An announcement in Abilene by Don Wooten that he planned to move to Snyder stimulated interest around the local Chamber of Commerce office and in other circles here.

Wooten, who is President of the West Texas Chamber of Commerce, is chairman of the board of the Roscoe, Snyder and Pacific Railway and has long been identified with West Texas business and industrial interests.

The Snyder Chamber of Commerce plans to extend an invitation to the West Texas Chamber to hold its 1969 meeting here when delegates assemble in Odessa Sunday for the 1968 session.

"Now we can tell them that Snyder is such a desirable place that the president of the West Texas Chamber is going to make his home here," said local Chamber Manager Gene Merrifield.

There will be ample competition for the WTCC meeting. It seems that Fort Worth wants the 1969 session to be held there.

If you are one who feels that your vote in an election is insignificant, ponder this: If each voting precinct could add six votes to its total this year it would mean an increase of a million votes for the nation.

Voting is a "right" that nearly everybody says he cherishes, yet in the last presidential election only 62 per cent of the eligible voters in the United States bothered to go to the polls.

The precinct conventions also are important, particularly those in Texas and 35 other states. Only 14 of the 50 states hold primaries to select national party convention delegates. In the 36 others, including Texas, the delegates who ultimately choose presidential candidates are selected by party conventions. —WACIL McNAIR.

Paris Accepted For Peace Preliminaries

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP) — The United States and North Vietnam agreed today to open preliminary peace talks in Paris next Friday or a few days thereafter.

President Johnson announced at a 10 a.m. news conference he had sent word to Hanoi that he accepts the time and place Hanoi had announced to the world two hours earlier.

Johnson said he was informed of the North Vietnamese agreement at 1 a.m. today. He then conferred with Secretary of Defense Clark M. Clifford, Secretary of State Dean Rusk and other high officials and made his decision.

Hanoi announced its purpose in the talks would be "to decide with the U.S. side the unconditional cessation by the United States of its bombing and all other acts of war against the Democratic Republic of Vietnam North Vietnam and later to talk about other matters related to the two sides."

Johnson ordered March 31 a partial halt in bombing of the North and called for peace talks. He offered to stop the rest of the bombing if Hanoi would show "restraint" in its military operations.

But U.S. officials report Hanoi since early March has greatly increased infiltration of men and weapons into South Vietnam.

Asked about this today Johnson said "we have been quite concerned" about the North Vietnamese expanding infiltration.

The President warned the Paris talks would be only the "first step" toward bringing the long and bloody war in Southeast Asia to a close.

It was exactly a month ago today that North Vietnam and the United States publically declared their readiness for such talks, thus signaling a potential breakthrough in the long effort to begin peace discussions.

The forthcoming discussions are expected to be only preliminary to what could be much-drawn-out negotiations.

For the preliminary contacts, the United States had proposed 15 Asian and European capitals for possible meeting places while North Vietnam had suggested Phnom Penh or Warsaw.

The Indonesians meanwhile, offered to send a cruiser to Tonkin Gulf as a meeting place.

The North Vietnamese broadcast today indicated an end to the stalemate. As received by U.S. monitors, Hanoi Radio said:

Scurry Countians Set To Ballot In Primary

Scurry County Democrats will go to the polls tomorrow to cast ballots for nominees for public office ranging from Governor to Constable.

At the same time, a new entry on the local political scene has scheduled activity in at least five locations in the county. The American Independent Party, backing George Wallace for President, has announced that it will operate polling places. They will mark ballots on the three public opinion questions listed on ballots and sign the roll to get Wallace's name on the general election ballot in Texas.

Democrats will vote at all 20 regular polling places in the county. Republicans will have no primary election this year in Scurry County.

Snyder boxes will ballot in the county courthouse, except for Box No. 15, the South Snyder box, which will be at the school administration building on Thirty - seventh Street.

Democratic precinct conventions will be held at all voting boxes at 2 p.m. Saturday. Delegates to the county convention scheduled a week later will be selected and resolutions are expected to be presented on several issues, including support of Gov. John Connally as favorite son candidate for President of the United States.

All registered voters are eligible to cast ballots in the primary election. However, reminders have been issued that voters should have their registration certificates in hand when they appear at the polls and request ballots. Otherwise, an oath will be required that such certificate exists but has been lost or mislaid.

Bring Your Certificate To The Polls

Please bring your voter registration certificates!

That was the plea of election judges for Saturday's primary voting.

It is not impossible for a qualified voter to obtain a ballot if he has lost his certificate or inadvertantly leaves it home on election day, but you can't merely "sign a list" and get a ballot any more like you could under previous regulations.

Now, if you appear at the polls without a registration certificate and request a ballot, an oath must be administered and signed to the effect that you obtained such a certificate but lost or, mislaid, etc. This will take time and delay voting if it is required many times during the day.

So, the best way to assure yourself a ballot and to help speed up the voting is to be sure you have your certificate with you when you go to the polls.

Awards Get Panel Okay

The Education Committee of the Snyder Chamber of Commerce approved plans yesterday for continuing awards to the top 10 students in each of the three classes at Snyder Senior High School.

For the past several years, awards for scholastic achievement have been presented to the top 10 seniors, juniors and sophomores.

Plans for activities at the beginning of the next school term next fall also were discussed by the Chamber panel. Buford Browning is chairman of the group.

Local Group To WTCC Convention

A large delegation from Snyder is expected to attend the annual convention of the West Texas Chamber of Commerce in Odessa.

The event begins Sunday and will close on Tuesday.

The Snyder Chamber of Commerce will extend the WTCC an invitation to hold its 1969 convention here.

H. F. Clark, President of the Snyder Chamber of Commerce, and Herbert Feather are Snyder's directors on the WTCC board and they will be participating in the business sessions of the board.

Also scheduled to attend and participate in events for professional personnel is Gene Merrifield, manager, along with Karl Mawhorter, the city's director of community development, Doug McGlaun, manager of the Scurry County Coliseum, Gary Stevens, Les Francis, Ernest Sears and Bill Seale, and possibly other members of the Producers' Club (gold coaters).

SAYS DELAY DANGEROUS

LBJ Pressures For Tax Hike

WASHINGTON (AP) — President Johnson delivered today his strongest appeal yet for Congress to act on his tax increase proposal, and told those demanding deeper spending cuts: "Don't hold up a tax bill until you can blackmail someone."

The President told a nationally televised news conference, his first since last November, that "we are courting danger" by continued delay on the tax proposal.

He called on Congress members to "stand up like men and vote" to pass the tax bill.

He said that he remains personally opposed to spending cuts but that he has reluctantly agreed to the plan approved this week by the House Appropriations Committee. That would cut spending by $4 billion and appropriations by $18 billion in an effort to pave the way for the tax bill.

But he said Senate-approved spending cuts of $6 billion "would really bring chaos to the government."

Chairman Wilbur D. Mills, D-Ark., of the House Ways and Means committee, one of those who has been demanding sharp spending cuts, said the committee will take a new look at the situation Monday.

Tax proposals and the spending cut voted by the Senate are pending before a Senate-House Conference Committee.

Johnson noted that the response to the action of the Appropriations Committee has been demands for deeper cuts, principally from Republican leaders.

He noted that business and labor leaders have supported the 10 per cent surtax proposal but that "The Congress has not been that cooperative."

"I think we are courting danger by this continued procrastination, this continued delay," he said.

The office of Rep. Gerald R. Ford of Michigan, House Republican leader, released a statement in which he said:

"Republicans are dismayed that the President is apparently unwilling to agree to a responsible compromise on spending cuts and a tax increase.

"His adamant attitude is hardly the way to meet the fiscal crisis which confronts the nation. There must be a solution that will be joined in by members of both parties who realize the gravity of the situation," the statemen said.

C. E. Ellard Service Set

Charles Edward Ellard, 36, a resident of Snyder for the past five years, died Wednesday in West Point, Miss.

Funeral will be held at 10 a.m. Saturday in the Bell - Seale Chapel with Don Browning, minister of the East Side Church of Christ, officiating. Burial will follow in Hillside Memorial Gardens under the direction of Bell - Seale Funeral Home.

Born Aug. 15, 1931, in Dickens County, Mr. Ellard was a welder. He made his home at 3101 Avenue U.

Surviving are the wife, Betty, and three sons, Bruce, Kenneth and Vince Ellard, all of the home; his mother, Mrs. Pearl Stovall of Snyder; and one sister, Mrs. Walter Vita of Smithtown, N. Y.

More Storms Are Expected In Texas

BY THE ASSOCIATED PRESS

Thunderstorms packing hail and vicious winds pummelled parts of West and North Central Texas during the night and continued farther south into this morning. More were expected as a cool front thrust into the Panhandle.

While some of the storms were described as locally severe, there was no word of extensive damage.

The Weather Bureau in San Antonio received an unofficial reeport of hail accumulating 12 inches deep on the ground at a spot west of Cotulla in Southwest Texas.

Near La Pryor, 90 miles southwest of San Antonio, the bureau was told the wind tossed a small farm building into a roadway as a line of thunderstorms boiled through the area.

Hail varying from the size of baseballs down to peas was reported over much of West Texas.

It was a restive night for residents of the northwest, southwest and entral sections of the state as the Weather Bureau posted a series of severe thunderstorm alerts.

The latest of these, in force from 3 to 5 a.m., warning against a prospect of damaging winds, hail and rain heavy enough to cause flash flooding at low-water crossings in Real, Uvalde, Medina, Bandera, Kendall and Bexar counties.

Similar notices, cancelled before night, covered a belt 100 miles wide from southwest of San Angelo to Wichita Falls, and a 120-mile-wide strip from 45 miles east of Abilene to the Oklahoma City vicinity.

A menacing storm northeast of Stamford prompted the same kind of notice Thursday afternoon for Haskell and Throckmorton Counties and the north part of Jones County.

Forecasts promised scattered thundershowers in most sections as the new cool front moved through the Panhandle toward North Central Texas. Temperatures in the lower 40s were expected in parts of the Panhandle overnight.

Americans Crush Red Counterattack

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — U.S. forces crushed a North Vietnamese counterattack near Dong Ha Thursday climaxing four days of fighting in the northeast corner of South Vietnam in which allied troops reported 1,303 of the enemy killed.

U.S. and South Vietnamese casualties totaled 108 men killed and 541 wounded in battles around Dong Ha and Hue, the allied commands said.

Fighting slacked off today after U.S. Marines and Army infantry reinforcements beat back a heavy enemy counter attack near the 3rd Marine Division headquarters at Dong Ha 11 miles below the eastern end of the demilitarized zone.

The North Vietnamese launched their counterattack Thursday afternoon and pushed the Marines back. Army troops were rushed in as reinforcements, artillery and U.S. planes pounded the North Vietnamese, and by nightfall "the enemy withdrew," a U.S. spokesman said. He added that the enemy made light probing attacks for two hours before contact was lost.

DEAR ABBY: What is your opinion of a woman who would take a job as a "housekeeper" for a single man? Part of the deal is that the housekeeper has to live ON the place.

If a woman sells all her own household goods, and sells (or rents) her own house to move in with a man and keep house for him, how do you think that looks?

What does the community think of a woman who would hire herself out this way? And what do YOU think?

MADRID, IOWA LADY

DEAR LADY: Personally I couldn't care less, but if I gave it one moment's thought, I would assume that the housekeeper was KEEPING — not PLAYING house. Now, what's YOUR problem, Lady?

• • •

DEAR ABBY: I am a minister's wife and I would like to ask you a simple question:

Is the minister's wife "automatically" invited to all the weddings her husband officiates at?

I have never attended a wedding without having been specifically invited, yet many parishioners have expressed great surprise (and even hurt) when I haven't shown up with my husband. They also seem surprised when my husband says his farewells after having performed the wedding ceremony, although not one word was mentioned beforehand about his staying on as a guest.

Should a minister just assume he is a guest wherever he performs a service? And should his wife join him, even tho no invitation was issued?

MINISTER'S WIFE

DEAR WIFE: A surgeon's wife is not expected to accompany her husband when he operates, and neither should a minister's wife be expected to "show up" wherever her husband performs a service.

No one is "automatically" invited anywhere. Altho most clergymen and their wives would be welcome as honored guests at the affairs of their parishioners, they should be invited — same as any other guest.

• • •

DEAR ABBY: Re the new, effeminate - looking styles for men. They aren't "new" at all. In 1916 as a college fop I wore silk underwear, pleated, pink shirts, and a handkerchief tucked into my cuff. And as a boy I was "dressed and curled." In 1918, the Germans learned what the "Ladies from Hell" (the Scots) could do despite their kilts, purses and bagpipes. So cool it, Ma'am.

Vietnam. (North Vietnam) government is of the opinion that formal talks between Hanoi and Washington should be undertaken immediately.

"It decides to send Minister Xuyan Thuy as its representative to hold formal talks with a representative of the U.S. government to decide with the U.S. side the unconditional cessation by the United States of its bombing and all other acts of war against the Democratic Republic of Vietnam and later to talk about other matters related to the two sides.

"The Democratic Republic of Vietnam government welcomes the fact that the French government is willing to let Paris be the site between the Democratic Republic of Vietnam and the United States as declared by French (foreign) Minister Couve De Murville on 18 April 1968.

"The DRV government is of the opinion that Paris, just as Phnom Penh and Warsaw, is an appropriate venue for the formal and bilateral talks.

"These formal talks will begin on 10 May or a few days later."

"Let me sound a precautionary note," Johnson said after announcing his decision. 'This is only a very first step, and there are many, many hazards and difficulties ahead."

"I have never felt it was useful for public officials to confuse delicate negotiations by detailing personal views" in advance, Johnson went on. So, he said, he would not discuss the question further now.

Johnson has named veteran roving Ambassador W. Averell Harriman as the U.S. envoy for the preliminary talks.

Also tapped for this service if needed has been Llewelyn Thompson, U.S. ambassador to the Soviet Union, who recently returned to Moscow after Washington consultations.

Very Real Emergency

SAN ANTONIO (AP) — There was a real emergency in the emergency room of Robert B. Green Hospital Thursday evening.

A copperhead snake which had bitten a fisherman was brought to the hospital by the victim. The snake escaped in the emergency room and bit a second man and panic broke out.

Other patients in the emergency room leaped atop chairs and benches until the snake was kicked from the room and dispatched with a bullet.

The bitten men were Hector Saldivar, 38, and Cristobal Galan, 27. They were in poor condition today from bites of the copperhead.

Saldivar told officers he was bitten as he and Galan fished on the Medina River. Saldivar put the snake into a plastic bucket and took it with him to the hospital so the reptile could be identified. The bucket was overturned and Galan was bitten as he tried to recapture the snake.

Galan left the emergency room without being treated.He was found by policemen and returned six hours later, suffering from a copperhead bite on the left hand.

the sheriff's race and one constable's race are the only local contests on the ballot. However, considerable interest in the governor's race is expected to help attract a good turnout of voters.

Sheriff Keith Collier and Earl Abercrombie, a former sheriff, are the candidates for that office in the primary. Candidates for commissioner in Precinct No. 1 include the incumbent Marion Dabbs, William A. Vaughan; Eldon Perry and G. B. Williams. For commissioner in Precinct No. 3, the candidates are incumbent Thayne Mebane, J. W. Headstream and J. B. Patterson.

In the race for Constable, Precinct No. 1, are the incumbent, Clyde Thomas, Lloyd H. Merritt, A. E. Crowley and Don Vineyard.

Unopposed in the county are District Judge Sterling Williams, District Attorney Wayland G. Holt, County Attorney George R. Killam Jr., County Tax Assessor Don Adams, JP in Precinct No. 4 T. E. Shelburne, Constable Precinct No. 2 H. C. Smith and Constable Precinct No. 3 Chessie E. Bailey.

Also, U. S. Rep. George H. Mahon and State Rep. Renal B. Rosson are both unopposed.

Earlier there were reports that some voters were confused over boundaries for different types of precincts. There should be none at the polls Saturday, since each voting box will have ballots listing only those precincts in which it is involved. So, a voter should mark a choice for each office shown on his ballot.

Also, voters have been reminded to put an X in the square at the left of the name of each candidate favored. A square should be marked for each office, even those which have only one candidate.

The polls in Scurry County will open at 8 a.m. and close at 7 p.m.

Bill Wright, head of the George Wallace forces here, said the American Independent Party would operate polling places at City Cab Co., 1500 Twenty - sixth Street (for Box 20); Wright's Sign Shop at 1503 Avenue S (for Box 17); Purple Sage Motel (for Box 1); Jearld Smith residence at 4518 Fredonia (for Box 15); and the Jeptha Landrum residence for the Fluvanna box.

Wright said those voting in the American Independent Party Primary would have opportunity to vote on the three public opinion polls.

The liquor - by - the - drink opinion poll and the parimutuel betting poll have attracted widespread interest and are expected to help increase the turnout at the polls.

Another public opinion question on the ballot involves the proposed enactment of legislation creating a dairy commission with the power to fix prices on milk.

Transplant At Houston

BY THE ASSOCIATED PRESS

The world's third human heart transplant within a week —and the ninth in all—was performed today at Houston, Tex.

Two of the recipients, both Americans, were still alive. The third, a Frenchman, died Tuesday.

Principal in the latest operation, at St. Luke's Episcopal Hospital in Houston, was Everett Clair Thomas, 47, a Phoenix, Ariz., accountant. His heart was replaced by that of a 23-year-old woman who shot herself.

In Stanford, Calif., Joseph Rizor, 40, was in fair condition after the heart of an unidentified 43-year-old man replaced his own in an operation Thursday.

Clovis Roblain, 66-year-old retired French truck driver and Europe's first heart transplant patient, died Tuesday in Paris. He had never regained consciousness after receiving on Saturday the heart of a man of 23 who had been fatally injured in an auto accident.

Rotary Hears Vietnam Vet

Sergeant Cropco of Abilene, who recently returned from Vietnam, presented the program at the weekly luncheon meeting of the Snyder Rotary Club at noon Thursday in the fellowship hall at the First Methodist Church.

He showed a color film, "Ugly Angel," portraying the use of helicopters in the Vietnam War. Following the film, he gave his personal impressions and experiences of the fighting.

Guests included visiting Rotarians Pat Ray of Sweetwater and Guy Anson of Oklahoma City, Okla; Gerald Pullig and Ed Thomas of Snyder; and Barbara Carter, Rotary Sweetheart.

President John Thomas presided over the program.

Governors Race Runoff Expected

BY THE ASSOCIATED PRESS

Qualified observers generally predicted today, as candidates put in final campaign licks, that it will take a runoff to decide the Democratic nominee for Texas' governor.

Several of the 10 contenders in the party primary Saturday stoutly maintained they would win and Don Yarborough, the lone avowed liberal in the field, suggested there might be no need for a second primary.

Paul Eggers, the only one of three Republicans to stump for governor on a statewide basis, at the same time insisted he would lead a unified GOP to victory in the November general election.

Last-minute radio and television appeals were scheduled by the more active campaigners. They also made free use of the telephone.

Among the Democrats, Yarborough and Lt. Gov. Preston Smith both mentioned the rigors of their efforts to drum up support at the polls.

Yarborough, from Houston, said in Odessa that he had been putting in 18 hours of work a day. He urged his backers to wind up with widespread appeals by telephone committees.

"Tell them that automobile insurance has become the No. 1 issue in this race and people all over the state are enjoining me in my fight to bring an immediate reduction in premiums," Yarborough said. "... If the momentum of this campaign continues at its present rate, there may not be a need for a runoff."

Smith, from Lubbock told a Houston audience he had delivered 1,200 speeches and visited 391 towns and cities in his bid to move up from lieutenant governor to governor. He said more than 430 local chairmen were working in his behalf.

"I have travelled longer, harder, spoken to more people, held more press conferences, listened to more problems, discussed more issues facing our state, and worked harder at this race than all the other 12 candidates," Smith said. My greatest source of confidence in this race is the fact that I have had so many people involved in my behalf."

James Ray's Brother Disappears

CHICAGO (AP) — Jerry Ray, brother of the man sought on a charge of murdering Dr. Martin Luther King Jr., has quit his job at a north suburban golf club and disappeared, the Chicago Tribune said todey.

Ray's disappearance was reported a few hours after he appealed through an interview with another Chicago morning newspaper, the Sun-Times, for his brother, James Earl Ray, to surrender.

The Tribune quoted an official at the Sportsman Country Club near Northbrook as saying that Jerry Ray quit his job at the club a day after his photograph appeared in a national magazine. Ray had used a Wheeling post office address but lived in a room at the club, the paper said.

"We don't know where he went," the club official was quoted. "He didn't leave a forwarding address. guess he got tired of being interviewed."

In the Sun-Tmes interview, Ray, 32, expressed fears that his brother was dead and said other members of the family also doubted that he was alive.

"If he is still alive," Ray said, "I urge him to surrender himself to the FBI or to contact someone in the family and ask them to make surrender arrangements."

Ray, who worked as a maintenance man at the golf club, was reported as saying his brother could have been used in a conspiracy to kill the civil rights leader.

NEW! For clean Sorghum... spray weeds when you see them! with BANVEL® HERBICIDE

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessweed (pigweed), sunflower, lambsquarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and *then* spray—all in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is sprayed onto weed leaves and translocates to the roots...for new, total control of weeds. Just apply Banvel between the 10th and 25th day after emergence of grain sorghum (approximately 4 to 12 inches tall).

Banvel is not dependent on soil moisture for its effectiveness, so its results are dependable. And it's a liquid that won't clog your sprayers; nor does Banvel need constant agitation.

Banvel increases yields. It's excellent for use on grain sorghum, wheat, barley, oats and field corn. Order Banvel herbicide to get full potential from your valuable, high-yielding sorghum seed.

See your dealer today. You'll be glad you did!

RFK's Son Apprehended By Officer

MCLEAN, Va. (AP) — "I regret to say," said Sen. Robert F. Kennedy, "that one of my sons in the company of another boy got into trouble last Saturday while my wife and I were away from home."

The Democratic presidential contender issued a statement while campaigning in Indiana Thursday after police in this Washington suburb disclosed his 12-year-old son, David, was apprehended last week after a rock-throwing incident on a highway near the Kennedys' Hickory Hill home.

David, one of 10 Kennedy children, and the other boy were brought to a police station after a motorist complained they threw rocks at his car, said Police Chief William L. Durrer of Fairfax County.

No charges were brought against the boys and they were taken home—David by a governess and the other boy by his parents, Durrer said.

"We will follow the same procedures we use in all such incidents involving young children without prior records and hope the parents of the boys will be able to work things out," the chief added.

Police said the complaint, brought by Leoneo L. Correa of McLean, was dropped on condition the boys' parents pay the $119.72 damage. The windshield of Correa's car was smashed.

Sen. Kennedy said of his son: "He feels very badly about what he has done and has apologized to all concerned. He is a good boy who has always been a source of joy and pride to all our family and never has been involved in any trouble whatsoever prior to this incident.

"He and Mrs. Kennedy will of course appear at the appropriate time and place to meet the requirements of the law."

UNION NEWS

By MRS. J. B. ADAMS

Pvt. Johny Ward, son of Mr. and Mrs. John D. Ward, who has been home on leave was recently honored by the employes of Brooks Oil Well Service with a dinner at Union community center. They presented him with a radio. About 50 people attended. He will leave for Vietnam May 6. His sister, Helen of McMurry College, Abilene, was home for the occasion.

Mr. and Mrs. Kenneth Rogers of Fort Worth spent the week end with his parents, Mr. and Mrs. Roy Rogers.

Mr. and Mrs. E. D. Sanders of Hobbs, N. M. visited over the weekend with Mr. and Mrs. W. R. Pate.

When crocheting a large piece such as an afghan, you can keep the finished part clean by folding the finished part and slipping it into a denim bag made like a pillow slip, pinning the finished part in place. This will enable you to work along the top as usua' without soiling the part that has been completed. Then, as more of the piece is finished, make adjustment in the pinning.

Next time you braise shoulder lamb chops, add some strips of carrot and onion to the braising liquid. Good flavor!

Mrs. Bob VanNest Hostess To Union H.D. Club

The Union Home Demonstration Club met May 1 in the home of Mrs. Bob VanNest. The meeting was called to order and business conducted by Vice President Mrs. R. J. Rosson.

Council report was given by Mrs. Howard Hogue, who also led recreation. Miss Ruby Butts presented a program on "Storage."

Mrs. George Gibson received the hostess gift. Refreshments of cake and coffee were served.

Cottonseed flour is used in commercial bakeries.

Recent Bride Is Honored

A recent bride, Mrs. Bob Daugherty, the former Miss Jeri Sells, was honored with a post - nuptial shower Saturday night at the Fluvanna community center.

Mrs. Daugherty's favorite color of yellow was repeated in table decorations and appointments on the register and display tables. The serving table, featuring an heirloom lace cloth over yellow, was set with silver and crystal serving pieces. Yellow pompom chrysthemums and yellow ribbons tied together the silver candelabra and a bridal arrangement covered with a miniature yellow and white parasol.

The bride is the daughter of Mr. and Mrs. I. E. Sells, of May, Oklahoma, while the groom's parents are Mr. and Mrs. C. A. Daugherty of Fluvanna. The couple are students at Oklahoma State University at Stillwater.

Hostesses for the Saturday evening shower were Mesdames Thomas Hall, James Smith, Sam Bruner, Orval Mathis, Robert White, Clyde Smith, Harry Kingston, L. M. Dawson, Roy Lee Beaver and Martin Parks. Assisting with serving duties were Misses Rebecca White, Lynda Hall, and June Stansell.

Others present for the event were Mesdames Bunyan Evans, Robert Warren, E. M. Steph, Bill Kingston, B. B. Forehand, R. V. Daugherty, Don Wills, R. B. Wills, C. T. Hunnicutt, J. D. Patterson, H. F. Ainsworth, Lloyd Ainsworth, Cora Patterson, Ellen Patterson, Mary Belew, Jessie Sims, Eunice Nisbett, Ruby Benson, Bob Jordan, Charlie Bley, Bill Sikes, Wallace Jones, W. F. Mathis, Roger Williams, Bill Jennings, Bill Stansell, and James Stansell. Also Misses Darla and Anita Smith, Lorinda Jordan, Kim Wills, and Miss Syble Bley of Snyder.

Mr. and Mrs. Daugherty were married on March 30 at Bennett Chapel on the Oklahoma State University Campus.

Crossover Voting Vital In Indiana

By IRWIN J. MILLER
Associated Press Writer

INDIANAPOLIS, Ind. (AP) — Crossover voting may play an important role in Indiana's presidential primary which dictates that write-in votes cannot be counted.

Party crossover voting may prove a big asset to Indiana Gov. Roger D. Branigin, running as a favorite son candidate against Sens. Robert F. Kennedy and Eugene J. McCarthy on the Democratic ballot Tuesday. Richard M. Nixon is unopposed on the Republican ballot.

Crossing over is not difficult in Indiana, and because Nixon has no opposition and Branigin is personally popular with many Republicans, the governor could get substantial GOP support.

A voter requests the ballot of the party of his choice, and is subject to challenge only by a poll watcher of that party.

If challenged, the voter must sign an affidavit that he voted for a majority of that party's candidates in the preceding general election and intends to do so again in the next general election.

Since the general election ballot is secret, there's no way to prove or disprove his affidavit.

In the case of a person who did not vote in the preceding election, for any reason including age, the affidavit need state only that he intends to vote in the coming general election for a majority of the party's candidates.

State law provides that any paper ballot carrying any distinguishing mark must be thrown out. This has been interpreted as meaning any marking outside the regular squares.

One attorney commented there would be nothing to prevent precinct election officials from keeping a count of how many ballots they throw out, and for what reason. But they couldn't include the figure in official returns.

The question affects the 42 counties which use paper ballots. The other 50 use machines and there is no way to write in on them.

Gumdrops, cut in small pieces, may be added to a hand - shaped or drop cookie dough; but licorice flavored gumdrops should be excluded.

Award-Winning Author Of 'The World Today' Dies

BY THE ASSOCIATED PRESS

WASHINGTON (AP) — James Marlow, who for 25 years wrote the award-winning column "The World Today" for The Associated Press, died Thursday. He was 64 and had been in poor health for some time.

Marlow a newspaperman for 41 years, wrote his column from Washington. It was an unusual one.

The column did not predict. It did not pretend to pass on "inside" information. It was neither pretentious nor pontifical.

Instead, the writer tried to explain events, to put them in context in an interesting and factual way. This required exhaustive research; Marlow read more than 45 books for a series analyzing Winston Churchill's impact on history.

He pioneered in interpretive writing.

Marlow won the Raymond Clapper Memorial Award in 1961. The next year he received the Washington correspondence award of the national professional journalism society, Sigma Delta Chi.

The Sigma Delta Chi citation lauded Marlow's fearlessness, his keen awareness of the issues of our time and his ability to report, weigh and discuss these issues authoritatively in public print."

Marlow was born in the Hell's Kitchen section of New York on Aug. 2, 1903, of Irish working-class parents. He had barely a brush with college, attending Fordham in the Bronx for less than a year. He was a relentless reader, beginning as a boy when tuberculosis kept him out of school two years.

He went to work for the AP in New Orleans in 1937 after 10 years on newspapers there. He began his career as a police reporter and his favorite stories were always of those days.

Marlow's Washington column ran five days a week, a pace few columnists attempt. Because he tried to be current he wrote at the last moment, but invariably he kept his deadline.

This was late at night.

He claimed the pressure did not bother him. "You get used to it," he said.

Earlier in the day, Marlow paced the floor of the AP office, tested his ideas on editors and copy boys, read, researched and paced some more. He was an easy conversational mark for anyone, especially the young.

Lunch was always chopped beefsteak, apple pie and coffee and always in the same cafeteria. It is not the kind of place that attracts politicians, lobbyists, public relations men or executives.

He read and fished for relaxation. He worked hard for the American Newspaper Guild, was a leader in the successful drive to unionize AP editorial employes in the late 1940s.

Marlow's highly stylized writing emphasized an eye-catching opening paragraph. When India invaded tiny Portuguese Goa in 1961 Marlow began his column this way:

India's Prime Minister Nehru, who made himself the world's No. 1 holier-than-thou moralizer and man of peace, can no longer act as the conscience of mankind.

Marlow worked for the editorial freedom to write this way.

President Johnson said of the death:

"Mrs. Johnson and I were saddened to learn of the tragic death of James Marlow. He was a friend of more than 30 years. He earned my respect and that of his profession as a good, honest reporter. Journalism has lost a man who distinguished his profession. We will all miss him."

Wes Gallagher, AP general manager, said:

"The loss of Jim Marlow is a severe one, not only to The Associated Press, but to the profession of journalism as a whole. He was a superb craftsman with one of the most difficult jobs in Washington journalism, which he performed as no one else could."

Marlow is survived by his widow, the former Hannah Hartling; a daughter, Mrs. William Cherwek; and a grandson, Dean Cherwek, 5. Cremation and private services are planned.

Industry Works For Housewives

By JOY STILLEY

NEW YORK (AP) — Industry is working hard to make it soft for the nation's housewives.

Take disposable pans, for instance. Take 'em quick, before they overflow the kitchen and go clattering down the hall.

Somehow, they end up in the dishpan instead of the garbage pail and they come out so shiny and sturdy looking that my thrifty nature rebels at discarding a useful object.

Useful for what, I have yet to discover. But still, I have the storage shelves of the stove stacked with them and the cabinets are so packed with aluminum foil dishes of every size and description that the whole pile comes crashing to the floor every time I open the door.

I'd have a little more room for the disposable pans, except that the drawers and closets in the house are all jammed with those lovely plastic bags clothes come back in from the cleaners. No telling when I'll need 250 or so garment covers, so I carefully fold them up and stuff them into any space not already occupied by little plastic strawberry baskets or slightly used disposable dustcloths.

When plastic straws and plastic toothpicks made their debut my life took a turn for the worse. I know they're meant to be dumped instead of dunked after use, but I'm determined to revitalize them with detergent.

Then along came the neat little coffee cans, complete with a tight cover and beautiful designs that turned them into perfect canisters when empty. I couldn't manage to utilize them all with just flour and sugar and tea, so I started tossing beans and rice and pancake flour and black-eyed peas and hard candy and even oatmeal into them. But they are still multiplying faster than I can think up uses for them.

I never minded throwing out paper plates in the old days, when their rough surface absorbed the juice from the pickles and the grease from the spare ribs. But now that they're as smooth as china and seem almost as durable, I have to look the other way when I consign them to the garbage can.

Well, there's one bright side to the aluminum avalanche. I just baked a frozen pie in its own foil dish and I find that the container was perforated with tiny holes in order to make the crust brown right. I won't mind throwing that one out.

On second thought, perhaps I'd better keep it after all. It would make a dandy sieve.

The cold Labrador Current and relatively warm Gulf Stream meet in the vicinity of the Grand Banks. Air passing over the contrasting waters often produces dangerous fog, but the mingling of cold and warm currents also creates favorable conditions for plankton — a major food for fish.

Junior Editors Quiz on STATIC ELECTRICITY

QUESTION: *Why does static electricity do such strange things?*

• • • •

ANSWER: Inside a tiny atom is a central nucleus with one or more electrons circling around it (black balls in picture). Some of these electrons may be free. When a wire is connected to two poles of a battery, these free electrons move into nearby atoms, a process which continues right around the wire; this is an electric current (bottom). But another way electricity works is called static electricity. The main picture shows this at work. Mary rubbed a comb briskly across a piece of wool. Some of the electrons in the wool were picked up by the comb. Electricity may be either negative or positive. In this case, the comb gained negative electrons, so the comb became charged with negative electricity. Then Mary held the comb over some bits of paper. These have no electric charge. But it is a rule in electricity that opposites attract each other, so the charged comb attracts the paper, which lifts off of the table, and sails up to the comb. This seems just like magic. Try it!

Denny Lemaster Fires 3-Hitter

HOUSTON (AP) — Houston Astros Manager Grady Hatton says his team is making more double plays because of good pitching.

Hatton couldn't ask for much better pitching than he received Thursday night when left hander Denny Lemaster fired a three-hitter as the Astros defeated the St. Louis Cardinals 4-0.

Lemaster won a fine pitching duel from the Cards' Nelson Briles, who was trying for his 15th straight victory over a two year span. Briles was lifted for a pinchhitter in the eighth.

Briles did manage to break up Lemaster's no-hitter with a single in the sixth inning. The only other Cardinal hits were a single by Orlando Cepeda in the seventh and a double by Mike Shannon in the eighth.

The Astros pulled off only one double play, but it made them 10 in the last three games. This was more remarkable when the record shows they had managed just 10 twin killings in the previous 16 games.

"The pitching caused this," said Hatton. "We just weren't getting the chances before. Now we are."

The Astros scored two runs in the third when Norm Miller doubled in Ron Davis who had singled. Miller then scored on a single by Jim Wynn.

John Bateman hit a home run in the fourth and the Astros' final run came in the ninth on a walk to Miller followed by singles by Wynn and Rusty Staub.

The home run by Bateman was his second this year and his first in the Astrodome since Aug. 26, 1966.

Bateman hit only two home runs in his poor 1967 season, but both were against the Cardinals in St. Louis.

Lemaster struck out five and walked only one in raising his season mark to 2-3.

Briles had won his first four outings this season after winning nine straight games last year and defeating Boston once in the World Series.

An interested spectator at the game was Paul Richards, general manager of the Atlanta Twins, who traded Lemaster to the Astros along with infielder Denis Menke for shortstop Sonny Jackson.

The outcome of the game didn't change anything in the National League standings as far as the Astros and Cardinals were concerned. The Astros remained in the cellar despite the victory, and the Cardinals remained in first place.

Jack Takes Houston Lead

By PAUL RECER

HOUSTON, Tex. (AP) — Golfer Jack Nicklaus, without a tournament victory for the year and far down the list in official money winnings, said he came to the Houston Champions International ready to win. After the first round Thursday, nobody stepped up to argue the point.

He fired a six-under-par 65 in the first round of the $100,000 Champions tournament to grab the lead by one stroke.

Nicklaus toured the 7,166-yard champions golf club course with six birdies and no miscues.

"These must be my kind of greens," the 28-year-old Columbus, Ohio pro said. "The ball rolled good. I drove the ball well and, of course, putted well, too."

Nicklaus edged Dan Sikes who had a 66.

Ar De the ine who lost a tie f-

Roberto De Vincenzo, the Argentine who lost a tie for the Masters title this year through a bookkeeping error, moved to within a stroke of the Nicklaus pace before fading.

De Vicenzo posted a card that included two eagles and three birdies. One eagle came on what the Argentine called "a short putt of 100 feet." The other was on a 35-footer. On the back nine he got two bogeys and fell to a tie for third with George Archer Tom Weiskopf and Miller Barber at 67.

Recalling the Master's incident, De Vicenzo cracked to newsmen, " check my score card very good today."

Al Geiberger and Bob Murphy set course records with front nine scores of 31, five under par. Geiberger finished with a 68, tied with Fred Marti and Hugh Royer.

Murphy bogeyed 11, 17 and 18 to drop into a crowd of golfers notted at 69. Among those tied at 69 was Gary Player, the South African who was considered a mild favorite to win here.

Jr. Leaders Hold Pace

All of the leaders in the first round of the annual Junior Golf Tournament continued to set the pace Thursday in the second round of the 3-day, 27-hole affair.

Mark Hargrove, who fired a 38 Wednesday to go with his opening round 42, had the best chance to set a new record. He could set a new mark in the division with a 54 today.

Runnerup in the 7th grade division was Marty Pate with a 44-49-93, and third place was held by Bobby Burleson, who carded a 50-52-102.

Art Kidd continued to lead the 8th graders. His 47-42-89 was tops. Bobby Price is runnerup with a 53-51-104 while Scott McCaleb is third with a 50-56-106.

Glen Rambin, the 9th grade leader, would have to fire a 35 today to tie the record set by his brother Mitch. Glenn's card was 39-38-77. Mike Fisher was a distant second with 53-52-105.

Coach J. P. Ward said the final round would be held this afternoon. There are nine holes of play each day.

Former Tor Leads SWC Golfers

FORT WORTH (AP) — Jess Claiborne of Texas Christian led the Southwest Conference golf tournament going into its final 36 holes today.

Claiborne had 140, two under par, for the first 36 holes Thursday. That was two strokes better than second place Rik Massengale of Texas, who shot 68-74—142.

Defending champion Robert McKinney of Texas Tech fired 150 and was 10 strokes off the pace.

Chuck Brownfield of Arkansas got a hole-in-one on the par 3 fourth hole but his 78 in the first 18 kept him from making much progress with his 67 on the second 18. He had 145.

Richard Ellis of Texas A&M and George Tucker of Texas tied at 143 and four players were grouped at 144.

The East course at the Merion Golf Club in Ardmore, Pa., will be used for the 1971 U. S. Open golf championship.

HE'S OUT — Tiger first baseman David McGinnis bends low to scoop up the ball for a put out at first during the recent 3-AAA district clash with Dunbar. Despite several outstanding defensive plays by the Snyder infield, the visitors won 5-2. The Bengals host Levelland at 2 p.m. Saturday on the Towle Park diamond, then close out the campaign the following Saturday at Lamesa.

Boston Celtics Rule Roost Again

By JACK STEVENSON
Associated Press Sports Writer

LOS ANGELES (AP) — Boston's Celtics once again rule the National Basketball Association roost after what Bill Russell terms "one of the greatest victories of all the championships we've won."

The 6-foot-9 player-coach referred not only to Thursday night's 124-109 triumph in the Forum, home of the Lakers, but to the playoffs over-all.

For Russell it meant the first title as a coach for after Boston won eight straight under Red Auerbach. The Celtics were beaten out last year by the Philadelphia 76ers.

Big Bill figures this one of the finest seasons because "this Celtic team is not one of the most talented that I have been on."

Literally, however, they blew the Lakers off the court in the first half to build a 20-point advantage at 70-50. John Havlicek, who wound up with 40, and Bailey Howell, with 30, led the assault.

Los Angeles played poorly in the finale which gave Boston the series by a 4-2 count, the sixth time in the modern reign of the Celtics that the Lakers have been their final victims.

Boston built a 35-28 first-quarter advantage before the 17,398 in the new Forum and then surged to a 20-point lead early in the second stanza.

Elgin Baylor missed a free throw and incredibly failed on a stuff shot moments later. Havlicek was fouled in the back court, sank two free throws so instead of Los Angeles collecting three points, the Celtics had two. In the space of scant minutes they scored 15 points to a pair for Los Angeles.

Late in the third period, Los Angeles closed to within 11 points at 82-71 and again at 84-73.

"I thought we were going to do it when they got down to those 11, but they shot right up," commented Laker Coach Bill van Breda Kolff.

In the American Basketball Association, the New Orleans Bucs and the Pittsburgh Pipers will engage in their showdown battle for the championship Saturday night in Pittsburgh. The best-of-7 series is tied at three victories for each team.

No. 1 was the best post position at Yonkers Raceway during 1967. It won 266 times. No 2 was second best with 246 winners.

Owl Netters Advance

FORT WORTH (AP) — Butch Seewagen and John Pickens of Rice led the way into semifinals of the Southwest Conference tennis tournament today.

They each advanced in the singles in the opening rounds Thursday and they combined to also reach the semifinals in doubles.

Seewagen beat Tommy Hill of Texas Christian 6-2, 6-2 and Joe Williams of Texas Tech 6-3, 6-2. Pickens took out John Ragland of Texas A&M 6-3, 6-1 and Johnny White of Texas Christian 8-6, 6-4.

Seewagen will meet John Mazola of Texas, who beat Ben Barry of Arkansas 6-3, 4-6, 7-5, and John Phelps of Baylor, 6-3, 6-4.

Pickens will play Lloyd Carl of Baylor, who beat Murray Harding of Arkansas 6-3, 6-3, and Larry Eichenbaum of Texas 6-4, 6-3.

Phoebus, Orioles Rip Yanks

By HERSCHEL NISSENSON
Associated Press Sports Writer

No-hit Tom Phoebus said he didn't have very much Thursday night but the surging Baltimore Orioles have plenty to show for it today.

In his first start since his no-hitter last Saturday, the stocky right-hander yielded six hits and whipped the New York Yankees 7-3, becoming the first American League pitcher to win four games.

In the only other contests, Minnesota edged Detroit 3-2 on Tony Oliva's 10th-inning single and Boston trimmed California 4-1. Detroit's league lead shrank to a half-game over Baltimore and one game over Minnesota.

In the National League, Houston blanked St. Louis 4-0, Cincinnati whipped San Francisco 6-2 in 11 innings, Chicago nipped Pittsburgh 1-0, New York defeated Philadelphia 3-0 and Los Angeles outlasted Atlanta 2-1 in 17 innings.

Phoebus allowed his first hit with one out in the third inning —a run-scoring single by Horace Clarke. He also served up a two-run homer to Andy Kosco in the eighth.

But he struck out 11 batters, whiffing Mickey Mantle four times, as the Orioles swept their three-game series from the Yankees and won their fourth straight game.

"I felt a little pressure at the start," Phoebus said. "I wasn't relaxed. I wasn't as sharp as the last time."

Andy Etchebarren, Paul Blair and Mark Belanger paced the Baltimore attack with three hits apiece. Etchebarren had a homer and Blair knocked in three runs.

Minnesota, which had its game won until Detroit's Jim Northrup homered with one out in the ninth, almost blew it again in the 10th. Reliever Al Worthington loaded the bases with one out but struck out Bill Freehan and Dick Tracewski.

Rod Carew doubled off Tiger reliever Dennis Ribant with two out in the top of the 10th and scored the winning run on Oliva's single. Carew also started a two-run rally in the fourth.

Boston's Jose Santiago allowed only three hits and fanned nine in recording his 11th straight regular season victory since mid-1967.

Ken Harrelson supported him with a single, double, homer and two runs batted in. The triumph ended a four-game losing streak for the defending champion Red Sox.

Armstrong Blanks Spurs

BY THE ASSOCIATED PRESS

Albuquerque used the Texas League's first no-hit, no-run game to feather its nest atop the Western Division Thursday night.

Dick Armstrong was the architect as he shut out Dallas-Fort Worth 10-0 and it sent Albuquerque to a 1½-game lead since San Antonio, in second place, absorbed a 6-2 licking from Arkansas.

Armstrong ran his record to 4-0 for the season when he won the decision in the very first inning as the Dodgers scored three times on Buddy Hollowell's baseball double.

Armstrong faced only 31 batters.

Memphis beat Amarillo 4-2 to pull within 1½ games of idle Shreveport in the Eastern Division.

Only three games were played Thursday night.

Arkansas won its eighth victory in the last 11 games as it trounced San Antonio. The Travelers got three runs before San Antonio could find the plate and the Missions never could catch up. They were thwarted in the ninth when Tom Hilgendorf got out of a jam with the bases loaded.

Jerry Hinsley pitched a four-hitter in elbowing Memphis to its triumph over Amarillo.

Curtis Brown drove in two runs with a double and Glen Ezell singled in another in the fourth inning as Memphis took a lead that stood up.

Roger Craig, the Albuquerque manager, defied tradition when he kept reminding Armstrong about his no-hitter from the fourth inning on. Armstrong said "It's one of the happiest day of my life."

SETTLEMENTS HIGHER

Wage Restraint Plan Failing

By JOSEPH R. COYNE
Associated Press Writer

WASHINGTON (AP) — The Johnson administration is losing ground at an ever-faster pace in its bid to keep wage increases this year at what it considers noninflationary levels.

Instead of backing off from last year's level as the administration had voiced hope it would, the pattern of wage settlements so far has climbed even higher.

The 6.5 per cent annual settlement announced Thursday by the Communications Workers of America and the Bell Telephone System is only the latest in a string of wage pacts far exceeding administration wishes.

There was no immediate comment from the Council of Economic Advisers on the telephone settlement—which still faces a ratification vote—but administration officials undoubtedly feel it's inflationary even if they don't say so publicly.

In its annual report last February, the council called for union settlements this year "appreciably lower" than the 5.5 per cent average for 1967 increases. It called for restraint by business to hold the price line.

The council fixed no exact wage-price guideline, such as its 3.2 per cent recommendation in 1966, and it said unions couldn't be expected to hold their demands to 3 per cent this year, a level representing the increased cost of living in 1967.

But here's what has happened so far this year:

—Average wage settlements approached 6 per cent during the first quarter of this year, according to administration officials.

—Settlements in the key construction industry are already approaching 8 per cent with demands in some areas for wage increases reportedly as high as 33 per cent.

The council has never abandoned its classic wage-price guideline that in theory at least, maintains that price stability can be achieved only when wage increases are geared to increased productivity.

An exact figure was abandoned in 1967 when it became apparent a fixed guideline would be unrealistic and after the 1966 guideline was exceeded repeatedly. But the guideline theory is still dear to the hearts of government economists.

Some administration leaders see President Johnson's call for higher taxes along with congressional demands for spending cuts—as the key to renewed wage-price restraint.

Once the administration gets its house in order, the reasoning goes, it will be on firmer ground to request more restraint on wages and prices by labor and business.

There have been reports that unions and companies are pushing for higher wages and prices now to provide a higher base in case the administration decides to impose wage and price controls.

Government officials have repeatedly disclaimed any plan in this direction and have termed such controls repugnant.

Proteins Linked With Learning

By DEAN SULLIVAN
ASSOCIATED Press Writer

NEW YORK (AP) — Brain research scientists report that they have found, for the first time, specific proteins in the brain involved "in some intimate way" in learning and memory.

With this knowledge, one scientist said, it may become possible to "influence the proteins and, at crucial periods of development, increase the potential for learning."

Dr. Samuel Bogoch, director of the Foundation for Research on the Nervous System, of Boston, reported isolating acidic protein that increased during learning in pigeons.

"It is very likely that the same thing exists in man's brain," Dr. Bogoch said. "It would be most unusual if it is not so."

The work by Bogoch was confirmed by work done by Dr. Holgar Hyden, director of the Institute of Neurobiology at the University of Goteborg, Sweden.

Both men reported their studies to an international conference on "The Future of the Brain Sciences" sponsored by the Boston foundation and the Manfred Sakel Institute of New York, meeting today.

Dr. Hyden suggested another way of influencing the function of the brain—injecting nucleic acids.

It might be possible, he said Thursday, to counteract the aging process in the brain by infecting the brain with a virus carrying fresh genetic material.

Genes could be attached to a harmless virus, he said, entering the brain from the mucosa of the nose.

Hyden said his laboratory prepared brain DNA and injected it into the ventricles of animal brains. DNA, deoxyribonucleic acid, is believed by many to be the substance that controls heredity.

Within an hour, he said, the manufacture of protein in the brain increased by more than 100 per cent.

"This does not mean that an elixir of life has been found," Hyden said. "More hard facts are needed." But he said it might be possible to use the method to combat "entropy increase," the tendency to disorganization of brain cells with age.

Hyden said brain research can have "definite consequences" for teaching and planning of education.

Alcoholism Grows Ever More Costly

NEW YORK (AP) — Ten years ago industry used to talk about an annual billion-dollar loss because of alcoholism. Now it speaks of a $2-billion to $3-billion-a-year loss from the same ailment.

The figures demonstrate why an organization such as the National Industrial Conference Board, whose research generally attempts to advance business economics and management, is about to begin another study of the subject.

The board's 1958 study, called The Alcoholic Worker, was considered a milestone in industry's recognition of alcoholism as a disease.

"Ten years ago we had to scratch around to find enough companies to make up a rather thin report," said Dr. Stephen Habbe—pronounced hobby—author of the 1958 report and now in charge of the upcoming study to be financed by Kemper Insurance.

"Today we will have no trouble at all. I believe that among the top 100 companies, one-third have substantial programs to identify their problem workers and do something about them."

Another great change of attitude has taken place in the past 10 years. "Ten years ago," said Habbe, "we had very little to say about drinking at the executive level. Now we want to get into that this time too.

"Companies are much freer in telling you about the drinking problems at the shop level or at the sales level than they are at the executive level."

It is just this realization, that there are many hundreds of executives among America's five million alcoholics, that now contributes to the higher price tag of drinking. Executive errors generally are much more costly than shop errors.

During the 10 years since the first report many corporations have also become more aware that the losses they once attributed to more conventional illnesses really have an alcoholic base.

This multibillion dollar hangover results in more absenteeism, accidents, employe turnover, lost production, bad decisions and lowered morale. The worst of these, in Habbe's estimate, is absenteeism.

To fire the alcoholic, as is frequently suggested today and which was the method of dealing with the problem in the old days, is now thought of as a very crude method of dealing with the problem.

"We don't blame someone for getting pneumonia and we shouldn't blame someone for getting alcoholism," Habbe stated. But there is a practical reason also: firing the alcoholic may be uneconomical.

To dismiss the alcoholic is to write off a company's investment in him. This could be very costly, more costly than rehabilitation, especially if the replacement turns out to be a victim of the same ailment.

Asked if he thought there was a possibility that the losses due to alcoholism might be reduced, recovers from alcoholism. They Habbe replied:

"I would think so. It would not be cut to zero, of course; but it can be controlled. The recovery rate in alcoholism is quite good if you approach the illness in a reasonable way. Companies tell us of being able to achieve 50 to 70 per cent success in individual cases.

"I put recovery in quotes, because it is known by specialists in this area that nobody really recovers from alcoholism. They must abstain. They cannot take one additional drink."

Death Risk Greater In Eastern City

WASHINGTON (AP) — The place a man calls home can often mean the difference between life and death after he has reached middle age, a new federal study reports.

For the white man 45 to 64, it says, the death risk is twice as great if he lives in an Eastern city instead of a rural area of the central or western United States.

The highest-risk states it listed as Hawaii, North Carolina, South Carolina, Georgia, Nevada, northern Arizona, parts of Louisiana, southern Mississippi and east-central Pennsylvania.

States with the lowest risk: North Dakota, Nebraska, Minnesota, Kansas, New Mexico, Oregon, Colorado, Texas, Iowa and Missouri.

The findings were in a report released Thursday by the U.S. Public Health Service.

It said that in general, urban and other heavily populated areas have higher risk rates for middle-aged men than rural areas.

The reasons for these differences are not known, said Herbert I. Sour, a statistician for the National Center for Chronic Disease Control.

He said health experts are considering as possible causes such "risk factors" associated with heart disease as cigarette smoking, overweight, diet and the stresses and strains of life in various regions.

The heavily populated area between Boston and Washington, D.C., has a death-rate risk generally in middle to upper levels. The West Coast, other than Oregon, is mostly in the middle-risk rate range, the study said.

Sour said middle-aged white men develop cardiovascular disease three times faster than women of the same age and coronary heart disease five times faster.

"This is of increasing concern because only 50 years ago there was little difference between male and female rates," he said.

Olga Vargas will be crowned queen at the event. She won in the queen's contest with a total of 938 votes. First runnerup is Helen Lopez who received 845 votes and will be the Princess in the coronation ceremony, while the second runner - up is Jean Gutierrez, who received 723 votes and will be the Duchess in the coronation.

Mayor Bobby McCormick and Police Chief Stephen Clark will participate in the coronation ceremonies. Also, the Bishop of San Angelo, Most Rev. Thomas Tschoepe, D. D., is expected here for the event.

The queen will represent local Spanish American citizens in a Fiesta at Andrews on Sunday, May 12. The Andrews event is sponsored by the Chamber of Commerce there.

Trinity Methodist

The Festival of The Christian Home Week will begin with the morning worship service this week at Trinity. A special celebration of Holy Communion will be observed during the 10:55 a.m. worship service. Families are encouraged to sit as a family unit and to participate as a family during this service.

Church School will begin at 9:45 a.m. An all church - family picnic will be held Sunday night beginning at 7 p.m. in the barn in Towle Memorial park. Bread, tea, and coffee will be furnished by the Commission on Education. Each family is asked to bring a picnic lunch and share it with the congregation. Mrs. Bob Womack and her three daughters will present a program of folk songs for the entertainment. Following the picnic, bridge and forty two tables will be available for those who wish to play.

Opportunities for the Week include: Tuesday, May 7 -- District Wide Workshop for Vacation Church School workers at First Methodist Church in Big Spring, 9:30 a.m. — 2 p.m.

Three Held In Vandalism

The arrest of three juveniles yesterday cleared several cases of vandalism that had occurred in the city within the past couple of weeks, according to an announcement by Chief of Police Stephen Clark.

He said the three signed statements in connection with overturned mailboxes, damaged street signs and theft of gasoline caps.

Preliminary investigation was done by Patrolman D'Wayne Jernigan, and Detective Sergeant Bobby Goodwin did the followup investigation.

The three were turned over to Juvenile Authorities.

Be still

BE STILL

"And God hath set some in the church." Corinthians 12:28.

A church may be warm or be chilly with cold,
Its building all new or worn and old
Concealed in the woods or high on a hill,
Edifice crowded or a problem to fill
Its carpets all threadbare, its pews only stalls,
But that doesn't matter — God's in the four walls.

Public Notice

TO: JESSE JAMES, State Treasurer STATE OF TEXAS, Drawer X, Capitol Station, Austin 11, Texas

Notice of the Names of Persons Appearing as the owners of Unclaimed Amounts Held By: SNYDER SAVINGS AND LOAN ASSOCIATION, P. O. Drawer 830, Snyder, Texas 79549.

This notice is given and published pursuant to Section 3, Article 3272b, Revised Civil Statutes of the State of Texas, in an effort to locate persons who are the depositors or owners of amounts in accounts that have remained inactive or dormant according to the provisions of Article 3272b for more than seven (7) years.

The unclaimed amounts due the depositors or owners listed herein will be paid upon proof of ownership at the office of the named depository within nine (9) months, and if unclaimed thereafter they may be subject to report to and conservation by the State Treasurer in accordance with said Article 3272b.

Names of Missing Depositors and last known address:

Gray, Mr. or Mrs. W. H., 409 east 43rd Street, Odessa, Texas; Morris, Troy General Delivery, Snyder, Texas; Preas, Curtis W., c/o Phillips 66 Cafe, Snyder, Texas; Teater, Albert, 1009 32nd Street, Snyder, Texas.

THE STATE OF TEXAS, COUNTY OF SCURRY.

Before me, the undersigned authority, on this day personally appeared Max West who, after being by me duly sworn, deposes, says, and certifies as true the following:

1. That he is President of Snyder Savings and Loan Association, the Depository named in the above Notice.
2. That the foregoing is a full and complete list of the names of all depositors and creditors for whom dormant deposits or inactive accounts have been held for more than seven (7) years and whose existence and whereabouts are unknown to the Depository.
3. That such listed depositors and creditors have not asserted any claim or exercised any act of ownership with respect to their deposits or accounts during the past seven (7) years.

(s) Max West

LIFE

...what is it? Here, it is represented in the newborn. Generally speaking, "it is a vapor that appears for a little while and then is gone," James 4:14. Life from birth to seventy seems a very long time. But brother, reverse the sentence and take a look... *seventy back to birth is so very short.* Anyhow, the value of a life is determined by *how well it is lived* and not by *how long it is.* Every worthwhile life consumes its self serving others... administering to the sick, giving to the poor and challenging them to prepare for the Life Eternal. *The good life is full of little deeds made meaningful by a few Godly decisions.* Then attend worship services regularly.

NEW WORLD FOR MANDY — Mandy Rice-Davies, a prominent figure in London's Profumo scandal five years ago, plays with her pet cat and its kittens in her Tel Aviv home. It's been a new life for Mandy since she married an Israeli air steward-turned-businessman, became Mandy Shauli (pronounced Sha-ooly), and settled in Israel two years ago. (AP Wirephoto)

Mandy Awaiting Birth Of Baby

BY MARCUS ELIASON
Associated Press Writer

TEL AVIV (AP) — Mandy Rice-Davies, one of the leading figures of London's Profumo scandal five years ago, now waters her garden, models, makes movies, runs a discotheque, keeps house and waits impatiently for her baby to be born.

"Boy or girl, it doesn't matter," she says, "as long as it's sound in mind and limb."

The blonde former call girl married an Israeli air steward-turned-businessman named Rafi Shauli—pronounced Sha-ooly—and settled in Israel two years ago. The 22-year-old Londoner has become one of the most popular and best-known celebrities in Tel Aviv's noisy, arty night-life.

She and her husband run one of the most sophisticated night clubs in town. Mandy's Discotheque sets the pace and dictates the fashion for the humming mile-long strip of bright lights, coffee houses, steak bars and discotheques in central Tel Aviv.

She has cut her cascading hair short and pert.

"The pregnancy made it fall out," she giggles.

Mandy hasn't cut herself off from Britain. She flies there twice a year.

"Not that I'm crazy about England, but I visit people and buy clothes. You can't get anything here," she says.

She doesn't talk about the 1963 affair that shook the British government.

John D. Profumo, Britain's war minister, resigned after admitting that he lied to the House of Commons about his affair with Christine Keeler, another call girl who shared her affections with a Soviet Embassy attache. Christine and Mandy had shared an apartment and were the chief witnesses in the trial of Stephen Ward, who committed suicide on being found guilty of keeping a brothel.

Mandy has just finished filming a locally made movie called "Iris," to be premiered in June, in which she plays a seductive English model having an affair with a disillusioned Israeli journalist.

She speaks English in the film, but off the screen chatters away in fairly fluent Hebrew, laughs at her own mistakes and calls herself a shikseh—Yiddish for a non-Jewish girl.

She intends to convert to Judaism before her baby is born.

"Life here used to be a terrible rush," she says, "modeling, filming, traveling, keeping house, running the discotheque."

Her husband bursts into the house, yelling he is "starving to death."

And Mandy disappears into the kitchen.

TMA Plans New Vote On Abortion Law

HOUSTON (AP) — The 200-member policy making House of Delegates of the Texas Medical Association votes tonight on a proposed resolution calling for amendments to the state abortion law.

The members deadlocked on the controversial issue last year. A special committee was appointed to study the subject and make recommendations to the 1968 TMA annual session now under way here.

The committee called for amendments to what it termed the "archaic" state law which now allows abortions only to save the mothers' life and when they are performed under medical advice.

The resolution proposed changes in the state law to inculde allowing for therapeutic abortions in licensed hospitals by duly licensed physicians for patients who seek them under these:

—When there is a substantial risk that continuance of pregnancy would gravely impair the physical or mental health of the mother.

—When there is substantial risk that the child would be born with grave physical or mental defect.

—When the pregnancy result from rape or incest.

The committee said amendments to the state abortion law, written in 1925, would allow Texas physicians the freedom to do their professional duty in line with modern knowledge and hopefully, contribute to the reduction of criminal abortions.

Dr. Howard R. Dudgeon Jr. of Waco, president of the TMA, called on delegates Thursday to redouble efforts in trying to "improve and upgrade medical care in our state and to see that all people receive the best that is available."

NTSU BIOLOGIST'S RESEARCH

Stress, Heartbeat Studied

By ANGELA PENNA
Associated Press Writer

DENTON, Tex. (AP)—That wispy, fragile looking lad playig the piano and that husky, muscular athlete running the 100-yard dash are basically the same as far as heart beats go, says a North Texas State University biologist.

Dr. James R. Lott, using apparatus developed by space scientists to monitor body functions of astronauts, has been studying the effects of stress—both physical and emotional—on humans.

In monitoring the heart rate of Stefan Bardas, resident pianist in the university's School of Music, Dr. Lott found the musician's pulse rate remained above 120 during the entire two hours of a recent concert performance. The average pulse rate is 72. Twice his heart reached a peak of 168 beats per minute.

In contrast, a 100-yard dash specialist on the NTSU track team registered 144 at the start, 132 during the race, and 150 immediately after, in actual competition. A distance runner's heart registered 138 at the beginning of a one-mile run, reached 162 before the end of the race and briefly peaked at 168 immediately after.

The biologist said however, it was reasonable to believe that cardiac changes during actual athletic competition may not be the same as cardiac changes in nomcompetitive physical exertions.

He said he began his research with the young athlete in mind because of several deaths among the nation's school boy athletes.

"Some of these are attributed to heart problems, although in most cases the youngsters have undergone physical examinations prior to the beginning of the season," he said.

"I would like to see a time come when all young athletes undergo pre-season physical examinations that would include a biotelemetry examination of body functions during strenuous workouts," Dr. Lott said.

The scientist said he felt this might enable a team physician to detect some heart problems early enough to prevent further aggravation of the condition.

"My immediate aim is to establish a simple, inexpensive, routine test measurement of a diogram— and heart rate during a short exertion session, with equipment so portable it could be carried in a suitcase," Lott said.

Lott's research concerns the effects of physical and mental stress on three specific body diogram (EKG), the heart rate itself and the electroencephalogram (EEG), or electrical brain waves.

The apparatus used by the biologist consists of two small electrodes, about the size of a nickel, taped in place over the chest area for EKG readings or on the forehead for EEG readings. The electrodes are wired to a tiny FM radio transmitter, smaller than a penny match box, that can be taped to the body or carried in a pocket.

In operation, the radio transmits signals generated by the heart and brain. The signals picked up at Lott's "listening post" by a standard FM radio receiver, can be stored on magnetic tape or recorded visually on a writing recorder.

Yarborough Opposes 2 Proposals

AUSTIN, Tex. (AP) — Sen. Ralph Yarborough, D-Tex., says he is going to vote against horse race betting and liquor by the drink in Saturday's referenda.

"As a matter of conscience I shall cast my vote against Gov. John Connally's proposal to legalize the sale of booze across the bar and betting on the bangtails," the senator said Thursday in a statement released by the Anti-Crime Council of Texas.

"Since I am old enough to remember open saloons and legalized horse race gambling in Texas, I have a responsibility to state my position because I know some of the evils that would be wrought to the fabric of our social structure if these two proposals become law in Texas."

Neither proposal has any binding or legal effect on the legislature.

In another statement, this one issued today, the council quoted former Texas Atty. Gen. Will Wilson as saying the Texas Racing Association was "delibertaely confusing the issue."

Wilson said, "In all their advertising, they have tried to make the issue horse racing, rather than gambling. The fact is that horse racing is perfectly legal right now. The referendum is on gambling, not horse racing."

Wilson is co-chairman of the council.

Black and gold kokoa frogs live in the rain - drenched swamps of Colombia. Indians hunt them to get poison for blowgun darts. A kokoa weighing only a gram and measuring 1-¼ inches will yield enough venom for 150 darts. There is no known antidote.

Ike Still Improving

MARCH AIR FORCE BASE, Calif. (AP) — The progress being made by former President Dwight D. Eisenhower since suffering a mild heart attack Monday continues to satisfy his doctors.

A late bulletin said "there has been no reoccurence of any difficulties. . .Gen. Eisenhower remains at complete bed-rest in the cardiac care unit."

"The general spent another comfortable day," the announcement said.

Eisenhower, 77, was flown by helicopter to the air base hospital from his winter home at Palm Desert, near Palm Springs. He is expected to remain hospitalized at March for several weeks.
