Wildlife Rabies Up Warns C-City Vet

A warning of the increased incidence of rabies in wildlife, particularly in the southern part of this county has been issued by Dr. J. D. Williams, veterinarian.

The Texas Department of Public Health has confirmed several cases in wildlife and two cases in domestic animals, the veterinarian said.

"Livestock owners should be warned that this disease (rabies) can be passed from wildlife to livestock and any animal showing a disposition change should be carefully observed," Williams said.

"It is again time for the appearance of encephalomyelitis (sleeping sickness) in horses," the vet added to the rabies warning. "We have had

one case reported thus far from this West Texas area.

"Horse owners should vaccinate animals with a combined Eastern and Western strain vaccine," he advised.

Dr. Williams had this statement to offer about another program important to animal husbandrymen: "Screw worm eradication is progressing as of latest reports. Sending of samples for confirmation is of utmost importance.

"Several surrounding counties have had confirmed infestation and sterile flies have been discharged in the areas. Information on specimen shipment may be obtained from local vets or from Bud Logsdon, Mitchell County Agent.

PEGGY'S Paragraphs By PEGGY BELVIN

LONG LIVE THE SNEAKER!
This is becoming a phrase as oft-repeated as "Remember the Alamo!"
Of course, everyone knows that the sneaker is not an old fort, is not a patented medicine and is not a new atomic-powered missile.
But have pity on the poor soul who should dare to utter the words, "A sneaker is just a tennis shoe..." in front of teen-agers, that is.
Sneakers are a trademark. A status symbol of teen-agers.
PAST HIGH SCHOOL CROWDS have worn saddle oxfords or penny loafers. But today's teen-agers wear sneakers.
Shoe companies all over the country have tried to keep up with the mad rush for sneakers. They have been redesigned, refurbished and remodeled.
They come in colors, from bright reds and blues to pastel pinks and yellows.
They come in stripes, from big, bold red, white and blue to dainty pillow-ticking stripes.
They come in prints, from bandanna to paisleys.
They come in polka dots.
THEY EVEN COME in a kit complete with adhesive tape with which you can create your own design.
They come in denim, in velvet, in broadcloth and in ducking.
They come in sizes to fit feet big and little, narrow and wide, long and short.
But shoemakers did not consider teen-agers when they went to all the trouble to design these new sneakers.
A teen-ager would not be caught dead in anything but the old, plain white, lace-up sneaker.
Dirty, please, and without socks.
THEY WEAR THEM with bermuda shorts. With culottes. With jeans. With skirts and blouses. With dresses.
Am quite sure they wear them with white jackets and formals.
Am also quite sure they sleep in them.
But they are a symbol.
So, long live the Sneakers!

CONVERSATION CORNER

WOMAN writer named Taylor Caldwell comes now to tell all us little women how abused we are by men in America.

Mrs. Caldwell writes fascinating fiction. Her article in the newest Sat Eve Post isn't supposed to be fiction.

But truth is supposed to be stranger than fiction, and her revelations qualify.

MEN con us all over the place, she writes. Men expect us to work.

American husbands move cute little wives to suburbia, then turn them into family cooks, chauffeurs, budget-beaters, P. T. A. program-goers, super-market shoppers, laundry experts and mamas.

Added to all that, men push women out into the

money-making business world. For all that, the ungrateful masculine wretches are not even decently thankful. She sez.

WOMEN of oriental countries, Europe and even Russia have it better, the article holds.

Only in America do men expect their wives to stay young and sexy AND work themselves into a physical decline, she goes on.

Only in America do so many "labor-saving" devices keep women on the job 18 hours a day. **Women, arise!**

MEN do not have much choice in part of this mad era's scheme of things, as we see it.

Until some better way gets-thunk-up for raising babies, paying bills, having a home hearth and keeping the girlish figga, us pore little women don't have much choice, either.

Unless you want to count the choice of staying single as a lure for not being bothered with husband, kids, detergents and Little League.

WOMAN, once married, can of course simplify things a bit on her own.

We made the grade, personally, by such independent rules and regulations as these: send all laundry out, no matter what; sandwich suppers for summer, soup for winter, often; teach younguns to help; and tell the man every few minutes what a perfect jewel of a woman he managed to capture.

MEN are by nature the most gullible of all God's hapless creatures.

Tell a man often enough, loud enough, and long enough that he's a very lucky cuss, indeed, and he may even come to believe it, finally.

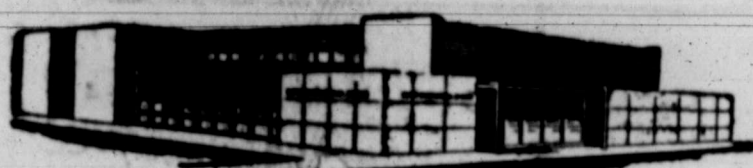

He may not "reverence" you as much as the average Chinese husband, say, but he may eventually concede that your lot is a hard one, his downtown job a bed of roses, and that he owes you a daily apology for having loved you, married you and made you into some very nice people's mother.

GUESTS last week-end in the Leslie Hamilton home, 1406 Elm St., were their daughters Margie and Emmie (Edna Maye) and their son Glynn Hamilton.

Margie, her husband Charles Hicks and their family live in Roswell, N. M.

Emmie and her husband James Gagnon live in New York City where he is an American Airlines executive and where she is to be assistant manager for the new Hilton Hotel in Rockefeller Center. Emmie, former airline stewardess, is also director of guest activities.

Glynn, his wife and family live near Lubbock where he's ranching.

RA 8-3600

This young lady's fetching headgear represents part of ONE BILLION DOLLARS nationally electric cooperative members will spend this year for appliances and other electric equipment.

In Texas, a staggering total of ONE HUNDRED MILLION DOLLARS will be spent for the same purpose.

In the 6 county area served by Lone Wolf Electric Cooperative these purchases will add up to more than \$700,000.

Who made these purchases possible?

Rural people who had no electricity, borrowed money at interest and built the Lone Wolf Electric Cooperative thus creating a portion of this fabulous appliance market.

Most anyone can tell you why Lone Wolf Electric has been good for its member-owners.

But the Main Street Merchant can give you ONE BILLION REASONS why the electric co-operative has been good for everybody.
