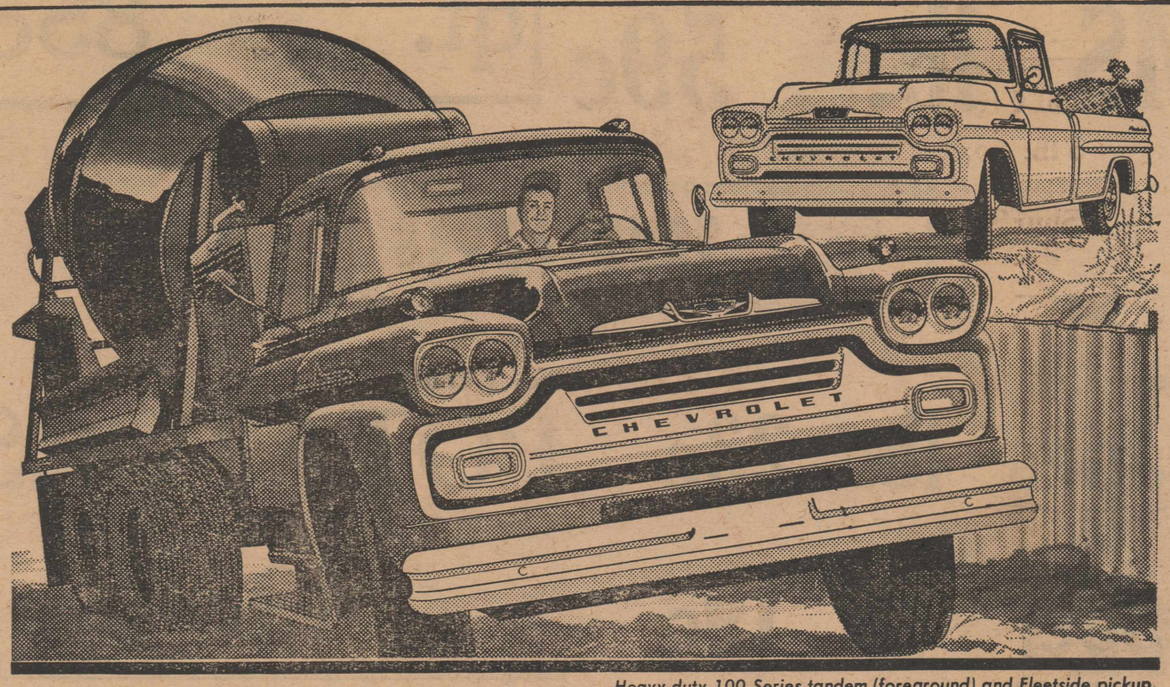

Be sure to vote in the second primary August 23. I would be humbly grateful for your continued support and influence.

Bruce McCain

Candidate for Re-election, Fisher County Judge

Mrs. M. F. Garland and son David were joined Thursday by Mrs. Carl Lummus, Mrs. Edwin Lummus of Ranger and Mrs. Joe Donald Allen of Clyde and they went to Dallas to attend a gift tea, Friday, honoring Martha Jane Payne of Dallas, fiancee of Max Garland, son of Mr. and Mrs. M. F. Garland.

Heavy-duty 100 Series tandem (foreground) and Fleetside pickup.

You get the right power... right down the line!

From the mountain-movin' Workmaster V8 in tandems down to the quick-stepping Thriftmaster 6 in pickups, Chevrolet trucks offer precisely the kind of power you need. Here are seven truck engines designed and built to work longer for less on your job.

WORKMASTER V8—Built for top-tonnage hauls, this 348-cubic-inch V8 packs 230 h.p., has new "Wedge-Head" design.

HEAVY-DUTY SUPER TASKMASTER V8—This 175-h.p. V8 is tough-built for tough jobs. Like the Workmaster, it has 4-barrel carburetor, dual exhaust.

HEAVY-DUTY TASKMASTER V8—Engineered to put muscle in medium-duty jobs, this 283-cubic-inch V8 packs 160 h.p.

JOBMASTER 6—Built for dollar-saving durability, this 261-cubic-inch 150-h.p. 6 hauls hefty loads with ease.

TRADEMASTER V8—This 160-h.p. V8 has stay-on-the-job stamina for tight schedules. 8.5 to 1 compression ratio.

THRIFTMASTER 6—Tops for cutting cost corners, this 235-cubic-inch 6 has 145 h.p., 8.25 to 1 compression ratio.

THRIFTMASTER 6 SPECIAL—Ruggedly built for Forward Control duty, it's got more "go" for stop-and-go hauling.

Cross Roads Church Wins Achievement & Recognition Contest

The Cross Roads Baptist Church was declared winner of the Texas Baptist Achievement and Recognition Program last Saturday at Hillcrest Baptist Church. The scrap books showing work done for the past year were judged by a team from the Stonewall-Kent Association, headed by Billy Burke of Girard, and chairman of the Achievement Program in that Association.

The church had set up some 96 goals to be reached during this associational year, which closes on August 31. These goals were set up by April 1 and had to be turned in to the Stewardship and Missions Department by that time. The church in accomplishing these goals has worked hard and has seen many improvements in the worship services, organizations, and grounds. The church achieved something on everyone of the goals except one. During the past year, there has been 18 additions to the church family with 10 of these for Baptism. In the light of the population trends, and the work in the past, the church is very happy.

The Scrap Book from this church will now be sent to Brownwood where it will be judged in district competition to determine the district winner. This date has been set for September 15, and the results should be known immediately after the judging. Brother Fate Redden of Hillcrest Baptist Church is the associational Achievement Program Chairman for the Fisher County Baptist Association.

Mr. and Mrs. Al Young of Pecos came Friday and visited her mother and sister, Mrs. L. C. Miller and Mrs. Lena Patterson until Sunday. Mr. and Mrs. George Kiker of Lubbock spent Sunday here with them and Mrs. L. M. Scoggins, who was moving from Abilene to Lubbock spent Friday night here with them.

Mrs. Flora Blount returnd home Saturday from Odessa where she had been with her daughter, Mrs. Joe Don Lewrence who has been very ill. She is the hospital and is improving. Jimmy Blount remained in Odessa to be with his sister.

MAX CARRIKER:

FATHER and TEACHER

Besides being the breadwinner for his children, a present-day father has got to provide instruction, companionship and example to help his youngsters grow up with the right perspective for living. Max Carriker believes this, and he practices what he preaches by taking his two sons Stevie and Stuart with him into the fields of the farm where the Max Carriker family has always lived. The qualities of a successful father are the same qualities men seek when they want a man of trust, honesty, maturity and judgement. That's the kind of man you will be voting for when you cast your vote August 23 for

This article is designed to try and answer any questions you might have concerning social security. The information for this article is compiled by H. C. Haney, Field Representative of the Abilene Social Security office:

Q. When I come in to file an application for my social security benefits, what proof of my 1957 earnings will I need?

A. If you have been working for wages you should have your copy of the 1957 W-2 form which your employer gave you. If you have been Self-Employed you should bring in a copy of the 1957 Tax Return.

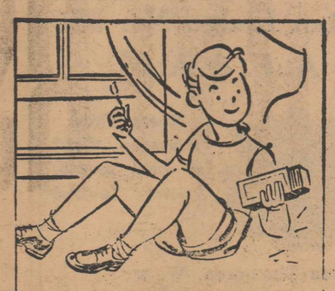

Q. I have a woman who comes to clean my home. In addition to her cash salary I also furnish her lunch and, from time to time give he extra clothing and extra food to take home. In figuring her earninsg for social security must I determine the value of the food and clothing?

A. No. In determing the amount to be reported for domestic workers, only cash wages count. The other is considered to wages in kind and is excluded for social security.

Q. I will be 72 in August of this year and I am still working and earning over $4200 per year. If I file my claim at that time how many checks would I get for this year?

A. When you become 72 there is no limitation on your annual earnings. Therefore you will get at least five checks for this year (August thru December).

Qusetions that you would like answered should be addressed to the Social Security Office, P. O. Box 1641, Abilene.

BILLY: SCIENTIST IN 1988?

Billy's a bright, likeable kid. Seems as though he's always puttering around his basement doing experiments with his chemistry set. You might say he's the neighborhood's budding young scientist.

Yes, Billy could probably be a famous scientist one of these days. But right now, his chances are pretty slim.

In Billy's community there is a scarcity of classrooms, of teachers, and of good textbooks. Result? Billy is short-changed on his schooling.

Let's be sure that this doesn't happen to the children in *our* schools. Join with the other good citizens of our community to back up our School Board, make it a point to attend PTA meetings and school conferences.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D. Commissioner of Health

The advent of penicillin and other so-called "wonder drugs" has revolutionized modern medical practices. These new drugs—called "antibiotics"—have caught the public's fancy, and have given physicians powerful weapons in their conquest against disease.

But into this symphony of praise has crept a sour note. Cases of incorrect dosage and self-prescription are becoming common, raising the danger of serious reactions.

It is a waste of time to run for a shot of penicillin for an oncoming cold. The is ineffective against the viral diseases, including common colds, flu, measles and mumps. Taking penicillin in lozengas o rother forms for scratchy throast, for upset stomachs, or a variety of mild illnesses which would quickly run their courses anyway, is unwise unless precribed by a physician.

A common pattern of self-prescription goes like this: The doctor prescribes an antibiotic for a sick patient. Some of the pills are left over after the patient gets well. Several weeks later, the patient again feels bad and—on his own initiative—takes the left-over pills.

There are at least five good reasons why drugs should not be taken without prescription.

1. When improperly used, they may prevent or retard action of the body's natural immunity. This sometimes happens because drugs work on germs while the natural defense mechanism remains inactive.

2. Germs vary in strength and ability to cause disease. Stronger ones may become resistant to drugs just a some insects have become resistant to DDT. They multiply and produce new generations also capable of resisting antibodies. Recent outbreaks of infection in hospitals are proof of this.

3. Some diseases call for massive doses of drugs for prolonged period. Taking small quanities on your own initiative might mean germs you are trying to kill may actually flourish.

4. Some people are allergic to drugs. One person in 25 is allergic to penicillin, and one in ten may develop allergic reactions after repeated doses.

5. Self-administration of antibiotics can often mask a really serious illness by obscuring symptoms thus making an accurate diagnosis difficult or impossible.

Increasing use of wondre drugs A most appropriate rule of thumb to follow in the use of any drug is never to take them without a physician's recommendation.

Sisters Win County 4-H Dress Revue

The Annual Fisher County 4-H Dress Revue was held July 29 at 2:30 in the meeting room of the Mid-West Electric building in Roby.

Mrs. Orvel Hill of McCaulley was commentator and presented the ribbons. Modeling gathered skirts in the 9-11 year old division were Margaret McCain, Ann Baugh, Kathy Loving, Jackie Sturdivant, Ann Kemp, Kay Schubert, Elaine Randolph, and Sally Smith. Modeling skirts and blouses which they made themselves in this same division were Susie Cave and Donna Randolph.

In the 12-13 year old division was Linda Gay Hale who modeled a gathered skirt she had made and Linda Ann Moore and Connie Beck who modeled blouses and skirts they had made.

Entering the Senior division were Sally Beck, Arminta Kemp, and Frances Hill, modeling fall dresses.

All of the skirts and blouses were made in workshops which were conducted by the Home Demonstration Agent, Alice Kemp, and adult leader, Mrs. James Cave of Roby and three Senior 4-H girls, Sally Beck and Arminta Kemp of Roby, and Frances Hill of McCaulley.

The girls scores were compiled from judging of the construction, how well it looked on the girl and her 4-H recrd. Each girl received a ribbon according to her score. Judging the Dress Revue were Mrs. James Simmons, Home Economics teacher of Hamlin and Miss Barbara McAnelly, Home Demonstration Agent of Haskell County.

Winners of the dress revue were Sally Beck who won the Senior Division with a two piece red wool knit dress. Her accessories were black except for a white leather beret. Sally will compete in the District III 4-H Dress Revue September 6 in Wichita Falls.

Also a winner was Sally's sister, Connie Beck who won the 12-13 year old division with a two-piece brown cotton dress. Connie will also model at the District Dress Revue in September. Both girls are daughters of Mr. and Mrs. James Beck of Sylvester.

Decorating committee for the revue were Mrs. James Cave, Susie Cave, Arminta Kemp and Jonnie Terry.

Following the revue, the Home Demonstration Council gave the girls and their guests a tea. Mrs. Ray Maberry is Council Chairman. She was assisted by women from all six clubs in the county in the tea.
