TICKETS FOR the Jan. 14 Chamber of Commerce Banquet are moving fast and if you don't have yours yet, you might call Secretary Emma Lou Benton, 629-2332, at the chamber office and she'll mail 'em to you. Directors also have tickets. Wouldn't it be something if everybody in town got involved in the chamber work?

THE YEAR is off to a good start and it's a good mark for Eastland to have gained such a fine family as the Austin McClouds. Appeals Court Chief Justice McCloud was hurrying home Monday afternoon (after his first day on the job here) to plant some English Ivy, and that was a cold, miserable day to be a'planting, so you've got to know that the judge likes flowers and shrubs, so they're already Eastlanders.

One who took great pride in the official swearing in of Judge McCloud was young Trey Hoffmann, who with his dad, C. W. Jr., were witnesses when Retiring Judge Clyde Grissom administered the oath to his successor in the Library of the McCloud Home Jan. 1.

MIGHTY WELCOME returned out at Lone Cedar County Club are Chief R. O. Washington and Mrs. Ivy Dobbs, who with Manager Jean Meyers do a fine job with Tuesday night and Sunday banquets and other occasions. Scouts report about 90 had midnight breakfast at the club toasting the New Year's Party this year.

BUSY EXPLAINING the new farm bill are the people in Director Tommy J. Lawson's ASCS office here. There appear to be a lot of changes except for peanuts. "The sale and lease of peanut allotment provisions have been signed into law on a permanent basis. The provisions will be the same for 1971 as they have been in the past. All who are interested in establishing a yield for this purpose are now taking requests," Tommy reports. By the way, Jan. 29 is final date for return of 1970 peanut marketing cards, he reminds.

MRS. BETTY Barnes, the lady who originally gave us the piece about the peace symbol, may need a press agent. The paper is still getting mail concerning the piece. The latest, from the minister of the Fourth Presbyterian Church, Washington D. C.

In a booklet entitled, "The Solution to Crisis-America," there was a quotation by Mrs. Betty Barnes which is supposed to have appeared in the East and Telegram.

This quotation had to do with the peace symbol as an anti-Carist symbol.

Can you please give me the source of this information. Thank you for your kindness.

FULLEN MOTOR CO. PRESENTS LAUGH-A-DAY

On her wedding eve, a girl was being given some tips by her mother on how to deal with a husband.

"When your husband comes home from work," said the mother, "sit him in a comfortable armchair, take off his shoes and rest his feet on a high footstool."

"Isn't that spoiling him?" asked the daughter.

"Perhaps," replied the mother, "but you find a lot of cunts among the bastards."

President Wilson Tells Of Banking to Rotarians

What is a banker? Are bankers really human? Do they eat, dress, and get tired just like regular people?

These and other similar questions were answered, by H. T. Wilson, Eastland National Bank President, at the Rotary meeting at the White Elephant, Monday noon.

Mr. Wilson gave a humorous speech, on "What is a Banker?" followed by a Classification talk. His talk explained the operation of the bank, its purpose, and the individual job of each employee.

Included were the duties of the vice presidents, tellers, bookkeepers, the audit supervisor, investments and other departments, concerning the handling safety of the money.

A special department, headed by Mrs. Inez Boreau, is used to call upon those unable to come to the bank.

Mr. Wilson's job is to direct and coordinate each of the departments, plus the addition of one special department; the "Happy Department." He must do his best to keep everyone happy, and in good spirits.

Crime Down In Eastland During 1970

What? Crime figures down? That's right, for the City of Eastland, according to Police Chief John Morren, who reports best advances in burglary, where such crimes are reported 75 per cent less during 1970 than during 1969.

Over-all crime is 35 per cent down over a year ago, with no major incidents reported during the holidays.

Total traffic accidents were down too, at a total of 192 with estimated property damage down at \$4,015.00 for the year. There was one fire fatality during 1970 — the first in 11 years, it was reported.

Cited by Chief Morren as instrumental in the crime decreases are his Policemen, Sgt. Ben Sencillo, Leroy Steinman, Howard Parsons Jr., and Allen Weatherley, and the citizens interest and corporation in enforcing good law enforcement.

Ranger Pastor Tells Club Of Philippine Ministry

A two-week evangelistic preaching mission to the Philippines was described in words and color slides for members of the Eastland Lions club by Rev. Avery Sullivan at the Tuesday noon luncheon meeting at the White Elephant Restaurant.

The pastor of the First Baptist Church of Ranger, explained that he was invited by the Foreign Mission Board and his expenses were paid by his church and individuals in Ranger.

Marcus O'Dell was program chairman and introduced Rev. Sullivan.

President J. B. Arther presided and guests included the Rev. Hoston Brewer, pastor of the First Baptist Church, Eastland, Mike Siebert, Bill Hunter and O. L. Stamey of Cisco.

Bruce Pipkin will have the program next week, Program Director Clint Bray announced.

The trip to the Philippines was made last summer and touched two important historical spots, Rev. Sullivan said. One was a preaching site near the famous MacArthur Road, on which Japanese invaders passed, and later Allied liberators, and the other was at San Fernando, near the termination point of the famous Bataan Death March site.

He graduated with a general practitioner degree from Baylor Medical School in Dallas Hospital in 1937 and interned at Baptist Hospital in New Orleans one year, returning to Gorman in July, 1938, to what was then the Blackwell Sanatorium, which was founded by his father-in-law, Dr. George Blackwell, and Dr. Edward Blackwell, both now deceased. Dr. Rodgers soon became a member of the corporation and then headed the hospital a great deal of his 32 years there.

Survivors are his wife of Gorman, three sons, Edward Verl of Seminole, and George and Jim, both of Gorman; one daughter, Linda Rodgers of Dallas; his father, Don E. Rodgers of Gorman; two brothers, S. R. of Dallas and Roy of Gorman; one sister, Mrs. Sylvia Barker of Big Spring; and seven grandchildren.

Project Chairman Rev. James Curtis has set the third Saturday in each month to be a scheduled workday at Camp Inspiration. The first workday will be Dec. 19.

The second half of the dining hall has been completed, making the dining hall a total of 3,600 sq. ft. The seating area is 2,800 sq. ft. and should seat 250-300 people at one time. We will need at least 20 folding tables and 160 chairs like the ones we have.

new for the new addition. J. E. Parker was the general contractor for the construction and Basham Electric did the electric work. Caretaker Dutch Strickland, did the painting.
On Nov. 14 there was a workday at the camp. This was a cold windy day. Workers from Dallas, Wichita Falls, Ira, Eastland, Cisco, and others attended. About 20 youth cleared brush and staked off the area for the new cabin the youth are building. The new cabin will be located on the girls' side between the bathroom and the first cabin. District youth are raising funds now to construct this cabin which will be built in April. An area east of the dining hall was cleared of underbrush. Dutch Strickland provided the fish for a fish fry lunch.
The District coordinating Committee will be discussing plans very soon concerning more cabin space, tent camping area, rest room facilities heating the dining hall, cabins and bathroom, improvements to the Tabernacle, etc.

Jim Horn - V. president - Wichita Falls
Darrell Basham - Sec. - Ties - Graham (Eastland)

Rotarians Hear Of Smith Trip To Madrid, Spain

Roy Smith explained why he thought a perfect vacation was a trip to Spain, by showing interesting slides to Rotarians and guests at the Monday luncheon in the White Elephant, at 12:00.
Guests at the meeting were Tony White of Cisco, and Rev. Eugene Williams of Eastland.
Roy Smith of Smith Plumbing took a fall vacation to Spain, and brought back a little of the excitement thru pictures and souvenirs. His vacation was mainly lived along the coast. A geography of Spain accompanied the Mr. Smith told of how mostly rich people dominated the country. The entire coast territory where he spent his vacation was owned by only three men. People in Spain are either very rich, or poor. The land is not high producing and the soil is of poor texture, because it is so dry.
Mr. Smith informed Rotarians of a little on the nature side, concerning fruits, vegetables, flowers, plants and the climate of Spain; with pictures to illustrate. Among the hazards he faced, were the narrow streets, and the inability of many of the people to speak English. Spain is primitive in many ways, but the buildings are very modern. 92% of the buildings have been built in the past 10 years. Slides were shown Cathedrals of undescrivable beauty.

Special feature was the breaking of a Pinata. Mrs. Huffmeyer and several club members had made the Pinata and filled it with candy and other Christmas goodies.

Governor Sets January 15 As Texas Tree Day

COLLEGE STATION, Texas — Governor Preston Smith has designated January 15, 1971 as Arbor Day in Texas.
A resolution by the 51st Legislature, in recognition of the importance of trees to Texans, designates the third Friday of each January as Arbor Day.
In his Proclamation the Governor urged all citizens, and especially the public schools of Texas, to appropriately observe the occasion in the interest of Texas and the Nation.

"Trees have played a major role in the development and growth of Texas. As a economic crop, they have provided Texans with vital raw materials, so important to our wood-using industries, helped stabilize the soil from erosion by wind and water, provided food and cover for wildlife, and have been refreshing objects of beauty around the home, in parks and along our public roads.

"Trees are an integral part of our total natural environment. Their ability to purify the air and manufacture life-sustaining oxygen are of the utmost importance to Texans.
"Texans are a renewable resource and as such should be protected from their natural enemies — forest fires, disease and insects."

Free Arbor Day Program Kits are being offered by the Texas Forest Service to assist schools, and conservation-minded organizations in developing appropriate Arbor Day programs. Requests for the Kits should be addressed to the Texas Forest Service, College Station 77843.

WASHINGTON

"As it looks from here"

OMAR BURLESON

Congressman
17th District

WASHINGTON, D. C.—Except for two brief recesses the Congress has been in continuous session since January 19, 1970.

A SESSION OF CONGRESS is seven months after convening on January 3rd. The convening date is a constitutional requirement. The seven months duration is a hope and a futile one at that. It has been many years since adjournment has come on time.

WE HAVE GROWN TO ACCEPT THIS situation since it is obvious that the myriad of

legislation now handled by Congress cannot be disposed of by September. What makes it obvious is because Congress has taken upon itself to perform functions for which it was never designed or intended under the Constitution. Over the years Congress has assumed jurisdiction over about every facet of American daily life. As a result, mere volume of drafting bills, committee hearings and debate, is enough to create a legislative logjam.

THIS, HOWEVER, IS NOT

PECTS of this development. More serious is the fact that Members of Congress are called upon to be experts in a wide range of highly technical subject. None are.

HEALTH CARE INSURANCE, SPACE EXPLORATION, the many-headed school aid programs, environmental control, housing, foreign affairs, labor legislation, settling strikes, transportation, military preparedness, dealing with highly technical and complex tax matter and appropriations—to name just a few—are all subjects and issues deserving a special knowledge of each.

LEGISLATION IN EACH OF THESE FIELDS and many more, often has hidden and unsuspected consequences when put into effect.

THE COMMITTEE SYSTEM OF THE CONGRESS provides special study, with specialized staff assistance, for legislation on these subjects. The system works in matters of common concern—national defense, foreign relations, international trade, monetary policy, etc. It is less so when involved in matters of more local concern—with different effect in different parts of the country. A Senator or a Congressman would have to be a sociologist, a scientist, an economist, a constitutional lawyer—yes, even a prophet—to always be sure of how certain legislation will effect the Nation, his State and the people he represents.

THEN TOO AFTER LAWS ARE ENACTED there is much to be done. The Congressman must act as the go-between for his constituents and the sprawling bureaucracy which the Congress has created. In many instances it is to try to see that the individual is not unduly imposed upon, cheated in some way or ignored in others. Many people and communities need help in securing benefits provided under law or in finding the proper agency to deal with their particular problem.

MARATHON SESSIONS OF THE CONGRESS OFTEN, if not always, end with highly important proposals still pending. The opposite would seem the case but not so. A definite and binding date for adjournment would not only speed the legislative processes but should result in greater responsibility. Beyond such a date a special called session would be required to consider specific measures and, limited to those matters specified.

OUR STATE OF TEXAS has such a system and it is better than the U. S. Congress.

WOULD GIVE greater opportunity for Members of Congress to spend more time back home learning the thinking of the people they represent and vice versa. A Congress isolated in Washington may lose the touch with "back home" which is fundamental to representative government.

IT SEEMS THAT AS LONG AS the Congress is in session there are new proposals by the White House, the various Agencies and Departments and Members of the House and Senate, to create new programs of some sort or other. Every action taken invariably increases the Government's bureaucracy, with its attendant increased cost.

TOPS Club

Meets, Honors

Its 'Losers'

The Town & Country TOPS club of Eastland County met Monday at the City Hall in Eastland, and leader Fran Clark of Cisco called the meeting to order and led the Pledge. Several songs were sung.

Twelve members answered roll call with only 4 gainers. New member Wanda Kellar was welcomed to the club. Connie Lewis was crowned Queen of the week with a 23/4 loss. Betty Daniels received queen of the Month honor with 5 3/4 loss and no gain.

Emilee Goff provided Pep Talk on "Post-Holiday Bulges Call for Discipline."

Treasurer Wanda Thomas gave monthly report. Minutes from last meeting were read by Gay Britt.

The New Contest "Let's slim Down for Summer" was discussed and accepted.

Monthly awards were passed out and work on the banners were done.

The club will meet next Monday night, Jan. 11 at 6:45 in the City Hall. Any persons may attend or call Connie Lewis: 629-2219 in Eastland. Fran Clark of Cisco, 442-3141.

Rip-Snort Club To Hold Dance Lessons

The Rip and Snort Square Dance Club of Eastland will sponsor square dance lessons at the Sheriff Posse Building in Eastland beginning Monday, Jan. 11, from 8 to 10 p. m. Jim Lee of Mineral Wells will be the instructor.

Anyone of any age is invited to participate.

Quarantine Is For Crossing State Lines

County Agent DeGordon reports that there is some confusion among swine producers about the Hog Cholera Quarantine that includes the north west portion of Eastland County.

The Quarantine statement says feeder pigs or breeding swine can not be moved interstate, and slaughter hogs cannot be moved interstate unless accompanied by a special certificate authorizing swine to movement from a quarantined area.

The agent says this means that hogs can not be moved across state lines. It does not mean that they can not be marketed within the state. Any producer within the quarantine area may sell his hogs anywhere in Texas.

Gordon stressed the importance of producers keeping a close watch on his hogs and any sick hogs should be reported to an animal health official veterinarian or county agent.

Indemnity payments are made to farmers whose animals must be destroyed because of Hog Cholera.
