Key Allegro Representative Heard By Council

Bob Turk, superintendent for Key Allegro Island Estates asked the Rockport City Council at its regular meeting for permission to tie in the Key Allegro water system with that of the city.

Councilmen, after hearing Turk and a report by the city's consulting engineer, W. W. McClendon, decided that they could not act until they have more precise data in hand, and asked Turk to have such a survey prepared.

Turk said that Key Allegro Island Estates expected to have 800 to 900 houses on the island within the next five years.

In other action, the council heard a complaint from Lee Bateman, Jr., of Maple Street, on discharge of firearms within the city limits; discuss the need for new hose with a delegation from the Rockport Volunteer Fire Department; discussed an ordinance to abate the weeds and trash nuisance on vacant lots; and took up various routine matters.

Representing the fire department at the meeting were Coy C. Truelove, Cecil H. Cole, Charles LeBlanc and William Matchewski.

Others at the council meeting besides those named included James Kautz, Justice of the Peace and Corporation Court Judge G. D. Johnson, Moises Perez, Jr., and City attorney, R. D. Hatch.

South Texas Economy Is Looking Good

Except for the depressed cattle market, most citizens of the Coastal Bend feel that they haven't had it so good in a long time, with bumper sorghum grain crops being harvested and cotton and rice prospects from fair to good over most of the area.

In Aransas County, of course, agriculture is practically non-existent, but new subdivisions are sprouting at the rate of one or two a week around Rockport. In addition to this, shrimping has been better than for some time; sports fishing has been excellent, and tourists and vacationers have been plentiful.

In San Patricio County, the county agent at Sinton said that dry weather hadn't hurt anything, although dry land cotton was showing some effects of the terrific heat experiences in the last week or so. Grain sorghum and corn, nearly all gathered, have both exceeded the early season expectations, and graineries and elevators are running over. If the hot dry weather continues, cotton may be hurt. So will cattle, because pastures are burning up under the terrific heat, although none are being fed so far.

At Alice, in Jim Wells County, the report was that hot and dry weather had done some damage, and that pastures have suffered badly, although they had heavy rains last week, with four or five inches of precipitation. "We're not hurting bad," was the report, "but we can, and we sure need rain."

Grain Crops in Jim Wells were said to be reduced because of lack of moisture, although still good. Cotton was drastically reduced because of lack of rain earlier in the season. The general economy is about average.

D. A. Bredthauer, long time county agent in Refugio County, said heavy rains and spotted showers had many fields in the Bonnie View and Richardson communities too boggy to work. Corn prospects range from fair in dry areas to good in sections favored by recent moisture. Cotton prospects are from fair to good. The sorghum grain crop will be very good, with the grain very heavy and yields of around 3,000 pounds per acre.

The general economy is fair to good. Some cattlemen are feeding and pastures are critically dry. The cotton is late, but looks good, although the plants are exceedingly (continued on page 8)

Aransas County Has Two Traffic Deaths In June

Two rural traffic deaths were reported from Aransas County during June, according to F. C. Carpenter, lieutenant of the Texas Highway Patrol office for Region III, headquartered in Corpus Christi.

There were three personal injury accidents during the same time and one property damage, for a total of six accidents. Property damage amounted to \$1385, Carpenter said.

For the first six months of this year, the highway patrolman said, the count was two fatal accidents, against four during the same period last year; 16 personal injury accidents this year against 20 last year; and 19 property damage accidents in 1964 against 15 in the same period in 1963. There have been two deaths this year against four last, he said.

Elsewhere in the 21-county area that comprises Region 3, during June seven other fatal wrecks occurred in four of the counties. Refugio County reported three fatalities; Jackson County reported two, and Brooks and DeWitt counties reported one each.

In all, the lieutenant said, there were 214 rural wrecks reported in the district during the past month, and in addition to the nine people killed there were 122 people injured, while property damage amounted to \$243,745.

Sailing Ship Relics Discovered

Dredges working off the end of Sandollar Pier, to make a deep hole where fish will congregate during the winter, have been unearthing some relics of the ancient sailing ship days along the coast.

Among pieces of iron work uncovered during the operations were several whose purpose could not be guessed at, and one complete assembly in which the mast of some small sailing ship was stepped, and which allowed for adjustment of the stays.

Jack Sanders, Sandollar owner, said that there were still other pieces of various sorts below the surface, and that later on an effort would be made to bring them ashore.

Part of the material below the surface is chain, he said, and other pieces of ironwork. Earl Ward, who has been familiar with this coast over many years, says that the location where the relics were uncovered was formerly an anchorage in sailing days for schooners that carried on a coastwise lumber trade, and for fishing boats.

ALFRED EDWARD HAWKS POSTHUMOUSLY AWARDED SILVER STAR

Mrs. Arthur Edward Hawks of Rockport was notified this morning that her husband had been posthumously awarded the Silver Star with plans for service with the Armed Forces.

Hawks, who also held the French Croix de Guerre with Palm, and the World War I Victory Medal with clasps for Aisne-Marine, Meuse-Argonne and defensive sector service, died here on Nov. 1 last year, after having served in three wars.

He was holder of the Mexican Border Service Medal for service during the Mexican border troubles in 1915; served with the Army in World War I; and, during World War II was with the Navy in the Pacific.

The Silver Star was obtained through the efforts of County Service Officer Jimmy Hunt, who became interested in the case when Mrs. Hawks asked him for aid in obtaining her pension.

CITIES SERVICE SLATES WILDCAT

Cities Service Oil Co. No. B-1 State Tract 260 Aransas Bay, proposed 13,100 foot Aransas County wildcat five miles east-northeast of Aransas Pass, was waiting on a Storm Drilling Co. rig of Corpus Christi.

Johnny Jackson, the son of Mr. and Mrs. N. F. Jackson, Sr., and Mark Lang, son of Rev. and Mrs. Cecil Lang, Jr., were the two scouts attaining the coveted honor, the highest that can be won.

The program opened with the presentation of the colors by the Troop 49 color guard. The invocation was given by Rev. Lang, pastor of the First Presbyterian Church.

Introduction to the Eagle presentation was by Assistant District Commissioner John Ross, and the introduction was followed by a trumpet fan-

fare by Star Scout Kenneth Jurgens.

Scoutmaster Ron Schultz presided over the Court of Honor, and Assistant Scoutmaster Dr. Homer Elliot, presented the two scouts as candidates.

During this part of the ceremony, Eagle Scouts N. F. Jackson, Jr., Gary Tuer, and Darrel Lichte aided. The charge to the Eagles was given by Robert Shoemaker, field director of the Gulf Coast Council, also administered the Eagle oath to the two candidates.

Presentation of the Eagle medals was made by scoutmaster Ron Schultz and presentation of the Eagle certificates was made by James B. Jackson, chairman of the Troop 49 committee.

Texas' delegate to International Beauty Congress will be selected Tuesday night, July 21 when the tenth annual Texas Beauty Pageant is held at Lake Whitney.

The contest gets underway promptly at 8 p.m. at Beachland Lodge, one mile west of Whitney Dam. A fast-moving show is promised as contestants appear in evening gown and swim suit. There is no talent competition.

Miss Sue Johnson, daughter of Mr. and Mrs. Chester Johnson, will be one of more than a dozen beauty queens from Texas resorts to be competing for a trophy, wardrobe and expense paid trip to Long Beach, Calif., Aug. 5-15. In order to help promote the resorts of Texas, the Pageant this year is restricted to representatives of Texas resorts and attractions.

Sue Ann Johnson, 19, won the Sea-o-rama title at Rockport.

CHIEF OF POLICE MAKES PLEA

Police Chief Bob Hewes says:

"This is an open plea to the drivers of Aransas County and all our visitors. So far this month there have been seven traffic accidents. This figure is greater than any month so far this year and more than the last two months combined. So far this month there has been an estimated \$1,805.00 worth of damage to vehicles.

"I ask that every driver watch the other person closely. It is our duty to drive as safely as possible. Please drive safely and watch for the safety of others.

"Out of the 14 persons involved in the accidents, four were from Rockport and ten from out of town, so I ask the visitors as well as the local people to drive as carefully as possible. Watch the signs and obey them."

TEENAGE DANCE TO BE SATURDAY

The public is cordially invited to attend the meeting. A short business meeting will precede the refuge program, which will start at 8:15 p.m.

ACCIDENT RATE CONTINUES TO RISE

Seven accidents have been reported so far this month. Four were reported in last week's Pilot. On July 8, an accident occurred at the corner of Cherry and Omohondro St. involving T. A. Kilgore of Aransas Pass and L. E. Nelson of Rockport. There approximately \$400.00 in damage in this accident.

On July 9, there was an accident at Austin and Main St. involving Jerry Stovall of Corpus Christi and Payton Pettaway of Bremond, Texas. About \$25.00 worth of damage was reported in this accident.

On July 11, at Church and Concho St., an accident was reported. Fred Bracht and Miss Connie McBee were involved. Approximately \$150.00 worth of damage was reported.

Senator Yarborough Guest at Coffee At Sea Gun on Monday

Senator Ralph Yarborough was guest at an informal coffee at Sea Gun Restaurant Monday afternoon, at which members of the various boards of Aransas County and some of their wives were also present.

Concern was expressed by a number of those present over the announcement that has appeared in the past few days regarding addition of 32,500 acres to the Aransas Wildlife Refuge.

The first announcement said this land would be from Aransas County only; later another story said Aransas and Refugio counties. However, Judge John D. Wendell said that apparently only the land in Aransas County was meant. There is exactly 32,500 acres of the Tattin Ranch, the land in question, in Aransas County.

Emory M. Spencer and James Sorenson, Jr., both told Senator Yarborough that removal of such an amount of land from Aransas County tax rolls would work a hardship on this, one of the smallest counties in Texas.

In reply to a question as to whether and Federal impact aid was received, School Supt. J. D. Gray said no. Judge Wendell pointed out that the small amount received from grazing leases on the present refuge was not enough to defray the cost of schooling those children on the sanctuary, because of the great distances involved.

The senator said the necessary money for the purchase of the land had been included in the upcoming budget. Purpose of the land acquisition, he said, was to enlarge the wintering ground of the whooping cranes. However, Senator Yarborough said, it might be possible to work out some method whereby money lost to the county through removal of this land from the tax rolls could be returned in some other form.

He discussed briefly the status of Padre Island, for which \$3,500,000 has been included in the budget, and also talked briefly on the use to which the extra money received when the duck stamp price was raised to \$3. He also, while discussing the park situation, alluded briefly to the new national monument at Fort Davis, where the ancient military establishment is being restored, and also to the possibility of a new national park in the Black Gap-El Capitan area in West Texas. Another addition to Texas parks will be one at the Amistad Dam if needed legislation is passed.

Other subjects on which he answered questions were the recent bill passed by Congress aiding libraries; and the status of hurricane research along the Gulf Coast.

To a question regarding the possibility of de-salting sea water for use in homes and manufacturing, Senator Yarborough said that in the present state of our knowledge this was economically unfeasible for any thing except drinking water, and then only when there was no other source from which necessary water could be drawn at a cheaper rate. The cost of de-salting is still so high, he said, that until great advances are made, nothing can be done in this matter.

Harold Picton, chairman of the Aransas County Conservation and Reclamation District board, asked the senator concerning the plans for the giant canal that has recently been promulgated by the Bureau of Reclamation.

Yarborough said the Bureau of Reclamation recommended (continued on page 8)

PHYSICAL FITNESS PROGRAM TO START MONDAY EVENING

Coach John Baker said this morning that physical fitness training classes will start Monday evening, July 20, at 6:30 p.m. at the high school. All boys from seven through high school may participate and are invited to do so.

School Scans Budget, Ducks Tax Increase

Faced with loss of some \$20,000 a year through action of an individual and the Federal government, trustees of the Aransas County Independent School district decided to maintain the present tax status, although it means one of the tightest budgets in many years and faces certain change in 1965.

The Sid Richardson Estate has consistently refused, since the death of the oilman, to pay the school taxes, and now owes the district between \$25,000 and \$30,000 in back taxes. These are the subject of a suit in the 13th District Court of Appeals in Corpus Christi, with little hope expected of a decision in the near future.

This action on the part of the estate has sequestered approximately \$7,000 per year

32,500-Acre Tract Sought For Refuge

The Interior Department's Fish and Wildlife Service will seek to buy 32,500 acres as an addition to the Aransas National Wildlife Refuge in Aransas County, Sen. Ralph Yarborough D-Texas, has announced.

The department will recommend for approval of the Migratory Bird Conservation Commission acquisition of the land, Yarborough said.

"The proposed area adjoins the present refuge in part and is on the opposite shore of St. Charles Bay, which receives heavy waterfowl use. The tract offers an excellent opportunity for development of habitat to support wintering waterfowl, as replacement for habitat being destroyed along the Texas Gulf Coast," Yarborough said.

The senator said the director of the Fish and Wildlife Service, Daniel H. Janzen, had informed him that the regional office in Albuquerque has been instructed to proceed with negotiation for the tract. If agreement with the owner can be reached, the proposal then will be submitted to the Migratory Bird Conservation Commission.

LOCAL MEN TO ATTEND SCHOOL FOR FIREMEN

The City Council, at its regular meeting, approved a request of the Rockport Volunteer Fire Department for funds with which to send men to the 35th Annual Training School for fireman, at Texas A&M University, July 19-25.

Local men planning to attend are City Fire Marshal Carl Osborn, and firemen Billie Ormand and Gilbert Hill Jr.

The training school is being conducted by the Engineering Extension Service, in cooperation with the Texas Education Agency. The school furnishes up-to-date training and information on fire protection and prevention as well as the most techniques of fire fighting.

ROTARIANS HEAR COUNTY JUDGE

Rotarians, at their luncheon, heard County Judge John D. Wendell discuss loss to the county if Federal agencies take over the Tattin Ranch property to enlarge the Aransas Wildlife Refuge.

Records in the tax office show this assessed at \$642,855, including \$30,000 in personal property. Taxes paid to the county last year were \$12,342.

Records of the school district show a little over \$13,000 in taxes received from the same source.

All this will be lost to county and school district.

Visitors at the luncheon were Glade Welhausen, Shiner; Willis Dismukes, Ralls; Ernest Horine, Alice; J. C. Weaver, Sinton; Ed Frazer, Corpus Christi.

of the school income.

Announcement in the paper that the Federal government is in process of acquiring more land for the whooping cranes, which many people believe, don't use all they have, will take another \$13,000 to \$14,000 yearly from the school funds, as the 32,000-acre tract, valued at \$765,860 on the school tax rolls, is removed from tax-paying status, because it becomes property of the Federal government.

All members of the board were convinced that while it may be possible to retain the present levy of \$1.76 per hundred for the coming year, that unless the Richardson Estate could be forced to pay its back taxes and some method could be worked out to replace the revenue lost to the whooping cranes, it would be necessary to raise the tax rate next year to either \$1.81, where it was in 1962-1963, or perhaps even higher.

The school budget this year, Supt. J. D. Gray said, has been pared until there just isn't any place else that cuts can be made without impairing the quality of instruction and maintenance. Board members after going over the tentative figures which will be formally presented to the public at a hearing on Aug. 11, at which time the Board will hold its regular meeting.

Even so, addition of needed elementary and high school teachers and incremental raises for other members of the faculty and maintenance staff have raised the budget to \$717,005.62, without any new construction costs.

Of this, \$26,831 is for administrative costs; the tax office expense, including salaries, will be \$20,380 this year; instructional expense will be \$435,350.

Transportation will consume \$19,240; plant maintenance is pegged at \$24,660; plant operation will cost \$49,380; fixed charges are \$3,170; food services will be \$24,082; student body activities, \$10,664; capital outlay, both revenue and non-revenue producing, \$11,098; and the balance of the monies will be used for various types of debt service.

Estimated receipts for the coming year were based on a tentative valuation of \$27,370,890. Gray said this represented an increase of \$754,960 over 1963, and that practically all of it came from local property, as oil and gas valuations were upped only \$9,550 during the year.

Based on the estimated valuation, less 6 per cent, to allow for cash discounts for early payment, and to take care of the small proportion uncollected, Gray said revenues for the coming year from taxes should be \$452,824. To this should be added collections of some \$6,000 in delinquent taxes (based on past experience) and \$17,562 from the cafeterias. The tax rate used, he said, was \$1.76, the same as in 1963-64.

The State's Minimum Foundation Fund will add \$216,331 to the above, Gray stated; there will be \$265 from the County Available Fund, and \$3,000 from grazing leases on Blackjack Peninsula, where the whooping cranes winter, and which is the land now owned by the Federal government comprising Aransas Wildlife Refuge. This \$3,000, he said, does not begin to defray the expense of getting the children of the families on the Refuge to school.

CORRECTION PLEASE . . .

In last week's Pilot, in the story on the gift of funds to the library by the Eastern Star, the next to the last paragraph should have read: "Besides these things, Mrs. Eaton said, the library has received a \$100 donation for

children's books from Mrs. H. E. Butt, and \$240 from a games party staged by the members of the library board and auxiliary with the co-operation of the Women's Club earlier in the year." The Women's Club has always lent its support and encouragement to the library.

SOUTH TEXAS ECONOMY

(Continued from Page 1)

rank. Some of the plants are as tall as milo.

Grain sorghum, cotton and rice crops are very promising all over the county, said Calhoun County Agricultural Agent C. L. Cook. Harvest of grain sorghum will begin soon and a greater yield than last year is expected. More than 30,000 acres are planted in this crop, and some farmers would be cutting now, except that the last rains have kept the fields too wet to work.

A good cotton crop is also expected, despite heavy rains last month. In one of the downpours in the Six Mile area, eight to ten inches of rain fell. Prospects for the 19,000 acres of cotton are as good or better than last year, when

farmers averaged 9/10 of a bale per acre. Cotton harvesting will probably start the latter part of the month. Rice crops are not as good as last year, Cook said, as more grass will be cut the yield. Cattle are in good shape except for the price. Retail business is picking up a little.

Fred Latchman, Jr., publisher of the Beeville Bee Pica-yune, said that cropwise things were looking good in Bee County. "We lost a little broom corn," he said, "from rain. Cattle are fair except for the price, and the pastures aren't bad. Our overall condition is very good. We've had more rain recently than we've had for years. The general economy in Bee County is good."

At Robstown, Carrol Keach, of the Robstown Record, and his news editor said cattle were comparatively unimportant in agricultural Nueces County, and that most of the crops were pretty well—about 90 per cent—harvested. The grain sorghum crop was fine, they said, with the grain weighing heavier (a circumstance Brethauer noted in Refugio County) and with

better yields, probably around 2,000 pounds an acre. Everybody was happy, as the yield was much better than expected in the early part of the season.

The general economy is good. Retail sales are picking up rapidly, and a school bond issue was passed last week because, as everyone said, it had rained and the farmers could see where the money was coming from.

At Karnes City Nelson Noster, publisher of the Karnes City Citation, was optimistic. The crop outlook was good, he said. Flax and wheat have already been harvested and the corn crop is fair. However, moisture is needed for the remainder of the corn and cotton crops, both of which look good. Cattle are hurt by low prices, but only those that need grass are selling many head. Pastures are not good. Nevertheless, Noster said, the outlook is the best we've had in the last three years, "but we need general moisture this week or next." Retail sales are slow, until farmers and ranchers are sure they've made a crop. Southwest of Victoria, ac-

cording to D. B. McCombs, county agricultural agent, dry weather has practically wiped out the farmers around Kemper City and in that general area, as far as crops are concerned, and the range is badly damaged. However, cattlemen are not feeding, although they're cutting lots of maise and corn stalks as supplement to the range grass.

From the Guadalupe River east, McCombs said, agriculture and ranching is in good condition, although the pasture is suffering a little. Milo in that area has been average, he said, and cotton, although it still has to make, looks average. It will be about two or three weeks before the status of the crop can be determined.

At Goliad, M. W. McDonald, of the Agricultural Stabilization and Conservation Service, said that crops as a whole were in good shape, although there were some bad spots. Sorghum grains, cotton and corn all appear to be producing above normal crops and the pastures are in fair shape. Dry weather hasn't hurt the county much; cattle prices are what are hurting.

MRS. FRED B. HUNT HAS WEDNESDAY BRIDGE

Mrs. Fred B. Hunt was hostess to the Wednesday Bridge Club this week at her home. A dessert course was served to four tables of players. Mrs. James W. Hunt and Miss Lillian Fahr assisted the hostess in serving.

High score winner was Mrs. Max Gardner; Mrs. Fred Christilles was second, and Mrs. Arthur Bracht low. Mrs. Arthur R. Curry won the bingo prize.

Members attending were Mrs. Fred Christilles, Mrs. Charles Cleveland, Mrs. J. P. Hanway, Mrs. Fred A. Bracht, Mrs. Arthur Bracht, Miss Genevieve Bracht, Miss Mabel Bracht, Mrs. J. H. Mills, Sr., Mrs. James Sorenson, Mrs. J. V. Ferguson, Mrs. Travis Johnson, Mrs. Charles T. Picton and Mrs. Arthur R. Curry. Special guests were Mrs. Max Gardner, Mrs. Jones Christian and Mrs. R. L. Eckman.

GEORGE CORBETT HAS CHRISTMAS IN JULY

George Corbett, RMSA who left for San Francisco Monday was surprised with a traditional Christmas in July, Saturday evening at his grandparents home, Mr. and Mrs. George Kriger in Fulton.

While George was away from the house Saturday afternoon a Christmas Tree with lights and all the trimmings was decorated and gifts placed under the tree. A traditional Christmas dinner was prepared.

George, who was away from home last Christmas, had remarked how lonesome he was at Christmas time, so his grandmother got busy. Helping him enjoy his Christmas in July was his mother, Mrs. Atkins, Mrs. Ellie Veronie, his grandparents, and his brother and sister.

SENATOR YARBOROUGH—

(Continued from Page 1)

mended that this be done as soon as possible because of the growth of Houston. This growth, the Senator said, was rapidly expanding to the area which would be needed for the canal in that area, and unless rights-of-way were acquired soon, the cost would be terrific.

However, he was not optimistic about any rapid action on the matter, as use of the water from the East Texas river basins in South Texas is bitterly opposed by the people and representatives from the eastern portion of the state, he said.

He declined to give any estimate as to the possible inception of such a program because of the variables involved.

Present at the coffee, at which Emory M. Spencer and James H. Sorenson, Jr., were hosts, were Harold Picton, chairman of the Board of Directors of the Aransas County Conservation and Reclamation District; County Judge John D. Wendell and Precinct 4 Commissioner Albert Wofford; R. L. Fleming, director of the Conservation District; Ernest Jones, Democratic chairman

for Precinct 4;

J. D. Gray, superintendent, Aransas County Independent School District; J. B. Jackson, member of the school board and Mrs. Jackson; Mrs. W. E. Jackson; Mrs. Z. T. Washburn; County attorney and Mrs. Ellis L. Clark; Mr. and Mrs. Chester Johnson; Jack Fields and Bill Day, of Senator Yarbrough's entourage;

Attorney and Mrs. Weldon Cabaniss; Chairman of the Aransas County Navigation District Raymond Owens and Mrs. Owens; Jack Sanders, owner of the Sandollar Motel; Emory M. Spencer, local oil man and real estate owner; James H. Sorenson, Jr., executive vice president of the First National Bank; and J. L. Baughman, chairman of the Aransas County Public Library Board.

Billy Bacon Griffith of Rockport, is among the 78 persons from two states and one foreign country who participated in the Reading Workshop held at Texas College of Arts and Industries June 22-July 10. He is a member of the faculty of Fulton Elementary School.
