...rs. Ele Hagelstein was pro- ...n leader and spoke on "How ... We Bear Our Burdens." Mrs. ...h Simon talked on "Futurama ...pace" and Mrs. Joe Clayton ...ught "Facts About the Peace ...ps." "Home Front Protection" ... discussed by Mrs. Hugh Child- ..., Jr., and members were furn- ...d with pamphlets from Civil ...enes on shelters and food stor- ...

...ther members present were ...es. T. J. Bailey, Chas. Black, ... N. D. Blackstone, James Chil- ...s, John Coates, L. B. Cox, III, ...e Jacoby, Brock Jones, Mar- ...ll Montgomery, P. C. Perner, ...T. Stokes, Paul Tucker and C. ...Walker.

JACK COX of Breckenridge, who ran a spirited race for Democratic nomination as governor last year, announced last week that he will seek the office on the Republican ticket in 1962. Cox was principal speaker at the recent convention of the Hill Country Firemen's Association held in Ozona. Mr. Cox spoke on Americanism at the meeting here, ignoring politics completely on that occasion.

Ozona B Squad Shows Improvement In Final 14-8 Loss To Big Lake

By Ernie Boyd

The Ozona High School B team closed out its 1961 schedule in Ozona last Thursday night by dropping its final game 14 to 8 to the Big Lake reserves.

Despite the game, the Ozona reserves gained some measure of satisfaction in forcing the Big Lake team to come from behind in the second half to edge them when earlier this season the Big Lake crew was able to win very easily over the then very inexperienced Lion reserves.

Ozona scored first in the second period when Dubbie Scrivner took a pass from Bryan Montgomery to end a 60-yard drive. Bernabe Villareal and Scrivner had punched the ball to the Owl 20 before the pass covered the remaining distance.

Big Lake was not able to move against the Ozona team in the first half but the running of Tommy Howard in the second half led the Owls to two touchdowns, one each in the third and fourth periods while the Ozona team bogged down and was not able to move.

The game was a far cry from the one in Big Lake which saw the Owl reserves outclass the Ozona team so badly that the 24 to 0 score did not begin to tell how badly the Ozona team was beaten.

Wildcat Spotted In Northwest Crockett Co.

Shell Oil Co. will drill the No. 1 Cowden and tSate, a 7,000-foot Devonian wildcat, in Crockett County, seven miles northwest of McCamey and 1⅜-miles northwest of the Tippett multipay field.

Location on a 164-6-acre lease, is 660 feet from the southwest lines of 24-36H&TC.

It is also 2¼ miles west-northwest of the firm's No. 1 Hill and State, opener and lone producer in the Tippett, North (Wolfcamp) filed, finaled Sept. 15 for 200 barrels of 42.8 gravity oil through a 10-64-inch choke and perforations between 6,224-221 feet. Originally slated for 7,000 feet to test the Fusselman, it was drilled to 6,650 feet and tested the Devonian unsuccessfully through perforations between 6,329-354 feet.

STOP. Don't Christmas shop until Dec. 8 — the Woman's League Bazaar. 33-5tc

TS&GRA Auxiliary To Stage Lamb Supper In Cafeteria Nov. 27

Crockett county women who are members of the Woman's Auxiliary of the Texas Sheep & Goat Raisers Association are planning a lamb buffet supper Monday, November 27, with a double purpose of promoting the serving of lamb dishes and to raise a $50 quota for the Auxiliary.

The lamb supper, featuring a half dozen or more ways of preparing the meat, will be held in the school cafeteria from 5:30 to 7 p. m. at $1 per plate. Each county group in the Auxiliary has been asked to raise $50 to replenish the Auxiliary treasury and to finance its various promotion projects. Tickets will be sold in advance of the supper. Customers may eat all they want, and the various lamb dishes will make for a "tasting" meal to illustrate what can be done with lamb.

The supper has been planned for the same night of the "Make It Yourself With Wool" contest in the school auditorium, starting at 7:30, the supper being timed to give everybody a chance to attend the contest.

A meeting of Crockett county women members of the Auxiliary has been called by Mrs. James Baggett, vice president of the organization, for 4 p. m. Wednesday, Nov. 15, at the home of Mrs. J. M. Baggett.

Norman Cash To Be Honored At Hall Of Fame Ceremonies Sat.

Kansas City, Mo. — Detroit Tiger first gaseman Norman Cash will be admitted to the NAIA's Hall of Fame at a special "day" in his honor at Alpine, Texas on Nov. 11.

Cash will be the fifth baseball player awarded this honor by the NAIA. Others are Lloyd and Paul Waner of East Central (Okla.) State College, George Altman of Tennessee A&I, and Jame s(Jim) Goff of Illinois State Normal University.

Cash, a graduate of Sul Ross State College at Alpine, won the league batting title with a .361 average, highest for a Tiger hitter since Charley Gehringer led the league with .371 in 1937. He also topped the league in hits with 193 and poled 41 home runs, an all-time record for left-handed Tiger batters.

The six foot, 190-pound first baseman graduated from Sul Ross State in 1955, and spent the next two seasons with Waterloo of the Three-I League, batting .334 in 1956. Following military service, he played at Indianapolis and with the Chicago White Sox, before being traded to Detroit on April 12, 1960.

Executive Secretary A. O. Duer of the NAIA will present the award plaque to Cash. "Norman Cash has been recommended to our awards committee as a student and athlete of the highest type while at Sul Ross State, and his play in professional baseball since then certainly makes him deserving of the NAIA's highest honor," said Duer in announcing the award.

oOo

Shallow Wildcat Set In Todd Field Area

Haynes & VT Drilling Co. Odessa, will drill the No. 1 Todd, a 1,500-foot cable tool wildcat, in Crockett County, 16 miles west-northwest of Ozona, and 1⅜-miles sou-h-southwest of shallow production in the Todd multipay field, but separated by a 1,840-foot failure.

Location is 330 feet from the south and 1,650 feet from the east lines of 34-WX-GC&SF.

oOo

FRUIT CAKES

Manor fruit cakes are being sold again this year by the Band Boosters. Cakes are priced at $8.25 for the 5 pound, $5.25 for the 3 pound and the 2 pound at $3.70. Cakes may be purchased from any member of the band boosters, or call Mrs. Bud Coates, Mrs. Ottist Pridemore, Mrs. J. B. Melton or Mrs. S. E. Carnes.

Eldorado Favored To Win Finale Of Season Fri. Night

Lions Will Be Seeking Win To Even Season Record

Coach Fred Hickman's 1961 Ozona Lion football team will close its season in Eldorado Friday night when it meets the big Eldorado Eagles in a game that could pull the Lions into a tie for second place should they win.

Eldorado will be heavily favored to down the Lions, however, and will most likely be looking for revenge for last year's 14 to 7 loss to the Lions that cost them the district title.

Eldorado will field a team made up of seven seniors including a number of all-district candidates both in the line and in the backfield.

The Eagles were picked early in the season to be one of the state's top 1-A teams but never have proven to be of that stature even though they have lost but one game, that to Sonora two weeks ago.

The Lions, fresh from an impressive win over Junction in Junction last Friday night, would like to end the season on a winning note and even up their district record at two wins and two losses.

Junction finished the season last week without a win and have last place cinched while the game this week between Sonora and Big Lake will either give the title outright to the Bronchos or else throw the district into a two or three way tie depending on the outcome of the Ozona-Eldorado contest.

Sonora will be heavily favored to win this week and take the title outright since the Owls, without Franklin, were not able to score on Eldorado and lost to that team 7 to 0.

The Lions will start some six or seven seniors this week and will have a total of nine last year men on the 22 man squad at kickoff time Friday.

Regulars playing their last game for the Purple and Gold are backs Phil Carnes and Carl Montgomery and linemen Hal Long, Gary Studdard, Darrell Rasberry, Frank Childress and Charles Bingham.

Senior reserves who will also be suiting up for the last time include Tommy Everett and Bobby Tabb.

TO THE POISONER — OR THE WOULD-BE MURDERER

(Contributed)

I wonder if you profess to being a Christian? Can you answer to God for the heartbreak you cause? Can you enjoy the money you must earn by doing this when you think of the little children you could kill? Can you love little children?

The Bible says, "Verily I say unto you, inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

I beg you, stop before we grieve with some parents for their little child instead of for "just a dog" that some one loves.

Failure Of Parents To Send Children to School To Be Probed By PTA

The South Elementary P. T. A. held its reglular monthly meeting at the South Elementary School last Monday night with 37 members present for the business meeting.

A committee was named by the group to investigate reported failure of some parents to send their children to school and to report to the group later.

The committee was headed by Luis Martinez and was made up of both parents and teachers with an alternate goal of also seeing how many children, if any, have escaped being included on the county census rolls.

President Carmen Reina also appointed a group to purchase and distribute Christmas candy and fruit to the school children before the Christmas holidays begin next month.

The attendance banner was once again won by Mrs. Mary Moore's section of the third grade, marking the second month in which that group has won this year.

Following the business session coffee and cake or cookies were served to all those present.

oOo

Movement Launched to Invite Foreign Student To Visit Ozona Homes

An idea translated into action will bring at least three foreign students attending colleges and universities in the United States to Ozona for week-ends, holiday visits, etc. within the remaining months of the school year.

Private discussions of facts brought out in some literature of the Womna's Missionary Union of the First Baptist Church here led to the launching of a movement to get Ozonans to invite foreign students to their homes for holiday or week-end visits and three ladies of the society immediately volunteered and their invitations are on the way to some foreign students, Mrs. Ralph Simon, one of the prime movers in the undertaking reported this week.

Voluteering to invite students into their homes were Mrs. Buster Loudamy, Mrs. George Glynn and Mrs. Pleas Childress.

Available information indicates that there are 48,000 foreign students attending colleges and universities over here each year. Many of these students go home with a bad impression of America because, they say, the people are not friendly and evidence no interest in them.

"What a fine thing for world peace and understanding if enough of these students went back home singing the praises of America and Americans," Mrs. Simon said. "For that reason, we hope to interest as many as possible right here in our town to invite these students to their homes and to let them know that we are interested in them and to let them get to know us better."

The cooperation of all churches in the city and all organizations to bring the movement to the attention of everbody is sought by those now promoting it. Information is in their hands as to how to get in touch with any of the foreign students and those interested in inviting a student to their homes are asked to call the Stockman office or Mrs. Simon. Thanksgiving was suggested as a fine time to invite a student.

Mr. and Mrs. Early Baggett visited with relatives in Ft. Worth last week.

Dr. James, Baptist Editor, Evangelist In Sermon Series

Services Begin Sunday In Week-Long Revival Meet

Dr. E. S. James, the editor of "The Baptist Standard", will begin a series of services this Sunday at the First Baptist Church, Harry Trulove, pastor announced this week. Art Dodds, minister of church activities, will direct the music.

Mr. Dodds has been a member of the staff at First Baptist for the past three months. Previously he was engaged in evangelistic work in the Big Springs area. During college days at Texas Tech he was tenor soloist for the Tech chorus. He was Band Director at the O' Donnel High School and served as Music Director for the First Baptist Church of that community.

Dr. James has been the editor of the Baptist Standard since November 1954, He came to this place of service having realized a fruitful ministry in the pastorate. As editor he has been equally successful. His editorials are timely and tempered with conviction.

The Board of Directors of the paper recently said of him:

"Dr. James has been a voice of conscience for Texas Baptists. His deep sense of conviction, his courage to express those convictions, and his wholesome sense of fair play merit our admiration and respect . . . He has given a fair and honest presentation of both sides of every major issue facing Texas Baptists . . . Not every one has agreed with the editor in his convictions . . . The fact that some of his opinions have met vigorous opposition has served to stimulate reader interest."

Dr. James has been described as a true Christian gentleman as well as a courageous crusader for right.

Services wil be at 10 a. m. and 7:30 p. m. each day Monday thru Saturday. The regular schedule will be followed for the Sunday services. Everyone is cordially invited to attend.

Ozona Members Attend District Garden Clubs Meet at Brackettville

"Viva Las Flores" was the theme of the 8th District Garden Clubs convention meeting last week in Brackettville and attended by a large delegation of members of the Ozona Garden Club.

Convention sessions were at the Ft. Clark Guest Ranch with the Retama Garden Club of Brackettville the host club.

Monday night a chartered bus carried delegates and visitors to Piedras Negras, Mexico, for dinner and shopping. Tuesday morning was devoted to a board meeting and registration and coffee 8 to 9

At the general assembly, Mrs. Ray Colosky of Brackettville opened the meeting, Mrs. Bailey Post of Ozona gave the invocation and Mrs. O. D. Dooley of Brackettville the address of welcome. Response was by Mrs. Grady Bowdry of Stamford.

Mrs. H. B. Horn of Del Rio, district governor, introduced the convention speaker, Mrs. Chester Kilpatrick of San Antonio, president of the Texas Garden Clubs.

The convention delegates visited Alamo Village on the Shahan ranch and had luncheon in the banquet hall at Ft. Clark.

A program on proper nighttime lighting of gardens was enjoyed in the afternoon. Ozonans attending were Mrs. Joe Pierce, Jr., Mrs. Monroe Baggett, Mrs. Lloyd Sherrill, Mrs. Jess Marley, Mrs. Bailey Post and Mrs. Stephen Perner.

A CHILD MAY DIE

So far it's been only dogs to fall victim, but somewhere in Ozona is a potential child murderer, according to evidence so far collected by an Ozona householder, and from such evidence it might even be supposed that the fellow is trying to kill a child.

Poison, thrown into yards of Ozona homes, has resulted in the death of a number of pets, beloved of children and adults.

Any person who throws poison into another persons's yard, or anywhere else where a child might get to it is a potential child murderer, but according to reports here, poison has been scattered indiscriminately through the town in weiner sausages, in candy and even in bubble gum. Any one of these morsels would be eagerly devoured by almost any child who happened to pick it up. And any one of the number found here would have been fatal.

The person guilty of menacing the lives of little children may feel smugly secure in anonymity now, but if a child should die from the poison he is scattering, the search for him would be relentless and ultimately successful.

A lot of headache could be avoided now if this potential child murderer would but realize what his actions may lead to.

—oOo—

"Around the world, corrupt and Communist regimes are living off the fat of American billions that have been poured down the bottomless drain of idealism." — Winslow (Ariz.) Mail.

NO MORE TIME FOR WASTE

Driven by the need for a whole new arsenal of still undeveloped nuclear weapons, the Department of Defense and the Atomic Energy Commission have finally prevailed on the White House for what appears to be grudging permission to engage once more in essential atmospheric testing.

Such testing, by which the military is anxious to improve warheads for anti-missle missles, develop more powerful and lighter warheads for ballistic missiles, proof-test weapons already developed and study atomic radio jamming, may now be undertaken, President Kennedy announced, "when effective progress is not possible without such tests".

To have gained this authorization is a tremendous accomplishment — in view of the worldwide fallout terror the Russians have stirred up, and even though it makes our self-imposed three year moratorium look tragically foolish.

A chance to recover this fumble — if we still have it — is more than we deserve.

—oOo—

In Approving the Rusian Suggestion that the UN be moved to Berlin, Lucius Beebe, writing in The Territorial Enterprise of Virginia City, Nev., considers this "a major benefaction" to the West and winds up with this classic observation:

"And it's only a fundamental sanity precaution to get the rats off the premises before they die in the walls."

But, should the UN be murdered by Russia, or starve because we got tired of paying the bills, we'd still have a problem. What would we do with Adlai?

HIGHLIGHTS AND SIDELIGHTS From State Capitol

High Head Count — Enrollment in the 19 colleges and unversities operated by the state government rose sharply this year — about 11 per cent.

Total head count at the 19 schools this fall was 100,982. This compares with 91,960 a year ago and 52,568 only 10 years ago.

Addition of the University of Houston to the list of state-supported colleges in 1963 will give the state school total a big jump. Its 11,860 enrollment this fall makes it the second largest in the state, second only to the University of Texas' 20,396.

Texas Tech at Lubbock has become the third largest with 10,212 enrolled.

Colleges and universities which are not state-supported showed a smaller gain than the state schools — from 59,036 to 60,924. One factor in the change was the move of Midwestern University at Wichita Falls into the state-supported group.

Fastest-growing college is Arlington State. It had 1,318 students 10 years ago and now has 8,318 to rank fifth largest. Right behind is Texas A&M, which has 8,835 students this fall.

Nurse Program — Studies by the State Board of Vocational Nurse Examiners reveal that 24,613 vocational nurses have been licensed in Texas since 1951. Also 103 training schools now are in operation over the state. Examinations [illegible] October 20 and 21 resulted in licensing of 656 candidates.

It now takes one year in a vocational nurses school or two years in a professional nursing school to become eligible to take the board examinations.

Working on the Highways — as Highway Commission has $20,000,000 worth of work [illegible] staff to do to improve [illegible] 2,433 miles of primary highways.

List includes 370 projects in 156 counties, and ranges from pavement and bridge-widening to complete reconstruction.

Highway workers are getting some new training, too. They will be taught how to detect radioactive contamination, so traffic can be routed away from unsafe areas in case of a nuclear attack.

plenty of eager hands

Ozona's final tally came late in te fouth period when Junction attempted to make a first down from their own 34 and failed. The Lions ran two plays and then Carnes found Long all by himself along the east side line around the Junction 15 yard line and passed for the score.

Another Lion marker was recalled back in the third period when Pete Montgomery sprinted 73 yards for a score only to have it rubbed out by a backfield-in-motion penalty.

Carnes passed 21 times and completed 14 for a season high and Pete Montgomery found much of his old form in rushing for 68 yards to lead all the Lion runners. Carl Montgomery had 66 yards and Carnes 48 for the Lions while Junction's top ground gainer, Roy Modgling, had a net of 38 yards to lead his club.

The game was the final one of the season for the Junction club which finished last in 8-A. The game was also Junction's last game as a member of 8-A for at least two years as it was notified Monday that it had been accepted in 29-A for the next two years.

DON'T SATISFY YOURSELF WITH THE GRAINS OF TRUTH NEAR YOU

Are you aware of happenings in the world today, both here in America and abroad? Or are you like the proverbial ostrich who head in the earth, thinks the sand covering him to be the most important thing extant? How high is your "Current events?" Soviet Russia, Viet Nam, Red China, the "hot-spots" of the world, are they just idle names to you, learned once for a geography examination in the eighth grade and then forgotten.

Perhaps you actually try to take note occasionally, but the manner in which important news is presented to you, you find objectionable. For instance, suppose, you are listening to the radio and the disc jockey is playing Melvis Chesney's latest hit. Precisely in the middle of the hit, some rude fiend named Ron Thompson barges through and announces importantly: "Late news flash,! Nikita Khrushchev has stated definitely that Russia will explode its 50-megaton bomb this week against world-wide protest!" Instead of instantly taking heed of such an important and frightful event, you become enraged at this interruption of the cultural Chesney-melody, and in lieu of hating Khrushchev, you begin to hate Ron Thompson, and forget all about Krush and 50-megaton bomb.

Such an incident may well be your reason for ignoring news via radio, but what about television, magazines, the newspapers? Within easy reach are numerous sources of news, probably the best of which are newspapers, for with this news media one can digest current events at leisure and thereby gain a more complete knowledge of happenings, both world-wide and local, for news of the latter type is important also.

Students, awake and become aware! Current events, and news therof, are important. Don't be guilty of seeking the ostrich's defense, the security of the sands around him.

SENIOR FOOTBALLERS VIEW SEASON RECORD WITH MIXED EMOTIONS

The senior boys on the Ozona Lions football team were interviewed this week concerning their views on the season as a whole and their last game — Eldorado!

They expressed many views that varied from school spirit to team work, to the coaches.

The comments from the boys were as follows:

Darrell Rasberry — "I would like to have won more games. I have enjoyed the season except for the losses. I have enjoyed working with the coaches. I have no comment on the Eldorado game except that we're going to win!"

Frank Childress — "We didn't win a whole lot, but we learned many things from our experiences. We worked hard! We may have lost in the past — but in the future — Beat Eldorado!

Gary Studdard — "Its been too short and we had too many losses. It was fun and I've gained a lot of experience. I just wish we could have won more for O. H. S. this year. I've really enjoyed playing under our coaches and I'm sure the whole team appreciated the spirit and work of the school, cheerleaders, and twirlers. Eldorado? Same as Junction!

Carl Montgomery — "I believe as a whole we had a season better than expected but I believe we could have had a better season. If the football boys are willing to work hard for one more week, the last for the seniors, we will win" this one.

Bobby Tubb — "We've all had a lot of fun this year despite our record of wins and losses. Possibly we could have done better, and I'm sorry that we didn't. The coaches have worked hard this year. If everyone will get behind us we will wind this year up with a win.

Tommy Everett — "We're going to beat Eldorado. It would have been a good season if we had won more games.

Charlie Bingham — "Everybody did their best. We had a good ball club. Our only reason for losing was that the competition was too strong. Also, the spirit was poor, except for the Sonora game. We could stand a good chance of beating Eldorado if everyone backs us with school spirit like they did for Sonora.

Phillip Carnes — "We should have had a better season than we did, but with the lack of experience we had a hard road. If the whole team is ready for Eldorado and really wants to play ball we'll beat 'em."

Hal Long other Lion senior, declined to comment.

OZONA LODGE NO. 747

Regular meeting on 1st Monday of each month.

23 FFA MEMBERS COMPETE FOR DIST. LEADERSHIP HONOR

The Concho District Leadership Contest for FFA wil be held Monday in Eldorado.

This is the district contest. If our boys win here, they will go on to the area contest in Big Spring. If they win in Big Spring, they will go to the state contest in Huntsville.

They will compete in two divisions, junior and senior. In each division there are different teams.

The senior radio team is composed of Tommy Everett, Frank Childress and Bill Williams.

The members of the senior skill team are Tony Oehler, Joe Chapman, and Morgan Tolle.

Keith Mitchell, Paul Perner, Douglas Moore, Bryan Montgomery, Donnie Dunlap, James Brock Hoover, and Jimmy Smith are members of the senior chapter conducting team.

The junior skill team is Carey Pitts, Bob Caruthers, and Hugh Coates.

The junior chapter conducting team is made up of Scott Henderson, David Childress, Bobby Amthor, Rick Hagelstein, Aaron Shackleford, Moe Barbee, and Jimmy Semmler.

The junior FFA quiz will be made up of four boys from the junior chapter conducting team. These boys have not yet been chosen.

The schools competing with Ozona in district are Garden City, Sterling City, Robert Lee, Bronte, Wall, Lake View, San Angelo Central, and Eldorado.

STUDENT COUNCIL SELLS OZONA LIONS PENS

The Student Council members of OHS have been working to raise school spirit — and their own bank balance by selling gold ball point pens with Ozona Lions written on the side. Priced at $1.00.

THE LINES MAKE THE COLUMN

Last Saturday there were thirteen seniors who went to San Angelo to take American College Testing Program test. The ones who went were Johnny, Jay, Peggy, Marion, Carl, Leroy, Bill J., Beverly, Bill C., Charlotte, Billy W., Jan and Bobby.

Gary Studdard went to Big Lake Saturday to take an Air Force Academy test.

Robin went to Kingsville last week-end to visit Pam.

Glenda went to Tech to the homecoming game and to visit.

Vicki Carroll had a surprise Saturday night! Her mother gave her a surprise birthday party. Those attending were Marion, Kay, Sherry, Ora Mae, Marty, Charlotte an dKathy.

Pierce, Bob, Saundra, Jimmy Adams, and Mike Grover were the exes who were home visiting last week-end.

Patty, Herbie and Frieda Kay went to the Noelke's ranch near Sheffield last week-end.

Students thought they were entering an Eagle's roost when they came to school Friday but it was only all the signs and features the cheerleaders had made for the game that night.

Photographers at Large!! Leroy and Brad were taking pictures unexpectedly at the games Thursday night.

The Seniors received a ten dollar donation from Mr. Rusty Smith which was greatly appreciated.

The cheerleaders had a pep rally after the games Thursday night. The twirlers, pep band and junior high cheerleaders helped make it a success.

An all-new Ford . . .
right size . . . right price . . .
right between
Galaxie and Falcon

Some cars have new names...
this name will have a new car!

The name is familiar—the Ford Fairlane 500. The car itself is totally new—so new you'll see nothing else like it this year. It is one of Ford's milestone designs—and will be as influential in its way as the first mass-produced car (a Ford Model T), the first popular station wagon (a Ford Wagon), the first four-passenger luxury car (a Ford Thunderbird), the world's most successful compact (a Ford Falcon).

Right between Galaxie and Falcon in size and in price, the 1962 Ford Fairlane 500 is just the right car for just about everybody; you have never been able to buy anything so right before.

Big in room, ride and performance, it is still priced under most compacts. It nurses a nickel as though it never expected to see another. It moves like a rabbit on roller skates.

New unitized body a foot shorter outside . . . full-size inside

Ford engineers have changed the proportions of the automobile: a completely new unitized body gives you more room inside with less bulk outside. A foot shorter than previous Fairlanes, the new Fairlane 500 is pleasantly parkable, delightfully driveable, easily garageable. At the same time it packs into its neat and nifty 197 inches as much passenger room as you had in some of the biggest Fords ever built.

Twice-a-year maintenance

Service is reduced to a minimum—30,000 miles on many items, twice a year on the rest. You go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications. You don't have to touch the engine coolant antifreeze for two years—or 30,000 miles—at a time. Brakes adjust themselves.

All-new economy Eight from world's V-8 leader

The hand that honed the Thunderbird—and sped the Falcon to all-time Economy Run honors—turned to a new problem here, the world's first economy V-8. Made possible by new Ford foundry methods, the new Challenger V-8 is as strong as iron—and a lot lighter than irons ever been before. As lively as you'd like . . . thriftier than you'd expect a V-8 to be . . . it's a natural powerplant for America's first eat-your-cake-and-have-it car.

For those who want even greater thrift, there's a new Fairlane Six. Its economy would be gratifying in a smaller car. In a car this size it's a downright delight.

Preview America's newest car now

As part of Preview Run U.S.A., new Fairlane 500's are riding the nation's highways and main streets right now. Watch for them. See what thousands have already seen—and raved about. Take a turn at the wheel—and perhaps do a little raving yourself.

We think you'll agree: this all-new Ford is just right for just about everybody. No matter how many new cars you've looked at, you haven't seen anything like this one. It will be at your Ford Dealer's next week. If you miss it now, be sure to see it then.

JUST RIGHT FOR JUST ABOUT EVERYBODY!
FORD FAIRLANE 500
ONLY THE NAME'S THE SAME!

Notes From The County Agent's Office

By Pete W. Jacoby

The primary screwworm, Callitroga Hominovorax only occurs in the Western Hemisphere and has been a problem in Texas since the area was settled. During summer months the files spread to adjoining states. Localized outbreaks have occasionally occurred in the Central and North Central states from shipments of infested livestock. The limits of winter survival partially determine the areas or states infested from one year to another.

The area where screwworms usually overwinter in South Texas is approximately 50,000 square miles. The northern limits of the average overwintering area extends from Jeff Davis County eastward to Galveston County and comprises all or parts of 55 southern counties. Fluctuations in the winter temperature are responsible for variations in the size of the overwintering area. Therefore, the area is large during mild winters and small in severe winters. Screwworm flies are killed by freezing weather, but pupa can stand brief exposure to freezing temperatures. They are not able to develop when the soil temperature is under 60 degrees F and will die after exposure to such low temperatures for more than two months.

The true screwworm fly is bluish-green and has three dark stripes on its back, and a reddish-orange face. This fly is almost identical to one species of the common blow fly.

Female flies lay eggs in masses of 200 to 400 eggs glued to each other. One female may lay as many as 3,000 eggs; however, the average female only lives long enough to deposit one large egg mass and one or two smaller masses. The eggs hatch in 12 to 24 hours. The larva got its name, "screwworm" because of the rings of spines encircling its body, and its tapered shape that resembles a wood screw. Larvae usually feed with their head in a downward position with the blunt end exposed for breathing. By the time they are 4 days old they develop a pinkish color and the air tubes which are located at the blunt end of the body, show up as two straight black lines. These straight black lines, along with the pinkish color, distinguish the screwworm larva from larva of blow flies.

After 5 to 7 days the screwwoms drop to the ground and burrow into the soil to pupate. The pupal stage lasts 7 to 10 days, but may last several weeks when the weather is cool. After the pupal stage has been completed in the soil, the flies emerge from the old pupa case and work their way to the surface. During the first few days of the adult life, the flies visit animals to feed on wound fluids. They also take water, nectar and plant juices. Screwworm flies mate when they are 2 days old. Females mate only once during their lifetime, but the male will mate repeatedly. By the time the females are 5 to 6 days old, they seek wounded animals, on which to lay eggs. The average life cycle from egg to egg is about 21 days, but the length of development will vary with weather conditions. The life span of the adult fly is about two or three weeks.

TOMORROW IS THE TENTH!

YOU can decide whether you will have a good credit record or bad. It is up to You – the individual – to establish your own credit record. The merchant cannot do it for you, the Credit Bureau cannot do it for you – they only Keep the record – after it has been established by you. You make or break your good credit by your paying habits.

Have you properly established your pay habits? Do you always pay your bills promptly by the tenth? Have you made satisfactory arrangements with the merchants who have granted you the privilege of saying, "charge it"?

These are the only factors that determine the record kept by the Bureau whether good or bad.
This is just a reminder –

TOMORROW IS THE TENTH!

Engagement of Miss Jessie Ingham to Bill Conklin was announced at a bridge party given by Miss Ingham's mother, Mrs. B. B. Ingham, and her sister, Mrs. Alvin Harrell, in the Ingham home here.

Attack Warning System Would Utilize Electric Service Lines of Nation

West Texas Utilities Company is ready to participate in a country-wide warning system against enemy attack according to an announcement by Cal Young, WTU president.

After an extensive study of NEAR (National Emergency Alarm Repeater) proposed by the Office of Civil Defense, the Edison Electric Institute of which WTU is a member, has recommended support and participation in the project. Young said that a study shows "a warning system operating through transmission and distribution lines is a program in which our Company and the other investor-owned electric light and power companies can and should participate in the interest of national defense."

Young pointed out that the Institute in recommending participation characterized as a "very fair proposal" the statement made by Secretary of Defense Robert S. McNamara last August before the Military Operations Subcommittee of the House Committee on Government Operations. Secretary McNamara said, "If extensive system tests in Michigan prove successful, it is proposed to begin national installations of this warning system, which operates on electric impulses imposed on regular power lines. Federal funds would be used to cover the cost of the signal generators. The receiver (signals) would be sold to the general public."

The basis of the NEAR project is a proposal of the government to install high frequency generators at strategic locations in the various electric companies' transmission and distribution systems. Small alarm receivers which would be purchased by individuals would be plugged into any ordinary appliance outlet on the electric consumers premises. In case of atomic attack, the generators would send a high frequency impulse over the regular electric lines which would activate the alarm receiver in the customers' homes, offices, shops, etc. Young pointed out that this would in no way interfere with the usual electric service and that his Company would, under this proposal, offer the use of their transmission and distribution facilities without charge.
