

The Lynn County News

Volume 43.

Tahoka, Lynn County, Texas, Friday, July 4, 1947

Number 39

Lynn's Wheat Crop Harvested, Other Crops Growing

Lynn county is just finishing the harvesting of its biggest wheat crop—not a big crop when compared to those of the wheat raising counties to our north, but a big one for this cotton and maize country.

Due to the dry weather in March and April, the yield per acre was not as high as many farmers had expected, but this county has already shipped between 150 and 160 cars of wheat, 79 of them from Tahoka and approximately the same number from Wilson and O'Donnell combined. In addition to this, it is estimated that there are 100 cars in storage at the elevators. Some is yet to be cut, and a few farmers have a little wheat in storage on their farms.

County Agent Bill Griffin estimates that there was a total of 20,000 acres in wheat in Lynn county.

Though hail and wind have done damage to the cotton crop, prospects are bright at the present time for a big cotton crop this fall. Both cotton and feed are growing rapidly. Most farmers are busy fighting the weeds, however.

A report issued by Anderson-Clayton, cotton dealers, last Saturday estimates Lynn county's cotton acreage at 250,000 acres and the prospective production at 110,000 bales. Weather conditions from here on out will have a great effect on this total, naturally.

With maize at an unusual high price, farmers are due to reap a neat price for this crop, our largest money-maker next to cotton and produce.

The temperature high the past week has ranged from 98 to 104 degrees.

Softball Results For Past Week

New Home slipped up to the first peg in the County Softball League by defeating the Legion nine and the loss of a game by O'Donnell on a forfeit to Calvery's. O'Donnell is now in second place, A. Legion, third, and Grassland fourth.

Last Thursday night in the first game Wharton Motor Co. defeated Collier Drug by a small margin. In the second game, Grassland defeated VFW.

Friday night New Home trimmed the American Legion nine after having trailed throughout most of the game. O'Donnell forfeited to Calvery Hatcher which was scheduled to play the second game.

Monday night the Flying Farmers who seem to be flying awful now, put a scare into the Legion nine but failed to show enough power to overcome the Legion's small lead. In the second game Wharton Motor Co. defeated the Davis-Humphries team. That makes two straight wins for Wharton in the past week—better keep your eyes on that, Wharton nine.

TEAM	G	W	L	Pct.
New Home	6	5	1	.833
O'Donnell	5	4	1	.800
A. Legion	7	5	2	.714
Grassland	6	4	2	.667
VFW	6	3	3	.500
Collier's	5	2	3	.400
Wharton's	5	2	3	.400
Calvery's	3	1	2	.333
D. & H.	7	2	5	.285
F. Farmers	6	0	6	.000

Week's Schedule

Tonight, Thursday, July 4, Calvery's will play Grassland in the first game and VFW and New Home will battle it out in the second game.

Friday night, July 4, Collier Drug will play O'Donnell in the first (Cont'd. on last page)

Congratulations . .

Mr. and Mrs. Alton Gardner of Lubbock are the parents of a son, named Gary Ray, and weighing 7 pounds, 12 1/2 ounces, born last Friday at 10 A. M. in West Texas Hospital. Mrs. Gardner is the former Miss Donna Mae Milliken, youngest daughter of Mr. and Mrs. O. R. (Bud) Milliken. The baby and young mother are here this week visiting the Millikens.

Rex Jackson On Staff of Texas U.

Rayborn Rex Jackson of Draw has accepted a position on the Registrar's staff at the University of Texas.

Jackson, a war veteran, recently received his Master of Arts degree at the University. Mrs. C. C. Jackson, his mother, Mrs. D. G. Cook, and Mrs. Lewis Kenley attended the graduation exercises.

VFW Is Spraying City With DDT

All alleys, outhouses, livestock lots, and other fly and mosquito breeding places in Tahoka are being sprayed with DDT through efforts of the Tahoka Veterans of Foreign Wars post.

The drive against disease-carrying insects got underway Wednesday, and will continue until the town is covered, according to Melton Leslie, VFW commander, and County Agent Bill Griffin, senior vice-commander.

A power spray loaned the VFW by Willis Pennington, county commissioner of precinct No. 2, is being used to do the work.

Though flies have not been as bad this summer as some years, mosquitoes are about to take the town. Not only will the spraying help to rid this locality of the pests but may help prevent an outbreak of polio or some other dread disease.

The VFW officers ask that citizens co-operate with the fight against flies and mosquitoes and disease by doing everything possible to eliminate their breeding places. Garbage cans and dumps are an ideal breeding place for them. Citizens are asked to burn all garbage as quickly as possible, or to wrap up in paper that garbage which will not burn, such as foods, watermelon rinds, etc.

The VFW post is furnishing the money to buy the DDT and to pay other expenses of the spraying.

Not only does Tahoka need this spraying campaign, but a good, big clean-up campaign would be a help. The News joins the VFW in asking, "How about it, citizens and City of Tahoka officials?"

Baseball Game Set For Friday

On Friday afternoon, July 4th, starting at 3 o'clock, the Tahoka Black Cats will play the Tahoka Blue Sox on the baseball field just northeast of the City water tower.

Batteries for the Blue Sox will be Locke pitching and Buster Driver catching.

The News failed to contact the manager of the Black Cats, Early Lee Lawson, and therefore was unable to find out who is to do the pitching and catching for that team.

The Black Cats after getting off to a slow start have won three out of their last four games.

Last Sunday the Black Cats defeated Slaton by a wide margin.

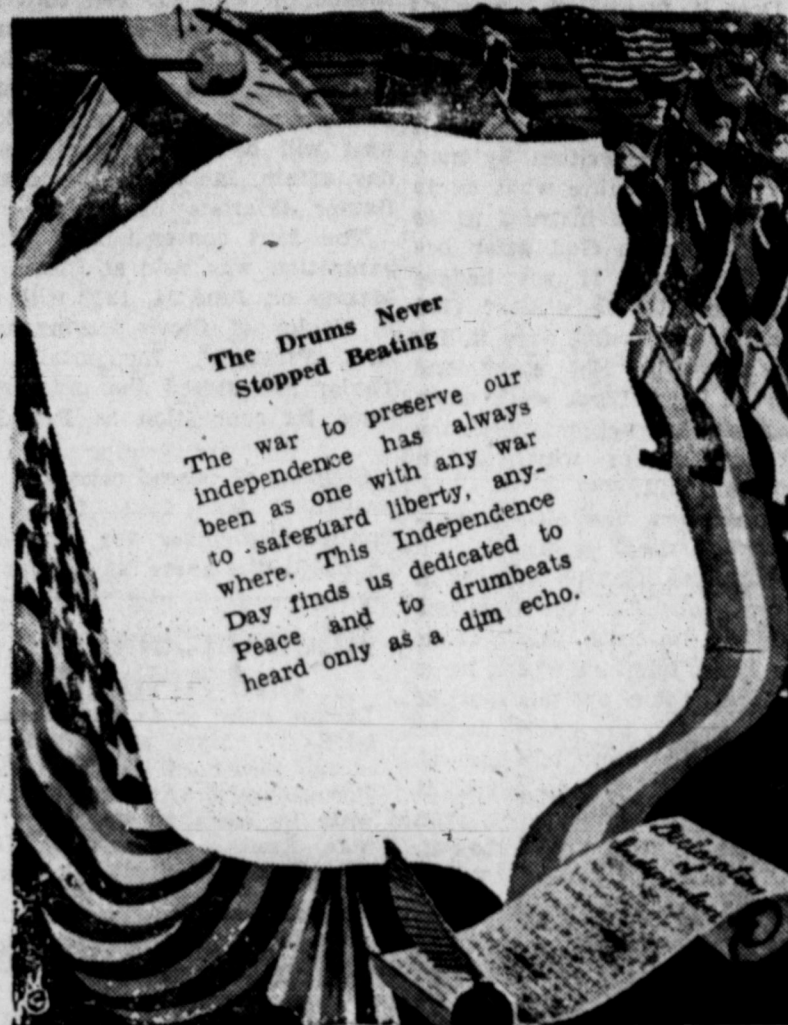

As for the Blue Sox, this is their first game this year and the quality of the team is yet to be proven. The Blue Sox is a newly organized hard-ball club and they have been practicing for the past two or three weeks and expect to play some of the Oil Belt League teams in the near future.

Fire Damages Burleson Elevator

Fire damaged Burleson Grain company's No. 2 elevator at about 2:15 Wednesday afternoon. Quick action by the Fire Department prevented a tremendous loss. The fire started in the top of the elevator, where the electric motors are located, but was believed to be under control by 3 o'clock.

Mr. Burleson was not available for a statement, but employees believed there was at least 30 cars of new wheat in the elevator, none of which was believed to have been damaged.

Mr. and Mrs. Floyd Goad are moving to Lubbock this week. He will work there for Cicero Smith Lumber company at the same job he held here for eight years.

92 Are Enrolled In Vocational School

Approximately \$6,000 worth of farm hand tools were distributed Monday to the 92 students in the Lynn County Vocational School for Veterans, according to Charles Stewart, secretary.

The tools will become property of the student if he completes the three year course, otherwise they will revert back to the government. Charles states that the school now has a waiting list of more than thirty applicants in addition to the 92 students enrolled.

The school was started last October under sponsorship of the Lynn County School Board, with Mrs. Lenore M. Tunnell co-ordinator. Charles Stewart is secretary, and Floyd Heck teaches the classes at New Home and Wilson, James Reid the class at O'Donnell, and Cleveland Littlepage and Joe Robinson the Tahoka classes.

Also, a county-wide advisory board has been set up composed of Wiley Curry, Clint Walker, J. K. Applewhite, Loyd McCormick, and Ed Singleton.

Two 3-hour class periods and one 4 1/2-hour laboratory period is held each month. Enrolled veterans draw \$90 per month subsistence if married and \$65 per month if single.

Mrs. Tunnell states that out of 40 counties in West Texas in which there are 121 Vocational school classes, there are 2295 veterans in attendance under Public Law 346, and 453 under Public Law 16, the latter being disabled veterans.

BUILDING FINE HOME

J. T. Whorton states that he is building a fine home for Calvin Dorman on the latter's farm in the T-Bar community. The house of ranch style architecture is 45 by 70 feet in size.

Mr. and Mrs. Clarence Gaussoin and son of Belen, N. M., where he is manager of the Safeway store, are here this week visiting her mother, Mrs. F. E. Redwine Sr., and other relatives.

Girl Arrested In U. S. Mail Case

A little 13-year old Tahoka girl faces Federal charges of tampering with the U. S. mails as the result of having broken into a number of mail boxes at the local postoffice last Friday evening.

Though no charges had been filed Tuesday, an inspector had gathered evidence to present to the Department for its decision in the case.

According to Sheriff Sam Floyd and County Attorney E. P. Maddox, the girl opened a number of boxes stole and destroyed most of the mail in them, kept one check for approximately \$80.00, but so far as is known found no mail in which there was any actual money.

However, she did take the \$80.00 check as a sample and attempted to forge another check for \$7.50, using the name on the check, at the First National Bank.

She was released on recognizance awaiting action by Federal officials.

Work Progressing On Stewart Lake

Work is progressing at a rapid rate on lake dam on the Grover Stewart place east of Redwine, according to reports received by the News.

The dam, when completed, is expected to be about 70 feet high and 700 or 800 feet long and will impound a body of water covering about 200 acres. Mr. Stewart expects to stock the resulting lake with fish and operate the lake as a resort center.

M. C. Fillbin Co. of Dallas has the dirt work contract on the dam.

Woodworking Shop Is Opened Here

Ted M. Clayton of the Clayton Lumber company this week announces the opening of the Clayton Woodworks, located in the building east of the lumber yard.

He has installed a wood lathe, shaper, band saws, joiner, sanders, etc., and is equipped to make nearly anything of wood.

Tahoka Businesses Close For 'Fourth'

Most Tahoka business houses, as has been the custom for a number of years, will be closed all day Friday, July 4, according to Clint Walker, secretary of the Chamber of Commerce.

The Lynn County News is being mailed out a day early this week, Thursday, because of the fact that the mail routes will not run on the holiday.

Rotary Officers Installed Here

New officers of the Tahoka Rotary Club for the year beginning July 1 were installed at the meeting on Thursday of last week.

Alton Cain succeeds Lum Haney as President, and Vernon Brewer succeeds Cain as vice-president. Ross Smith is the new secretary, succeeding Jarrell Brown. New directors are Neal Stanley, J. A. Biggerstaff and Dr. Emil Prohl; and Haney, Brewer, and David Weathers are the hold-overs.

Cain presented the program for the day by telling of his trip to the Rotary International convention in San Francisco, which The News reported two weeks ago.

Following his talk, Haney turned the gavel over to Cain, who, after a few brief remarks, introduced Brewer.

Mr. Brewer, in a few well-chosen words expressed the club's deep appreciation for the excellent manner in which Mr. Haney furnished the leadership for a most successful Rotary year and made the presentation to him of a beautiful diamond-studded past-president's pin.

The past year has been one of the most successful of the local club's ten years of existence. Many projects for the good of the community have been sponsored by the club, and attendance at club meetings has been better than any other year the club has enjoyed.

Renew Fight On Johnson Grass

Farmers and other local folks in Lynn County are gearing up this summer to fight Johnson grass, which is threatening to do a lot of damage to crops this year.

Civic clubs, the commissioners court and everybody in the county who is interested in bettering local agriculture are joining the farmers in a drive to kill out the grass pest. A Johnson grass committee has been formed in the county to spark the movement.

Lynn County Agricultural Agent W. B. Griffin reports that when the groups are ready to go into action, they plan to set aside several days to concentrate on killing grass, and spurring local interest in getting rid of the pest.

The county agent says that the local commissioners have purchased a power sprayer for each precinct and 200 drums of poison to use in the Johnson grass eradication drive.

W. L. Burleson Is Back In Hospital

W. L. (Bill) Burleson, who has been seriously ill for several months, was carried back to Lubbock Memorial Hospital late Saturday critically sick. Since that time he has remained in a critical condition, but Tuesday night was reported to be "considerably better."

Little hopes were held for his recovery unless he responds to treatment soon. Many friends here were encouraged over the latest reports from his bedside.

Mr. Burleson is owner of the Tahoka Motor company, Ford dealers, and has long been a prominent and active citizen of this little city.

EDITOR ON VACATION

Editor and Mrs. E. I. Hill and two grand daughters, Anita Jo and Sarah Sue Rochelle, left Friday of last week to visit Mrs. Myrtle Rochelle at Austin, Miss Berta Hill at Floresville, and other relatives in Central and South Texas.

\$30,000 For School Improvements Are Proposed Here

Voters of the Tahoka Independent Consolidated School District will go to the polls this Saturday to pass action on a \$30,000 bond issue proposed by the school board with which to add classrooms, a cafeteria, and otherwise improve the local school plant.

The local schools have been badly crowded for several years, but since the consolidation elections this summer which have increased the size of the district from 124 sections to 308 sections additional classroom space for the coming year is a necessity, according to E. R. Edwards, president of the school board.

Due to the high cost of materials and labor, the board did not feel it wise to erect a new permanent school building at this time.

As an alternative, the board has contracted to buy sufficient Army surplus buildings to build five classrooms and a cafeteria on the block immediately south of the present grade school building.

The board can secure a 151 by 26 foot hospital ward building from Camp Barkeley for \$3,500 that is well constructed of first grade lumber and a 94 by 26 foot cafeteria building of similar construction, for \$2,500 which will take care of the needs here for some years to come. The buildings are completely equipped with toilets, hot water heating plant and 31 radiators, piping, and lighting fixtures.

These buildings must be moved here, rearranged for school purposes. (Cont'd. on last page)

J. H. Franklin, 92, Died Saturday

J. H. Franklin, 92, a pioneer Lynn county farmer, died here Saturday afternoon at 5:10 o'clock. Services were conducted at the Tahoka Church of Christ Sunday afternoon at 4 o'clock by W. T. Garnett, former minister of the church, and burial followed in the local cemetery under the direction of Stanley Funeral Home.

John Henry Franklin was born in Missouri June 2, 1855. He came to Texas as a young man, and in May, 1878, was married to Miss Sarah C. Myers at Duffo, Erath county. He and his family moved to Lynn county from Knox county in 1909, a year before the railroad came to Tahoka and just a few years after the country had opened up for development. Until the infirmities of age caught up with him, he engaged in farming and was known and respected as a high type of citizen by a host of friends.

Mr. Franklin had been a member of the Church of Christ for 75 years, being faithful to his God and the church until death. He was also a member of the Woodmen of the World.

He is survived by 127 direct descendants, including eight children, 56 grandchildren, 62 great grandchildren and one great great grandchild. His wife died about 12 years ago.

Surviving sons are: Ben Franklin of Fort Sumner, N. M., Felix of Goree, Clint of Munday, Annis of Hagerman, N. M., William of Holliday, and Charlie of Paradise, Calif.

Daughters are: Mrs. A. L. Solasberry of Tahoka, with whom he was living at the time of his death, Mrs. A. V. Johnson of Cedar Hill, N. M., and Mrs. Howard White of Levelland.

Rotarians Attend Meeting At Snyder

Eighteen Tahoka Rotarians and Rotary Anns last Thursday night attended the charter presentation night program for the new Rotary Club at Snyder, carried the new club a gift, and presented a number on the program. The meeting was attended by 350 Rotarians from a wide area of West Texas.

Mrs. J. T. (Abbie) Whorton presented one of her comedy skits for the enjoyment of the crowd.

The local club presented the new club with Rotary song books.

GOSPEL MEETINGS

Two meetings in which the gospel of Christ, as it is recorded in the Bible, will be preached is scheduled for July in Lynn County.

From July the 6 to 13, Brother Gans of Lovington, New Mexico will be with the Church of Christ at O'Donnell.

From July the 25 to August the 3, Brother C. B. Middleton of Helena, Montana will do the preaching in a meeting for the Church of Christ at Grassland.

Neighbor if you live in either of these communities you are urged to attend the services during these

Stocker Cattle and Hogs

BUY or SELL

SEE—

Lee Sanders
TAHOKA

meetings. Hear the preaching. Compare what is said with your Bible. If the preacher preaches the gospel like it reads in your New Testament, tell others; if he does not tell the preacher. Try to show him where he is wrong if you think he is. Members of the Church of Christ don't want to be "the only Christians", they just want to be "Christians Only".

What is your attitude toward the Bible? Is it inspired of God? Does it reveal the will of God to man? Does it furnish the man of God unto every good work? If your answer is "Yes" to the last three questions, then I agree with you and we don't need any church manuals or creeds written by man to guide us in learning what to do to be saved, nor to instruct us as to how to worship God after becoming Christians. If you believe the Bible reveals the will of God to us then read it and obey it, for the Christ said, "Not every one that sayeth Lord, Lord, shall enter the kingdom, but he that doeth the will of my Father which is in heaven". Mt. 7:21.

Remember you are always welcome, and invited to attend the services of the Church of Christ in your community. If the minister don't preach the truth like it reads in your Bible tell him where he is wrong, right there on the spot. If we do not preach the gospel as the apostles did we want to know it. See Gal. 1:6-9. If we do preach it like the apostles preached it, you should want to hear it and obey it. See 2 Thes. 1:7-10.—Price Bankhead, Rt. 3, Post, Texas.

Jack Stricklin Writes Of Old-Timer Meet

While never a full blown Lynn countian or Tahokaite, we used to spend quite some time in this fine little south Plains city, after they got a railroad, and it was our nearest point to one. Also we had several good regular and part time advertisers at the Lynn Capitol and about once a month we called on them to collect and get new ads.

Bob Noble and his dad and mother are pioneers of Lynn county, having established their ranch just over in Lynn from Terry and their place used to be a favorite stopping place for the wagon freighters or those caught out in a storm. None were ever turned away. So, Bob wanted to get there in time for the fine barbecue lunch, and asked us to go along. His dad is ill, and his mother could not go.

The east stand was to be used over there, and anyone having been in Lynn county as long as 30 years is eligible. Well we could not feel too off-brand among such names and their descendants as the Roberts, Forresters, McDaniels, Ketners, Larkins, Wells, Cries, Leedys, Heare (depot man), Hall Robinson, Happy Smith, Kings, the Doaks, Otho and the late Cliff Thomas and others we cannot think of just now.

Anyway we felt perfectly at home and were made to feel that way, and such fine barbecue and all the trimmings. Speech-making, recitations and songs were the main diversion, and they had a fine program, and were preparing to go into election for new officers when we left.

Visited the Lynn County News office briefly, and found them up to their eyes in work, as one hand was on vacation. Frank Hill was in charge, and his dad Ee Eye Hill, the Old He of the News down at Lamesa rustling some newsprint as they were fresh out, and none to be had from their wholesaler. Charlie Curry of Lamesa was also in there chewing the fat with Frank.

So, back to Brownfield and some work.—Jack Strickland, the Old He of the Terry County Herald.

Mr. and Mrs. Bobby Stanley, formerly of Baird, have moved to Tahoka. He is a former member of the Marines, and expects to attend Texas Tech next fall. He is a brother of Neal Stanley, owner of the Stanley Funeral Home.

PLATEAU SINGING TO HOLD ITS 26th ANNUAL CONVENTION

At a meeting of the Board of Directors of the Plateau Singing Convention in Canyon recently, it was decided to hold the 26th Annual convention in Pampa on July 19 and 20.

All sessions will be held in the Pampa Junior High School Auditorium, beginning with the opening session on Saturday afternoon, July 19, to be followed by an all day session on Sunday. The convention will bring together singers from the five states, Oklahoma, New Mexico, Kansas and Colorado. Many of the outstanding quartets of the Southwest will be present for the two day affair, including the Stamps-Baxter Quartet of Dallas.

The first convention of the organization was held at Clovis, New Mexico on June 24, 1922 with John P. Taylor of Clovis serving as its first President. Incidentally, Mr. Taylor has served the organization since its conception as President.

Supplies of oilseed cake and meal available for feed from now through September are expected to be about the same as a year ago.

Grassroots...

By Bill Griffin
County Agent

It is a good bet that all of you gardeners are having troubles right now with tomato plants shedding their blossoms. There are several conditions that will cause blossom shedding.

Usually it is caused by a combination of high temperature and low humidity. With 10 days or more of hot, dry windy weather like we have had the past two weeks, the blossoms become sterile and shedding follows.

Sometimes, you can cut down blossom loss by spraying or sprinkling water on the plants late in the afternoon. The water gives a more uniform moisture condition, raises the humidity and lowers the temperature.

Now you're going to say you've got tomatoes that have had plenty of water, the vines are in good shape and still the blossoms are falling off. Well, your trouble in this case may be a small greenish bug that stings the blossoms and sucks the juices out of the small blossom stem. A dusting job with .75 percent rotenone will get this little green bug if you repeat the treatment for several days until all signs of the insects are gone.

In some cases, blossom shedding has been stopped by a little summer pruning... cutting off all the suckers up to the first flower cluster. And a virus disease, mosaic, which sometimes causes blossoms to shed and makes leaves curl up, can only be dealt with by pulling up and destroying the plants that are affected most.

Apples may be kept several months in their natural state if they are in good condition when stored.

J. A. Humphries and J. B. Walker of Lubbock were in Tahoka Wednesday visiting old friends.

Kidneys Must Work Well—

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer aching back-ache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

A PAINLESS MEANS TO SUPPORT OUR STATE COLLEGES

For many, many years adequate financial support of our state institutions of higher learning has been a problem. Except for the University of Texas and more recently, Texas A. & M. College, which are now well provided for by royalties from West Texas oil lands, our state colleges have been badly neglected in the matter of erecting permanent buildings.

Demands have frequently been made, particularly by the West Texas Chamber of Commerce and The Lubbock Avalanche-Journal, that the State University divide its oil revenue with Texas Tech and other colleges. But, this has not been done and there is little hopes of it ever being done.

Now, every college in Texas and the Texas Legislature have worked out a plan that should lend better support; to all these colleges and at the same time furnish a painless means of supporting them.

Since the 5-cent Confederate

SCHOOL DAYS

By DWIG

session levy is no longer needed, it has been proposed that this levy be made available to the college building fund, to be apportioned according to the number of students in each state college, the University and A. & M. excepted. The last legislature, by a two-thirds majority approved a constitutional amendment; permitting this transfer of the 5-cent levy. We think the voters would do well to approve this amendment on August 23 and solve the problem of erecting new buildings on state college campuses for many years to come.

A variation of apple butter can be made by substituting 1 1/2 pints of pure grape juice for the pint of water ordinarily used in making butter from a gallon of apples.

Before a fertilizer is offered for sale in Texas, it must be registered with the State Chemist, and must meet all requirements of the fertilizer law.

CATFISH BY THE ACRE

COLLEGE STATION, July 2.—Texas farmers have grown cotton by the acre, corn by the acre, beef to the acre of grass, and now it's fish by the acre.

There are more than 100,000 ponds on farms and ranches in the state that are kept for stock water. Every year, more farmers and stockmen are putting more of these ponds into fish production by stocking and fertilizing.

In connection with fertilization, R. E. Callender, specialist in wildlife conservation of the Texas A. and M. College Extension Service is telling "fishmen" and landowners now that the time has rolled around when the spring application of fertilizer goes into the fish pond. The fertility of the water means just as much to healthy growth of fish as a fertile pasture means to the weight of a beef animal, Callender says.

Various mixtures of fertilizers may be used to promote growth of plants that make fish food. Probably the most common is a mixture of 400 pounds of cottonseed meal and 200 pounds of superphosphate, which makes enough fertilizer to take care of one acre of water for one year. The first application—300 pounds of the mixture early in the spring, applied broadcast. Second and third applications—100 pounds each—can be made at four to six weeks intervals.

Barnyard manure makes good pond fertilizer, too, says Callender. About 500 pounds per application

is the amount to use, up to three tons for an entire season.

EASTERN STAR

The Eastern Star will hold its regular meeting at the Masonic Hall Friday night at 8 o'clock. All members are urged to be present. Zuella Thomas, W. M. Jane Morehead, Sec'y.

An acre of sudan grass for each dairy cow will provide inexpensive feed and maintain production when permanent pastures play out.

A pound of DDT sprayed on cattle during fly season is worth 2,000 pounds of beef to the Texas stockman.

Road Building Plans Are Made

AUSTIN, June 30.—The next two or three years will be the most momentous ones in the history of the road-building industry, R. J. Potts of Harlingen, newly-elected president of the Texas Good Roads Association, said today in an interview.

"The world is going to be on wheels to a greater degree than ever before," Potts declared, pointing out that a stupendous amount of preparation must be done for increased travel, in view of the fact that wartime traffic made great demands and necessitated exceptional wear upon the road system of the nation.

Road planners and builders face

these two major problems, Potts stated:

1. Traffic must be handled expeditiously in congested areas by means of multilane highways that are expensive to build and maintain; and

2. Facilities must be provided so that farmers can take their children to school and their produce to market; so that people in rural areas can comfortably remain there in the interest of continued agricultural productivity.

The two goals must be reached, Potts added, without rendering the Texas Highway Department incapable of expanding and maintaining the State and Federal primary road system.

Potts was elected president of the Association at its annual meeting in San Antonio May 23. Other officers chosen were Joe Leonard of Gainesville, first vice-president; H. B. Zachry of San Antonio, second vice-president; T. C. Jones of Fort Worth, third vice-president; E. P. Cravens of Austin, secretary-treasurer; and Ike Ashburn, executive vice-president.

New directors chosen were Frank Barney of San Angelo and Lucien Morehead of Plainview.

Potts is literally the "Mr. Good Roads of Texas" and for the past 42 years the improvement of the

state's roads has been his dominant interest.

The new president of the Association began actively working to bring about good roads when he got his first job—as assistant to the city engineer of Fort Worth in 1905.

Later, after earning his degree in civil engineering at Texas A.&M. College, he built streets in Houston. In 1910 he organized the division of highway engineering at A.&M. and became the third man in the United States to hold the title of professor of highway engineering.

In his capacity, he toured the state offering the college's assistance to county commissioners courts and good roads committees. He participated in the organization of the Texas Good Roads Association.

It was Potts who wrote the first bill designed to create a state highway department. Sponsored by the late H. B. Terrell of McLennan County, the bill passed the legislature, but was vetoed by Governor Colquitt. Potts assisted in writing the bill which later became law and authorized establishment of the highway department.

In 1914 Potts resigned from A.&M. College and went into private business at Waco. Recently he moved from Waco to Harlingen to make him home.

CARD OF THANKS

We wish to thank each and every one for the kind deeds and words of sympathy through the illness and death of our father and loved one, Mr. J. H. Franklin. May the Lord bless you all.—The Franklin Family.

CARD OF THANKS

This is to express my deep appreciation to those who sent cards to me, during my recent stay in the hospital. Very sincerely, Mrs. R. L. Pirtle.

In establishing a permanent pasture, the first step is to bring the pH, or acid rating, of the soil to between 6.5 and 7.

The number of frozen food locker plants in the country has grown from around 1,300 in 1938 to more than 8,000 in 1946.

Mowing pastures now will control weeds and keep grass from becoming too tough for cattle to eat.

Chlordane, a new insecticide, is reported to be ten times more powerful than DDT against certain insects.

**How women and girls
may get wanted relief
from functional periodic pain**

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

NO DRESS AT ALL

COLLEGE STATION, June 30.—The ideal work dress would be so comfortable that the wearer would not know whether she had on a dress at all.

Clarice Scott, USDA clothing specialist, has designed four summer work dresses which come pretty close to this ideal.

The Texas A.M. College Extension Service clothing specialist, Mrs. Dora R. Barnes, says Miss Scott's designs offer complete freedom of movement with no pulling or binding anywhere. "They are

made for an easy fit, which is quite different from oversize," she points out.

The designs are based on studies on safety and comfort in dresses for such jobs as gardening, canning and washing. The four dresses were scientifically planned for convenience and durability; they flatter the wearer, too.

Since the dresses are for summer use, they have no collar and no sleeves. Wings used in place of sleeves are double-layered to hold shape and crispness. Pockets are at hand level, with the openings slanted for convenient use. Ties, belts and sashes are made to fit closely and to fasten out of the way at the back.

Skirts are about calf length and just wide enough for the normal stride—long or full skirts drop about the feet when the wearer stoops and may be caught on shoe heels or stepped on.

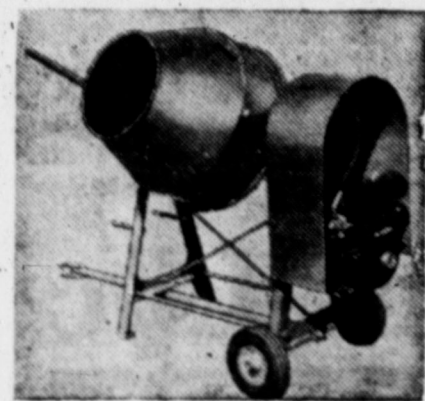

Each dress is easy to put on and take off, and easy to wash and iron.

Paper patterns for the four new dresses are now being put out by commercial firms, according to Mrs. Barnes. They may be identified at pattern counters by the credit line: "Designed by the Bureau of Home Economics, U. S. Department of Agriculture."

GOING! GOING! GONE!

Before your hair is all gone try **DURHAM'S RESORCIN TONIC**. It must relieve itching scalp or loose dandruff better than any \$1.50 Tonic—or your money back. Worth \$1.50 but costs only 75c at

TAHOKA DRUG

I am now selling new sturdy well-built

Concrete Mixers

See this type shown, also one other type not shown. Good for the farm for mixing feeds, poisoning, etc.

Sidelights From Washington

By George Mahon

Chairman Taber of the House Appropriations Committee invited me to fly to Old Mexico today—June 28—with a group from the Agriculture and Appropriations Committees for the purpose of investigating the hoof and mouth disease. The group is headed by Congressman Gillie of Indiana, a veterinarian. Congressman Worley of the Amarillo District, a member of the House Agriculture Committee, is making the trip and since Texas will be well represented I have remained in Washington to attend to duties here.

Here is the reason for the trip: The deadly hoof and mouth disease broke out in Old Mexico late last year. This past spring we appropriated \$10,500,000 to be used in fighting the disease in Old Mexico hoping to prevent the spread of the infection to the cattle of Texas and the Southwest. Secretary of Agriculture Clint Anderson recently appeared before our Committee, and requested 65 million dollars more. Chairman Taber balked at this request and said that he would block the appropriation of further money until Congress has more information. Judge Joe Montague of the Texas and Southwestern Cattle Raisers Association, and Bob Kleberg, of the famed King Ranch, provided some very convincing facts to the Committee a few days ago and I feel sure that when Dr. Gillie's group returns from Mexico Congress will provide the additional funds for combating the spread of this disease.

I hate to see us have to spend millions of American dollars for the slaughter of Mexican cattle in the infected area but everyone agrees that without such action on our part, the hoof and mouth disease will spread to the United States and paralyze the cattle industry of the nation.

The U. S. Government operates on a fiscal year basis which begins on July 1 of each year and ends June 30—not on a calendar year basis as is the case with most businesses. Therefore, the annual appropriation bills for the various government agencies must be passed by Congress and approved by the President prior to July 1, otherwise government agencies will lack the funds with which to operate after July 1.

The present Congress has utterly failed to carry out the normal procedure of government. Only one of the 12 annual appropriation bills has passed both the House and Senate and been sent to the President for approval. A stop-gap measure has been passed authorizing the agencies to continue to operate on a temporary basis but they cannot pay their obligations.

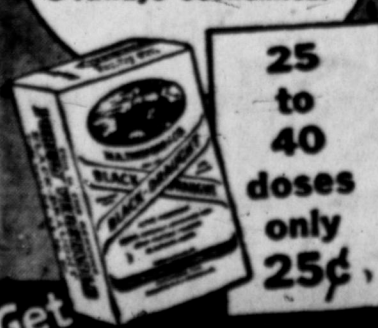

Agencies which will lack funds with which to operate on July 1 include the Department of Agriculture, Veterans Administration, War and Navy Departments, State Department, Justice Department, in fact all government agencies except the Post Office and Treasury Departments.

This is being written on June 28. The chances are that within 15 days all the major appropriation bills will have cleared Congress and gone to the President for his signature. The House has passed all of them with one exception. The delay is in the Senate.

On the tax veto, Texans in the House voted 13 to 4 to sustain the President. On the Taft-Hartley Labor bill, Texans voted 15 to 3 to override the veto. I voted to sustain the President in the tax bill and to override the veto on the Taft-Hartley Bill.

**MISS MURRAY WEDS
BERT McDONALD**

The wedding of Miss Mary Kay Murray, daughter of Mr. and Mrs. T. J. Murray of Grassland, and Mr. Bert McDonald, son of Mrs. A. E. Riley of Grassland, took place at 8:00 o'clock Saturday evening in the Grassland Nazarene Church with Rev. S. R. Brannon officiating.

Decorations were two baskets of mixed flowers and a mixed bouquet on the piano.

Wedding music was played by love knots.

The maid of honor, Miss Nelda

Lots Moore, wore a pink crepe dress. Miss Lavonia Benson who also accompanied Miss Clonnie Mae Gible who sang "Always". She played "I Love You Truly" while Mrs. Kelly Laws gave a reading. A trio, Mrs. Kelly Laws, Miss Clonnie Gible and Mrs. Ted McDonald sang "Let The Rest of the World Go By".

Candles were lighted by Wanda Murray, sister of the bride and Donald Riley, brother of the groom.

The bride was given in marriage by her father. She wore a two-piece crepe dress with black and white accessories. She carried pink carnations on a white Bible with pink and white streamers tied in with a corsage of white carnations.

The bridesmaid, Miss Helen Stanley of Lubbock, wore a grey dress with a corsage of rose carnations.

James Murray, brother of the bride, served as best man and Roy Huffaker was groomsman.

Flower girls were Miss Lavonia Moore and Patsy Gartman. They carried a white basket filled with rose pedals which they scattered down the aisle in front of the bride.

Ushers were Ted McDonald, brother of the groom, and Kelly Laws.

A reception was held in the home of Mr. and Mrs. J. F. Moore following the wedding. The table was covered with a lace table cloth. The two tiered wedding cake was white, topped with a miniature bride and groom and was on a reflector. Cake and punch was served to the guests after the bride and groom cut the wedding cake.

Mrs. Carl Jones and Miss Tommie Oypert, college roommates of the bride presided at the refreshment table and Mrs. Eleston Keese presiding at the punch bowl.

Out of town guests were from Lubbock, Lamesa, Brownfield and Odessa.

TEST FOR TERRACES

COLLEGE STATION, June 30.—Heavy May rains measuring up to 9 inches in some sections, provided a real test for new terraces built by West Texas farmers.

Most of the terraces stood the water well. In Coke County, J. R. Emmons, county agricultural agent, reports that a few lessons were learned when poorly built terraces broke under the heavy rainfall.

Of the terraces built with the county rig in cooperation with the Soil Conservation Service, only two gave way, and one of them was on a farm where the terracing system had not been completed.

Shelton Hainey, Flomot farmer, has a 'syrup pan' system that catches water from about 700 acres. After the rains, Hainey told County Agent Emmons that the terraces held perfectly; each lister ridge was full of water. He figures that the rainfall he saved with his terraces will make a lot of difference next July when the weather turns hot and dry.

Mrs. Claude Thomas of Grassland returned last Saturday from California. Her parents, Mr. and Mrs. R. B. McCord, whom she accompanied to that state will remain on the West Coast for another month or more.

STATED MEETINGS of

WYNNE COLLIER, Druggist

**GENE EARL KNIGHT AND
LUBBOCK GIRL WED**

Gene Earl Knight, who was reared in Tahoka but who now lives in Lubbock, was married to Miss Joedna Wilson, also of Lubbock at 10 a. m. Monday in the St. John's Methodist Church, Rev. Levi Price, pastor of the First Baptist Church of Tahoka, reading the ceremony.

The bride was given in marriage by her brother, John W. (Buddy) Wilson. Mrs. E. H. Gorman of Denver City, sister of the bride, served as matron of honor, and Miss Betty Ward and Mrs. R. Brooks of Brownfield, also a sister of the bride, were bridesmaids. Bill Knight, brother of the groom, was best man and Mr. Brooks and Bill Ed Watson were ushers.

Bill Scoggin, organist, played "Indian Love Call" and "Clair de Lune", and accompanied Miss Colleen White as she sang "Because" and "I Love You Truly".

Mrs. Knight is a graduate of Lubbock High School and is the daughter of Mrs. Doty M. Wilson, 1914 Seventeenth.

Gene Earl is a graduate of Tahoka High School, a former student of Texas Tech, and a veteran of World War II. He is the son of Mrs. Leona K. Knight of 2412 Twenty-fifth and Winter Knight of 1710 Main. He is employed by Pumice Building Material, Inc., of Lubbock.

After a wedding trip to New Mexico, the couple will be at home at 704-B Ave. X in Lubbock.

Lightning rods do protect buildings, but only when the connections to the ground are good.

**NEW TECH STADIUM
DAMAGED BY FIRE**

LUBBOCK, June 30.—Completion of the new stadium at Texas Technological College will be delayed three months as the result of a fire which wrecked most construction in the east stands, officials have been advised by Floyd Oldt, Dallas contractor in charge.

The blaze, late Thursday, burned oil soaked forms for concrete slabs which were to be poured Friday. Heat twisted and cracked concrete and steele columns and ruined materials to be used in other

sections. Standing portions have been condemned and must be removed before reconstruction of the wrecked area is started.

Oldt shifted workers to the west stands and said he is hopeful of completing work there and of having two of five east stand sections ready by fall. He said difficulty will be encountered in getting new pre-fabricated steel for the burned area without delay.

They have a regular organization almost exclusively for students of Texas Tech and gridiron opponents. Whether the new stadium or old Tech field will be used for games in the fall will not be determined for about two weeks, it was said.

**END PAIN NATURE'S
WAY**

Adult humans often suffer from a painful bladder, sore, aching back, rheumatic pains from improper kidney elimination. Blood chemistry has proven pains can be eliminated by correcting the ph. of your body fluids. Get CIT-ROS \$1.00 at your druggist. For sale by

W. L. BURLESON

Griffin Is Lubbock SwineDept. Head

W. D. (Bill) Griffin, Lynn county agricultural agent has been named superintendent of the swine division at the Panhandle South Plains Fair to be held at Lubbock September 29 through October 4.

N. J. Robnett, Lubbock High School vocational agriculture instructor and formerly a teacher at Wilson, will head the individual exhibits division.

At present prices of cotton and cottonseed, no grower can afford to lose one bale out of seven which cotton insects normally steal.

TAHOKA PEOPLE AT RUIDOSO PICNIC

A Lynn county steak supper was held at the school house park at Ruidoso, N. M., Monday evening. The News is informed. In addition to steak and the trimmings, iced melon and apple pie were enjoyed.

Among those present were: Mr. and Mrs. C. D. Crouch, Mr. and Mrs. Bill Reed, Marjorie Wall, the Clay Hughes, the Johnsons, Mr. and Mrs. Skinner Connolly, Mr. and Mrs. Tom Reid, Ovid Luallin, Mr. and Mrs. Collier, Dorothy Hughes and baby.

A long ton is 2,240 pounds. A metric ton is 2,204.6 pounds.

LYNN TEMPLE MEETS

Lynn Temple No. 45 met in regular meeting Tuesday, July 1, with seventeen members present.

After a business meeting, a social hour was enjoyed. Refreshments of sandwiches, olives, potato chips, cookies and ice tea were served by the hostess, Marthie Floyd, Hattie Short and Lou Calvery.

Grand Chief Ina Bell Ater of Lubbock will make an official visit to our Temple on July 15. All members are urged to be present.

ADMITTED TO HOSPITAL

Harley Schulz, 11-year old son of Mr. and Mrs. Charles Schulz of this city, was admitted to Texas Scottish Rite Hospital for Crippled Children in Dallas for treatment on Wednesday, June 25.

The Scottish Rite Hospital, which is supported by individual contributions, offers the best possible medical care and treatment to Texas' crippled children who are accepted for treatment.

MEXICAN JAILED

A Slaton Mexican is resting in the Lynn county jail following his apprehension here last week end by Sheriff Sam Floyd with 10 cases of beer in his car. He is charged with transporting intoxicating liquors.

Mrs. C. C. Dwight this week has been at the bedside of her mother, Mrs. H. K. Porter of Shallowater, who was to undergo a major operation at Lubbock Wednesday.

Mr. and Mrs. J. W. Creshan, a rice and cattle farmer, and son, Johnny of Louise, Texas, visited their daughter and her husband, Mr. and Mrs. Jarrell Brown a week.

Onie Elliott, local Panhandle oil company representative, has recently bought the James Applewhite home in Northwest Tahoka.

Mrs. Harley Henderson, who was seriously ill a few days last week, is again able to be up.

Mr. and Mrs. Ivan McWhirter and son, Macky Joe returned Monday from McKinney where they spent a week visiting relatives.

Atomic Power May Be Our Fuel by '55

Compton Upholds Use of A-Bomb Against Japan.

PARIS.—Atomic power may become a serious competitor to coal in the United States by about 1955 "if political difficulties do not seriously intervene," Dr. Arthur H. Compton said.

The atomic scientists, chancellor of Washington university at St. Louis, Mo., spoke at a gathering of savants at Sorbonne university on the fourth anniversary of the losing of nuclear fission in Chicago.

He said that heat byproducts of atomic energy were being used now in experiments heating water pouring into the Columbia river. He painted a picture of modern cities using heat from central stations without smoke covering the area, and of atomic power as a source of electricity in areas where coal and water power were scarce or costly.

The Nobel prize winning physicist asserted that the alternative to an agreement that no atom bombs will be made in the future was a competitive armaments race, but added: "I believe that the odds favor considerably the view that major wars between the great powers are already a thing of the past. I am confident that we have a good fighting chance of establishing a permanent peace."

Upholding the use of the bomb against Japan, Compton said: "Not to have used this new-found power to stop short the most disastrous war in history would have been unpardonable. Humanity's greatest need was a decisive weapon."

THEATRE GAB...

By: The House Cat

I was nosing around the office the other morning and I heard something that I think I will let you in on. I heard that The Jolson Story was coming to Tahoka. I mean to see that and right down on the front seat if I have to sit on the stage. That is going to be a picture that I'm not going to miss. Me, I'm a music lover and this picture has twenty-five of Al's songs featured. It is going to be a whiz-bang.

It has that handsome Larry Parks playing Al Jolson and that eye-bugging Evelyn Keys right along with him. As Al says, You ain't seen nothing yet. I will give you the dates of this super duper as soon as I can evesdrop again. I can tell you this much, it is in technicolor and is one of the top pictures of the year.

We sure are glad that the kiddies had a good time at our show Tuesday. We enjoy giving a show for the kiddies and we will be doing this again as soon as we can find a picture that they will like to see. Me being just the house cat and all that doesn't make my opinion worth much, but I like the kids for they are the ones that will be in the drivers seat before much longer. We want to do it, we can't help them so any time they want

us to help them or do something for them, then all they have to do is ask. Of course I can read their minds but that dumb bunch that works at the theatre don't know nothing unless you tell them. They don't understand my language, so it is up to you to tell them what you need and want.

Well I gotta go and make an inspection. If you like to hear from

me then let me know. I don't know what you would like to hear about but if you will just drop me a little note, then I can give you the news you would like to hear. Bye now

During the month of May, almost 13,000 farm workers were placed by the Texas A.&M. College Extension Service farm labor program.

If you pride yourself on having all the up to date answers on modern farming you should be familiar with the many advantages of MM Quick-On—Quick-Off cultivator and planting attachments.

Built to fit MM Universal tractors, MM cultivators are made in two, four and six row sizes. To convert from two to four row the outside frames and gangs are simply bolted on. Adjustment up to 44 inches for wide row spacing is made by merely loosening the clamp and sliding the gangs along the square frame bars. The Quick-On—Quick-Off cultivators have high clearance and are available with hand or power lift and a choice of sweeps, shovels or spring tooth attachments, for both front and rear gangs.

With the cultivator mounted near the front wheels, and V-shaped Design of MM tractors the operator has full operating visibility and is seated comfortably low to the rear of drive wheels for added SAFETY.

For precision planting the cultivator may be changed over to a drill planter by the removal of the cultivator shanks and mounting the planting attachments on the cultivator frame.

When the job is finished, the tractor can at once be used for other jobs, since Quick-On—Quick-Off tools are easily removed. MM offers a complete line of these tools for more profitable far wing in any territory. Many parts of MM Quick-On—Quick-Off Units are interchangeable, saving you money because you buy less equipment to handle all the jobs.

MM Dealers everywhere are now embarked on a new program of specialized sales and service of MM Modern Machinery.

Special four and six row cultivators for "S" and "R" Tractors available for narrow row crops such as beets and beans.

---from little ditches *Grow*

Tomatoes, potatoes, carrots, yams, peanuts, and many other vegetables—all from little ditches grow!

Truck farming—BIG money to the folks in our area—is made possible in many sections only through inexpensive irrigation.

Yes—the crops grow big in the Panhandle-Plains-Pecos-Valley Area, bringing additional income to more and more people.

We have so much confidence in truck farming—and other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone!

New Motors

We have recently obtained a large supply of New Dodge, Plymouth and Chrysler Motors, also Ford and Chevrolet motor block assemblies.

We will install a new motor in your car and allow you up to one year to pay.

You are cordially invited to come in and inspect our well equipped shop.

game while Calvary Hatchery takes on the Wharton nine in the second game.
Monday night Davis-Humphries will play Collier's Drug in the first game and Flying Farmers will play

Calvary Hatchery in the second game.

Next Thursday night Wharton Motor Co. plays New Home in the first game while Grassland and O'Donnell will tangle in the second game.

C. of C. Lose Three More Games

The Tahoka C. of C. team lost both games of a double-header to the Baldrige Bakery nine at Lubbock last Friday night. The first game was an easy win for Baldrige, but Tahoka red them in the second game until the 5th inning and then Baldrige went out in front to win 5 to 3.

Tuesday night Plainview came down and defeated the C. of C. nine, pushing them down into the cellar a little further.

C. of C. Plays July 4

Friday night Tahoka travels to Lubbock to play Blue Bonnet Laundry there at Webster park. Game time will probably be around nine o'clock.

Next Tuesday night Brownfield will play the C. of C. nine here on the local softball field.

(Continued From Page 1)

poses and painted and equipped. It will also be necessary to buy a half block of land to add to the half block the school already owns across from the present grade school on which to put the buildings, and to lay foundations for them. Mr. Edwards points out that should the district at some time in the future decide to erect a more permanent building, much of the furnishings that will be required for these buildings may be used in the new one.

Since other improvements are needed by the present plant, the board deemed it wise to include these in the bond issue. Part of the funds would be used for repairing the heating plants in both the grade and high school buildings, in repairing the interior of the high school, repairing the roofs of both buildings, and in making other improvements to the campus.

The district is in excellent financial condition, comparatively, members of the board declare, and with the increased valuation the bond issue will add very little to the tax bill. The district expects to have a valuation of nearly \$5,000,000 as a result of the recent consolidations.

Also to be voted on in the election Saturday are two other proposals.

One is to set the tax rate of the new consolidated district at \$1.00 on the hundred dollar valuation. This rate is already in effect in all the districts affected by the consolidation except West, Politt, which has had a rate of 75 cents. Many districts in the state are now voting a \$1.50 rate, but the local board believes it can meet the salaries recently raised by state law to a \$2,000 minimum for degree teachers without raising the tax rate.

Another proposal is for the new district-at-large to assume the bonded indebtedness of each of the previous districts.

**Royl W. Saunders
Buried Monday**

Funeral services for Royl W. Saunders, 56, resident of Garza county 31 years, were conducted at 3 p. m. Monday in the Church of Christ at Slaton with Dean Brookshire of Portales, N. M., officiating, assisted by Price Bankhead of Gordon and Grassland communities, both Church of Christ ministers. Burial was in Slaton cemetery.

Mr. Saunders, prominent farmer of Pleasant Valley community, became ill Friday afternoon and died of a heart attack a few minutes after arriving at a Mercy hospital in Slaton. He was born in Denton county.

Survivors include his wife, three sons, Wendell of Post, Edward of Brownfield and Doyle of Lubbock; three daughters, Mrs. Maurine Smith of Redding, Calif., and Misses Joan and Joyce Saunders of Post; his mother, Mrs. Mollie Roberts Saunders of Slaton; two brothers, Sam of Marietta, Okla., and J. D. of Lindsay, Okla.; and five sisters, Mrs. Florence Smith and Mrs. Toy Melton of Slaton; Mrs. Frank Spence of Post, Mrs. Mary Lee Peete of Washington, D. C., and Mrs. Lois Stewart of Central, N. M.

**Dr. J. A. Hill Will
Retire Next Year**

Retirement of Dr. J. A. Hill, after 38 years at West Texas State Teachers College, Canyon, 30 years of which he has been its president, was announced last week end by the Board of Regents effective August 31 of next year, when he reaches the legal age of retirement. He will be succeeded by Dr. James P. Cornette, present dean of Baylor University.

Dr. Hill is the dean of Texas college presidents, having served longer as a college president than any other man in the state. He has long been prominent in Texas educational circles, Boy Scout, Rotary Club, church, and other civic activities. He is co-author of two books on American History.

Dr. Hill is generally recognized as having done an outstanding job in building up West Texas State to its present high standard, and was the "guiding light" in the building of the Panhandle-Plains Museum, one of the nation's finer small museums.

He has many personal friends in Tahoka and Lynn county, and

is a brother of The News editor. Dr. and Mrs. Hill have three children, J. Davis Hill, superintendent of the Galveston city schools; Joe Hill, an engineer in Douglas Aircraft at Santa Monica, Calif., and Mrs. Lenore Hill, wife of a Borger accountant.

Dr. Cornette will assume his duties as executive vice-president of the institution at Canyon next

January 1, and succeed to the presidency September 1, 1948. He is a native of Kentucky, where he did his undergraduate work, holds a Ph. D. degree from the University of Virginia, and taught at Bowling Green (Ky.) State Teachers College, before going to Baylor in 1945 as dean. He also coached in the early 1930's, and was in the Army during World War II.

**JULY FOURTH . . .**

On this date we again pay our respects to every man who ever wore a uniform in service to our country and its defense of democracy around the world.
