# Escape Try Feared In Prison Patients' Riot

SPRINGFIELD, Mo. (AP)—Rioting psychiatric patients seized five guards and took over a wing of the U. S. Medical Center here Monday night and an official said he feared it was part of a plan to escape the prison.

Sheriff Glenn Hendrix of Greene County said information from inside the prison indicated the convicts were trying to break through the wall on the north west corner of the "10 North" building.

Guards, state troopers, Springfield policemen and special guards from the Federal Prison at Leavenworth, Kan., formed three separate tight rings around the "10 North" wing of the Federal Prison system's General Hosp al today. The unit is known as the "country Club" because it resembles one from the outside.

Sheriff Hendrix said none of the prison authorities could get inside the building to actua'ly "see what was happening." He said they heard terrific pounding and sent men around the walls to see if they could detect exactly where a break through was trying to be made.

"The walls are about 36 inches thick and I just don't believe they have got the equipment to get through," the sheriff said.

Hendrix said it was his understanding the riot was led by "six or seven" convicts and that one of them, who is serving a 20-year sentence, was considered desperate.

Guards, state troopers and city policemen formed three separate rings around the "10 North" wing of the federal prison system's general hospital, known as the "country club" because it looks like one from the outside.

The officers, armed with riot guns and gas grenades, were spaced only 20 feet apart to guard against the possibility of a break.

But the officers made no move toward the wing. Dr. Russell O. Settle, warden of the center, ordered his staff to avoid provoking the rioters.

At 6:30 a.m., the inmates in "10 North" called the warden's office and demanded that food and coffee be sent to the wing.

The coffee and food was not sent over.

So far as is known, the rioting inmates do not have access to any food. The kitchen and dining hall are in another building.

The only outward sign of violence was broken glass smashed from windows on the west side of the wing. The rioters had covered the windows with blankets.

From time to time, spectators on a road a quarter of a mile from the building could hear shouts from the inside.

The "10 North" wing is a prison-type building with barred doors and windows and individual cells. It is divided into three wards, each housing about a third of the 106 inmates.

Homosexuals are in one ward, "young aggressives" in the second ward, and "older aggressives" in the third. All are neuro-psychiatric patients and they are among the most dangerous of the hospital's 1,046 inmates.

Of the center's inmate population, 259 are trusties. About 60 per cent of the 787 patients suffer mental illnesses.

None of the rioters has been identified by the warden.

One inmate was seen holding a knife to the back of a hostage. A rioter told the center's control room by telephone: "Don't try to come in here or your men will get hurt."

Another inmate said in a second call, "We mean business."

Questioned by Settle on what started the riot, the man said: "We have our demands almost ready but we will call you."

That was at 10:20 Monday night. Nothing since has been heard from the prisoners.

There has been no sound at all from the wing. There are no lights. The prisoners smashed the lights when the uprising began.

Only one newsman, Jim Billings, city editor of the Springfield Daily News, was allowed inside the center.

"There is no rioting in the general sense—no shouting and all that," Billings reported.

He said officials were "sitting around, sweating out" the riot and added: "There is not much anyone can do except sweat."

# Cloudburst Rain, Twisters Strike

By The Associated Press

Cloudburst rains fell northwest of Fort Worth early Tuesday, causing the derailment of a passenger train and flooding farmlands and highways.

A rain-weakened embankment gave way 13 miles southeast of Bowie. Five of the 12 cars of a northbound Denver and Fort Worth passenger train passing of the track were derailed.

Some of the 100 passengers on the train were shaken up but not otherwise injured. One crewman suffered a cut on his hand.

Almost 8 inches of rain had fallen in the Bowie area in the past two days. Between midnight and 1:30 a.m. Tuesday the area caught a 3½ inch downpour. A light rain continued in the area.

Streams left their banks and flooded farmlands and highways. U.S. Highway 81 between Bowie and Ringgold, State Highway 114 between Sunset and Chico and Farm to Market Road 1276 between Sunset and Bridgeport were closed.

Only one lane of U.S. 287 between Bowie and Henrietta was open to traffic.

Scattered thunderstorms put more rain on the ground from Amarillo south to Abilene and then north to the Red River. A few thunderstorms were reported as far south as Austin.

The new round of storms followed a day and night in which an 8-inch rain caused some flooding at Fort Worth and at least a dozen twisters skipped across West Texas.

Two deaths were blamed on the weather.

A twister damaged barns and outbuildings on farms west of Hale Center, in the South Plains, but the balance of the dozen twisters sighted in the Plainview-Lubbock area failed to do any damage.

A motor freight line storage building in Levelland had its roof blown off by strong winds.

Lubbock had a scare-producing near-miss from a twister that moved close enough to the city for civil defense sirens to be set off before it veered away.

Hailstones the size of hen eggs and a heavy wind and rainstorm lashed Lubbock after the twister disappeared.

At New Deal, north of Lubbock, hail covered the ground after a storm that disrupted power for an hour.

Littlefield had an odd combination of weather, as a dust storm moved in, followed by a heavy rainstorm.

Heavy crop damage was reported on the South Plains farms in the storm areas.

The storms left rains of up to two inches in their wake. A tornado alert covering a nine-county area in South Plains expired at 10 p.m.

An electrical storm knocked out power lines at Big Spring and touched off a fire that destroyed a dry cleaning plant. About half the city was plunged into darkness by the bolts.

Danny Caballero, a city worker in Wichita Falls, died when a station wagon carrying seven Wichita Falls men crashed into a parked truck near Seymour in Northwest Texas.

Marcelino Hernandez, 14, drowned in a rain-filled caliche pit north of Levelland.

Flood warnings were posted for Trinity River lowlands downstream from Fort Worth as waters receded from a cloudburst which hit that city Monday.

Up to eight inches of rain poured down in torrents which reached their peak in mid-morning and continued through the afternoon.

Families in the Westside Acres area below Lake Worth returned to their homes as surface water went down.

Streets and underpasses in the downtown area were closed for a time.

Terrell, Jacksonville and Marshall caught thundershowers Monday night as the storms moved on into East Texas.

THIRTIETH STREET NEARING COMPLETION—Machines are pictured above pouring asphalt and gravel on the extension of Thirtieth Street east of Avenue S yesterday afternoon. The new section of the street across Deep and Dry Run Creeks is nearing completion and will probably be opened today or later this week. (Lee Watson photograph)

# Good Showers Fall In Snyder Vicinity

Rainfall varying from a mist south of Fluvanna to more than 1.5 inches at Pasotex Pipe Line Camp nine miles north of Snyder fell last night.

Almost all areas of Scurry County received some moisture and strong winds accompanied some of the downfall.

At Gail, the rainfall was gauged at .6. Snyder had .61 of an inch, while the gauge read two inches at Vincent, 25 miles southwest of Snyder. Northwest of Gail the rainfall was measured at about one inch.

At the Herman Richburg farm near Hermleigh the rainfall was between one-quarter and one-half inch, with strong winds.

At the Dee Pylant place south of Fluvanna, only a mist was noted, while Charlie Eastman, 12 miles northwest of Snyder received one inch.

The gauge showed .75 inches of rainfall at the Aubrey Huddleston place at Knapp. Fred Gray, east of Snyder, received .6 of an inch. Roy Costin at Hermleigh received .4 inches, and Darrell Sims at Lloyd Mountain received a half inch. A light shower was recorded at Fluvanna, and Ira received .4.

Lake J. B. Thomas had not shown any rise except from the one and one-half inches of rain which actually fell on the lake and ran in from the immediate shore area. The water level in the lake this morning stood at 2,251.50, having risen from 2,251.24 with the rain, but without any flow from the Colorado River.

Polar, 15 miles northwest of Snyder, received 1.5 inches. Some of the Ira area recorded over an inch of rainfall.

## Argentina - Crisis Is Near Climax

BUENOS AIRES, Argentina (AP) — Argentina's government crisis appeared near a climax today as a move grew among military leaders to oust President Arturo Frondizi despite his Cabinet's resignation.

Tension was heightened by Frondizi's refusal to accept the resignations of his three armed services secretaries, chief targets of the rebellious officers.

Open threats were voiced against Frondizi's regime by his military opponents. They reportedly feel they are strong enough to force out the embattled president unless he meets their demands for sweeping changes in his government and policies.

## Young Mother Killed In Explosion At Home

HOUSTON (AP) — A young mother was killed today in an explosion and fire at her home. Two children were rescued.

The body of Mrs. Patricia King, 22, was found in the garage of the frame home.

The family pastor, the Rev. Charles Harmon, rescued the children, Ray, 3, and Felicia, 2. Harmon said he heard the explosion from his nearby home.

Investigators said the explosion apparently was caused by a faulty water heater.

## Strike Halts Work At J&L Steel Plant

PITTSBURGH (AP) — A strike by 12,000 production workers brought near capacity operations to a halt late Monday night at the Pittsburgh works of Jones & Laughlin Steel Corp.

The plant's big battery of open hearth furnaces had been closed down 24 hours earlier by a labor dispute over incentive pay rates in that department. Picketing by open hearth workers brought production to a standstill.

Officials of J & L, the nation's fourth largest steel producing firm, said the open hearth dispute was a violation of the contract.

John Murray, director of United Steelworkers Dist. 16, charged the company violated the contract by cutting incentive rates without notifying the union.

David J. McDonald, president of the United Steelworkers, is a member of the striking local at Jones & Laughlin. Years ago he was employed at the plant as a clerk.

The big plant, located on both sides of the Monongahela River, had an annual ingot capacity of 3,300,000 tons of steel.

There was no immediate indication of any union-management negotiations to end the dispute. Murray had announced plans to meet with open hearth workers today to discuss their grievances.

The dispute comes at a time when representatives of the nation's basic steel producing industry and international officers of the USW are meeting in New York to work out a new labor contract.

The old contract, negotiated for three years in 1956, expires at midnight June 30. If agreement is not reached by then the union will be free to call a nationwide strike.

There was no indication the J&L dispute was linked with industry negotiations.

## $6 Million In Damage Suits Filed

SAN ANTONIO (AP) — John Milton Addison, charged with swindling more than a million dollars to promote a uranium ore purifier, has struck back with six million dollars in suits against critics a newspaper and officers.

Addison, 31, filed a four million dollar damage suit yesterday against state and local officials, charging they have gone outside the bounds of their duties to do him wrong.

Earlier, Addison named two Austin dentists who invested in his "Benson Upgrader" and the Dallas Morning News in damage suits totaling two million dollars.

The youthful promoter said he plans more suits in Federal Court, charging violation of his civil rights.

Named in the 4 million dollar suit yesterday are Homer Garrison Jr., chief of the Texas Department of Public Safety; Newt Humphries, chief of intelligence of the DPS; Connie Pogue, chief investigator for the district attorney here; Asst. Dist. Atty. Garland Weir; Harold Hall, administrative assistant to the district attorney; and Alfred Allee, captain of the Texas Rangers.

# Street Opening Set

Opening is expected sometime tomorrow morning of newly-constructed portions of Thirtieth Street and Avenue O here which include creek crossings.

Roy Dunlap, city manager, said the street opening had been planned for today but that rain held up final pavement shooting. That should be complete by sometime tomorrow morning if there is no more rain, however.

The Thirtieth Street-Avenue O opening was among improvement projects in a bond election passed by city taxpayers last December. The five blocks of new streets, which includes three bridges, plus the two blocks of Twenty-eighth Street opened across Deep Creek under the Avenue S bridge and including one low bridge, were all built at a cost of $88,000. The new portion of Twenty-eighth Street was opened about a month ago.

Dunlap said the total cost was considerably less than previous estimates. The difference in the cost and estimate was put into 27,000 square yards of seal coating of about 200 blocks on other city streets. The seal coating work is now underway.

The new section of Thirtieth Street opened and payed is from Avenue O to Avenue S and includes bridges across Deep Creek and Dry Run Creek, while the portion of Avenue O opened south one block to Thirtieth Street includes a bridge across Dry Run Creek.

The Roscoe, Snyder & Pacific Railway, which the new part of Thirtieth Street crosses, was today setting a new crossing signal light at the point where the street crosses its tracks.

The opening of Twenty-eighth and Thirtieth Streets across the creek doubled the number of east-west traffic arteries which cross the entire city. The other two are Twenty-fifth Street and Thirty-seventh Street, both of which have been carrying traffic.

Dunlap said city officials expect the same success with motorists' use of Thirtieth Street as on the new portion of Twenty-eighth Street. "A lot of people were surprised about the volume of traffic on Twenty-eighth Street," Dunlap said.

Snyder has had few through streets which cross the town in any direction. At the present time, only three streets run all the way across the city in a north-south direction. They are Avenue E, Avenue M and Avenue S.

## Tax Bills Clash In Committee Today

AUSTIN (AP) — Top tax bills of the second special session clash in the House Tax Committee late today.

"I'm going to insist that my bill be voted out immediately, not sent to subcommittee," said Rep. George Hinson of Mineola, author of the package plan backed by Gov. Price Daniel.

"They've heard Hinson's bill before. I don't see that they need to hear it again," said Rep. Frates Seeligson of San Antonio, a general sales tax advocate who has proposed a new package tax program.

Both tax bills carry a natural gas tax increase, which House members have indicated previously they want in any tax bill.

"There won't be any further delay of the Revenue and Taxation Committee because of any long explanations on my part," Hinson said today. "There is no reason these package tax plans could not have been voted out promptly to the floor like the appropriations bill. There is not a thing in my bill that has not been aired in both houses."

Neither Hinson nor Seeligson knew which bill would be considered first this afternoon.

Hinson's bill raises $183,170 in new revenue for the next biennium. It includes a 3 per cent severance beneficiary tax on natural gas, a revision of corporation franchise taxes including a permanent 25 cent increase, a one cent cigarette tax increase, 85 cents a gallon increase on liquor, and a new 2½ million dollar tax on cigars and other tobacco products.

Seeligson's measure raises $184,345,000 for the biennium. It includes a one per cent severance beneficiary tax, a new 2 per cent luxury sales and use tax on sales over $50, a two cents increase in the cigarette tax, a new $9,300,000 cigar and tobacco products tax, a 28 cents a gallon increase on liquor and revision of corporation franchise tax rates but no permanent general increase.

## Long Takes His Case To Court Again

BATON ROUGE, La. (AP) — Gov. Earl K. Long, still fighting confinement in a mental institution, turned to the courts again Monday night to plead for freedom.

The hot-tempered chief executive seeks his release on grounds he is sane and was committed through fraud. It is his second court bid in less than a month to get back to state power.

Through counsel, the 63-year-old governor asked the state's 22nd Judicial Court to approve his petition for a writ of habeas corpus. Judge Robert Jones responded by setting a hearing for 10 a.m. Friday.

Attorney Joe Arthur Sims based his petition for the writ on grounds the papers committing Long to the Southeast Louisiana Mental Hospital at Mandeville, La., were not filled out properly, and that even if they were, the commitment order was obtained through fraud.

Sims also contended Long has never been mentally ill, and even if he has, he has completely recovered.

## House Wheat Bill Okayed By Senate

WASHINGTON (AP) — In an unusual reversal, the Senate last night junked its own wheat bill and approved the House's version. Although Democratic leaders say it is the best program they can get, they concede it is a bill nobody wants.

The Senate acted by a 44-40 vote after the House had rejected a proposed compromise of the two bills.

President Eisenhower is almost certain to veto the new bill, because it would raise wheat supports from 75 per cent to 90 per cent of parity. It also would cut acreage allotments 25 per cent in an effort to stop overproduction of wheat.

Wheat is the main agricultural headache for the nation today. The government has bought more than three billion dollars of surplus wheat, enough to supply the country for 2½ years.

## Housing Bill Pends Action

WASHINGTON (AP) — A chopped-down housing bill distasteful to many Democrats and not at all certain of White House approval awaited final House action today.

The compromise $1,375,000,000 omnibus measure was approved late Monday by the Senate and was expected to clear the House today.

What will happen when it reaches President Eisenhower is a matter of speculation. The strong possibility of a veto was raised Monday when Housing Administrator Norman P. Mason said the bill would cost too much and is not in the interests of most Americans.

The 56-31 Se ate vote was well short of the two-thirds needed to override a veto. It also provided a smaller margin than the 60-28 vote by which the Senate earlier had passed a larger bill.

# School Board, Tax Agents In Budget Session Tonight

Tax representatives of major taxpaying oil companies will be on hand tonight for their annual informal hearing with the Snyder school board on the proposed school budget.

The school administration and board have been working for a number of weeks on the budget for the 1959-60 school year.

The formal budget hearing, held annually for the public, has not been set yet, but the budget must be accepted by the board by Aug. 20.

Date has been set for the session of the school tax equalization board, which will meet July 21. Members of that board are S. L. Terry, chairman, Joe York and C. A. Ramsey. There has been no change so far in the school tax valuation.

Tonight's meeting of the board with oil company tax men will be at 7:30 o'clock in the high school cafeteria.

The proposed budget for 1959-60 calls for a grand total of $2,672,182, or $121,887 more than the 1958-59 total of $2,550,295. The total includes $690,310 for debt service, or almost $20,000 more than the previous year's requirements for that expense.

Should that budget be adopted at the present valuation of $137 million, the tax rate would be $1.16 for local maintenance and 50½ cents for interest and sinking fund, or a total of $1.66½, compared to the previous year's $1.11 for local maintenance and 46½ cents for interest and sinking, which totaled $1.57½, a net increase of nine cents per $100 valuation.

Other receipts would include an estimated $40,000 balance from the previous year, $7,500 from federal funds for vocational education, $338,400 for per capita apportionment on 4,700 scholastics, $3,000 from county available funds, and $5,000 from miscellaneous receipts. The estimates show that the vocational education funds would be about $1,200 lower than the previous year, the per capita apportionment about $19,650 higher.

The local maintenance budget estimates call for $97,435 for administration, an increase of $2,525 over the previous year; $1,310,931 for salaries, an increase of $71,190; $97,297 for instructional supplies; an increase of $8,395; $150,131 for other school services, a decrease of $18,255; $194,065 for operation of plant, an increase of $40,644; $66,078 for maintenance of plant, a decrease of $3,330; $23,050 for fixed charges, an increase of $11,271; $1,600 for community services, an increase of $600; $600 for summer school and $150 for public adult education, both the same as the previous year; and $40,535 for capital outlay, an increase of $10,772.

## WEATHER

SNYDER TEMPERATURES: Monday's high 102, low 67, today's 7:30 a.m. reading 71. Precipitation .61.

East Texas: Partly cloudy and warm through Wednesday with widely scattered mostly afternoon and evening thundershowers.

South Central Texas: Partly cloudy and warm through Wednesday with isolated thundershowers.

North Central, Northwest and Southwest Texas: Considerable cloudiness with scattered showers and thunderstorms this afternoon and tonight, becoming more widely scattered Wednesday. No important temperature changes.

West Gulf: Southeast and south winds 12 to 22 m.p.h. and partly cloudy with scattered showers through Wednesday.

**BOY'S STATERS REPORT**—The six Scurry County high school juniors who went to the American Legion Boy's State in Austin two weeks ago are pictured above at the American Legion post here where they made a report on their trip last night. From left are Frank D. Stephenson, department sergeant-at-arms for the Texas Legion; Roy Harrison, chairman of the Boy's State committee of the Snyder post; Ronnie Beaver, Fluvanna; Roy Lashaway, Douglas Vice; Ronnie McGrew, Richard Robinson, Snyder; Mickey Winter, Hermleigh; and Sam Tibbetts, post commander. (Lee Watson photograph)

# Compromise Hopes Voiced In House

AUSTIN (AP) — More than 40 House members have voiced united hope a major tax bill compromise can be worked out, Rep. James Bates said today.

"The meeting last night was called by me," he said. "Don't let anybody blow up the figures—there were only 47 there. We invited 85, and I made it clear the governor had nothing to do with this meeting."

The Edinburg legislator said no definite agreements were made except "to work and see if a compromise can be worked out as the speaker is trying to do. But we reserved our choice to take another route if a compromise is not possible before the major tax bill reaches the floor."

Speaker Waggoner Carr talked again today with lawmakers from various factions. He said there was hope a major tax bill may reach the house for debate this week.

"You can call it a group definitely united against the type of tax bill the senate wants to pass," Rep. E. A. Leaverton of Evant said.

"And all want a severance tax on natural gas to make the pipeline companies pay."

Bates said the group may try a new oil-gas tax measure if a compromise fails to materialize.

Reps. Charles Hughes of Sherman, Robert Eckhardt of Houston and Malcolm McGregor of El Paso are sponsoring such a tax measure with some 30 others.

"It will place a graduated tax on natural gas, with higher rates on the lower price gas—most of which is piped out of state.

The measure also decreases the present 4.6 per cent production tax on oil to 4.60 of the state's 4,600 producers. They will pay only 4 per cent.

Eighty three producers' rates will remain the same, while 11 major companies—ranging from Humble to Seaboard—will pay up to 7.6 per cent. The rate increases with the amount of production.

Estimated revenue from the measure is 131 million dollars in 1960-61.

## Hagerty Recovering Following Surgery

WASHINGTON (AP) — White House press secretary James C. Hagerty is reported to be recovering satisfactorily after surgery for removal of an acutely inflamed appendix.

Hagerty, 50, was operated on Monday afternoon at Walter Reed Army Hospital.

Anne Wheaton, associate press secretary, said she had been advised by the doctors that Hagerty was in good condition and that there was no indication of any complications.

The doctors were said to believe Hagerty probably will be discharged from the hospital late this week.

The hospital said Hagerty will be charged a fee of $21 a day during his stay there. Secretary of the Army Wilber M. Brucker authorized his admission.

**Husbands! Wives! Get Pep, Vim; Feel Younger**

Does pep, vim, vigor seem worn out, exhausted by work, age, or overindulgence making you feel 40, 50, 60? Then try Ostrex Tonic Tablets. Contain iron for more pep, plus the high potency dose vitamin B1, a whole day dose Ostrex supplies as much as 16 ordinary vitamin B1 tablets. If you do not feel 5 lbs. better in 10 days, return empty package to get your money back. Get Ostrex today. Only $1.85. All druggists.

## Contella Is Commander Of Legion

Jack Contella, restaurant owner, was elected commander of the Snyder post of the American Legion last night to succeed Sam Tibbetts, commander for the past year.

To serve with Contella will be Hilton C. Lambert, first vice commander; J. Elmo Crowder, second vice commander; Noel Banks, adjutant; James Stewart, finance officer; and Lowell Prince, sergeant-at-arms.

The new officers will be installed and assume their new duties at the next meeting of the organization, to be held Monday night, July 6.

## Cole Tells About Trip To Europe

Rev. G. M. Cole, pastor of the First Baptist Church, addressed the Optimist Club at the weekly luncheon last night at Starr Restaurant.

Rev. Cole, who made a trip to Europe last February, told the Optimists about some of his experiences in his visit to Russia. The Baptist minister narrated some slides taken in Russia.

"In boarding a plane in England for his trip to Moscow, Rev. Cole said he was the only American aboard with the rest being Russian soldiers and civilians.

"I wasn't exactly scared but I did have a feeling of uneasiness during the trip over," Rev. Cole said, jokingly.

Rev. Cole said he was surprised at the freedom in Moscow which was in contrast to the propaganda that the country was ruled by the communists.

"I expected the police to watch my every step during my visit but no one ever bothered me as I took pictures and talked to people on the streets as I pleased."

One of the pictures Rev. Cole showed the Optimists was of the theater where Texas born Van Cliburn won fame as a pianist.

"Russians think Cliburn is one of the greatest persons in the world and they have invited him to return," Rev. Cole added.

Despite reports that Russia is a communistic nation, a very small minority of its population are members of the Communistic party, Rev. Cole said.

"Only 5½ million Russians out of a total population of 220,000,000 are actual members of the Communistic Party," Rev. Cole said.

Rev. Cole said there were 53 different religions in Moscow including the Baptist church which has 500,000 members.

## Kookie Byrnes Gets Kick From His Fans

By VIVIAN BROWN
AP Newsfeatures Writer

If you haven't been captivated by "Kookie" — Edward J. Byrnes — give the idea time. The handsome screen and television actor is just the type to wrap a young modern around his famous comb, and fan mail is one indication. He's got the mailman lugging 6,000 letters a week to his Hollywood home, even though rumor persists that Edd is conceited.

I asked him what he thought of that rumor.

"I, conceited?" he said, aghast. "I don't know how anyone could get that impression unless it's because part of my act on '77 Sunset Strip' involves combing my hair at frequent intervals. But that goes with the song, 'Kookie, Kookie, Lend Me Your Comb,' and most people get a kick out of it. That's why I do it. I try to be real and believable in whatever role I'm in."

The odd spelling of his name is just to be different, he says.

Edd was having his difficulties holding an ice bag to his swollen face, the result of an infected tooth, and trying to eat a lunch of scrambled eggs and bacon because he was starving, and worried that unless he got the swelling down Ricky Nelson would have to appear for him on the Pat Boon show that night.

"I get a real kick out of my fans," he says, obliging the waiter with another batch of autographs for the girls waiting outside the restaurant. He had signed them all the way from the ABC television studio where he had been rehearsing to the restaurant several blocks away.

"One reason I don't brush off my fans is because I used to be the same type myself. I wrote letters to Robert Mitchum and Kirk Douglas all the time."

Dieters will be interested to note that a tablespoon of sour cream contains about 29 calories, the same amount of mayonnaise contains about 92 calories. Summer vegetables and greens take well to seasoned sour cream—with a bit of lemon juice added for "stepped" up flavor.

Before I went off to summer camp four years ago, I had a number of jobs, working in a machine shop, in the Time and Life mail room, and as a roofer, and believe me that's a tough job."

But acting has its own set of miseries. Edd discovered on location in Arizona acting in a Western, "Yellowstone Kelly."

"That was really something. Westerns always look so picturesque, effortless and the acting looks so easy on the screen, but there we were up 8,000 feet and could scarcely breath, the wind blew the dust so hard you couldn't stay outdoors much, and I was sore from riding the horses.

I felt miserable and lost 10 pounds in a month.

Edd's family lives in New Jersey where he was born and he'll be going back this trip. He has a 24-year-old brother and a 16-year-old sister. His sister likes to show him off to her girl friends and he goes along with the fun.

He doesn't have a steady girl, but he has lots of dates, he says. I like girls with a sense of humor, who enjoy life but have a serious side." If he wanted to invite a young lady to his home overlooking the famous Sunset Strip for a record session, here's how he'd put the invitation to her:

"Let's make it to my pad and spin some sides."

## Enjoyable Time Reported By Young Snyder Ladies At Camp

Four Snyder girls are attending Heart O' the Hills Camp for junior girls during the first term. The camp is located 16 miles west of Kerrville in the beautiful Guadalupe River country, and utilizes the complete facilities of the luxurious air-conditioned Heart O' the Hills Inn.

Snyder girls attending are Lesa Bowden, daughter of Mr. and Mrs. Jack M. Bowden, 2312 Thirty-first Street; Carla Frances and Janeen Clements, daughters of Mr. and Mrs. N. R. Clements, 3005 Avenue U, and Marie Gray, daughter of Mr. and Mrs. Borden Gray of Snyder.

Activities offered at the camp include arts and crafts, archery, swimming and diving, canoeing, fishing, land sports, horseback riding, dramatics, twirling, campcraft, dance, roller skating, journalism and photography.

Mrs. Kitty Magee of Denton is camp director. It is owned and managed by Mr. and Mrs. Kenneth Poole.

## Bride-elect Honored At Silverton

SILVERTON, Tex. — Miss Elaine Stephens, bride-elect of Douglas Forbes, of Snyder, was honored with a miscellaneous bridal shower and tea in the home of Mrs. C. E. Anderson on June 6, from 3:30 until 5 p.m.

Mrs. Anderson received the guests and presented them to Miss Stephens, her mother, Mrs. Homer Stephens, the mother of the groom, Mrs. Charlotte Etgen, and the groom's sister, little Miss Martha Etgen.

The guests were registered by Miss Diane Fogerson.

The refreshment table was laid with a hand crocheted ecru cloth. A centerpiece of an arrangement of turquoise carnations and apricot streamers carried out the bride's chosen colors. Cookies and punch were served with cystal appointments.

Assisting at the refreshment table were Miss Carlye Monroe and Miss Susan Anderson.

Guests were escorted into the gift rooms which were presided over by Miss Karla Alexander, Mrs. James Alexander and Mrs. Joe Brannon.

Seventy guests registered during the calling hours. Out-of-town guests included Mrs. D. M. Cogdell, Sr. grandmother of the groom, of Snyder, Mrs. Charlotte Etgen and Marth of Snyder, Mrs. E. R. Lytle and Miss Darlene Lytle, of Morton, and Misses Nancy and Marland Brown, Tatum, New Mexico.

* * *

Miss Stephens was also honored with a "coke party" on June 11 in the home of Mrs. Clyde Lightsey. Co-hostesses were Mrs. James Ross Alexander and Mrs. Joe Brannon.

Twenty — four guests were registered during the afternoon.

## Snyder Women Attend Food Workshop At Lubbock

Members of the Snyder School Food Association recently attended a workshop at Tech, Lubbock for one week.

Those making the trip were: Mmes. Blanche Jennings, Pauline Lee, Evelyn Crawford, Ollie Bell Clement, Jodie West, Maxie McNew, Nola Fenter, Eunice Keller, Alice Lane, Ruby Sellars, Bonnie Caldwell, Mabel Griffith, Bonnie Lyons, Joyce Smith, Deane Pierce, Opal Spikes, Ora Ussery, Nan Allen and Eva Hutchins.

## Men Cook, Women Do The Cleaning

Women haven't had a chance to grill the hamburgers, say the experts, since men discovered they could achieve the status of "chief cook" by flourishing a long-handled fork and standing proudly over the backyard barbecue. Instead, women have been finding themselves "doing only the clean-up job."

Any woman knows this is all too true. The boom in sales of barbecue equipment only gives her more metal to clean after the master of the house has demonstrated his culinary technique.

The clean-up chore, however, need not take too much time, according to homemaking experts. A simple demonstration by the lady of the house of the ease with which the job can be accomplished might make the "chef" more inclined to handle the cleaning job as well. Storing your cleaning equipment near his barbecue tools, also serves as a gentle hint.

The economists recommend a pail, a sponge, a can of household cleanser and paper towels. Some steel wool also may be needed.

Scrape the grill with the paper towels, using steel wool for any hard crusting caused by the chef's having burned the meat.

Then moisten the sponge, sprinkle it with the cleanser and polish the grill. Since most barbecue metals are weather and rust-resistant, one polishing job should be sufficient.

Spray the grill with water from the garden hose. The cleanser rinses away completely, leaving no gritty film, so that drying is unnecessary.

Although boys may think it sissy, good grooming should be part of their daily routine. It's surprising how much clean, well-combed hair and clean hands and fingernails improve a young man's appearance. And from the hair and nails he is likely to progress to being neater in his dress, too.

## WOMEN'S CALENDAR

**TUESDAY**

Junior Girls Auxiliary of Green Hill Baptist Church to meet at church, 4 p.m.

**WEDNESDAY**

The Women's Society of Christian Service of the First Methodist Church will hold their general business meeting in fellowship hall 9:30 a.m. Berean Circle will have charge of program.

**FRIDAY**

Ira Home Demostration Club meets at 2 p.m. at Ira Community Center. Mrs. Howard Sterling will give a book review titled "Where Did You Go — Out", What Did You Do" Nothing.

## Bride-elect Honored With Shower

Miss Pauline Grantham, bride-elect of Alvin Wimmer, was honored with a bridal shower recently at Hermleigh.

Hostesses for the event were, Mrs. O. B. Darden, Mrs. R. J. Kubena, Mrs. Frank Schulze, Mrs. Bert Stahl, Mrs. E. L. Vandiver and Mrs. Bill Wimmer.

Guest were received by Mrs. Alfonse Wimmer, mother of the prospective groom, Mrs. Harvey Grantham, sister-in-law of the bride and the honoree.

A large bouquet of garden flowers in the bride-elect's chosen colors of pink and white, and a miniature bride and groom in an archway of greenery were the centerpieces.

Approximately 50 guests were served cake and punch.

Miss Patricia Kubena, assisted by Karen Schulze registered the guests.

Do not remove the cores from pears when you are baking the fruit whole in a sugar syrup. If the pears are to be halved before baking, remove the seeds with a round half-teaspoon measuring spoon.

## NEWS FROM DUNN

By ELWANDA STEWART

Mrs. Thomas Shelly of Colorado City and Mrs. Dale Cates of Snyder visited Mr. and Mrs. Mark Holmes Wednesday.

Mr. and Mrs. C. A. Moon of Cleveland recently visited with Mr. and Mrs. M. L. Lane and family.

Mr. and Mrs. Oscar Bowers and Mr. and Mrs. Charles Bowers and daughter of Pasadena spent the weekend with Mr. and Mrs. George Bowers.

Mr. John Pitner of Snyder, and Mrs. Grace Smith and son of Snyder, visited Mr. and Mrs. W. J. Fuller and children Friday.

Mrs. Otto May of Clairemont visited Mr. and Mrs. L. Z. Ashley and Mrs. Marcus Johnston, Wednesday.

Mrs. John Partain of Snyder visited Mr. and Mrs. Dewey Denson, recently.

Mrs. Ollie Richardson visited Mrs. Max von Roeder and children in Snyder Thursday.

Sherry Seaton of Albany spent the weekend visiting Renee Nail.

Mrs. Dildy Smith visited friends and relatives in Big Spring over the weekend. Recent guest of Mr. and Mrs. Smith included Mrs. Johnnie Wenkin and children of Hermleigh, Mrs. T. L. Sipes and Mr. and Mrs. Benny McChristian and family, Big Spring, and Mrs. George Cochran of Lamesa.

## NEWS FROM IRA

By AVA MORAN

Guin and Denny Mosley of Houston are visiting their grandparents, Mr. and Mrs. Ben Mosley and Doris Ellen this week.

Spud Williamson of Crane is spending this week with Mrs. Norene Chaney and boys.

Mr. and Mrs. E. M. Eades attended the Lankford reunion at Sweetwater last Sunday.

Visitors in the Ava Moran home recently were, Mr. and Mrs. James Stewart of Dunn, Mrs. John Whitmire and Tooter of Luther, and Mrs. T. L. Giffin, Lane and Gay of Vincent.

Mrs. Harold Lee Halloday is attending the Beauty School at Snyder.

Doris Haladay is spending this week with the Heward Franks family in Houston.

HOWLIN 'SHAME—Trixie really has something to howl about. That stubborn hen just won't let Trixie into the box to take care of her five puppies. The owner, Keith Kinkead, of New Market, Ind., says the hen refuses to sit on eggs any more and prefers to babysit with the pups. AP Wirephoto.

# Queen's Canadian Tour To Be Success

By RELMAN MORIN

QUEBEC (AP)—After a slow start, Queen Elizabeth's tour of Canada is beginning to assume the proportions of a major success.

The crowds are growing. There are more and more spontaneous signs of affection and enthusiasm as the Queen and Prince Philip sail up the St. Lawrence River aboard the royal yacht Britannia toward Canada's big cities.

Ancient Quebec, the only walled city in North America, is blazing with flags and decorations. The people are tingling with excitement over the possibility of catching a glimpse of the Queen wearing a diamond tiara and a regal gown for the state dinner the provincial government of Quebec is giving tonight.

Big, that's pageantry.

Perhaps more significant indications are two thousand workmen now in an aluminum factory at Arvida that expansion

Washington after hours, clapping and cheering as the Queen and her husband walk through the plant.

Virtually entire populations of small towns and cities in the northern part of Quebec province —Baggotville, Chicoutimi, Arvida —standing hours in pelting rain, to see the couple pass.

A housewife rushing to bring her washing from the clothesline as rain starts to fall, then forgetting it as police sirens signal the Queen's approach.

Members of the Queen's party are frankly relieved. They had been worried by what looked almost like apathy in the first days of the six-week royal tour of Canada.

For both Britain and Canada this trip has specific objectives. The Queen's purpose is to cement Commonwealth relations, firming up ties between Canada and Britain. The Canadians are using the to publicize their great indus

# Bombing Suspects Captured By Police

LOUISVILLE, Ky. (AP) — Two brothers who had been believed carrying homemade bombs were picked up by Jefferson County police today while heading for the home of relatives.

They were identified as James F. Hecker, 23, and Joseph S. Hecker, 17, both of St. Louis.

Police said they apprehended the pair after learning they were on their way to visit relatives at Fern Creek, just outside the city.

They declined to say whether the brothers were armed, but added they would be held for St. Louis authorities.

A third brother, Gerald, 20, was arrested Sunday in St. Louis after a bombing incident at the St. Louis Arena. A watchman had surprised them inside the big sports arena.

James Hecker was identified as a chemistry major at Washington University. Who had served with an Army demolition squad in Germany. Joseph recently graduated from high school.

St. Louis County and Webster Groves police said they heard rumors the brothers had rigged the bombs on themselves in a manner to explode after their arms were raised. St. Louis city police who questioned Gerald said they had no such report.

A bomb was tossed inside the arena office as the watchman was telephoning police. No one was injured.

## Chamber Highway Committee To Meet

The highway and safety committee of the Chamber of Commerce has scheduled a meeting for 3 p.m. tomorrow at the chamber of fice.

One of the items of business to be considered by the committee is a proposal by the Stonewall County commissioners court, seeking local support on a highway from Aspermont to Knox City and eventually making a route to Snyder on the same highway.

Clyde Hall is chairman of the committee.

## Strike Against N. J. Utility Has Ended

NEWARK, N.J. (AP)—A 39-day strike of maintenance men against New Jersey's biggest public utility is over.

Members of the International Brotherhood of Electrical Workers voted Monday night to accept a tentative settlement offered by the Public Service Electric & Gas Co., and a union spokesman said the strikers would be back at their jobs today.

The strike began May 14, when unionists rejected a 4.9% per cent wage increase. Although official figures were not available, a reliable source said the workers won a 5.34 per cent package increase. Between 5,400 and 5,600 workers were involved in the walkout.

## Marilyn Has Surgery

NEW YORK (AP)—Film star Marilyn Monroe underwent gynecological surgery today at Lenox Hill Hospital.

A hospital spokesman said her condition was excellent.

Miss Monroe is the wife of playwright Arthur Miller.

There was no immediate further explanation of the s[illegible]

# Top Movie Names Set For Fall TV

HOLLYWOOD (AP) — This fall will see the biggest invasion of television by top movie names in the history of the new medium.

With the 1959-60 season pretty well sewed up, the schedule of new shows indicates a stellar array. Stars who can still draw "big money" in films are turning to the series grind.

The lure is obvious: security. They need only observe the fortunes earned by Loretta Young, Jane Wyman, Lucille Ball, Dick Powell, David Niven and others who got into TV. The important factor is not the salaries, but ownership of the series. This can amount to an annuity.

Here are some of the newcomers:

Robert Taylor's "Detectives" ABC-Fri.: Taylor plays a captain of detectives in a typical American city.

"Jane Wyman Theater," CBS-Mon.: An anthology show with Miss Wyman as hostess and part-time star.

"Whispering Smith," NBC-Mon.: Audie Murphy stars as a detective in the first city police force in the West. Guy Mitchell plays his sidekick.

"The Deputy," NBC-Sat.: Henry Fonda appears with Allan Case, Wallace Ford and Betty Lou Keim in a Western adventure show.

"Wichita Town," NBC-Wed.: Joel McCrea plays the marshal with son Jody as his friend, a foreman on a frontier ranch.

"Goldie," CBS-Thurs.: Betty Hutton stars as a manicurist who is given the bequest of a fortune. And there may be more.

Other than gold, Colorado produces silver and sugar beets.

SEVEN BODIES FOUND

# Fire In Another European Hotel

STALHEIM, Norway (AP) — Fire raged before dawn today through the Stalheim resort hotel in which 130 Americans were staying. Seven bodies were found and six or seven persons were missing some hours after the blaze, a police spokesman said.

About 35 persons were injured either by the flames or by jumping from hotel windows.

The police spokesman said the missing persons may not have perished in the flames.

"The guests are now spread over a huge area," he said. "The situation is confused. It may take some time to clear it up."

Other guests in the hotel included 12 British, 4 Swedes and some Norwegians.

The 99-room hotel was reduced to ashes in two hours although all nearby communities sent firemen to help against the flames.

The seven dead were not immediately identified. They were believed to have been guests since hotel employes live in another building. One woman burned to death in her room. At least one patron perished jumping from a window, police said.

The fire was discovered at about 2 a.m. by Harris Caldwell, of Georgia.

"I woke because of roaring and snapping sounds," he said. "I ran out and saw the hotel burning.

"I ran down the corridor and screamed all I could, and continued down to the lobby where one of the hotel employes came running and helped to set the fire alarm working."

Witnesses said the blaze apparently began in one of the rooms. When it was over, only a concrete wing remained standing.

Mrs. B. Marrer of Los Angeles was among the Americans injured.

## Grandson Of Ike Starts Vacation

ESTES PARK, Colo. (AP) — The President's only grandson, David Eisenhower, 18, began today a five-week vacation at a ranch near this resort in Rocky Mountain National Park.

The ranch is operated by Jack Thompson, an uncle of David's mother, Mrs. John Eisenhower, [illegible] heart ailment.

## Ethel Barrymore's Body With Brothers

HOLLYWOOD (AP) — Ethel Barrymore's body rests today in a mausoleum crypt near those of her brothers John and Lionel.

Probably the smallest audience of her career—about 250—attended last rites Monday for the queen of the royal family of the American theater. Miss Barrymore, 79, died last Thursday of a heart ailment.

# SPORTS

## BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

WITH THE ARRIVAL of the Annual Coaching School Press Brochure we are reminded that football season isn't far away.

This year's coaching school will be held Aug. 2-7 in Fort Worth. As usual a record number of coaches are expected to be in attendance at this year's coaching clinic.

We don't know just how long it's going to go on but a record enrollment for the coaching school has been set each of the last five years.

In 1954 a record of 1,906 enrollment was set in the school which was held in Dallas that year. Then the next year it was at San Antonio and another record was set, 1,972.

The enrollment for the 1956 school held at Lubbock topped the 2,000 mark for the first time, 2,001.

But the size of the school continues to grow even more as 2,677 coaches registered in the school held at Dallas in 1957 with this record standing only a year as 2,820 coaches showed up for last year's clinic at Houston.

### Houston Tops In Grid Attendance

The biggest crowd for the All-Star football game held each year in connection with the school was also set last year with an attendance of 20,408.

Houston fans support the football game more than any other city which has hosted the gigantic coaching clinic. Houston owns both the first and second high marks for the all-star game.

Last year's crowd of 20,000 plus topped the previous high, 19,657, which was set in Houston in 1953.

Only three times in the 12 years the all-star game has been a part of the coaching school has the crowd fallen below the 10,000 mark. The smallest crowd for the game was 5,985 for the 1949 game at Beaumont. The second low was 7,920 at El Paso in 1947. The third time the crowd has been below 10,000 was in 1950 at Austin where 8,094 watched the game.

Lubbock holds the record for the top attendance for the all-star basketball game. A crowd of 5,936 witnessed the 1956 cage all-star game at Lubbock, the only time Lubbock has been the clinic hosts.

Only two other times has the cage game gone over the 5,000 mark in attendance. The 1957 game at Dallas drew 5,440 and last year's game at Houston drew 5,227.

### Press Row Grows, Too

Press row at the coaching school has more than doubled in the past decade.

Thirty-five sports scribes reported the goings on at the 1950 school at Austin. This figure has climbed steadily since with 76 scribes showing up for the 1955 school at San Antonio and 1957 school in Dallas. There were 70 tub-thumpers on hand at Houston last year and 72 at Lubbock in 1956.

It is believed that more copy is written at the coaching school each year than at any other single event in Texas.

Lubbock set still another record in attendance at the coaching school but it was broken the following year at Dallas. A total of 823 coaches' wives were registered at Lubbock in 1956, a record, but the school at Dallas the following year went 11 better with 834 spouses being on hand.

Yep, the Texas coaching school has grown into a tremendous thing and there doesn't appear to be an end to just how big it will get.

### Von Roeder, Rosser Ladies Day Winners

Opal von Roeder and Rachel Rosser were winners in the Ladies Day play Friday at the Snyder Country Club.

Mrs. Von Roeder won the "Event of the Day" with Mrs. Rosser carding low gross.

Left fielder John Burgwyn led the University of North Carolina batters with a .324 mark this this spring.

SIGNALS A MUST: Even if a pitcher throws only a fast ball he should have a signal for a wide or waste pitch when he is ahead of the batter. Ed Lopat shows the proper position for the catcher's signals.

*LOPAT ADVISES YOUNG HURLERS*

## Set Up Signs With Catcher

By ED LOPAT
Former Yankee Pitching Ace
Written for AP Newsfeatures

If you pitch you must have signals. Here are a few elementary signals you can set up with your catcher.

One finger can be for a fast ball, two fingers for a curve and three fingers for a change of pace pitch.

Some catchers like to hold a closed fist or an open hand instead of showing fingers for the pitch. Other catchers like the odds and evens method of showing fingers.

All finger or hand signals must be held close to the body inside the upper part of the thigh. And don't hold the finger too low or out near your knees where the opposition can see what you're doing.

But always remember, try not to cross up your catcher. If he calls for a fastball and you dish up the curve he may not be set for it. Crossing up a catcher can result in a broken finger.

If the catcher calls for a fastball and you feel inclined to throw a curve, shake the catcher off. If you do this, wait until he comes back with your signal. If you ever doubt the catcher's signal, ask for his signal a second time.

And if he doesn't answer your signal, motion him toward the mound. Go in and meet him halfway. A catcher's job is tough enough. Furthermore many a catcher can help a young pitcher become a good pitcher. Listen to his advice. He may know something.

### Patterson Wants To Be 'Good' Champion

CHATHAM, N.J. (AP) — Floyd Patterson may prove his right to greatness on the right to be called "a good champion" on Thursday night.

That's the avowed aim of the heavyweight champion and it may spell a lot of trouble for Ingemar Johansson when the two meet in their title bout at Yankee Stadium.

"He's like a restless panther," said Patterson's trainer, Dan Florio, after the champion finished his boxing drills with a vicious two-round workout Monday.

"I've never seen him so determined before," said Florio, who has been with Patterson ever since he turned pro after winning the Olympic 165-pound title. "He's on edge and he's getting meaner every day."

### Houston Takes Lead In NCAA Golf Meet

EUGENE, Ore. (AP) — The Southwest is out in front in the National Collegiate Golf Tournament today, an almost perennial condition.

Bob Pratt, of Houston University led the way in the opening round Monday with a 34-32-66, 5 under the par 37-34-71 for the Eugene Country Club Course. That shot his team well in front of the pack.

Houston has won the team title three consecutive years and the Southwest has captured it eight times in the last decade.

## Tiger Pennant Bid Stalled By Red Sox

The Von Roeder Red Sox erupted for five runs in the sixth inning last night to come from behind for an 8-5 victory over the Courthouse Tigers in a Pony League game.

The scheduled Graduate Pony League game between the Yankees and Braves was called because of rain with the Braves batting in top of the first inning and the score 0-0.

The Red Sox took a 1-0 lead after one inning but the Tigers moved ahead with a 4-run flurry in the second and led until the sixth-inning outbreak of the Red Sox.

It was 5-3 Tigers going into the bottom of the sixth when the Red Sox put together four hits, an error and walk for five runs and all 8-5 lead.

The Tigers threatened to catch up in top of the seventh when they scored twice to narrow the final margin to one run.

Catcher Stanley Baize struck the big blow in the Red Sox sixth with a three-run double that broke a 5-5 tie. The bases loaded double gave Baize 4 RBI's for the night. He singled home a run in the fifth for his fourth RBI.

Baize shared batting honors with Adam Romero who clubbed out three hits in four trips including a double.

The Tigers managed only four hits off Jimmy Wilson but five walks, a hit batsman, four stolen bases and two errors aided the Tiger scoring attack.

Bruce Brooks got two of the four Tiger hits.

The defeat dropped the Tigers to 1½ games behind league-leading Scurry Butane Dodgers who meet the A.B.C. Phillies tonight at 8:45. The Optimist Cats and Walter Hales Buffs will tangle in a Graduate Pony League game at 6:30.

The Balmoral racetrack in Chicago formerly was known as Lincoln Fields.

## Athletics Win LL Farm Tilt

The Athletes pounded out a 14-9 decision over the Indians in an American Little League Farm game last night.

Second game of the scheduled doubleheader was halted after three innings because of rain with the Yankees and White Sox tied at 5-5.

The Athletics went to work early on the Indians, piling up a 13-3 lead after two innings. The A's then stayed off a late threat by the Tribe to protect their lead.

Five Athletics shared batting honors with two hits apiece. They are Dee Martin, Jerry Jones, Roger Owens, Ricky Elkins and Charles Garrett.

Leading batsman of the game though, went to Ronnie Martin of the losing Indians. Martin had a perfect night at the plate, three for three, including a double.

STENGEL AND UMP GO AT IT THUMB AND FINGER—Yankee manager Casey Stengel argues with plate umpire John Flaherty during the fifth inning of the New York-Cleveland game. Casey argued that Vic Power took a full swing at the fourth pitch which Flaherty called a ball to make the count three and one. Casey asked to have the other umpires checked and Flaherty not only refused but sent Ol' Case to the clubhouse under the automatic ejection rule for arguing about ball and strike calls. (AP Wirephoto)

*BUT WHAT ABOUT TURLEY?*

## Mantle, Skowron Back In Groove

By The Associated Press

Mickey Mantle and Bill Skowron are beginning to look like Mickey Mantle and Bill Skowron again for the New York's defending world champion Yankees. But who would ever recognize Bob Turley?

The big right-hander, last year's top pitcher in the majors and the American League's top winner with a 21-7 record, failed to last again last night, almost blowing a five-run lead as Mantle and Skowron powered the Yankees to an 11-6 victory at Kansas City.

Mantle drove in six runs with his 18th and 17th homers and a triple. Skowron belted home a pair with his 14th homer. But it was Bobby Shantz, the stubby southpaw, who kept the A's from keeping pace, gaining a 2-2 record with five innings of two-hit, shutout relief.

It was the only game scheduled in the AL and put the fifth-place champs within three games of first and within a half game of Baltimore and Detroit, tied for third.

In the only National League games scheduled, second place San Francisco beat Pittsburgh 4-1, moving within a single game of idle Milwaukee, and Los Angeles defeated Philadelphia 6-2.

## LA's Koufax Misses Whiff Record By 1

By CHARLES MAHER
Associated Press Sports Writer

LOS ANGELES (AP) — When fans start yelling for fielders on their own team to drop fly balls, it's a pretty solid sign there's something mighty unusual afoot.

This was the situation in the ninth inning Monday night when Los Angeles lefthander Sandy Koufax tried—and twice just failed—to equal the 26-year-old modern National League strikeout record set by the great Dizzy Dean. Koufax wound up with 16 strikeouts, a record for a major league night game, as the Dodgers defeated Philadelphia 6-2.

The husky, handsome southpaw said later:

"I'd like to have had it. But I knew I didn't have much of a chance when I didn't get that first man (Joe Koppe) in the ninth.

"Any way, I'm just glad to win a ball game after such a lousy start this year. I'm glad to be here instead of pitching for Spokane or somebody."

After eight innings, Koufax was just one strikeout away from the record of 17 established by Dean in a game he pitched for St. Louis against Chicago in 1933.

"I knew I was pretty close when I went out to start the inning," Koufax said. "I heard somebody in the stands yell something about it.

"But I figured I had to get Koppe. (Richie) Ashburn was the next man and I knew I couldn't get him. I may have struck him out once in five years—and I'll probably do the same in the next five."

Koufax came awfully close. He got two strikes on Koppe—but Joe finally got his bat on the ball and flied to Don Demeter in center field. Then Koufax got two strikes on the seldom-fanned Ashburn—and Richie also flied to Demeter.

Some spectators were yelling for Demeter to drop the two flies, so Koufax would get an extra shot at the record.

The game ended when Dave Philley singled and was thrown out trying to stretch the hit into a double.

Philadelphia's starter, right-hander Jim Owens, fanned seven Dodgers in seven innings. And Humberto Robinson, who relieved Owens, got one more. The total of 24 equalled a big league record for strikeouts by both teams in one game. The record was set May 19, 1956, by Cleveland and Washington.

Koufax, now 4-1, has gone 60 innings this season and fanned 64 while walking 42. He gave up three walks Monday night.

### Fight Weather Okay

NEW YORK (AP)—Present indications are that the weather will be good for Thursday night's heavyweight championship fight between Floyd Patterson and Ingemar Johansson in Yankee Stadium.

## White Sox Take American LL Lead

The Trinity Methodist White Sox took over undisputed possession of first place in the American Little League race last night with a thrilling extra-inning 9-3 decision over the West Texas State Bank Athletics.

The game was all tied up at 3-3 after the regulation six innings with the Sox breaking loose for six runs in top of the seventh for the victory.

The scheduled National Little League game pitting the Giants and Cubs was called before it got started because of rain.

Roy Miller sent the White Sox-Athletic game into overtime when he belted a homerun leading off the fifth inning and tying the score at 3-3. Miller also got a double to go with his homer.

After the two clubs were forced to change pitchers for the extra inning because of the 6-inning per week pitching rule, the Sox immediately went to work on the Athletic reliefer for five hits and a walk plus and error for six big runs in the 7th.

Lino Felon, the White Sox reliefer, then blanked the Athletics in the seventh. Robert Foree, the White Sox starter, was credited with the win, however.

Mack Galyean led the White Sox attack with three-for-four including a double. Foree and Marvin Mayfield got two hits apiece for the Sox.

Getting two hits for the Athletics were Lewis Jones and Miller.

Last night's Sox victory broke a 3-way tie for the league lead between the Sox, Athletics and Von Roeder Indians. The Indians can tie the Sox for the lead with a victory over the Yankees tonight at 7. The Rotary Cardinals and Kiwanis Braves will clash in the National League game at 8:30.

You get the BIG comfort dividends in your 59 FORD...

Some cars' door openings aren't shaped to fit people! So you have to squirm and wiggle . . . make your body conform to the car when getting in and out.

NO SQUIRM

Doors in 59 Fords are wider—up to six inches wider—and door openings are contoured to fit you! You get in and out of a Ford with greater ease and comfort. The girls really like Ford's doors . . . for more graceful entries and exits.

To gain a low roof line some cars end up with higher floor, humps and thinly padded rear seats . . . a combination that's mighty rough on the middleman.

NO SQUEEZE

Fords have useable seating space for six big people. The driveshaft tunnel is lower and rear seats are deeply cushioned all the way across. This means more comfort for all passengers . . . especially for the man in the middle.

The squeezed-down, skimpy roofs of some cars aren't comfortable even for bare-headed riders. And they don't keep out excessive sunlight and glare.

NO SQUASH

See how much more head room Ford has. Even big six-footers sit up straight without touching the roof. And Ford's big roof protects all passengers, in both front and rear seats, against the discomforts of excessive glare and heat from the sun.

Greater comfort is only the beginning of the dividends you get in a Ford. You get the World's Most Beautifully Proportioned Car. You get a big dividend in Ford prices . . . the lowest of the best-selling three. And you get saving dividends that cut costs every mile you drive. See and Action Test a new Ford at your Ford Dealer's. See how you can go finer . . . with more comfort . . . for less . . . in a new Ford!

# Rockefeller Having Rough Time With Harness Race Czar

BY ARTHUR EVERETT

NEW YORK (AP) — Harness racing in New York state is a $40 million dollar a year industry. And the man who controls it is a tough lawyer and administrator, George P. Monaghan, a Democrat.

He has been state czar of the industry for 5½ years. Before that he was fire commissioner and then police commissioner of New York City.

Right now Monaghan is involved in a battle with Republican Gov. Nelson A. Rockefeller, who is after his scalp. As governor thus far and as a potential GOP candidate for president, Rockefeller has had things pretty much his own way. But Monaghan doesn't scare easily and so far Rockefeller has gotten no place with him. The governor asked him to resign. Monaghan refused.

The State Investigation Commission has charged Monaghan with accepting favors from the harness tracks he is sworn to regulate in violation of the state's code of ethics. Monaghan has boycotted public hearings in which the charges have been aired.

On Dec. 21, 1953, Republican Gov. Thomas E. Dewey, under whom Democrat Monaghan served in the Manhattan district attorney's office in the 1930's, named him $20,000 a year czar of harness racing.

Trot tracks in New York state had just been exposed as a gold mine for greedy labor racketeers. Some Republican state politicians were involved. Dewey was not personally involved but the many ramifications cost him his lieutenant governor and a GOP national committeeman, both of whom resigned.

Into this mess strode Monaghan, cocky, tough as always.

He fought with the Standardbred Owners Assn. and suspended its president for a year over a drivers strike at Yonkers Raceway. He took on the powerful U.S. Trotting Assn. and wrested from it the right to rule New York trot tracks as he saw fit.

On Jan. 22 there appeared the first cloud on Monaghan's horizon. It was an announcement that the Investigation Commission was looking into a 12 million dollar modernization of Yonkers Raceway, financed in part by state funds.

On April 29, Monaghan was called on the carpet before Rockefeller in Albany and asked to resign. The governor could not force Monaghan out since his six-year term runs to July 1, 1960, and the governor has no power of removal over him.

When the public hearing began May 28, Monaghan walked out of it on advice of his lawyer.

The investigation commission went ahead without him and put on record testimony intended to show that:

Monaghan and other harness commission officials freeloaded to the extent of $31,075 from 1956 through 1958 at Yonkers, Roosevelt and Monticello raceways, with the tracks picking up the tabs.

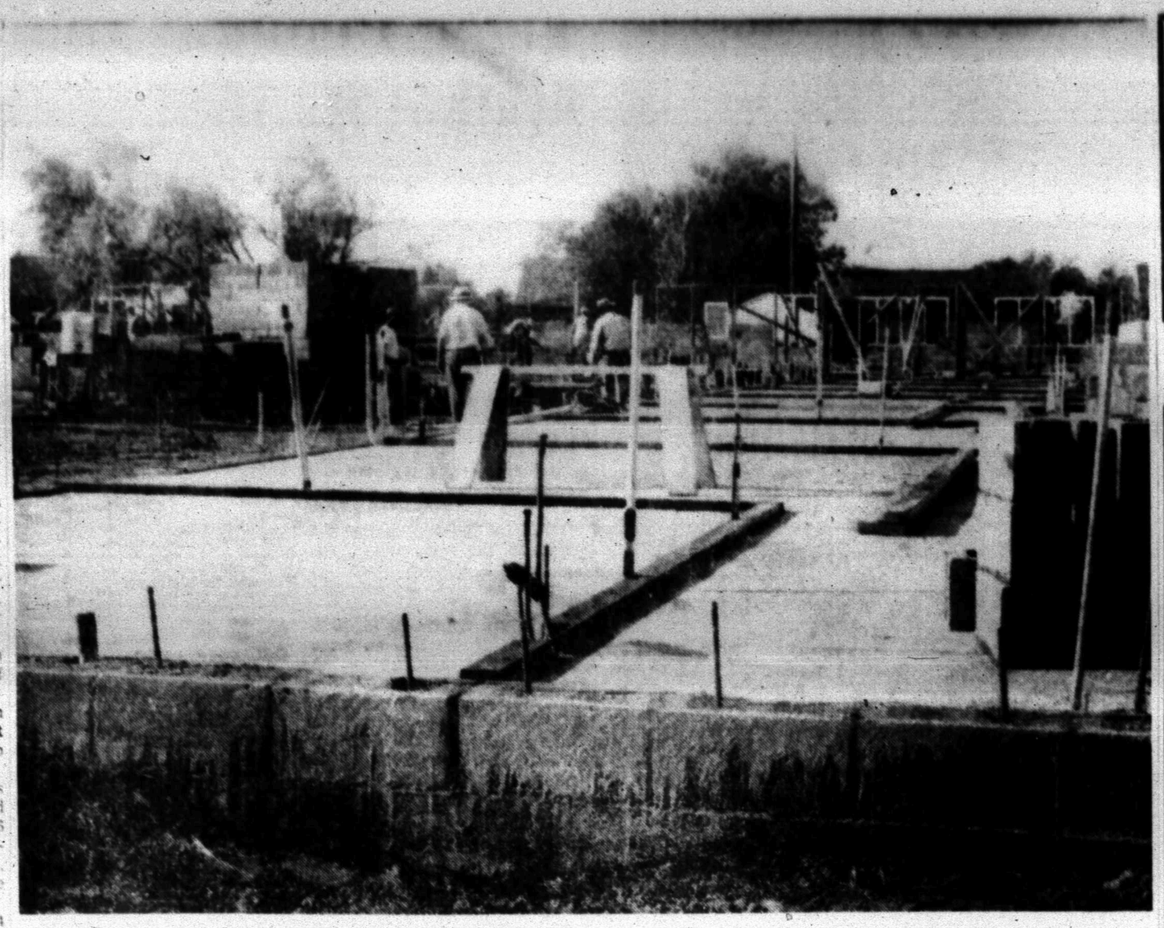
Roosevelt Raceway paid a $104 Florida hotel bill for Monaghan in a 1958 junket, although Monaghan claimed previously he had paid the bill himself.

Monaghan got nearly $2,000 worth of free repairs to his home from a contractor who got a multimillion dollar raceway job.

Monaghan approved — but later withdrew approval — of a deal whereby Yonkers Raceway would swing a $1,750,000 loan with the state paying the interest.

Monaghan allowed a half million dollars worth of construction work to proceed at Yonkers without work permits required by law.

There the matter rests. Presumably when all the testimony is in, the commission will recommend Monaghan's resignation. But they can't force it. The only way he can be removed against his will is by the state Senate. No special session is presently scheduled and otherwise the Senate doesn't convene until next year.



SNYDER TRAVELODGE UNDER CONSTRUCTION—Construction workers are shown above working on the new Snyder TraveLodge, being built at 1006 Twenty-fifth Street. The two-story, L-shaped building of masonry construction will have about 30 units, office and swimming pool. It is scheduled for completion this summer. (Lee Watson photograph)

# Grand Jury Duty Called Educational

HOUSTON (AP)—Grand jury service, insurance agent Frank Freed says, can be an education. But they don't give out diplomas or degrees.

Freed recently finished a term as foreman of the Harris County grand jury which investigated 976 cases. It covered the extremes in crime.

During one panel session a mimeographed two-page document, apparently the work of a nameless wag, turned up. Its title: "Things I have learned while serving on the grand jury."

It offered suggestions for a juror's decorum. Freed did not indicate whether he benefited but agreed they were of interest. Items:

"Buy a complete set of law books. Under no circumstances should you read them as to do so will lead to confusion.

"When one of the district attorneys is questioning a witness, don't interrupt. He is already mixed up enough.

"Never expect anybody to tell the truth, under any circumstances.

"Recognize that sex is here to stay—but have no part in helping the program.

"Never enter a bar, tavern, grill, rendezvous, bistro or honky-tonk—for any reason.

"Never stop at a motel, tourist court, motor court of hotel. Sleep in the trunk of your car.

"Before taking a drink, either: 1. Lock yourself up and give the key to your attorney; 2. sell your car, 3. drain your blood so they can't give you a blood test; 4. pour the liquor down the drain and drink the chaser.

"Never borrow money, under any circumstances—for any reason. If you get in a fight, go live with your mother-in-law.

"If your next door neighbor beats his wife, don't call the police. Move to another neighborhood. Quick.

"Never divulge anything to anybody other than to a fellow grand juror what takes place at grand jury sessions. Your wife will tell you everything that happens when you get home anyway."

## Dam Bursts, Takes $35,000 Down River

MERCER, Mo. (AP) — Five years ago, Wayne Kelley, a merchant seaman, bought 220 acres near Mercer and started converting an abandoned railroad fill into a dam and lake.

Planning a fishing resort, he spent all his time on leave and $35,000 on the project. He was ready to start building stone cabins this summer.

The dam burst Saturday. The 30-acre lake and its stock of fish drained into the Weldon River.

Kelley, 38, a third mate aboard an oil tanker, learned of his misfortune when his ship docked Sunday at Port Arthur, Tex.

"I guess we'll just have to start over," he told a relative.

## Harriman Meets With Soviet Chief Today

LONDON (AP) — W. Averell Harriman, former governor of New York, met with Premier Nikita S. Khrushchev today at the Kremlin, Moscow radio reported. Harriman, World War II ambassador to Moscow, is touring the Soviet Union.

## Cemetery Is Bowing To Civic Needs

HOUSTON (AP)—A handful of graves in a tiny, weed-grown plot in downtown Houston are bowing to civic progress.

Resistance to removal of the graves had been a major snag in transferring title to the land to the city for a planned civic center.

Stones visible in the tall grass bear the names of John Dawson, who died in 1836; William Hill, 1836, and Daniel Cutler, 1866.

Oldtimers say nobody has been buried in the old Masonic cemetery since 1900.

Principal owner of the plot is Holland Lodge No. 1, AF&AM, its charter was carried in the saddle bags of Dr. Anson Jones during the Battle of San Jacinto.

A Brinkhurst family gathered recently for the exhuming of the bodies of five relatives. That left 7 to 10 unclaimed graves, all but three obscured.

City officials plan to take title by obtaining a court order. The law provides unclaimed graves may be removed after the names of the deceased have been advertised without response.

The lodge recently turned down a city offer of $50,000 for the property. But agreement is believed near.

## Convicted Soviet Spy Being Released

BERLIN (AP) — A spokesman for the East German Foreign Ministry said today that British atomic spy Klaus Fuchs will enter East Germany tonight or Wednesday.

Fuchs, 47, has served 9 years and 3 months of a 14-year British sentence for spying for the Soviets.

He has been due for release momentarily for good conduct, but British officials have declined to reveal his whereabouts.

## Jazz King Is Ill With Pneumonia

SPOLETO, Italy (AP) — American jazz king Louis Armstrong was rushed to Spoleto's civil hospital today, suffering from an attack of pneumonia.

Italian doctors who examined him immediately after the attack early today said that he had suffered a heart attack. But an examination by specialists at the hospital showed that the 58-year-old Negro musician had pneumonia.

The New Orleans-born trumpeter had come to Spoleto to participate in the Festival of Two Worlds, directed by American composer Gian-Carlo Menotti.

The specialists said Armstrong's condition was not grave.

His wife was at his bedside.

Armstrong told Italian doctors who first examined him at his hotel early this morning that he felt a sharp pain in the left side of his chest. That led the doctors to believe that he had suffered a heart attack.

# Independents Want In On Injunction Suit

HOUSTON (AP)—Strong independent oil groups asked yesterday to be allowed to join the government in an injunction suit brought in connection with the mandatory oil imports program.

Texas Independent Producers and Royalty Owners Assn. and the Independent Petroleum Assn. of America filed a federal court motion to join as "friends of the court" in the suit filed by Texas American Asphalt Corp.

The court last month granted Texas-American a temporary injunction to restrain customs officials from stopping a shipment of imported crude to this country. A hearing for a permanent injunction starts tomorrow.

Eastern States Petroleum & Chemical Corp. has a similar suit on file which will be heard at the conclusion of the former suit.

Neither plaintiff challenges the program itself. They say only that they are justified import quotas larger than those granted. Observers say the outcome could have far-reaching effect on interpretation of the federal imports order.

Texas-American contends it was unable to obtain a sufficient supply of domestic crude prior to the time it won its temporary injunction.

The two oil groups said in their motion the rate of imports reached more than two million barrels a day in 1958 and early this year. It resulted, the motion said, in a cutback of Texas allowable production to an all-time low of eight producing days during one month.

The present rate is 10 producing days a month.

Texas, it said, has slipped from the position of supplying 50 per cent of the nation's production to slightly more than 40 per cent.

The president of Texas-American Asphalt, J. A. Clements, contends he is not attacking the oil imports program and that his only interest is in obtaining enough foreign crude to meet this refinery's needs.

## Caddy Gets Tip For Attending Church

GETTYSBURG, Pa. (AP)—Roy Fairman Jr., 13, failed to reach the course in time to caddy for the golfer.

He had been delayed by attending services at Gettysburg Presbyterian church. When he reached the course late, the other caddies ribbed him for missing out on his regular job.

Roy sulked under a tree until the match was over. Suddenly, the golfer called him over and slipped a $5 bill into his hand.

"That's for going to church this morning," the golfer, President Eisenhower, told the boy.

# 12 Pairs Of Shoes For 2,300-Mile Hike

By JACK RUTLEDGE

MEXICO CITY (AP)—Two Californians boasted they could walk 2,300 miles to Mexico City. Twelve pairs of shoes later, they made it.

Bill Tynan and Bill Bates, both from Los Angeles and 28, quit good jobs for adventure. They don't regret it, but both Bills say:

"We're through walking for a while. We'd even accept a ride on a bicycle."

The 7-month trip started from Los Angeles Oct. 18, 1958. Unshaven, they soon looked like Fidel Castro's Cuban rebels.

"In fact, we were mistaken for Cubans several times," said Tynan, who resigned from Walt Disney Studios for the jaunt.

"And once in Sinalca De Leyva, in the state of Sinaloa, we were arrested as Russian spies" his was during a labor disturbance.

Bates, who worked for Douglas Aircraft, said they had been warned that Yaqui Indians might cause trouble in remote areas.

"People told us they would cut our throats. Instead, they ran every time they saw us coming."

The walkers carried no arms or weapons of any kind.

"We were often stopped and searched. Indians would come up, sort of surround us, make a thorough search, and as soon as they found we were unarmed, they became friendly."

Actually, Indians helped make the trip possible. The two started from Los Angeles with $400 between them, hoping to live on $1 a day.

They soon ran short but Indians in the Sierra Madre area fed them free for almost a month.

Another money-saving device: jails.

"We know more about Mexican jails than most people," said Tynan. "We slept in them in almost every town we visited—free. They aren't very well equipped, but they're habitable.

Neither spoke Spanish when they left Los Angeles, but after seven months in Mexico both now wpeak it well.

The two Californians spent weekends of five months practicing hiking in the sandy Mojave Desert for five months prior to taking off for Metico.

"It was a good thing, too," said Bates. "This walking is tough."

Tynan wore out eigh pairs of shoes, Bates four.

## Longview Man Heads State VFW

AUSTIN (AP)—Oscar Jones of Longview is the new departmental commander of the Veterans of Foreign Wars of Texas.

Delegates elected Jones over the weekend. He succeeds state Sen. Doyle Willis of Fort Worth.

The convention went on record in favor of Gov. Price Daniel's tax and legislative program. A resolution extended commendations for opposing a state income or general sales tax.

It also commended him "for putting the public spotlight upon the selfish actions of high-powered lobbyists forces."

The measure declared that lobbyists "have plotted a campaign to saddle the people with a burdensome sales tax in hopes of escaping their fair share of the state tax burden."

Other officers elected included: Victor Afflerbach, Lubbock, senior vice commander; Robert Slagle, Sherman, judge advocate; Dr. Bascom Bentley, Palestine, surgeon; and J. O. Lonon, Palestine, chief of staff.

The 1960 convention will be held in Fort Worth.

## Shouldn't Censue, GOP Leader Says

WASHINGTON (AP)—The Senate's Republican leader says this party should not censure the two GOP senators who voted against confirmation of Lewis L. Strauss to be secretary of commerce.

Sen. Everett M. Driksen (R-Ill) said the GOP leadership had tried to avoid making the confirmation vote last week a party issue.

Sens. Margaret Chase Smith (R-Maine) and William Langer (R-ND) voted with 47 Democrats against Strauss' confirmation. As it turned out, their opposition provided the margin of the 49-46 rejection of Strauss.

The national convention of Young Republicans meeting in Denver last week criticized the two senators, accusing them of "un-Republican and unstatesmanlike conduct."

But Dirksen told a television audience Sunday that although he was disappointed at the result, he does not quarrel with individual senators who do not see things the way he does.

## To Teach Illiterates

MEXICO CITY (AP)—The executive committee of the Federation of Labor of this capital has decided to organize cultural brigades to teach illiterate workers to read and write.

The length of Afghanistan is about 600 miles, containing about 250,000 square miles of mountains and fertile valleys.

# OUR VIEW

## MIG Attack

THE CORPUS CHRISTI TIMES

We Americans are great ones for locking the stable door after the caysuses have departed, but our really long suit is in beating our gums afterward when somebody discovers somebody else has goofed.

This national tendency to lay about us with sticks and stones, teeth bared and hackles rising, was duly manifested this week when it became known a supersonic MIG jet had opened fire on a U. S. Navy patrol plane in the Sea of Japan, wounding the tail gunner and all but sending our plane and its 10 or 11 crewmen into the sea.

Did our national indignation blaze high over this affront to our national honor, this contemptuous disregard of international law by Russian, Red Chinese or Red Korean pilots, whichever were flying the MIG?

Well, it might have if we'd given it a chance, but we fell to squabbling among ourselves over who was responsible for the fact that only one of our plane's normal three machine guns was operational at the moment, and immediately we were off in full cry trying to determine who was responsible for this grave oversight.

First from the Far East, a naval personage said two of the plane's guns were out of commission because spare parts were lacking, implying the plane's armament had been cannibalized as a result of Congress' failure to provide adequate funds or something.

But at the Pentagon someone pishtushed this alibi. The silent guns were silent, it was said because they had been removed to make room for reconnaissance gear because this plane was on reconnaissance duty.

News-gatherers were understandably miffed because nobody for a period of many hours could give a reasonable explanation of just what the situation was—either couldn't or wouldn't. And this inability or refusal to give the facts to our nation, was the most distressing thing about the incident, aside from the injury of the tail-gunner and the near-murder of the entire crew.

For it implies that nobody in authority really knew what had happened, or why the plane was virtually helpless to defend itself. If headquarters in the Far East and the Pentagon don't know what the score is at any given hour of the day or night, or what provisions are made to keep our planes in applepie order at all times, our defenses are in a sad state in one of the most critical areas of our farflung operations.

And that is really something to get wrought up about.

# Steel Talks Mainly Mumblings So Far

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The mumble-mumble game is coming to a climax.

Since May 5 the nation which would be heavily affected by a steel strike has watched the steel union and the steel industry going through the motions of bargaining on a new contract.

All the two sides have really done is mumble about what they want—and don't want — without ever getting very specific.

But the three-year contract between the union and the industry ends June 30. Unless there is agreement on a new contract by that time, the country faces a shutdown in steel production.

In these weeks of talks both sides have pumped out propaganda. What they seem to have been doing is jockeying for a favorable position in public opinion in case a strike and shutdown come. It can hardly be called collective bargaining.

The United Steelworkers Union demanded a substantial wage boost, plus pension improvements, more work opportunities for idle members, and a better unemployment compensation system.

The present average wage of a steelworker is $3.03 an hour.

The 12 steel companies with which the union is talking argued that a wage increase is inflationary—that it inevitably would force them to raise steel prices. Therefore the industry proposed a wage freeze for another year.

A price increase in steel, which is used in so many other fields of American living, traditionally has been regarded as the starting point for price increases in other businesses and industries.

The Steelworkers Union contends company profits are so high a wage increase could be absorbed without passing it on in the form of higher steel prices.

On June 10 the industry proposed dropping its wage-freeze position provided the union made concessions on about eight different parts of its contract. Union President David J. McDonald rejected this, calling it "industrial blackmail."

From the very beginning President Eisenhower has urged both sides to use self-discipline because of the effect he thinks their decisions will have on the rest of the economy.

He pleaded against setting off a wage-price spiral that would jack living costs generally. Last Friday the government's figures showed living costs hit a new record high.

The National Assn. of Manufacturers got in on the act by lining up with the steel industry. It urged a wage freeze to prevent inflation.

The AFL-CIO jumped in, too. Its executive council backed up the Steelworkers by arguing a wage freeze in steel and other industries would cause further unemployment and economic recession.

Meanwhile, both sides have tried to prepare the ground for blaming each other if a steel strike comes: the industry putting the responsibility on the union, the union on the industry.

It may seem to the general public that both sides would look a lot more adult if they cut out the mumbling—which is really stalling—and got down to cases.

Suppose there is a strike, what could the government do? The President—to prevent a shut down—could invoke the national emergency provisions of the Taft-Hartley Labor Act through a court-ordered 80-day delay in a strike.

The union might seek to deprive the President of this weapon by striking only one company instead of the whole industry. It could argue that loss of steel from one company was not a national emergency.

In the past it has been union policy to invoke complete industry shutdowns.

# Credit Buying Now Picking Up At Its Most Rapid Pace

By SAM DAWSON

NEW YORK (AP) — There's nothing like good times to get Americans further into debt.

"On-the-cuff buying is climbing faster than ever before. Mortgage totals are rising. Credit cards multiply despite some grumbling from restaurant owners.

More Americans plan to take their vacations first and pay later. Banks are offering their own versions of consumer credit. Stores promote new credit plans as well as the old charge accounts.

About an eighth of every dollar left over after taxes now goes for time payments.

The reason for the big spurt in borrowing to buy?

Credit and sales executives say it's because more people are working and making more money and are confident of holding their jobs. With times good they are willing to go in debt to have the things they want now.

Inflation psychology—fear that the dollar you save today may not buy so much next year—is also making consumers willing to buy on time, hoping to pay off later with a cheaper dollar.

To some the big boom in consumer credit is reminiscent of 1955 when Americans went on their last big buying spree.

As in 1955 the big gainer this year has been installment credit for auto purchases. But there is increased on-the-cuff buying of appliances, clothing, home furnishings and repairs, and of such newcomers as boats, trailers and travel.

Latest Federal Reserve Board figures show that April set a record for any month in the amount of new installment debt — just short of four billion dollars. This brought the total to 34½ billion dollars and total consumer credit to 45 billion dollars, or 2¼ billion more than a year ago.

Consumer finance companies report nearly 3½ billion dollars of personal cash installment loans outstanding at the end of April. Credit unions' total outstanding loans rose 54 million dollars during March.

The Federal Home Loan Bank Board reports that nonfarm mortgage recordings of $20,000 or less in the first four months of 1959 were 35 per cent higher than in the same period last year. At the end of 1958 the mortgage total was put at 118 billion dollars, a gain of 9.7 per cent for the year.

# Parents Learn In Parting With Child

By HAL BOYLE

NEW YORK (AP) — It was Emily Dickinson who wrote that parting is all we know of heaven, and all we need of hell.

Certainly parting from a child for the first time is all the hell parents could ever want. But the reunion sometimes almost makes it worthwhile. You learn a lot from the experience.

Recently Frances and I had the opportunity to make a four-week vacation trip to Europe. But no children were to be included.

This posed a real problem. Since adopting our daughter, Tracy Ann, shortly after her birth nearly six years before, Frances and I had never been away from her more than a week.

How could we leave her for a whole month? We considered abandoning the trip, even though we felt we might not have such an opportunity again in our lifetime.

"You're crazy," friends counseled. "The separation will be good for both you and Tracy. Try it and see."

We finally decided to put the whole decision up to Tracy herself.

We explained that it was a kind of business trip on which there would be no other children. We told her she could stay at the suburban home of our close friends, George and Helen Palmer, and sleep with the three Palmer daughters—Nina, Zona and Leila Jim—who are her godsisters.

"You can go," said Tracy gravely, "if you don't stay away too long—and you promise to be good."

We promised—and she promised—and we sailed away.

The second morning out I awoke in our cabin to find my wife weeping.

"Now what have I done wrong?" I asked, figuring I must have talked in my sleep and said something incriminating.

"Who cares what you do?" said Frances. "I miss my baby."

Having got that maternal line out of her system, she dried her eyes and ate a breakfast that would have felled Diamond Jim Brady. Have you ever noticed how, after a good cry, a woman is always hungry?

After that we tacitly quit mentioning Tracy, and missed her silently and separately together.

Once in Paris, Frances saw a group of children run out of a school, hopping like little loud birds, and tears suddenly sprang into her eyes. But she didn't say anything.

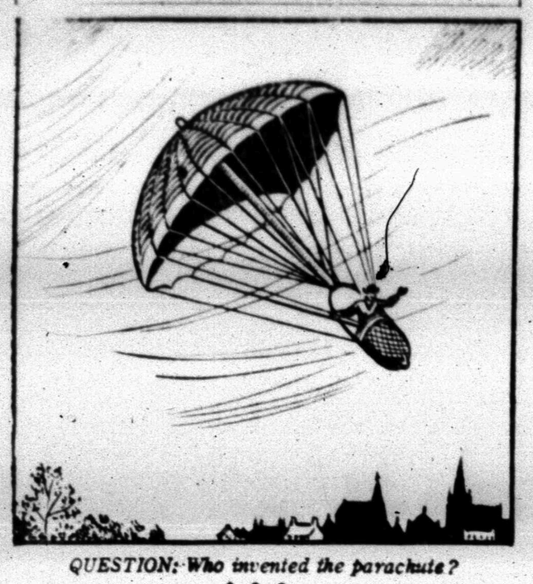
## ...r Editors Quiz on PARACHUTES



*QUESTION: Who invented the parachute?*

• • •

ANSWER: The first thing you will notice about our picture is how much the parachute looks like an umbrella, the word "parachute" comes from the Italian "parare" which means to shield or protect, and the French word for umbrella, "parapluie." Since the umbrella is very ancient, it must have occured to many that holding something like an umbrella might break a fall through the air. A book published in 1691 tells of a man who entertained the French court by jumping from a tower with two umbrellas tied around his waist. But it was not until balloons were invented that real parachutes arrived.

The first parachute which carried a man successfully to earth from a great height is shown in our picture and was built and demonstrated in 1797 by Jacques Garnerin. The descent was 3000 feet, and Jacques landed safely, although he had a rough time coming down, as his primitive parachute swayed violently from side to side and nearly spilled him out.

• • •

FOR YOU TO DO: DON'T jump off the roof holding an umbrella, because it won't hold you. Take a small stick, fasten 4 strings about 10 inches long to it, and tie the free ends of the strings to the corners of a handkerchief. Then toss the whole thing up into the air and see how it works.

• • •

(Our $10 award goes to Pamela Mindera, Bristol, Conn., for this question. Send yours on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this paper. When duplicate questions are received, Mrs. Higgins will select the one winner.)

# Safeguards If Newscast Is Exempt

WASHINGTON (AP) — Democratic National Chairman Paul M. Butler wants some safeguards written into any bill to exempt news broadcasts from a law requiring equal time for all candidates.

Butler said he favors some revision of the law to stimulate more political news broadcasts on radio and TV without subjecting broadcasters to nuisance demands for equal time such as have occurred in the past.

But he contended the law should require a guarantee of equal time on political newscasts for all candidates of major political parties. He underlined the word major.

Butler expressed his opinions in a letter to Sen. John O. Pastore (D-RI), chairman of a subcommittee conducting hearings on proposed changes in the law.

Newscasts had been considered exempt until early this year, when the Federal Communications Commission ruled that they also were covered. Broadcasting interests have contended such a requirement would force them to halt almost all reporting of political news.

# 'Cop' Is Bad Word, Says Head Fed

NEW YORK (AP) — A policeman's lot is not a happy one — and you don't make him any happier by calling him a cop.

So says FBI Director J. Edgar Hoover, sometimes called the nation's top cop, or if you want to get him really riled, the head fed.

Hoover says calling a policeman a cop is like calling a doctor a quack or a writer a hack. His written views on the matter came up for debate on a television program Sunday.

One member of the four-man panel disagreed with Hoover. Former U. S. Sen. William Benton, now publisher of the Encyclopedia Britannica, said he likes the word cop. "I think it's vigorous, strong and tough—a good word," he said.

No so moderator Bergen Evans. He said cop is an underworld term, and said he wouldn't apply it to a policeman even in thinking about him.

Panelist Murice Dolbier of the New York Herald Tribune agreed the word is degrading.

Panalist John Mason Brown said "I would employ the word cop in dire need, but I would never say cop to a policeman's face."

# Nicknames Good Clues

WASHINGTON (AP) — A kid holds up a store. All police know is his nickname. Bugle Head. How do they pick Bugle Head up?

Police in Washington solve the problem with a file of more than 10,000 nicknames.

Expanded every day by arrest and investigation reports, the file matches nicknames with the regular names of many of the city's young troublemakers. A nickname could be the clue that solves a case.

Police said the old standbys were most popular. Sonny, Butch and Buddy. But Baby Brother, Country, Duck, Bubbles and Blue are moving up.

Others on the list include Bubba, Frog, Fat Daddy, Bird Brain, Heavy, Dog, Gray Squirrel, Thorn Head, Ape, Big Head, Bean Bucket, Carrot Nose and Chow Mein.

One fellow is called Appetite. Police put his name in the files after arresting him for breaking into a restaurant.

# No More Stamps On Cigarette Packages

WINSTON-SALEM, N.C. (AP)—You won't be seeing that blue federal tax stamp on cigarette packages any more.

The manufacturers have won a battle. No more prepayment of excise taxes. Instead of having to buy the stamps every day they will pay the government only twice a month.

R. J. Reynolds Tobacco Co. had to buy more than 2 million dollars worth of stamps every day for its products. But Tuesday will be the last day it will have to send two men to pick up the stamps for cigarettes, smoking tobacco and chewing tobacco.

Instead of the stamps, Reynolds will use a closure of the same blue paper which will tell you: "federal stamps no longer required." But smokes still will cost the same.

# Shepherd, Herd Are Killed By Lightning

BELGRADE, Yugoslavia (AP)—Lightning killed a shepherd and 470 sheep in Macedonia, Southern Yugoslavia, the Yugoslav news agency Borba reported. The report said the shepherd and most of his flock were hit Sunday on Mt. Sar Planina.

# Cats Cooled Off By Cop

CORPUS CHRISTI (AP) — An unwritten law of the drag race set is never, absolutely never, look your adversary in the eye. It's kinda like dancing a rock 'n' roll number. You never look directly at your pardner.

That what three cruising Naval Air Station sailors did here last night when they heard a set of cool pipes, dad, creeping upon them from the left.

"Dig out, daddy-o," one passenger told the driver. "Those pipes are from squaresville."

The race progressed two blocks with the sailor always keeping a little ahead of the set of pipes trying to overtake him.

Then a new sound—from way out—was added to the chorus of blaring pipes. It was a siren.

"Lawville," all three sailors thought at once, turning to see their adversary.

The cool pipes those cats heard were mounted on the motorcycle of patrolman R. J. Mudd.

"Crazy," said Mudd, handing over a speed contest ticket to the driver.

# Possible Heavy Rain In Local Storms

DALLAS (AP) — The Weather Bureau issued today this five-day forecast:

East and Central Texas: Temperatures near or a little above normal. Minimums 70-77; maximums 88-98. No important change. Precipitation light in widely scattered thundershowers mainly in afternoons.

West Texas: Temperatures 1-4 degrees above normal. Minimums 58-75; maximums 86-95. No important changes. Precipitation locally heavy in isolated thunderstorms, otherwise light or none.

## LEGAL NOTICE

NOTICE OF ZONING HEARING

Notice is hereby given to owners of the Property hereinafter described or referred to and to all other interested persons as provided by law, that the City Council will hold a public hearing on the 6th day of July 1959 at 7:30 P.M. in the City Hall in Snyder, Texas to consider the rezoning of the following described property and at said hearing all interested persons will be given an opportunity to be heard.

Being out of and a part of Section 153, Block 3 of the A&GN Ry. Co. Surveys, Scurry County, Texas and described as follows:

Beginning at a point which is 50' East and 940' South of the Northwest corner of Section 153, Block 3, H&GN Ry. Co. Survey, Scurry County, Texas;

Thence East 330' to a point;

Thence South 3948.7 to a point;

Thence West 330' to a point, said point being the East R.O.W. line State Hwy. 350;

Thence North on East R.O.W. line State Hwy. 350, 3948.7' to the point of Beginning.

From an 'C-1' to a 'C-2' District.

(S) K. O. Pitner
City Secretary

# Whitfield To Open Variety Store Here

Carl Whitfield, manager of the Perry Bros. store here, has announced his resignation from that chain and his plans to open a new variety store here within a few weeks.

Whitfield's 5 & 10 will be the name of the new store, which will be located in the Highlands Shopping Center on the Big Spring highway.

The shopping center, being developed by F. H. "Ab" Williamson, is now closing a 90-foot-wide space in the middle of the developed center, and Whitfield's store will have a 57-foot front in that space.

The remainder of the space will be taken by Pittman Floor Covering and Furniture, which is now located just to the north of the building now under construction. The Pittman firm opened recently in the shopping center, will use the space for a part of its furniture and carpet stock.

Whitfield said the portion of the building his store will occupy will be 98 feet deep. The store front, of brick and glass, will protrude to the east, as does D&H Super Market, another store in the shopping center.

The variety store will be a self-service type store with 23 departments, Whitfield said. He added that the building is scheduled to be complete by Aug. 10 and that he hopes to open his store by mid-September.

Whitfield's resignation at Perry's submitted to the chain about three weeks ago, becomes effective tomorrow.

He has been with the variety chain 22 years, serving 18 of those years as manager of the Snyder store. Prior to the time he came here in July, 1941, he was manager of the Perry's store at Munday.

He had started with the chain at Memphis as an assistant manager and served in that capacity in several cities, including Stamford and Haskell.

Mr. and Mrs. Whitfield live at 2801 Thirty-seventh Street.

CARL WHITFIELD

# Barrymore Acting Dated To 1700s

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — The passing of Ethel Barrymore erases the last of a great generation of America's first family of actors. The acting tradition goes back to the 1700s in the Barrymore-Drew line.

Lionel left no progeny. Ethel had three children, Sammy, John and Ethel Barrymore Colt. All have made stabs at the dramatic art, but without impressive results. Young Ethel has had some success as a singer.

The best chance for upholding the dynasty appears to lie with the children of John. Diana, his daughter by actress Michael Strange, had great opportunity as a young actress. But, as she titled her autobiography, it was a question of "Too Much, Too Soon." After baring her woes in literary and movie form, she has lately settled down to serious acting with some success.

John had a son and daughter by Dolores Costello. Dede did not pursue an acting career, but John Jr. leaped into the profession at 17.

He admitted that he stank in his first three films—"I got sick in my stomach after seeing each picture." He said if he didn't improve, he should quit and find myself a trade."

At 27, he is still acting and has yet to break through the star barrier. Conscious of the constant comparison to his father, he adopted the name of John Drew Barrymore. He points out that his sire was 40 before reaching greatness as Hamlet.

It's ironic that relations were strained between the two acting hopes of the Barrymore family and their Aunt Ethel during her last years. She was aghast at Diana's public confessions, especially where they cast aspersions on Ethel's beloved brother Jack.

Ethel had long declined to countenance her brother's didos, preferring to remember him as the dashing young Adonis of the theater.

The actress was estranged from young John in recent years. The rift became public when he walked out of a stage engagement in a dispute with the managers. Ether told he press that no Barrymore had ever done such a thing before.

# Alvin Lauds Fire Units

ALVIN, Tex. (AP)—Officials of this small town 27 miles south of Houston—struck yesterday by fire which destroyed or damaged six business buildings—praised today 17 out-of-town fire departments which came to their rescue.

"We've been making fires for 19 years as much as 75 miles away," Fire Marshal L. T. Delesandri said. "This time when we needed help we sure got it."

Authorities first estimated damage at more than $250,000 but later scaled it down to about $125,000. The early morning blaze threatened the entire business area for a time.

The two buildings destroyed housed an insurance office, a plumbing shop, a watch repair shop, a small furniture store and a cafe. Two others were damaged. There were no injuries.

Both gutted buildings were more than 50 years old and had been condemned.

It was Thomas Jefferson who said: "Were it left to me to decide whether we should have a government without newspapers, or newspapers without a government, I should not hesitate a moment to prefer the latter."

# St. Lawrence Ceremony Is Big Event

NEW YORK (AP)—If there's anything the special events department of a television network likes, it's an orderly current event on which cameras can be trained in advance and the juice turned on when the scheduled action starts.

That's why congressional hearings, political conventions, coronations, ship-launchings and such are so often covered.

Most grand opening ceremonies, alas, are neither important enough nor of sufficient interest to warrant expensive TV coverage. But this week a ribbon-snipping of major magnitude will take place, so important that Queen Elizabeth II of England and President Dwight D. Eisenhower will take part. And the networks' cameras will be very much in evidence.

The event is, of course, the dedication ceremonies of the great St. Lawrence Seaway next Friday. CBS will start broadcasting the big event first—at 10 a.m.—showing films of the Seaway and covering the ceremonies live. At 11 a.m., ABC will start an hour's live show of the ceremonies from St. Lambert Lock near Montreal. NBC, concerned with the working classes who might miss the sights, will present an hour's show of the goings on at 8 p.m., using video tape, film and diagrams and preempting Ellery Queen's time to do it in. All times Eastern Daylight.

## Queen Mother Puts Liner Into Service

BIRKENHEAD, England (AP)—Queen Mother Elizabeth today launched Britain's biggest passenger liner in 21 years, the 38,000-ton Windsor Castle.

This steam turbine vessel, cruising at 23 knots, will cut two days off the 13-day Southampton-Capetown run. She will carry 850 passengers and have massive refrigerated holds to carry perishables from South Africa.

## Duke Ellington Wins NAACP Gold Medal

NEW YORK (AP) — Duke Ellington is the winner of the 44th gold medal "for the highest or noblest achievement by an American Negro during the preceding year or years." Ellington, composer and orchestra leader, was selected Monday by the National Assn. for the Advancement of Colored People.

*LACK FIRST GRADE TEACHER*

# Teaching Staff Is Almost Complete

The teaching staff for the Snyder school system for the coming year is almost complete, according to T. E. McCollum, superintendent.

McCollum said the only need of the system now is a first grade teacher.

Two latest additions to the staff for the next school year are a visiting teacher and a high school journalism-English teacher.

The visiting teacher is Jim Irwin, who holds a bachelor's degree from Texas Tech, Lubbock, and master's degree from Southwest Texas State College, San Marcos. He is doing graduate work in the visiting teacher field at the University of Texas this summer.

Employed as a journalism and English teacher for the high school and sponsor for the school newspaper is Miss Ann Marie Heinan, a recent graduate of Southwest Texas State College.

About 30 of the faculty for the coming year will be teachers new to Snyder.

The teaching staff has only about 15 more teachers than last school year, however, including making provision for two new principals, two physical education teachers, two librarians and some extra teachers as the system prepares for the opening of the new Stanfield Elementary School and Lamar Junior High School.

JUMPS TO FLEE ROME HOTEL FIRE — Hotel maid Clara Achille plummets past windows of Rome's Ambassador Hotel after jumping from the top story of the five-floor building to escape an early morning fire. Hotel occupants watch from windows as man, lower left, gestures as if preparing to catch her. She first hit one of the autos, breaking her fall sufficiently to save her life. Three other employes were killed and another injured as a result of the blaze. (AP Wirephoto via radio from Rome)

# Ike To Lay Cornerstone

WASHINGTON (AP)—President Eisenhower will lay the cornerstone of the Capitol's new east front at Masonic ceremonies at noon July 4.

J. George Stewart, architect of the Capitol, made the announcement today in behalf of the special commission overseeing the construction. He said July 4 was chosen because that was the date in 1851 when President Millard Fillmore laid the cornerstone of the Capitol's House and Senate wings.

Masonic ceremonies marked the laying of the cornerstone of the original section of the Capitol by President George Washington Sept. 18, 1793, as well as the 1851 event.

The president is not a Mason. His participation will be apart from the lodge's own ceremonies.

## British Experts On Research To U. S.

LONDON (AP)—A team of six experts left by plane for Washington today to discuss the installation of British research instruments in U.S. space satellites.

Dr. R. L. Smith-Rose, director of radio research, told a reporter the instruments will go aloft in three or four launchings during the next two years.

The information thus obtained will have a bearing on Britain's plans to send up satellites of its own.

# Judgment Affirmed In Helms Case

The Court of Civil Appeals has affirmed a 132nd District Court judgment in the case of West Texas State Bank vs. Mr. and Mrs. C. Ray Helms.

The bank, in its case, claimed proceeds of sale of a house by Helms here as subject to a previous judgment on a note at the bank.

The court held, however, that the sale proceeds were not subject to execution of the judgment held by the bank, which appealed the case.

Cecil C. Collins, associate justice of the appeals court, in writing the opinion affirming the local judgment, held that even though the Helms had moved to Albuquerque they had not abandoned their homestead, which was the house in question, and that proceeds from the sale of the house are exempt from lien for six months.

Helms was represented by Robert R. Patterson. The bank was represented by Gene L. Dulaney.

## Crude Production Is Up In Oklahoma

TULSA (AP) — Daily average production of crude oil increased 16,955 barrels to 7,017,460 barrels last week, the Oil and Gas Journal said today.

Oklahoma was up 6,100 to 855,500.

Louisiana had a 2,300-barrel decline to 972,100.

The Journal estimated 1959 production at 1,226,115,950 barrels compared to 1,106,431,600 a year ago.

Arkansas was up 150 to 81,000.

Production was unchanged in Texas, 2,646,625 barrels, and New Mexico, 293,300.

There was no Sunday in China 50 years ago. Now they observe one day of the week as a day of rest.
