THE JUNCTION EAGLE

Volume 46 Junction, Kimble County, Texas, Thursday, October 24, 1929 Number 28

P-T. A. MEETS AT SCHOOL HOUSE OCT. 28

P T A—
The Parent Teachers' Association of Junction will hold a Fire Prevention Program at the Schreiner High School Monday, October 28, 1929, according to Mrs. George Pepper, president.
The meeting will be opened by the members singing America. The Rev. Newman will give the scripture reading and prayer.
Mrs. J. M. Livingston will deliver an address on Fire Prevention. A playlet entitled, "The Trial of Fire" will be presented by a cast selected from the 9th grade. Presentation of Posters will be made by the lower grades.

A business session will follow the regular program. Mrs. Pepper stated. Delegates to the State Convention which will be held in Waco November 18 to 21 will be elected, and Mrs. Pepper urges every member to be present for the selection of these delegates.

V. A. Boys Make Close Study Wool Samples

There are thirty-one boys taking Vocational Agriculture in the Junction school this year. There are two classes, a first and second year class combined and a class consisting of boys who are taking the third year work. Among the accomplishments of the first year class are as follows: Treated several flocks of poultry for round worms, made post-mortem examination of a hen and found that she had tuberculosis, and at the present time they are making a study of wool samples furnished by the local warehouses.

A large part of the work of the advanced class has been in the farm shop where the boys made some kindergarten tables, some typewriter tables, saw horses, and benches for use in their homes.

Each boy taking the course in Agriculture is required to have a home project consisting of a small flock of sheep or goats, or a flock of at least 50 laying hens, a sow and litter a milk cow, a beef calf to feed for a baby beef, two registered ram lambs or two registered billie kids to feed and care for until they are one year old. The boy should do all the work connected with his project or hire it done and pay for the labor himself.

With you, as parent, co-operating with the teacher of Agriculture, your boy should get lots of good from his course. If you do not help out the boy will not get as much good from the course as he should. By co-operating is meant, in this case, see that your boy does the work connected with his project and help him to get a project if he does not already have one.

C. OF C. RECEIVES MORE DONATIONS

One of the latest donations to the Kimble County Chamber of Commerce Prize Membership race came from Dr. J. Fred Burt, when he gave to the organization two big boned Poland China Pigs. These pigs were farrowed by a prize winner.

Mr. M. R. Waters donated a registered nannie goat to the Chamber of Commerce which will also be given away in the membership contest. Ranchers and livestock owners of Kimble County have responded well and are aiding in putting over the program which will place in the hands of the 4H Club members of Kimble County some of the best livestock available.

Mr. and Mrs. Iron Fleming returned Tuesday from a visit at Goldthwaite and Brady.

Mr. and Mrs. W. M. Taylor are San Antonio visitors this week.

STANDIFER HOSPITAL HAD 353 PATIENTS

During the two years in which the Standifer Hospital has been open in Junction approximately 353 cases have been admitted. There have been 79 cases of major surgery in this period.
Medical cases total 173. One hundred and one cases of tonsilectomies and adenoidectomies have been successfully handled. Dr. Standifer, chief surgeon, has been successful with the patients since he has been here the past two years.

EAGLES DROP THRILLER TO BALLINGER

Playing the most brilliant game of the year, the Junction Eagles bowed gracefully in defeat when the heavier Ballinger aggregation managed to push across the lone touchdown of the game in the last quarter to make the score stand 7 to 0. Stock in the Junction team took a sharp and decisive jump upwards as a result of the game Saturday. Instead of a half-fighting team, the eleven Eagles that made the stand on Schreiner gridiron Saturday were fighting every inch of the way; they were playing real football, and they revealed a disciplined, well-coached team.

Elements Conspire
But that skeletal creature, Ill Luck, was following closely in the tracks of the Eagles thru the game. In the fourth stanza, when the ultimate outcome of the game seemed an inevitable tie, out of the North across the mountains tripped Dame Ill Luck, swishing her skirts and rushing across the football field in all her splendor. In her wake came all the dust and sand in the northern part of Kimble County, and it seemed some as far as Runnels County drifted south and across the field square into the eyes of the fighting Eagles.

With a forty mile gale blowing in their backs the Ballinger squad found it hard to hold back Ill Luck, swishing her skirts and blinding the defensive Eagles. The Ballinger squad took advantage of the break and scored their lone touchdown. In the maelstrom of dust and wind, a passing attack was hopelessly out of the question for the Eagles. But more detrimental was the wind to the punting. It was impossible to

(Continued on page 4)

Mrs. Leota Travers Dies in San Diego

Mrs. Leota Travers, aged 57, wife of Mr. J. Wadsworth Travers, author of a new history of the Old Spanish Trail, died in a San Diego hospital Monday, October 14, according to a report received here by Mr. Travers.

Mr. and Mrs. Travers were in Junction in the early part of the summer gathering material for the new history. While in Junction, Mr. and Mrs. Travers made many friends, who will be sorry to learn of the death of Mrs. Travers.

BOX SUPPER AT COPPERAS SCHOOL NETS GOOD SUM

Approximately 150 people attended the Box Supper and auction sale at the Copperas School house last Friday night. The Copperas P-T. A. sponsored the supper.

County Agent R. E. Homann was the auctioneer. Approximately one hundred dollars was raised at the sale. The highest bid for any one box was \$26.

FIRE ALARMS SCARCE SAYS RECORDER

For eighty-one days, members of the Junction Fire Department have slumbered peacefully thru the night and worked without interruption during the day, for it was on August 4 when the last fire alarm was turned in in the city, according to C. E. Barnes, Recorder for the Fire Department.

The last alarm came from the McCarroll Lumber Company where some cedar posts had become ignited. On August 2 a previous alarm had been turned in from the same place concerning the same posts.

An alarm was turned in on June 20 from a rent house owned by Mr. N. H. Skaggs. No damage was done.

An automobile owned by Gilford Evans burst into flames near the Schreiner High School on June 9, and the department made a call and extinguished the burning auto.

On June 1 a false alarm was turned in from the West Texas Utilities Sub Station, and on June 2 another false alarm came from the residence of P. Joseph.

A negro shack near the Junction Battery and Electric Co. was burned to the ground on May 15.

For the past two years, the fire record for Junction has been exceptionally good. The new fire truck which was ordered 30 days ago will be ready for service soon. The new Chevrolet Chemical truck will also be ready in the near future.

Four new members have been taken into the fire department. Messrs. Luther McDonald, Ovie Buster, Cloma Murrain, and E. E. Preston are the new members.

Serving in weekly periods, four members of the department sleep at the fire station every night. The recreation hall of the department is equipped with billiard tables and other forms of amusement for the fire boys.

At present there are approximately 22 members in the department. The members are now wearing new caps and badges, and it is expected that they will be provided with uniforms some time in the near future.

SCHMIDT IS JUNCTION VISITOR SUNDAY

Dr. H. Schmidt of A. & M. College was in Junction Saturday and spent several hours in conference with County Agent R. E. Homann.

Dr. Schmidt has accomplished much for the livestock industry in Texas. For the past few years, he has produced some valuable work in dealing with creeps in cattle. A satisfactory treatment has been worked out as well as a means of preventing the disease.

AERIAL SIGN

Saturday the Kimble County Chamber of Commerce had an aerial sign mounted on the roof of the Highland Chevrolet Company's large storage house. The sign is composed of ten foot letters with the name Junction painted on the roof. An arrow points towards the landing field.

Through the courtesy of Mr. J. S. Farmer, the sign was painted on his storage building. The letters are of orange trimmed in black.

TEXAS LEADS UNION WOOL PRODUCTION

For a number of years Texas has produced approximately 74 per cent or better of all American produced mohair. In addition to this Texas leads in the production of wool by a very wide margin.

In 1928 Texas alone produced 35,591,000 pounds of wool. In 1929 Texas produced approximately 39,882,000, an increase over 1928 of over four million pounds.

Kimble County alone produces more than 600,000 pounds of this year. It is interesting to notice that the weight per fleece in Texas is relatively higher than most other states in the Union. Only three states rank higher than Texas in the weight per fleece and they are Washington, Utah and Oregon. These figures are for the 1928 shearing.

Emil A. Loeffler Goes To C. Of C. Meeting

Mr. E. A. Loeffler left Wednesday for El Paso where he will attend the Eleventh Annual Convention of the West Texas Chamber of Commerce. The meeting starts today and lasts through Saturday.

Mr. E. V. Stewart, secretary of the Kimble County Chamber of Commerce, accompanied Mr. Loeffler as far as Del Rio.

One of the features of the convention is a military parade which will be staged on the main streets of El Paso. This parade is expected to be the largest review held in the United States since the World War.

BAND WILL PRACTICE FRIDAY NIGHT, 7:30

The Kimble County Chamber of Commerce Band will hold its regular rehearsal at 7:30 Friday night in the Court House, according to Mr. L. W. Myers, director.

Orders were sent off last week for twenty new uniforms for the band members. The uniforms are expected to arrive by November 5.

EAGLES WILL REST THIS WEEK; PLAY MENARD NOVEMBER 1st

NEAL STEPS TO LEAD IN PRIZE RACE

The Chamber of Commerce 4H Club prize race has taken a turn since last week and Robert Neal who has been following in second place, has advanced to first place, and Robert Fisher has dropped to second place. Christine Schraub has gained four new memberships since last week.

This week's report marks the entrance of two new members in the race. Gerald Ragland and Bennie Grobe have tossed themselves into the scramble.

How they stand this week:

Robert Neal	16
Robert Fisher	11
Christine Schraub	10
Ovie B. Smith	2
Callan Graham	2
Tommie Murr	2
Buddie Cabler	2
Frank Dagen	1
Bennie Grobe	No report
Gerald Ragland	No Report

The contest closes November 11 and the prizes will be given away on that date. Less than three weeks of time remain for the contestants, and it is expected that a dark horse will step up in the last week and claim one or more of the best prizes. A report has gotten out that the Ivy community is backing one contestant and are expecting him to win the first prize. There is yet time for new contestants to enter and win one of the coveted prizes.

RESERVES AND ROCKSPRINGS BATTLE TO TIE

The reserve squad of the Schreiner High School journeyed over to Rocksprings last Thursday and battled the Rocksprings Bulldogs through four quarters but when the final whistle was blown, the score was 0 to 0.

The two teams were practically evenly matched, neither being able to make much headway. Captain Eric Lomax and Clinton Dickey of the Rocksprings team were knocked out in the last quarter.

None of the regular squad made the trip, but had the first string met the Bulldogs it would have been a question of how many touchdowns they wanted.

Mr. and Mrs. Blackstone Smith attended the wedding of Miss Williamina Talbot and Charles Murr at Ft. McKavett Tuesday.

After playing their hardest game of the season last week with the Ballinger Bears, the Eagles will rest over the weekend, according to Coach Earl Bowers.

If the Eagles get into the championship race, which seems likely at present, the season will continue practically until Christmas, and the rest this week will be good for the players.

Louie Cochran and Slick Ake received bad bruises in the game last week and the doctor advised a rest for them.

On Friday week the Eagles will face the Menard High team on the Menard field. Junction will win the game by as large margin as the Coach desires—that is if it does mean anything. Menard has a fighting team but the players are too tight and inexperienced to make the going hard against the powerful Junction team.

Wool Growers To Annual Meet in San Angelo

Mr. S. S. Bundy, member of the Executive Committee of the Sheep and Goat Raisers' Association of Texas, has received a letter from T. H. Kincaid, president of the Association, stating that all the members of the Executive Committee have been placed on the entertainment committee to arrange for the entertainment of the guests at the 65th Annual Convention of the National Wool Growers' Association which will be held in San Angelo November 20 to 22. Every angle of questions of vital interest to sheep and goat raisers will be discussed. In addition there will be a wool and mohair show.

LIONS CLUB HAS GOOD MEETING

Fifteen members and eight visitors were present at the regular luncheon of the Junction Lions Club held at the Baptist Church Wednesday noon. Messrs. Astor Wallace, Coma L. Murrain, L. F. Cowser, Roy King, Henry Bierschwale, S. A. McDonald, Clay Secrest, all of Junction and Mr. J. W. Clayton of San Antonio were the visitors.

The next meeting of the club will be Wednesday noon November 5 at the Baptist church.

The members of the club voted to erect two large "Welcome" signs on the North and South Llano bridges, welcoming tourists into Junction. Upon invitation, the Lions Club will meet jointly with the Rotary Club at the next regular meeting November 5.

OLIVER RECEIVES U. S. APPOINTMENT

Mr. Joe Oliver of Junction has just received word that he has received an appointment as Second Lieutenant in the Officers' Reserve Corps.

Oliver has attended the Citizens' Military Training Camp for four years and was recommended for a Commission in the Reserve Corps.

He has completed approximately one hundred and twenty hours of correspondence work of the Army Correspondence Course.

As well as completing this work, Oliver has worked on his ranch east of Junction regularly.

LOUIE GROBE BUYS RAMBOUILLET RAMS

Mr. Louie Grobe, of the Ivy community, returned from San Angelo Thursday where he purchased three registered Rambouillet rams. Mr. Grobe's flocks are composed of the Rambouillet type.

Brothers Separated Fifty-Seven Years Brought Together Again in Junction

Two brothers were brought together in Junction last week after a separation of 57 years.

Mr. B. A. Davey of Junction, aged 83, and C. B. Davey, 70, of Lacombe, Alberta, Canada, were reunited in Junction last week. The reunion came about through correspondence between relatives.

Mr. B. A. Davey was born in Yorkshire, England, while Mr. C. B. Davey was born in Kingsville, Essex County, Ontario, Canada. The Davey family came to New York from England in 1855. After living in New York one year, the family moved to Canada and in 1864 they moved to Michigan and finally to Nebraska.

When Mr. B. A. Davey was only 14 years old he ran away from home and boarded a little ship named "Island Queen," and spent some time cruising over the Great Lakes. In 1867 a desire to see Texas seized upon him, and he made his way to the Lone Star State. He has resided in Kimble County many years. For four years he lived up on Bear Creek. He has made his home part of the time with his son-in-law, Felix Watson.

When the first court house for Kimble County was built in 1885, Mr. Davey worked on the job. The house was destroyed

in 1889 and Mr. Davey was the contractor to rebuild it.

Mr. C. B. Davey, who is a rancher and property owner in Canada, made the trip down here to see his brother, coming by way of the Pacific coast.

Together, they left Tuesday for a visit in Old Mexico.

While speaking of his home town, Mr. Davey said that in the summer months, the sun rose at 4 o'clock in the morning and set at 9 in the evening.

They are having a great time talking over the things that have happened during their fifty-seven years separation. Mr. Davey plans to return to Canada soon.

What Is Worse Than A Back-Seat Driver? Two of Them—By Albert T. Reid

ENGLISH HOBOS EDIT AND PRINT OWN NEWSPAPER

Birmingham, England.—The beggars and hobos of Birmingham now have their own newspaper. The title is "Abraham-man's News." "Abraham-man" is English slang for a vagabond.

The newspaper is a single sheet of typed matter, produced on a cheap duplicator. The price is "one flash"—one cent. Despite its vast circulation, this newspaper is completely unintelligible to the ordinary citizen. It is written in a jargon that only those belonging to the craft can possibly understand.

It contains a mine of information for the "blackberry-swagger" (hawker) and other itinerant visitors. The best of the "Woolholes" (poorhouses) are given and all the "ganny vials" (towns where the police discourage beggars and hawkers) are given. The "screever" (pavement artist) is told where he can hire chaffed pictures for a "susheroon" (five shillings) per day. The "gloak" (beggar) who is "quishy" (broke) and can not find "downy earwig" (clergyman) is enlightened by cryptic signs of the whereabouts of the nearest "dolly shop" (illegal pawnbroker) where he can "jug" (pawn) whatever portable property he may have gathered in his travels, and so dine in luxury off a "two-eyes steak" (skipper) or a German duck or sheep's head.

In fact no "maunderer" (tramp) or "tencer" (door-to-door hawker) need "clem" (starve) or do without "show chow" (food) if he follows the many "patterans" (private marks which tramps make on or near the doors of generous housekeepers) indicated in this newspaper.

JUST A STONE

Some thoughtless or don't-care person left a stone on the highway near Silver City after stopping to change a tire. The stone had served to hold his car in place. After he was finished, it was too much trouble to make the slight effort necessary to remove it. Maybe he was in a hurry. He drove away and left it.

Another car came along, struck the stone, turned over and was wrecked. One of its occupants died yesterday from his injuries.

How about a dead man? How about a wrecked car? The man who left that stone on the highway probably knows the result of his carelessness. What does his conscience say?—El Paso Herald.

Iron rust stains on white materials often respond to lemon juice. Spread the stained place over a vessel of actively boiling water and then squeeze lemon juice on the stain. After a few minutes, rinse the fabric and repeat.

AVIATOR PROVES PLANE CAN PERCH ON TREE TO UPHOLD RACE WITH BIRDS

Liberty, Mo.—It has been said an airplane will do anything a bird can do except perch on a tree. Now comes George Leightner, cattleman of Rawlins, Wyo., to remove even that disability.

Leightner sold a shipment of cattle in Kansas City Thursday and used some of the money to purchase an airplane in Marshall, Mo. "I went just fine until I got near here," said Leightner, "but then it began to rain."

Unaccustomed to storm flying, he glided for an open field. His aim was poor and the plane came lightly to rest in the branches of a large tree. Leightner slid down the trunk to the ground. Only a wing strut was damaged.

RIGHT AND WRONG

The world is full of people who never manage to do the right thing at the right time. They are always sold out when the market takes a rise and loaded when it is on the drop. They watch some one else walk off with a bargain that they had made up their minds to grab. "Just too late" is the fatal cause of much of the misfortune and misery of life. From missing a railroad train to missing the pearly gates the failing runs the whole gamut of human experience. If it were less so the scramble for the front seats in the world's show would be maddening. The keynote to success along any line may be struck in the chord. "Do the right thing at the right time." The man who aspires to success must be awake, alert and determined. If there is no "sleeping in harvest" there will be no starving in winter. The reason there is so much poverty amidst the opportunities of the twentieth century is that people are too lazy to even think. The man who uses the intelligence and brawn the Creator has given him will stay long at the foot of the table. —T. P. A. Magazine.

TEXAS NEWS NOTES

Temple's new municipal building, to be dedicated some time in October as a memorial to the war dead of that vicinity, is nearing completion at a cost of \$200,000.

Sheep probably suffer more from parasites than do any other kind of livestock. Pasture rotation, use of forage crops, feeding from racks of bare floors draining or filling swamps, and restraining wandering dogs are valuable measures in parasitic control.

Large and small, Texas' manufacturing plants exceed 44,000 in number with an output valued at \$1,200,000,000 a year.

New Years but it's a damned sight longer from New Years back to Christmas!

KNOW TEXAS

Two thousand, one hundred and ninety-four rural mail routes serve 1,209,000 patrons in Texas at a cost of \$15.25 a year per family. In the United States are 44,288 such routes.

During the first seven months of 1929 Texas started work on 8,917 building projects at a total cost of \$253,060,800.

Four of the 58 active gypsum operators in the United States have plants in Texas, which now stands fourth in gypsum production. Total value of gypsum produced and sold in Texas in 1928 was \$3,094,145.

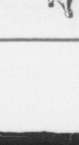

Between 1866 and 1928, inclusive, Texas produced 154,255,204 bales of cotton.

Paved streets are better.

SCHOOL CHILDREN NO LONGER WHIPPED IN ARKANSAS TOWN

School kids of Greenwood, Ark., are jubilant. A former teacher left \$30,000 to the schools of the town. The youngsters' joy is occasioned, however, by the fact that it was stipulated by the donor that no pupil should ever be whipped, no matter what the offense, and the gift was accepted under that condition.

SEALS ARE GIFTED WITH AN INSTINCT

Seals are possessed of most marvelous instincts, says Gas Logie. They know, for instance, exactly where to bore the ice to make their bobbing holes and never waste time or effort on ice too thick to be penetrated. They have some mysterious way also of knowing the width of a field of ice that must either be swum under or passed around.

A mother seal will leave her pup on an ice floe, slide off into the water, travel for a great distance and be gone for hours fishing. Meantime the ice floe, carried by winds and currents, drifts far also. Yet when "quitting time" comes the mother unerringly returns to the right floe, comes up through her own bibbling hole and at once finds her waiting child. Seals normally travel through the water at about 20 miles an hour, but on occasions will "holt" for a short time at a rate of about 100 miles an hour. They can remain submerged without drowning for more than about 20 minutes.

A mother seal among a swarm of seal "pups" is said to be a very curious sight. Many of the "pups" solicit her maternal attention, but she angrily repels them all, finds her own baby and nurses no other. The seal youngsters all look precisely alike to man, but her nose knows!—Exchange.

Texas has 4,500 miles of electric transmission lines with many new lines under construction.

SPIRITUS FRUMENTI FIFTY YEARS OLD EVAPORATES

When the cornerstone of Robertson County court house at Springfield, Tenn., was opened a few days ago, due to a remodeling of the structure, many articles deposited in it a half century ago were brought to light.

One of the items known to have been placed therein was a bottle of whiskey, and on-lookers at the opening of the cornerstone may have had hopes of sampling the famous product. But if so they were doomed to disappointment. The bottle was found, but it was empty, the contents evidently having evaporated. On the bottle was

the inscription: "This whiskey was made at the distillery of Wiley Woodard—and deposited by J. S. Brown, Sept. 26, 1879; whiskey was three years old when deposited."

Many other interesting relics were found in the stone, including newspapers, minutes of official proceedings, lists of fraternal society members, a bank statement and other documents. There was also a coin which is now 191 years old, one \$100 bill and two \$20 bills.

The bills were no more valuable than the empty bottle, however, as they were Confederate currency.

MRS. GREEN ASTOUNDED BY RESULTS OF SARGON

"I honestly didn't believe there was a medicine in the world that could help me like Sargon has."

"I suffered for five long years with stomach trouble and an

MRS. J. E. GREEN almost constant pain in my side. I had rheumatic pains in my limbs and it seemed like every joint in my body ached. It got so bad, I could hardly walk. My liver wasn't active and my whole system seemed full of poisons. My husband was taking Sargon and I saw it was doing him worlds of good so I decided to try it.

"I can eat anything I want now and my stomach never bothers me. That terrible aching in my side is gone and there isn't a rheumatic pain in my body. Sargon Pills regulated my liver and drove all the poisons out of my system, without nauseating or upsetting me in the least. Of all medicines I ever tried, Sargon and the Pills are the only ones that really gave me lasting results."—Mrs. J. E. Green, 2218 Cedar St., Dallas. J. A. Heyman, agent.

MANY FISH DISTRIBUTED AT HATCHERY

Streams in Kimble and Kerr Counties are now being stocked with the fall output of fish from the Heart of the Hills Hatchery, according to manager E. C. Brady. The number of young fish taken from the ponds this season for distribution to various parts of Texas is the largest ever produced at the State hatchery, which is located 17 miles northwest of Kerrville.

Approximately 20,000 bream and sun perch have been planted in Johnston Creek in Kerr County.

Game wardens and other employees of the State Game, Fish and Oyster Commission are ready to begin placing young fish in the Guadalupe River, starting at the headwaters and coming downstream the entire course of the river through Kerr County. Other Kerr County streams are to receive some of the hatchery's output this fall.

All of the fish now being distributed will be within the legal catch limit in about 18 months. More than 20,000 bass and 70,000 bream have already been sent out from Heart of the Hills and this week a good supply of fish remained at the plant, with four more pools to be drained. J. J. Dent, director of State game preserves, of Kerrville, and Frank Cowsett, game warden at Junction, are supervising the distribution of the fish, some of which are taken as far west as El Paso.

The drivers must keep going day and night until they reach their destination. Large milk cans are used in transporting the fish. Water of even temperature with that from which the fish came is used, and must be aerated while in transit. Temperature of water in the cans is gradually changed to that of the stream into which the young fish are to be placed before they are liberated.

The varieties of fish produced at the State hatchery in Kerr County this year include channel cat, large and small mouth crappie, other sunfish and bass. The young bass distributed this fall were four to six inches in length. They were brought to this unusual size by being held in the rearing ponds and being fed well, and Mr. Brady said this had never been done before since the State began the propagation of fish for re-stocking purposes. As a result of the experiment, larger and better bass were raised.

The work of distributing the fish began two weeks ago and will continue for another week. When the work is completed, Mr. Brady will make a detailed report to the State Game Commission covering the total number of fish distributed in Kerr and other counties.—Kerrville Mountain Sun.

Let's pave Junction streets.

FINE PEARS

Mrs. M. J. Nethery presented Mrs. Edgar McLendon with twelve pears from her ranch just east of Junction. The twelve pears weighed twelve pounds. This is another evidence of what fruit will do in Kimble County. Some of these pears weighed as much as one and one-half pounds.

Prosperity too often has the same effect on a Christian that a calm at sea has on a Dutch mariner; who frequently, it is said, in those circumstances, ties up the rudder, gets drunk, and goes to sleep.

—Bishop Horne.

When in need of any kind of building material, such as lumber, cement, lime, tile, etc., call or see Dan St. Clair. 48fc

SPICK AND SPAN ALWAYS

THE TEST

Suppose you use this little test
Next time you'd like to know
What really is the very best
In choice of ways to go.

Suppose that everybody went
The way you're 'bout to choose—
Would all the world be better off?
If not, old man, you'll lose.

Suppose that everybody said
The thing you're 'bout to say—
Would that same thing in aggregate
Help on the world today?

Suppose the thing you think about
Was entertained in thought
Of every person on the globe—
Would earth be what it ought?

Suppose you use this little test,
Not merely read it here,
But work it every time you act,
Or think or speak, old dear.

MacDONALD IS PEACE PRORHET

Ramsay MacDonald's visit to the United States is important for many reasons—but perhaps most important because he comes as a messenger of peace, with the intention of hastening the world-wide peace movement. When Armistice Day comes this year, the outlook for world peace, we hope, will be much brighter because of MacDonald's visit.

We have made many sacrifices for war, says MacDonald—why not make some sacrifices for peace? These words are noble and beautiful. They point at a new era of international understanding, and loving-kindness the world over.

This apostle of peace—this good will messenger from Great Britain—comes not as a Prince or King to these shores, but as simple Ramsay MacDonald, son of a Scottish farm laborer. When Hoover and MacDonald speak, two men speak who have risen from poverty to great leadership, two men who have treasured and never abandoned the simple, sincere manners of their origins. Let us hope the accomplishment of these two figures, acting in friendship and co-operation, is great indeed.

Do not worry; eat three square meals a day; say your prayers; be courteous to your creditors; keep your digestion good; steer clear of biliousness; exercise; go slow and easily. Maybe there are other things that your special case requires to make you happy, but, my friend, these I reckon will give you a good lift.

—Abraham Lincoln

BILLIONS FOR BEAUTY. LITTLE FOR DEFENSE

Chicago.—Miss America and her mother spent \$1,825,000,000 for face powder, soap and cosmetics in 1927, and Uncle Sam paid out only \$1,617,000 for gun-powder and ammunition.

These figures have been compiled by Columbus D. Behan, business manager for the sixth Midwest beauty trade show. Furthermore, he asserts, aids to beauty in 1927 cost more than the budget expenditures of New Jersey, New York and Pennsylvania in 1926.

Women of America last year spent \$585,157,477 for gowns and dresses, \$350,000,000 for jewelry and \$309,856,341 for millinery, making a total of \$1,240,013,813. Just compare this figure, says Behan, with the 1927, and Uncle Sam paid \$192,142,000 spent by Illinois, Ohio, Indiana, Michigan and Wisconsin in 1926 for expenses and interest charge on bonds.

Reporter: "And in what state were you born, professor?"
Professor: "Unless my recollection fails me, I was born in the state of ignorance."
Reporter (scribbling): "Yes, to be sure. And how long have you lived there?"

JUNCTION EAGLES

(Continued from page 1)
punt out of danger.

Thus the tale hangs. Throughout the first half, the Eagles consistently played the Ballinger team off their feet. So unexpected to the Bearcats did this flashing offensive come, that they were completely thrown off their guard. Playing on the offensive throughout most of the first half the Eagles managed to make four first downs whereas the Bearcats did not push over but two first downs in the first half of the game.

There were eleven Junction men fighting when that game started Saturday afternoon, and when the game ended the same eleven men were still battling and fighting with all the skill and power that Coach Bowers has instilled in them. In the first of the second half Beasley substituted for Duderstadt but Duderstadt was sent back into the game soon afterwards.

First Quarter

Ballinger won the flip and elected to receive. Ake gave the ball a mighty ride and it went sailing out of bounds. The ball was kicked again. This time Ake kicked forty yards. Ballinger returned ten yards. An attempt around right and lost the Bearcats exactly one foot of ground, which was tough on the confident Cats. One of the Bearcats was injured on the play and time out was called by Ballinger. On the next play, the Bearcats made six yards through center. Then they made a mistake and tried to tear off through right tackle where they were thrown for a 1 yard loss. And lo! the haughty Bearcats were forced to punt. A forty yard punt was returned thirty yards by the fleet Coleman. Richardson circled right end for 4 yards. Ake was stopped on an attempt through center. Hubbell carried the ball for a first down. Ake carried the ball out of bounds on the next play. Coleman fumbled on the next play but recovered the ball having lost seven yards. The next play was a pass which was intercepted, but Cochran downed the man practically where he caught the ball. The Bearcats, with their ire aroused, attempted to go around left end and lost only 5 yards. Again the Ballinger team was forced to punt. This time the punt went 45 yards. Junction's ball on their own 32 yard line. Ballinger, for the second time called time out. On the first play, Ake tore through center for 3 yards. Richardson made 1 yard on the next play. Witt added one yard on the next play. Ake was called back to punt, but the Ballinger line tore through and blocked the attempt. Ballinger got the ball deep in Junction's territory. A terrific attempt to crash through center netted the visitors one foot. Then on the next play, Munn rushed through and threw the ball totter for a 5 yard loss. A pass was incomplete. Ballin-

ger got off a ten yard punt on the next play. Richardson lost 3 yards. Junction punted again and it was blocked, but Junction recovered. Ake gained 1 yard. Coleman tore off 6 yards. Ake plunged through for a first down. Quarter ended. Score 0 to 0.

Second Quarter

Richardson gained 2½ yards. Witt romped through center for 6 yards. Hubbell aided the cause with two more yards. Ake then took the ball and dashed for another first down. A pass was incomplete. Coleman failed to gain when the bulky Smith stopped him at the line. Richardson ripped off three yards. Ake was called to punt and he booted the ball 40 yards. Ballinger got the ball on her own 20 yard line. For the third time Ballinger called for time out. An attempt through center failed to gain. A pass was incomplete. Ballinger punted 35 yards. Coleman returned the punt 10 yards. Junction was penalized fifteen yards for holding. Richardson made 2 yards. Ake punted, and Ballinger returned 20 yards. Chastain was downed in his tracks. Ballinger was penalized fifteen yards for using hands on the offensive. A center rush gained 8 yards for the Bearcats. A pass was incomplete. A second pass was incomplete, and Ballinger drew a five yard penalty. The ball went over to Junction. Ake punted and Ballinger returned 8 yards. Time out for Ballinger. Coker lost one yard on a lateral pass. On the next play Munn made a beautiful tackle, refusing to let the Bearcats gain an inch. Ballinger punted. Coleman returned the punt 20 yards making a beautiful run. A pass from Richardson to Coleman failed. Richardson lost 1 yard. Another pass was incomplete. Half ended. Scores 0 to 0.

Second Half

Jake Beasley went in for Oscar Duderstadt. Ballinger kicked. Junction returned 12 yards. Richardson failed to gain around right end. Ake took the ball for a two yard trip around right end on the next play. Ake punted 35 yards. Ballinger returned 15 yards. Two line plays netted the Bearcats 4 yards. Another play gave Ballinger a first down. Junction intercepted a pass on the next play and returned the ball 10 yards. Richardson went around end for a beautiful run and first down. And the boy was running when he circled that whole pack of fighting Bearcats. Witt went through center for 3 yards. Ake was stopped on an attempt through the line. Time out for Junction. Junction fumbled on the next play and Ballinger recovered. The Bearcats made 3 yards. Then they rushed through for a first down. Duderstadt went back into the game, relieving Beasley. A pass was completed for another first down. The next pass was incomplete. The visitors gained 2 yards off tackle. The quarter ended. Score 0 to 0.

Final Quarter

It was Junction's ball on her own 20 yard line. Two line plays gained 4 yards. Ake punted out on the fifty yard line. And then the wind started to blowing. The cat spread over the field, hiding the players. Jim McWright, fleet Ballinger back, tore off right tackle for 20 yards. Two more plays through the line gave the visitors another first down. On the next play Ballinger scored the only touchdown of the game. McWright carried the ball across the line for the extra point, making the score 7 to 0. The remainder of the game was played in a sand storm mingled with a driving rain. The game ended 7 to 0.

L. E. Dunbar, who had been sick during the first of the week, gamely played through four quarters and came out of the game pale and weak, but a hero. L. Dunbar playing on the opposite end, turned in a nice game, making several beautiful tackles. The entire line functioned well and held the heavier Ballinger thrusts.

Some tribute must go to that short little fellow named Jim McWright who paved the way for the Ballinger victory. This little fellow is a beautiful runner and a clean ball player. He was largely responsible for the Ballinger victory.

The starting line-up was:

Junction	Pos.	Ballinger
L. Dunbar	RE	Lusk
Ragland	RT	G. Smith

Duderstadt RG Malone
Munn C Reese
Middleton LG Cochran
Witt LT S. Robinson
L. E. Dunbar LE J. Robinson
Coleman Q Underwood
Ake LH McWright
Richardson RH Coker
Hubbell(c) F Chastain(c)
Coaches—Earl Bowers, Junction;
Felton Wright, Ballinger;
Assistant Coach, Ballinger, R. Davis.
Head line-man—Vic Urban.
Umpire—Rip Martin.
Timekeeper—Dick Boone.

CLASS PARTY

Thursday afternoon Mesdames Walter Tinsley and Forrest Weldon were joint hostesses in entertaining the members of the Efficiency Class of the Methodist Church, and also a number of friends, at the residence of Mrs. Tinsley.

Silhouettes of black cats, witches and Halloween sprites adorned the walls of the living room. Vases and bowls of colorful zinnias provided further decoration.

An interesting Halloween contest was much enjoyed. Miss Austin Durst carried off the contest honors and was awarded with a pretty framed landscape scene. The booty, a Halloween cap went to Mrs. W. M. Alexander.

Mrs. Conde Hardeman pleasantly read "Daddy", accompanied by Mrs. C. W. McCarroll at the piano.

The guests were asked to smile; the smiles were measured and paid for at ten cents per inch. This money has been added to the building fund of the Methodist Church.

At the close of the afternoon, a witches hand out of jack o' lantern sandwiches, cake and witches brew (hot tea) with plate favors of bags of Halloween candy were served. Colorful napkins added to the attractive plate.

Those present were Mesdames Alex Wahl, W. M. Alexander, W. M. Taylor, W. W. Barnes, G. H. House, Lilly Nichols, Ada Dockery, R. L. Becker, J. S. Roe, H. H. Lawler, Joe Ramsey, Grady Kinrick, Charles Henderson, Conde Hardeman, C. W. McCarroll, Misses Ruby Newman, Austin Durst, Ruth Morris and Mary Ellis Blackburn.

...our Faith
in You!

THE electric light and power system in many towns represents the heaviest industrial investment in the town.

Present-day utilization of electricity in domestic and commercial life calls for great power generating stations and costly distribution systems. When selecting factory locations, big industries first ascertain if uninterrupted electric service is available.

When a company invests millions in generating stations to serve a group of cities and towns it is certainly a concrete indication of the company's confidence and faith in the towns.

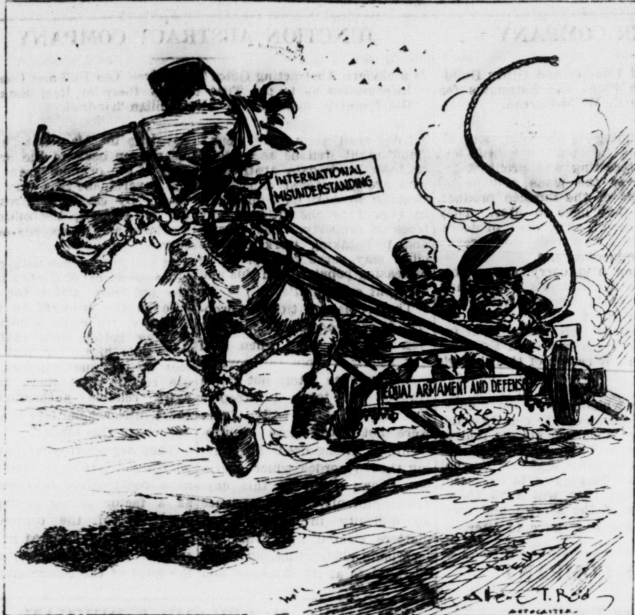

The West Texas Utilities Company has built three major generating stations, and maintains 15 auxiliary power plants, to give unfailing service to the 110 prosperous cities, towns and communities on its properties.

This company is vitally interested in the progress and development of every community it serves. Your success is its success therefore it is one of your most active civic boosters and one of your most substantial citizens.

Company**

The Old Fashioned Breaking Cart

By Albert T. Red

New Legion Head

Major O. L. Bodenhamer of 83 Dorado, Arkansas, who was elected at Louisville, Ky., as National Commander of the American Legion, succeeding Paul V. McNutt.

Rightly dividing his pile of cash is a religious matter to which every man must give attention.

Nature Provides for Trees in Winter by Annual Leaf Fall

The falling of autumn leaves is the annual sign that Mother Nature has made provision to save her trees from dying of thirst during the winter.

This explanation may serve to soothe the ruffled feelings of some owners who are now busy raking up the leaves.

"On the average tree there are several acres of leaves—literally millions of them. Every leaf gives off water. But during the winter the tree's roots absorb very little moisture. Consequently, if the leaves remained on the tree and continued to tap the water supply, the tree would soon die. So Nature sentences the leaves to death.

"The process used by Nature to make the leaves fall is complicated. Weeks before the first frost she begins to extract from the leaves all the food substances which the leaves manufacture and which the tree needs, and gradually the leaves wither. Simultaneously, a thin-walled layer of cells is formed at the base of the leaf where it is attached to the twig. This layer is a zone of weakness so that eventually the leaf falls of its own weight or is blown off by the wind.

"The scar left by the falling of the leaf is well protected by Nature. It immediately becomes covered with a substance which is practically waterproof. Since the bark of the tree also is almost impervious to water, the entire tree is practically 'bottled up' for the winter.

Texas is first in railroad mileage with 16,429.43 miles. More new construction is under way now than in any other state and will increase that total by several hundred miles within the next year. Illinois with 12,004.17 and Pennsylvania with 11,261.05 are second and third.

The first printer's ink factory in the South is to be established at Houston by the Howard Flint Ink Co. of Detroit, Pittsburgh and Indianapolis. Proximity to the largest available supply of carbon black in the United States is a reason for the location.

Kimble Ranchers Compile Records Of Wool Clip

The hit and miss way of doing business is being rapidly eliminated in farm and ranch management. For the past several years much stress has been laid upon the keeping of production records of milk, butterfat, beef, lint cotton, maize and all grain sorghums, corn and small grains but it is seldom we see much concerning the weight and staple of fleeces produced by sheep and goats. Selection of individuals at culling time is better than no culling at all, however, black on white records are the only means of knowing actual gain or loss.

Several ranchmen have reported their average wool production per sheep during the late shearing season which is an indication that they are at least interested in breeding up their stuff. The use of good sire and dam makes a great difference and it is generally conceded that good rams and bitches are half the flock. Why not take an inventory and see if you are really doing all that you possibly can toward a real constructive program.

Mr. George K. Pepper reports that his lambs averaged 3.9 pounds this fall which he states is an increase of several per cent over previous lamb shearing weights.

Mr. H. E. Bossmann recently purchased a small flock of registered Rambouillet yearling ewes at San Angelo and during the past week made the following report to county agent, R. E. Homann: These 21 yearlings, three of which still had their lamb teeth, sheared 378 pounds, or an average of 18 pounds per sheep. The wool was a thirteen months clip and of a very nice staple. Careful selection of individual ewes and rams will make this foundation stock much sought after in the future.

STOCK SALT AND FEED

Before buying your stock salt, cake, corn and oats see Dan St. Clair. He can supply your needs along this line at special prices.

Paved streets are better.

COTTON SEED MEAL AID TO CREEPY CATTLE

Because of a number of inquiries concerning creepy cattle the following recommendation may be valuable to those who have cattle affected with creeps. Cottonseed meal or cake will assist in restoring animals to their feet, according to County Agent R. E. Homann. It is advisable to feed this high protein feed with other concentrated feeds such as grain sorghums and bran which serves as a laxative.

In order to prevent creeps Dr. H. Schmidt, veterinarian from College Station, makes the following recommendation. A mixture of three parts bone meal and one part salt will prevent creeps. It is suggested that this mixture be fed in a rather narrow and fairly deep trough so that there may be very little or no loss from wind blowing salt and bonemeal out. Dr. Schmidt states further that results obtained at the experiment station show exclusively that the increase in calf crop and weight of calves will more than pay for the cost of bonemeal and salt and no losses were sustained from death of cows.

KEPT OUT OF THE SOUP

Winston-Salem, N. C.—At the Walter Franklin farm an upland terrapin, said to be older than the United States, has been captured. In the bottom of the terrapin's shell is the mark "1774."

Try a mock duck when you want a palatable, inexpensive baked meat. It's really a flank steak, stuffed with a bread crumb dressing, rolled, tied and baked. Be sure to roll it lengthwise so that in carving the meat is cut across the muscle.

Goodyear tires. More people ride on GOODYEAR than on any other kind. Get your set now during our October Special sale and save money. 26c Loeffler Motor Company.

Texas produced 99,162,000 bushels of corn and 35,751,000 bushels of oats in 1928.

PANTS WILL BE WORN

The dress reformers are still reforming dress—for men. Half of them are trying to make men style-conscious and the other half are trying to release the poor creatures from the tenacles of style.

Every once in so often you read that men are going to wear blue kid dancing pumps to work and adopt nine-button vests and lace up the back spats. That is pretty apt to be from a source close to the novelty manufacturing business. Then perhaps the next day a gentleman comes forward with a plea for the abolition of the collar and coat. He, of course, is the simon-pure reformer.

They are saying now that next year the menfolk will break out into color, short pants, sandals and elbow sleeves with lots of neck and wishbone exposed to the sun, air and dust. The ladies rejoice, they say—when they saw it in print most of these articles being by the women anyhow—and find the men at last about to express their personality. For when a young woman with knock knees and bowed shins fares forth in a skirt "way above high water," she is expressing her personality mind you. Well, it seems that the male of the species is about to express his personality.

One delightful fashionist doubts if men will ever wear skirts. But she thinks they will find cerise silk shirts helpful to their ego. And with their poor dear legs partially released from the encasing tubes which we call trousers sometimes and sometimes long pants, they will look like—well, what you might expect. But even though the unmentionables be abbreviated, they will still be pants. Man's badge of authority itself, will have been curtailed, it seems. But, thank goodness they're going to let them wear pants. Many a man will sigh a fervent sigh of relief over that.—Dallas News.

PHILIP JOSEPH

INDUSTRIAL REVIEW OF JUNCTION BUSINESS FIRMS

JUNCTION STATE BANK

Employs a Modern System of Finance Which Meets Every Requirement of an Up-to-Date Banking Service. This Institution Has Been a Vital Factor in the Development and Increased Prosperity of this Section.

The service offered by the modern financial institution is a far cry from the banking service that was available in the ancient and medieval times. If we roll back the scroll of banking history, only as far as the beginning of the Rothenburg era, we find that banking service consisted only of making loans and accepting deposits. In fact the attitude and policy was often indicative of a desire to gain unfair advantage over those who enjoyed the aid and service that banks at that time rendered. Usurious rates of interest were charged and the policy followed was one that oftentimes was a menace to the general welfare of the community in which it served.

However, today, we find that there is probably no other business which is so absolutely essential to, and which is so voluntarily solicitous of the general welfare of the community in which it is established.

The Junction State Bank are manufacturers whose product is credit. Their knowledge of men, markets, commerce and finance place them in a position to render a service of their own section which is unequalled by any other business; these substances are the raw products which they weave into a fabric of mutual confidence which is credit.

This pillar of financial strength has acquired a reputation for following only the policies which are beneficial to this section of the country. Whether their patron is a large corporation or a humble individual they rigidly adhere to the policy of extending the same courtesy and giving the same cheerful attention to any problem which is offered to them for solution.

Their executives are men of wide experience in banking circles and are fully competent to cope with every financial problem which they are called upon to solve.

McCARROLL LUMBER COMPANY

Features the Best Quality of Seasoned Lumber and Other Building Materials and Can Assist With Plans and Estimates for Any Sort of Building. Managed by C. W. McCarroll.

The McCarroll Lumber Company has become known as a leader in the lumber and building business. This reputation has not been acquired by any spectacular display of service, but has come as a result of consistent endeavor, on the part of the management to always have on hand a complete stock of the things, for which there might be a demand in the building game.

They have on hand at all times a complete stock of seasoned lumber, laths, shingles, and other kinds of building materials, all of which are bought in such large quantities that they are able to sell at reasonable prices. They can supply you with plans and architect's drawings for any type of building one could desire and give you a close estimate on the cost of it. If you are planning on

a building of any sort, and especially a home, you will find it interesting and profitable to go over the plans and photographs of the finished product, that they have to offer. They also have a large stock of doors, windows and mill work ready for immediate use.

They also carry a complete line of Builder's Hardware. Their stock is replete with many bargains.

Another important reason for the business success of this firm is that, by reason of their knowledge of the industry, they can offer suggestions to their patrons which save them money. You will enjoy the courtesy and service that you always find in dealing with the McCarroll Lumber Company and we do not hesitate to suggest to our readers that they will avail themselves of the service and merchandise they have to offer.

SCHREINER-HODGES COMPANY

A Store With an Unexcelled Reputation That Has Served This Section for Over 23 Years With Dry Goods, Ready-to-Wear, Groceries, Etc. Managed by Mr. J. N. Hodges.

The business lifetime of the average successful business in the United States is, according to government statistics, three years. There are many who continue to be successful for a moderately longer period, but there are only a few which are able to go past the 15-year mark, and there are only a select few which pass the quarter-century mark in continuous business.

To enjoy such a protracted tenure of business success such as the Schreiner-Hodges Company has enjoyed, is a finer tribute to their business policy and the quality and values represented in their merchandise, than words can convey.

This company has always had the best interest of this section as a part of their business policy or else they could not have existed one-half as long

as they have. They are today offering the finest, most popular and most exclusive lines in men's and women's wear that the market affords. Suits, hats, shoes, shirts, ties, etc., all of which bear nationally known trademarks will be found in their men's department. Their ladies' department is likewise a vast array of the most exquisite and popular lines. The dry goods department is completely stocked with a large variety of fabrics in many colors and of various qualities.

You will find what you want at Schreiner-Hodges, whether your needs are large or small as they can practically outfit the entire family in either ready-to-wear or dry goods. They also carry a complete line of staple and fancy groceries, hardware and miscellaneous supplies.

CITY MEAT MARKET

The City Meat Market, Located in Junction, Where They Maintain an Up-to-Date Meat Market. Owned by Forrest J. Weldon.

"The Meat Eaters Rule the World." This statement is found to be invariably true when one takes a census of the ruling nations of the world. The Orientals with a rice diet and the inhabitants of the tropics with a fruit diet occupy a place of inferiority when compared with the meat eating nations. There is more energy, both physical and mental, embodied in meat than there is in any other like amount of uncondensed food in the world. This fact accounts for the meat-eater's superiority over all other peoples.

The City Meat Market occupies a place of paramount importance in this district in that they maintain one of the best equipped and most up-to-date meat markets in this section. Their fixtures and general equipment is of the finest and most modern, and is such that they can expeditiously handle all stocks and make their store a convenient one from which to buy.

They use the most recently discovered methods of refrigeration, and sanitation is a byword. Hence their stocks are always found to be in an extraordinary pure and fresh condition.

In studying the needs of the people, this firm has learned among other things of importance that as complete a stock as possible must be kept on hand at all times. They have also rigidly adhered to the business principles of giving each patron the same service and attention. Since these principles are a part of their business policy it is not strange that they occupy a leading place in their business.

We are pleased in this issue to refer our readers to the City Market as a business "house" which is successful, because they consistently and faithfully supply a constant need to the public.

ENRICH LIFE NOW

What a patient people we are! How goodnaturedly we postpone our pleasures and put up with inconveniences! We think, "When the children are older, we will landscape the yard." "When Jane begins to have beaux, we will buy her some new furniture." "When George is through school, we will learn to play golf."

So we peg along, with our noses to the grindstone, until we are too old to get the most out of the trip! or the loved one, whose life might have been prolonged by golf, is gone.

The time to snatch joy is now, while the family circle is unbroken, while we have youth enough to relish the

good to grow up with that furniture and landscaping, and think how many more years the family group will have to enjoy them.

Thrift is wise; but, having made up our minds to annex a convenience or a pleasure, we can nearly always manage it. With an objective, the family will work a little harder or save on something else, and in a year's time, we will never notice the difference, but will have had more of the fullness of life to enjoy and to treasure in our memories. The experience may even make us bigger and more capable and we may be money ahead for the investment. Don't spend all of life sharp-

JUNCTION ABSTRACT COMPANY

Is a Modern Abstracting Office That Gives You Full and Complete Information as to the Title to Any Piece of Real Estate in the County. Managed by Miss Lillian Kindrick

"We read your title clear." That might well be the slogan of these up-to-date abstractors who are considered experts in clearing up those hazy questions in regard to the title of any piece of property. The careful and painstaking work of this office may serve to explain its increasing popularity in this and adjacent communities.

The problem of titles to property is common to all communities. At the time when land was acquired from the government, or even later, not much trouble was taken to keep a clear record of the title. There were not those close requirements of giving deeds and having them recorded which everyone knows about in this day. This community need experience no difficulty in having such matters cleared up. This enterprising abstracting office has all the data at its command and

any title in this county can be cleared up back to the original sale or the original grant from the government in a very short time. By carefully investigating all sources, the office has available all the records of this county.

If you are contemplating buying a piece of property; if you are not sure about the clear title on the property in which you live, we could recommend nothing better than that you have this highly efficient office look up just such matters. We are certain that there are no more reliable authorities on these intricate matters than the experts in this office.

They are progressive business people and believe in their work as a constructive business and as a factor in increasing the solidarity of the community. They are whole-hearted in their support of any live project for the good of the community.

RILEY, HOLEKAMP & DENMAN

With Offices in Junction Offer to this Section a Complete Service in the Insurance Business. They Can Supply You With Any Known Kind of Insurance.

Representing as it does, some of the largest and most reputable companies in the country it is not strange that this insurance agency should enjoy a large patronage from all the surrounding territory. The unusual success it has enjoyed, however, is due to the fact that the managers appreciate the value of real service in business.

Ever since Riley, Holekamp & Denman began operations in this section they have been at the service of their patrons at all times, willing and anxious to give any information desired and assuring all persons that no obligations were incurred merely by asking questions.

There can be no question but that insurance is one of the

essentials of the property owners and this agency renders not only the services of insurance experts but of companies that enjoy enviable reputations throughout the country.

They sell fire, accident, compensation, explosion, plate glass, liability and other forms of insurance, including tornado and automobile. In fact there is no known kind of insurance with which they can not supply you.

This firm's business has added greatly to the growth and prosperity of this locality and it is recognized as one of our most stable and necessary institutions. Personal attention is given to all adjustments and payment made in the shortest possible time. We are glad to refer you to this office if you are in need of any insurance.

JUNCTION BATTERY AND ELECTRIC CO.

Located on Main Street, is One of the Prominent Electrical Service Stations in This Community. They Feature Sales and Service on U. S. L. and Willard Batteries. Under the Management of Mr. Leonard Cowser.

What the nerves are to the body, the electrical system is to the automobile. This statement contains a great deal of truth. No part of the body needs more skilled and careful attention than does the nervous system and likewise, no part of the automobile requires more delicate adjustment and skilled repair than does the electrical system. With most motorists, no part of their car seems to get out of order as quickly as the electrical system.

The motorists of this community can do nothing better than avail themselves of the excellent service offered by the Junction Battery and Electric Co. The particular specialty of this shop is automotive electric service and 1930 motor maintenance. They feature the well-known Willard and U. S. L. Batteries, which are recognized leaders in the battery world, and they carry a more complete stock of automotive electric parts than will be found in

most Repair Shops in the county.

Not every one can become a competent electrical engineer for to be such one must have a thorough knowledge of one of the most intricate of all sciences and it is a study of years. The men working at this establishment have spent years in mastering the laws of electricity and the work it does, and when we consider this business from any angle, we find that Junction is favored with a real leader in this particular business and motorists of this community should consider themselves fortunate to have a concern available which is equipped to do such efficient repairing on all kinds of automotive electric systems, from airplane motors on down.

The manager, Mr. Leonard Cowser, has built up his business on a foundation of square dealing and we wish to compliment him upon the modern and up-to-date establishment over which he presides.

ening the axe. Fell a few trees today.—Winters Enterprise.

PREVENT FIRES!

Annual fire prevention week, which has just closed, was in a way a commemoration of the great Chicago Fire of 1871, for it was on October 8, 1871 that Mrs. O'Leary's cow kicked over a lantern and started a conflagration which raged two days and nights, killing 250 persons and destroying \$195,000,000 worth of property.

Since 1926, those sponsoring Fire Prevention Week disclose there have been diminishing fire losses. Nevertheless, in the

last year for which statistics are available, 1926, ten thousand persons were killed and property worth nearly half a million was destroyed by fires in the United States.

Most of these fires were preventable. It is said that ninety per cent of the deaths and destruction were avoidable. It is up to every citizen to keep in mind always the necessity for constant watchfulness and care to prevent fires. The penalty of neglect in this respect is heavy indeed.

The preacher who does not practice what he preaches, preaches too much.

FARMER FURNITURE COMPANY

Located on Main Street and Offering a Metropolitan Stock of Furniture at Satisfactory Prices; They Do Much for This Section by Making Houses into Cheerful, Happy Homes.

If we would but stop in our mad rush forward and look back over the centuries which have elapsed since those early civilizations existed along the Nile and Euphrates Rivers, if we would go back to the dawn of history or to the very beginning of time and stroll down the highway of human history, studying the mule posts as we pass them, then, and only then, would we realize the antiquity of the Furniture dealers' profession, then and only then could we appreciate the importance of his counterpart in ancient times.

We read of the fabulously expensive fixtures employed in Cleopatra's Nile river house; we read of the luxuriously appointed apartments of Nero; we read of the sumptuously furnished palace of King Louis XIV which still stands as he planned it; and so until we find whether weakling or genius, the ruler and ruling classes in ancient and medieval times have had good furniture woven with strong thread into the tapestry

of their private lives.

But where in the olden days the cabinet maker served only royalty and nobility, we find that the present day furniture store service is sought and enjoyed by all. He has made it possible for democracy to acquire beautiful home interiors and as the selection and quality of the furnishings in our homes is of paramount importance to our happiness and peace of mind, this is a real service. Indeed, there is probably no other one material thing that exercises so great an influence on our tranquility of mind as does the quality and serviceability of our furniture.

The Farmer Furniture Company carries a full line of the most beautiful and serviceable furniture to be had and can correctly advise you on the selection necessary to obtain a cheerful and harmonious home atmosphere, and yet keep the ruler and ruling classes in ancient and medieval times have had good furniture woven with strong thread into the tapestry

McINNIS DRUG STORE

Featuring Prompt Service and Prescriptions and Carrying a Complete Line of Drug Store Products at the Same Prices in the Larger Cities.

No longer does the name drug store signify an establishment where rows of ugly bottles meet the eye of the visitors.

The old fashioned drug store of yesteryear has given away to and been supplanted by, what is probably one of the most serviceable institutions a new town may boast of, namely the modern, up-to-date drug store.

The McInnis Drug Company must certainly come under the latter classification and is ready and able to supply this community with a more diversified line of merchandise than any other line of business.

They offer drug products at the consistently cheaper prices for which they may be obtained in metropolitan drug stores. Their drug line is a complete stocked one of unsurpassed purity and they are well known for the absolute care and efficiency they exercise in filling prescriptions.

Aside from drugs, they offer a line of merchandise which will not suffer by comparison with that of other drug stores in either quality, completeness or price charged.

A full line of high grade stationery at reasonable prices and toilet articles for every call, including perfumes, not only of American manufacture, but many of the choice importations, are offered to a critical public.

We are proud of their success and take this opportunity in thanking them for the benefits this and adjacent communities will receive from their store. This store is owned and managed by Mr. Palmer McInnis, and we are pleased to say that it is one of the finest and most up-to-date drug stores in this section.

MARRIAGE LICENSES

The following marriage licenses have been issued since our last report:

George Schneider and Miss Mary Perry.
Howard Blackburn and Miss Tommie Smith.
Thomas Whiteley and Miss Louise Whiteley.
Elgin Dechert and Miss Lola Grobe.

Perry Dechert and Miss Merle Merchant.

W. H. Sheppard and Mrs. Margaret Pool.

BOX SUPPER

A box supper will be held at the Hull school house Saturday night, November 1. The proceeds will be used for the benefit of the Hull school. A cordial invitation is extended every one to attend this supper.

Love has no need of thermometers.

INDUSTRIAL REVIEW OF JUNCTION BUSINESSES

TEXAN BEAUTY SHOP

Which is located in Junction, Offers to the Ladies of this Community an Opportunity to Receive the Latest in Coiffure Styles, Facial and Scalp Treatment and Specializes in Permanent Waving. Owned by Mrs. T. B. Phillips and Managed by Miss Gladys McKay.

This is a business which we wish to call to the attention of the ladies of this community as it is considered solely for their benefit. This is a day and age when women, both old and young are paying more and more attention to the little things which make them more attractive and which keeps them from having to look beyond their years. Both the social and the business woman of today are aware of and demand the full value of correct personal appearance.

For years men have been having their faces massaged and their hair taken care of by men who make it their business to know what is the best and what should be done to preserve hair and remedy facial troubles. It is only in the last decade that

the women have realized that it was necessary to have their work done, for they thought if their hair was clean that was all that was necessary. In the modern beauty parlor of today it is possible to have the face treated in such a way that the wrinkles and skin troubles vanish and with them years.

Study and experience on the part of the manager, Miss McKay, who is a graduate operator, has placed her in a position to offer valuable suggestions as to the care and treatment of your hair, her expert opinion being one that is unusually good in the beauty parlor business.

In closing we wish to suggest a visit to her parlor will result in your finding out many little things that really count and which you will be able to use to your advantage in the future.

CITY CAFE

Located in Junction is a Popular Cafe which is an Epicurean Rendezvous Twelve Months of the Year. Offering the Best in Delicious Home Cooked Foods and Cafe Delicacies. Managed by Barney Williams.

In this age when the whole strata of our business and social life is so rapidly changing from the long established customs of two decades ago, there is no business which has been and is making such rapid strides and gaining such increased popularity as the modern restaurant business. With the coming of every year we witness an increasing disposition on the part of the public to avail themselves of the delicacies and splendid foods offered by the modern cafe.

The City Cafe is one which is certainly able to qualify as most modern and they know how to make dining a real pleasure.

There are many things which go to make a pleasant meal and the City Cafe is succeeding in an admirable way in making

it possible for their patrons to enjoy just such meals.

Their chefs are widely experienced for one finds that here foods are always splendidly seasoned and cooked to suit the individual taste.

Another very important feature of their business is service. Here you are served in a truly delightful manner by experienced employees who are very solicitous of each patron's wishes and who have the ability and desire to make a diner enjoy his meal.

These are some of the reasons why the City Cafe is one of the most popular social centers the year around, and we suggest to our readers that they avail themselves of a delightful experience by dining at the City Cafe more often.

WEST TEXAS UTILITIES COMPANY

Is a Popular Public Utilities Concern that is Doing Much to Aid in the Rapid Expansion of This Community by Furnishing Electrical Power and Light and Satisfactory Service to All Their Patrons. Mr. V. P. Emmons, Manager.

When the people of this community stop and consider the importance to them of the public utilities service such as the West Texas Utilities Co. renders, they indeed have cause to congratulate themselves. In this edition we wish to direct your attention to this enterprising and large concern as one of the most important assets of this community and as one of the institutions that is assisting in making this a more progressive and pleasant city in which to live.

The growth and prosperity of this community has been largely due to the type of service that it renders to its patrons. Every effort is being exerted and no time or expense spared to render a service which meets every requirement at all times. This policy has enabled the West Texas Utilities Co. to expand and assume their present perfection—the perfection which

allows them to maintain modern and up-to-date electrical plants and to furnish satisfactory service to all their patrons.

At the West Texas Utilities Co. offices and show rooms in Junction you will find the latest word in electrical appliances. Their stock includes the standard lines of electrical refrigerators and many other smaller electrical supplies such as heaters, percolators, toasters and waffle irons which are products of nationally known electrical supply houses. These are the things which always make housework a joy and pleasure and eliminate much of the monotony and drudgery that housework is often composed of.

We take pleasure in complimenting the West Texas Utilities Co. on their superior electrical supplies and their excellent service that they are rendering to this community.

POWELL MOTOR COMPANY

Located in Junction and Featuring Automotive Service in its Broadest Sense is a Real Metropolitan Establishment. Local Representative for Kelly-Springfield Tires. You May Have Your Car Greased and Oiled While Shopping.

We are pleased in this edition to refer our readers to the Powell Motor Co. as one which is not only one of the largest, but as one which is undoubtedly offering a more complete service than will be found in any other service station in this district.

This is an establishment which would be a distinct credit to cities much larger than Junction for here you find efficient and expert tire men and service employees that are ready and willing to serve you.

Because of their large volume of business, they have unexcelled buying power for this section and as a result they can save the consumer money in the tire market. They feature the Kelly-Springfield tires which are conceded to be the

leader in both longevity and easy riding qualities.

They have kept abreast of the times by providing a large stock from which to choose. Gas and oil is also a part of their business, both of the best quality Texaco and the oil is time tested for hardest wear. A complete greasing service is offered and they are very careful and efficient in this line.

This establishment is owned and managed by Leon Powell who has merited the large and successful business he enjoys because of the square deal methods he employs in his business policies. It is with distinct pleasure that we in this review congratulate him on his splendid institution that service and efficiency have built.

and open for business. Mrs. Leo Farmington is in the hospital at Kerrville. Mr. and Mrs. Lee Merck and baby of Sheffield, Mr. and Mrs. Earl Merck of Eldorado and Miss Ora Merck of Sonora visited Mr. and Mrs. Harry Thiers Sunday.

Mr. and Mrs. Fred Lester moved from Camp Wagoner to the Charlie Taylor house Wednesday.

Mr. Loss Davis was a Roosevelt visitor last week.

Miss Allen of Corpus Christi was a week-end visitor at Mr. and Mrs. Jess Otte's.

We had another fine rain last Saturday evening.

NORTH LLANO NEWS

The Bois D'arc box supper given last Saturday night was a wonderful success.

Mr. and Mrs. A. L. Mudge and Mr. Felix Watson are spending a few days at Sierra Blanca visiting Mr. and Mrs. Jack Molesworth.

Mr. and Mrs. Avery Mayes spent the week-end visiting relatives in Fort McKavett.

Mr. and Mrs. Andrew Wood and son and Miss Cora Kropff spent Sunday with Mr. and Mrs. W. W. Wood on Bear Creek.

Mr. Ben Hasse visited at the Clarence Self home Monday. Mr. Hasse sporting a new Whippet Six.

Mrs. Clarence Self is at home after spending the past two weeks in Junction helping to

take care of her sister-in-law, Miss Norma Lee, who is sick with typhoid, but is improving nicely at present.

Mr. and Mrs. Ernest Dunbar and son visited Mr. and Mrs. Herbert Simon Sunday.

Mr. and Mrs. Wayne Allen visited Mr. and Mrs. Lewis Dunbar Sunday.

Mrs. Nugent Weaver and Mrs. Hal Holland are in San Antonio this week attending the Eastern Star Convention.

Mr. Henry Liefeste visited at the Charlie Fuchs home Tuesday.

Mr. Floyd Little visited his parents, Mr. and Mrs. J. W. Little, Sunday.

The North Llano community was well represented at the football game, Junction vs. Balfinger.

Texas with nearly 600 varieties of bird life is attracting the attention of naturalists. An expedition from the Academy of Natural Sciences, Philadelphia, recently gathered 230 specimens of bird life and 45 specimens of rodents on islands off the Texas Gulf coast, including some very rare varieties.

A peculiar fact developed by the expedition was that although some of the islands are known to have been completely submerged in storms a few years ago, the scientists found on them a large number of rodents, the explanation of whose survival is a puzzle.

Miracle is related of How Child Regained Sight and Hearing After Grandfather's Prayers

New York.—The story of a miracle, in which the sight, the hearing and the voice of a 3-year-old Italian boy was suddenly restored, is going the rounds of Brooklyn.

The story has been confirmed in a little house in Dean street, Brooklyn, where Vincent Pannone, 71, died about a month ago.

Pannone was on his deathbed. He summoned his family to his bedside—his eighteen children and their children. He told them that his rapidly approaching death would not be a peaceful one. He thought only of

his favorite grandchild—Michael. Michael is 3. Ten months ago he was stricken with spinal meningitis. The disease left him blind, deaf and dumb and partly paralyzed his legs.

With his family gathered at his bedside, old Pannone called for a statue of the Virgin Mary. He held the image in his withered hands and praying aloud, prayed that when he died his sight, hearing and voice be given to his grandchild.

Two days after the old man died little Michael talked. He regained his hearing and his eyesight restored.

Paved streets are better. Junction streets need paving.

Mason County Gins 774 Bales of Cotton

There were 774 bales of cotton ginned in Mason County up to October 1st this season, according to T. O. Reardon, cotton census taker for Mason County. During the same period last season there were 927 bales ginned in this county.

It is predicted that the yield in Mason County this year will fall below the two thousand mark, as against approximately thirty-seven hundred bales last year.

It is believed that practically all of the cotton in this county will have been harvested by the middle of November.—Mason County News.

Paved streets are better.

Executive Meet of Sheep and Goat Men

Kerrville will be host to officials of the Texas Sheep and Goat Raisers' Association on next February 10, when members of the executive committee assemble there for their quarterly meeting.

Kerrville's invitation to the sheep and goat men was extended by Robert Real and J. A. Perl, both members of the committee, who attended the executive session held last Thursday at Fort Stockton.

About 50 officials of the association will attend the meeting in February, and a number of entertainment features will be arranged for the visitors.

In all cases of doubt apply the Golden Rule.

ing fence and in an attempt to kindle fire he poured what he thought was coal oil on the fire and it proved to be gasoline and ignited, enveloping him in flames and seriously burning him. They rushed him to the Secor hospital where we are glad to report him recovering at present writing.

IVY ECHOES

Our community has felt a pang of sadness since last Friday, when we heard of the death of our good friend, Mrs. Maude Francis, who died in a Dallas hospital after an operation. Mrs. Francis was the daughter of John L. Jones, who prior to his death resided in this section. She had many true friends as was evidenced by the large concourse of friends who followed her body to its last resting place at the Mason Cemetery Sunday afternoon. Brother Garrett of Mason spoke words of comfort to her relatives and friends at the residence of a daughter, Mrs. Loma Lindsay. We shall no longer view her bodily form but we are certain that this good woman's influence shall continue to live in the hearts of her many friends who cherished her dearly.

Elmo Dodd of the Little Spline community is holding a position with Clarence Cope at the Lindsay ranch.

Paul Kane is working on the Baker ranch near Junction.

Misses Nettie and Selma Grobe of San Antonio spent the week-end visiting their parents, Mr. and Mrs. Louie Grobe, on the ranch.

Mr. and Mrs. Nana Walker visited her sister last week at Juna, Texas. Eddie Smitherman and wife of Johnson City visited recently with his brother, Albert Smitherman, of this place.

The Tea Cup school and a large number of its patrons paid the Ivy school a friendly visit Friday afternoon and played both our boys and girls a

game of basket ball. Tea Cup was an easy winner in both games but they did it fairly, and we admire the splendid spirit manifested by the Tea Cup pupils. We truly believe the spirit in which school games are played, is after all the important feature of the game. One author has made the following statement: When the one great Scorer comes, To judge against our name, We'll not be asked whether we won or lost, But how we played the game.

School is doing fine and we are having the best attendance that we have ever had at this school.

The school boys have improved the walks leading to the room entrances this week by placing gravel in front of the doors. This will be highly appreciated when the winter rains are falling.

Allen Robbins and Frank Wootan were pleasant callers at the school Tuesday.

T. B. Pearl, L. W. Grobe and son, Clarence, attended the funeral of Mrs. Maude Francis Sunday afternoon.

ROOSEVELT ROUND-UP

Mr. and Mrs. Jess Otte moved to London Wednesday. Jess has bought a filing station and we all wish him success in his new undertaking.

The parents and teachers met at the school house Monday night to decide on something to make some money for supplies. On November 8 there will be a ball game and a barbecue and at evening a box supper. Everybody that comes will be assured of a good time.

Mrs. Bell Taylor returned Sunday from Eden where her daughter, Mrs. Walter Latham, has been quite ill. Mrs. Latham was improved a great deal when Mrs. Taylor left her.

Mr. and Mrs. Philip Lathring carried little Philip to the Doctor at Kerrville Sunday. He is now doing nicely.

Mr. Fred Franks' new filing station will soon be completed

NOXVILLE NOTES

W. W. Whitworth purchased Omar Wright's two year lease on his four thousand acres, known as the Ward place, for a consideration of two thousand dollars; also buying from Wright two thousand ewes and lambs, paying \$8.00 for ewes and \$5.50 for lambs. Mr. Whitworth bought this ranch two years ago but Mr. Wright had a four-year lease on it at the time. Mr. Whitworth expects to move his family there soon and make it his headquarters ranch. Mr. Wright has leased O. W. Cardwell's ranch and purchased the stock on same.

Quite a number of friends partook of a sumptuous dinner with A. T. Whetstone at his ranch home Sunday, the occasion being Mr. Whetstone's birthday. Among those present were Mr. and Mrs. B. H. Wha-

ley, D. H. Whetstone and family, Col. J. W. Coffey, Jesse Coffey and wife, Seth Whetstone and family, Frank Obenchain and family and Miss Sudie Jean Peterson of Menard, Fred Whetstone and wife, Sterling Reese and wife, Jack Beeman, Uncle Bill McCaleb, Mrs. Proctor Rogers and children.

Our road work is still progressing nicely and we anticipate that many more strangers who hunt in this section of Kimble County will see our beautiful little county seat than ever have before.

Miss Allene Whetstone is spending the week with Miss Florence Smith of Ingram.

Jack Hoggett and wife of Lordsburg, New Mexico, are visiting Mrs. Hoggett's parents, Mr. and Mrs. C. A. Stapp.

Mr. Ed Childs happened to a most painful accident last week. He was camped and build-

Motor Vehicle License for 1930 Void if Given Before January 1

Austin.—Issuance of motor vehicle and chauffeur licenses for 1930 cannot be made until Jan. 1, 1930, and it will be unlawful to operate a car that has not been registered for the new year after midnight of Feb. 1, Assistant Attorney General Rice M. Tilley ruled in an opinion construing the new registration law and given the State Highway Commission.

The opinion holds that the limits for the counties' portion of the fees should be arrived at after the deduction of the fees for collection, the Legislature having provided that the tax collector shall deposit in the county depository of his county, to the credit of the county road and bridge fund, an amount equal to 100 per cent of the net collections made during the preceding week until the amount so deposited for the current year shall have reached a total of \$50,000, and collections as used in the statute on the re-

tention of moneys by the counties means net collections. Because the new Registration Act is not effective until Jan. 1, 1930, it is ruled that tax collectors can begin registering motor vehicles until that date. There would be no authority for registering vehicles under a law that would not be in effect. The opinion says the Legislature could meet between Dec. 1 and Jan. 1 and repeal the Act.

A further ruling was that there being no provision for any fee to the county collector, when issuing duplicate license receipts, the fund must be re-credited to the State Highway Department and the only compensation derived by the county tax collector is ex-officio.

Fees collected must be accounted for as fees of office and deputies will be paid out of such fees. Deputies are required to be employed as they were in the past.

JUNCTION LADIES PLEASE AUDIENCE

The three-act comedy, "Not Such a Fool As He Looks," which was presented by the Efficiency Class of the Junction Methodist Sunday School at the auditorium of the Rocksprings High School, was well patronized, and the audience showed its appreciation of the manner in which the play was rendered by the ladies of Junction.

This entertainment was for benefit of the Rocksprings Methodist Sunday School, and was under the direction of Mesdames Forrest Weldon and J. Alton Miller, and was composed wholly of talent belonging to the Methodist Sunday School of Junction.—Rocksprings Record.

In FIRST COST, in UPKEEP, in PERFORMANCE. Buy a FORD and SAVE the DIFFERENCE. A demonstration costs you NOTHING. 26c Loeffler Motor Company.

LOCAL DEALER SECURES FRANCHISE FOR LAMPS

Wahl Bros. & Schraub, local hardware dealers, are making announcement elsewhere in this paper which is of particular interest to every home owner who is without electricity for lighting. They have just secured the local franchise for the famous new instant-light Aladdin kerosene mantle lamp, which gives a beautiful modern white light equal to ten ordinary oil lamps. It is over four times as economical as the best open-flame lamp, the reason being that it burns only 6 1/2 kerosene to 94 1/2 air. It will save its cost in a few months' time.

Every home not equipped with electricity should have at least one Aladdin. It would be advisable to visit this store at as early a date as possible while the line is complete so that you may secure a wider choice. Read the important announcement elsewhere in the paper for further details.

Average Sheep Produces Wool For Suit A Year

How culling and wise attention to breeding of farm animals may be expected to produce returns for farmers is reflected in statistics gathered by the Bureau of Animal Industry and published in the current Yearbook of the United States Department of Agriculture.

"In 1840," says E. W. Sheets, in charge of animal husbandry investigations, "the average weight of fleece sheared from American sheep was less than 2 pounds. By 1900 it had increased to nearly 5 1/2 pounds. Today it is approaching 8 pounds. In other words, an average sheep today grows wool enough each year to make approximately one suit of clothes. In 1840 it took the wool of four sheep to make a suit of equal weight and quality."

Better breeding and more rigid culling of breeding flocks promise to raise this average still further. Wool production is similar to such qualities as heavy milk production in dairy cattle and heavy egg production by hens. The offspring of heavy producers are likely to be heavy producers and to transmit to their offspring the capacity for heavy production.

In the case of sheep, Mr. Sheets says: "There is still room for improvement. By 'weeding out' the poor producers and breeding from the heavily fleeced sheep, flock owners can raise the average."

Gallant Glenna Breaks Women's Golf Record

Glenna Collett has succeeded herself as champion in the women's national amateur golf championship, of which she became the only four times winner in the thirty-third year of this tournament, over the Oakland Hills Course at Detroit, Mich. Glenna deserves praise indeed, as she has gained the distinction of being a four times winner only after a hard struggle which lasted until the final putt. Mrs. Leona Pressler of Los Angeles furnishing stiff opposition.

KNOW TEXAS

Texas taxable values reached and exceeded the \$4,000,000,000 mark for the first time in 1929. In 1910 they reached \$3,000,000,000.

The only Quaker colony in Texas is at Friendwood, near Houston. Its founder, F. C. Brown, 79, died recently.

The earliest snow recorded in Texas fell in the Upper Panhandle on Oct. 14, 1909. North Texas has never had snow earlier than Nov. 20.

The most traveled highway in Texas is that between Fort Worth and Dallas. A recent count showed 6,570 vehicles pass over it daily.

The purpose of school education, as anybody who has contact with progressive schools must know, is to keep the young mind from getting on a track for as long as possible.—Elmer Davis.

A paraphrase worth memorizing, from the Pathfinder: "You can beat some of the trains to all of the crossings; all of the trains to some of the crossings; but you can't beat all of the trains to all of the crossings."

Through all human fluctuations, the ideal will win in the end, but it needs always to be supported by the united will of the nation, and that is a function of individual values.—Georges Clemenceau.

GINNING NOTICE

Beginning October 19, our gin will run only on Saturdays. 27-2c L. R. I. & M. Co.

A modern oil boom town has all the aspects of a gold strike in the old frontier days. In some ways it is more picturesque because of more violent contrasts. It springs up like magic, overnight, and the spirit is in many instances as frenzied and wild as in the roaring days of the forty-niners.

Often it would be better if the speaker were rebuked for dullness instead of reprimanding the audience for inattention.

Our quarrels with the world are chiefly due to misunderstandings within ourselves. When at peace with that which is within us we are apt to nurse no fault with the world that God gave us.

The basis of true and permanent feeling is always accurate and scientific training.

Civilization is essentially an interdependent existence. No man may stand alone. Self reliance is a very good thing in its place but it is not to be confused with independence—something which does not exist.

The reason so many people do not care for music is because they do not know it.

We love what we understand; we are apt to despise what we do not understand.

BAPTIST CHURCH NOTES

The 25th inst., being the fourth Friday in the month is Industrial Day, and the members of the W. M. U. are cordially invited to be present at the church in the afternoon. At 7:30 p. m. Mrs. C. W. McCarrall hopes for a large attendance for the choir practice.

Next Sunday the pastor will preach at both morning and evening services.

We are sorry to report Mrs. E. A. Willis on the sick list this week. Mary Lee Graves was thankful to see her. The ladies were given a pleasant surprise when they opened the China closet in the church dining room and very many thanks are given to Mr. L. G. Brown for his donations.

Last Sunday Mrs. Amick was received into our church and we are very glad to welcome her as a member.

Our hearts go out in loving sympathy to Mrs. John L. Jones and family at this present time, for all who knew Mrs. Maude Jones Francis as a girl in our Baptist Sunday School loved her, and were much grieved at the news of her passing away in a hospital at Dallas last week. "Be ye therefore ready, for as such an hour as ye think not, the Son of Man cometh." But for those who are "ready" the coming of the Master means rest and peace, and no more suffering or sorrow.

Reporter.

MRS. J. R. O'BRYAN COMPLIMENTS DAUGHTER

Tuesday afternoon Mrs. J. R. O'Bryan complimented her daughter, Mrs. Minnie Kennedy of Houston with a bridge at her home.

Witches, Black cats and goblin decorations carried out the Halloween motif, while yellow cosmos added a bright note of color.

After an interesting series of games, attractive wall vases were awarded to Mesdames U. D. Kindrick, Joe Fritz and Clay Secret.

Halloween candies and salted nuts were served during the games and at the close of the afternoon fruit salad, saltine wafers ice-box cake, coffee and after dinner mints were enjoyed by Mesdames U. D. Kindrick, Joe Fritz, Clay Secret, Dorothy Westmoreland, J. A. Thompson, Irvin Jarvis, L. E. Standifer, McGonigle, Lucy Motley, Mrs. Minnie Kennedy of Houston and the hostess.

MURR-TALBOT

Miss Williamina Talbot and Mr. Charles Murr were united in marriage Tuesday, October 22, at the Methodist Church at Ft. McKavett. The beautiful ring ceremony was used by the Episcopal minister of Menard.

The bride is the daughter of Mr. and Mrs. T. W. Talbot, prominent ranchers of the Ft. McKavett community. The groom is the son of Mr. and Mrs. John Murr and the grandson of Mr. and Mrs. Henry Murr of Junction. These young people are well and favorably known throughout this section and are receiving the congratulations of their many friends.

MRS. STANDIFER HONORS BROTHER WITH PARTY

Mrs. L. E. Standifer honored her brother, George Steele, of Lamesa, with a bridge party Wednesday night. Three tables of bridge were in progress throughout the evening.

Miss Kaleta Taylor won high score for the girls, while Dillard Motley won high score for the boys.

Those enjoying the hospitality of Mrs. Standifer were Misses Julia Wethered, Vivian James Kaleta Taylor, Mary Hubert, Eloise Hardeman, Josephine Urban and Blix Hankins, and Messrs. Royce Buster, Dillard Motley, R. E. Homann, Lee Craven and H. T. Richardson.

BLACKBURN-SMITH

The marriage of Miss Tommie Smith and Mr. Howard Blackburn came as a surprise to their many friends.

The wedding occurred at the Methodist Parsonage Saturday afternoon at two o'clock, with the Rev. Milton F. Hill officiating. Mrs. Terry Cowert was the only witness.

After the ceremony the young couple left for Austin and San Antonio, where they spent their honeymoon.

Mrs. Blackburn is the daughter of Mr. and Mrs. T. J. Smith of Elgin, Texas. She has been a member of the nursing staff at the Standifer Hospital for the last ten months, during that time she has made many friends here.

Mr. Blackburn is the son of Mr. and Mrs. Roy Blackburn and is well known throughout Kimble County. He is Junction's own and is a promising young business man.

Mr. and Mrs. Blackburn have the best wishes of their many friends for many years of happiness and prosperity.

MRS. JIM CARPENTER HONORS MRS. GUY MOSES

A pleasant afternoon was enjoyed Wednesday when Mrs. Jim Carpenter entertained the members of the Merry Wives Club and a number of friends with a bridge in honor of Mrs. Guy Moses.

Zinnias and tube roses provided cheerful color to the rooms in pleasing contrast to the gloomy weather out of doors. The cut prize, a beautiful hand-painted plaque of the Santa Maria, the flag ship of Columbus trio of ships, was won by Mrs. Joe Watson. A smaller plaque, depicting the same

model went to Mrs. Henry Taylor for guest prize and Mrs. Vann Martin won the cut prize, an attractive silhouette of the Santa Maria. A framed picture of the ship was presented to the honoree.

Salmon loaf, sandwiches, pear salad, fruit cake, olives, hot tea and mints were served to Mesdames A. S. Rieck, L. E. Standifer, Omar Wright, Victor Hardeman, Lester Hodges, Clay Secret, S. P. Woodward, Henry Taylor, Aubrey Hill, Weldon Williams, Vann Martin, Guy Wynne, Watt Turner, H. G. Hubert, H. E. Luehrs, A. W. Browning, Mattie Patterson, J. B. Randolph, Clifford Hamer, Joe Watson, C. T. Holekamp, Mrs. Guy Moses, Misses Lena Cowert and Ruth Morris.

MERRY WIVES CLUB

A breakfast bridge party was given Saturday morning by Mrs. Joe Watson at the residence of Mrs. H. G. Hubert for the Merry Wives Club and friends. The honoree on this occasion was Mrs. Jack Richardson, a recent bride.

After an appetizing breakfast of orange juice, omelet on toast, breakfast bacon, sliced tomatoes, buttered biscuit, orange marmalade and coffee, a series of bridge games were enjoyed.

Mrs. Clifford Hamer won the club prize, a dusting set in an attractive holder. The second prize, a boudoir set, went to Mrs. Rudolph Tatum. A similar prize was won by Mrs. John Phillips, who made high guest score. Mrs. Vann Martin won table numbers.

Among those present were Mesdames C. T. Holekamp, L. E. Standifer, J. A. Thompson, John Blackburn, Guy Moses, S. P. Woodward, Henry Taylor, Aubrey Hill, Earl Hill, Vann Martin, Guy Wynne, Watt Turner, H. G. Hubert, H. E. Luehrs, Mattie Patterson, Clifford Hamer, Felix Watson, Bob Spiller, Hugh Spiller, Roy Spiller, S. S. Bundy, A. L. Mudge, John Phillips, U. D. Kindrick, Omar Wright, Jimmie Taylor, J. M. Livingston, Rudolph Tatum, Irvin Jarvis, A. S. McDonald, Sayres Farmer, Joe Fritz, Budie Richardson of Brady, Jim Ragland, Misses Kathleen Watson, Myrtle Davey, Mary Spiller, Lena Cowert, Mary Hubert, Julia Wethered, the nonoree, Mrs. Jack Richardson and the hostess.

MR. AND MRS. A. S. RIECK ENTERTAIN NITE CLUB

The Nite Club met at Kimble Courts Saturday evening when Mr. and Mrs. A. S. Rieck entertained with a charming party.

A profusion of zinnias were placed about the rooms.

At seven o'clock a delicious New English dinner consisting of Boston baked beans, baked ham, steamed brown bread, pear salad, hot rolls, English chutney, chess pie and coffee, was served. Dainty hand made house aprons were presented to the ladies and handkerchiefs with color trim to match the aprons were given the gentlemen. Those whose handkerchief and apron bore the same color were dinner partners. At the close of the games a Swift's Premium ham was awarded to Mr. and Mrs. C. T. Holekamp, who made high score.

Those enjoying the hospitality of Mr. and Mrs. Rieck on this occasion were Mr. and Mrs. J. M. Livingston, Carl Wolf, U. D. Kindrick, A. S. McDonald, Guy Wynne, C. T. Holekamp, Clay Maddux and Mr. Frank Baker.

MRS. WATSON ENTERTAINS

Mrs. Joe Watson entertained the Merry Wives Club with a Bridge Breakfast last Saturday morning honoring Mrs. Jack Richardson at Mrs. H. G. Hubert's residence.

A yellow and green color scheme was used throughout the house. Mrs. Clifford Hamer won the high club prize. Mrs. Vann Martin received the prize for taking the most tricks with the deuce. Those present played in groups throughout the morning and Mesdames John Phillips and R. C. Tatum received the head table prize. Mrs. S. A. McDonald received the cut prize.

The Little Mind-Reader

By Albert T. Reid

"I know what you are thinking—I know just exactly,—that that hat looks just as good as new, and you think you'll put it away. That's what you do each year at this time, and in the spring you throw it away. If we had all the storage space it has taken we would have a couple of new rooms on our place."

C. OF C. GETS DONATION OF DELAINE SHEEP

The time is drawing near now when the membership drive, in the Chamber of Commerce will close. It will end on November 11 with one of the biggest crowds ever gathered in Junction, for an event of this kind. People from all over the county are getting interested in this work, and are helping the boys and girls who are soliciting memberships to win a valuable prize on November 11.

The Chamber of Commerce is doing everything that can be done to co-operate with all the people of Kimble County. It is working through the schools and stressing the things of major importance that it hopes to do in the future.

Mr. M. R. Waters donated a fine young registered nannie goat to the Kimble County Chamber of Commerce as a prize. This goat is a good one. She is perfectly wooded and has a heavy fleece.

Mr. Frank Russell of Clarksville, Ohio, donated two ewe lambs of the C type Delaine as prizes. These are extra fine lambs. The boy or girl that wins these lambs will have a foundation herd to begin with that cannot be beat for this type of sheep. These sheep will be on exhibition each Saturday on Main Street. Be sure and come and see them and help some industrious boy or girl win them.

The Jersey heifer that was donated by L. A. Schreiner is looking nicer every day, and also the Hereford that was bred and raised by C. E. Lambert is looking nice and is waiting for some boy or girl to lead home.

MEXICAN GAME LAW MIXUP IS CLEARED

Austin.—A misunderstanding of the Mexican game laws arising from an apparent conflict was cleared Thursday by a letter to W. J. Tucker, executive secretary of the Game Commission, from the Secretary of Agriculture at Mexico City.

The letter explained that the regulation which has closed the States of Coahuila and Chihuahua to deer hunting had been superceded by a later ruling which placed these States in the same class as all the States of Northern Mexico above latitude 20, where sport hunting is allowed but commercial hunting is forbidden. The letter also pointed out that Mexico has no open season on quail.

MAYBE HE WAS LAZY

"They say that the wrist watch was invented by a Scotchman who objected to taking anything out of his pocket."

Take heart, fear not, perhaps in future days All this will prove a happy memory. —Vergil.

YOM KIPPUR, DAY OF ATONEMENT IS OBSERVED

Yom Kippur, the Day of Atonement, the most sacred day in the Jewish religious calendar, was observed by the Jewish people last Monday. The services began at 8 o'clock Sunday evening and continued until dusk Monday.

This is the Holy Day that is given over to the contemplation of the inner life of the individual and society, with special attention to sin, repentance, forgiveness, peace and brotherhood. The meaning of the day is heightened by fasting.

Millions of Miles of Constant Testing

to maintain the outstanding quality and dependability of The Chevrolet Six

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—

—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground!

This passion for proof—this consistent refusal to accept any

tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate!

If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. In every way it is a finer car than you ever thought possible in the low-price field!

LONDON LOCALS

Several of our people attended the funeral of Mrs. Maude Francis at Mason Sunday and many others would have gone had we have known of it.

Mrs. Francis was well known here and loved by all who knew her. We bow our head and humble our heart with those who mourn her death.

Mr. and Mrs. E. F. Amaon were again called to the bedside of Mrs. Bessie Sharp of Sander. They left Sunday and have not yet returned.

Mr. and Mrs. Perry Wortebach have returned to London to make this their home. They have employment at the Mack cafe and market. Mrs. Wortebach recently underwent an operation for appendicitis at the Brady Sanitarium, but she is fast gaining strength and will soon be strong and at herself.

Our Handy-Andy has changed hands, passing from E. P. Furr & Sons to R. L. McKinney.

Considerable sheep, goats and cattle continue to move to market. Our neighbor, Mr. W. L. Kothmann, is proving that he is not only a rustler but a benefactor to his community by creating and maintaining a live stock market at some price.

We have been noticing for many months the tendency toward attracting the money volume to the large cities, such as New York, Chicago and San Francisco and other centers of the stock market gamblers, where they readily pay such enormous interest on call loans, and we have been made to fear that the result would be the centralization of our money supply in the channels of stock speculation—calling it out of the channel of legitimate trade, thereby causing depression in prices. I now fear we can all see that this condition exists to a marked degree and that the end is not yet.

We traveled over the country some Sunday and find livestock of all description in fine shape. Also the fields and pasture land is green, almost as spring time. What a wonderful country this Kimble County is. It is almost large enough for an empire and can't be beat anywhere. We have here health, wealth and beauty combined. No wonder she is a favored land and sought by strangers, especially our London section.

Our town was decently quiet Saturday night and has been ever since. This is the way it should be.

Mr. Marley Fussell, son of Dr. and Mrs. J. W. Fussell, came in Monday to see home folks. Marley belongs to the aviation department of the navy now, stationed in the Pacific near San Diego, California. He has about ten days leave and will then return. He says he likes the navy fine.

NORTH LLANO NEWS

(Too late for last week)

Mr. and Mrs. C. W. Turner were shopping in Junction Saturday.

Mr. and Mrs. Alex Wood and little Barbara were guests of Mr. and Mrs. Andrew Wood Sunday.

James Hubbell spent the week end with Leon Turner.

The Eight Mile school was dismissed Wednesday on account of the illness of the teacher.

The North Llano community has been blessed with rains the past week.

Mrs. Will Smelser and children spent the week-end at the ranch.

Miss Nell Doran spent the week-end at London visiting relatives and friends.

Mr. and Mrs. E. O. Dunbar and Mr. and Mrs. Oscar Weaver were guests to Mr. and Mrs. Nugent Weaver's Sunday.

Miss Cora Kropf is visiting at the A. N. Wood ranch this week.

LITTLE SALINE SAYINGS

Brother Clark of Coleman preached at the Saline church Sunday and Sunday night.

Mr. Jesse Walker and daughter, Miss Radie, spent the week-end in Juno visiting Mr. Walker's sister, Mrs. John Taylor.

Mrs. Frona Ford visited her daughter, Mrs. George Pearl, Sunday.

Mr. and Mrs. Al Rogers, Mrs. Jess Walker and daughter, Vir-

ge, Mr. John Walker and Miss Bertha Pearl were welcome visitors of Mr. and Mrs. Jim D'Spain Sunday.

Mrs. Clabe Walker of Junction made a flying trip to Saline Monday morning.

Mr. and Mrs. George Pearl and family, Mrs. John Pearl and Lathair Parker were shopping in Junction Saturday.

Mr. and Mrs. Clarence Self and Miss Nell Doran of Junction visited Mr. and Mrs. Al Rogers Sunday afternoon.

Mr. Alvin Ripple of Eola was a welcome visitor of Miss Alice Hight Sunday.

Mr. John Walker returned home from Devil's River Wednesday to visit relatives and friends for a while.

John and Radie Walker visited Mr. and Mrs. John Pool Friday night.

A party will be given Saturday night at Mr. John Pool's in honor of Miss Lorena's birthday. Everyone has a special invitation.

Mrs. John Pool and children were shopping in Junction Saturday.

TELEGRAPH NEWS

Mr. and Mrs. Tommy Cowser were Junction visitors Monday.

Mr. C. T. Orth is spending the week in San Antonio.

Mrs. Chas. Bruce and Mrs. Carl Taft visited the A. L. Bartley home Sunday.

Mr. and Mrs. Jack Block of London community made a business trip to Ragland Bros. ranch Monday.

Mr. and Mrs. Auvie Brown visited at Joe Feips' ranch Sunday.

Game Warden Frank Cowser was on the river Monday putting in a new supply for fish.

Ray Ridenhower was in Junction Monday.

The younger set enjoyed a singing at the Jack Hubbell ranch Sunday night.

Glad to report that Miss Norma Lee Self is improving.

Mrs. Grandfield and son, Horace, returned to San Antonio Sunday.

Mrs. Hood spent the week-end at her camp on the Roscoe Stevenson ranch.

Mr. Alfred Miller and family were shopping in Junction Saturday. They were accompanied by Miss Mary Frances Hodges.

Our community was visited by a refreshing shower Saturday.

Mr. Lane Hodges and wife and baby, Varda, went to Roosevelt Sunday. They visited at the Richard Grosenbacher home.

Mrs. F. M. Hodges accompanied them and was a guest at the John Grosenbacher home.

The League came out from Junction Sunday afternoon to the Hull school house and was given a pleasant greeting. Will be glad to see them again.

Grandmother Freeman is spending a while with her daughter, Mrs. Lee Corder, at Sonora.

Jim R. Hodges and Tom Alsop are shearing sheep for Messrs. Ben Neal and E. Swartz.

The teacher and patrons of the Hull school are planning a box supper the 1st of November for the benefit of the school. Everyone come and bring a well-filled box.

Mr. Melvin Hull and family were shopping in Junction Saturday.

Mr. Ben Neal and family were in Junction Saturday.

Mr. J. A. Hodges is visiting at the F. M. Hodges ranch this week.

Popular Visitor

Ishbel MacDonald, daughter of Premier Ramsay MacDonald of England. Visiting the United States with her father, she is winning high tributes for her personality and charm.

ARE WE LAWLESS?

We hear a lot about lawlessness in America, and it is true that we are lawless in one sense of the word. That is, there is more disregard of law in this country, perhaps, than in any other on the globe.

However, if we define lawless to mean being without laws, we are certainly anything else but. We live under many thousands of laws and ordinances, most of which the average citizen never heard of. A recent statement by T. R. Preston, former president of the American Bankers' Association, will illustrate this. He said:

"It would take a man working eight hours a day seven years to read all the laws enacted last year, yet ignorance of the law is no excuse. Courts are so congested that the district attorney of New York estimates that if every defendant should demand a jury trial, the calendars would be 500 years behind in four years. Americans will go to war and give their life's blood for liberty, and then turn around and enact laws depriving themselves of all liberty."

To which we may only add: "Ain't it the truth?"

Some people who read and write don't think. — Mayor James Walker.

BIG FISH DRAGS SKIFF 8 MILES OUT INTO GULF

Gulfport, Miss.—A mammoth devil fish dragged Lieut. Gov. Bidwell Adams and his skiff eight miles out into the Gulf of Mexico recently before he cut his line and was rescued by a passing yacht.

The monster struck the Lieutenant Governor's tarpon line in mid-afternoon and he and his guide fought the fish until darkness fell and they had been dragged far into the gulf.

"It was as big as a house, 18 or 20 feet broad," Mr. Adams said.

WYOMING HORSES OUTNUMBER CARS

Cheyenne, Wyo.—Old Dobbin is making his last and most protracted stand in the State of Wyoming.

A recent Government survey shows that while automobiles outnumber horses almost two to one over the country, the situation is reversed in Wyoming.

Records of the board of livestock commissioners show the State's horse population to be 147,988, while the number of automobiles is only 56,698.

In only two counties do automobiles outnumber horses. Natrona County had 8,605 motorcars on Jan. 1, 1929, against 4,849 horses. Sweetwater County had 3,638 autos compared to 1,181 horses.

The automobile is more lucrative to the State, however. Automobiles were taxed approximately \$570,000 last year, while the total assessed valuation of the horses is only \$359,347.

Goodyear tires. More people ride on GOODYEAR than on any other kind. Get your set now during our October Special sale and save money. 26c Loeffler Motor Company.

Junction Trade Notes

(By G. G. Co.)

Local pecan growers mail find interest in a recent newspaper item from Lockhart, which says, in substance: Owners of pecan groves in this section have discarded the old method of gathering pecans; they now sell the crops on the trees to outside dealers who bring trucks and gather the nuts with suction pumps.

During the week of Oct. 7, forty-two persons were killed and 251 injured in accidents in Texas. For the year ending that date, 1977 persons were killed and 8438 injured in Texas by accident. That is an appalling casualty list for one State and may cause some people to pause, while others will give the car more gas.

The effectiveness of fire drills in schools was recently demonstrated in a Houston Ward school when the auditorium took fire. The building was emptied of 800 small children in one minute, according to newspaper report.

Advent of cool weather suggests ham and gravy and rice, country molasses, hot biscuits, butter, etc. We receive fresh hams each week; home-made country molasses in stock. Gann Grocery Company. Popcorn in bulk and in tins.

A Montana man hopped off Tuesday from Newfoundland in a small monoplane, with London, 2350 miles away, as his destination, carrying only 165 gallons gas. Instead of reaching London he is more likely to land in Abraham's bosom.

Walter Chadwell, formerly of Junction, is on a boat in Galveston harbor waiting to set sail for a foreign destination.

Gus Amundsen, a prominent business man of Galveston, who has been taking his vacation in Colorado, has recently discovered Junction in the "Land of Living Waters" and is enthusiastic about it. Mr. Amundsen says there is no use in going farther than Junction and the Llano for a real rest and vacation.

There may be cheaper feed, but none better for the price than "Economy" dairy feed, prepared by Seguin Milling Co. Gann Grocery Company. All kinds cowfeed and chicken feed in stock.

Mrs. John Kountz is supplying the local trade with choice turkeys and greens. Local yard eggs are scarce at 40c up. Boston wool market, Oct. 23, quotes Texas 12-month average staple in the range of 35c to 38c, secured basis, which is not so favorable. But deer are fat and sleek in Junction territory, wild turkey are plentiful. . . . And Frank Cowser has just released thousands of young fish in the Llano River.

Gann Grocery Company
"Everybody's Store."

AMONG OUR SUBSCRIBERS

New subscribers are added each week and renewals come in almost every day. We appreciate our subscribers and ask that they watch the label on the paper or the wrapper in which it is enclosed and renew promptly when the time is up. It is easy to overlook a subscription, but we appreciate the promptness with which the majority renew.

The Junction Parent-Teachers Association is authorized to solicit and receipt for subscriptions to the Eagle during the month of November and any member of the organization will take your subscription and hand it to the proper committee. The association is allowed a liberal commission on subscriptions received by them and they will appreciate both new subscriptions and also renewals.

The following have advanced their figures on our books during the past few days: Edwin C. Ahrens, Sandy; R. G. Nance, Sonora; Thomas Baker, Junction; W. E. Baker, El Dorado; W. G. Boyle, San Antonio; H. F. Bossmann, Junction; C. E. Reid, Junction; Herbert Newman, Abilene; R. T. Roberts, San Benito; Reuben Loeffler, Austin; Frank Patterson, Junction; Joe Bissett, Junction.

ROOSEVELT SCHOOL NOTES

The Camp children were absent from school Thursday and Friday on account of going to Mason.

Alpha Barfield has been sick for several days. We hope she will soon be able to be back with us.

Mary Helen Dabarsch visited school Thursday.

Reba and Alpha Barfield were absent from school Monday and Tuesday.

J. C. Goodall was absent from school Monday on account of his eyes.

The ninth grade have been having an enjoyable time writing editorials for the past few days.

The school children went to Bodarc Friday to see the Roosevelt Rookies play the Bodarc Rookies in basket ball. The game turned out 32 to 10 in favor of Roosevelt.

Mrs. Bud Goodall visited the school Tuesday at noon.

Gus Camp has been absent from school for several days on account of bruising his foot very badly.

The parents and teachers had a regular monthly meeting at the school house Monday night. On Friday night, November 8, there will be a box supper given here for the purpose of raising money needed by the school. Friday afternoon of the same date we will have ball games. Following the ball games a barbecue will be given. Further information will be as to who will participate in the games.

JUNIOR HISTORICAL CLUB

On Friday, October 18, the Junior Historical Club, which was organized October 4, held its second meeting. By count of hands the following were elected:

Sponsor—Mrs. Margaret Dutton.

President—Harry Witt.

Vice President—Lucille Motley.

Reporter—Ella Simon.

Secretary—Lorena Couey.

It was decided that a scrap book be kept for the club in which interesting and worthwhile topics will be kept. This book will be left in charge of the vice president and donated to the school at the close of school.

Two new members were added to our list: Ralph Meador and Stella Bissett.

The club colors are blue and gold, and the club flower is the chrysanthemum.

Otha Ivy visited with us as a guest of Lois Goodwin.

We regret that Mrs. Dutton was not able to be with us, and all join in sending her our love and sincere hopes for a speedy recovery.

McDonald Service Station gas, oil, tires, tubes and auto accessories.

BUSINESS SCHOLARSHIP

If you are planning to attend a business college soon, ask about the scholarship for sale by the Junction Eagle good in the Byrne business colleges in San Antonio, Houston or Dallas.

tion: J. B. Randolph, Junction; H. O. Denman, Junction; M. C. Hull, Junction; Pierce Hoggett, Junction; C. A. Goodwin, Junction; John Grosenbacher, Roosevelt; John Goodman, London; Mrs. Anna M. Dechert, Junction; A. C. Smelser, Junction; Claudia Whitworth, San Marcos; Mrs. W. M. Gove, Austin.

W. C. ROUNTREE, M. D.

If you have any of the following symptoms, I have the remedy no matter what your trouble has been diagnosed: Nervousness, stomach trouble, loss of weight, loss of sleep, sore mouth, pains in the back and shoulders, peculiar swimming in the head, frothy like phlegm in throat, passing mucous from the bowels, especially after taking purgative, burning feet, brown, rough or yellow skin, burning or itching skin, rash on the hands, face and arms resembling sunburn, habitual constipation, (sometimes alternating with diarrhoea) copper or metallic taste, skin sensitive to sunheat, forgetfulness, despondency and thoughts that you might lose your mind, gums a fiery red and falling away from the teeth, general weakness with loss of energy. If you have these symptoms and have taken all kinds of medicine and still sick, I especially want you to write for my booklet. Mrs. J. B. Massey of Odessa, Texas, Box 112, whose picture appears here writes: I wish to thank you very much for restoring my health from one of the most dreadful, miserable diseases that anyone can have. I was in bad health for several years, under care of Doctors for three years. I do not think I could have lived much longer. I am in better health today than for several years, weigh more than I ever did in my life. I believe I am rid of an awful disease that the other Doctors failed to cure. FOR FREE DIAGNOSIS AND LITERATURE WRITE W. C. ROUNTREE, M. D. AUSTIN, TEXAS

NEW FORD WINDSHIELD PROTECTS PASSENGERS

Over THREE DEATHS EVERY HOUR for the first seven months of the year. And thirty-five serious injuries for every death is the toll taken by cars in the United States alone. A total of 15,900 MET THEIR DEATH as the direct result of automobiles in that time as compared with a grand total of one half million serious injuries. As you watch the minute hand of your clock go around remember that each time it passes the twenty minute mark one life, precious to someone, is snuffed out; remember that each time two minutes pass one serious injury, to be carried through life, is chalked up to the automobile.

But do not blame the automobile. Blame the maker. Statistics show that 65% of all these injuries were caused by flying glass; and conclusive evidence shows that the biggest part of the 65% can be laid to the windshield. The NEW FORD has a shatter-proof glass which, when broken, will ALL HOLD TOGETHER and not break into the sharp pieces which are so dangerous.

The windshield has other added advantages. It softens the rays of the sun, breaks headlight glare, is flexible under pressure and is so strong that it has deflected bullets from the passengers.

New Instant-Light Aladdin KEROSENE MANTLE LAMP

(A Thing of Beauty and a Joy Forever)

Lights Entire Room

You can read in any part of the room with this wonderful kerosene mantle lamp. The beautiful design of the satin white shade conforms with the design on the bowl in such a way as to produce a very artistic effect. It's a pleasure to do evening reading, writing or sewing under the white, soft mellow light of this new modernized Aladdin Table Lamp.

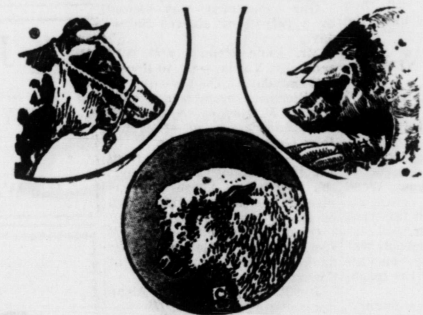

No Generating; Waiting; Pressure; Noise; Smoke; Odor; or Trouble

It burns common oil (Kerosene), absolutely safe, can't explode. Anyone can operate it. Government tests and scientists at leading Universities show it gives twice the light of the best round wick, open flame lamps and yet burns less than half the oil. The Aladdin was awarded Gold Medal at the Panama-Pacific Exposition. This Store Authorized Distributors for the Aladdin Lamp. A full line of Supplies for all model Aladdins always on hand.

Come in and see the beautiful Aladdin floor lamp that we are going to give away Free on December 16. Ask for particulars and how you may win it.

Wahl Bros. & Schraub

PROSPERITY

We congratulate the boys and girls who are working faithfully in the 4H Club work. The knowledge gained in this work will form a foundation for success in the livestock business.
