Armistice Speaker

Rev. Herbert G. Markley, Presbyterian minister of Breckenridge, Texas, will be the speaker at the Armistice Day program to be held in the school auditorium at 10:30 a. m. Tuesday, Nov. 11 under the sponsorship of the American Legion. Rev. Markley was Department Chaplain of the Texas American Legion last year. He was an overseas United States Army Chaplain during the World War. Markley is one of the nation's most gifted speakers and platform entertainers and Perryton is fortunate to secure a man of his caliber. The public is invited and urged to attend the program.

Frank Scofield, state director of Defense Savings Bonds and Stamps, came all the way from Austin to Perryton to fire the first gun Monday morning in the state-wide Defense Savings Stamp and Bond Week which opened in every city, town, village and neighborhood in the 254 counties of Texas on Nov. 3 to run until Nov. 11, Armistice Day. At the end of the campaign Texas citizens will have loaned millions of dollars to their country's defense by the purchase of these securities.

Mr. Scofield, who is also Collector of Internal Revenue for the United States Treasury for the first district of Texas which comprises much of central and all of south Texas, was the principal speaker at the gigantic rally in the school auditorium Monday to launch the bond and stamp sales in Ochiltree county.

Bill Herndon, high school senior, presided at the rally. Following the advance of the colors and the Pledge of Allegiance to the Flag, J. E. Mullins, pastor of the Church of Christ, gave the invocation. Patriotic selections including the "Star Spangled Banner" and "Army Bonds Today" were rendered by the Ranger band under the direction of Glenn Truax. Superintendent C. Wedgworth of the Perryton schools was introduced then by the chairman.

In turn Mr. Wedgworth introduced the members of the county sales committee; Carl Ellis, chairman; M. R. Coffey, Mrs. E. O. Burger, L. R. Conner, W. M. Boston and H. T. Cullter; and district committee members Fred West and Mrs. Van W. Stewart. Others seated on the stage and present included Colbert Glenn, Austin; Sam See No. 2, Back Page

Hunting Season Starts Off With A Bang

Hunting season starts off with a bang . . . or should we say "bang-bang." Many were the laments and pretty strong were some of the expressed feelings by hunters around Perryton when they were unable to obtain Federal duck stamps at the post office Saturday. The first supply was exhausted early . . . hunters begged for the privilege of paying their dollar and taking a receipt . . . but "no soap," there wasn't anything in the regulations covering such so they didn't get stamps or receipts. Another supply came in Sunday . . . they didn't last long. Then, following the lead of other offices, they started issuing receipts . . . so everybody's happy now . . . late Tuesday evening 97 stamps and receipts had been issued. This number would have been much larger if many hunters of this area had not already purchased their stamps in Oklahoma where the season opens earlier than in Texas. While ducks seem to be plentiful, the kill has been light . . . the shooters say they're wild and hard to get up in shooting range.

Rev. Markley is one of the most powerful speakers in the nation. For many years he has been in great demand as a lecturer and platform speaker on Americanism and the American Legion of Perryton is very happy over securing him for this engagement. They promise the people of this area that Chaplain Markley will be the equal, if not the peer, of any speaker ever to address a Perryton audience.

Free Lunch at Noon
At the noon hour a free lunch for the public will be served in the school cafeteria with the compliments of the American Legion and the Farmers' Union.

To Honor Curt Roach

Roach, Ochiltree county man who is the state President of the Farmers' Union in Texas. Principal speaker at this program will be Tom Cheek, president for 11 years of the Oklahoma Farmers' Union. Mr. Cheek is also chairman of the national executive board of the Union and a member of the national legislative committee. He homesteaded in Roger Mills county, Okla. and still occupies his home place.

Other officials of the Farmers' Union who will appear on the program are Andrew Peterson, Canadian, member of the state board; and Frank Overturn, Amarillo, state secretary.

Legion Committees
Following are the committees from the American Legion and the American Legion Auxiliary who are making arrangements for the Legion's part of the day's activities: Program: C. Wedgworth, chairman; Glenn Truax and Van W. Stewart.

Perryton SCS Men to Morton
The technical force of the Perryton Soil Conservation camp is being transferred to other stations of the CSC. Superintendent H. W. Finch, Senior Foreman R. L. Keith and W. W. Hancock, and Motor Mechanic Orville Jacobs, left last week for the CCC camp at Morton, Texas.

Over 400 CCC camps in the nation have been abandoned. This reduction program is necessary due to the lack of enrollees. Many youths are now in the army, navy and marine corps. There is practically no unemployment of able bodied young men. Hence the need for CCC camps has almost ceased to exist.

High School Students Govern City of Perryton Over Hallowe'en

When Mayor W. H. Lance turned the city government over to officers elected by the boys of the Perryton schools at 1:00 o'clock Friday afternoon to serve until 12 o'clock noon on the day following, he must have had a "hunch" that the boys could do a better job of controlling Hallowe'en pranks than the regular officer force.

For that is just what happened and the 1941 Hallowe'en has gone down in history as the quietest with the least property damage of all Hallowe'en's in Perryton's 22 years of existence.

Several Hallowe'en law violators were arrested . . . some were jailed for a few hours . . . but in every arrested the offenders pleaded guilty when arraigned before the court officiated by student elected officials. Fines ranged from 25c to \$2 with no costs added.

Student officials were as follows: Bill Herndon, mayor; Jack Allen, chief-of-police; Archie Carrell, city attorney; and Harold Gidley, night watchman. The Patrol officers were: Kenneth Mullins, G. K. Rupprecht, Irvin Williams, Jack Parker, Phil See No. 1, Back Page

Clothing Styles for Farm Work

Women do many farm chores, and with boys being called to the colors likely they'll do more in the future. Those with such active jobs will do well to investigate some new work clothes designed by the Bureau of Home Economics, advises Mrs. Dora R. Barnes, clothing specialist for the Texas Extension Service. At the left is a one-piece cotton coverette made for chores such as milking, gardening and tending the chickens. For heavier farm work is the field suit worn by the girl on the right. It has slide fasteners which close the legs at the ankle and half sleeves that snap on and off.

Only Turkeys Which are "Ripe" Should Be Placed on the Market

COLLEGE STATION, November 4.—The year's biggest demand for turkeys is in the offing. It is timely, therefore, for producers to go over all marketable birds carefully, much as livestockmen cut out their cattle, says George P. McCarthy, poultry-husbandman of the A. & M. College Extension Service. Only those turkeys often referred to as "ripe" are in best condition to go to market.

Growers can determine whether birds have developed well in flesh by feeling the keel and along the shoulders and thighs. If they are well-fleshed then examine further to see whether they have put on fat. This is best indicated by layers of fat found along the thin feather tract of the breast and on the thighs. Examination should continue to see whether they have developed pin feathers.

Pin feathers, McCarthy explains, cut a turkey in grade probably more than any other thing. If a turkey has not developed pin feathers to the point where they protrude through the skin and have taken on a fanlike shape, then it can easily be classified as green. Should a turkey of this kind be dressed out a heavy scattering of pin feathers would be found over the breast and on the thigh. The degree of pin feather development easily can be determined by folding back some of the feather tracts along the breast to see whether feathers have developed well in the area then looking on the inside of the wing to see whether the pin feathers have protruded through the web part of the wing. If the thigh is rather smooth to the touch, then pin feathers have developed and taken on fan like shape and the turkey will dress out as a good market bird, McCarthy says.

"I find that lots of our toms are marketing too early. If they had been kept off the market another three or four weeks they would have

Adopt Special Wind Erosion Farm Program

A county-wide meeting of farmers was held Saturday for the purpose of discussing the special wind erosion program and deciding whether or not the county should adopt this program in the place of the regular program for 1942.

In the discussion it was brought out that the special program offered several probable advantages over the regular program for 1942 in that sweet sorghums could be planted on the 20 per cent conserving acreage and used for hay or pasture while under the regular program it was counted as soil depleting unless cut for hay in narrow strips, also under the special program all the soil conserving allowance could be earned while very few would be able to earn the maximum allowance under the regular program.

At the close of the meeting a vote was taken which resulted in a vote of 43 in favor to 4 against adopting the special program for 1942.

"Food for Defense" Meetings in Every Community in County

Following the district Food for Defense meeting in Amarillo, a county meeting was held Saturday morning attended by members of the USDA County Defense board and other persons in the county who will have a part in the county program.

Those in attendance were as follows: Audie Conley, Ford Hamker, Scott Amend, F. B. Sumpter, Miss Lois Pearson, Miss Elizabeth Huffhines, R. A. Turner, Bill Miller, Alton Bell, Earl Waide, Harold Kershaw, Mrs. Freeman Garrett, Van W. Stewart and E. W. Thomas.

The information given at the Amarillo meeting was discussed and it was decided that meetings would be held in each community in the county during the next few weeks to bring the Food for Defense program before the farmers.

The requirements are strict and horses must conform to the following specifications: (A) General qualifications: sturdy, symmetrically conformed, reasonably well balanced, a good foot, closely ribbed, a short back suitable to take an army saddle, strong legs sufficiently well placed and directed to let him move straight. Horses must be gentle and allow all four feet to be handled. Height, 15 to 15.3 hands and up to 16 hands if mature. Weight, from 1,000 to 1,200 pounds, according to height. Age 4 to 8 years old. Sex geldings and a few mares of outstanding quality and substance. Color: bay, brown, black, chestnut, very dark duns and roans when of exceptional quality and substance. The half-bred type is preferred, but any good horse meeting requirements is suitable. The poor keeping type is unsuitable. 15.2

Guymon Farmer Proves Worth of Contour Farming

GUYMON OKLA. — It pays to farm on the contour to conserve moisture.

This was demonstrated by Henry Gardner and his neighbor, Roy Gribble, who live 15 miles north of Guymon. This country has been called the "dust bowl" but it has been changed to what might be called the "garden spot of the country."

In October, Roy Gribble dug a hole four feet deep with a post hole digger to demonstrate that there was no dry dirt where he had been contour farming maize. It was easy to see that where no contour farming was applied to hold the water the yields were only one-third, one-half and two-thirds as much as where the grain sorghum had been contour cultivated. Photographs have been made to illustrate and show evidence of the above statements.

F. F. A. Projects

On October 6, David Stollings, Jack Osborne, Charles Peckenpugh, and Paul Hinson each bought a calf out of William Hamker's herd to feed out for the spring show. Following the show the calves will be shipped and sold on the Kansas City market. The boys will go to Kansas City to receive inside information on the marketing of calves.

Johnny Gurley, Eldon Boese, Paul Hale, and Max Clarke are also feeding calves.

Wendell Peckenpugh, a 4-H Club boy, has bought a calf from the Hamker herd. This calf will be fed out under the supervision of County Agent E. W. Thomas, making a total of around twenty calves to be shown.

Dan Ellis, Gale Rogers, and Bruce Baumann started baby chicks Oct. 4 for broiler production.

Lambs are being fed out for showing purposes by the following boys: Archie Correll, Calvin Schroeder, Leland Wilson, Dean Bern-

In remembrance of the day 23 years ago, November 11, 1918, we pause in memory and celebration of an Armistice that was signed to end a great conflict. Let us pause and be thankful for a great nation in which we may live in the way of our choice and also be thankful and proud that we live in a land where we enjoy privileges of freedom of religion—freedom of speech—freedom of the press. It makes our hearts swell with pride when we realize that we are a part of this great nation and can live our lives according to our convictions.

All of Perryton invite you here on this day to help celebrate in the true American way. A program has been prepared that you will enjoy. Come and celebrate with us.

Armistice Day

Tuesday, November 11, 1941

In every American home there is a prayer today. In every American heart there is a humility and an immense gratitude. And in every American city and town there is Peace. When American faces East for one minute today a mighty wave of emotion will sweep the shores of the Pacific over the towering peaks of the Rockies, and taking new force will rush over the Great Plains and plateaus, over and across and through and around the Appalachians and into the sea and over it. Let not such a mighty human thought be wasted. Let the Peace stand in America forever!

Guidance Room Offers Vocational Selection Aids

The outside room of the guidance office of the Perryton High School is arranged and equipped so that boys and girls may find answers to their questions about jobs and personal problems. These frequently asked questions all have a solution for each student.

What kind of a job do I want? Why do I think I want this job? Do my physical, mental, moral and social qualifications indicate that I shall be a success at this work? Is there an over supply or under supply of workers in this field of work? What training is necessary? How and when does one acquire this training? Do I need to go to college, a trade school, or become an apprentice? Where do I find employment? How do I apply, in

person, by written application? How can I continue to develop so that I may keep a job in spite of machinery, or age? How can I be a success? This room is arranged as a reading room so that students may solve their own problems, find answers to their problems with the help of their home room teachers or with the assistance of Mr. Kelly or Miss Mitchell. Materials assembled in the browsing room include books, magazines, pamphlets, magazine and newspaper articles, bibliography of materials available in the libraries, college catalogues, bulletins from trade schools, and self checking lists. A book of special interest is the United States Employment Service Dictionary of Occupational Titles which include professional and managerial occupations, clerical and sales occupations, service occupations, agricultural, fishery, forestry and kindred occupations, skilled occupations, semi-skilled and unskilled occupations.

Stockpiles of Food for Peace

Here is what the U. S. Department of Agriculture means when it urges farmers to help produce "stockpiles of food for use after the war." The upper picture shows barrels of dried milk, just as good a year from now as today. The lower picture shows a warehouse filled with huge drums of cheese, even better with aging. These farm products, plus condensed milk, dried milk, cured pork, and canned meat and vegetables, constitute the stockpiles of defense food which, says Secretary Claude R. Wickard, will be needed by hungry Europe and "will exert the maximum influence at the peace conference table."

Honor Point System for Ranger Band

The Perryton Ranger Band has been militarized this year with the Honor Point system. This system was used last year but has been perfected to a larger degree this year.

In this system, band members are given points for outside study and practice, band engagements, solos and ensembles presented in public, inspection of uniform and for gaining first chair in each section.

Twenty-five points are given per semester for each member on the honor roll and 25 points are given for perfect attendance in daily band practice. According to rank the officers are Co-Drum Majors, Captain, who directs the band in the absence of the band director; 1st Sergeant, three line Sergeants, who are in charge of platoons; and the Corporals for each squad, each having six members in their squad. There are five squads in the Ranger Band.

Due to unusually wet weather to date, the Ranger Band has not perfected very many formations for performances at football games, but the most outstanding that has been worked out, is the making of the "V for victory" with the dot and dash. This stunt has been given at several games and has won recognition for the band each time it was performed. During this formation, the national anthem is played and sung by the members of the Band and Drum and Bugle Corps, who have been working at night. The game is one given at night, the lights are turned out and the flash twirler executes fancy throws and spins with the flash baton won at Spearman at a marching contest last summer.

At a signal from the drum majors, the Band whips into the Ranger song and regular formation. This will be given on the 8th of November by the Ranger Band and Drum and Bugle Corps, at the homecoming celebration. By special invitation these two organizations will attend and perform during the half at the home coming game between Canyon and Abilene.

The Library Corner

The current Book Week, November 2-8, the twenty-third observance, chooses for its theme "Forward With Books." This week is celebrated over this country to impress old and new readers of the possibilities that are provided by the free libraries.

Book Week began in 1919. The Boy Scouts of America had a vital part in beginning this observance of National Book Week. The American Library Association helped the Scouts sponsor this idea. This is a week to arouse enthusiasm for reading. Cold weather nights may be spent reading interesting books. This is a good week for you to begin the use of the Perryton Public Library.

Good books are good friends. Good books make good friends. Children learn through good books to be good friends. We all learn through good books to be good friends.

If the refreshing spirit of Book Week can annually give impetus to the enjoyment and love of books, it will be serving the purpose of its founders. Book Week is becoming a regular part of our school year. Many parents may find their children developing a desire for home library. Encourage this desire as it may never exist again in your child's life. Help the children find their place in the world; books give them ideas; perhaps your child may find his vocations through reading books.

November and December are the best time of year for the sales of children's books. Take time out as parents, and find books suitable for Christmas gifts for your children. Ask your librarian to supply you with book catalogs; she will be glad to suggest books for different age levels.

This year Public Library Day will be observed November 6. This is the first day to be chosen for this library observance. Won't you visit your public library on that day and see how it has grown? Perhaps you will discover treasures there. Perhaps you could add to the collection by giving a book to the library on that day. Go to your library and browse. You may find just the book to help you on your hobby, your bible study, your home or farm work. There are all types of books in this library. Do not think of fiction when the name library is mentioned. The most valuable books are non-fiction.

You are fortunate to have a County Library Board. This group is certainly spending time working on the book collection. Careful book selection is made each month in order that Perryton and Ochiltree citizens will have advantages in the reading world. Do you know the library board members? Inquire about the members and contact them. Any member will be glad to order books on the next month's order if our budget allows it.

Interest in the place of books in the lives of boys and girls is intensified by the national drive for democracy at home and abroad and Book Week observance in many communities will be centered on a patriotic theme: "Forward With Books for Young Americans. American goes forward with Books," for Better Citizenship.

"Good books and their character are abiding ambassadors of Good Will." Never has it been so important that we understand ourselves and that we understand our neighbors around the world.

We all read for an objective. The objective being the development of broad and permanent interest in reading of all types—for pleasure, for information, and for inspiration.

This is a day of increasing costs, and, therefore, increasing values. The cost of Salvation is no higher, because the highest possible price has already been paid; but its value should ever increase as it becomes more precious through the years.

"A Sure Foundation," Isa. 28:16; and "Righteousness Exalteth A Nation," will be the sermon subjects next Lord's day in the order in which they are named.

Christian Science

"Adam and Pallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 9.

The Golden Text is: "Put off concerning the former conversation the old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind" (Ephesians 4:22, 23).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Ye are all children of God by faith in Christ Jesus" (Galatians 3:26).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the scriptures," by Mary Baker Eddy: "Spiritually to understand that there is but one creator, God, unfolds all creation, confirms the Scriptures, brings the sweet assurance of no parting, no pain, and of man deathless and perfect and eternal" (page 69).

Mrs. O. I. Smith came in Tuesday from Canyon to be with her daughter, Mrs. Glen Ragan, who has been ill with tonsillitis.

WPA Wages Up November 1

SAN ANTONIO, Oct. 31.—November's WPA payroll for 50,000 Texas workers will be increased by \$248,000, it was announced today by State Administrator H. P. Dwight.

In line with nationwide WPA wage increases to aid certified workers in meeting higher living costs, the wage raise goes into effect with all payroll periods beginning on or after November 1, Dwight said.

Workers on those certified national defense projects which are exempted from the normal WPA limitation of 130 hours of work per month permitted on other WPA projects are not included in the wage increase. Such workers are permitted to work from 160 to 192 hours per month, depending on project conditions. Dwight explained, and are therefore able to earn more per month than other project workers.

Individual workers will receive wage increases ranging from \$3.20 per month for unskilled, semi-skilled workers to \$3.90 per month for technical and professional workers.

Only persons who receive the security wage will receive increases in pay. No administrative or project supervisory salaries are effected by the increase.

Hergert, E. D. Kelley and Van W. Stewart.

Max W. Boyer, Perryton attorney, presented the student body and the many adults present with a brief resume of the birth of this nation and its progress down to the critical days of the present and stressed the importance of the bond and stamp sales to the nation's present safety and defense.

Before presenting Mr. Scofield, Supt. Wedgeworth outlined the contest campaign for students in which \$410 worth of stamps and bonds will be awarded as prizes. The contest started Monday and will close Nov. 11, the winners being presented at the American Legion program in the school auditorium Tuesday morning, Nov. 11 at 10:30 o'clock.

Excerpts from Chairman Scofield's address: "The United States is the only country left on earth where you can say what you want and do what you want... You can make the kind of a life that you choose... I may be talking to a future governor of Texas, a United States senator, or a future first lady of the land who will some day be mistress of the White House... The way the twig is bent, the tree will surely grow... I have five children and they will join with you children of today in bearing the burden of upholding Democracy."

"Here you have freedom of speech, freedom of religion and freedom to make your own way... This is the most serious time for the nation since the days of 1776... America will never bow to the dictates of the dictator... I am glad I came to the Plains and to Perryton to open National Defense Week in Texas... I want to pay the highest tribute to your County Chairman Carl Ellis, to your county and district committeemen, to Superintendent Wedgeworth and to the teachers of young Americans."

Head your teachers, respect the flag and the American way of life... It's not necessary to collect money to create unity... This is a job for every man, woman and child in America... These days call for unity of thought, unity of action and unity of intention... Every citizen should own a small share of the greatest corporation on earth by the purchase of Defense Savings Bonds and Stamps."

County Chairman Carl Ellis said, "I need your help. Ask your fathers and mothers to help put Ochiltree county over the top."

In closing, Supt. Wedgeworth said that the goal of the Perryton schools was a one hundred per cent ownership of either bonds or stamps by school children with the slogan of the purchase of at least a ten cent stamp a week by every
