

# BANDITS ROB TRAIN IN CALIFORNIA

## Community Chest Budget For 1931 Is Set At \$25,750

Goal for the 1931 budget of the Lubbock Community Chest was set by directors of that organization, sitting as a budget committee Thursday night, at \$25,750. All of the agencies except the charitable agencies were reduced from the past year.

The meeting was a friendly "battle royal" with all of the agencies participating appearing before the board at the same time, where the needs of each was freely and frankly discussed.

A sharp paring knife was used on all requests, following by a "sand-papery" of rough edges, so that more than \$8,000 of the total amount sought by the different agencies, was lopped off. To show the fine spirit manifested by the several groups, one representative of an organization, after his budget had been slashed \$1,100, suggested "take another \$400 off."

Requests of "character building" agencies in the community chest were cut in order to apply aid to those agencies which provide actual help for the unemployed, needy, sick and others who need charity, it was explained.

The Boy Scouts were given \$4,000, which is approximately \$725 less than they received last year. The Camp Fire girls were allowed \$2,200, which was \$162 less than they operated on last year.

The Y. M. C. A. and the Y. W. C. A. together were given \$4,500, which was \$1,000 less than they asked.

The Salvation Army was allowed \$3,000, which was approximately \$1,200 under their request. Charities Get \$16,000. The United Charities was given \$10,000, which was \$3,400 under their request.

Amounts allowed the Salvation Army and the newly organized United Charities are an increase over the amount allowed the Salvation Army and Red Cross last year. It was felt, not only by the directors of the chest, but by representatives of the other organizations that because of unemployment situation and the great need confronting the community to care for the poor that they should be helped financially.

Expenses Allowed \$16,000. The sum of \$1,800 was placed in the budget to pay all expenses of the campaign that is just starting and also to cover operating expenses of the next twelve months.

It is the consensus of all persons in a position to know that even with the budgets allowed the Salvation Army and the United Charities that great care will have to be exercised in the spending of funds over the spread of twelve months period if many cases similar to that of the Casey case are not to confront the people.

Charities Backed. The United Charities, recently organized to handle the work formerly handled by the Red Cross, has

## Provence Found; Wanders Again

### MISSING MAN IS REPORTED AT CROCKETT

Dr. E. W. Provence, president of Burleson College at Greenville, who had been sought since his disappearance in Dallas Monday, again apparently had wandered away.

He left the hotel early today telling guests, with whom he played several games of dominoes that he probably would go to Palestine.

Guests at the hotel said he talked over long distance telephone with Fort Worth before he left.

A party drove out the highway towards Palestine in search of the college president, but did not find him.

Dr. Provence appeared at the home of P. E. Walden, who operates a dairy in the edge of town, late yesterday afternoon, announced his identity by showing some credentials he carried, and helped Walden milk his cows.

"I saw at the outset that the man was refined and cultured," Walden said. "I did not know of

### FINAL BALLOTS COUNT GIVEN

ELECTION BUREAU HAS TABULATION ON THE TEXAS ELECTION

DALLAS, Nov. 7.—The Texas election bureau announced last night its final tabulation of votes in Tuesday's election, showing a total vote counted of 200,180, from 190 counties out of 253, including 20 complete, A. F. Henning, director of the bureau, said probably 100,000 votes were left uncounted but they were not expected to change the proportionate leads already established.

The tabulation follows: Constitutional amendments: Legislative terms—For, 90,067; Against, 43,710. Legislative salaries—For, 82,592; Against, 53,259. Supreme court—For, 97,249; Against, 40,111. University investments—For, 87,935; Against, 48,011. University land tax—For, 93,565; Against, 42,495.

For Governor—Roes S. Sterling, Democrat, 162,418; William E. Talbot, Republican, 57,771.

### Oklahoma Woman Is Drowned In Gulf

GALVESTON, Nov. 7.—Mrs. Gray Leville, 40, of Tulsa, Okla., a passenger on the Mallory liner, Mohawk, drowned about 10 miles out from Galveston early today. The steamer recovered her body after a search of about 30 minutes.

### Greenville Woman Freed Of Murder

GREENVILLE, Nov. 7.—Mrs. Bertha Gambrell was acquitted of a charge of murder in connection with the death of her husband today, when a jury returned an instructed verdict of not guilty.

## G.O.P. ONE MAN AHEAD

### BROOKHART TO BE IN LINE WITH DEMOS

### IOWA SENATOR SAYS HE IS FOR PARTY WHICH DOES SOMETHING

WASHINGTON, Nov. 7.—Senator Brookhart, Republican, Iowa, said today he would support the Democratic organization of the new senate if that party would sponsor a legislative program which he considered satisfactory.

He said the election just held was to amount to anything the Democrats and progressives should demand the resignation of Secretary Mellon and of Ogden Mills, under-secretary of the treasury.

"If the Democratic victories do not mean two-deedle dum," Brookhart said, "I, for one, will not let organization of the senate stand in their way and will gladly give them the organization to get results."

"I will not do this as a political move, but will gladly do it to correct the evils of Mellonism which have brought us to our present conditions."

The Iowa senator said he thought Senator Shipstead, Farmer-Labor, Minnesota, took his attitude and that other progressives felt the same way. He added that the Democratic program must "mean something" to get his support and most not merely be a continuation of present policies.

An extra session of congress was advocated by Senator Brookhart unless the export debenture

### CHAIN GANG IN AREA URGED

PEACE OFFICERS TAKE ACTION TO CUT OUT HOBO, HITCH-HIKING

(By The Associated Press) SWEETWATER, Nov. 7.—Convicted that the only practicable way of discouraging the increasing number of hoboes would be widespread adoption of the chain gang system, peace officers of West Texas planned today to request commissioners of their counties and towns to adopt this system. They voted unanimously to do so at a meeting here yesterday.

They also agreed to urge motorists to "let the hitchhikers wait." Action of city authorities on the proposal will be forwarded this month to Police Chief W. R. Sibley of Abilene, named, chairman of the area extending from Ranger west to El Paso and from Plainview south to Coleman.

Sheriff Wade Hardy, Chief Deputy O. B. Conley and Chief of Police Lemond were the Lubbock officers at the meeting. They returned today, highly in favor of the plan advocated at the session.

(By The Associated Press)

### YOUTH SEEKS ANOTHER FLIGHT MARK

Having lowered the east-to-west junior transcontinental record of Robert Buck by nearly four hours, 18-year-old Stanley Boynton of Lexington, Mass., now plans to beat that on his return trip, Boynton is shown (below), as he stopped his plane at the Los Angeles municipal airport with a mark of 34 hours 2 minutes for the east-to-west flight. He is being greeted by Ann Forbes, wife of one of the sponsors of his trip. Today the youth was on his way to Detroit, having flown from Amarillo to Wichita, Kansas, in two hours and ten minutes.

### Texas Tech Students To "Top 'Em Out" Tonight In First Annual Rodeo

Bucking horses, wild buffalo, vicious steers, frisky goats and ambitious students playing the role of cowboys will make their appearance on the campus of Texas Technological college tonight in the first presentation of the Annual Aggie Rodeo. The first event of the rodeo is to begin at 7:30.

With all the stock entered in the contests on the grounds and students primed for action, only the first event is awaited to turn the evening into one of hilarity. The affair is being staged by students of the school of agriculture and proceeds go to financing the expenses of the judging teams to contests in Kansas City and Chicago.

Williams Manager Jim Williams, Lubbock, is in charge of the rodeo in which more than thirty students of the college will take part. Judges are O. A. Lambert, former manager of the Pitchfork ranch near Spur, Horace Ryan, range boss of the 6686 ranch near Post and Dan Perrin of Spur.

Activities of the rodeo will get under way this afternoon with a parade through the downtown streets of Lubbock and at the football game between Quannah and the Lubbock high schools at Tech field.

The crowning of Miss Kathleen Harman, of Lampasas, as "La Reina del Rodeo" is included in tonight's program. Her two ladies-in-waiting are Vonnie Otkerson and Ota Reeder.

Have 15 Wild Horses Fifteen wild horses have been secured from the Johnston ranch near here to be used in the bronco riding and such names as "Hell To Set," "Dynamite," "Easy Money," "Graveyard Agony," "Midnight" and "Funeral Wagon" will be read out as the boys attempt to "top 'em out" for the prizes offered to the winners.

Other events on the rodeo program which will also be staged Saturday afternoon and night include goat and calf roping, bulldogging, steer riding, wild buffalo riding, bronc riding, roping from a bantam car, range relay and wild horse race.

Sufficient lights have been installed to insure plenty of illumination for the contests.

Church Man Found Guilty Of Charges RICHMOND, Va., Nov. 7.—James P. Jones, member of the general assembly and prominent church member, was convicted today of embezzling funds of the Virginia Methodist orphanage while serving as its treasurer and sentenced to five years imprisonment.

### DEMO CHANCE ON CONTROL HAMPERED

Democratic prospects for control of the house were destroyed today with the re-election of Representative Vestal, Republican, Indiana, which on the basis of returns to date, gives his party a total of 217 seats.

Barring overturns caused by recounts and contested elections, the

### How They Stand

Associated Press returns compiled to 11:30 a. m. (est) on the contests for the 35 seats in the new United States senate showed: Republicans elected 14; holdovers 34; total 48; Democrats elected 21; holdovers 26; total 47; Farmer-Labor elected 9; holdovers 1; total 10; necessary for a majority 49; Republicans gain 1 (Iowa); Democrats gain 9 (Colorado, Illinois, Kansas, Kentucky, Mass., Ohio, Okla., S. Dakota, and West a. Democratic net gain 8.)

Associated Press returns from congressional districts at 11:45 a. m. (est) on contests for the 435 seats in the new house of representatives showed: Republicans elected 217; present congress 260; Farmer-Labor elected one; present congress one; still doubtful one; necessary for a majority 218.

most of the Democrats could hope for was a tie with the Republicans at 217 seats each, Representative Kvale, Farmer-Labor, Minnesota, holding the deciding ballot.

The contest between Representative Richard Yates, Republican, and Walter Nesbit, Democrat, for congressional at-large from Illinois was still classified as doubtful, but Yates was holding a lead of over 1,000 votes with 89 precincts missing.

Vestal's victory over Claude C. Ball was by the narrow margin of nine votes. The Democratic national committee had previously announced it would not accept such close figures as final and a contest was indicated.

### James Potts Wins Trip To Chicago

James Potts, Canyon community youth and a student at Texas Technological college, was awarded one of the 19 trips offered by the Santa Fe to 4-H club boys in Texas to the International Livestock show at Chicago, D. F. Easton, county agent, was advised today.

Potts won his trip for his daily production work as a member of the 4-H club of his home community. The show starts November 29.

(By The Associated Press)

### TRAINBOARDED AND HALTED BY ROBBERS

CASH TOTALING NEAR \$50,000 BELIEVED TAKEN IN HOLDUP

(By The Associated Press) OAKLAND, Cal., Nov. 7.—Southern Pacific passenger train Number 36, bound from Oakland to Tracy, California was held up by five armed men at Nobel today and robbed of an undetermined total of cash and valuable mail. The amount was reported variously at \$40,000 to \$55,000 in cash and ten to fifteen bags of registered mail.

Nobel, a small settlement a few miles north of Berkeley, is not a regular train stop. A man boarded the train at Berkeley as a passenger and held up the engineer and fireman at Nobel and stopped the train. There he was joined by four other men waiting in a motor car. While one man held train officials at bay, the others rifled the mail and baggage car.

The sedan carried two mounted machine guns. One of the robbers had a shotgun and the others carried automatic pistols. After taking all they considered of value they escaped in the automobile.

Roads Closed. Peace authorities broadcast an appeal for aid and closed all roads for miles around. On the train was reported to be \$40,000 to \$55,000 in cash consigned by the Federal Reserve bank in San Francisco to the American Trust company branch in Pittsburgh for the Columbia Steel works there to use in meeting its payroll.

### CARNIVAL MAN FOUND DEAD

W. B. BOYD DISCOVERED BEATEN TO DEATH WITH HAMMER

(By The Associated Press) HOUSTON, Nov. 7.—W. B. Boyd, 25, operator of several concessions at the Houston Texas exposition, was beaten in the head with a claw hammer while he slept early today. Police were at loss for a motive. Boyd, it was said at the hospital, was believed to be in a dying condition.

He was found unconscious lying on his back on an army cot by C. L. Casiday, one of his employees. Boyd's skull was fractured and his head badly beaten.

Hammer Nearby. On the ground nearby was a bloody hammer. A key ring, also found lying on the ground, were the keys to Boyd's trunk and automobile. In the trunk officers found \$190.10 in money and a watch with a \$20 gold piece for a charm.

Investigators also found a bottle containing whiskey on the ground. Carnival workers, some of whom have known Boyd for years, said they had never known him to drink intoxicants.

### Explosion In Mine To Cost Ohio Much

COLUMBUS, O., Nov. 7.—The explosion at Millfield Wednesday in which 79 persons were killed and 20 injured, will cost the state of Ohio between \$600,000 and \$750,000, the state industrial commission estimated today.

### Woman Says Hubby Burns Her In Bed

JERSEY CITY, N. J., Nov. 7.—Mrs. Elizabeth Shively, 58, died in a hospital today from injuries shortly after being rescued from a flaming bed in her home. She told police her husband applied a torch to the bed while she slept.

### Ten Men Are Freed For Lynching Negro

WALAHALLA, S. C., Nov. 7.—A Superior court jury today acquitted ten men on trial for murder as a result of the lynching of Allen Green, negro, last April 24.

Seventeen originally went to trial, but seven had been freed by directed verdict. The entire group, which included Wadhwa's Mayor, R. B. Wallentine and Policeman Alvin Jones, was also acquitted of charges of conspiracy to murder and assault with intent to kill.

Green was charged with criminal assault upon a white woman.

### GIRL DIES FROM HICCOUGHING AFTER MORE THAN YEAR OF SUFFERING; HER CASE BAFFLED NATION'S PHYSICIANS

(By The Associated Press) MT. CLEMENS, Mich., Nov. 7.—The best minds of the medical profession and the volunteer aid of hundreds of persons who offered home remedies failed to save Virginia Mae Coppins, 19-year-old high school girl, who is dead here of the hiccoughs after more than a year of suffering from the malady.

In September, 1929, she was seized with her first attack while in a hospital for an operation. The malady apparently was checked after 33 days of almost constant hiccoughing. During one of her attacks in succeeding months she was visited by thousands of physicians who were in Detroit to attend the national convention of the American Medical Association. Her case was studied by no less than 5,000 medical men.

Brings Death. Four weeks ago an attack began which lasted two weeks, and the attack which brought death yesterday began a week ago. During her final fight against the baffling malady, her temperature reached 107, with a pulse of 140 and respiration of 40.

The hiccoughing was caused by a spasmodic contraction of the diaphragm brought about through the peculiar reaction of a nerve. Physicians believed that an operation might bring relief but did not perform one because of the girl's generally delicate health and a weak heart which induced inflammation of the brain.

During the girl's illness her parents received hundreds of telegrams and letters from persons who offered "sure cures" ranging from sudden fright to liberal dosage of stuff, salt, sugar and raw clay. One man came in a taxicab from Cleveland to her home in east Detroit with a patent medicine he was certain would cure her.

### CAPITAL DEB

It will be a beautiful season in Washington society if there are many debutantes like comely Dorothy Fell, below. She is a daughter of Mrs. Ogden Mills, wife of the Undersecretary of the Treasury, and is to make her debut at the capital this year.

### GARRETT PLAN IS ENDORSED

EXECUTIVE COMMITTEE OF STATE BANKERS FAVOR ACTION

(By The Associated Press) DALLAS, Nov. 7.—The Garrett plan for cotton acreage reduction, which would restrict credit to those farmers and land owners who agree to cut cotton acreage 25 per cent below this year's plantings was endorsed here yesterday by the executive committee of the Texas Bankers' association.

(By The Associated Press) NEW ORLEANS, Nov. 7.—Two mortal political enemies, Governor Huey P. Long, and Lieut. Governor Paul N. Cyr are to make a trip out of the state together and will sleep together to make sure that there is not put anything over on the other.

Governor Long had promised his followers that Lieutenant-Governor Cyr would never become governor for a minute while he was in office. But Long was anxious to attend the meeting in St. Louis, and if he went out of the state, Lieutenant-Governor Cyr automatically would become governor.

The governor mentioned his predicament in the presence of the lieutenant-governor. Cyr suggested that the problem could be solved by both going together.

"Fine!" said the governor. "And I think that it would be best if we bunked together. We don't want to get out of each other's sight."

When they go, Alvin King of Lake Charles, president pro tempore of the state senate will be governor during their absence.

(By The Associated Press)

### CAPTAIN HAWKS BREAKFASTS IN NEW YORK AND DINES IN CUBA, THURSDAY

(By The Associated Press) HAVANA, Nov. 7.—Cuban airmen believed today that Captain Frank M. Hawks, who breakfasted yesterday in New York and dined last evening in Havana, had set a record for flight between the two cities which will be hard to beat.

Setting out from Curtiss Field, Long Island, at 8:50 a. m. (E. S. T.) Captain Hawks, who holds most of the major American long distance speed records, flew southward along the Atlantic seaboard, and crossing to Cuba from the Florida peninsula, arrived here at 2:11 p. m., 9 hours and 21 min-

utes after his departure. He estimated that, allowing for a 25-mile headwind, he averaged almost 182 miles an hour for the trip, for which he used a small mystery monoplane bearing the name "13". His actual flying time was 8 hours and 38 minutes. There were two stops en route, one of 23 minutes at Jacksonville and one of 20 minutes at Miami.

He beat by nearly 5 hours the previous record of 14 hours, set March 4, 1928, when the late Wilmer Stultz flew here with Charles Levine and Miss Mabel Boll in a non-stop trip in the airplane Columbia.

# OPERA SINGERS SCORE HIT IN CONCERT

## POPULAR OPERAS GIVEN IN 2ND NUMBER OF TECH PROGRAMS

Before a packed house in the grand ballroom at Texas Technological college last night, a quartet presented the second number of the annual Tech artist's course and more than pleased the huge audience that listened for the two-hour program.

All four singers were pleasing in their stage presence as well as their voices and the selections from standard, popular operas were well rendered. English selections were used for encores.

Marie Tiffany, soprano, who early in her career sang with the Metropolitan Grand Opera Company in New York and Louise Bernhardt, American born contralto, were the feminine members of the quartet. Enzo Alta, the tenor and Giuseppe Martini-Rossi, baritone, carried the male leads.

The accompanist, Samuel Schaefer, made equally as good a job with the audience by the accuracy of his work and the complete mastery of the piano.

### Well Known Selections Given

For the first part of the program selections from "Martha," "Madame Butterfly," and the well known and ever popular "Sextet from Lucia" as well as several selections from other operas were given. "Spinning" and the "Sextet" were the quartet selections, with Puccini's "Flower" from "Madame Butterfly," "Duet" by Tiffany and Bernhardt, "Una Partita Lantima" and "Un di all'Asurro Spazio," were the tenor selections by Alta, "La Ci Daren La Mano" by Mozart, was a soprano-baritone duet.

The second part was in costume, with Bernhardt suggesting in a Spanish costume and the men in doublet and hose.

### Encores Popular

The numbers included the prologue from "L'Esquivalor," "Il Pagliaccio" a baritone solo, followed by a Neapolitan song composed especially for Caruso, "Hababera" and "Seguidilla" were two splendid contralto solos by Bernhardt. Her encore numbers were "Oh, Dear, What can the Matter Be," and "Call Me No More," both popular with music lovers.

A tenor-baritone duet, "Solemn in Quest' Ora" by Verdi gave evidence of the complete harmony of voices of the two men.

Miss Tiffany sang "Fors' Arriver" by Mozart and "Dich Teure Heile" from "Tannehauser," Wagner's noted opera gave the first encore, "No Sir" and "By the Light of the Moon."

"Bella Figlia" from Verdi's "Rigoletto" was the closing presentation of the quartet.

High praise was given the four singers and their accompanist for the program. Martini-Rossi's voice and stage presence called to mind the many appearances of Caruso, especially when he sang the composed especially for that artist. Miss Bernhardt's voice has rich, vibrant tones and unusual strength and she has promise of a career that will carry her far in the music world. Miss Tiffany also has a voice of beauty and strength and her work will be long remembered. The music filled the entire room and her charming personality added to the pleasure. Alta, tenor, has a splendid voice range and his numbers offered a vehicle to show his ability as a soloist.

## After 57 Years

It was 57 years between visits. But Thomas Rafferty, New York lawyer, came back to the White House the other day to repeat a call he paid on President Grant in 1873. He is pictured here as he left the executive mansion.

## SATURDAY WILL BE POPPY DAY IN LUBBOCK

### MEMBERS OF AUXILIARY TO SELL FLOWERS FOR SOLDIERS

Saturday has been designated as poppy day throughout the United States and five booths will be arranged in the downtown district, from which poppies will be sold by members of the American Legion auxiliary.

These red flowers are to be worn on Armistice Day in commemoration of the men who died on the poppy-studded fields of France and Belgium during the World War and they symbolize a remembrance of their sacrifice.

**Gives Employment**

Making the poppies gives employment to hundreds of disabled men throughout the winter who otherwise would be unable to earn anything toward the support of themselves or their families.

The funds derived from the poppy sale constitute the largest source of revenue for the rehabilitation and child welfare work of the American Legion and Auxiliary. The dimes, quarters and dollars dropped into the contribution boxes tomorrow will enable the local post and unit to aid those of other cities in carrying out a constructive program of aid to the disabled and to the dependent families of veterans throughout the year.

A form of talking picture with motion originated in China more than a century before the Christian era. This was the shadow play with parts of the drama read by unseen persons.

## COMMON COLD TRANSMITTED BY VIRUS SO SMALL THAT EVEN MOST POWERFUL MICROSCOPE FAILS TO POINT IT OUT

**By The Associated Press**  
BALTIMORE, Nov. 7.—The common cold, research of more than two years by a corps of specialists at the Johns Hopkins medical school has established, is transmitted by a disease-producing virus so small it defies the most powerful microscope. This virus, present in the nose of a person suffering from a cold,

passes through the finest filters, and it is impossible to make it grow in the laboratory, according to Dr. James A. Deull, formerly director of the Johns Hopkins research, and Dr. Ferrin H. Long, now of the Johns Hopkins faculty.

The finding is the first definite announcement to come out of the research, supported by the \$188,000

John J. Abel fund established early in 1928 by the Chemical Foundation, Inc. It is made in the current issue of the proceedings of the society for experimental biology and medicine.

If the virus could be made to grow in a laboratory tube the hope of developing a vaccine would be nearer.

A hotel on the island of Hawaii is to be heated with natural steam from Kilauea volcano. The steam will be conducted to a boiler, where it will heat water that will flow into pipes in the hotel.

Willie M. Matthews, 37, blind 34 years, is champion cotton picker at Lafayette, Ga.

## .. another expert chooses Crisco for all frying and shortening purposes

Thousands of women who attended the recent Cooking School in this city saw how Crisco helped Mrs. Leona Rusk Ihrig to get better results—to make better-tasting fried and baked foods.

We were interested to learn that most other cooking experts use and prefer this shortening for all purposes, too.

Since the school, many of our customers have been using Crisco and have told us how much they like it. This so impressed us that we have decided to feature Crisco this week, in order that all of you may learn of its many superior qualities.

### Special for this week only

The Opening Saturday, November 8th of the

## Titman Egg Corporation

Downtown Retail Station

### 706 Broadway

A large stock of choice, fresh eggs and poultry will be carried in stock, ready for immediate delivery. Also turkeys for Thanksgiving.

We will also carry a full line of Wonder and Arcady Dairy and Poultry Feeds.

Phone in your needs.

## TITMAN EGG CORPORATION

## PRODUCE DEALERS FOR SOUTH PLAINS ANNOUNCE PRICES ON TURKEY MARKET

Produce dealers over the territory of which Lubbock is the center have announced their prices for turkeys for the Thanksgiving season, it was announced late yesterday. The prices will likely govern all purchases on the South Plains

for the Thanksgiving season. The following are the announced prices: No. 1 young toms, 14 pounds or over, 12 cents; No. 1 young hens, 14 pounds or over, 12 cents; No. 1 old toms, seven cents; No. 2 or light weights, six cents. Dressing of the birds is expected to begin today and by Sunday the first car load will be shipped out. Last year about 70 cars were shipped for the Thanksgiving season and 140 for the year. Of this Lubbock alone sent about 45 cars in November and 90 for the entire season.

Birds are to be dressed in other towns aside from Lubbock and will be shipped direct from those towns to eastern markets. Shipments will be in refrigerator cars.

### CHURCHES PLAN THANKSGIVING SERVICE

SERMON TO BE GIVEN  
AT FIRST METHODIST  
BY CAMPBELL

A Thanksgiving service with all the churches of the city united will be held at the First Methodist church on Thanksgiving night. It was announced today, following a meeting of the association of Lubbock pastors yesterday. Rev. R. C. Campbell, pastor of the First Baptist church, will preach the sermon. The ministers also voted to cooperate in every way possible in the observance of boys week here and the entertainment of the Older Boys conference which will be held here next month. It was voted to postpone the Father and Son banquet until February 8 on account of so many activities in the city at the present time.

### COLLEGE GETS TWO CALVES

MARFA BREEDERS GIVE  
REGISTERED HEIFERS  
TO TEXAS TECH

Two registered Hereford heifers were received by Texas Tech today, gifts from F. A. Mitchell and Son and F. C. Mellard, Marfa Hereford breeders. The animals will be added to the Hereford breeding herd of the college which now totals seventeen. All but six animals of the herd have been donated to the college by interested breeders, two having been

### TASTY CEREAL HELPS STOP CONSTIPATION

Did you know that you can overcome constipation by simply eating a delicious cereal each day? Read this enthusiastic letter from Mrs. Kell:

"I have found Kellogg's ALL-BRAN a wonderful regulator for the stomach. After using it my family and I certainly will not be without it. I have even gone so far as to send some of it to my mother in Poland, Europe."

Mrs. Anna Kell, 11 Walnut Terrace, Newark, N. J.

How easy to prevent constipation by eating Kellogg's ALL-BRAN. Two tablespoonfuls daily. In stubborn cases, serve with each meal. Do this and banish pills and drugs from your life. Delicious with milk or cream, fruits or honey added. Cook into bran muffins, breads, omelets, etc. Kellogg's ALL-BRAN also adds needed iron to the diet. Made by Kellogg in Battle Creek.

purchased and four others raised from donated cows. The two heifers received today were personally selected by W. L. Stangel, head of the department of animal husbandry and W. T. Gaston, business manager of the college, while they were in attendance at the Highland Fair at Marfa recently. Mr. Stangel judged in the fair. The heifers are considered 'tops' of this season's crop. Mr. Stangel said today, in speaking of the donation.

### FLASHES OF LIFE As Brought Over Associated Press Wires Today

**Out For Fun**  
HALIFAX—Just for pleasure are three men in a boat bound from Bronson, Mich., for Hamburg, Germany, which they hope to reach by Christmas. In the 20-foot steel motor boat KARK A-2514, Joseph Leppich, August Kubatoo and Christian Brato came to Halifax via the Great Lakes, the New York state

large canal and the Atlantic. Fortwith they set out for St. John's, N. F., and Ireland.

**Another Sailor**  
NEW YORK — Rafael Colorado has sailed from Porto Rico to New York in a 30-foot sloop on his way to request the Queen of Spain to induce Great Britain to cede to Spain the bit of San Salvador which Columbus first touched.

**Some Trip**  
LOS ANGELES—One can motor across the country in about five times the time it takes to fly. Cannonball Baker has driven a car from New York in 40 hours, 31 minutes, which he says is 6 hours, 47

minutes faster than anybody else ever did it.

**Two Weeks Left**  
NEW YORK — George Grey Barnard, sculptor, fears that only two weeks are left in his career. He has received notice to vacate his studio "God's Thumb," a cliff overlooking the Hudson in upper Manhattan. The land was given by John D. Rockefeller, Jr., to the city for a park. Barnard has had his studio there 15 years. It took him long to get the lights perfect, he says, and he is too old to start again—therefore some masterpieces will be unfinished.

Chemists regard the black diamond as the hardest substance known to science. It is considerably harder than the ordinary diamond.

## The FRYING PAN asks a favor...

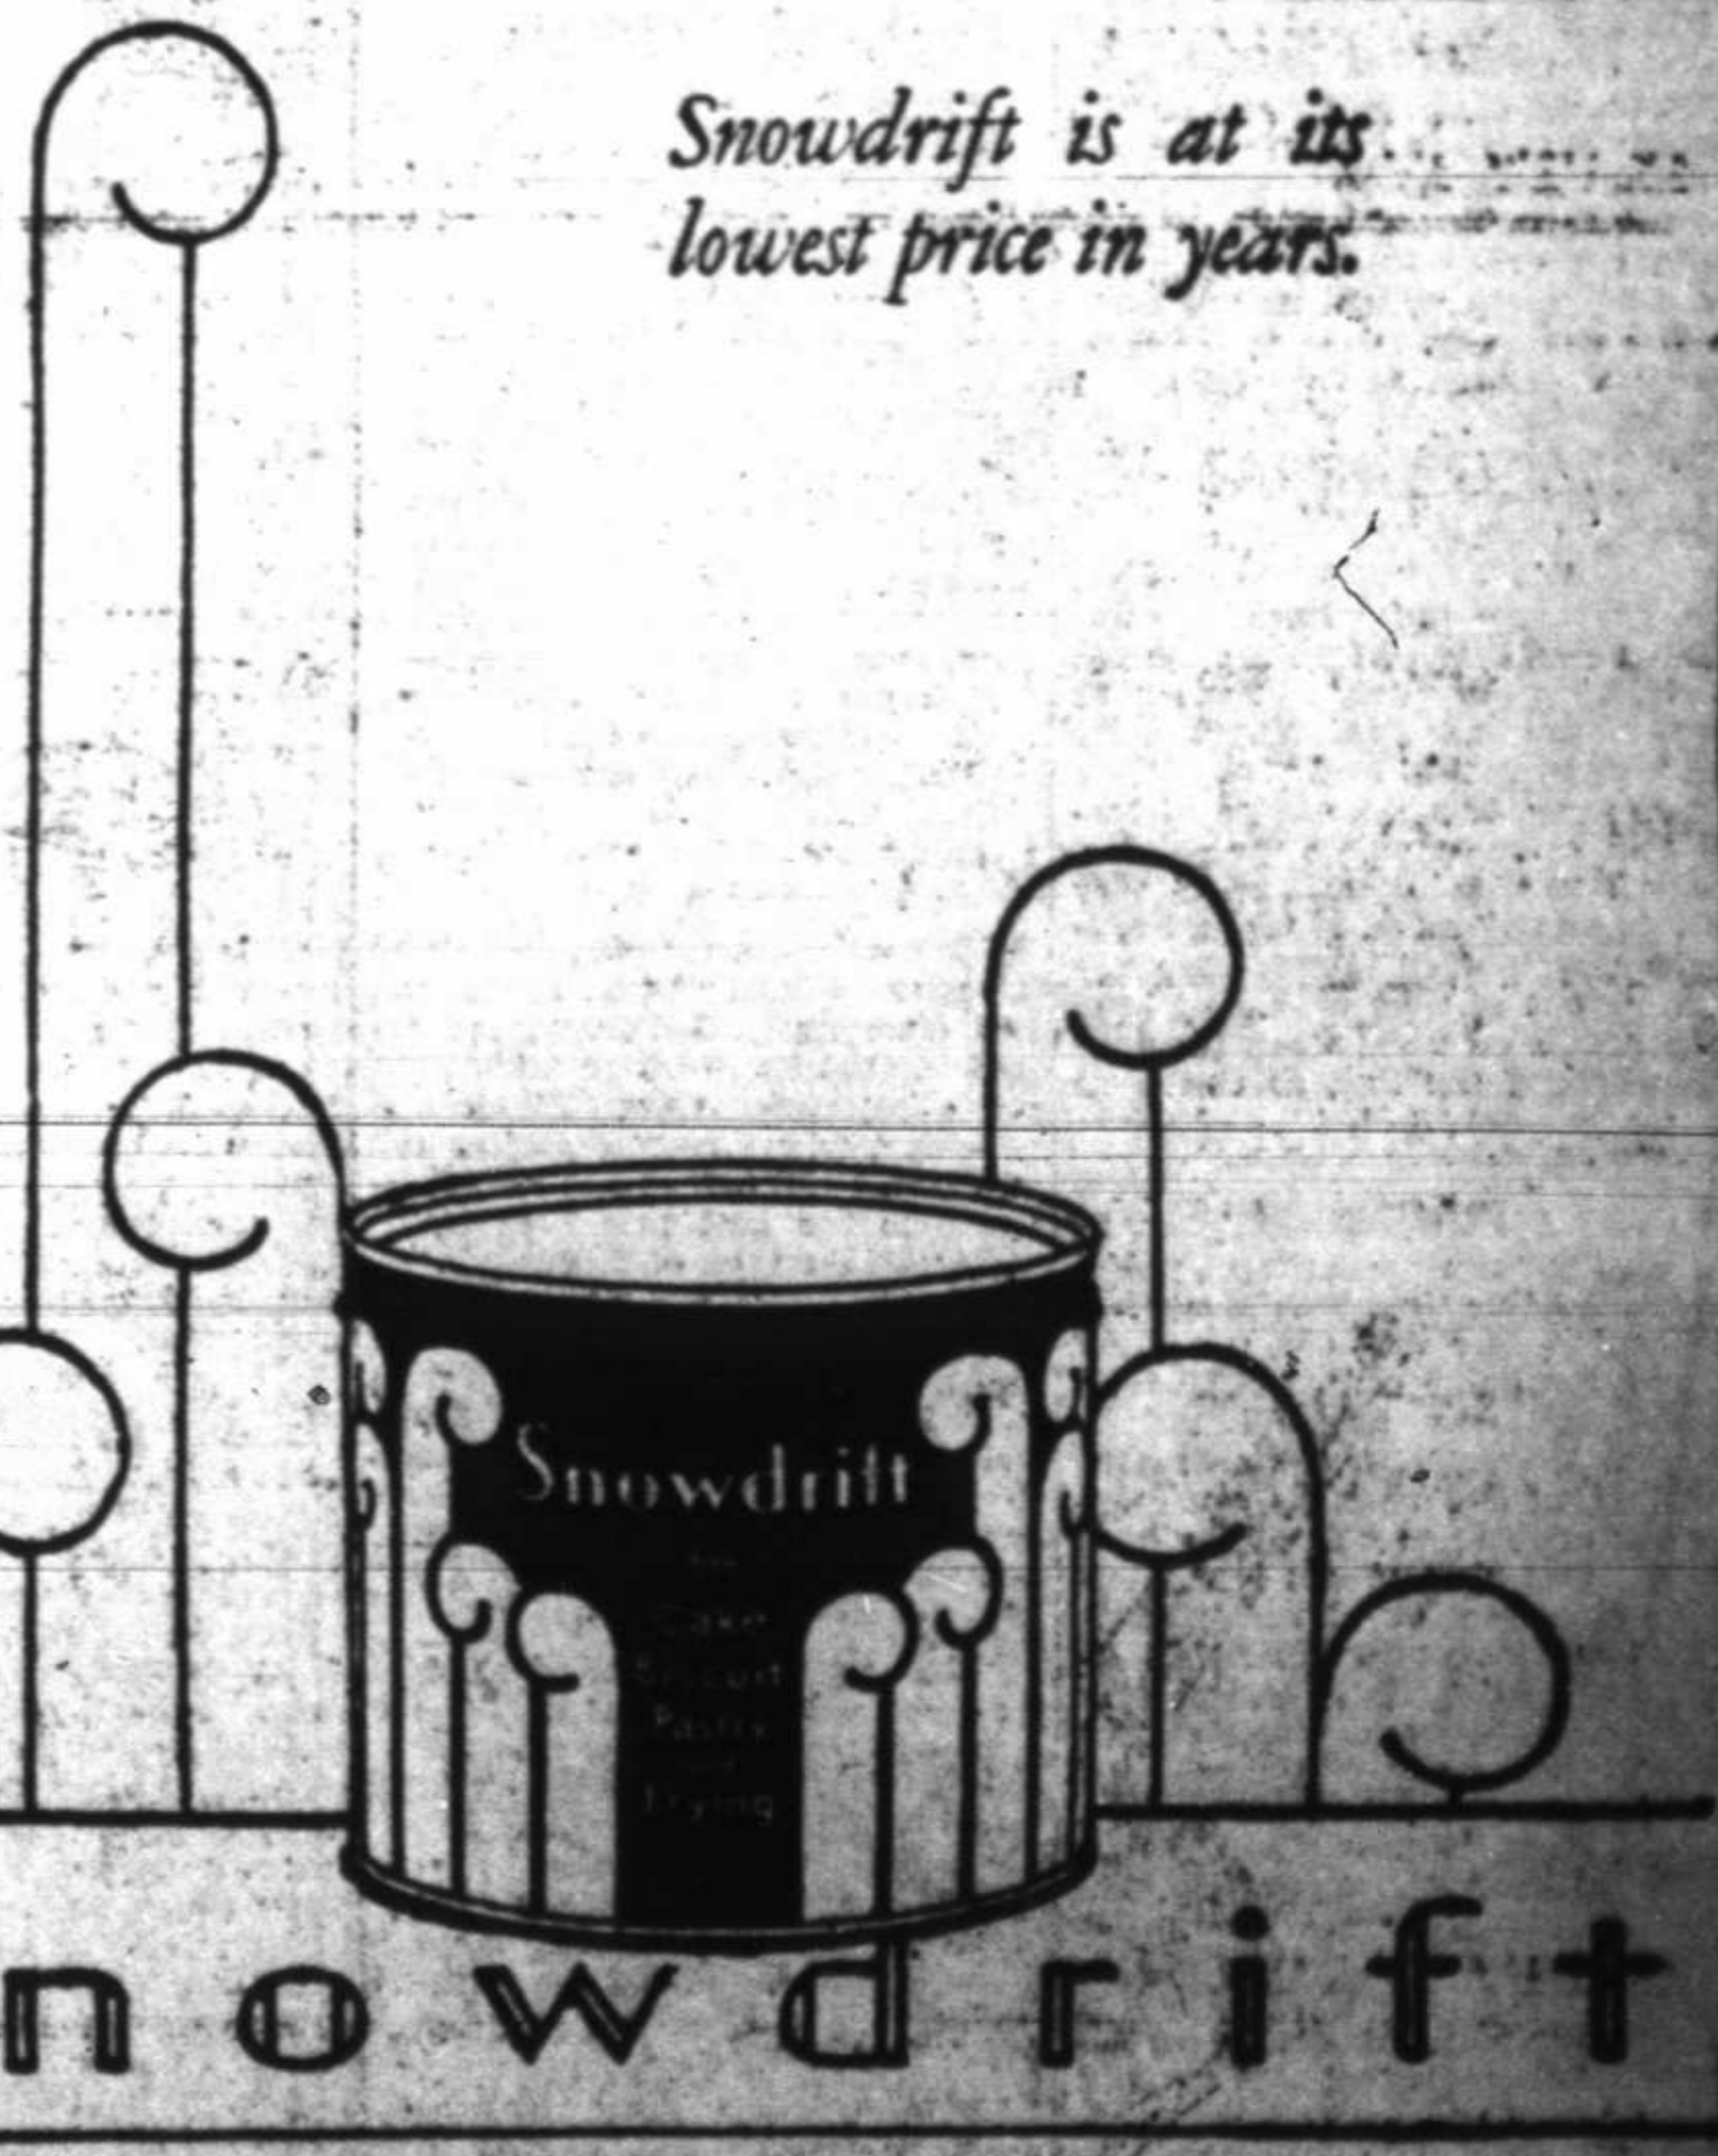

"Give me a chance to do my best work for you. Give me the opportunity you have given my friend, the cake-pan. I can fry food wonderfully good-to-eat, if you'll give me the right things to work with.

"For instance, you use the best ingredients when you make a cake... fresh eggs, rich milk, Snowdrift. But you are likely to use almost anything, even drippings, for frying. Then the frying pan is blamed when you don't like the taste. Whatever you use for frying makes the crust, the best part of fried food. So the crust and the flavor can be only as good as whatever made it. Let me fry with Snowdrift."

Because nothing can be too good to come to your table as the crust of fried food, the Wesson Oil people make Snowdrift of an oil as choice as fine salad oil... free of all animal fats. It's brought to you sealed in air-tight cans, so it keeps fresh and sweet. Snowdrift is pure-white and appetizing when you put it into the frying pan... and it's every-bit as pure-as it looks.

You know that one of the secrets of good frying is to "fry hot." Many fats smoke and burn before they are hot enough. Snowdrift helps you by heating easily to the right temperature for perfect frying.

Snowdrift is at its lowest price in years.

 istration which it believes to be right and  
 opposing those which it believes to be  
 wrong, regardless of party affiliation. This  
 news feature is published impartially at  
 all times.

**Thought For Today**  
 Therefore let him that thinketh he standeth take heed lest he fall.—1 Corinthians 10:12

**War**  
 Back in 1920 General Pershing  
 said: "We may ask ourselves whether  
 civilization is going to reach a point  
 where it begins to destroy itself—and  
 whether we are doomed to go headlong  
 down through destructive war to dark-  
 ness." More recently he declared "the re-  
 sponsibility which rests upon enlight-  
 ened governments to announce as a  
 policy is too great to be neglected."

These are not new thoughts, but  
 uttered by a "hard-boiled" warrior  
 they come with new importance and  
 a new impressiveness. The argu-  
 ment of the "war" is not a new argu-  
 ment, but a new argument. It is not  
 men as individuals regard murder;  
 that murder on the large scale  
 must be seen in the same light by  
 governments as the murder of one  
 man is seen by courts and society.  
 It is the national argument of war  
 that is the instrument of settling  
 international disputes holds  
 no better or more deserved place  
 than the dual as a means of ending  
 private quarrels.

What General Pershing has  
 said is what already has been  
 proposed to the great nations by this  
 country—the "outlining" of war,  
 the shifting of the emphasis from  
 battle as a desperate policy to peace  
 as the only policy.

The present armament race  
 between the nations of the world re-  
 veals a state of mind in which  
 peace is yearned for but in which  
 war is quite thinkable. It is to be  
 caps from this spirit that America  
 and other nations must setze upon  
 some proposal such as the Kellogg  
 plan, and proceed to build it into  
 the mentality of civilized peoples,  
 as private and clan feuds have been  
 abolished in the popular mind.

**Women Pilots**  
 The news that two women on the  
 Pacific coast have broken into com-  
 mercial aviation by establishing  
 schools to train pilots, is a  
 mind the prediction recently made  
 by a magazine writer—that women,  
 in the next war, will take their  
 places with men as the pilots of  
 combat planes.

This opens an interesting field for  
 speculation—interesting, and some-  
 what depressing. Of course, one can  
 think of no logical argument  
 against it. Women have demon-  
 strated that they can make excellent  
 pilots. They are surely as fearless as  
 men, if not more so. Why, not let  
 them fight in the air?

Of course, the last vestige of  
 traditional chivalry would vanish. But  
 modern war, after all, isn't very  
 chivalrous any more. It would hard-  
 ly be any less chivalrous to make  
 fighters out of women than it is to  
 drop bombs on them when they are  
 miles behind the line, as was done  
 in the last war.

**Prospects**  
 Probably the American public  
 realizes by this time that Mussolini,  
 in his fire-eater speeches, is talking  
 largely for home consumption, and  
 is not really as bellicose as he  
 sounds. Nevertheless, his recent  
 charge that Europe is busy prepar-  
 ing for another war in a way that  
 belies its words of peace is not en-  
 tirely an empty bit of rhetoric.

At this moment France is install-  
 ing, along its northern and eastern  
 frontier, a system of fortifications  
 more modern and elaborate than  
 anything ever constructed before.  
 The French, beyond doubt, desire  
 peace as earnestly as anyone, but  
 quite obviously, they are not con-  
 vinced that a new war is improbable.  
 Those "highly" official statements  
 concerning the "improbable" prob-  
 ability of Europe's peace.

Of all the dramatic moments in  
 football, perhaps the most stirring  
 takes place at Cambridge, where it  
 is reported Harvard has an oppo-  
 sition to the Harvard game.

California astronomer declares  
 that there are a number of planets  
 yet undiscovered. For heaven's sake!

**THE PLAINSMAN**

**Says:**  
 That Girl on Broadway says many  
 a woman who thinks she's a perfect  
 35 should have herself audited.

Grounds in the coffee are grounds  
 for divorce.

**WHILE** The Plainsman hasn't  
 heard many resounding cheers  
 over his suggestion that an extensive  
 survey be made to ascertain whether  
 Lubbock's gas rates are high or  
 low, neither has he heard of any-  
 one going into paroxysms of joy  
 over the reduction in prices an-  
 nounced by the company a day or  
 two ago. It seems to be about a  
 fifty-fifty split so far.

The gas company has made a  
 reduction in its rates. Even  
 though the extent of the reduc-  
 tion is rather hazy. The adver-  
 tisements didn't point out what  
 the reduction was so The  
 Plainsman sent a reporter over  
 to see the big boss of the gas  
 company to get a little light  
 on the subject. But about all  
 the information available was  
 that "a considerable number of  
 gas users will benefit by the re-  
 duction."

From what The Plainsman can  
 discover, the reduction won't do  
 the little fellow any good, and the  
 little fellow is the one who needs to be  
 looked after if it is possible. About  
 all this column can figure out from  
 the reduction is that if your gas bill  
 runs over \$33.75 for home heating  
 you may save a little money on all  
 over that amount of gas you burn.  
 You can judge for yourself how  
 many people the reduction will  
 touch but The Plainsman estimates  
 that out of approximately 4,000 gas  
 users here not over 300 home sub-  
 scribers will benefit. If these fig-  
 ures are too low it's the fault of the  
 gas company, which refuses to es-  
 timate how many of their cus-  
 tomers will profit.

**THE** reduction for home heating  
 is this:  
 The price here-to-fore has been  
 for 1-2 cubic feet per thousand cubic  
 feet, no matter how much gas you  
 used. Now after you burn 50,000  
 cubic feet—and a very small per-  
 centage of homes burn that much  
 gas—you get any more that you  
 burn during the month for 50 cents  
 per thousand cubic feet. In other  
 words, you'll save 17 1/2 per  
 cent on the gas you burn if you spend  
 \$33.75 in home used gas on any one  
 month. The reduction also covers  
 certain types of commercial heat-  
 ing but we're not interested in that.  
 It's the home gas users that The  
 Plainsman is interested in.

Frankly, this department has re-  
 ceived a little passing from some  
 of the well-fixed gentry of the com-  
 munity for opening up the contro-  
 versy for the second time. Several  
 fellows who do considerable busi-  
 ness with the gas company have of-  
 fered objections to delving into the  
 subject and another, one of the  
 reason that another of our men  
 has confided to friends that The Plains-  
 man is making a nut out of himself  
 and is liable to get caught out on  
 a limb.

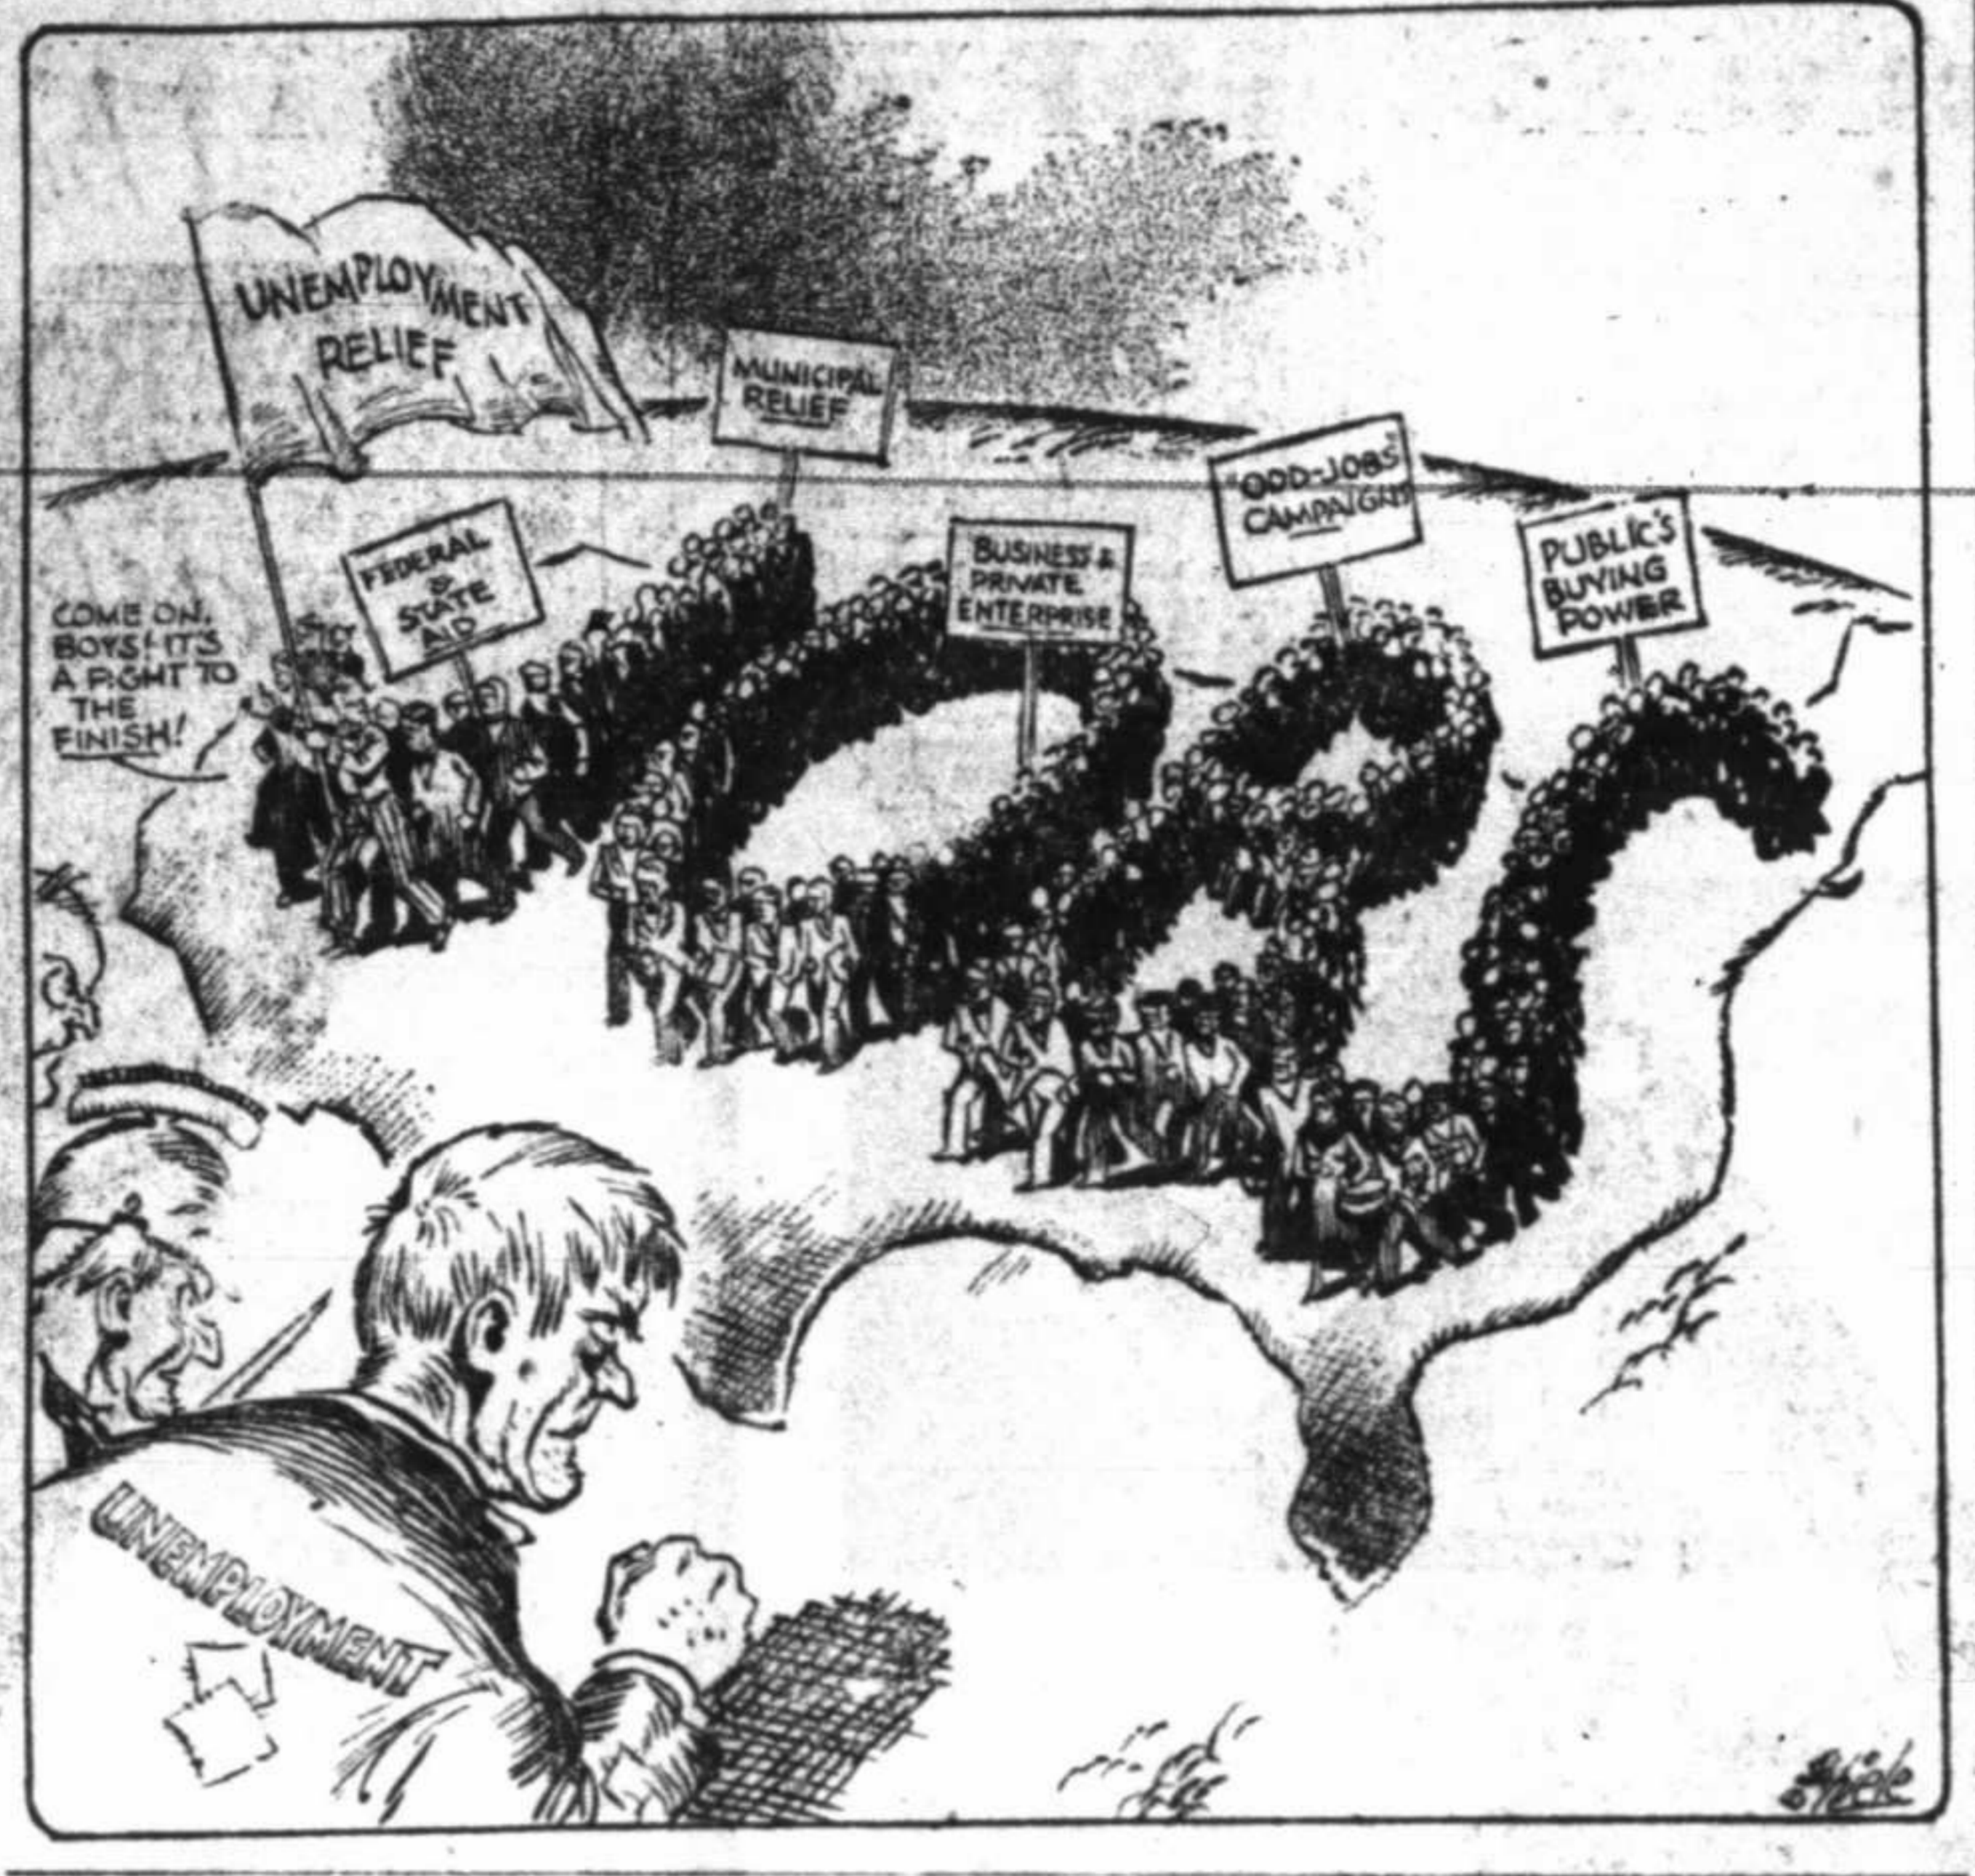

I can't understand where it is  
 goofy to wonder where expenses  
 can be cut and to consider that  
 Lubbock might get the same  
 kind of a deal from the gas com-  
 pany that another of our clients  
 is getting. I might get it if I do  
 crawl back to safety some way  
 or another. And I might be all  
 wrong, but as a lot of folks will  
 tell you, that won't be any-  
 thing unusual.

This column never has said gas  
 rates here are too high, for the  
 reason that the facts are not  
 known. The only way to find  
 out is to look up the facts, com-  
 pare prices charged elsewhere  
 with our prices and then decide  
 what's what. If there's any-  
 thing wrong with that, The  
 Plainsman can't see it.

Now that prominent man  
 who thinks The Plainsman  
 has gone goofy, let's say, for in-  
 stance, that he has been buying his  
 office stationery from Blank and  
 company, whose representatives tell  
 him that \$50 per thousand letters  
 is the best price obtainable on  
 a certain type of stationery. As  
 long as he goes along without in-  
 vestigating, he'll pay \$50 a thou-  
 sand and like it. He can argue with  
 himself that he'd rather pay \$50 a  
 thousand letters than go back  
 to the old system where communi-  
 cations were chiseled on stone. That  
 will make him feel better.

But suppose he goes poking  
 around and finds where the  
 man in the next office, who was  
 buying \$30 for his stationery, is  
 being served by Blank and  
 company with the same sta-  
 tionery, at a cost of \$35. He'll  
 squawk and demand the same  
 thing—or else he'll change sta-  
 tioners.

**The New Standing Army**

**"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron**

**Tariff Seems Bound To Cause A Lot More Trouble, Says Rodney Dutcher; Critics Make Going Tough For Hoover**

**BY RODNEY DUTCHER**  
**WASHINGTON, Nov. 7.**—The  
 election campaign is over, but  
 you're going to keep right on hear-  
 ing about the tariff, which seems  
 bound to cause a lot more trouble  
 in progress here.

The public hearings now  
 before the tariff commission oper-  
 ating under the flexibility  
 Hawley-Smoot provisions of the  
 act, are the first in a series of 30  
 or more scheduled already ordered  
 investigated by the commission.  
 Just what will actually be done  
 toward promise of revisions un-  
 der the flexible provision is a mat-  
 ter of speculation here. Despite  
 promises of speed and seeming  
 evidence of earnest delib-  
 eration, the commission will  
 cause considerable surprise in some  
 quarters if it ever does much of  
 anything.

Tariff critics have held that the  
 commission is stacked in favor of  
 the high rates in the Hawley-  
 Smoot law and hence is unlikely  
 to make any revisions of impor-  
 tance. They also insist on the  
 basis of eight years' experience  
 with the flexible provision of the  
 previous act—which provided es-  
 sentially the same machinery as  
 the Hawley-Smoot flexible provi-  
 sion—the commission is not geared  
 to make thorough investigations  
 and quick changes.

In the hands of the Democrats,  
 the tariff unquestionably became a  
 real campaign issue. The opposi-  
 tion tried to make it appear that  
 the "Grundy act" had made an im-  
 portant contribution to depression  
 and unemployment. President Ho-  
 over, in signing the bill, did the  
 best he could to escape onus by  
 asserting an obvious need for re-  
 visions.

**MEBEE** The Plainsman has gone  
 goofy on this gas business  
 but he'll not in on a little  
 secret. He is not permitted, as yet,  
 to use any names but for the in-  
 formation of the general public a  
 nation-wide survey on natural gas  
 prices has been begun by some Lub-  
 bock men with more or less offi-  
 cial connections. When they get  
 through with their survey, which  
 will be extensive, results will be  
 announced.

I want this much understood, as I  
 have pointed out times and times  
 again, while on the subject of gas  
 prices: I think every business con-  
 cern should make money—a good  
 return on its investment. And when  
 I say "a good return on the invest-  
 ment" I mean just that, and not on  
 a lot of figures that have been shif-  
 ted around from pillar to post. Let  
 us be able to find out how our  
 prices compare with other prices,  
 not only in natural gas but in ev-  
 erything else of a public utility na-  
 ture. If the survey now being made  
 brings out the fact that Lubbock's  
 gas prices are in line The Plains-  
 man will be the first one to say  
 so and to say that he hopes they are  
 kept in line. All this column is in-  
 terested in is finding out the truth  
 and letting the people have the re-  
 sults.

That man on Avenue Q says his  
 wife runs accounts in several stores  
 to make the bills look smaller.

**In New York**  
 With Swas  
 Gilbert Swan

**NEW YORK, Nov. 7.**—In the  
 tradition-haunted lobby of the  
 Metropolitan, just outside the so-  
 cially consecrated "golden horse-  
 shoe," they were talking of the  
 transient modes and manners and  
 customs of the Blue Book box hold-  
 ers.

It was the opening night of the  
 opera. Inside and outside were two  
 contrasting studies in confusion. On  
 the outside, the confusion was that  
 of a crowd that defied a half dozen  
 mounted police. It was pressing  
 against and open square into which  
 stepped the ladies and gentlemen  
 of fashion.

The crowd, on an average, was  
 the street crowd of Broadway,  
 drawn by the fascination of watch-  
 ing the other half on parade.

The blinding flashes of photog-  
 raphers' flares... the shriek of  
 medley of auto horns, as impatient  
 cars sought the slightest loop-hole...  
 the constant chant of a voice  
 calling "Getcher libretta for the op-  
 e-er-a" ... the scaplers making  
 their way through the gathering  
 mob, whispering... "Good seats  
 for 'night."

And new crowds drawn...  
 The astonished gasps of dowagers  
 and debutantes as photographers' flares  
 burst in their very faces.

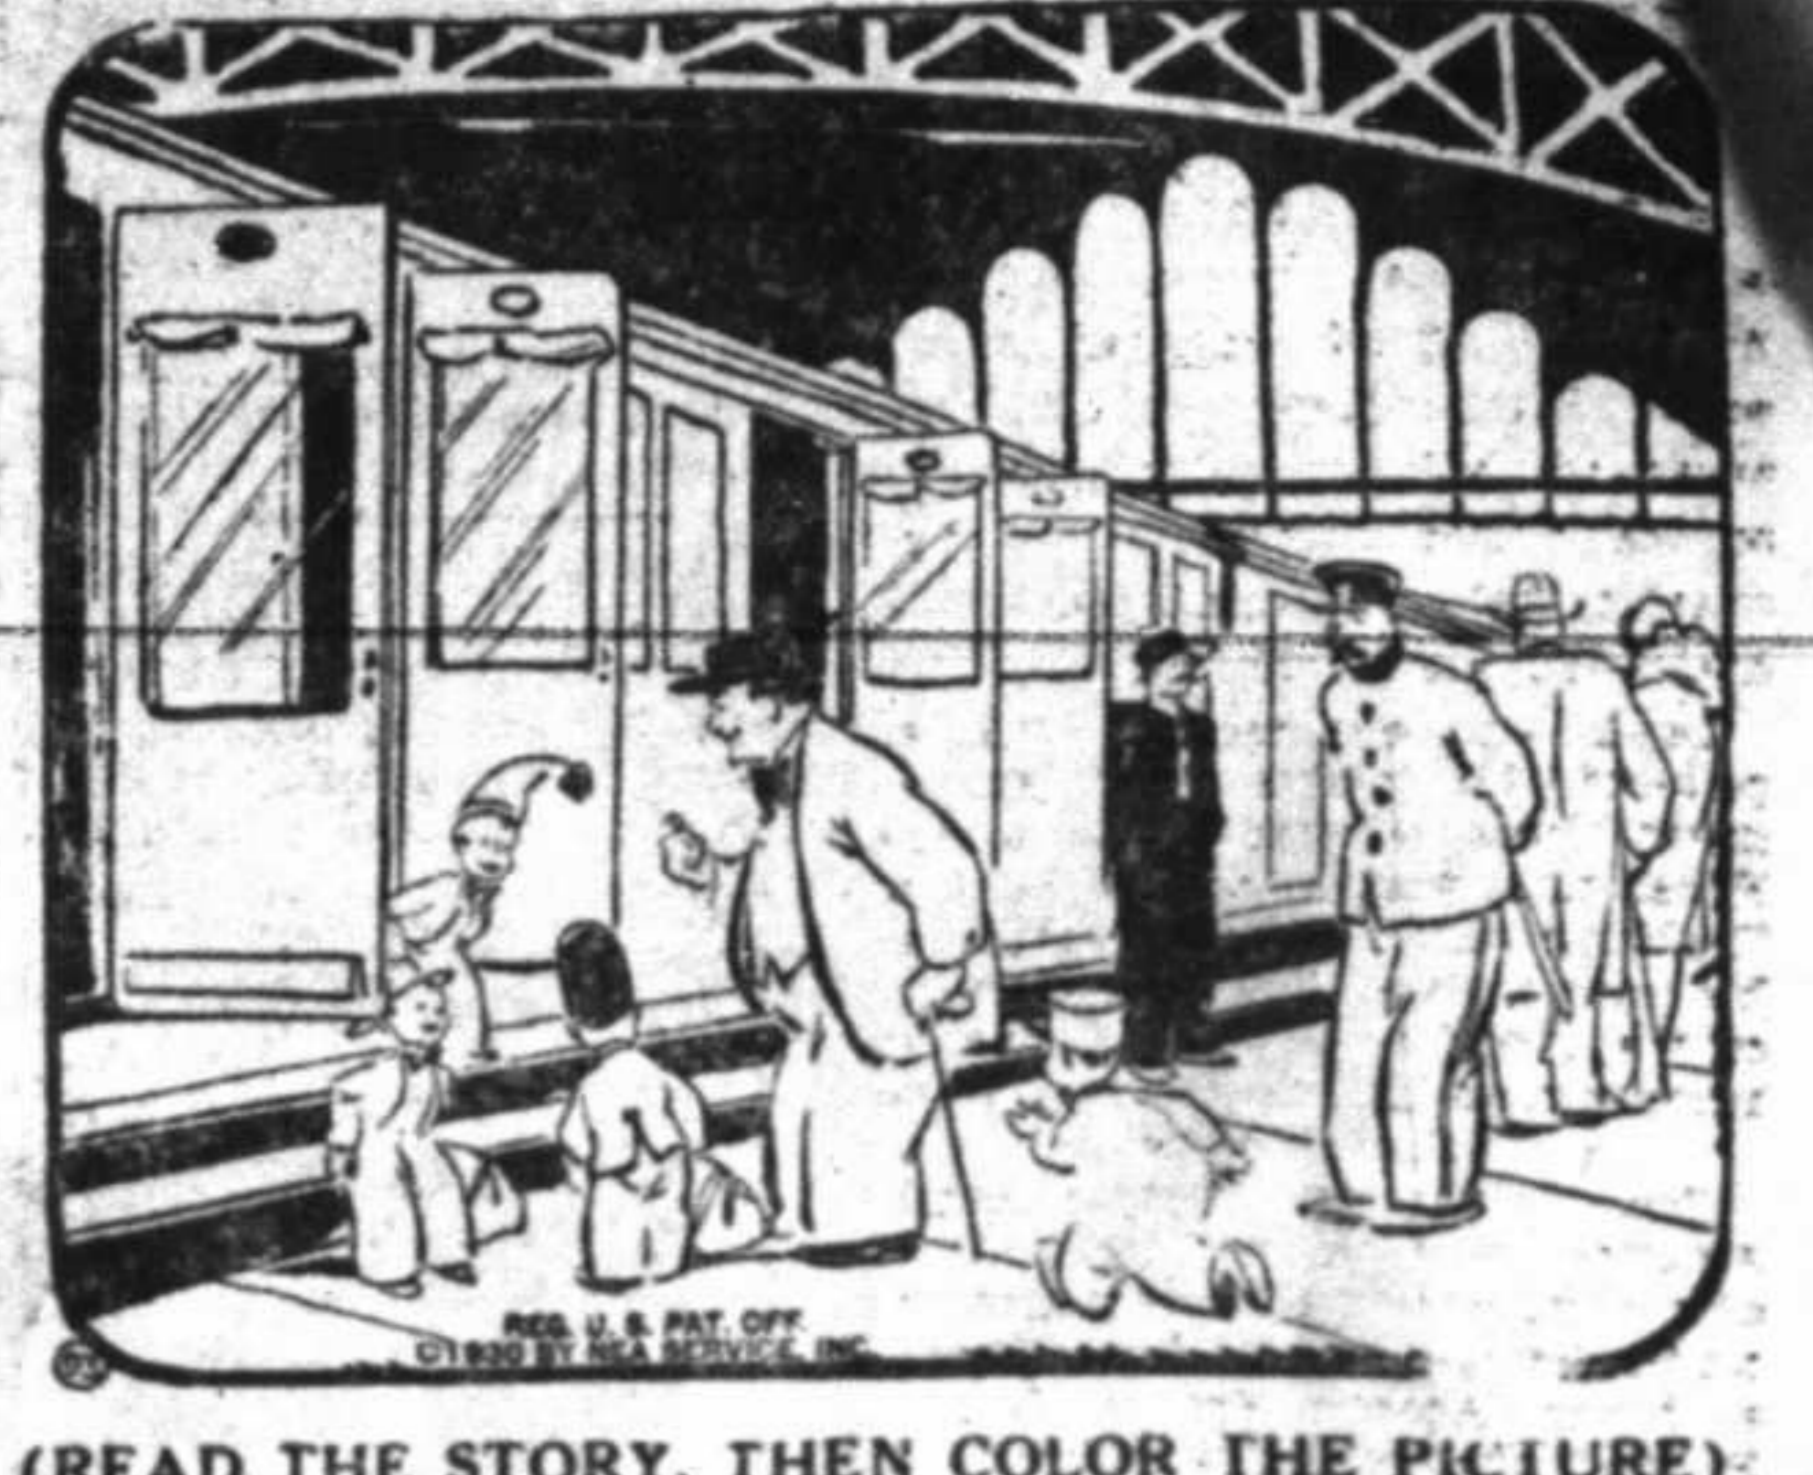

Back in the lobby, but outside  
 the consecrated "golden horse-  
 shoe," they are discussing the fact  
 that this year there are no tiaras.  
 They use the language of Manhat-  
 tan. What they really say is that  
 "the dames are best wearing all  
 hats." By this they mean that the  
 hair adornments are "not being  
 done this season."

Several wise-ones from the society  
 sections of the newspapers step up  
 to inform me that this view is  
 gone for good. Looking about it is  
 impossible to sight a single tiara in  
 the boxes. And these scots who  
 have come back from a thorough  
 survey bring the report that all  
 ornamentation is being "played  
 down" this season. And there are  
 no tiaras in the country. This is  
 not to be a year of sparkle and  
 glitter.

"Tough on the jewelry stores,"  
 someone remarks.

By the looks of the football situa-  
 tion, some colleges are depending  
 too much on ringers to roll up  
 scores.

**THE TINYMITES**  
 STORY BY HAL COCHRAN—PICTURES BY KING

(READ THE STORY, THEN COLOR THE PICTURE)

The little Spanish lads were kind.  
 Said one of them, "We'll gladly find  
 some game we all can gaily play  
 and one that's full of fun. Just  
 let me think. We've always had  
 and I will promptly show you how.  
 I'll close my eyes and count to ten.  
 The rest of you all run.  
 When I have counted fifty, I  
 will open up my eyes and try to lo-  
 cate every one of you. The first  
 one found is it. Be sure and pick  
 a real good place. I will not peek  
 at you all's race. Of course 'would  
 spoil the game if I should cheat  
 one little bit."

Someone suggests that Edison  
 may negotiate with the Soviets now  
 that they are growing plants from  
 which rubber may be produced. His  
 this is stretching the point too far.

"Oh, we have played that game  
 before," cried Clavin. "Real good  
 fun in store. We've always called  
 it hide-and-seek. Start count-  
 ing right away." And so the young-  
 ster counted fast. "I'm coming  
 now," he cried at last. "I'm go-  
 ing to find you all cause I am  
 quite alert today."

He looked and looked and then  
 cried out, "I've found the first  
 one of the crowd. Wee Scouty's  
 here!" And thus they played for  
 'bout an hour or so. The Travel  
 Man then said, "Well, boys, I'm  
 going to halt your fun and noise.  
 We're going to leave Madrid to-  
 day. I think we'd better say  
 good-bye to Scouty's face."

They bid the Spanish boys fare-  
 well and Scouty said, "Now kindly  
 tell us where were you going to  
 head for next. And will it bring a  
 thrill?" "You bet," replied the  
 Travel Man. "We'll get there  
 quickly as we can. Just follow me  
 and we will take a train for old  
 Seville."

Down to the station they all  
 went and there, exactly they  
 spent about three minutes winding  
 out what choo-choo they should  
 board. Scouty said, "Here's the  
 train we ride. Big does are all  
 along the side. They prevent  
 clumped into their seats and off  
 the big train roared."

**FIVE THOUSAND EXPECTED AT MEET**

**DALLAS, Nov. 7.**—Dr. W. R.  
 White, general secretary of the  
 Baptist General Convention of Tex-  
 as, said today that 5,000 Texas Bap-  
 tists were expected to attend the  
 annual general convention at Amar-  
 illo, Wednesday, Thursday and  
 Friday of next week.

### SINCLAIR LEWIS BRINGS NOBEL PRIZE TO AMERICA FOR FIRST TIME SINCE IT HAS BEEN AWARDED; 'BABBITT' WINNER

(By Associated Press) STOCKHOLM, Nov. 7.—George F. Babbitt, that rather pathetic, frustrated "typical American" created by Sinclair Lewis in 1922, has taken the Nobel prize in literature to the United States for the first time in the twenty-nine years since the award was established.

Lewis who declined the Pulitzer prize of 1926 for his novel "Arrowsmith," was selected today as the Nobel prize winner on the basis of "Babbitt" which Sweden regards as his masterpiece. The money value of the award is \$48,350, a greater amount than in any previous year.

**Joins Notables**  
The red-haired temperamental American writer now joins the notable company of authors which includes George Bernard Shaw, Thomas Mann, Anatole France, Romain Rolland and others who have received the award since the first of the series was presented to the Frenchman, Sully-Prudhomme, in 1901.

The Swedish academy made it clear the choice of Mr. Lewis was based on "Babbitt," but it was understood that appreciation also was expressed for "Elmer Gantry," and "Dodsworth," others of his novels.

**Many Translated**  
Many of Lewis' novels have been translated into Swedish.

In 1926, when Lewis was returning the Pulitzer award of \$1,000, George Bernard Shaw received the Nobel prize. Shaw declined to accept the money for himself, but established a fund to create an Anglo-Swedish bureau of exchange for the translation and publication of the great literary works of both nations. "Kipling is the only other writer in English to have won the Nobel prize. It has been awarded five times each to France and Germany; three times to Norwegian writers; twice to Denmark, Sweden and Poland. Other awards have gone to Switzerland, Ireland, Italy, Spain, Belgium and India.

### O'Donnell Woman Bluffs Mexican

(Special to Daily Journal) O'DONNELL, Nov. 7.—Mrs. Ben Cohn, one of the smallest women in O'Donnell, bluffed a Mexican into returning stolen goods, taken from the Popular store where she works and then her efforts to catch him resulted in the arrest of a group of Mexicans with a quantity of goods believed to be stolen.

Four Mexicans entered the store here and three attracted the attention of a clerk, there being that number on duty. Mrs. Cohn was waiting on another customer. Miss Iva Dimple Hancock, a clerk, saw a Mexican hide several dresses beneath his coat and told Mrs. Cohn.

**Tried to 'No Sabe'**  
Mrs. Cohn forced the man to hand over the dresses before he left the store. At first he had tried to pose as one unable to understand English.

Trying to give notice of the trouble Mrs. Cohn called to a passerby to find an officer. The Mexican ran out of the store with Roy McKee and Rochelle Feltz in chase. They cornered the pair and when the Mexicans tried to drive away in their car McKee got on the running

### In Mother Role

Europe's fairest daughter of royalty is what a famous artist called the Princess Astrid of Sweden some years ago. And he probably would say the same thing if he were to see her in this new portrait—the Crown Princess of Belgium now, and a mother—with her little daughter, Princess Josephine-Charlotte.

### ENGAGEMENT ANNOUNCED

WASHINGTON, Nov. 7. (AP)—Senator and Mrs. Harry B. Hawes of Missouri today announced the engagement of their daughter, Eppe to Lewis Thompson Preston, son of the late Ralph J. Preston, of New York.

The wedding will take place November 14 at Washington. They then will sail for England after which they will go to Africa to spend several months shooting big game.

Cleveland police said radio broadcasting led to 1,983 arrests there in a year. Two murderers were apprehended before they left the scene.

board and cut off the switch. J. F. Ayler and Will Brown, who came along, took the Mexicans into a garage and searched them. They found a shopping bag and in it some clothing believed taken from the Thomas store at Tahoka and the Lehman store there. Some other merchandise was unidentified.

### HOW THE LEADERS VIEWED THE VOTING

WASHINGTON—Chairman Joseph Stinson of the Democratic national executive committee: "On the assumption that we have carried the three possibly doubtful states (South Dakota, Minnesota and Kentucky) the vote in the next senate will be 48 Democrats, 47 Republicans and 1 senator affiliated with the Farmer-Labor party. Thus, it would appear that the Democrats will probably organize the next senate. In the house, there, I believe, an assured Democratic majority."

CHICAGO—Vice President Charles Curtis: "We expected the Democrats to be disappointed, but it was we Republicans who were disappointed. However, it will only act as a spur to our party in the drive of 1932—they can't beat us in 1932."

WASHINGTON—Senator Pat Harrison, Democrat, Mississippi: "Without doubt in certain states the prohibition question played an important part, but taken as a whole, it was a nation-wide rebuke to the Hoover administration for the flagrant violation of campaign pledges."

WASHINGTON—Senator Simon D. Pess, of Ohio, chairman of the Republican national committee: "I must have time to study this apparent Democratic landslide in Ohio. I do not know whether it is the wet and dry question or not."

BOSTON—William M. Butler, former chairman of the Republican national committee and defeated

candidate for senator: "Unemployment conditions exploited by our opponents brought about this result. The sad part of it is that no beneficial results can come from the change. It will bring no benefit to the commonwealth or country. Our defeat is but temporary. Principles are worth fighting for, win or lose."

WASHINGTON—Senator Swanson, Democrat, Virginia: "The election clearly indicates that the country does not approve of the policies and enactments of the administration for the relief of existing depressed conditions."

SAN ANTONIO—Representative John Garner, Democratic minority leader, commenting on the election over the telephone from his home at Dvalde, said: "It looks mighty close for comfort." Garner, who has represented the 19th Texas congressional district for 36 years, has been mentioned generally as Democratic choice for the house speaker.

NEW YORK—Alfred E. Smith: "It is with the deepest interest that I am following the result of congressional and state elections throughout the country. Our own great victory in New York state is an indication of the present trend. The minority has asserted itself in no uncertain terms and the people of the country have responded to a truthful and direct presentation of the issues. I am deeply gratified by the success of the Democratic party throughout the country."

## THE LONGEST FORWARD STEP IN MOTOR OIL!

the new

# SOCONY MOTOR OIL

## DEWAXED...PARAFFINE BASE...POURS AT ZERO

**T**HE Magnolia Petroleum Company has worked two and a half years developing this finer lubricant. We have had at our disposal the most highly trained engineers and the most modern research laboratories. We have had the pick of the choicest crude oils and the most up-to-date refineries. We have had the benefit of years of experience in the manufacture of lubricating oils.

We have produced the new Socony Motor Oil in which full lubricating value takes on a new significance. For in it we have put not one or two, but all and every characteristic a motor oil should have.

### 5 reasons for changing today to the new SOCONY MOTOR OIL

- 1. Perfected Lubrication.** Refined by the new and exclusive Socony process, which gives additional lubricating value, the New Socony reduces wear on your motor.
- 2. Easy Starting in Coldest Weather . . .** It will flow more freely at zero temperature than asphalt base oils do that have the same consistency at like atmospheric or operating temperature.
- 3. Fuel economy and Increased Power . . .** Maintains proper "body" at all engine temperatures. Result: perfect piston seal, maximum power and minimum fuel consumption.
- 4. A Clean Motor . . .** A minimum of sludge and carbon, insuring more oil and a clean motor.
- 5. Minimum Oil Consumption . . .** No engine heat or pressure severe enough to break this new oil. Gives 25% to 50% greater mileage, with subsequent saving in money.

**Magnolia Winter Transmission Oil** is the superior lubricant for cold weather. It insures proper lubrication and easy gear shifting. Change to Magnolia Winter Transmission Oil in your transmission and differential today, when you're trying your first crankcase full of the new Socony Motor Oil.

### Change NOW before Winter comes

A Smashing Serial Of Football And Love

# 'MUD AND GLORY'

Written for the Lubbock Daily Journal and King Features Syndicate by James M. Neville. Copyright by King Features Syndicate. All rights reserved.

### SYNOPSIS

Terry Malone's promising football career at Princeton is cut short in his freshman year when Red Thomas, jealous of Terry, breaks his arm in a quarrel. A year later, Terry returns to college. The animosity between him and Red is resumed. Terry realizes he will have a hard fight to compete with Red, who has advanced a year and is Princeton's football hero. They both love Margot Blair, but Red's wealth gives him the upper hand. One Sunday, Margot asks Terry to take her to chapel. They meet Red who accuses Terry of two-timing. Later, Terry hears Red has been suspended for six months and his hopes rise.

### CHAPTER III

Another football season. New faces in varsity uniforms, new names creeping into press headlines, new candidates striving for mythical All-American honors in colleges scattered over the land. Where are the snobs of yesterday?

The great Michigan tackle who inspired the unstinted praise of Grantland Rice for his All-American eleven? Back for his sophomore year at work in his father's wholesale plumbing business in a small town of Iowa, Yale's brilliant half-back who stirred Old Eli's sons with his ineligibility on the eve of the Princeton game, played before empty seats at the Polo Grounds in the colorless professional sport. With him was Georgia Tech's smashing end, lavishly praised by Lawrence Perry the autumn before, just holding his own for coffee and cakes because football was the only means he had of a livelihood. Stanford's mighty guard, who terrorized the Pacific Coast for three years, was safe in the oblivion of medical school. Notre Dame's fleet-footed half-back who won unanimous All-American honors, sold fires in Texas, coached the local high school eleven, listened to football news over the radio, and tried to land a coaching job with a Catholic college.

Another football season. Red Thomas, sensation of the East the year before, fretted and gumbled on the sidelines, his rascally coat sagging with gin bottles. Taking his place was a hell-for-leather, tripe threat sophomore who made a tickle public forget about the flaming red head in less than a month; an alert and clever quarter-back whose cleated shoes thundered along the road to glory with Hobey Baker, Snake Ames, Ralph Gilroy, Don Lourie, Dan Caulkins and Jake Siagle. His name was Terry Malone.

A name filtering through to the hinterland over press wires singing a melody of praise. A name known and respected among football followers along the Atlantic coast. Terry Malone was hailed as the most spectacular player of the year, just as Red Grayson had been in the Yale bowl by taking the ball on the opening kick off. He curved, sliced, hurdled and straight-armed his way through the Yale team for the first and only touchdown of the game. It was a grand finish and Terry was lionized on the campus, his pictures greeted him on the pages of magazines and metropolitan papers. Several sport writers placed him among the greatest players the game had ever known; all picked him on their All-American teams. He broadened and expanded in every way which resulted in conscious growth of body and spirit, accelerated by the pleasant transformation from total obscurity to national football fame.

After the season closed, Terry's descent to the routine of college life had been a gradual one during which he was still enveloped in trailing clouds of glory. He attended lectures, worked in the laboratory studied, but over such humdrum routine was the happy feeling of exaltation, of triumph. And when the winter months stretched ahead, Terry broke training with a bang. Aided by his roommates, he entered into a life of unprecedented gaiety with ardor and enthusiasm.

New York was the happy hunting ground. With a bleak futility settled over Princeton in the hill before Christmas vacation, Terry

went up for a few debauche parties, preceded by quiet and cheery drinking in Dan's; he joined the weary army in wrinkled tuxedos creeping back to town on the "Owl."

Margot had been increasingly attentive. Terry often started the day with a special delivery from Poughkeepsie. He lived in anticipation of the holidays and Margot's coming-out party in New York.

Terry loved grand gestures. On the night of Margot's coming out party, he promised her that he would dance with no one until she was free of the receiving line. Slouched against the wall, he tapped his foot in rhythm with the pulsating jazz and watched the thinning line. Margot stood near the entrance to the Ritz ball room. Her shimmering silver cloth gown blended with the background of tall palms and cybotium ferns interspersed with standards of yellow and bronze-colored crysantheums. Her left arm was burdened with a huge bouquet of gardenias. Her face was flushed and radiant. She looked beautiful standing there, assisted in receiving guests by her stately mother and slightly irritated father, who wisely preferred several cocktails too many to absolute boredom.

Terry bubbled with joy when he caught Margot's eye. He delighted in watching her drawing people with a smile, a nod, a word of greeting; they heaved high, eyes alert, looking toward him, glowing with swift fluctuations of color. A thrill went over him, stabbed his heart. With soaring spirits, Terry looked, turned away. Even the glamour of football was forgotten in the spectacle that surrounded him. A few weeks ago he had been sweating and cursing in the heat of a big football game. Now, cool and handsome in well-tailored evening clothes, the sudden contrast of unexpected beauty and color of the ball room created a mood of unreality; yet a dream world in which he was intensely alive and in which he felt very much at home.

One band of musicians cried out wistfully, riotously, softly, while pretty girls, eager to dance, flirt, drink, were caught up in a whirl of gay carnival. Another orchestra

blared forth the latest popular jazz, while an astute Harvard freshman thought better of it and decided to get gloriously boiled. He joined the cluster of hard drinkers from New Haven and Princeton who had, as usual, gathered around the punch bowl, bent on establishing friendly relations with the stiff, unobtrusive waiters with high hopes of getting more and more kick into the next bowls of punch.

Nodding to him was Sonny Drayton, politely listening to chattering Nancy Henry. She learned that he came from Philadelphia and immediately started one of those "do you know" contests. Nancy was winning by a great margin, and Sonny, bored, signaled to Terry to cut in on him. Terry shook his head, pointing to Margot. It wouldn't be long now.

Swaying his one hundred and eighty-five pounds of bone and muscle was Red Thomas. His face was the color of his hair. He was just a bit unsteady on his feet. He embraced rather warmly a red-headed girl with a past at New Haven. In her ear Red whispered, "How about a little ride in my buggy, brown eyes? And a little drink of wine at Tony's, what?"

Over her shoulder, the red-headed girl winked at Terry. He doubted very much if Red could make any time with her. Stepped out of his class this time.

The youth from Harvard, who had made up his mind to get boiled and was succeeding very nicely, approached Terry. They had met at other parties.

"Hi, Terry, old man," he said, extending his hand. "Good party?"

"Great."

"Saw where you were picked for some of these All-American teams," continued the Harvard lad. "Must be great to be able to play football and then toss tea around the way you do."

Terry got red around the collar, shifted from one leg to another. "That so?"

"Yes indeed. Most people think football men are pretty well-hard-boiled. You know, rough, tough and nasty."

"Oh, yes, indeed! At school there is a pretty general impression that the football men at Princeton are

rather well—you know, I think it's the main reason why we don't get on so well—athletically speaking. Something should be done about it," continued the Harvard lad in a tone rather condescending to the strained relations between the universities. "Now if men like you would only—"

"Say, what is this?" demanded Terry. "Another wrangle about intercollegiate discords or something?"

"No, No. Merely this break between our universities. Should be fixed up, I think the differences are merely geographical and social. They have very little to do with football. You see, Princeton attracts a different type of boy, a bit swanky, from the south and west and around the metropolitan district. Now Harvard stands for New England, with her distrust of "dog" and that sort of thing. They have their own cultural standard, their own tradition. Get me?"

"Let's take football, Princeton. I understand, attaches a far greater importance to winning than we do. Naturally your school attracts a more rugged, a more juvenile and athletically inclined type of boy—like Red Thomas."

"Why bring him up?"

"He's a perfect example of what I mean. At Harvard we get a more cosmopolitan, more sophisticated type of boy. Dress, form, social life and all that doesn't mean a thing in comparison with the importance of other phases of life."

Sensing a long, useless argument about signet rings and dirty football, Terry took the Harvard lad's arm and tried to coax him over to the punch bowl. "After my fifteenth drink I'll be able to give you my unbiased opinion of Harvard. I haven't the nerve when I'm cold sober."

"Not at all," grinned Terry. "The real trouble lies in the rumour that Princeton gives their athletes breakfast in bed, valet service and rooms with southern exposure as an inducement. Football players are very lazy and you know Princeton is supposed to be the best country club in America. That's the trouble. But wouldn't care? Let the alumni and deans fight it out. Come on, have a drink."

# OIL COMPANIES TO BE PROBED ON PAYMENTS

### INVESTIGATION IS TO DETERMINE IF ANY MONEY IS DUE

By Associated Press  
AUSTIN, Nov. 7. — Orders were issued today to Moore Lynn, state auditor, to proceed with his investigation of the production records of several oil companies to determine if the companies are paying the University of Texas the full royalty due under oil development leases. No specific companies were mentioned, the committee leaving the decision to Lynn as to which records will be checked.

The order was issued by the legislative committee investigating University of Texas land leases over the objection of Representative Bob Long of Wichita Falls, who stated the check of the records of the Big Lake Oil company, group No. 1 oil corporation and the Reagan County Purchasing company was sufficient for the committee, after the order was passed. Long announced his resignation as secretary of the committee but said he would continue to serve as a member.

**Of Little Value**  
Long said a check of additional companies would only reveal what was shown in the investigation of the other concerns and that the information would be of little value. He also severely criticized the report of the audit of the Big Lake, group No. 1 and the Reagan County Purchasing company, saying the state would be "laughed out of court" if it tried to make a case on the audit. He charged it was a waste of money for the actual department to continue its present line of investigation.

Enough information has been obtained by the committee, Long stated, to show the university is not realizing the full royalty on production. The oil companies are computing royalties on three per cent basic sediment and waste whereby this item amounts only to about one half of one per cent. Long said. The investigation also has revealed the oil companies are not figuring the royalty on the actual average posted price. Long said. Summarizing the report of the audit of the three companies, S. N. McLaran, assistant state auditor,

told the committee the state probably could recover hundreds of thousands of dollars if a complete audit was made of all the companies producing oil on university land. He stated records in the general land office disclosed the state was not receiving enough production royalties, that companies were computing royalties on a 98 per cent tank table instead of on 100 per cent; and were not paying royalties until the oil was run through the pipe lines, whereas the law required payment when it was brought to the surface.

Prior to the argument over the auditor's report, Judge R. L. Batts, chairman of the board of regents of the university, testified at length but could throw no light on the details of the judgment obtained by the state against the Reagan County Purchasing company and others in 1928 whereby the university received \$1,000,000 in royalties for production in the Big Lake field. Batts said he disqualified himself in the case.

**Pollard Testifies:**  
Claude Pollard, former attorney general testified before the committee the judgment was the best ever entered in the Travis county district court. Pollard was attorney general when the suit was concluded.

A report of McLaran of the audit of the receipts and expenditures from the available university fund showed several "irregularities" in the disbursements and disclosed the fund was being used for other than for building and permanent improvement uses. The auditors, however, said their investigation did not reveal the funds were misapplied or were diverted to uses other than those of the university but that they were not in strict accordance with the law.

## Blue Ribbon Girl

Her rivals probably hadn't a leg to stand on and were willing to admit defeat when smiling Fraulein Ruth Kathrin ankleed into a beauty contest in Berlin the other day. A jury of artists adjudged hers to be the "world's loveliest legs," and here you see her holding up the blue ribbon they awarded her. She's a dancer—and no wonder!

## QUICK RELIEF Surgeons Devise Latest Plan For Broken Legs

CHICAGO, Nov. 7. (AP)—The perfection of an iron frame which makes it possible for a person to suffer a broken leg one day and walk on it the next, was announced before a joint session of the American Association of Railway Surgeons and the surgical association of the Chicago & Northwestern railway. After the bone has been set, the fractured leg is placed in a cast around which the "walking iron" is placed. On the following day the patient can walk about and even return to work.

More than 6,425,000 hunting licenses for taking wild game were issued to sportsmen in the United States during the season 1928-29.

## INDIGESTION DISAPPEARED

### Took a Pinch of Black-Draught After Meals—Rid of Stomach Pains.

Westminster, S. C.—"I have used Theford's Black-Draught for headache and dizziness for fifteen or twenty years," says Mr. E. D. King, of this place.

"I had a son who could not eat without suffering from indigestion and pain in his stomach. He would take a pinch of Black-Draught after meals for some time, and he quit having indigestion. It helped him."

"My wife took Black-Draught for dizziness and headaches. When she would feel sluggish and tired out, she took Black-Draught and found it relieved her."

"We have taken it and recommended it for years as a splendid family medicine."

Theford's Black-Draught has been in use since 1835, with constantly increasing popularity because of the good it has done the men, women and children who have taken it.

Composed of selected medicinal herbs and roots, finely powdered, accurately combined and packaged in a thoroughly modern, scientific way. Price 25¢.

# THE NEW TEXACO MOTOR OIL

## "...more than meets the requirements of today's high compression engines," says the

HOCHSTADTER LABORATORIES, INC.

A STUDY of this report reveals a number of interesting facts about this new lubricant. It is definitely shown that the new Texaco Golden Motor Oil has a higher viscosity at high temperatures and a lower viscosity at low temperatures. It is an oil with a flatter viscosity curve, which means greater heat-resisting qualities and a longer-lasting body.

It will hold its lubricating qualities throughout the entire range of engine temperatures with a very low

oil consumption. This was substantiated and proved in a nation-wide road test under extremely varied driving conditions in which the thirteen test cars averaged 790 miles to the quart.

The new Texaco is manufactured in 5 grades: C, D, E, F, and G, conforming with Society of Automotive Engineers viscosity gradings. Sold in all of our 48 States under the Texaco Red Star with the Green T. 30¢ a quart (35¢ for Grade G).

THE TEXAS COMPANY, Texaco Petroleum Products

© 1930 The Texas Company

HOCHSTADTER LABORATORIES, INC. Technicians in the examination of Petroleum Products for over 20 years. They are associated through individual memberships in twelve recognized Scientific Societies.

## Amarillo Mechanic Says Troubles Over

### Argotane Built Him Up So He Is Now Working Hard Every Day

"When I sit down to the table now and eat a good hearty meal and enjoy it, that's only a part of what Argotane has done for me," said Alvin Boyter, a well known mechanic residing at 809 North Madison Street, Amarillo, Texas. In relating his experience with Argotane:

"I suffered from such an awful case of stomach and gall stone trouble," he continued, "that I could hardly eat a thing and nothing tasted right. The little I forced down didn't give me any strength and at times I would almost choke from the gas that formed in my stomach. I had pains in my side and often times a fainting sensation and was miserable that I often felt like not working at all.

"I commenced taking Argotane because I saw the good it was doing others and I could feel all the difference in the world right from the start it simply made me feel like a new man. My troubles are now over, and it built me up wonderfully and I am working hard, using my mechanic's tools every day, and never have any more trouble with my stomach."

Genuine Argotane may be purchased in Lubbock at the Bowen's Drug store. Adv.

# THEY LIVE ON BORROWED TIME

## ARMY BIRDMEN CONTINUE TO SOAR ALOFT

### ELEVEN MEMBERS FAIL TO FALTER WHEN FORCED TO JUMP

SAN DIEGO, Calif.—If aviation's famous Caterpillar Club had a formal organization, the 95th pursuit squadron of the army air corps, stationed at Rockwell Field here, would undoubtedly be known as the club's strongest subdivision.

No fewer than 11 officers and men on the pursuit squadron's roster are "living on borrowed time," as the flyers say—they are alive today only because they used their parachutes when disaster overtook them in mid-air. All have jumped for their lives within the past two years.

The tales they tell are among the most hair-raising aviation can offer.

**Dives Through 64 Planes Below Him**  
A year ago last May, for instance, two planes collided over Norton Field, Columbus, O. One pilot was killed. The other—Lieutenant A. F. Salter, of the 95th pursuit squadron, was not. Salter prepared to jump, with his parachute soaked by gasoline.

But he dared not open his chute. Below him, in the air, were 64 planes. If he used the chute it would drop him among them and he would be killed by their propellers.

So Lieutenant Salter dropped through them. He let himself fall 2,000 feet before opening his parachute. Then, below the planes he let himself drift slowly down to safety.

**Two Escape After Crash in Mid-Air**  
Lieutenant A. S. Merrifield and Lieutenant J. D. Kreyssler were practicing combat maneuvers last May. Their planes collided 4,500 feet above the earth while each was going 120 miles an hour. Despite the terrific force of this impact both men escaped alive, floating down in their parachutes. Their chutes opened at 3,000 feet.

Lieutenant R. W. Gaetz was doing a slow roll at 3,000 feet when his safety belt broke a year ago. His plane was upside down. He fell out, head foremost, pulled his rip-cord and came down safely.

The commander of the squadron is Lieutenant I. A. Woodring—living on borrowed time, like the others. Last April his plane went into an outside spin 800 feet off the ground. He cut his belt, pulled his rip-cord, was thrown clear of the whirling propeller, and came down by parachute, all in the space of

**YOUNG-LOOKING DAREDEVILS, AREN'T THEY?**—Here are seven officers of the army's 95th pursuit squadron who have escaped almost certain death within the past two years by making emergency parachute jumps which, with similar feats by four enlisted men, is said to constitute a record for one unit. Every one of these men owes his life today to one of those thin, silken bubbles, floating downward from a disabled plane, and the sketches show how some of the most dangerous of these leaps came to be made.

800 feet. Lieutenant P. B. Balfour was sailing 800 feet above the ground in a seven-ship formation last fall when a cadet flyer crashed into his ship from the rear, the propeller destroying the tail of his plane. Balfour came down unhurt in his chute. The cadet was killed.

**Cheats Death by Leap in Dark**  
Youngest of the Rockwell Field Caterpillars is Lieutenant E. P. Klessig. While a cadet at Kelly Field he got lost on a cross-country night flight, and his gasoline gave out. Unable to find an emergency landing field when he dropped flares, he "bailed out" and came down 3,200 feet to safety, landing right beside a barbed wire fence. His plane hit the ground, took fire and was destroyed.

The four enlisted men who have joined the Caterpillars are Corporal W. L. Green and Privates M. E. Stokes, P. V. Lockwood and T. Wasilovich. They were over Fresno, Calif., in a big transport plane when the propeller on the right motor gave way. This set up such

a strong vibration that the left motor began to fly to pieces. The four men jumped as fast as they could, and the lack of their weight enabled the pilot to glide the plane to a safe landing. All escaped without a scratch.

**Held Record As Caterpillar Unit**  
These men don't have to read thriller magazines—they make their own thrills. In fact, it is prob-

able that there is no aerial experience that some member of the squadron has not undergone. There has been everything from being tossed out of an inverted plane while flying upside down, by the breaking of a safety belt, to diving through a sea of whirling propellers with their knife-like blades.

From available records, this squadron holds the world mark for forced jumps from disabled planes. It is said to have by far the largest representation of any United States unit in the Caterpillar Club—a mythical organization of aviators whose members have saved their lives by parachute jumps—and probably the largest representation of any unit in the world.

All of them, as flying men say, "are living on borrowed time."

## Oklahoman Found Guilty Of Murder

ENID, Okla., Nov. 7 (AP)—George McBlair was found guilty by a jury last night of the murder of A. V. Haskins, 70, here last July 16. Sentence was left to the court.

McBlair was alleged to have killed Haskins during a gun battle with his estranged wife's nephew, Ralph Sinner. Sinner and McBlair were said to have been exchanging shot in the yard of Sinner's home following an altercation which resulted from McBlair's visit to his wife.

Sinner rushed into the house, where Haskins, a next door neighbor who was visiting, and asked him to go to his home to call officers. As Haskins stepped from the door, McBlair was said to have fired the fatal shots.

## 103-Year-Old Dies After 3-Mile Walk

ROCHESTER, N. Y., Nov. 7 (AP)—A three-mile walk to Mt. Hope cemetery to select a lot, proved fatal today for Lorenza Hills, aged 103, this city's oldest resident.

Hills collapsed in the cemetery eight days ago after his walk and was taken to a hospital. He died today of pneumonia.

Always fond of walking Hills several times caused alarm in his family by his long jaunts.

He leaves two daughters, Mrs. E. H. Rose of this city and Mrs. J. M. Smith of San Antonio and one son, A. L. Hills, of Chicago.

## Eee-Yah! The Zoo Takes Another Nap

If the addicts of sleepy-time fables will now stand by, we will broadcast a little bedtime story from the Hyde Park Zoo, in London. The British lion, his jungle monarchy hidden behind the bars of his cage, has just begun to pound his ear, while the polar bear is yawning heavily and getting ready to follow suit. The giraffe, of course, contributes a jarring note by being wide awake. But then giraffes always were individualists.

What is said to be the fastest speed made by a steam locomotive was made on the Plant system between Fleming and Jacksonville, Fla. The locomotive traveled at the rate of 120 miles an hour.

## Downtown Office Of Company Established

Opening of a downtown office for buying cream, eggs, poultry, near the corner of Avenue C and Broadway, is announced for Saturday by the Titman Egg Corporation.

## RESINOL STOPS THE ITCHING OF ECZEMA

Don't endure the torment another day. Just get a jar of Resinol Ointment and a cake of Resinol Soap from your nearest druggist. Bathe the affected parts with the soap and warm water, dry lightly, and apply the ointment. That's all there is to it but you will be amazed to see how quickly the itching stops, the inflammation is reduced, and healing begins.

**FOR FREE TRIAL**  
the package of Resinol Ointment and Resinol Soap writes Resinol, Dept. 30, Boston, Md.

**"I'm marrying for MONEY not for love" . . . but on her wedding day—**

FROM childhood she had been brought up for the marriage market. Every smile, every word, every gesture had been carefully trained—to please men. Love had been deliberately forced out of her life.

And now it was her wedding day. She thought of Bob, so soon to be her husband. He was rich, young, handsome—in every way desirable. "I have managed well," she thought.

She had loved Allen, of course. But Allen was poor... while Bob could give her everything . . .

Hazy dreams of luxury passed through her mind. Travel. Clothes. Expensive cars.

The door opened suddenly and her father stood before her. She saw at once that something had happened.

"What is it," she cried. "What's wrong?"

Without a word he handed her a letter, and to the room her father pointed. For a

thing like this to happen—at the very hour of her wedding! Would she be forced to pay this awful price for choosing riches instead of love?

What was in the mysterious note? Who sent it? What fate was happening now threatened to ruin her happiness?

Read "I Was Raised For the Marriage Market" in the December issue of True Story Magazine, now on sale at all newsstands. This amazing human document is the story of a girl who was offered on the marriage block to the highest bidder. There are thousands of girls like her everywhere—girls reared for the marriage market by their parents.

"I Was Raised for the Marriage Market" will grip you with breath-taking suspense and heart-felt emotion. This uncompromising true life story has a vital, human message for you. Read it in its entirety in the December True Story Magazine.

**\$5,000 True Story Contest**  
Each month True Story awards \$5,000 in cash, divided in sums ranging from \$2,000 downward, for stories you yourself can write. Probably you have thought of a story that you would like to write. Why not put it on paper and send it in? Full particulars in every issue of the magazine.

# Avalanche-Journal Want-Ad EMPLOYMENT CAMPAIGN

## Goal 1,000 Working Days

### If You Have a Job--Give One

Whether it be only two hours work, or a permanent position, any kind of odd jobs about your home . . . perhaps the yard needs cleaning, the roof needs repairing . . . or the house needs repainting. Give the other fellow a job.

Every dollar that is expended in wages between now and January 1st will not only tend to increase the volume of retail buying but will greatly assist many Lubbock families in the procurement of actual necessities.

During November, beginning Sunday, November 9th, the AVALANCHE-JOURNAL WANT-AD DEPARTMENT will strive to obtain 1,000 days of employment for the unemployed. If you have a job for one day or thirty, phone the AVALANCHE-JOURNAL WANT-AD DEPARTMENT.

13 or 14

Give details and your ad will be inserted FREE OF CHARGE, in both morning and evening editions, for two days, providing the ad is not over three lines (count 6 words to line).

## IF YOU HAVE A JOB --- GIVE ONE

### MAINZ, GERMANY, BIRTHPLACE OF PRINTING PRESS, VISITED BY TWO YOUNG WEST TEXANS ON WORLD TOUR

Editor's Note: Below is another of a series of articles being written by Sutton Christian and Allan Carney, former members of the Avalanche-Journal Staff, who are on a tour of the world. The two young men left Lubbock in July and are making their way by doing newspaper work and odd jobs here and there. Their experiences are being put into a series of articles.

MAINZ, Germany—A cartoon in British newspaper represents England playing bridge. The Lion, looking at his hand says, "Unlucky at cards, lucky at everything except boxing, cricket, tennis, yachting and war debts."

Volumes of publicity attended a recent American-English bridge match in London. Sedate newspapers of the British metropolis exulted superlatives and adjectives recounting the quite brilliant ways through the series of sessions. Host of the English recalls a song childhood "London bridge is falling down."

were surprised to find that so many of the natives could not direct us to the old Gutenberg house, which by the way, is now sheltering a restaurant and beer parlor. In this same building the first Bible was printed.

One of the first editions of Gutenberg's printed Bible was sold to a New York man for a consideration of \$500,000. Trustees of the Gutenberg collection have been offered millions of dollars for the first printing press, which is about the size of an ordinary kitchen cabinet.

All forces on the continent are uniting in a war against importation of American moving pictures. The European press frequently editorializes in favor of continental productions. But without any prejudice whatever, one who views European films will realize that much progress is to be made before the screen drama can satisfy patrons on the continent after they have seen American pictures.

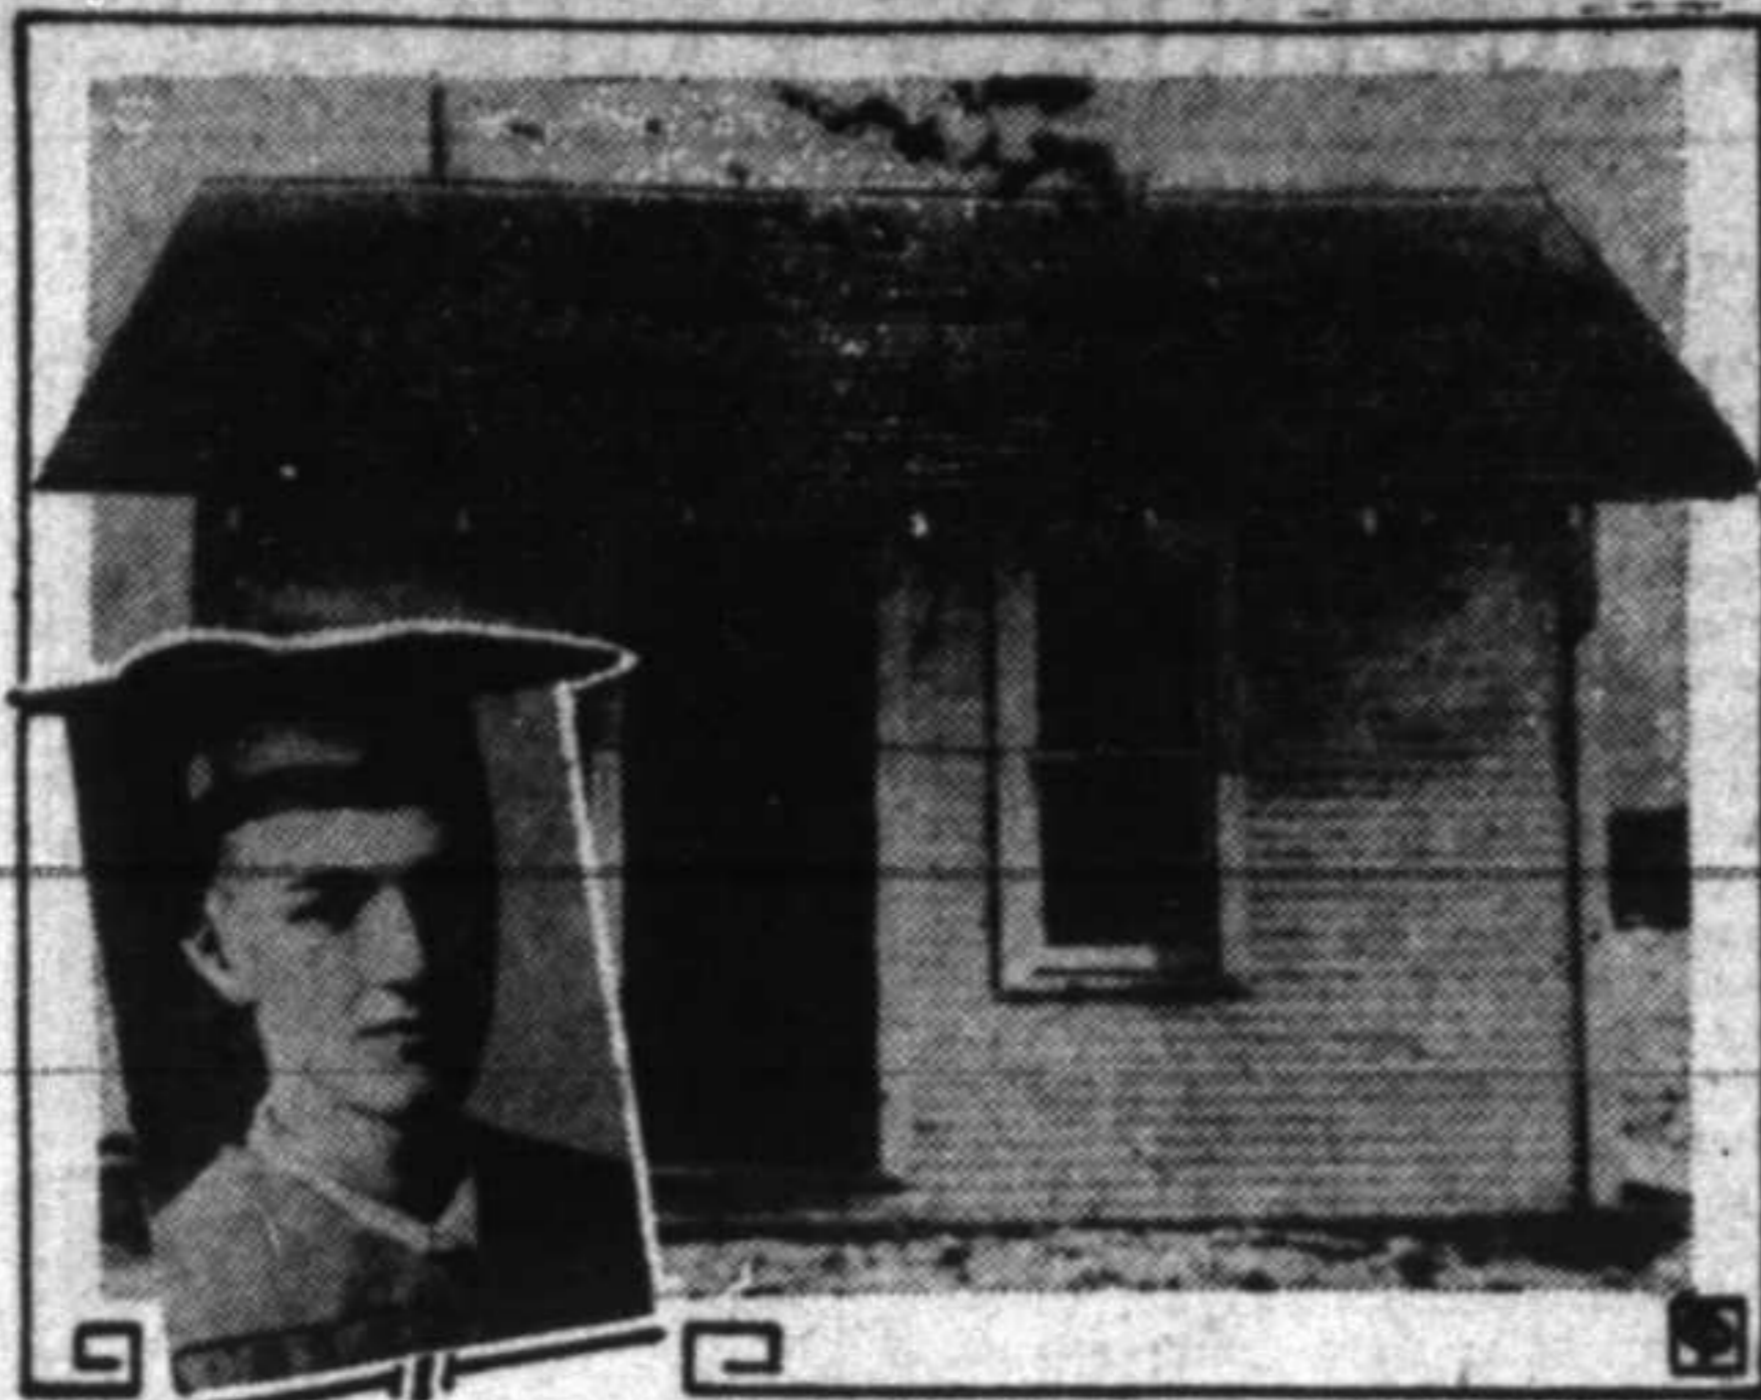

The Mainz market center, where three blocks are lined with food and floral vendors, provides an interesting cross-section of German people. Native women shopping in early morning enfilade the street with their bargain chatter.

On the continent if one asks the distance to a certain location he will be told in the time required for the walk or tram car ride. "It is about five minutes from here", replies the informant. The American system of blocks is unknown.

The population of Italy before the war was 34,709,000; France, 39,601,509; Germany, 64,925,993. The latest population figures for these countries are: Italy, 40,796,000; France, 40,745,874; and Germany, 62,348,782.

### Blanscet Winner In Gray County

PAMPA, Nov. 7. (AP)—Lon L. Blanscet was elected sheriff of Gray county, winning over John V. Andrews, Democratic nominee, 1,231 to 1,132. Voters wrote in the name of Blanscet, after he had been replaced as the Democratic nominee by Andrews in a court contest.

All private telephone interests on the island of Luzon, in the Philippines have been consolidated.

### Banks In 3 States Robbed On Thursday

TWIN FALLS, Ida., Nov. 7. (AP)—First National Bank of Piler, Idaho, near here, was robbed of \$80,000 by four bandits who entered the institution at about noon, bank officials announced last night.

Two of the robbers forced Guy Shearer, president, and Earl S. Lahaue, cashier, to open the vaults from which they took two parcels of currency containing \$6,000. After the holdup the men entered a car in which two others were waiting and sped away.

### Girl Kills Self On Gypsy's Advice

COLUMBIA, La., Nov. 7. (AP)—Following the advice of a gypsy fortune teller, Isabelle Watson, an 18-year-old girl living at Bellevue near here, yesterday immediately went into the house and killed herself with a shotgun, officers were told. The fortune teller advised the girl that an illness from which she had been suffering for two years was incurable and that she would be better off dead.

**BANDITS GET \$4,000**  
GLASGOW, Mont., Nov. 7. (AP)—Three men robbed the First National Bank of Nashua, in Valley county, of about \$4,000 Thursday afternoon and escaped in an automobile.

**\$700 TAKEN**  
DOYON, N. D., Nov. 7. (AP)—Three men late Thursday held up the Bank of Doyon and escaped with approximately \$700.

# Dances, Tea, Bridge Parties And Club Meetings Among Week-End Activities

## Two Groups Will Dance This Eve

Today and tomorrow are to be busy times for many men and women in the city who are interested in social activities.

Tonight there is to be a dance at the Hilton Hotel for members of the Pioneer Glee Club and hosts for the occasion are to be Mr. and Mrs. T. V. McKinney, Mr. and Mrs. J. P. Giles, Mr. and Mrs. S. H. Scott and Mr. and Mrs. O. L. Nislar.

This association meets at intervals for dances.

Another event of the evening is to be a dance at the Country Club for members of the Sals Souci club and their friends.

Clubs Meet  
Among the club meetings of the day are an all-day session of the Friday Needle society with Mrs. Frazier McCrummen, a meeting of the Loyalty club with Mrs. Ed Greer and a party for Pastime club members, given by Mrs. Marvin Stovall.

The 1930-31 and Maggie and Jiggs clubs have scheduled meetings this evening with Mr. and Mrs. W. E. Bourland and Mr. and Mrs. J. G. Olin, respectively.

Among the events that are scheduled for tomorrow is a meeting of the Lubbock Music club with Mrs. Roscoe Wilson, 2201 Broadway, at 3 o'clock for a program that is to be directed by Mrs. H. B. Hawkins. Roll call at the Music club meeting will be answered with the name of a woman composer and her outstanding work.

To Entertain  
In the afternoon and again in the evening, Mrs. R. A. Mills and Miss Lucille Gill are entertaining with bridge in the Mills home at 2627 22nd street.

Another event of the afternoon is to be the annual open meeting for college women of the town, given by the Lubbock chapter of the American Association of University Women. This affair is to be on the mezzanine floor of Hotel Lubbock, beginning at 3 o'clock and is to be in the nature of a seated tea. Invitations were extended to more than 200 women of the city to attend.

Lonnie Langston, faculty sponsor for the Centaur club at Texas Technological college, is entertaining that club Saturday evening.

## Music Teachers To Have Meeting Here

The fall meeting of the South Plains Music Teachers association is scheduled for Saturday and will be in the form of a luncheon and business meeting at the home of Mrs. E. B. Adcock, 2901 19th street at 12 o'clock.

Several out-of-town members are expected to attend and new officers are to be elected. Mrs. Lillian Butler, of Slaton, the president, is expected to preside at this meeting.

## Lubbock Players Are To Be In Slaton

A group of Lubbock people is to present "The Nobody", a play, this evening at 8 o'clock in the Texas Theatre at Slaton. The cast includes Mr. and Mrs. David Dallas, Mel Fisher, Davis Vaughn, Mr. and Mrs. Martin Graves, Harold Gore, Miss Beatrice Hendrick. This presentation is sponsored by the Community Players.

## Outdoor Daytime Mode Is Chic; Evening Is Elegant

Left, colorful tweed plaid with velvet jackets; center, black velvet evening gown trimmed with ermine; right, tweed printed corduroy suit in brown with bud green.

By MME. LISBETH  
The outdoor daytime mode emanates chic, that inimitable air of smartness and charm which may only be expressed by that most expressive French adjective. The flare of the skirts of coats and frocks, the pertness of the tiny hats, which expose waves of hair to sport in the breeze; the coquettish scarf collars, all suggest motion and abounding life and vivacity.

Take the costume pictured at the left. The materials are not expensive, the lines conservative, but there is a youthful charm about the flare of the jumper frock which is fashioned of cotton tweed in a colorful plaid design, in the jaunty velvet jacket, in the embroidered

collars of the blouse which covers the neckline of the jacket, and in the little bound turban which is worn with it.

Suitable for School, Business  
This suit is appropriate for school or college wear, or for the business girl. It would not be inappropriate for the high school miss, for the girl of college or business age, and the young matron would find it a useful addition to her wardrobe.

A suit that is slightly more dignified but no less practical and chic is pictured right. It is one of the new printed corduroys in rich shades of brown combined with bud green. New features highlighted are the collarless neckline with a separate scarf encrusted with green. A

leather belt is worn with this suit. The evening mode, in contradistinction to that of the more frivolous sports things, is all elegance and refinement. Rich materials, long, graceful lines, the quaint off-the-shoulder décolletage, the long lines etc., all recall the more romantic days of the nineties or before.

The gown shown at the center of the picture is an apt illustration of simple—but sophisticated—elegance. It is fashioned of black velvet in princess lines, with low placed flare in the skirt, a dropped shoulder line edged with a narrow band of ermine. Long black gloves banded with white are worn with this gown.

Present production of electricity in the United States is substantial enough to make a great white way from the earth to the sun, a distance of about 93,000,000 miles. Last year's total output was 97,000,000 kilowatt hours.

chairman of the finance committee. A fernery which was given to the room having the most number of mothers in attendance went to room taught by Mrs. E. T. Adair and Mr. Griggs.

Mrs. E. L. Robertson, president, was in the chair and gave a talk on the need of co-operation between parents and teachers in dealing with children of the adolescent age. Pupils from Mrs. Claxton Draper's room were presented in a program. Margaret Marshall gave a reading and Katherine Bell made a talk on citizenship. The group sang a cradle song by Schubert.

Reports were given by Mrs. C. F. Linton, secretary-treasurer; by Mrs. Thad W. Thomas, who is second vice-president, and by Mrs. Bell

## New Officers Are Elected In Society

Several new officers have been elected in the Woman's Athletic Association of the Texas Technological college and the president, Miss Josephine Cowart, has been elected delegate to attend the State WAA meeting at Baylor College for Women, Belton, on November 23-24, according to announcements made this week.

This organization is to have a winter roast Friday evening of next week at the City Park.

The newly elected officers and committee chairman include: Vice-president, Miss Lula Cone; chairman of hiking, Miss Velma Anderson; chairman of archery, Miss Effie Lou Keaster; chairman of basketball, Miss Corine Murray; chairman of skating, Miss Mary Louise Baskin; chairman of tennis, Miss Mary Jane McGee.

Those who planned the winter roast were Misses Murray, Elizabeth Adams, Keaster and Leona Gelin.

## Popular Daughter

Shown here in her latest portrait is Lady Carey Evans, socially but not politically prominent daughter of David Lloyd George, Britain's Liberal leader. Although she has campaigned for her father, her main interests are in her home. She is the wife of Major Sir Thomas Evans.

## Mrs. S. M. Wilson President Of WMS

Mrs. S. M. Wilson was elected president this week when a Woman's Missionary society was organized for the West End Baptist church at a meeting in the home of Rev. and Mrs. Boyd P. Milburn.

The society will meet Monday afternoon at 2:30 o'clock with Mrs. Wilson in her home at 2211 9th street.

Other officers elected for the society include the following: Vice-president, Mrs. Jim Fulton; secretary, Mrs. H. A. Butler; corresponding secretary and treasurer, Mrs. Con Moore.

## Christmas Affair Planned By Group

In addition to the hour spent in sewing members of the Happy Hour Needle society planned a Christmas party Wednesday afternoon, accepted four women as members and devoted a period to Armistice Day games and contests.

These things were done by the club members at a party given by Mrs. Robert Goeth in her home at 2308 5th street.

The new members received are Mesdames O. H. Largent, N. H. Heath, Luther McCrummen and Joe

## Fashion Plaque

A new winter shoe and ensemble combining dark green suede with a loosely woven green tweed accompanies a suit of the same tweed.

Visitors and members attended during the afternoon were Mesdames O. H. Cline, H. A. Lee, P. Williams, R. P. Ratliff, R. C. Keaton, J. J. Roszell, A. T. Cocanougher, R. T. Bertram, Clyde Tatum, Miss Edna Kelly, Ann Martha Strub and Oleta Poke.

Contributors  
Mrs. W. P. H. Moore, contributed and, and delegate appropriation of \$100 observation and this year. They made a result of Tennessee, E. T. Duff, honorary life member conference.

A prize of \$35 observation and this chapter accomplished his line went to love chapter of Ho 35 going to the chapter of Dallas.

Resolutions were pending passage of the personal investment for license vehicles, and delegates giving the brass union Hall, Washington Mrs. Charles Greenville, vice president per cent scholarship fund was a bell for the World chapel in Vall be a tribute of appreciate historian, Mrs. Ashline.

DEFICIENT BE REMOVED

MOODY EXPENSE TO BE ABLE FUNDS TO

AUSTIN, Nov. 7—Early and to the state on a deficiency today after a conference with Governor Dan Moody and Treasurer Gregory.

Following the governor said the arrangements could banks to carry they have in the about \$4,000,000 deposit in various state, and while this need to make up in the general revenue holding it would paying interest on the state warrants.

This was enacted and will be asked as the governor attempt to get the warrants.

The officials were Saturday when they were expected to be

You control the mixing of pie crust when you add the water a little at a time. Hills Bros. control the flavor of their famous coffee blend by roasting it a few pounds at a time.

SLOWLY . . . continuously . . . a few pounds at a time, Hills Bros.' exclusive blend of coffee passes through the roasters. Every berry is roasted evenly by this patented process—Controlled Roasting. And the flavor which is developed is deliciously different from that which any bulk-roasting process can produce.

When you open a can of Hills Bros. Coffee it is just as fresh and aromatic as if you took it from the roasters yourself. For the air, which destroys the flavor of coffee, is completely removed and kept out of Hills Bros.' vacuum can. In a so-called air-tight tin, coffee will not remain fresh. Try a can of Hills Bros. Coffee. Grocers everywhere sell it. Ask for it by name and look for the Arab on the can. Then you will get the coffee made famous by Controlled Roasting.

Committees Named, Prizes Awarded At Last Sessions Of Texas DAR Meet

WACO, Nov. 7 (AP)—Appointment of committees, awarding of prizes and completion of committee and chapter reports Thursday brought to a close the meeting here of the Texas conference of the Daughters of the American Revolution.

NEWS BRIEFS

Miss Ruby Milstead of Quanah is in Lubbock today to attend the Lubbock-Quanah football game and visit her sister, Miss Oleta Milstead.

Miss Hopper—Chipper Flapper

With grace that many a debutante could envy, Edna Wallace Hopper, one of the perennial flappers, took a few trick steps with her dancing partner just to show how little she'd changed when she arrived at New York aboard a liner.

Thursday Club Has Bridge Party Here

Autumn flowers were used in entertaining rooms yesterday afternoon to carry out a color note of orange and green, when Mrs. W. H. Wright entertained members of the Thursday Bridge club in her home at 2122 27th street.

Stages 'Come Back'

This is the "new" Dorothy MacLay who has been attempting a "come back" in her stage career, at Los Angeles. She recently finished serving a sentence at San Quentin prison for concealing facts in connection with the death of her husband, Ray Raymond, following a fist fight with Paul Kelly.

Just Sew Club Meets With Mrs. Wright

Members of the Just Sew club were entertained Wednesday afternoon by Mrs. W. H. Wright in her home at 2122 27th street.

Back In Limelight

Mrs. Nelson is the daughter of W. T. Watson, of Plainview. She is a graduate of St. Mary's academy. The couple is to live in Amarillo where the groom is employed in the general manager's office of the Santa Fe.

Miss Watson Marries In Amarillo

Word has been received here of the marriage of Miss Oona Maude Watson formerly of Lubbock, and Alfred Nelson of Amarillo which took place last Sunday afternoon at the home of Mr. and Mrs. J. W. Witt in Amarillo.

Camp Fire Girls Are To Meet Saturday

Members of the Camp Fire group, of which Mrs. R. T. Campbell is guardian, are to meet at 4 o'clock Saturday afternoon in Miss Corrine Warner's office for a handcraft lesson.

COMPANIES OF TEXAS LEAD IN POLICIES

OUT-OF-STATE FIRMS ARE BEATEN OUT IN PAST YEAR

AUSTIN, Nov. 7.—For the first time in the state's history domestic life insurance companies have forged ahead of their out-of-state competitors.

During 1929, Texas companies wrote \$282,000,000 worth of insurance, and non-resident companies wrote policies totalling \$277,000,000, giving Texas companies a margin of \$5,000,000.

That all contracts between insurance carriers and attorney-in-fact or managers providing for a straight commission on the gross premium be prohibited because this practice subjects the managers to the danger of "being too much interested in receiving the commission, so that they shall be less careful as to the character of the risk."

More restrictions about the requirements relative to agents' licenses; modification of the statute which provides for an annual renewal, to provide that a license shall be perpetual until discontinued.

A law authorizing cancellation of a resident insurance company's license if the company does business in another state without first receiving authority from that state.

MOODY STATES TEXAS NOT SO DEPRESSED

GOVERNOR DECLARES STATE NOT AFFECTED LIKE OTHER AREAS

AUSTIN, Nov. 7.—In the opinion of Governor Dan Moody, Texas has been less affected by the so-called "depression" than most of the other states.

He declared that aside from the problems created by the drought, which now has been broken, and the low price of cotton, Texas apparently is nearer normal than the Atlantic seaboard states; has no serious unemployment problem, and is in a better general condition than the average state.

Shutting down of factories, in Texas, the governor said, has been "spotted" and has not been on anything approaching a statewide scale.

GARDENING WORK IN COUNTY SHOWS PROFITABLE GAINS

Ladies of the Becton community, who met Thursday for their garden achievement day program, heard interesting reports from the members present.

The report of Mrs. A. L. Pitts was unusually interesting. Mrs. Pitts had water cress in February from her garden. "She had the earliest vegetables reported so far," Miss Stockton added.

The average amount of canned goods by each one of the ladies present Thursday was over 200 quarts, Miss Stockton added. "Most of them plan to can beef later in the month. Their average is the best I have heard of so far."

BROKEN LOVE AFFAIR OF FILM PEOPLE AGAIN HEADED FOR COURTS; \$50,000 SOUGHT FROM FOUR IN DAMAGE SUIT

LOS ANGELES, Nov. 7.—The broken love affair of Vivienne Segler, film actress, and Maurice Costello, former screen idol, was headed for the courts again today with filing by the actress of a \$50,000 damage suit against four persons alleging their gossip wrecked her romance.

The defendants, well known in film circles of Hollywood society, were Mrs. Annie Hallor, Ethel Hallor, Ray Hallor and Mrs. John F. Dillon.

The complaint recited between March and December 1929, the defendants "in the presence of persons outside the family" remarked Miss Segler associated with other men, remained away from her home all night on various occasions and did not respect her fiancé.

Earlier this year Miss Segler sued Costello for \$50,000, alleging breach of promise, but the case was settled out of court, Costello is the father of the film actress Dolores (Mrs. John Barrymore) and Helen Costello.

Glase is transparent because its molecular structure is such that it permits the light rays to pass through without regular deflection of the light.

DR. SCARBOROUGH TO PREACH HERE

Dr. Lee R. Scarborough, president of the Southwestern Baptist Theological seminary, Fort Worth, and head of the Baptist State convention which meets in Amarillo next week will fill the pulpit of the First Baptist church at both services Sunday.

Special Movement Of Corn Requested

Application was made today for special freight rates for the movement of a car of grain from Muleshoe to Slaton. This makes 11 cars of freight that have enjoyed reduced rates under the recent order of the Interstate Commerce Commission for West Texas counties.

In addition a 16 car movement into Hurlwood for B. E. Roberts was handled from Louisiana. The total of 21 cars will represent saving of an average of \$50 in freight rates per car, D. F. Eaton, county agent, who is handling the applications, said today.

"Let's Go to the Rodeo and Send the Stock Judging Team to Chicago"

QUALITY BY KUPPENHEIMER. Advertisement for Kuppenheimer suits, featuring a logo of a man in a suit and the text 'Now that Economy Counts So Much --'.

The Store you buy from is almost as important as the suit you buy. Know that in the search for values no concessions have been made to the important specifications of quality.

DEFICIENCY TO BE REMOVED

MOODY EXPECTS BANKS TO BE ABLE TO LOAN FUNDS TO STATE

AUSTIN, Nov. 7.—Prospects of an early end to the operation of the state on a deficiency basis developed today after a conference between Governor Dan Moody and State Treasurer Gregory Heisher.

Following the conference the governor said he had no doubt that arrangements could be made with banks to carry the warrants as they have in the past. There is about \$4,000,000 in state funds deposited in various banks over the state, and while this money may not be used to make up the deficiency in the general revenue fund, banks holding it would be exempt from paying interest on it while carrying the state warrants.

Driller Conferring With City Officials

D. A. McDonald, Amarillo, well known well driller of West Texas, who drilled three of the city water wells here, was in Lubbock today for a conference with city officials on well matters.

## Avalanche-Journal Want-Ad EMPLOYMENT CAMPAIGN

### Goal --- 1000 Working Days IF YOU HAVE A JOB— GIVE ONE—

Whether it be only two hours work, or a permanent position. Any kind of odd jobs about your home... perhaps the yard needs cleaning, the roof needs repairing... or the house needs repainting. (Give the other fellow a job.)

Every dollar that is expended in wages between now and January 1st will not only tend to increase the volume of retail buying but will greatly assist many Lubbock families in the procurement of actual necessities.

During November, beginning Sunday, November 9th, the AVALANCHE-JOURNAL WANT-AD DEPARTMENT will strive to obtain 1,000 days of employment for the unemployed. If you have a job for one day or thirty, phone the AVALANCHE-JOURNAL WANT-AD DEPARTMENT.

13 or 14  
Give details and your ad will be inserted FREE OF CHARGE, in both morning and evening editions, for two days, providing the ad is not over three lines (count six words to a line).

*If You Have a Job—Give One*

NAVAL ACCORD IS NEARER

METHOD OF LIMITING PERSONNEL IS NOW UP IN ARGUMENT

(By Associated Press) GENEVA, Nov. 7.—The chief naval powers on the preparatory disarmament commission today disagreed on the method of limiting naval personnel and the question was referred to a sub-committee. The difference was on a British proposal that limitation should be only of the aggregate of officers, petty officers and men. The French position, which was supported today by the Russians, was that a maximum figure must also be fixed for the number of officers.

Hugh S. Gibson chief of the American delegation, announced that the United States government regarded the limitation of naval effectiveness as of little importance as it considered the limitation of ships would inevitably result in all the needed limit on personnel. He was willing, however, to accede to a proposal for total limitation but saw no practical value in fixing a maximum figure for the category of officers.

Rene Massigli, defining the French attitude, expressed the fear that if the total personnel alone were limited this would permit the training of an excessive number of officers and enable a naval power to expand its sea forces beyond treaty limits quickly. The commission has not yet reached a decision on whether to limit the number of land forces shall be limited and France was convinced this principle should be extended to navies.

Maxim Litvinoff, Soviet foreign minister, who sharply criticized the work of the commission yesterday and particularly directed some of his fire at France, today agreed with the French on the naval point, asserting that an unlimited number of officers would facilitate mobilization and the process of rapid war making.

COMMUNITY CHEST

(Continued from Page One) not only the support of citizens generally, but is actively backed and endorsed by the churches, civic clubs, and other local organizations. Nine of the larger church denominations of the city have two members each on the board of directors of the United Charities, a man and a woman, and there are five members at large, nominated by the community chest. This group is starting in a systematic business like way the charity work which heretofore was carried on by the various churches, in which there was considerable duplication.

E. W. PROVENCE

Dr. Provence's disappearance. He walked up to my place, said he was tired and asked that I take care of him for the night. I was milking my cows and he pitted in and milked four of them for me.

GOLD FOOTBALLS

(Continued from Page 1) Malcolm Martin, ends; Archie Rawley and Milton McCrehe, tackles; Cotton Welch and Melvin Grigs, guards, and Bob Crawford, center. Donors of the footballs are Riley Huler, the tailor; C. A. Sheffield, manager of Hotel Lubbock; Dr. Sam G. Dunn, surgeon at West Texas hospital; James L. Gann, president of the Panhandle Construction company; M. C. Butler, of Butler Brothers, architects; Fred B. Caylor, manager of the Lubbock district of the Reliance Clay Products company; Don Mitchell, cotton broker; James Lucas, manager of the Lindsey theatre; F. H. Hines, vice-president of the West Texas Gas company; Cliff Lindsey, manager of the Lindsey and Palace theatres; Herb Quinn, publisher of the Avalanche and Journal; K. N. Clapp, oil broker; Rose McWhorter, Spence; Walter W. Hines, of Hill-Wells company, and The Plainsman, hired hand of the Avalanche and Journal.

USES COFFIN

Confederate Vet Dies Year After His Selection TEXARKANA, Nov. 7. (AP)—Craven Wilson, 83, Confederate veteran, will be buried today in a coffin he picked one year ago. After selecting the coffin he ordered it placed in storage until his death, which occurred yesterday. "When a fellow buys an overcoat he wants to see it down the line," Wilson had commented when questioned about his early purchase.

Woman Plans Globe Flight Alone

A hazardous lone flight—either around the world or across the South Pole—is planned for this fall by Mrs. Victor Bruce, above, British aviatrix. Her airplane, driven by a 120-horsepower engine and capable of 1000-mile flights at a speed of 100 miles per hour, is nearly completed. She has not yet decided upon the route for either of the proposed flights.

PLOT TO ASSASSINATE "SCARFACE"

AL CAPONE IS READ BETWEEN LINES OF LETTER FOUND IN DRUGGAN HOME (By The Associated Press) CHICAGO, Nov. 7.—A plot to assassinate "Scarface" Al Capone, the czar of Chicago gangs, was read today between the lines of a letter found by detectives who raided the downtown hotel suite and the elegant North Side apartment of Terry Druggan, beer baron and "public enemy."

DO-X TO HOP FOR ENGLAND

GERMAN SEAPLANE WILL MAKE ANOTHER LEG OF U. S. FLIGHT (By Associated Press) AMSTERDAM, Nov. 7.—The German seaplane DO-X, which made a brief flight over this city today, will leave for Southampton, on the second leg of her flight to New York tomorrow morning. Dr. Claude Dornier announced today. Only an unexpected change in the weather will delay the takeoff, he said. It is planned to remain in England two days and proceed to Havre Monday.

LUZ C. ARCOS IS EXECUTED TODAY

HUNTSVILLE, Nov. 7. (AP)—For having slain three men, a storekeeper and his two sons, who sold him a bottle of milk he claimed was sour, Luz C. Arcos went to his death in the electric chair at 12:06 a. m. today. The prison orchestra, at his request, played a concert of popular airs for him before he went to the death chamber. He paid with his life for the slaying of Joe Barrientez, storekeeper, and his two sons in Medina county on Christmas day, 1928.

BROOKHART

(Continued from Page One) The Mexican went smilingly to the chair. A moment before the current ended his life, he paused and said, "well, I want to say that I am well prepared. I am ready to meet my God."

LITTLE USSERY BOY IS BURIED TODAY

Funeral services were held at 11 o'clock at the Rix-Sanders funeral home for Perry Devon Ussery, five-month-old son of Mr. and Mrs. J. H. Ussery, who died Thursday evening about 5:30 o'clock after a battle to survive the effects of malnutrition. Rev. Simer was in charge of the services and burial was beside the body of the twin sister who died early in the week.

Man Wears Too Much Clothes To Drown

NORTH TONAWANDA, N. Y., Nov. 7. (AP)—Joseph Kop, 50, is alive today because he was wearing so much clothing, police say, that he could not drown. Kop jumped into the Niagara river from a bridge. Wearing two suits of clothes, three pairs of socks, underclothing, a suit of pajamas and an overcoat, he floated downstream a few hundred yards and was rescued. Police said Kop was despondent because he had lost his job.

Woman's Skull Is Pierced By Hairpin

MELLEN, Wis., Nov. 7. (AP)—John Kunz, 48, fell from a chair, while hanging curtains. Yesterday she died. Physicians said a hairpin punctured her skull. Wireless telegraph service has been established between Buenos Aires and Chilean cities and with Spain.

HOOVER URGES THANKSGIVING OBSERVANCE

PRESIDENT CALLS ON PEOPLE OF NATION TO BE THANKFUL

(By The Associated Press) WASHINGTON, Nov. 7.—President Hoover today called upon the people of the United States to observe Thanksgiving Day by extending aid to those who are in need and suffering from causes beyond their control. In his annual Thanksgiving Day proclamation, the chief executive said this country has many causes for Thanksgiving. He added that, as a nation, "we have suffered far less than other peoples from the present world difficulties."

His proclamation follows: By the president of the United States, a proclamation. "Notwithstanding that our fathers endured the hardships and privations of a primitive life, surrounded by dangers and hardships, only with meagre comforts, they nevertheless bequeathed to us a custom of devoting one day of every year to universal thanksgiving to Almighty God for the blessing of life itself and the means to sustain it, for the sanctuary of home and the joys that pervade it, and for the meritorious protection from accident, sickness or death."

"We have been blest with distinctive evidence of divine favor. As a nation we have suffered far less than other peoples from the present world difficulties. We have been free from civil and industrial discord. The outlook for peace between nations has been strengthened. In a large view we have made progress upon the enduring structure of our institutions. The arts and sciences that enrich our lives and enlarge our control of nature have made notable advances. Education has been further extended. We have made gains in the prevention of disease and in the protection of childhood."

Call Upon People "Now, therefore, I, Herbert Hoover, president of the United States of America, do hereby designate Thursday, November 27, 1930, as a national day of Thanksgiving, and I call upon the people of the United States so to observe it, calling upon them to remember that many of our people are in need and suffering from causes beyond their control, and suggesting that a proper celebration of the day proceed upon the basis that we make sure that every person in the community, young and old, shall have cause to give thanks for our institutions and for the neighborly sentiments of our people."

"In witness whereof, I have hereunto set my hand and caused to be affixed the seal of the United States. "Done at the City of Washington, this sixth day of November, in the year of our Lord, 1930, and of the independence of the United States of America, the 155th. (Signed) HERBERT HOOVER. (By the president: (Signed) Henry L. Stimson, Secretary of State, Henry L. Stimson, Secretary of State."

Newman Invited To Amarillo Session

E. W. Newman, a director of the Panhandle Poultry show, has been invited to attend the meeting of the board of directors of the association at Amarillo November 12, in connection with the annual meeting of the association, of which Robert Ricks, Amarillo, is president. Meeting was postponed until next Thursday from this week. The show is held in Amarillo in December and it is planned to seek a coordination of effort with the recently organized Panhandle Plains poultry show at Station in December.

The United States is devoting about 20 per cent of its merchant ship construction to motor-driven vessels.

Memphill-Wells Co.

NEW TOMB OF 'GOD OF COMMUNISM' TO BE OPENED IN SOVIET RUSSIA

HIGHWAY NINE IS GRADED

HIGHWAY TO MONROE IS GRADED; UNDER PASS STARTED

Highway No. 9 north from Lubbock has been graded as far north as the proposed underpass beneath the Santa Fe railroad, and the work is expected to be finished in two miles south of Monroe by the last of the week. Guy Johnston, construction engineer for the state highway department, says.

Work has not started on the underpass and there is no announcement as to when work may be expected to begin. Plans, which the state has prepared have been given into the hands of the railroad company and work is held up awaiting word from the company.

Thirty days is expected to be necessary to complete grading work on the rest of the highway north of Monroe. This work is not very heavy and it is thought that it can be completed early in December.

No through traffic is to be permitted on the new work until all can be routed all the way through, it is indicated. To send traffic through the completed part and then through the uncompleted work would interfere with the workmen. Mr. Johnston pointed out. This would hold up completion of the construction program.

Felds and Co., contractors on the south section, have about completed grading work all the way north from the Lynn county line to south of Lubbock. It will be finished in less than two weeks, it is believed.

Culvert work is well under way. There is enough work of this kind to take 30 days longer to finish, possibly five weeks, Mr. Johnston said.

Unusual cold weather will delay this work as it is not advisable to pour concrete in cold weather.

Churches Of U. S. To Emphasize Peace

NEW YORK, Nov. 7 (AP)—Next Sunday will be Armistice Sunday and the churches of the nation will emphasize the progress of the world toward peace.

The commission on international justice and good will of the federal council of the Churches of Christ in America issued an appeal today to all church members to use their influence in strengthening the institutions of peace.

Manhattan has an area of 22 square miles; Staten Island has an area of 53 square miles. On these two areas of land are crowded several of New York's tens of millions.

MOSCOW, Nov. 7.—The new tomb of Nicolai Lenin, "god of Communism," on Red Square, will be opened to the public today as one of the main events of the thirtieth anniversary of the Communist revolution.

The tomb took sixteen months to construct. Ten thousand tons of native granite were used in its construction, and it will be one of the sights of Moscow.

Lenin's body, still as natural as life, has been lying in the Kremlin for the past eighteen months and will be removed to the new tomb for the view of the public.

Delegations from other countries, including 35 American workers, have arrived here for the anniversary. Millions of Russians this afternoon quit work in preparation for the observance. Parades, lectures, speeches and meetings throughout the entire union will mark the anniversary. All vodka and liquor shops will be closed.

Crosses Pacific

From the United States to the Marquesas Islands, 3000 miles in a 30-foot boat, is the feat of F. Garland Swain (above) of Whittier, Calif., and his navigator, Fred B. Hume. They went 43 days without sighting land, battled storms and lived for days on sugar and coconuts after the burning tropic sun had spoiled their other provisions. Swain is pictured here as he arrived back in Los Angeles; Hume remained in Hawaii, whence the pair sailed from the Marquesas. The map shows the location.

SWEDISH PLAN OF CONTROL IS TOLD

ENFORCEMENT GROUP IS TOLD OF BRATT PLAN ON LIQUOR

BY JOHN F. CHESTER WASHINGTON, Nov. 7 (AP)—Facts concerning the Swedish method of liquor control, known as the Bratt system, were laid before President Hoover's law enforcement commission today by John M. Morehead, American Minister to Sweden, as part of the commission's investigation into various liquor control systems.

The law enforcement group already is deep in its task of preparing a report on just what, if anything, they believe should be done about the dry law in this country.

Speculation Arises Considerable speculation at first surrounded the request to the American minister that he appear, but assurance was given later that the commission will also have before it facts and figures concerning the Canadian system and other control plans in virtually every part of the world in which they exist. Morehead is in the United States on a leave of absence.

Under the Bratt system, upon which Morehead was questioned not only as to its provisions but as to its effect upon temperance, liquor is controlled under the government by monopolies financed by private capital. The quantities of liquor purchasable by an individual are limited to a maximum of approximately four and one-fifth quarts of spirits a month.

Details Kept Secret A second witness to appear before the commission today was Lynn G. Adams, superintendent of the Pennsylvania State police, who is familiar with liquor conditions in that state. The detailed testimony of both witnesses was kept secret.

Broadcasting Is Her Forte

Among the personalities of the air, this year, heard throughout the nation, is Miss Adele Ronson, above, who has diverted her histrionic talents into broadcasting channels.

Ralls-Crosby Clubs To Unite

RALLS, Nov. 7.—(Special)—The Ralls Rotary club together with the Crosby Rotary Rotarians and Rotarians and the Ralls and Crosby football squads with a banquet on Friday night Nov. 7 before the annual football game between the two teams which will be played Tuesday Nov. 11.

The Armistice Day game is an annual affair between the two teams and the Ralls and Crosby Rotary clubs take time about honoring the two teams.

More than 30 countries have diplomatic representatives accredited to the Vatican. The custom of sending ministers to the Vatican dates from the days when the pope was also sovereign of the Papal States.

Columbia PHONOGRAPH AND RADIO COMBINATION

COMBINATION

TELE-FOCAL Power Detection

.. No Dead Spots.. Dial..

Never before have you thrilled to such RECORD reproduction as the new Columbia Radio-Phonograph Combination delivers. Never before have you experienced such amazing RADIO performance!

THE RADIO is Columbia's new 8-tube screen grid Tele-focal receiver—THE RADIO WITH NO DEAD SPOTS ON THE DIAL. It pulls in programs on every notch of the dial—stations you've never heard before. And, with all this remarkable sensitivity, the Tele-focal Radio gets you each station sharp and clear—WITH NO OVERLAPPING.

THE PHONOGRAPH is Columbia's triumph of acoustical and electrical art. In THIS Electric Reproducing record player tone is richer, volume is fuller. For every note is caught from the record by a new, improved type of electric pickup—and delivered through a new, improved electro-dynamic speaker. Every note comes to you "like life itself!"

In addition to this new Columbia Radio-Phonograph Combination, you can also get the new COLUMBIA TELE-FOCAL RADIO ALONE in two handsome cabinet models—high-boy and low-boy. Both are exquisite examples of the finest cabinet work—both are beautifully finished.

COME AND HEAR for yourself the magnificent performance of the Radio and the Phonograph of the new Columbia Combination. SEE for yourself the rich beauty of this Combination's welsuf-finished cabinet—beauty that will harmonize with the finest living room suite. See and operate, too, the beautiful Columbia Tele-focal Radios—priced lower, of course, than the Combination but giving you the same extraordinary radio reception.
