Stage Is Set For Another Battle At State Democratic Convention

TALENT WINNERS

The three girls above were winners of the junior talent show and contest at the Midwest Electric Cooperative's annual meeting and electric fair held at Roby Friday. Third place winner, Ann Miller, 11, daughter of Mr. and Mrs. Morris Miller, Fluvanna, is at left. Second place winner, Peggy Summerlin, 10, daughter of Mr. and Mrs. E. E. Summerlin, El Paso community, is in center, and the first place winner, Janice Cave, 11, daughter of Mr. and Mrs. Dale Cave of Hobbs is at right. Story of the electric fair appears on page 2. (Lee Watson photograph)

Shivers Group In Control Of Scurry Parley

Despite the fact that they were short on votes in Scurry County one week ago, Governor Allan Shivers forces were clearly in control of the county democratic convention here yesterday afternoon.

The 15-man delegation to the state convention was instructed to vote as a unit at the state meet, and "join with Allan Shivers in his continued fight for Texas."

During the latter part of yesterday's recommendations for delegates to the state convention was read, five men who had led the minority walked out of the convention, but did not go into rump convention to name their own delegates to the state convention.

The delegates to the State convention were predominantly past Shivers supporters.

Only resolutions recommended by the credentials committee of yesterday's convention were adopted by the convention on floor vote, although several other resolutions were voted on.

The most important resolutions adopted were one to instruct the Scurry County delegation to vote as a unit at the state convention, and to "commend Allan Shivers for his administration which has been the most progressive in the history of Texas, and commend Shivers because he has given Texas a voice in national politics."

Moves to pass resolutions to prohibit candidates from cross filing as candidates on ballots of two political parties were voted down.

Another resolution passed by the convention was to commend Harold Bennett, county democratic chairman for the past two years, for his work as chairman. It passed unanimously.

Another unanimous vote was recorded for a resolution to recommend that Scurry County purchase voting machines for voting precincts 1, 17, 18, and 20, the four Snyder voting boxes, because of the difficulty of voting in the present method. The resolution had a second section that recommends that the county purchase units of five voting booths for each of the boxes if voting machines cannot be purchased.

Leader of the five men who walked out of the convention was Giles Bowers, who had made several motions from the floor against the Shivers resolutions. Walking out with Bowers were Sterling Taylor, John R. Covey, and Charlie Chorn. The fifth man was not a delegate to the convention.

All delegates were seated, but the Dunn voting precinct had not sent a certified list of delegates to the convention to the county clerk, and a motion to seat Dunn delegates was defeated. They remained, but could not vote on convention issues.

Although Harold Bennett, past chairman, was not re-elected by voters of the county last week, he was re-named convention chairman by convention vote. He received 21 votes. Frank A. Wilson, who received more votes last week for the post than Bennett did, received 15 convention votes, and C. N. von Roeder, received five votes.

Wilson was elected secretary by acclamation.

Delegates to the state convention named yesterday are to be: Bennett, Von Roeder, Guy Glenn, C. T. McLaughlin, John Sentell, Ray Lunsford, R. R. Patterson, Jr., R. R. Patterson, Sr., C. E. McCormick, Cecil McClatchey, Herbert Feather, Wayland Holt, Edgar Taylor, and R. A. Schooling.

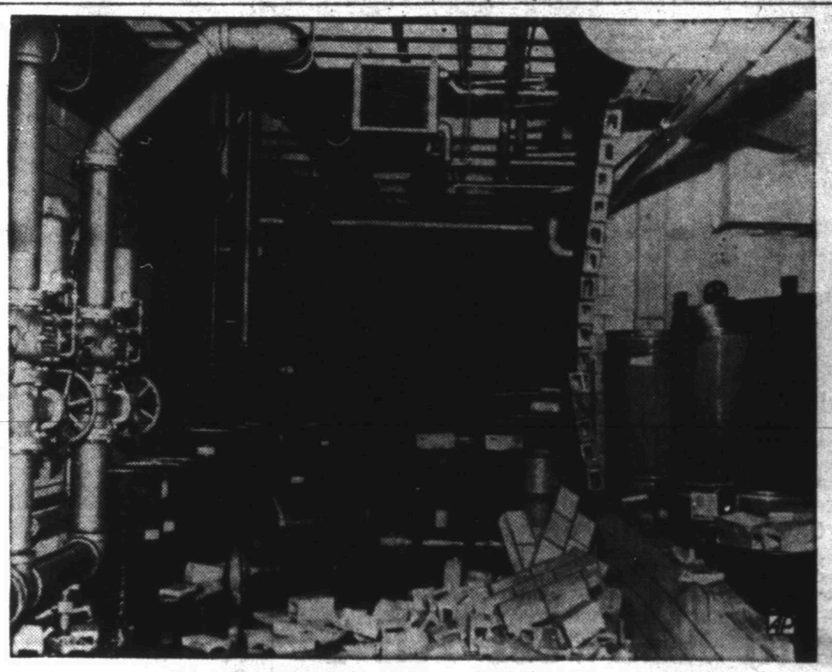

Alternate delegates are to be: J. T. Hughes, Walker Dabbs, James Rosser, H. W. Cargile, Frank A. Wilson, J. W. Phillips, James Mixon, Giles Bowers, Lee Smyth, Rea Falls, Lee Stinson, Harry Reed, E. H. Williamson, V. T. Tracey, and Joe York.

The Rev. M. W. Clark, one of the leaders of the minority at yesterday's convention here did not bolt the convention when some of the other minority members walked out.

He called the convention "machine politics" in denouncing actions of the majority of delegates present.

"I want to say that the loyal Democrats of Scurry County made a mistake today by staying away from this convention," Clark said.

Earlier he had said, "this is what I had expected all the time. This is the machine you see in action. I think it is unfair, unjust, unrelgeous, and dishonest."

EXPLOSION SHATTERS PLANT

The crumbled west entrance of the devastated Eli Lilly & Co. plant at Indianapolis was shattered by the force of a deafening explosion that injured five workers. Firemen feared each of the chemical drums shown above might prove a fire bomb if the flames had spread to them.

Command Of Machinery Is Split Sharply

By The Associated Press

The bitter squabble between loyalist and conservative Democrats for control of party machinery in Texas seems headed for a showdown at the state convention in Mineral Wells Sept. 14.

Results of county conventions Saturday showed another fight over seating of delegates was coming.

Rump conventions of conservative forces were held in Ellis and McLennan (Waco) after loyalists rode firm in the saddle.

Gov. Allan Shivers, leader of the conservatives, was scored tartly in resolutions by several conventions controlled by loyalists.

Ralph Yarborough, champion of the loyalists, was praised in these same conventions.

Loyalists, often called liberals, are Democrats who went down the line with national party decisions and nominees. Convervative leaders in the 1952 presidential election bolted and backed the GOP nominee, President Eisenhower.

Loyalists captured the Harris County convention at Houston by a big majority. They elected the temporary chairman by 5,547 votes to 3,820.

Conservatives held no rump session, but there was a hint they would challenge the legality of the Harris County convention on grounds the county executive committee that set up its framework was formed illegally.

After loyalist forces showed firm control of the McLennan county convention, conservatives met after the meeting and named a separate slate of delegates to the state convention. They did this on grounds votes alloted at precinct conventions were based on votes cast for Shivers in 1952 only as a Democrat. Shivers was crossfiled on both Democratic and Republican ballots in 1952.

The State Democratic Executive Committee ruled all ballots cast for Shivers, Democratic and Republican, should be counted in determining precinct voting strength.

Conservative forces took control of the sizeable Travis County (Austin) delegation, while loyalists were in command of the county conventions of Orange and Navarro.

Decisions reached at the county conventions play a major part in what shape the state convention takes. The state convention usually determines Texas' official political outlook for at least a year. Action there could have an effect on who is nominated for President by the Democratic party two years from now.

At Austin, conservative forces elected a chairman by a 717.05 to 545.95 vote. The fractions were because some precincts split their votes.

At Orange, County Democratic Chairman George Cook said "a little trading" prevented any test of strength between the two factions. The result was the Orange County delegation includes county campaign managers of both Shivers and Yarborough. The entire delegation, controlled by the loyalists, was bound by the unit rule. That means the county vote must be cast as a unit the way the majority of the delegates wants.

At the Navarro (Corsicana) convention, on the only poll of strength the loyalists won 224½ to 30½.

Resolutions passed there included one rapping Shivers for "betraying the Democratic party" in 1952 and scoring Eisenhower for patting Shivers on the back in a statement last week.

Military Manpower Plan Gets Ike Okay

By C. YATES McDANIEL

WASHINGTON, July 31 (AP) — A sweeping new military manpower plan aimed at military duty for "all qualified young men," followed by compulsory service in a new reserve set-up, has been approved by the Eisenhower administration, it was disclosed today. The object is to prepare the nation for any possible war with Russia.

"The whole thing is geared to the day of active war with the Soviet Union," said Asst. Secretary of Defense John A. Hannah in explaining the policy approved by the National Security Council this week for submission to Congress early next year.

"Everyone up to the President," Hannah said, "agrees that we must have an effective reserve to meet the requirements of war with the Soviets." Hannah added: "And that is the only war that counts."

Hannah disclosed the new military program on his last day at the Pentagon, after serving for 18 months as assistant secretary for manpower and personnel. Next week he will resume the presidency of Michigan State College.

The reserve scheme, which Hannah said would have to be pushed through Congress before the current selective service law expires next April, is the newest approach to a form of universal military training. Actually it would go beyond some training proposals of the past, Hannah pointed out, because the National Security Council in approving it stated one of the objectives thus: "All qualified young men will be required to serve . . . a minimum period as members of one of the armed services." The administration's top policy making body said also that all qualified young men who "do not enlist in a service of their choice, will be inducted."

Hannah read from an official document classified "secret." As he talked to newsmen in his office, he declassified the paper by the simple expedient of cutting off the word "secret" with a pair of scissors.

Whether Congress would go along with the plan is a question. It has been cool to UMT in the past.

The program, as Hannah outlined it, would abolish the Army and Air Force reserve organizations as they now exist and make the National Guard, now under state control except in time of war, "the National Guard of the United States for all practical purposes." Hannah declared. This would be done, Hannah said, by assigning to guard units all young Army and Air Force men after they had completed their tours of inductive or voluntary duty in the regular services. The present reserve law sets forth an eight-year period of military service but provides no method to force young men to join the organized and active reserves.

Hannah said he favored putting teeth into the law by recommending automatic reinduction of any youth who failed or refused to continue his active reserve service.

Motions To Quash Indictments Denied

ALICE, July 31 (AP)—Judge Maxwell Welch denied today motions to quash 39 indictments against four Duval County men.

Welch ordered a change of venue on the indictments.

The men are charged with misapplication of county or school funds. An indictment against George Parr on an assault to murder charge was dismissed earlier on grounds of double jeopardy.

Parr, long dominant in Duval County politics, still faces an indictment for conspiracy to steal and misapply public funds in the Benavides Independent School District.

Home Building Here Expected To Take Jump

Housebuilding and sales of new houses is expected to pick up here when a new bill affecting the size of Federal Housing Administration loans goes into effect.

The new bill provides for loans on a larger percentage of the appraised value of a house, resulting in lower down payments. In many cases, it will cut the down payments in half.

Many persons here, realtors say, have wanted to buy houses but could not because they lacked adequate money to make the down payment. These are usually persons who are not veterans and cannot secure GI loans, which have covered more of the cost of the houses.

The new ruling would make the FHA loan situation much similar to the GI loan about a year ago, when the Veterans Administration was okaying 95 per cent loans, some realtors here say.

L. A. McClanahan, now head of the Snyder Real Estate Board, said one FHA representative once told him that if a realtor had 100 prospective house buyers and then raised the amount of the down payment $100, he would lose half of those prospects. McClanahan said he agreed with the man and that he believes cutting the FHA down payment in half will double the present number of prospective house buyers here.

C. A. Heath, builder and realtor, said he believes the increase in the amount of the FHA loan will cause an increase in the house market here. It will take the pressure off many non-GIs who have not had enough money for down payments, he said, adding that he had had several calls for houses from persons who found they were short of adequate cash to move into houses.

Walter Hales, another builder here, said he believes the demand for houses will increase as a result of the new bill. "It was getting to where we couldn't find anyone with enough money to buy a house," he said, adding that $1,500 to $2,000 down payments were too steep for a large percentage of persons.

Fulbright Itemizes List Of Grievances Against McCarthy

WASHINGTON, July 31 (AP)—Sen. Fulbright (D-Ark) hurled six charges—including an allegation of a $10,000 "shakedown" of a housing corporation—at Sen. McCarthy today as the Senate plowed through some seven hours of argument without a decision on a move to censure the Wisconsin Republican.

Fulbright moved to meet vehement objections from a number of senators that the resolution of condemnation of McCarthy's conduct, offered by Sen. Flanders (R-Vt), lacked a bill of particulars.

It was a day in which foes of McCarthy lambasted him, and other senators, including Sen. Daniel (D-Tex), objected that the backers of the Flanders move were trying to do to McCarthy what they accuse him of doing to others—condemning people without fair procedure.

Sen. Hickenlooper (R - Iowa) called the Flanders resolution an "utterly improper approach and unconscionable."

In early evening the Senate recessed until noon Monday. Today's debate never reached the peaks of emotion and tension scaled last night McCarthy himself was absent much of the time. And crowds had dwindled to the point where there were big clumps of empty seats in the galleries.

Fulbright offered amendments to the Flanders resolution covering each of his six charges. He said he would demand a vote on each.

The other five were that McCarthy:

Denounced a Senate subcommittee that investigated his affairs and "contemptuously refused to comply with its request" that he testify.

Openly invited and urged government employes to violate the law and their oaths of office before a nationwide television audience. This was a reference to McCarthy's statement at the Army-McCarthy hearings that it was the duty of government workers to supply him with confidential information.

Strongly implied in public hearings of his own subcommittee that Annie Lee Moss, an employe of the Pentagon "was known to be a member of the Communist party and that if she testified she would perjure herself" — before he had given her a chance to testify.

Impugned the "loyalty, patriotism and character" of Brig. Gen. Ralph W. Zwicker, another witness at McCarthy hearings on alleged communism in the Army.

In a June 15, 1951, speech "without proof or other justification, made an unwarranted attack upon Gen. George Marshall."

Point No. 1 dealt with a fee McCarthy got in 1948 from the Lustro Corp., housing concern. It was for a booklet in housing.

A Senate subcommittee declared in a 1952 report the deal appeared to have been "highly improper." Atty. Gen. Brownell has said the Justice Department could find no evidence of law violation.

THUNDERHEADS PRODUCE RAIN IN SOME SECTIONS

By The Associated Press

Thunderheads romping across Texas dropped good rains on some lucky spots Saturday, skipped others entirely, but gave most of the state some relief from the heat.

There were no rains to compare with downpours of up to 16 inches which sent bayous in the Houston area flooding into homes Friday and early Saturday. The high water there was receding Saturday night after forcing about 550 families from suburban Houston homes.

Scattered rains ranging up to 3.25 inches fell elsewhere in Texas Saturday, missing only the extreme west, the upper border country and the lower coast.

In Llano County in South Texas' ranch country, rains ranged from .32 of an inch at Llano itself up to an unofficial 2½ inches in the northern half of the country. It was the best rain since May in Llano county, one of the counties on the drought-disaster list. (Up to 2½ inches fell in Kerr County.

Thirty - seven more counties asked Saturday to be added to the drought relief list. Twenty-three Central and West Texas counties already are eligible for the federal-state hay feed program.

Both Eastland and Dallas had typical hit-and-run thunderstorms Saturday. An inch and a half of rain fell in 45 minutes at Eastland. The sudden downpour at Dallas drenched downtown shoppers and sent water curb-high through streets, but the Weather Bureau at Love Field recorded only .31 of an inch. Winds reached 45 miles an hour in gusts during the brief storm. Suburban Lisbon recorded 1.63 inches.

Other rain reported by the Weather Bureau for 24 hours ending at 6:30 p.m. Saturday included Mineral Wells 3.25 inches, Lufkin 1.08, San Antonio .74, College station .34, Laredo .19, Austin .18, Texarkana .16, Fort Worth .11, Abilene .08, Galveston .05, San Angelo .04, Junction .02 and Tyler .01. Unofficial reports included these in the Dallas area: Muenster 1.74, Valley View 1.50, Pilot Point 1.31, Gainesville 1.07, and Sanger .74.

Little White Oak Creek forced about 250 families to evacuate their new homes in northwest Houston's Oak Forest addition early Saturday. Welcome Wilson, assistant civil defense director, estimated damage in the Oak Forest area alone at $250,000 to $300,000.

Eleven Die In Blazing Crash

WHITESBURG, Ky., July 31 (AP)—Eleven persons burned to death today when their 1941 automobile, its brakes gone, struck a cliff on Pine Mountain and caught fire.

Only the driver, Hexie Maxie, 33, escaped. His wife and three children were among the victims.

Also trapped in the vehicle were Maxie's sister, Mrs. Lula Brown, 30, her husband, Tom, their four children and a neighbor, Martha Gibson, 15.

The accident occurred eight miles south of this Letcher County community in southeastern Kentucky shortly after the families left their homes at Millstone to visit the mine where Maxie and Brown worked.

En route to a Fleming, Ky., hospital, Maxie said his brakes failed after he had gone over the top of the mountain and he was unable to avoid crashing into a cliff.

He said the car evidently became overheated by the long pull up the steep grade, and the gasoline tank burst into flames immediately after the impact.

Maxie, his clothing burned away, was hacking at the wreckage with an ax when rescuers arrived. He was unable to say how he escaped from the car. Maxie was reported in serious condition from burns over most of his body.

At a Whitesburg funeral home, the other dead were identified as: Mrs. Elsie Maxie, 21; her children, Bobby Ray, 4, Betty Sue, 5, and a third child about 3. The Brown children killed were: Shirley Jean, 6, Christine, 9, Hayden, 5, and Heraldine, 2.

Rhee Declares Truce Is Dead

WASHINGTON, July 31 (AP)—Less than 48 hours after concluding talks with President Eisenhower, Syngman Rhee today declared the Korean armistice dead. He called on the United States to concur in the ousting of the two Communist members of the Neutral Nations Supervisory Commission.

There was no indication the United States would consider scrapping the year-old truce — an action which could be considered preparatory to resuming hostilities.

The 79 - year - old Korean President commended his officials at Seoul for ordering the Polish and Czech Communist members of the Neutral Nations Supervisory Commission to leave South Korea "quietly."

"Then they leave the country there will be no difficulty at all," Rhee said.

Sovereignty Offer Is Made To Tunisia

TUNIS, Tunisia, July 31 (AP) — Premier Pierre Mendes - France walked through a corridor of troops into the palace of the Bey of Tunis today and told him internal sovereignty was his for the asking but that Tunisians had better quit shooting at Frenchmen.

It was another dramatic hour for France's Premier of six weeks.

A little over a week ago he negotiated a cease-fire in Indochina.

Today he arrived in Tunis, another sore spot on the French body politic.

In the blazing heat of the North African sun he reviewed a few troops and, with Marshal Alphonse Juin at his side, drove to ancient Carthage, where the Bey, Sidi Mohammed Al Amin, lives in gold and tapestried splendor.

Clearly determined that Tunis should not become another Indochina, the Premier told the elderly Bey that France is ready quickly to transfer to Tunisia—after three generations of occupancy—the internal sovereignty the protectorate long has demanded and for which recently much blood has been spilled.

French colonials will stay in Tunisia, he said, but the domestic government, long in the hands of French, will be largely transferred to Tunisians. The exceptions: France will continue in control of defense and foreign affairs.

He appealed to the Bey to encourage all organizations in the country to end the near civil war between Tunisians and Frenchmen. In recent weeks this conflict has climbed to a new peak of violence and dozens of Frenchmen and Tunisians have been killed.

The Premier's proposals were relatively simple, and left considerable to be negotiated.

Tunisians will form the internal government, "right now if you wish," Mendes - France told the Bey. This government then will negotiate with France an agreement giving internal government to the Tunisians but protecting the rights of the 168,000 French colonials living here on farms, operating businesses or working in the government.

In Paris, a Foreign Office spokesman said it was expected the Tunisians, for the first time, would have their own Parliament to legislate internal law.

The Bey has had power to decree laws and regulations, provided they were approved by the secretary general of his Cabinet, who always was a Frenchman. That now will stop.

Refugee Taken Off Freighter

LONDON, July 31 (AP) — A Polish stowaway seeking asylum in Britain was removed by British police tonight from a Polish freighter where American scientist Joseph Cort and his wife awaited departure for political asylum in Red Czechoslovakia.

The police also brought ashore another man. He was not identified immediately.

The haggard stowaway, who had been reported starving, was brought off the ship just before midnight.

High-ranking British police officials had argued with the Polish ship captain for 85 minutes before he was taken off.

Air Force Planes Go To Costa Rica

By BEN F. MEYER

WASHINGTON, July 31 (AP)—The United States today rushed six Air Force planes to Costa Rica as troops and armored vehicles from neighboring Nicaragua made a show of strength near Costa Rica's border.

The two Central American republics have been quarreling for months. Recently each has accused the other of acts of violence along their common frontier.

Informed quarters said it appeared the Washington government's action in sending the planes was to serve two purposes: 1. a measure of reassurance to the people of Costa Rica, which for years has had no army; and, 2. to tell Nicaragua and anybody else interested that no trouble is wanted in Central America.

The Air Force called the flight a "good will" mission and as if to emphasize United States neutrality in the dispute, it announced the planes may go later on to other countries in that area.

Last April Nica——— announced that a band of men, coming from Costa Rica, had tried to assassinate President Anastasio Somoza, veteran dictator of Nicaragua. Last week Costa Rica announced that minor uprisings against its government and President Jose Figueres, by a band coming from Nicaragua, had likewise failed.

Somoza moved troops to the border, he said, to "protect Nicaragua's territory" after Nicaragua charged that Costa Rican border guards fired on a Nicaraguan plane.

The United States rushed arms to Nicaragua and Honduras recently after Guatemala's then pro-Communist government received a shipment of arms from behind the Iron Curtain. Then Costa Rica, apparently concerned at Nicaragua's verbal attacks, asked and got arms from Washington also.

The Air Force said the planes, C47 transports, would remain in San Jose, the capital of Costa Rica, for three days. It was explained the planes carried no cargo and no passengers. Three of the planes came from Albrook Field, Panama, two from Maxwell Air Force Base, Montgomery, Ala., and one from Elgin Field, Valparaiso, Fla.

CROWD FOR MIDWEST ELECTRIC SHOW

A portion of the approximately 3,000 persons gathered under the "big top" at the Midwest Electric Cooperative electric fair Friday in Roby. Persons from the nine-county area serviced by the co-operative attended. In addition to a business meeting, entertainment was furnished throughout the day by professional and amateur entertainers. (Lee Watson photograph)

3,000 Attend Midwest REA Electric Fair Held In Roby

By LEE WATSON

ROBY, July 31—About 3,000 persons attended the day-long electric fair, business meeting, and talent show put on by Midwest Electric Cooperative in Roby Friday.

Entertainment of various kinds highlighted the activities and made the routine re-election of officers and directors one of the lesser attractions for the families of the nine-county area served by the co-operative.

Officials for the cooperative said that Friday's show was the biggest ever held, outclassing last year's record crowd of about 2,000 persons by about an additional 1,000 this year.

Before noon Friday all 2,000 seats in the "big top" tent at the fair were filled for acrobatic displays and prize awards. When registration stopped 505 of the cooperative's 2,950 members had regisistered at the show grounds.

Recommendations of the nominating committee that officers and directors be re-elected were followed, and only one nomination was made from the floor during the business session at 2 o'clock Friday afternoon.

The only floor nominee, C. A. (Jack) Ramsey, farmer who lives five miles west of Snyder, lacked two votes of winning a place on the board of directors. He received 74 votes and Demp Kearney, next low man, received 75 votes for re-election.

Officers who were re-elected for new one-year terms are: Kearney, Sweetwater, president; John A. Stavley, Fluvanna, secretary; Howard C. Davidson, Lubbock, attorney; Grady Williams, J. J. Henry, Hermleigh; A. A. Aaron, J. L. McArthur, Rotan; and Vernon Harris, Hamlin, directors.

The annual report of Stavley, secretary, showed that the Midwest Electric Cooperative now has 1,643 miles of energized electric lines serving its 2,950 customers, and that its repayment to the REA has totaled $62,751.51.

The cooperative's general and operating funds stand at $66,661.27 now, other funds and investments total $175,692.27, other current assets total $141,407.33, the utility plant less reserves is valued at $1,801,569.48; construction work in progress totals $54,027.88; and other asset debits are $7,492.43. Total assets of the cooperative are $2,246,850.66.

Liabilities of the cooperative are: current and accrued liabilities, $4,360.79; long term debt to the REA, $1,958,706.28; other liabilities and credits are $33,782.55; membership subscriptions are $21,655.00; and capital and operating margins are $228,346.04.

In the talent contest for youngsters of the nine-county cooperative area Janice Cave, 11-year-old daughter of Mr. and Mrs. Dale Cave, Hobbs, won first place. A prize of $10 and a watermelon was given to the first place winner.

Second place prize of $7.50 went to Peggy Summerlin, 10, daughter of Mr. and Mrs. E. E. Summerlin, of the El Paso community, and the third prize of $5 went to Ann Miller, 11, daughter of Mr. and Mrs. Morris Miller, Fluvanna. The first two place winners sang songs, and the third place winner played a piano solo, "In the Mood."

Last year's first place winner, Billie Joy McGinnis, 10, daughter of Mr. and Mrs. J. N. McGinnis, Roby, introduced the talent contest by singing two songs. She won first place in the state-wide contest after winning first at the Roby contest last year, so was ineligible to compete again this year.

Other children in the talent contest were: Diane Rose, 4, and Charlotte Rose, 5, individual tap dance entries, and daughters of Mr. and Mrs. Lecil E. Rose, Snyder; Tachi Martinez, 3, daughter of Mr. and Mrs. Rudolph Martinez, Grady Community, singer; Brenda Sellers, 6, daughter of Mr. and Mrs. Bert Sellers, Dermott; Gloria Hudgins, 10, of Hermleigh; Pebby Barnes, 10, daughter of Mr. and Mrs. A. J. Barnes, North Roby; Sandra Bowen, 8, daughter of Mr. and Mrs. Bowen, Hackberry community; and Flo and Jo Trevina, 13-year-old twin daughters of Mrs. A. Trevina, Rotan.

Prizes were awarded throughout the day to persons from all over the area. Some of the prize winners were: L. E. Latham, Rotan; Mrs. Alvin Gruben, route 1, Rotan; E. G. (Jack) Sheed, route 1, Sweetwater; Floyd House, route 1, Snyder; J. P. McHaffey, Roby; and Adolph Sassins, Roscoe.

The Electric fair is an annual meeting of the membership of the cooperative, and cost to each member is approximately 50 cents. No admission is charged, and the entire day of entertainment is free.

Three large tents, the largest of which is a circus tent large enough to hold several thousand persons, were furnished by the Rural Electrification Association of Texas. Much of the cost of the day-long show is paid by sponsors of electrical displays shown in boothes in the two smaller tents.

A hillbilly band, trapeeze and tumbling acts, a balancing act, and master of ceremonies travel over Texas during the nine-weeks each summer that the shows are held in all the different electric cooperatives.

The president of the cooperative said that several hundred electric customers will be provided with telephone service using the electric lines as telephone conductors during the next year. He said extensive plans for telephone service expansion in the Fluvanna area are nearing completion.

The municipal seal of Waterbury Conn. asks "Quid Aere Perennius?" — "What is More Durable than Brass?"

WOUNDED BY KIDNAPER

Mrs. Pauline Anton, 40, mother of six children, shows where her husband, Dr. Albert N. Anton, 48, Beverly Hills, Cal., physician, was wounded in the arm by a gunman who kidnaped them and held them captive for two hours. Los Angeles police who closed in on the kidnaper and the Antons after being tipped off by a druggest, shot and killed the gunman. They identified him as Jack B. Lyons, 39.

Yarborough, Shivers Map Out Strategy For Runoff Battles

AUSTIN, July 31 (AP)—Gov. Allan Shivers and Ralph Yarborough, opponents in a runoff election campaign that will be settled four weeks from today, re-emphasized the issues this week and mapped what each hopes will be victorious strategy.

Shivers is seeking an unprecedented third consecutive elective term.

Yarborough made the third term an issue in the first primary. He will stress it again in the runoff, telling voters that long tenure in office leads to corruption.

He told reporters this week he thought the "integrity in office" issue was his biggest vote getter in last Saturday's election.

Shivers and Yarborough called press conferences during the week to tell how they analyzed the results of the 1,349,605 votes cast July 24.

Shivers led Yarborough by 23,787 votes in the Texas election bureau's unofficial count, 668,536 to 644,749. A runoff was forced because two other candidates polled a total of 36,320, leaving Shivers short of a majority.

Shivers indicated he will continue to hit hard on his charges that Yarborough is a "captive" of the CIO and the National Association for the Advancement of Colored People.

He said those charges had been proved because his analysis of the first primary election found Yarborough winning in every box where CIO or Negro voting strength is located. Shivers estimated 200,000 Negroes had voted and 90 per cent had sided with Yarborough.

Yarborough said Shivers' estimate was "grossly in error", that not more than 75,000 to 80,000 negroes had voted.

However, he was in apparent agreement with Shivers that the great bulk of the Negro vote went to Yarborough.

He accused Shivers of trying to stir up a "hate war" between the races to win the white vote.

Shivers has shown determination to make an issue of whether Yarborough would fight as hard as Shivers against the U. S. Supreme Court decision declaring racial segregation in the schools unconstitutional.

Yarborough insisted this week that segregation is not an issue in the campaign but that Shivers is using it to create a "fictitious issue" on which to gain white votes.

Other issues, as the candidates see them:

Shivers: "In this runoff, I think the people have a choice of the type of government they are going to have the next two years.

"It can be one of strife and discord not only among the people but with the legislature—or cooperation, working for all of Texas every segment of it.

Yarborough:

1. Whether the voters will "reward with a third term" a governor who eight years ago bought an option on some Rio Grande Valley land for $25,000 and sold it a few months later for $450,000.

2. Whether Texans will give a third term to a governor whose associates have been accused by Yarborough and others of peddling influence.

3. Whether Texans will "reward with a third term a governor who boasts to the nation that he holds Texas in the palm of his hand, and uses it as he wills."

Even Ancient Oxcarts Had A Higher Speed

MIDLAND, Tex., July 31 (AP)—Even the oxcarts of the pioneers were faster:

Eight years ago, Marie Johnson was society editor of the Midland Reporter - Telegram. She moved from Midland several years ago.

Yet this week a postcard addressed to Marie was received at the Reporter-Telegram.

The postmark: Abilene, Tex., 2 p.m., Nov. 15, 1946. Abilene is 150 miles away.

Attend Funeral Rites In Comanche, Okla.

Mr. and Mrs. Horace Edelman and family, 1912 Avenue R, returned Friday from Comanche, Okla., where they attended funeral services for Mrs. Edelman's mother, Mrs. Almeaddia Bagley.

Mrs. Bagley, 77, died Wednesday. She had been a resident of Comanche for more than 30 years. Funeral services were held Thursday in the First Baptist Church with burial in the Duncan cemetary.

Survivors in addition to Mrs. Edelman include nine other sons and daughters, 46 grandchildren and 16 great-grandchildren.

Business Due To Be Stable

DALLAS, July 31 (AP)—The Federal Reserve Bank of Dallas cautiously predicted today generally stable or slightly better business in Texas and the Southwest during the rest of the year.

"The major factors supporting the position of the business upturn are a trend toward higher levels of consumer spending, prospects for increases in production in certain lines, continued high levels of construction, the anticipated renewal of buying for inventory replacements, and the expected increase in defense spending," the bank said.

Adverse factors were listed as a continued need for inventory reduction, declining spending for plant and equipment and uncertainty about production of durable goods such as steel and autos.

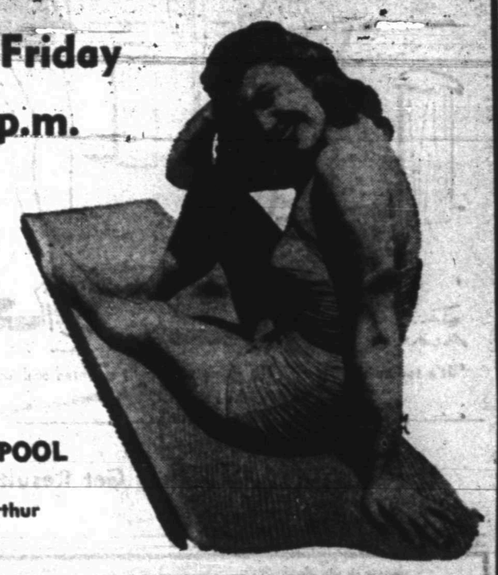

The reserve bank noted department store sales declined 6 per cent in June and trailed those of last year by 5 per cent.

Prolonged heat and drouth caused farm prospects to decline. The bank also noted substantial cuts in oil production in Texas, Louisiana and New Mexico.

These two teen-agers were to leave today for Houston to enter the state AAU Little Olympic meet, which will last through Wednesday. They are Powell Berry, 15, left, who ran first in the 70-yard high hurdles in the district meet with a time of 11.9, and Dean Staton, 14, who was first in the halfmile run with 2:26.3. Several places in the district meet were taken by Snyder boys, but these two got the only firsts. (Lee Watson photograph)

SPORTS

Tam O'Shanter Tourney Is Set

By CHARLES CHAMBERLAIN

CHICAGO, July 31 (AP) — Golf's most fantastic tournament, the complex Tam O'Shanter extravaganza, starts next week with the world's best men and women players stampeding for shares of a record $205,000 purse.

There is a total field of nearly 700—an all-time high for a golf meet. Entry fees range from $10 to $25. Of the 700, Promoter George S. May has exempted 104 from qualifying, based on past records.

This leaves 104 more to win berths through 18-hole qualifying rounds Monday through Wednesday.

The first section of the Tam O'Shanter gold rush runs 72 holes Thursday through Sunday. It is called the All-American tournaments.

Competing simultaneously will be 136 men pros, 24 men amateurs, 24 women pros and 16 women amateurs. After 36 holes, the field of men pros will be trimmed to the 64 low scorers.

First prize for men pros will be $3,420 with the list scaled to $65 for 40th place. The winning women's pro will collect $1,000 in a list that is graded down to $150. Amateurs receive merchandise valued up to $150 retail.

The All-American, however, merely served as a warmup for May's "World Championships" Aug. 12-15. These, too, are in four sections of medal play for 72 holes—men pros and amateurs, and amateurs, and women pros and amateurs.

The champion's payoff is $50,000 in cash and a $50,000 exhibition contract. Second place drops off to $10,000, third $5,000 and the list goes down to $250 for 45th.

The women pros shoot for a top award of $5,000 with $1,500 for second and down to $200 for the last six places. Amateurs receive the usual merchandise plus trophies.

Sandwiched between the All-American and "World Championships" will be May's inaugural international matches Aug. 10 and 11. These will pit eight outstanding overseas pros against eight U. S. stars in 18 holes of team play and another round of singles match play.

Tri-Service Needs One Win To Go Up

Tri-Service lacks only one game winning out in its part of the preliminary playoffs in the city baseball league.

The Tri-Service team Friday night defeated Hermleigh 14-1. In the first playoff game between the two, Tri-Service won 16-3. They are to play a best three-out-of-five series before the winner goes to the finals.

In the other bracket of the playoffs, Magnolia and Sun have played only one game. They were scheduled to play last night, but the game was postponed because of the death of a local Magnolia official. So far, Magnolia has won one game over Sun 4-2.

Tomorrow night, Tri-Service and Sun are scheduled to go into their third game. A Tri-Service win would end their part of the playoffs. The winners of the two brackets of the playoffs will go into a four-out-of-seven series for the league championship.

Tri-Service took a three-run lead in the first inning of the Friday night game, then added another in the second. In the third, Hermleigh got one run. Tri-Service came back with one run in the bottom of that inning, a home run by Mutt Thompson. It was smooth sailing for Tri-Service the rest of the way. Four runs were tallied in the fourth, two of them when Thompson doubled. There were two more runs in the fifth and three in the sixth, highlighted by triples by M. L. Galloway, Howard Sterling and Mickey Sterling.

Carl Foree, the winning pitcher, struck out four while giving up seven hits and one walk. The loser was Grady Gafford, who allowed 13 hits, walked four, and fanned eight.

Doby, Rosen Clout Homers

CLEVELAND, July 31 (AP) — Homers smashed by Al Rosen and Larry Doby backed up three-hit pitching by Bob Lemon today as the Cleveland Indians toppled Washington 6-0.

The Cleveland righthander faced only 30 batters as he handed the Nats their eighth straight defeat in Municipal Stadium.

Washington's Frank Shea was beaten for his ninth time in 10 decisions. Lemon's record is 13-5.

Singles by Jim Busby, Mickey Vernon and Ed FitzGerald were the only hits off Lemon. The Indians collected 10 hits off three Washington pitchers.

The home runs, which gave Cleveland a 3-0 first inning lead, came back to back. Bob Avila was on base via a walk when Doby sent his 22nd homer of the season into the right field stands. Rosen's circuit clout was his 19th of the season.

In the second inning, the Indians produced a run off Shea on a walk by Hegan, and singles by Lemon and Dave Pope. Gus Keriazakos went to the mound for Washington and walked Avila, filling the bases. Then Doby hit a sacrifice fly, scoring Lemon.

Another Cleveland run came in the fourth on singles by Hegan, Pope and Avila.

Williams Leads Sox Over Tigers, 4-0

DETROIT, July 31 (AP)—Ted Williams, who thrives in Briggs Stadium, hammered his 17th home run today and the Boston Red Sox blanked the Detroit Tigers 4-0 in a game twice delayed by rain.

Williams, who says the Detroit ball park is his favorite, homered into the lower right field deck in the ninth inning, following an error which permitted Billy Goodman to go safe at first.

Grady Hatton added an insurance run in the ninth, bouncing a home run off the upper deck in right.

Tom Brewer and Ellis Kinder combined to pitch the shutout, holding the Tigers to five hits.

Jim Tobin, former major league pitcher, is now an automobile salesman in Alameda, Calif.

Hamilton Puts Sights Higher On Standards

NEW YORK, July 31 (AP)—Brutus Hamilton has for the third time in 20 years raised the level of the records he thinks men can achieve in athletics in the foreseeable future.

Out of his 18 "perfect records" first charted in 1934 for the standard Olympic events, all but four have been broken, and one of these has been tied. Of his revised list of 1952, two already have fallen. Now he has lifted the sights on seven more marks.

Still unanswered is the question of limits beyond which man cannot go.

Hamilton named the super-athletes who might achieve his new, glittering goals. Among the foreigners are Roger Bannister of England, John Landy of Australia and Emil Zatopek of Czechoslovakia. The Americans, with their past or present collegiate affiliations, included Parry O'Brien, Jim Lea, Jack Davis and Ernie Shelton of Southern California; Bud Held of Stanford; Johnny Bennett of Marquette; Fortune Gordien of Minnesota; Jim Dillion of Auburn; Lou Jones of Manhattan, and J.W. Mashburn of Oklahoma.

Peering into the crystal ball, Hamilton can see the 62-foot shot put, a 275-foot javelin throw, 7-feet, 1-inch in the high jump, 200 feet in the discus, 16 feet in the pole vault (admittedly very distant), :45.0 in the 400 meters, and :50.0 in the 400-meter hurdles. These are the records where he raised the objectives.

The possibility of breaking records in the sprints is remote, Hamilton thinks.

Hamilton is recognized not only as a great track coach but also as an authority on records. He is director of athletics at the University of California and was head coach of the sensationally successful 1952 American Olympic team.

Martin Wins First Start For Chisox

CHICAGO, July 31 (AP)—Lefthander Morrie Martin, making his first start for the White Sox, defeated his former teammates, the Philadelphia Athletics, today 7 to 1. Martin allowed only 4 hits and contributed a single and a double to Chicago's 11-hit attack.

The White Sox jumped on starter Charley Bishop for four runs in the first inning and routed the big righthander with three runs in the fourth. Ed Burtschy held the Sox in check the rest of the way.

LEGAL NOTICES

NOTICE TO BIDDERS

Sealed proposals, addressed to the Honorable Commissioner's Court, Scurry County, Texas, will be received at the office of Edgar Taylor, County Judge, Scurry County Texas, until 10 o'clock A.M. August 9, 1954, for furnishing all necessary materials, labor, equipment and superintendance for construction, erection and completion of a Flood Lighting system at the three Tennis Courts in Towle Memorial Park, for said County of Scurry. SNYDER ANGLERS SUCCESSFUL

The three Snyder youths above returned yesterday morning from Creede, Colo., with the string of trout they are shown holding above. The string of fish totaled 11 pounds when caught. They caught the limit of trout each of the four days they were there. From left are: Carl Burns, Bill Compton, and Jimmy Bennett. (Lee Watson photograph)

English-Bred Colt Captures Arlington 'Cap

By CHARLES CHAMBERLAIN

CHICAGO, July 31 (AP)—English-bred Stan, a 5-1 shot owned by Mr. and Mrs. Allie E. Reuben of Toledo, Ohio, came from far behind today to win the $156,000 Arlington Handicap by a neck over Brush Burn, at 25-1.

It was the Hasty House Farm color bearers' first victory in five starts this year and gave the 4-year-old bay gelding the top award of $99,050.

Stan, given a terrific ride by Eldon Nelson, stre[illegible] where midway in the stretch and barely went ahead of Brush Burn about 50 yards from the finish.

Harry N. Eads' 5-2 favorite, Sir Mango, was third 3½ lengths behind Brush Burn. Abbe Sting, at 15-1, was fourth a length and a half farther back.

Stan covered the one mile and three-sixteenths over the soft turf at Arlington Park in a creditable 1:57, rewarding its backers $12.80, $6.40 and $4.00. Stanley C. Mikell's Brush Burn, who has failed to place in four starts this season, returned $24.80, and $14.20.

Sir Mango paid $4.00.

The victory boosted Stan's earnings for the season to $103,250.

The attendance at the nationally televised feature was 30,086.

Strung out in the 14-horse field behind the first four in this richest of all grass races were: Landlocked, Ruhe, coupled with Stan in the betting, County Clare, Find, Precious Stone, IcebergII, Turgueneff, Smoke Screen, recent winner in the mud of the Equipoise mile, Dance Nsing and Warless.

ALL-STAR QUARTERBACK ARRAY

Lining up behind center Jerry Hilgenberg of Iowa are five quarterbacks who are working out at the Collegiate All-Stars' training base at the University of Indiana football practice field at LaFayette, Ind. Left to right they are: Vince Dooley of Auburn, Paul Cameron of UCLA, Cotton Davidson of Baylor, Bobby Garrett of Stanford and Zeke Bratkowski of Georgia. The College All-Stars will meet the National Football League Champion Detroit Lions in Chicago August 13.

Doran Takes Her Second Title In Row

INDIANAPOLIS, July 31 (AP) — Claire Doran spanked in a 20-foot birdie chip and a 4-foot birdie putt on the last two holes to defeat Beverly Gammon, 5 and 3, today for her second-straight Women's Western Amateur golf championship just as the sun went down on Broadmoor Country Club.

Thunderstorms delayed the match four times.

The heavy rain interrupted a great performance by Miss Doran, a Curtis Cup team member from Cleveland. She shot a par-75 on the morning round for a 4-up advantage. Her 23-year-old opponent from St. Paul, Minn., shot an 80.

The first storm broke during the noon stop, and delayed the afternoon start over an hour. Both girls shot 3-over-par 40s on the sloppy front nine in the afternoon, and had to take shelter three times.

Miss Gammon, a terrific competitor although playing in only her second national tourney, refused to give up after losing the 11th afternoon hole to go down. She sank a 4-foot putt to win No. 12 with a par when Doran missed a 5-footer. She took the next hole with another par when Miss Doran got into another swampy trap.

The Cleveland school teacher put a quick end to the Minnesota school teacher's rally. On the 412-yard, par-5 14th hole, Miss Doran's second shot hung on the side of a bunker. Her third shot was on the fringe 20 feet from the pin and she chipped into the cup.

Adcock Ties Record With Four Home Runs

BROOKLYN, July 31 (AP) — Joe Adcock, Milwaukee Braves' first baseman, slugged four home runs against the Brooklyn Dodgers today, tieing the major league record for most roundtrippers in a game and leading the red - hot Braves to their ninth straight victory in a 15-7 romp.

Adcock, only the fifth batter in the long history of the major leagues to hit four out of the park in one game, also belted a double and the combination of long hits also gave him a record of 18 bases in one game.

By coincidence, the last player to hit four home runs in a nine-inning game was Gil Hodges of the Dodgers, who also connected for a homer today. Hodges, who got into the record books with four home runs in the same park Aug. 31, 1950, also was one of the co-holders of the total bases record at 17.

Adcock's fourth home run, a soaring smash into the left field seats, also enabled the two clubs to tie the National League record of 10 home runs in one game by both clubs.

The victory cost the second place Dodgers a game in their race with the league - leading New York Giants, who whipped Cincinnati 7-0. New York now leads by four games with the Braves tearing along only nine games behind.

Adcock, a right-handed hitter who came into the game with 15 home runs and a .314 batting average, victimized a different pitcher with each of his home runs.

He clouted Don Newcombe's first pitch of the second inning into the left field stands. He doubled off Erv Palica in the third, then tagged him for a home run with two men on base in the fifth. No. 3 came against Pete Wojey in the seventh with Hank Aaron on base. The one for the record books was hit off Johnny Podres, fifth Brooklyn pitcher, leading off the ninth inning.

Adcock joins a distinguished list of sluggers who have hit four homers in one game. Bobby Lowe of the Boston Braves turned the trick first in 1894, and Ed Delehanty of the Philadelphia Phillies followed in 1896.

The feat was not repeated until Lou Gehrig of the New York Yankees did it in 1932. It was 18 years later that Hodges' big day came in 1950. Chuck Klein of the Philadelphia Phillies and Pat Seerey of the Chicago White Sox also hit four in one game. But Klein needed 10 innings and Seerey 11 to get their fourth homers.

Barrett Setting Pace Among Base Thieves

By The Associated Press

A stolen base every other game is very good. Bill Barrett of New Iberia is doing that. He has swiped 44 bases in 87 games of the Evangeline League race.

Barrett also is among the 22 players hitting above .300. He is doing .318.

The big man with the mace is Bill Dossey of Thibodaux, who has one of the gaudiest batting averages in professional baseball. Dossey tops the circuit with .434. He also is the leader in hits.

Roy Sanner, the pitcher-outfielder for Port Arthur, is the only other double leader. He leads in home runs with 34 and in runs batted in with 127.

Bill Lynn of Alexandria leads in doubles with 38 and Roger McKee of Baton Rouge in triples with 11.

The leading pitchers are Fidel Alvarez of Port Arthur and Marv Holleman of Crowley, each having won 17 games. Rene Vega of Port Arthur leads in strikeouts with 150.

Sain Stifles Oriole Rally

BALTIMORE, July 31 (AP)—Johnny Sain relieved rookie Bob Grim in the ninth inning to quell a three-run Baltimore rally today as the New York Yankees defeated the Orioles 6 to 5 and squared their four-game series here at one each.

Grim, 24-year-old rookie right-hander, had spotted the Orioles a two-run, first-inning edge on Bob Kennedy's third homer of the year into the left field seats but was coasting on a 6-2 margin as the Orioles came to bat in the home half of the ninth.

Jim Fridley's single and short-stop Billy Hunter's second round-tripper of the year sent him to the showers, however, in favor of the 35-year-old Yankee fireman, Sain.

Before the latter could get out of the inning and preserve Grim's 13th triumph against four losses, Cal Abrams doubled and Eddie Waitkus singled with two away to narrow the New York edge to a single tally.

Sain then retired Diering on a roller to third baseman Andy Carey to escape the predicament and preserve the Yanks' second-place position, 2½ games back of the league-leading Cleveland Indians.

Gene Woodling's perfect 3-for-3 paced an 8-hit New York assault against Bob Turley, who suffered his 11th defeat in 18 decisions, and relievers Howie Fox and Mike Blyzka.

SPORTS

Littler Takes Lead In Kansas City Open

KANSAS CITY, July 31 (AP)—Gene Littler, Palm Springs, Calif., shot a sizzling 8-under-par 65 and Wally Ulrich a 67 to tie for the third-round lead in the $20,000 Kansas City Open golf tournament today.

Each had 54 hole totals of 202, 17 strokes under par.

Littler, the 1953 national amateur king and runner-up in the recent U. S. Open, finished with five-straight birdies going out on the scorched 6,625-yard Blue Hills Country Club course. He was over par on one hole, the 15th, coming in.

The 23-year-old Littler's game was just about perfect from tee to green. He had few long putts. He drove the 315-yard par-4 sixth hole, then got his birdie on a short second putt. His 150-yard approach on the seventh was a foot short of the pin.

Ulrich, who shot a 66 yesterday, started out with two straight birdies today and wound up with a 67. Lloyd Mangrum, veteran from Niles, Ill., the former champion here, matched Littler's 65 and was in third spot at 203.

Next in order, as the players continued their assault on par, were Jim Turnesa, Briarcliff, N. Y., with a 66 and 204; defending champion Ed (Porky) Oliver, Lemont, Ill., with 67 and 206; Bob Toski, Livingston, N. J., 67 and E. J. (Dutch) Harrison, St. Louis, 70, both also at 206.

The tournament ends with another 18-hole round tomorrow.

The low amateur was Jim English of Topeka, Kan., former University of Oklahoma star and present Kansas State amateur champion, who had 68 for the second straight day for a 209.

Another amateur, Frank Stranahan, who won the first tournament here in 1946, had a 69 for 212.

Eddie Mathews, star third baseman for the Milwaukee Braves, will be 23 in October.

Maglie Hurls Giants To Win

NEW YORK, July 31 (AP) — Sal Maglie pitched like the unbeatable Maglie of 1950-51 and Hank Thompson slugged two home runs as the New York Giants routed the Cincinnati Redlegs 7-0 today for their 12th victory in 17 games against the Redlegs.

Maglie, a 37-year-old righthander, had to be taken out because of the heat in the eighth inning (it was 106 degrees in the press box), but he had allowed only three widely spaced hits until then and enjoyed a 3-0 lead.

Maglie opened the eighth by getting pinchhitter Lloyd Merriman on a grounder, the 10th batter in succession he had retired. But Ed Bailey, another pinchhitter, walked and Maglie was replaced by Marv Grissom after he went to 2-0 against Chuck Harmon.

Grissom disposed of Harmon on a grounder and ended the inning by getting Roy McMillan on still another infield roller.

The relief pitcher himself started a four-run rally in the eighth, which sewed up the game, with a single to left.

Thompson supplied virtually all of the Giants' offense up to that point, however, as he poled his 16th home run of the year into the lower right field stands in the first and put No. 17 into the upper right field deck in the sixth.

Pirates Take Victory

PITTSBURGH, July 31 (AP)—The Pittsburgh Pirates, spurred by homers from the bats of Sid Gordon and Toby Atwell, came from behind to defeat the Chicago Cubs 5-3 today.

Appointment of Arthur F. Raimo as assistant football coach at Yale made it practically a Villanova reunion in New Haven. Head Coach Jordan Olivar and back-field coach Jerry Neri of the Elis played with Raimo at Villanova.

LEE BUNCH

2001 Ave. R Phone 3-8469

Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow—

and for just a few dollars more than the so-called "low-price three"!

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—*and command a higher resale price when you trade it in.*

3. You get a bigger allowance from our volume business

Regardless of price class, *Buick today is outselling all other cars in America except two of the "low-price three."* That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

Little Loop Starts Playoff On Monday

Playoffs will get underway for the Snyder Little League all-stars at 6 o'clock tomorrow afternoon when they meet stars from the Big Spring National league in the area tournament at Lamesa.

Playing at 4 o'clock will be Lamesa and the Big Spring American loop teams. The winners of the two games will meet at 6 o'clock Tuesday afternoon for the area championship.

The area champion from Lamesa, along with those from tourneys at Midland, Lubbock, and Sweetwater, will be here Thursday for the beginning of the district playoffs. Speedy Moffett, district tourney director, said he will hold a meeting of officials of the area champion leagues at 10 o'clock Thursday morning in Lamesa. Game times for the district tourney here will not be known until after that meeting.

Skipper Joyce, manager, and Bill Roberts, coach of the Snyder all-stars, have been working the team out every day for the past week in preparation for the tourney.

All-stars who have pitched this season include Richard Mahan (5-0), Norman Gladson (11-2), Richard Samuelson (1-0), Phillip Johnson (6-4), Mike Moffett (5-3), Foy Dennis (4-5), Doug Brunson (2-8), Tim Roberts (7-3), Ronnie Jones (6-2), and Steve Free. Mahan is the only member of this team who has been on a previous all-star squad.

Batting averages for the teams include .148 for Gladson, .407 for Mahan, .278 for Samuelson, .144 for Ronnie Wylie, .238 for Free, .234 for Jerry Fleming, .350 for Johnson, .415 for Moffett, .340 for Dennis, .236 for Brunson, .196 for Roberts, .321 for Jones, .263 for Larry Patterson, and .226 for Jerry Minica.

Last year the Snyder all-stars got to the district tourney in Plainview but lost out there in the first round to Lubbock 7-5. To get there they downed Rotan 8-0 after beating Sweetwater 6-1. In 1952, the first year of the Little League here, the Snyder team lost in its first playoff game to the Abilene Lone Star league 4-2.

Close Race In Texas League

By The Associated Press

More home runs have been hit by the leaders in other years of the Texas League, but there never has been a closer race for the top place than is going on among Willie Brown, Dallas outfielder who has been sold to Houston; Buzz Clarkson, Dallas third baseman, and Harry Heslet, Shreveport outfielder.

The latest averages showed Brown to be the leader with 29. Clarkson has 28 and Heslet 27.

Big Les Fleming, the Dallas manager-first baseman, still tops the batters but he lost 16 points last week when he got only four hits in 27 times at bat. He is clouting .360.

Second is Joe Durham, San Antonio outfielder, who also dropped some points. Durham is hitting .333. In third place is Ed Mickelson, the Shreveport first baseman, with .328.

Jim Neufeldt of Oklahoma City, and Ev Joyner of Shreveport are double leaders. Neufeldt tops in runs with 86 and in stolen bases with 33. Joyner has the most hits, 152, and the most doubles, 34.

Durham leads in triples with 14.

Clarkson is the first player to reach 100 in runs batted in.

Karl Spooner of Fort Worth (14-6), John Andre of Shreveport (14-7) and Vicente Amor of Oklahoma City (14-9) are the hurlers who might make it to the 20 even mark this season.

Spooner is the strikeout leader with 178.

Beaumont leads in club batting with .270, just one point ahead of Houston.

Paepke Doing Okay On Hill

By The Associated Press

For a part-time pitcher, Waco manager Jack Paepke is pretty good.

Paepke, who has his Pirates firmly entrenched atop the Big State League standings, has picked up the decisions in four Waco victories. He has yet to lose.

Latest league figures from statistician Harry Gage show Tyler's Gale Pringle as the winningest pitcher in the Big State, with 16 victories. He's also the strikeout king, with 152.

Hitting leaders, as usual, come from Corpus Christi, whose Dean Stafford holds three league leads. His 30 doubles, 28 homers and 115 runs batted in are all top figures for the circuit. Clipper teammate Jack Wilkinson has the most hits with 140.

Waco's Jack Falls is tops for the full season with a .379 mark. A couple of late-comers are ahead of him. Don Lavigne of Galveston has .403 in 20 games and Bob Cearley of Galveston .388 in 37 games.

Temple's Nellie Daehn is the triples leader with 18.

Corpus Christi still is the top hitting team, a .305. Waco leads in team fielding with .965.

Circuit Blow Pace Declines

By The Associated Press

Big Joe Bauman fell off his terrific home run pace last week, but added enough other stickwork to date over the Longhorn League leads in six hitting departments.

The Roswell first sacker had 136 runs, 153 hits, 311 total bases, 49 home runs, 161 runs batted in and 104 walks—each one a top figure in the league.

Bauman's .392 batting average has him third in the league, one step lower than last week. Stubby Greer of Roswell still sets the pace with a .404 record, followed by Julio Delatorre of Big Spring with .395.

Odessa's Barney Batson is the doubles leader with 38 and Carroll Gholson of Carlsbad has the most triples with 11.

Big Spring's Mike Rainey tops the pitching rolls with 16 victories and 16 complete games. He shares the latter lead with San Angelo's Bill Ewen.

Audie Malone of San Angelo has been the loop's busiest pitcher, with 180 innings pitched. Strikeout leader is Julio Ramos of Midland with 157.

Carlsbad's .316 average is the best in team batting. Roswell leads in team fielding with .950.

Detroit claims to be the hottest golf center in the U.S. with the United States Golf Assn. deciding (Aug. 23-28) for the eighth time its 1954 amateur championship at the Detroit Country Club. Twenty major golf titles have been decided on that course.

20-Game Crop May Be Large

By The Associated Press

There ought to be a good crop of 20-game winners in the West Texas-New Mexico League this season.

The latest official averages show Red Dial of Clovis and Andy Alonso of Abilene with 19 victories each and Eddie Locke of Amarillo with 17 triumphs, with over a month still to go.

Dial has the best record of the three, percentage-wise, with eight losses. Alonso has lost nine, Locke 12. Dial leads the league in strikeouts with 188.

Don Stokes of Plainview held his batting lead during the week, pounding the ball at a .422 clip. Stokes also sets the pace in hits with 162 and total bases with 269. Plainview teammate Francis Green leads in home runs with 29.

Pampa's Curt Hardaway is the leading scorer with 118 runs. I. B. Palmer of the Oilers is doubles leader with 40 and Gil Valentin of Albuquerque has the most triples, 14. Palmer also has the most runs batted in, 101.

Pampa is the team batting leader with a .313 average, and Plainview shows the way in fielding with .953.

Atlanta Pulls Upset To Get Into Finals

AUSTIN, July 31 (AP)—Atlanta, Tex., pulled a mild upset today as they blanked Port Neches, 4-0, and advanced to the finals of the state Babe Ruth baseball tournament here.

Atlanta rode the two-hit pitching of Jerry Haymes, a righthander, to eliminate Port Neches, a returnee from the 1953 tournament.

Atlanta will play defending state champion Austin at 8 o'clock tonight for the state title.

Scurry Test Gets Shows

Progress Petroleum Co., of Texas No. 1 J. G. Whatley, North Scurry County explorer, encountered show of oil and gas in the Canyon reef lime on a drillstem test from 7,014-056 feet.

That zone was tested for two hours, recovering 4,000 feet of free gas and 150 feet of heavily oil-cut drilling fluid. Some of that was free oil. The project is now coring ahead.

The No. 1 Whatley is 467 feet from south and east lines of section 504-97-H&TC. That puts it 15 miles north of Snyder and three-quarters of a mile northwest of Canyon production on the northwest side of the Kelley-Snyder field.

Petroleum Microbiology May Become Major Field Of Study

By MAX B. SKELTON

HOUSTON, July 31 (AP)—Common household detergents possibly could prolong life of an oil well if economic factors could be ignored.

Laboratory tests indicate such a household item can prevent harmful bacteria from clogging an oil reservoir and hindering, or even stopping, production.

The catch to this discovery is that a single well would require such a quantity of the synthetic detergent the operation would be prohibitive when compared with the value of the oil produced.

Dr. Ernest Beerstecher Jr., 35-year-old University of Texas biochemist, believes fame and fortune await the scientist who provides the answer to this economic riddle.

Beerstecher also believes petroleum microbiology—the application of bacteriology to the oil industry—will become a major field within 10 years.

Research papers in the area date back to 1777 but it was not until 1942 that the American Petroleum Institute authorized a grant for special studies in microbiology. Three years later the first laboratory to be opened by a private oil company was formed.

This week Beerstecher published "Petroleum Microbiology," (Elsevier Press, $8), a book described as the first ever to bring together the history and finds of a rather old but comparatively unknown science.

There is indication successful laboratory or pilot tests using bacteria soon will be expanded into field operations as aids to petroleum exploration, production and manufacturing.

Research is proceeding in various laboratories to determine whether the presence of a particular bacteria in the soil can lead to discovery of oil. Other experiments under way are directed toward finding a means of employing bacteria in the manufacture of chemicals, foods and drugs from petroleum.

Beerstecher believes two approaches to secondary recovery methods of production of petroleum offer particular promise.

Secondary recovery methods frequently are employed when a well ceases to produce or turns out an uneconomical quantity of oil. Water, gas or air is pumped into a well to repressure the reservoir.

Harmful bacteria sometimes enters a well with the water, clog the reservoir sands, reduce permeability, and hinder and prevent the flow of oil.

Beerstecher, naming a well known household detergent, said the answer is simple.

"Protect the well by pumping the detergent in with the water," he said. "This would prevent harmful bacteria from clogging the reservoir. The trouble is you would need a 70-cent box of detergent for just about every thousand gallons of water."

In 1946, Dr. Claude E. Zobell, University of California scientist working under the API grant, received a patent for use of bacteria as a means of secondary recovery.

Zobell found that bacteria, through abilities to produce acids and carbon dioxide, can build reservoir pressure, ease oil off sand particles and break heavy flowing oil into lighter oil.

At least four companies are known to be conducting experiments in this area. Results are unknown. No field test is known to have been attempted.

This emphasizes, Beerstecher believes, one of the major factors hindering rapid development of petroleum microbiology in the United States.

"Many companies now have bacteriologists on their scientific staffs but there is very little exchange of information," he said.

"This is alarming," he added, in that Russia has made tremendous progress in petroleum microbiology in the last 15 years.

"Although confining their work to the area of oil exploration, Russia has published a much larger number of practical research papers than we have," he said. "Russia has had brilliant bacteriologists a long while."

OIL NEWS

Deep Wildcats Are Scheduled

Deep wildcats have been slated for immediate drilling in Kent and King Counties.

Sunray Oil Corp. of Midland will drill the Kent County exploration as the No. 1 Charles C. Cave. Location has been set 660 feet from south and east lines of section 58-1-H&GN. That is about six miles west of Girard.

The well is to drill to 7,400 feet for a test of the Pennsylvanian lime.

Shell Oil Co. No. 1-G Burnett Estate will be drilled to 6,800 feet for a test of the Ellenburger in King County.

Drillsite is 1,980 feet from south and 1,780 feet from east lines of section 3-2-Sam Lazarus survey, about seven miles north of Guthrie.

Plugging Orders Given For Four Wildcats

Wildcat failures in four West Texas counties have been plugged and abandoned.

C. B. Drilling Co. and W. R. Reid No. 1 Ellwood Estate, venture in Southeast Mitchell County, has been abandoned at 7,417 feet in lime. It was in section 13-16-SPRR survey and 22 miles south of Colorado City.

Texkan Oil Co. No. 1 F. W. Fields is a duster in Southeast Fisher County. It was plugged at total depth of 5,712 feet in Cambrian. Location was 2,100 feet from south and 467 feet from west lines of section 1-K-T&P.

Orville Lee and others No. 1 Fisher has been plugged and abandoned at total depth of 2,045 feet in sand and shale. This Northeast Culberson County duster is in section 1-110-pel and 58 miles northeast of Van Horn.

Completions In State Far Ahead Of 1953

AUSTIN, July 31 (AP) — Oil well completions in Texas are almost 1,000 ahead of the year-ago total, the Railroad Commission reported today.

Operators brought in 265 oil wells this week to run the total for the year to 6,966 compared with 5,983 at the same date a year ago.

Also completed were 42 gas wells and 140 dry holes. The new gas well total for the year is 741 compared with 524 a year ago.

Wildcatters brought in 13 of the new oil wells, 5 of the gas, and 72 of the dry holes.

The total average calendar day allowable as of today was 2,875,367 barrels, an increase of 9,455 barrels per day from last week.

Edwin Pauley Stakes Spraberry Trend Try

Edwin W. Pauley has staked location for his No. 3-F Little Jalonick in the Spraberry Trend Area of Northwest Reagan County.

Projected depth is 8,000 feet. Rotary tools will be moved in and drilling will begin at once.

Drillsite is 660 feet from south and 1,980 feet from east lines of section 45-B-LS&V and six and one-half miles northwest of Stiles.

Four Tom Green Tests Quit As Dry Failures

Four Tom Green County wildcats, two in the northeast portion and two in the south area, have been reported plugged and abandoned.

John J. Eisner quit No. 1 H. J. Perry on total depth of 5,160 feet. It was drilled in section 84, J. M. McLeod survey and 12 miles northeast of San Angelo.

Sid Katz Exploration Co. No. 1 J. W. Johnson, three and a half miles northeast of Christoval in South Tom Green County, failed at 6,500 feet. Site was in section 79½, J. M. Swisher survey.

H. Bryan Poff No. 1 Mrs. Eleanor Halfmann, failure in northeast portion of the county five miles southeast of Wall, was plugged at 4,700 feet in Strawn showing water. site was in section 153, district 11, SP survey.

Stanolind Oil & Gas No. 1 L. J. Willis Johnson, the other South Tom Green failure, was plugged at 5,775 feet. Site was in section 40-25-B&TC and 10 miles east of Christoval.

East Ector Project Finds Strawn Shows

British-American Oil Producing Co. and others were coring ahead after a drillstem test flowed gas and sprayed oil from the Strawn in the No. 1-B Parks, project on the south side of the Headlee multipay field of East Ector County.

Recovery on the test was 660 feet of 47.5 - gravity oil and no water.

Tool was open one hour and 15 minutes. Gas surfaced in seven minutes, water blanket in 26 and a spray of oil in 34 minutes. Gas volume was estimated at 2,000,000 cubic feet daily.

Location is 660 feet from south and 1,980 feet from west lines of section 16,-41-t2s-T&P and four miles east of Odessa.

Dawson Find Flows On Test

Seaboard Oil and associates No. 1 L. B. Vaughn, Pennsylvanian reef lime discovery in Southeast Dawson County, flowed an average of seven barrels of new oil per hour with no water natural during the latest four-hour test.

The flow was through a 24-64th-inch tubing choke and from the perforated section at 8,195-227 feet. The well is now shutin while the rotary rig is being moved off. A portable unit will be used for completion. Operator plans to wash the perforated section with acid before completion tests begin.

The No. 1 Vaughn found 185 feet of reef lime pay above 8,235 feet. The zone between 8,235-285 feet made oil and water and it has now been plugged off.

The project is east of the three-well West Spraberry-Pennsylvanian field. Seaboard is the operator of the unitized lease on which the new well is located. Others are Phillips Petroleum, Forest Oil Corp. and Plymouth Oil Co.

Southeast Nolan Gets New Gardner Lime Find

J. D. Wrather, Jr., Dallas, filed potential of 321.10 barrels of 42-gravity oil plus 40 per cent water a day for his No. 1 R. C. Watts, Gardner Lime discovery in Southeast Nolan County.

Production was through an 18-64th-inch choke and perforations from 5,406-412 feet after 250 gallons of mud acid.

Location is in section 207-64-H&TC, six miles northeast of Blackwell.

Hole is bottomed at 6,258 feet in Cambrian and cased to 5,680 feet.

Andrews Field Test Has Pennsylvanian Oil

Hole was being made below 9,110 feet in Shell Oil Co. No. 3-B University, project in the Midland Farms multipay field of Southeast Andrews County, after a drillstem test from 8,933 —9,033 feet uncovered possible new pay for the field.

The zone is the Pennsylvanian. Recovery in two hours was 2,500 feet of 37.5-gravity oil and 1,000 feet of oil and gas-cut mud.

Location is in section 16-1-University Lands survey.

Discovery Rights Asked On Nolan County Strike

Discovery allowable has been requested for British-American Oil Producing No. 1-K TXL, completed Ellenburger producer on the south side of the EA Cambrian field of Southeast Nolan County.

The project was finaled for a daily flowing potential of 248.46 barrels of 50.2-gravity oil from open hole section at 6,030-082 feet. It is two miles south and slightly west of a recent Ellenburger discovery in section 15-Z-T&P and eight miles northeast of Blackwell.

State's Business Has Increase In Activity

AUSTIN, July 30 (AP)—Texas business activity showed a 5 per cent gain in June over May, continuing to show recovery from last year's mild recession, the University of Texas Bureau of Business Research said today.

All activities making up the business index showed gains for the period except two. Crude oil runs to stills dropped 5 per cent and miscellaneous freight carloadings, 1 per cent.

Urban building permits registered the major increase, 14 per cent. Other increases included industrial electric power consumption, 9 per cent; total electric power consumption, 8 per cent; ordinary life insurance sales, 6 per cent; retail sales, 5½ per cent; and crude petroleum production, 1 per cent.

It was the best single month for building activity since June 1951, the report said.

Production Indicated For Wildcat In Kent

Robert S. Lytle No. 1 Frank Stewart, Northwest Kent County wildcat which indicated Canyon sand production, is preparing to install a pump for completion.

Swabbing through perforations at 6,036-044 feet and 6,056-073 feet recovered 50 barrels of oil in eight hours.

The well is located 330 feet from north and 1,648 feet from west lines of section 8, John Rodman survey. It is eight miles north and six miles west of Clairemont.

Final Returns Are Announced

DALLAS, July 31 (AP)—Final returns to the Texas Election Bureau from all 254 counties in the state, all complete, show the following totals for candidates in last Saturday's Democratic primary election:

Governor: Davis 16,182; Holmes 20,138; Shivers 668,536; Yarborough 644,749.

Lieut. Governor: Hinson 186,827; Johnson 207,390; Ramsey 796,035.

Senator: Dougherty 349,904; Johnson 877,565.

Attorney General: Crouch 235,438; Shepperd 949,304.

Supreme Court: Brewster 464,056; Keenan 233,247; Scott 321,844.

Criminal Appeals: Davidson 330,496; Davis 235,030; Graves 234,323; Haley 242,939.

An American man of 65 can expect an average of about 13 more years of life and a woman about 15½ years.

Between 1934 and 1953, the number of annual admissions to hospitals in the United States rose from 57 per 1,000 population to 126.

DRILLING REPORT

Sunray Oil Corp. No. 1 Criswell, Northeast Scurry wildcat, is drilling below 6,530 feet in Pennsylvanian lime after a drillstem test from 6,516-530 feet. The test tool was open one hour, recovering 485 feet of slightly mud-cut salt water with no shows of oil or gas.

* * *

Pure Oil Co. No. 1 Wilson, Stonewall County wildcat, is drilling below 5,720 feet in lime.

Harper & Huffman No. 1 Sears, Nolan prospector, is drilling in lime and shale below 5,086 feet. Harper & Huffman No. 1 Oldham in Howard County has reached 8,622 feet in lime and shale and is drilling deeper.

Amerada Petroleum No. 1 Whitaker, Northeast Howard tester, is drilling below 6,704 feet in shale and lime.

Sun Oil No. 1 Medlock in Nolan County is coring below 6,285 feet in lime.

Tax Overhaul Marks 'Big Turning Point

WASHINGTON, July 31 (AP)—That big tax bill completed by Congress this week makes a historic turning point in the federal government's attitude toward business.

Boiled down, the bill represents a victory for those who hold the following economic philosophy:

A prime way to create more and better jobs, to make the whole nation more prosperous is to ease the tax burdens on business, to encourage it to start new ventures and expand old ones.

That philosophy was not the dominant one in the 20 years of the "New Deal" and "Fair Deal." Then the argument was that the road toward prosperity lay in direct measures to put more purchasing power into the hands of the consumers.

Echoes of that doctrine were heard in the final, hot debate on the tax revision bill in the Senate. Critics cried that the administration bill "favored the wealthy," that corporations already have large take-home profits but in many cases are "putting them on ice" instead of using them to increase production; that the sure way to pep up the whole economy is to grant more tax relief to little fellows and medium fellows.

But these senators failed to beat the bill rewriting the nation's tax law. Myriads of changes in almost every business tax law are spread through the bill's 1,000 or so pages of small print. Some of the changes are major, most of them sound technical and trivial by themselves.

But all put together, they reflect the fundamental view of the Eisenhower administration and many Republicans in Congress that for years the tax laws have been running down the wrong track.

Right or wrong, the controlling thesis behind the tax bill, as expressed by Secretary of the Treasury Humphrey and many others, goes like this:

Since the advent of the New Deal more than 20 years ago, the government through tax laws has whittled away at many business freedoms, at incentives to take risks, to grow, to turn to new products, to junk out-moded and inefficient methods and equipment.

They say this has been done not only by taking a bigger and bigger slice of profits, but by many harsh, rigid tax regulations.

And they say tax laws have been used to force social changes—when their sole function should be to raise needed revenue in the simplest way, the way that would be best for the whole economy.

Sure: During these 20 years, the economy has grown as never before; business expansion into new products, new plants, new equipment has been unprecedented.

But the administration men say most if not all this expansion has been caused first by a defense buildup, then World War II, then billions in pent-up consumer demands, then war in Korea again—all at the expense of an inflation that would be ruinous if continued.

So the administration and Republicans in Congress set out to write a completely new tax structure they said would help bring a sound, prosperous, growing economy over the long years ahead—when business conditions might be tough, competition keen, defense spending reduced, inflation checked—in summary, when unusual stimuli would be gone and the economy would be "normal."

A special French train crew has recently claimed a railroad speed record of 138 miles an hour.

Cotton Insects Heavy Eaters

COLLEGE STATION, July 31—Cotton insects last year destroyed more than $62 million worth of lint and cotton seed in Texas. They are busy now and coupled with dry weather could make the 1954 crop an expensive one.

Last year's loss amounted to an estimated 342,600 bales of lint and approximately 142,600 tons of cottonseed, says Freeman Fuller, Jr., assistant extension entomologist. The figures were developed by the National Cotton Council from basic data released earlier by the USDA reports the specialist.

The top "culprit in the cotton patch" last year was the boll weevil and was responsible for reducing yields by an estimated two percent. All other cotton insects raised the total loss to five percent for the state.

A review of the figures, Fuller says, shows that Texas Cotton producers are doing one of the better control jobs in the nation. Only California, New Mexico, Arizona, and Missouri show a lower percentage of the crop lost to insects.

The loss for the nation amounted to almost $261 million in both lint and cottonseed and is slightly below the total damage done in 1952.

Fuller suggests that farmers continue to keep a close check on the cotton insect population by making frequent field inspections. Should infestations develop to the damaging point, control measures become a must. The intervals between applications and the thoroughness of the job done, he emphasizes become very important factors in stopping insect outbreaks. Any recommended insecticide, he adds, will give good control if properly applied.

Finally, he suggests, farmers may secure information on insect identification insecticides and their use from any Texas county agricultural agent.

Eye experts estimate that about 1½ per cent of the people of the world have crossed eyes.

Current Status Of Major Legislation

WASHINGTON, July 31 (AP)—The status of major legislation at the end of this week:

APROPRIATIONS—All regular departmental appropriation bills have been passed. They provide for new appropriations of $42,600,000,000, a reduction of about 1½ billion from presidential requests. The House has passed and sent to the Senate a bill appropriating $2,900,000,000 in new funds for the foreign aid program, a reduction of about 542 million.

TAXES—Congress has passed bills cutting some excise taxes, continuing others, and making general revisions in the tax laws.

LABOR—The Senate has sidetracked a bill amending the Taft-Hartley labor law. The House Labor Committee has shelved a companion measure.

RECIPROCAL TRADE—The President has signed a bill extending for one year his authority to make trade agreements with other nations; the bill does not contain the authority, requested by the President for additional cuts in tariffs.

FOREIGN AID AND DEFENSE—The House has passed a bill authorizing continuation of the foreign aid program substantially in line with the President's recommendations. The Senate has not yet acted. A bill establishing a cadet academy for the Air Force has become law.

SOCIAL SECURITY—The House has passed and sent to the Senate bills increasing social security taxes and benefits and broadening unemployment compensation coverage. The House has defeated a bill providing for government underwriting of expanded health insurance programs of commercial companies. Both branches have passed bills broadening the federal-state program to rehabilitate physically handicapped persons.

CONSTITUTIONAL AMENDMENTS—The Senate has defeated proposed amendments to limit the President's treaty powers and lower the voting age to 18. It has sent to the House amendments limiting membership on the Supreme Court and making retirement mandatory at age 75, and permitting governors to appoint House members under emergency conditions. The House has acted on none of the proposals.

POSTAL RATES—The House Post Office Committee has recommended general increases in postal rates, but the Rules Committee has refused to clear the bill for a House vote. The House has defeated a bill coupling rate increases with pay raises for postal employes.

PAY RAISES—Bills to raise the pay of members of Congress, federal judges, and federal employes generally are pending in the House Judiciary and Post Office Committees. A bill boosting congressional pensions has become law. A bill raising the pay of postal employes is awaiting House action.

ST. LAWRENCE SEAWAY—The President has signed a law providing for U.S. participation with Canada in development of the St. Lawrence Seaway.

TREATIES—The Senate has ratified a mutual defense pact with South Korea; no House action is required.

STATEHOOD — The House has passed a bill to admit Hawaii to the union; a bill to give statehood to Alaska is tied up in the House Rules Committee; the Senate has passed a bill lumping statehood for both territories in a single bill.

HOUSING — A compromise general housing bill has been sent to the President. It authorizes limited continuance of the public housing program but falls far short of what the President requested.

NATIONAL DEBT — The House has passed a bill increasing the national debt limit from 275 billion dollars to 295 billion but the Senate has not acted on it.

AGRICULTURE—A compromise bill providing for a sliding scale of price supports for farm products has passed the House and is pending the Senate. It complies substantially, although not entirely, with the President's recommendations.

Woman Causes Fuss

ATHENS, Greece, July 31 (AP)—Niki Goulandris, 22, has the Greek Foreign Ministry all fussed. She filed an application for entry into the diplomatic service—and no woman ever has done such a thing before. There isn't any rule against it, but there's a regulation that says an applicant must have completed military service. And there isn't any military service for women in Greece.

Grain Storage Problem Seen

COLLEGE STATION, July 31—Present indications are that the amount of sorghum grain stored on Texas farms will take a sharp turn upward as the harvest season moved across the state. There are many problems connected with on-the-farm storage and producers who secure support loans or store the grain for future use have the responsibility for seeing the grain safely in and out of storage.

In order to answer many of the questions raised by producers, the Texas Agricultural Experiment Station in 1949 initiated a research program at the Beeville Station covering drying and storage of sorghum grain on the farm. The tests have been conducted primarily to determine the practicability of farm storage in South Texas but much of the information should also prove valuable to producers in other sections of the state.

Associate Professor J. W. Sorenson, Jr. of the department of agricultural engineering at Texas A&M College; G. L. Kline, Agricultural Engineer, USDA at Beeville and L. M. Redlinger, a USDA entomologist of Houston are the authors of Progress Report 1685, "Drying and Storing Sorghum Grain in Farm Storage Bins in South Texas." The report is available upon request from the Agricultural Information Office, College Station.

The research workers point out that all trouble encountered in storing grain traces back to moisture. High moisture conditions lead to insect, heat and mold damage. They have found that drying on the farm with either heated or unheated air even in the humid Gulf Coast area is practical and profitable.

The recently released report is handbook full of information on practically every problem encountered in this five year study, and generally, producers storing grain on the farm will experience many of these same situations.

You taste bitter foods mostly toward the back of your tongue, sweet and salt toward the tip and sour on the sides.

Nazi Swords Planned For Use As Souvenirs

SOLINGEN, Germany, July 31 (AP)—A Solingen metals firm caused an uproar here by manufacturing 5,000 Nazi storm trooper short swords—complete with swastika. Officials of a metal trades union project protested and occupation authorities scanned their rule books, but the manufacturer made no changes of plan, saying the swords were intended for export to the United States—to be sold as souvenirs.

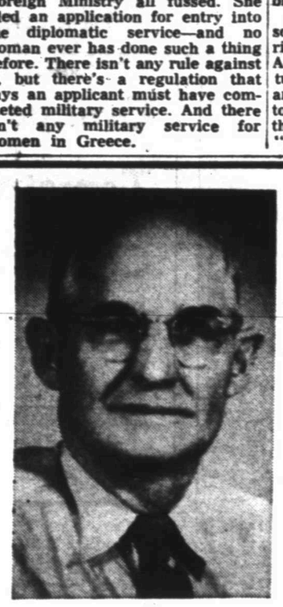

Sod-Turning Is Set

TORONTO, July 31 (AP)—Aug. 10 has been fixed as the date for sod-turning ceremonies for the St. Lawrence Seaway power project at the powerhouse site four miles west of Cornwall, Ont.

To the Voters of Scurry and Borden Counties

I wish to express my sincere appreciation for the generous vote received in Saturday's primary election. It has been a pleasure serving you as your District Attorney and I shall continue in my efforts to conduct the affairs of this office in an efficient and impartial manner.

Sincerely,
RENAL B ROSSON
District Attorney.

My Sincere Thanks

I want to thank all the voters of Scurry County for the votes cast for me in the primary election. It has been a pleasure to work with you and for you as your County Tax Assessor-Collector.

Thanks again,
Jim Ikard

(Pol. Adv.)

Early Session Set For First Grade Pupils

August 10—one week from Tuesday—is registration day for the first pre-school ever to be held here.

At 9 o'clock that morning, beginning first-graders will start registering at the East, West, and North Elementary Schools, and at the Primary School at Twenty-eighth Street and Avenue K.

Registration is to continue the entire morning of that day, and all parents of children who are to start to school for the first time are urged to bring them for registration, according to Dr. Cecil L. Yarbrough, superintendent. If this is impossible, because of absence from the community at that time or because of sickness, late registration will be held Monday, Aug. 16, which is the first day of the pre-school.

Pre-school is only for those starting in the first grade and is to continue five days a week for two weeks, ending Friday, Aug. 27.

Children will attend school only an hour and a half a day. Some will attend from 8 to 9:30 each morning, and others will attend later in the morning, according to tentative schedules.

There will be about 20 children to each class.

Purpose of the pre-school is primarily to get the small children acquainted with classroom activity and accustomed to school routine. It is believed that the brief school session will prevent loneliness and fear in the children who will be away from their parents for the first time.

The regular school term will not begin until sometime in September.

Willie Boss of Snyder, son of Mr. and Mrs. H. W. Boss, Big Spring Highway, gets a routine eye examination as a cadet at Williams Air Force Base, Chandler, Ariz. He went to summer camp there as an Air Force ROTC cadet from North Texas State College, Denton.

Haley Quits Runoff Race

WICHITA FALLS, July 31 (AP)—Judge Alan B. Haley withdrew today from the runoff election for a place on the Texas Court of Criminal Appeals. He said he did not have the money to make a runoff campaign.

Judge Lloyd W. Davidson, seeking renomination, had a lead of some 70,000 votes over Haley in last Saturday's Democratic primary. He polled 328,800 to 241,002 for Haley. Sam Davis of Houston had 232,833 and W.C. Graves of Dallas 231,347.

Haley asked George Sandlin, chairman of the State Democratic Executive Committee, to withdraw his name from the runoff, necessary when no candidate gets a clear majority over all opponents.

Haley, 36, judge of the 8th district court, made public the letter today. It said:

"I wish to have my name withdrawn from the runoff primary in the race for Court of Criminal Appeals of Texas.

"To my many friends throughout Texas who worked so hard in my behalf and voted for me I extend the sincere appreciation for myself, my wife and children.

"My opponent, Judge Lloyd Davidson, had a substantial lead of more than 70,000 votes in the first primary. Further campaigning would involve great expense. I am not financially able to make the runoff and I do not wish to burden my friends with the additional expense necessary for the campaign in view of the great lead that my worthy opponent has over me at this time.

"I wish to congratulate Judge Lloyd Davidson for his victory and wish him the best of luck in his service."

Jury Panel Scheduled To Report On Monday

A jury panel is to report for service in district court tomorrow morning, and all pending criminal cases are subject to trial, according to the district attorney, Renal B. Rosson.

It is not definite what case or cases will be tried, Rosson said, but the docket is to be called, and those which are set and ready will be tried.

Among cases pending are two charges of sodomy, a charge of attempt to burglarize with intent to rape, and several other indictments of various offenses.

Since World War II, U. S. railroads have bought new diesel locomotives at the rate of about 1,000 a year.

The American buffalo (bison), often thought of as western animals, once ranged as far east as the Carolinas.

Dyer Service Is Set Today

Funeral services will be held at 3 p.m. today in the First Methodist Church for Mr. and Mrs. James Jarrett Dyer, Jr., who were killed Thursday in an automobile accident near Post.

The Rev. Woodrow W. Adcock of Pampa, formerly pastor of the church, will officiate at the double rites. He is to be assisted by the Rev. Lennol Hester, present pastor. Burial in Hillside Memorial Gardens will be directed by Bell Funeral Home.

Mr. and Mrs. Dyer, who had owned and operated Dyer Jewelry here for about 30 years, were killed instantly when their car and a butane truck collided four miles south of Post on U. S. Highway 84.

Edward Lloyd Jordan, 19, of Lubbock, driver of the truck was transferred from Garza County Memorial Hospital to Lubbock Osteopathic Hospital Friday. Attendants there were quoted as saying that x-ray examinations failed to disclose serious injuries and that Jordan was remaining in the hospital to recuperate.

Mr. and Mrs. Dyer were returning home from Amarillo when the accident occurred. They had been to Amarillo to attend funeral services for Mr. Dyer's brother-in-law earlier that day.

Mrs. Dyer, 57 years of age, was the former Gussie Cary. She is survived by two sisters, Mrs. Fred Miller of 1708 Thirty-seventh Street and Mrs. M. O. Berryhill of Levelland. Mr. Dyer, 60, is survived by three brothers, Crit Dyer of San Antonio, W. Q. Dyer of Anson and A. W. Dyer of Ontario, Cal., and three sisters, Mrs. Paul Reily of Hondo, Mrs. W. S. Noland of Amarillo and Mrs. Ray Mathison of San Antonio.

BIRTHS

Mr. and Mrs. C. W. Young of Snyder are parents of a baby boy born Friday at 8:45 p.m. in Battenfield Hospital. The baby weighed six pounds, two ounces.

New-Fangled Signal System Not Allowed

HALIFAX, N.S., July 31 (AP)—There will be no new-fangled arm signals for motorists in Nova Scotia. A provincial legislative committee decided the old system—the left arm stuck out horizontally from the driver's window to signal a change of speed or direction—was good enough. It rejected a proposal for three different arm signals: A left turn, a right turn and a stop.

Pluto, one of the eight major planets was discovered in 1930.

Lawless Rites Held Saturday

Funeral services for Arthur Howell Lawless, 51, who died unexpectedly of a heart attack Friday afternoon, were held at 4 p.m. yesterday in the First Methodist Church.

Mr. Lawless was stricken with a heart attack about 6:30 p.m. on the Snyder Country Club golf course and was pronounced dead on arrival at a local hospital. An employe of Magnolia Petroleum Co. for the last 26 years, Mr. Lawless had served as production foreman here for about 18 months. Mr. and Mrs. Lawless and their son lived at the SACROC No. 2 camp on the Lamesa highway.

Following services here, the body was taken overland by Bell Funeral Home to Mt. Zion, Tex., where services will be held at 4 p.m. today. Burial is to be in the cemetery there.

The Rev. Lennol Hester, pastor of the First Methodist Church, officiated at services here. He was assisted by the Rev. B. W. Lewis, pastor of the Trinity Methodist Church.

Survivors in addition to the wife, Mrs. Christine Lawless, and the son, Hall Stephen Lawless, include Mr. Lawless' mother, Mrs. Willy Lawless of Water Proof, La.; two daughters, Mrs. J. B. Moss of Houston and Mrs. J. T. Cruce of Arlington Tex.; a sister, Mrs. Myrtie Bell Bourn of Haynesville, La.; three brothers, Johnny T. Lawless and George Woodrow Lawless, both of Shreveport, La., and W. G. Lawless of Haynesville.

Pallbearers here were Don Hearn, H. C. Garrett, Ben Greenfield, Bill Valentine, F. L. Cunningham, Jack Besshers, O. B. Lindsey and Harold Wilson, all coworkers of Mr. Lawless.

May Not Run Again

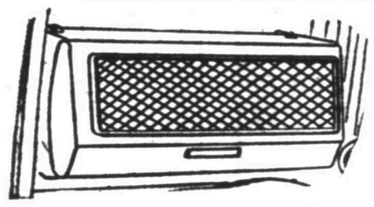

CAPETOWN, South Africa, July 31 (AP)—Sen. P. S. Hayward, chief Nationalist party whip in the South African Senate, has been telling party meetings recently that Prime Minister Daniel F. Malan may not take part in the next general election. Barring an unexpected defeat in Parliament, the government will not face an election until 1958, when Malan will be 84.

Continuing Research

MADRID, Spain, July 31 (AP)—A recent decree by Generalissimo Francisco Franco earmarked 108 million pesos ($2,700,000) for continuation of research by the Spanish Nuclear Energy Board.

THE SNYDER DAILY NEWS

VOL. 5, No. 79 | SNYDER, TEXAS, SUNDAY, AUGUST 1, 1954 | SECTION B

Some of the approximately 400 persons at the barbecue found places to eat, but no chairs. Two such couples were Mr. and Mrs. W. J. Ramsey, left, 2511 Avenue W, and Mr. and Mrs. L. L. Sims, 128 Twentieth Street, above.

The quest for a place to put heavily laden plates while barbecue, beans, and potatoes were being eaten took Chamber of Commerce guests to all parts of the Towle Memorial Park's livestock barn Thursday night. The four persons above found a vacant space on a stairway, so they stopped and ate. They are from left: Mrs. Bob Dawson, Bob Dawson, 900 Twenty-sixth Street; and Mr. and Mrs. Norman Morrison, 1901 Coleman Street.

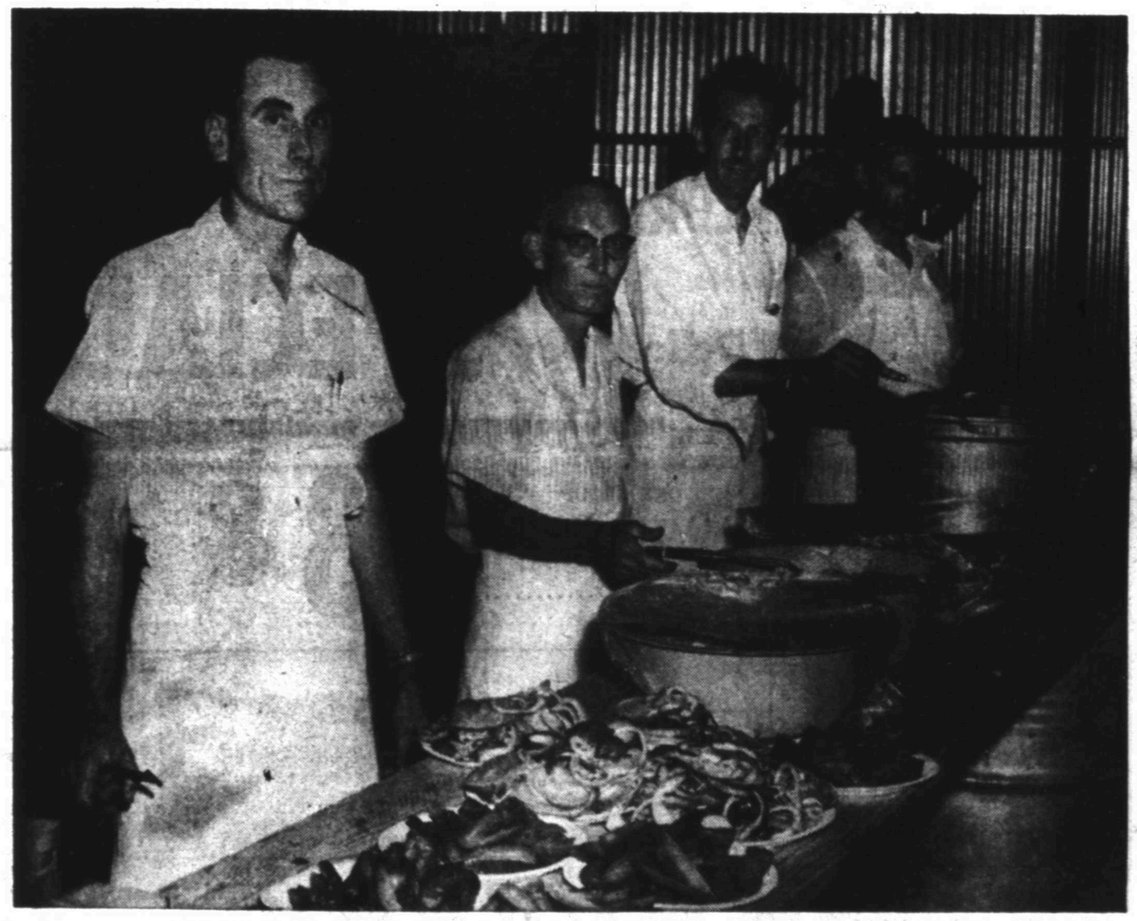

Fun And Food Attracts 400 To Chamber Barbecue Here

Some of the approximately 400 persons who attended the annual summer barbecue and fun fest of the Chamber of Commerce here Thursday night are shown on this page.

The program was informal, with most of the members and their families being dressed for comfort rather than for appearance—as they do for the chamber's big mid-winter blowout.

The barbecue was held outside the livestock showbarn in Towle Memorial Park, and could have been moved inside if weather had dictated a move.

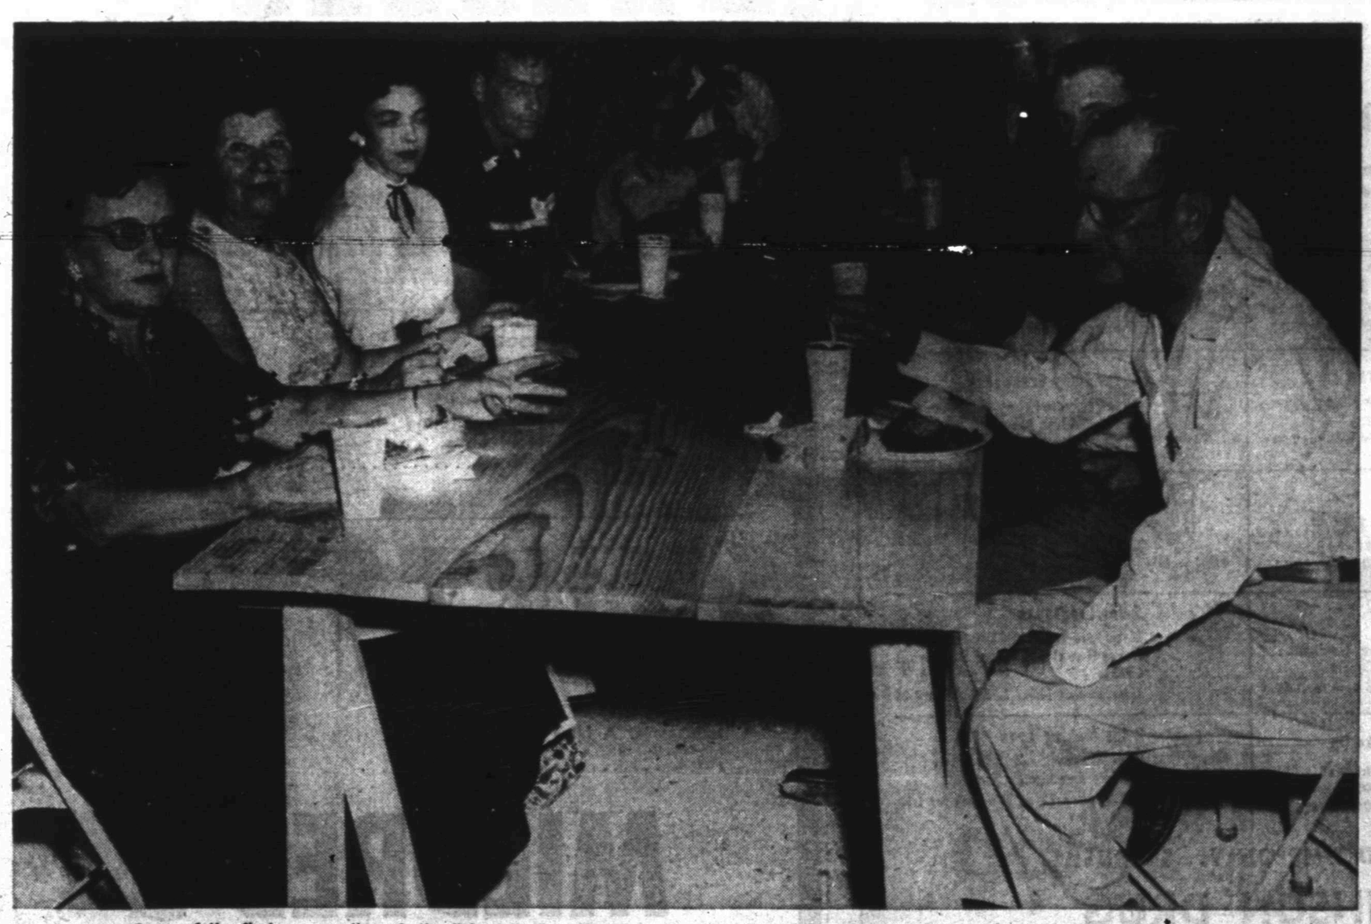

Notably absent from the humorous type program were long, serious speeches, and long, boring introductions of guests.

With their food ready for the line to start passing were the men serving at one of the two long tables above. They are from left: Herman Elkins, Carl Whitfield, Dillard Pope, and Don Hire. Their pickles, onions, barbecue, beans and potatoes were all gone when everyone was served.

H. W. Cargile, left, president of the Chamber of Commerce, is shown above welcoming R. E. (Prof.) Jackson, main speaker, to Snyder Thursday afternoon. Jackson was introduced for his humorous talk by Ralph Geisenhoner. Four airmen from Webb Air Force Base, Big Spring, also did specialty acts on the informal program. (Lee Watson photographs)

Some of the first persons through the "chow line" at the Thursday night Chamber of Commerce membership barbecue were the three couples above. Seated from left to right are: Mrs. C. A. Heath, Mrs. Dutch Higgins, and Mr. and Mrs. J. A. Casebier. Higgins and Heath are on the opposite side of the table. The Higginses were the Heath's guests from Lubbock, where Higgins is a building contractor.

american designer's pattern

Karen Stark is the designing genius behind the Harvey Berin label, and scores again with a dashing version of the ever popular coat dress. It is about the most slimming dress that has ever been designed, with its long line of contrasting texture trim, notched at the collar and widening out gradually toward the hem. The trim is also used on the buttoned cuffs. To further accentuate the slenderness of the dress, Miss Stark has inserted little darts at the hipline, thereby minimizing the waist. Originally in velveteen with faille, it makes up beautifully too in wool with satin or any other 54-inch material. This pattern is cut to Designer measurements, in sizes 12 to 20.

BUST	WAIST	HIPS	SIZE
34½	25	35	12
36	26½	36½	14
37½	28	38	16
39½	30	40	18
41½	32	42	20

Size 12 requires 2½ yards of 54-inch material for dress and one yard of 35-inch material for contrast. To order Pattern No. 1110-D, address Spadea Syndicate, Inc., P.O. Box 535, Dept. S-13, G.P.O., New York 1, N.Y. State size. Send $1.00. Airmail handling twenty-five cents extra. Add four cents for handling if paid by check or money order.

Stewart Talks At Home Like He Does On Screen

By HUBBARD KEAVY

HOLLYWOOD (AP)—The hesitancy of speech that marks James Stewart as you know him is no screen affectation. He talks that way in his den at 918 Roxbury Dr., too, on such as his work, his weight, his income, his future, his first trip to Europe and any other subject the interviewer introduces.

Stewart seldom initiates small or large talk, but when questioned, cued, prompted and reminded by the interviewer, Mrs. Stewart and a press agent, he gives in his hesitant, word-searching, yet altogether charming manner. If you'd close your eyes you'd think he was playing a scene. It occurred to me that if Jim and that other man of few words, Gary Cooper, ever get together the conversation must be a brilliant series of "yops" and "nopes."

Jim has had remarkably successful films since he became a free lancer, able to pick his own stories, studios and directors. What is it—luck, a formula, advice? He answers, after some seconds of thought, and I condense because of space limitations:

"Well, now, you might say I'm lucky. Yes, sir, you might. I guess I am. We got kind of a plan worked out, you might say. We look for certain things."

Anyone so successful must be besieged with scripts.

"Yes, that's about all my reading amounts to. Don't have time for much other reading. How many scrips a year do I read? Oh, I don't know. Quite a bunch. Several hundred? Well, maybe. Maybe. You might say it runs into hundreds."

Did he ever turn down any stories that he wished he hadn't. And if so, what were the pictures?

"Oh, yes. Yes I have. Several, as a matter of fact. Now maybe I'll think of what they were. Let me see. . . . No, guess I can't remember the names of 'em."

Television?

"Well, I wouldn't mind getting my feet wet in it. But it seems kind of silly to give yourself competition, doesn't it? If they can see me for free at home, why pay 65 cents? Nope, it doesn't make sense, but I suppose I'll have to get off the fence one of these days."

What impressed him most in Europe?

"I'd say the beauty of Rome. Yes, that's it. The Sistine Chapel and the Vatican Library are wonderful places. Make you feel good. Spiritual lift? Yes, that's it.

County 4-H Girls Plan For Revue

Plans for the 4-H dress revue to be held August 28 were discussed at a meeting of the county 4-H council Friday.

Dresses to be entered for judging are to be in the office of the home demonstration agent by 9 a.m. August 24. The dresses will be modeled for judging on the following day, with the revue to be staged at 2:30 on the afternoon of August 28. Records accompanying the dresses are also to be presented on August 24.

Other business at the council meeting included a discussion of plans for the county 4-H Camp and the election of officers for the coming year.

THANKS

I sincerely thank you, the people of Scurry County, for your support and vote that you gave me in last Saturday's election. I shall ever be grateful to you, and will do all in my power to merit your confidence.

Eunice Weathersbee

(Pol. Adv.)

Just Look At What's In A Name: It Might 'Date' You

By JANE GILMORE

The song from a popular Broadway musical says, "Every Tom, Dick and Harry's called John."

The statement may or may not be true, but if it is, chances are it won't be true very long.

Names go in cycles, as you may have guessed and the county birth records prove, and the name you're called by may date you as surely as an out-of-fashion hat.

If you were born in Scurry County in the few years following 1903, date of the first births on record in the county, you're with the majority if your name is Myrtle or William.

Jewel names are popular for girls, too—the name Jewel, or Opal, Ruby or Pearl. May was the favorite second name, coupled with something like Ida, Ola, Exa or Ada. The trend toward masculine diminutives as girls' names hadn't started, but the baby girl of the early century might have been named Willie.

William, along with other long established English names like Robert, Edwin, Edgar and Clarence, were most used for boys. And names that originated as surnames —Buford, Marshall, Warren—ranked with Biblical names as second in popularity.

If you came along in the next decade, especially toward the end of it, you had a good chance of getting a name influenced by the American interest in its French ally. "La" preceding a name reached its height during the 1920's, but it had a beginning during the years of World War 1. "Made-up" names—Fanola, Luella, Warrena—were popular for girls.

Like men's clothes, masculine names are a little more stable. Up to 1920, the century brought few changes in name fashions for men, although Leroy appeared more often and Woodrow as a given name was off to a good start.

In the early 1920's, more girls were named Juanita than anything else; the "La's" increased and Wanda became a popular name. Boys were named Jack—before this period Jack had been chiefly a nickname—and apparently it became the thing to name your son for a president. James Madison, Grover Cleveland, Andrew Jackson and Benjamin Franklin all appeared in Scurry County at the time, some of them more than once.

During the later Twenties, the "masculine look" for girls must have hit Scurry County in a big way. Carrying on into the early Thirties, this trend brought about the prevailing custom of calling girls by what had long been established as boys' diminutives.

Billie, Bobbie, Jimmie and Jackie—later often ending with "ye"—were coupled with Jean, Jo and Joyce. There were other combinations, but the trend had definitely caught on, to carry on into the 1930's. Similar names became popular for boys, too; where a boy had been named Robert before, he was likely to be named Bobby in this era.

On into the Thirties, the movies gained influence, especially on girls' names. Shirley Temple and the various Joans lent their names to dozens of new girl babies. However, if parents wanted to name their son after a famous person, they probably didn't look toward Hollywood. Franklin Delano or Franklin Roosevelt was a name which, if not frequent, appeared often enough to put a New Deal stamp on the birth records of the time.

Double names — meant to be used together — continued steadily into the Forties. Sue and Kay became the most frequently used second names for girls, and Linda was probably ahead of all the rest as a first name. Sandra and Sheila were also popular names that carried over into the Forties from the preceding decade, along with Barbara, Patricia, and Brenda.

Later in the 1940 decade, the most often bestowed second name was Ann. It went with anything, but Cheryl, Sherry and their variants were especially popular.

Within the last half dozen years, both boys and girls have been given more old-fashioned names. The fact that some of them are also movie stars' names may or may not be significant.

David and Michael have been among the most common boys' names, and ahead of all the rest in the girls' name division is Deborah sometimes spelled Debra, Debora, or Deborrah. It goes with Kay, Sue, Ann, Lynn, or any of the other perennial favorites among second names.

With the good old - fashioned names coming back into fashion, it may well be that every Tom, Dick and Harry's named John. But one thing is certain—since the days of the Confederacy, every southern boy or girl has a good chance of being named Lee. Most often used as a second name, Lee has appeared many times each year since birth records started in Scurry County.

TEACHER'S PET!

Button-detailed jumper and baby collared blouse with puff or long sleeves is one of the sweetest combinations for school and play girls.

No. 2700 is cut in sizes 4, 6, 8, 10. Size 8: Jumper, 2¼ yds. 35-in. Blouse, 1½ yds. 35-in.

Cpl. Green Goes To Guided Missile Unit

Cpl. Clifford L. Green, son of J. W. Green of Snyder, has been assigned to a guided missile unit at Fort Bliss, El Paso.

A graduate of Snyder High School, Green was active in football here. He entered the Army in January, 1953.

25 YEARS AGO

(Taken from the files of THE SCURRY COUNTY TIMES FOR August 1, 1929.)

Snyder is included in the itinerary of State Supt. S. M. N. Marrs when the State Department of Education will concentrate its activities in West Texas this month in the annual effort to improve the rural schools. Scurry County is therefore highly honored when the head of the state educational department comes here.

The department will send its rural aid forces to meet with rural school trustees in more than eighty West Texas counties which have requested these contact meetings. The State representatives are sent only when they are requested.

"Hail, Hail, the Gang's All Here," was Band Director Crowley's first opening number at the first public appearance of the Snyer municipal Band Monday night. Hundreds were present and enjoyed the short and spicy program that was given and the execution of several numbers was truly remarkable for the short time in which the band has been organized.

• • •

According to the Fluvanna news colump in this issue, J. T. Bulmer of Dallas has purchased of J. E. Jones one-half section of land lying near the Caprock that will be developed and place a new lime kiln at that point. Mr. Bulmer declares that the rock found north of Fluvanna is exceedingly rich in lime. Congratulations to Fluvanna some more. With a new high school, the new oil well and now a new lime kiln, Fluvanna is progressing right along with Scurry County. Fine work and here's our right mitt to say "howdy" and good luck to you.

• • •

The Snyder News is moving to new quarters in the former Castevens location on the east side of the square. They will have as their next-door neighbors the new Noble & Moffet Men's Furnishing Shop, and Elza & Wenninger.

• • •

The City Council has improved the West Bridge street bridge over Deep Creek with new lumber and paint that makes it 100 per cent better and has improved this artery of traffic greatly. A little paint and a few pieces of lumber will make a decided improvement in almost anything where lumber and paint can do any good.

• • •

Billie Lee and Banie Smith celebrated their birthdays Monday evening by entertaining a number of their friends with a swimming party and picnic at the Country Club.

After a swim in the pool a delightful picnic lunch was spread. Those present were Misses Margaret Deakins, Mary Janet Smith, Leona Sample, Charline Ely, Alice Erwin, Janice Erwin, Jeanette Lollar, Ruby Lee, Ida Sue Wallace and Evelyn Erwin and Messrs. John Billy Beggs, Burgess Brown, Austin Erwin, Creston Fish, C. L. Harless, Jr., of Brownfield, Layton Griffin, Willard Lewis and Grover Scott.

BRIDGE NOTES

In country club bridge Friday morning, Mrs. G. B. Clark Jr. and Mrs. Garrett Harrell won first, Mrs. John Casebier and Mrs. V. V. McGrew second and J. D. Scott third.

• • •

Mrs. Jack Winters was hostess for the Chez Les Amies meeting Thursday at the country club. Mrs. Worth Saynor won high.

• • •

At the 54 Bridge Club, which met Tuesday at the Hilander, Mrs. Pershing Youngkin was hostess. Mrs. M. L. Broman won high and Mrs. Ray Devers won the traveling prize.

• • •

The Bid and By bridge luncheon was held at the home of Mrs. Earl Brite, 3102 Fortieth Street, with Mrs. C. G. McCaleb as cohostess. Mrs. John Casebier won high and Mrs. Robert Hargrove was second high. Mrs. Fred Auforth and Mrs. Wylie Brice will be hostesses for the next meeting.

• • •

In duplicate play at the country club Tuesday night, Mrs. Ophelia Blackard and Mrs. P. W. Cloud won first, Mrs. Ray Keenan and Mrs. McGrew second and Mrs. R. D. White Jr. and Mrs. Ike Snead third.

• • •

Six bridge players from Snyder went to Colorado City for master point play Wednesday night. Mrs. Keenan and Mrs. McGrew won first. Others who went were Mrs. R. D. White, Mrs. Prentis Bass, Mrs. Charles Snyder and Mrs. Fritz R. Smith.

Kitchen arithmetic: a quart of ice cream can be counted on to make six medium servings.

Engagement Is Announced

Mr. and Mrs. Roy A. Harrison, 1700 Twenty-eighth Street, announce the engagement of their daughter, Miss Aileen Joyce Harrison, to Robert Donald Huddleston, son of Mr. and Mrs. Aubrey Huddleston of Knapp.

Wedding vows will be said August 29 in the home of Mr. and Mrs. Harrison.

Teen-age fare: pour chocolate sauce or syrup over ice cream and top with crushed peanut brittle.

Taking swimming lessons from Mrs. Harold Makos is fun for this group of club members' children. In the line-up, beginning with the first little girl standing next to Mrs. Makos, are Ann Patterson, Burk Brooks, Susan Lamb, Jeanine Clements and Caren Jo Dolan. Ted Lamb and Jay Hickman prefer deeper water for their swimming practice. (Lee Watson potograph)

Bridge, Golf, Swimming At Country Club Ladies Day

By ANITA HALL

Women members of the country club have played an important role in the successful redecoration project recently completed there.

A soft, cool shade of green was used to paint the walls and ceiling of the ballroom, and the pictures were rearranged and hung to complement the room more effectively. New lamps and new drapes blend in to give the room a gracious, lived-in appearance. Members of the decorating committee were Mrs. B. L. McKINLEY, Mrs. WELDON JOHNSON, and Mrs. G. B. CLARK, Jr.

An expansion program is continuing on the exterior of the club where a bathhouse is being constructed of concrete tile blocks to accomodate both men and women members.

The swimming pool was closed temporarily while it was being repaired, deepened at one end and repainted. It was recently reopened and members and their guests are taking full advantage of this opportunity to cool off on these hot afternoons and evenings.

A fence has been built surrounding the pool, affording more privacy for the swimmers.

Each Friday is Ladies' Day at the club and usually there is quite a turn-out of local women members and their guests who go out to enjoy a morning of recreation.

The ladies' choice of diversion varies, as was evidenced Friday morning when a check was made to see 'who does what' on Ladies' Day.

Seen at the pool taking swimming lessons from Mrs. HAROLD MAKOS were Mrs. THEO LAMB and Mrs. MALVEN K. STEVENSON. Other swimmers were Mrs. KENNETH E. DAVIS, Mrs. J. W. PHILLIPS, and, representing the younger set, BETTY CONNELL, SUE CLARK, JESSIE LEE and TED LAMB. Mrs. PAUL KEATON was relaxing in the shade of a tree while her children, PAULA and ALLEN, finished their swim.

The golf course usually attracts at least 10 ardent women golfers, but early Friday morning there were only two playing, Mrs. PHILIP LIPSTATE and Mrs. MACK KEEBLE. Mrs. J. T. HAMMETT and Mrs. DICK ANDERS had a game scheduled for that afternoon.

Playing bridge in the ladies card - room were Mrs. H. J. BRICE, Mrs. HUGH BOREN, Mrs. H. P. BROWN, Sr. and Mrs. ALSIA BENTON of Dallas. Mrs. Benton is here for a visit with her sister, Mrs. Brice.

Duplicate bridge was being played in the ballroom by Mrs. BOB BICKERSTAFF, Mrs. B. L. McKINLEY, Mrs. PAYTON THURMAN, Mrs. GARRETT HARRELL, Mrs. G. B. CLARK, Jr., Mrs. V. V. McGREW, Mrs. I. C. SNEED, Mrs. OPHELIA BLACKARD, Mrs. JOHN CASEBIER, Mrs. J. D. SCOTT, Mrs. JACK BOWDEN, Mrs. MABEL BROCK and Mrs. LYLE GALBRAITH.

• • •

Mr. and Mrs. SIMON BEST, 2803 Avenue C, and Mr. and Mrs. ALBERT BUCHANAN, 212 Twenty-sixth Street, have just returned from a trip which included driving through the Davis mountains, and from there to Harlingen and Brownsville. At one point along the Pecos river it took four hours to cover a 40 mile dirt road detour. The Bests spent a night in Corpus Christi with Mr. and Mrs. Ather Chandler, former residents of Snyder.

WOMEN'S CALENDAR

MONDAY

Helen Clemmer Circle, 7:30 p.m. with Mrs. Troy Stevens, 500 Thirty-fourth Street.

CWS of First Christian Church, 7:30 p.m., at the church.

St. Elizabeth's Altar Society, 7:30 p.m., at the church.

Duce Bridge Club, 7:30 p.m., with Mrs. Bernard Longbotham, Jr., 2805 Avenue V.

FRIDAY

Ladies' Day, 9:45 a.m., country club.

PERSONALS

Mr. and Mrs. Raymond Yeadon and children from Corpus Christi have spent several days here visiting Mr. and Mrs. R. E. Quance, 612 Twenty-ninth Street.

Mr. and Mrs. A. E. Dodson of Encino, N.M., have been visiting here with Mr. Dodson's parents, Mr. and Mrs. J. O. Dodson, 3105 Avenue S. Friday Mrs. A. E. Dodson's mother, Mrs. W. H. Ward, and her sister-in-law, Mrs. Jim Smith, both of Big Spring, were guests at the Dodson home.

Mr. and Mrs. Joe Clinkenbeard, 400 Seventeenth Street, went to Carlsbad, N.M., this week and went through the cavern.

Mrs. Joe Pond of Big Spring is visiting Mrs. H. G. Towle, 3000 Avenue U.

Mr. and Mrs. H. L. Walker and children of Kilgore spent Wednesday night here with Mr. and Mrs. C. O. Lansford, 104 Beach Street.

H. L. Walker, who is director of the Ranger band at Kilgore College, was en route home with his family from a vacation in California.

ENGAGEMENT TOLD

Mr. and Mrs. C. S. Mulkey of Brownfield, former Snyder residents, are announcing the engagement and approaching marriage of their daughter, Miss Jean Mulkey, to O. E. Floyd, Jr., son of Mr. and Mrs. O. E. Floyd of Brownfield. Miss Mulkey is a Snyder High School graduate and Mr. Floyd graduated at Brownfield, where he is employed with the National Construction Company. The wedding will take place September 16 in Calvary Baptist Church, Brownfield. Attendants will be Miss Joyce George and Bryan Wise.

You can make "mock angelfood cake" by dipping thick fingers of bread in condensed milk and rolling in coconut; toast under the broiler until golden brown. Or place on a cookie sheet and toast in a very hot oven about seven minutes.

TO BE MARRIED

Mr. and Mrs. T. J. Sterling, 2511 Thirtieth Street, announce the engagement of their daughter, Miss Doris Sterling, to Ford Spikes, son of Mr. and Mrs. Sam Spikes, 2806 Thirty-seventh Street. The double-ring ceremony at the First Methodist Church Aug. 27 is to be by candlelight with the former pastor, the Rev. W. W. Adcock, officiating. (Everett Studio photograph)

Shirley Lilly, Tommy Pate Say Vows In Union Church

Miss Shirley Ann Lilly, daughter of Mr. and Mrs. Troy Lilly of Snyder, and Tommy Glyn Pate, son of Mr. and Mrs. W. R. Pate of Snyder were married in the Union Baptist Church last Sunday afternoon.

The Rev. Jack O'Neal, pastor of the Greenhill Baptist Church, read the double ring ceremony as the couple stood under an arch of fern and pink carnations. Baskets of pink asters and fern were placed on either side of the archway.

The bride was given in marriage by her father. Her wedding dress was of white lace, worn over white taffeta. It was fashioned with a Peter Pan collar trimmed in seed pearls and rhinestones. The shoulder length veil was attached to a cap of white Chantilly lace over taffeta with seed pearl and rhinestone trim. She wore mitts of matching Chantilly lace trimmed in seed pearls and rhinestones.

The bridal flowers were a white orchid and white carnations with white satin streamers, carried on a white Bible.

Miss Sonya Bills, maid of honor, wore a princess dress of ice blue cotton and orlon, trimmed with white Irish lace daisies around the neckline, which was outlined in pearls and rhinestones. She wore matching hat and mitts and carried a nosegay of blue carnations with blue net and satin streamers.

Miss Margaret Trevey, bridesmaid, wore a pastel pink dress styled like that of the maid of honor. She wore white hat and mitts and carried a pink nosegay.

Flower girl was Cathy Poe, who wore a pink dress and a headband of pink carnations. Her basket of rose petals was trimmed with pink net.

Orville Matson was best man. Buddy Drum of Fluvanna and W. D. Myers were groomsmen.

Troy Lilly Jr., brother of the bride, was ring bearer.

Mrs. Larry Hooker played traditional wedding music at the piano and accompanied Bill Poe, who sang "Because" and "Oh Promise Me."

The mother of the bride wore a powder blue linen dress with black and white accessories and a corsage of pink carnations. The bridegroom's mother wore pink orlon mesh with black and white accessories and a white carnation corsage.

At the reception in the home of the bride's parents, Miss Trevey served the wedding cake and Miss Wanda Lou Powledge presided at the white and gold bride's book. The dining table was centered with a crystal bowl of yellow roses, and the cake was decorated with yellow roses and blue birds.

When the couple left for Colorado after the reception, the bride was wearing a beige linen dress with cutwork trim sprinkled with rhinestones. Her hat and bag were of dark brown summer velvet and her shoes and gloves were beige.

Both the bride and the bridegroom graduated from Snyder High School. They will live in the Union community, where the bridegroom is a farmer.

Out-of-town guests were Mr. and Mrs. Jimmy Sutton and son of Dallas, Mr. and Mrs. Luther Cobb and Turner Cobb of May, Mr. and Mrs. A. W. Page and Mr. and Mrs. C. E. Gressett of Big Spring and Mrs. M. H. Sanders of Colorado City.

A pre-nuptial tea was given for Mrs. Pate in the home of Mrs. Howard Hogue of Union. About 75 guests attended.

MR. AND MRS. TOMMY PATE
. . . to live at Union

Janice and Mike Starr, 3734 Avondale, have returned home after visiting in Weatherford and Fort Worth for two weeks.

Backyard Picnic Honors Couple

Mr. and Mrs. T. L. Henley, Plainview community, entertained Thursday night with an outdoor picnic honoring Cpl. and Mrs. Curtis Corbell, Jr., who are visiting here during Cpl. Corbell's leave from an anti-aircraft unit at Chicago.

Snyder residents attending were Mr. and Mrs. Curtis Corbell, Sr., Mr. and Mrs. A. C. Rogers and children, Richey and Randy; Mr. and Mrs. J. P. Pitner, Sr.; Mr. and Mrs. J. P. Pitner, Jr., and children, Douglas and Dennis; Mr. and Mrs. Wayne Pitner; Mr. and Mrs. N. H. Henley; Mr. and Mrs. Harold Henley and children, Linda and Connie Jo; Mr. and Mrs. Floyd Chandler and son, Ronnie.

Also attending were Mr. and Mrs. Edgar Eades and Mr. and Mrs. Leonard Lankford and children, Sherry, Donna, and Brenda, from Ira.

Mr. and Mrs. Andrew Minnick and children, David Glenn and Andrea Lynn, attended from Lubbock.

Party Is Given Honoring Bride

Mrs. Charles A. LeBlanc was honored Saturday morning at a gift party given by Miss Mary Jo Harrell and Miss Joan Cockrell at the Cockrell home, 2311 Thirtieth Street.

Mrs. LeBlanc was Miss Mary Sue Boren before her marriage July 24.

Breakfast was served to Sandra Cooper, Camille Cloud, Mary Nell Trevey, Patsy Pogue, Betty Connell, Mary Ann Doak, Jerry Lynn Hughes, Shirley Gillum, Rose Marie Roe and Bebe Cockrell.

The hostesses were assisted by their mothers, Mrs. Garrett Harrell and Mrs. C. R. Cockrell.

Lloyd Family Holds Reunion

More than 200 people attended the third annual Lloyd family reunion held recently at the Jim Hogg State Park, Quitman.

Elected president and secretary, respectively, for next year's reunion were George H. Lloyd of Snyder and Mrs. Ernest Lloyd of Ira.

Those attending from this area were G. A. Lloyd, Raymond Lloyd and family, Mr. and Mrs. Herschel Lloyd, Mr. and Mrs. Loyd Webb, Mr. and Mrs. George H. Lloyd and family and Ann Conger, from Snyder; W. W. Lloyd and Ernest Lloyd and family from Ira.

Landslide Kills Three

TOKYO (AP)—Three persons were killed, one was injured and three others were missing today in a landslide near Nagoya, southern Honshu, the newspaper Asahi reported today.

Tongues of those who have some forms of liver disease may be yellow.

Suit On Foundation Grant Is Recessed

BOSTON, Tex. (AP)—A suit questioning the right of the William Buchanan Foundation to grant the University of Arkansas Medical School $500,000 has been recessed six weeks.

The recess was ordered yesterday by Dist. Judge N. L. Dalby. He said he did it so both sides could study and construe the meaning of the word "administer" as it applies to the Buchanan Trust.

Buchanan, early lumberman and railroad builder in the Texarkana area, set up the million dollar trust before his death, suggesting the money be used for a children's hospital in Bowie county or an adjoining county.

He left administration of the trust to trustees of the fund, who began alloting money after the trust was administered in 1930.

The proposed grant to the Arkansas school in Little Rock would build a $500,000 pediatrics floor in the school's hospital.

The state of Texas sued on grounds the foundation's purpose did not cover such a grant.

Freight Train Stalled

CANON CITY, Colo. (AP) — A thundering mass of mud and rock, loosened by a cloudburst, cascaded down the spectacular Royal Gorge late yesterday, stalling a freight train and injuring two youths.

Pfc. Murl Ramsey has returned to Fort Belvoir, Va., after spending a 15-day furlough with his parents, Mr. and Mrs. A. M. Ramsey, 306 Thirty-fourth Street.

Most babies are content to look at life from a horizontal position when they are four months old, but not Cynthia Ann Adcock, daughter of Mr. and Mrs. J. E. Adcock, Hobbs, N.M. With a little help from her grandmother, Mrs. W. R. Sellers, Clairemont Road, she walks all over the house.

Women Push Men Forward; Clinging Vines Are Gone

By DOROTHY ROE
Associated Press Women's Editor

The man who wants to be a success in business should pick the right wife, says Joseph Weiss, a businessman with an unusual philosophy.

"Most men don't realize how important their wives are in shaping their financial future," says Weiss, president of an auto seat cover manufacturing company with retail outlets all over the country. "I won't hire a representative, or even allow a man to invest his own money in my business, if I don't think his wife can be an asset."

The era of the clinging vine has passed, says Weiss who explains his theory thus:

"Behind every successful man there is a woman who understands at just what point a man needs to be pushed and when he wants to be coddled. She should encourage him when he's down in the dumps and tighten the rein when he shows signs of wandering into aimless pursuits.

"She must be happy and interested in her husband's career, realizing that it's her career too, and that she can make or break it.

"She must be a good mixer, willing and able to meet and entertain her husband's business associates, to make friends with them and to make them believe that friend husband is a rootin'-tootin' go-getter, even if he's merely a milk-toast.

"A successful wife should keep her own appearance up to snuff, so that her husband will be proud of her and his associates will be impressed.

"She should be able to influence her husband. That doesn't mean she has to henpeck him. It should be done more subtly than that.

"Any wife who wants to see her husband succeed should remember that she entered a partnership with him when they got married, and that she should be a working partner, not a silent one."

The woman who makes a profession of being a "homebody" is no asset to an ambitious man, in Weiss' opinion. She should run her house smoothly and efficiently, but widen her horizons so that she is able to talk intelligently on a wide variety of subjects.

She needs good common sense, a generous dash of ambition and the ability to understand her husband's job.

There are two kinds of wives that automatically put the jinx on any man applying for a franchise from Weiss' company. Says he:

"The woman who is obviously bossy, and who answers every question before her husband has a chance to open his mouth, is poison to a man.

"And I'd never hire a man whose wife is a gimme-girl. A gold-digger can ruin the ambition of the ablest man."

News From Fluvanna

By MRS. W. F. MATHIS

Mr. and Mrs. Bob Lemon of Denison visited Tuesday and Wednesday with Mr. Lemon's parents, Mr. and Mrs. E. W. Lemon.

Mr. and Mrs. Martin Parks and daughter are at home after spending two years at Fort Leonard Wood, where Mr. Parks has been serving in the Army.

Mr. and Mrs. W. H. Jones Jr. and children are visiting relatives in San Antonio this week.

Recent visitors of Mr. and Mrs. A. L. Odom were Carroll Patterson and Don Jackson of Gail and Mrs. O. D. Odom and daughter, Mary Joyce, of Merkel.

Mr. and Mrs. Jack Nesbit and children of Wichita, Kans., were visitors of Mr. and Mrs. J. J. Belew Wednesday.

Recent guests of Mrs. Jessie Sims were her brother and sister-in-law, Dr. and Mrs. N. C. Letcher of Snyder.

Mrs. J. T. McDonald of Bangs visited relatives and friends here this week.

Miss Hannah Steele and Leon and Ethel Glover were at Buffalo Gap last week end to attend a reunion of Miss Steele's relatives.

Mr. and Mrs. H. B. Benson Jr. and children of Longview are spending their vacation with Mr. Benson's mother, Mrs. Ruby Benson. Their oldest son, who has been here the past few weeks, will return home with them.

Mr. and Mrs. Bunyan Evans went to Hamlin to attend the funeral of Mr. Evans' uncle, Willis Johnson.

J. W. Hughes of Shamrock spent the week end with his parents, Mr. and Mrs. T. M. Hughes and other relatives.

Mr. and Mrs. Wayland Mathis and daughter visited relatives in Lubbock Sunday.

Mrs. J. B. Stine and daughters, Carol and Betty, of Chicago are visiting Mrs. Stine's parents, Mr. and Mrs. Will Beaver.

Mrs. M. P. White spent Saturday and Sunday at Hermleigh with her brother, Floyd Thomas, and Mrs. Thomas.

Private Don McDonald, who has been at Camp Lee, Va., for intensive training is now back at Fort Bliss, Tex.

Visiting Mrs. O. S. Wills last week end were Mrs. Olive Berry and son, Oliver Earl, of Ozona; Mr. and Mrs. Hood Wills and daughters, Mary and Martha, of Perryton; and Mr. and Mrs. Dud Arnett and son, Dudley, of Vincent.

Recent visitors of Mrs. J. I. Boren were Mr. and Mrs. J. C. Ross of Lubbock and Mr. and Mrs. M. E. Boren of Lamesa. Mrs. Boren returned to Lamesa with her son and his wife to spend the week.

J. C. Dowdy recently visited in Barstow with relatives. Mrs. Dowdy, who had gone to Barstow earlier, returned home with him.

Mr. and Mrs. Rosser Lee Jones and daughter, Brenda, of Big Spring have spent this week with Mr. Jones' mother, Mrs. Lee Lavender, and Mr. Lavender.

Mrs. C. J. Harris, Mrs. C. B. Bley, Mrs. Joe Landrum, Mrs. Leo Beaver, Mrs. J. W. Hawkins and Mrs. W. F. Mathis attended a district meeting of the Women's Society for Christian Service in Lubbock Tuesday.

The Methodist revival meeting begins today. The Rev. Charles Gates, former Fluvanna teacher, will preach.

The Rev. J. W. Hawkins, W. F. Mathis and Leo Beaver were in Big Spring Tuesday night to attend a special district meeting at the Methodist Church.

You can cut down on fatigue if you sit down while you iron. If possible do your ironing at one of the boards that can be adjusted to your height. If you must use the usual type of board, try sitting on a kitchen stool that is high enough to bring you comfortably up (elbow height) to the board. A stool with a back rest is a help. And remember that a wide ironing board allows you to cut down on ironing motions.

Tame Bear Turns Out To Be A Real Grizzly

CENTRAL CITY, Colo. (AP)—Cameras snapped in this historic old mining town yesterday as delighted tourists pointed their lenses at what they thought was a tame bear.

But they scattered in a hurry after Sheriff Kenneth McKenzie took a close look at the full grown animal.

"That's a real bear, and not a tame one," he said. McKenzie said he believed the bear to be a grizzly which strolled from the woods and ambled lazily through the streets.

"It's sure lucky nobody was hurt," said the sheriff.

TEEN TALK

By MARGIE SMITH

Royce Pierce was run over by a tractor last Thursday afternoon and is in Battenfield Hospital. He was pretty badly hurt but is allowed to have company. A get-well card or a friendly visit would be just the thing to cheer him up.

* * *

Several girls met in the park last Wednesday afternoon for a watermelon supper. Present were Pat Taylor, Mary Ann Doak, Gerry Lynn Hughes, Sittie Harrell, Ann Fish, and Suzanne Houston.

* * *

A party was given in the home of Joyce Blakely last Monday afternoon.

Refreshments were served to Gerry Lynn Hughes, Betty Connell, Pat Taylor, Sittie Harrell, Mary Ann Doak, Margaret Anger, Doris Sterling, Judy Miller, Judy Rohr, Janeene Smith, Mary Alice Richardson, Charlotte Colley, Lynda Smith, Debra Smith, Clinta Blackard, Susie Clark, Mary Lou Carey, Bata McPherson, Carla Swan, and Paula Cargill of Longview.

* * *

The Student Council officers for next year are working on the football program for next fall. Bryan Boss, president, and Suzanne Houston, vice-president, have been selling adds and laying out the program with the help of J. M. Kayser, sponsor. The program is really to be very pretty with many more pictures than that of last year.

* * *

A party was given Thursday night for Jean, Mary Jane, and Betty Lynn Archer of Abilene by their aunt Mrs. W. W. Milburn. The guests danced on the terrace of the Milburn Home and were served refreshments. Those present were Jenny Lou Thomas, Sid Turner, Judy Broman, Debra Smith, Shelby Smith, Kenneth Lawrence, Ed Casebolt, Fred Willams, Roy Lee Ford, Dick Whitaker, Bob Harlin, Kent Fields, Herb Portis, and Jean, Mary Jane, and Betty Lyn.

* * *

Beth Story gave a dance last Wednesday night in her home. Jimmy Rodgers and Beth, Chiva Boss and Dick Whitaker, Perry Bolger, Arlin Sturdivant and Shelby Smith, and Pat Bruton were among those present. Following the dance the girls remained for a slumber party.

* * *

Mary Jimm Stinson returned Thursday night from San Antonio where she has attended the Diamond Jubilee of the Texas Pharmaceutical Convention with her parents. Banquets, style shows, and dances were among the activities enjoyed by the 1400 people registered. Mary Jimm said she also enjoyed shopping in San Antonio.

* * *

Kay King has returned from a two-week vacation which she spent in Monahans with Mr. and Mrs. Wencie Garcia, former Snyder residents. She especially enjoyed riding their horse Black Star which she has ridden in several Snyder parades. Kay also visited friends in Big Spring, Midland, and Odessa before returning home.

* * *

Juanez Teaff, Mary Lou Carey and Jimmy Joe Key returned Friday afternoon from a fishing trip to Buchanan Dam with Mr. and Mrs. H. H. Carey and Mr. and Mrs. Marvin Key. They left last Tuesday and spent four days fishing.

* * *

Bobby Farris of Hammond, La., is visiting Joe and Miles Davis for two weeks. Bobby is a junior in Hammond High School and plays tackle on the Hammond football team. He is six feet and one inch tall. Bobby visited here last summer and liked Snyder enough to return again this year. One of his favorite pastimes here is swimming.

* * *

A birthday party was given for Sandra DeFore Friday afternoon. Those who spent the day with Sandra were Carol McKinney, Gealene Robinson, Kay Birdsall, Gay Birdsall, Elenore Browning, Jane Rogers, Billy Marie Stipe and Anne Porterfield.

* * *

Patsy Harless and Carolyn Sturdivant returned recently from a two-week trip to New Mexico. They swam in Carlsbad, went sightseeing in Ruidoso, and visited Miss Uda Jolly in Roswell.

DO IT YOURSELF

This modern magazine rack is made to order for the novice woodworker. There's a complete and full material list, including dimensions of the wood you'll want to buy. And you'll buy exactly the right amount, and the pattern's exact size pieces are just like the slips you find in women's dress patterns, only they're made of heavy-weight paper. They can be tacked or taped to your wood and you'll be able to trace them easily. You'll find assembling is easy by following the direction page included in the pattern. To get your magazine rack pattern send your name and address clearly printed, together with only fifty cents to Bill Baker, Snyder Daily News, Box 1111, Los Angeles 53, Calif.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-8488.

It's hard to get a good glass of iced tea—if you like real tea flavor and not just amber-colored water. Usually the brew is not strong enough and it is diluted with too much ice; or if the brew is strong enough, it is still over-diluted.

Here is a good method of making iced tea because it is quick and gives uniform flavor.

Use three level teaspoons of a fine grade of black tea and two cups of water for every two 16-ounce glass servings.

First put the required amount of water on to boil; as soon as the water boils, pour it over the tea leaves in a teapot and let it brew exactly five minutes by the clock. Then stir the tea leaves once and strain the tea into the glasses. If your glasses aren't heavy, put a teaspoon in the glass before you pour. Next put ice cubes in each glass—leaving room for dilution—give the tea and ice a whirl with a long-handled spoon, and serve at once. If the tea stands a bit and clouds, add a tablespoon of boiling water for each serving and it will clear.

Because so many people like their iced tea sweetened and flavored with lemon or lime, it is a good idea to make up a batch of lemon or lime tea syrup and keep it in the refrigerator. At serving time add syrup to taste to each glass of tea, or let people help themselves. You can make other flavors of tea syrup, too-orange or mint, for instance.

LEMON OR LIME TEA SYRUP

1 cup sugar
¾ cup water
lemon or lime rind
¼ cup lemon or lime juice

Put sugar and water in a small saucepan. Cut rind thinly away from one-half a lemon or lime so it is membrane-free; slice into very thin even strips. Add rind to saucepan with lemon or lime juice. Stir over low heat until sugar dissolves. Bring quickly to a boil; boil 5 minutes without stirring. Cool and refrigerate in tightly covered jar. Makes about 1¼ cups. In serving, garnish syrup with thin slice of lemon or lime.

MINT SYRUP

Use 1 cup sugar, 1 cup water and 3 tablespoons chopped fresh mint. Chill and strain. Makes about 1 cup. In serving, garnish syrup with mint sprig.

ORANGE SYRUP

Use 1 cup sugar, ½ cup water, thin strips of membrane-free orange rind from one-half of an orange, ½ cup orange juice. Skim off any bits of foam. Makes about 1¼ cups. In serving, garnish syrup with thin slice of orange.

Only one initial may be used when table silver is marked. In this case use the initial of your husband's last name, or of your maiden name.

Barbara Nichols, Bride-Elect, Honored At Gift Tea Friday

Miss Barbara Nichols, bride-elect of Don McDonald, was honored at a gift tea Friday afternoon in the home of Mrs. M. H. Roe, 3107 Avenue U.

Hostesses were Mrs. E. L. Thomas, Mrs. R. B. Sears, Mrs. Ed Owens, Mrs. Frank Rohr, Miss Sandra Cooper, Miss Janeene Smith, Miss Doris Sterling, Mrs. L. P. Houston, Mrs. Ralph Miller, Mrs. Roe, Mrs. T. T. Swann, Mrs. G. C. Coleman, Mrs. J. C. Fish and Miss Jane DeWald.

In the receiving line were Miss Nichols; her mother, Mrs. O. L. Nichols; her grandmother, Mrs. Iva Grigg; her sister, Mrs. Bill Sheid; the mother of the bridegroom-elect, Mrs. Panch McDonald; and Mrs. Roe.

Miss Ann Fish and Miss Jane DeWald presided at the refreshment table, which featured the colors yellow and mint green. The centerpiece was of yellow chrysanthemums.

Miss Cooper presided at the guest book and Miss Rose Marie Roe showed the gifts.

Miss Marilyn Thomas gave a reading, "Gift for the Bride," and Miss Roe sang "Little Things Mean a Lot," accompanied by Miss Suzanne Houston.

Stock Market Still Displays Its Strength

NEW YORK, July 31 (AP) —The stock market displayed robust strength this week and refused all chances to decline.

On average the market made its seventh straight weekly advance, an unusually long string of higher markets.

The Associated Press average of 60 stocks was up $1.80 on the week, advancing four days out of five, and closed at $133.20, the highest mark for the average since Oct. 22, 1929.

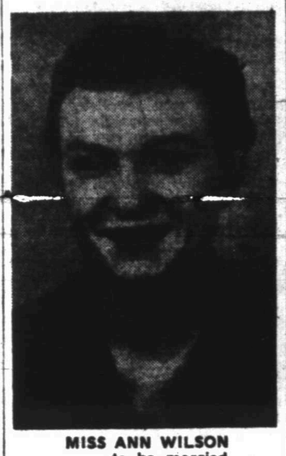

The aircrafts were strong, but they weren't alone in their vigor. Almost all other divisions of the market were higher including some that aren't usually heard from in booming markets. They included the tobaccos, shipbuilders, watch makers, textiles, and distillers.

Some days ago, traders abandoned the blue chips on the theory that they had attained their maximum rise for a while. Attention then was turned to secondary issues, low-priced stocks, and what Wall Street fondly calls special situations.

Earnings statements and dividends brought pronounced moves in individual stocks, and the floating money supply was shifted rapidly into various groups from time to time as they were brushed with good news developments.

The five most active issues this week on the New York Stock Exchange included:

Curtiss-Wright up ⅞ at 12⅛ on 134,200 shares, Avco Mfg. up ⅛ at 5¾, Raytheon Mfg. up ⅜ at 14⅛, U.S. Steel up ¾ at 55½, and General Dynamics up 8¾ at 61¾.

MISS ANN WILSON
. . . to be married

Miss Wilson, Mr. Kayser To Be Wed

Announcement has been made of the approaching marriage of Miss Ann Wilson, former Snyder High School teacher, and J. M. Kayser, assistant principal at Snyder High School.

The wedding is planned for Tuesday morning at 9 o'clock, in the home of the bride's mother, Mrs. Y. Shepard, at Jefferson.

Attendants will be Miss Elizabeth Singleton, former teacher here, and Kenneth Goforth of Snyder.

After the wedding trip to Mexico City, the couple will live in Snyder. The bride-to-be will teach languages in the high school.

Miss Wilson graduated from Southern Methodist University and has studied in Guatemala and Mexico City. She has recently returned from an eight-month tour of Europe.

Mr. Kayser received his bachelor's and master's degrees from Texas Technological College.

You don't have to stick to "periods" when you are furnishing a room. Ever notice how well a modern painting looks over a Victorian love seat or marble-topped table? Or how attractive an ornate Victorian lamp looks when it has a simple modern shade?

Team diced potatoes with creamed dried beef for Sunday brunch or lufich or supper during the week. Sprinkle with finely chopped chives from your garden, or parsley, before serving.

It is wise to cook only the amount of vegetables your family will eat at one meal. Holding a cooked vegetable and then rewarming it or keeping it hot for any length of time result in loss of quality and of vitamin C.

A molded cottage cheese salad makes a pretty buffet table addition when it is put in a ring mold and its center is filled with cubes of fresh fruit. Surround the cheese-and-fruit ring with water cress or curly chicory.

FAMILY GATHERING

Actress Patricia Knight, left, and her ex-husband, Cornel Wilde, eye each other in a Los Angeles court as they waited for her petition for increased child support to be heard. With Wilde is his present wife, Jean Wallace. Miss Knight wants Wilde to pay $750 monthly for support of their daughter, Wendy, 11, citing increased cost of living since 1951, when Wilde was ordered to pay $250 per month.

Congressmen May Ask Probe Of Petrolem Over-Supplies

WASHINGTON, July 31 (AP) — Members of Congress from oil-producing states are considering asking a congressional investigation of reasons for present over-supplies of petroleum products.

This was disclosed today by Rep. Steed (D-Okla), who said:

"Because of conflicting views on what has created the present situation in the domestic industry, one of the things we are trying to do is to get a subcommittee appointed to inquire into the whole picture, including oil imports."

Such a study, Steed believes, should deal with reasons for over-supplies, declining prices and reduced crude production quotas under state proration systems.

"Interior Department officials said they believed the oversupply situation was seasonal and the winter demand for heating oils would correct it," Steed said. "Some oil people don't seem to believe it is seasonal.

"One of the first things we have got to do is to try to get the basic facts. I believe a congressional committee inquiry would be probably the best way to get the facts.

"I believe the situation on the domestic industry front is too distressful to permit us to sit idly by, hoping that relief will come in October."

He said he would like to see such an investigating committee make "a first-hand check in the field."

Steed explained the subject arose through a preliminary inquiry by some congressmen from oil states as to whether the conditions were of a seasonal or permanent nature.

"I feel any hope for relief in the foreseeable future depends upon getting that point cleared up," he added.

The Bureau of Mines reports that gasolines sold in filling stations last winter had record high anti-knock values.

The semi-annual report said premium-price fuels had an average "research method" octane rating of 91.9 and regular-price motor fuels averaged 84.7. Average octane ratings determined by the "motor method" were 83.6 for premium and 80 for regular-price fuels compared with 82.7 and 79.1 for "research method" gasoline during the winter of 1952-53.

Comparable values for fuels sold during the previous winter, the report said, were 90.9 and 84, respectively.

In volatility characteristics, the gasolines of 1953-54 showed little change from those of the previous winter, according to the report.

A total of 4,680 samples, representing the products of 130 large and small companies, was collected from service stations throughout the United States for the survey.

Rep. Van Zandt (R-Pa) says "the American coal industry must be protected from damage from imports of Canadian natural gas."

He declared in the Congressional Record that proposals to bring Canadian gas into this country "ignore the woeful unemployment situation that already has struck the bituminous coal industry." They also ignore, he said, "the very obvious fact that by putting our dependence on foreign natural gas, we take a chance of having that gas supply cut off, just when we need it most."

Van Zandt said dominion law permits exports or imports of natural gas to be cut off arbitrarily "without any standard of guidance, such as our own natural gas act," and that the province of Alberta has adopted legislation permitting stoppage of exports of gas to the United States "without stating a reason and without prior notice."

Of an estimated 60 million buffalo in the United Sates in early days, only about 600 survived in 1889.

Tennessee Politics Hit Stretch Drive

NASHVILLE, Tenn., July 31 (AP)—Fighting-mad candidates for governor and the U.S. Senate shoved their campaigns into high gear this week in a home-stretch appeal for votes in Thursday's Democratic primary.

A victory in this primary is the same as election in heavily Democratic Tennessee.

The incumbents are Sen. Estes Kefauver, who tried for his party's Presidential nod in 1952, and Gov. Frank Clement, at 34 the youngest chief executive in the nation.

Kefauver is opposed by Rep. Pat Sutton. Clement's opponent is former Gov. Gordon Browning, the man Clement beat two years ago. The third man in the race, Judge Raulston Schoolfield of Chattanooga, is campaigning solely on a pro-segregation platform.

The next governor's term, beginning in January, is for four years instead of two because of a change in the state constitution.

The Senate race, which has been partly eclipsed by the bombastic attacks in the gubernatorial campaign, is a battle between two of the state's hardest campaigners using completely different vote-getting methods.

Sutton, a showman, travels by helicopter, making up to 13 stops a day, and goes on radio and television for marathon broadcasts of more than 24 hours.

The quiet-mannered Kefauver, who travels some by airplane, depends on fewer speeches and fewer gimmicks but spends more time shaking hands.

The coonskin cap which Kefauver used extensively in his 1948 campaign and in his bid for the Presidency has remained in mothballs this summer.

A record, 1½ million Tennesseans are qualified to vote Thursday in the Democratic and Republican primaries. Although there is a heavy concentration of GOP strength in East Tennessee—which historically elects two Republicans to Congress—the party has not made a showing in statewide races in recent years.

There are no Republican candidates for governor or for two seats on the utilities commission, but two men are listed as candidates for the senatorial nomination.

They are Ray H. Jenkins, who gained prominence as subcommittee counsel during the Army-McCarthy hearings, and Robert Gregory, a memphis businessman.

Jenkins, qualified by friends without his consent, says he is not a candidate. His name appears on the ballot because he failed to withdraw formally. Because of this, Gregory says he should be declared the nominee.

Three young politicians are seeking the congressional seat vacated by Sutton, and the state's other eight congressmen are seeking new terms. Those up for re-election are Republican Reps. Carroll Reece, former GOP national chairman, and Howard Baker; and Democratic Reps. James Frazier, Joe Evins, Percy Priest, Tom Murray, Jere Cooper and Cliff Davis. Baker, Frazier, and Evins are unopposed.

Although most diseases kill more men than women, exceptions are cancer, diabetes, some forms of goiter and gallstones.

Texas Solon Prepares Bill For Next Year

WASHINGTON, July 31 (AP)—If Congress increases money for any federal agency or program, says Rep. John Dowdy (D) of Athens, it should do so only when that much money revenue is in sight.

The East Texas legislator is mulling over that idea, trying to put it into practical legislative form.

"I know it's too late to do anything about it this year," he said, "but I'd like to have some kind of bill ready for introduction at the opening of the 84th Congress next January."

He explained that while the idea might sound all right as policy, figuring out how to put it into effect is a different thing.

One approach, he continued, would be introduction of a resolution calling for a constitutional amendment requiring a four-fifths vote of the House and Senate to appropriate more money in a year than the treasury collected.

"I don't think we should go on indefinitely increasing the national debt," Dowby added.

"When you legislate to spend money, you should consider where you'll get it, if you're responsible. That's fundamental with me."

Around the capital:

Earle McChesney, formerly of El Paso and College Station, is being transferred to Formosa with the U.S. Information Office. His wife and three children will also go to that Far Pacific anti-Communist outpost.

A Texas A&M graduate and World War II combat veteran, McChesney first came to Washington as a secretary to Rep. Olin Teague. He has been with the Voice of America and U.S. Information Office about two years.

Minutes after the last important bill is cleared before actual adjournment, Rep. Dowdy plans to be hurrying down the highway toward East Texas.

His wife and two children went home to Athens shortly after schools recessed in June.

Dowby has his car packed and parked at the Old House Office Building.

James Tunnell of Tyler, who got his A.B. degree at SMU in June, is spending the summer here working on the staff of Rep. Brady Gentry, his hometown congressman. Tunnell plans to go back to SMU in September to study theology. He plans to enter the ministry.

HOSPITAL NOTES

MYSTERY DEATH WOMAN

With her husband, William, Faye DeMand, 29, is shown a few days before her $6,000 convertible plunged into a canal at Scottsdale, Ariz. Her death, believed caused by drowning, came less than an hour after V. D. Frederick, 38, city councilman and DeMand's neighbor, was shot to death. DeMand was held for questioning.

Wonder Vitamin Is Under Suspicion

BALTIMORE (AP)—The "wonder vitamin," B-12 is under suspicion.

Johns Hopkins' scientists suspect B-12 of failing to perform wonders for old folk. And they're going to give it the third degree at Maryland Penitentiary.

For the last five years, thousands of elderly persons have been gulping B-12 at a furious rate, both under doctor's perscriptions and as the result of patent medicine advertising. Their hope . . . to find renewed vigor.

But the biochemical cops at Hopkins have had the wonder vitamin under surveillance.

Under direction of Dr. Bacon F. Chow, the biochemists tested B-12 on residents of a nursing home and a group of Hopkins students. They formed two theories:

1. Old folks tend to absorb large quantities of vitamin B-12 when it is given as shots.

2. But they have difficulty in absorbing it—no matter how much they need it—when they take it in pill or liquid form.

Dr. Chow said B-12 is an all right vitamin, no question about that, when it comes to aiding persons suffering from anemia and children afflicted with tuberculosis, rheumatic fever and the like.

In children, the vitamin has proved it can aid growth and general well-being.

And it's a help to the old folks when it's absorbed.

The trouble with the experiments that led to formation of the theories was that the nursing home residents and the Hopkins students live vastly different lives. That could affect the results, Dr. Chow said.

Only in prison, he said, can scientists find large numbers of individuals—young, middle-aged and old—who eat the same food, sleep about the same hours and follow similar routines of work and recreation.

Sixty prisoners have volunteered to help with the experiments.

Dr. Chow said that if the theories are upheld, researchers will be faced with two possibilities. Either B-12 will have to be given to older people by injection or scientists will have to discover something that would help them absorb the vitamin when taken in pill or liquid form.

The idea of the whole experiment is to get vitamin B-12 into the body of the old folks where it can work its wonders.

"We are trying to add life to years," said Dr. Chow, "not just years to life. We are not interested in putting people on rocking chairs for long years. We want them to work and enjoy life."

Complete, Unofficial Returns Put Shivers Lead At 23,787

DALLAS, July 31 (AP)—Gov. Allan Shivers led Ralph Yarborough by 23,787 votes in the Democratic primary, final unofficial returns showed today.

The complete report of the Texas Election Bureau, an unofficial vote-counting agency sponsored by Texas newspapers and radio stations, showed Shivers with 668,536 votes to 644,749 for Yarborough.

Arlon B. (Cyclone) Davis, bewhiskered fender repairman who lives under a Dallas bridge, got 16,182 votes. J. J. Holmes, Austin house builder, received 20,138.

The total of 36,320 votes cast for the two minor candidates kept either Shivers or Yarborough from getting a majority. Their fight for the governorship will be settled in a runoff primary Aug. 28.

Shivers had 49.53 per cent of the total vote, Yarborough 47.78 per cent, and Holmes and Davis combined 2.69 per cent.

Shivers led in 136 of Texas' 254 counties, Yarborough in 116.

The governor and Yarborough were tied in two counties—Hartley, with 320 votes each, and Parker with 3,059 each.

Neither Shivers nor Yarborough actually carried the vote in all the counties in which they led—again because the tiny wedge of votes for Holmes and Davis in many cases prevented either of the main contenders from getting a majority.

Shivers fell 6,267 votes shy of a majority of the total vote cast. However, Robert L. Johnson, manager of the election bureau, explained that did not mean that many more votes would have given Shivers victory without a runoff.

The reason is that to win a candidate must have 50 per cent of the total plus one vote. If enough additional votes had been cast for Shivers to overcome the deficit, the number needed for 50 per cent of the total would have increased correspondingly.

As a result, Shivers would have needed some 15,000 more votes for a simple majority, Johnson figured.

Runoffs also are necessary Aug. 28 to settle races for associate justice of the State Supreme Court, a place on the Court of Criminal Appeals, and two congressional seats.

The election bureau's final tabulation showed Supreme Court Associate Justice Few Brewster leading in the Supreme Court race, 464,056 to 321,844 for Alfred M. Scott of Austin. Robert R. Keenan of Gladewater drew 233,247 votes and caused the runoff.

In the criminal appeals race, incumbent Justice Lloyd M. Davidson led Judge Alan Haley of Wichita Falls, 350,496 to 242,889. Former State Sen. W. C. Graves of Dallas had 234,323 and Sam Davis of Houston 235,030.

The Dallas (5th) Congressional District will have a runoff between Wallace Savage, conservative and former state Democratic chairman, and liberal Leslie Hackler. Savage had 25,768 votes to 13,365 for Hackler. Three other candidates prevented a majority. Dick Connally received 10,712, Lamar Holley 5,567 and Leslie Jackson 5,333.

The other runoff will be in the 14th District, in the South Texas coastal bend area. The race will be between State Sen. John Bell of Cuero, with 30,976 votes, and State Sen. William Shireman of Corpus Christi, with 23,523. State Rep. Gabe Garrett of Corpus Christi drew 16,337 votes, Roy A. Scott of Corpus Christi 6,398 and DeWitt C. DeWitt of Yorktown 205.

The election bureau's final returns showed these totals in decisive statewide races:

U.S. Senator—Incumbent Lyndon B. Johnson 877,565, State Rep. Dudley T. Dougherty of Beeville 349,994.

Lieutenant Governor—Incumbent Ben Ramsey 796,035, C. T. Johnson of Austin 207,390, George Hinson of Mineola 186,827.

Attorney General—Incumbent John Ben Shepperd 949,304, State Rep. Doug Crouch of Fort Worth 235,438.

Borden School VA Teacher Is Cited

Bobby Gray, vocational agriculture instructor at Borden County High School, was among teachers from Areas 1 and 11 recognized for outstanding work at a joint area conference which closed Friday in Lubbock.

Gray received an award for publicity work he has done in connection with vocational activities at the school. New officers for both areas were also named at the convention. M. A. Browning, assistant commissioner of Vocational Instruction Service of the Texas Education Service of the Texas Education Agency in Austin was the principal program speaker Friday afternoon.

Among the eight major planets, Pluto is farthest from the Sun.

Ranchers Eye Better Plan For Grazing

By SAM WHITLOW
Texas Editor, Farmer-Stockman
(Written for The Associated Press)

MASON, Tex., July 31 (AP)—On the ranges of this Hill Country region, where some of Texas' best beef cattlemen operate, there's mounting interest in protection of grasses by more careful stocking of pastures.

"The past three dry years have emphasized the need for controlled grazing," said Ed S. Hyman, Mason County agent.

Cattlemen like John Carlton Eckert, Walker White, Dan Jordan and Arthur Geistweidt think of grass in terms of beef cattle gains. Their native grasses, such as little bluestem, sideoat grama, Indian grass and switchgrass, mean money in the pocketbook.

They're interested in getting the most from their grasses. That's why the cattlemen are giving more attention than ever before to proper stocking of pastures.

Mason County ranges have a carrying capacity, in normal years, of about one cow to every 10 to 15 acres. The cattleman's success is measured in terms of management of these grazing lands.

Hyman said that where too much grass is grazed down, the roots of the plant tend to stop growing until the plant makes more growth above the ground. And when the root growth stops, the plant is more susceptible to summer heat and winter cold damage.

"For many years now, buyers of high quality beef cattle have come to Mason County to buy feeders and breeding stock," Hyman said. "Our success in the cattle business is measured by 3 standards: good grazing, good cattle, and good cattlemen.

"Our success in maintaining and improving the fertility of these grazing lands depends upon management methods employed by the cattlemen. The way things look now, we'll have better pasture management in the immediate years ahead than at any time in the history of this fine cattle region."

This problem of protecting ranges by not overstocking with cattle is a problem for many parts of Texas, especially during drouth periods. For the rest of this year, and in 1955, the outlook is that an increasingly large number of pastures will be placed under controlled grazing conditions.

CONSERVING WATER AND SOIL

Numerous things can be done to conserve and build the soil, and many of them are almost a must in dry West Texas. Here are two important things farmers here are doing along this line. About 255 miles of terraces have been built in the Upper Colorado Soil Conservation District this year, a few drop inlets such as shown in the top picture. With these inlets, water can be kept out of a field or let into it from roadside ditches. Pitting has been done on some 1,000 acres here. Shown in the bottom picture is the depth of moisture soaked into pits. It was 26 inches deep under the pit, as deep as the spade goes here, and eight to 10 inches deep beside the pit after a three and one-half inch rain. The district has one pitting machine, while some persons here are building machines of their own from old one-ways at low cost. Another important phase of soil building and conservation is the seeding of grass, both native and introduced. Blue panic, the leading grass seeded here, is growing on about 750 acres in Scurry and Borden counties.

FARM AND RANCH

Blackeyed peas are being used in rotation by S. O. McCormick on the farm he operates seven miles west of Snyder.

Almost a section planted about 33 per cent peas is what you can see on the farm, which is owned by McCormick's brother, C. E. McCormick. Most of the land is planted two rows cotton, one blank, two rows peas, one blank, and so forth. Some is four cotton, four peas.

A cropping system such as this can be used to maintain the fertility of the soil, since in planting peas on every two out of six rows McCormick has a summer legume on one-third of his land. This could be used to advantage on a majority of farms here since peas do well in this area on a properly prepared seedbed, according to Jake Hodges, soil conservationist here.

ADD NITROGEN

The peas add nitrogen to the soil when inoculated before planting, as well as putting organic matter into the ground. They increase the rate of water intake into the soil and the amount it will hold. When handled properly, peas decrease wind and water erosion and fit well into a rotation with almost any row crop. No additional equipment is needed to handle this summer legume. Increased yields can be gained by farmers who plant peas in rotation each year. To get the best results from peas as a soil builder, Hodges said, the farmer should turn the vines under while they are still green.

McCormick developed a soil and water conservation plan in 1948 in cooperation with the Upper Colorado SCD and constructed a terrace system amounting to 20.2 miles of terraces along with a waterway. The west 316 acres has a syrup pan system, made up of terraces opened and closed on alternate ends. This carries the water back and forth across the field until it either soaks into the soil or comes to the last terrace and leaves the field.

GUAR BENEFITS

Orville Hess has 20 acres of guar he planted about the first of June. He has a good stand and has not had to cultivate it yet. He prefers to plant guar late, he said, because there is less weed competition. Guar offers lasting soil benefits by putting abundant residue and nitrogen into the soil when turned under green, and it increases water intake and water-holding capacity of the soil.

Hess has also done some stubble mulch tillage on 80 acres of wheat and oat stubble. He used a Hoeme-type plow to chisel the ground, leaving practically all the stubble on top of the soil. He averages 14 bushels of wheat per acre this year and said he would accept that kind of return on his remaining acres of cotton and grain sorghums.

Need a Larger Home?

We have under construction now in one of the BEST residential districts, three lovely new homes;

Large rooms; central heating; loads of closets; washer connections; finest materials; larger lots; highly restricted area—none of these homes have LESS than 1,100 sq. ft.; all have two-car garages—quality homes in a better district;

The above three homes are financed for eligible G.I.s—Others will be available with low down payments on FHA.

Sorry—we have sold one of the above—two others now available.

Buy with confidence—
