IN FATAL ACCIDENT FRIDAY

The 1950 model car shown above was driven by James Clifford Cunningham, 24 of Odessa who was killed Friday afternoon 16 miles southwest of here on the Big Spring Highway in a two-car collision. A Snyder man, driver of the other car, was not seriously injured. (Lee Watson Photograph.)

Pope Picks 24 New Cardinals From Twelve Nations Saturday

VATICAN CITY, Nov. 29 (AP) — Pope Pius XII today named 24 new cardinals, the princes of the Roman Catholic Church, including Archbishop James Francis McIntyre of Los Angeles. This restores the Secred College of Cardinals to its full strength of 70.

Two archbishops in Communist nations were made cardinals in the long awaited action. These were Archbishop Alojzije Stepinac of Zagreb, freed from a Yugoslav prison last December but still restricted to his native village of Krasic, and Archbishop Stefan Wyszynski of Warsaw, primate of predominately Catholic Poland.

The group will receive symbolic red hats at a consistory here Jan. 12, the second since World War II. Thirty-two prelates entered the College of Cardinals in a great consistory Feb. 18, 1946.

The new appointments fill ranks depleted by deaths. John Joseph Cardinal Glennon of St. Louis died in Ireland while returning home from the 1946 consistory. Another American, Dennis Cardinal Dougherty of Philadelphia, died last year.

The Pope, 76, picked the cardinals from 12 nations.

In what was described by some Vatican sources as a partial return to tradition, he gave Italians the lion's share, 11 appointments.

The makeup of the full college by nations now will be Italy 27; France six; United States four, Spain four; Portugal three; Brazil three, Argentina, Canada and Germany two each; Armenia, Austria, Australia, Belgium, Britain, Chile, China, Colombia, Cuba, Ecuador, Holland, Hungary, Ireland, Peru, Poland, Syria and Yugoslavia one each.

In the U. S. group, Archbishop McIntyre joins Edward Cardinal Mooney of Detroit, Francis Cardinal Spellman of New York and Samuel Cardinal Stritch of Chicago.

In all, the Western Hemisphere gets five new cardinals.

Archbishops Paul-Emile Leger of Montreal, August Alvaro da Silva of Bahai, Brazil; Carlo Maria de la Torre of Quito, Ecuador; and Crisanto Luque of Bogota, Colombia, were named. For Ecuador and Colombia it is the first time in history that they have had a cardinal.

The Pope followed tradition in naming four apostolic nuncios to the college.

Several of the new cardinals are as old or older than the 71-year average of the present 46 members of the college.

But the Pope's new nominations are notable in that they include six comparatively young men. The youngest is 46-year-old Italian Archbishop Giuseppe Siri of Genoa. The other five are all non-Italians, including Archbishop Leger, 48.

The Vatican also announced today the Pope had named Msgr. Domencio Tardini as pro-secretary of state for extraordinary affairs, and Msgr. Giovanni Battista Montnii as pro-secretary of state for ordinary affairs.

Insane Killer Captured Again Near Hospital

PHOENIX, Ariz., Nov. 29 (AP) — Winnie Ruth Judd, the crafty killer who broke out of the Arizona State Hospital on a chill Thanksgiving Day evening, was captured here tonight after 46 hours of freedom.

Wily Winnie, red-haried murderess of 21 years ago, was found hiding in a closet at the home of her guardian, Mrs. Fay Harvey.

Vic Soule and Gene Geiger, Phoenix detectives, found her cowering under a pile of clothes, her legs pulled in under her, her back against the wall.

"Why don't you leave me alone?" she begged as the clothes were snatched away.

"Please let me stay for awhile. I want to get a job and see some people. I'm tired of being locked up."

Morse To Vote For Republican Senate Control

WASHINGTON, Nov. 29 (AP)—Sen. Wayne Morse of Oregon, who bolted the Republican party to support Democrat Adlai Stevenson for president, announced today he will vote with the Republicans to organize the new Senate, but will continue as an independent.

Morse said he wanted the Republicans to have full responsibility for the government under President - elect Eisenhower.

He added in a formal statement that while he will help his former party organize the Senate in January—and thus put the Republicans in control of the legislative program and committee chairmanships—he will not take part in caucuses of either party.

Morse's position on the organization question was of some interest because in the new Senate the party lineup will be 48 Republicans and 47 Democrats, with himself as a lone independent.

Had he decided to vote with the Democrats he could have created a tie at the outset of the session Barkley, who doesn't give way until Jan. 20, could have broken the tie in favor of the Democrats.

Dulles To See Acheson. Start Study Of Work

WASHINGTON, Nov. 29 (AP) — John Foster Dulles, who will be President - elect Eisenhower's secretary of state, is due here Wednesday to begin a sweeping study of U. S. foreign policy and operations all over the world.

It was learned today that Dulles plans to call on Secretary of State Acheson, if he is back from the United Nations meeting by midweek. He will also confer with Under-Secretary of State David Bruce and Defense Secretary Lovett. It is understood that he will divide his time during the months of December and January, up to the advent of the Republican administration, between Washington and Gen. Eisenhower's headquarters in New York.

Under instructions from President Truman to give the incoming Cabinet officers complete co-operation, the State Department has prepared detailed studies of its activities in preparation for Dulles' arrival. Althogether he will be presented with copies of five volumes of information, including three which President Truman gave Eisenhower at their White House conference two weeks ago. The five volumes cover:

1. The organization and functioning of the State Department and its relationships with other departments and agencies as well as a description of duties imposed by law and tradition on the secretary of state.

2. The facts on top problems confronting the State Department, country - by - country around the world. The department's political officers, as well as its economic and other experts, have been at work on preparation of this volume for several weeks.

3. A study of various danger spots in the world, such as Berlin, Iran, Indochina and Korea. This volume was worked up jointly by the Defense and State Departments and the Central Intelligence Agency in advance of Gen. Eisenhower's conference with President Truman.

4. A report of what the Truman administration plans to do in case of serious trouble in any of the danger spots, such as a Communist attack on Iran or Yugoslavia. This report also was prepared for Eisenhower originally.

Woman With Huge Tumor Is Walking Again

GALVESTON, Nov. 29 (AP)—Mrs. Tomasa Cruz Garcia, from whom doctors cut a 184-pound tumor, is learning to walk again at her new weight of 124 pounds.

The tumor was removed from Mrs. Garcia's abdomen Nov. 13 in a three-hour operation. Dr. Dan Eames, chief resident surgeon at John Sealey Hospital here, said it was an ovarian cyst which had developed within a year.

Doctors said today Mrs. Garcia, 44, may be able to go home to Catarina, Tex., in a week or 10 days.

Because she was weakened by the weight of the tumor, she is being given daily massage and exercise to strengthen her legs. She began walking Nov. 23 and can now take several steps alone, although she is afraid of falling and is unsure of herself.

Abdominal pressure caused by the tumor as it grew has given Mrs. Garcia a "barrel chest," which the doctor described as compensation for the tumor. The lungs didn't have room for enough vertical expansion, so they gradually pushed out the chest. This condition probably will be permanent, he said.

Mrs. Garcia had a 90-inch waist measurement before the operation.

She at first thought she might be experiencing her sixth pregnancy.

When school opened in September, she was unable to get her children ready for school and later when a teacher called her condition was discovered.

Arrangements were made for her to come to John Sealy, and on leaving home, the front door had to be torn down to permit her to pass through it.

She was unable to stand straight and on rising from a sitting position she required the help of about four persons.

Because she was too large to fit in a stretcher, she was brought to Galveston in a large easy chair placed in the ambulance.

When asked what she did for clothing before the tumor was removed, Mrs. Garcia said she just bought "yards and yards" of material and sewed them together for dresses.

Eisenhower Picks Lodge To Head UN Delegation

Biggest Part Of Dollar Spent Here Is For Cars, Accessories

NEW YORK, Nov. 25 — President Truman's call for a study by the Federal Trade Commission to determine how the consumer's dollar is being spent, draws attention to the current copyrighted survey by Sales Management, which shows that, in Snyder, sales of cars and other automotive equipment take the biggest bite out of the retail dollar.

In the city in 1951, in places selling new and used autos and trucks, tires, batteries and accessories, and in outlets handling farm machinery, motorcycles, boats and the like, expenditures were equivalent to $1,275 per family when divided arithmetically among the local population.

This represented 25 percent of all the money spent in the city's retail stores in that year. It was more than the proportion spent for automotive equipment elsewhere in the United States. The national average was 18 percent of the retail dollar. In the West South Central States and in Texas, it was 21 percent.

The automotive group of stores in Snyder did business in the amount of $5,995,000 in 1951. This high activity is attributable in the main to better earnings. With larger incomes, people spend more on luxury items. As a result the per family purchases of autos and the like have come to be an index of economic well-being.

The local sales of automotive supplies and equipment, $1,275 per family, were more than was recorded throughout the country generally. The national average was $556 per family. In the West South Central States it was $670 and, in Texas, $770 per family.

Healthy conditions were also found in Snyder in the other classes of retail business covered by the survey. The local purchases of food of all sorts came to $4,010,000, accounting for 17 per cent of each retail dollar.

Places selling general merchandise, including variety and department stores, had sales of $2,322,000, amounting to another 10 percent.

The stores handling furniture, household supplies and radio equipment had a sales volume of $1,250,000, or slightly better than 5 percent.

Drug store operations came to $630,000, equal to 3 percent of all local retail business.

The total retail volume attained by the local stores was $23,550,000 for the year.

Warren R. Austin Plans To Retire

NEW YORK, Nov. 29 (AP)—President-elect Dwight D. Eisenhower filled another top post today in the international policy sphere of his forthcoming administration.

He designated Sen. Henry Cabot Lodge to head the U. S. mission to the United Nations. Lodge, 50, will succeed Ambassador Warren R. Austin, who is 75 and has said he wishes to retire.

John Foster Dulles, the designated secretary of state, said in announcing the appointment for Eisenhower that Lodge would be "one of the administration's principal advisers and representatives in the formulation and conduct of foreign policy."

Lodge, one of the original backers of Eisenhower for the Republican presidential nominatoin, must be confirmed by the Senate before he takes the $25,000-a-year post. He would be the permanent U. S. representative to the U. N. and this country's representative in the Security Council.

By one of history's ironies, Lodge is the grandson of the Sen. Henry Cabot Lodge whom exponents of the League of Nations in 1919 held most responsible for this country's failure to join the League. The grandfather bitterly opposed that venture in international co-operation. The grandson is known as a strong interationalist.

A former newspaper man, Lodge was first elected to the Senate from Massachusetts in 1936. He resigned from the Senate to serve in the Army during World War II in Africa and Europe. He left the service a lieutenant colonel and was re-elected to the Senate in 1946.

This year, however, he lost the senatorial race to Democratic Rep. John Kennedy in a hotly contested fight.

In a statement from his home in Beverly, Mass., Lodge said he was "glad of this opportunity to serve my country" in the U. N., adding:

"It is a great chance to build a world in which our young men will no longer need to go off to combat."

Dulles, who made his announcement at Eisenhower's Commodore Hotel headquarters after a visit to the general's residence, paid high tribute to Austin.

"He has done a magnificent job there as our representative," Dulles said. "He has caught the atmosphere of the United Nations . . . a town meeting of the world . . . and built up the spiritual quality of the United Nations which is its greatest power, in my opinion."

Eisenhower also today named Emmet J. Hughes, a Life magazine editor, as his administrative assistant after he takes office Jan. 20.

Hughes said at a news conference at Eisenhower headquarters that he worked on the campaign speech in which the general promised to go to Korea if elected. He added, however, that "all basic policies in the campaign were made by one man—and that man was Gen. Eisenhower."

When Hughes was asked whether the Korean trip was his personal idea, he smiled and turned away for a moment. Then he said "a lot of people" worked on the speeches and "I worked on a lot of speeches."

In his new duties he will be concerned with the preparation of speeches and reports to the President.

Senator Says Reds Are Among Teachers

WASHINGTON, Nov. 29 (AP)—Sen. McCarran (D-Nev) said tonight hearings of the Senate internal security subcommittee have made it obvious that "nests of Communists exist not only in the secondary schools but in many colleges."

He referred to public hearings the subcommittee held in New York City earlier this fall in launching a search for any subversive influences in the nation's schools and colleges.

McCarran, who heads the subcommittee, said it received testimony that there have been as many as 1,500 Communists teaching in schools and colleges, both public and private.

"Though this number may not seem large in comparison with the million teachers employed in the schools," McCarran said, "the nature of Communist party operations makes them as dangerous as a lighted match in a powder magazine."

McCarran referred in his statement to testimony of Dr. Bella V. Dodd of New York City, a former Communist leader who was, for several years, the legislative representative of the Teachers Union.

She testified:

"I think, at the peak, on a nation-wide basis, you never had, more than, let's say, 1,500 teachers in the Communist movement."

She said her testimony on this point related to years prior to 1944 because at that time she became a higher functionary of the Communist party and ceased to have detailed knowledge of the school situation. From 1944 to 1948, she said, she was a member of the National Committee of the Communist party.

Although she said the peak number of Communist teachers was only 1,500, she said such teachers "were strategically disposed."

She also testified that Communist party units operated on the campuses of the following colleges: Columbia University, Long Island University, New York University, Vassar College, Smith College, Wellesley College, Harvard University, M. I. T., University of Michgian, Chicago University, Northwestern University, University of California, University of Minnesota, Howard University.

"If you have a Communist on a campus," she said, "or one Communist in an organization, that person is dedicated to building a unit and a unit consists of a minimum of three people."

The senator made his statement in connection with the subcommittee's publication of the printed record of its New York hearings.

Uncertain Weather And Cold Due Back

By The Associated Press

Texas remained a somber and wintry land of muddy prairies, glazed highways and ice-laced trees Saturday.

A new cold air mass was billowing into the state from Colorado and the Rockies.

Highway conditions improved around Amarillo while the sun was out Saturday. However, the highway patrol said Highways 83, 66 and 72 in the Panhandle were closed because of ice. Highway 81 was reported iced over west of Oklahoma City.

Skies were clear only in the Panhandle and South Plains. The Weather Bureau said overcast would settle back over those areas with the new cold air mass.

Mid - afternoon temperatures ranged from 25 degrees at Amarillo to 51 at Brownsville. The whole state was due for a drop as the cold air rolled south Saturday night.

Rain still dripped along the foggy coast, beading city streets, piney woods and Spanish moss-hung oaks.

Drizzle froze in the trees and on telephone wires in East Texas around Longview, Tyler and Marshall. No highways were reported closed in East Texas, but the State Highway Patrol said bridges in the Paris area would be iced over by Sunday morning.

Rain - slickened streets caused traffic accidents. Houston alone reported 10 wrecks with five persons hospitalized. Six persons were killed when a car went off a wet highway and hit a tree near Palestine, but the accident might have been caused by the driver's falling asleep.

While the sun was out Saturday, highway conditions were reported improving around Amarillo. The highway patrol said Highways 83, 66 and 72 in the Panhandle definitely were closed because of ice. The patrol said "the bridge across Red River north of Wichita Falls and the one north of Vernon are blocked at both ends by wrecked cars. Highway 80 is iced over west of Colorado City."

Chinese Tell UN Of Stand

UNITED NATIONS, N. Y. Nov. 29 (AP) — Red China officially notified the U. N. today it stands firmly with a Soviet Union plan for ending the Korean conflict. It rejected once more the principle of non-forcible repatriation, which forms a keystone in a Korean plan proposed by India's V. K. Krishna Menon.

A long cable from Peiping to the U. N. merely confirmed an announcement of the Peiping radio yesterday, but it was important because it put before the weary 60-nation Political Committee the first statement during this session from Red Chinese Foreign Minister Chou En-lai. It did not mention the Menon plan by name, but there was no mistake about Peiping's stand.

Hurley Won't Concede To Sen. Chavez

SANTA FE, N. M., Nov. 29 (AP)—U. S. Sen. Dennis Chavez (D-NM) was declared winner today of the Nov. 4 election by a 5,971-vote margin over Republican Patrick J. Hurley.

The official state canvass was 122,521 against 117,450 votes.

Hurley's attorneys immediately charged the State Canvassing Board with "total failure to canvass returns, if there are any returns, for the office of United States senator."

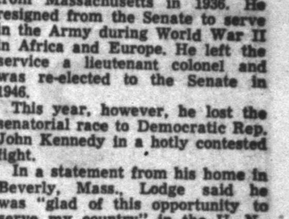

Attorney Carl Gilbert, representing Hurley, said "The fight won't stop here." He declined to state, however, what course Hurley will follow.

Hurley has challenged the outcome of the Nov. 4 voting on grounds there were violations of the state election code and irregularities in many returns.

Gov. Edwin L. Mechem, Republican chairman of the three member canvassing board, said a certificate of election for Chavez was issued in a sudden action late today.

The board, he said, had determined that if all votes for Chavez in precincts which may possibly be recounted the outcome would not be changed.

Mechem said the total votes for Chavez in those nine precincts Chavez had been tabbed the winner in unofficial returns. The unofficial count by The Associated Press had given Chavez a 5,083 margin, just four more than the canvassing board's official count today.

21 SHOPPING DAYS TO CHRISTMAS

Snyder Only Has To Give His Speech Twice More; Job Over

WASHINGTON, Nov. 29 (AP)—Secretary of the Treasury Snyder will deliver a well-worn address at Cleveland Monday morning, then fly off to Detroit and give the speech once more, thereby closing out national reorganization of the Bureau of Internal Revenue.

Cleveland will be the 16th new federal tax district set up under a national reorganization plan accepted by Congress last year, and Detroit the 17th and last. The shakeup followed widespread scandals in the revenue bureau.

Snyder first gave his speech at the first new district headquarters, established at Chicago last May 20, and, with variations for local emphasis, has repeated it in practically all the tax districts and at the reorganization of national headquarters in Washington.

In proposing the plan to Congress, President Truman said it was aimed at taking the tax bureau out of politics and streamlining it, the better to carry its now huge tax collecting and policing jobs.

The plan divided the nation into not more than 27 tax districts (the reorganizers finally settled on 17), each district to be headed by an entirely new tax official—district commissioner of internal revenue.

Under the district commissioner, directors of internal revenue replaced the 64 politically appointed collectors. Selection of district commissioners and the directors, as well as their assistants, was placed in the hands of civil service. Thus, all bureau employes and officials, with the exception of the commissioner in Washington, became civil service, rather than political, employes.

The plan resulted in some 439 new field officials—17 district commissioners, 102 assistant district commissioners (six per district), 64 directors and 256 assistants to the directors (four for each director). In addition, three assistant commissioners were installed in Washington, with 14 assistants named to them. Nearly all the high and middle rank appointments went to career bureau officers, of medium rank, such as inspector, revenue agent in charge, or special revenue agent. Most had 15 years experience or more.

Examination of the completed roster of new officials today showed that 15 of the former collectors kept their jobs, merely changing their titles to director.

Also, three former high Washington revenue bureau officials got jobs as district commissioners. These included John B. Dunlap, who left his job as national commissioner to return to Dallas, Tex. where he had once been collector, to become district commissioner.

Dunlap got $15,000 a year as commissioner, and gets $13,500 as district commissionner, but he exchanged a political appointment almost certain to die with the new administration, for a return to the career service he left to come to Washington. Dunlap has been with the bureau 19 years, with four years out for military service. He had been commissioner 15 months and had presided over the bureau's investigation of its own employes in the face of congressional criticism as well as reorganization. Practically all his previous service had been in Texas, mostly in the Dallas area.

Traffic Claims Most Of 23 Violent Deaths Over Week End

By The Associated Press

Death rode on Texas' rain and ice slick highways this week end to claim at least 20 lives through late Saturday.

Three other persons died—two from burns and one from suffocation—to send the violent death toll in the state for the Thanksgiving weekend to 23.

Six persons died when their car left the highway and crashed into a tree before dawn Saturday south of Palestine. Killed instantly were Eugene Arthurs, 34; his wife, Mrs. Vera Arthurs, 29; Kathy Arthurs, 12; Rickey Arthurs, three months old; and Foster Riddlesperger, 26. Eugene Arthurs, 2, died a few hours later.

The Arthurs family and Riddlesperger, who lived in Channelview near Houston, were enroute to visit Mrs. Arthurs' parents near Athens. Officers said Arthurs apparently dozed at the wheel as the car veered off the shoulder and traveled in a straight line before hitting the tree.

Francisco Sandoval, 55, a construction worker, was killed Friday when hit by a trailer-truck near Houston.

J. B. Tarrant, 42, and Melton Fulton, 33, both of Grand Prairie, were found dead in the wreckage of their car near Fort Worth Friday. Their wives, both critically injured, were found near the car which had plunged 199 feet to the bed of a stream.

James Cunningham, about 20, Oklahoma City, was killed when his truck and a car collided about 20 miles southwest of Snyder Friday.

E. H. Weeks, 61, was killed when he was knocked down by one car and then run over by a second car coming from the other direction at Waco.

A charge of murder with a motor vehicle was filed at Temple against Neil Dawson in the death of R. J. Scott, 39, of Bellmead. Scott was killed when his car and Dawson's collided 10 miles north of Temple Thursday night.

Paul Hoglund, 39, a civilian employe at Webb Air Force Base, was killed Friday when a car overturned near Big Spring.

Other traffic victims included William King of Kerrville who was killed in his truck near Fredericksburg; Mrs. T. V. McClure, killed in a two-car collision near Lockney; Edward McCann, killed in a car-truck collision near Alto; Earl Bowman, 30, of Odessa killed in a collision at Kermit; Thomas Springer, seven months old, killed in a collision at Texarkana; and Coy Pellum, 14, and Leonard Osborne, 28, both of Long Branch, fatally injured in a truck accident.

Carol Jean Morgan, 3½ months, suffocated in her crib at Waco.

John Barrett, 69, and Dora McGlocklin, 78, Dallas, died in fires.

INSIDE WRECKED PLANE

The inside of the tail section of an Air Force C-54 (above) was swept almost clean when the big plane crashed near Tacoma, Wash., killing 36 persons. Seats and most other interior furnishings were thrown out hole in center. Unidentified airman and fireman check the wreckage. The plane carried servicemen and their dependents returning from Alaska. It crashed only one mile from its destination.

Changes To Your Property Can Damage Your Neighbor

Texas laws do not go so far as the Biblical admonition that you love your neighbor, but they do have something to say about how you may treat him and his property.

Adjoining landowners have many mutual rights and obligations and your rights to the use of your own property may sometimes be limited by the effect of the intended use on your immediate neighbors. Such limitations are in addition to those imposed by municipal zoning ordinances, building codes and other restrictions designed to protect the interests of an entire subdivision or city, or the public generally.

For example, say you have just bought the vacant lot next to Mr. Smith's property out on Main Street. Smith has a fine, big tree on his property but it juts over onto your lot and those overhanging branches will interfere with the plans you have for building your house.

You can't go over to Smith's lot and cut down his tree even though the branches will make your proposed living room as dark as the catacombs at midnight. On the other hand, neither does Smith have a right to let the tree on his land extend over your property, especially when it is going to interfere with your use of that property, so you do have the right to get rid of the offending branches.

However, before you start sawing you had better consider whether the removal of the branches will damage the tree. It is still Smith's tree and you don't want to cause it to die. The best thing to do is have a talk with Smith and see if you can arrange to have the limb cut off by someone who knows how to do so without harming the tree.

Of course, a boundary tree—where the trunk is on both sides of the boundary line—can be cut only by consent of both the owners.

Another possible problem: Let's say you want to cut down the front of your lot below the level of Smith's yard. The soil is pretty loose and you are sure that when you lower the grade, Smith's yard will slide all along the cut. However, you figure that it is up to Smith to do whatever is necessary to keep his land from sliding over on yours. He can put up a retaining wall or something.

The law says you had better slow up a bit in this instance. The way things stand, Smith's yard is not currently in any danger of sliding. If you change that condition by cutting your land down, then it is your obligation to see that it doesn't cause damage to his property. It is up to you to put up the retaining wall if one is necessary to keep the adjoining land from sliding.

Suppose you and Smith build a driveway together so you can both save the biggest possible space for lawn. You get along fine with Smith, but he later sells his house to a new owner who wants to take up part of the driveway and plant petunias there. He can probably do it if you did not have a definite, written agreement with Smith by which the subsequent owner is bound.

Probably the best way to handle such a situation would be to have a written agreement with Smith and record it with the County Clerk before the driveway is built. Anyone buying the property later would thereby have notice of the agreement and be bound by it.

Broiler Market Steady, But Trading Is Light

AUSTIN, Nov. 29 (AP)—Texas broiler-fryer market held steady at all points during the week, the State Agriculture Department reported today. Closing prices were unchanged from the previous Friday.

Trading was generally light due to rains and especially slow at the close. South Texas demand was good for the short supplies in all weights throughout the week.

East Texas supplies were about adequate for a light demand and Waco - Corsicana supplies were equal to the fair demand. Closing prices: South Texas 33 cents, East Texas and the Waco area 32.

Cancer Pain Is Relieved

ST. LOUIS, Nov. 29 (AP) — New discoveries about how nerves telegraph pain have led to a surer operation to kill incessant pain from cancer or other causes.

The operation cuts into the spinal cord, at a point just below the brain. This surgery, chordotomy, is not new. But the new findings show how to do it more efficiently, how far to cut into the spinal cord, safely, to end pain originating in the arms, legs, trunk, or face.

The operation is done under anesthetic. The patient remains conscious. The patient tells the surgeon whether he can feel pinpricks when a pin is jabbed lightly into the skin of his body. When the patient no longer can feel the pricks applied to one area, it also means that he will no longer feel pain from cancer in that area.

The nerve studies were made by Dr. Henry G. Schwartz, professor of neurosurgery, and Dr. James L. O'Leary, professor of neurology, of Washington University School of Medicine.

There are two main kinds of pain. One is prickling pain, which is telegraphed along the nerves at a speed of 30 yards a second. The other is slow-moving, burning pain, telegraphed at only two yards a second. Cancer causes the slow-moving type of pain.

Ridgway Visits Italy

TREVISO, Italy, Nov. 29 (AP)—Gen. Matthew B. Ridgway, SHAPE commander, arrived from Paris today for an inspection tour.

Unexpected Wealth Provides Moral Lessons For Church

By CYNTHIA LOWRY

HYDE PARK, N. Y., Nov. 29 (AP)—The little village church that became a millionaire overnight has learned how to live with its surprise riches.

As befits a religious medium, the unexpected wealth has provided opportunity for lessons in unselfishness and thrift, and the truth of the old adage that "honesty is the best policy."

The church is old St. James Episcopal Church, which has 450 parishioners and was formerly renowned as the place of worship of Franklin Delano Roosevelt.

The story of its wealth began when Mrs. Matthew Astor Wilks, 80-year-old recluse daughter of the fabulous Hetty Green, died in New York in February, 1951.

A few days later, members of St. James were electrified to learn that Mrs. Wilks, a complete stranger to the congregation, had willed the church two of the 140 shares into which her estate was divided. The bequest was eventually figured out to be $1,200,000.

Three years earlier the Rev. Gordon L. Kidd, the rector, had received a telephone call from Mrs. Wilks. They had never met. She explained that her husband, a great-grandson of John Jacob Astor, was buried in the Wilks family vault in the church graveyard and requested that he make a careful study of the vault and report to her what renovations and repairs were necessary.

"I followed her directions," said the Rev. Mr. Kidd, "and then wrote her that the vault apparently had been built to last 1,000 years. It was in fine condition and didn't need any repairs."

A few days later, Mrs. Wilks' lawyer called the Rev. Mr. Kidd and asked the corporative name of St. James Church. The rector told him, and then asked the attorney why his interest.

"It was your report to Mrs. Wilks," the lawyer told him. "If you had written her that the vault required $1,000 or $2,000 worth of repairs, she'd have made them gladly. But you didn't ask for a thing. That impressed Mrs. Wilks so much that she wants to remember the church in her will."

Actually, the church was pretty well off as churches go. It had been founded by rich people who had estates on the scenic banks of the Hudson north of Poughkeepsie. Its endowment was some $170,000, which yielded an annual income of $5,000, representing about one-third of its annual operating cost.

"But the effect of the news of Mrs. Wilks' gift on most of the members was that now they wouldn't have to contribute to their church any longer," the rector says.

The minister and governing body undertook to disabuse them quickly. Member contributions now are back where they were.

St. James' has hired a Poughkeepsie bank to administer the money. The income, when all the money has been received, is expected to run around $30,000 a year. It will be earmarked for expansion improvement of church facilities and necessary repairs. There will be no extravagance, no dipping into principal. The church will continue to function on funds contributed and raised by its worshippers.

Income for the first three years has already been committed to an extensive renovation and repair job. The 1844 stucco has been stripped off the original fieldstone and brick and a new facade is being put on. A cellar is being dug under the church, a modern heating system put in, new flooring and general repairs made where needed.

Saxon King Egbert who united all England in 829 is an ancestor of the present royal family of the country.

Rites For King Child Yesterday Afternoon

Funeral services were held yesterday afternoon for Bonnie Mae King, 11-months-old daughter of Mr. and Mrs. Bill King of 3102 Avenue V.

The child died yesterday morning at 6 o'clock. The Rev. Earl Creswell officiated at the services which were held in the Bell Funeral Home chapel at 3 o'clock yesterday afternoon. Burial was in the Snyder cemetery.

She is survived by her parents; three-year-old twin sister and brother, Beth and William Porter King III; paternal grandparents, Mr. and Mrs. Porter King, Sr. of 3008 Avenue U, and a grandmother, Mrs. F. E. Weber of New Jersey.

Roman feasts of Pomona, goddess of harvest, are part of the tradition which has gone into the making of Halloween.

ONCE FRIENDS

Three years ago, Vlado Clementis (left), then chief of the Czechoslovakian delegation to the United Nations, and Russia's Andrei Vishinsky were photographed walking arm in arm through a corridor of the U. N. headquarters at Lake Success, N. Y. Now Clementis and 10 other former Czech Communists leaders are sentenced to die on the gallows as confessed traitors.

Television Reception So Far Is Said To Be Unsatisfactory

Television antennas, rare in West Texas until recently, are beginning to dot Snyder, but so far they are doing their owners little good.

About a dozen or slightly more are towering at various heights above homes in the different areas of town, some sections having a higher concentration than others. For instance, four antennas are within a block of the intersection of Avenue J and Twenty - sixth Street. Some are slightly above the rooftops while others tower twice the height of the houses. Some are telescopic to obtain reception best by adjusting the antennas to the height at which the waves are reaching Snyder.

Apparently not many waves are reaching Snyder, however. At least the picture producing power is extremely limited. Most persons who have purchased sets say the spund is received quite well but that the picture, if any, is poorly and unsteadily received. But the reason for this gives fans an optimistic view.

Myron Roe of Roe's Home & Auto Supply said he did not believe reception would be good enough to warrant a person's purchasing a set until channel 11 in Lubbock goes on full power in the spring. Roe's firm handles television sets and has sold a few since Lubbock recently went on temporary and short range power, but he said the firm was not encouraging early purchase of sets.

Snyder Auto Supply, which handles radios, equipment, and a radio repair shop, reported reception from Lubbock on the channel's temporary setup, but the picture was not satisfactory, although the sound was received well.

Town & Country Home Furnishings, which is equipped for television demonstration but does not handle sales, has been able to receive some television even from stations farther away than Lubbock, but no practical reception has been reported. The firm has long-range reception equipment for its own use.

Phil Burns of Phil's Auto - Appliance Center said his firm was stocked with sets which it was not pushing and would not encourage persons to buy until the channel goes on full power. "We don't want purchasers to be unhappy with sets we know they will not benefit from until spring," he said. This was the same attitude of all appliance stores contacted.

Burns said he had a long-range adjustible antenna at his home and was able to receive a fairly good picture part of the time. "The sound is steady and perfect but the picture comes and goes frequently during each program," Burns said, adding that "reception is not near satisfactory yet."

Babb Tire & Supply will handle two makes of sets but will not offer them for sale until the channel goes on full power in February or March. "After that time, most of us believe we will be able to get good reception with proper antennas," E. W. Babb said.

The Lubbock channel is now operating only for the Lubbock area, and the fact that there is any reception here is indicative that reception will be satisfactory when the full power of the station puts Snyder on the fringe area.

Some other West Texas cities are also planning to set up stations.

R. L. Smith of 1511 Avenue T was taken to Battenfield Hospital yesterday morning by a Bolger ambulance. He is a medical patient.

Ancient Tomb Is Discovered

MEXICO CITY, Nov. 29 (AP)—Opening of a Fifth or Sixth Century Mayan tomb in Southeastern Mexico was announced last night by the National Institute of Anthropology and History.

The tomb, believed to be that of a prince or king, was found in the Temple of Inscriptions, a pyramid near Palenque, Chiapas State. The institute described it as the first found in a near perfect state of preservation.

The tomb was sealed with a slab of stone 20 feet in length and weighing eight tons. Special cranes were constructed to remove it. Inside was found a carved sarcophagas containing human remains and numerous ornaments of jade and gold.

One Man Stops Korean Attack

WITH U. S. EIGHTH ARMY, Korea (AP)—An American soldier who kept firing his machine gun despite an almost useless right arm who used a pistol and hand grenades when his ammunition was exhausted...and who personally accounted for more than 100 Red casualties has been awarded the Distinguished Service Cross.

The soldier is Pfc James V. Cline of Rea, Pa., machine gunner in Company M, 179th Regiment, U. S. 45th Infantry Division.

The Communists launched a mortar and artillery bombardment last June 15 against a hill near Karhyon which was defended by Company M. An exploding artillery round overturned Cline's weapon and buried the crew.

Hurriedly digging his way out and cleaning his gun, Cline fired at the advancing Red infantry until he stopped their assault.

He turned back a second wave of attackers by destroying their machine gun with direct fire from his own.

Cline next wrecked a pack howitzer being operated in support of a third wave of the enemy. The howitzer had fired only one round when he found its range and killed the entire crew.

He was wounded shortly thereafter by an exploding grenade. Although both his legs were riddled with shell fragments and his right arm was all but useless, Cline swung his gun around and fired continuously into the still advancing enemy troops, successfully hurling them back.

When his ammunition was exhausted, he used a pistol and hand grenades to help drive the Reds from the U. N. position.

Another grenade wound, this one in the face, finally forced his evacuation for medical treatment.

IMPRIMATUR
With Preface to the Roman Catholic Edition
By The Most Rev. Laurence J. FitzSimon, D.D
Bishop of Amarillo

Narratives selected by HOUSTON HARTE
Paintings by GUY ROWE
Foreword by Kent Cooper

One of the most honored books ever published, In Our Image is now the recipient of a Christopher Award as a work distinguished for "a warmth and freshness that can stem only from spiritual inspiration."

This magnificent modern classic makes a memorable Easter gift. The matchless grandeur of its Old Testament narrative . . . the magnificent reproduction in full color of its unforgettable paintings . . . have won it nation-wide acclaim as a masterpiece of our time.

"A consummate achievement . . . the paintings are breath-taking in their beauty. Not in years has the Bible through story and illustration been so quickened into life."—*New York Herald Tribune*

HOMER HOOPEE

THE ADVENTURES OF PATSY

PAD Wants To Know What Oilmen Think About Controls

WASHINGTON, Nov. 29 (AP)—The Petroleum Administration for Defense (PAD) wants to find out how the industry feels about the need for continued control of steel and other materials.

Its own figures indicate that the allocation system may still be needed for some time to come, but it has called a meeting here Dec. 8 of 26 oil and gas trade associations for an expression of opinion.

The question of continued controls—both over materials and over prices—constitutes a major discussion subject among petroleum industry men in the capital.

HIGH PRICES WANTED

On the price front, the PAD said yesterday it had recommended higher ceilings for West Coast crude oil as a means to increase production. Its recommendation was asked by the Office of Price Stabilization (OPS) which is considering applications for higher rates from the Standard and Union Oil Companies of California.

PAD said the higher ceilings would provide incentives for increased development and for exploratory and secondary recovery operations needed to offset a crude oil shortage in the western area.

And on Capitol Hill, Rep. Wingate Lucas (D-Tex) said in an interview he saw no need for continuation of any price controls on crude oil. He said he would sponsor legislation to remove the crude oil ceilings even before their scheduled April 30 expiration date.

FOREE WANTS POLL

As to the need for control over supplies of materials, Robert L. Foree, head of the PAD production division, commented:

"There's no doubt some individuals could do better without controls, particularly those with long-standing connections with the big suppliers. We want to find out at this (Dec. 8) meeting, however, how most of the people in the industry feel about it."

Here are some pertinent figures released by the PAD supporting its implied, if unofficial, stand against lifting of materials control until the steel shortage eases:

The Defense Production Administration (PAD) has allocated only 348,000 tons of steel for fabrication during the first quarter of 1953 into large diameter line pipe, that measuring 16 inches or over.

ALLOCATIONS SHORT

The figure is far short of the 529,000 tons the PAD had recommended. The allocation for the current quarter was 387,000 tons. For the second quarter of 1953 the PAD has recommended an allocation of 647,000 tons.

The steel shortage situation is emphasized in the second annual report just issued by the joint Senate-House Committee on Defense Production.

A section of the report devoted to the PAD summarizes the work of the agency in the past and declares it still must face these three major problems:

"1. Insure sufficient materials, particularly steel to permit fulfillment of the essential expansion goals for the oil and gas industries and distribute the goods in accord with the demands of defense and equity among operators.

MILITARY NEED CITED

"2. Insure sufficient supplies of petroleum products — especially aviation gasoline, diesel fuel, jet fuel, and Navy special fuel oil, which continue to be in gith supply —to satisfy the needs of the military.

"3. Insure production, transportation, and distribution of enough middle distillates—kerosene, home heating oil, and diesel fuel—to the East Coast to prevent a shortage there during the winter months of peak demands."

The National Petroleum Council, headed by Walter S. Hallanan, will convene here Tuesday to hear reports from two committees: One, headed by President L. W. Wescoat of the Pure Oil Co., which has studied the above-ground storage situation; the other, headed by President B. B. Jennings of Socony-Vacuum, reporting the Bunker "C" fuel oil supply picture.

The council will honor out-going Secretary of Interior Oscar L. Chapman at a formal dinner here Monday evening.

Reports On Well Drilling In This Area And Permian Basin

Magnolia No. 1 A. C. Martin, project four miles southwest of Snyder in the Kelley-Snyder field, is now coring at 6,390 feet in reef lime.

It had a drillstem test at 6,868-898 with tool open 90 minutes and recovered 250 feet drilling mud with no shows.

Cosden No. 1 Pearl Kincaid, wildcat in Northwest Mitchell County, had tested on perforations in Pennsylvanian lime for an extended period and failed to develop production. It squeezed off those perforations, and it is now perforating to test at 7,514-518 feet.

FISHER COUNTY

Pure No. 2 G. N. Brock in the Claytonville field of Fisher County topped the Pennsylvanian at 5,655 feet and set casing at 5,700 feet. After setting the casing, it drilled ahead to 5,715 feet and is now preparing to complete from the 15 feet of open hole.

It is 1,980 feet from south and 660 feet from west lines of section 208-2-H&TC.

CORONET FIELD

Coronet No. 4-3 Boyd in the Coronet 2900 field of Howard County, now at a total depth of 2,932 feet, has set and cemented five and one-half inch casing at 2,930 feet. It will move in cable tools to drill the plug and drill deeper. Observers think it should make a producer.

Also in the Coronet 2900 field, Haynes & V-T No. 2 Chester Jones, on total depth of 2,850 feet in Permian lime, set and cemented five and one-half inch casing at 2,830 feet. It will drill the plug and make a production test in the open hole.

CLAYTONVILLE FIELD

General Crude No. 1 Condry - Neill in the Claytonville field of Fisher County is at a total depth of 5,960 feet preparing to make a production test.

Also in Fisher, General Crude No. 8 Webb is drilling at 5,458 feet in shale and lime, General Crude No. 3 Aiken is at 2,405 feet in lime and shale, Panhandle No. 1 TXL is at 6,306 feet in lime and shale, and Rowen & Hope No. 1 Elliott is at 3,520 feet in shale.

In Howard County, Robinson No. 1 Gartner is at 3,868 feet in lime and shale, King No. 1 Magnolia-Winters is at 3,830 in lime and shale, Cosden No. 1 Guffee is preparing to acidize and test at a total depth of 2,890 in lime, and Laughlin - Potter No. 1-10 Fisherman is drilling at 8,125 feet in lime and shale.

Johnson & Cox No. 1 Bomar, wildcat in Mitchell County, is drilling below 5,493 feet in shale.

Hickey No. 1 Haden in Nolan County is at 5,806 feet in shale.

Cornet Location Set

Coronet Oil Co. of Midland has set another location in the Coronet 2900 area of Northeast Howard County.

It is the No. 1-4 Bayard, 330 feet from south and west lines of the southeast quarter of section 4-25-H&TC, two and one-half miles east of Vincent.

Rotary tools will be used to drill to 3,000 feet to test the Coronet pay.

The Portugese colonies of Mozambique and Angola in Africa have a combined size about five times that of California.

Good Shows On Hockley Tests At High Point

Honolulu Oil Corp. and Signal Oil and Gas Co. appear to have a new Pennsylvanian reef lime discovery in prospect at their No. 1 T. H. Matthews, wildcat in Southeast Hockley County.

This prospector topped the Pennsylvanian lime at 9,250 feet on an elevation of 3,401 feet. It drilled a test covering the top of the reef at 9,250-295 feet with tool open eight hours. Gas surfaced in one hour and 15 minutes, but no fluid came to top while tool was open.

Recovery was the 1,000 foot water blanket and 2,550 feet high gravity clean oil with no water. Correct gravity and gas-oil ratio was not reported.

Open flowing bottomhole pressure was from 475 to 1,225 pounds, and shutin bottomhole pressure after 15 minutes was 3,250 pounds.

After the test was completed, operator cored at 9,295-304 feet and recovered seven and one-half feet porous oil saturated lime. Another core has been cut at 9,304-315 feet, and that specimen is now being pulled. After it is out of the hole, operator will probably order another drillstem test.

This wildcat is about two miles southwest of the nearest completed production from the reef lime in the Ropes field and five miles northwest of the town of Ropes. It is about 12 miles southeast of Levelland.

Wildcat Set In Schleicher

Ted Weiner and associates of Midland and Fort Worth are to drill their No. 1-13 Williams as a 5,500-foot wildcat to explore the Pennsylvanian lime in Central-East Schleicher County.

It is about 20 miles east and slightly north of Eldorado, to be located at the center of the southeast quarter of the southeast quarter of section 13-I-DH&SA.

It has already spudded with cable tools and will move in rotary tools in a few days.

No Gas Wells Brought In During Last Week

AUSTIN, Nov. 29 (AP)—Drillers failed for the second straight week to complete a gas well in Texas, the Railroad Commission reported today.

Oil well completions slacked to 142, down 50 from last week. The year's total is 9,576 compared with 9,947 a year ago.

Operators reported 102 dry holes. Wildcatting brought in 15 oil wells, 60 dry holes.

Plus were set in 102 dry, 4 gas and 31 oil wells.

The total average calendar day crude oil allowable as of today was 3,387,245 barrels, up 6,525 from a week ago and another all-time record.

Explorations Set In Reagan And Upton

Reagan and Upton Counties each gained locations for two more Spraberry explorations.

Lloyd H. Smith, Inc., will dig the Reagan tests as No. 2 L. C. Proctor, in the Weiner - Floyd field and No. 3 F. A. Ganze in the Aldwell pool.

No. 2 proctor is 664 feet from south and 3,340 feet from east lines of section 36, block 37, T-5-S, T&P survey.

No. 3 Garza will be drilled 1,987 feet from north and east lines of section 7, block B, L&SV survey. Both these projects will be around 7,700 feet.

Brown & Wheeler No. 3 and No. 4 A. P. Hill will be dug in the Penbrook field of East - Central Upton Counyt. No. 3 Hill is 660 feet from south and west lines of section 2, block K, D&SE survey.

No. 4 Hill is 1,980 feet from south and east lines of section 2, block K, D&SE survey. Both are scheduled for 7,500-foot bottoms.

Location In Andrews

The Atlantic Refining Co. spotted location for a project in the Block 12 (Ellenburger) field of Southwest Andrews County.

The 11,000-foot exploration will be drilled as No. 3-Q Texu, 1,980 feet from south and 660 feet from east lines of section 17, block 12, University Lands survey and 15 miles southwest of the town of Andrews.

Operations are to start at once.

To Quit Pecos Well

Metric Petroleum Corp. and Big West Drilling Co. are preparing to plug and abandon No. 1 Monroe, wildcat failure in extreme East Pecos County.

Last drillstem test was taken in the Ellenburger from 8,576 to 8,646 feet. Tool was open two and one-half hours. Recovery was 810 feet of drilling mud cut with sulphur water and 480 feet of sulphur water.

The Ellenburger was topped at 8,334 feet, elevation 2,191 feet. That made it high on that marker to the same formation in Tex-Harvey Oil Co. No. 1 Monroe, wildcat failure one-half mile to the south.

The Metric, Big West wildcat showed some free oil in the Ellenburger on a drillstem test from 8,459 to 8,534 feet. The shows did not indicate the project would make a commercial producer.

Location is 660 feet from south and 4,598 feet from west lines of section 41, block 1, I&GN survey.

New Oiler Extends Fuhrian-Mascho Field

L. F. Oil Co. of Houston has completed its No. 1 Stanolind - University as a five-eighths of a mile northwest extender of the proven limits of the Fuhrian - Mascho (Grayburg) field in South - Central Andrews County.

The new producer is 440 feet from north and east lines of section, 1 block 10, University survey.

It drilled to a bottom of 4,378 feet in the San Andres - Permian lime. That formation made only water. Operator set and cemented 7-inch casing at 4,350 feet. The hole was plugged back to 4,338 feet.

The pipe was perforated with six shots to the foot at 4,255-70 feet at 4,282-88 feet and at 4,293-4, 303 feet.

Those intervals were fractured with a total of 4,000 gallons. The well was completed for a calculated 24-hour potential of 78.88 barrels of 33.4 gravity oil.

That figure was based on an actual three hours gauge which was taken during the last three hours of a six hour potential test. The pay section is not making any water.

The new oil well is nine miles southwest of the town of Andrews.

Plug Ector Wildcat

After unsuccessful attempts to complete its No. 4-F Thomas as a producer from the McKee sand, Shell Oil Co. abandoned the project.

The test originally was completed from the Ellenburger in the TXL field of East - Central Ector County. Operator plugged back from total depth of 9,785 feet to 9,335 feet.

Attempts to complete the well as a discovery from the McKee sand, after it became depleted in the Ellenburger pay failed. Operator has plugged and abandoned the venture.

Location was 666 feet from north and 818 feet from west lines of section 28, block 45, T-1-S, T&P survey.

Loving Completion

The Ohio Oil Co. No. 1-C Minnie Kyle, one and three-eighths miles southwest of production in the Mason, North (Delaware sand) field of Northwest Loving County, has been completed for flowing potential of 110 barrels of 41-gravity oil in seven hours for a calculated daily potential of 376.8 barrels.

Flow was through a 5-16 inch choke. Gas-oil ratio was 875-1.

Completion was from open hole at 3,956 - 3,960 feet.

Location is 330 feet from north and east lines of section 16, block 55, T-1, T&P survey.

Modern Turkey has macadamized the 160-mile highway from Ankara down across the high plateau known as Konya.

Franco Takes Navy To 7-0 Win Over Army In Fumbling Game

PHILADELPHIA, Nov. 29 (AP)—Fred Franco, a churning workhorse of a fullback, and a defense that held like stanchions of steel gave Navy its third straight football victory over Army today, 7-0, in a fierce, fumbling battle before President Truman and a crowd of 102,000 at Municipal Stadium.

The hard-hitting Midshipmen were denied the satisfaction of a larger margin of victory when Army's beaten and battered forward wall stopped Franco on the Army half-yard line as the gun ended the game.

Franco, a 185-pounder from Newport, R. I., set up the day's only score with a spectacular 45-yard burst in the opening period which launched a 66-yard lightning sortie.

With the ball on the Navy 34, Franco slashed outside his own left tackle and broke into the clear, storming to the Army 21 before he was brought down from behind by Army's John Krobock.

Franco's running mate, sophomore Phil Monahan of Burlingame Calif., smashed 19 yards to the 2 and on the third try bulled across for the score. Ned Snyder of Lafayette, Ind., kicked the conversion and that was the day's ball game, although opportunities—like loose footballs—flew thick and fast thereafter.

Franco, playing his last game for the Midshipmen, carried the ball 34 times and rolled up 144 yards on the ground in one of this ancient spectacle's greatest offensive displays.

Army, still feeling the effects of the cribbing scandal which wrecked its mighty squad some 18 months ago, brought its supporters to their feet with two brilliant goal-line stands in the opening period and one brief offensive flurry in the fading minutes of the game.

But it was a hopeless cause for the Cadets this cold, raw day.

Navy's fierce defensive platoon rushed Army's Pete Vann with such force that the young Hamburg, N. Y., passer was constantly overshooting his target.

The third period was 13 minutes old before Army was able to muster a first down under its own steam. In all, the Cadets were limited to four first downs, only one by rushing, and to 55 yards rushing and 51 yards passing.

Navy, on the other hand, with Franco, Monahan and Don Fisher of Middleton, Pa., carrying most of the load, smashed through Army's reeling defense for 258 yards on the ground. Navy had only 65 yards passing, going into the air only nine times and completing six.

Tackling was of such a bone-rattling nature that there were 11 fumbles, eight of them by Navy. Navy lost five balls by fumbles and Army lost three.

Early in the first period, Joe Gattuso, Navy's sophomore safety man, picked up a dying Army kick on the Army 36 and raced to the Army 2. Four times Franco and Monahan slammed into the middle of the Army line but these stout ball-carriers just hit and fell back.

In the game's fading minutes, Franco sparked a 60-yard march to the Army 3-yard line where the Midshipmen had first down. Franco bulled into the line three times and could only get to the half-yard line.

Texas Tech Defeated By Tulsa 26-20

LUBBOCK, Nov. 29 (AP)—Tulsa's Golden Hurricanes eked out a 26-20 victory over stubborn Texas Tech today when halfback Ed Hughes intercepted a Red Raider pass in the end zone with 22 seconds left to play.

The Raiders, after trailing by 20 points early in the second quarter, staged a great second half rally to carry the fight to the heavily favored Hurricanes, bound for the Gator Bowl.

Tech drove 72 yards to the Tulsa 3 where Hughes' interception ended the last hope for an upset victory.

Big fullback Howard Waugh, the nation's top rusher, added 181 yards on 23 carries to finish the season with 2,372 yards and probable national honors in rushing offense.

Waugh scored twice today, his first on a 10-yard run and his second on a 26-yard scamper. Halfback Dick Kercher lateraled to quarterback Ronnie Morris after Kercher had picked up 12 yards off tackle. Morris fumbled about the 9 and halfback Bobby Holladay recovered on the one and stepped into the end zone. The other Tulsa tally came on a quarterback sneak.

Halfback Bobby Cavazos sparked the Raiders with a pair of touchdowns. His first came on a 24-yard sprint after taking a screen pass from quarterback Jerry Johnson. His second was on a one-yard plunge over tackle. Johnson accounted for the first Tech touchdown on a sneak.

Tulsa staged marches of 64, 93, 83, and 65 yards for its four touchdowns, while Tech moved 44, 47, and 37 yards for its scores.

The Hurricanes, rolling to 403 yards on the ground, and 123 through the air, wound up with 526 yards total offense. Tech gained 259 on the ground and 77 through the air.

A pass interception by Kercher in the first quarter broke up a Tech drive and paved the way for the winning tally. Later, linebacker Gary Boyer intercepted a pass by Morris to set up Tech's third touchdown.

It was the eighth victory and seventh straight for Tulsa, which lost to Houston and was tied by Cincinnati.

Goss Holds To Bowling Lead

Goss Car Lot held onto its lead in the men's bowling league last week by defeating Newman's Grill 2,503 - 2,473.

Williams Jewelry, the No. 2 team, took a game over Lamb Chevrolet by forfeit. Snyder Wholesale, standing in fourth place, downed Lewis-Burney Service 2,553 - 2,413.

Two games scheduled for last week—Chuck Wagon vs. Sun Pipeline No. 1 and Permian Mud vs. Sun Pipeline No. 2—were postponed until tomorrow night.

Bobby Brown of the Williams team bowled high three lines with a score of 584, followed by J. H. Geulker of the Lewis-Burney squad with 539.

In addition to the games to be played tomorrow night, other games will be Chuck Wagon vs. Sun Pipeline No. 2 and Lamb vs. Snyder Wholesale on Tuesday. Sun Pipeline No. 1 vs. Lewis-Burney and Permian Mud vs. Goss Car Lot Wednesday, Newman's Grill vs. Williams Jewelry and Sun Oil No. 1 vs. Sun Oil No. 2 Thursday. The two Sun Oil teams joined the league this week.

The women's league postponed their entire slate of games last week for the Thanksgiving holidays.

SMU Knocked Down 14-7 By TCU; Sophomore Leads Way

DALLAS, Nov. 29 (AP)—Ronald Clinkscale, a flaming sophomore, ran through SMU like a purple ghost today to carry TCU to a 14-7 victory in the season final.

The tall and handsome quarterback, a track man who uses his speed on the gridiron, scored both TCU touchdowns, one a 36-yard dash and the other on a 12-yard jaunt.

Clinkscale romped to 152 yards in one of the finest individual shows this storied game ever saw. He also mixed in some adept passing in generaling the Christians to their upset triumph.

If the field hadn't been muddy Clinkscale would have made more yards. Several times he slipped and fell when obviously on the loose.

A crowd of 32,000 saw Southern Methodist fall to win for the sixth straight time. The last SMU victory was in 1946 but there have been two ties in between.

SMU made a hefty fight of it. The Methodists got to the TCU 21 and the 27 in first period drives but lost the ball on a pass interception the first time and on a fumble the next. Early in the second period Frank Eidom fumbled a punt to set TCU up for a touchdown.

Carlton McCormack, ponderous Christian center, fell on the ball on the Methodist 40. Jack Ray picked up four in a bash at right guard then Clinkscale circled left end for the score. Only Val Joe Walker, SMU safety man, could get to Clinkscale against terrific TCU blocking and he was barely able to touch the flying Christian quarterback, giving him a pat on the arm as he swirled by.

TCU rolled to the SMU 22 the next time it got the ball despite a 15-yard roughing penalty. Mal Fowler's passing and running shoving the drive 23 yards to the SMU 48 and Clinkscale making the remainder of it with two runs. But SMU braced and took over on its 24. SMU drove to the Frog 41 but the march petered out as the half ended.

TCU took the second half kickoff and paraded from its 18 to the Methodist 36 before losing the ball, a 38-yard run by Clinkscale the big punch of this drive.

Getting the ball on their 20 after Ray McKown kicked over the goal line, the Methodists, with sophomore Don Kilgore leading the way, rumbled to the Christian 13. But Kilgore fumbled and Hal Lambert, Christian guard, recovered on the 15.

As soon as SMU got the ball again it stormed to a touchdown with Kilgore again the man of the moment. The drive stretched 54 yards and Kilgore made 35 of it with bull-like rushes over guard.

Georgia Tech From Behind To Beat Ga.

ATHENS, Ga., Nov. 29 (AP)—Georgia Tech came alive in the last quarter today and whipped Georgia, 23-9, but not until after Zeke Bratowski, passes had run the undefeated Engineers ragged for most of the game.

Two touchdowns in the last 10 minutes broke open a hard-fought game which could have gone either way until that time. It was the Engineers' 16th straight victory.

Tech, completing its first perfect season in 24 years, was scared and didn't care who knew it. In the last quarter, leading 10-7, Tech stopped a Georgia drive at the 3. After two quarterback sneaks without success, Tech sub signal-caller Pepper Rodgers deliberately grounded the ball in the end zone, making it 10-9 Tech. The safety enabled Tech to get a free kick from the 20.

The Sugar Bowl bound Engineers the nation's third-ranked eleven, simply were afraid to risk a blocked kick so near the goal at that stage of the game. A little later a pass interception gave Tech another touchdown and the pressure was off.

The victory gave Tech the Southeastern Conference title for the first time since Bobby Dodd became head coach in 1945. Tech and Tennessee shared the crown in 1951.

Georgia battled the highly-favored Engineers on even terms or better until the closing minutes. Bratkowski's passes were particularly effective. His favorite target, Harry Babcock, suffered a broken cheek bone in the second quarter but Bratkowski had no trouble hitting John Carson and Art DeCarlo as alternates.

Tech missed badly the ball-lugging ability of its star halfback, Leon Hardeman. Hardeman reinjured an ankle sprain the second time he carried the ball and was out for the rest of the game.

Georgia's running backs—Bobby Dellinger, Charlie Madison and Bob (Foots) Clemens—were primed for Tech and balanced off the Brat's passing neatly. Bratkowski completed 15 of 26 passes for 134 yards.

LSU Upsets Tulane 16-0

NEW ORLEANS, Nov. 29 (AP) Tackle Paul Miller's fumble recovery and a pass interception by halfback George Brancato furnished LSU with the powder and fuse for a two-touchdown football explosion and a 16-0 upset victory over Tulane today.

LSU, a team that had won only two games in a disastrous season, combined long first half runs by fullback Leroy Labat and halfback Jerry Marchand to fashion the victory over frustrated Tulane.

Labat's 32 yard first period run, Marchand's 46 yard gallop in the second quarter and Cliff Stringfield's 17-yard field goal were SLU's only serious threats.

Tulane, a touchdown favorite, showed midfield offensive superiority, but each drive fizzled under LSU's knifing line.

Miller and ends Sammy Murphy and Joe Tuminello spilled Tulane's vaunted runners for losses in the game, which was played in a light rain before 55,000 persons.

Notre Dame Spoils Southern Calif. 9-0

SOUTH BEND, Ind., Nov. 29 (AP)—Notre Dame's spoilers humiliated Southern California today with a "sucker shift" to score in the second period and sent the Rose Bowl-bound Trojans crashing from the undefeated football ranks, 9-0.

The fighting Irish, ending USC's nine-game winning streak, beat the great defensive team at its own game. It was the Trojan's first loss since the Irish won 19-12 a year ago at Los Angeles.

Notre Dame scored the game-deciding touchdown in the first five minutes of the second period with its demon-like punt-patrol setting it up.

Johnny Lattner punted and the Trojans' safetyman, Jim Sears, received it on the USC 20. Sears looked up and saw Menil Mavriades and the bone-jarring Dan Shannon roaring down on him like a pair of wild bulls.

That was enough for Sears. He looked over his shoulder for help and then, for the only time in the game, lost his poise. He tried to lateral to Al Carmichael. Carmichael didn't foresee the maneuver and the ball bounced in back of him. Mavraides fell on it on the 19.

From there, the inspired Irish banged through USC's tight line to the 9 in three plays. Then came that "sucker shift." Notre Dame went into its regular split T alignment then shifted out in a box formation. Three Trojans jumped across the line of scrimmage and USC was ruled offside. The 5-yard penalty gave Notre Dame the ball on the 5 and a first down.

It took four players to score from there, but Lattner finally stabbed across the last inches.

But the climax to the Irish great season of wrecking favorites came against the men of Troy, ranked No. 2 nationally and a touchdown choice to register their first undefeated-untied season in the Irish whose main gainers were fullback Neil Worden with 66 yards and an unheralded second string halfback, Fran Paterra, 190-pound junior from McKeesport, Pa. Paterra added 42.

Houston Beats Detroit 33-19

HOUSTON, Nov. 29 (AP)—Houston wrapped up the Missouri Valley Conference championship in mud and rain today by powering its way to a 33 to 19 victory over Detroit.

The scoring rampage by the normally defensive minded Cougars included single touchdowns in each of the first three periods and two in the fourth.

Detroit's offensive attack was being carried primarily by quarterback Ted Marchibroda and fullback Ray Zambaisi. Marchibroda passed for one touchdown and set up another while gaining a net of 147 yards rushing and passing. This gave him a season total offense record of 1813 yards, 89 better than Illinois' Tommy O'Connell, the nation's leader last week.

The victory gave Houston its first championship since starting football in 1946. The Cougars finished the season with eight victories against losses only to Texas A&M and Mississippi. They were undefeated in three conference games.

Class A Playoff Tilt Set At Vernon Friday

FORT WORTH, Nov. 29 (AP)—Officials of Clifton and Crowell High Schools met here today and set 2 p.m. Friday at Vernon for their second-round Class A playoff football game.

Coach Thayne Amonett of Crowell and Coach J. B. Kell of Clifton participated in the coin toss with Amonett winning and selecting Vernon as the game site. Crowell, Dist. 9-A champion, gained the second round with a victory over Grapevine of 10-A. Clifton entered the regional round by defeating Clifton is the 11-A winner.

Baylor Beaten 20-14 By Rice

WACO, Nov. 29 (AP)—Rice used two intercepted passes and a magnificent 61 yard punt return by little Horton Nesrsta today to beat Baylor, 20-14, and climax a comeback that brought it from a comebegone football team to runnerup in the Southwest Conference.

The intercepted passes set up touchdowns in the first and final periods and gave the Owls their fourth straight November victory after five straight lickings.

Nesrsta's touchdown run—made with Francis Davidson hanging all over him for what seemed an eternity—apparently made him the nation's top man at returning punts. His total after today of 536 yards shoved him past USC's Jimmy Sears.

L. G. Dupre, Baylor's sophomore flash, romped 30 yards for a second period tally and then cracked Rice's line for two yards and another score to run his touchdown total for the season to nine.

Perfect Record For Ole Miss

OXFORD, Miss., Nov. 29 (AP)—Sugar Bowl-bound Mississippi preserved its unbeaten record by beating Mississippi State, 20-14 here today as fullback Pete Mangum stopped a desperate last period State drive with a pass interception.

A numb crowd of 28,000 sat in an intermittent drizzle and chill 35 degree temperature to watch the brilliant battle between the two Mississippi rivals.

Quarterback Jimmy Lear called flawless ball but he and his team mates were hard pressed to break up a determined fourth period drive by Mississippi State.

Jumping Jack Parker, State's brilliant quarterback, was a star even in defeat and for personal laurels tied the Southeastern Conference touchdown record by making his 15th and 16th today.

Ole Miss' victory gave the Sugar Bowl two unbeaten teams, the only major bowl with such a contest. Mississippi's New Year's Day opponent in New Orleans, Georgia Tech, defeated Georgia 23-9 to end its season with a perfect record of 11 victories. Mississippi was twice tied, by Kentucky, 13-13, and by Vanderbilt, 21-21.

Vandy Miscues To 46-0 Defeat

NASHVILLE, Nov. 29 (AP)—Tennessee's alert Volunteers converted Vanderbilt miscues into an easy 46-0 Southeastern Conference victory today on a snow-covered gridiron. It was the widest margin Tennessee has scored in this rivalry which started in 1892.

The Vols, headed for the Cotton Bowl game with Texas on New Year's Day, wasted little time breaking into the scoring column and kept up a steady stream of touchdowns.

Intercepted passes and Vanderbilt fumbles set up Tennessee's first five touchdowns and the Volunteer defensive platoon kept the Commodores pushed back into their own territory throughout.

Big Doug Atkins, Tennessee tackle and All-America candidate, cut out the game pattern about midway of the first period when he intercepted a Bill Krietemeyer pass and ran it 36 yards for the first touchdown.

Vanderbilt fumbles set Tennessee's third score early in the second period, two more in the third, and the two in the fourth.

Alabama Beats Auburn 21-0

BIRMINGHAM, Nov. 29 (AP)—A merciless first-half running attack, paced by backs Bobby Marlow and Tommy Lewis, brought Alabama a 21-0 victory over Auburn today on a cold and muddy field before 40,000 chilled fans.

It was Marlow's final regular season game, and he racked up 132 yards on rushes for a season's net of 950 and a three-year figure of 2,560.

'Bama showed its superiority quickly. With Lewis and Marlow doing the running, Alabama went 60 yards in six plays in the opening four minutes. Lewis drove 13 for the score.

Another 'Bama score followed on an 84-yard march before the first period ended. Lewis again rammed over. This time from 8 yards away.

Halfback Bobby Luna went 4 for the final marker early in the second.

That was all the scoring, as the Auburn defense stiffened and managed to stave off further drives.

SNOW STOPS TEXAS TRAFFIC

This is an air view of Texas highway 60, a few miles east of Amarillo, Texas, as heavy snow snarled traffic. At least 40 cars and trucks can be counted in this stretch of highway, which is typical of conditions existing on many roads in the Texas Panhandle following a near 10-inch snowfall this week.

Deadly Playoffs In Schoolboy Competition Getting Started

By The Associated Press

Play-offs for the big prizes in Texas schoolboy athletics begin this week with Lubbock and Wichita Falls favored to meet in the Class AAAA football finals and Breckenridge and Temple expected to clash for the championship of Class AAA.

With the play-off brackets filled, there are only five undefeated, untied teams left in the upper classes of the gridiron campaign. In Class AAAA they are Lubbock and Wichita Falls, which are in opposite brackets and can meet only in the finals. In Class AAA they are Temple, Edison (San Antonio) and McAllen. But Breckenridge, although it has lost a game, still is favored to repeat as Class AAA king.

Breckenridge hasn't lost to anybody in its own class in two years and Thursday it showed even more power than last year in swirling over Brownwood to knock the latter from the unbeaten ranks. The 34-6 score threw fear into the other aspiring teams.

Temple apparently isn't the club today that it was several weeks ago when it beat Baytown, one of the powers of Class AAAA. However, the Wildcats may just be coasting. They are living only for the day they'll play Breckenridge —the team that upset them in the finals last season.

Lubbock plays a mediocre Austin (El Paso) eleven in the first round this week, is due to win and then to battle the winner of the Dallas-Fort Worth districts, neither of whom appears in Lubbock's class, in the semi-finals.

Wichita Falls faces a rougher road. The Coyotes run into Ray of Corpus Christi in the opening round. Ray was tumbled from the unbeaten ranks last week in a major upset by Miller of Corpus Christi, 14-13.

Baytown, ranked third in strength in the state, takes on John Reagan of Houston. The Wichita Falls - Ray winner meets the Reagan - Baytown victor.

Two of the Class AAA play-off games are Friday night — North Side (Fort Worth) at North Dallas and Baytown at John Reagan. Saturday afternoon, Lubbock plays Austin at El Paso and Ray and Wichita Falls joust at Corpus Christi.

In Class AA, Denison and Texarkana play at Denison and Edison and McAllen at McAllen Friday, the first game in the afternoon and Edison-McAllen at night. Saturday afternoon, Temple and Port Neches get together at Temple. Lamesa and Breckenridge, the other two district champions, will decide the site and date of their game in a conference at Sweetwater Sunday.

The Class AA and Class A state races move into the second round this week with sites and dates to be decided over the week end. Only six undefeated, untied teams remain in Class AA and there are none in Class A. Cedar Bayou is the only undefeated team but has been tied. The feature game matches two undefeated, untied teams — Terrell and Center in Class AA.

In the second round this week they pair as follows :

Class AA — Floydada; undefeated and untied, vs Childress; Stamford, undefeated an untied, vs Seminole; Stephenville vs Graham Terrell vs Center; Ennis vs Huntsville, undefeated and untied; Killeen, undefeated and untied, vs LaMarque; Yoakum vs Weslaco.

Class A—Olton vs Denver City; Wink vs Haskell; Crowell vs Clifton; Honey Grove vs Van; Gaston vs Cedar Bayou; Mart vs Smithville; Deer Park vs Vanderbilt; Hondo vs Lyford.

Big State Cage Conference Is On Wednesday

SEGUIN, Nov. 27 (AP)—The Big State Conference basketball campaign opens next week with St. Edward's of Austin meeting St. Mary's of San Antonio in the first conference Test. This game is scheduled Dec. 3.

Three non-conference games are set for Dec. 1. East Texas Baptist College of Marshall, the defending champion, travels to Nacogdoches for a joust wtih Stephen F. Austin. Southwestern University of Georgetown is host to the University of Corpus Christi, and St. Edward's plays St. Thomas University at Houston.

Dec. 2 Texas Lutheran of Seguin will be host to Trinity University of San Antonio in a game marking the official opening of TLC's $260,000 memorial gymnasium. Dec. 4, Texas Lutheran plays Del Mar College of Corpus Christi. Texas Wesleyan College of Fort Worth plays Midwestern College at Wichita Falls Dec. 2 and entertains Sam Houston State Dec. 4.

East Texas Baptist will be at home Dec. 5 and 6 for a two-game series with East Central of Oklahoma, and St. Mary's will tangle with St. Thomas at Houston Dec. 6.

In conference play the following week, Texas Lutheran will be host to St. Edward's Dec. 9, and St. Mary's has a road game with East Texas Baptist Dec. 12 and with Texas Wesleyan Dec. 13. Southwestern opens conference play Dec. 16 with St. Edward's at Austin.

East Texas Baptist, Texas Wesleyan and St. Mary's are rated favorites but this trip may get plenty of competition from St. Edward's, which tied Texas Wesleyan for second-place honors last season. The St. Mary's quintet, which finished strong last year, probably will be one of the most improved clubs in the circuit.

15 Records In Skeet Shooting Are Recorded

DALLAS, Nov. 29 (AP)—The National Skeet Assn. today listed 15 world's records in the sport during 1952.

Three were long-run records, including a five-man team 438 in a row by the new national champions composed of Charles H. Poulton, San Antonio, K. C. Miller, Tyler; Fred Alford Sr. and Henry Adler, Dallas, and Grant Ilseng, Houston. The other two were 614 straight with a 20-gauge gun by Tom Sanfilipo, San Francisco, and 309 in succession by D. Lee Braun, San Mateo, Calif. with a 28-gauge gun.

Mrs. Leon (Carola) Mandel, Chicago socialite, set two new high-over-all standards for women. Young George H. Hodges Jr., Jacksonville, Fla., collaborated with his father for a new parent-and-child 398 x 400 standard and shot on the Florida team with Francis Ellis, Emmet Lee, Tommy Spicola and Curtis Newsome that compiled a new 991 score on 1000 targets for five-man team competition.

Mr. and Mrs. L. S. Amburgey, Odessa, Tex., set a new husband-and-wife record of 395 x 400 and Julian F. Coleman, Crumpton, Md., and Ed Calhoun, Salisbury, Md., became the first two-man team to record a perfect score of 200 straight with 20-gauge guns.

The other eight new standards were for versatility in high-over-all races. They were: 390 x 400 for women, including 200 targets all gauge and 100 each 20 and small gauge, by Mrs. Leon Mandel, Chicago 382 x 400 for women, four guns, 100 targets each, by Mrs. Mandel; 395 x 400, three guns, including 10 sub-small gauge targets, by Jack Boardman, Augusta, Ga.; 397 x 400, three guns, including 200 all gauge targets and 100 each 20 and small gauge, by George F. Hearey, Speedway City, Ind.; 367 x 375, four guns, including 150 all gauge targets and 75 each with the three smaller guns, by Frank Dublin, Jacksonville, Tex.; 249 x 250, two guns, including 125 birds each all bore and 20 gauge, by John C. Dalton Jr., Chevy Chase, Md.; 538 x 550, four guns junior for 250 targets all gauge and 100 each with the other three runs, by Jimmy Clark, Bartlesville, Okla.; 514 x 550, four guns senior, for 250 targets all gauge and 100 each with the other three guns, by Josph M. George, Sudlersville, Md.

Lawton Negro Team Wins In Benefit Game

The Douglass High School Lions of Lawton, Okla., ripped off an easy 45-0 victory over the Blackshear Steers of Odessa Friday night in the Kiwanis Negro benefit football game in the Tiger Stadium.

About 250 persons attended the game, held in freezing temperatures under a slight mist.

Halfback Arthur Ward opened scoring with a 65 yard run on a handoff for a touchdown, then Robert Twiggs, 225-pound fullback who was almost unstoppable, chalked up two, one on a five yard drive and one on a 22 yard run across the left side of the line. Both Twiggs scores were in the third quarter. The Lions led 7-0 at the half.

Also in the third period, Halfback James Dixon scored on a 19 yard run and Quarterback James Thornton tallied on a three yard line buck.

In the fourth, Back Charles Butler raced 46 yards for a score and Back Pete Sordelet ran 45 for one.

Fred Washington, the most versatile back on the team, kicked three good points out of seven tries. On kickoffs, he booted past the end zone twice.

The Odessa team penetrated into Douglass territory twice. The first time, they gained to the Douglass two yard line, but the Lawton team held the line until they took over on downs. The second time came when an Odessa pass and moved 48 yards to the Lawton seven, but the half ended before Odessa could score.

The victory was the third in Snyder for the Lawton team, which comes here annually for the benefit game. In 1950, they defeated a team from Abilene, and last year they downed a team from Midland.

Still Six Pro Teams Out For Championship

NEW YORK, Nov. 29 (AP)—Four games are on tap tomorrow in the National Football League, and every one of them has a direct bearing on the scramble for the championship in the American and National Conferences.

The unprecedented snarl at the top of the pay-for-play heap, with only two more weeks of the regular season after tomorrow's games, finds six clubs still very much in the race.

Cleveland's Browns, the New York Giants and Philadelphia Eagles are deadlocked atop the American Conference each with six victories and three defeats. Detroit, San Francisco and Los Angeles are contenders in the National Conferences.

In the National Conference, the leading Detroit Lions are idle, after thumping the Green Bay Packers in a Turkey Day game, 48-21. That left Detroit with a 7-3 record. The Los Angeles Rams, who beat Cleveland in the championship play-off last year, and the San Francisco 49ers, are tied for second with 6-3 marks.

Los Angeles and the 49ers tangle in a "crucial" test at San Francisco, with the winner going into a first place deadlock with Detroit.

Cleveland meets the Redskins at Washington. New York has a date with the Steelers in Pittsburgh and Philadelphia takes on the Cardinals in Chicago. Thus victory for the three American loop leaders still would leave that race tight as a drum.

The world championship play-off is scheduled in the home city of the American Conference champion Dec. 21, but it now seems play-offs could be necessary in both divisions to whittle the business down to the two finalists.

AA Bi-district Game Here On Field Saturday

Snyder was chosen Friday as the site for the regional match between Stamford and Seminole, officials of the two schools decided in a meeting with M. E. Stanfield, assistant superintendent of Snyder schools.

The two squads will clash here at 2:30 o'clock next Saturday afternoon.

Stamford, champ of District 5-AA and undefeated in 11 games this season, won the right to represent Districts 5 and 6 in the regional tilt by shutting out the Tahoka Bulldogs 34-0 Thursday in a bi-district slaughter.

Seminole, of District 8-AA, which has now won nine, tied one, and lost one, downed Brownfield of District 7-AA Thursday 12-0.

Gordon Wood, Stamford coach, and George Zoller, Seminole mentor, were among the delegates to the meeting here.

Tickets, which will be sold at $1.50, will not be available in Snyder until game time, unless officials of the two schools feel they can accommodate their own fans nad Snyder fans at the same time.

Hermleigh of District 5-B and Sanderson of 6-B are scheduled to meet in a bi-district tilt here at 8 o'clock Friday night.

SEVEN MILLIONS DAILY . . .

American families received $7,308,000 daily from their life insurance companies during 1945. Death benefits alone accounted for $3,506,000 of this staggering total.

Little Bobbie Jo Bunch, 3-year-old daughter of Mr. and Mrs. Bob Bunch, 114 Browning, tries out a piano scaled down to size for a child. The piano is one of the many unique toys offered in Snyder stores during the Christmas season. (Staff photograph.)

New Toys Will Amuse Kids And Amaze Oldsters This Season

Practically everything done by a father or mother can be done by a child now through use of toys, or that's what the toys sold on the Snyder Christmas market these days seems to show.

A toy for practically every use can be bought at the store, some constructive and educational, some possibly destructive.

With toys, a boy can learn to repair a car, operate a submarine, or relax in a reclining chair. A girl can learn to care for a baby, using scaled down equipment just like her mother uses.

It was only a few years ago that the doll that would cry was the thing that caused a revolution in toy trade. Crying is only a minor thing for a doll now — dolls are now sold that walk when led by hand, have hair "growing" out of their heads, and come equipped with every garb that can be worn, including something for an afternoon tea. Children can set dolls' hair in different styles, or they can use the dolls that can be bought in a variety of hair styles, including the poodle cut. Prices range from something over a dollar to somewhere out of reach.

While many a father will continue to lie on the couch to avoid paying $200 for a reclining chair, a scaled down job for junior can be bought for $13.95.

Balance wheels for bicycles, once used only for handicapped children, are now standard equipment for teaching smaller children to ride the vehicles. The wheels, some of them costing less than $4, are attached to the rear of the bicycle to prevent the child's falling while he is learning to ride.

Dealers here say their market is not very good on futuristic toys. One said that the futuristic toys are nothing new to children, because they have been playing with Buck Rogers guns for years. Novelty toys seem to be popular, and there are several new types out this year. Cows, built on rollers and rigged to bawl and throw their tails up when pulled, or the model bus station with a record of a man's voice, which cannot be understood, announcing points of travel are some.

Another new thing appealing to young boys is the small car with a repair kit and parts that can be removed, just like in a regular auto.

Momentum toys, the little cars and trucks that will roll for yards without use of a windup attachment, are very low priced this season. When they first became popular two years ago, they were built in the larger toys and cost much more than they now cost. They can be bought for 25 cents up, and come in cars, trucks, jeeps, police cars, buses, tanks, rockets, and planes.

Unusual is the small outboard motor that fastens onto a toy boat and runs it in the water. It operates off a flashlight battery.

Waco Leader Dead

WACO, Nov. 29 (AP)—Hal Victor Hays, 63, prominent Waco business man and civic leader, died at his winter home in Ft. Lauderdale, Fla., Friday of a cerebral hemorrhage.

A native of Waco and long-time insurance man here, Hays was a former city commissioner and former president of the Heart O'Texas Council of the Boy Scouts.

Funeral services will be held here Wednesday.

India's Belief In Russians Is Shaken Badly

NEW DELHI, India, Nov. 29 (AP)—The brusque Soviet rejection of India's Korean resolution now before the U. N. apparently has severely shaken many Indians' faith in Russia as a firm proponent of world peace.

Some Indians have applied such terms as "rude" and "insulting" to Soviet Foreign Minister Vishinsky's turn-down of the Indian formula for ending the deadlock over Korean prisoners.

The indignation among Indian officials, journalists and students of international affairs has appeared uniformly strong. Most of this seemed as much a result of the blunt manner in which Vishinsky spoke both for Russia and Communist China as of the rejection itself.

A government foreign affairs spokesman, however, said today that India was not abandoning hope that China will reverse its announced decision and support the Indian resolution.

"The government of India regretted Chinese disapproval of India's Korean resolution in the United Nations but hoped that this is not final and that China would give further consideration to the matter," the spokesman said.

In a statement distributed to the press, the spokesman added "India thought that some of China's objections were perhaps due to a misunderstanding. India is trying to clarify these points and welcomes the statement by the Chinese government that it would continue efforts to achieve an armistice in Korea on an equal and reasonable basis.

Missionaries Ousted By Reds Go To Asia, South America

WASHINGTON, Nov. 29 (AP) — Christian missionaries driven from Red China are finding new work elsewhere in Asia and in Latin America.

The Vatican news service Fides says that before the Communists took continental China the Roman Catholic Church had 3,046 foreign missionary priests there, 414 foreign lay brothers and 2,035 foreign nuns.

Of these 5,495 only 840 were left last month. The National Catholic Welfare Conference in Washington estimates about 50 of these were from the U. S.

Dr. Clyde W. Taylor, Washington representative of the National Association of Evangelicals, says there were 3,943 Protestant missionaries from all countries in China five years ago. He counts 17 left, all of them in Communist jails.

At the New York office of the National Council of Churches of Christ, Executive Secretary Roland Cross of the China Committee puts the 1947 total of Protestant missionaries in China at 2,536, with 33 remaining now.

Dr. Taylor points out that missionaries have been leaving China proper since the 1930s, the period of fighting between China and Japan. Of the Protestants who have gone since 1937—something over 5,700—he estimates that about 25 per cent have settled in Southeast Asia, 300 to 500 in Japan and perhaps 200 to 300 in Latin America.

Part of the missionaries and mission funds released from China have been going to Latin America.

There has been some conflict, Fides, the Catholic agency, says that Protestantism "has made colossal efforts to penetrate and win these people, who are in general much opposed to it."

In Colombia, Protestant charges of violent interference with their work—denied by Catholics—have led to several protests by the U. S. government.

In Rome the situation of the Catholic Church in Latin America is considered serious. Fides says the 25,000 priests there are "entirely too few for the 154 million inhabitants—nearly all of them Catholics."

The National Council of Churches of Christ, a Protestant group, has found the opportunity to improve schools one of the big stimulants to its mission work.

Dr. W. Stanley Rycroft, chairman of its Latin American Committee, calls Latin America one of the greatest mission fields in the world today. It was generally neglected by most main Protestant groups, he says, until the past 15 or 20 years.

He finds the most important trend to be an increased emphasis on training Latin Americans to do missionary work. He cites the case of Cuba, where the Presbyterian Church now has only one foreign staff member but subsidizes some 30 Cuban pastors.

Baylor Exes Elect Sisco As President

WACO, Nov. 29 (AP)—Jack Sisco, Waco, former Baylor Bear football star, today was elected president of the Baylor University Ex-Students Assn.

Sisco, now president of the Corsicana Chamber of Commerce and a former football coach of North Texas State College, will succeed T. E. Sanderford, Belton.

Vice presidents named were Ben H. Williams, Dallas, and Churchill Duncan, Killeen.

Balmoral Castle is situated on the eastern slopes of the Scottish Highlands on the River Dee.

LEGAL NOTICE

AN ORDINANCE FIXING AND DETERMINING RATES AND CHARGES TO BE CHARGED FOR SALES OF NATURAL GAS TO RESIDENTIAL AND COMMERCIAL CONSUMER WITHIN THE CITY LIMIT OF HERMLEIGH, SCURRY COUNTY, TEXAS, PROVIDING FOR THE MANNER IN WHICH SUCH RATES AND CHARGES MAY BE CHANGED AND AMENDED AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HERMLEIGH:

SECTION 1. Effective with the first gas bills rendered after the date of passage and approval of this ordinance the rates and charges for sales of natural gas and natural gas service rendered to residential and commercial consumers within the city limits of Hermleigh by Lone Star Gas Company, a Texas corporation, its successors and assigns, are hereby fixed and determined to be as follows:

Minnimum Montly Bill $1.53
First 1 m.c.f. at $1.70 per m.c.f. gross; $1.53 per m.c.f. net
Next 1 m.c.f. at $1.422 per m.c.f. gross; $1.28 per m.c.f. net
Next 3 m.c.f. at .867 per m.c.f. gross;
Next 20 m.c.f. at .389 per m.c.f. gross; .33 per m.c.f. net
All Over 25 m.c.f. at .333 per m.c.f. gross; .48 per m.c.f. net

Net rate shall apply to all bills paid within ten days from monthly billing date.

Except with respect to rates, all charges for natural gas service now in effect shall remain in effect unchanged.

The above rates and charges are applicable to each residential and commercial consumer per month or for any part of a month for which gas is used at the same location.

SECTION 2. The rates and charges set forth in Section 1 may be changed and amended by either the City or the company furnishing gas in the manner provided by law.

SECTION 3. The fact that there is an imperative public need for an immediate change and adjustment in the rates and charges for gas and gas service furnished to residential and commercial consumers creates an emergency and the reading and passage of this ordinance at two separate meetings is hereby suspended and this ordinance shall take effect and be in full force from and after the date of its passage at a single meeting and approval thereof by the mayor

PASSED AND APPROVED on this the 19th day of November, A.D. 1952.

Bobby Mason
City Secretary

A. D. Higginbotham, Mayor
City of Hermleigh, Texas

STATE OF TEXAS
COUNTY OF SCURRY

I, Bobbye Mason, Secretary of the City of Hermleigh, Scurry County, Texas hereby certify that the above and foregoing is a true and correct copy of an ordinance passed and approved by the City Council of the City of Hermleigh at a regular session held on the 19t dhay of November, 1952, as it appears of record in the Minutes of said Council, in Book 1, page 21.

WITNESS MY HAND AND SEAL OF SAID CITY, this the 19th day of November, A.D. 1952.

FIVE SISTERS IN SCURRY FOR 52 YEARS

The five women shown above are sisters and have lived in Scurry County for 52 years. They are (from left in front row) Mrs. Ora Martin, 58; Mrs. Nola Gladson, 61; Mrs. Viola Taylor, 63; (from left in rear) Mrs. Dora Preston, 53; and Mrs. Pergeon Boyd, 70. The sisters moved here in 1900 with their parents, the late Mr. and Mrs. I. B. Walker from Rising Star. Their father, a shoe cobbler, died in 1927, and their mother died in 1932. Only Mrs. Boyd is a widow. (J. Lawrence Devers photograph.)

German-Czech Border Is Marked By Electric Fence

HAIDMUEHLE, Germany (AP) — Two Czech frontier guards rode slowly across the hillside, their horses stepping jerkily through the deep snow.

At the German inn here, a blacksmith and a town clerk sipped their drinks and stared out the window.

"There they go again," said one. "Look. Behind them are two more. On skis."

The four Czech soldiers had begun their evening patrol a thousand yards away.

"That brook just down there," said the blacksmith, turning to a stranger in the inn, "that's the German-Czech border. Inside it, about 50 meters, you can see the barbed wire. It is electrified, the fence. They set up a big transformer last summer."

The barbed wire stretched neatly along the hill, a pattern of dangerous black lace, beyond which the two horsemen disappeared. The skiers veered off into the twilight.

"Their border guard was made much stronger these past three months," interposed a man in a leather jacket.

"Yes," said the clerk, "it was right after the maneuvers. I watched them with my binoculars, maneuvering. A Russian officer seemed to be leader of the whole affair. It was the first Russian I had seen in months."

A handyman, who had been listening in a corner, walked to the window.

"See that house just this side of the barbed wire, just inside Czechoslovakia?" he asked. "That used to be my house. Now there is nothing left but the walls. It was in the dead zone, so they wrecked it. Wasn't that a nice thing to have happen to me after four years in a Russian prisoner of war camp?"

The men were quiet a few moments, then the blacksmith spoke:

"Nobody has escaped to Germany in months. Impossible. But we know there is some smuggling along the border."

The town clerk stuffed tobacco into his pipe, lit it and puffed silently. Then he leaned forward.

"I wonder when they'll ever stop improving the dead zone. They burned down the last two houses this fall. Such a waste.

"I do not forget that those people just over the border are our own Sudeten Germans."

A solitary light winked yellow far up on the frontier slope.

"That's their headquarters," said the handyman. "That and another house right by it are the only ones alive in the dead zone."

A noisy gabbing of geese broke out in the barnyard.

"Those geese," the innkeeper's wife said, "you'd think they were watch dogs. And they'll be up before we are in the morning and down to the border brook. They don't care whether it's a frontier."

"That's right," said the handyman. "Only a goose wouldn't care."

Wreck Victim Services To Be Held In Kansas

The body of James Clifford Cunningham, 24, who died here Friday night of injuries suffered in an automobile accident on the Big Spring highway, will be taken by a Bolger funeral coach some time today to Moran, Kan., the home of his parents.

Funeral arrangements are pending there.

Mr. Cunningham, an employe of Phillips Petroleum Co. in Odessa, was en route to Oklahoma City when the accident occurred about 4:45 o'clock Friday afternoon in Mitchell County approximately 16 miles southwest of here. He was taken by a Bolger ambulance to the hospital in Snyder where he died about 9 o'clock of severe head injuries.

Ralph Evans, 24, of Snyder, driver of the other car involved in the head-on collision, was treated by a physician for several lacerations and released.

Bill Zimmerman, highway patrolman who investigated the accident, said Cunningham was traveling north in a 1950 Ford coach and that Evans was going south in a 1950 Buick sedan. The officer said Evans was attempting to pass a truck when he saw Cunningham's car meeting him and that both cars were on the east shoulder of the highway when they collided. Zimmerman said yesterday that no court charges had been filed in connection with the accident.

Mr. Cunningham's death was the seventeenth death due to traffic accidents on the Big Spring highway since it was completed in August, 1950.

Drought Puts Damper Over Area Business

DALLAS, Nov. 29 (AP)—Except for drought-lowered crop production, the Southwest's business situation was described in optimistic terms today by the Federal Reserve Bank of Dallas.

In its monthly review of business, industrial, agricultural and financial conditions, the bank said November rains brought some relief but "most parts of the district still need general rains to replenish surface and subsoil moisture supplies."

The publication said a decline in department store sales in late October and in early November attracted widespread attention, particularly as it was nation-wide.

This decline has been reversed in subsequent weekly reports from the bank, but these were too late for publication in the bank's monthly magazine "Business Review." For instance, advances over 1951 sales figures were reported for the week ending Nov. 15 in all five Texas cities which the bank regularly reports—Dallas, El Paso, Fort Worth, Houston and San Antonio. The advances ranged from 12 per cent at Houston to only one per cent at Fort Worth.

The curious decline in sales in late October, the bank suggested, may have resulted from the "intense interest and active participation of women (the department stores' chief shoppers) in the recent presidential campaign and national election."

The bank said the number of wage and salary workers in the five Southwest states in the district—rose to a record high in September for the second consecutive month. Manufacturing employment was 6 per cent higher than a year ago. Daily average production of crude oil in November set a new record for the third consecutive months but some reduction in December appeared probable. Bank loans were rising, as were deposits.

Breeders Here Show Winners

Earl Hord, owner of the Bitter Creek Rabbitry at 508 Thirty-second Street, has been notified his animals won 20 places in the Southeast Oklahoma Rabbit Breeders Association show last week end.

Hord entered 24 rabbits in the show held in Durant. The places include best of breed, best opposite sex English Spot, best Gray Dutch with the animal going on to place best opposite sex, 12 first places, six seconds, one third and one fifth.

In the Oklahoma Rabbit Round up and Show held in Norman Nov. 14-16 he placed 24 out of 32 rabbits entered and received a trophy for the best display of Gray Dutch.

Hord and his wife were notified recently that they have been elected secretary - treasurer and director, respectively, for the Texas State Dutch Specialty Club. Hord was also voted secretary of the National Dutch Show which will be held April 24-26 in Abilene.

20 Border Incidents

LONDON, Nov. 29 (AP)—Belgrade Radio said today 20 Yugoslav frontier guards have been killed and 36 wounded in 4,965 border incidents with Communist neighbor countries since the spring of 1948.

THE SNYDER DAILY NEWS

Vol. 3 No. 184 SNYDER, TEXAS, SUNDAY, NOVEMBER 30, 1952 SECTION TWO

Christmas Is In Air; Snyderites Preparing For Big Day In Dec.

For many Snyder children the Christmas season will begin when Santa Claus lands at Winston Field here next Friday afternoon at 4 o'clock, but for many Snyderites the work connected with the season is already underway.

Like Mrs. Vernon T. Tracy, pictured in the upper left of this page at her home in the Pan American Pipeline Co. camp three miles south of town, many Snyderites are already busily engaged in addressing hundreds of Christmas cards to business associates of her husband, as well as to family friends and relatives. On that score many Snyder women will know how to sympathize with Mrs. Tracy's cramped pen hand when the cards are all sent.

Snyder will take on a festive air Tuesday night when the new street decorations are completed. A portion of the decorations have already been strung along the busy streets, but the job will probably not be completed before late Tuesday afternoon, Leon Huff, manager of the Scurry County Chamber of Commerce, said.

A gala parade is planned for Friday afternoon when Santa Claus gets to town. Members of the Lions Club, sponsors of his trip here, will help him in tossing candy to the children who will surely line his path through town. To help him stay on schedule the Lions Club is asking that everyone wait for Santa's arrival downtown, and not go to the airport because the jolly old man has a crowded schedule, if he is to get to see all little children over the world.

Home decorating is another thing that will require careful planning and much work. Huff said the Junior Chamber of Commerce has made tentative plans to sponsor a home decorating contest, and a business decorating contest this year as in years past.

Details of the contests have not been announced, however.

Even without a contest to enter as yet, Mrs. J. C. Morgan, and her daughters, of 3000 Fortieth Street, second place winners in last year's residential decorations contest, are starting early with hopes of winning first place this year.

Another typical scene is the happy look on the face of Valorie Jill Dawson, 324 Twenty - ninth Street, as with pencil in hand she prepares to write her letter to Santa Claus. Although the three-year-old daughter of Mr. and Mrs. Clyde E. Dawson, cannot write, she drew Santa some pictures of the record player with which she tops her Christmas list.

Mrs. Bud England, 3728 Austin Drive, and her three daughters anticipated the Christmas season a little with a shopping trip downtown last week. The girls didn't seem to notice the cold weather because they were too busy looking in shop windows at the assortment of things they would like to find in their stockings on Christmas morning. Shopping is probably one of the biggest items left for most persons here in preparing for a big Christmas. Snyder merchants have complicated shopping, because they offer such a wide selection of gifts most shoppers have difficulty in choosing between them.

Yes, as the over-stuffed Thanksgiving weekend passes, Snyderites start looking forward to an even bigger holiday in the near future when further inflation in the vicinity of the waist line will be accompanied by a deflation in the vicinity of the hip pocket.

Mrs. Vernon T. Tracy above addresses some of the hundreds of Christmas cards she will mail to relatives and friends, and her husband's business associates. Mr. Tracy is superintendent of the Pan American Pipeline Co. district here. They live in the Pan Am camp three miles south of town.

Valorie Jill Dawson, daughter of Mr. and Mrs. Clyde E. Dawson, 324 Twenty-ninth Street, above prepares to write a letter to Santa Claus. The doll beside the table, a recent third birthday present, doesn't keep Valorie Jill from wishing for another come Christmas. She also wants a record player.

Some tinfoil and ideas are all there is of the decorations which will be on home of Mr. and Mrs. J. C. Morgan, 3000 Fortieth Street, but the Christmas scene at the house will soon be taking shape. Betty Morgan, and Joe Ann Morgan help their mother with the planning. Their house placed second in the home decorations contest held last year by the Junior Chamber of Commerce.

Shopping is one of the big pre-Christmas items on the busy schedule of most Snyderites. Along with the shopping, goes much window shopping to the tune of many "Ohs," and "Ahs," from the children as they peer into toy packed shop windows. Mrs. Bud England, 3728 Austin Drive, had that experience last week. She is holding Karol Ruth, while Glenna Kay, and Linda Joyce pick out their favorite toys in the window. (Lee Watson photographs.)

Mrs. Wyatt Lipscomb, 3000 Thirty-eighth Street, wraps Christmas packages while her husband tries vainly to keep Gary, their 18-months-old son, from unwrapping the packages. Mrs. Lipscomb said Gary untied the bows almost as fast as she tied them until her husband came home from work to occupy the son.

american designer's pattern

by Clare Potter

1100

Clare Potter has designed a smart strapless top closed with tiny little buttons. It has a free swinging skirt with split pockets and a chiffon stole edged with ball fringe—a combination so lithe and frothy it makes any material you might select for the dress look tres chic. Miss Potter originally designed pattern No. 1100 in linen. However, you might prefer any number of fabrics, such as cotton, silk shantung, taffeta or velvet. Fabric for the stole could be of your own choosing, too. Size 12 requires 4 yards of 35-inch material for the dress, and one and one-fourth yards of 48-inch material for the stole. Pattern is available in sizes 12, 14, 16, 18 and 20. To order send $1 to Spadea Syndicate, Inc., department 163, Box 535, General Post Office, New York 1, N. Y. For air mailing enclose 25 cents. To order the new pattern booklet volume VII, send 15

Chrysanthemums, Berries Are Garden Club Program

Chrysanthemums and fall berries were discussed Friday at the Garden Club.

Miss Myrtle Harrell, in a discussion of Chrysanthemum cultivation, told the importance of studying soil and preparing it in December. She said the plants should be set out in March or April and told how to water, feed and mulch the plants. Among varieties suitable for planting here, are Mrs. H. F. Kidder, the Indianapolis pink and white, and Golden Glow, she said.

Since new varieties are introduced every year, the gardener may choose proper chrysanthemums for this area by selecting ones which bloom in September, October and November, she said. Varieties which are suitable in the North are not adaptable to this climate, she said.

Arrangements were brought by Mrs. Wayne Boren and Miss Neoma Strayhorn. Mrs. Boren's arrangements included red pyracantha berries in a brass teapot and an arrangement of yellow chrysanthemums in informal balance. A yellow and black Chinese modern container was used, and accessories were bananas. Miss Strayhorn had an arrangement of nandena berries in a bronze pitcher and another arrangement of white and lavender chrysanthemums in a milk glass bowl.

Mrs. Wade Winston and Mrs. Bill Davidson judged the arrangements.

Members voted not to meet in December.

Seven members were present.

Mrs. Castleman Honors Husband, Grandson On Birthdays With Dinner

Mrs. Lynn Castleman was hostess Friday for a dinner honoring her husband and grandson, Randy Lawson, on their birthdays.

Randy marked his second birthday. Guests included his parents, Mr. and Mrs. Junior Lawson, of Hobbs, N.M., and Mr. and Mrs. Earl Lawson and children.

Guests Thursday in the home of Mr. and Mrs. George Wetzel, 220 Thirty - fifth Street, were her parents, Mr. and Mrs. B. L. Cooke, of Monahans.

Thanksgiving Program Given By Kindergarten Pupils

Pupils at Miss Ida Callis's kindergarten presented a Thanksgiving program Tuesday night at the Calvary Baptist Church.

The welcome was given by Carolynn Ellis. Paulann LeMarquand gave a reading, "Pilgrim Lads and Lassies," in which the following children, dressed as pilgrims, participated: Susan Wadman, Paul Brown, Burke Brooks, Freddie Johnston, Linda Spence and Donna Hopson. Portraying Indians were Kelly Sikes, Paul Browning, Junior Anderson and Larry Jo Landusky.

Following a piano solo by Paulann LeMarquand, the following children presented a Thanksgiving acrostic: Albert Williams, Carole Brown, Paul Browning, Paul Brown, Kelly Sikes, Susan Wadman, Burke Brooks, Jack and Nancy Dillon, Donna Hopson, Linda Spence and Freddie Johnston.

COSTUMES WORN

"I'm Glad I'm Not the Turkey" was a reading given by Larry Jo Landusky and Junior Anderson. All the participants were dressed in Indian, pilgrim or patriotic costumes.

Bobby Tefft told "Ted's Story of Thanksgiving," after which "Why We Are Thankful," a playlet, was presented. Participating in the play were Bobby Tefft, Richie Smedley, Jo Bill Worthington, Tim Patrick, Ronnie Detrich, Robert Wayne Foree, J. D. Emel, Sammie Philp, Steve Brown, Stevie Cates and Albert Williams.

Raelea Williams and Connie Sue Martin sang "What We Are Thankful For." "The Flag Song" was sung by Steve Brown and Bobby Tefft. Albert Williams held the flag.

'LAMP LIGHTER' PLAY

Another play was given, entitled "The Lamp Lighters." Freddie Johnston, the reader, told the significance of the Statue of Liberty, enacted by Lois Cunningham. Lamp lighters representing faith, hope, chairty, love, truth, right, justice, courage, preserverance and kindness, were, respectively as follows: Barbara Schiebel Carole Brown, Carolynn Ellis, Rose Ann McIlvain, Raelea Williams, Paulann LeMarquand, Connie Sue Morton, Wanda Jane Edmondson, Nancy Dillon, and Donna Lou Turner.

Flag bearers for the play were Joe Bill Worthington, Tim Patrick, Foree, J. D. Emel, Sammie Philp, Stevie Cates, Richie Smedley, Steve Brown, and Bobby Tefft. The group sang America, after which Albert Williams presented the final reading, "The Flag Makers." Mrs. T. Gerald Cates was pianist.

The entire group sang America, and the Rev. Cates gave the closing prayer.

PERSONALS

Guests in the home of Mr. and Mrs. Ben Dennis, 501 Twenty-eighth Street, for Thanksgiving were her mother and brother, Mrs. G. W. Scarborough and Clifford Scarborough, both of Ballinger, and Mrs. Dennis's aunt, Mrs. S. H. Spruiell, of Coleman.

Mr. and Mrs. Bruce Murphy and son, Michael, of House, N.M., spent Thanksgiving with Mr. and Mrs. Armor McFarland and family, 2234 Sunset, and visited his parents, Mr. and Mrs. Ed Murphy, of Knapp.

Guests in the home of Dr. and Mrs. John Hamblen, 2103 Thirty-seventh Street, have been her mother, Mrs. Grace Jackson, and a sister, Mrs. Donlay Stephenson and sons, Gary and Randy, all of Abilene. His parents, the Rev. and Mrs. J. H. Hamblen, of Abilene also were guests here Friday.

Miss Florance Dunigan, formerly of Snyder, has been a guest in the home of Mr. and Mrs. Charles H. Cooper, 3007 Avenue S. Miss Dunigan has recently returned ot Texas from California.

Mr. and Mrs. E. W. Babb, Jr., of Midland were Thanksgiving guests of her parents, Mr. and Mrs. J. E. LeMond, 1100 Twenty-sixth Street, and his parents, Mr. and Mrs. E. W. Babb, 3100 Avenue T. Mr. and Mrs. Charles N. Batts and son of Santa Fe, N.M., have also been guests in the home of her parents, Mr. and Mrs. LeMond.

Mr. and Mrs. W. J. Bryant, Jr., 3750 Highland Drive, had as guests Thanksgiving her parents, Dr. and Mrs. A. Blackwell, and Mrs. Bryant's parents, Mr. and Mrs. W. J. Bryant, all of Stamford.

Sherilyn Popnoe Given Party On Sixth Birthday

Mrs. R. C. Popnoe was hostess Thursday afternoon for a party marking the sixth birthday of her daughter, Sherilyn Kay. The party was given at their home on route No. 3.

Refreshments were served and favors of bubble gum, balloons and Christmas boots filled with candy were given to the following guests: Dick and Barbara Hayes, Joe King, Belva Jo Shipp, Floyd Charles Popnoe, Dub Prince and Mary Frances, Thelma, Wilma; Linda Joyce and Donna Prince.

Other present were Mrs. Claude King, Mrs. Eddie King and daughter, Becky, of Forsan, Tex., Miss Ramona Leatherwood, Mrs. Ollie Prestredge and Mrs. Ruth Reese.

Salt Lake City, Yellowstone Discussed For Cosmorama

Salt Lake City and Yellowstone Park were program subjects for Cosmorama Club's meeting Wednesday when Mrs. Malven Stevenson was hostess at her home.

Mrs. Kenneth Wilson introduced Mrs. Julian M. Consley of Salt Lake City who told about the copper mines. "The Bingham copper mine is the largest in North America," she said. "It is an open mine and would seat every man, woman and child in Texas and still leave room for every man, woman and child in Utah to sell them soda pop and hamburgers," she continued.

She also told that the lot her home is built on was once owned by Brigham Young and his twenty-seventh wife, Mary.

Mrs. John Hamblen, who was introduced by Mrs. Leland Herod, told of Yellowstone Park and Jackson Hole, Wyo. She showed movies of the geysers and animals found in the park and also showed movies of Salt Lake City.

Refreshments were served from a lace - covered tea table. Mrs. Renal Rosson presided at the silver service.

Twenty - one members attended.

J. M. McDONALD CO. McDONALD'S

Opinion Here Split Over Women Holding High Office

Snyder women are divided on the question of whether president-elect Eisenhower should ask for help from women in the form of more high governmental offices.

"I definitely do not think women should hold high offices," stated Mrs. Gene L. Dulaney of 3717 Highland Drvie. Mrs. Dulaney explained she believed women aren't as level-headed nor far-seeing as men when dealing with something as impersonal as government.

"They're too emotional," she said.

On the other side of the fence Miss Patty Thomas who lives on the Big Spring Highway said that while there are few women who are capable of holding high positions the change has got to come about gradually. She stated that until women are given an opportunity to take part in local government, such as serving on juries, they can't be expected to know as much as men do concerning politics.

"Quite a number of women are more interested and have more time for political service then men do," Miss Thomas said. Along the same line Mrs. Bill Schiebel of 3004 Avenue T emphasized that females have the same ability but just haven't been given the same opportunities.

Although women are still behind in the running, according to Mrs. Joe Burkett of 3720 Austin, she said there are some who excel. She believes the women should be required to meet the highest qualifications for the job instead of being hired because Eisenhower might feel some political obligation for their help in electing him. "So far I don't know of many outstanding women in the field," she stated.

Mrs. George Crabb of the Lemons Lease Camp added that the person best qualified of those that are available at the time should be hired, regardless of their sex.

Mrs. L. C. Younger of 3717 Rose Circle pointed out that a large amount of graft in government might be eliminated if women held more prominent political jobs. "Women aren't as inclined to accept those kind of things as men are," she said. Not only are the females just as capable as the males but they would probably give their jobs more personal interest, she stated.

Rheta Rhodes Is Honored At Kitchen Shower

Miss Rheta Rhodes, bride - elect of Wendell Autry, was honored with a kitchen shower Friday night at the home of Miss Jo Ann Gee, 111 Peach Street.

Hostesses with Miss Gee were Mrs. Billy McCormick and Miss Ramona Harless.

Guests included Mrs. Benny Sims, Mrs. Avanell Corbell, Miss Joy McCormick, Miss Isiasu Blakely, Miss Wanda Jean Rainwater, Mrs. Max von Roeder, Miss Mary Alice Richardson, Miss Oleta Ikard, Miss Jeanelle Glenn, Miss Bobbie Walker, Miss Betty Lou Wilson, Mrs. John T. Gee, Mrs. N. W. Autry, mother of the prospective bridegroom, and Mrs. G. R. Rhodes, mother of the bride-to-be.

The Ace club was entertained at Mrs. Willis LeVier's home Tuesday. Mrs. R. H. Wansbrough won high score prize, and Mrs. T. C. Abshier won second.

* * *

Mr. and Mrs. Bob Scott of Colorado City were high score winners at the duplicate bridge session Tuesday at the Country Club. Second couple was Mrs. Jim Philp and Mrs. Manning Davis. Third high were Mrs. Charles Cooper and Mrs. Ray Keenan.

* * *

Snyderites going to Colorado City Wednesday night for the country club duplicate play were Mrs. Keenan, Mr. and Mrs. J. D. Scott, Fritz R. Smith, Mr. and Mrs. Kenneth Haught, Mr. and Mrs. Doak Criss, Miss Leah Davis and Mrs. Snyder.

REPORT TO PARENTS

Child Becomes Normal In Foster Home Where Loved

By Dr. MARTHA M. ELIOT

For all of his five years, Sammy had been either in an institution or a foster boarding home.

His unmarried mother had abandoned him without releasing him for adoption. The child welfare workers in Mississippi under whose care he was placed finally cleared away the legal tangles which barred Sammy's adoption. But they still found him not adoptable at five. He was slow to learn; there were questions about his physical condition.

It was not until Sammy was placed with a foster mother who, even though she knew Sammy's placement with her was temporary, surrounded him with love and affection that the lad began to catch up.

He learned to talk more distinctly, to play with other children. He learned how to use his muscles so that he would not fall so often. Within eighteen months after he went into the warm atmosphere of his foster home, Sammy was found to be in excellent physical health—a normal child with a normal intelligence.

Now, the child welfare worker knew, Sammy was adoptable, but there was a hazard in separating him from the only home he had ever really had.

It took a great deal of careful planning to find the couple who could most clearly give Sammy the love and encouragement he needed. There was also the problem of the foster mother, who, although she realized Sammy was only her temporary charge and was in no position to adopt him, might not want to face giving him up. And there was the problem of telling Sammy.

The welfare worker went several times to see Sammy in his boarding home, and each time told him the story of a "nice mummy and daddy" who were unhappy because they couldn't find the little boy they wanted. Finally, Sammy began to chime in, to tell the worker that he must be the little boy.

Subsequenly, Sammy met the "nice mummy and daddy". His obvious pleasure and acceptance of them was evidence enough for the foster mother that this really was the home Sammy needed, and she was able to give him up to the adopting parents.

It seems to me that this story exemplifies in more ways than one the warmth and feeling which the social work term, child welfare, should mean to everyone.

For throughout Sammy's experience, the welfare worker was in the background, to be called upon if needed. She was able to give each person in Sammy's life the support he or she needed in order to do the thing that would be best for Sammy as he grew and developed.

In hundreds of communities throughout the country, child welfare workers in public nd voluntary agencies are trying, in thousands of instances, to help both adults and children who have problems in their lives to find for themselves the solutions which will most readily meet their needs and give them the greatest security to face the future.

Guests of Mr. and Mrs. J. L. Hendricks, 9-R Ranch, for Thanksgiving were their daughter, Mrs. John Birdwell, and Mr. Birdwell, who were en route to their home in Brinkman, Okla., following his discharge from the army. Another daughter, Mrs. C. W. Cathey, Mr. Cathey and family, of Hobbs, N.M., were also guests.

Mr. and Mrs. Sam Clark of Temple, Tex., arrived Friday to visit their daughter, Mrs. Ford Caperton, and Mr. Caperton, 101 Browning.

Ambulance Accessories Demonstrated Here At Car Dealer Last Week

Orvil D. De Yoe of South Gate, Cal., visited Snyder last week and demonstrated ambulance and bedding accessories for Nash automobiles. Demonstration was at the Bob Dupree Nash Co., 1920 Twenty-sixth Street.

De Yoe represents the Auto Bed Corp. which manufactures ambulance kits and air beds for Nash automobiles.

The air bed included twin mattresses, pillows, blankets, etc., which are carried in an air-tight bag about the size of an ordinary suitcase when not in use. The backs of the front seat may be folded down, the mattresses placed on the seats, and the bag used as a pump to inflate the mattresses. One or both mattresses may be used.

The ambulance kit requires only about one-fourth of the trunk space and consists of one mattress, one bed extension which is placed in front of the right front seat, a folding stretcher, and a set of loading tracks for sliding the stretcher into the car.

Only the right side of the car is used for ambulance, leaving the left front seat for the driver, and the left half of the back seat for an attendant.

Miss Jane Gilmore, who is a graduate student at Texas Tech in Lubbock, spent Thanksgiving holidays with her parents, Mr. and Mrs. C. P. Gilmore, 2511 Avenue V.

Mrs. Hamblen Leads Club Program On Thanksgiving

Mrs. H. J. Brice was hostess for the Twentieth Century Club's Thanksgiving program Tuesday at her home.

Following the business session, Mrs. John Hamblen, program leader, asked members to answer roll by telling of a treasured moment.

Mrs. Brice led a discussion on the place of prayer in modern living and closed with a prayer.

"Thanksgiving Then and Now" was discussed by Mrs. J. E. LeMond. She stressed the fact that pilgrims could be thankful for what they had, and she said, "How much more should we in this age of science, secure in the love and protection of our friends, be thankful."

Mrs. Hamblen told of the first Thanksgiving and gave an authentic early menu which she said included wild turkey, oysters which were gifts from the Indians, and plum porridge. She described the feast tables which were decorated with baskets filled with wild grapes and nuts.

Mrs. C. E. Tyer told a Thanksgiving story by Margaret E. Sangster which was entitled, "Empty Cupboard and Full Heart."

Mrs. Wade Watts was introduced as a new member. A salad plate was served the members and Mrs. A. B. Mackey of Denton, Tex.

An arrangement of fall flowers decorated the dining table.

SNYDER SCHOOL MENUS

Menus for the Snyder public school's lunchrooms have been announced by Mrs. Artie I. Gallamore, director of cafeterias. A choice of sweet or chocolate milk is included with each lunch.

MONDAY

HER EYE ON THE DRUMSTICK

Susan Elaine Eisenhower, 10 months, sets up a howl for service at her first Thanksgiving dinner. It forces her grandfather, President-elect Dwight Eisenhower, to grin and put out a restraining hand as he starts to carve the family turkey in the Eisenhower's New York home.

More Danger To Reds Where In Power Than In West Nations

WASHINGTON (AP) — The confessions of the 14 former Czechoslovak Communist leaders on trial in Prague revive an old question first brought up during the Moscow trials of the old Bolsheviks in the 1930s.

Why do people on trial in Communist countries trot in like sheep and denounce themselves in open court with confessions they must know will send them to prison or to death?

This habit, so common among people brought to trial in Communist countries, has never been generally practiced by Communists this side of the curtain.

When the leaders of the American Communist party, for example, were tried in New York a couple of years ago they not only confessed nothing but seemingly tried to make the trial a nightmare for the judge and the government.

They were aided in this by the difference in legal systems. Here, where a man has to be proven guilty, their lawyers were in court to defend them. In Prague it is the obligation of the defense lawyers to help on the prosecution.

In a book still talked about—Arthur Koestler's "Darkness at Noon"—an attempt was made to explain why a veteran Communist who had fallen from grace would condemn himself for offenses he did not commit.

The explanation, in brief, went like this: No matter how rotten he might think Stalin's leadership, the most important thing to the accused Communist is the eventual triumph of world communism.

Therefore, instead of publicly condemning the regime which he earnestly thought was ruining communism, he would publicly condemn himself for the sake of the party and his hope that maybe it could win out in the end.

There are probably other less idealistic but more practical explanations for the trial confessions.

Hypnotism has been suggested as one. Police terror sounds more likely, either through torture to extract compliance or threats of punishment for the accused man's family and friends if he didn't confess in open court.

(Karl Radek, old Bolshevik and journalist, provided the classic example of the absurdity of these confessions during his Moscow trial in 1937. He made an extraordinary admission, undoubtedly with tongue in cheek, since he was said to be sardonic.

(Radek said he pleaded guilty not only to all the crimes of which he stood accused but to all those of which he might be accused. He was reported to have been let off with a 10-year prison term. Some of his co-confessors were shot.)

In the Prague trial the Communists in power tipped their hands wide open on a question which has long been debated but has never had such supporting evidence:

The trial was outright anti-Jewish. Eleven of the 14 accused men were Jews. They were accused of conniving with Jews in Israel and the United States. Perhaps the accused men were persuaded to confess under threats of violence against all Jews in Czechoslovakia.

If that was the reason the sacrifices—11 were sentenced to the gallows, three to life imprisonment—seem to have been in vain. A wave of Jewish suicides was reported as the trial neared its end and a reliable source said anti-Jewish attacks had begun.

There is an interesting question which can't be answered: Do these trials chill the enthusiasm of American Communists? They must realize from these examples that the life of a Communist leader is in more danger when his own party is in power, as in Eastern Europe, than when it isn't, as here.

Father of Snyderites Succumbs In Merkel

Mr. T. J. Melton of Merkel, 87, the father of two Snyder persons, died Sunday after an illness of about three months.

Irvin Melton who lives on the Clairemont road and Mrs. R. B. Sears, Sr., of 3301 Avenue U returned Tuesday from attending the funeral for their father. The services were held Monday afternoon in the Merkel Church of Christ.

He is survived by seven sons, five daughters, 41 grandchildren, 36 great - grandchildren and two great-great-grandchildren.

Mice Ride Turntable To Help Scientists Kill Flies, Mosquitoes

WASHINGTON, Nov. 29 (AP)—A whole generation of mice have become dizzy riding miniature merry-go-rounds trying to help scientists solve a problem.

The problem: to find an insecticide that will kill tough flies and mosquitos. If one bites a sprayed have become immune to DDT and other bug killers.

Government scientists have several thousand chemicals out of which they believe some new and more powerful insecticides may be manufactured. An infinite number of mixtures can be made from the chemicals by combining one with another. The job is to test the killing power of each until a super-killer is developed.

So the mice ride the merry-go-round, manufactured from an old phonograph turntable, one at a time, and are sprayed by a carefully measured puff of chemical each time they go around.

After his ride the mouse is placed in a cage with flies or mosquitoes. If one bits a sprayed mouse and dies within 24 hours the scientists figure they have a chemical combination worth checking on more carefully.

Dr. Edward F. Knipling, head of the Agriculture Department's division of insects affecting man and animals, says several dozen combinations of chemicals have seemed promising but that not a one has proved to be outstandingly better than ones already in use. The project has been operating several years.

25 YEARS AGO

(Taken from files of the Scurry County Times - Signal Dec. 1, 1927.)

The Texas Bankers Association offers a standing reward of $5,000 for each dead bank robber killed while in the act of robbing a member bank in Texas.

• • •

The largest carload of cotton ever to be shipped from Snyder went out Saturday over the R. S. & P. railway to Houston. The car contained 432 round bales and weighed 108,720 pounds.

• • •

...the new Ford car will be equipped with four wheel brakes ...the new car has actually done 65 miles an hour in road tests.

• • •

County Judge Holley and the Commissioners Court are adding marked improvements to the court house lawn with the addition of many young trees and other landscaping.

• • •

Bring us your fur and get the cash. Do not wait. The Standard has made a market for Texas furs and built up one of the largest fur businesses in America.

• • •

In an attempt to solve the mystery surrounding the identity of two alleged bank robbers, one of whom was instantly killed at the rear door of the Citizens Bank at Odessa early Saturday, and the other who died Sunday morning from wounds suffered at the time, finger prints of the pair were taken by Ranger Captain Tom Hickman.

• • •

Any investment in Snyder is a good one, according to this visitor, as the city has had a nominal health growth — no booms, just the growth that is accorded any county seat town that has healthy farm land adjoining.

• • •

(Taken from files of the Hermleigh, Herald, Dec. 2, 1927.)

...So long as corn whisky can be sold for $12 per gallon and made for less than $2 per gallon, the prohibition law will be hard to enforce. We presume only the wealthy drink it, a poor man could not afford it at this price. So long as it comes that high, the editor will live a sober life.

• • •

Messrs T. W. Atchley and R. E. Ballard celebrated jointly their birthdays Tuesday. This was the fifth successive joint celebration of birth these men have had.

• • •

The box supper at the Pyron school house last Thursday was well attended and everybody reports a good time. The proceeds were $66.26. This is to be paid on the ground improvement around the school house. The children will be exceedingly proud when the giant shoot is set up.

High priced automobiles are ruining this country, and against this Mr. Murphy seems to have guarded himself, from what is seen about his farm home.

• • •

Mr. Frank Wilson of China Grove accompanied by his brother George of Abilene, returned Thursday the 24th from a deer hunt in Kimble County. They killed a nice buck each, one with eight points and the other three.

• • •

Mr. and Mrs. J. F. Coston were at home last Thursday evening to a happy group of twenty-six, representing ten families, seven of which families were Costons.

TV Dealers Look For Boom

READING, Pa., Nov. 29 (AP)—Tens of millions of dollars of new business is due to be created for television dealers and service men as new stations go on the air across the nation in coming months.

Reading, due to get its first station in a couple of weeks and its second in a few months, typifies what is about to happen in scores of communities.

Humboldt J. Greig, president of WHUM-TV will be the first of Reading's two stations, estimates that 50,000 sets will be sold each month in the first quarter of 1953 in the area served by the station.

That would be equivalent to about 15 million dollars a month in total retail business, with probably at least one million dollars a month to service men for installation of sets.

On a nation-wide basis, television manufacturers expect to turn out more than six million sets next year which, if all are sold, would mean a retail business of better than a billion and a half dollars for dealers. For service men alone, installation should run 100 to 125 millions. That's aside from the two to three service calls a year, on the average, for those sets and the more than 19 million already in use.

An official of Sylvania Electric Products, Inc., at a clinic here for service men this week, said there are now about 83,000 radio-TV service men and repairmen, and the industry estimates at least 160,000 will be needed ultimately as TV spreads over the nation.

Lincolns To Sell At Same Price As 1952

DETROIT, Nov. 29 (AP)—Prices for the 1953 line of Lincoln automobiles will remain the same as for comparable 1952 models, the company announced today.

The new cars go on display in dealer showrooms Dec. 2.

The list prices range from $3,226 for the Cosmopolitan four-door sedan to $3,699 for the Capri convertible. The price announcement noted that an increase of $93 has been made in the price of the 1953 Capri four-door sedan to cover additional trim schemes not incorporated in the 1952 model.

A major feature of the new Lincoln line is the 205 horsepower engine, currently the highest power output in any production model auto. The current year's model had 160 horsepower.

Miss Lamoyane Harrell of 3110 Avenue V sings as well as plays the piano, but said she doesn't like to do the latter in public appearances. (Staff Photograph)

Music Teachers See Cultural Growth Among Snyderites

Audiences like music they know, especially songs taken from musicals that have been more or less established, according to Miss Lamoyane Harrell, a new singer and teacher in Snyder.

Miss Harrell who teaches music in the first through sixth grades in West Elementary was a voice student, herself, for seven years. During that time she sang for more weddings, teas, anniversaries and programs "than I can remember," she said. A major in voice at Texas Tech she was a member of the mixed chorus which is composed of 60 of the college's most select voices.

Although audiences like familiar music, they also like some they have never heard before, she said. A singer usually plans for about one-fourth of the program to be heavy keeping extremely light music for encores, she states. "The audience is entitled to something they will particularly enjoy if they ask for encores," she explained.

Miss Harrell said she likes music of Jerome Kern and Schubert. But the most important thing is that the music is appropriate for the occasion, she emphasized.

Singing can have its lighter moments, too. Miss Harrell recalls one incident when she dedicated "The Lilac Tree" at her senior recital to a boy and girl she knew in the audience. "The funny part was that they got married, and, you know, for some reason I've never sung it since," she laughed.

"With the artist series here in Snyder a great advancement has been made in culture," she stated. As more persons become more interested in the concerts the cultural element in the town will increase, she added.

Miss Harrell said she also expected the present school students to affect Snyder's cultural development. "They are cultivating a taste for all types of music," she stated. "Some of them like operas and yet find a relief in hill-billy because it is more relaxing to them," she explained. Miss Harrell believes in introducing the composer to the students, as a person, "then they enjoy and understand music they wouldn't have liked before," she said.

Snyder Man To Officer School

Jack Longbotham, 22-year-old son of Mr. and Mrs. Bernard Longbotham, Sr., 2112 Thirtieth Street, was named honor man of his training company at the U. S. Naval Training Center at Great Lakes, Ill., this month.

Longbotham, who will complete training there Monday, received a certificate of honor and engraved identification bracelet at the brigade review yesterday.

The Snyder man received his appointment to officer training school at Newport, R. I., and he will report there for training Jan. 1 after a 15-day leave in Snyder.

Longbotham entered the Navy Sept. 1 after receiving a bachelor of science degree from Texas Tech. He is a 1948 graduate of Snyder High School and former Snyder Tiger football star.

Drunk Driving Charge Refiled Against Man

A charge of driving while intoxicated was refiled against a Hobbs, N.M., man Wednesday after he had been convicted on a similar charge filed Monday against him under another name. The former charge was dismissed when the latter was filed.

The first charge listed his name as Rex Long, 21 years old. The sheriff's office discovered later that his name was George Henry Brown. He was fined $50 plus $23.50 in court cost on the orignial charge. Credit for this assessment was given on the second charge.

Blind Texas Farmer Writes New Novel of Sex, Spirit

By ROBERT H. JOHNSON JR.

MANSFIELD, Tex., Nov. 29 (AP)—John H. Griffin, a blind farmer who knows as much about medieval music as he does about hogs, has written a novel of sex and the spirit so strong it's the foundation for a new publishing firm.

Griffin's farm lies weather-beaten at the end of a crooked lane that leads out of sight of the road to Mansfield. There he sat alone in a barren room and talked his story into a wire recorder.

In the cold cells of a French monastery as a student of medieval music Griffin lived the experiences he turned into "The Devil Rides Outside."

That was before he lost all of his sight and came home to Texas to prove he can farm as well as a man with eyes.

"The Devil Rides Outside" is the story of a young man's inner struggles between ascetic spirituality and sensual worldliness while studying Gregorian chants in a monastory. It is about as graphic as a book can be.

The book is the first published by Smiths, Inc. The Smiths are a couple of brash Ft. Worth brothers named Gordon and Hulbert, who are challenging the big Eastern publishing houses.

Griffin's book was quite a gauntlet to fling in the Easterners faces. Some critics accused him of overwriting and of wallowing in sensuality, but this is not exactly the kind of criticism likely to hold sales down. The same critics hailed Griffin as a potent and imaginative new writer. Four companies are bidding for reprint rights, five studios are dickering for movie rights and the foreign rights are tentatively sold.

If this sounds improbably, it is because Griffin is an improbable Texan.

Wartime injuries took his sight away in 1947. He is 42, a brown-haired, robust 6-footer about the right size to fit the typical Texas myth.

He went to France to study medicine when he was 16. He started working in sound threapy and discovered musical theory and composition fascinated him more than medicine. He became an expert in the field of Gregorian chants specifically and medieval music generally, living in a monastery to do research.

He joined the French passive defense when Germany attacked. He was betrayed by a German agent, fled to the United States, joined the Army Air Forces and went to the South Pacific. After the fighting died down, the Army allowed him to teach Gregorian chants in The Philippines. When he was discharged, he went to France for more research. He came home when the last 5 per cent of his vision faded out in 1947.

He didn't intend to write a novel. So many people asked him about monastic life he started setting down his experiences. Then he added conflict for fiction. A lot of waste paper and struggle later, he had written "The Devil Rides Outside." He also had converted himself to Catholicism, leaving the Episcopal denomination.

About this time Gordon Smith met Griffin. Smith, who had studied English literature at Southern Methodist and Columbia Universities, wanted to be a book publisher. His brother Hubert, a Ft.Worth lawyer, was willing to go along.

Gordon heard about Griffin's book, read it and figured he was ready to start publishing. "We could never have found a finer book to start with," he says now.

"They tell us in New York this is one of the most fabulous things that's ever hit the publishing business," Hulbert said.

Griffin had never been on a farm until he lost his sight. When he became completely blind in France, he returned to Ft. Worth to learn braille. Then he decided to prove that a blind man can raise penned livestock successfully. He got his 40-acre place near Mansfield, about 18 miles from Ft. Worth. His parents, Mr. and Mrs. John W. Griffin, live with him.

"I was the biggest greenhorn you ever saw," he said. "I just plunged into it."

He started with registered Ohio improved chester hogs. The first time he showed them, he won the first three prizes. His herd grew to 200 head, and everywhere he took his swine they won.

Having proved his point with hogs, he switched to Toulouse geese and quackless ducks. "I'm hoping soon to try cattle," he said.

"I do all the feeding and everything without help, absolutely without help."

Griffin writes and sleeps in what used to be a feed storage room in his barn. It's about the same size—and furnished about the same—as the monastic cells he lived in while studying in France. The room has concrete block walls and a cement floor. It contains a table, a chair, a cot and a foot locker.

He dictates his first draft into a wire recorder. He goes back over the wire, making oral corrections. Then he types his dictation himself, has a reader transcribe it back to wire, corrects the wire, and types it again. He rewrites as he types.

BOOK REVIEW

Historical Novel Tells Of Texas When It Was Republic

DIVINE AVERAGE, by Elithe Hamilton Kirkland. Little, Brown, Boston ($3.50)

Mrs. Kirkland has written "a historical novel on that period of Texas history when 'cow boy' was a phrase with a controversial meaning and 'Texians' a nationality." The blood and the horror of the Indian days are brought with gusto to those of us who never knew them by a Texas author who, no doubt, never knew them either. Nevertheless, Mrs. Kirkland seems to have picked up enough folk lore and authentic details to write a 378-page novel based on the brawling days of the Republic of Texas.

Out of the historic files opened to her, some private, Mrs. Kirkland contrived such unusual characters as the whitehaired but young Silver Bryson who lent his skills and took no profits and the Negro land owners, Chenet, who might well have been a Frenchman. She has managed to present more unorthodox characters than straight ones, including a Dr. Weideman who performed a Caesarean operation on Jennie Dodson, an ex-captive of the Indians.

Due to Mrs. Kirkland's vivid word power, lice crawled on the reader when they crawled on Jennie, and one could almost smell the rotting buckskin clothing she wore. At other times the perfume of the Orleandor was heavy in the air and the blazing sunset almost engulfing. Still she ocassionally resorted to clinches as "Too bright smile."

Mrs. Kirkland's tale is of Luvisa with Spanish blood who married Range who hates anyone other than Caucasians.

Of her book she says "In blending a segment of Walt Whitman philosphy with a segment of Texas history I have tried to portray some of the larger realities touching all mankind." With her far-reaching aims it is natural that the plot is rather weak, but she compensates for it with exceptional strong sub-plots.

Delores Ketchersid

Sales Up Last Week

DALLAS, Nov. 29 (AP)—Department stores sales in five major Texas cities were 14 per cent higher the week ending Nov. 22 than in the corresponding week last year, the Dallas Federal Reserve Bank said today.

Fort Worth sales declined one per cent, but Dallas sales went up 19 per cent, El Paso 7, Houston 16 and San Antonio 14.

WESTERNS IN REAR

Bach And Rosemary Cloony Up In Snyder Record Sales

Snyder music fans are buying more popular and classical music than any other kind now, record dealers report.

Classicals that are being requested often are "Dealth Valley Suite" and "Peer Gynt" both recorded by Grieg on Capitol and Decca, respectively. Stokowsky, a standing favorite, recorded some concertos and called them Stokowsky Conducts Bach which is outselling any other classical album in Snyder.

Rosemary Cloony and Harry James have done two songs in which she forgets the bop and sings sweet and low. "You'll Never Know" starts with an almost blue trumpet, but Rosemary takes over for the last half of the record. "The Continental" on the other side is a rather tame version of the Latin - American hit but makes good music for American dancing.

Johnny Stanley's recording on a Capitol record of "It's in the Book" is still one of the most sought after. This novelty record has held on longer than any precedeing it.

Two seasonal records that didn't have time to make much headway last Christmas are slated for great things this year. Ten-year-old Jimmy Boyd's "I Saw Momma Kissing Santa Claus Last Night" and Gene Autry's "Thirty - two Little Feet and Eight Little Tails" may come close to previous "White Christmas" sales. Both Boyd's and Autry's singing are recorded by Columbia.

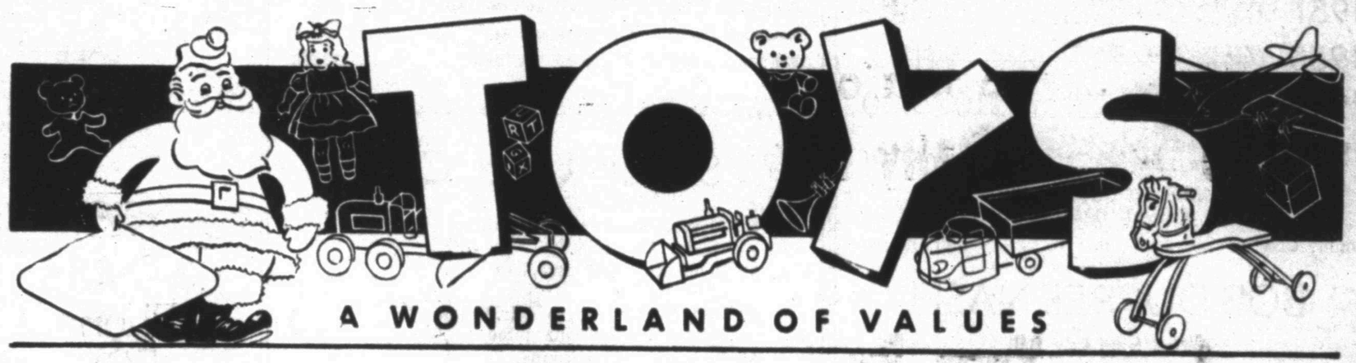

The newest thing out is a 45 rpm long playing record. Two numbers are recorded on each side. They sell for about $1.50.

Snyder's top ten are a little different from the hit parade. "I Went to Your Wedding" with Patti Page is still in the No. 1 position followed by "You Belong to Me" by Jo Stafford. The Mills Brothers' "Glow Worm" is in No. 3 place with "Lady of Spain" by Les Paul and Mary Ford in No. 4.

"High Noon" by Frankie Lane is hanging unto the No. 5 position, and since the movie came to Snyder ,,Because You're Mine" with Mario Lanza has climbed to No. 6. Sim Whitman's "Keep it a Secret" is No. 7 with a sleeper, "Blues in Advance" by Dinah Shore, slipping into No. 8 place. Two Western singers hold the nineth and tenth positions. They are, respectively, Web Pierce's "Backstreet Affair" and Hank Williams "Setting the Woods on Fire."

Children's 3-Piece FURNITURE SET 9.95
This sturdily constructed set with a table and two chairs makes meal-time a pleasure for the children. Made of quality hardwood with all corners rounded for safety. Has beautiful, natural finish. Built for long, hard service. Table top is 16" x 22", 18" high.

Radio Flyer 34" COASTER WAGON 10.19
This big, handsome wagon is a favorite with youngsters. Has 10" wheels with semi-pneumatic tires and Conco wood bearings. Sturdy all-steel body measures 34" x 18½" x 4½". Finished in baked red enamel with grey wheels.

Trilby 3-FACE DOLL 7.95
Trilby is the most life-like doll you've ever seen! Has three facial expressions — laughing, crying, sleeping. Also has lovable and soft, live-to-the-touch body. Beautifully dressed in organdy and lace. 20" tall.

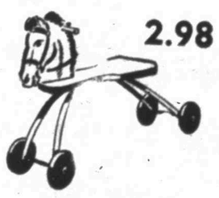

2.98 Pan American CLIPPER PLANE
Here's a playtime beauty—an all steel model of the Pan American Clipper. Four propellers spin.

16.50 Bouncing SPRING HORSE
A 29" high bronco mounted on springs for lively riding. Strong plastic body.

1.19 U. S. ARMY PLANE
Youngsters have hours of fun with this sturdy steel bomber. Has spring motor with key attached. Propellers spin. 18¼" wingspread.

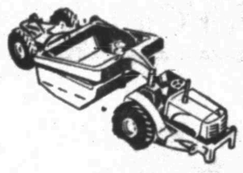

Murray Pedal Drive TRACTOR 20.50
Children never tire of playing with this handsome tractor. Sturdy all-steel construction takes years of hard use. Features tractor-type hood with gear shift lever and semi-pneumatic rear tires with tractor tread. Frame is made of 1¼" tubular steel. Spring-type seat is adjustable in height. Wheels mounted on ball bearings for easy rolling. 27½" high.

Back-Firing MODEL T FORD 2.98
Here's a comical pull-toy with roll-cap device inside for making a backfire sound.

2.98 "Merry Bronc" WHEEL HORSE
A safe, sturdy wheel-toy for toddlers. Solid 3" rubber wheels can't mar floors. All-steel frame.

Kiddies' RECORD PLAYER 10.95
Children love this sturdy plastic record player. It plays real records up to 10".

DOLL-E CRIB 9.95
Miniature version of a regular baby crib — nearly 2 feet high. Sturdy all-steel construction with drop side and steel link springs.

Doepke ROAD GRADER 16.95
This scale model road grader really works! Scraper blade turns. All steel, 26" long.

3 Cuddly PLUSH ANIMALS 2.98 Each
Cute as a button and soft-stuffed for plenty of loving. Made of rayon plush with sewed-in eyes and embroidered noses. Have ribbon bows at the neck.

Harlen A. Weaver assistant district manager of a brewing company in Albany, N. Y., draws a glass of beer from a tap on the dash board of his automobile. Weaver says he installed the works recently "just as a gag" and is taking it out. A plastic line connects the tap with a quarter keg of beer in the car's trunk. Pressure is supplied by a tire hand-pump. Weaver says no refrigerant is needed in this weather.

Skull 8,500 Years Old Is Found In Israel

JERUSALEM (AP) — A human skull about 8,500 years old and the remains of a necklace made of small seashells have been found at Sha'ar Hagolan in the Jordan Valley by Israel Exploration Society excavators under the direction of Dr. Moshe Stekelis of the Hebrew University.

Sha'ar Hagolan is a collective settlement (kibbutz) on the banks of the Yarmuk River near the point where Syria and Jordan meet on Israel's eastern frontier.

It was here two years ago that Dr. Stekelis uncovered the remains of a stone age culture which he named the Yarmukian civilization. The skull was found early this month near an open hearth. The remains of a fire used by this Neolithic man were still visible.

Each of the seashells that made up the Yarmukian necklace had a tiny hole bored in its apex for stringing. The shells are identical with those found on the shore of the Mediterranean today.

Dr. Stekelis is completing a short excavation season in which he has determined the stratification of this site as divided between the Early and Middle Bronze Ages and the Neolithic period. At the upper level he found a courtyard surrounded by chambers with a good deal of pottery typical of the Early and Middle Bronze Ages. The Neolithic fireplace was found five feet deeper, surrounded by the bones of gazelle-like animals.

Several hundred small sharp-pointed flints were found in one spot. This large concentration of tools, which were either arrow heads or small boring instruments, indicate a specialization of skills. One family would have used only a few flint spears, arrows and other such tools.

The new finds will considerably enrich Sha'ar Hagolan's prehistoric museum which already contains, in what originally was a bomb shelter, one of the largest collections of stone ace tools, flints and primitive stone carvings in any museum anywhere.

Laughs Show What You Are Interested In

NEW YORK (AP)—Did you ever wonder what makes you laugh at a cartoon or a comic strip while somebody else looks blank?

Kenneth Bird will tell you it's partly the kind of character you are. Bird should know. He is editor of one of the world's most famous humor magazines — Britain's Punch. He is also known to its readers for the drawings signed Fougasse.

"If you laugh at a good timely or humorous drawing or strip, you are one of those who have an intense interest in your fellow man and an affection for him," he said on a recent visit here. "You are able to put yourself in his place. You laugh with him, not at him. In other words, you're interested in the man next door.

"One can learn more about a person and about the people of any country by studying what they laugh at than by studying their politics. You can judge whether they are domestic, whether they are cruel or kind. The subjects they treat in their humor are the subjects closest to their hearts."

But your character is not the only thing that determines what you laugh at. The times and the place you live in have a lot to do with it too.

"Radio and the talkies had a tremendous effect on humor," Bird says. "Twenty-five years ago people got all their amusement from the printed word. Illustrations were detailed and captions were long. Papa used to read it out to the family. If they didn't catch it the first time, they could go back over it till they did.

"With the radio and talkies, everything became streamlined. You soak up impressions quickly. Humor must make its point on the wing. In time this had a terrific effect on humorous drawings. Contrast those of 25 years ago with James Thurber's barking seal and you will see what I mean."

CHRISTMAS EXTRA VALUE DAY Gift Buys
