LESS BRISTLES

With the December sweep of the 77th Congress of the States went H. R. 7762, amendments and modifications and bag and baggage, which had passed it would authorized the President to amend federal laws, in part, in the interest of the war effort, to give the President power to give information into and out of the United States.

Mr. Corder has given administration everything it can get. The first request from the President for a war measure. What Congress, at the year's end, deviate from its unbrotherly of granting all war on requested by the President. I have tried earnestly the truth and I will not waver.

EFFORTS OF TERRELL COUNTY RESIDENTS IN SALVAGE DRIVE ARE COMMENDED

In a letter addressed to R. E. Corder, chairman of the Terrell County Salvage Committee, Governor Coke R. Stevenson expressed congratulations on the achievement made by Terrell County. The letter in part follows:

"Dear Mr. Corder: I understand that your county exceeded the 100 pounds per capita quota in the scrap metal campaign for the months of September and October and has therefore qualified for the War Production Board salvage pennant."

MRS. CHARLES THOMAS DIES SUN. IN EL PASO

Mrs. Charles Thomas, 59, mother of Mrs. W. A. Banner and former resident of Sanderson and Dryden, died at El Paso Sunday night after several weeks illness. Funeral services were held Wednesday morning at 10 o'clock from the Barry-Hagdon Funeral Home with Minister McCall of the Church of Christ in charge. Interment was in Evergreen Cemetery there.

Mr. and Mrs. Thomas and family moved to Sanderson in 1915 from Devine. They lived here until 1918 when they moved to Dryden and in 1935 they moved to Langtry where they lived until 1940. At this time they moved to El Paso where they have lived since. Mrs. Thomas was a member of the Church of Christ and was interested in the schools and in other social work of the community.

Mr. Banner and daughter, Mrs. Ferd Monroe and little son, Jerry, left Sunday to return to El Paso and did not know of the critical condition of Mrs. Thomas until they arrived there. Mr. Banner left Monday and Mr. Monroe went to El Paso Tuesday. They returned to Sanderson today, Friday.

Besides the husband survivors include two daughters, Mrs. Banner and Mrs. Billy Smith of El Paso, a son, Mantion Thomas of Phoenix, Arizona, three grandchildren and two great grandchildren.

ON THE HOME FRONT

Office of War Information

Farmers of the nation have emerged in the last week as the No. 1 soldiers on the Home Front, and the Southwest where the planting season is here or soon will be, agriculture is being mobilized everywhere to help win the war with food.

Food is an important weapon in total war and the record crop produced last year on American farms represents a major victory for the United Nations. Calling on farmers for unprecedented production in 1943, President Roosevelt has said that food already sent to the people of North Africa is saving the energies and the lives of American troops there. Similarly all over the world food from our country's farms is helping the United Nations toward victory.

September and October and has therefore qualified for the War Production Board salvage pennant.

"This pennant will be sent to you in the near future. I wish to congratulate you most heartily on this achievement and to send you and your associates my best wishes for all future success."

The above letter was signed by the Governor. Another letter received from the War Production Board and signed by the members of the Texas Salvage committee, says in part:

"It is with great pleasure that we inform you the Victory Salvage Pennant has been awarded to your county by the War Production Board.

"Representing, as it does, outstanding accomplishment in salvaging of materials vitally needed by our fighting forces, this pennant is indeed a tribute to the patriotism and grit of the good people of your county, and to the leadership of you and your fellow workers."

The pennant has been received and will be put up at the courthouse, according to Mr. Corder, who stated that special thanks should go to every organization, every Zone Chairman, the commissioners, to the school children, to the Scouts, and to all citizens of Terrell County for their aid in making this record possible.

West Texas Must Furnish More WAACs

A new quota for the West Texas Army Recruiting District calls for the enrollment of more than four times the number of WAACs during January, February and March as have joined the Women's Army Auxiliary Corps during any previous three-months period.

Lieutenant Colonel Marvin B. Durette, Commanding Officer of the West Texas Recruiting and Induction District, stated that every effort will be made to reach this goal. He said that it is going to take the help of every one of the seventy-six counties in the district to attain this goal.

WAAC officers will visit practically every town in the district during the three-months period. Public meeting will be held in many of these towns to give the public full information on the Women's Army Auxiliary Corps. Newspapers, Radio Stations, Theatres, Women's Clubs and various other civic organizations will be asked to aid in this recruiting drive. Women are urged to take over non-combatant assignments that relieve physically fit soldiers for fighting duties.

The pay scale, which is the same as the Army's, will be distributed along with other information on advantages on training; the clothing, food, lodging and care of women, and all the attractions of membership in the Women's Army Auxiliary Corps. All organizations willing to help in this recruiting drive should contact the headquarters of the West Texas Recruiting and Induction District in Lubbock.

Gilbert Loden, stationed at Camp Rucker, Alabama, arrived Friday for several days visit with his father, W. F. Loden. His father has been critically ill for several days but is somewhat improved.

Mrs. H. E. Fletcher spent last week-end in El Paso visiting her parents Mr. and Mrs. S. C. Bodkin.

Mrs. J. H. Lochausen, Mrs. John Harrison, and Mrs. A. F. Buchanan attended funeral services in Del Rio Tuesday for Mrs. Mamie Wilkinson.

PAY YOUR POLL TAX

Announcement is made in this issue of the Times by Sheriff J. S. Nance that this month is the last opportunity citizens of Terrell County will have to pay their poll taxes so that they may exercise their rights in elections which might be held during the coming months.

Saturday, January 30th, is the final day for making payment and securing your poll tax receipts. Don't neglect this matter—it's your duty to be able to vote for the things you believe in and the things which you believe best for your government.

MEN WANTED BY DRAFT BOARD

The local Selective Service Board has been unable to contact several men who are registered here. Since it is necessary to get in touch with these men during January to prevent their being reported for delinquency they are urged to report to the office at the Terrell County courthouse or notify the board as to their whereabouts. Persons knowing the new addresses of any of the registrants listed here may do them a service by advising them to report or by giving the address to the local board:

Francisco Gomez, Archie Harold Utiky, Edward Otto Krueger, Rodolfo Salinas, Urbano Albarado, Ray Angelo Montano, Blas Hernandez, Eriverto Herrera.

Any man even though he may be married if he has no dependents other than his wife, should be sure that the board has his address and it is particularly necessary that every man between the ages of 18 and 38 should have his classification card at all times. If one should lose his card he should make application to the Board for a new one. Men who are between the ages of 38 and 45, while not at present subject to induction, should notify the board if and when they make a change of address.

Kenneth Litton, who is stationed at Camp Elliott, San Diego, Calif., arrived Saturday for a visit with his parents, Mr. and Mrs. E. B. Litton. He is on a 14-day furlough.

Charles Rogers Jr., of Pecos, is here for a few days visit with his parents, Mr. and Mrs. Charles Rogers.

FIRE DAMAGES SANDERSON CAMP

Considerable damage was caused Saturday night of last week when fire broke out in the basement of the Sanderson Tourist Courts, owned and operated by Mr. and Mrs. H. D. Williams.

Cause of the fire was not known, but it started in the vicinity of the boiler after the burner under it had been turned out about thirty minutes, according to Mrs. Williams. The boiler was heated with an oil burner and it was thought that a short in some manner had set the first spark. The oil line running from the storage was broken and was feeding the flames which were coming from the basement and going up the side of the cabins above.

Most of the damage was to the boiler and oil connections, and that caused by smoking of the cabins.

Mrs. R. S. Wilkinson Is Hostess to Wednesday Club

Mrs. R. S. Wilkinson entertained members of the Wednesday Bridge Club at her home on club day this week with three tables of bridge.

High score prize was won by Mrs. John Reiminger and second high went to Mrs. James Caroline.

A salad plate and tea were served to Mesdames Tol Murrah, Steve Stumberg, John Reiminger, Johnny Williams, James Kerr, James Caroline, Hugh Rose, Walter Grigsby, Roger Rose, Jack Deaton, C. P. Peavy and Web Townsend.

RECEIVES PROMOTION

Former Lt. James A. Martin, stationed at Camp Tyson, Tenn., received a promotion January 1 to the rank of captain. Captain Martin, before his entry into the armed services nine months ago, ranched near Dryden.

TO ACTIVE SEA DUTY

Mr. and Mrs. Simon Shaw of Pampa, Tex., have received word that their son, Robert, R. M. third class, has completed his training at a naval training school in Connecticut and has been assigned to duty at sea.

John Clark Jr., son of Mr. and Mrs. John Clark, is here from El Paso for a few days visit with them.

Mr. and Mrs. H. G. Holt were Fort Stockton visitors Tuesday where Mr. Holt went for dental work.

4-H CLUB SHOW TO BE HELD HERE SATURDAY AFTERNOON, JANUARY 30

Announcement has been made to the effect that members of the Terrell County 4-H Club will hold a livestock show Saturday afternoon beginning at 2 o'clock. The show is to be staged at the rear of the Kerr Mercantile Company building.

Club members this year have better calves and lambs than ever before, according to W. T. Posey, Pecos County Agent who has made several trips to Sanderson to aid the boys in their work.

LAST RITES FOR MRS. MAMIE WILKINSON HELD

(Val Verde County Herald)

Last rites for Mrs. Mamie Wilkinson, 73, widow of Mayfield Wilkinson, were held Tuesday at 4:30 p. m. in the First Christian Church. Rev. M. A. Buhler, pastor of the church, officiated. Burial was made in Westlawn Cemetery under the direction of the Doran Funeral Home.

Mrs. Wilkinson died early Monday morning after a lengthy illness.

The daughter of Mr. and Mrs. John Howard, she was born Dec. 14, 1869, in Mississippi.

She was married to Mayfield Wilkinson June 1, 1902 in Temple, Texas, and had made her home in Del Rio for the past 14 years. Wilkinson died here in 1931.

Before her illness, Mrs. Wilkinson was active in the woman's work at the First Christian Church.

Survivors include her daughter, Mrs. R. A. Gatlin of Dryden, and a grandson, Kip Gatlin; her sisters, Miss Tyler Wilkinson and Mrs. Matt Harris and a number of nieces and nephews.

Pall bearers included J. A. Walker, Dee Rowland, V. D. Curry, W. W. Gaines, T. D. Moore and Marvin Ellis.

SEEN IN SHOW

Friends of Jimmie Goodykoontz are sure they saw him in a short subject offered at the Princess Theatre Saturday night in connection with the show. The short featured activities at Annapolis where Jimmie is in training.

A letter from their son, Pvt. Gene Litton, to Mr. and Mrs. E. B. Litton contains the information that he is now stationed in North Africa. He says that the country there is similar to the country surrounding Alpine.

erson to aid the boys in their work. At the show will be a display of the progress made by the clubbers and four calves and 35 lambs will be on parade.

T. W. Hillin, former agent of Pecos County will be on hand to do the judging according to the announcement, and awards will be given the winners of the various classes. Prize money is being made up by ranchmen of the community and business men of the town. This money will go for awards and to aiding the boys in shipping their winners to bigger shows.

Citizens are urged to be in attendance at the show to see what can be done by proper feeding and also to encourage the boys who have given their time and efforts to increase their knowledge of and ability to handle livestock.

Texas Fires Caused From Heating Systems

Marvin Hall, State Fire Insurance Commissioner, reports that almost one-third of the fires in Texas during last January and February were caused by heating equipment.

In urging carefulness with stoves and other heating units in cold weather usually experienced in Texas at this season of the year, Hall said:

"The record of 1942 reveals that over 31 per cent of all fires reported in Texas cities and towns during the first two months of the year were caused by improper use or installation of heating equipment.

"Heaters too near walls, curtains or room furnishings account for a number of fires each winter. Other causes include overheated stoves; defective flues and chimneys and improper installations.

"Because of an acute housing shortage in many areas, together with the fact that a large number of home fires occur during the winter months we must, of necessity, prevent dwelling fires.

"At least 31 persons died in Texas last year from burns received when their clothing caught fire while standing too near stoves or open fire places."

Junior Women's Club Meets in Lattimore Home

The Junior Women's Club met Thursday, January 14 at 7:30 o'clock in the home of Miss Margaret Lattimore with Miss Armenta Ragsdale as co-hostess.

The program was taken from articles in the Reader's Digest. "Chocolate for the Children" was by Mrs. Conway Pickard, "General Ike Eisenhower" by Mrs. Richard Haley and "Hostages" the book-section was reviewed by Miss Margaret Kinkler. The club also enjoyed a parliamentary drill led by Miss Anna Lee Allen.

The hostesses served lemon chiffon pie and hot punch to the following members: Mesdames Roy Deaton, Conway Pickard, Bill Vaughan, Richard Haley, Roger Rose and Misses Margaret Kinkler, Anna Lee Allen, Marion Brierger and Imogene Knight. Guests were Miss Ruby Adcock, Miss Doris Fabian and Mrs. M. R. Lattimore.

The next meeting will be held in the home of Miss Anna Lee Allen with Miss Margaret Kinkler as co-hostess on February 12 at 7:30 o'clock.

A. L. Slay is in Laurel, Miss., where he is visiting with his parents and recuperating from an attack of flu. He will be there for a month.

Mrs. John Reiminger spent from Sunday until Tuesday in Marfa visiting with her parents, Mr. and Mrs. R. R. Hillman.

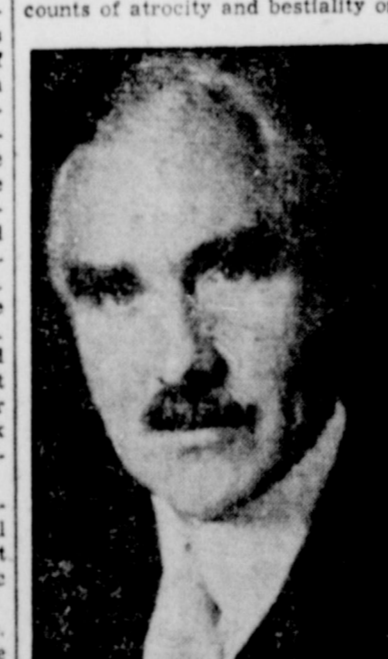

Joseph C. Grew Warns
Half-Effort Will Not Defeat Japan
By JOSEPH C. GREW
United States Ambassador to Japan until the outbreak of war, and author of "Report From Tokio."

Washington, D. C.—In describing one of the big air battles over Guadalcanal a recent newspaper account tells of an American flyer who parachuted from his crippled plane to the waters of Lunga Bay. The Navy craft which picked him up next went to the rescue of a Japanese pilot seen struggling in the water nearby. As the rescue boat reached the Japanese flyer he suddenly pulled out his revolver, aimed it at the drenched American pilot and pulled the trigger. The cartridge failed to explode. Then the Japanese officer turned the gun on himself with suicidal intent. Again he pulled the trigger and again his revolver failed him. At this point an American sailor knocked him out with a boat hook and pulled him aboard the American craft a prisoner.

Almost daily one reads eye-witness stories such as this one, and all of them clearly demonstrate that war with our enemy in the Pacific cannot end in compromise.

For ten years I lived in Japan. The truth as I know it from close observation is this: Nothing less than the exertion of our maximum capacities, individually and collectively, in a war of offense will bring our beloved country safely to the longed-for haven of victorious peace.

The Japanese are pawns of a senseless but mighty militarism—

JOSEPH C. GREW
Says It's Fight to Finish

ally we can continue to lead our normal lives, leaving the spirit of self-sacrifice to our soldiers and sailors, we shall unquestionably run the risk of a stalemate with Japan. I do not have the slightest doubt of our eventual victory. But I do not wish to see the period of our blood, sweat and tears indefinitely and unnecessarily prolonged. We must not fail to realize that we are up against a powerful fighting machine, a people whose morale cannot be broken even by successive defeats and untold economic hardship, a people who gladly sacrifice their lives for their Emperor and their nation. We must also remember that Japan did not start this war without carefully laid military plans for victory over the United States and a peace dictated by their war lords at the White House.

This is a total war, the only answer to which is a total American victory. It is a war in which half measures of any kind mean incredible waste of material, energy and human life. In this sense a half-filled War Savings Stamp album is symbolic of a half effort. There are, I am told, roughly 100 million partially complete War Stamp albums now in circulation. These uncompleted Stamp albums are, in a measure, like a 100 million threats to a speedy and victorious peace. On the other hand, for every War Savings album completed and cashed in for a Bond, you the owner have helped some soldier or sailor take a forward step on the uphill road to total victory. U. S. Treasury Department

FREEDOM PACKS A PUNCH

Arms production records set by American manufacturers in the past year are: 49,000 planes, 32,000 tanks, 17,000 anti-aircraft guns, 8,000,000 tons of merchant ships. These figures are spectacular. They prove that initiative inspired by freedom packs a punch.

The performance of the industries that stand back of such production—namely, the natural resource industries, should not be overlooked. Secretary of the Interior Ickes recently pointed out that: "For every ton of steel that goes into a tank or an airplane or a bomb or a bayonet, more than a ton of soft coal must be dug, transported, processed and consumed." The nation's mines produced more than 675,000,000 tons of coal in 1942, a new all-time record for the coal industry.

Coal is typical of other natural resource industries. Censorship regulations prohibit the release of figures relating to metal mine production. Suffice to say that informed observers do not fear serious shortages. The oil and electric industries have turned in equally amazing performances. Oil managements have tackled a synthetic rubber program designed to build in two years a whole new industry that would ordinarily require a decade of construction work. The oil industry is carrying forward its rubber program while at the same time producing billions of gallons of gas, fuel and lubricants for everything from motorcycles to ships and bombers. The power industry, in the face of constant punitive political attack, has continued to keep a

head of all power requirements. Here, in brief, are the accomplishments of industry operated by private citizens, after a brief twelve months of war. They are based on a century and a half of progress, progress that was possible solely because this has been a land where individual effort was encouraged.

It Happened in Sanderson TEN YEARS AGO This week—Remember?

January 20, 1933

One hundred and seventy two men registered in this county on Monday with a local committee for work on State highway projects that will start at the east part of this county and extend through Val Verde county. Of this number twenty were from Dryden.

Terrell County was granted a loan of \$2,000 by the Reconstruction Finance Corporation for the months of January and February, and the money was received here Tuesday by Joe Kerr, chairman of the Relief Fund Committee.

Mrs. W. E. Lea spent several days in Del Rio this week visiting with her mother, Mrs. V. M. Gildea and other relatives.

Mr. and Mrs. John Hayre returned the latter part of last week from points in Tennessee where they have been visiting relatives.

If you are a bachelor and earned \$1,000 or more in 1932, or if you are married and earned \$2,500, file an income tax return with Uncle Sam before March 15, the bureau of internal revenue reminded today.

H. D. Williams is confined to his home suffering with a bruised right foot caused by the accidental fall of an electric iron.

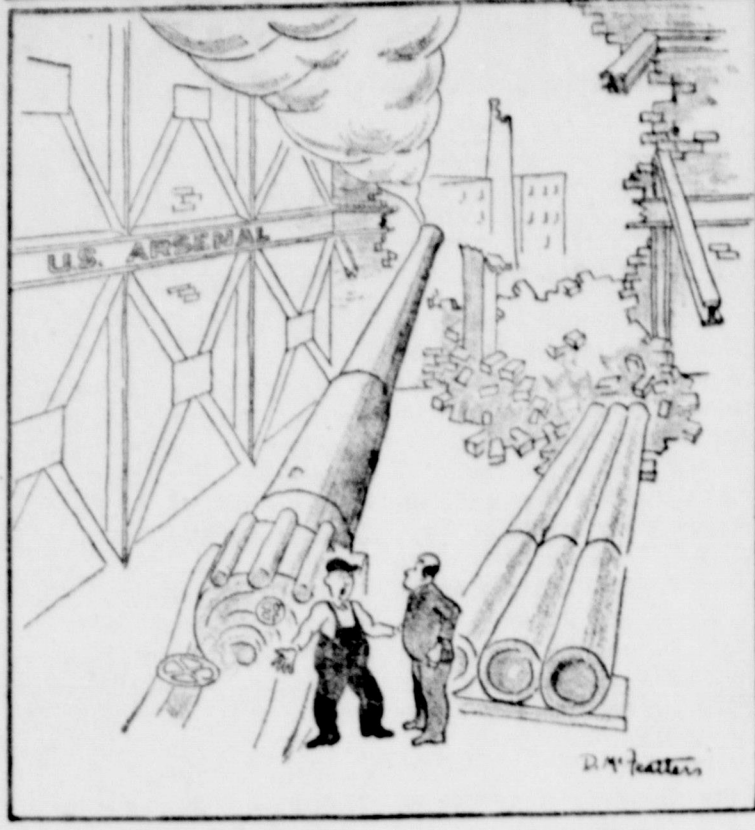

Smilin' Jack says—

"You know, it's swell of the folks at home to buy War Bonds the way they're doing. I understand everybody is going to be signed up for 10% of their pay

STRICTLY BUSINESS

by McFeatters

"Honest, Chief, I didn't know it was loaded!"

off of an ironing board striking his foot. Reports Thursday were that the swelling had gone out of the injured member and that he was better.

WITH OUR NEIGHBORS

Wink Bulletin—The War Department has announced award of a contract to Suggs Construction Co., of Big Spring, for buildings for low pressure chamber, postoffice building and wards, at the Pyote Army Air Base.

Cost of construction is between \$50,000 and \$99,999.

Fort Stockton Pioneer—Citizens of Fort Stockton were asked to lease their homes to the Federal Government to house in-coming war workers and their families.

The houses that are wanted are those which can be converted into extra family accommodations, located in sections within reasonable transportation distance of Pacific Air School Ltd., it was announced by Preston L. Wright, regional representative of the National Housing Agency.

The Guide Eagle Pass—Eagle Pass Food Products Ltd., a frozen foods plant, will open in Eagle Pass by the middle of February, it was announced today by Mr. J. M. Mabe, secretary of the Chamber of Commerce.

The company, which will employ approximately 120 people, will purchase vegetables grown in this territory, freeze, and pack them. Distribution of these frozen food products will be for

Army, Navy, and civilian use. The foods will carry the trade name, 'Eagle Pass Food Products.'

Val Verde County Herald—Doubt that the Del Rio Independent School District will be able to operate for a full nine months term next year was expressed by members of the school board following a meeting Wednesday night when members voted to increase the salaries of all teachers of the system in hopes of having them remain on for completion of the year's work.

Big Bend Sentinel, Marfa—A report Wednesday, which the Sentinel was unable to verify by telegraph yesterday, was to the effect that the H. B. Zachry Co. of San Antonio was the low bidder in Albuquerque, Wednesday, for additional Marfa AAF Advanced Flying School construction.

Hudspeth County News, Sierra Blanca—The biggest snow seen here in many years fell last Friday morning. Some of it stayed on for three days but most of it melted the second day. It was all off the paved highway by night Friday.

There was little wind and the snow did not drift much. It was five or six inches on the level. This is thought to be the biggest snowfall here since 1928.

Alpine Avalanche—Forty-two 18-year-old Brewster county youths registered for military service during the registration period Dec. 11-Dec. 31, it was announced at the local selective service board office this week.

THE EAGLE NEWS

EDITED BY STUDENTS OF THE SANDERSON HIGH SCHOOL

SEEING THE SENIORS

By Mickle Corder

M. G. Northcut Jr. was born in Texon, Texas, October 6, 1925. This quiet, blonde haired, and gray eyed boy has attended grammar and high school in Sanderson.

M. G.'s hobby is collecting books and which, in his leisure time, he reads. His favorite subject in school is history and his favorite movie star is Janet Blair. Maybe because she reminds him of that little blonde he goes with. The color M. G. likes best is blue. He likes potatoes in any form.

In his quiet way M. G. has made quite a place for himself in Sanderson High. He was president of the Junior class and Vice-President of the Auto-Club. He was Private First Class of the Military Club a member of the Safety Club, and played football one year. His favorite book is Northwest Passage, and he likes to hear the song "There is a Star Spangled Banner Waving Somewhere."

After graduation M. G. plans to go to college where he will begin to fulfill his ambition to be a successful rancher. I hope that M. G. does not have any early classes in college because he hates to get up early on cold mornings.

By Jan White

Betty Lou Frazier, another one of those loud mouth, but dignified seniors, was born in San Antonio, Texas on June 15, 1926.

Her grammar school education was obtained in San Antonio and Fort Worth. Her first two years of high school were spent in Fort Worth and her last two in "dear old Sanderson High." Betty Lou's ambition is to be an army nurse. She will probably be very successful as she seems to get along quite well with the army. Her hobby is saving hotel soaps and samples of goods. Any one who comes along with a good book will be overcome by her because her hobby is also reading. She also likes to meet people. Like most good Americans she loves Hamburgers and can eat almost as many as Wimpy. Her favorite color is blue. Unlike most girls, she likes Greer Garson instead of Victor Mature or some other handsome movie star. Her favorite book is "Little Women". As modern as Betty Lou is she likes "The Blue Danube Waltz" and just swoons every time she hears it. Betty's favorite subject in school is Chemistry, but when she is out of school she definitely likes the Army Air Corps. She plans to go in nurse's training at the Robert B. Green hospital in San Antonio when she graduates. She hates sophistication and vulgarity. Betty Lou was Vice-President of her Sophomore class. She is the secretary of the senior class. She is the president of the volley ball club and she participates in tennis occasionally. Last year she was the editor of

Clara Alice goes into a swoon everytime she thinks of a certain curly headed Senior.

There seems to be two people in this dear old high school with broken hearts. One's explainable, but Curtis, we can't understand what happened to you and Billie.

We hear Alonzo and Joan aren't speaking. Come on, kids, this is no time for stuff like that.

What could be the cause of that happy gleam in Margaret LaForge's eyes?

Dagger, does that wrist inconvenience you in any way when you have a date?

We overheard a teacher say that a captain wasn't what Miss Kinkler wanted for Christmas. Wonder what it was?

Maurine Cox is really causing lots of heart trouble by going steady. He's a pretty swell guy though, Maurine.

John Louis was wishing he was in Louisiana or something in Louisiana was here. Could be, boys and gals.

Before long it will be the month of valentines and singing hearts. Take heed, boys.

Bill Cochran is definitely not on the prowl again. The cat has caught her mouse.

Maurine Frazier, why must you fall for some guy who lives on a ranch?

This gas rationing 'hasn't seemed to cause much trouble. The boys just use it as an excuse for parking.

Well, chillun, it's almost time for the inevitable mid-term exams. Wonder what's going to become of us?

What two girls could murder Butch R.?????

Doyce Wells claims that he does not have a girl friend. Don't you know that is impossible, Doyce?

Maurine F. is surely proud of her sailor boy. Who wouldn't be? Who is that dashing Junior Romeo who is winning the Eighth Graders' hearts?

Snooper gets a big laugh out of a certain boy who just coos and coos in the faces of

the newspaper club and also a very attractive pep squad leader. She was a duchess in the Halloween Carnival this year. She was elected the girl with the best personality in all high school in the recent high school election.

BASKETBALL

Sanderson Eagles played games out of town. The first game which was won with a score of 20 to 18 with McCamey. The next game was with Crane. The team lost a very tight fought game with a score of 24 to 10.

The boys all played brand of ball. The game was very thrilling. It is a Class A school and State Meet last year. The team has three of them.

Miss Armenta, her car and Don Allen following boys made Bill Cochran, John LaForge, Joe Bean, Harold Frank Starling, Curtis Don Allen, Marshall Tom Holley, Butch McCamey, and David...

 History will be taught next

J. B. McDaniel

J. B. McDaniel who has
 visiting his daughter, Mrs.
 Holley, has returned to his
 in Dallas.

MAKING AMERICA STRONG

The soldiers' beloved jeep, able to do anything, anywhere, any time (except, perhaps, KP), has now been adapted for the air. Thus industry has come forth with the flying jeep, a new liaison plane for Army ground forces.

The flying jeep is a small, rugged, highly maneuverable plane designed to be the "eyes upstair" of the artillery, tank corps, cavalry, and infantry. It weighs only 2,100 pounds is 24 feet long, has a 34 foot wing span, and is powered by a 190-horsepower engine.

Like its first cousin jeep on the ground, the flying jeep goes wherever the ground troops go—operating from cow pastures, highways, or other improvised landing fields. It can land or take off after an unusually short run and can climb at a sharp angle to clear trees or other obstructions.

Manned by a pilot and observer, with radio equipment for ground and other plane communications, the sky jeep can maintain the exceptionally low speed of less than 45 m. p. h. while directing artillery fire or movement of tanks or troops. Relatively little gasoline and service work are needed for the flying jeep—a boon on battlefronts where supplies are a serious problem.

Fuselage of the flying jeep is made of welded steel tubing, but wings and tail surfaces are of wood, according to a revision of original plans which saves 20 per cent of the steel and 70 per cent of the aluminum originally called for.

To absorb landing shocks on rough terrain, the stroke of the spring-and-oil shock absorbers has been lengthened to approximately double that of conventional types.

SCHEDULE CHANGES

The Eighth Grade Reading and Writing class for Section One will be taught by Miss Brieger at the Fifth Period.

Home Eco. I will meet on Mondays and Wednesdays from 12:45 to 2:45 and on Tuesdays, Thursdays and Fridays from 12:45 to 1:45.

Home Eco. II will meet on Mondays, Wednesdays, and Fridays from 2:45 to 3:45 and on Tuesdays and Thursdays from 1:45 to 3:45. This change has

been made to increase the hours for the Homemaking students.

Texas History will be offered by the History Department.

Basic Mathematics will be offered by the Math Department for the first time. This is a new course designed to meet the needs of boys to be inducted into the armed forces and at the same time give a review and add strength to the fundamentals of all branches of mathematics. The course will be taught in so far as possible, from a practical point of view.

PICNIC-HIKE

Last Friday afternoon a peppy group of students and teachers, armed with picnic lunches, climbed the S. H. S. hill south of town. Any strange yells and cries heard about that time can be explained by the fact that Miss Knight simply refused to use the regular path off the hill. Those enjoying the outing were: Misses Knight, Brieger, Kinkler, Mrs. Holley, Clara Alice Bell, Billie Babb, Jean Anderson, Margaret Pierson, Ruth Bendele, Jeanette Cobb, and Mary Nell Gates.

Plans were discussed to make a hike on Friday afternoon a permanent affair. All teachers and girls that are interested should watch for notices to that effect.

ENGLISH III CLASSES

The students in English III have been having class discussions. The first subject was "The Services of Uncle Sam". The leader for the day was Jay Tom Holley. Each day a new leader was elected by popular vote.

The subject for the second discussion was "Movies". John Lewis Whistler was leader for the day. The third subject was "Radio Programs That We Enjoy". David Duke lead the discussion for that day.

Arthur Calk

Arthur Calk was welcomed back to dear ole S. H. S. this week. Arthur has been in school in Woodsboro since leaving Sanderson.

Bill Cargile

Bill Cargile is home from A. & M. He is waiting for his call into the Naval Air Corps.

The Kerr children

The Kerr children took their mother, Mrs. Joe Kerr, to El Paso last Friday where she was forced to stay for dental treatment. She will be home later this week.

"GREMLINS AGAIN"

It seems that those tiny little dwarf-like creatures called Gremlins are everywhere. They are in the schoolroom now. Noticed especially during a test.

These Gremlins

These Gremlins are in England bothering R. A. F. pilots. They are in the South Pacific bothering our pilots there. Here in America they've done their worst damage to photographers, destroying some of their best equipment.

And now they're here

And now they're here in classrooms, bothering school students during a test. They'll give you headaches, stomachaches, and earaches; put mist in your eyes, and bother your memory. In fact they're just an all-around nuisance.

Don Frazor

Kenneth Litton is home on a furlough from San Diego, Calif., where he is stationed.

Buck Private

Buck Private: "Ugh! That Sergeant sure is an ugly-looking brute!"

Corporal

Corporal: "If you think he's ugly now, wait until you see him with his gas mask off."

Lamar School Notes

ENROLLMENT AND SCHOOL ATTENDANCE

Lamar Ward School has the largest enrollment of any school in Terrell County. The enrollment as shown at the close of the first and fourth months by grades is shown below:

Grade	Sept.	Dec.
1A	59	56
1B	59	44
2nd	38	38
3rd	41	40
4th	32	31
5th	40	44
6th	31	31
7th	17	17

While we may boast of the size of the school, we cannot boast about the attendance record. The percentage of attendance for the first and fourth months is shown below:

Grade	Sept.	Dec.
1A	93	86
1B	91	89
2nd	96	87
3rd	97	85
4th	90	83
5th	94	83
6th	94	83
7th	95	87

SEVENTH GRADE NEWS

This month three girls from the Seventh Grade with drew from school. The girls were Delia Alaniz, Santos Valle and Tomasa Lopez.

NEW STUDENTS

A number of new students have enrolled. Andrew Ochoa came from the Hawthorn School

What You Buy With WAR BONDS

The 50-caliber Browning machine gun is one of the most efficient short range weapons used by U. S. Fighting forces. It is effective at ranges up to 2,000 yards and fires about 600 forty-five caliber bullets per minute.

BUY WAR BONDS

There are four new students in the 1A class. They are Refugio Romo, who came from a ranch and Joel Saldivar who came from the State of Zacatecas Mexico. Maria Hernandez and Maria Luna have been in town but entered school for the first time.

Usher

Usher: "How far down do you wish to sit, lady?"

Lady: "All the way, of course."

Opportunity!

The Navy needs women to be trained for specialized jobs. You may be just the one to release a man for sea duty.

Washington Office Of Censorship Warns Citizens

On battle fronts every day men risk their lives to discover the location and strength of the military units of the enemy. Yet at home, too many of us are preventing the enemy with information of the same military value, the Office of Censorship says in a statement.

This is the information which newspapers and individuals are asked not to tell the enemy:

Do not tell the names of ships upon which sailors serve.

Do not tell the troop units in which soldiers serve overseas.

There is no objection to revealing that Pvt. Jones is in Australia or that Seaman Tom Brown saw action in the Atlantic but there is military information which endangers the lives of American fighting men in stating that Pvt. John Jones, "Company C, 600th Infantry," is in Australia, or Seaman Tom Brown, "Aboard the U. S. S. Wisconsin," is in the Atlantic.

The Office of Censorship says: "We ask editors not to publish these troop identifications, and we ask parents and relatives not to reveal them. Don't give the enemy anything that may lengthen the war!"

They Stop the Flow of Electricity When Something Is Wrong

The fuse is a safety valve for the electric system. If the correct size is used, a thin strip of soft metal under the glass will melt or "blow" whenever a short circuit or overload causes more electricity to flow through the wires than they can safely carry. The melted fuse link stops the flow of current before damage to the wiring in the walls can result.

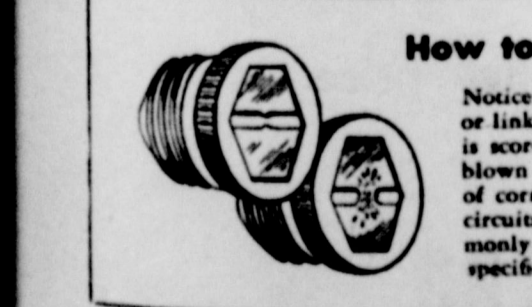

It's Easy to Replace Fuses

If you do not know how to replace a "blown" fuse, call us and we'll have a serviceman show you next

time he's in your vicinity.* It's almost as simple as replacing a light bulb and not only eliminates delay in restoring service, but also saves a trip for a service truck, thus conserving vital rubber.

Never Use Substitutes

Always keep a few spare fuses of correct size on hand, so you'll have them when needed. Never use pennies or other makeshift substitutes. They will not protect you and may cause a fire.

How to Locate a "Blown" Fuse

Notice thin metal strip under glass. If this strip or link has melted and shows a gap, or if glass is scorched and you cannot see link, fuse has blown and should be replaced with new fuse of correct size, usually 15 amperes for branch circuits. (Illustration shows type most commonly used. If your fuses are different, ask for specific instructions.)

COMMUNITY PUBLIC SERVICE CO.

*We can't make a special trip for this purpose because of the rubber shortage, but we'll answer your call as quickly as possible on a regular trip.

Your Income Tax

PERSONAL EXEMPTION

Every individual is allowed a credit against his net income which varies with his domestic status, that is, whether he is (a) a single person, (b) a married person living with husband or wife, or (c) a head of family. This credit is known as personal exemption, and is shown on line 21 of the return Form 1040. The amount of the personal exemption also varies depending upon the period during which the taxpayer occupied the particular exemption status.

The personal exemption for a single person is \$500 for the year; for a married person living with husband or wife, \$1200; and for a "head of family," \$1200. (Personal exemption as head of a family has no effect on liability to file a return) For Federal income tax purposes, widows, widowers, divorcees, and married persons separated by mutual consent, as well as persons who have never been married, are classed as single persons.

A head of family is defined as "an individual who actually supports and maintains in one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, and whose right to exercise family control and provide for those dependent individuals is based upon some moral or legal obligation." A single person, or a married person not living with husband or wife, may, therefore, enjoy a head of family exemption under certain conditions.

Taxpayers using a Simplified Return (which is permitted if

the gross income for the year is \$3000 or less and derived solely from earnings from employment and or from dividends, interest and annuities) obtain personal exemption based on their status as of July 1 of the year. Thus, a taxpayer married and living with husband or wife on July 1 is entitled to \$1200 personal exemption on Form 1040A; if he were a widower on July 1, his exemption would be \$500, irrespective of the date on which he became a widower. The amount of the exemption is not deductible from the income but is reflected in the amount of tax shown in the table on the reverse side of the form.

Taxpayers using return Form 1040 obtain personal exemption proportionate with the number of months during which the particular status is held. Thus, for a person who married on July 1, (who was not a head of family prior to his marriage) the personal exemptions would be \$850 (\$250 for the six months as a single man, plus \$600 for the six months as a married man). In this example it is assumed that the wife has no income.

Married persons may, however, file joint returns, even though one has no income, and by filing a joint return a couple married during the year may obtain an exemption amounting to the exemption to which they would be entitled for the period of married status, plus the amount of their individual exemptions prior to their marriage. In the example given the total exemption in a joint return would be \$1100 (\$250 for each spouse for six months plus \$600 for six months married status).

If a husband and wife living together both have income and file separate returns on Form 1040, the personal exemption applicable to a married person may be taken in the return of either or divided between them in any way as they may agree, but the total personal exemption taken in the two separate returns may not exceed \$1200.

HOME FRONT

(Continued from Page One)

yet free. On top of last year's record production, it is going to take a lot more to win the final victory and win the peace that will follow.

As President Roosevelt said, we must produce all we can of every essential farm product; we must divide our supplies wisely, and use them carefully. We can not afford to waste either our products or our agricultural energies; we must use both where they will do the most good.

Emphasizing all of these facts, Home Front developments in the last week centered around agriculture and agricultural products.

The Office of Price Administration froze corn prices at January 11 level to halt further sharp advances and averted the danger of a squeeze on hog production, thus checking the danger of an upward break-through on meat prices.

Inasmuch as the pork requirements are the greatest on re-

cord, the upward pressure on prices already had caused them to pass parity. The price control action benefited the consumers in addition to the producers.

A sore spot in the retail distribution of pork also was relieved when the OPA completely revised pricing methods for the slaughtered animal without increases to the consumer.

To help agriculture toward the 1943 goals, the War Production Board approved an increase in the production of repair parts for farm machinery and equipment.

The WPB and the Department of Agriculture also reached an agreement to streamline their relationships so that the food program can benefit. In general, the USDA will exercise full responsibility and control over the production and distribution of food, while the WPB will exercise similar authority over materials other than food and over facilities.

During the week the OPA brought under price control for the first time feeds used for poultry and livestock. Not only will this benefit poultry and livestock raisers, but the step was an important move towards lessening the pressure against price ceilings on such vital cost-of-living items as milk, butter, cheese, eggs and many meats.

Effective January 23, the new mixed feed ceilings will apply at producer, wholesale and retail levels. For producers, ceilings are established on present costs plus the individual producer's historical markup. For wholesalers and retailers, ceilings are determined by the addition of specified dollar mark-ups to list prices.

In the Southwestern OPA region, including the states of Texas, Oklahoma and Louisiana, the recent region-wide milk price order is important to agriculture. The order, setting specific monetary ceilings at wholesale and retail for milk in every community of the region, was intended to restore the balance of milk distribution and in many areas to restore market balance that would allow price adjustments to producers. This order was the first of its kind attempted by the OPA in the battle against the high cost of living.

To help meet the increased goals for meat, poultry and dairy products output this year and to relieve the farm labor shortage, WPB during the week partially lifted its ban on new electrical connections to permit short extensions of rural distribution lines.

The extensions will be approved only to operate specified farm production equipment, including water pumps for livestock, milking machines, milk coolers, incubators, brooders and feed grinders. To qualify for an extension, a farmer must receive certification from his local County War Board that the electrical connection will result in a substantial increase of production and a substantial saving of labor.

Here is a "V" for Victory which really carries a punch! Shown above by the Aeronautical Chamber of Commerce of America is a formation of forty Ryan PT-21 primary training planes such as are used at many U. S. Army Air Forces training centers to introduce embryo flyers to the intricacies of war-time aviation. The PT-21 is powered by a 132 h.p. Kinner aircooled motor.

To "Everybody" in Terrell County

It was with regret that I tendered resignation as County and District Clerk, but with a feeling of deep gratitude that I had been privileged to serve the people of Terrell County, for so many years.

Regretting that in the cessation of the duties of district and county clerk I would lose the close contact between my friends, yet feeling a deep gratitude because those friends have shown faith and confidence in me by electing me to fill the office term after term.

Mere words are inadequate to express the thanks which I give from the depth of my heart, and I would that it were possible for me to shake the hand of each and every one and tell you personally how I have enjoyed serving you and knowing that the service rendered met with your approval.

May I ask that the new incumbent, M. H. Goode Jr., receive the same consideration, cooperation and support that you have given me during the past 8 years, and may I add that with such support I am confident he will strive to give you an even better service.

STUMPIE DUKE

Mrs. E. C. Coupland of El Paso arrived here Tuesday to visit with relatives and friends.

William McPhee, son of Mrs. Marion G. Briggs, left Friday, today, for A. & M. where he will study engineering.
