THE JUNCTION EAGLE

Volume XL.

Junction, Kimble County, Texas, Friday, October 26, 1923.

Number 27.

BATTLESHIP VINDICTIVE BEING BLOWN UP

The famous British battleship Vindictive, which was blown up in Ostende Harbor during the early days of the World War, to stop activities of the German U-Boats, is again the subject of explosions, this time for another purpose. Dutch engineers and divers are doing the work. Photo shows a 30-to portion of the ship being raised after a charge of dynamite has done its work.

KIMBLE COUNTY FISH HATCHERY LOCATED.

For two weeks the Fish Hatchery committee has been inspecting every proposed site for a suitable permanent location. They have given much time and have done a great deal of walking and talking in an effort to secure a place that fits the specifications of the Bureau of Fisheries.

So many conditions have to be considered that those who are not familiar with them, fail to understand why any number of proposed sites cannot easily be selected. Among the requirements, the following might be mentioned: A cheap and permanent water supply, a soil that will hold water, ground that is above overflow yet located near enough to make the ponds easy and inexpensive to drain, and a plot of ground containing two and a quarter acres, that is practically level. With these, and several other minor things to consider, it will be seen that it is no easy matter to find a place that meets all these requirements.

As stated before, the Skaggs and Riley and Patterson places had been under consideration. Messrs. Skaggs and Riley had offered to donate the land, while the Patterson land would cost \$125 per acre. Mr. Price had offered the land in his park, adjoining this. The Skaggs and Riley locations would have to depend on pumping plants for water supply and the cost would amount to several hundred dollars per year. The Patterson place is under the ditch, but some other means for water supply would have to be provided, in case the ditch did not supply the water.

The committee found a very desirable location on the I. O. Weldon place just above the W. G. Moos ranch, and only a few hundred yards from the highway, and another location on the Rembold place below the Moos place, that was also near the highway, and the matter was taken up with the owners, and it was found that neither place could be secured at a price that was within the means of the committee to pay. Each of these places met the conditions above stated, but of course, could not be considered as they were not available.

Tentative arrangements have

been made to locate the hatchery on the C. W. Henderson ranch about 11 miles up South Llano. The location, except for the distance from town, is ideal. The soil is good; water can be secured by a permanent gravity ditch, and the slope of the land is such that the minimum amount of excavations will be necessary, and the ponds can be drained easily. The location is also near the ranch house which affords protection.

Mr. and Mrs. Henderson have expressed a willingness to cooperate in a manner that the committee rarely found in any proposed locations except the two first places mentioned, and while details have not been worked out, the committee feels sure that they can secure the land on the Henderson ranch at a figure that is very reasonable.

On the second trip to look over this last site, after it seemed that all suitable places had been visited, the committee was accompanied by Mr. Pope, the county engineer, who has kindly consented to do the engineering work gratis. Within the next few days Mr. Pope will make a survey of the location and make a report, on which the details for securing the land and for constructing the ponds will be worked out.

There have been some subscriptions paid since last week, and others will be added to this list this week, and will be published later. The funds now available are not yet sufficient to build the hatchery as planned and an effort is still being made to secure additional funds. In order to properly construct the hatchery, it is roughly estimated that more than \$1,500 will be required. The exact amount will be known after Mr. Pope's report has been made.

Mrs. M. E. Holland was in The Eagle office Saturday to renew her subscription and to have the paper sent to her daughter, Mrs. Driskell, at the experiment station below Sonora. She stated that Miss Margaret was teaching in Sonora. Three of her daughters are now in that county, the other being Mrs. Vernon Hamilton.

K. Spencer, who is temporarily living at Kerrville, was here the first of the week on his way home from Eastland, where he had gone to sell some city property that he owned there.

FERGUSON WRITES OF HILL COUNTRY TRIP.

Last week's Forum carried a big headline story, three columns wide, on the front and third pages, in Mr. Ferguson's own words, telling of his recent trip through the Hill Country. The part that refers to this section is given below:

"Last week I paid a visit to the mountain district of Southwest Texas. It was my first trip to what is known as the 'Hill Country.' Though I have traveled over Texas perhaps more than any other citizen, yet I have not been in all the 250 counties of the State. I have visited something over two hundred counties and county seats and I now find myself impelled by a well fixed intention and desire to visit every county in my native State. If the Lord spares me I am going to complete the trip before I am a year older.

"While in Fredericksburg I visited the famous old Nimitz Hotel, built in the early days of the town out of lumber freighted from the Gulf, over 300 miles by ox wagon. This old place is famous by the fact that General Robert E. Lee was a frequent visitor there and it was while he was in this section that he resigned his commission in the Federal army and hastened to Virginia to assume control of the Confederate forces. The old bedstead upon which General Lee slept is yet in the old Nimitz hotel. The bed was shown me by Charles Nimitz, the son of Colonel Nimitz, who bought it from General Lee.

"It was an inspiration to see the friendliness and fellowship everywhere apparent in the Fredericksburg section among the descendants of the liberty-loving pioneers who laid the foundation for the sturdy and many citizenship of old Gillespie County. There is no strife no hard feeling, everybody enjoying the fullest freedom of religion and politics.

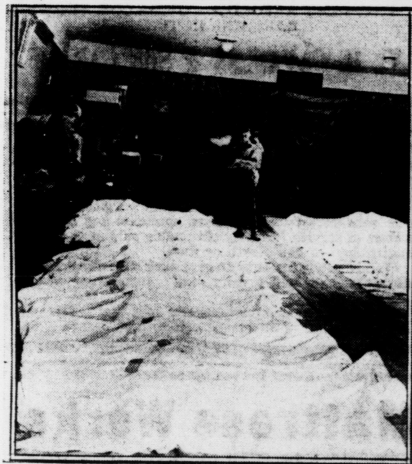

"I recommend to some of the active citizens of Dallas who seem to be greatly worried about other peoples' religion and habits, to spend a week in Fredericksburg. I think it would do them good in many ways.

"After I left Fredericksburg I visited the K. K. K. Now laugh! But not the ones you are thinking about. I mean Kendall, Kerr and Kimble Counties, where there is no K. K. K. except to name the county.

"Kendall is still the mecca for tourists and Kerrville is perhaps the greatest wool and mohair market in Texas.

"Kerrville is the home of Captain Cras. Schreiner, one of the early pioneers of this section. Though Captain Schreiner is worth many millions, yet he is everywhere in these counties known as the poor man's friend and the memory of his many good deeds will live forever in the hearts of his neighbors. Some of these days The Forum is going to start a hall of fame in which will be portrayed the lives and character of the uncrowned and unnamed heroes of Texas, whose endeavor in private life has made Texas great and prosperous.

"From Kerrville I traveled to Junction, in Kimble County, by the now famous scenic State highway. For miles this road follows the meanders of the Guadalupe River. The stream was discovered by Alonzo de Leon on his first expedition to Texas in 1689, and he named it 'Our Lady of Guadalupe,' which was painted on the Spanish flag carried in the expedition. For more than 40 miles (Continued on Page Two)

FIRST PHOTO OF WYOMING MINE DISASTER.

Ninety-seven of the 135 men who were in the Kemmerer Coal Co. Mine at Kemmerer, Wyo., when the explosion occurred, lost their lives. Photo shows Odd Fellows Hall in Kemmerer changed into a temporary morgue for the identification of bodies.

KIMBLE COUNTY PRODUCTS BEING MARKETED

The variety of products of Kimble County is evident on the streets these days, when wool, mohair, pecans, cotton, pears, syrup, etc., are seen as they are being marketed. Traveling men often marvel at the many seasons of the year in which they see products of the county in the process of marketing. In the early spring, mohair comes in large quantities; a little later wool comes in; and with only a lapse of a few months, cotton begins to sell; then wool and mohair again; then pecans.

The revenue from these four most important products is augmented by the sale, in season, of many varieties of vegetables, some fruits, dairy products and large numbers of turkeys.

The result of Messrs. Riley and Cochran's farm work has demonstrated that the very best quality of syrup can also be made here, in quantities to supply the home trade and with some to send to an outside market.

With the coming of more good farmers, and with increasing interest of the ranchmen in utilizing their cultivatable land for raising grain and feed stuff, and for some cotton, Kimble County is destined to come to the forefront as a producing county, as well becoming favorably known as a great vacation spot.

The wool market opened in Junction this week when local buyers began paying 30 cents. Mohair has been selling for some time at from 35 to 40 cents, and 75 to 80 cents for kid hair. Pecans opened at 12 1/2 cents for commons. Cotton is selling at 28 1/2 cents, middling basis, this week.

The large warehouses of the Schreiner-Hodges Co., and Alex. J. Harner Co., are fairly bulging with wool, mohair and pecans, that are coming in.

J. N. Hodges, president and manager of Schreiner-Hodges Co., estimates that more than 500,000 pounds of pecans will be marketed here this fall. This is a considerable increase over last year's crop, which was around 300,000 pounds, but is less than half of a normal crop of pecans, as in many parts of the county the crop was a failure this year. Mr. Hodges thinks that the wool and mohair clips will be a little lighter than last spring.

Several hundred bales of cot-

STATE PARK BOARD HAS BEE APPOINTED.

The news of the appointment of the newly created State Park Board reached the Eagle too late for publication last week. Since then, J. A. Heyman has had a communication from Mr. Colp stating that the board will likely begin a tour of inspection of the different places proposed for State Parks, about the last of November. According to Mr. Colp, Governor Neff has promised to make the first trip with the board, and it is proposed to make this first trip over the longest route, which will include such proposed locations as Palo Duro Canyon, the Davis Mountains, Alto Frio and Junction.

Mr. Colp has been a very enthusiastic booster for this section of the State and rendered us valuable publicity while he was connected with the O. S. T. Association, and has since taken every opportunity to assist us in any way.

Some action will likely be taken within the next few days to prepare for the reception of this board and to arrange something tangible to offer in the way of a park site.

The appointees are: D. E. Colp, San Antonio; Mrs. W. C. Martin, Dallas; Mrs. Phebe C. Warner, Claude; Hobart Key, Marshall; Mrs. James F. Walder, Victoria.

This board is to investigate proposed State Park sites and gather general information on State Parks. They are especially authorized by law to consider Davis Mountains in Jeff Davis County as a possible location for a State Park. An appropriation of \$15,000 was made by the Legislature for traveling expenses of the board. The members serve without salary.

T. J. Lange, the Yates merchant, was in town Saturday on business and incidentally bro't up a truck load of pecans from that part of the county.

ton were bought in Junction this season, and is still coming in, and the price paid will doubtless cause more cotton to be raised in the county next year. It is conservatively estimated that this county, with the present acreage of cultivatable land, can produce between three and four thousand bales of cotton each year.

(Continued from Page One)

the State highway winds around with the river up and down the mountain heights and the scenery is beautiful and sublime, unexcelled in any part of the nation.

"I have traveled up the Hudson River in New York on the famous River Side Drive; I have traveled the many loops and drives in the mountains of Colorado; I have seen the beautiful winding roads leading to the famous Yosemite Falls in California; but I declare none of them no more picturesque, no more attractive, no more inspiring, than the wonderful road from Kerrville up the Guadalupe River.

"Leaving the river you go up on to a rolling divide between the Guadalupe and the Llano. The distance is 25 miles and you cross many small streams affording clear running water.

"I never saw as many goats, sheep and cattle in my life. They run them altogether—about 250 sheep, 40 cattle and 50 goats to the 640 acre section.

"Coming in sight of the Llano River, you behold one of the most beautiful sights. Looking down from the heights of the big divide you see the coming together of the North and South Llano Rivers, where is situated the beautiful little city of Junction—claimed to be the best inland town in the world. I saw so much thrift and so many fine stock and so many good friendly people that I am not going to dispute the proposition.

"One interesting thing I noticed. That was that there is just one lone Jew living in Junction. His name is Joseph. He appeared to be unafraid altho away out in the far west. I thought to myself, if this lone Jew should try to live by himself in certain other parts of Texas just about now, especially where some of the big churches and big preachers live, his religions would cause him to vanish some night, never to return. With the coming of the morning there would not only not be any Joseph, but there wouldn't be any coat as of old to tell the tale of a wicked fanaticism.

"But he is safe in Junction. Everybody has their own religion out there and everybody is welcome to worship God as they desire.

"Let me suggest that all my friends who can to just take an auto trip out to Junction. The climate and the people are fine and bully good, you bet. I saw my first wild turkeys and saw cotton that had never been plowed, making a bale to the acre.

"From Junction, I traveled up the North Llano River for 40 miles and crossed the stream about 15 times. It was interesting all the way. Pecan groves, perhaps the finest in Texas. More sheep and goats.

"On the way I saw the old fort that was once maintained in frontier days by the Federal Government. It was here that Lieutenant Robert E. Lee used to fight the Indians when he was a young man.

"Leaving the Llano, you go up a big level divide for many miles on the way to Sonora, the county seat of Sutton County. To my great surprise, I found thousands of acres of good black sandy loam land. My prediction is that this will some day be one of the good cotton growing sections of the State. There is no railroad in Sutton County yet and land suitable for farming can be had at from -15 to \$25 an acre. Here is, in my opinion, one of the best places for the man who wants a small home in Texas. In less than seven years there will be railroad connection and then these lands will go high. It looked to me like the cattle and sheep in Sutton and Schleicher Counties are just a little larger than any other stock I have seen in Texas.

"And the people—they are just the salt of the earth, and no mistage."

America's Marvels
NATURAL AND OTHERWISE

By T. T. Maxey

OUR FIRST NATIONAL PARK

The act of congress in 1923 which set aside the Hot Springs of Arkansas and four sections of adjoining land "for the future disposal of the United States, not to be entered, located or appropriated for any other purpose whatever," forged into existence the first link in our present chain of world-excelling national parks.

This act performed a double purpose in that it also served to perpetuate and preserve these now celebrated springs from commercial monopoly or exploitation.

The Hot Springs National park reservation contains upwards of 900 acres and is located in the city of Hot Springs, which is not far from the center of the state. The altitude of the city is about 900 feet, while that of the surrounding hills is about 1,200 feet above sea level.

There are 46 hot springs in this group. All of them flow out into a narrow valley, from the base of what is known as Hot Springs mountain. There are also quite a number of cold springs here, and their waters are used both for drinking and in the treatment of those who visit this region with the hope of leaving their ills behind them when they return home. The combined flow of all of these springs reaches the enormous volume of more than 750,000 gallons every 24 hours.

Tradition would have us believe that the Indians were familiar with the medicinal value of these springs in the days before the coming of the Spanish explorers, some 400 years ago; that the several tribes fought bitterly at various times for their control, in the belief that the "Great Spirit" was ever present in them.

The temperature of the waters from these various springs varies from 102 to 147 degrees—the average ranging from 135 to 147 degrees. These waters contain some twenty different kinds of mineral matter and are radio-active.

These hot springs offer relief from many of the ailments which beset the human race. There are 17 large pay bathhouses under governmental supervision. The rates for baths and service are fixed by the director of national park service at Washington. The park is administered by a resident superintendent and is open all the year.

ROBS CALOMEL OF
NAUSEA AND DANGER

Medicinal Virtues Retained and Improved. Dangerous and Sickening Qualities Removed. Perfected Tablet Now Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water, that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price 35 cents for the large family package; ten cents for the small; trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Adv. 10-15c

BOY KILLED BY LIVE
WIRE AT KERRVILLE.

Kerrville, Oct. 19.—Harry Paul Ottmer, 15, was electrocuted by coming into contact with electric light wires in the barn at his home yesterday.

Ottmer had gone to the barn to do the morning chores. His brother found him dead shortly afterward. The body was taken to Fredericksburg for burial.

SEGOVIA NEWS.

A. L. Reynolds and wife of
Roosevelt were buying supplies
in town Wednesday. Everyone
up that way is in the best of
spirits because of the fine pros-
pects for good winter grass.

Clint Spaulding, County Audi-
tor of Ellis County, is visiting
Floyd Little and others of that
community. Mr. Spaulding
comes here every year to take
a rest for two or three weeks.

Prof. L. E. Stockard of the
Roosevelt school advises us that
he has secured \$250 special aid
for teaching agriculture in that
school for the present term.
This is in addition to whatever
State aid they may get.

Sheriff Gibbs went to Temple
last week and accompanied Mrs.
Gibbs home. She has been in
the sanitarium there for some
time and is not able to sit up
yet, but it is thought that she
will soon be able to attend to
her household duties.

I will arrive in Junction next
week with a complete line of
Ladies dresses, skirts, sweaters
and hats. Expect to have a
very pretty line and very reason-
able. Will be at the Hankins
Millinery Shop.

Mrs. Alice Schofner.

J. A. Sikes and son, J. A., Jr.,
were in town Saturday from
their ranch at the Old Pecan
Springs in the northeast corner
of Sutton County. Mr. Sikes
came to this section of the coun-
try with his father, A. J. Sikes,
in 1878, and with exception of
a few years spent in Uvade
County, has lived at the same
place since. Some time ago he
was appointed Post Master at
Owensville, after the Depart-
ment had agreed to re-establish
an office there, but after the
visit of an inspector, it was de-
cided, at the suggestion of Mr.
Sikes and others, that the Star
Route from Sonora to Junction
would be changed to make a re-
turn trip by Meyer and Owens-
ville, twice a week, as this
would be as satisfactory as a
post office, so they are now get-
ting mail over this extension.

A party of tourists on their
way from Florida to California
stopped in Junction last week
for a few days, and were so fa-
vorably impressed that they
stated they would stop again on
their return from California,
and some of the men were seri-
ously considering the purchas-
ing of property here. One of
the men stated that he had
heard of the delightful climate
and wonderful scenery at Junc-
tion before he had left Florida,
and this together with the fact
that they found the Fritz Hotel
up to their expectations, caused
them to make the stop here.
They had heard of the excellent
meals served at this hotel, be-
fore leaving their home.

We have the most complete
line of Christmas and New Year
cards and folders we have ever
had. Call at the office and let
us show you. Can supply you
with cards, folders or station-
ery, printed or engraved, at
very reasonable prices. Why
send away for what you can get
at home? When you order from
us, you see what you are get-
ting, and pay for only what you
get only after you are fully sat-
isfied. The Junction Eagle.

In the rush last week, the
most important news item was
overlooked. The rain that began
falling Friday the 5th and ended
Monday the 8th, amounted
to more than 5½ inches at Junc-
tion, with more in some parts
of the county. This, added to
the 7½ inches in September,
amounts to better than 13 inches
rainfall for the past six weeks
and came at a time that would
best benefit the range for fall
and winter grass.

J. W. Cochran presented The
Eagle bunch with a large buck-
et of his fine cane syrup that
he is making on the Riley farm
across the river from town, and
it is now easy to substantiate
the statements made a week or
two ago about Mr. Cochran be-
ing an experienced syrup maker.
If you want syrup that is abso-
lutely pure and is also a pro-
duct of Kimble County, get
some of this from the stores or
from Mr. Cochran.

G. W. Fry and Joe White of
Abilene were here a few days
ago, and while here Mr. Fry
had The Eagle sent to his ad-
dress. He is with the West
Texas Utilities Co., and recent-
ly purchased the Edwards
ranch on South Llano. He ex-
pects to do a considerable
amount of improving on this
ranch, and to make it one of the
best little ranches in the county.

Tax Collector's Notice.

I will be in the following
places on the dates shown, for
the purpose of collecting taxes.
Those in different communities
will please take notice.

Noxville postoffice, Nov. 6th
and 7th; Segovia, Nov. 8th and
9th; London, Nov. 13th and
14th; Telegraph, Nov. 15th and
16th; Roosevelt, Nov. 20th and
21st; Cleo, Nov. 22nd and 23rd.
DEE GIBBS,
Tax Collector, Kimble County.

W. W. Barrett, London gin
man was a business visitor here
yesterday. To date the London
gin has ginned over 500 bales.

LADIES, NOTICE!

I am leaving for San Antonio
where I will meet Baron Bros.
salesman from Dallas, and will
buy the mid-winter line of
trimmed hats. I will get good
prices and will be able to sell
to you reasonably.

Mrs. Nellie Hankins.

HALLOWEEN PARTY.

The public is cordially invited
to attend the Hallowe'en party
at the Ingram School House,
Friday evening, October 26th.
Refreshments will be sold for
the benefit of the school.

Posted—The ranch north of
Junction, known as the Baker,
Cowser and Moore pasture is
posted against hunting or tres-
passing of any kind and those
disregarding this notice will be
prosecuted.

Baker, Cowser & Moore,
27-9tp By Jim Moore.

METHODIST CHURCH.

Next Sunday at the Metho-
dist Church the services will be
of special interest to all who at-
tend. The West Texas Con-
ference, in which Junction is locat-
ed, is now in session, and be-
cause of that several things will
be mentioned which comes
along in the business of a con-
ference session. It will be
pleasing to all to hear the
hymns that are most generally
sung at a conference.

We want you to come and
worship with us.
Remember the date, next
Sunday at 11 a. m.

R. E. Parker, Pastor.

Published Every Friday by
The Junction Publishing Co.
(Incorporated)

DIRECTORS: W. P. Riley,
Coke R. Stevenson, H. G. Perry,
Oren C. Reid.

H. G. Perry—Editor.

Entered in the Post Office at Junction as
second class mail matter.

Notice of church entertainments where
a charge of admission is made, obituaries,
cards of thanks, resolutions of respect, and
all matters not news, will be charged for
at the regular rates.

No anonymous communications will be
published in this paper under any conditions.
Persons sending in matter intended for pub-
lication must sign it, but name will not be
used unless requested.

Any erroneous reflection on the character
or standing of any person, will be gladly
corrected if brought to the attention of the
management.

The management will greatly appreciate
the co-operation of the public in helping to
fill this paper with live local news. If you
know a news item, phone 57, or drop your
communication in the mail.

With the two big sales on in
Junction, both of which are ad-
vertised in this paper, people
can afford to come here from
other counties to buy their fall
and winter dry goods and cloth-
ing. With wool, mohair, pecans
and cotton selling at good prices
people have the cash to pay and
can therefore buy goods at a
saving over the price they would
have to pay if they were buying
on credit. Junction's business
houses are progressive and up
to date, as shown by the adver-
tisements in this paper. Every
business house of any conse-
quence, except three have adver-
tisements in this paper, thereby
showing that they appreciate
your business and are able to
sell you dependable merchan-
dise at reasonable prices.

The best articles you can buy
are "advertised articles" and
the best stores to do business
with are "advertised stores." Non-
progressive enterprises
will argue that advertising is
an added expense, but your ex-
perience has shown that you can
buy cheaper from a progressive
advertising concern than from
one that does not.

Read the advertisements in
these pages and buy where you
can save money.

With the opening of the game
season on the first of next
month, there will be a good
many hunters from outside the
county, as well as local people,
with whom the ranchman with
game on his premises will have

to contend. As has been done
heretofore, we will run a "Post-
ed Notice" section in this paper
and will give all who wish to
post their pastures by publica-
tion, the lowest price for such
advertising, and without ex-
ception will maintain a strictly
cash in advance policy. The
small charge that we make, does
not justify us in keeping a book
record of these small accounts,
nor in carrying some of them
almost indefinitely, as we have
done in the past.

A lot of people will not agree
altogether with Dr. P. W.
Horn's seven requisites of an
educated person, but his enu-
meration shows that the distin-
guished educator, who was here
this week to deliver the opening
address at the Teachers' College
has given a lot of thought and
ability to the compilation. Dr.
Horn's "seven points" were
these:

"Are you self possessed? Do
you get 'rattled' easily?"

"Can you put your prejudices
aside?"

"Have you a good general
knowledge in many fields and a
fairly thorough knowledge in
some one field?"

"Are you able to 'get along'
with people?"

"Can you 'deliver the goods'?"

Do you do one thing well?"

Quite different, isn't it, from
the ancient idea that he who
possessed "book learnin'" was
a truly educated man? For there
are graduates of universities
and colleges who cannot live up
to those requirements, just as
there are men possessed of only
the rudiments of an education
insofar as schooling itself is
concerned, who can qualify un-
der most or all of the requisites.
—Denton Record-Chronicle.

The only folk who will dis-
agree with Dr. Horn are those
who mistake literacy for edu-
cation. Dr. Horn was talking
about an "educated" man, not
a "lettered" man. Some of the
best educated people we have
use "bad" English, and know lit-
tle about renaissance, while
some of our savants are grossly
ignorant of things practical and
worthwhile. Texas should ear-
ly discover what makes an edu-
cated man, and direct its effort
towards educating men and
women rather than grinding out
the literate.—Texas Commer-
cial News.

HIGH SCHOOL NOTES.

The Senior Class of Junction
High School held its second
meeting October 10th. The ob-
ject of this meeting was to se-

lect colors, flower and motto.
The colors chosen are white and
orange; the flower, the Shasta
daisy; and the motto, "Carry
On."

The following officers were
elected at the first meeting:
Roy Hoggett, president; Nellie
Rennett, vice-president; Bernice
Chenault, secretary-treasurer.

The High School girls have a
well organized basketball team,
with Bernice Chenault as cap-
tain. The line-up is as follows:
guards, Mildred Maddox and
Agnes Schrier; centers, Lula
Bruce and Alexa Browning;
Thelma Schrier and Elenne New
by; forwards, Margaret Oliver
and Bernice Chenault. A prac-
tice game was played with the
teachers last Friday preceding
the football game and the score
was 21 to 7 in favor of the girls.

NOTICE TO RANCHMEN

We are making up a car of
woven wire fence to be shipped
to Menard in about 30 days. We
can save you some money by
putting your order in this car.
If interested, phone or see us
in the next ten days.

Ford
THE MOTOR CAR

New Prices on New Model Fords

The following prices on Ford Cars became effective Oct. 2, 1923:

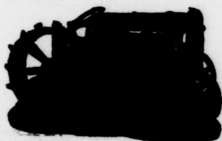

F. O. B. Detroit Delivered in Junction, Filled up
Ready to Drive Out

Chassis	\$230.00	\$307.40
Runabout, standard	265.00	346.16
Runabout, with starter	350.00	434.96
Tourer, standard	295.00	377.32
Tourer, with starter	380.00	466.12
Truck chassis	370.00	448.24
Coupe	525.00	616.60
Sedan, four door	685.00	784.40
Tractor	420.00	485.88

These are the lowest prices in the history of the Ford Motor Co. The demand has always exceeded the output, and to get your car promptly, you should place your order now.

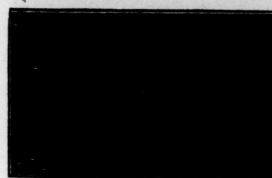

Bear in mind that your home dealer is always most interested in giving you the best service possible and when you buy your car from us you will not only receive the same value that you receive anywhere else, but we give you after service which is worth many dollars but does not cost you anything. Buy your car from us and let us help you keep it in tune at all times. We want you to get the very best service and pleasure out of the car we sell you and can help you in many ways to do this, free of charge.

If you are thinking of buying a car now or a little later on, come in and give us your order and we will do our very best to make delivery as promptly as possible.

IS "NOT WORRIED" ON IRRIGATION RULING.

Fort Worth, Oct. 19.—Stuart L. Williams of Ballinger, president of the Texas Conservation Association, was in conference Friday with Homer D. Wade, secretary of the organization, and asserted that he was not worried concerning the Broge-

Miles irrigation project. A test case is being made of that phase of the State laws affecting amendments passed by the last Legislature, referring to conservation matters.

The laws in question give the State Board of Water Engineers certain powers concerning the calling of bond elections, which the county officials have

contested. The case was tried in the District Court at Ballinger before Judge J. A. Woodward, who gave a decision in favor of the county officials.

Mr. Williams and Mr. Wade are confident that the decision will be reversed, as "the hands of the reclamation and conservation forces in the State would otherwise be tied in a great many cases through restricted county policies."

A letter from John A. Norris, chairman of the State Board of Water Engineers, to Mr. Wade, said that C. H. Clark and A. H. Dunlap, two members of the board, and J. A. Udden, State Geologist, are leaving next week for an extended automobile trip over West Texas. Prospective reservoir sites will be inspected at Seymour, Haskell, Childress, Snyder, Canadian and other points.

ROOSEVELT DAY INTER- ESTS ROOSEVELTS OF N.Y.

Copies of The Eagle containing announcement of the Roosevelt celebration to be held at Roosevelt next Saturday, and copies of the Roosevelt Pledge which is used instead of the rod in that school, were sent to Congressman C. B. Hudspeth and to Colonel Theodore Roosevelt, Assistant Secretary, U. S. Navy, and as a result the Roosevelt Memorial Association has accepted the suggestion of the Roosevelt teachers that the school be considered as a living memorial to the Great American for whom the school was named, and that a picture of Ex-President Roosevelt has been sent to be unveiled on Roosevelt's birthday, Saturday,

October 27th, and a former Rough Rider will be at Roosevelt to present it on that occasion.

A full afternoon and evening of entertainment has been provided for. Hon. Coke R. Stevenson will make a speech of acceptance, and Judge Weaver H. Baker, County Attorney, Fred Knettsch, Hon. M. E. Blackburn and Hon. J. B. Randolph will speak on "Roosevelt Ideals."

A basketball tournament has been arranged with teams from London, James River and Segovia, for both boys and girls. A mischievous mule, Mike, and an untamed Toro will be ready for anyone who thinks he can ride.

A box supper will be given at night to raise funds for the purchase of equipment and improvements to provide for the teaching of agriculture and home economics.

PEDDY COUNSEL HAS RESTRAINING ORDER.

Amarillo, Oct. 19.—A restraining order enjoining election officials of Texas from destroying or interfering with in any way ballots of the general election of last November, in which the Mayfield-Peddy Senate race figured, was granted Friday by Judge James C. Wilson in the Federal Court here.

The order was granted on petition filed in behalf of George E. B. Peddy by his attorney, Luther Nichols, of Dallas. Peddy's petition also asks the court to appoint receivers in all counties of the State to take possession of the ballot boxes and all election records and a hearing on this clause of the petition was ordered set for Ama-

rillo at 10 o'clock, October 20th.

The petition, sweeping in its scope, names all County Clerks of Texas and several hundred presiding judges in election precincts as defendants, and asks that the restraining order be issued to preserve the ballots and election records for use as evidence in the contest of Mayfield's seat in the Senate. It recites the contest petition was filed by Peddy on February 22, 1923, and according to a Texas law, election records may be burned on or after October 8, 1923. This date is before congress assemblies in its new session or before a hearing on the contest petition could be held, it further recites.

Luther Nichols, counsel for George E. B. Peddy, Friday night had not returned from Amarillo, where he filed petition seeking injunction on behalf of his client to prevent Texas election officials from tampering with or destroying ballots cast in the last general election, it was said at his home here.

The petition filed, it was understood, is the first step in the renewed fight of the Peddy faction to obtain a revision of the election returns, which declared Earle B. Mayfield elected Senator to succeed the Hon. Charles A. Culberson.

NOTICE TO THE PUBLIC

After November 1st, we will place our blacksmith business on a strictly cash basis and this will apply to all alike. We are compelled to do this as a matter of business and will continue to give you the best of service, and will appreciate your continued patronage.

D. E. GOBEN.
BECKER & HARDIN

CLUB AND SOCIETY NOTES.

BUCKNER-BEASLEY.

On Monday night of this week at the home of Dr. and Mrs. Dixon, in San Antonio, Mr. Walter Buckner and Miss Edith Beasley were married. A number of friends of the bride from Junction and a few friends of the groom were present.

The bride is a daughter of Mr. and Mrs. L. Beasley Sr., of this county, a most attractive and very accomplished young woman. She was reared in this county and has a host of friends here who will be glad to learn of this happy occasion and will join in wishing the happy couple the best that life can give.

Mr. Buckner is joint owner with his father, of the San Marcos Record, and formerly lived at Kerrville. He is a splendid young business man and in the management of the Record, which is one of the best weekly papers in Central Texas, is displaying marked ability as a newspaper man.

Immediately after the ceremony they left for a honeymoon trip of two or three weeks, after which they will be at home to their many friends at San Marcos.

The Eagle extends congratulations.

PARENT-TEACHERS' ASS'N.

Monday afternoon the Parent Teachers' Club met at the Methodist church.

Unfinished business matters were discussed and settled, and it was decided that the 10th of November will be celebrated since Armistice Day comes on Sunday.

The following committees were appointed for the four sections of the town for the purpose of getting help for the Parcel Post sale which will be held sometime near Christmas.

North section, Mrs. W. H. Baker, and Mrs. Oren C. Reid; northeast section, Mrs. Homer Livingston and Mrs. Robert Loeffler; southwest section Mrs. W. Z. Miller and Mrs. Jim Massey; southeast section, Mrs. W. P. Riley and Mrs. Fred Knetsch.

Supt. Miller made a beneficial talk on the subject of "The School's Present Condition and Progress," which was followed by an interesting speech by a trustee, Fred E. Knetsch, concerning the plans of the new school building.

The membership campaign being over, the losing side entertained with an interesting program and refreshments.

The next meeting will be on the afternoon of November 26. You are invited to attend.

LEGION AND PARENT-TEACHERS' CELEBRATION

On Saturday, the 10th of November, the local post of the American Legion and the Junction Parent-Teachers' Association will celebrate with a big street parade in the town, in which it is expected that all the schools of the county will participate. The schools will arrange to take part in the parade and to represent their communities. They will use as many decorated cars, horses or floats as they like, but each school will constitute a section of the parade.

A valuable prize will be given the school making the most effective showing. The details of this parade and the prize may be secured from Supt. Miller of the Junction School.

A number of booths will be on the streets, and young ladies will sell coffee, sandwiches, cake etc., for the benefit of the P. T. Association.

LONDON LOCALS.

R. C. Ledbetter is to begin a meeting at the Community Hall the Friday night before the 1st Sunday in November. Everybody is invited to hear him.

John Martin and Hez Denman were in London Monday seeing after some business interests.

Several Masons from here attended lodge in Junction Saturday night.

M. C. Reese and brother, Boss Reese, were in on business last Tuesday.

Trucks are busy here hauling cotton to market. The London community has about finished gathering their cotton crop.

Mrs. Cantwell and daughter, Miss Ella, of Brady are visiting Mrs. Cantwell's brother, E. P. Furr.

Mrs. R. L. McKinney and two daughters, Misses Fae and Mona, and Miss Thelma Barrett, visited Mrs. Dee Gibbs Sunday.

The little Saline School with Everett Stewart as principal, and Miss Winnie Cooper, assistant, is beginning a new term which promises to be successful.

Mrs. Lottie Amaon went to Amarillo as a delegate for the Eastern Star. She will meet her sister, Mrs. Callie Baze there.

Mr. and Mrs. Edd Massey are visiting this week in San Antonio.

Mr. and Mrs. Ernest Amaon went to San Antonio this week to buy dry goods for the London Mercan tile Co.

Miss Minnie Lou Hodges and mother visited in Brady last week.

Prof. J. W. Deering's brother of Hext is to begin a class in Spanish Tuesday night.

Jasper Nixon has sold his farm on Little Saline to Doc. DeSpain and is planning to move to Fredericksburg.

NOTICE TO CONTRACTORS.

For State Road and Bridge Construction.

Sealed proposals addressed to W. H. Baker County Judge, for the improvement of certain highways in Kimble County, will be received at the office of County Clerk, at Junction, Texas, until 10 o'clock, a. m., November 16th, 1923, and then publicly opened and read.

Description of Work to be Done.
Class "A" Conc. 264.49 cu. yds; Reinforcing steel 5718.9; Type "C" hand rail, 28.8 in. ft.; structural excav. (dry) 170.89 cu. yds.; structural excav. (wet) 135.27 cu. yds. Detailed plans and specifications of the work may be seen for examination, and information may be obtained at the office of County Clerk at Junction, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas.

A certified, or cashier's check for Five hundred Dollars (\$500.00) made payable without recourse to the order of W. H. Baker, County Judge of Kimble County, must accompany each proposal. A guarantee that the bidder, if successful, will enter into contract and make bond in accordance with requirements of specifications. The right is reserved by the party of the first part to reject any and all proposals or to waive all technicalities.

Proposals shall be submitted in sealed envelopes and marked, "Bids for the Construction of the Bear Creek Bridge in Kimble County."

All bids received will be retained by the Department and will not be returned to the bidders.

Our shirts are 50c to 75c less than in other places.
Junction Tailor Shop.
Mr. Albert Bartley is in San Antonio this week.

GOOD YEAR
Service Station

NO other tire has the slipless grip of the famous Good-year All-Weather Tread. Its high, thick, sharp-edged blocks grip hard, hold fast, and hang on. The result is a steady, sure, safe pace in any traffic or in any going, with a car and tire performance perfectly matched for economical efficiency.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cord with the bonded All-Weather Tread and back them up with standard Goodyear Service

The Same Principle

THAT Applies to your business, applies to ours.

THE MAN On the ranch who succeeds is not the one who, by some scheme or underhanded method, is able to "work" some one, but the successful ranchman is the one who studies carefully, every phase of his business, and applies the results of this careful study to his daily labors.

THE SAME Is true of the farmer. Those who, year after year, study the practical needs of their soils, consider their markets, and provide themselves with labor saving equipment, all coupled with a strict economy, are the only ones who can succeed.

THE FACT That some ranchmen and farmers succeed, is evidence of the fact that they have benefited by their observation and experience. Just so in a banking business. For many years we have carefully studied the banking needs of this community and our experience has become one of our most valuable assets. By reason of this careful study of the needs of the community and of our knowledge of the technical side of banking, we are able to render to our customers a superior kind of service.
