Harvest of Collingsworth County's approximately 500 peanut acres is halfway through this week. At top, uprooted peanuts still attached to the plants lie drying in fields. Peanut plants are dug, lower left, and turned upside down in windrows to dry. A few days later, the peanuts are thrashed, center, from the plants, and dumped into trucks, right, to be hauled to buyers in Oklahoma. The

peanut plants are baled into hay. Most of the county's peanuts this year were contracted to Gold Kist Peanuts in Hydro, Oklahoma. The peanuts pictured above on Jerol Morris' farm north of Quail were averaging about 3,500 lbs. per acre, and hay was averaging 80 bales per acre, better than average yields.

County School Board To Consider Petition To Detach Large Area in Quail District

Collingsworth County School Board will consider Friday, Oct. 13, a petition to detach land totaling approximately 61% of Quail Independent School District's valuation and annex that area to Wellington Independent

School District. County school board president Z.J. Neeley said Wednesday the board would meet at 12:30 p.m. Friday in the county school superintendent's office in the courthouse to consider the petition. The

petition was presented to the county board on Tuesday. Neeley said he did not know if the board would make a final decision on the matter on Friday.

The petition, which was signed by 58 residents of the area requesting detachment and annexation, was presented by Dudley Phipps, Raymond Ward and Earl Patterson.

The petition describes the metes and bounds of the area to be detached, and attached to the petition is a copy of a motion from the minutes of Wellington School Board regarding annexation.

At the regular meeting Monday, October 9 Wellington School Board conditionally approved annexation of the area to Wellington ISD. The condition the Wellington board stipulated is that no bonded indebtedness from Quail ISD be assessed against the Wellington ISD in the event that the county school board does approve the

detachment and annexation. The Wellington board voted unanimously for the motion.

The petitioners did not seek approval of the Quail School Board in the matter. Under the Texas Education Code, the school to which the area is to be annexed must approve the annexation, but approval of

the school from which the area is to be detached is not required if the petitioners meet a student/assessed valuation ratio. The petitioners say they have met that ratio, and that Quail School Board's approval is not necessary.

Willie Jones Dies In One-Car Wreck

Willie Jones, 74, of 301 Ft. Worth Street, was killed when the car he was driving struck a cement bridge 13 miles east of Wellington at 8:45 p.m. Sunday, October 8.

The one-vehicle accident occurred a mile east of the Texas-Oklahoma State line on Oklahoma Highway 9.

Injured in the accident was Lucy Kilgore, also of Wellington.

Oklahoma Trooper Dennis Ratzlaff of Altus reported the 1970 Oldsmobile was west-

bound, traveling at a high rate of speed.

After it struck the bridge, the vehicle went out of control, traveled down an embankment and overturned one time, ejecting the driver.

Mrs. Kilgore, 67, was ejected partially into the rear windshield and rear seat, according to the trooper. She was brought to Collingsworth General Hospital by Volunteer Ambulance Service, where she is being treated for arm and

Vote on Hospital Bond Issue Tues.

County voters on Tuesday, October 17, will determine a \$150,000 bond issue for Collingsworth General Hospital.

There will be one voting box for the entire county, and it will be located in the club room of Bura Handley Community Center. Voting hours will be from 7:00 a.m. to 7:00 p.m., with John Coleman as election judge and Mrs. Billy Hatch as alternate judge.

Two separate propositions will appear on the same ballot, and both propositions must be voted on.

Proposition 1, offers the issuance of \$105,000 in hospital bonds. Money from that issue would be available for repairs and improvements on the building and purchase of equipment.

Proposition 2 offers the issuance of \$45,000 in hospital refunding bonds which can be used to pay back loans already made against equipment and building improvements. The improvements are limited to those required for the hospital to meet Medicare certification. A sample ballot is printed in an advertisement on another page of this issue.

All qualified voters, (registered voters) can cast ballots in the election.

A heavy vote is expected, and at 5:00 p.m. Tuesday, October 10, 50 absentee ballots had been cast, according to Ed Williams, balloting clerk. Absentee votes may be cast in person at the hospital business office until 5:00 p.m. Friday,

October 13.

The hospital board called the election after it was confronted with the fact that in addition to approximately \$45,000 already spent on improvements required by medicare, an additional \$50,000 in improvements must be completed in the next year. These were mandated by federal inspectors several years ago and the hospital has worked toward them. Time is now about to run out.

"The one thing we want to get over to the people is that if this bond issue fails, the hospital is going to close," Otis Emmert, board chairman, declared. "Some people seem to think things can just go along as they are now. That is not true. If this election fails, the hospital will have to close."

Because of the length of time Collingsworth General Hospital has been in operation—more than 60 years—it remains open under a "grandfather clause" which permits certain deficiencies in Medicare requirements not permitted in new hospital buildings.

"If this hospital ever closes, even for 45 minutes, it will never reopen," Dr. Carter Holcomb, chief of staff, said. He explained that any closure of hospital operation, no matter how brief, would require a reopening under the requirements for new hospitals. "The cost of putting this building in condition to meet those requirements would be prohibitive," he said.

Like all hospitals, without Medicare funding, Collingsworth General could not stay in operation, Emmert said.

And in the Medicare funding lies another major problem, Dr. Holcomb pointed out.

Approximately two years ago, Medicare changed its method of payment, he said. Formerly, hospitals were paid on what it cost to provide care for a patient. Now, hospitals are paid on what they bill the patient. On many services, although the charge is as high as Medicare permits, it does not cover the cost.

Within the past year, there have been other drops in revenue and patient days, due to the unavoidable and necessary absence of one of the staff doctors, Dr. Reynaldo Perez, to complete his certification and because of illness in his family. These are unusual circumstances and are not expected to be repeated.

Wellington's three doctors are on the hospital's resident staff: Dr. Holcomb, chief of staff; Dr. Chas. B. Jones and Dr. Perez.

The hospital has two consultants, Dr. Jose Esquivil Diaz of Amarillo, consulting pathologist, and Dr. William L. Reed of Plainview, consulting radiologist.

In addition to these, there is the courtesy staff of doctors who are granted staff privileges. These include: Dr. R.C. McNett, DDS; Dr. O.R. Goodall, Memphis, surgery; Dr. Donald E Blacketter, -See #1, page 2

Rockets Go To Floydada Friday

Wellington Skyrockets travel to Floydada Friday, Oct. 13, for another in the challenging non-conference games that make this year's schedule one of the toughest the school has played.

The Whirlwinds go into the game with a 4-1 record, the Skyrockets with 3-1.

As far as size is concerned, the Winds will be larger than Wellington. Defensively, they play a game much like Electra and Elk City.

Sparking the Floydada team is a 197 pound full back who

gained 220 yards rushing against Littlefield last week.

In Todd Vickers, they have an outstanding quarterback.

Floydada opened the season with a 7-6 win over Dimmitt. They lost 28-7 to Muleshoe, a team rated No. 3 and No. 4 in the state in Class AA polls.

The Winds turned things around to blank Post another AA team, 21-0, and then they defeated Olton 24-7. Their victory over Littlefield was 17-7.

"We are looking at another tough game, for it will be

touch and go on our injuries," said Coach James Williams.

Joe Thomas did not play against Electra and Kirk Patterson did an excellent job of filling in for him on offense, while Joe Saldana went in on defense.

"We couldn't be more pleased with the job both of them did," said Williams.

Also, Charles McIntosh has a badly bruised knee and coaches are hoping he will be in shape for the Floydada game.

"I can't say enough about

our kids. They were down 14-0 at halftime against Electra and came back and put it all together. They didn't lose their poise. They played great defense. If they continue to improve, by the time we get to district all our non-district competition will begin to pay off."

Williams praised other back-up men, Haskell Bonapart, Alvin Pennon, and Tim Anderson who played line-backer last week for the first time and did a fine job, as well

Fire Department Plans Open House

In observance of National Fire Prevention Week, the volunteer Fire Department and its Auxiliary will hold an open house Saturday, October 14, at the Fire Station in Bura Handley Community Center.

Visiting hours are 1:00 to 6:00 p.m.

On view will be the two new fire trucks, one purchased by the city the other by the county.

This will give visitors an opportunity to see what is

most modern in fire-fighting trucks.

On display also will be the Fire Prevention Weeks posters entered in the annual poster contest. Winning posters will be designated and these will be judged on the district and then the state level, according to Fire Chief David Peters.

Several demonstrations of the use of fire fighting equipment will be held during the afternoon. Members have attended the annual Texas

A&M University Firemen's and Fire Marshals Short Course at College Station, where new methods in fire fighting are first tried and demonstrated.

The two truck chassis were received here in the summer and equipment was installed by the firemen working on their own time.

"We invite the public to visit the fire department Saturday," said Peters. "We are proud of our new trucks and we want you to see them, too. Our open house is one way by which we say 'thank you' to the people of the county, the city and commissioners for their support."

The county purchased the new rural fire truck, white in color, to replace one that is worn out.

The city purchased a new all-purpose truck, which was required if the city is to keep its low key insurance rate. The truck it replaces was retained as a back-up unit.

This truck is in the new lime green color which has been adopted nation-wide for fire fighting vehicles, and it replaces the familiar red used

for several generations.

Fire Prevention Week began Sunday, October 8 and will continue through Saturday, October 14.

Fire department members held their annual election of officers Monday night, October 9.

David Peters was returned as fire chief, while Dan Langford was elected president of the department and J.D. Sheer secretary-treasurer.

Danny Gray is the first assistant chief and Eddie Davis second assistant chief.

First Lieutenant is Doc Turner; second lieutenant, Emmet Skelton; third lieutenant, Darrel Colson; fourth lieutenant, Elmer Green and fifth lieutenant, Jeff Langford.

Dr. Carter Holcomb is the department doctor and Harold Wayne Moore is the Chaplain.

This year's mascot is Dell Davis, 11-year-old son of Mr. and Mrs. Eddie Davis. He is a sixth grader in Wellington Junior High.

All patients are released on the eighth day after undergoing heart surgery unless there are complications, Ralph Owens said.

We urge the voters of Collingsworth County to **VOTE FOR** the Hospital Bond

We, as pure volunteers, do not receive any money for our time. The fees charged are for operation of the service. Over half of the base fee (\$25⁰⁰) on each run goes for insurance.

If our hospital closes, resulting in transporting all patients to other hospitals, the volunteers will not be able to continue. The cost of a paid ambulance service would be prohibitive.

We are in full support, of the need, to keep our hospital and all of our doctors.

Wellington State Plans Outdoor Festival of Arts

Wellington State Bank will sponsor an outdoor Festival of Arts Saturday, October 21, featuring the paintings and sculpture of area artists.

This will be on the court house lawn from 10:00 a.m. to 5:00 p.m.

Billy Moseley, executive vice president, announced that the festival is open to any area artist or sculptor who would like to display works.

The entries will not be judged, although each visitor will have an opportunity to vote on the painting he considers best.

At the end of the day, the painting receiving the greatest number of votes will be designated "People's Choice." The exhibitor will receive a \$75 savings account at Wellington State Bank.

"We have many, many talented people in the arts, and it is our hope to give their work greater exposure."

"There is another reason, also. We want this festival of arts to be pure fun for Wellington and the surrounding communities," said Moseley.

He pointed out that it has been a number of years since Wellington has had an outdoor art festival.

"We believe it's time to do this again," he added.

Any medium will be

accepted—oils, water color, acrylics, pastels, charcoal, pen and pencil or other.

Display facilities will circle the court house on the lawn. There will be no division into classes, but paintings will be hung as they are brought in Saturday morning. This festival is not limited to Collingsworth County residents. They may live anywhere in the area.

Display space for sculptures will be provided. Moseley asks that those planning to bring works to contact him at the Wellington State Bank as early as possible.

Additional information on **Windshield Broken With Beer Bottle**

The windshield of the car belonging to Mrs. C.C. Atkinson was broken Friday night, Oct. 6, when it was struck by a beer bottle thrown from a passing car, Chief Deputy Jerry Settle reported.

The vehicle was parked at the curb on the north side of Mrs. Atkinson's house at 901 Childress Street, he said.

Damage was estimated at \$210, which places this vandalism in the felony class, according to the deputy.

the Festival of Arts will be announced next week.

Moseley said that school groups will be invited to set up booths with home made ice cream and other foods.

If the weather is bad, the festival will be postponed and a new date set.

Father Julian Rousseau, well-known Franciscan missionary from Pena Blanca, New Mexico, will conduct a program of spiritual renewal, or parish mission, at Our Mother of Mercy Catholic Church from Sunday, October 22, through Sunday, October 29, according to Reverend Father B.A. Erpen, pastor.

The main service, consisting of Biblical sermons, prayers and hymns, will take place each evening at 8:00 p.m. Sunday through Saturday. A special program for school children will be carried out after school on Monday, Tuesday, and Wednesday.

Father Julian, no stranger in this area, has been preaching missions, or revivals, in both English and Spanish throughout the Southwest for the last 25 years. Originally from Escanaba, Michigan, he spent many years preparing himself for his work as priest and missionary by studying Holy Scripture, philosophy and theology at colleges in Ohio, Michigan, and Indiana. Born June 23, 1909, he was ordained to the Holy Priesthood June 8, 1939.

"We, the pastor and visiting missionary, cordially invite and strongly urge all Christians of the area, both Catholic and non-Catholic, to attend the inspiring services for the glory of God, for the good of their souls and for peace in the world," said Father Erpen.

Mr., Mrs. Laron Peters Live in Plainview After September Rites

Mr. and Mrs. Laron Lynn Peters are making their home in Plainview, following their marriage at the ranch home of the bride's grandmother, Mrs. Alice Stout of Seymour. Dr. Edward C. Hart of First Presbyterian Church performed the morning ceremony on Saturday September 2.

The bride is the former Miss Alice Ruth Cooper, daughter of Mrs. Patsy Cooper of Seymour and Raymond L. Cooper of San Angelo. Parents of the bridegroom are Mr. and Mrs. Richard H. Peters of Quail.

Wedding guests were greeted by Mrs. Wesley Styles, aunt of the bride. Miss Brooke Holt and Miss Sally Holt of Gruver presided at the registration table.

Vows were exchanged in the formal living room before the fireplace. A large mirror above the mantle reflected an arrangement of white gladiolas, Fuji and pom-pom chrysanthemums and baby's breath, with accents of foliage.

Wedding music was presented by Miss Molly Stout of Seymour, who also accompanied Miss Carol Arnold of Plainview, vocalist.

The bride was given in marriage by her uncle, Wesley Styles of Huntsville.

She wore a formal gown of candlelight Quiana and chiffon, designed with a shaped bodice with deep V neckline and long sleeves enhanced with double circle of chiffon.

Her A-line skirt had back fullness that swept to chapel length. A cluster of silk roses and double clip of matte jersey held her chiffon princess veil. Her bouquet was an orchid surrounded by white flowers.

Attending the bride as matron of honor was Mrs. Cindy Ballerstedt Ayres of Wichita Falls. She wore a floor-length dress of mint green chiffon, accented with

MRS. LARON PETERS

Miss Wendy Stout and Miss Holly Holt served the wedding cake and Miss Paige Holt, cousin of the bride, poured.

Assisting Miss Jo Alice Stout with the reception were other aunts of the bride, Mrs. Jimmy Stout, Mrs. Jack Stout, Mrs. Nick Holt and Mrs. Wesley Styles. Other in the

house party were Mrs. Samantha Byrd and Mrs. Fred Balderstedt.

Garden Club to Recognize City's Garden of the Month

Wellington Garden Club met with Mrs. Ben Ratliff Wednesday, October 4.

Mrs. Silas Crawford gave the devotional, Mrs. Bill Harbin read the club collect.

Beginning in November, the club will choose a "Garden of the Month" in Wellington, to recognize beautification efforts.

The recipient of this recognition does not have to be a Garden Club member.

In charge of this project are Mrs. Harbin, Mrs. Joe Thompson, and Mrs. Chester Fires.

Mrs. Ratliff discussed "Historical Trees of Texas." She then told the group how many native trees grow on her farm northwest of Wellington.

The approximately one dozen varieties include elm, cottonwood, mesquite, willow, salt cedar, black locust, honey (thorny) locust, chinaberry, mulberry, hackberry, elderberry, and another tree, which is an unidentified member of the oak family.

Then there are cedar trees which originated from cedars set out in shelterbelts in the 1930's, and spread when birds scattered the berries.

Another tree with special significance is a prickly ash, transplanted from Glen Rose where the late Mr. Ratliff formerly lived, and given her by a member of his family.

There are shrubs, including wild plums and many peoleat or skunk berries.

"The most interesting is the mulberry, because it never has two leaves alike. They vary from leaf to leaf and tree to tree," Mrs. Ratliff said.

Members present were Mrs. Fires, Mrs. Harbin, Mrs. Ruth Wyrick, Mrs. Annie Caison, Mrs. Anna Mae Thomas, Mrs. Crawford, Mrs. Charles Cason, Sr., Mrs. Charles Michael, Mrs. Russell Hill, Mrs. Ray Clubb, and the hostess, Mrs. Ratliff.

Mrs. Melvin Kiker and Mrs. Dale Graves of Littlefield were in San Antonio recently to be with their daughter and sister, Mrs. Cecil Burrows during major surgery. Mrs. Burrows is recuperating nicely at her home in Uvalde, Mrs. Kiker reports.

Approximately 75 guests called from ten to eleven thirty, coming from across the county.

Vote For Both Propositions On The Hospital Bond Election

Collingsworth County voters have an important decision to make Tuesday, October 17. They will vote for or against two propositions for hospital bonds in the total amount of \$150,000.

In the days since the bond election was called we have heard many complaints about various aspects of medical service in Collingsworth County, some directed at the hospital, some not.

And this is as it should be. In a democracy, there can be no substitute for public discussion of the issues before the people. Both the people and the hospital board itself are better informed now about our medical care situation and its financial status than at any time since the hospital district was organized.

Physicians long ago learned that most medical problems respond better to sunshine and fresh air than to being shut up in the dark. And so it is with public policy. Better ideas and progress come through the glare of public scrutiny.

It is our opinion that most of the hospital and medical care problems of the county have been identified. It is now up to the citizens to find the solutions to those problems.

Passage of the hospital bond election will not solve all of our medical care problems. There is no quick-fix solution. But there are no problems that are insurmountable either.

Passage of the bond election will help the hospital out of its current financial jam. It will not provide a long-term solution to rural hospital financial woes (which currently are being experienced by several other Texas panhandle communities.) But, we feel, it is a step in the right direction.

We urge you to vote for both propositions on the hospital bond election next Tuesday.

And we urge you to continue to speak out on the problems you see in medical care in Collingsworth County until you are satisfied with the answers and the solutions.
-Henry Wells

Other Editors Say . . .

On The Need For A Hospital

...Expensive Luxury for any community is a hospital. They're a necessity for even those who never have to use them since doctors will not locate in a community without one. And we know of no greater necessity than a medical doctor.

A hospital cannot be measured by its profitability—or the lack of it. It's like a fire department, a sheriff, or an ambulance.

We may not need them but once in a lifetime...but on that one occasion, they are worth any price.

While we would prefer that a hospital pay its way, we don't demand that miracle as a price for its existence. The smaller a hospital is, the greater its financial liability since there is no way to balance the cost of maintaining even a skelton staff with low patient loads which are unavoidable in a small community.

Any community that subsidizes a fire department should also be willing to subsidize a hospital. We'd rather lose our home than a life if we had to make the choice.

More Income Goal

A committee studying money management will recommend substantial changes in state investment practices aimed at increasing government income \$30 to \$50 million a year.

Rep. Frank Hartung, following a committee session here, said he is still far from satisfied with the state's return on deposited funds by the State Treasury.

Treasurer Warren G. Harding told the Money Management Committee that the treasury department has earned an alltime high of \$117.76 million in depository interest during his administration. The income increased by \$27.7 million or 30.8 per cent over the previous fiscal year.

Harding also told the committee an average of 93.7 per cent of more than \$2.4 billion in state deposits earned interest during the last fiscal year, and the state depository board has raised the interest rates on state deposits from six to seven and a half per cent in four stages since last October.

Hartung said he expects the committee to recommend competitive interest bidding, a requirement that a "maximum amount of state deposits be placed at interest in Texas banks and that state investments be permitted in U.S. treasury bills and other government securities.

Law Blamed

A new "speedy trial" has confused prosecutors and influenced district attorneys in

San Antonio and Wichita Falls to dismiss cases against six accused felons.

The law allows the state 120 days to try felony charges.

Cases were dismissed in San Antonio and Wichita Falls when prosecutors announced they were not ready for trial when they were unable to produce key witnesses . . .

Courts Speak

The Court of Criminal Appeals is studying an attack on constitutionality of the speedy trials act after hearing oral arguments last week.

The State Supreme Court upheld dismissal of two Pasadena policemen for planting a gun along the path of a fleeing theft suspect.

The high court turned down another effort of a Houston television reporter to stop a Nazi telephone recording that offered a bounty for non-whites.

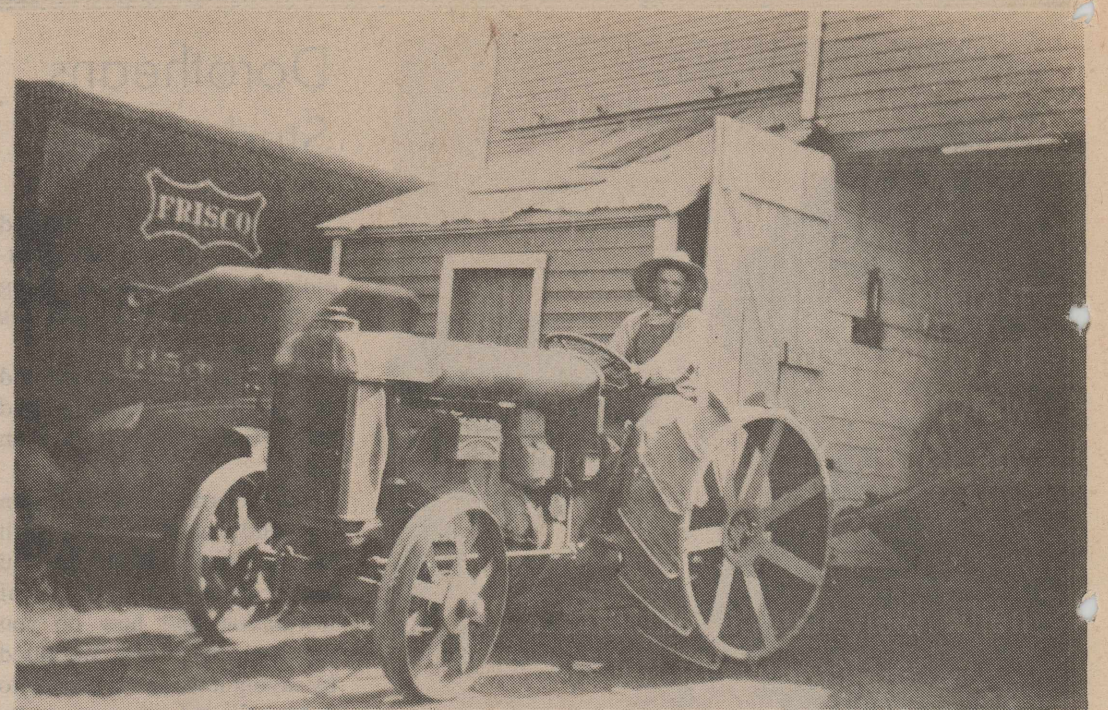

The Supreme Court also upheld dismissal of two El Paso's city water company to supply a restaurant nearby in New Mexico, and concluded a Port Arthur family didn't move fast enough to enjoin leaking sewer gas from a municipal sewer system.

Public employees, the Supreme Court held in a Corpus Christi case, are entitled to present grievances through a non-striking organization.

Texas Municipal League and Houston filed suit to reverse a Public Utility Commission decision ordering \$31 million in city franchise taxes on telephone services included only on bills of customers within city limits.

In another recent opinion, Hill concluded a commissioner court has "reasonable discretion" to permit payment of office expenses for official court reporters.

Hearing Begins

The Public Utility Commission last week began hearing testimony in Houston Lighting and Power Company's \$174.9 million rate increase request.

PUC staff members recommended a \$40.5 million increase with a 13.8 per cent return on equity.

Short Snorts

The Department of Public Safety expressed serious concern about a traffic death toll which has jumped 11 per cent over last year and an increase in violent crimes.

Texas AFL-CIO Executive Board announced unanimous opposition to the tax relief amendment on the November 7 ballot because it would grant tax breaks to corporate farms, ranches

and timber interests.

The Alabama-Coushatta Indian Reservation near Livingston proposes to administer its own federal grants, including manpower training funds.

Not all homeowners will get relief from the sales tax on utilities this month. It all depends on the billing cycle. If the cycle is September 25-October 25, the tax must be paid through October 25. But if the billing period is October 3-November 3, the tax went off October 3.

Joe Carter, veteran chairman of the Texas Water Commission, died here last week.

A House select committee suggested counties be given an option whether to pick grand juries at random or through the old commission system.

Bob E. Bradley is new administrative director of the Texas State Board of Public Accountancy.

A Democratic candidates' ticket tour of 15 Central and East Texas cities is scheduled October 20-21.

LETTERS from the People

Dear Editor,

This morning on T.V. a politician stated that the John Birch Society was a closed Society; this is true only to the extent that anyone that is a liberal or a communist will receive his dues back. Anyone can join the Society, but if he engages himself in some activity that is subversive. If you are a conservative you know what these activities are. This is the only way that anyone could say the Society is closed.

Yours Truly,

SOME REASONS TO VOTE "FOR" BOTH PROPOSITIONS IN THE COLLINGSWORTH GENERAL HOSPITAL BOND ELECTION TUESDAY, OCTOBER 17

1. Nobody likes to pay more taxes, but the value of a hospital is immeasurable when you need it. An individual or members of his family may need a hospital only once or twice, but when he does need it, there is no substitute. No price can be put on the value of a human life.

2. If the doors to the current hospital building ever close, we believe they will never reopen. The hospital operates today under a so-called "grandfather" clause that allows hospitals currently in operation to continue to operate, even though the building may not meet all regulations. If the hospital were to close, that exemption would disappear.

3. Some estimates place the minimum cost of a new hospital at \$2,000,000. And most estimates place the cost above \$3,000,000. Although \$150,000 is a lot of money, it is far less than many other communities have spent recently on hospital facilities.

4. If the hospital were to close, the ambulance service could not continue to operate on a volunteer basis. The services today of the generous-hearted men and women who volunteer are free. An ambulance volunteer may be able to take an hour off

from work to bring a patient to the local hospital. But being able regularly to take off five hours to take a patient to an Amarillo hospital is another matter. The county would have to resort to a full-time paid ambulance service which would be very expensive.

5. The hospital has many problems, and passage of the bond election will not solve all of these problems with the stroke of a pen. But, we feel passage of the bond election is the only sensible solution to the current hospital financial situation.

6. There are two propositions on the bond election. We urge you to vote "FOR" BOTH propositions. Proposition No. 1 will provide money for improvements required next year. And Proposition No. 2 will provide money to pay back loans made on improvements that have already been completed.

7. We need to keep the hospital open and we need to keep all three of our physicians on the staff. Dr. Charles B. Jones, Dr. Carter Holcomb, and Dr. Reynaldo Perez have all provided invaluable service to the community, and we need to work to keep all of them practicing and to encourage other physicians to come here. One way to do that is by voting for the bond election.

Bullock Official Due Here Oct. 18.

Austin--State Comptroller Bob Bullock announced he is sending a representative from his Amarillo Field Office to Wellington on Wednesday, October 18, 1978 to assist local taxpayers and answer questions about State Texas.

Bullock said Enforcement Officer Mort Watson will meet with local taxpayers at the County Courthouse in Collingsworth County from 10:00 a.m. until 12:00 p.m.

"If Wellington area merchants, or any one else for that matter, have any questions about State Taxes or need help in preparing tax forms, Mr. Watson will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

Bullock reminded those taxpayers who are unable to

meet with his representative on October 18, 1978 that they can still get their questions answered quickly by calling his toll-free tax information number in Austin. That number is 1-800-252-5555.

The Amarillo Field Office, headed by Claudia Stravato, serves the twenty-six counties of the Texas Panhandle.

John Shadid Returns Home

John Shadid, Memphis merchant who was critically injured when he was struck by a car August 12, returned to his home from an Amarillo hospital Saturday, Sept. 30.

His right leg was badly broken and must remain in a cast 6 months longer, his brother, George Shadid, said Monday. He received a serious head injury and numerous other injuries which kept him in Northwest Texas Hospital's intensive care unit 22 days.

Shadid will return to Amarillo at regular intervals for checkups with the first scheduled for October 20 to determine if his leg is mending.

With him during the 7 weeks hospitalization were his wife and daughter, Terry, and his brother and sisters, George, Marie and Rose Shadid were with him much of the time.

Other relatives came from time to time.

The accident occurred shortly before dark as Shadid was returning home from his store in downtown Memphis.

AWARD

Wesley Don Anders, 8, was first prize winner at the Texas Panhandle Library Booth at the Tri-State Fair in Amarillo. He received the award, a one-volume Random House Encyclopedia in the Collingsworth County Library Thursday, Oct. 5, from Mrs. Clara Mote, left, librarian. Looking on is Glenda Collins, Amarillo, who recently was named consultant for the Texas Panhandle Library Systems. Wesley is the son of Mr. and Mrs. Bill Anders.

Zone Five SCD Director Election Slated Saturday

An election for a director to serve in Zone Five on the Salt Fork Soil and Water Conservation District Board is scheduled for October 14 at the Lutie community store announced John Carson, chairman of the board. The election will be held at 10:00 a.m.

State law decrees that to be eligible to vote in a soil and water conservation district director's election, a person must own agricultural land within the subdivision where the election is being held. The person must also live in a county all or any part of which is in the district and the voter must be 21 years old.

Legal qualifications state that a candidate for the office of a soil and water conservation district director must own land in the zone he represents, be 21 years of age and be actively engaged in farming or ranching. He must also live in a county all or part

of which is in the district. Dan Henard, Jr. is currently completing his second term as Director of Zone Five.

Zone Five of the district includes the area roughly east of US Highway 83 and north of the Salt Fork of the Red River. It is the northeast quadrant of the county.

Current members of the board of directors of the Salt Fork SWCD are John Carson, Douglas Coleman, Earl Patterson, John Brim, and Dan Henard, Jr.

The purpose of the Salt Fork SWCD, with headquarters in Wellington is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners.

The district board of directors coordinates the

conservation efforts of various local, state and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

All conservation programs managed by the district are of a voluntary nature to the landowner or operator.

GENERAL TELEPHONE

A good reason to vote "FOR" both propositions on the hospital bond election ballot on Tuesday:

If Collingsworth General Hospital were to close, there is a good chance that Wellington would lose the Nursing Center also. Without the hospital it would be extremely difficult to provide care for the residents of the nursing center. Elderly citizens, and especially the elderly sick, need the hospital more than any age group. Think about these people when you go to vote on Tuesday.

Thomas Nursing Center is licensed to take care of 84 people and most of the year we are full, averaging 95% to 98% occupancy. If the Nursing Center were to close, 84 people would have to find other homes--which would be an inconvenience, and in some cases a burden, on them and their families.

The Nursing Center has a payroll of about \$25,000 per month. The 40 to 45 people who are employed by the Nursing Center are an important part of the Collingsworth County economy, and the money they earn circulates here. The loss of the Nursing Center would be an economic as well as a service loss to the community.

The amount of increase in taxes that each person will have to pay if the bond election passes is less than the cost of one trip to an out-of-town doctor. It's a small price to pay to help maintain health care here.

One final point; in an emergency situation, a 30-mile trip to another town may be too long. When you need a doctor and hospital care quickly, there can be no substitute for a local hospital.

We urge your careful consideration of all of the issues involved, and we urge you to vote "FOR" both propositions on Tuesday, October 17.

Rockets Roar Back for 24-14 Win Over Electra

We don't know what went on at halftime, but it was a different Wellington Skyrocket football team that took the field for the second half Friday, Oct. 6 against Electra. The Rockets, down 14-0 at the half, came back with a dozen points in each of the last two quarters to win 24-14 on Powell Field.

During the first half many of the Rockets put in fine individual performances, but the group failed to get it together as a team.

Robert Powell killed an Electra drive with an interception on their own 34 in the first quarter. But a holding penalty and a stiff Electra defense pushed the Rockets back to 4th down on the 47 yard line.

And a tough Rocket defensive line and good play by the defensive secondary kept Electra off the scoreboard

in the first quarter. But a shanked Rocket punt gave Electra the ball on the Rocket 35, and quarterback Curtis Fletcher's passes to Brad Klein and running back Harvey Jones combined to bring the ball to the 2 yard line where Eric Dupree carried for Electra's first score. Brad Urban's kick made it 7-0 Electra.

With 4:24 remaining in the first half, Electra recovered a Rocket fumble on the Rocket 7 yard line. On second down from the 6 Tiger Harvey Jones shook off would-be tacklers to score Electra's second and, as it turned out, final score. Urban's kick made it 14-0.

When the Skyrockets came back after halftime, they came back to take care of business.

The offense clicked off 64 yards on first possession and Carl Taylor scrambled in behind Kirk Patterson's block from the 2 to put the Rockets on the scoreboard. Baldo Nevarez's kick failed.

The second time the Rockets got their hands on the ball they marched from their own 20 in 7 plays to set up the ball on the Electra 32. Ricky Jones found himself with four Rocket blockers out in front and rambled in for the second Rocket score. An extra-point pass from Taylor to Robert Powell fell incomplete.

Danny Wischkaemper stopped the next Electra drive with a fumble recovery after Rickey Jones, Joe Saldana, Richard Garcia had made life miserable for Electra ball carriers.

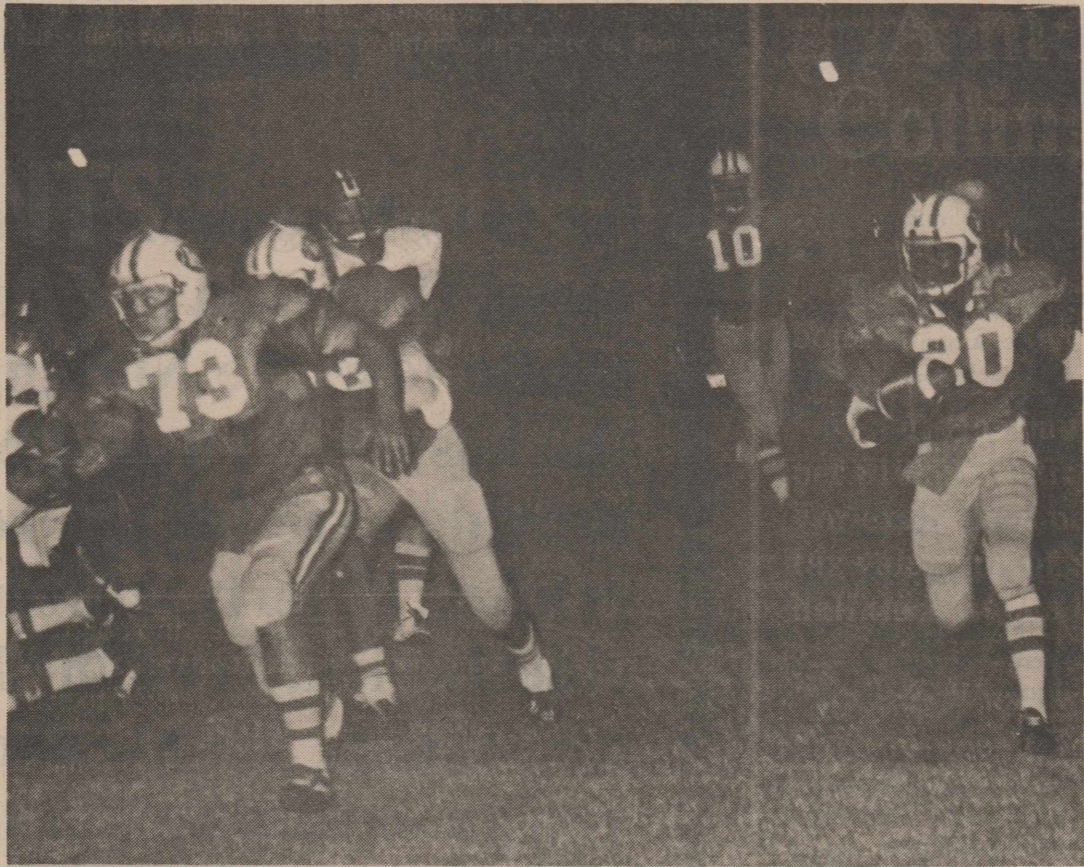

Kevin Hall set up the next Rocket score by catching Carl Taylor's pass on the Electra 28 yard line. Hall stretched out, grabbed the ball, and got hit coming down, but hung on to the ball for a completion. On next down, James Thomas broke away from a man who had him by the jersey, then displayed some fine broken-field running to put the Rockets in the lead 18-14. The extra point pass fell incomplete.

With a minute and a half left

to go the Rockets sealed the victory when Ricky Jones took off from his own 25 yard line,

found some good blocking and took it all the way for the final score of the game. Jones extra

point run failed, and the Skyrockets closed with a 24-14 lead.

A message to the voters from Collingsworth General Hospital Board:

Following are answers to some of the questions we have received about the bond election to be held Tuesday, October 17.

1. How much will the election raise taxes? Passage of the bond will add 5¢ per \$100 valuation to the taxes you now pay. The rate would rise from 70¢ to 75¢. For example, a person who owns a 160-acre farm of good land which has a county tax valuation of \$3,500 would pay \$1.75 per year more in taxes. (That's less than half the cost of a carton of cigarettes.)

2. What will the money be spent for? After January 1, the hospital will have to spend \$40,000 to \$50,000 to meet federal Medicare requirements. Included in this expenditure is a new heart monitor and a new sprinkler system. Proposition 1 money will pay for these and other required improvements that we expect to have to make during the next year. Proposition 2 money will pay back loans made to the hospital for capital improvements that have already been made on the hospital.

3. Can't the hospital operate without passage of the bond? Inflation has been severe in the health industry in the years since the hospital district was organized. Taxes which have been used in the past to make up the operating deficit and to make improvements in the building and equipment are no longer sufficient.

In our judgement the hospital cannot continue to operate if the bond election does not pass.

Passage of the bond election will not solve all of the hospital's problems. But it will give the hospital time to work in an orderly manner towards solving those problems.

We urge your careful consideration and your support of the bond election. Please call on the board members listed below before the election if you have questions or comments about the hospital.

BILL CLEMENTS WILL CUT TAXES AND GOVERNMENT SPENDING

Texas was built by men with the vision to look ahead and the grit to get things done. Bill Clements is the man to keep this tradition alive for the future of Texas.

Bill Clements will bring a strong, fresh and tough approach to our government in Austin. He is a businessman, not a politician.

Bill Clements started with nothing and built a successful, worldwide company with hard work and the skill to manage men and money. And now Bill Clements wants to preserve the future of our state and he wants the working people of Texas to have the same opportunities he had.

With his proposed "Taxpayers' Bill of Rights," Bill Clements is committed to protecting Texans from excessive taxation and runaway government spending. He is pledged to cutting taxes and returning that money directly to the taxpayers.

As former Chairman of the Southern Methodist University Board of Governors, Bill Clements knows how to make education in Texas the best in the Nation. He's for discipline in the classroom and "back to basics" quality education.

As the son and grandson of farmers, Bill Clements knows the frustrations that an indifferent government can cause people who make their living off the land. He will use the strength of the State Government to fight burdensome Federal restrictions.

"I believe that Texas has always had more promise than problems,

but the balance is more delicate each year. We need to get to work now."

Collingsworth General Hospital is a vital part of the county and city economy, as well as being an essential part of health care for residents of the county.

Proposition No. 1 will provide \$105,000 for the hospital to spend on improvements and changes in the building required by federal regulations and for new equipment.

Proposition No. 2 will provide \$45,000 to pay back loans made to the hospital for improvements to the physical plant that have already been made on the building.

Chamber Turns Down Lone Star Request

Chamber of Commerce directors have turned down a request from Lone Star Gas for support in its efforts to secure a rate increase in Wellington. Making the request Monday, Oct. 9, as representative of the company's top executives was the local manager, Mike Naylor.

Naylor said this request was being made to chambers in all towns in which rate increases have been asked but not granted. C-C directors said their organization supported and promoted local businesses and institutions, one of these, the city, is now engaged in the rate negotiations with Lone Star, that it has not entered requests for utility rate increases in the past.

Naylor pointed out that his company is also a local business, providing services

for Wellington residents. Lyman Daniel, president, requested the chamber manager, Mrs. Margaret Vines, to express to Lone Star management the chamber's appreciation of their past support and of the work done by its local manager, Naylor, who is a C-C

director. In other business, Daniel appointed Bob Watson as chairman of the Christmas promotional plans.

The Chamber also voted to support with advertising the Collingsworth General Hospital \$150,000 bond issue.

Mr. and Mrs. J.E. Bowen of Plainview were guest of her

sister, Mrs. M.L. James last week. They also visited with other relatives and friends while here.

Mr. and Mrs. Guy Lindley were in Amarillo last week sitting with their grandchildren while Mr. and Mrs. David Lindley attended an electrician's convention in Atlantic City, New Jersey.

Naman Urges Organizations Work to Benefit Farm Prices

"Let's organize agriculture and then we can worry about who belongs to what," Jay Naman, president of Texas Farmers Union, called for cooperation by all farm organizations seeking 100 percent of parity as he spoke to members of Collingsworth County FU in their annual meeting Saturday, Sept. 30.

"I think it makes sense," he said. With such cooperation, "let's organize agriculture, commodity by commodity, into marketing organizations."

Naman's talk followed the annual barbecue and business meeting in which Andy Henard was elected president to succeed his brother, Dan Henard, Jr., acting president.

Four directors were named for three-year terms: Dan Langford, Rudie Tate, Troy Gene Thomason and Doug Seale. Also, Billy Waters was named a director for the one-year unexpired term of W.R. Breeding, who retired. Other officers come up for election in November.

Naman explained the initiative taken by National Farmers Union in bringing Canadian and United States legislators together in consultation over the international marketing and pricing of wheat.

He said the idea of such a bi-partisan agreement between Canada and the United States has the support of 18th District Congressman Jack Hightower.

Naman cited world-wide crop surpluses and pointed out

that the drought which has cut deep into Texas cotton production is only local. Worldwide, the crop is big. There is a tremendous feed crop, and a wheat crop that will guarantee a price less than parity for at least another year, he said.

Farmers Union is encouraging the Carter Administration to announce a 30 percent acreage set-aside for each of the four feedgrain crops, corn, milo, barley and oats. FU continues to ask for a 90 percent of parity loan with a target price set at 100 percent of parity and a release price of 110 percent of parity.

Nine resolutions were approved.

All taxpayers were urged to vote "Yes" for the tax relief amendment Nov. 7.

Protest was recognized as a traditional and legitimate means of accomplishing a redress of grievance. "We shall continue to participate in protest demonstrations as individual farmers and ranchers in order to make visible our dissatisfaction with the insen-

sitivity of government toward the plight of agricultural producers," the resolution said.

Members were urged to continue their hardest work toward 100 percent of parity.

FU urges the Texas Legislature to abolish the 10 cents per \$100 valuation state property tax.

USDA was urged to abolish the Liverpool Index as part of arriving at the cotton loan rate in the present farm program.

Every member was urged to familiarize himself with the Family Farm Security Act and work to get it passed into law in Texas in 1979.

The Farmers Union expressed its thanks to the local news media for their help and assistance during the year.

FU leadership of Texas FU was urged to continue work with other farm organizations and groups that are working for 100 percent parity for agricultural raw products.

A dues increase for Texas FU to \$40 was approved provided \$5 of the increase is returned to the county organization.
