Construction On Street To Begin

The highway department will begin construction on a new street Aug. 8.

The road will connect 10 and 17th Streets and will serve the new Colorado High School. There is not yet a name for the street and there may be a contest to determine a name for the roadway.

J. H. Strain and Sons, Inc., of Tye was awarded the contract. Total cost of construction will be \$189,104.75. The contract calls for 100 work days. The highway department hopes that the road will be finished before the school opens, Bill Cooper of the highway department said.

The strip will have a flexible base covered with asphalt and concrete paving. Curbs and gutters will be concrete also.

County Gains In Oil And Gas Production

The production of crude oil and natural gas in 1974 continued to have a significant impact on the economy of Mitchell County, with the estimated value of the county's production, royalty payments and state severance taxes reaching new highs.

Mitchell was one of 197 counties- an increase of four from 1973- which produced oil and gas valued in excess of \$100,000 in a year which saw the total value of state production jump from just over \$6.7 billion to almost \$11.4 billion.

The county ranked 68th in the state in the total value of petroleum produced- \$35.9 million- with \$35.6 million of that coming from the sale of 5.1 million barrels of crude oil; \$271,000 from the sale of 930,335 MCF of natural gas.

A study by the Texas Mid-Continent Oil & Gas Association also shows the county's petroleum production last year resulted in payment of \$4.5 million to royalty owners.

Oil and gas developers and producers spent an estimated \$13.2 million drilling 88 wells in the county last year, with nine percent of that figure lost in five dry holes. The total drilling yielded 78 oil wells and five gas wells. The exploratory effort in the county included the drilling of three wildcat wells seeking new oil and gas fields.

According to the Texas Employment Commission, 255 oil and gas industry employees worked in the county in 1974 and shared a payroll totaling \$2.7 million.

The survey also shows that the State of Texas received \$1,660,793 in production taxes from county wells, with \$1,640,

488 coming from crude oil output and \$20,305 from natural gas production.

"These figures, whether considered statewide or individually in almost 80 percent of Texas' 254 counties, emphasize the importance of a healthy petroleum industry in the nation's No. 1 energy state," said Sherman Hunt, a Dallas independent oil man who is president of Texas Mid-Continent.

"In the face of declining production in Texas, it is significant that this increased return to royalty owners and producers came from crude oil and natural gas which is free from restrictive federal price controls. But there are at this time proposals in Congress which would place all of Texas' petroleum production under federal price controls, with predictable disastrous consequences for the industry, as well as the whole economy of the state," Hunt said.

Barbeque, Program For Appreciation Day

Law Enforcement Appreciation Day will be held Friday in Mitchell County, with a barbeque and program set for the Lone Wolf Electric Co-opatorium beginning at 7 p.m.

All city, county and state law enforcement officers will be honored Friday with the Department of Public Safety providing personnel for stand-in duty enabling all local officers to attend the festivities.

Tickets for the barbeque are available from a number of businesses and people in the county. Check the ad on Page 3 of this issue of the Record.

Organized by a group of local citizens including the Rev. Glenn Roenfeldt, the Rev. Caddo Matthews and preacher Eddie Swiney, with Mrs. Calvin Johnson in charge of arrangements, the day is being planned as a way of saying "thank you" to local law officers.

Colorado City Mayor Larry Hamner has signed a proclamation declaring Friday officially "Law Enforcement Appreciation Day" for the city.

County Judge Bill Carter will be master of ceremonies for the program following the barbeque supper.

Law enforcement officials from across the state have been invited to attend as well as Mitchell County native U. S. District Judge Eldon Mahon and former Colorado City resident Judge Austin McCloud, who is chief justice of the Court of Civil Appeals in Eastland. Visiting DPS officers from Odessa and Cleburne will attend.

The Colorado High School Stage Band, directed by Kent Holder, will also perform and tentative program calls for patriotic songs, perhaps a pistol shooting exhibition by DPS marksmen and maybe a demonstration in law enforcement.

Organizers of the special day are hoping that from 500 to 1,000 people will attend the barbeque and program. Purpose of the special day of appreciation is not only to say "thank you" but also to find out how county citizens can help local officers with their work.

Root Hospital Gets Asst. Administrator

Mike Choate has been named new assistant administrator of Root Memorial Hospital.

Choate started his job on Monday. His reason for accepting

the position was because "It's (hospital administration) a growing area," he commented. He and his wife have lived here for the past three and a half years.

He is married to Janis Choate, county extension agent for Mitchell County. Choate graduated from Texas Tech with a degree in accounting (BBA).

His last year in college he and his wife lived in Post. After graduation he was an accountant for Yorgensen and Blakey Accounting in Snyder. They moved here when Mrs. Choate was named County Agent for Mitchell County.

They have enjoyed living here more than when they were living in Post, Choate said.

When not working at the hospital he enjoys boating, skiing and wood work. As for the future he "has no long range plans."

He commented his main job right now is to learn "what's going on."

Getting Ready

Photos above show Otis Ruffin, right, and Jerry Don Lewis practicing ramp takeoffs as they are getting ready to enter the 3rd Annual Motorcycle Rodeo, August 2. The jump is only one of the nine events in the rodeo and director Ken Burnam says that all nine events can be entered by paying a \$2 entry fee.

Nine Events Set For Motorcycle Rodeo

The 3rd Annual Boys' Club sponsored Motorcycle Rodeo gets underway in the rodeo arena at Mitchell County Fairgrounds at 6:30 p.m. Saturday.

Open to any cycling enthusiast, no matter what age, cost of entry is only \$2, and for that fee, all nine events can be entered including the following:

- Barrel Cloverleaf.
- Pole Bending.
- Boot Scramble.
- Can Kick.
- Jump.
- Wheelie.
- Paper Throw.
- Balloon Burst.
- Slow Race.

Most of the events are familiar to cyclists or rodeo goers but the Balloon Burst might be something new: the riders wear inflated balloons on their helmets and try to burst every balloon except their own with rolled up newspapers. Last rider to have an unburst balloon is declared the winner.

In the Can Kick, each rider is to kick a can in front of his bike and cross a finish line. Best time wins.

The Paper Throw is a new event for the rodeo this year and is played like this: each rider is timed in his efforts to carry a rolled up newspaper down the arena and throw it into a barrel marked off by a large white circle. Best time wins.

The Boot Scramble is popular each year, as each rider dons a boot and all boots are piled in the center of the arena. Winner is the first rider to put his boot back on and cross the finish line on his bike.

Divisions in the competition are divided into classes according to bike size:

- Mini-bikes.
- 90 cc to 125 cc.
- 126 cc and up.
- Powder Puff for girls and women.

Trophies will be awarded to the top three finishers in each class with an overall high point trophy to be given the high point winner in the big bike and small bike classes.

Last year, 32 entries were made in the rodeo, as riders came from Snyder, Sweetwater, Big Spring and Colorado City. There was also a large crowd on hand to enjoy the fun, as Colorado City cyclists Dobe Williams, Mark Piland, Rebecca Jill Erwin, Otis Ruffin and Gary Redwine were among the local winners.

Entry can be completed by filling out the form printed on Page 9 of this issue of the Record and sending it with the \$2 fee to Ken Burnam, Rt. 2, Box 166, Colorado City.

Voting Act To Include Texas

The extension of the Voting Rights act of 1965 has passed both House and Senate but for different periods of time. The House wanted to tack on an additional 10 years to the bill while the Senate wanted a shorter time of seven years.

Texas senators split their vote. John Tower, Republican, voted against the extension of the bill. Lloyd Bentsen voted to extend the control of the bill to Texas.

Both the Texas senators were recently sent telegrams by Mitchell County commissioners' court as the commissioners went on record as opposing the extension of the bill to include Texas for the first time.

The original act, often cited as the most effective civil rights legislation ever passed, was designed to overcome obstacles to voting by blacks in the South. The extension, however, would add Texas to the list of states which would have any election overseen by federal registrars and election observers. No changes in election laws could be made without prior approval of the federal government.

The recent Texas AFL-CIO's decision to endorse the bill cited discrimination against both blacks and Mexican-Americans at polls. The telegram sent senators by the labor group said "there are still pockets of resistance to full suffrage in this state."

Road Closed

Part of the road through Rudrick Park was closed this week because of the damage shown above from waters in Lone

Wolf Creek. City crews will begin work on the damaged area when the water has had a chance to recede.

"It Was Wonderful" Says 'Tex' Goodlett

What can 10 years of Girl Scout get for you? Ask Patty Goodlett a Senior Scout and veteran scout.

"I stayed in scouts because of girls coming home and telling us of the wonderful and exciting trips they had had while seniors," she said with intent. "I'm hoping that my trip will make some other girl or girls stay in and get to do and go some of the places I've been or even different ones."

She was sponsored by the Girl Scout Council in Abilene to go to Camp Oke-tipi in Saverton, 10 minutes outside of Hannibal, Mo. Hannibal is the home of Samuel L. Clements, better known as Mark Twain.

Patty, who has been a Girl Scout for 10 years graduated from CHS this spring. She wants to go to Angelo State and major in History this coming fall.

She was one of 390 applicants chosen for a 60-girl camp in Missouri. The camps are all over the United States, there's one in Dallas and I think one in Odessa," she commented.

She admits that she was scared when her family took her to the Lubbock airport to leave on June 26. From there she was flown to Kansas City, where she met her hostess' family--the Don Kothes of Macon, Mo. She stayed with them for three

days before going to camp. Each girl who went to camp had a hostess family. While with the family they took her swimming and skiing. "They had a new slalom ski and I was the only one to get up on it," Patty notes.

The following Sunday a bus bound for Camp Oke-tipi came to pick up Patty at the Kothes' home. Aboard were girls from all over the U.S., Patty relates.

"They thought my Texas Twang was funny, they started calling me Tex because there were so many other Pattys," Tex said.

The camp lasted nine days in total. During that time Patty said she attended seminars, saw historical sites, made new friends and did some things that a girl from West Texas can't do when in West Texas.

The first day there were seminars on archeology and she

was shown how to make corn husk dolls. "The dolls were pretty hard, but fun," she said.

From that day till the last there was always some place to go and/or something to do. A lot of it was seeing historical monuments and things of the past. Of course this didn't upset the historical minded Patty any.

Among the historical things included were trips to birthplaces of famous people, the most

notable being Abraham Lincoln. On a trip to Springfield, Ill., his birthplace, the group got to see his home and his grave and tomb. "That gave me goose bumps," she recalls.

They toured the old capital building of Springfield and drove by the new one.

The group also visited New Salem where Lincoln lived for awhile. "There was a man there who claimed to be Lincoln's fifth cousin. He, Mr. Hanks, did a monologue. It was complete with make-up and everything," Patty recalls. She said that he ended with a line like 'I've got to go to the theatre, I don't want to but I said I would to please Mary.' "He was so real looking that we all wanted to warn him not to go," she said.

The following day was one of the best for her--she got sick. "All of us got sick at least once, and July 2nd was my turn," she related. Because of her illness she couldn't go through Mark Twain Cave. But the "bug" didn't stop her from taking in Rosecliff Mansion "which was beautiful," Mark Twain's home, Becky Thatcher's home, and the Mark Twain Museum. That night they saw a play "Everybody Loves Opal"

at the Ice House Theatre. From what Patty says it's quite a bit like the Opera House here.

The biggest and busiest day for the camp was July 4th. The 4th marked the ending of Tom Sawyer Days. On this day a raft race is held and the girls entered two rafts. They also entered six canoes, one of the passengers in a canoe was Patty.

Later during the day the Tom and Becky for next year were crowned and the annual fence painting contest was won by a boy from Hannibal.

Still later that day the group was in the parade and some had to walk beside the float they had made. There was a "huge" arts and crafts fair in the park where Patty bought some of her souvenirs. The day ended with a fire works display that some of the girls got to see from a riverboat. "Some of the other girls were so sick from the parade," said Patty, "they couldn't enjoy it."

The next day they were on the road again. This time to one of the first places that the Mormons lived--Nauvoo, Ill. The group spent the night there and attended church the next morning. "They are in the process of restoring the town to the way

it was when the Mormons lived there. It's really very interesting, they have a belief that Christ visited America," Patty told about the group that was pushed to Salt Lake City, Utah.

After Nauvoo, Keokuk, Iowa came next. The town has a museum on the riverboats, said "Tex," but what caught and held her attention wasn't a riverboat but a barge. "It was going through Lock 17, and I stood there and watched it all the way through. I really didn't want to go into the museum. I think the barge was more interesting," she said with delight.

Only two days were left in camp and the biggest thing on tab was an all camp talent show. The cabin that she stayed in had a small birthday party for one of the girls, that night also. "We all ended up crying and getting sentimental especially after the talent show," Patty recalled.

July 8th was packing day and time to get ready to go back to the Kothes family in Macon, Mo. She would stay there for two more days before coming home. "The camp was wonderful because of all the freedom we had. I had a wonderful time," Patty said.

Ruth Morgan, Hoyt Roberts, Jack Roberts, Mrs. Matt Graham, Mrs. J. D. Gibson and Mrs. Sidney Compton (left to right) load up on the chartered Greyhound bus which took members of Looney Home Demonstration Club and other Mitchell County residents to Amarillo and the pageant "Texas" Tuesday. The Looney club sponsored the two-day trip and there were 43 people from the city and county who went, returning Wednesday after an overnight stay in Amarillo.

How kids can help save energy.

You'll be surprised how easy it will be for you to conserve energy. Put an X in the box in front of each way you think you can help.

PS: Parents: Have your children seen this message? If not, you may want to call it to their attention. Cut it out and use it to remind your children that they can help you and all of us conserve energy in many ways.

☐ Don't keep the refrigerator or freezer door open any longer than necessary.

☐ Turn off the lights when you leave a room.

☐ Turn off the TV set when no one is watching it.

☐ Turn off the radio or record player when no one is listening.

☐ Be sure the hot water is turned off after you've used it. Remind your mom or dad when a faucet leaks and needs repairing.

☐ Don't turn on more lights than you really need.

☐ If the furnace or air-conditioner is running, keep the doors closed. And don't make unnecessary trips in and out of the house.

☐ Ride the bus whenever you can, rather than asking your parents to drive you.

☐ Ride your bike or walk to the store for your parents. If they don't run the car, they will save gasoline.

☐ Help plan family errands that require the car so they can all be done at one time.

☐ If you're a little cool, don't ask your parents to turn up the thermostat. A sweater will warm you up.

☐ Tell your parents if heating or cooling ducts are blocked by furniture or draperies.

☐ If no one uses a particular room, close the heat registers and keep the door shut.

☐ If you're helping with cooking, use an element that is about the same size as the pan. And don't be an oven-peeper.

☐ If the sun is shining on a cold day, open the drapes so the sun can help heat up your house.

☐ If you have a fireplace, be sure the damper is closed when there is no fire. Otherwise, heat will escape up the chimney.

Write down any other energy conservation methods you can think of on these extra lines. Mark those boxes too.

An American farmer produces enough food and fiber to feed and clothe 27 people—far more than in other countries. This high productivity couldn't happen without a superior transportation system that brings equipment, fuel, feed, seed, fertilizers and chemicals to the farm—and carries the farm's output to market.

Although it may have looked as if the Record office was selling watermelons recently it was in fact three children bringing in the prize of their crop from their own garden. Growers

of the 41 and 44 pound Black Diamond whoppers are, left to right, Dana, Dolly and Albert Rich. They are the children of Mr. and Mrs. James Rich of 304 West 9th Street.

Lodge Announces Contest Winners

Winners in the music contest held at Claxton Lodge Friday night were presented plaques which will have names engraved, said Mrs. Forrest Tatum, co-director of the lodge with her husband.

Deemed by a panel of impartial judges to be the best of the groups entered in the Country & Western contest was a group which included Hoyt Roberts, Bill Claxton, Earl Hays, Dual Blair, G. A. Harmon and Sophie Oliver.

Second place went to Kenneth Wilson, Toby Sanderson, Bobby Sparks and Lloyd Claxton.

Third place plaque was presented to W. C. Carpenter and Wayne and Sophie Oliver.

Over 200 people attended the music festival and enjoyed the

competition, Mrs. Tatum said. Claxton Lodge's anniversary is November 13 and she said another country music contest will be held in conjunction with the celebration.

Mrs. Joy Culwell Is Guest AARP Speaker

"The things that give people the most trouble are the ones that go through the mouth - eat, drink and tell it."

Mrs. Joy Culwell presented that thought when she was guest speaker during the American Association of Retired Persons meeting Monday.

The group met in the Fellowship Hall of the First Methodist Church with the meeting being opened with the singing of "America" led by Lewis Elliott. Mrs. Dona Reed led the group in the United States pledge to the flag.

Four new members were introduced to the group by the club president, Mrs. Jewel Richter. They were Mrs. Pearl Lindsey, Mr. and Mrs. E. J. Stockton and Mrs. Callaway.

Following the program by Mrs. Culwell, Mrs. Richter conducted a business session in which an insurance workshop was announced for July 31 in Abilene with some of the local group planning to attend.

Several Bicentennial programs were suggested as possible activities and included a social and a "hootenanny" show.

Mrs. Dera Winn led the closing prayer.

Forty-one persons were present for the meeting and guests, Mrs. Virginia Dearen and Mrs. Culwell.

USDA Increases School Lunch Aid

The U.S. Department of Agriculture has announced an increase in its rates of payment to state education agencies to assist schools taking part in the National School Lunch, School Breakfast, and Special Milk Programs.
Also increased was the national minimum average value of commodities for the National School Lunch Program.
The increases for school lunches and breakfasts have been in effect since July 1. The law requires that these payment rates be adjusted twice each year, in line with changes in the food away from home series of the U.S. Department of Labor's Consumer Price Index.
The adjustment reflects the 3.97 percent increase for the period, December 1974 - May 1975.

In the National School Lunch Program, the national average payment to states, to be used by them to assist local school authorities help defray food costs of each lunch served, will be increased one-half cent, from 11.75 to 12.25 cents. Within that average, states are authorized to vary the rate of reimbursement to individual schools, subject to certain conditions, up to a maximum of 18.25 cents a lunch. Previously the ceiling was 17.75 cents.
The additional guaranteed average payments to states to assist local schools in the service of lunches to needy children will be boosted 2.0 cents--44.5 cents for each reduced-price lunch and to 54.5 cents for each free lunch.
The maximum reimbursement which states can pay to individual schools for free lunches is increased 2.5 cents. It can range as high as 71.75 cents for a reduced-price lunch and 81.75 cents for a free lunch.

The national average payment to states for each breakfast served to eligible children will be increased one-half cent, from 9.25 cents to 9.75 cents. The additional average payment to states for each reduced-price breakfast, which has been 17.50 cents, will be increased to 18.25 cents. Planning Session Held For Center

The first meeting of the advisory board of the new Community Education Center was held at noon Tuesday at the Wallace Center.

The meeting opened with statements from Lloyd McKee, superintendent of Colorado City schools, and Barbara Gray, coordinator of the Center, stating just what the Center will be able to do for the area.

This fall will see extension classes from Western Texas College, Adult Basic Education and Vocational courses, enrichment classes and general education classes (GED). The future holds more things for the youth, not only in the summer but also during the school year. This would include tutoring programs in different areas as well as recreational programs.

McKee said, that the concept of the center is to bring the resources of the community together, to get the use out of schools that the community can.

Mrs. Gray stated that the center can't start without input and that the number of advisory

Martin Asks For Park Additions

State Representative Elmer Martin has appealed personally to top officials of Texas Parks and Wildlife Department for more improvements at Lake Colorado City State Park.

"Additional developments are urgently needed to meet demands of thousands of West Texans who travel to the park for water and outdoor recreation," the Colorado City legislator emphasized.

Rep. Martin conferred in Austin Friday with Parks and Wildlife Executive Director Clayton T. Garrison and Parks Director Paul E. Schlimper.

"My message to them was that the second phase of Lake Colorado City State Park development definitely is overdue," Martin said.

"I simply told Parks and Wildlife the plain fact is that the park cannot provide for the huge throngs coming from all over West Texas unless the park has more camp sites, shelters, restrooms, fishing pier and picnic units."

Rep. Martin, who is vice chairman of the Environmental Affairs Committee which handles all Parks and Wildlife legislation in the 64th Legislature, said he was reassured by the conference with Garrison and Schlimper.

"They impressed me with their knowledge of the condition of our park," the legislator commented, "and I am confident that new improvements will be forthcoming for the park."

"They know that the park in its present state of development cannot meet the demands of the thousands who come here week after week to boat, fish and camp out."

"They are working now to provide more facilities."

Martin said statistics compiled by Parks and Wildlife revealed that the Colorado City State Park has an utilization rate of 600 per cent. In other words, the park for this summer is crowded with six times the number of persons it is equipped to handle in its first state of development.

Martin, also expressing confidence that more improvements will be forthcoming for Colorado City State Park, cautioned that getting the job started

and completing the project will take time.

"But every day we wait to start," he said, "just means that much more time West Texas families from a 50-county area will be sorely lacking in this type of outdoor water recreation."

The legislator said that he and his staff will be in close contact with Parks and Wildlife officials as their department moves ahead with new plans for the park.

Martin complimented the Colorado City Chamber of Commerce and State Park personnel for compiling data and material which emphasizes the growing need of the park.
