Man Kills Wife, Then Self Here Wednesday

A Snyder man walked into his home and shot his wife five times and himself once, killing both, while the couple's three children and the woman's sister watched at about 5:15 o'clock yesterday afternoon.

Dead are Fred M. Martin, 41, and his wife, Eva Frances Martin, 36. The murder and suicide occurred in the family's residence at 1307 Twenty-sixth Street.

In the house at the time the shooting started were the couples' children, Truman Fred Martin, 14, Frances Helen Martin, 13, and Robert D. Martin, 9, and Mrs. Martin's sister, Mrs. A. B. Canady.

W. C. Davidson, justice of peace and coroner in the case, issued a coroner's verdict of murder and suicide at about 8 o'clock last night after a three-hour investigation by local officers.

T. L. Steele, police chief, said that the witnesses stated that Mrs. Martin was putting groceries on a shelf in the kitchen and that Martin walked into the front room of the house and shot Mrs. Martin in the back — shooting between the others in the room and through the kitchen door.

Steele said that later examination of the bodies disclosed that Mrs. Martin had been shot five times, two of the .32 caliber revolver bullets entering her back and three in the front and side of her body. Martin then shot himself once in the heart.

Powder burns on Martin's blue-gray work shirt indicated that he held the gun near or against his chest when he killed himself.

Mrs. Martin was employed as a part-time grocery checker for a grocery store here, and Martin was employed as a mechanic by a trucking firm.

The oldest daughter was in the kitchen when the shooting started, and the other three witnesses were in the living room.

"They ran from the house after three shots had been fired," Steele said.

The shooting was investigated by the city police department, County Sheriff Earl Abercrombie, Highway Patrolman Arthur Dyson, County Attorney George R. Killam, Dr. Robert Pierce, county medical officer, and W. C. Davidson, coroner.

The couple had been separated for several months, and Martin had returned to the home yesterday afternoon to visit the children, officers said.

His address was listed as 524 Pine Street, Colorado City.

Mrs. Canady, who lives several blocks away, was visiting her sister and family when the shooting occurred.

Mrs. Martin was born in Callahan County, May 11, 1921, and Martin was born in Scurry County May 24, 1916. He had lived in and around Snyder most of his life, except for time spent in the Navy during World War II, police said.

The bodies were taken to Bell Funeral Home here where funeral arrangements are pending.

Martin's survivors are the three children; four sisters, Mrs. Jim Farr of Hermleigh, Mrs. Dalton Lightfoot of Colorado City, Mrs. Carl Pieper of Odessa and Mrs. Jack Flake of Levelland; four brothers, C. R. (Bob) Martin of Colorado City, Elbert Martin of Muleshoe, Cecil Martin of Florida, and Burks Martin of Brooklyn, N.Y., and his mother, Mrs. Charlie B. Martin of Colorado City.

Mrs. Martin is survived by the three children; her father, R. G. (Bob) Smith of Snyder; two sisters Mrs. Canady and Mrs. Gene Loven, both of Snyder; and three brothers, H. R. Smith of Midland, Burley Smith of Greenville, Miss., and Darrell Smith of Crane.

She was a member of the Bethel Baptist Church.

GI WHO TOOK FRENCH LEAVE—Wayne Powers, 37-year-old Missouri soldier facing wartime desertion charges, is shown at U. S. army camp in Verdum, France, after his arrest in the French town of St. Quentin. Powers, from Chillicothe, Mo., disappeared from his unit in 1944 and has been sheltered by Yvet Belouse, the Frenchwoman who is the mother of the couple's five children. Thousands of western Europeans have written letters asking clemency for Powers. (AP Wirephoto via radio from Paris)

President Submits His Unified Command Plan

WASHINGTON (AP) — President Eisenhower today sent Congress a six-point Pentagon reorganization plan. He said it would give the secretary of defense authority for truly unified military operations.

In a 7,000-word special message Eisenhower said: "We must remove all doubts as to the full authority of the secretary of defense."

Eisenhower said that separate ground, sea and air warfare is gone forever.

He proposed that the Joint Chiefs of Staff be continued, but said that in the future they should serve as a staff assisting the secretary of defense in his exercise of direction over unified commands.

"Strategic and tactical planning must be completely unified, combat forces organized into unified commands, each equipped with the most efficient weapons system that science can develop, singly led and prepared to fight as one regardless of service," the message said.

Even before the message reached Congress, there had been doubts voiced by some influential legislators as to whether the secretary of defense should have greatly increased power.

Eisenhower's program would strip the civilian heads of the Army, Navy and Air Force of direct authority over military operations. In effect, they would be left as merely executive agents.

Eisenhower also proposed—despite opposition in Congress—that in the future all appropriations for the three services be earmarked for handling by the secretary of defense, instead of being channeled by Congress to the three services.

Eisenhower suggested that procedure go into effect July 1, 1959.

The message set forth these main points:

1. "We must organize our fighting forces into operational commands that are truly unified, each assigned a mission in full accord with our over-all military objectives."

2. "We must clear command channels so that orders will proceed directly to unified commands from the commander in chief and the secretary of defense."

3. "We must strengthen the military staff in the office of the secretary of defense in order to provide the commander in chief and the secretary with the professional assistance they need for strategic planning and for operational direction of unified commands."

It was under this point that Eisenhower said that in the future the Joint Chiefs of Staff would have the role of assisting the secretary of defense in his direction over unified command.

A presidential aide, Bryce Harlow, said in reply to questions at a news conference that this is not a move toward creation of a general staff such as that in the old German military establishment.

4. "We must continue the three military departments as agencies within the Department of Defense to administer a wide range of functions."

But, Eisenhower added, under the new plan the civilian heads of the three services will be relieved of direct responsibility for military operations.

5. "We must reorganize the research and development functions of the department in order to make the best use of our scientific and technological resources."

6. "We must remove all doubts as to the full authority of the secretary of defense."

Eisenhower said the authority of the secretary of defense has been circumscribed and hedged about in a number of ways which not only make the burdens of his office far heavier than they need to be, but also work against the efficient and effective direction of national security activities.

Batista Issues New Decrees

HAVANA, Cuba (AP)—President Fulgencio Batista's government today authorized workers to kill if necessary to stay on their jobs when rebel leader Fidel Castro issues his long-threatened call for a general strike.

The order—one of three of the harshest decrees in the history of the Cuban republic—was issued by Batista and his Cabinet after an all-night meeting.

A second decree barred any judge from issuing a ruling against a government official or agency or against any government or legal opposition leader. Judges who failed to obey would be immediately dismissed.

The third order said any employer who ordered a work stoppage of any kind could be jailed up to six months.

All government ministers were authorized to issue licenses to bear arms to Cuba's 160,000 public employes and all other workers. The decree absolved workers of criminal responsibility for any steps they thought necessary—including killing—to prevent being forced into joining a strike.

The government also decreed that anyone joining a general strike would lose his job permanently. When this penalty was first applied in 1935 it quickly broke a general strike.

Despite solid support of labor union leaders for Batista, Castro claims that workers are secretly organized to follow him. He has threatened that if his rebellion succeeds, he will try for treason any officials who keep working after his strike call is issued.

Two columns of Castro's rebels were reported moving toward Santiago, attacking communications as they advanced.

A rebel communique said one column of guerreillas was approaching Santiago, Cuba's second largest city and the capital of the easternmost province of Oriente, from Castro's mountain headquarters to the west in the Sierra Maestra.

Another force led by Castro's brother Raul destroyed communications around the sugar mill city of Sagua de Tanamo and apparently moved on toward Santiago, 50 miles to the southwest. In contrast to the small bands which previously had swept down from the mountains, the rebels claimed 1,000 persons were in this column.

Both columns shot up and wrecked motor and rail transport as they advanced.

Rebels Slate Counter Blow In Indonesia

SINGAPORE (AP) — The rebel Padang radio said today the revolutionary government has ordered a large-scale counteroffensive against Jakarta forces.

Rebel Defense Minister Burhanudin Harahap issued orders for recapture of all territories recently occupied by "Sukarno's bandits," the radio in Central Sumatra said.

The radio quoted Harahap: "We have first-hand information from rebel sources in Jakarta that there is great dissension among Sukarno's troops, not only in Sumatra but also in Jakarta, Java and other outer islands. We know prorebel troops now under the Jakarta command stationed in West Java are only waiting for instructions to stage a rebellion there.

An estimated force of 3,000 Jakarta troops in Central Sumatra. The vanguard captured the American Caltex oil fields at Pakanbaru with parachutists March 12, and has pushed eastward to within 70 air miles of the revolutionary mountain capital of Bukittinggi.

In North Sumatra, Jakarta troops have advanced southwest from Medan to Parapat in the rebel province of Tapanuli.

Jakarta claimed yesterday it had taken two towns, Palu and Donggala, at the base of the rebel peninsula of North Celebes.

1 Killed, 13 Hurt In Wichita Falls Storm

WICHITA FALLS (AP)—Tornadoes poking three deadly funnels into this Northwest Texas city and its suburbs killed one man and caused damage estimated at $750,000 late yesterday.

Hospitals listed 13 injured in this vicinity; and at least one suffered serious injury near Stoneburg, where a separate twister struck about the same time. It is about 10 miles southeast of Wichita Falls.

Two men reported missing in Wichita Falls turned up unharmed.

Wiley Taylor, 55, a dairy farmer, was killed in Deandale 8 miles east of here. His home collapsed, leaving only the walls.

The damage was estimated by George Clevenger, director of the Red Cross Chapter here. He said the twisters wrecked or damaged 175 homes and business places here.

Southeast at Stoneburg, 8 miles north of Bowie, there were unofficial estimates of $75,000 to $100,000 damage. At least 8 homes were unroofed, 15 farm buildings were destroyed and 15 to 20 were damaged.

Communications still were crippled in that area, where hail as large as baseballs in some places added to the loss.

In Wichita Falls, sirens wailed a warning that was largely ignored.

Hundreds stood in the streets amid torrential rain and hail to watch the writhing funnels approach. Many waited until the twisters almost were upon them before diving for shelter.

One funnel struck from the northwest, counter to the path generally taken by tornadoes, and narrowly missed the downtown area. A second hit a residential area west of the city and the third struck suburban Deandale, eight miles to the east.

At the same time, twisters dipped around north Texas and set off alarms at a number of towns. There was some damage, but no injuries. Much of Texas and Oklahoma was under a tornado alert during the day.

Bill Hunter, Wichita Falls Record-News reporter, said of the downtown funnel: "It looked like a curtain had been lowered to just below the horizon.

"Then the funnel poked through the clouds. It was dark, dusky colored, charcoal black," he said.

A storm described as a tornado struck the southwestern Oklahoma community of Elgin, causing widespread damage. One man was bruised by the heavy hail.

Another tornado reportedly damaged a farm near Cement, Okla., and slightly injured a woman.

Wiley Taylor, 55, a dairy farmer, was killed when his Deandale home collapsed around him.

4 Persons Die In California Floods

SAN FRANCISCO (AP) — Gov. Goodwin J. Knight declared California a disaster area today as rains and snow stranded trains, marooned 200 in the Sierra Nevada and sent rivers flooding over their banks.

Four persons died — two by drowning and two others in accidents attributed to the storm.

The Southern Pacific Railroad's streamlined City of San Francisco with 97 persons aboard was stranded in a snowshed near Donner Summit in the Sierra 165 miles northeast of San Francisco.

Two avalanches of snow buried a 22-car mail train on the track ahead, stalling the crack westbound passenger train which followed. All 25 on the mail train got out but two trainmen were injured.

The "City" en route from Chicago to San Francisco, was hung up just three miles from where it was stalled in snow for days in 1952.

Some 200 persons were stranded in the mountain chain that runs along the state's western boundary — 150 of them at Donner Summit Lodge. Many of them were skiers.

The governor alerted National Guardsmen in Santa Clara County, south of San Francisco, and at Stockton in the Central Valley, where flood dangers threatened.

Only light rains were forecast for today, lessening the flood threat somewhat, although the ground over much of California remained perilously soggy.

Rotary snowplows battled to keep open one lane of the only remaining east-west highway link across the Sierra, U.S. 40 State highway employes said that if they failed, it would take days to reopen the road.

A three-foot wall of water washed through Pleasant Hill 20 miles east of Oakland, but receded a short time later. The water flooded nearby Gregory Gardens, Sherman Acres and Garthwick, all subdivisions.

The overflow from Walnut Creek inundated homes and businesses near Oakland.

Cemented sandbags along San Francisquito Creek at Palo Alto, south of San Francisco, held up although battered by debris and log-laden waters.

Some 150 persons were evacuated to a Red Cross shelter station near Gilroy, 65 miles southeast of San Francisco, when Carnadero Creek sent water two feet deep over a wide area.

New England Battered By Northeaster

BOSTON, Mass. — Coastal New England counted its damage losses in the millions and kept a wary eye on the Atlantic which was expected to flood beachfronts and pound over sea walls again today.

In a special bulletin, the Weather Bureau said tides would run from one to three feet above normal from Portland, Maine, to Nantucket, Mass. and that rough seas and pounding surf would continue.

Winds, which yesterday reached more than 60 miles an hour onshore and up to hurricane force over 75 miles an hour offshore, diminished. The storm center moved seaward.

The forecast was for intermittent rain in the south portions and some snow in the north and in the higher elevations.

The northeast storm yesterday churned the Atlantic into a fury.

Tides and crashing surf flooded coastal communities in Massachusetts and Maine, marooned hundreds of persons, undermined scores of cottages and business establishments, washed out roads and spewed debris, sand and boulders onto highways.

There was rain in southern New England and wet snow, up to 12 inches deep, in Maine.

The storm is the 18th to hit New England since December, and considered by many the worst spring storm in some 21 years.

Texas Skies Mostly Clear

By The Associated Press

Skies were clear over the state Thursday morning except along the coast and in extreme East and South Texas. Scattered thundershowers were forecast for East and South Central Texas.

The heaviest rainfall reported to the Weather Bureau Wednesday was .60 of an inch at Wichita Falls. Much heavier amounts probably fell in scattered rural areas where there are no official rain gauges.

Other rain totals recorded to 6 a.m. Thursday were Palacios .06 of an inch, San Antonio .03, Austin .02, and Sherman, Beaumont and Houston .01. Light drizzle fell early Thursday at Houston, Palacios, Laredo and Cotulla.

Temperatures ranged Wednesday from 68 degrees at Galveston and El Paso to 89 at Presidio. Overnight lows ranged from 38 degrees at Dalhart to 68 at Corpus Christi.

Three Full Bags Of Mail For Elvis

FT. HOOD —Co. A of the 2nd Armored Division has assigned an additional man to handle incoming mail.

Three full bags of mail arrived yesterday, all with letters for Pvt. Elvis Presley.

The rock 'n' roll king, who arrived at Ft. Hood Friday, is undergoing basic training with Co. A.

Space Work Can Transfer Easily

WASHINGTON (AP) — Non-military space projects can be transferred quickly to the new civilian agency proposed by President Eisenhower once the organization is set up, Secretary of Defense McElroy said today.

McElroy, testifying on the military's measures to meet problems of the missile-space age, told a watchdog Senate Defense subcommittee the services will go ahead with four or five scout-rocket shots to or near the moon wich the White House has authorized. The job is being directed by the Advanced Research Projects Agency which McElroy set up in the Defense Department.

But the defense secretary quickly added that as soon as the new Aeronautics and Space Agency proposed to Congress yesterday by the President is in operation, it will take over non-military projects.

"If it is decided to handle space matters in a different organizational fashion the transfer of purely scientific projects can be accomplished expeditiously," he added.

Congressional spokesmen gave general approval today to the presidential proposal, but some wondered if the Atomic Energy Commission would get as prominent a place in the set-up as they would like to see.

There have been suggestions that space development work should be turned over to the AEC on the theory that nuclear engines are likely to power far-traveling rockets of the future.

Eisenhower made no direct mention of the AEC in proposing to Congress the establishment of a new National Aeronautics and Space Agency to develop "an imaginative and well-conceived space program."

"That is the explosive angle," said Sen. Mundt (R-SD), a member of the newly created Special Senate Committee on Space and Astronautics.

Four members of the Senate space group—senators Anderson (D-NM), Bricker (R-Ohio), Hickenlooper (R-Iowa) and Russell (D-Ga)—also serve on the Senate-House Atomic Energy Committee.

"I believe there is a place for consideration of atomic propulsion in our space program," Hickenlooper said in an interview. "I'm studying the presidential space message now."

Sen. Saltonstall (R-Mass) said he expects efforts will be made to give the Atomic Energy Commission an important place in the new program, adding: "There are certain to be differences of opinion. It will be interesting to hear them."

Eisenhower said details of his program will be sent to Congress later.

Eisenhower picked the existing National Advisory Committee for Aeronautics as the foundation for the proposed aeronautics and space agency.

He proposed a civilian director, backed by a board of scientists, technicians and experts, to operate the new unit.

At least one board member would be from the Defense Department, and existing space and satellite programs under military direction would continue until the new agency was ready to take over.

Dallas Iron Workers Back On Their Jobs

DALLAS — About 500 iron workers went back to major construction jobs today after settling a two-day strike.

An official of the Iron Workers Union said the agreement raised wages 12½ cents an hour.

WEATHER

SNYDER TEMPERATURES: High Wednesday, 82 degrees; low, 51 degrees, reading at 7:30 a.m. today, 52 degrees.

East Texas — Widely scattered thundershowers near coast; otherwise partly cloudy and mild through Friday.

South Central Texas — Widely scattered thundershowers in south this afternoon and tonight and in west and south Friday. Otherwise partly cloudy. Mild temperatures.

North Central Texas — Clear to partly cloudy through Friday. Cooler tonight.

West Texas — Partly cloudy through Friday. Widely scattered thunderstorms late Friday or Friday night. No important temperature changes.

Compromise Road Building Measure Approved By House

WASHINGTON (AP)—The House passed and sent to the Senate today a compromise $1,800,000,000 anti-recession highway construction bill.

The Senate seemed likely to approve the measure promptly and send it to the White House before Congress starts a 10-day Easter recess, later today.

House passage was by roll call vote.

Previously the House defeated 222-109 an attempt to send the bill back to a Senate-House conference committee for further consideration.

Major difference between the original Senate and House versions was inclusion by the Senate of a provision intended to curb erection of billboards along interstate highways. This provision was retained in the compromise.

House rejection of the compromise would have precluded further action on the measure until April 14, when the congressional Easter recess starting later today ends.

Senate passage was considered certain, because the conferees on Tuesday largely accepted the Senate provisions.

Eisenhower signed the session's first antirecession bill, a $1,850,000,000 housing measure, Tuesday.

Highway bill opposition in the House appeared to center on the provision for regulation of billboards along the 41,000-mile network of expressways now being built — the interstate system.

One House member told a reporter, "I've never seen any lobbying like this since the Volstead Act. On one side you have the garden clubs, on the other the outdoor advertising industry."

The billboard provision would give incentives to the states to control advertising signs along the interstate system. For signing agreements to regulate billboards, they would be paid a bonus of one half of 1 per cent of the cost of the interstate segment covered by the agreement. This would be in addition to the 90 per cent of the cost already borne by the federal government.

DOT Session Set May 31

AUSTIN (AP)—The annual statewide meeting of the Democrats of Texas was set today for May 31 in Austin.

"About 3,000 Democrats are expected to attend the meeting," said Mrs. R. D. Randolph, DOT chairman.

She said Judge James Sewell of Corsicana, former chairman of the Democratic Advisory Council, and Sen. Ralph Yarborough would speak.

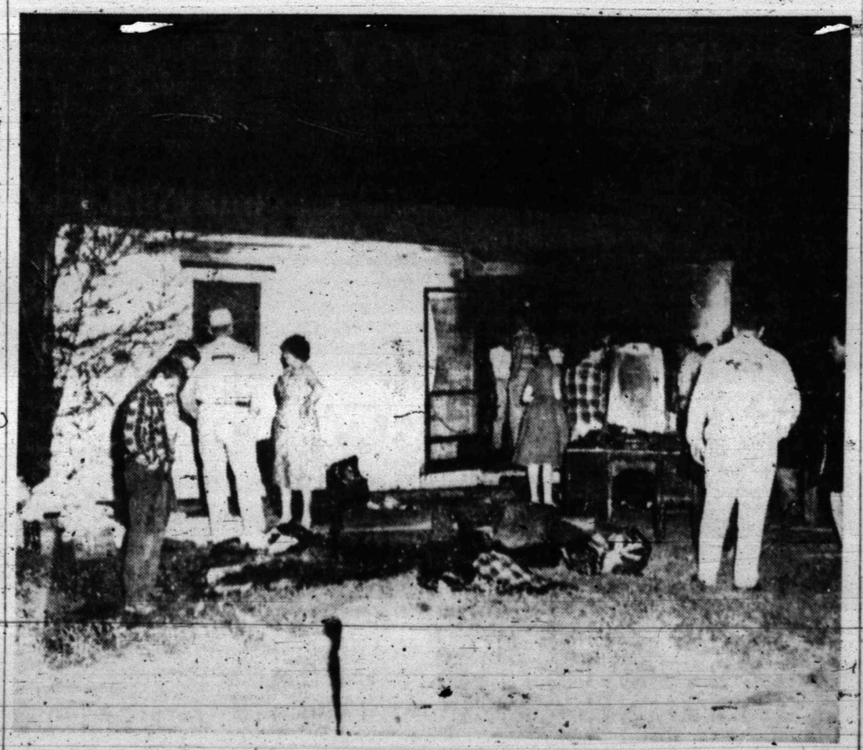

"Democrats are on the march in Texas," Mrs. Randolph said. "The response which the Democrats of Texas organization has received in its first year has been most gratifying. The 1,500 Democrats who participated in the organization meeting in Austin on May 18, 1957, started a real grass roots Democratic movement in Texas."

Lubbock Man Shoots Wife, Then Self

LUBBOCK (AP)—Dorse Gillett, 38, walked into a cleaning establishment where his estranged wife worked today, shot her in the heart and then killed himself.

Peace Justice F. R. Land ruled murder and suicide.

Gillett had been under a Feb. 15 court order restraining him from communicating with his wife, who had sued for divorce.

FIRE DAMAGES RESIDENCE—The residence of Mr. and Mrs. Clarence Wright, 1206 Nineteenth Street, was severely damaged by fire at about 9:30 o'clock last night, and their furniture, clothing and personal belongings were either destroyed or badly damaged. The two-room house is owned by T. R. Young. D. A. Porter, fire chief, said the couple were not at home when the fire started. (Lee Watson photograph)

WINS NEW PLYMOUTH—H. B. Lane, third from left, is shown above receiving the keys to a 1958 Plymouth car he won yesterday in a drawing from Claude McCormick. The car was given away by McCormick & Sons Oil Co. and the Phillips 66 Service Stations of Snyder. Pictured from left are Jerry Rose, operator of the Rose Phillips 66 Service, McCormick, Lane, Rex Fields, operator of Fields Phillips 66 Service, Max Stevens, operator of the Phillips 66 Superstation on the East Highway, Bill Ferguson, operator of the Phillips 66 Quickservice on Avenue S, and Steve Birdwell, operator of Birdwell's Phillips 66 Downtown Service. Lane lives in the Sunray Gasoline Plant camp. The drawing was held at 11 o'clock yesterday morning at the McCormick warehouse at Avenue Q and Twenty-fourth Street, with Edgar Taylor, county judge, drawing the winning ticket. (Lee Watson photograph).

Free Food Lines Getting Longer

By ED OVERHOLSER

AUSTIN (AP)—Free food lines in Texas gradually are getting longer with more than an eighth of a million people getting butter, cheese, flour and other foods.

The Department of Public Welfare, which supervises the federal surplus food program for the unemployed, said today 58 counties are passing out these foods.

"There has been no sharp trend upward," said W. E. Moore, assistant director of the Division of Commodity Distribution. He said 13 counties had been added to the list in 6 months and 139,271 persons now are getting this type aid.

"This is pretty normal for this time of year but there has been some deviation of late with increased participation," Moore said.

Most counties have been getting surplus food for distribution for several years because of the intense drought which affected thousands of farmers and ranchers. Recently the upswing in unemployment has added to the rolls.

Many get unemployment pay as well but are certified as eligible for the free food under standards set by the county judge and county commissioners or their selected representative. There are other broad requirements, such as an individual may not get more than $60 a month to be eligible.

A typical family of five with a jobless breadwinner would be given this food for one month: 10 pounds of butter, 12½ pounds of cheese, 22½ pounds of powdered milk, 15 pounds of rice, 25 pounds of cornmeal, 30 pounds of flour and when available, 20 pounds of dry beans.

Some of these countries have been with us a long time. Most have been on since early in the 1950s," said Moore. "They are centered in two spots: In West Texas around the Lubbock area which was due to the drought conditions, and in South Texas."

He said "widespread unemployment" in the Houston, Laredo and Beaumont-Orange areas recently had increased the rolls.

Under the program, an unemployed worker may determine his eligibility by applying to the county judge or commissioners. They set the standards, receive the food, make the distribution and set up records, Moore said.

These counties have been added recently: Eastland, San Patricio, Webb, Harris, Foard, Hale, Hockley, Shelby, Camp, Red River, Upshur, LaSalle, Wilbarger and the town of Hughes Springs.

If a county is participating a city may not make application but otherwise a city may handle the program within its city limits.

In Houston this week food was distributed to eligible unemployed workers for the first time since the 1930s. The distribution was expected to continue at least through April. Welfare authorities applied for commodities for 1,500 and said they would have to make more applications.

Village Has No Election In 3 Years

HARRIETTA, Mich. (AP) — This farming village of 200 hasn't had an election in three years. Village Clerk George Lipar says "The Council felt they'd get elected anyway, so why waste the money?"

Under state law a village election should be held annually the first Monday in March.

"What's the use? The same old bunch is always re-elected," said Councilman Louis Lipar, 70-year-old dairy farmer and father of the village clerk. "If anyone wanted an election they could sure get one—if we had the money."

Disuse of the village's franchise came to the attention of state election officials when a resident complained. Wexford County Prosecutor James Herring said he would seek a court order for a special election.

The elder Lipar said the last time a village election was held was in 1955.

"Nobody wanted the election then, but we hadn't had one in three years and we just held one," he explained. "Didn't get much response—only 20 persons cast ballots."

Harietta has 55 eligible voters.

Lipar said all the village officials have been in office 20 years or more and the feeling is that everybody here is happy with the way things are run.

"Besides," he said, "it costs $200 to hold an election. That is more than our $158 general fund budget."

The only two paid officials are the clerk and treasurer. Each gets $75 a year.

National and state elections present no problems as they are paid for by the state.

A new salt source are pools of Pacific sea water trapped behind high sand barriers on Mexican West Coast beaches. Sun and wind evaporate the water, leaving a harvest of salt.

TODAY'S MARKETS

FORT WORTH (AP)—Hogs 300, steady to 25 lower; choice 210-220 lbs 20.00-21.50.

Cattle 600; calves 100; weak to 50 cents more lower; good and choice steers, heifers 25.00-28.50; commoner 17.00-24.00; beef cows 12.00-15.75; good and choice fat calves 23.00-28.00; 18.00-23.00; stock steer calves 18.00-28.00.

Sheep 1,000; steady; good and choice spring lambs 23.50-24.50; shorn 21.00 down; shorn ewes 10.25; spring feeder lambs 18.00-19.00.

Weather Sets March Record

AUSTIN (AP)—Last month was the coldest March since 1915 for Abilene, Amarillo, Dallas, Fort Worth and Lubbock, state climatologist Richard Blood said today.

It was the coldest March on record for Wichita Falls.

Rainfall was below normal in the Rio Grande Valley, the Coastal Bend and upper coastal areas.

Elsewhere over the state showers kept farmers out of their fields and delayed planting. Dallas had the second wettest month on record.

The March rainfall totals, their departure from normal, the total rain this year, and the total departure from normal included:

Abilene 1.37 inches, .25 above normal, 4.39 inches for the year, 1.48 above normal; Amarillo 2.36, 1.32 above, 3.99 total, 1.69 above; Brownsville .84, .27 below, 15.07 total, 11.35 above; Dallas 7.13, 4.32 above, 10.01 total, 2.11 above; Galveston .95, 2.15 below, 6.11, 3.96 below.

Forgery Suspect Is Returned Here

Calvin Boone of Lamesa was brought to Snyder last night by Sheriff Earl Abercrombie and is awaiting trial on four indictments of forgery here.

Boone yesterday was given a four-year penitentiary sentence at Lamesa for forgery.

He is wanted on similar charges at Abilene and in California.

Aaron Burr, once accused but acquitted as a traitor, was a native of Newark, N. J.

20-Year Counsel For TEC Is Fired

AUSTIN (AP)—Lack of confidence in 20-year career man Lee Williams was the only reason the Texas Employment Commission gave yesterday in firing him as its legal counsel.

Out-voted Commissioner Robert Newman charged "these ruthless tactics" were a "perfect demonstration of the stab-in-the-back techniques I spoke of a few days ago."

Williams said he was fired after 30 minutes notice when he was given the opportunity to either resign or get ousted.

Commission Chairman Perry Brown made the motion and would not elaborate on its wording. He was supported by Maurice Acers.

"Col. Brown said the relation between the counsel and the commissioners had to be one of confidence and respect," Williams said. "He told me, 'I have no confidence in you.' I said I was sorry. He said 'I have no confidence in you.' I said I was sorry. He said 'I am now offering you an opportunity to resign.'

"I told him I've been in this work for 20 years and that I couldn't possibly resign," Williams told The Associated Press. "I asked him to give me a written statement regarding the reasons for firing me. I said I wanted to ask for a hearing before the Merit System Council. He said 'You won't be entitled to that sort of hearing. We have acted to exempt your postion.'"

Brown said he had nothing to say about the matter but read his motion from the Commission's minutes.

It quoted Brown as saying the commission "has had a great lack of confidence" in Williams as its lawyer and that "after a period of observation I believe that the Texas Employment Commission definitely needs a general counsel in whom it can have complete confidence."

Newman, who represents labor, called the action by Acers and Brown a "clever trick."

Williams has written legal opinions for Newman, who has often dissented from majority opinions by Brown, the public's representative, and Acers, who represents employers.

Athens Police Force Fired

ATHENS, Tex. (AP)—The new City Commission fired the entire seven-man police force yesterday.

The Commission, elected Tuesday on a platform of "fire the police," gave the officers a chance to resign. They refused and the Commission fired them.

Mayor Ralph Hallum said a new force probably will be named today. He headed a ticket which won with 752 votes, replacing the ticket headed by former Mayor Arthur Hawn, who got 35 votes.

The outgoing police force consists of Chief John Flatt, Asst. Chief Eddie Yates, Miss Jessie Sweeten, Alvin Pirtle, Charles Morrow, Jim Fulton and Raymond Rusk.

The Hallum ticket contended the ousted officers were too strict in enforcing the law.

The officers were hired by the outgoing regime after the resignation several months ago of the former force. That force quit when Miss Sweeten, daughter of former Sheriff Jess Sweeten, was hired as a policewoman.

Alabama School Act Gets Its First Test

BIRMINGHAM (AP) — The first court test of Alabama's 1955 School Placement Act went before a special three-judge panel today.

Parents of four Negro children petitioned the court to declare the placement law unconstitutional. They also are seeking to enjoin the Birmingham Board of Education from enforcing it.

The law confers broad powers on school boards in the assignment of pupils. It was passed to preserve segregation in Alabama's schools.

The suit is the first major effort on the part of Negroes to break the racial barrier in Alabama schools below the college level.

More Cotton Land Sought

HOUSTON (AP)—The Houston Cotton Exchange and Board of Trade has asked Rep. Albert Thomas (D-Tex.) to help amend current federal regulations which restrict cotton acreage.

Easing of the restrictions, the group said, would imply some reasonable concession in the price support level.

"But we believe the cotton growers will be better off with more acreage at a somewhat lower price and we know the general economy of our district, Texas and the country will be better off," group said.

It said restrictions have reduced cotton acreage in Texas and Oklahoma from 23 million acres in 1925 to seven million this year, and that additional cuts can be expected next year unless the law is changed.

Cellars Get Credit For Saving Lives

BOWIE, Tex. (AP) — Rural residents in Stoneburg, 8 miles north of here, said storm cellars prevented the loss of life in a tornado last night.

One man was injured. Property damage was heavy.

The loss was estimated unofficially today by residents at $75,000 to $100,000.

Tom Strawhorn suffered undetermined injuries at his ranch home, where the house was heavily damaged and outbuildings were destroyed.

Reports reaching here over crippled communications — telephone service still was out in the vicinity — listed at least 15 buildings destroyed and 15 to 20 damaged by twisters and hail up to the size of a baseball.

Eight homes were unroofed. Five small cabins on Lake Bowie were razed and eight others were damaged.

One-half mile of the rural electric power line extending southward from stoneburg was ripped out, leaving the area without lights all night.

Many persons told H. T. Trout, Bowie newsman, that an alert sending them to storm cellars saved their lives.

Oil Tests In Panama Asked

PANAMA (AP)—A petition asking for rights to explore for oil and minerals in the Panama Canal Zone has put Panama's government on the spot.

The petition, filed last Saturday at the Department of Mines by a member of the opposition Liberal party, apparently will force the Panamanian government to take some sort of stand on the touchy issue of sovereignty over the Canal Zone.

The Canal Zone treaties between rights in the 10-mile-wide strip the United States and Panama say nothing about the subsoil across the narrow Isthmus of Panamama. Panama maintains that U.S. rights are restricted to those necessary for construction, operation, maintenance, defense and sanitation of the canal.

A spokesman for the Liberals said that denial of the petition would mean Panama was abandoning this policy, while favorable action would certainly produce a diplomatic conflict with the United States.

Avenue D Circles Hold Meeting

The Adair, Wolford, and Edwards Circles of the Avenue D Baptist Church Women's Missionary Union met together yesterday at the church for their Royal Service program.

Mrs. E. J. Hardin gave the devotional. Mrs. Gloria Todd was in charge of the program. Those on the program were Mrs. A. W. Roe, Mrs. Maide Lewallen, Mrs. A. J. Martin, and Mrs. A. J. White.

Other members attending were Mrs. F. L. Kiker, Mrs. Darrell Black, Mrs. Kathleen White, and Mrs. Jack Jones.

Also attending were one visitor, Mrs. A. J. Drake, and one new member of the Wolford Circle, Mrs. H. D. Strickland.

Beta Epsilon Will Exhibit Scrapbook In State Meeting

Members of the Beta Epsilon chapter of the Delta Kappa Gamma sorority, are preparing a scrapbook for display at the Alpha state convention.

The convention will be held in Dallas with headquarters in the Hotel Adolphus April 18, 19 and 20.

The scrapbook will be a collection of the Beta Epsilon publicity and news coverage during the past one year, dating from last year's state convention to this years convention.

The types of publicity are newspaper publicity and pictures, snapshots, photographs of officers and other members, momentoes from the international, state, regional and local meetings, radio and television announcements.

Each scrapbook is rated on the basis of the number of column inches of newspaper publicity, number of pictures, momentoes, radio and television announcements and programs.

Besides the contents of the book, it is also judged on arrangement, attractiveness and dignity.

Persons serving on the Beta Epsilon scrapbook committee are Miss Maydelle Burns, chairman, Mrs. Lola Horton, Miss Edith Wilkerson and Mrs. Lillian Jones.

NEWS FROM CHINA GROVE

By MRS. N. F. HALL

Miss Joann Merket and her guest, Jackie Pyant, both of Texas Technological College, Lubbock, were guests of her parents, Mr. and Mrs. Stanley Merket and Gloria Merket, over the weekend.

Mr. and Mrs. Houston Quiett visited in the home of Mr. and Mrs. J. C. Stahl of Hermleigh, recently.

L. L. Seale was in Sweetwater on business Saturday.

Mr. and Mrs. Fred Hunter of Lubbock were guests of Mr. and Mrs. T. J. Webb Sunday night.

Jimmy Smith and Norman Spears both of Hardin-Simmons University of Abilene were guests in the home of Mr. and Mrs. Jim Merket, Sunday.

Mr. and Mrs. Sam Bullock and Mrs. Mamie White all of Colorado City, Mr. and Mrs. Carl Wilson of Levelland, were dinner guests of Mr. and Mrs. Frank Wilson Sunday.

Dinner guests in the home of Mr. and Mrs. Houston Quiett Sunday were Mr. and Mrs. Doc Sellers of O'Brian, Mr. and Mrs. Fred Hunter of Lubbock, and Mr. and Mrs. T. J. Webb of China Grove.

Visitors in the home of Mr. and Mrs. Hoyt Murphey this week were Henry Murphey and family of Fort Worth, Mr. and Mrs. Frank North and family of Corpus Christi, Mr. and Mrs. V. S. Summerford and family of Freeport. They all attended the golden wedding anniversary of their mother and father held in the Methodist Church at Dunn Sunday.

Mr. and Mrs. Espert Shipp of Snyder were callers in the N.F Hall home Sunday.

Miss Doris Lynn Weaver of Colorado City was a Monday night guest of Miss Donna Ann Hall.

WOMEN'S CALENDAR

THURSDAY

Suburban Study Club meets at Martha Ann Clubhouse with Mrs. N. C. Hillhouse as hostess at 7:30 p.m.

St. Elizabeth's Altar Society of the St. Elizabeth's Catholic Church meets at 7:30 p.m. at the church.

Washing Windows

Here's an easy way to wash the outside of ground floor windows this spring. Use a long-handled cotton string mop saturated with warm soap or detergent suds. Then rinse the windows with a garden hose, and they'll dry sparkling clean.

NEWS FROM HERMLEIGH

By MRS. OCIE VEST

Mrs. W. C. Fargason spent the weekend with her daughter and family, Mr. and Mrs. Jake Snody, at Olney.

Mr. and Mrs. E. H. Vaughn spent the weekend with Mr. and Mrs. Jay Vaughn and daughter, Judy, in Idalou.

Persons visiting in the Ocie Vest home Sunday were Mr. and Mrs. Alva Vest of Loraine, C. H. Standifer of Woodburn, Ore., Mr. and Mrs. Bobby Stroud and son of Snyder, Mrs. Earl Ghitsey of Snyder, Mrs. Moody Ward and children from Loraine, and Mr. and Mrs. R. O. Beeks, Jane Beeks and Neil Beeks, of Snyder.

Mr. and Mrs. T. D. Craft spent Saturday night and Sunday visiting his brother, Mr. and Mrs. Ray Craft in Wilson.

Mrs. Bula Sturdivant returned home Thursday from Carlsbad, N.M., where she spent several days with her uncle who is seriously ill in a hospital there.

Mr. and Mrs. Hugh Bratton, Beverely and Lynn, of Snyder visited Sunday afternoon in the home of Mr. and Mrs. Ocie Vest.

Mr. and Mrs. Ocie Vest visited Monday with Mr. and Mrs. Earl Chitsey in Snyder.

Sunday visitors in the G. E. Chorn home were Mr. and Mrs. H. S. Fatherreel and Mr. and Mrs. C. E. Fatherreel of Fort Worth. Mrs. Fatherreel remained here for a visit with her daughter.

Persons visiting for the weekend in the G. L. Wall home were Mr. and Mrs. Dee Tigett and daughters of Omaha, Tex., and Mrs. Bud McCollum of Naples, Texas.

Mr. and Mrs. T. E. Shelburne visited Sunday afternoon in Hamlin where they visited their children, Mr. and Mrs. Cecil Sellers and the Leslie Shelburne family.

Kenneth Reeves underwent surgery in the Snyder Clinic Hospital Friday. We hope for a speedy recovery.

For you and your schools, vote for Broadway Browning and John Blum, Paid Pol. Adv.

For Good Measure

In using baking powder always be accurate. Don't fill the spoon about right and shake off the excess. Level it off carefully. Use a standard measuring spoon. After dipping spoon in can level off baking powder with the straight edge of a knife.

SPORTS

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

THE SEASON IS YOUNG yet but Norman Gladson Tiger right hander, is already making a "bid" for the "hard luck player of the year" award in the high school baseball ranks.

The big sophomore is picking up where Dwayne Prince left off last season in this category.

Like Prince, last season, Glasson has been hurling good baseball this campaign but has yet to dent the win column.

Gladson pitched good enough to beat the Abilene Eagles yesterday but five Tiger errors, two of which, however, were charged to Norman, himself, deprived the Tigers a victory.

Gladson tossed a 7-hitter at the heavy-hitting Eagles yesterday that included a wind-blown infield pop fly that fell in for a "hit."

Norman has started three games this season and gone the route in two. In his other route-going performance, the Tigers lost to Tom S. 5-1 with only one Westerner run being earned.

Owns Fine ERA Mark

In Gladson's third start, he went the first four innings against Odessa early in the season and left trailing 4-0 but all four Odessa runs at that stage had been unearned.

In other words, Norman has pitched 18 innings in the games he has started and compiled a 1.55 earned-run mark only to lose all three outings.

In addition to his three starts, Gladson has been used in relief in four other games, coming on to protect Tiger leads.

He pitched the last three innings of a 2-0 Tiger win over San Angelo; the final inning of a 7-3 Tiger win over the same club; and got the final out of a 6-4 Tiger triumph over Plainview.

Gladson is a good man to have around despite his 0-3 record to date.

Show More Spark

The Tigers showed a little more spark in yesterday's game with Abilene. Most of their five errors, we believe, were made by being over-anxious.

The Bengals have been playing some salty ball clubs, all class 4A schools, and are getting some valuable experience. Three of the seven Tiger defeats have been administered by a single tally.

Roger Mac Evans, who came on in the seventh inning yesterday to save the game for the Abilene Eagles, is the son of Murray Evans, former head football coach at Hardin-Simmons University.

Murray, who coached the Cowboys prior to Sammy Baugh, was in the stands yesterday, incidentally.

Senior Evans is partner in a sporting goods firm at Abilene.

Ken Venturi Determined To Win Masters

By WILL GRIMSLEY

AUGUSTA, Ga. (AP)—Ken Venturi is a young man with a mission in the Masters Golf Tournament, but the question is: Is he too eager?

"That is the danger," Byron Nelson, Ken's long-time tutor, said today, prior to the first-round tee-off.

"Venturi is playing beautifully. He is hitting the ball like a rifle shot. He is on fire with determination.

"I only hope he is not too intense. I don't think he is. But he is dying to win this tournament."

Winning the Masters title has been a driving ambition of the good-looking, 26-year-old San Francisean since he blew it with a last-round 80 two years ago, when Jack Burke Jr. won.

"I aged 20 years in those four hours," Venturi said. "Ever since that day every shot I have made has been aimed at redeeming myself."

Venturi and Sam Snead have been tabbed cofavorites at 4-1 in an unofficial "book" which has spread over the 6,980-yard Augusta National course.

Venturi is the new hotshot of the rugged professional tour, leading money winner, victor in three winter tournaments and one of the most respected craftsmen among the pros themselves.

Snead is the ageless wonder from the Virginia Hills, at 46 still a supurb athlete with a flawless swing who drives the ball like a cannon blast. He has won more golf tournaments and probably more money than any man alive but he is still followed by the ghost of dubbed putts and missed opportunities.

C-City Netters Down Tigers

Colorado City downed the Tiger in a dual tennis meet at Colorado City yesterday, winning six of nine matches with one ending in a draw.

Danny Tankersley and Mokey Hale were the Tiger winners.

Tankersley defeated Lady of the Wolves, 6-0 and 6-1 while Hale downed Kuhn, 6-1 and 6-2.

A double match involving Hale and Avants of the Tigers and Brown and Kuhn of the Wolves ended in a 5-5 draw.

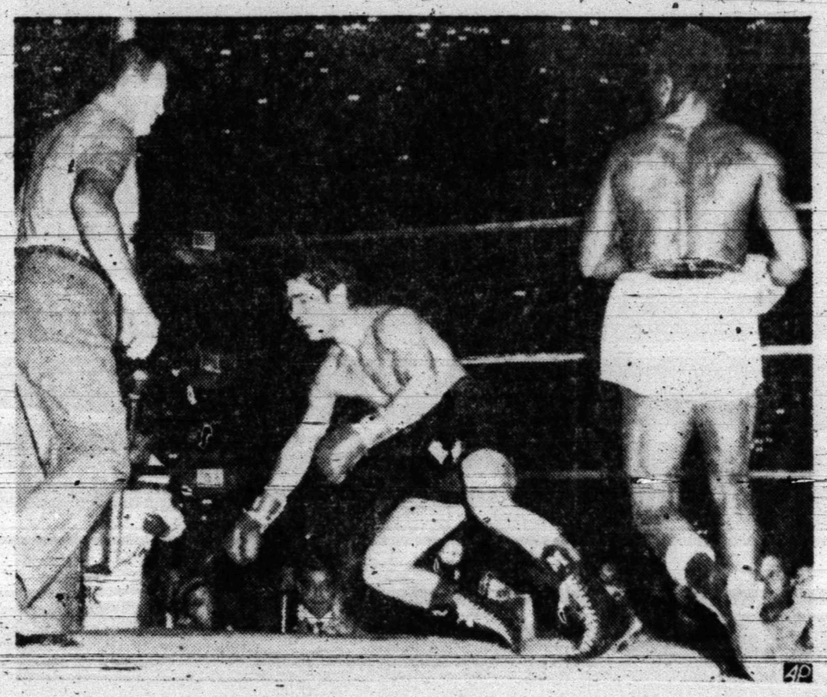

The Tigers and Wolves are scheduled to meet again today with the scene switching to the Towle Park courts here.

Bassey Challenged By Moore's Manager

LOS ANGELES (AP)—Fight manager Willie Ketchum today challenged world featherweight champion Hogan "Kid" Bassey of Nigeria, to battle his challenger, Davey Moore of Springfield, Ohio.

"We not only challenge Bassey, I'll say my guy will win the championship and he might even knock Bassey out," the veteran New York pilot declared.

Moore is ranked as the top contender for Bassey's title by Ring Magazine.

END OF THE LINE FOR MORENO—Mexico's Richardo Moreno reels toward the canvas after absorbing three smashing blows from world featherweight champion Hogan Bassey that ended their title fight at Los Angeles. The end came in 2 minutes, 58 seconds of the third round. Referee Tommy Hart comes in to make the count. (AP Wirephoto)

Eagles Nip Tigers On Unearned Tally In 7th

Abilene's Eagles took advantage of the Tiger's generosity yesterday to notch a 5-4 non-district victory at Towle Park.

Five Tiger miscues, the latter of which let in the winning run in the seventh inning, proved the Tigers' undoing.

The score was knotted a 4-all when the final inning came up. It looked like the Tigers were out of trouble in the seventh when the first two Eagles were retired.

But then Pat Armstrong bounced one over the left-centerfield fence for a ground rule double to keep the Eagles hopes flickering.

Reggie Crosby followed Armstrong to the plate and hit a sharp ground ball to third baseman Dick Hayes. But the ball scooted between Hayes' legs into left field and Armstrong went all the way home for the winning marker.

The Tigers made a serious threat to get the run back in the lower half of the seventh when Hayes dropped a single into left field to lead off.

Hayes' rap spelled finis to starting and winning pitcher Butch Newman. Roger Mac Evans, ace of the Eagle mound staff, came on in relief.

Eavens immediately wild-pitched Hayes to second while pitching to his first batsman, pinch-hitter Kenny Drake.

But Evans bore down and got Drake on a pop-up, Jimmy Allen on a ground ball and David Hale on a liner to centerfield that Armstrong gathered in on a dead run coming in.

It was a heart-breaking loss for Tiger pitcher Norman Gladson. Gladson hurled a seven hitter at the heavy-hitting Eagles, struck out seven and walked four. Two of the Eagle runs were unearned.

The Tigers took a 2-0 lead in the first inning and led until Abilene erupted for two runs in the fifth for a 3-2 lead. The Tigers tied the count in the bottom of the fifth at 3-3 with the Eagles once again taking the lead, 4-3, with a tally in the sixth.

The Tigers battled back, however, to knot the score a second time at 4-4, in the home half of the sixth. Then disaster struck the Tigers a crucial blow in the seventh that decided the issue.

In the Tiger first, Gary Vice led with a walk and raced to third on a double over the left fielder's head by Neil Boyd, the Tigers' leadwith three-for-four. Coleman John walked to load the bases.

Vice tagged up and scored easily on Hayes' long drive to center, Boyd going to third after the catch. Boyd then scored when the Eagles attempted to turn Terry Lee's grounder into a double play but failed.

Abilene got a "cheap" run in the second for its first tally. Crosby got life on an error to lead off and the Eagles proceeded to load the bases on a single by Alan Peake and a walk to Newman.

Then with two away, Bill Sides popped one up at the mound that fell safely, Crosby seoring. Gladson got under the pop-fly but the wind blew it out of his reach at the last moment, giving Sides a "tainted" hit and RBI.

Although Hale led with a single in the second and Boyd doing likewise in the third, the Tigers failed to increase their lead.

A pinch-hit double by Ronnie Dunn drove in two Eagle runs in the fifth that put Abilene ahead for the first time, 3-2.

The Tigers picked up an unearned run in the fifth when Boyd reached first on catcher Sides' error with two away, Sides letting a third strike get by him to the screen.

Boyd moved to second when Coleman John was hit by a pitched ball and then scored on a ground single to left by Hayes.

A walk to Peake leading off in the sixth cost the Tigers as Peake moved around on a sacrifice, a infield ground out and single to center by Sides, putting Abilene ahead, 4-3.

The Tigers quickly retaliated by getting the run back in the bottom of the sixth when Jerry Fleming and Vice drew walks and Boyd getting his third hit of the day, a slashing single to left, Vice scoring to make it 4-4. Then came the disastrous seventh.

The Tigers will return to action tomorrow, when they open a three-game series with the San Angelo Bobcats. The two teams will meet in a single game tomorrow and then clash in a doubleheader Saturday, all three games set for Towle Park.

Tim Roberts is expected to draw the starting mound assignment for the Tigers tomorrow.

Yesterday's defeat left the Tigers with a 4-7 record. Abilene, in winning, notched its 9th win in 11 starts.

WITH .415 MARK

Skowron Hottest Yankee Batsman

By ED WILKS
The Associated Press

It seems Bill Skowron always starts to worry whenever he's pushed into the cleanup spot in the New York Yankees' batting order during the regular season. So Manager Casey Stengel decided he'd put him there in the spring exhibitions and let him get his worryin' over early.

If Skowron still is worrying, this kind of worry could put the guys who make the tranquilizers out of business.

The Moose—not Mickey Mantle—leads the American League champs with a 415 batting average, seven home runs and 20 RBI. He rapped two homers again yesterday as the Yanks beat Washington 7-5.

Skowron helped push Yankee starter Johnny Kucks into a 6-0 lead with his slam off Camilo Pascual in the second. But the young righthander blew most of it and the score was 6-5 after the fifth when Neil Chrisley drove in three with a double. The Moose got a solo homer in the ninth off Bud Byerly.

Best pitching was at Sarasota, Fla., where Boston beat Pittsburgh 2-0. Both runs were scored in the eighth on a pair of wild pitches by rookie southpaw Joe Gibbon. The Red Sox had just one hit, Don Buddin's first inning single, through seven off Ron Kline and Bob Smith. Ike DeLock and Leo Kiely combined for the shutout for Boston.

Jim Bunning went all the way for Detroit and allowed Cincinnati only three base runners over the last six innings, but by then it was too late. Gus Bell homered in the first and Smoky Burgess slugged one with a man on in the second to beat the Tigers 3-2. Brooks Lawrence, Charley Rabe and Jay Hook shut off the Tigers with five hits.

The Tigers bought outfielder Stan Palys from the Redlegs for an undisclosed price. This may mean Cincinnati has decided to go with outfielder Vada Pinson, the rookie pheenom up from Class C. But also it might mean the Reds are ready to swap Burgess for an established outfielder.

Philadelphia caught up late on Harry Andersons eighth-inning homer, matched a Dodger run in the 12th and finally won 4-3 in 14 innings on a bases-loaded single by Willie Jones. Shortstop Andre Rodgers scored a two-run homer in the ninth that gave San Francisco a 9-8 win over Baltimore.

The Chicago Cubs whipped Cleveland 8-2, scoring three in the first two innings off Mike Garcia, and socking away four in the ninth off Hal Woodeschick on Bob Speake's homer and Lee Walls' bases-loaded double.

San Francisco 9, Baltimore 8

Williams Returning To Hitting Form

SARASOTA, Fla. (AP) — Boston Red Sox slugger Ted Williams barred from strenuous batting practice since March 10 because of a side injury, is back slamming out long drives in hitting drills.

"I feel about 50 per cent better," the 39-year-old outfielder said yesterday after a lengthy hitting workout.

"My ankle is better than at any previous time, and my side doesn't bother me so long as I don't swing too hard," Ted added.

Williams is expected to make his 1958 Grapefruit League debut when the Red Sox play their final game in Sarasota Sunday against the Detroit Tigers.

ANDREWS, BIG SPRING MEETS ON TAP

Tiger Tracksters In Busy Weekend

The Tiger tracksters open a busy weeekend today when they will compete in the first annual Mustang Relays at Andrews.

Preliminaries for the Andrews meet were set this afternoon with the finals tonight, starting at 7.

After the Andrews meet, the Tiger thinlies will go to Big Spring tomorrow to compete in the ABC Relays. Prelims in the ABC meet is Friday and the finals Saturday.

Seventeen Tigers will compete in the Mustang Relays. Most of the same boys will also participate in the ABC Relays.

Following are the Tiger entries in the Andrews affair today:

120-yard high hurdles — Bud Morgan, Rex Wilson, John Ward.

100-yard dash —Lynn Atkinson, Jimmy Allen, Jesse Crawford.

440-yard dash —Marcue Strickland, Bo Brown, James Fitzgerald.

180-yard low hurdles —Morgan, Wilson, Ward.

440-yard relay — Morgan, Atkinson, Wilson, Ward.

880-yard dash — Stanley Woolever, Louis Cox.

220-yard dash — Atkinson, Crawford, Allen.

Mile run — Israel Hinojos.

Mile relay — Woolever, Brown, Strickland, Bill Dubose.

High jump —Morgan, Atkinson, Ward.

Pole vault — Dickie Martin.

Shot put — Mickey McGrew, Bill Rinehart.

Discus — Ronnie Giles, Hinojos.

Trist Speaker batted .344 in 64 games for the Philadelphia Athletic when he was 45 years old.

Rhubarb Rages Over Shoes Worn By Tech High Jumper

BIG SPRING, Tex. (AP)—A rhubarb developed today over whether Dub Thornton, Texas Tech high jumper, can use a built-up shoe in the ABC Relays.

Thornton's coach, Delmer Brown, says if his boy is ruled out he will pull his entire team from the meet.

Thornton won the Texas Relays high jump using a strip of rubber beneath the sole of his regular shoe. Brown said it was an orthopedic measure. Thornton having sprained his ankle arch while in high school.

Coach McAdoo Keaton of SMU, whose high jumpers—Bertil Holmgren and Don Stewart—were defeated by Thornton in the Texas Relays, protested the use of the built-up sole, pointing out that track and field authorities looked with disfavor on a high jumper wearing shoes with builtup soles. Russians, using these kind of shoes, did some 7-foot high jumping last summer and the NCAA will decide in June if built-up shoes can be used.

The question was put up to the ABC Relays Committee and it was decided at a meeting yesterday the coaches of college teams in the track meet would vote on whether Thornton can use the shoe. The vote is supposed to be taken tomorrow when the meet opens with preliminaries in the high school division. College events are scheduled Saturday.

But Brown said "The coaches can't do a thing about it. There's nothing illegal about it. This meet is not sanctioned by the NCAA but by the AAU. They may change the rule for next year but right now it's legal."

Moreover, said Brown, "it's a funny thing that SMU jumpers and coaches didn't say a word about this in the previous meets when they defeated our boy. But when they get beat they start the cry baby act."

The rhubarb over the shoe edged in on the principal topic of discussion regarding the track meet Saturday—a duel between Bobby Morrow of Abilene Christian and Dave Sime of Duke, two of the world's top sprinters. Morrow, the Olympic sprint champion, and Sime, a world-record smasher, are to clash in the 100-yard dash.

Some 900 athletes will start moving into Big Spring tomorrow morning with 45 high schools the first to swing into action. Ten junior colleges and eight senior colleges will go through preliminaries Saturday morning. Finals will be Saturday afternoon.

The university class has drawn Texas, Abilene Christian, Duke, SMU, Baylor, Houston, Texas Tech and North Texas State.

Schools in the junior college division are Blinn, Arlington State, Tarleton State, Amarillo, San Antonio, Odessa, Howard County, Lee of Baytown, Mexico Prep of Nuevo Laredo and Cisco.

Milwaukee's appearance in the 1957 World Series marked the first time since 1946 that a National League western team made the classic. The St. Louis Cardinals won the NL flag in 1946.

PELTS FOR CARPET—Enough coyote and bobcat pelts to make into a carpet for the den in his cabin at Lake J. B. Thomas have been collected by Nolan von Roeder in recent hunts in this area. Pictured above are the 21 coyote and 11 bobcat pelts. Von Roeder was assisted in calling up the animals by Mrs. Von Roeder and Joe Landrum. They will be sent to a tannery for tanning, shaping and then will be made into a carpet. (Lee Watson photograph)

Famous Marshall Plan Ends A Full Decade Of Operation

WASHINGTON (AP) — The President of the United States scratched his name on the bottom of the document. He looked solemnly at the congressional leaders and Cabinet advisers around him and said:

"This is a momentous step in the world's quest for an enduring peace."

With these words 10 years ago today, Harry Truman launched the famous Marshall Plan.

His signature set in motion perhaps the most massive aid program the world has ever known.

Its immediate aim was to save Western Europe, still wracked by the wounds of war, from chaos and communism. It got its name from Gen. George C. Marshall, then secretary of state, who had outlined the plan in an address at Harvard University June 5, 1947.

Immediately foreign aid experts rushed the first shipments to Europe. They cut enough corners to move the first shipment—wheat for drought-stricken Austria—to East Coast ports within six days.

Even before Paul Hoffman was named Marshall Plan chief April 6, emergency food and raw materials shipments had been arranged for Italy, where Communists were making a big bid for an election victory April 18. The Communists were beaten overwhelmingly.

At that time the flow of food, machinery, raw materials and fuel was figured to cost 16 billion dollars in four years. This estimate proved far too optimistic. By June 30 of this year economic and military aid provided overseas countries will total $48,993,600,000.

Since the Korean War in 1950, military aid has represented the biggest share of this assistance. If it hadn't been for this surprise Communist attack on Korea, most officials believe the task of helping Western Europe could have ended on schedule in 1952.

President Eisenhower joined former President Truman last month in crediting the Marshall Plan with achieving its goal. Eisenhower, appealing for Congress to continue foreign aid for an 11th consecutive year, summed it up this way:

"Mutual aid has repeatedly played a major part in keeping free world countries from losing their freedom. It has thwarted the Communist hope of encircling and isolating us."

Police Hunt Extortionist

CHICAGO (AP)—Police hunted today for an extortionist who they said had demanded $5,000 from a Roosevelt University faculty member, who is a grandson of a New York multimillionaire. The writer threatened harm to his daughters if the money was not paid.

Police disclosed that Frank Untermyer, 42, an assistant professor of political science, his wife and three children have been under police protection since Untermyer received the extortion threat Monday.

Untermyer is the son of Irwin Untermyer, retired New York Supreme Court justice and grandson of Samuel Untermyer, New York corporation lawyer and multimillionaire who died in 1940.

Firefrighters Are Entangled In Net

GALILEE, R.I. (AP)—Fire fighters were called to put out a blaze aboard a fishing boat tied up at a pier and had more trouble with a fish net than they had with the fire.

A big net became entangled in the wheels of a fire truck. For two hours the firemen tugged and hauled to no avail. Finally, they jacked up the truck, removed the wheels and unsnarled the net.

The fire was not serious.

BIRTHS

Mr. and Mrs. Billy Ellis, Route 3, are parents of a daughter weighing seven pounds, four and one-half ounces, born at 12:34 p.m. yesterday at Cogdell Memorial Hospital.

Fresh Vegetables Are Plentiful Now

By The Associated Press

The Texas housewife will find a wider selection and a plentiful supply of fresh vegetables on her grocer's counter this week.

Texas cabbage, carrots, leaf lettuce, spinach, collard, mustard and turnip greens, green onions and radishes are in good supply and attractively priced, the Agriculture Marketing Service says.

Prices are slightly lower than last week for red and white potatoes, onions, tomatoes and Arizona lettuce. Celery, eggplant, best quality green peppers, squash and cucumbers are slightly higher, but in fair supply.

Best fresh fruit buys are apples, bananas, consumer-size bags of Texas grapefruit, California avocados and lemons. Texas Valley strawberries are priced a little lower, but California and Texas oranges wear higher price tags.

Pork continues to head the list of best buys in red meats, although good values are to be found by purchasing cheaper cuts, such as chuck and arm roasts, ground and boneless stew meats, frankfurters and lunch loaves.

Whole chicken fryers are one of the best protein buys in the market, prices are down a little from last week. Cheddar and cottage cheese are plentiful and economically priced, and may be used in many ways to supplement protein in main dishes and help stretch your food dollar.

Don't pass your frozen food counter without making several purchases. Real values are to be found in frozen beef, chicken and turkey pies, ocean perch and fish sticks, green peas, cut corn, spinach, broccoli and strawberries.

Stocks of canned goods are large and good values are to be found in tuna, chum salmon, green beans and peas, peaches and pears.

New items appearing in many stores in Texas are asparagus from California and Valencia oranges from Arizona.

Divorcee Is Found Slain

TULSA (AP)—The bullet riddled body of a pretty young divorcee was found here yesterday. Police said they still lack clues to the slaying.

Mrs. Betty Watkins, 22, was found covered with a blanket over her face, in her small home in the city's northside, by a brother who had stopped by for a visit.

Police Chief Joe McGuire said five pistol shells were found. He said the pattern of the pistol fire indicated the victim had fought for her life, and was not shot as she lay asleep as originally thought.

The divorcee, mother of two, had talked with a brother and her mother only hours before being killed, said police.

Officers have tried, in vain, to unearth leads which might lead to the discovery of a woman friend, 40, who was supposed to have spent the night with Mrs. Watkins.

They said a car belonging to the missing woman was found locked in her garage at home near the murder scene.

For you and your schools, vote for John Blum and Broadway Browning. Paid Pol. Adv.

Circus Rope Walker Falls

NEW YORK (AP)—A tight-rope walker performing without a safety net spun off a slanting wire and plunged 18 feet to the floor of Madison Square Garden last night at the opening of the Ringling Bros. Barnum & Bailey Circus.

The accident — during the next-to-last act of a gala multidisplay program — cut deeply into the carnival mood of the 10,000 spectators.

The performer, Harold Alzana, 39, suffered a broken wrist, a broken ankle and a mild concussion. He was taken to St. Clare's Hospital, where his condition was listed as satisfactory.

The circus opened its 88th season with a five-day preliminary run in Charlotte, N.C., before coming to the Garden for a six-week stay.

Outlandish clowns frolicked merrily. Dresses chimpanzees monkeyed around in the center ring looking too human for comfort as they rode bicycles, danced, beat drums and hammed it up.

Daring aerialists, mocking gravity, flung themselves among bars and trapezes high above the Garden floor. Tumblers and acrobats leaped and bounded with abandon. Lions and tigers snarled at whip-snapping trainers.

OUR VIEW

The 'Good' Shines Through

THE SAN ANGELO STANDARD-TIMES:

Like the Texan who developed an inferiority complex and got to thinking that Oklahomans after all were just as good as Texans some of us have been developing something of a low estimate of education in this country. But there's no reason to take a back seat yet, says Dr. Bryon S. Hollinshead, former president of Coe College.

Hollinshead, came back to this country recently after serving five years as director of the Technical Assistance Department of UNESCO.

In a pamphlet written for the American Council on Education, Hollinshead said: "I have been amazed at the criticism American education has been getting in the public press since Sputnik."

He agreed that Americans should improve their educational system but replied to advocates of a change over to the European pattern thusly:

"What then is the American, this new man" who has made the deserts bloom, who has taken the peasantry out of farming, who has removed drudgery from factories, whose productivity per worker is by far the highest there is, who is surrounded by the world's best existing systems of communication and transportation? Was this program made by a people with an interior educational system? If so, inferior to what? To their own ideals perhaps but to little else."

Hollinshead said the element of quantity in American education, which is often criticized, actually has implication for quality, such as in mass-produced textbooks that are "the envy of the world."

Other values in quantity which he cited are: A broad base for the selection of talent, the opportunity to indentify academic talent appearing at later ages than 11, when "the English try to do it," and the providing of learning opportunities for various types of talent, such as those with a high degree of social artistic or manual intelligence.

"The European system is to try to train an elite," Hollinshead said.

"The American system is to try to educate as many as possible. The European system offers a highly traditional cirriculum to a few who can qualify by examination. The American system starts where the student is and tries to relate his education to his needs and aspirations."

That's accenting the positive. A good salesman of our educational system isn't at a loss for ammunition when he looks at the record, though he may find some things he would like to copy from the European variety.

Triple Squeeze Is Put On Families

By SAM DAWSON

NEW YORK (AP) — The eternal triangle in most homes these days: wages, taxes, prices.

Moving up into a higher income bracket has been the happy lot of many American families in the last 20 years. The majority managed to translate this into a higher standard of living. But it isn't as easy as it sounds.

Taxes have gone up too. And prices have soared.

When anything happens to shrink this income even a little — loss of overtime pay, shorter work weeks, smaller profits from the family store, lowered dividends — the hurting comes quickly.

There is no such thing as an average family. But totals of income, taxes and prices can be averaged off statistically.

A married couple with two children would have to have a gross income of $6,457 in 1958 to be actually as well off as they were in 1939 earning $3,000.

Federal income and Social Security taxes took $30 out of gross income in 1939 and will take $772 out of the higher 1958 gross.

The loss in purchasing power of the dollar whittles $2,765 from the $6,457 gross of 1958 in terms of 1939 dollars, based on the consumer price index of the National Industrial Conference Board.

The family with a $5,000 income in 1939 must get $11,140 this year to come out even. What was left over after federal taxes in 1939 was $4,941 — the same figure left over today after the much higher taxes and the huge bit of inflation.

These are the bare statistics. But many families live better today than before the war without having doubled their incomes — although none could if their incomes hadn't gone up at all.

There are several reasons. For one, any index of the cost of living is based on what the average family is presumed to spend on many goods and services. Lots of folk spend nothing on many of these items.

For another, cost cutting manufacturing processes have kept the prices of a lot of today's necessities, 1939's luxuries from rising as much as the general trend of all goods and services.

And a third reason is that many families have built up their living standards by renting rather than buying — that is, by enjoying many things acquired on monthly payment plans.

Even so the two-way squeeze of taxation and inflation on today's incomes is very real — and never more so than when incomes tend to shrink.

Seas May Become Vital Food Source

New Bedford Standard-Times
Written for The AP

If the world's population—about 2¾ billion—triples during the next century, and it is expected to, humanity must turn to the oceans for new sources of food to maintain its living standards.

The lands of the world are being rapidly depleted of basic resources. The sea is still a bulging storehouse, not only of minerals and metals—which improved techniques could pry from the ocean bottom—but of enormous quantities of foodstuffs.

In terms of food, the sea can actually outproduce the land. A New England harbor, properly cultivated, could produce nine tons of clam meat per acre annually—three times the amount of comparable food an Ohio farmer could produce on one acre.

Eventually, marine scientists say, the oceans may be stirred artificially to bring up nutrients from the bottom so sunlight can get at them and so increase the sea's productivity of food stuffs.

Here's one way in which this process is envisaged:

In most areas, a vertical pipe shoved down into the sea would carry a stream of water either up or down, once it was started, and if uninterrupted would go on indefinitely.

This is because ocean surface water is altier and, therefore, heavier, than deep water, when the two are at the same temperature. As surface water goes down the pipe, it tends to be cooled to the same temperature as the water outside the pipe — but being heavier because of its salinity, it keeps on flowing downward.

It works in the opposite direction up the pipe, it tends to get warmer. But because bottom water is slightly fresher, it also is lighter than the surface water surrounding it, so it tends to rise and flow out the top of the pipe.

The French government is experimenting with a system of such pipes. In this instance, it is trying to produce fresh water from the ocean by applying the salinity differences to a distilling process. But the operation would serve very well to "stir" the sea for increased food production.

Presently, man is neglecting great areas of the ocean's nutritional potential. Of some 16,000 species of marine life, only a dozen or so are used commercially to any significant extent. Thousands of others, including such unlikely sounding candidates as barnacles, could make valuable contributions.

Some steps toward more intense exploitation of the sea are already being taken. The British are seeking to utilize the nutritional properties of seaweed in commercial quantities. The South Africans have a fish meal project providing an inexpensive protein source for human consumption.

A vital step in making the most of the ocean's food resources is finding way to make fish less expensive. Virtually all modern developments in fishing—packaging, filleting, freezing — are keeping fish from going where they're needed most, to hungry people without much cash.

It is possible, marine scientists say, to make money with a fish product selling for as little as 1½ cents a pound; ways could doubtless be found to convert food fish into some form, perhaps like sausage meat, that could be stored and shipped without canning and freezing.

Further, in the ocean, the absence of fences or lines of ownership makes it difficult to introduce the element of systematic cultivation even though this is highly desirable from the standpoint of increased marine productivity.

But it is only a question of time before a marine-minded country in search of cheap foodstuffs will start a large-scale marine agricultural station.

All this leaves apart the possibilities of plankton, the microscopic marine animals and plants which make up the ocean's basic food form. The fish men eat are at some distance from plankton, which has passed through the digestive systems of half a dozen animals feeding on each other.

Baruch Had Same Advice In Thirties

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Bernard M. Baruch, tall and still well-built at 87, gave his advice this week on the recession.

He was talking to the Senate Finance Committee. Listening to him was like watching time roll back a quarter century. On Feb. 13, 1933, he gave his advice to this same committee on how to handle the depression.

What he said 25 years ago sounded strangely like what he was saying now. His advice was disregarded then. It may be disregarded now. Although he has been an adviser to every president since Wilson, his advice has often been ignored.

In 1933 — with 12 million people jobless just a month before Franklin D. Roosevelt became president — Baruch was warning against the dangers of inflation and advising: "To get people back to work . . . we must balance the budget."

His theme then: "Reduction in public expense is indispensable to recovery."

But when Roosevelt took office he did just the opposite from what Baruch suggested: he really unbalanced the budget with relief spending and ushered in a new concept of willingness to spend more money than the government takes in in revenue to get the economy back on its feet.

This week Baruch — ignoring any change in government philosophy — went back to his theme of 25 years ago.

He put his finger on inflation as the "biggest single peril to our economic health," rejected deficit spending as a solution to the present recession, opposed a tax cut, and even advocated a tax increase to keep the budget balanced if Congress votes big new spending programs.

Junior Editors Quiz on KITE FLYING

QUESTION: Where did kite flying start?

• • •

ANSWER: History books say the kite was invented 300 to 400 years before the birth of Christ in the Greek city of Tarentum by a man named Archytas. But the Chinese, who are great kite fliers, claim one of their generals, Han Sin, invented the kite in 206 B.C. for use in war.

The kite gets its name from birds called kites. These birds can spread their wings and sail down the wind without seeming to move a feather.

The usual form for kites is triangular or diamond shaped. But they can be almost any shape. In China, the ninth day of the ninth month is set aside as Kite's Day. On that day the people fly thousands of kites of all different shapes — dragons, fishes, birds and butterflies.

The kite has been very useful. In 1749, Alexander Wilson and Thomas Mehielle of Glasgow, Scotland, fastened thermometers to kites. They sent them into the air to measure the temperature of the clouds. Benjamin Franklin brought electricity out of the sky with a kite, a string and a key in 1752. In the early 1900s, the Weather Bureau used them to help make forecasts.

• • •

FOR YOU TO DO: Our two Japanese boys have gotten the strings crossed on their kites. Cut out this picture and paste it on cardboard. Then color it as bright and varied as you like. Try making a kite like those in the picture, but be as original as you can.

• • •

(This question won $10 for Elizabeth Sanders of El Cerrito, Calif. Send your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: How are newspictures sent by wire?) 4-3

Only those legal systems have survived which have respected people by seeing that they had well-trained men to speak up for them in court. Otherwise law becomes arbitrarily forced upon people in distress who may not know their rights or how to assert them.

Athens had little use for experts of any kind. Aristophanes, for instance, poked fun at people trying to defend their rights in courts. So people in trouble would go to "rhetoricians" or "sophists" to get under-the-table advice on how to win lawsuits. Such "lawyers" had few standards and no way to enforce them.

But in Rome, where the law grew out of religion, the earliest lawyers were priests who, as time went on, found themselves upholding the law, both profane and sacred.

Later, law passed into the hands of wealthy, influential, educated non-priests who, out of duty to the Republic, helped others before the Roman courts. Their motto: "High above all virtues stands the law."

Later, as the Caesars took over, the Greek notions crept back. High-minded men had to take action against shady characters under a code for lawyers covering their preparation for, and admission to the bar, their competency, pay and conduct.

Under the barbarians, Roman law gave way to the tribal folkways of the Goths. Everyone (with the help of kinfolk) had to fight his own battles. For example, no one saw crime as a public offense punishable by the state; murder, theft, etc., were personal affronts, and private affairs.

Some of the Roman law lived on in Church courts and in Italy. With growing commerce in the Eleventh Century the princes and merchants called in lawyers to improve local rule and set up rules for trade. For this they turned again to the Roman law — the Justinian Code — which, thus became the foundation for the legal systems of Europe. With it again came the notion of professional responsibility.

This column, prepared by the State Bar of Texas, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Political Announcement

ANSWERS TO QUESTIONS SUBMITTED BY THE LEAGUE TO CANDIDATES FOR SCHOOL BOARD TRUSTEES

(Two Vacancies To Be Filled)

THE LEAGUE OF WOMEN VOTERS DOES NOT SUPPORT OR OPPOSE ANY CANDIDATE

Election To Be Held Saturday, April 5, 1958. Read Carefully.

DR. JOHN F. BLUM

Age: 45.
Education: A.B. and O.D. degree
Occupation and Business Experience: Optometrist and property owner.
Church and Civic Organization Affiliations: First Methodist Church. Lions Club, Texas and American Optometric Associations, Masonic Lodge.
Length of Residence in Scurry County: 20 years.

1. What particular training and experience have you had that you feel would qualify you for this office?

1. Two children in school that I am very interested in. 2. Minor in public school education and hold permanent teacher's certificate, which is probably limited now because of non use. 3. General interest in children and our schools. Regents of University of Houston.

2. What do you regard as the responsibilities of the School Board?

To hire the administrators and to work with same on school policies. To work with teachers, through channels of responsibility. To study and pass on building programs. To aid the administration in every way to keep and procure the best school possible for us to have. To have deciding control of any school problem, if necessary.

3. Are you satisfied with our present curriculum?

Largely so.

If not, to what phases of the curriculum would you give greater emphasis or to what phases would you give less emphasis?

There is always room for improvement in any progressive organization. I do not have sufficient information to make specific recommendations except to say that I think we have a good school and I would like to see an even better one. Any organization that does not progress rapidly becomes obsolete.

4. Do you favor advance notification to press and radio of Board meetings at which official action is taken?

Definitely yes.

5. What is your opinion of merit raises for school personnel based on superior service?

Any profession or person should be allowed to get merit raises as they prove themselves worthy of such, if a workable rule could be determined.

6. What do you think about school personnel attending work shops and conferences related to their field of work?

It should be mandatory that some such group meetings should be attended each year, just as in any profession or business.

7. Do you feel that some definite procedure for the consideration of school personnel grievances should be set up?

Yes, but through channels of responsibility.

Regardless of statements made by some individuals, and in one newspaper, I have obligations to no person or group of persons. What has happened in the past is history and should be accepted as such. We have a great deal to work for in the future, so there is no good reason to bring in happenings that are in the past.

(Signed) John Blum

J. L. (BROADWAY) BROWNING

Age: 44
Education: Snyder High School Graduate — Texas Tech Graduate.
Occupation and Business Experience: Taught school 9 years — Home Building and Real Estate Planning for 7 years.
Church & Civic Organization Affiliations: Member of 37th Street Church of Christ — Member of no civic organization at present, however, have served on City Council and was a member of the Rotary Club in the past.
Length of Residence in Scurry County: All life except 4½ years while teaching in Tahoka, Texas, and 3 years of military service in the U. S. Navy.

1. What particular training and experience have you had that you feel would quality you for this office?

B. S. degree in Agriculture from Tech and 9 years of teaching experience and hold a permanent teacher's certificate.

2. What do you regard as the responsibilities of the School Board?

To set the policies for the school and to see that these policies are carried out. To see that school funds are handled in such a way that the tax payers will receive dollar value for dollar spent. To see that moral and scholastic standards are maintained.

3. Are you satisfied with our present curriculum?

No.

If not, to what phases of the curriculum would you give greater emphasis or to what phases would you give less emphasis?

Basically the curriculum is excellent as is, but we should never be satisfied and become complacent, but rather strive for better balance between basic academic studies and extra curricular activities.

4. Do you favor advance notification to press and radio of board meetings at which official action is taken?

Yes.

5. What is your opinion of merit raises for school personnel based on superior service?

The idea sounds good on the surface. However, I can see no solution that would keep down dissension among school personnel. Who would be the one to say who is superior?

6. What do you think about school personnel attending work shops and conferences related to their field of work?

I am definitely for teacher betterment so long as it is in conformity with the policy set by the school board governing these matters.

7. Do you feel that some definite procedure for the consideration of school personnel grievances should be set up?

Yes.

(Signed) J. L. Browning

JAMES W. PHILLIPS

Age: 42
Education: B.S. Degree from McMurry College, 1938, Abilene, Texas. Graduate Work at Stephen F. Austin State Teachers, 1940, Nacogdoches, Texas.
Occupation and Business Experience: Owner and operator of Phillips Bros. Hdw. Co., 1950 to present time.
Church and Civic Organization Affiliations: Superintendent of Church School, First Methodist Church. Member of Board of Stewards. Member of Rotary Club since 1950. Director of Rotary Club last 2 years. Present Director of Chamber of Commerce.
Length of Residence in Scurry County: Eight years.

1. What particular training and experience have you had that you feel would qualify you for this office?

B.S. Degree in 1938 and graduate work in 1940. Director, Veteran Administration Vocational Rehabilitation and Education Division for Northern Half of Louisiana, 1946 to December, 1950. I was responsible for Education training of all veterans in Colleges and School in Northern half of Louisiana. Have two children in school, ages 8 and 13.

2. What do you regard as the responsibilities of the School Board?

A. Determine Policies of the School System.

B. Select the Chief Administrators and determine that these Administrators execute Board policies.

C. Continue to strive for Better Education for our Children.

3. Are you satisfied with our present curriculum.

Yes.

If not, to what phases of the curriculum would you give greater emphasis or to what phases would you give less emphasis?

Yes, with more emphasis placed on basic subjects.

4. Do you favor advance notification to press and radio of board meetings at which official action is taken?

I am in favor of advance notification, although an exceptional instance might arise when a special meeting might be necessary without time for notification.

5. What is your opinion of merit raises for school personnel based on superior service?

This is a problem that deserves a considerable amount of study, and any decision must be worked out by the school board after studying merit programs elsewhere.

6. What do you think about school personnel attending work shops and conferences related to their field of work?

Yes, I am in favor of this as long as such work shops and conferences directly benefit the students.

7. Do you feel that some definite procedure for the consideration of school personnel grievances should be set up?

This is a school board responsibility, and the solution might be to set up a sub-committee within the school board for this purpose.

(Signed) James W. Phillips

MAX WEST

Age: 36
Education: High School and Three Years of College.
Occupation and Business Experience: Manager and President of Snyder Savings and Loan Association. Partner Boren & West Insurance Agency. Rancher — Formerly associated with Federal Land Bank.
Church & Civic Organization Affiliations: Rotary Club, Past Pres. Boys Club, Secretary-Treasurer & Director Scurry County Jr. Livestock Association, Director Boys' Club, Member of the First Methodist Church.
Length of Residence in Scurry County: 36 years.

1. What particular training and experience have you had that you feel would qualify you for this office?

I have served one term as a member of the school board, and my business experience has been varied. I am interested in a good program of education for our community, and have two sons ages 7 and 10 attending school.

2. What do you regard as the responsibilities of the School Board?

The school board is the policy making body, and it is the obligation of the board to provide and maintain adequate facilities. The board is responsible for the selection of capable personnel, and to provide a proper and adequate program of study.

3. Are you satisfied with our present curriculum?

If not, to what phases of the curriculum would you give greater emphasis or to what phases would you give less emphasis?

Our present curriculum indicates that we are headed in the right direction, but I would like to see more emphasis placed on the basic courses offered.

4. Do you favor advance notification to press and radio of board meetings at which official action is taken?

I am very much in favor of publicizing the actions of the school board; however, there are discussions by the board regarding personalities that should not be publicized. The representatives of the newspaper and radio are invited to all board meetings.

5. What is your opinion of merit raises for school personnel based on superior service?

The question of salaries based on merit has been discussed by the board, but as of now no workable plan has been presented. It is my opinion that salaries should be on a merit system, and the board should continue to study this problem.

6. What do you think about school personnel attending work shops and conferences related to their field of work?

I think school work shops and conferences are very important; and visits to comparable schools are certainly informative.

7. Do you feel that some definite procedure for the consideration of school personnel grievances should be set up?

A grievance committee composed of school personnel would be acceptable to me.

HUNGER STRIKES—A group of Cuban rebel sympathizers, escorted by officers, are taken from a Brownsville, Tex., jail where they have been on a hunger strike for 6 days. The group joined others being hospitalized from the effects of the strike. The band of men vowed not to eat since their capture while trying to run a boat loaded with arms and ammunition to Cuba. (AP Wirephoto)

Cuban Rebel Sympathizers End 7-Day Hunger Strike

By BILL GIBSON

BROWNSVILLE, Tex. (AP) — Thirty-five Cuban rebel sympathizers have ended a seven-day hunger strike they said was a protest against the United States' shipment of arms to Batista forces in Cuba.

U.S. Marshal James McCarty said the men ended their strike last night after they were informed the U.S. had halted a recent shipment of arms to government forces in Cuba and four of their leaders were returned to Brownsville from Corpus Christi and Edinburg.

The State Department Monday said it had stopped a shipment of 1,950 rifles to the Cuban government forces.

Last night they took their first food since their arrest in a predawn action by the Coast Guard last Thursday. The men, armed and uniformed, were arrested when their converted fishing boat was rammed off the coast from Brownsville. Authorities said about $20,000 worth of arms and ammunition were taken.

Arrested with them was their contact man, and four crew members.

The 35 were jailed, but immediately began a hunger strike. Their leader, Arnaldo Barron, said the fast was in protest of U. S. arms shipments to Cuba.

When they ended their fast last night, groups in New York and Miami, Fla., on a hunger strike in sympathy with them, also took food for the first time in two to five days.

In Mexico City, eight Cuban exiles were arrested for staging a hunger strike in front of the U.S. Embassy.

Only 17 of the original 35 were still in the Cameron County jail when the hunger strike ended. Eighteen others were in a hospital because of their weakened condition.

Barron and three others were transferred to Corpus Christi and Edinburg Tuesday night, but returned Wednesday. No reason was given for the transfer.

The 35 are charged with conspiracy to violate the U. S. Neutrality Act.

New Drug Helps To Fight Cancer

By ALTON L. BLAKESLEE
AP Science Reporter

MADISON, Wis. (AP)—A new drug born for its job is fighting against human cancers with some success here.

It is not a cancer cure.

It has kept a couple of far-advanced cancer patients alive for a year or more, and helped some others. It has made some cancer shrink, and some disappear for a while.

It has failed to help other patients. It usually produces harmful and undesirable reactions while it is producing its good effects on cancers of the breast, intestines or some other organs.

Still in early stages of human testing, it might later be administered more effectively. Chemical tailoring might make it safer and more potent against cancer.

A significant fact is it was intentionally designed from the start to strike back at cancers. And it was a fine example of modern cooperative research of scientists and physicians.

The drug, named 5-fluorouracil, was described today to science writers making an American Cancer Society tour of research institutions.

Father of the drug is Dr. Charles Heidelberger, biochemist of McArdle Memorial Laboratory of the University of Wisconsin.

He had observed that cancer cells use up a chemical, uracil, faster than healthy cells. His idea was this: create a poisonous form of uracil which would kill cancer cells.

This was done in collaboration with Dr. Robert Duschinsky of Hoffman-La Roche, Inc., Nutley, N.J.

When it proved successful in mice, the next step was human trials, now under way.

210 Surety Firms Okayed

AUSTIN (AP)—More than 210 insurance companies have received licenses to operate in Texas this year, Insurance Commissioner William Harrison said yesterday.

"We got an early start this year and are moving faster than last year," Harrison said. Less than 10 companies had been relicensed at this time in 1957.

About 1,900 companies now operate in Texas. All will have to be relicensed by the May 31 deadline, Harrison said.

"To get more economy of operations, several companies have merged this year and others plan to," he said. About 14 joined forces at the end of last year and about the same number also have consolidated operations in 1958. About 16 other companies have merger applications pending, Board of Insurance records show.

Gary Plans Fight For Guard Unit

OKLAHOMA CITY (AP) — Gov. Raymond Gary is ready to battle for the 45th National Guard Division of Oklahoma.

He wrote a strongly-worded letter to Secretary of the Army Brucker, yesterday saying it is "unthinkable" that the 45th Infantry Division be eliminated through a reorganization move.

The letter was in answer to one from Brucker which said six of the 27 National Guard divisions throughout the nation would be dissolved in a consolidation program during the next 2½ years.

Brucker did not specify which divisions that are doomed but Gary said the 45th has the smallest enlistment—about 7,000 men—of any of the state divisions, and therefore is vulnerable.

"It is my reaction that certain planners in Washington have no idea of what the 45th Infantry Division means to Oklahoma and to the 77 communities in which it resides, not to mention its value to the state at all times and its value to national defense in times of emergency," Gary wrote.

He detailed the division's service in World War II and the Korean War, and said "to me it is unthinkable that this division would be eliminated..."

Jayene's Ex-Spouse Protests Voyage

LOS ANGELES (AP)—Jayne Mansfield's ex-husband doesn't want the actress to take their daughter to England while she makes a movie.

Paul J. Mansfield asked court permission for temporary custody of Jane Marie, 7, when the actress leaves for Europe April 26. Mansfield, who lives in Chattanooga, Tenn., with his second wife, also asked that he be permitted to have the child for six weeks each summer.

The actress, now married to actor Mickey Hargitay, previously had asked permission to take the child out of the country.

A hearing was set for April 16.
