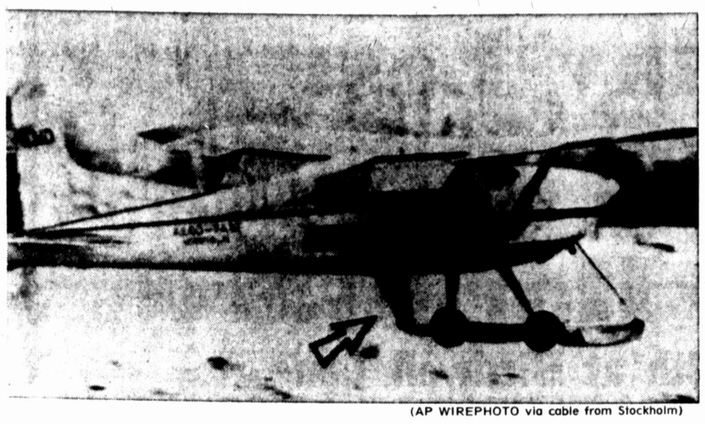
Strike Declared Officially Ended



(AP WIREPHOTO via cable from Stockholm)

ONE LARGE STEP FOR HUMANITY — Arrow shows the leg of Karl Andersen, 44, as he stepped on the faulty ski landing gear of a Cessna air-taxi, enabling the pilot to land in safety at Stockholm, Sweden, thus saving the lives of the five persons aboard. Andersen was the plane's co-pilot. The aircraft, equipped with skis, lost a connecting bolt during takeoff, resulting in one ski hanging in a near-vertical position. Andersen, by leaning out of the plane and putting one foot on the faulty ski, enabled the craft to land safely.

Snow Halts All Flights At Chicago

WASHINGTON (AP) — A foot of snow on the runways of Chicago's two airports accomplished today what an air traffic controllers strike couldn't—it halted all flights at the world's busiest airport.

Despite a court order forbidding it, the absentee rate of the controllers remained high at a handful of key centers that regulate movement of aircraft once they are out of airport range.

As on the first day—Wednesday—the effect was delays, cancellations and consolidations of flights—especially for those flights having New York or Chicago as one stop.

Only two light aircraft managed to leave Chicago's O'Hare field after 2 a.m. as a foot of wet snow closed the runways. The Air Transport Association estimated that by the time near-normal operations were resumed late this afternoon, that 700 Airline flights—half the daily number—would be canceled.

The Chicago closing, like the New York air traffic center slowdown, had a rippling effect. Planes that had been expected to arrive at Chicago were held at the originating field. Others sat on the ground.

At the New York center—which controls flights in and out of Kennedy, International, LaGuardia and Newark airports—69 of 131 controllers failed to show for the 8 a.m. shift, the Federal Aviation Administration said. At Oakland, Calif., the FAA listed 46 of 84 absent. At Kansas City, where busy coast-to-coast traffic is handled, it listed 21 of 65 missing. At Chicago it was 28 of 107.

The Professional Air Traffic Controllers Organization (PATCO), which claims to represent 7,500 of the nation's 14,000 controllers, said the FAA was playing down the number of absentees.

"They are doing this by bringing in supervisory personnel and in some areas, trainees to work positions," said Robert Sturgill, a PATCO spokesman.

(Photo by Jim Rentz)

COUNTED FIRST — The Johnny Johansen family was the first to be counted in Howard County for the 1970 census. Mrs. Doris Williams (right), one of the three crew chiefs, enumerated the family Monday, which kicked off the census with three. Mr. and Mrs. Johansen (seated) and Carl (standing left) were counted in Howard County. John Jr. (standing right) will be counted in Austin, where he is a student at the University of Texas. A daughter, Betty, will be counted in Lubbock, where she is a student at Texas Tech.

Most Troops Called Off Postal Duty

WASHINGTON (AP) — Post office and union representatives negotiated toward settlement of disputed issues today as the postal strike was declared officially ended.

Most of the troops which had been called in to help handle the mail were started homeward, and the Post Office Department declared the situation normal. There were some workers absent, as there always are, officials said, but they are not on strike.

Senate and House conferees working on a new postal pay bill agreed, meanwhile, to take no action until negotiations between Postmaster General Winton M. Blount and representatives of the postal unions either produce a settlement or break down.

"Any action we might take could only warp or louse up the bargaining downtown," said Chairman Gale W. McGee, D-Wyo., of the Senate Post Office Committee and head of the Senate conferees. "That is the only reason for the delay."

The negotiators started their sessions Wednesday with Blount saying: "I would expect we will deal with this matter very rapidly."

The Pentagon announced, meanwhile, that the 2,700 regular military troops and 15,000 of the 25,000 National Guardsmen and reservists assigned to help handle the mail are being relieved of that duty.

About 10,000 of the men are being retained on active duty for postal use if they are needed, but officials did not request any such help Thursday.

Postal workers in New York yielded Wednesday and agreed to go back to work, bringing the strike to a virtual end. The vote, however, came after union executive boards agreed to accept a bill pending in Congress.

The measure provides an 11.1 per cent wage increase, a government-paid health benefit program and regional cost-of-living differentials. Congress refused to debate the bill while workers were striking.

The negotiators had sent word Wednesday the talks were going forward in an "atmosphere that is friendly and constructive."

James H. Rademacher, president of the National Association of Letter Carriers, told a newsman the talks were going so well he believed an agreement can be reached in two days.

He said economic issues, mainly centering around a pay increase, were the principal topics in the talks. The union leader said a 12½ per cent pay increase was discussed but that government officials made no commitments.

Release Of Air Attache Is Delayed

SANTO DOMINGO, Dominican Republic (AP) — The release of the U.S. air attache in the Dominican Republic was delayed today by the kidnapers' fear that the government would welsh on its agreement to free at least 21 political prisoners.

Informants said the kidnapers insisted on holding Air Force Lt. Col. Donald J. Crowley, who was abducted Tuesday, until 10 hours after the prisoners had left for Mexico.

The Dominican government reportedly wanted the departure of the prisoners delayed until Crowley was delivered to the Mexican Embassy.

In Latin America's other current political kidnaping, the Argentine government rejected the demand of the kidnapers of a Paraguayan consul that two prisoners be deported to Paraguay. The government said one of the men is at large, and a federal judge said that the other man told him he did not want to leave the country. The kidnapers then called Buenos Aires newspapers and said they would kill "the directors of all U.S. companies in the country" as well as the consul.

Crowley is the third U.S. official kidnaped since September in Latin America and held hostage for the release of political prisoners. Crowley's kidnapers said they were members of a group opposed to the re-election of President Joaquin Belaguer, who announced Wednesday night that he will run for another term in May.

The U.S. Embassy said it had received an apparently authentic letter from the 48-year-old colonel saying, "I am well. I am in the custody of 50 armed men."

Balaguer's government had announced that it would put most of the prisoners demanded by the kidnapers on an Iberia Airlines flight Wednesday night for Mexico City. But late in the evening Mexican Ambassador Francisco Garcia said Crowley would not be released Wednesday night and the prisoners would not leave.

OFFICES TO CLOSE

Big Springers Will Observe Semi-Holiday

Big Springers will observe a semi-holiday Good Friday with city and county offices except for the tax collector's office closed.

Mrs. Zirah LeFevre, tax collector, said her office will be open for Howard County residents who want to buy 1970 car tags. The license plates must be on the cars by midnight April 1.

Otherwise, only the sheriff's office and city police will be working. Most businesses will be open in the downtown area and shopping centers.

Veterans Administration Hospital and Webb AFB employes will be working, and postal employes will be delivering mail.

13 Postmen 'Junk Mail'

SAN FRANCISCO (AP) — A federal grand jury has refused to indict 13 postmen accused of throwing away, instead of delivering, about 5,300 pieces of "junk mail."

The 23-member panel deliberated about 40 minutes after hearing some five hours of testimony, U.S. Atty. James Browning Jr. said Wednesday.

He said the jurors questioned whether there was criminal intent and whether the mailmen had been informed of regulations relating to third class "junk" mail.

Special Good Friday Service

A special Good Friday service, to which the public is invited, is scheduled Friday from 12:05 to 1 p.m. at St. Mary's Episcopal Church.

St. Mary's and Trinity Lutheran are jointly presenting the service, and stressed that since there is no community-wide affair, the program is open to all who wish to come.

Using poetry of contemporary writers, the Rev. Harland Birdwell and the Rev. Robert Knutson will present "Meditations and Dialogue on the Seven Last Words from the Cross."

Special music is to be presented by John Stanley, Larry Stanley and Dan Shockey of the Howard County Junior College faculty.

Texas Banks Cut Interest

DALLAS (AP) — A number of the larger banks in major Texas cities had reduced their prime interest rates today from eight and one-half per cent to eight per cent.

The move followed a similar action by the Irving Trust Co. in New York Wednesday.

The prime rate—the interest charged the larger and least-risky customers—has been at eight and one-half per cent since last June.

Among the Texas banks which have cut their prime interest rate are the Texas Bank of Commerce in Houston, Fort Worth National Bank, First National Bank in San Antonio, First Security of Beaumont, and the Republican, First National and Mercantile of Dallas.

Sen. Fulbright Breaks Ranks With Southern Colleagues

WASHINGTON (AP) — Sen. J. W. Fulbright of Arkansas broke ranks with most of his Southern Democratic colleagues today and announced he would vote to return Judge G. Harrold Carswell's Supreme Court nomination to committee.

He disclosed his stand in a Senate speech, giving a boost to the strategy of opponents to try to kill President Nixon's nomination by recommitting it to the Senate Judiciary Committee.

Fulbright told the Senate he is undecided how he would vote on Senate confirmation of the 50-year-old Florida judge but before doing so would like to have the Judiciary Committee reopen its hearings and obtain additional information.

Fulbright, chairman of the Senate Foreign Relations Committee, voted for confirmation of Nixon's first choice for the court post, Judge Clement F. Haynsworth Jr.

He said that he does not share what he called a lack of enthusiasm by some of his colleagues for appointment of a judge from the South or a strict constructionist.

But in Carswell's case, Fulbright said, a number of questions have been raised since the Judiciary Committee concluded its hearings.

The key vote will come April 6 when a move will be made to send the Tallahassee, Fla., judge's nomination back to the Judiciary Committee. If that motion fails, the Senate will vote April 8 on the confirmation itself.

Opponents engineered the move to try to send the nomination back to committee Wednesday after supporters failed in their effort for a quick vote on Carswell's nomination.

Only a few weeks ago, the opposition felt Carswell's approval was a virtual shoo-in. But the list of negative votes steadily grew in past weeks as anti-Carswell forces chipped away at what they called the judge's lackluster record.

President Nixon, who failed to win confirmation for his first nominee, Judge Clement F. Haynsworth, remained confident that Carswell will be accepted, presidential press secretary Ronald L. Ziegler said. He said Nixon is standing behind the judge.

The nomination appeared to hinge on how many GOP votes the opposition could muster.

An aide to Edward W. Brooke, R-Mass., a leading opponent, said the senator feels the opposition is close to getting the 10 or 12 GOP votes considered necessary to recommit.

Sen. Birch Bayh, D-Ind., offered the motion to recommit the nomination in hopes of wooing more GOP votes. He said if his move is successful, he hopes Nixon will withdraw the nomination.

But Sen. James O. Eastland, D-Miss., said he thought his committee would simply put the nomination back to the floor if Bayh wins. His committee approved Carswell's nomination by 13 to 4.

Missing Pilot Trained Here

The missing Air National Guard pilot being sought in the Gulf of Mexico earned his pilot wings at Webb AFB.

He is Capt. Daniel G. (Graham) Galloway, who earned his wings in 1965 and took advanced training at Perrin AFB and then at Randolph Field AFB at San Antonio.

Coast Guard and Air Force planes and helicopters continued their search today for Capt. Galloway. He apparently crashed Tuesday night into the Gulf of Mexico, 10 miles south of Galveston while on a training mission in his F-102 fighter-interceptor.

Spokesmen at Houston's Ellington AFB said that Capt. Galloway, who was associated with the Schlumberger Oil Well Servicing Co. at Houston, issued no distress signals before the plane dropped from radar sight.

A native of Stamps, Ark., Graham Galloway came to Webb AFB following his graduation from the University of Texas. He was active in the First Baptist Church here and in the church softball league. After his formal pilot training, he earned his master's and his doctor's degrees in electrical engineering at the University and last summer took the position with Schlumberger. The Galloways, who lived at Friendswood, near Galveston, have two children, Andy, 4, and Peter, 2. Mrs. (Martha) Galloway is expecting a third child this summer.

Why We Get Sick At End Of Month

HONOLULU (AP) — Dr. L.M. Cathcart of the University of British Columbia feels the United States should worry more about "all the drug pollution running into people's minds and bodies."

Cathcart said if most doctors understood a patients economic woes, "you could understand why he gets sick at the end of the month."

"What they need is guidance and understanding," the doctor said, "not a bottle of pills."

More Youths Are Honored

A large number of young people are being singled out as nominees for the 1970 Zale-Herald Youth Achievement Award. It's an expression of commendation for those who exhibit special characteristics of leadership and volunteer work in school, church and community.

Latest names include Lucretia Ann Drake, James Rodney Dunn and Molly Naneene McKinney of Coahoma High; and Robin Hoover, Betty McCann, Pat Stinson, Sammy Jones, Cathy Macklin and Cathy Carlile of Big Spring.

Juniors and seniors in Big Spring, Coahoma, Forsan and Sands High Schools may be nominated, and all will be recognized with gifts and certificates at a banquet on April 23. Top awards will go to four students — one from each of the schools.

Nominations must be completed and mailed by next Monday. The form appearing on Page 1-B of today's Herald must be used, but additional information can be attached.

Sure Sounds Like Truth

LOS ANGELES (AP) — Detectives say a man they arrested for investigation of three recent bank holdups gave this explanation:

"I needed the money to pay my lawyer."

Officers booked Ronald Williams, 22. They said he had been on liberty pending federal action on a charge of passing counterfeit bills.

SEE, I TOLD YOU!!

Most Of Ills Of Man Are Fault Of Women

WASHINGTON (AP)—A government analyst is compiling an unofficial report concluding what most men already believe—whatever ails them can be blamed on women.

"I have tracked down reports, for instance, that schizophrenia, paranoia, suicide, alcoholism, cancer, arthritis, sterility all result from female dominance of the family," says Dr. Phone E. Hudkins, a Labor Department lawyer and economist in the Manpower Administration.

The name is real.

"It can't be," said a Labor Department official, also unofficially.

When told Hudkins holds a GS13 rank in the $16,000 to $17,000 bracket, the official snapped, "He'll never make GS14."

Hudkins, whose 200-page report is compiled mainly of writings by psychiatrists, lawyers, anthropologists, sociologists and other experts, is quite serious about his conclusions.

But the Labor Department isn't about to touch the report with a 10-foot pole. Or even an 11-foot pole.

But Hudkins goes right on with his documentation that most of the ills of man are the fault of women.

You can blame mental depression, dwarfism, crime, delinquency, homosexuality, diabetes, colds, headaches and cancer on too much female dominance, says Hudkins, who at 36 has been shrewd enough to remain a bachelor.

"It doesn't mean that I don't lke women," Hudkins said.

"The trouble is that we really don't have a national policy on the family, but President Nixon is moving toward that," he said, dropping a name that may give lesser officials pause about calling Hudkins on the official carpet.

He explained that Nixon's proposed Family Assistance Plan to replace the present welfare system woud stop the trend of fathers leaving home so their wives and children can qualify for welfare.

Women Play Major Role In Taking 1970 Census

The women of the nation will play a large and important role in the 1970 Census of Population and Housing, whether doing the counting or being counted.

Of the 160,000 enumerators (census takers) the Bureau of the Census is hiring for the census, about 90 per cent are expected to be women. Of the 12,000 crew leaders and the 13,000 office workers staffing the temporary local census offices across the country, well over half will be women.

And, according to calculations by Bureau officials, there will be more women than men counted in the census itself. Among the adult population (18 years and older), women may outnumber men by as much as five million.

In the past, it was usually the woman of the house who greeted the enumerator at the door and answered the census questions for her family. Even when the husband was interviewed, a common observation of enumerators was that the wife was better informed, more knowledgable about family matters than he. One enumerator commented: "There was not a single instance where the husband was able to answer all the questions without calling his wife."

You will receive your questionnaire in the mail, and will be asked to fill it out on April 1, and hold it for pick-up by a census taker. The Census Bureau has planned the 1970 census this way so that the questionnaire can be in the home for a few days and give everyone the opportunity to provide the correct answers about himself. Filling out the census questionnaire can be a joint family project, if husband and wife are so inclined.

The questionnaires have been especially designed so that when correctly filled out, most of the answers can be processed directly by the Bureau's electronic devices, thus eliminating much costly and time-consuming work required in previous censuses. After the names of all household members are listed, answers to most other questions will be made by blacking in small circles with a pencil. These black dots, rather than customary writing, are what the machines read and transfer to magnetic tape ready for the computers.

About 75,000 enumerators will be needed to work in the areas where the questionnaires are picked up. The remaining 85,000 enumerators will be needed to work in the areas where the questionnaires are to be mailed back. This latter group will check the returned questionnaires to see that all questions are answered; they will telephone or visit homes to obtain any missing information, and call at homes from which no questionnaires have been returned.

Enumerators will work out of the 395 temporary census offices set up in the 50 states to take the census locally. They will be local residents, and so far as possible, they will be assigned work areas near where they live.

The Census Bureau has found that many women who do not work at regular jobs, especially housewives, welcome the chance to earn some extra money, and past experience has shown that women are particularly well adapted to census work.

In 1960, one enumerator was so determined to complete an interview she was conducting by phone she would not let a tornado ripping into her house stop her. The lights went out, the roof was blowing off, the windows blowing in. Her husband took the children and fled to the storm cellar, but she stayed on the telephone, shielding the questionnaire with a piece of plastic, until she finished with the questions. Then she joined her family under the house.

Another determined enumerator in Nevada, snow up to her eyelashes, borrowed a snowcat, a powerful vehicle with caterpillar tracks, to reach a mountain cabin and enumerate the couple living there.

It is a common experience for an enumerator to be invited to stay for a meal. One woman said she had been invited to dinner nine times and asked by several families to come back for a visit after the census. "One lady was especially glad to see me. I was her first visitor in more than two years," she said.

$5,086,000 Loss Reported

HOUSTON (AP) — Texas International Airlines Inc. reported Wednesday a consolidated net loss of $5,086,000 for 1969 compared with a 1968 loss of $1,448,000.

The board of directors also announced the election of W. Lloyd Lane as president. He succeeds Robert J. Scherer, who resigned as president and director.

Since 1965 Lane has been director of the Federal Aviation Administration Aeronautical Center at Oklahoma City.

(AP WIREPHOTO)

CANDY IS ON THE LEVEL — Miss Candace Martin, first feminine member of Local 42, International Union of Operating Engineers, AFL-CIO, is a field or "eyeball" engineer on construction site of 60-story home office building of John Hancock Mutual Life Insurance Co. in Boston. Here Candy as she is called by fellow workers shows Walter Ryan, business manager of the union, how she reads a level on the job for Gilbane Building Co.

A Devotion For Today . . .

"You will be sorrowful, but your sorrow will turn into joy." (John 16:20, RSV)

PRAYER: O heavenly Father, we thank Thee that in darkness Thy children can still turn to Thee. We are grateful for the joy that keeps seeking us through pain and the cross which lifts up our heads. We thank Thee for Jesus, whose death has transformed the dark shadow of death into the dazzling light of triumph. Amen.

(From the 'Upper Room')

Population Commission

In his message to Congress on population last July, President Nixon proposed the creation of a Commission on Population Growth and the American Future. Now he has implemented that suggestion, naming John D. Rockefeller III as chairman of this important group.

The commission's formation represents the first broad-scale attempt by our government to come to grips with a complex of problems which, taken together, have a crucial bearing on the destiny of our nation and of the human race.

The astonishing growth of population makes it evident that a crisis is almost at hand.

It will be a crisis of global proportions. We in the United States cannot escape the effects of it, though we still have large areas of open country into which people — theoretically, at any rate — could move. Projections of present trends suggest that by the end of this century the U.S. population will be about 50 per cent larger than at present.

This will be so, that is, unless we act at once to delineate the problems which may arise from population growth, and lay plans to avert or otherwise deal with them. That is the momentous and crucially important task being undertaken by the Commission on Population Growth and the American Future.

A New Element

A generation ago the scientist's proper stance was generally seen as that of "disinterested interest." This was meant to convey the idea that the scientist had but one function — to discover truth — and that he had no need to feel concern about the uses to which society might put the truth he and his colleagues discovered.

That attitude has undergone a profound change since World War II. The nuclear physicists who gave us the atom bomb, and their successors, have been agonizing ever since over the question of the scientist's responsibility to society. In somewhat lesser degree, scientists in other disciplines have shared this concern. Within the scientific community there is now strong sentiment in favor of the idea that the scientist must do more than seek truth — that he must take an active part, also, in helping to determine what use is made of new discoveries.

Evidence that this view is passing on to the new generation of scientists came to light in Washington recently when awards were made in the 29th annual Westinghouse science talent search. Forty finalists, chosen from 20,000 applicants throughout the country, were in Washington together for several days. "Almost all the students," one dispatch reported, "agreed that scientists had an obligation to consider the consequences of their discoveries." That is a far cry from the concept of the scientist as one who bears no responsibility for the use to which his findings are put. The moral element in inquiry is as refreshing as it is intriguing.

'I COULD STAND A LOT LESS POLITICALIZATION'

Art Buchwald

A Bone For The Common Herd

WASHINGTON — There seems to be no end to the Judge Carswell debate. The main charge against the jurist is that he wasn't a very outstanding judge on the federal bench. To support this charge, Carswell opponents maintain that he was reversed 59 per cent on all his decisions, a record that few federal judges can equal.

THE SAD PART of it all is that the men defending Judge Carswell are not saying that Judge Carswell is a superior person, but are supporting him on the grounds that it is about time we had a mediocre judge on the Supreme Court.

Sen. Hruska said at a news conference, "There are lots of mediocre judges and people and lawyers. They are entitled to a little representation, aren't they?"

And Sen. Russell Long, another Carswell defender, has said the United States needs a "B" student or a "C" student instead of an "A" student on the Supreme Court.

IT CAME AS no surprise to me when I was invited to attend the opening of the national headquarters of the Society for a Mediocre America.

It was located in a very second-rate neighborhood, and after walking two flights up, I found myself in a dull room where volunteers were at work sending out folders in support of Judge Carswell. On the walls were large posters of the judge, which read, "Ask the impossible and he'll do the ordinary."

Simon Listless, the executive director of the Society for a Mediocre America, said, "I'm so glad you got your invitation. Our volunteers are a very unexceptional group, and I believe they got the dates all loused up. Everyone who was sent an invitation received it for a different date."

"HOW ARE THINGS going?" I asked.

"All right, I guess. Of course, we can't expect much with the inadequate people we have working here."

"What are you trying to do with your society?"

"We're trying to organize the mediocre people in America to support Judge Carswell. We feel that they should be represented on the Supreme Court. Sen. Hruska gave us the idea, and we're running with it. There are a lot more mediocre people in the United States than anyone wants to admit."

"BUT WHY Judge Carswell?"

"Well, for one thing, he's known nationally as an unexceptional judge, and he's continually done nothing to make himself noteworthy in the legal profession. Carswell has a countless list of unremarkable qualities, and he represents everything that we stand for: sincerity, honesty and mediocrity."

"Why are they fighting his appointment if he's all you say he is?"

"There's a certain segment of America that is opposed to mediocrity in the courts. They want their Supreme Court justices to be 'A' students, instead of 'B' and 'C' students.

"HAVE YOU BEEN getting a good response to your Judge Carswell campaign?"

"Being a mediocre society we don't expect too much. We prefer to muddle along and hope our message gets through."

"And what is your message?"

"Carswell should be confirmed for the Supreme Court. He's the second-best man for the job."

(Copyright, 1970 The Washington Post Co.)

Billy Graham

You have traveled all over the world, and have observed the church in action. We all know that there is something wrong with Christ's church at the present time. Would you like to tell us what you think it is? What one word of advice would you give to the professing Christians of America and the world? T.H.

There was a Christian doctor who died in New York some time ago. He had become infected with cancer of the liver. He had been invited to speak at a Christian convention, and he answered the invitation with these words:

"Dear Brother, I had been looking forward to being with you, but now I have something more important to look forward to. It has pleased the Lord to put a massive cancer in my liver, and it is the fast spreading type. So, in all probability I will be in the presence of the Lord before your convention. Please convey to all the men this message: STOP PLAYING AROUND WITH CHRISTIANITY."

This would be my word to Christians today: "Stop playing around with Christianity." The time has come to take Christ and His commands seriously. Five people are born every four seconds, 90,000 every 24 hours — a Chicago every two months. By the turn of the century the population of the world will double. We can only cope with these masses, lacerated by lust, and infected by sin, if the professing Christians of the world "Stop playing around with Christianity." How can we get out of this trap? By each of us beginning this day to take Christ and His claims seriously.

Sad Epitaph

LOUISVILLE, Ky. (AP) — The sign on a closed business here tells all.

It reads: "Business is what, when you don't have enough of, you get out of. We didn't and we did."

Hal Boyle

Fantasy Fevers His Brain

NEW YORK (AP) — Anybody with common sense loses it in spring.

Anybody in his right mind goes right out of it. That's the only way to "get with" the season

The slush in the streets dries up. The sun shines warmer. The breeze has a gentler edge. Robins sing, and battalions of dandelions assault suburban lawns in yellow array.

In the office spring is an overpowering opiate. Everybody goes on a spontaneous vacation. Everybody wants to do something besides what he's paid to do.

A glaze creeps into his eyes. Fantasy fevers his brain. He leans back for a moment in his swivel chair, and before he knows it, he is doing all the things he ever daydreamed of doing. He is—

Riding a bluebird.

Falling off the end of the rainbow and landing in a pot of gold.

Adopting Raquel Welch.

Opening a barber shop at the North Pole.

Becoming a holy man atop a mountain in Nepal.

Discovering Adolf Hitler alive but not doing too well as a door-to-door mousetrap salesman in Argentina.

Singlehandedly saving the miniskirt from fashion's oblivion.

Being crowned top agent of the CIA for starting a vast tong war in China.

Landing first on Mars, and learning its crimson coloration is due to the fact that business has been bad so long there the planet is drowned in red ink.

Hiring a sky writer to tell his best girl why he loves her.

Heading off the rustlers at Eagle Pass.

Galloping through encircling Indians in time to summon U.S. cavalry troops to the rescue of a stranded wagon train.

Making Mao Tse Tung cry "uncle" in a hand-to-hand wrestling contest.

Pulling out a champagne cork with his teeth.

Leaping from a crag into a foaming stream in order to foil a pursuing posse which has mistaken him for a horse thief.

Opening a letter which tells him he has been made millionaire by a philanthropic stranger.

Listening to his wife tell him she had decided that, after all, he was right and she was wrong.

Getting a kind word from not one but both of his teenage children.

Sending away a boxtop and getting back Jane Fonda.

Yes, in spring any daydream seems possible. Anything seems possible—except settling down and earning an honest day's pay.

John Cunniff

School Vandalism

NEW YORK (AP) — Once upon a time the height of juvenile disdain for the educational system was to toss a rock toward the school building, hoping it would miss a window, terrified that it wouldn't.

Chronologically, those days are not long gone. But in contrast to what once was, the present is a brand-new era.

—Two boys, the oldest 14, broke into an elementary school, broke aquariums in every classroom and left the fish to die, ransacked desks, broke slide projectors and phonographs and smashed a television camera.

—Three youths broke into two school buildings, broke 100 windows, flooded hallways, smashed typewriters, ripped pay telephones from walls, and disconnected food freezers, causing the contents to spoil.

In one city vandalism has soared to $5 million a year, with about 50 occurrences a week. In another, outside window workers had to be called in when the city's own glaziers fell 1,500 windows behind.

School vandalism has developed into so huge a problem that insurance companies across the nation are deeply worried. They should be, because the U.S. Office of Education estimates damage by vandals to schools may run $100 million a year.

These are some of the facts reported in a booklet that the American Insurance Association is distributing to municipal officials in hopes of containing increasing vandalism.

Youthful vandals, in fact, are causing more of an uproar in some elementary schools than their extremist older brothers are causing on college campuses. And they don't need crude bombs to do so; creative use of hands seems to be enough.

The AIA quotes the Federal Bureau of Investigation as saying that of more than 100,000 arrests for vandalism, 77 per cent were juveniles under 18, and that the arrest volume was highest among 12 and 13-year-olds.

What are the immediate remedies?

The AIA recommends the "teaching of good citizenship in the schools, respect for person and property, and basic moral precepts." It pleads for responsible action by involved students and community leaders.

Nevertheless, the AIA recommends policing also.

These recommendations are based on the assumption that the schoolroom is, quite literally, a combat zone.

To Your Good Health

When Not To Worry About Drugs

By G. C. THOSTESON, M.D.

Dear Dr. Thosteson: I read your article on barbiturates. I have been taking two of these pills every night for over two years. I am 75 years old and in good health — nothing internally wrong. Is it all right to continue these pills?—Mrs. L.S.

Of course it's all right. Your doctor prescribed a safe amount, so you need have no fear. It's when you start using unsafe amounts that trouble starts.

Barbiturates, used in large doses, are dangerous. Used in proper amounts, they are among our most useful drugs.

There are, for example, people with epilepsy who have used small amounts daily for 20 years or more, without harm.

You see, the body can accept, make use of, and finally dispose of small quantities.

Stick to the amount your doctor prescribed and you'll be all right.

People who use drugs for "kicks," or for strange effects from overdoses, take more than their bodies can dispose of, and then comes the danger of barbiturate poisoning.

There is one word of warning. Here's another letter:

* * *

Dear Doctor: We are worried about —— and her sleeping pills. She says they don't hurt her, and the doctor told her.

But she goes on the theory that, if a little does a little good, a whole lot will do a lot of good. Then she can't understand why she's so weak, has lost weight, is shaky, has dry mouth and peeled lips, no appetite, her eyes hurt. When she has taken too much, she talks with a thick, slurring tongue, is wobbly when she walks, sometimes falls and break bones and was hospitalized four times last summer alone. Once carried out like a baby to the hospital to sleep it off.—W.I.

The way to use sleeping pills, if they are required, is to stay strictly within the prescribed amount. Then give the pill time to relax you and let you go to sleep.

Do not try to take enough to "knock you out." That isn't the way they are intended to work.

Another safety rule is to keep the supply of pills at a distance from the bed, or better yet in another room.

There's such a thing as a person taking a normal dose, then, when about half asleep, reaching for another, and even being so sedated that he (or she) loses track of how many have been taken.

So don't keep any extra pills within reach of the bed, and you won't, in a sleepy daze, take more than you should.

* * *

"You Can Stop Sinus Trouble!" is the title of my booklet explaining what sinus trouble really is and encouraging sinus sufferers to do something about it. For a copy write to Dr. Thosteson in care of The Herald, enclosing a long, self-addressed, stamped envelope and 25 cents in coin to cover cost of printing and handling.

Around The Rim

Psychology And The Event

It was one of the better sales jobs since the Tonkin Gulf Resolution, as we prepared our eldest (6 years old) for the meeting with the surgeon. Just a simple matter of tonsils, we described it, and pointed out that Mother had hers taken out just last year.

AT FIRST, she was a bit apprehensive, as she usually is when the hospital is mentioned, for she associates it closely with sharp needles that hurt. However, she was buying the whole program through Tuesday. Then, a good neighbor brought by a book called "Tonsils Goodbye," and this put the seal on it.

The book provided the best psychology, as it outlined what to expect and showed a little girl smiling and laughing through it all. Unfortunately, it was only psychology, for she didn't come through it smiling and laughing, and neither did her dad.

ACTUALLY, MY pacing back and forth was reasonably regular, until she cried out as she awakened. The doctor, who has pulled our crew through many crises, supplied his usual soothing explanation and this calmed down her mother, at any rate.

BACK IN HER room there were some difficult moments, but her Mother finally shuffled her dad off to work, and I guess things smoothed out after that. This left one more hurdle to leap, still in the future as this is written.

Pop and the three-year-old will be "batching it" for at least one night, and Mother has forecast all forms of dire disasters. All the food has been prepared, all the clothes laid out, and all the extra instructions have been preached at long length. Still, she has figured out that things will go amok. Who could know better?

NEVERTHELESS, I look forward to the laughing and smiling in that book, which won't come about until all are at home again. The psychology is fine, but going through the actual experience is something else.

For A Display Of Patriotism

WASHINGTON — As a citizen who has been furtively hoping somebody would legitimatize the American flag, I am warned by an editorial in the excellent Gary, Ind., POST-TRIBUNE. Without becoming maudlin, the POST-TRIBUNE defends the practice in some communities of policemen affixing a patch of the flag to their uniform.

THE SUBJECT came up because the city controller challenged the flag-patches as non-uniform, and was backed by the police chief, who ordered removal of the patches. The POST-TRIBUNE suggests that the best remedy is for the chief to prescribe the flag-patch and have the board of works approve the change.

"In the first place," says the POST-TRIBUNE, "the flag controversy is not a purely Gary phenomenon," but part of an "angry reaction to a variety of desecrations of the flag by various segments of the New Left." It notes that some 1,000 of the nation's 18,300 police departments authorized the patches on police uniforms, and that the practice was publicly endorsed by President Nixon.

BUT THE POINT of the newspaper's editorial that for me gets to the guts of the matter is that the American flag should be singled out as an issue in the matter of a policeman's uniform. It notes that no criticism was leveled against other unprescribed patches such as those worn by winners of chambers of commerce citations as cops-of-the-month.

IT COULD BE SAID with validity that everything goes now except patriotism, religion and good taste. Prayers are banned in the schools, but not readings from the obscene Negro poet, Le Roi Jones. A pupil may refuse to salute the flag, but may not be excused without penalty from indoctrination courses dominated by the teachings of revolutionaries. Pot peddlers set up shop unmolested on school playgrounds and college campuses.

HEAVEN KNOWS, I am nauseated by the professional flag waver who uses it for his own untidy means. I find the playing of the National Anthem at prize fights vulgar. Some of the more slackjawed among our gendarmerie have been known to wear the Stars and Stripes while beating up prisoners. And office seekers from time immemorial have befouled the flag with their indecent embraces.

BUT IT IS HARD to accept the proposition that a flag-patch worn by a cop is somehow subversive. It may be silly, but it is harmlessly silly. Some of us squares might argue but it is less harmful than mainlining with heroin, or movies which lean heavily on sweaty, sexual writhing, or even walking a mile for a Camel. And if wearing a flag-patch is criticized as a display of patriotism, no law at this writing has been passed against that old-fashioned sentiment.

David Lawrence

The Blame Is On All Sides

WASHINGTON — Labor power and governmental authority faced each other this week as the nation suffered the worst breakdown in mail delivery in its history.

Where shall the blame be placed? On all sides—on the wildcat strikers and their leaders in the unions, on the Congress for its neglect to raise wages adequately heretofore, and on the executive branch of the government as far back as the 1930's. James A. Farley, who was postmaster general during two terms of the administration of Franklin D. Roosevelt, starting in 1933, says that the problem was not tackled then and that the wages of postal employes have been too low ever since.

THIS EMPHASIZES what has long been suspected—that federal employes, being forbidden to strike, have been shunted aside by Congress. As the cost of living has risen, they have not been given the pay raises they deserved.

To most people, it comes as a surprise that a government as large as the American people support with billions of dollars of taxes each year has failed to exhibit a proper interest in federal employes generally, and that a letter carriers' strike has to happen to dramatize the failure.

ORDINARILY, the government intervenes — as when transportation is interrupted—and gets an injunction. But this time the method has been tried without much success. The problem is unfortunately entangled in the future of the post office department itself. President Nixon wants to see Congress enact a law creating a semiprivate corporation devoted to the postal service, but he preferred to have the new organization established before the wage problem was tackled. His theory no doubt was that higher wage scales than other federal employes in comparable positions get might even have to be provided, but the postal workers saw this only as a device of delay.

PERHAPS THE most disastrous phase of the controversy is the damage inflicted on the business of the country by the interruption of the mail service. There can be bigger penalties imposed for willfully delaying the mails. Maybe Congress will consider the whole subject anew to prevent a repetition of what has happened.

It would be most helpful if Congress, on the other hand, provided a means for federal employes to present periodically to Congress requests for an improvement in wage scales and a formula of immediate negotiation when the rates are out of line with those prevailing in other lines of business.

ODDLY ENOUGH, Congress has passed laws setting up systems of negotiation and even a kind of compulsory arbitration in such vital methods of communication as railway and airline transportation, and now is planning to include other industries the interruption of which could impair the public interest. But apparently little thought has been given to the fact that less han 200,000 persons can break down the mail service in some of the principal cities of the country and in several states, and yet there is no such collective-bargaining formula which protects the interest of federal employes as well as the government from a strike.

What Others Say

President Nixon's program for saving the environment is a comprehensive response to growing demands for pollution control. It is a good beginning. It pulls major parts of the environmental problem together. It offers a way to get started.

At present environment is a popular subject for politics and protest. It will not be so easy as time passes to agree on what to do about it.

The President's proposals are aimed at a broad program of improving sewage treatment facilities, getting new developments in automobile building to cut down on pollution by exhaust, controlling pollution from industrial plants and making better use of land for park and recreational purposes.

The President proposed that the government furnish aid for building of plants to dispose of municipal wastes and called for research for development in five years of pollution-free automobiles.

Environmental concern has been showing signs of approaching a stage where public demand would be a little on the panicky side.

There is good reason for the concern. But it will not help to panic, and it will not help to allow the subject to become a rallying theme for professional agitators looking for a cause.

WANTS TO UNSEAT SENATOR MURPHY — Katherine Theodoropoulos Marros, a 33-year-old mother and speech therapist, discusses her candidacy for the Republican nomination for U.S. Senator during an interview in her Yuba City, Calif., home. Mrs. Marros, who invested two months salary in her $850 filing fee, says she is starting her campaign with 89 cents in her purse. She will face U.S. Sen. George Murphy and millionaire Norton Simon in the June primary election.

Defense Rests In Smuggling Trial

SAN ANTONIO (AP) — The defense rested Wednesday in the smuggling trial of Mike Gonsalez after the Del Rio lawyer maintained his innocence from the witness stand.

Prosecution attorneys said they would call four rebuttal witnesses today as the trial entered its fourth day.

Gonsalez, 42, a member of the Texas Advisory Committee to the U. S. Civil Rights Commission, is charged with smuggling and with concealing smuggled liquor and cigarettes in his garage at Del Rio.

He testified Wednesday that he knew nothing of the contraband allegedly smuggled from Mexico and that he had never seen any liquor or cigarettes in the garage.

The prosecution asked Gonsalez if he were aware that his neighbors, Mr. and Mrs. Santiago Gonzalez, had been keeping tables on dates, license plate numbers, the number of times bottles were placed in Gonsalez' garage, and a list of persons going there.

Gonsalez said he was unaware of this.

"If 130 cases (of liquor) were placed in the garage during that time, wouldn't you have known it?" Gonsalez was asked.

"Yes, probably," the prominent Mexican-American lawyer replied.

"The whisky cases were not in the garage when you moved in, were they?"

"No," Gonsalez replied.

At another time, the prosecution brought out that Gonsalez lost his job at Kelly Air Force Base here because he could not obtain a security clearance. The jury was ordered out when this point was presented.

Two men from Ciudad Acuna across the border from Del Rio have pleaded guilty to smuggling charges in the case and will be sentenced in June. They are Mercede Beltran, who owns one of the largest liquor stores in Ciudad Acuna, and Ernesto Delgado-Cantu.

Beltran testified that Gonsalez had not earned any money in the alleged smuggling venture.

Beltran also testified that Gonsalez had given him permission to use the garage at Gonsalez' home to store the contraband. Gonsalez denied this.

Cantu told the court that Beltran sent him to deliver the liquor and cigarettes to the garage and said Gonsalez had seen him unloading the goods. Gonsalez denied ever seeing Cantu and said he never saw any liquor or any cigarettes at the garage.

Defense lawyer Warren Burnett moved for acquittal Wednesday after the prosecution rested, saying the evidence shows that Gonsalez "stood idly while real estate he was renting was used in a smuggling operation."

Burnett maintained that the law "places on a citizen no burden to report a crime occurring on his real estate." His motion was denied.

Mrs. Ana Martinez of Colorado Springs, Colo., testified that Beltran told her Gonsalez was not implicated in the alleged smuggling activities. She also quoted Beltran as saying that Cliff Wilson, a customs agent who arrested Gonsalez, was "out to get Gonsalez."

Gonsalez was arrested Dec. 4, 1968. He is being tried in federal court here on a change of venue.

In other testimony, Beltran said Gonsalez and San Antonio lawyer Jesse Gamez offered to "fix everything" for Beltran and Cantu in exchange for $1,000.

Gamez denied this allegation. It did not come up when Gonsalez testified.

Gamez quoted Beltran as saying he had been smuggling for years and that he had supplied customs agents in Del Rio with many cases of liquor as a "payoff."

Beware: High Wire Artists

SAN ANTONIO (AP) — High wire artists are at work here, but they're not the circus variety.

Sheriff's deputies reported thieves are scaling utility poles along the Missouri-Pacific Railroad line in South Bexar County and stealing thousands of feet of copper wire.

More than 13,000 feet of wire disappeared in two days this month, officers said. It came from inactive circuits and thus wasn't missed immediately.

Thefts also have been reported in Atascosa County.

In junkyards, the stolen wire could sell for up to 50 cents a pound, deputies said.

DOC EXPLAINS INCREASE IN PAIN AT NIGHTTIME

CHICAGO (AP) — A leading surgeon says persons who are ill may suffer more pain at night than they do during daylight hours.

Dr. Edward Compere, president of the International College of Surgeons, said the reason may be the difference between day and night atmospheric pressures.

Other possible causes he cited in an address to the college were:

—"The darkness at night may cause apprehension and thus increase the pain.

—"The mind is less occupied by routine tasks of daytime activities, and with all thought and concern focused on the area of hurt or disease the pain is magnified."

Dr. Compere said entirely mental pain may be caused by anxiety and worry, but that these emotional conditions "can exaggerate physical pain produced by a very minor or trivial stimulus making the pain sensation itself unbearable agony for these individuals."

He added: "For the emotionally tense and anxious individual, pain generates fear that life is in danger, that a disaster is impending, or that the body is being threatened by disease or by accident."

THE CHAPEL A LURE — The Meditation Chapel at the Eisenhower Center in Abilene, Kans., is a popular spot for tourists who visit the place where former President Dwight Eisenhower is buried.

750,000 Visit Center For Ike

ABILENE, Kan. (AP) — One year ago—April 2, 1969—former President Dwight D. Eisenhower was buried in the chapel of the Eisenhower Center at Abilene.

Since then, more than 750,000 visitors have passed through the "Place of Meditation," the church-like building containing the crypt. Abilene, population 8,000, expects the throng of tourists to become a way of life.

Henry B. Jameson, publisher of the Reflector-Chronicle and Abilene civic leader, says tourism has become a $5-million to $6-million-a -year industry for the small Kansas community.

"This isn't a one-shot thing which will taper off," Jameson said. "It will continue indefinitely. Eisenhower was not just a former president. He was an international hero and will be remembered through the generations, just as Lincoln."

Dr. John E. Wickman, director of the Eisenhower Center, agrees with Jameson.

"Since April 2, 1969, to March, 1970, 765,000 visitors were checked in, and the busy season hasn't started this year."

The Eisenhower Center consists of four buildings on a 14-acre site, the Place of Meditation, where Eisenhower is buried, the library, which contains exhibit space as well as library space, a museum and Eisenhower's boyhood home, with the original furniture.

At 15,000-square-foot museum addition is being constructed to permit rearrangement of exhibits and addition of new ones.

The Place of Meditation and Eisenhower's crypt lead in the number of visitors. Although called a chapel, it is not actually a church, and no religious services are held there.

Swine Course At A&M Set

Approximately 300 Texas swine producers and others interested in the dynamic, rapidly changing swine industry are expected to attend the Nineteenth Annual Swine Short Course at Texas A&M University on April 6-7.

National and state authorities will discuss subjects pertaining to all phases of swine production, according to Paul Gross, Howard County Agent.

Individuals from Howard County interested in pork production can attend this meeting and hear subjects discussed pertaining to modern production methods, disease problems and control, water pollution, nutrition and the effect of the environment and its control on production. Those attending the meeting will have an opportunity to meet with the speakers between sessions to discuss specific production problems.

Out-of-state speakers include Dr. H. W. Dunne, internationally known Professor of Veterinary Science, Pennsylvania State University, and Gerald Gehlbach, Commercial Swine Production, Lincoln, Ill.

The program is sponsored by the Texas Pork Producers Association and the Animal Science Department, Texas A&M University.

First Planned To Blackmail

TEXARKANA, Ark. (AP) — One of the abductors of Karen Vickers, 16, first planned to blackmail her father but switched to the kidnaping as a means of getting money, an FBI agent testified Wednesday.

This account came from FBI special agent Ed McFadden during a second day of testimony from government witnesses in the trial of five men charged in the case.

McFadden quoted Jonnie Tasby, 21, from Lafayette County in Arkansas, as telling questioners Jan. 11 his original plot was to demand money from Emmett Vickers, father of Karen, under threat of spreading word that Vickers was "running around with women" who worked in his Texarkana food store.

Tasby made the oral statement Jan. 11, McFadden said. That was two days after her captors let Miss Vickers go free from the motel room where she had been held.

McFadden quoted Tasby as saying the kidnaping was planned six months before it took place, including a demand for $40,000 ransom.

Arthritis Tragedy Explained To Lions

If national averages apply here, there are some 5,000 individuals in this area who suffer in some degree from arthritis and gout.

The tragedy is that too many people take these ailments for granted and deprive themselves of treatments which may relieve pain and prevent disability, Mrs. Charles Linehan told the Downtown Lions Club at the Wednesday noon meeting at the Settles.

Mrs. Linehan, who is executive director of the West Texas chapter of the Arthritis Foundation, projected a film, "One in 16 Million," to highlight the discussion of the foundation program in the 83 counties which comprise the chapter. Big Spring is in the center of what is known as the eastern division and Jack Worsham is division president.

It was "old home week" in the club for a couple of members. Capt. Charles Anderson, who has been serving in Vietnam for the past year, was back, and so was Ludwig Grau, who has been spending the winter at Stuart, Fla.

A special guest for the day was Dale King, Anson, field representative for Cong. Omar Burleson.

Clyde McMahon Jr. returned the slate of nominees (which may be extended by the club). These included: Winston Wrinkle, president; Roy Hughes, first vice president; Jim Lemons, second vice president; John F. Smith, third vice president; Don Shoemake, secretary-treasurer; Ernie Boyd, Liontamer; Jimmy Parks and Lynn Hise, directors; R. H. Snyder, Maj. Bill Lund and Tom Fetters, tailtwisters. Holdover directors are Aubrey Bryans and John Dibrell.

Arthritis is such a prevalent ailment that a $300 million a year quackery business has sprung from it, said Mrs. Linehan. Yet, only $15 million a year is invested in researching the disease.

Even in the crippling rheumatoid type, seven of 10 people can be helped or kept from disability if treatment is started in time, Mrs. Linehan told the Lions.

One of the chief objectives of the West Texas chapter is public and professional education through distribution of literature and importation of outstanding medical specialists in the field as guest lecturers, she said.

To Campaign Again

SAN JUAN, P. R. (AP) — Mrs. Rose Kennedy says she will campaign for the re-election of her youngest son, Edward M. Kennedy, as Democratic U. S. Senator from Massachusetts.

Here's How You Go About Building Biggest Bull

CLARKSVILLE, Tex. (AP) — What may be the world's biggest bull was raised in a Clarksville warehouse; but its owner advises the steaks off it would be rather unsavory.

The 10-foot giant never was intended for the butcher shop, though.

The monumental beef, a creation of Bert Hoster, is part of a Texas-sized sign for the front of the American Charolais Association headquarters building near the Astrodome in Houston.

Holster, a Clarksville home builder, started sculpting fiberglass figures as a hobby. He has built some hefty specimens before—bulls, bears, tigers and other ferocities—but the 10-foot Charolais is easily his largest.

The order for Holster's colossal Charolais came from a Houston sign company. Planning the project began in early winter; Holster got down to business about Christmas.

A plywood framework, surrounded by screen wire and then covered with a special plaster was utilized to fashion the 4,000 pound bull.

He then applied fiberglass to the mould, cutting it away in 24 sections. The carefully scaled pieces then were put together around a huge frame. The frame includes 300 pounds of steel pipe—made necessary by the Houston building code that says a sign must be able to withstand a 120-mile an hour gale.

Then more fiberglass was added to the original bull to make it withstand 35 pounds of pressure per square foot. The grapefruit-sized eyeballs were constructed from plexiglass and baked in Mrs. Holster's oven.

The price of future 10-foot bulls will be about $1,200, Holster explained. The original cost considerably more because he had to create the huge mold first.

Holster got into the fiber-glass animal business quite by accident. Holster, who always had an interest in art, created a life-sized Charolais for a Clarksville schoolman.

Holster started out to the man's ranch at Millsap with the bull on the top of his car when he stopped at a restaurant along the way. Another Charolais man saw it, made him an offer and bought it on the spot.

So Holster made another bull for his schoolman friend. Since then, he has created nearly 200 assorted animals. Most are bulls—Charolais, Hereford, Angus and the like. Six Charolais recently went to a Louisiana ranch and another is headed for France.

The Clarksville builder put together a fiberglass tiger as a mascot for the Clarksville High Tigers. That started something else. Soon he was creating tigers for Texarkana High School and Dangerfield High, a five-foot hornet for Hooks High School, a bear for Brownsboro High and a bearcat for Sherman High School.

The Sherman animal has a siren in his tummy, lighted eyes that blink and a mouth that blows smoke.

(AP WIREPHOTO)

LBJ UP AND AROUND — Former President Lyndon B. Johnson, hospitalized earlier this month because of chest pains, left his Texas ranch Wednesday to attend the funeral of Maj. Gen. Earl Rudder, president of Texas A&M University System. The two had been friends for a number of years.

Last Rites For Rudder

COLLEGE STATION, Tex. (AP) — Gen. Earl Rudder, president of the Texas A&M system, was buried Wednesday in a service attended by a former U. S. president, government officials and military officers.

Rudder, 59, died Monday in a Houston hospital from complications following surgery. He was stricken Jan. 29 with a cerebral hemorrhage.

Former President and Mrs. Lyndon B. Johnson were among those at the funeral.

Others included Gov. Preston Smith, Lt. Gov. Ben Barnes and Rep. Olin Teague, D-Tex.

Maj. Gen. Robert H. Travis, who succeeded Rudder as commander of the 90th Infantry, the state's reserve division, also attended.

The 4th U. S. Army was represented by Maj. Gen. Francis J. Murdoch of San Antonio, deputy commander for reserve forces.

Rudder, a decorated World War II officer commanded a Ranger battalion in the historic D-Day assault on Europe. He returned to become Texas land commissioner and was appointed A&M president in 1958.

Burial was in the College Station Cemetery with A&M students as pallbearers. The Ross Volunteers, an A&M military honor guard, fired a 21-gun salute.

Flags throughout the A&M system were lowered to half staff following Rudder's death.

The flag-draped casket, surrounded by an honor guard, lay in state in the rotunda of the campus administration building before the funeral. More than 3,000 persons entered the building to view the casket.

Warplanes Hammering Targets On Waterway

TEL AVIV (AP) — Israeli warplanes hammered Egyptian military targets along the southern part of the Suez Canal and the Gulf of Suez again today, the military command said.

A spokesman said that all planes returned safely from the two hour mission. The jets struck at artillery and antiaircraft positions on the waterway as well as "other targets" near Safarana, 60 miles south of Port Suez.

During the night, the spokesman said, Israeli planes flew another mission in which they hit radar stations, antiaircraft guns and other positions along the southern sector. All planes returned safely, he said.

There was no mention of Egyptian planes going up to oppose the Israeli planes Wednesday night or today. In a dogfight Wednesday morning, the Israelis said they shot down four Egyptian MIG21s, and the Egyptians said they brought down one Israeli plane. Each government denied the other's claims.

The Israeli spokesman also denied reports from Cairo that Egyptian commandos attacked Israeli positions along the southern sector of the waterway Wednesday.

The spokesman said the Egyptian report may have referred to a number of Katyusha rockets fired at a "desolate" area east of the Little Bitter Lake.

The Egyptian report said commandos using rockets and mortars attacked an Israeli Hawk missile site and artillery positions.

An Egyptian spokesman said all members of the raiding force returned safely after inflicting "heavy casualties in men and equipment." He said it was Egypt's first foray across the canal since March 12.

A court in Haifa today sentenced a member of one of Israel's most prominent Arab families to 12 years in prison on charges of spying for Egypt. The prosecution charged that Abdul Rahim Karaman and another man who received an 8-year-sentence provided the Egyptians with shipping information by radio and coded mail for the past 18 months. Karaman was said to have been paid $5,000 for his work.

Ray Transferred

PETROS, Tenn. (AP) — James Earl Ray, serving 99 years as the assassin of Dr. Martin Luther King Jr., has been transferred from state prison in Nashville to Brushy Mountain Prison, a maximum security penitentiary here.

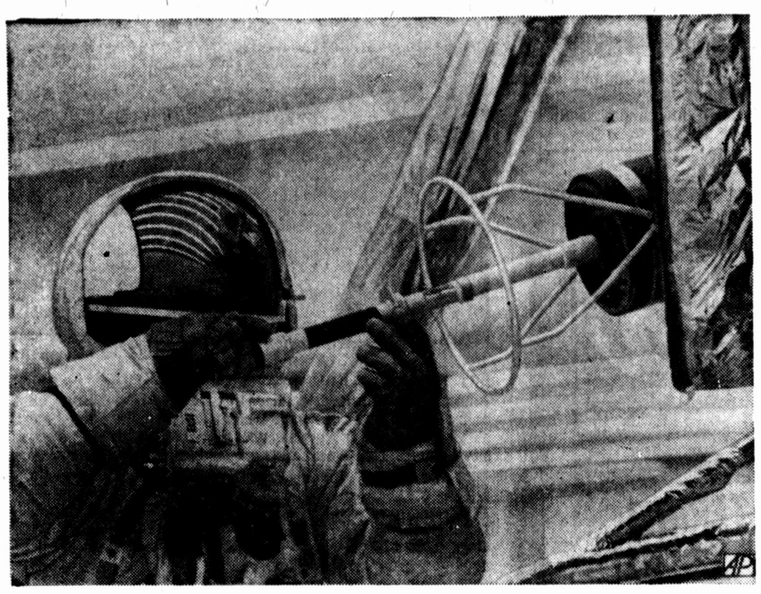
MARCH 27

in observance of GOOD FRIDAY

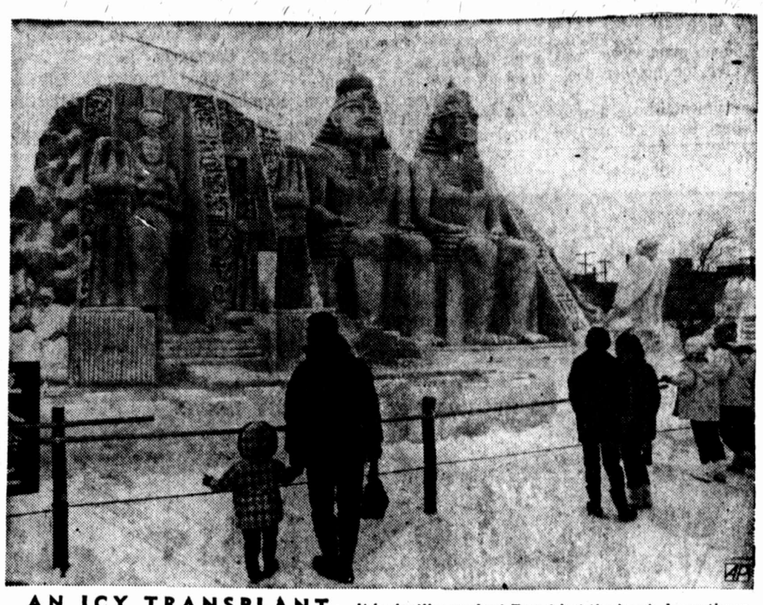
TEXAS ELECTRIC SERVICE COMPANY

ASSOCIATED PRESS NEWS IN PICTURES



SPACE SIMULATION — Apollo 13 astronaut Fred W. Haise, Jr., unloads fuel element for radioisotope thermoelectric generator while training at Kepnedy Space Center. Generator will supply electric power for Apollo Lunar Surface Experiments Package.

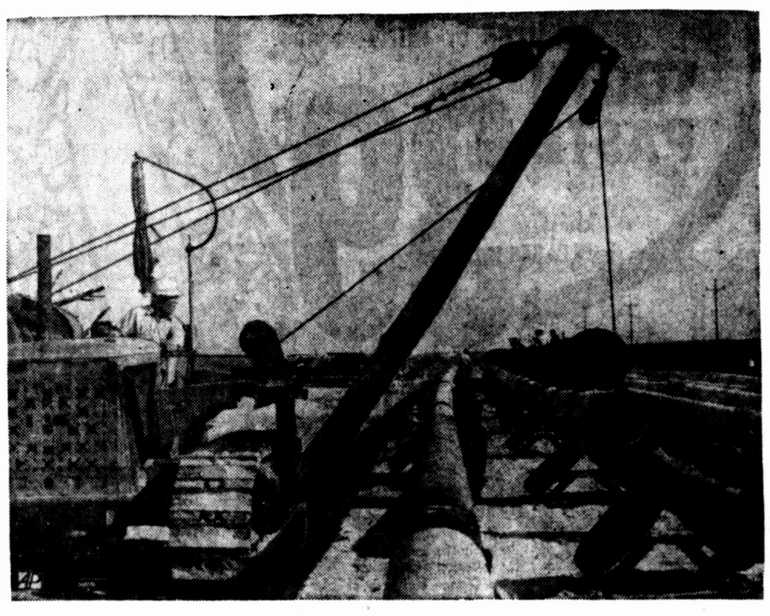
IN THE ROUND — It looks like both comfort and fun as Sui Lin, a Singapore lass, tries out a circular cane rocking chair at a London furniture exhibition.



AN ICY TRANSPLANT — It looks like ancient Egypt but the locale is northern Japan. The massive four-story high ice sculpture of the Abu Simbel temple of the Egyptian pharoah Rameses was one of exhibits in the annual snow festival held in Sapporo.

DUAL PURPOSE — A glazed straw bonnet serves as a topper and chignon. The Nina Ricci creation is complemented with earrings and crystal clip on ponytail.

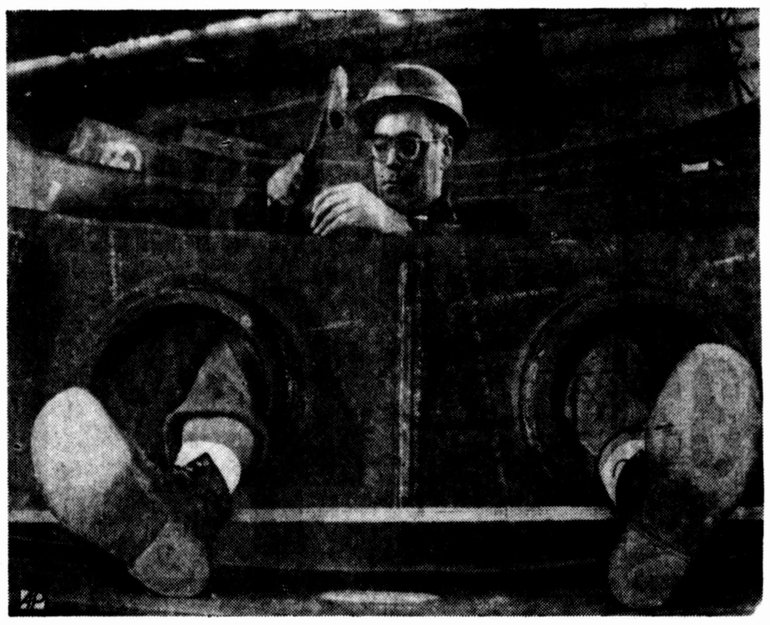
SAND STYLE — For beach wear Irene Galitzine of Rome created this halter and skirt of white, blue and brown cotton. Blue scarf and beige straw hat complete ensemble.



SETUP FOR SUPPLY — Tractor operator positions waterline for connecting trip across Aransas Bay near Corpus Christi, Texas. The Foster steel pipe is cement-lined and coated with coal tar enamel to protect water supply moving across the bay bottom.

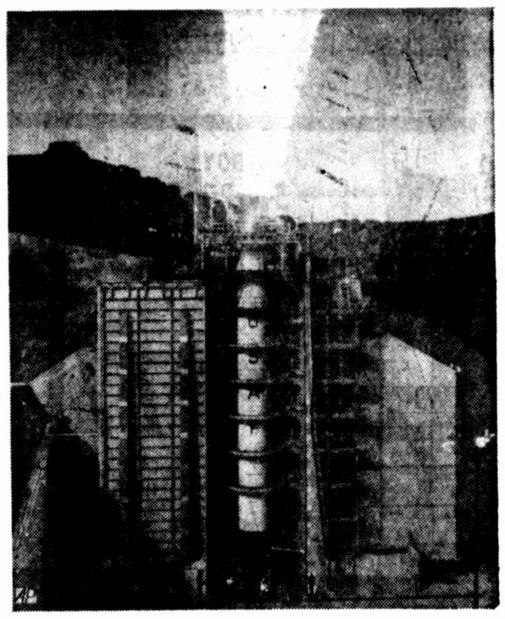
SIGHT TEST — Employee checks glow of a filament for an x-ray tube rotor under bell jar, simulating oxygen-free conditions, at Dunlee plant in Bellwood, Ill.

ARTY AID — Batman and Robin, cartoons familiar to the young, are used at St. Louis hospital to ease shock of being taken to x-ray room for medical examination.



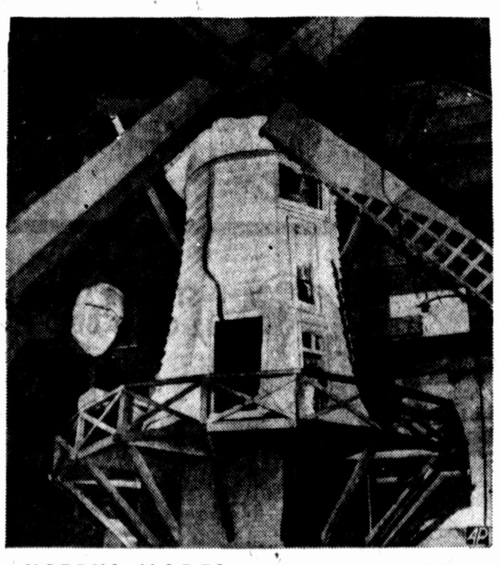
GETTING A GRIP — Shipfitter really gets a foothold as he shapes superstructure of a nuclear submarine at the Electric Boat Division of General Dynamics in Groton, Conn.

SET TO SIT — The Prince of Wales, heir to the British throne, wore his regalia at the House of Lords where he took his seat in upper chamber of the British Parliament.

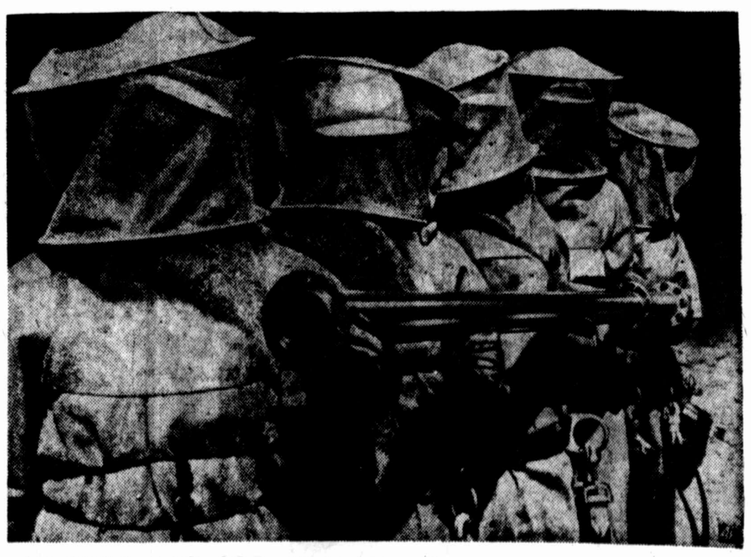


BIG BOOM — An advanced steering system for the Titan III-C space launch vehicle is test fired at Coyote, Calif. Motor blasts change the rocket's direction.

RISING OVER RIVER — The new "slimline" London Bridge, viewed from upstream side, nears completion over the Thames. New structure is being built on same site as the old bridge which is bejng demolished arch by arch as new crossing takes shape.



USEFUL MODEL — Ernest Goetsch views his 14-foot high windmill, a product of six years of work, at Pendleton, Ore. It can grind 100 pounds of flour a day.



GARBED FOR JOB — They look like medieval warriors but they're telephone men clad in aluminum mesh. It is protection against possible radiation while working on microwave radio towers. Tube carries signals from antenna down tower to an amplifier.

Webb Graduates 52 Today In Class 70-06

Student pilots of undergraduate pilot training Class 70-06, culminated 53 weeks of intensive pilot training in Withycombe Hall today at 10 a.m. During the ceremony, class members received their silver Air Force wings and certificates of aeronautical rating.

The speaker was Col. Robert M. White, program director, F-15 system program officer, aeronautical systems division, Air Force Systems Command, Wright-Patterson ABF, Ohio.

Capt. Jim Fegan, assistant fighter pilot, "Stormy" Forward Air Controllor, was the class dining-in speaker, held Wednesday night at the Officers' Open Mess.

The class named its honor graduates at the dining-in. Named to receive the Flying Training Award was 2nd Lt. Ted L. Albers, and the Leadership award went to Capt. Rolly D. Grounds. Winning the Academic Training Award were Capt. Phillip A. Steele and 1st. Lt. John A. Roulston.

Named as the class' distinguished grads were Capt. Steele, 1st Lietutenants Roulston and Robert M. Linsmayer Jr., and Second Lietuenants Larry J. McNerney and Roger R. McCollough. The Air Training Command's Commander's Trophy also went to Lt. Roulston.

Included in the graduating class, which numbers 52, are 44 Air Force officers, three Air National Guardsmen, two Marine officers, and three Danish officers, the latter the first to graduate from Webb's pilot training program.

COMMANDER'S TROPHY — Col. Harrison Lobdell Jr. (left), 3560th Pilot Training Wing commander, presents the Air Training Command's Commander's Trophy to 1st Lt. John A. Roulston of Class 70-06. Also named for honors among the class' grads were 2nd Lt. Ted L. Albers the Flying Training Award; Capt. Phillip A. Steele and 1st Lt. John A. Roulston, the Academic Training Award; Capt. Rolly D. Grounds, Leadership Award; and the distinguished graduates . . . Capt. Steele, 1st Lts. Roulston and Robert M. Linsmayer Jr., and 2nd Lts. Larry J. McNerney and Roger R. McCollough. Class 70-06 was graduated from the pilot training program in ceremonies held this morning in Withycombe Hall.

According to Capt. Jake Jacobs, the class' training officer, "they excelled in the classroom as well as in the sky. They participated in many community activities and also made their mark on the athletic field."

The "Pink Panthers" entered preflight training March 24, 1969, and 72 officers began training in the Cessna T-41 Mescalero. On May 13, the class entered primary training in the T-37 in "L" and "O" flights. On Sept. 19, the class entered basic training in the supersonic T-38 Talon with "F" and "B" flights.

Members of the graduating class, their aircraft, major command and base of assignment follow:

Captains Rolly D. Grounds, Douglas C-47 Skytrain, PACAF and Phillip A. Steele, Lockheed C-141 Starlifter, MAC, Charleston AFB, S.C.; First Lieutenants Brent W. Balazs, pilot instructor training (PIT), ATC, Reese AFB, Tex.; Gary L. Beard, 02A, PACAF; Smith Higgins Jr., PIT, ATC, Laughlin AFB, Tex.; Ronald N. Jackson, C7A Caribou, PACAF; Robert M. Linsmayer Jr., C-141, MAC, Dover AFB, Del.; John A. Roulston, McDonnell-Douglas A1E Skyraider, PACAF; George C. Tullos, Marine Corps Station, Yuma, Ariz., and Theodore Wierzbanowski, PIT, ATC, Laughlin AFB.

And Second Lieutenants Ted L. Albers, PIT, ATC, Laughlin AFB; James R. Aversman, C-141, MAC, McChord AFB, Wash.; Juan B. Aviles, Boeing B-52 Stratofortress, SAC, Ramey AFB, P.R.; Charles A. 34 Pilots In Prison Identified

NEW YORK (AP) — The names of 34 pilots held prisoner in North Vietnam were released today by the Committee of Liason with Families of Servicemen.

The names, according to Mrs. Cora Weiss, were contained in a letter from Hanoi officials which said that another package of letters from captured airmen was en route to the United States. The package contains 82 letters from 80 servicemen, 34 of whom had not been heard from before, she said.

"The news of the arrival of this mail is a clear indication that every effort is being made to normalize and regularize the flow of mail between prisoners and their families," Mrs. Weiss said.

She said the committee had been informed that more packages of mail were en route and that other names would be released as they became known through arrival of the mail.

The 34 names, by state, include:

Texas:

—James A. Clements, James O. Clements Box 5, Queen City.

—George Robert Hall, 25106, to Mrs. George R. Hall, 1709 Mountain View Drive, Waco.

—Julius Skinner Jayroe, no number, to Ann Jayroe, 3114 Satellite. San Antonio.

—Robert Duncan Jeffrey, fv3117985, to Mrs. R. D. Jeffrey, 3122 Park Lane, 218 Dallas.

—Samuel Robert Johnson fr25936, to Mrs. S. R. Johnson, 3204 Greenbriar Lane, Plano.

—Louis Makowski fr47317, to Mrs. Kay Makowski, 104 W. Cuthbert, Midland.

—John Henry Wendell Jr., fr61974, to Mrs. J.H. Wendell Jr., 2314 Willowby St., Houston.

DAILY DRILLING

STERLING

W. A. Moncrief No. 2 R. T. Foster spudded to 324 feet and is now making hole at 1,590 feet in anhydrite.

Monsanto No. 1 George is running logs after hitting bottom at 7,200 feet.

Texas and Pacific No. 1 Lena B. Foster is running in rotary.

MARTIN

Texaco No. 1 J. H. Nail is still holding tight.

Tom Brown No. 1-11 J. C. Sale is still location.

LOCATIONS

MARTIN

The second searcher in the Lacaff (Dean) field is planned by Texas American Oil Company as the No. 1 Mabee to 9,600 feet, 24 miles northwest of Stanton. Drillsite is 660 feet from south and east lines of league 318, Palmer CSLS, ⅝ mile southwest of the opener and lone producer.

COMPLETIONS

MITCHELL

KOCO No. 7 S.R. Coleman was finished as a Coleman Ranch producer pumping 70 barrels of 24 gravity oil and 70 barrels of water per day from Clearfork perforations between 2,630 and 2,785 feet. Total depth is 2,867 feet and 4½-inch casing was set to plug-back depth of 2,860. The layers were treated with 2,000 gallons of acid, 70,000 gallons of water and 105,000 pounds of sand. The Clearfork zone was found at 2,600 feet. Location is 678 feet from south and 2,220 feet from the east lines of section 6, Cuthbert Vacant Strip survey. The test was completed March 11.

Daring Rescue Of Shrimper

ST. PETERSBURG, Fla. (AP) — A Coast Guard helicopter flew across the Gulf of Mexico Wednesday to pick up a Texas shrimp boat captain who lost his arm in a shipboard accident.

The Coast Guard said the chopper flew Capt. Joe Leal of Port Isabel from the shrimper Majestic Clipper 10 miles north of Mexico's Yucatan Peninsula to a hospital at Cozumel.

A Coast Guard plane flew from Miami to Cozumel today to carry fuel to the chopper and fly Leal to a hospital in the United States. A Coast Guard spokesman said Leal lost his arm when it became entangled in rigging on the shrimper.

THERAPY DEMONSTRATION — Ed Elder (left) demonstrates an inhalation therapy unit to John Ward, Mrs. Carl Ford, Robert Fritsche, Sam Parker, Mrs. Fannie Clark and Mrs. Charles W. Anderson in a one-day workshop held Wednesday at the Veterans Administration Hospital.

DEATHS

Mrs. Edgerton, C-City Rites

COLORADO CITY (SC) — Mrs. Martha S. Edgerton 80, of Colorado City, died Wednesday morning at the home of a daughter, Mrs. Harold Duke, of Abilene, apparently of a heart attack.

Funeral services were held at 3:30 p.m. Thursday from the Kiker and Son Funeral Home Chapel. Leslie Mickey, Church of Christ minister, officiated and burial was in the Colorado City Cemetery.

She was born Sept. 9, 1889, in San Saba, married Robert P. Edgerton, Jan. 3, 1915, and came to Colorado City in 1923. Her husband died in 1959. She was a member of the Church of Christ.

In addition to her daughter, survivors include a brother, Newt McMillin, San Antonio, and a sister, Mrs. M. D. St. Clair, of Pearce, Ariz.

Glen Boyd, 69, Brother Here

Glen Boyd, 69, died during the night in Baird of an apparent heart attack, his brother Douglas Boyd, 1303 Runnels, was notified this morning. Services are pending in Baird.

Mr. Boyd operated a grocery store in Baird for several years until his retirement in 1965. Survivors include his wife, one daughter and four grandchildren.

Doug Price, Friday Rites

Funeral will be at 10 a.m. Friday for T. D. (Doug) Price, who died Tuesday of a heart ailment. The Rev. Lee Butler will officiate for the Nalley-Pickle Funeral Home service, with burial at Rochester at 4 p.m.

Survivors include his wife; one sister, and one brother.

Pallbearers will be Ray Ritchey, Jeff Brown, Charles Hans, Leonard Coker, Lonnie Coker, Glenn Smith, Boone Horne and Carl Bradley.

Maj. Ed Hudgens, Memorial Rites

Memorial service will be conducted in the Webb AFB chapel at 10 a.m. Friday for Maj. Edward M. Hudgens, who was killed Saturday while on a combat mission in Southeast Asia.

Chaplain Edward E. Galloway will conduct the rites assisted by CWO Henry D. Brewer.

Maj. Hudgens' family lives at 2715 Larry Drive, and includes his wife and four children. Before going to the war zone, he was a T-37 instructor pilot at Webb AFB. He was a veteran of almost 20 years in the service.

"YOUR SAFETY IS OUR CONCERN" apparently is not the credo of some drivers. Damage to this police vehicle was put at "total," after a 39-year-old Odessa man reportedly rammed it with his pickup Wednesday night. The man is now under arrested and awaiting charges of driving while intoxicated.

Parked Police Car Hit, Damage Called 'Total'

Charges of driving while intoxicated are pending in county court against a 39-year-old Odessa man today following an automobile accident around 10:40 p.m. Wednesday in which a police car was "totaled" while parked in the 800 block of East Fourth.

Officers Ronald M. Brown and Ray Daniel said they had stopped a car driven by Richard Hamilton, 607 Circle, on a minor traffic violation when a pickup driven by the Odessa man slammed the patrol car from the rear at a speed of about 40 miles per hour. No injuries were reported at the time, but both officers were to have physical examinations today.

Traffic Sergeant John Scott said this morning that the incident Wednesday night marked the third time in six months when a police car has been substantially damaged by a driver who was apparently under the influence of alcohol.

Wallace Is Fighting For Political Life

MONTGOMERY, Ala. (AP) — George C. Wallace, softpedaling talk of another presidential race, is running for governor of Alabama again and fighting one of the most crucial battles of his political career.

Wallace faces a strong challenge from the present governor, Albert P. Brewer, a one-time political ally who campaigned for him and voted for him as a presidential elector in 1968.

Brewer, who was lieutenant governor, became chief executive when Wallace's wife, Gov. Lurleen Wallace, died in 1968.

Defeat in his own state could seriously weaken Wallace's influence nationally as well as in Alabama.

Some observers claim to see signs that Wallace may have lost some of his following in the rural counties of south Alabama, where he has found his greatest support in past campaigns.

Court house officials—speaking anonymously because they, too, are running again this year—claim the voting strength in these counties at the moment appears to be evenly divided between Brewer and Wallace, who ran as a third party presidential candidate in 1968.

They hedge their opinions, however, with the observation that Wallace is a persuasive campaign orator who can change many times between now and primary time.

If indeed Wallace has lost any substantial strength in the southern part of the state, and this is still only conjecture, he must make it up in north Alabama.

Brewer, whose home is in the Tennessee Valley city of Decatur, says he expects to get his biggest vote in that part of the state.

Both campaigners appear to be well-financed. Both Wallace and Brewer spent thousands of dollars in the first week of their travels on big name "country music" entertainment alone, in addition to advertising and other expenses.

Wallace is running this time without the help of some of the top aides who stood by him in other campaigns.

There have been reports also of a few campaign workers on the county level switching from Wallace to Brewer, who now controls state patronage.

Before he officially became a candidate, Wallace said he would run for governor if he decided that was the best way to keep his national political movement alive. But since he started campaigning, he has said nothing about running for president again.

Cook's Discount Department Store: shoplifting under $5, one arrest.

Mystery Oil Seepage Gets Into Sewer Line

An oil-like substance from an as yet undetermined source, has been seeping into the city sewer lines since Wednesday night, Sewer Plant Superintendent Bill Brown said this morning.

Brown said city employes reported the leak around 10 p.m. Wednesday and that since that time the new treatment plant has been receiving a large quantity of gummy oil, causing the possibility that treatment operations may be effected if the seepage continues.

Sewer crews have been successful in skimming off most of the oil, which resembles the coating used on roads, Brown said, but if the quantity of the flow increases, there is a danger that the plant life used to treat sewage may be covered with the oil and become ineffective. Should this happen, the long process of growing new algae to gobble up sewage particles would have to be started anew, Brown said. The quality of the effluent piped into Beals Branch would also be reduced if the plant-life is killed, Brown said.

At mid-morning the seepage had been traced as far back in the lines as San Antonio at Fourth Street, Brown said, but no source has been discovered.

Now Brown is hoping that the supply of oil is depleted at the source and that all his crew will have to solve is the present build-up. If this is not the case, Brown said he will have a "real problem."

American, Laotian Bombers Attack North Viet Forces

VIENTIANE, Laos (AP) — American and Laotian bombers attacked North Vietnamese forces today around the Laotian government base at Long Cheng after the North Vietnamese launched small probes against government positions, informed sources reported.

The sources said the North Vietnamese "are obviously probing to see how the base is defended." They said this may be in preparation for a large-scale attack.

The probes were against two positions on Skyline Ridge, just north of the Long Cheng base. The base, south of the Plain of Jars and 80 miles north of Vientiane, is the headquarters of Gen. Vang Pao, and his army of 7,000 Meo tribesmen who are trained and supported by the United States.

The outposts along the ridge block attack routes into the base and have been under North Vietnamese attack during the past week.

Sources said government casualties in the latest action were extremely light and that enemy losses were not known.

About 2,000 North Vietnamese troops are reported to be in the Long Cheng area.

On the political front, the Laotian premier, Prince Souvanna Phouma, again rejected the Pathet Lao demand that all American bombing of Laotian territory be halted as a precondition for peace talks.

Asked in an interview whether he thought there was a possibility of an agreement with the Communist Laotian faction, the premier said: "It is rather difficult because the given conditions are considered by us as unacceptable." He said that if his government agreed to an American bombing halt, it would be a unilateral concession to the Communists.

The bombing should not stop until North Vietnam withdraws the estimated 67,000 troops it has in Laos, Souvanna said.

Youth Horsemen Assist Campaign

Twelve members of the Howard County Youth Horseman Club rode in the Douglas Addition Tuesday afternoon, working for the Easter Seal Drive. The members met at Immaculate Heart of Mary parking lot on Hearn Street with Mrs. Morris Robertson, Easter Seal chairman, and Susan Cape, Easter Seal sweetheart. Material for the drive was handed out by Mrs. L. C. Gibbs.

Officers Shooting Gas, Shotguns Nip Violence

PLAQUEMINE, La. (AP) — Violence sparked by the Iberville Parish school desegregation plan was halted Wednesday by officers shooting tear gas and firing shotguns over the heads of crowds.

Police used tear gas three times when separate groups of up to 40 blacks began throwing rocks at white motorists driving on a main street through a black neighborhood.

Officers sealed off about eight blocks of the street, but rock-throwing continued through the day. About 15 state troopers and the state police riot van were sent into the area.

Sheriff Earl Williams imposed another 8 p.m. to 5 a.m. curfew in the parish.

There were no known arrests Wednesday, but eight youths were arrested in similar violence Tuesday.

Blacks have been boycotting schools and demonstrating for three months since the school board implemented a desegregation plan that replaced two Negro principals with white men.

A biracial committee has urged the board to reconsider the transfers, but no action has been taken.

Fiery Crash Kills McAllen Driver

SAMBURG, Tenn. (AP) — A McAllen, Tex., man was killed in a one-car accident Wednesday.

State troopers said Frank Narrow, 50, died when his car struck a utility pole, crashed into the wall of a restaurant and burst into flames.

This Fight Could Get Pretty Dirty

HOUSTON (AP)—Residents of the Sheldon area have told the city council they don't want Houston garbage dumped in their area.

"We are prepared for a last ditch fight," said Jack V. Jones. "The garbage is not coming to our community."

Jones drew applause from about 100 persons who appeared before the council Wednesday to protest a proposal that Houston use a 154-acre tract near the Shelton reservoir for a garbage landfill operation.

Houston purchased the property in 1964 for $216,000 but a similar protest by residents of the area sidetracked the project.

E. B. Cape, public works director, had recommended Tuesday that he be authorized to prepare plans and specifications to convert the property into a sanitary landfill. The work would require about three months and cost about $200,000.

Job Look Bright In Houston Area

HOUSTON (AP) — Employed persons in a five-county Houston area totaled 862,800 in mid-February.

The Texas Employment Commission said the total represented an increase of 1,800 over mid-January.

Unemployed in the area totaled 17,200, some 700 lower than a year earlier but some 1,900 higher than in mid-January. The increase was attributed primarily to seasonal fluctuations.

The 1969 mid-February employment total for Harris, Brazoria, Fort Bend, Liberty and Montgomery Counties was 802,100.

Wheatley Dominates All-State Quintet

DALLAS, Tex. (AP)—The 1970 Texas Sportswriters Association All-State basketball team was dominated by champion Houston Wheatley which placed an unprecedented three players on the first team.

Wheatley's 6-foot-10 center Dwight Jones, who averaged 28.5 points per game, made the first team for the second consecutive year and headed a three-man contingent which included 6-7 Lawrence Johnson and 6-3 Allen Batro. Jones was the only unanimous choice.

Jones and Dallas Crozier Tech's Sammy Hervey were voted to the talented team for the second straight year. The other spot went to sharp-shooting junior 6-4 Bill Marcellus of Dallas Jefferson.

Hervey rewrote the scoring records in the Dallas area with an average of 37.6 points per game.

Marcellus paced Jefferson to the state tournament only to see the Rebels fall to Wheatley 103-91 in the first round.

The second team also was a high-scoring group with five players averaging over 20 points per game.

It's composed of Carrollton Turner's 6-3½ junior Jimmy Murphy; Fort Worth Terrell's 6-7 Travis Ross; Spring Branch Memorial's 6-7 Randy Yonglin and Dallas Adamson's Julius Howard. Howard and Younglin tied for the third inside spot on the second unit. The guards are Roy Moore of Victoria and Richard Little of Abilene.

On the third team, the inside spots went to Clear Creek's Paul Trcka, James Forbes of El Paso Bel Air, Cedric Joseph of Fort Worth Arlington Heights. The outside positions were grabbed by Gabriel Nava of El Paso Austin and Larry Davis of Waco Richfield.

DALLAS, Tex. (AP) — Class AAAA All-State Basketball Team, including the school, height, scoring average and class of the All-State:

FIRST TEAM

Dwight Jones, Houston Wheatley, 6-10, 28.5, Sr.
Sammy Hervey, Dallas Tech, 6-6, 37.6, Sr.
Lawrence Johnson, Houston Wheatley, 6-7, 21.4, Sr.
Allen Batro, Houston Wheatley, 6-3, 15.2, Sr.
Bill Marcellus, Dallas Jefferson, 6-4, 18.1, Jr.

SECOND TEAM

Jim Murphy, Carrollton, 6-3, 21.5, Jr.
Travis Ross, Fort Worth Terrell, 6-7, 22.4, Sr.
Randy Younglin, Spring Branch Memorial, 6-7, 21.6, Sr.
Julius Howard, Dallas Adamson, 6-7, 22.4, Sr.
Roy Moore, Victoria, 6-3, 22.3, Jr.
Richard Little, Abilene, 6-3, 17.5, Sr.

THIRD TEAM

Paul Trcka, Clear Creek, 6-3, 23.6, Sr.
James Forbes, El Paso Bel Air, 6-8, 22.2, Sr.
Cedric Joseph, Fort Worth Arlington Heights, 6-6, 24.6, Jr.
Gabriel Nava, El Paso Austin, 6-2, 26.7, Sr.
Larry Davis, Waco Richfield, 6-0, 12.7, Sr.

X-Younglin and Howard tied in balloting to give second team six players.

SHADES JAYTON

BS JV's First In Golf Meet

The Big Spring JV's finished first in a high school golf meet staged Wednesday at the Big Spring Country Club.

The four lowest ironsmiths on the Big Spring team shot an aggregate score of 363 while runnerup Jayton settled for a 369 and host Forsan a 388.

Forsan also fielded a B team in the 18 holes of play and its four boys used 411 strokes.

Tournament director was David Redwine, who first scheduled the tournament for last Friday. That was the day of the big snowfall, however.

Redwine plans to take his Forsan team to Robert Lee April 3 for a practice meet. The Buffaloes will be one of the teams in the District 11-B tournament scheduled April 8.

Charles (Tinker) Bailey of Forsan furnished the low score Wednesday with an 84. Big Spring's low scorer was Dan Lewis, who had an 89.

DAVID REDWINE

Most of the Big Spring team was composed of freshmen and sophomores.

Scores skyrocketed Wednesday because of high winds and cold weather.

The scoring:

BS JV (363) — Dan Lewis 89, Robert McFall 90, Richard Egan 91, Easy Ezell 93, Grady Harris 98.
JAYTON (369) — Harold Judy 87, Brad Dibrell 89, Kim Nichols 94, Lyndell Favor 99, Jack Williams 107.
FORSAN A (388) — Charles Bailey 84, Steve Mundell 96 ,Will Morgan 102, Richard Pitts 106, Tom Bill Kuykendall 107.
FORSAN B (411) — R. C. Reed 98, Vard Griffith 100, Steve Yeats 103, Curtis Bruns 110, Mike Murphy 114.

Hardman Signed

REDWOOD CITY, Calif. (AP) — The San Francisco 49ers of the National Football League announced Wednesday their No. 1 draft choice, North Texas State defensive end Cedric Hardman, has been signed.

Has Four Winners

YONKERS, N.Y. (AP) — Del Insko drove four consecutive winners at Yonkers Raceway Wednesday night including both ends of a $209.40 daily double.

Bucks Hammer Philadelphia

By The Associated Press

Something old and something new—that was the story as veteran Len Chappell and rookie Lew Alcindor led the Milwaukee Bucks to a 125-118 victory over Philadelphia as the National Basketball Association playoffs got under way Wednesday night.

Alcindor, the 7-foot-2 center from UCLA, led the way with 36 points but the 6-foot-8 Chappell, who entered the league in 1962-63, scored 13 of his 15 points as the Bucks pulled away in the final period.

That gave the Bucks a 1-0 lead in the best-of-7 Eastern semifinal series. Baltimore is at New York tonight in the other Eastern semi. In the West, Atlanta trounced Chicago 129-111 and Los Angeles trimmed Phoenix 128-112.

The much-traveled Chappell, playing with his sixth NBA team, scored seven straight points to lift the Bucks from an 89-all tie. Jon McGlocklin added 19 points, 15 in the second half.

Billy Cunningham, despite early foul trouble, and Archie Clark paced the 76ers with 21 points and Hal Greer had 20.

Atlanta, the Western Division flag-winners, got 39 points from Joe Caldwell and 36 from Walt Hazzard in pasting Chicago. The Hawks took the lead for good in the first two minutes.

Chicago stayed close until the Hawks broke it open with a 14-4 third-period burst for a 95-79 lead. Chet Walker topped the Bulls with 17 points.

Los Angeles' three super stars —Elgin Baylor, Wilt Chamberlain and Jerry West—teamed for 88 points in the Lakers rout of Phoenix. Baylor had 32, Chamberlain 29 and West 27.

Paul Silas' hot hand gave the Suns a 33-25 first-period lead but the Lakers surged in front 61-57 at the half and boosted it to 94-82 after three periods.

Silas scored 26 for the Suns, followed by Connie Hawkins with 24 and Dick Van Arsdale with 20.

In the American Basketball Association, still in regular season play until April 15, Kentucky beat Pittsburgh 129-119, Carolina clipped Indiana 121-107 and Washington downed Los Angeles 135-130.

Auto Racing Set April 2

ODESSA — The West Texas Racing Association kicks off its 1970 racing season with a big Destruction Derby, Thursday, April 2, at 8 p.m. Along with this event, there will be a full schedule of racing. This season promises to be the best ever as sportsmen stock cars return to West Texas.

This new class will attract more entries, faster cars and action-packed competition throughout the season. Thirty-five drivers have pre-registered for the circuit. There is a beginners class scheduled for newcomers to the circuit.

The West Texas Racing Association is composed of three tracks in West Texas. This year, racing is programmed for Thursdays at Odessa speedbowl, Fridays in San Angelo and Saturdays in Abilene.

Renovation is under way at Odessa Speedbowl, promising fans and spectators more comfort. Special treatment of the infield, the parking area and track, plus the addition of new fences will remove the dust problem.

Entries this year will operate on the point system, resulting in punctual start times and no delay between races. Odessa Speedbowl is located five miles east of Odessa on the Midland-Odessa highway, directly behind Odessa Country Club.

Bobcats Shut Out Rebels

SAN ANGELO — San Angelo Central blanked Midland Lee, 5-0, here Wednesday behind the five-hit pitching of Hunt Batjer.

Batjer, in the process of winning his third mound decision without a loss, walked only one and fanned nine.

The Bobcats have now won six games and played a scoreless tie with Odessa High in six starts.

Lee, favorites in the West Zone of 3-AAAA, are 4-6 on the year.

The Rebels journey to Big Spring Friday to oppose Big Spring in a 4 p.m. contest.

San Angelo pitchers have allowed only eight runs in seven starts, only six of which have been earned.

Midland Lee 000 000 0—0 5 4
San Angelo 102 020 x—5 7 2
Roberts and Jennings; Batjer and Koschak.

Baylor Triumphs In Track Meet

DALLAS (AP)—Baylor scored heavily in the field events and long distance runs to capture a quadrangular track meet Wednesday from Texas Christian, Southern Methodist and the University of Texas at Arlington.

The scoring was Baylor 76 1-3, TCU 50 1-3, UTA 31 1-3 and SMU 18.

Hawk Links Team In Las Cruces

HCJC's golf team is in Las Cruces, N.M., for a 54-hole collegiate invitational meet, which begins today and extends through Saturday.

Team and individual champions will be determined in the tournament.

The Hawks are marking time for the resumption of Western Conference competition, which takes place here April 11.

Two Western meets in a row, one at Hobbs and the other at Odessa, have been weathered out. HC retains a shaky one-half point lead in the standings.

Those meets will be made up but final arrangements about the rematches will not be completed until the teams gather here with their coaches.

The Hawks and other conference teams gather at Borger April 24-25 for a 54-hole event. The Borger play serves a dual purpose. The first 27 holes of competition count in league standings. Quite probably, the second 27 holes will take the place of the March 6 Hobbs competition.

The Regional tournament takes place May 1-2 in Roswell and league officials may apply credit there for the March 20 Odessa tournament. Play in Roswell will extend over 54 holes, too.

HCJC is one of 18 teams entered at Las Cruces this weekend. Only four of that group are junior college units.

The jucos will compete head to head with senior college teams. Among schools which have entered teams are the University of Colorado, Arkansas and Oklahoma.

Coach Tommy Rutledge said he was hopeful the Hawks could return with a trophy, despite the calibre of opposition.

Monterey Winner Over Snyder 9

SNYDER — Lubbock Monterey handed Snyder its second defeat of the season here Wednesday, 5-2.

Donnie Baker, the winning pitcher, allowed the Tigers only three hits. Merce Hernandez was the loser.

Tommy O'Jibway of Monterey scored Lubbock's first run with a home run in the third.

Monterey 001 013 0—5 5 1
Snyder 200 000 0—2 3 4
Jack Darnell, Donnie Baker and Tommy O'Jibway; Merce Hernandez and Larry Wall.

RING RESULTS

Wednesday Night
TOKYO — Eddie Perkins, 141½, Chicago, outpointed Lion Furuyama, 142, Japan, 10.

Fundamentals Pay Dividend For Wooden

LOS ANGELES (AP) — The coaching philosophy of John Wooden is couched in old-fashioned homily.

To some it might sound "square." To others, unsophisticated.

But with it, John Wooden has brought UCLA four consecutive national collegiate basketball titles, six in the last seven years and in 22 years of tutoring basketball teams at Westwood, has never had a losing season.

The key words in the philosophy of Wooden are probably "fundamentals," "hard work," and "teamwork." To these ends, he drills his players in almost rote-like fashion for the first six weeks of practice. Before the Bruins take the court against an opponent, they rarely see a basketball and when they do it's to drill on fundamentals.

BACK TO BASICS

No matter how many all-city or all-state high school or junior college stars he has on his squad. The first and last word of a Wooden team is fundamental.

"When the players come out for the team, I tell them they may not be the best team in the country but they'll be the best conditioned team in the country," says the 59-year-old former English teacher.

"When the season starts, I want the players to have the confidence that they can do everything they have to fundamentally correct. And I want them to know they are the best-conditioned players on the court. It gives them a positive mental attitude and I always want my players playing positive basketball."

As for teamwork, Wooden doesn't use the word. But he does tell the players where their best shots are. And when they are.

Six-foot-eight center Steve Patterson says Wooden "never asked us to subordinate ourselves. But when we came down court in practice, if we took a shot we shouldn't have, coach will say, 'That's not your shot,' and we'd know we'd better not take it the next time.

"And if we came down court and had a good shot and didn't take it, he'd tell us 'That's your shot.'"

That slow-and easy approach to the game is backed with a rigorous training program that Wooden follows as gospel.

Each day, he walks out to practice sessions with a small index card. On that card are the type of drills that will be run that afternoon, along with the time he plans to spend on each. He doesn't vary from that schedule, which he has planned in the quiet of his office.

DOESN'T MIND

Asked what his reaction is to comments his team is already being chosen to win next year's championship, Wooden says: "I don't mind at all. I'd like to have other teams go out on the court knowing we're the best. The pressure is on them."

He doesn't scout opponents very much — "I worry about what we do, I don't worry about what the other team does" — and emphasizes that winning is only part of the game.

So concerned is he about his players, he constantly refers to those whose character was improved by the game. Sometimes, after talking with Wooden, one gets the impression he'd rather lose a championship game than lose the respect of his players.

But he's a tenacious battler on the court.

Discipline is his byword and if a player steps out of line — regardless of who he is — Wooden doesn't hesitate in disciplining.

BASEBALL IS AN INTERESTING GAME — To certain people baseball does get attention. Here is Chicago White Sox manager Don Gutteridge in Wednesday's rain with two fans watching their game with the New York Yankees slowly being washed out in the fourth inning.

Haywood Inks Big Contract With Denver

By The Associated Press

The National Basketball Association was playing catch up Wednesday in the signing war as the American Basketball Association made sure its older rival didn't take away also.

The ABA's Denver Rockets announced Spencer Haywood has agreed to a new six-year contract totaling $1.9 million—highest ever for a professional athlete.

The announcement came a few hours after Haywood had hinted he might sit out a year and play with the NBA. Haywood said he wanted to play in Denver "but when someone else is offering double what I'm making with the Rockets, I'd be a fool not to play there."

The $1.9 million was more than double the $750,000 three-year contract Haywood, an Olympic star from Detroit, got for signing last year with Denver. Haywood's college eligibility hadn't ended when he turned professional and it cost the Rockets their No. 1 draft choice this spring.

The star forward is leading the ABA in both scoring and rebounding.

NBA teams, behind in signings because the ABA held the first four rounds of its draft and started signing players before the older league's season ended, got signatures on contracts Wednesday from a pair of first-round selections.

Bob Lanier, St. Bonaventure's 6-foot-11 All-American, signed a contract estimated at more than $1.5 million with the Detroit Pistons. He had also been a first-round pick of the ABA's New York Nets.

Player Still Has Mountain To Top

MIAMI (AP) — Gary Player has one over-riding, long-range ambition:

"To be the best golfer in the world—not in America, mind you, there's a lot of difference," the crew-cut little South African said. "I want to be known as the best golfer in the world."

And it's for that reason that he continues his annual jaunt around the world and for that reason that he made the first of two or three trips to this country this year.

Player was one of the favorites for the rich first prize when he set out today in the first round of the troubled, $200,000 National Airlines Golf Tournament.

TROUBLE LOOMS

The airline has been idled for more than a month by a strike. Pickets and armed guards faced each other at the entrance to the Country Club of Miami.

And Player was accompanied by a guard on his round over the 6,923 yard, par 72 layout. There have been unsubstantiated rumors of threats against Player because of his nation's apartheid policy.

"I don't know why he just doesn't pack up and go home and forget it," said one pro, who asked that he not be identified. "What's he got left to prove?"

"I still have my ambitions," said Player, who has asked repeatedly that sports be taken out of politics, that he just be allowed "to do my job, play golf."

Many feel that the muscular Player, 5-foot-8 and 160 pounds, already has proved his point.

He won the British Open in 1959 and 1968, the U.S. Open in 1965, the Masters in 1961, the PGA in 1962. Only three other players have swept those four. He led in money winnings in 1961, and topped the list in stroke average three consecutive years, 1961-63.

He's won 10 events in the United States, the last the Tournament of Champions last year.

Player, the father of five, owns a ranch outside of Johannesburg and now competes in the United States only on a part-time schedule.

BIG RETURN

He played in 16 events on the American tour last year and won more than $123,000, fifth on the list. He averaged more than $7,700 for each tournament played, by far the best on the tour.

And, he said, he currently plans to play "my usual schedule. It will be about 22 tournaments, maybe more. There'll be 12 to 15 in this country, three in South Africa, two in Australia, two in Britain."

In view of recent developments, has he considered retiring?

"I'm only 34. That's too young," he said. "What would I do? This is my profession. And I still have my ambitions. Maybe I'm not as hungry as I once was. I think I am, but maybe I'm not.

"Now I want to be the best in the world. You can't do that playing just in this country. Golf here is a great deal different than it is anywhere else in the world.

"Everywhere else they use the little ball, and that makes an enormous difference. Courses are different elsewhere, with much more narrow fairways. Weather is different. Wind is different. Conditions are different.

"When you master all of these, then you've proved something."

Bankruptcy Referee Decides Club Fate

SEATTLE (AP) — Whether the Seattle Pilots become the Milwaukee Brewers will be decided Monday by a federal bankruptcy referee.

Sidney Volinn said Wednesday he will decide at that time whether to approve the sale to the Milwaukee Brewers Baseball Club, Inc., for $10.8 million.

The owner of the year-old Pilots, Pacific Northwest Sports Inc., asked U.S. District Court last week to order the sale under provisions of the Bankruptcy Act.

Club officials said they owed $8.13 million and can't meet debts as they mature.

PERMISSION GRANTED

Although Volinn delayed his decision, he gave the American League permission to vote on transfer to Milwaukee because time is running out on the contract Pacific Northwest Sports has with Milwaukee Brewers to sell the club. April 1 is the contract deadline.

Nine owners would have to approve the move, and there was a possibility a telephone vote might be taken. League president Joe Cronin said no action could be taken before Monday, but Ewing Kauffman, owner of the Kansas City Royals, was quoted by the Kansas City Star as saying the vote on the franchise shift would be held Friday or Saturday.

Volinn said sale of the club should not be considered a "foregone conclusion." He said he could rule out the sale or direct the league to take or not take certain action.

The league was set to approve the sale to Milwaukee at a meeting in Tampa, Fla., March 17, but temporary restrainers obtained in Seattle by Washington State and Seattle and in Tampa by Alfred Schweppe, Seattle lawyer, barred the gate.

Volinn put a federal injunction in force Wednesday blocking a suit by the state and Seattle and one by Schweppe in which they sought a court order forbidding sale or transfer of the Pilots.

The federal official said the injunction would remain in force until he reaches his decision in the bankruptcy action Monday.

PROTECTS CREDITORS

He said his only concern was about the "economics" of the Pilots' financial problems and with protection of the creditors.

Volinn said he would not make any ruling that would affect the pending $82 million antitrust damage suit filed by the state and Seattle in King County Superior Court against the league and its owners.

William Dwyer, special assistant state attorney general, said the damage suit would be put in force immediately if the Pilots are turned over to Milwaukee.

"We think we have a strong case which will prove to the league it can't go carpetbagging anywhere it pleases at the sound of a cash register without having to pay for it," Dwyer said.

"I am concerned that the bankruptcy proceeding not be used to legitimatize a transaction which we contend is the last in a series of fraudulent antitrust violations," Dwyer said.

He said he doesn't want the owners and the league to be able to take the position in the suit that federal court forced them to move the franchise to Milwaukee, thus making them not liable.

LOOKING 'EM OVER

With Tommy Hart

Gene McCollum, superintendent of schools at Port Neches-Groves, who fielded a team against Big Spring in the finals of the state football playoffs in 1953, is now the chairman of the University Interscholastic League Legislative Council.

McCollum's group is offering member schools the chance to amend the transfer rule. It has been suggested any student with only one year of eligibility remaining be allowed to participate in any sport in any new school to which he may transfer, provided he obtains a written release signed by a superintendent, principal or coach of the school he previously attended.

Should that release not be forthcoming, the district committee would have the right to review the application and declare the pupil eligible.

Since this is a community with a large military population, a rule change could have a big effect here.

* * * *

Just because football is out of season doesn't mean that the BSHS trainer, Sam Aguilara, is on vacation.

"Doc," as he is called by all who know him and avail themselves of his services, stays busy the year around.

Two local baseball players, catcher Joe Martinez and first baseman Felix Martinez, were injured in a recent doubleheader with Lubbock Monterey. Both were able to continue only because Doc's treatment was prompt and efficient.

Aguilara is a tremendous asset to the athletic program at the local high school.

* * * *

Now that the Cotton Bowl is getting synthetic turf, Southern Methodist will play nine of its 11 games in 1970 on artificial surfaces. Lone exceptions are Northwestern in Chicago and TCU in Fort Worth.

* * * *

Kevin Hardy, a stellar defensive lineman for Notre Dame a few years ago, has been switched to the offensive line by the San Francisco 49ers. He'll be tried at both tackle and guard.

Hardy has quick feet and fine balance, definite assets in an offensive lineman. Too, the fact that Hardy has a history of knee trouble influenced the change. A defensive lineman gets heavy punishment in the knee area, whereas the offensive man is supposed to deliver, not take, the blow.

* * * *

Lubbock residents like to call their city the "Chrysanthemum Capital of the World."

Lubbock becomes the football capital of the world three months to the day from Friday (June 27), when the tenth annual Coaches All-American game will be unreeled in Jones Stadium. That night, there'll be more football All-Americans in Lubbock than anywhere on earth and the idea is already enchanting West Texans, who "think" football the year around.

And some of the best football minds in America will be on hand to guide the talent.

* * * *

They're saying now that Vice President Spiro Agnew actually gained in popularity when he conked Doug Sanders on the head with a golf ball. Duffers began to identify with him after he shanked his shot.

One comedian remarked of the incident:

"Agnew has challenged Walter Cronkite to a golf match, but Cronkite turned it down because he wanted to choose his own weapons."

Abilene Losing Coaching Aide

ABILENE — Danny Russell, a line coach at Abilene High School the past two years, is resigning to take a job with an oil company in Midland.

Russell coached at Mann Junior High here before moving to the varsity staff.

SMU, Frogs Split

DALLAS (AP) — Southern Methodist won its first game of the year Wednesday when it divided a Southwest Conference doubleheader with TCU by identical scores of 1-0.

PITTS GETS SECOND ACE

Max Pitts sank the second hole-in-one of his golfing career earlier this week at the Municipal course when he canned his tee shot on the 154-yard, tenth hole. He was using a four-iron at the time.

Pitts, who was playing with his son, Richard, at the time, wound up with a five-under par 36 for the round.

His other ace came in February, 1967, on the same course. That one occurred on the sixth hole.

BIG SPRING DAILY HERALD

SECTION B | BIG SPRING, TEXAS, THURSDAY, MARCH 26, 1970 | SECTION B

(AP WIREPHOTO)

SCRATCH ONE PUPPY — When a purebred Siamese cat named Chotze and an English Sheepdog puppy named Sir Thomas of Sherwood play together, they're liable to go to it tooth and nail. Here it appears Chotze is going for a left hook. The pets live together at Mankato, Minn., and actually get along quite well, according to Linda Boyson, who owns Sir Thomas, and Bonnie Michels, who owns the cat.

AT 6:39 A.M. SUNDAY

Community Invited To Sunrise Service

Sunday brings the most holy day of Christendom, and Big Springers are invited again to join in a special community-wide, non-denominational sunrise Easter service.

This, as is traditional, will be in the Comanche Trail (City) Park amphitheater, and starts with the rising of the sun at 6:39 a.m.

Even if Spring weather prevails, worshippers are advised to dress warmly and to bring cushions or blankets to cover the stone seats. If weather is too severe for an outdoor gathering, the service will be held in the First Baptist Church.

The special message will be brought by Chaplain (Colonel) John W. New, assistant command chaplain of the Air Training Command, Randolph AFB. He will be introduced by Webb's senior chaplain, Lt. Col. Fred Kevetter.

The musical portion of the worship will be highlighted by an anthem by the Mt. Bethel Baptist Church choir, directed by Mrs. Robert Parramore, who also will lead in congregational hymns, with Mrs. H. M. Jarratt as organ accompanist.

The worship will open with a trumpet fanfare and the posting of colors by the Webb Air Force color guard. The Rev. Daniel R. Sebesta, president of the Howard County Ministers Fellowship will preside and give the call to worship.

Collection at the sunrise service is used by the Fellowship to help defray costs of the Bible course in Big Spring High School. Members of the Chamber of Commerce Ambassadors Club will serve as ushers.

Special decorations are being arranged by the city's florists and representatives of the Council of Garden Clubs.

Rebel Theme Is Retained

ARLINGTON, Tex. (AP) — The Rebel theme was retained at the University of Texas at Arlington Wednesday by a 56 per cent majority in a school-wide election.

Out of the 3,953 votes cast in the student election, 2,198 supported the Rebel theme and 1,755 favored a proposed Maverick theme.

In two previous elections, the Rebel theme won by a 4 to 1 margin.

School officials said the total vote represented less than one-third of the 12,418 students.

Severe Weather Parley Slated Here April 3

The Big Spring-Howard County Department of Civil Defense will host a severe weather conference April 3 with representatives of six neighboring counties expected to attend.

Martin, Dawson, Scurry, Mitchell, Borden, and Howard counties will send officials to the conference to "acquaint each county of their weather alerting capability and coordination of reporting procedures of each county so we may do a better public safety job in protecting our cities and counties during severe weather alerts and tornadoes," said W. D. Berry, director of the local civil defense unit.

The conference will begin April 3 at 1:30 p.m. in the Holiday Inn.

Jim Loomis, chief meterologist of the Midland Weather Bureau will be featured speaker.

License Plates Selling Steady

With the deadline rapidly approaching for the purchase of 1970 car tags, Mrs. Zirah LeFevre, county tax assessor-collector, said this morning approximately 1,145 license plates were sold Wednesday for receipts of $19,826.95.

The new license plates must be on the autos by midnight Wednesday. The tags are on sale in her office on the first floor of the county courthouse, in Forsan City Hall, Webb AFB Credit Union, and Newsom's.

Mrs. LeFevre said her office will be open Good Friday to sell tags.

KIDNEY DANGER SIGNALS HOW TO TREAT THEM. IN JUST 24 HOURS

If not pleased, your 48c back at any drug counter. Getting up nights, leg or BACKACHE may warn of functional kidney disorders — "Danger Ahead." Help nature with gentle BUKETS diuretic. NOW at Bell's Pharmacy.

COMMUNIST RULES FOR REVOLUTION

In May of 1919, at Dusseldorf, Germany, the Allied Forces obtained a copy of some of the "Communist Rules for Revolution." Nearly 50 years later, the Reds were still following them.

A. Corrupt the young; get them away from religion. Get them interested in sex. Make them superficial; destroy their ruggedness.

B. Get control of all means of publicity, thereby;

1. Get people's minds off their government by focussing their attention on athletics, sexy books and plays and other trivialities.

2. Divide the people into hostile groups by constantly harping on controversial matters of no importance.

3. Destroy the people's faith in their natural leaders by holding the latter up to contempt, ridicule and disgrace.

4. Always preach true democracy, but seize power as fast and as ruthlessly as possible.

5. By encouraging government extravagance, destroy its credit, produce fear of inflation with rising prices and general discontent.

6. Incite unnecessary strikes in vital industries, encourage civil disorders and foster a lenient and soft attitude on the part of government toward such disorders.

7. By specious argument, cause the breakdown of the old moral virtues—honesty, sobriety, self-restraint, faith in the pledged word, ruggedness.

C. Cause the registration of all firearms on some pretext, with a view to confiscating them and leaving the population helpless.

That is quite a list, isn't it? Now, stop and think—how many of these rules are being carried out in this nation today?

Develop Material To Carry Electricity More Cheaply

DALLAS (AP) — Physicists said today they have developed super-superconducting materials.

These could lead to cheaper, more efficient methods of transmitting electric current over very long distances, and to other applications, such as creating a magnetic shield around spacecraft to protect their human occupants and delicate electronic gear from harm from radiation in space.

A superconductor is a metal whose electric resistance decreases to zero when it is cooled enough, almost to the point of absolute zero.

When an electric current is made to flow through a superconductor, the current will flow forever, without any loss, without needing any kick or boost from a battery.

A copper wire at room temperature offers at least one billion times greater resistance than the superconductor at extreme low temperatures.

The new super-superconducting materials are able to withstand a magnetic field one million times that of the earth, the team of scientists told the American Physical Society. This in effect doubles the ability of superconductors to withstand magnetic fields.

A difficulty with the unusual pheonomenon of superconductivity is that this quality can be destroyed by a slight rise in temperature, by an increase in the electric current, or by an increase in the magnetic field which is produced by the electric current.

The new superconductors are so tough that it's difficult to generate magnetic fields intense enough to interrupt their superconductivity, the physicists said.

One material consists of a combination of the chemical elements niobium, aluminum and germanium. It remains superconducting when the temperature becomes as "hot" as almost 21 degrees on the Kelvin scale. This reading is equal to 421 degrees below zero on the Fahrenheit scale of a home thermometer. Absolute zero in Fahrenheit is 459 degrees below zero.

When kept at a temperature of 4.2 K, this new material can withstand an unprecedented magnetic field of 410,000 gauss, or one million times the earth's magnetic field. A gauss is a unit of measurement of magnetic field.

Another new superconductor consists only of niobium and aluminum. It remains superconducting up to 18.7 degrees Kelvin.

The best previous material, a compound of niobium and tin, could withstand a magnetic field greater than 220,000 gauss, said the report presented by Dr. Ronald H. Willens and Ernest Corenzwit of Bell Telephone Laboratories, Murray Hill, N.J.; Dr. Bernd T. Matthias of the University of California at San Diego, and Bell Telephone Labs.; Dr. Simon Foner and Edward J. McNiff of Massachusetts Institute of Technology, Cambridge, Mass., and Dr. Theodore H. Geballe of Stanford University and Bell Telephone.

Five Texans Amid Viet Casualties

WASHINGTON (AP) — The Defense Department announced Wednesday the names of five Texans killed in action in Vietnam. They included:

Army Pfc. Avery M. Nye III, son of Mrs. Pauline R. Brown, 720 Chihuahua St., Laredo; Pfc. Robert E. Richardson, son of Mrs. Gladys Richardson, 5817 Pilgrim Drive, Dallas.

Marine Staff Sgt. Guadalupe Gonzalez, husband of Adeline Gonzalez, 1602½ Craig, Corpus Christi; Sgt. Ehrhard H. K. Pohl, son of Mrs. Ursula I. Penland, 831 West Hull, Denison

Twisters Bounce Around Midwest

By The Associated Press

Heavy snow, wind and downpours of rain belted the Midwest and parts of the South today as a tornado-spawning spring storm churned out of the mid-continent.

Twisters dipped into Arkansas, Missouri and southern Illinois Wednesday night. Heavy damage was reported in a section of northeastern Arkansas. Moderate damage occurred in Illinois, where there also were at least two injuries.

Chicago was staggered by its second-heaviest snowfall of the season, 10 inches. The Weather Bureau indicated the accumulation before the storm abated could surpass the 11.3 inches that fell last December.

Much of the snow fell during a nightlong thunderstorm and caused scores of power blackouts, telephone failures and traffic accidents as well as airport snarls and the crash of a light plane.

One man was killed and another was injured when their plane crashed shortly after taking off from a suburban airport northwest of Chicago during the storm.

O'Hare International Airport was forced to close its runways to incoming flights for two hours before midnight due to poor visibility. The heavy snow also knocked out a third of the airport's radar systems for nearly an hour.

Highway travel was hazardous through most of the midwest because of wet and slippery highways and poor visibility in blowing snow. Winds of 30 to 40 miles an hour were common in some areas.

Thunderstorms extended southward from the Great Lakes to the central Gulf states and into Florida. Hail, severe lightning and torrential rain frequently accompanied the storms.

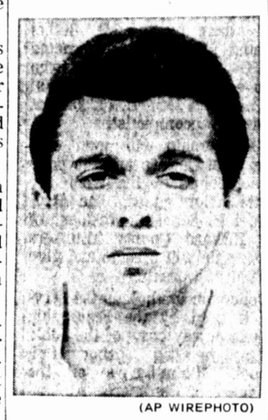
More than 3½ inches of rain poured into West Palm Beach, Fla., during the night. Two inches fell on some west-central Indiana communities.

Hardest hit in the flurry of tornadoes was the area around Newport in northeastern Arkansas. Several aircraft and hangars and a nearby trailer factory were wrecked. Damage was estimated up to $200,000.

No injuries were reported in the Arkansas storms.

In the West, still another storm system rolled across the northern Rockies. Stockmen's and travelers' warnings were issued for northern Montana, with forecasts of snow and blustery winds.

Unseasonable cold clung to the Rockies from the Canadian border to Colorado and chilled portions of the Great Plains as well.



(AP WIREPHOTO)

INDICTED — David Passaro, 21, of San Jose, Calif., currently serving a prison term on grand theft and marijuana selling convictions, has been indicted on charges of fatally stabbing a young man during a Rolling Stones rock concert near the Altamont Speedway east of Oakland last Dec. 6.

Bank Failures Said Mystery

AUSTIN (AP) — There was no apparent cause for Texas' bumper crop of bank failures in 1969, a House study committee was told.

"I think it just happened that way," Fobert E. Stewart, deputy state banking commissioner, told the House Banking Study Committee. "There was no common thread of bank failures the last five years as I see it."

Stewart said there were four state bank failures in 1969, compared with seven for the other four years of the five-year period. In addition, there were several national bank failures.

Stewart also said he saw no comparison between the bank failures and the unusual number of new state bank applications in 1969. He said there were more than 100 applications filed in 1968 and 1969 with 45 applications still pending.

"I think there has been a greater demand for charters because of the mistaken impression by some that the banking industry is extremely profitable," Stewart said.

Walk 10 Miles To Surrender

OKLAHOMA CITY (AP) — Three Houston men were held in the Oklahoma County jail today under $50,000 bonds on charges they committed Tuesday's $20,000 robbery of a bank at Duke, in extreme southwestern Oklahoma.

A woman charged with aiding and abetting the holdup, Mary Louise Clark, 24, was released Wednesday on $5,000 bond.

Officers said a hand-drawn map found in a Houston apartment and turned over to police some time ago helped in the capture of the four.

Two of the men — Jerry Dean Darnell, 28, and Eddie Lyons — walked 10 miles from a Jackson County farm house to surrender to officers in Altus, Undersheriff Leon Jennings said.

An Altus policeman, Capt. Sonny Bannister, arrested Mike Castle, 22, in a taxi in Altus later Wednesday.

Miss Clark was arrested late Tuesday when she drove up to the farmhouse.

BOUNTY PUSH FOR PUSHERS

FORT WORTH (AP) — State Rep. Joe Shannon proposes a bounty system for drug pushers.

"The law presently provides for the payment of a bounty for animals who prey on livestock," he said. "Why not offer a bounty for persons who prey on human beings, especially young people?"

Horoscope Forecast

TOMORROW

—CARROLL RIGHTER

GENERAL TENDENCIES: A beautiful day for you to make those changes you have been considering. Also, frank and open discussions with others, so you know where you stand, should work out well. Today is fine for planning trips. Give some thought to your long-range ambitions.

ARIES (March 21 to April 19) Get out early and make as many new contacts as you can and hit on the right viewpoints for you exlusively. Be sure to save some time for the recreational, also. You need to laugh a little now.

TAURUS (April 20 to May 20) Collecting and paying are your first duties today. Then get experts to give you advice how to handle problems better. Stop deliberating so much and you get ahead much faster. Be active.

GEMINI (May 21 to June 21) Come to a better understanding with close allies by using a direct approach, stating your aims, ideas. Once you get important work done, you can easily get out for fun tonight. Be charming with others. Be happy.

MOON CHILDREN (June 22 to July 21) Be precise in handling all matters ahead of you. Don't slow down your tempo since you know exactly what you are doing. Co-workers then appreciate you greatly. Enjoy mate in the evening.

LEO (July 22 to Aug. 21) Find the right method for gaining the companionship of friends for certain recreational activities you want to get into. Do something particularly thoughtful of mate. Building up the ego of others is wise.

VIRGO (Aug. 22 to Sept. 22) You finally are able to come to a fine understanding with close ties, but you must be more cooperative and not criticize so much. Buy those items that make your house more charming. Be comfortable.

LIBRA (Sept. 23 to Oct. 22) Talking over mutual projects with associates and reaching greater harmony among you is fine today. Be cooperative and get the right results. Work out those details in your special hoppy in the evening.

SCORPIO (Oct. 23 to Nov. 21) You can add to present security and property now by keeping busily occupied, so don't run off on some useless weekend jaunt. Listen to what a clever adviser has to suggest. Follow good ideas.

SAGITTARIUS (Nov. 22 to Dec. 21) Be clever and positive in going after what you desire, and stop fussing. State your aims to those who can do you fine favors. Later, be social with the persons you like so much and have a wonderful time.

CAPRICORN (Dec. 22 to Jan. 20) Find out what higher-ups expect of you and then do your utmost to cooperate. Be sure to give assistance to one who is having problems. Avoid those who have controversial ideas.

AQUARIUS (Jan. 21 to Feb. 19) Ideal day to be your gregarious Aquarius self and make many fine new acquaintances who can be helpful to you in the future. Forget the practical for a while and go after the personal. Be a much happier person.

PISCES (Feb. 20 to March 20) Be sure you locate bigwig and get the suggestions and support you need at this time. Clarify your aims, be precise in stating them. Then show your finest talents in the business world.

Whatever Happened To Old What's His Name?

By GARTH JONES
Associated Press Writer

"Whatever happened to old what's-his-name? You know the so-and-so who ran such a hot race for governor in 1954? . . . or was it 1956? . . . maybe it was the Senate race."

Unlike old soldiers, most old defeated political candidates don't seem to fade away.

Before their placards tacked on telephone poles begin to fade, some of them are back running for political office again. Others re-appear as successful leaders in another field.

But there are a few who just fade away into their own political sunset.

DON WHO?

Remember Eugene Locke? A few short months ago every radio and TV set in the state blared that he "should be governor of Texas." He's quietly practicing law in Dallas now.

Remember Don Yarborough? For several successive political seasons he was a serious threat to conservative candidates. But he lost the 1964 Democratic primary race for governor, again in 1966 and a third time in 1968. Now Yarborough is a practicing Houston attorney.

One of Texas' best examples of a defeated candidate reappearing is Lyndon B. Johnson. As a Central Texas congressman he tried for the U.S. Senate in 1941 and lost by 1,311 votes. But he tried another Senate race in 1948 and won over Texas' pipe smoking Gov. Coke Stevenson.

NEVER FORGOT

Stevenson never forgot those 87 controversial votes that sent Johnson to the Senate and never ran for office again. He retired to his ranch in the cedar brakes near Junction.

Then there's Sen. Ralph Yarborough, D-Tex., who started running for statewide office in 1938 and lost four campaigns finally a special Senate election in 1957.

Rep. George Bush, R-Tex., was defeatel by Yarborough in 1964 but got to Washington anyway with a successful congressional race in 1966 from Houston.

Rep. Henry Gonzales, D-Tex., lost a primary race to Gov. Price Daniel in 1958 but turned around and won a 1961 race for Congress from San Antonio.

TOUGH RACE

Daniel tried for a fourth term in 1962 but was deefated and retired to his Liberty ranch where he practices law and takes various state and federal assignments for specialized legal tasks.

Jack Cox gave Daniel a tough race for the Democratic nomination in 1960, but lost, then ran on the Republican ticket in 1962 but lost to Gov. John Connally. Cox now operates a hotel and private club in Austin and has investments in Dallas.

Marshall Formby, a veteran of the hectic 1962 governor's race, is a Plainview businessman. John Hill, another of the 1968 campaigners, is a Houston attorney with a close watch on political developments in 1972. Dolph Briscoe, another 1968 loser, already has his eyes on a 1972 governor's race, meanwhile ranching and banking in South Texas. Waggoner Carr, on the losing end of the 1966 U.S. Senate race and the 1968 governor's race, is a prominent attorney operating out of Austin and Lubbock.

LOST RUNOFF

Dr. James A. Turman, former House speaker who led Smith in the 1962 primary for lieutenant governor but lost the runoff is campaign manager for Yarborough's re-election campaign.

Bill Blakley, millionaire Democrat who was twice appointed to the U.S. Senate then lost a race to Sen. John Tower, R-Tex., in 1961, is a prosperous Dallas businessman.

Gordon McLendon lost to Yarborough in 1964 and went right back to his many broadcast interests in Dallas and over the state.

As a Democrat, Will Wilson was elected to the state Supreme Court, resigned to make a successful race for attorney general, then lost Democratic races for the U.S. Senate in 1961 and governor in 1962. In 1966 he switched party allegiance, and as a Republican now is head of the U.S. Attorney General's Criminal Division, an appointee of President Nixon.

Greatest Hazard? Bikini-Clad Girls

FORT LAUDERDALE, Fla. (AP) — Clarence Paulk, a 15-year-old Pompano Beach, Fla., high school student, returned to earth here this week after an 80-hour stint in a palm tree.

Paulk's feat capped a sports marathon sponsored by Volunteers in Service to America (VISTA) to raise money for local charities. His was far and away the most impressive performance.

The greatest hazard, Paulk said, was bikini-clad girls. "One of them walked by directly under me, and I almost fell out of my tree."

50 Attend VA Workshop

More than 50 persons attended a one-day workshop on "inhalation therapy" Wednesday in the Veterans Administration Hospital.

Persons from Goodfellow AFB, Dyess AFB and Webb AFB, as well as nurses from the surrounding area, attended the workshop.

The workshop was conducted by Edwin L. Edler, registered inhalation therapist, who serves as chief of inhalation therapy unit at the VA Hospital in Houston.

Topics discussed include departmental organization and function; review of respiratory anatomy and physiology; cleaning and sterilizing of inhalation therapy equipment; aerosol therapy; use of IPPB equipment; workshop on inhalation therapy equipment; and treatment of the patient in acute pulmonary distress.

Three More Enlisted Men Linked To My Lai Action

ATLANTA, Ga. (AP) — The Army has charged three more enlisted men with murder of Vietnamese civilians at My Lai village in March 1968.

The new charges, announced here Wednesday, specify one count of murder each against Spec. 4 William F. Doherty, 21, of Readville, Mass.; Cpl. Keneth Schiel, 22, of Swarts Creek, Mich., and Spec. 4 Robert W. T'Souvas, 20, of San Jose, Calif. The three are former members of the Americal Division, as are seven other enlisted men and three officers who have been charged in the My Lai incident.

A spokesman for 3rd Army Headquarters at Atlanta's Ft. McPherson, where the combined My Lai investigation is being conducted, declined to give details on the three individual cases.

The next step will be referral of the charges to an officer for investigation under Article 32 of the Uniform Code of Military Justice. It is the military equivalent of a civilian grand jury proceeding.

Duval Halting Sulphur Jobs In Fort Stockton

HOUSTON (AP) — The Duval Corp. said Wednesday it has shut down sulphur production at Orchard and Fort Stockton.

This will be offset by increased output from Duval's new Culberson County (Van Horn) property 43 miles northwest of Pecos, officials said.

Clark Carpenter, Fort Stockton Chamber of Commerce manager, said he did not know how many families would be affected.

Carpenter said the Duval employes were scattered over several West Texas towns and that no single community would shoulder the complete economic loss.

Production at Orchard, in Fort Bend County near Houston, and at Fort Stockton totaled 416,018 tons last year.

About 130 employes at the Orchard plant and 148 at Fort Stockton will be offered transfers.

He's Happy

BENONI, South Africa (AP) — The telephone system in South Africa is less than perfect, which gives point to the reply of a local man who was asked why he looked so happy: "I have a wife and a telephone," the man said. "And they both work."

Dances Slated At Legion Hall

Commander J. Gale Kilgore announced Thursday that fund-raising dances will be held for teenagers Friday from 8:30 p.m. to 11:30 p.m. The dance will feature music by "The Family." Dr. Kilgore said that all young people are invited. The cost will be $1.25 for stags and $2 per couple. The affair will benefit the building fund.

Also another building fund benefit dance will be held for the adults on Saturday. This dance will feature Louis Louie and the Sounds and will begin at 10 p.m. and conclude at 1 a.m.

Stealing A Sport

EISENSTADT, Austria (AP) — A man trying to steal eggs from a neighbor's hen coop fell off the ladder and died later in the hospital of internal injuries.

Police said the man had no need to steal, but probably considered the egg-snatching a sport.

Dallas Supt. Estes Turns Down Demanding Students

DALLAS (AP) — Pupils demanding changes at a Dallas high school under threat of a boycott heard Supt. Nolan Estes turn down their proposals Wednesday.

A Hillcrest High pupil, Doug Perrine, submitted the demands for certain reforms at a city school board meeting, also laying before its members a petition bearing 700 signatures.

Perrine said a citywide boycott of classes was planned if no action was taken on the petition by May 6.

School tustees referred the matter to Dr. Estes and his staff and the superintendent said, "All we're going to do is ask the students to get back to class and study."

After the meeting, Dr. Estes commented, "Most of this has been precipitated by outside agitators, some of them paid agitators."

Perine said pupils sought rights to (1) write, publish and distribute criticism of the school without punishment; (2) distribute noncommercial literature on school property outside classes; (3) use such symbols as arm bands and buttons; (4) regulate personal appearance with respect to hair and clothing; (5) join or create any organization; (6) be "secure in our personal possessions," meaning a ban on illegal search, and (7) petition without restrictions.

Pupils from El Centro College, Bishop College and St. Mark's School of Texas also spoke to the board about the desirability of what they called reforms.

David Schneider of St. Marks, who was barefooted and wore blue jeans, a striped shirt and beads, told the board his school has a more advanced learning environment partly because pupils are given freedoms denied in public schools.

Estes said, "If being an advanced school system would require our students to be dressed as this young man is, I'd just as soon be behind the times."

Third Theft Of Wire Reported

A third theft of copper wire over the weekend has been reported to Howard County Sheriff A. N. Standard. Standard is investigating the three incidents.

An employe for Royal Oil and Gas Corp., Dora Roberts Lease, Forsan, reported this morning that four rolls of No. 6 rubber insulated, single copper wire were taken from the warehouse on the lease Saturday night. The wire weighs about 300 pounds, J. R. Howard, pumper, discovered the theft Sunday morning.

Another weekend theft of remnants of copper wire occurred in Forsan from Mobil Oil Co., and a section of Humble Oil Co. communications line also was cut west of the west viaduct.

Karate Class Planned At Y

The YMCA will be starting a karate class April 3. Classes will be held on Fridays 6:30 p.m.-9 p.m. and Saturdays 9 a.m.-12 noon.

The instructor will be Capt. Roderick Lopez of Webb AFB. He holds a first degree black belt and received his karate instruction in Korea. The class is open to males and females 10 years old and up. The fee for the class will be $20 per six (6) weeks for non-members and $10 for members. The signup now is under way at the Y.

The YMCA also will offer a junior and senior lifesaving course on Tuesdays and Thursdays from 7 p.m.-9 p.m. beginning April 2. Age requirements are: juniors — at least 12 years old and under 15; seniors — 15 years and over.

Youths Honored By Chemical Council

Several youths in this area will be among the 150 Texas high school students to receive slide rules from the Texas Chemical Council for excellence in science, math and chemistry.

Included are Joe David Moss, 1604 Osage, who plans to major in chemical engineering; Johnny Ted Fowler, Coahoma, who plans to major in chemical engineering; and Alfredo Guerrero, 206 Manual, Colorado City, who plans to major in engineering.

Jury Deadlocks

A city appeal case on trial in Howard County Court ended in a hung jury Wednesday for Linda Lemon, charged with creating a disturbance July 31 at the Wagon Wheel No. 1, Fourth and Birdwell. The jury deliberated from 11:30 a.m. until 1:30 p.m. before they notified Judge Lee Porter they were hopelessly deadlocked.

DEAR ABBY: I will try to make this short but I have so much to tell I could write a book.

I've been married 11 years. We have three wonderful but upset children. My husband has beaten me several times. Sometimes I had it coming, but most of the time I didn't.

The first few years he'd blacken my eyes and bust my jaw which kept me home from work a lot, but after I got out a warrant for his arrest he quit messing my face up. But he started in on my stomach and breasts, and he'd also just about twist my arms and legs off and pull me all over the house by my hair.

Finally I called it quits and filed for divorce. Then you never saw a sweeter guy. He begged and pleaded and laid his paycheck at my feet, so I took him back. I was beginning to love him all over again.

In two weeks he was accusing me of other men and he practically pulled my hair out by the roots trying to get me to confess, but I yelled so loud the neighbors called the police, so now he is locked up again.

Should I let him rot there? His people are telling me that my children need a father and Jesus forgave seven times seven and all that jazz, but I don't think I can take any more of him. What do you advise?
HAD IT

DEAR HAD IT: Your children need a father, but they also need a living mother. Your husband sounds sick. But sick or well, he's dangerous, and if you continue to live with a man of this description, you ought to have YOUR head examined.

* * *

DEAR ABBY: Several years ago my wife ran off with another man and since that time I have never trusted another woman.

About a year ago I met a lovely widow who has me completely confused. She is an excellent hostess and charming companion. She has made no demands and extracted no promises. She is my idea of a perfect companion and seems to be happiest when she is doing things for me. What I am wondering is whether she is for real, or is this an act? My first wife acted like this for a while, but the scars are still there over the deal I got.

My family says I don't know anything about women and I should steer clear of them.

Can a second marriage turn out all right when the first one was such a mess? We are both in our fifties and could have some lovely years together. Maybe some of your readers can give me the benefit of their experience. NEEDS HELP

DEAR NEEDS: Who can say what is "for real" and what's an "act?" You can protect yourself (financially) with a pre-nuptial agreement, but nobody gets a lifetime guarantee of wedded bliss with a new spouse. (Or with an "old" one, for that matter.)

* * *

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif. 90069. For a personal reply enclose stamped, addressed envelope.

* * *

For Abby's new booklet, "What Teenagers Want to Know," send $1 to Abby, Box 69700, Los Angeles, Calif. 90069.

(AP WIREPHOTO)

VIET BILL — State Rep. H. James Shea Jr., D-Newton, one of the sponsors of a bill aimed at a legal test of the Vietnam war. The bill would set up a U.S. Supreme Court test of the war by making it illegal for a Massachusetts resident to serve in a war zone unless Congress officially declared war.

Changes Noted In Tax Exemptions

(This article is prepared by the Texas Society of Certified Public Accountants on money-saving tax hints in preparing your Federal income tax return.)

Although the Tax Reform Act of 1969 contained no general tax rate changes for the ordinary income of individuals, every individual taxpayer will be affected by at least one of several changes which were made in the tax burden, according to Ed Merriman, president of he Texas Society of Certified Public Accountants.

Affecting all taxpayers are increases in the personal and dependency exemptions. Formerly $600 each, they are scheduled to increase to $625 for 1970; $650 for 1971; 700 for 1972; and $750 for 1973 and subsequent years, Merriman noted.

Another change of large general interest is the increase in the percentage standard deduction. Presently 10 per cent with a maximum of $1,000, it is scheduled to increase to 13 per cent with a maximum of $1,500 for 1971; 14 per cent and $2,000 for 1972; and 15 per cent and $2,000 for 1973 and subsequent years. "These increases will have the effect of reversing a trend under which an increasing number of individuals were discontinuing the standard deduction in favor of itemizing deductions," the Texas CPA stated.

Accompanying the increases in the percentage standard deduction is a new low income allowance, the effect of which is to provide a tax exemption for low income taxpayers which is even larger than that afforded by the percentage standard deduction. After a phasing-in process, the low income allowance will be $1,000 in 1972 and following years, so that in 1972 a single person will pay no tax on his first $1,700 of income ($1,000 low income allowance, plus $700 personal exemption). In 1973 and thereafter, when the personal exemption is $750, a single person will pay no tax on his first $1,750 of income.

For those persons who have large amounts of earned income, there will be a maximum tax rate on earned income. The maximum rate is 60 per cent for 1971, and 50 per cent for 1972 and subsequent years. The maximum rate will apply to that top segment of earned income which otherwise would be taxed at rates ranging from 50 per cent (60 per cent for 1971) up to the maximum individual tax rate of 70 per cent. "It is anticipated that this provision will make the earning of ordinary income more popular and will result in a corresponding decrease of interest in deferred compensation arrangements, efforts to secure capital gains, and tax shelters generally," Merriman said.

Commencing in 1971 a new tax rate schedule will apply to single persons. At that time there will be four tax tables. From the least costly to the most costly, these tables will be for (1) married individuals filing joint returns (including "surviving spouses"); (2) heads of households); (3) unmarried individuals (other than surviving spouses and heads of households); and (4) married individuals filing separate returns.

Finally, adjustments are being made in the income tax withholding on wages in order to bring taxes withheld closer to an employe's final tax liability after taking the above changes into account. A siginficant change will eliminate the requirement of withholding for taxpayers, such as students with summer jobs, who incur no final tax liability and who previously have had to file tax returns for the sole purpose of claiming a refund of taxes.

OH, SAY CAN YOU SEE!!

PARIS, Tex. (AP) — Terry Springer, 9, was engrossed in a television program, and broke the silence long enough to ask what "independence" meant, his mother swears.

Mrs. Max Springer of Paris, gave him her best philosophical definition then asked why he wanted to know.

"Well, this lady on television had to have her's taken out," he shrugged, turning back to the tube.

Gifts Restore Life Savings

SAN ANTONIO (AP) — Contributions from as far away as El Paso have restored all but $50 of the $400 Mrs. Johnnie Cottrill, 76, lost to a purse snatcher earlier this month. The money represented nearly all her life savings.

The story of her loss—which occurred while at least nine bystanders watched without heeding her please for help—appeared in newspapers for several days afterward.

"Kind letters and dollar bills have come from all over and I just don't know how I'll be able to answer them all," Mrs. Cottrill said. "People are so kind."

She is still recovering at the home of relatives in Pleasanton.

The bidding:

South	West	North	East
1 ◇	1 ♡	Pass	Pass
Dble.	Pass	3 ♣	Pass
3 NT	Pass	Pass	Pass

Opening lead: Seven of ♡

South did not take proper precautions to protect his own hand from attack and once the defenders regained the initiative, they unleashed a deadly assault to sink declarer's three no trump contract.

West opened the seven of hearts and South won the trick with the jack. The ace of clubs was cashed; however, when West showed out, discarding a heart, a complication arose for declarer.

East was revealed to have a club stopper and altho nine tricks were still in reach—two hearts, two diamonds, and five clubs—South found that he could not run North's suit without first letting East in. The ten of clubs was led and passed around to the jack, as West disposed of another heart.

Inasmuch as his partner appeared to have no further interest in developing his own suit, East decided to look elsewhere for tricks. Spades appeared to offer the best prospect, and in order to smother dummy's nine, East switched to the ten of spades. South followed with the deuce and West signaled encouragement with the seven.

East continued with the queen of spades which held as declarer played the three and West the six. A third spade enabled West to score both the jack and ace and send South down to defeat.

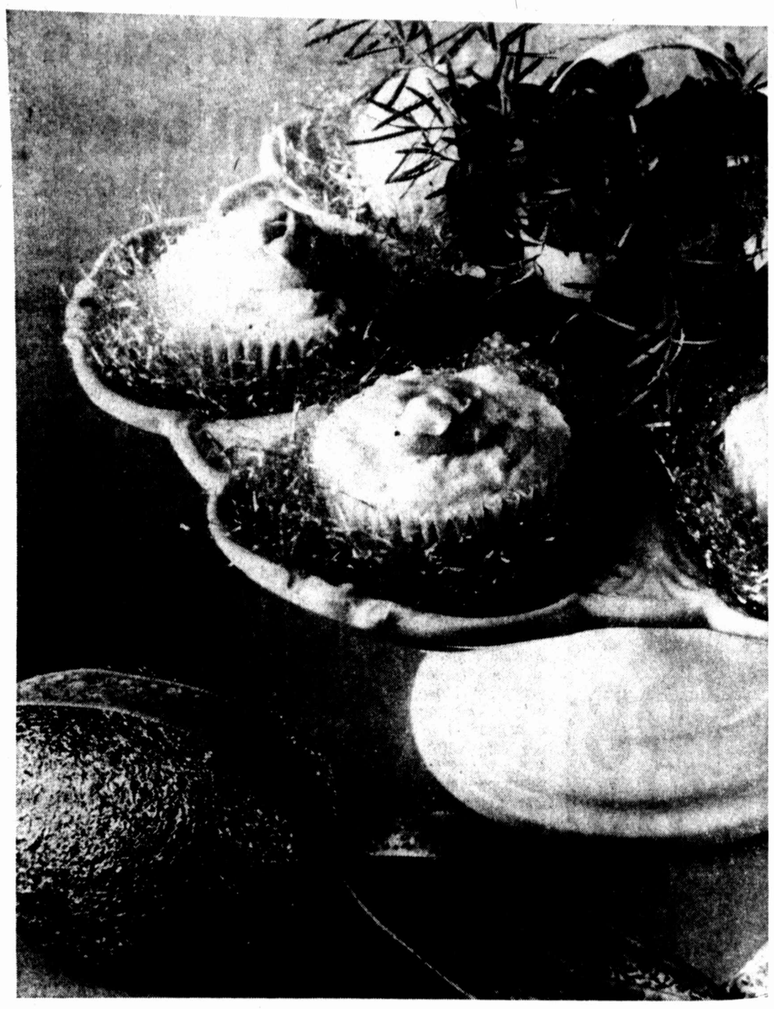
Declarer was admittedly the victim of unfavorable distribution and an alert defense, nevertheless he could have assured his contract at the outset by merely anticipating the potential pitfalls and then taking appropriate measures for self-protection.

The only holding he fears is four clubs to the jack in East's hand which may enable the latter to gain access for a play thru South's spade holding. In order to prevent this prospect from ever bearing fruit, declarer must make his first club play from dummy.

At trick one, South should put up North's queen of hearts in the expectation that the overcaller, West, has led away from the king. When the queen holds, a club is led next and the ten is played from the closed hand. If West has the jack, he is welcome to it, for declarer is now assured of nine tricks. With his left hand opponent on lead, his spade holding is safe from any direct attack.

When West shows out on the first round of clubs, the wisdom of South's safety play becomes apparent, for he is now in position to run 10 tricks without surrendering the lead.

MAR 26



A-TISKET, A-TASKET, AN EDIBLE EASTER BASKET
Macaroons, egg nog, cream make colorful tortoni

Taste Petite Tortoni, The Easter Surprise

That very first whiff of spring in the air quickens the senses, interests even the most jaded appetites in light and lively foods. A Petite Tortoni, refreshingly simple to make with canned egg nog, matches the lilt and spirit of the season.

Like spring itself, the tortonis are a breeze to make, then freeze. Serve each individual cup topped with a delicately-tinted candy wafer and, perhaps a bright red cherry. Nestle in gaily-colored cellophane, just as you would an Easter egg.

Spring also abets the casting aside of dullness and routine, a breaking down of barriers. Exciting canned egg nog does just this. It's no longer a winter-only beverage, but is available year round. Non-alcoholic and milk-based, this egg nog, needs no refrigeration until opened; it's as convenient to store as it is to use.

What a welcome surprise this tortoni will be at a holiday celebration or a family dinner!

EGG NOG TORTONI

1½ cups (about 8 macaroons) finely crushed macaroon crumbs
1½ cups canned egg nog
1 tsp. vanilla extract
1 (8-oz.) pkg. red glace cherries
1 pint heavy cream, whipped

In a large mixing bowl, combine macaroon crumbs, egg nog and vanilla until well blended. But 12 cherries in half; reserve for garnish. Finely chop the remaining cherries; thoroughly blend into egg nog mixture. Fold in whipped cream. Place paper baking cups in 2½ x 1¼-in. muffin pan cups. Gently spoon about ¼ cup tortoni mixture into each paper cup. Top each with a reserved cherry half. Freeze until firm, about 1½ hours. To serve, gently remove cups from muffin pans. Makes 24 small servings.

Hear Reports On Convention

Mrs. Odell Womack presented a convention delegation report Tuesday for the Rosebud Garden Club which met in the home of Mrs. Paul Malone, 2303 Roberts, with Mrs. G. P. Morrison presiding. Delegates to the district garden club convention were Mrs. Womack, Mrs. Morrison, Mrs. Dale Smith and Mrs. Malone.

Mrs. Smith and Mrs. Womack participated in a flower show held at the convention, with Mrs. Smith winning a third place in the black light class and Mrs. Womack taking a second place in dried arranging and a third place in abstract. Mrs. Jesse Crane won a second place in the abstract class. In yearbook competition, the club took a third place, and it received honorable mention on "president's citation."

Schedules were distributed for the joint flower show which will be held by the Rosebud and Oasis garden clubs May 5 at the YMCA.

Bill Sneed of the Men's Garden Club spoke briefly to interest gardeners in a future garden center. New members added to the club were Mrs. George McGann, Mrs. Crane and Mrs. R. C. Alexander.

Mrs. Womack, program chairman, announced two programs which will be sponsored by the club April 14 at the YMCA. Featured will be two outstanding state ratified speakers, Mrs. O. R. Littell of Odessa and Mrs. J. A. Van Auken of Midland. All gardeners, judges or other interested persons are invited to attend. The charge will be $1.

The program given by Mrs. Smith, concerned bulbs which grow well in West Texas. She described plants such as tulips, crocus, begonias, anemones, onions, dahlias, daffodils, gladioli, cannas and lilies. She noted that the Red Emperor lasts longer than any other tulip bulb, and crocus multiply each year.

Mrs. Womack exhibited flower arrangements using flowering bulbs such as tulips, daffodils and hyacinths. The modern contemporary arrangement featured a single white hyacinth and pussy willow in a geometric design. An abstract, mounted on a gray plow disk, was created with gray driftwood and red tulips. The third arrangement, in a "naturalistic look," used a gray-brown weathered stump as a container. The line material was crab apple flowers with pink hyacinths.

Refreshments were served from a table covered with green linen and appointed with silver and white china. Arranged in an Early American white basin and pitcher were white hyacinths, yellow daffodils and pussy willows.

Joins Lodge In Tuesday Ceremony

Miss Nancy Puck was initiated into the Big Spring Rebekah Lodge 284 during the meeting Tuesday.

The charter was draped for Mrs. Jack McCall by Mrs. J. R. Petty, Mrs. A. F. Gilliland, Mrs. Logan Grider, Mrs. Earl Wilson, Mrs. T. A. Melton, Mrs. A. G. Hall, Miss Puck and Mrs. Miriom Mangum.

A salad supper was served in an Easter motif by Mrs. Gilliland, Mr. Mary Cadzow, Mrs. Thelma Neal and Mrs. Beulah Morrison.

During the recent Texas Assembly Grand Lodge in San Antonio, Mrs. T. A. Melton was elected District 11 deputy president; Mrs. A. G. Hall, lodge deputy; and Mrs. Henry Roger and Mrs. Gordon Gross, flag bearers.

Dorcas Members Elect Chairmen

Mrs. R. B. Davidson was elected reporter of the Dorcas Class, West Side Baptist Church, when the group met Monday in the home of Mrs. Davidson, 705 Tulane. Chairmen named were Mrs. Walter White, flowers; Mrs. Claude Cravens, activities; and Mrs. Vera Hipp, associate members.

Mrs. Vera Hipp brought a devotion based on the Psalm of David, stressing that if people would apply this to daily living, it would be eaier to find peace within themselves.

Mrs. Leroy Minchew conducted Bible games, and prizes were won by Mrs. Franklin Radcliff, a guest, and Mrs. White. Prayer was led by Mrs. Cravens.

The next meeting will be held April 27.

Mrs. R. Reed Is Prize Winner

Mrs. Randall Reed won the weekly fruit bowl for the greatest weight loss for the TOPS Sand Springs Slender Benders who met Tuesday at Midway School. The club is selling recipe and note cards to raise funds to send representatives including, Mrs. Estil Petty, to the TOPS International meeting in Houston May 14-16.

According to Mrs. Petty, the county will be well represented at the meeting with about 15 women planning to attend from here. The TOPS clubs are always open to new members she said. Those interested in joining, may call Mrs. Petty at 391-5504.

Easter Breakfast Planned At Knott

KNOTT (SC) — On Easter Sunday, a sunrise breakfast will be served at 7 a.m. in the annex of the First Baptist Church.

The Grady Gaskins family has returned from visiting the Phil Grozier family in Austin. Ronald Gaskins was recently hospitalized in Big Spring.

Mrs. B. J. Williams has been dismissed from Medical Center Memorial Hospital.

Alvin Wayne Jeffcoat of Fort Sill, Okla., spent the weekend with his parents, the James Jeffcoats.

Willie Gutierrez, employed by E. L. Roman, has undergone surgery at Hall-Bennett Memorial Hospital. First Baptist Church members supplied food for the family last Sunday night. If other members or community residents would like to help the family, food may be brought to Rev. Jesse Allen or to the Roman home.

Club Continues Work On Quilt

The Sew and Chatter Club continued work on a silk tie quilt and received materials to make five more quilts at their meeting Wednesday at the home of Mrs. Verma McElvain. Mrs. Clarence Shive gave the club a finished quilt top and quilt blocks for the club to complete. Mrs. H. M. Rowe donated more ties for the club's project. The next meeting will be in the home of Mrs. Lawrence Robinson, 602 E. 17th.

AT MASONIC TEMPLE

Rainbow Order Initiates Three Girls Tuesday

Three girls, Kim Cathey, Cynthia Christensen and Mary Webb were initiated into the Order of Rainbow for Girls Tuesday evening at Masonic Temple.

Esther Dennis, worthy advisor, announced that the girls are selling candy Easter eggs for the Easter Seal Society and on April 3 will help with a house to house canvass for the Cancer Crusade. The assembly will go to Sweetwater April 4 for a joint meeting with assemblies from Sweetwater, Snyder, Lamesa and Abilene. The following day the girls will observe Founder's Day here by attending services at Prairie View Baptist Church in the Fairview Community.

Among Tuesday's guests were Shanna Hawks, grand representative from Canada to Texas, and Elizabeth Hay, both of Midland.

Bill Sneed Is President Of Garden Club Council

Bill Sneed reported to the Big Spring Council of Garden Clubs Wednesday that he had spoken to most local garden clubs, and they favor establishing a public garden center. Sneed, a member of the Men's Garden Club, was elected council president during the meeting in the home of Mrs. Garner McAdams, 1313 Dixie.

Other officers to be installed May 27 during a luncheon at Holiday Inn are Mrs. Don Campbell, Four O'Clock Garden Club, vice president; Mrs. C. Y. Clinkscales, Planter's Garden Club, secretary; and Mrs. J. W. Trantham, Lone Star African Violet Club, treasurer. Project chairman is Mrs. Tom Ivey, of the After Five Garden Club. The building chairman will be appointed by Sneed.

Mrs. McAdams, out-going president, presided. She appointed Mrs. Guy Cook and Mrs. Ivey to audit the council books.

The committee to decorate the amphitheatre for Easter sunrise service will meet there at 5:30 p.m. Saturday. Fresh flowers are being provided by local florists.

The fall flower show was set for Oct. 31. The next meeting will be the May 27 installation.

Mahoneys Attend Cotton Meeting

The C. W. Mahoneys and their son and daughter-in-law, the Ralph L. Mahoneys have returned from the Texas Cotton Association convention held at the Sheraton-Lincoln Hotel in Houston. While there, the Ralph Mahoneys stayed with her parents, Mr. and Mrs. S. P. Rowe.

Secretaries' Seminar Scheduled For April

Details of an upcoming educational seminar hosted by Big Spring Chapter, National Secretaries Association, were discussed by the membership Tuesday in the Cosden conference room with Mrs. Jerry Callahan presiding.

The seminar, "Interpersonal Communications Skills," will be held April 4 from 9 a.m. to 3 p.m. at Big Spring Country Club. Mrs. Frank Long, chairman, announced the deadline for registration should be March 31. The theme for a luncheon style show by Swartz will be "Let the Sun Shine In." Mrs. Herbert Heith will provide commentary, and pianist will be Mrs. J. L. Ryals. The charge for secretaries will be $7, and students may attend for $3.50. Attendance prizes will be awarded.

Initial plans were made for Secretaries Week in April. Executive Night is slated April 21 at Big Spring Country Club, and on Secretaries Day, April 22, Future Secretaries Association members will visit local and base offices.

Mrs. W. A. Bryans, bridge marathon chairman, announced that both of this year's marathons will conclude soon, and parties will be held to award prizes. Top prize for each marathon is $50.

The Texas-Louisiana Division meeting will be held May 15-17 in Fort Worth at the Green Oaks Inn. The local outgoing and incoming presidents will be delegates, and pre-registration for the meeting must be made by May 5.

After business, the members stuffed packets for the seminar. Those wishing to attend may receive a registration form by calling Mrs. Dee Ratliff, 267-6383.

Rebekah Group Meets For Party

The Past Noble Grand Club of Big Spring Rebekah Lodge No. 284 held a party Monday at the home of Mrs. Eugene Thomas, 502 Scott, with Mrs. Logan Grider as cohostess. The Easter theme was carried out in decorations, and $5 was donated to the Easter Seal Society. Nineteen past noble grands were present.

Faculty Ma'ams Host Shower For Member

New officers were elected and a baby shower given at the Faculty Ma'ams meeting Tuesday in the Student Union Building at Howard County Junior College.

Assuming duties in April will be Mrs. Larry Reese, president; Mrs. Don Shoemake, vice president; Mrs. M. D. Whitley, secretary; Mrs. Dan Shockey, treasurer; Mrs. Richard Hooper, corresponding secretary; and Mrs. Dal Herring, reporter.

Honored with a baby shower was Mrs. Dal Herring. Refreshments were served in an Easter motif from a table centered with a vase of daisies surrounded by Easter chicks. Mrs. B. M. Keese and Mrs. Jack Dunn were hostesses. The next meeting will be in the home of Mrs. J. T. Clements, 1604 Tucson, April 28.

Birthday Party Honors Teacher

A surprise birthday party was given for Mrs. R. J. Barton, class teacher, by the Golden Circle Sunday school class of Phillips Memorial Baptist Church, Tuesday at the home of Mrs. Henry Steward, 1808 E. 15th.

Cake and refreshments were served from a table covered in white and centered with a pink floral arrangement. The cake was decorated in pink and white. The monthly business meeting was held prior to the party.

Bride Is Discovering Good Budget Tricks

By JO BRIGHT

"When I walk up and down the store aisles, people turn around to watch me click."

No matter. With the unconcerned confidence of youth, Mrs. Mike McCreary just keeps on "clicking," for she is busy staying within her budget with the small counter she carries in her purse when grocery shopping.

"I only spent 49 cents for the counter," she says, grinning, "but I've saved that 49 cents over and over again." To do this, she occasionally has to put something back on the shelf. However, it's no great sacrifice, for she buys her basic necessities first — and luxuries last.

"By using my counter, and only taking a certain amount of money with me, I always end up spending within 15 cents of what I've alloted," she says.

Mrs. McCreary, who could still be considered a bride, recommends her method for other young homemakers who begin marriage with little knowledge of the true cost of running a home. The McCrearys have recently bought their first home, a neat house at 1306 Wood, which has plenty of room for two, and they are already learning that repair, redecorating and refurnishing is much more economical when you do the work yourself.

Mrs. McCreary is the former Susie Wisener, daughter of Mr. and Mrs. C. E. Wisener, formerly of Coahoma and now residing in Dallas. In high school, she had four years of homemaking, which included a smattering of cooking, sewing, menu planning, child care and family life courses. Admittedly, she misses having her mother near when questions come up about homemaking, but luckily, in case of emergency, she can turn to her husband's mother Mrs. B. F. McCreary.

"Mike is easy to please," said the petite brunette, "and he good-naturedly puts up with my failures. He likes anything, as long as it's a good basic meal — and not sandwiches!"

McCreary holds down two jobs. During the daytime, he is "on the board" and does production for Radio Station KBST, and at night he presents the 10 p.m. news for KWAB-TV.

The young couple have already repainted part of their home, and dining room chairs have been recovered to blend with a blue and white color scheme. In the kitchen, a white and gold patterned contact paper has been used above white panel board and Mrs. McCreary is considering covering the front of their refrigerator to match the walls. An extra bedroom will be converted to a den with white walls and blue trim. This week, Mrs. McCreary is completing a large decoupage of a bull fight poster which will be placed on one wall.

(Photo by Jim Rentz)

HANGING FLOWER BASKETS which accent a living room corner at the Mike McCreary home were purchased by the couple during their wedding trip. Mrs. McCreary has used shades of green and blue flowers in the arrangements, along with clusters of green grapes.

The living room is not as large as they would like, for Mrs. McCreary has a piano, over 100 years old, which she wants to move in from the garage, but can't figure out a suitable furniture arrangement to accomodate it. In the room now is an old-fashioned tall secretary which came from her husband's family.

Mrs. McCreary is president of Howard County Young Homemakers which presents programs on home management including flower arranging and crafts.

The McCrearys, whose circle of friends now includes other young marrieds, are hosts every month for a card and chip-and-dip party for several young couples. The group plans patio cook-outs for the summer, and when working schedules will allow, a few fishing trips.

Becoming a good homemaker presents a challenge to Mrs. McCreary, but as she already knows, when you are in your own home, the chores are much easier and rewarding.

RECOMMENDED RECIPES
By Mrs. McCreary

SWISS STEAK

4 lbs. sirloin or swiss, cut 1½ inches thick
¼ cup flour
2 tbsps. Worcestershire sauce
Salt, pepper
2 cans cream of mushroom soup

Beat flour into both sides of teak. Sprinkle with Worcestershire sauce, salt and pepper. n electric skillet, brown meat ightly on both sides. Add mush-oom soup, then cover and sim-mer 1½ to 2 hours. Serves four.

LOUISIANA BAKED CHICKEN

4 chicken breasts
4 medium potatoes
1 small onion, chopped
1 clove garlic, chopped
4 tbsps. butter
2 tbsps. shortening
1 cup water

Salt and pepper chicken and place in large greased casserole. Peel potatoes. Use potato peeler to drill a hole, two inches deep, in each potato. Stuff with onion and garlic. Place in casserole. Dot chicken and potatoes with butter. Bake, 10 minutes at 350 degrees. Add water, then cover and bake for one hour.

MEXICAN CORNBREAD

1 recipe cornbread
1 10 oz. can tomatoes and green chilies
1 buffet can corn
1 onion, chopped

Chop tomatoes in blender. Add to cornbread batter along with corn and onions. Bake for 25-30 minutes in 450 degree oven.

SCALLOPED POTATOES

2 tbsps. grated cheese
3 tbsps. butter
1 tsp. salt
2 tbsps. flour
¼ tsp. paprika
¼ tsp. pepper
1½ cups milk
6 medium potatoes
1 green pepper, chopped

Put cheese and butter in a saucepan. When melted, add flour, salt, paprika and pepper. Cook until smooth and creamy. Add milk slowly, stirring until well blended. Cook until thickened. Pare potatoes and slice rather thin. Put a layer of potatoes in greased casserole and sprinkle with chopped pepper. Layer with potatoes and pepper until the dish is filled. Over all pour the cheese sauce. Dot with butter and bake at 350 degrees.

NEVER FAIL EGG PASTRY

1 cup shortening
3 cups sifted flour
1½ tsps. salt
1 egg, well beaten
½ cup ice water
1 tsp. vinegar

Cut shortening into flour and salt until the size of peas. Combine egg, water and vinegar. Add liquid to flour mixture, one or two teaspoons at a time, sprinkling it over the mixture. Fluff with fork one time after each addition of liquid. Do not overstir. Mixture should be crumbly. Press together with hands to form ball. Let stand for five minutes. Divide into two balls. Roll to about one-eighth inch thickness. Fold in quarters to place in pan. (This recipe makes two crusts. If preparing one-crust pies, place crusts in 425 degree oven to bake for about 25 minutes.)

FUDGE PIE

4 tbsps. cocoa
4 tbsps. flour
1 cup sugar
2 eggs, beaten
1 tsp. vanilla
½ cup margarine, melted

Mix cocoa, flour, sugar, eggs and vanilla; add melted margarine. Pour into unbaked pie shell. Bake for 25 minutes at 375 degrees.

SALAD DRESSING CAKE

2 cups flour
1 cup sugar
½ cup cocoa
2 tsps. soda
1 cup mayonnaise or salad dressing
1 cup boiling water
1 tsp. vanilla

Sift flour, sugar, cocoa and soda together three times. Mix salad dressing, boiling water and vanilla; beat for two minutes. Combine with dry ingredients. Pour into two greased 8-inch layer pans or 8x10 inch pan. Bake at 325 degrees for 45 minutes.

ICING FOR SALAD DRESSING CAKE

1½ cups sugar
7 tbsps. milk
2 tbsps. cocoa
1 tbsp. white syrup
4 tbsps. butter
1 tsp. vanilla

Boil all ingredients except vanilla for one minute. Beat until right consistency to spread on cake. Add vanilla and stir well. Spread on cake.

Cranberry Bonnet On Easter Ham

Try adding a cranberry red bonnet topping to your Easter Ham this year. It's as easy as opening a can of jellied or whole berry cranberry sauce and mixing it with brown sugar. Add a half cup of brown sugar to a pound can of cranberry sauce and the colorful halo is ready. Use it on a large ham when the family's large; use it on a slice of ham for a few, or spoon it over a budget-wise ham loaf. Spoon the cranberry glaze over the ham (whether it be whole, a slice or a ham loaf) the last half hour of baking. The glaze will cling to the ham and it shines and bubbles to serve.

Here's an easy-to-make Cranberry-Ham oven dish.

CRANBERRIED HAM

6 slices jellied cranberry sauce, cut in half
6 ¾-inch slices boned, rolled ready-to-eat ham
½ cup light brown sugar or ¼ cup orange marmalade
½ tsp. ground cloves

In one end of 11½-7¼-1½ baking dish arrange two half slices of cranberry sauce to form scallops, then overlap with a slice of ham, repeat layers in "stair-step" fashion. Sprinkle mixture of brown sugar and cloves or spoon orange marmalade sparingly over ham and cranberry sauce. Bake in a slow oven (325 degrees F.) about 45 minutes or until heated thoroughly and the ham nicely glazed. Makes six servings.

Hot Cross Buns

For the coming Easter season try Honey Hot Cross Buns.

HONEY HOT CROSS BUNS

2 pkgs. yeast, compressed or dry granular
¼ cup lukewarm water
1 cup milk
¼ cup shortening
½ cup honey
1 tsp. salt
2 eggs, beaten
1 cup currants or candied orange peel
1 tsp. cinnamon
¼ tsp. allspice
6 cups sifted enriched flour (about)

Soften yeast in lukewarm water. Scald milk. Add shortening, honey and salt. Cool to lukewarm. Add flour to make a thick batter. Add yeast and eggs. Beat well. Add currants, spices and enough flour to make a soft dough. Turn out on lightly-floured board and knead until satiny. Place in greased bowl, cover and let rise until doubled in bulk.

When light, shape into small buns and place on greased baking sheet or in pan. With knife or scissors, cut a small cross on the top of each bun. Let rise until doubled in bulk. Bake in moderate oven (375 degrees F.) 20 to 25 minutes. While hot, ice with uncooked icing, following the cross cut in the buns.

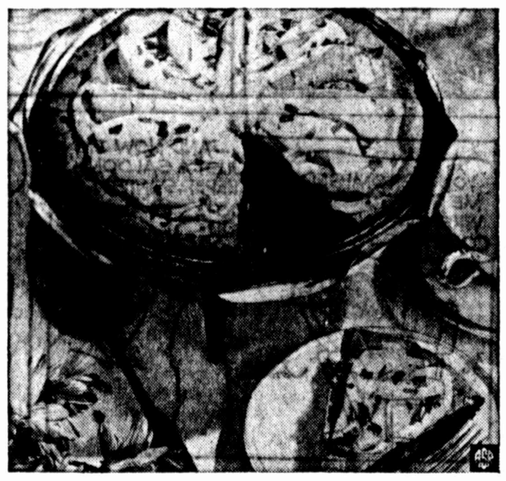
Yield: three dozen buns.

Egg Tops Salad

Sliced hard-cooked egg makes an excellent garnish for a Waldorf Salad. That salad was originally made with apples, celery and mayonnaise, but modern cooks like to add walnuts.

Sprinkle

To make plain muffins extra good, sprinkle them with a mixture of cinnamon, sugar and finely chopped nuts before baking.



PEARS ARE PERFECTION
Use them as topper for pie

Irresistible Brownies Combined With Pears

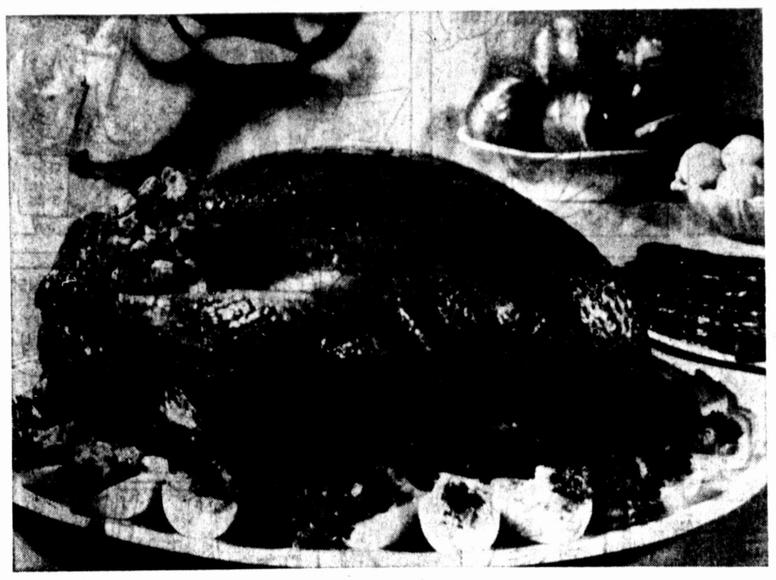
Gala canned pears top irresistible brownies for this attractive dessert. Begin with brownie batter rich with butter, sugar and nuts, baked in an unconventional way. In a pie pan the batter bakes to form a meringue-like crust. Whipped cream, with just a hint of coffee and cocoa flavors, is mounded over the brownie crust.

Atop all, the juicy sweetness of canned Bartletts makes the perfect accompaniment to the chocolate base. Use chilled, well-drained Bartlett pear halves, sliced in thirds. For the finishing touch, shave a thick bar of milk chocolate with a vegetable peeler and sprinkle over the pears. The result is scrumptious!

THREE LAYERED BROWNIE PIE

1 (1 lb.) can Bartlett pear halves
2 eggs
1 cup sugar
½ cup soft butter
½ cup flour
3 tbsps. cocoa
1 tsp. vanilla
Pinch of salt
½ cup chopped walnuts
½ cup whipping cream
1 tbsp. cocoa
½ tsp. instant coffee powder
Shaved chocolate

Drain pears and chill. Beat eggs, sugar, butter, flour, 3 tablespoons cocoa, vanilla and salt in small bowl for four minutes. Stir in nuts and pour into greased 9-inch pie pan. Bake at 325 degrees for 30 minutes or until done. Cool. Combine whipping cream, cocoa and instant coffee powder. Beat until soft peaks form. Spread over pie. Slice pear halves into thirds and arrange over top. Sprinkle with shaved chocolate. Makes eight servings.



SERVE THE CHILDREN'S TROPHIES
Good way to use those colorful eggs

Find Use For 'Hidden' Eggs

What do you do with all those dyed eggs that the children and bunnies gathered on Easter morning? Why, make deviled eggs and use them to garnish a big beautiful butterball turkey, the highlight of your Easter meal. This is the turkey that is specially bred to have more white meat.

This year the turkeys are more tender than ever because they're deep basted. Deep basting penetrates deep beneath the skin to bring juices to the white meat where hand basting could never reach. So the turkey bastes itself while it cooks with no special attention from you. And because of the deep basting, all the white meat will be more moist.

With the deep basting there is no more worry about the turkey drying, but be sure not to overcook it. An excellent method to determine doneness is to use a meat thermometer inserted into the center of the largest part of the thigh meat, making sure it does not touch the bone. The thermometer should be inserted before the turkey goes into the oven. The internal temperature of the roasted turkey should be 180 to 185 degrees.

Another easy method to test a turkey for doneness is by pinching the thickest portion of the drumstick. The meat should feel soft. It is a wise cook who protects the thumb and forefinger with a paper or cloth.

Stuff the turkey with your favorite stuffing recipe and save yourself time by using the already prepared croutons instead of bread. Seasoned croutons may call for adjustment in the seasoning of your stuffing recipe. Use approximately three-fourth cup of stuffing per pound of ready-to-cook turkey. Stuff the neck and body cavities lightly because the stuffing will expand during roasting.

Roast the turkey as soon as it is stuffed. Do not hold it at room temperature or return it to the refrigerator.

Tender asparagus and warm buttery rolls go well toward rounding out this holiday meal.

DEVILED EGGS

3 oz. can deviled ham
4 hard-cooked eggs
1 tbsp. prepared mustard
1 tbsp. instant minced onion
1 tsp. dill weed
Salt
Pepper
Parsley

Cut eggs in half lengthwise. Remove yolks, and mash with a fork. Add ham, mustard, onion and dill weed. Blend until smooth. Season with salt and pepper to taste. Fill egg whites. Garnish with a sprig of parsley. Chill. Yield eight halves.

SOMETHING FOR EVERYONE

Doctor - Lawyer - Merchant - Chief

Regardless of your walk of life, the pages of The Big Spring Herald have you in mind. There's sport news for the sportsman and the spectator, society news for the social minded, national, state and l o c a l news to keep you abreast of what is happening today. Of course every member of the family gets something from The Big Spring Herald. Even the children wait for the comic section and cartoons, school news and many other items and articles about various youth groups

You'll also find bargains listed from fashion wear to sports attire, goods to use and foods to eat, bargains that are too good to be true.

And of course the never ending listing of the classified section that has helped many to find just the right home, the automobile for the family, or the much wanted or needed item that is hard to find. There is something in The Big Spring Herald for YOU!

CHECK THE PAGES OF THE

BIG SPRING DAILY HERALD

3-26

Four Going To Boys' State

Four high school boys will represent Big Spring at the 1970 session of Texas American Legion Boys State, Dr. J. Gale Kilgore, commander of Post No. 355 of the American Legion, announced today.

The 1970 Texas American Legion Boys State will be in session from June 6-13, at the University of Texas.

Two outstanding youths from each of the American Legion Boys States will go to American Legion Boys Nation in July in Washington, D.C., where they will study federal government organization and operation in much the same manner as the boys state delegates participate in training in state government. Last year Lynn Cauley, Big Spring, was chosen as one of the delegates.

During their boys state sessions, the Big Spring youths will participate in the organization of political parties, campaigns, elections, and the enactment and enforcement of their own laws within a mythical state. Choice of the boys will be announced later.

Choate Elected To Directorate

Wade Choate, manager Webb AFB Federal Credit Union, was elected a director in the Credit Union Executive Services for Managers at the Texas Credit Union League annual meeting last weekend in San Antonio.

Five directors are elected to represent the Texas CUES Managers Society. Choate will serve a two-year term.

The society objective is to provide effective and continuous development in the field of credit union management in terms of administrative, educational, technical, and research aspects of management.

At the Defense Credit Union Annual dinner meeting, Choate was elected chairman of the Texas Defense Credit Union Council representing the 38 Defense Credit Unions in Texas. The basic purpose of the council is to study special needs of defense credit unions. Special attention is paid to the mobile membership and its special relationship with the Department of Defense and military commanders.

Water Meeting Set At Lubbock

LUBBOCK — A hard look at water resources and irrigation is expected to draw several hundred participants from Texas, Oklahoma and New Mexico to a symposium at the Red Raider Inn in Lubbock, starting at 8 a.m. Tuesday, March 31.

The two-day symposium is sponsored cooperatively by the Texas Rural Electric Education and Research Committee and Texas Tech University.

Tuesday discussions of water resources developments will be presented by: Executive Director Bill Clayton of Water, Inc., "The Texas Water Plan — What Is Being Done About It?"; Area Engineer Harry Burleigh of the Bureau of Reclamation, Austin, "The Texas Size Project — Progress on Studies and Construction Plans for the Texas Water Plan"; Vice President Arleigh H. Laycock of Canada's American Water Recource Association and Texas Tech Civil Engineering Prof. George A. Whetstone, "Canadian Proposals for Water Export."

False Alarm

CALCUTTA, India (AP) — Police rushed to a Calcutta bank after receiving reports that a box containing dynamite had been found there. The box was located and carefully placed in a tub of water. An explosives expert opened the box and found it was filled with soap.

"Taking your daily census?"

Water Board To Review Dallas Sewage Plants

AUSTIN (AP) — The Texas Water Quality Board was scheduled today to review the job Dallas and Fort Worth are doing in treating their sewage.

"Their effluent is a little higher than the permits specify. It is not nearly the magnitude that we had with Houston. There is no evidence of flagrant bypassing," said Joe Teller, board deputy director.

The North Texas cities have "positive, long-range programs," he said.

Where their permits may call for a maximum of 20 B.O.D. (biological oxygen demand, a measuring unit), they may have 28 one month, 31 the next and 19 the next," Teller said.

He said Dallas is cholorinating its effluent "but probably not enough."

Fort Worth's Riverside plant is not chlorinating, but Teller said he thinks the city plans to abandon that unit. The village creek unit has chlorinating facilities "but maybe not enough," he said.

The board began a series of hearings last year on discharge permit violations. It began with watersheds in northeast Texas and has moved west and south to the central Texas area.

OFFICERS ASSEMBLE IN FORCE

Rock Sound Will Roll Across South Plains

LUBBOCK, Tex. (AP) — Barring "an act of God," the hard rock sound will roll across the South Plains today, luring perhaps thousands of youngsters into a Texas cotton and barley patch.

The occasion is the Southwestern '70 Peace Festival, which represents hard rock's first thrust into West Texas in festival format.

Nobody knows quite what to expect, including Texas Rangers, some 235 officers from the Texas Department of Public Safety, a sheriff's force of maybe 40 and an unknown number of narcotics agents.

Reportedly, some business concerns were taking special security precautions against burglaries.

Among the other unknowns were the weather, the crowds, the facilities and the reaction of the citizenry to the invasion by the long-haired pot-smoking youngsters.

Officials of the three-day festival said the show would go on barring "an act of God" such as a rainstorm or a recurrence of cold, blustery winds that raked the plains Wednesday.

Early arrivals at the scene, a 160-acre tract of farmland 10 miles south of Lubbock, pitched in Wednesday in a frantic effort to prepare the site for the festival.

Toby Roberts, producer of the show, said professional contractors were brought in later with instructions to work through the night erecting stages and lighting and sound systems.

Roberts predicted 20,000 to 30,000 persons would shell out $5 daily—a three-day package deal for $13.50—to see such rock groups as the Canned Heat, Heaven and Earth, Flock, Frantic, Truth, Bloodrock and the Joe Kelly Blues Band.

Skeptics said officers might outnumber hippies. Others said 30,000 was too conservative. And there were those who said, "Who cares?"

For many Lubbock citizens, the hippie types themselves were the big attraction. Carloads of curious residents poured in and out of the area.

Down U.S. 87 they came, hippies and hippie watchers, streaming through the city's only wet precinct, "The Strip," past Bob's and Wiley's and the Alamo Club and the Golden Nugget and J.C.'s Beer and Pit Bar-B-Q.

"Love it," said one liquor store employe. "We've been needing some real activity."

"Everyone seems to think we are probably standing by the door and a gun," sair Mrs. Bernard Rogers, whose husband's liquor store is the only business within walking distance of the festival site.

"The ones that have come in here so far have been very polite and nice," she said.

A service station attendant reported that he had rallied to the aid of a carload of "hippie girls" whose auto had broken down.

Big Four Ambassadors Discuss Berlin Problems

BERLIN (AP)—The Big Four Ambassadors in Germany met in West Berlin today to discuss the problems of the divided city. It is the first such meeting in Berlin in 16 years.

Kenneth Rush, American ambassador to West Germany, was to preside at the opening meeting in the old Allied Control Council Building whose main conference room got a new coat of paint for the occasion. The opening session was expected to provide a forum for position statements by the United States, Britain, France and the Soviet Union and perhaps lay the groundwork for further meetings of the envoys.

Rush, Sir Roger Jackling of Britain and Francois Seydoux de Clausonne of France arrived Wednesday night from Bonn aboard a U.S. plane.

Pyotr Abrassimov, the Soviet ambassador to East Germany, is the Kremlin representative.

The four ambassadors are also their country's high commissioners for Berlin.

The western allies are interested in questions affecting the lives of Berliners—improvement of movement of people and goods between West Germany and West Berlin and in connections between East and West Berlin.

The Russians have not given any indication that they are ready to abandon their stand that West Germany's legal, financial, and economic ties with isolated West Berlin should be severed.

The position supports the East German contention that West Berlin is a "special entity" different from East Berlin.

Mayor Klaus Schuetz of West Berlin said in a radio interview the West emphasizes that four-power responsibility extends to all of Berlin, not just West Berlin.

Schuetz also noted that the talks were not a result of one of the frequent Berlin crises that have erupted over the last 20 years.

The initiative for the talks came from Soviet Foreign Minister Andrei A. Gromyko who indicated in a speech last July that the Soviet Union was willing to talk about Berlin. After the Russians walked out of the four-power occupation administration on March 20, 1948, there were unsuccessful talks in 1954 in sessions alternating between East and West Berlin.

Still Unsure Of Husband

PARIS (AP) — Another American woman whose husband was shot down over North Vietnam left for home Wednesday without learning if her husband is dead or alive.

Mrs. Carolyn Dennison, 30, of Corpus Christi, Tex., had been in Paris two weeks. She and Mrs. Susan Hanley, 21, of San Diego, Calif., tried a sit-in at the North Vietnamese delegation's headquarters last Wednesday, but the Paris police made them move.

Mrs. Hanley left Sunday. Her husband and Mrs. Dennison's were in the same Navy plane shot down in January, 1968.

The North Vietnamese have refused to talk with the last five American women who have come to Paris seeking news of relatives. One Hanoi representative said the "rudeness" of some American women—whom he did not name—made them reluctant to see any more.

Mrs. Dennison said she would go home by way of Rochester, N.Y., to visit her husband's parents, Mr. and Mrs. E. M. Dennison.

Rain 'Kills' Spring Balm

By The Associated Press

Most Texans found the weather a little nippy this morning.

Cold air enveloped a good part of the state behind a front that swept southward from the Panhandle and pushed into the Gulf of Mexico by Wednesday evening.

Temperatures near dawn dropped below freezing in the Panhandle-Plains sector and ranged through the upper 30s to 50s at most other points.

Except for a few clouds in Northwest Texas and near the Lower Texas coast skies cleared after Wednesday's brief flurries and light rain in the Panhandle and a few showers from Lufkin eastward after nightfall.

Forecasts promised another chilly night followed by a general warmup Friday. A possibility was seen for light rain or snow by late Friday in Northwest Texas.

Top temperatures Wednesday ranged from 51 degrees at Dalhart and Amarillo up to a summery 92 at Laredo and 93 at McAllen.

Readings near dawn today dipped to 23 at Dalhart, 26 at Amarillo, 30 at Childress and Lubbock, 31 at Wichita Falls and 32 at Midland while it was still 61 at Brownsville.

Striped up for Easter . . .

and a hurry-scurry fun knit, with raglan zippers at its neck. D-ring weighted flip-and-stay belt. Of rib-stitched 65% acetate, 35% polyester that laughs on washday. In green, pink, light blue or sapphire on white.
