Superintendent addresses school bus safety

BY MELISSA PERNER
THE OZONA STOCKMAN

Superintendent Raul Chavarria addressed the Crockett County CCSD School Board about school bus safety during the Dec. 14 regular meeting.

Buses that the district purchased through the use of bond funds have been equipped with seat belts, Chavarria said.

He also said that bus drivers are required to have a yearly physical and undergo training updates in order to recertify. Training includes safety regulations, pre-travel bus inspections and distracted driving.

On Dec. 3, an Iraan-Sheffield ISD bus was involved in a multiple-vehicle accident that killed a cheerleading sponsor and injured another sponsor and cheerleaders.

"I want to assure our parents that we are doing everything that we can towards the safety of our students as they travel," Chavarria said.

STAAR TESTING

In their reports, Principals Ronny Clayton and Tammy McWilliams reported that all three campuses are working on upcoming STAAR testing in the spring.

Clayton said OHS Students took end-of-course tests the week of Dec. 5.

McWilliams said OES and OMS are offering Homework House, an after school program that gives students supervised help with homework and missing class work, as well as tutorials.

Both campuses are also finalizing campus improvement plans and looking at student data as related to STAAR testing.

McWilliams said the main focus for both campuses next semester will be practicing STAAR-type questions.

2017 San Angelo Business Plan Competition is now open

BUSINESS TIPS

DAVE ERICKSON

The 2017 San Angelo Business Plan Competition is now open to all eligible small business owners and those wishing to start a business. The cash prize awards are $25,000 for first place, $20,000 for second place, and $15,000 for third place. In addition, each winner will receive an in-kind prize package worth thousands of dollars from local service providers in areas such as marketing, advertising, office supplies, accounting assistance and legal assistance.

The 2017 San Angelo Business Plan Competition is coordinated for a second year by the ASU Small Business Development Center (SBDC), the ASU College of Business, and the Business Factory business incubator. The $60,000 in total cash prizes are being made available from the City of San Angelo Development Corp., which administers the half-cent sales tax for economic development. The goal of the competition is to give entrepreneurs an opportunity to develop business plans to start a business or expand an existing business in San Angelo.

Who is eligible? Businesses who wish to expand an existing small business in San Angelo or those wishing to start a business in San Angelo. In addition, entries must show the creation of primary jobs. Primary jobs result from 80 percent of the company's revenue coming from sales outside of San Angelo's market area.

What is the competition process? The 2017 San Angelo Business Plan Competition is in three phases. Phase I is the entry into the competition by submitting the Entry Form by Feb. 6, along with a two-page business overview of the business start-up or business expansion. Entries will be selected as semi-finalists to move forward by the competition coordinators. Phase II semifinalists will have time to create and submit a draft business plan. A judging panel made up of local entrepreneurs, as well as civic and business leaders, will review and judge the draft business plans and select finalists to move forward to Phase III of the competition. In Phase III, the finalists complete their business plans and present in person to the judging panel. From there the judging panel will select any winners.

No-cost and confidential assistance to complete the business overview and business plan is provided by full-time certified business advisors with the ASU Small Business Development Center. In addition, a student team from an ASU College of Business class will work under the SBDC business advisors to assist contestants.

Competition guidelines and a schedule of events can be viewed and downloaded from the SBDC website at www.angelo.edu/business-plan-competition. For more information, call SBDC Director Dave Erickson at (325) 942-2098 or email david.erickson@angelo.edu. As mentioned, the deadline for entry is 5 p.m. Feb. 6.

Yes, Virginia, there is a Santa Claus

Editor's Note: The Ozona Stockman takes pleasure in publishing one of the most famous editorials written in newspaper history, and probably the most famous Santa letter ever written. It was published in 1897 by the New York Sun on their editorial page. The answer was written by Francis P. Church. For more letters to Santa, see our special Santa Letters section.

Editorial Page, New York Sun, 1897

We take pleasure in answering thus prominently the communication below, expressing at the same time our great gratification that its faithful author is numbered among the friends of The Sun:

Dear Editor,

I am 8 years old. Some of my little friends say there is no Santa Claus. Papa says, "If you see it in The Sun, it's so." Please tell me the truth, is there a Santa Claus?

Virginia O'Hanlon

Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except what they see. They think that nothing can be which is not comprehensible by their little minds. All minds, Virginia, whether they be men's or children's, are little. In this great universe of ours, man is a mere insect, an ant, in his intellect as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to your life its highest beauty and joy.

Alas! How dreary would be the world if there were no Santa Claus! It would be as dreary as if there were no Virginias. There would be no childlike faith then, no poetry, no romance to make tolerable this existence.

We should have no enjoyment, except in sense and sight. The external light with which childhood fills the world would be extinguished.

Not believe in Santa Claus! You might as well not believe in fairies. You might get your papa to hire men to watch in all the chimneys on Christmas eve to catch Santa Claus, but even if you did not see Santa Claus coming down, what would that prove?

Nobody sees Santa Claus, but that is no sign that there is no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn?

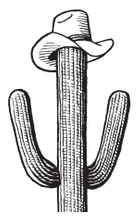

Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in the world.

You tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, nor even the united strength of all the strongest men that ever lived could tear apart.

Only faith, poetry, love, romance, can push aside that curtain and view and picture the supernal beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding.

No Santa Claus! Thank God! He lives and lives forever. A thousand years from now, Virginia, nay 10 times 10,000 years from now, he will continue to make glad the heart of childhood.

Wise Beyond His Years

IT'S THE PITTS

LEE PITTS

My shrewd buddy Everett came by for a visit today. I haven't seen him for awhile because he's been hauling stock, driving his John Deere and learning how to operate a backhoe. Everett came by because he got a new saddle and he needed a couple D rings sewn on. I'll try to get it fixed fast because he needs it to ride herd over his ranch.

Like me, Everett likes working in the shop so when he came we wet a couple pieces of leather and he tried out a couple new stamps I made. He couldn't stay as long as I would've liked because he had to get home and feed all the animals.

Did I mention that Everett is all of two years old?

His John Deere is a small ATV that runs off a 12 volt battery and it has a bed in the back where he loads up one of the family's dogs and goes for a joy ride. At least it's a joy for Everett. As for the dogs, well, they're Border Collies so they are patient and willing but judging by their collective countenance, they're a little leery of Everett's driving.

One set of Everett's grandparents owns a dirt moving company so for Christmas they got him a plastic tractor with a fully functional backhoe attachment. I suspect they're trying to steer him into the family business but that won't be easy because he's showing signs he'd make a great stockman. Everett's already got a rope and I hate to see what happens when his new baby brother Caleb gets old enough to run. Second sons always have rope burns around their ankles.

Everett is exceptionally bright and you should see the things he can do. Mind you, his parents aren't pushing him. They're just exposing him to a lot of different things and if he shows an interest, they are using it as a teaching situation. He soaks things up like a sponge.

We've all seen on television five year old concert pianists, adolescents who could sing like angels, six year old pole benders, juvenile tennis stars and on, and on. All because their parents weren't afraid to teach and expose their children to new wonders at an early age.

My father figure was my Grandpa and he taught me how to fish, but my biggest regret is that he didn't teach me how to rope, so later in life I had to teach myself. If his belt buckle I wear is any indication, Grandpa was a pretty good team roper and I treasure a photo I have of me sitting in his saddle with him at a rodeo when I was one. My biggest thrill as a youngster was going to his house and sitting on his saddles in his "bunkhouse". But a saw horse is a poor excuse for a rope horse.

Another important person in my young life was Benny, the wonderful Japanese man who worked for my Grandpa fixing appliances. He instilled in me a love for fixing things and even though that's not how I make my living, my life has been enhanced in so many ways by Benny. I only wish I would have picked up leatherwork and engraving at an earlier age so I could have enjoyed them all my life. It takes a lot longer and is harder when you have to teach yourself. Especially if you're as bad a teacher as I am!

My mother paid the bills by working 14 hours a day as a seamstress and she was a great one. And although this may sound feminine of me, I sure wish she'd have taught me how to use and time a sewing machine because I have two sewing machines now for my leatherwork and it took me a long time to master them. I had a million questions to ask her but she had passed away by then.

You want to know who the luckiest kids in the world are? It's not the richest, or the ones with the bluest blood. It's the kids with parents, grandparents and friends who take the time to teach them things and in doing so give them confidence that they can achieve anything they set their young minds to do.

Maybe you can't teach an old man new tricks, but you can sure teach a young one.

Abbott reacts to Trump's choice of Perry as energy secretary

STATE CAPITAL HIGHLIGHTS By Ed Sterling | Texas Press Association

AUSTIN — President-elect Donald Trump's nomination of Rick Perry as the next secretary of the U.S. Department of Energy prompted this reaction by Gov. Greg Abbott:

"Under Rick Perry's leadership in Texas," Abbott said, "the Lone Star State experienced unprecedented growth in the energy sector, which in turn created hundreds of thousands of jobs for Texans. Rick Perry was instrumental in creating a more favorable regulatory environment for the energy industry in Texas, and I have no doubt that he will bring that same expertise to his new post. The State of Texas looks forward to working with him to help advance America's energy sector to create a more robust economy and greater opportunity for all Americans."

Perry, who served as governor of the Lone Star State from December 2000 to January 2015, previously served stints as lieutenant governor, agriculture commissioner and as a member of the Texas House of Representatives. He unsuccessfully ran for president in 2012 and again in 2016.

Presidential Cabinet members include the vice president, the attorney general and the secretaries of Agriculture, Commerce, Defense, Education, Energy, Health and Human Services, Homeland Security, Housing and Urban Development, Interior, Labor, State, Transportation, Treasury and Veterans Affairs.

UNEMPLOYMENT RATE DECREASES

Texas' seasonally adjusted unemployment rate decreased to 4.6 percent in November, down slightly from 4.7 percent in October, the Texas Workforce Commission announced Dec. 16.

Also, according to the state agency, Texas has added an estimated 210,800 seasonally adjusted jobs over the past year with the addition of 20,900 nonfarm jobs in November. The state has added jobs in 19 of the past 20 months.

"Private-sector employment has been strong over the year with the overall job growth of 171,800 including 15,800 jobs added in November," said TWC Commissioner Representing Employers Ruth R. Hughs. "The fact that our state has added jobs for 19 of the last 20 months is a credit to the diversity and resilience of employers in Texas."

NET WIDENS IN ZIKA TESTING

State and local health departments are investigating five locally transmitted cases of Zika virus disease.

"Right now, we're aware that local transmission has occurred in a small area of Brownsville," said Dr. John Hellerstedt, DSHS commissioner, in a Dec. 14 news release. "However, we want to cast a wide net with testing to develop a clearer picture of what is happening with Zika in the area and provide pregnant women with more informa-

What if I told you the truth about cholesterol?

HERE'S TO YOUR HEALTH

JIM FISH

What if the truth about cholesterol is not at all what you have been led to believe? What if our medical authorities, the pharmaceutical industry and public health agencies have in effect conspired to distribute potentially harmful chemicals (statins) under the guise of controlling our cholesterol, solely for a profit of $30 billion a year?

This is your last chance. From this moment forward, there is no return. You can take your statins and this article ends for you, you continue believing whatever you want to believe. Stop here and read no further...

But… if you follow my lead and open your mind, I'll show you how deep the cholesterol 'rabbit-hole' goes.

Well, this isn't "Alice in Wonderland" and it's not "The Matrix". This is nothing more than the truth about our cholesterol and its vital impact to our health and wellbeing. There is nothing "bad" about it and it is not even a contributing factor in heart disease. It has all been a myth… based on the 1950's diet-heart hypothesis, "everybody 'knows' that cholesterol is 'evil' and has to be fought at every turn." It could not be proven then and has remained scientifically unsupported since its conception.

Normal cholesterol levels before statins vary worldwide from about 105 mg/dl to 343 mg/dl (or 2.8 to 8.8 mmol/L) in healthy people, making the average about 230 mg/dl. These levels of cholesterol have been seen in people both with heart disease and those without, as per data from the Framingham Study, one of the largest studies ever done on cholesterol.

Based only on the erroneous, 1950s diet-heart hypotheses, pharmaceutical companies formulated a pill and funded studies that claimed cholesterol levels above 200 mg/dl put people at risk of heart disease. This 'adjustment' of more than 50+ mg/dl down from the near worldwide average is a big, fat lie. Nevertheless, it increased the industry's annual profits on statin drugs progressively to its present-day thirty-billion-dollar mark.

"Pharmaceutical companies and those people in the pockets of pharmaceutical companies have altered the definition of high cholesterol in order to increase the number of people who are eligible to take cholesterol medications… how many people who have been told they have 'high' cholesterol, in fact have a normal cholesterol level." - Justin Smith, May 28, 2016, from his article, "Creating the 'High' Cholesterol Myth - Why Your Cholesterol Level is Normal and NOT High."

For millions of years, cholesterol has been key in the production of most our body's hormones. Ever constructing and repairing cells and nerve fibers in our brain and throughout our body, it facilitates optimum health and homeostasis. We would not have survived without it.

How many of us know what cholesterol is, and how vital is it to our wellbeing?

Cholesterol is a compound of unsaturated steroid alcohols, typically waxy solids, produced by the liver and found in most body tissues, including the blood and nerves. Some is present in foods from animal sources, such as meat, poultry and full-fat dairy products. It has a more complicated chain of fatty acids than the usual simple fats in our food and stored in our adipose tissues. There are varying types of particles that differ in size, density, and function like low density lipoproteins (LDL), high density lipoproteins (HDL), and a few in between variations, the intermediate and very-low density lipoproteins.

That LDL is "bad" and HDL is "good" is not exactly true, nor is the myth that cholesterol is responsible for heart disease. When we take statins to limit its production, it's like taking away half the fire brigade and the resources on its way to put out the fire.

HDL is largely protective but not in every case. As with LDL particles, HDL particles also vary in size and density, and smaller size particles can be damaging. Nevertheless, HDL particles can enter and leave cell walls without causing damage, unlike LDL particles, and carry oxidized derivatives of cholesterol back to the liver for cholesterol equilibrium or neutralization.

The brain is composed of 22 percent cholesterol. "Myelin coats every nerve cell and every nerve fiber like the insulating cover around electric wires. Apart from insulation, it provides nourishment and protection for every tiny structure in our brain and the rest of the nervous system. People who start losing their myelin develop a condition called multiple sclerosis. Well, 20 percent of myelin is cholesterol. If you start interfering with the body's ability to produce cholesterol, you put the very structure of the brain and the rest of the nervous system under threat." – from "Cholesterol: Friend Or Foe?" by Natasha Campbell-McBride, MD, MMedSci (neurology), MMedSci (nutrition).

Every nerve cell and fiber in the human body is made with cholesterol. All the steroid hormones, including Vitamin D, the sex and adrenal hormones are as well. Drugs that reduce the liver's production of it will affect the hormonal balance and result in damage to the body in general. Cholesterol is the solution, not the problem. In most cases inflammation is the problem to which the body's immune system is dispatched to counter. Cholesterol is its messenger and agent reconnoitering our good health and wellbeing.

Here's to your health.

Mark Dean Tambunga died in San Angelo, Texas on Thursday, December 15, 2016 at the age of 27.

Mark is survived by his wife, Whitney Dyann Tambunga, his daughters, Kaidence Breann Tambunga and Keilyn Leighann Tambunga, his father, Dean Anthony Tambunga and stepmother Elizabeth Tambunga, his mother Stephanie Elizabeth Rodriguez, his brother, Joseph Michael Tambunga, his grandparents, Ernest and Isabel Tambunga, Elena and Alfredo Alvares and Alice Salinas.

Mark was born September 26, 1989. He graduated from Ozona High School in 2008. He entered the U.S. Navy and served for four years.

Mark was a loved husband, father, son, brother, grandson, nephew, cousin and friend. He will always be in our hearts.

Funeral services were Saturday, December 17, 2016 at Our Lady of Perpetual Help Catholic Church in Ozona, Texas. Arrangements by Kerbow Funeral Home.

OZONA SENIOR HAPPENINGS

Bingo Social Jan. 16

BY BRENDA NEWTON
SENIOR CENTER DIRECTOR

If you haven't done you Christmas shopping yet, you better get bust. Just four more days to get read. This where I want to wish all of you the very Merriest Christmas ever. I hope all your wishes come true but if not all of them, the I hope enough come true that you can feel blessed. Hug each other and spread the love.

There was not a December Bingo Social due to the busy schedule for Christmas, but we will get that started back on Jan. 16. There will also be no bingo tomorrow afternoon because the center will be closed, but we will start back next Thursday.

Don't forget the sit-down exercise on Tuesday morning at 10:30. Nikki Bishop is leading this exercise. She is the Wesley Nurse at the Methodist Church. Such a sweet girl, and she will take your blood pressure and keep a record of your progress. If you have any questions about diabetes or any other age related problems, give her a call at the Methodist Church. She is aware of all kinds of helpful tidbits that might be helpful.

I have had some request for the balance exercise on Thursday morning at 9:30 a.m. Come join us. It is not a very hard exercise but will help strengthen you muscles for the balance we all need to keep us from those dreaded falls. Isn't a little discomfort in your muscles better than the disablement of a broken hip? Just saying!

Exercise – 9 a.m. Monday, Wednesday and Friday.

Bridge – 1:30 p.m. Monday

Balance Exercise – 9 a.m. Tuesday and Thursday

Mexican Train – 1:30 p.m. Wednesday

Prayer Group – 3 p.m. Wednesday

Quilting – 9:30 a.m. Thursday

Bingo – 2 p.m. Thursday

Come on out, the coffee is on.

JUST WHO WAS IN THE MANGER?

I recall receiving a picture of a little newborn baby. In the center of the picture was a tiny little hand holding on to its mother's finger. That picture reminded me of the night that Jesus was born in a manger in Bethlehem many years ago. Mary would look at and hold, as most young mothers do, those tiny little fingers and hands. Little did she know that it was God with us, (Matthew 1:23) and in that little child was the fullness of God, (John 14:10&11, Colossians 1:15).Years later those young hands would work in a carpenter shop and years later take a few small loaves of bread and miraculously feed over five thousand. They would also take dirt and spittle and give sight to the blind. They also made the lame to walk. Those hands when outstretched could calm the most violent storm and yet tenderly hold a young child that wanted to be near. Yes, those hands were brutally beaten and then spikes driven through them and they stayed nailed to a cross on a hill in Jerusalem over two thousand years ago until there was no life left in them. It was then and there, that a way was made for our sins to be forgiven, (John 3:16, Colossians 1:14). It will also be those hands that will be waiting to greet us and take us into heaven and eternity, (John 14:3&6). See you in Church next Sunday. Brother J

OZONA CONTINUED TO SHOW SUPPORT FOR THE IRAAN BRAVES: Ozona Middle School and Growing God's Children Preschool showed their support after a Dec. 3 vehicle accident that killed an Iraan cheerleading sponsor and injured cheerleaders and another sponsor. Ozona fans also traveled to the state championship game. Turk and Annalu Gonzales cheer on the Braves, specifically #74 Isaac Mendoza Turk's nephew. The Braves lost to Bremond 49-28 in the Class 2A Division II State Championship Game at AT&T Stadium in Dallas.

Not only does the passing standard go up this year on STAAR, but the standard of how many students must pass increases as well, McWilliams said.

She also said there are many changes and challenges in the accountability system this year.

"We are working to learn the system as it changes and do all we can to meet the requirements," McWilliams said.

OTHER AGENDA ITEMS:

· The board approved Travis Davidson, Orlando De Hoyos and Amy Newton to the Crockett County Appraisal District Board.

· The board reviewed their continuing education credits. Board members have 12 months to complete their required credits. New board members must obtain, during their first year of service, 16 hours plus a local district orientation update. Experienced board members are required to obtain annually eight hours plus update. Local board members' hours: Dwight Childress - 66.25; Orlando De Hoyos - 64.75; Amy Newton - 64.25; Justin Morris - 4; Travis Davidson - 4; Roland De Hoyos - 50.50; Ryan Bean - 25.50.

The next regular board meeting will be 6:30 p.m. Jan. 18 at the Administration Building.

Ozona National Bank announces two new board members

BY ABBEY CARNES
OZONA NATIONAL BANK

Mrs. Kelly Barclay, President and CEO of Ozona National Bank announced the addition of Mr. G.L. Bunger V and Mrs. Susan (White) McNeill to the Board of Directors for the Ozona National Bank .

"We have a very strong leadership foundation in place and we couldn't be more pleased with these appointments. Both G.L. and Susan embody the spirit of community and bring talent, expertise, and energy to the table. Each of these individuals' professional backgrounds and passionate commitment to enhancing their communities fall in line with Ozona Bank's core values and overall mission. We are very proud and fortunate to have them by our side as we continue to strengthen the communities we call home," said Kelly Barclay, CEO and President.

G.L. Bunger is a fifth generation rancher from Ozona. After earning a degree from Texas A&M University in animal science, with a minor in business, he returned home and after several years in the real estate industry, established his own full-service real estate brokerage firm. As a licensed real estate broker, his firm specializes in ranch, residential, and commercial real estate.

Just like G.L.'s heritage in Ozona, his family has an integral history at Ozona National Bank. He is a fifth generation member of the Board of Directors and he is proud to carry the legacy of his family's work into the future of the bank. He and his wife Colbey Bunger have two daughters, Lillian and Kate and currently reside in Ozona.

Susan (White) McNeill's Texas roots run deep and when the opportunity to shape Texas communities presented itself, she was enthusiastic about the possibilities. Susan also welcomed the chance to join her father in providing support and guidance for the future success of the Bank. With a degree in Marketing from Angelo State University, Susan took her talents to Houston, where she established a Commercial Real Estate & Office Leasing firm. She represented tenants during the leasing process to ensure they received the best possible deal available in the booming Houston economy.

Susan's dedication to her success in business is only matched by her commitment to her family. When the opportunity to strengthen her family's future presented itself to her and her husband Scott, they had to consider it. While this decision meant that their family, including two daughters Valerie and Audrey, would be relocating, they ultimately decided it was the best decision for their family. Their new home in New Market, Maryland has welcomed Susan and her family and they have taken true southern hospitality with them. Susan's volunteer work and efforts to enhance her community are just a few of the reasons she will be a great asset to the Board of Directors.

Directors as of Dec. 8, 2016 are as follows:

· George Bunger Jr., Chairman
· Frank C. White, Vice Chairman
· Kelly Barclay, Chief Executive Officer and President
· Douglas Bean
· Louis Bunger
· Thomas Cameron, General Counsel
· Don W. Long
· James Oliver
· Dan Pullen
· G.L. Bunger V
· Susan McNeill
· James Skehan, Advisory Director.

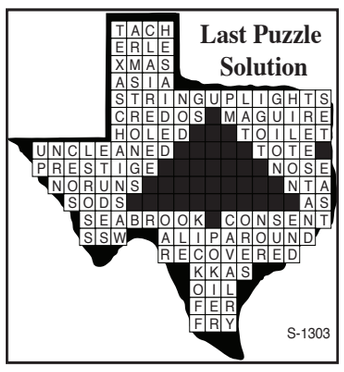

In Care of Ozona Foundation seeks donations

The In Care Of Ozona Foundation was founded for the purpose of helping Ozona residents in need of fuel or hotel expenses resulting from a catastrophic illnesses and other severe medical conditions.

In 2016, Coz 4 Oz has helped three local residents with fuel expenses due to kidney dialysis treatments and two local residents with hotel expenses due and cancer treatments. $5 is all we're asking you to donate. Help us raise $1,500 by going to the GoFundMe link on the In Care of Ozona Facebook page.

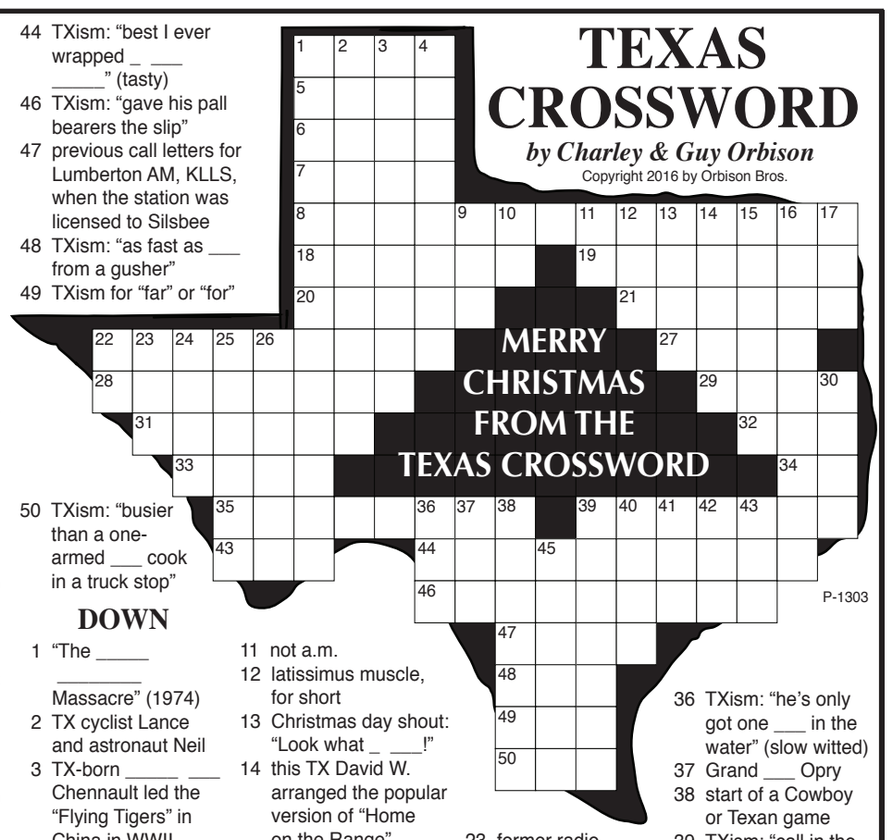

You can donate at Ozona Bank, the KYXX station or mail in your $5 donation to In Care Of Ozona P.O. Box 1027 Ozona, Texas 76943.

tion about their health."

Zika testing is recommended for all pregnant Brownsville residents and pregnant women who have traveled there since Oct. 29. Also, those who visit Brownsville on a daily or weekly basis are asked to get Zika testing once during the first trimester of their pregnancy, and once during the second trimester. Pregnant women with limited travel should discuss it with their doctor and be tested based on when the travel occurred.

Zika's four most common symptoms are fever, itchy rash, joint pain and eye redness. While symptoms are usually minor, Zika can also cause severe birth defects, including microcephaly, and other poor birth outcomes in some women infected during pregnancy. More information is available at TexasZika.org.

ZIKA GRANT IS AWARDED

The U.S. Centers for Disease Control on Dec. 12 awarded the state of Texas a $5 million grant to help combat the Zika virus.

"Now that Texas has confirmed cases of local transmission of the Zika virus, this money will be crucial in our efforts to contain and combat further transmission of the virus," said Gov. Abbott. "Texas has been at the forefront of developing and implementing the strongest possible Zika response plan and we will continue to work with our local and federal partners to ensure our communities have the tools they need to combat the Zika virus."

'REPORT CARDS' ARE POSTED

Education Commissioner Mike Morath on Dec. 8 announced the availability of 2015–16 School Report Cards on the Texas Education Agency website, tea.texas.gov.

School Report Cards include the following information for each campus in Texas:

- 2016 state academic accountability rating;
- Attendance rates;
- Enrollment figures;
- Dropout rates;
- Class size averages;
- State of Texas Assessments of Academic Readiness results;
- ACT/SAT results; and
- Per-student financial expenditures.

OZONA COMMUNITY CENTER

Dear Santa,
This year I've been nice. Here are a few things I am wishing for: I would like a cuddly stuffed animal to cuddle with and a big red truck. Oh and by the way I would like another pair of shoes as I will be outgrowing these that I have very soon! Also, there will be a new addition to the family in a few months (a baby sister), so please bring us something that we could share!
Love,
Christian Perner
P.S. The milk and cookies are for you and the carrots are for Rudolph.

Dear Santa,
