Wright Patman's Weekly Letter

1st Congressional Dist. of Texas "Heart of the Gulf Southwest"

THE SHIP OF STATE. It is only natural for East Texans to enjoy boating since we are blessed with so many wonderful lakes and waterways. Occasionally it becomes necessary to look at the old boat and decide whether it will last another season. No unguided vessel steers an exact course; the best ever built will veer slightly to port (left) or starboard (right), and in each case this tendency is compensated for by rudder and pilot; therefore, a new boat that inclines slightly to port may be preferable to an old boat with dry rot in its timbers. And that storm-tossed vessel christened "The Watergate Caper" which the Banking and Currency Committee last week voted not to inspect (in spite of obvious deficiencies) should be kept in mind.

SOME OF OUR SENIOR CITIZENS were unfortunately hurt, rather than helped, by the increase in social security benefits which became effective in September. The problem stems from the fact that some who received this increase lost their eligibility for State assistance — in Texas, this means that they lose not only their cash grant, which is sometimes small, but also their Medicaid benefits which help with medical costs that could not otherwise be paid.

THIS WAS NOT WHAT CONGRESS INTENDED. Therefore, a bill (H. R. 16811) has been reported from Committee to correct this inequity. The measure would make permanent a temporary provision allowing the States to disregard a portion of income from social security and railroad retirement in determining need for public assistance, and also would provide that no individual eligible for medical assistance under a State plan would lose his eligibility because of the recent increase in social security benefits. Since I feel that our older people should be given the means to obtain adequate medical treatment, this bill has my strong support.

EMERGENCY MEDICAL SERVICES. Only 10% of U. S. hospital emergency rooms are equipped to handle all their medical and surgical needs, only 5% of ambulance personnel have completed the minimum 80-hour training course, and only about 37% of ambulances in use meet even minimum design standards. How important are these deficiencies? An estimated 15 to 20% of the 118,000 accidental deaths and at last 10% of the 275,000 pre-hospital coronary deaths each year could be prevented if prompt and effective care were available at the scene, on the way to the hospital, and within hospital emergency rooms!

THE EMERGENCY MEDICAL SERVICES ACT OF 1972, H. R. 15859, was passed by the House last week to expand national programs for improving the quality of emergency health care in America. This legislation is of special importance to rural areas where it is difficult to finance costly emergency care systems, and I hope, for the sake of many lives, that this bill will soon be law.

Austin. — Ten members of a 12-member jury can decide civil cases under new rules of civil litigation procedures adopted last week by the State Supreme Court.

Unanimous verdicts are now required of juries, and the change is regarded as one of the most far-reaching in many years.

An effort in the last Legislature to authorize 10-2 verdicts fell under weight of defense attorney opposition.

Retiring Supreme Court Chief Justice Robert W. Calvert called the revised rules "the greatest reform measure during my term (22 years) on the court."

Rules deal with appeal motions, depositions, evidence discovery motions, and other matters.

Calvert said changes would do away with some elements of the adversary system and open up evidence. Rules will take effect Feb. 1, 1973.

Unanimous verdicts still will be required in criminal cases, but in civil litigation 10 or more jurors can decide a case. Five-to-one verdicts will be permitted in municipal, justice of the peace and county courts at law where six-man juries now decide cases.

Some attorneys said the key rules change would eliminate hung juries in civil cases, speed up trials and ease the backlog of civil cases jamming metropolitan courts. Others said the changes in discovery of evidence will reduce the number of actual trials. The latter change will allow all parties to a case to see what both sides have as evidence.

Another change would allow the State Supreme Court to reverse or modify a lower court finding or enter a new decision without awaiting formal arguments of contesting parties.

AGENDA GROWS AND GROWS — Gov. Preston Smith continued to open the special session call to new subject matter before any final action was taken on competitive insurance rates or gubernatorial fiscal powers.

Last Tuesday he dropped 16 more bill proposals on lawmakers for attention in a session due to wind up October 17. Among them were the following:

An \$8 million appropriation for a Fort Worth school for the mentally retarded, changing hunting and fishing license fees, allowing bond financing of voting machines in counties over one million population, allowing subdivisions to issue bonds for air control facilities and lease the facilities to private interests, amending retirement statutes to allow credit for certain military, state employment and judicial services, allowing the State Board of Control to make purchases for political subdivisions and defining "child" under juvenile court procedures as one over 10 and under 17 years of age.

Key legislators began to question whether the variety of subjects permitted the focus of legislative and public attention on insurance reform which Smith claimed he wanted.

SUPERPORT COMING? — Texas may be getting a new off-loading terminal for super-tankers whether the Legislature approves a state commission to plan and construct one or not.

Oil company spokesmen told a joint House-Senate committee they propose to have their own facility (known as "seadock") operative by 1975 or 1976 and feel there is no need for a state expenditure.

A bill submitted by Governor Smith to create a state authority to formulate plans for the off-shore terminal won support of many witnesses who claimed a vital segment of the Texas economy depends on a superport's being constructed along the coast.

A governor's office report said marine transportation and deep water ports are essential to maintaining the state's maritime trade.

VOTER REGISTRATION HIGH — Voter registration for the November 7 general election ended at midnight Saturday, with indications the total number of Texans eligible may reach a record 4.8 million.

At that, however, the total percentage of eligible voting age Texans may be less than 1968 and 1970.

There are now about 7.5 million Texans of voting age. The expected 4.5 million to 4.8 million turnout would represent a 60 per cent showing. A 4 million registration in 1968 and a 4.1 million figure in 1970 amounted

to about 64 per cent of the eligible population.

An estimated 660,000 voters have been added to rolls since the voting age was lowered. There are an estimated 1.5 million now eligible to vote who were not eligible in the 1968 presidential election.

COURTS SPEAK — Texas Supreme Court handed down more than 100 rulings as it opened its term last week. Among them were the following:

• Upholding a Fort Worth district court injunction prohibiting students at Tarrant County Junior College from disruptive conduct.

• Affirming a Laredo woman's claim to damages because a J. C. Penney store detective took her to a police station on unfounded suspicion.

• Agreed to adding \$50 to a father's child support payment until he catches up with a \$2,000 delinquency.

• Held Southwestern Bell Telephone Company must pay gross receipts taxes on income from electric companies and cable TV pole rental.

• Concluded an El Paso photo supply store must pay for four million labels even though it intended to order only 4,000.

AG. OPINIONS — Atty. Gen. Crawford Martin told the State Highway Commission it can go ahead with construction of its controversial new state headquarters building on a site near the Capitol.

In other new opinions, Martin held:

• More stringent Texas law applies on navigable vessel lighting over federal law on inland waters until the Coast Guard commandant terminates a waiver.

• The amount a state agency can contribute for insurance for employees is limited to \$12.50

Rebels Tounce Commerce, 26-0

The Rivercrest Rebels tounced Commerce Tigers Friday night in Rebel Stadium to the tune of 26-0.

A tough Rebel defensive unit held the potent rushing attack of Commerce to 52 yards total for the night and allowed the Tigers to penetrate the Rivercrest 40 yard line only twice during the game.

The Rebels began their first scoring drive from their own 38 yard line as Giddens lofted a bomb to Morgan on the first play of the series. Morgan, all alone at the Commerce 25, could not come back to make the reception as the pass was thrown behind him. Giddens stepped back into the pocket on the next play and tossed to Jones for 17 yards. Ricky Nolen replaced Giddens at quarterback, and on his first play, threw to Rickey Norman for 15 yards. Two plays later, Nolen hit Bruce Case for 24 yards and a first down at the Tigers' six yard line. Jones bulled across the line to give Rivercrest six points. The kick was blocked for the extra point and the Rebels led 6-0 at the half.

Commerce took the second half kickoff on its own 25 yard line and moved to the 34. There the Rebels held and took over. Giddens handed off to Morgan who gained seven yards, and then to Jones who advanced 17 yards to give the Rebels a first and goal at the 10 yard line. Simpson carried over from the five yards on third down to score. Giddens ran to the left sideline and scored on a two point conversion, bringing the score to 24-0 Rivercrest.

Commerce fielded the kickoff on the midfield stripe and on their first play, fumbled the ball back to the Rebels as Joe Hervey, a defensive tackle, fell on the ball at his own 47 yard line.

The Rebels showed their rushing strength as Giddens, Simpson and Morgan carried the ball, and with a first and goal at the Commerce eight, Giddens broke a tackle and scored to make it 20-0, Rebels.

Commerce moved the ball to its own 31 yard line, where Randy Jones intercepted a pass and returned it for the final score of the night.

Mrs. Jay Garretson and Mrs. Wayman Alexander visited Mr. and Mrs. Neal Moore and Mr. and Mrs. Raymond Houston in Winfield, Thursday.

Here's how to get everyone mixing and mingling. . .

Perfect Punch

Ingredients:

- 1 bottle Holland House Manhattan Mix
- 1 cup Holland House Martini Mix
- 1 quart bourbon (such as Old Crow or Old Grand-Dad)
- 2 bottles (28 oz. each) ginger ale, chilled
- 1 jar (8 oz.) maraschino cherries, drained
- 3 lemons, thinly sliced.

If your six year old saw something like this, would he know how to phone for help?

It's too important a question to leave to chance.

That's why we're running this ad.

If there are any six-or seven-year-olds around your house, teach them how to report emergencies. Tell them to dial "0", give their name and tell our operator where they are and what's wrong.

With older children, train them to dial emergency numbers direct, since that's the fastest way to call for help.

But don't stop there. Copy down the emergency

numbers listed on the inside front cover or first page of your telephone directory. Add your family doctor's number. And the number of the nearest hospital. Next, tack up the list near your phone.

Then get your kids to memorize it, in case it gets lost. By the time they're through memorizing those numbers, they're going to have every grownup in the house knowing them, too.

Which is also why we're running this ad.
