6th Bomb Found In Negro Area

By JAMES PURKS

BIRMINGHAM, Ala. (AP) — A sixth potentially devastating homemade dynamite bomb was found in a predominantly Negro section today as authorities bolstered police patrols to guard possible targets.

Five of the devices which officers are convinced were meant to explode were found Sunday in this Southern steel city which has a history of bombings since 1955.

The latest bomb was found beneath a panel truck in the parking lot of a Negro funeral home, Poole Funeral Chapel.

The explosive device was disarmed by the same Army demolition experts who dismantled the five bombs previously uncovered.

The cheap alarm clock used as a timing device had stopped at 11:45 a.m., 15 minutes short of the noon hour used on similar devices in four of the other bombs. One of the bombs was timed to go off at about 6 p.m.

Its construction was similar to the other five — 50 sticks of dyamite and a detonating device. This brings the total number of dynamite sticks used in constructing the bombs to about 300.

G. M. Smith, one of the funeral home managers, said the latest bomb was found by James Taylor, a car washer for the mortuary.

SPACE HELMET ADJUSTED — Astronaut John W. Young adjusts his space helmet during the March 18 full dress rehearsal for the 2-man orbital flight in the Gemini 3 spacecraft, scheduled for March 23. Young and Astronaut Virgil Grissom are scheduled for the flight. (AP Wirephot)

Guardsmen Keep Watch

By ROSS HAGEN

SELMA, Ala. (AP) — About 400 marchers led by Dr. Martin Luther King Jr. broke camp in a frost-covered cow pasture today and started trudging along the highway on the second leg of a 50-mile voter crusade to Alabama's capital.

It was clear and crisp under a bright blue sky when the marchers rolled out of their sleeping bags and ate breakfast. They were the remnants of thousands who started the trek Sunday from Selma.

They dined on oatmeal, toast, jelly and coffee.

Then about 8 a.m. the march resumed. King said they would walk 14 miles today — twice the distance covered in the first day of the pilgrimage to Montgomery aimed at dramatizing his Negro voter drive.

The temperature fell to 31 degrees overnight, but after sunup the weather grew warmer.

King slept in a pink and white heated house trailer placed in the center of the camp. Two large green tents were the sleeping quarters for the marchers. The men slept in one, the women in the other.

National Guardsmen, federalized by presidential order, kept watch around the camp. The soldiers stood around their own fires, circling the tents at about 100 yards.

A security guard composed mainly of members of the Student Nonviolent Coordinating Committee stood sentry duty within the camp and at King's trailer.

Dr. King, calling it a Gandhi-like procession, led the march from Selma Sunday as it topped the Edmund Pettus Bridge, went down the other side and trooped eight abreast to the campsite.

After crossing the bridge, some of the younger marchers laid down on the highway as a symbolic reminder that this was the spot where state troopers had wielded billy clubs and thrown tear gas to stampede a similar march two Sundays before.

At nightfall the marchers were 42 miles from Montgomery, the state capital. They expect to reach there Thursday.

Campfires glowed in the darkness around the camp. A program was canceled because of the near-freezing weather. Foot blisters were treated.

Bedrolls were opened. Sleeping bags were laid out. The weary marchers retired.

While they slept, soldiers guarded the camp. Patrols rotated on guard duty, retiring at intervals to pup tents thrown up about 200 yards away.

Sleeping in one of them was Brig. Gen. Henry V. Graham of the Alabama National Guard, commander of the task force assigned to the march.

Although the day's march was met with some jeers, King said he was surprised there were not more.

His explanation: the people of this area "apparently have resigned themselves that the Negro movement is an unstoppable movement and that they cannot stand on the beach and hold the tide back."

BY US FORCES

Non-Lethal Gases Used In Viet Nam

SAIGON, South Viet Nam (AP) — U.S. and Vietnamese military forces are experimenting with non-lethal gas warfare in South Viet Nam, highly reliable sources reported today.

The sources said various types of non-lethal gases have been used against the Viet Cong in the 2nd and 3rd Corps regions.

Some of these experiments have succeeded, it was reported, but others have failed.

The nature of the gases is classified information, but they are believed to be mixtures that include tear gas, the universal riot control weapon. One gas reportedly causes extreme nausea and vomiting, another loosens the bowels.

Helicopters and fighter bombers reportedly have been equipped to dispense the gases over battlefields.

One objective of this gas warfare is to immobilize the enemy quickly to permit the rescue of prisoners held by the Viet Cong.

Another use for gas, military sources said, is neutralization of the enemy in tunnel areas.

Associated Press photographer Horst Faas was on one such operation Sunday. Gas was to be used if the Viet Cong pinned down the attacking government force.

There proved to be a major shortage of gas masks. One tank unit had 51 masks and 116 men. These without gas masks were given pieces of lemon and handkerchiefs.

An infantry battalion in the operation had 170 masks for its 400 men.

The Vietnamese troopers obviously were unfamiliar with the gas masks, Faas reported, and the masks were too big. As it turned out, gas was not used. Vietnamese infantry officers said they were hesitant to use it because their men were not familiar with it. All agreed gas would be a valuable aid in areas where the Viet Cong was dug in.

Informed sources pointed out that the use of gas is still in the experimental stage.

"Even if it does work over here, there are real problems of getting it accepted," a U.S. officer said. "The difficulty is in getting the American public used to the idea.

"Even though the stuff used here is non-lethal and has no lasting effects, the idea of it all brings back memories of World War I and mustard gas."

N. Viet Targets Plastered Again

SAIGON, South Viet Nam (AP) — Eight U.S. Air Force jets strafed and bombed targets in North Viet Nam today. One of the F105 fighter-bombers was downed over Communist territory, but the pilot was rescued, an Air Force spokesman said.

The other seven F105s returned safely to their base, the spokesman said. There was no word what they hit, or how the F105 was forced down.

Their targets were believed to have been military vehicles moving along North Vietnamese roads, however. The spokesman said they were carrying out a reconnaissance mission, seeking military targets moving along the road.

The spokesman said it was the first time such a mission had been flown against North Viet Nam. Instead of having targets assigned before the raid, the fliers have freedom to seek out "targets of opportunity."

There was no immediate indication from what base the American jets flew.

South Vietnamese and American planes raided another North Vietnamese military base Sunday. The Vietnamese planes dropped 52 tons of bombs and rockets and the U.S. planes hit antiaircraft installations.

The target was Vu Con, 15 miles inside Communist territory. A South Vietnamese communique described it as a base for a battalion of regular North Vietnamese troops, a temporary base for guerrillas operating in the south and a supply and ammunition depot for Red guerrillas operating in Quang Tri Province, in South Viet Nam.

It was the eighth air strike against Communist North Viet Nam since a series of U.S. and South Vietnamese raids began Feb. 7.

Participation by U.S. planes was not officially announced, but Vietnamese pilots returning to Da Nanag said between 30 and 40 F100 and F105 U.S. jets softened up the target area with rocket and cannon fire.

Lt. Col. Pham Long Suu, the Vietnamese air force chief of staff, flew the lead plane in the squadron of 26 Vietnamese propeller-driven Skyraiders. He said all his planes returned to base and he believed all the American planes got back safely also.

Indonesia Places Reds In Command

JAKARTA, Indonesia (AP) — Indonesia put government-picked management teams today in the head offices of Western oil companies placed under government control last week.

Workers of the Communist-dominated Perbum union took over the head office of the Caltex Oil Co., however, without waiting for the government to appoint its management team.

Deputy Prime Minister Chaerful Saleh told newsmen the new oil measures were aimed at preventing "internal and external interference" with the multimillion-dollar operations. Saleh, who heads the oil industry, had met earlier with President Sukarno.

There was no indication how much control the management teams would exercise over the firms. Saleh said if the government had not taken the step "there would have always been trouble with labor."

Police and army troops were reported keeping order at Caltex's big refinery at Sungeigerlong in south Sumatra.

More Texans Have Jobs

AUSTIN (AP) — The 4.2 percent average rate of unemployment in 1964 was the lowest in seven years, the Texas Employment Commission said today.

The commission said Texas' population on Jan 1 was 10.4 million and the labor force 3.8 million or 37 per cent of the population.

The peak of unemployment in the last 15 years was 6.8 per cent in February, 1961, the commission said.

Farm employment has dropped from 455,600 in 1950 to 308,000 in 1964.

"Mechanization of farming has led to increased productivity of farm workers. It has been estimated that the average farm worker today supplies food and fiber for 31 other persons compared to 15 in 1950," the report said.

WEATHER CLEARS

Hopes High For Gemini

By ALTON BLAKESLEE

CAPE KENNEDY, Fla. (AP) — Gradually improving weather conditions raised hopes today that two finely-honed American astronauts would be able to pioneer some vital "steering" in space Tuesday.

Project officials for the first two-man Gemini flight pored over early morning weather reports. Then a spokesman said: "These conditions would be well within the requirements for a launch."

"It looks good for a launch, if these conditions hold."

The Tuesday morning forecast for the Cape was broken skies, no rain, temperature about 68 degrees, winds from the east at 10 miles an hour, two- to three-foot waves off the launch area, and a cloud ceiling of 10,000 feet.

Still worrisome, however, was the area 240 miles south of Bermuda where astronauts Virgil I. Grissom and John W. Young would land if the flight were terminated after two orbits. Winds of 15 to 20 miles an hour were forecast under a rainy, 2,000-foot cloud ceiling, with visibility limited to about five miles.

Space officials like to have six miles visibility in the recovery areas.

Grissom and Young are assigned to take complete command of their "Molly Brown" spacecraft and to change its orbit twice — in other words, steer it in space during their scheduled three-orbit journey. No one has ever done that maneuvering before.

This is an essential step in developing the ability to hook up with another craft in space. The technique must be perfected before men can ever land on and return from the moon — toward which Ranger 9 is soaring now for another close-up inspection.

It will be the second space flight for Grissom, 38, an Air Force major who made a suborbital trip in 1961, and the first for Young, 34, a Navy lieutenant commander. Both are experienced test pilots.

Grissom and Young faced a busy day today reviewing the essential steps of their flight and how they would perform several scientific experiments. Mainly, this Gemini flight is intended to prove out all the intricate systems in their spacecraft and its purposes.

Ranger 9 Seeks Site For Landing

By RALPH DIGHTON

PASADENA, Calif. (AP) — Hurled with unprecedented accuracy, Ranger 9 streaked toward the center of the moon today with cameras hunting a landing site for U.S. astronauts later in the decade.

Scientists announced early today that they had decided against an 8:30 a.m. (EST) midcourse maneuver, the firing of a small steering rocket to aim the spacecraft closer to its exact target, the possibly volcanic crater Alphonsus.

Instead, they said, the maneuver would be made about 24 hours later.

Alphonsus, about 16 miles in diameter, is only 400 miles south of the spot almost dead-center on the moon where Ranger 9 would impact without a change in course.

The craft is capable of altering its path up to 6,200 miles on either side of the moon.

Two interested spectators at Sunday's 4:37 p.m. launch at Cape Kennedy, Fla., were Virgil I. Grissom and John W. Young, set to take a three-orbit spin Tuesday in the first of a series of Gemini spacecraft, forerunners of the three-man Apollo ship scheduled to rocket to the moon within five years.

So accurate was guidance during the launching that, for the first time during the Ranger series, scientists said the spacecraft would hit the face of the moon without mid-course correction. Ranger 4 impacted on the back side of the moon without a change in its original trajectory. All other Rangers would have missed the moon by up to thousands of miles if their flight paths had not been altered.

Plans call for Ranger 9 to crash into the moon at 9:07 a.m. (EST) Wednesday taking thousands of pictures in the final 20 minutes.

Ranger 7 snapped more than 4,000 photographs, and Ranger 8, more than 7,000 in the last 1,000-odd miles of their quarter-million-mile flights.

Ranger 9's target, Alphonsus, is in a highlands area between the broad plain, called Mare Cognitum, where Ranger 7 landed, and Mare Tranquillitatis — Ranger 8's impact site.

These plains are dimpled with thousands of small craterlets, apparently created by the impact of meteorites, which might mean a rough landing site for astronauts.

One reason that Alphonsus was picked as the target is that its 10,000-foot-high walls may have warded off enough meteorites to leave its interior fairly smooth.

Court Discusses Ag Agent Pay; Petition From Hermleigh

The Scurry County commissioners court met this morning with Commissioner Bill Herring acting as county judge in the absence of Sterling Taylor, county judge.

The court read a request from Bill Gunter of the state agricultural extension service, that the salary of Billy Roach, county agricultural agent, be increased by $708 per year. The court discussed the salary and expense schedule of the agent, but took no action at this morning's meeting.

The court also received a petition from over 200 Hermleigh residents that the county construct a Community Center in Hermleigh. Most of the signatures on the petition were obtained last September. The petition, however, was not presented until today. The court took the request under study.

Also studied by the court this morning was the air conditioning of the new coliseum. No decision as to what type of air conditioning will be best for the new building has yet been made.

The Board of Equalization hearing was set for 9 a.m., Monday, June 28.

Charlie H. Cantrell, 39, general manager of Snyder Truck and Tractor, met with the court to submit his application for the position of manager of the coliseum. Cantrell noted that it would be of benefit to the manager and to the county if the manager could be selected in time for him to work with the architects and contractors on the building.

Red China Accuses Kremlin Of Splitting Communist Bloc

TOKYO (AP) — Communist China accused the Kremlin's leaders today of selling out to the United States and splitting the Communist bloc.

They accused the new Soviet leadership of being more cunning than ousted Premier Nikita Khrushchev. The denunciation set the stage for another name-calling squabble reminiscent of the days before Khrushchev was removed last October.

In lengthy editorials to be published Tuesday in two leading Communist Chinese publications, Peking demanded the new Soviet leaders stop following in Khrushchev's footsteps and recant their errors.

Peking's New China News Agency said the editorials will be published in the Peking People's Daily, the Communist party newspaper, and Red Flag, a party theoretical journal.

Communist China had promised for several days to break silence and issue an official comment on the Soviet-sponsored Moscow party conference earlier this month which the Chinese and their allies boycotted.

The editorials tell the new Soviet leaders that by convening the conference — originally proposed by Khrushchev — they placed "new and serious obstacles in the way of convening an international meeting for the unity of the fraternal Communist parties."

"We said before that in order to hold a successful meeting for unity, some four or five years of preparatory work might be required to remove the obstacles, but now it seems that a period twice as long, or even longer, will be needed."

Peking told the 19 Communist parties that attended the Moscow conference it had no intention of listening to their request that it call a truce in the ideological quarrel. The Chinese claimed they have a right to reply to statements made against them.

"In these circumstances, it will not do to call for an end to the public polemics, it will not do to stop for a single day, for a month, a year, 100 years, 1,000 years or 10,000 years."

Referring to U.S.-Soviet relations, Peking said "numerous facts show that the clamor of the new leaders of the Communist party for the Soviet Union against U.S. imperialism is a sham while their capitulation to U.S. imperialism is the essence."

Still at the root of the Moscow-Peking party feud is the Soviet party contention that this is the time for peaceful competition with capitalism, as against the Chinese view that capitalism must be crushed, by force if necessary.

Ramage Child Returned To Lubbock

Kayla Ramage, 3-year - old daughter of Mr and Mrs George Ramage, 213 Thirty-fifth Street was returned to Methodist Hospital in Lubbock Sunday in serious condition.

WEATHER

SNYDER TEMPERATURES: High Saturday 45 degrees; low 13 degrees; reading at 7 a.m. Sunday, 31 degrees. High Sunday 62 degrees; low, 31 degrees; reading at 7 a.m. today 42 degrees.

North Central Texas: Mostly cloudy and a little warmer tonight and Tuesday. Showers over 40 per cent of area Tuesday. Low tonight 48 to 60. High Tuesday 68 to 75.

Northeast Texas: Mostly cloudy and a little warmer tonight and Tuesday. Occasional drizzle in south tonight and Tuesday morning. Showers over 70 per cent of area Tuesday afternoon. Low tonight 50 to 60. High Tuesday 66 to 75.

Northwest Texas: Cloudy and windy tonight and in east and north Tuesday. Warmer in south tonight, cooler in north tonight and Tuesday. Occasional rain in north and showers over 30 per cent of southeast Tuesday. Low tonight 28 in north to 37 in southeast. High Tuesday 46 in north to 76 in southeast.

Southwest Texas: Partly cloudy to cloudy tonight and Tuesday. Occasional light rain or drizzle in extreme south, east tonight and a few showers in east Tuesday. Low tonight 42 to 44. High Tuesday 65 to 75.

THE SUSPENSION BRIDGE — Only one of its kind in West Texas, was the center of attraction at the annual District 3 Girl Scout Fair Saturday at Camp Boothe Oaks, near Sweetwater. About 225 Snyder girls were among the 2,200 Scouts from a 16-county area who displayed their work for the past year. The bridge, like everything else at the camp, was built with "cookie money."

Local Band Students Rate High In Regional Contest

Students from the three local school bands won a total of 83 first division medals at the Region II Interscholastic League Solo and Ensemble contest held Saturday on the campus of Howard Payne College in Brownwood.

Over 2,000 students from bands in the West Texas area competed in the contest. Ratings were given by the judges of First Division, Superior; Second Division, Excellent; Third Division, Good; Fourth Division, Fair; and Fifth Division, Poor.

In 69 events entered, the Snyder bandsmen placed First Division in 32 events, Second Division in 28 events, and Third Division in 9 events. No Snyder student was rated below Third Division.

The Snyder High School Band is directed by Melvin Montgomery and Charles Shaw. The Lamar Junior High Band is directed by Don Eiring and the Travis Junior High Band is directed by Jerry Pickens.

Results of the groups were as follows:

SNYDER HIGH SCHOOL BAND

First division soloists — Connie Reynolds and Sharlot Rose, Bb clarinet; Janie McBeth, tenor sax; Norman Anderson, bariton sax; Anne Shelburne, bassoon; Dennis Phariss, cornet; Robert Clinton and John Burton, French horn; Jimmy Way, snare drum.

Second division soloists — Triesta Angel, flute; Carol Eime, Kathy Keller and Margaret Zeck, Bb clarinet; Camille Curry and Kathy Edwards, cornet; Leroy Guillen, baritone; Melinda Merritt, French horn.

Third division soloists — Jodi Snyder, Bb clarinet; Leta Ewing, bass clarinet; June Westfall and Keith Krop, cornet.

First division ensembles — Flute trio (Denise Welch, Claudia Salmon, Triesta Angel). Clarinet quartet (Gayle Payne, Karen Rodgers, Janice Cushenberry, Linda Schattel). Clarinet quartet (Connie Reynolds, Jodie Snyder, Judy Land, Doug Pitner). Saxophone quartet (Janie McBeth, Judy Land, Gary Perser, Tommie Sue Williams). Cornet quartet (Jerry Jones, June Westfall, Gary Worley, Camille Curry). Brass sextet (Robert Clinton, James Hamblen, Leroy Guillen, Mark Clark, Keith Krop, Dennis Phariss).

Second division ensembles — Clarinet trio (Charlotte Duckworth, Kathy Keller, Sharlot Rose). Saxophone quartet (Docena Howarton, Durrel Bransen, Kathy Crisp, Norman Anderson). Cornet trio (Dyan York, Rodney Michie, John Salmon). Trombone quartet (Glem Arnold, Mark Clark, Mike Stephens, Doug Burney). Trombone quartet (Leon Franks, Bill Gordon, Tom Lowe, Alvin Lockhart). French Horn quartet (John Burton, Joyce Greenway, Jimmy Way, Shirley Mitchell).

Third division ensembles — Clarinet quartet (Dianne Phariss, Patsy Orms, Glenda Sehested, Phyllis Wolfe). Clarinet quartet (Carole Eime, Nancy Meador, Leta Ewing, Lora Snyder.

Piano accompanists for the soloists were Diane Hargrove, Anita Holt, Triesta Angel, June Westfall, Arnetta Cooper, Joyce Greenway, Janice Cushenberry and Beth McCloskey.

TRAVIS JUNIOR HIGH

First division soloists — Diane Lehman, flute; Doris Everts, alto sax; Jerry Cochran, John Thomas and Ruben Felan, cornet; Linda Greenway and Jerry Tate, trombone; Larry Wadzeck, bass; Charles Toombs, snare drum.

Second division soloists — Jimmy Davis, flute; Vicki Boyd, bassoon; Dianne Lewallen, baritone; Billy Covey, snare drum.

Third division soloist — Diane Rose, baritone.

First division ensembles — Woodwind trio (Jimmy Davis, Pat Land, Caroline Stansell). Clarinet trio (Pam Parker, Beverly Neeper, Sue Koonce). Saxophone quartet (Doris Everts, Jon Holdren, Nancy Kimbrough, Troy Welch). Brass quartet (Jerry Cochran, John Thomas, Linda Greenway, Jerry Tate).

Third division ensembles — French horn quartet (Johnny McBeth, Max Mearse, Harvey Browning, Leslie Boyd).

Piano accompanists for the soloists were Diane Rose, Caroline Stansell, Susie Hendrix, Triesta Angel, Kay Turner, and Loren Stoltz.

LAMAR JUNIOR HIGH

First division soloists — Jan Williamson, Judy Voelkel, Judy Bruyere and Barbara Fever, Bb clarinet; Sherry Myers, alto sax; Susie Hendrix, flute; Daphne Merritt, French horn; Rommie Jackson, cornet; Sherry Roberts, baritone.

Second division soloists — Patsy Williams, clarinet; Sherry Hollis, bass clarinet; Molly Walker, oboe; Larry Wesson, tenor sax; Johnny von Roeder, cornet; Charles Crites, snare drum.

Third division soloist — Charis Headstream, oboe.

First division ensembles — Drum trio (Charles Crites, Frank Jackson, Donald Howarton). Clarinet quartet (Jerry Thompson, Barbara Faver, Beth Vestal, Debbie Reynolds). Saxophone quartet (Sherry Myers, Regina Ellis, Larry Wesson, Molly Walker). Flute trio (Susie Hendrix, Sue Ellen Line, Jamie Stehley.) Flute trio (Debbie McLennan, LaVerne Nix, Sandra Howard.)

Second division ensembles — Cornet quartet (Johnny von Roeder, Murray Ann Jackson, Barbara Aycock, Sharon Carter). Cornet quartet (Rommie Jackson, Paul Zeck, Debra Rogers, Cheryl Wilkins). Clarinet quartet (Jan Williamson, Judy Voelkel, Patsy Williams, Judy Bruyere). Flute trio (Evelyn Feather, Nancy Weyel, Linda Hicks).

Piano accompanists for Lamar soloists were Molly Walker, Susie Hendrix, Debra Norton, Jan Williamson and Linda Hicks.

I. C. James Dies In Pecos

Funeral services were to be held at 5 p.m. today for Mr. Issac Charles James, 88, of Pecos.

Mr. James, who was born July 30, 1876 in Utah, had lived for many years in the Scurry and Mitchell County area. He had operated a farm in Mitchell County before moving to Pecos five years ago.

Mr. James died at Memorial Hospital in Pecos at 1:30 a.m. Sunday. The funeral was to be held at the Eastside Church of Christ with Don Browning, minister of the church, and Ralph Russell, minister of the Pecos Church of Christ, officiating. Burial was to be in Hillside Memorial Gardens under the direction of Bolger Funeral Home.

Grandsons of Mr. James were to serve as pallbearers.

Survivors include his wife, Linnie; two daughters, Mrs. Bunah Allyne Crowder of Alpine and Mrs. Dora Iola Reeves of Colorado City, three sons, Malcolm of Snyder, Orville of Big Spring, and E. J. of Pecos; 16 grandchildren and 17 great-grandchildren.

Tourist Finishes Trip By Ambulance

A Cyril, Okla. woman, Mrs. L. D. Webb, was taken to her home in Cyril by Bell - Seale Ambulance Service Sunday night.

Mr. and Mrs. Webb and their two daughters were en route from Midland to Cyril Sunday afternoon when Mrs. Webb became suddenly ill. Mr. Webb stopped at the L. E. Vandiver home eight miles north of Snyder for help.

An ambulance was called, and Mrs. Webb was taken to Cogdell Hospital where she was treated, and then taken on to her home by ambulance.

Ex-Patient's Body Found In Lake Austin

AUSTIN (AP)—The body of Thomas Russell Fulton, 44, was found floating today on Lake Austin. The Georgetown man was a former patient of the Veterans Hospital in Waco. The body had been in the water several days.

L. Ryan Rites Set Tuesday

Funeral services will be held at 3 p.m. Tuesday for Mr. Lindsey Ryan, 72, of San Antonio.

Mr. Ryan was born Mar. 28, 1892 at Enders, Ark., and came to Collin County, Texas as a small child. He came to Scurry County from Collin County in 1904, and lived here until 1924 when he moved to San Antonio. He died at Nix Hospital in San Antonio at 1:50 p.m. Sunday.

The funeral services will be held at the Hermleigh Methodist Church. Burial will be in the Hermleigh Cemetery under the direction of Bell-Seale Funeral Home.

Mr. Ryan is survived by his wife, Eula; one daughter, Mrs. Verdie Schock of San Antonio; one son, E. L. Ryan of San Antonio; one sister, Mrs. L. E. Vineyard of Kress; five brothers, Rual Ryan and Cliff Ryan of Snyder, W. C. Ryan of Post, Clydie Ryan of Lubbock and Odell Ryan of Perryton; two grandchildren and three great-grandchildren.

DWI Charges Filed

Two men, both charged with DWI by the Texas Highway Patrol, were released on bond over the weekend.

David Berry Hale of Midland was released on a $400 bond.

Edward Perry McDaniel of Snyder was released on $500 bond.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I went steady with a guy for four months and everything was going along fine until my girl friend told me that he was making a big play for another girl. I asked him about it, and he denied it, but we had a big fight over it anyway. Then my girl friend told me she heard that he was throwing darts at my picture. Before I knew what was coming off, she had his picture torn in bits in an envelope and on his front porch. He thought I did it. In a way I was glad, because he tried to show the world that he could hurt me, so I wanted to show him I could hurt him, but it wasn't easy when I saw him circling the block three times to see if I was home. I was, but I didn't come out. Should I stay mad at him? Or should I make up with a guy who did what he did?

STILL LIKES HIM

DEAR STILL: What did he do? You found him guilty on hearsay evidence. And then you permitted your girl friend to act for you. This girl "friend" (?) seems to be running your life. Why don't you use your own judgment and make your own decisions? You couldn't do worse.

• • •

DEAR ABBY: When I go to weddings and funerals everyone else is in tears, but I remain dry-eyed. But when I see a sad movie, I cry like a baby. I have never been able to show my emotions in public, and because of this I am sure many people think I am hard and insensitive. Do you think I need to see a psychiatrist? Or is this normal?

CRY BABY

DEAR CRY BABY: It is not uncommon for people to suppress their emotions in public. But if you shed tears easily in private, I can't see where you have any problem. Don't let it bother you. There are many highly emotional people who would envy your control.

• • •

DEAR ABBY: During a discussion in our office, it was unanimously agreed that you were just the right person to settle a very perturbing question for us.

At what age does one stop addressing a young man as "Master" and commence to address him as "Mr."?

Very truly yours,
P. J. D.

DEAR P. J. D.: In addressing a letter (or gift) to a young man, use "Master" until the end of his twelfth year. While he is in his "teens," on his cards and mail addressed to him, he is just plain "John Jones." When he is out of his "teens" — call him Mister! P. S. A girl, however, receives the dignity of the title "Miss" from the cradle to the altar.

• • •

CONFIDENTIAL TO WORRIED SICK IN JACKSONVILLE: Stop worrying. No one can obtain information from the Veteran's Administration concerning a veteran's discharge without a court order subpoenaing the records. The Veteran's Administration office will not even send medical records of information to the veteran's own doctor unless the veteran signs a release.

• • •

Problems? Write to ABBY, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self - addressed envelope.

• • •

Hate to write letters? Send one dollar to Abby, Box 69700, Los Angeles, Calif., for Abby's booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

Can Strikes Are Ending

NEW YORK (AP) — The United Steel Workers have agreed to end their three-week strike against the American Can Co. and today appeared near settlement with the Continental Can Co.

Some 32,000 steel workers shut down the two can industry giants March 1 after a five-month extension of contracts.

The AFL-CIO union and American Can announced early today that agreement on a new 40 - month pact had been reached and 16,000 steel workers would return immediately to the company's 35 plants in the United States and Canada.

The union pact with American can calls for a 46-cent-an-hour package including 10-cent-an-hour minimum increases retroactive to Oct. 1 and 7-cent minimum wage hikes Dec. 1, 1966.

Other provisions in the new contract call for increased pension, group insurance and hospital and medical benefits.

Snyder VIC Students In Competition

The Snyder Chapter 155 of Vocational Industrial Clubs participated in the annual District VIC meeting at El Paso over the weekend.

The meeting was highlighted by elimination contests for the state meeting to be held April 23-24 in Galveston.

Snyder first place winners in skill - speed contests included Nancy Hollis, laboratory technician; Richard Johnson, meat cutting, and Jerry Lynn Hudgins, nurses aide.

First place winners on projects were Jerry Lynn Hudgins, nurses aide; Pam Cole, optician; Jimmy Brooks, carpenter; Tommy McKinley, plumber; Nancy Hollis, laboratory technician; Phillip Kimmel, appliance repairman; Billy McArthur, auto mechanic, and Richard Johnston, meat cutter.

Nancy Hollis won third in parliamentary procedure, and Pam Cole was in the top 10 students in job application.

The local club's officers team took first place in the club ceremonies contest.

Mr. and Mrs. J. C. Jackson accompanied the local students on the trip to the district meeting.

HOSPITAL NOTES

COGDELL HOSPITAL

(It is requested that visiting be done only during visiting hours of 2 to 4 p.m. and 7 to 8:30 p.m.)

ADMISSIONS: Alice Smith, Hermleigh; Ruben Olivarez, 2011 Avenue N; Luella Brice, 2712 Avenue U; Alta York, 3100 Avenue W; Jewell Ellis, 2214 Forty-third; Edna McCowan, Rt. 2; Belinda Willett, 2106 Merrill.

DISMISSALS: Nannie Gandy; Gerrel Bigham; William Austin; Robert Powell; Ruth Smith; Glenda Dearman; John Watts; Daisy Cannon; Bobby Hataway; Jesse Roberson; Flora Edith Webb.

Choral Contest Results Corrected

Some of the results in interscholastic league choral contests were announced incorrectly in initial reports from Abilene.

The corrected results show that the Snyder High School mixed choir rated Division I in concert singing and Division IV in sight reading, while the SHS A Cappella Chor rated Division I in concert singing and Division II in sight reading. The Lamar mixed choir rated Division III in concert singing.

Mishaps Reported

The Texas Highway Patrol investigated two mishaps Sunday.

At noon, at the intersection of U. S. 84 and the Ennis Creek Road one mile north of Snyder, a mishap was reported which involved a 1958 Cadillac driven by Raymond Allen McDaniel of Abilene, and a 1958 Ford driven by Judie Morrison Kellner, 812 Thirty - second Street.

Damage to the McDaniel car was estimated at $450 and to the Kellner car at $150.

At 4:50 p.m. the Highway Patrol reported a mishap three miles south of Snyder on U. S. 84. Involved was a single car driven by Rosa Witte Fisk, Rt. 2. Her 1962 Dodge struck a post in the median as she attempted to make a turn into a private drive. Damage to the car was estimated at $100.

No injuries were reported in either mishap.

Snyder Man Sought As Jail-Breaker

Local law enforcement agencies were alerted this morning to be on the lookout for Ronnie Shy, 23, of Snyder who escaped the Victoria County jail early this morning.

Shy and a companion, Tommy Scott of Ft. Worth and Corpus Christi, escaped by sawing through a steel bar and using a crude ladder made from bedsheets.

Scott, 26, was arrested in Corpus Christi within hours. He was charged with car theft.

The charge against Shy was not reported. However it was known that he and Scott were to appear for trial this morning.

Child Injured When Kicked By Horse

Latrisa Hopper, four - year-old daughter of Mr. and Mrs. Durwood Hopper, 309 Thirty-sixth Place, received head injuries late Sunday afternoon when kicked by a horse.

The accident occurred west of Snyder, and the child was brought to town by private car. She was transferred from Cogdell Hospital to Methodist Hospital in Lubbock by Bell-Seale Ambulance Service. The seriousness of the injury was not known this morning, although the child reportedly withstood the trip to Lubbock well.

TODAY'S MARKETS

PERFECTLY ATTUNED to the young at heart is this gay young slip dress in double-knit. Styled with a low V'd neckline front and back, it introduces a surprise flash of contrasting color in the dainty straps. Divinely danceable, it has the greatest in-motion freedom so typical of knitted wool that can stretch as far as the legs wish to go while dancing.

Gardener's Corner

BY EARL ARONSON
AP Newsfeatures

YOU MAY have budding tulips, hyacinths, daffodils or crocuses from bulbs for Easter if you start the plants three or four weeks before the holiday and give them the proper temperature, humidity and light.

The plants will grow quickly because much of their early strength for development comes from within the bulb.

Special plant growth fluorescent lamps, such as Gro-Lux, will add artificial light when natural light is inadequate.

Plant bulbs with their tips exposed. If you use the fluorescent lamps, the bulb tips should be 6 to 8 inches from the light source at the start for the best response. As the plant grows, raise the lamp to 12 inches to maintain proper intensity and air circulation for the best growth.

A slightly acid soil also helps development of bulb-plants. For food use as a complete fertilizer, such as 5-10-10. Keep the soil moist at all times to insure root aeration but do not saturate the soil with water as this will rot the bulb.

If you transplant outdoors, expose the plant to outside weather conditions gradually. Increase the period daily for about 10 days to harden it to the weather. When placed in the ground, the bulb crown should be about one-half inch beneath the surface.

Plant growth lamps are not a substitute for good care. Cultivate the plant growth regularly during its indoor growth.

* * *

Herbs grown indoors in pots or planting boxes should be kept on the dry side. The humid air of your kitchen (or laundry room if you have one) probably is the best spot for an indoor herb garden.

* * *

Our African violets are blooming better and the foliage has improved since we moved them to the kitchen window they enjoy the best morning sun.

* * *

Plants growing on one side of his Massachusetts home in midwinter warned one of our correspondents of trouble. His house has radiant heat — built into the floor slab. A hot water pipe at one edge sprung a leak and was moistening the nearby ground with warm water. He investigated when he noticed that there was no snow in the area and that some of his perennial and self - seeding plants were growing.

Ira P-TA Has Special Guests

Ira P-TA met March 18th in the High School study hall with 27 members and three visitors present. Mrs. J. L. Byars, president, presided.

Reports were given by committee chairmen.

New officers for the following year are: Mrs. Pete Sterling, president; Mrs. Pete Hester, vice president; Mrs. Welden Wiggins, secretary; and Mrs. Johnny Weir, treasurer.

The Ira P-TA was honored with the presence of Mrs. Sam Mosier, Mrs. Nina Kate Lewis and D. V. Marcum, as guests.

Betty House, program chairman introduced Mrs. Nina Kate Lewis as speaker for the program. She spoke on "Establishing of Identity of Children Who Have Special Needs." Some of the points brought out were, a childs full blooming depends on it's beginning: — In the heart of a seed, Is the hope of the sod, In the heart of a child, Is the kingdom of God.

First and second grade tied for room count banner.

WOMEN'S CALENDAR

MONDAY

Rebekah Lodge meets at IOOF hall at 7:30 p.m.

Rainbow Girls meet at 6:30 p.m. at Masonic hall for salad supper honoring Grand visitors. Regular meeting at 7:30 p.m.

Delta Kappa Gamma meets at 7:30 p.m. with Virginia Grove and Maydelle Burns, 2403 Thirty-first Street.

Lamar Junior High P-TA. Election of officers.

TUESDAY

Business and Professional Women's Club meets with Dell Smith, Florence Leftwich and Ethel Roberts, hostesses.

Atheneum Study Club, 3:45 p.m. at Martha Ann Woman's Club. Delores Kay hostes..

Alpha Study Friendship Day, 3:30 p.m. at Martha Ann Woman's Club. Mrs. Wade Winston, hostess.

Martha Ann Ladies game day, 9:30 a.m.

Snyder Toperettes meets at 7 p.m. at Stanfield cafeteria.

WEDNESDAY

Cosmorama Study Club, Martha Ann Woman's Clubhouse. Dorothy Rosson and Sharon Sentell, hostesses.

Girl Scout leaders day camp training course. 9 a.m. to 2:30 p.m. at Snyder Savings and Loan Community Room.

THURSDAY

Snyder Garden Club meets at 9 a.m. at home of Mrs. Robert Hargrove, 2412 Towle Park Road.

Union 4-H Club meets with Alma Worley, hostess.

ABWA meets at 7 p.m. at Snyder Country Club for regular dinner and business meeting.

Snyder Duplicate Club, 1:30 p.m. at Sallie's Cafeteria. Open.

Jaycettes meet at 7:30 p.m. at 3105 Forty - first Street. Mary Jimm Floyd, hostess.

FRIDAY

Duplicate Bridge at Country Club 9:30 a.m. Open.

Family night at Snyder Country Club. Buffet starts at 6:45 p.m. Regular activities at 8 p.m.

El Feliz Club, 2 p.m. at Sallie's Cafeteria. Mrs. Lyman Wren, hostess.

SATURDAY

Ladies Golf Association annual Western Dance at Snyder Country Club.

SUNDAY

Buffet luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 9 a.m. Sunday.

Garden Club Spring Convention

Members of garden clubs in the 59 counties making up District One of Texas Garden Clubs, Inc. will meet in Amarillo April 8th for their annual spring convention. Headquarters will be the Coronado Inn, 701 Pierce Street.

The Panhandle's great prehistoric Alibates Flint Quarries dictated the convention theme, "Rocks Through the Ages." A bus trip to the Quarries and adjacent Pueblos will conclude the meeting April 9th.

TOPS Club Has Physical Fitness Program

The Snyder Early TOPS met Tuesday at 8:30 a.m. at Scurry County Boys Club with 11 members and four guests present.

Della Mae Burney received the gift for losing the most weight for the week. Plans were made to hold a garage sale at 1900 Twenty - ninth Street on Friday and Saturday, March 26th-27th.

Mildred Clark led the group in a physical fitness program following the regular business session. The aim of TOPS Club is to lose weight in a sensible way. Anyone interested is invited to visit the club.

BACKACHE & TENSION SECONDARY TO KIDNEY IRRITATION

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondarily, you may lose sleep and suffer from Headaches, Backaches and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at druggists. Feel better fast.

Electrifying the LAST FRONTIER

It's getting harder every year to "rough it". The Midwest Electric Cooperative has strung its lines to hunting lodges, fishing camps, summer cabins, dude ranches, rural retreats, lakeshore homes, motels, rural hotels and camp grounds.

Today's outdoorsman enjoys nature in the raw but after the romp is over he expects electric lights and indoor plumbing. Thanks to the efficient, dependable Midwest Electric Cooperative he can rough it in comfort.

In keeping its covenant for "area coverage", the Midwest Electric Cooperative is bringing ease and comfort to rural areas, electrifying the last frontier.

MIDWEST ELECTRIC COOPERATIVE, INC.
Roby Snyder

What's new on the market?

The Product: A butane torch, which operates on the same principle as the cigarette lighters using that type of fuel, is now available for the home owner and do-it-yourself enthusiast.

The manufacturer's statement: That this handy torch, weighing only 12 ounces, has a snap-on injector cylinder which also serves as an easy-to-grip handle; that its flame is easily adjusted from a tiny to blow - torch size; that it has a built-in heat shield for added safety; and that it can be used in small areas not reachable with larger torches.

* * *

The Product: A flexible paint brush guide to be attached to sash and trim brushes for easier painting of those ordinarily troublesome areas.

The manufacturer's statement That this guide can be attached to any small sash brush; that it is retracted with the thumb just before dipping the brush into the paint; that it cuts time in half with painting around the edges of sash or trim; and that, by using it with a straight-edge, it also can be used for striping.

* * *

The product: A socket wrench designed to do the work of four individual wrenches.

The manufacturer's statement That this wrench's acetate plastic handle is resistant to grease, oil and water; and that it has four hexagon inserts selected by size to fit the greatest possible number of commercial hex head-type screws and nuts without sacrificing efficiency of operation.

* * *

The Product: A console humidifier with a built-in electronic air cleaner.

The manufacturer's statement That this product is especially recommended for homes and apartments heated by steam, not water or electricity where furnace humidifier can't be used that the air cleaner can be operated without the humidifier to remove 70 to 95 per cent of pollen, dust, smoke and other minute foreign particles from the air passing through it.

Crisp Cookies

1 large egg
½ cup butter
1 cup sugar
2 squares (2 ounces) semi-sweet chocolate melted
¾ cup unsifted flour
½ teaspoon salt
½ cup thinly sliced walnuts

With the electric mixer, in a small bowl, beat the egg until thick and ivory color. Without washing beater, in a medium bowl, cream the butter and sugar, add beaten egg; beat to combine. Stir in melted chocolate to blend. Add flour and salt; stir to combine. Fold in walnuts. Drop by level tablespoonfuls, 2 inches apart, onto lightly greased cookie sheets. Bake in a slow (325 degrees) oven for 20 minutes. With a wide spatula, remove to wire racks to cool. Store in a tightly covered container. Makes 3 dozen.

Grapefruit Zip Chip Dip

6 oz. cream cheese
8 drops tabasco
½ tsp. Worcestershire Sauce
1½ tsp. lemon juice
½ grapefruit

Combine cream cheese, tabasco, Worcestershire sauce and lemon juice. Whip together well. Remove segments from grapefruit and cut into tiny bits. Fold into mixture. Place dip mixture into grapefruit shell, put in small dish. Chill until ready to serve. Garnish with paprika and parsley. Serve with potato chips.

Fluvanna FHA Chapter Attends Area Meeting

The Fluvanna Chapter of Future Homemakers of America attended the Area II meeting held at Permian High School in Odessa on Saturday, March 20.

Mrs. Martha T. Barr, chapter advisor, and Mrs. Burl Belew, chapter mother, were sponsors.

Oralia Ynguanzo was elected voting delegate. She answered roll call for the chapter and contributed to the scholarship fund in it's name.

Debbie Mathis a nominee for Area II Vice President went before the nominating committee Friday night at Crockett High School, Odessa.

Members attending were Bea Dunna, Oralio Ynguanzo, Debbie Mathis, Rinda Bruner, Sandra Stansell, Donna Oliver, Marsha Mathis and Sue Smith.

Hermleigh Club Attends Meet In Austin

Ten delegates and sponsors from the La Luz Spanish Club of Hermleigh High School attended the annual Pan American Student Forum Convention in Austin recently.

Mrs. Roxie Soules, sponsor and Mrs. Dale Hess accompanied the group of delegates which were: Joyce Collier, Linda Colvin, Kathryn Helm, Nancy Tate, Cheryl Foster, Carolyn Chitsey, Diane Hess, David Creswell, Sammy Rodriquez and Robert Pieper.

The purpose of the club is to promote a better understanding between the Spanish speaking Americans and the United States.

Among the events of the convention were the election of state officers and work shops, highlighted by a fiesta on Friday night including talent from Spanish Clubs in the P.A.S.F.

STICKS AND STONES---

Limelight Probably Brighter Than King Had Ever Hoped

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — Dr. Martin Luther King Jr., with a big but unintentional assist from the Alabama authorities, dreamed of an impressive voting drive but probably never one this spectacular.

It is unmatched in American history.

Last December, when King was in Norway to receive the Nobel Peace Prize, he acknowledged some progress had been made in Negroes' struggle for civil rights but added: "We have a long, long way to go."

Jan. 2, back in this country, he sounded an urgent call for a drive to vote throughout Alabama and, as a starting point, picked Selma, where only 335 out of 15,000 Negroes of voting age were registered to vote.

He predicted: "If we are refused, we will appeal to Gov. George Wallace. If he refuses to listen, we will appeal to the legislature. If they don't listen, we will march by the thousands on the ballot boxes."

But what happened was in reverse order.

King organized a march of about 400 Negroes to the Selma courthouse to register to vote. Sheriff James G. Clark broke this up by herding them into an alley and arresting 67 of them for unlawful assembly.

The next day Clark arrested another 150 who wanted to register. Later King, with about 250 other Negroes, was arrested. He stayed in jail four days. Within a few weeks 3,400 Negroes had been arrested.

King was doing very well in dramatizing the barriers to Negro voting, for now the nation was paying attention. King came to Washington, saw President Johnson, and urged a strong, new bill to assure Negroes of the chance to vote.

He called for more Negro militancy. It caught on. There were night marches in Selma. But 20 miles away in Marion, when 400 Negroes marched on the city jail to protest the arrest of a civil rights worker, one of them was fatally shot and some were beaten.

More national attention. Thirty-one Republican governors, senators and representatives urged Johnson to produce a voting bill. In Selma the protests continued.

King and his aides planned a 50-mile march from Selma to the capital at Montgomery to petition Wallace to remove barriers to Negro voting. And King went to Washington for another conference with Johnson.

Then on March 7, although King wasn't there, about 500 Negroes began the march to Montgomery. They didn't get far.

State police, under Wallace's order to use any necessary force to stop the march, broke it up with the help of Sheriff Clark's posse, beating many of the Negroes with clubs and routing them with tear gas.

If the troops and the posse had let the marchers alone their journey to Montgomery might have ended in fiasco, which would have been a blow to King, for the march would have taken four or five days.

There was the chance few would have made it. Instead, the police violence not only focused national attention on Selma but stirred young and old, white and Negro, to demonstrate in protest.

A few days later, when a white minister from Massachusetts was fatally beaten by a white man with a club on a Selma street, demonstrations really swept the country. The minister had gone to Selma to help the Negroes.

As a result of all this King's idea of a march to see Wallace took a shape he may never have imagined.

In an address to a joint session of Congress Johnson expressed full sympathy for the Negroes' vote fight; he handed Congress the most far-reaching voting bill in history, with good reason to think it will pass without a Southern filibuster; and a federal judge ordered Alabama authorities not only to let the Negroes march to Montgomery but to protect them along the way.

When Wallace begged off such protection on the grounds that Alabama couldn't afford it, Johnson federalized units of the state's National Guard to help give the protection at government expense. Some regular Army units also were sent in.

Sunday the march began with thousands of participants — whites and Negroes of all ages and from all occupations from all over the country.

Boyle's Mail Brings Facts To Light

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

One reason husbands and wives have so many money quarrels — only about half of the families in America actually make out a budget.

St. Patrick, the patron saint of Ireland, loved garlic but never ate a potato in his life. Sir Walter Raleigh didn't introduce potatoes to the Emerald Isle until late in the 16th century.

Ever meet anybody who seems to enjoy wallowing in his own misery? Such people suffer from an ailment called cherophobia, or fear of happiness.

It is statistically easier to cure many forms of cancer than obesity. Psychiatrists now feel that it is healthier for some fat folk to learn to live with their weight rather than go through the emotional ordeal of strict dieting. Now they tell me!

New York City probably is the world's largest automobile graveyard. The problems of owning and operating a car here are so complex that every year some 25,000 disgusted owners abandon their vehicles on the street. Just walk away and leave them.

Quotable notables: "Always dream and shoot higher than you know you can do. Don't bother just to be better than your contemporaries or predecessors. Try to be better than yourself" — William Faulkner.

The "falling stars" you see flaming across the sky on a summer night often are meteors only larger than a pebble.

New on the market: A special pretzel for teething babies. A container that enables finicky fishermen to put live worms on their hooks without touching the squirmers. Incidentally, only two per cent of the hundreds of new products developed each year ever returns a profit.

Odd legislation: It was against the law to commit suicide in ancient Rome, and if you did the state could confiscate your property. Most European countries later also made suicide illegal, but in Britain, France and Austria you are now free to kill yourself without fear of government penalty.

Toward a better world: A London pet shop now offers 28 styles of evening wear for dogs, including tails, we assume.

Junior Editors Quiz on LIGHTNING

QUESTION: Where is the safest place to be in a thunderstorm?

• • •

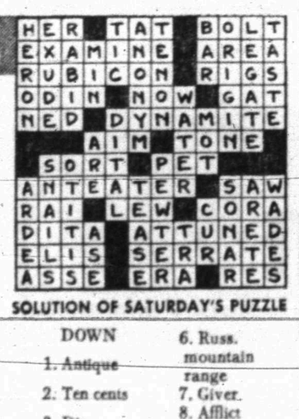

ANSWER: With the summer season approaching, this is a very sensible question to be asking. Lightning is caused by an electric current flowing between parts of clouds or between clouds and earth. It is so strong it can kill the person it happens to strike, and for this reason you should know where to be when lightning is flashing close by. Our top illustration shows two places NOT to be in a thunderstorm. Get your sailboat ashore before the lightning comes close; it might hit the tall mast. Don't get too close to water or lakes in a thunderstorm. Another bad spot is shown at upper right: a boy standing under a long tree on a hilltop. Avoid both hilltops and lone trees. The safest thing, if outdoors, is to keep to low-lying ground and lay down yourself. Among the safest places are steel framed buildings with lightning rods such as city buildings. Inside a closed car you are also well protected. Inside a house, you should keep away from open windows and doors and be sure not to touch plumbing fixtures or anything connected with electricity such as telephones, electric wiring or radio and TV sets.

• • •

FOR YOU TO DO: When a thunderstorm comes, watch for a flash of lightning and then count the seconds before you hear the thunder. In five seconds the thunder sound travels one mile. So if you hear the thunder 10 seconds after you see the flash, the flash will have been two miles away. 3/22

(Doris Pronsberger of White, Ga., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Tigers Split Doublebill

SAN ANGELO — The Snyder Tigers, victims of another low-scoring battle in the first game, came back with their biggest hitting splurge of the season in the second game to split a doubleheader Saturday afternoon with the San Angelo Bobcats.

The Bobcats nosed out the Tigers, 1-0, in the opener, but the Tigers retaliated with a 10-hit attack to win the nightcap, 7-0.

Ray Kizer rapped out a double and two singles, while J. N. Wall and Jay Williamson clipped in with three singles apiece to back up the four - hit pitching of Bobby Clardy in the second game. The Tigers scored 4 times in the third inning to assure the victory, as three hits coupled with two San Angelo errors and a walk produced the biggest rally of the series.

Clardy was never in serious trouble as San Angelo did not move a man past first base and the Tiger righthander sent 10 back to the dugout on third strikes.

In the first game Saturday, the Tigers got only one hit, a single by Leslie Brown in the fourth. Jerry Owens hurled a three-hitter for the Bengals, but it went for no avail when the Bobcats scored the game's only run in the fifth inning.

The split Saturday gave San Angelo a 2-1 edge in the three-game series and gave the Bengals a season record of 3-4.

The Snyder team will go to Abilene tomorrow for a 4 p.m. engagement with the Cooper High Cougars.

MISSES PUTT—Doug Sanders, top money winner so far this year, kicks out after missing a putt on the 10th green at the Jacksonville, Fla., Open March 18. Sanders has won the last two tournaments. (AP Wirephoto)

Bruins, Princeton Star Turn In Sparkling Performance

PORTLAND, Ore. (AP)—The NCAA national basketball championship was two-fold convincing. UCLA's dashing Bruins convinced the East and Bill Bradley convinced the West.

There were some lingering doubts about the credentials of each — at least in some minds — going into the weekend tourney, but none at all coming out.

UCLA, the toast of the West but ranked second in the nation behind Michigan's muscular Wolverines, flashed to an easy 91-80 romp over the Big Ten squad in the title game Saturday, establishing a team scoring record of 400 points for four games on the way.

And Bradley, Princeton's all-everything player, made his first trip to the West Coast one of his most spectacular performances, thoroughly demonstrating to the most hard-bitten skeptic that he was, indeed, the Player of the Year.

The two - time All - America, Rhodes Scholar and captain of the U.S. Olympic basketball team scored 58 points, took down 17 rebounds, had four assists and, in general, completely dominated proceedings in leading Princeton to a 118-82 rout of Wichita in the game for third place.

He established three individual records — most points scored in a game, 58; most field goals in a game, 22; and most points in a five-game tourney, 177, an average of 35.4.

The 58 points represented a personal high for Bradley in what may have been his last competitive performance. He has turned his back on a professional career in favor of two years study at Oxford.

Bradley was named the tourney's outstanding player and, along with UCLA's Gail Goodrich, was a unanimous choice to the All-Tourney team. Michigan's Cazzie Russell missed by one being a unanimous choice of the 93 writers and broadcasters covering the tourney. Kenny Washington and Ed Lacey of UCLA were the other choices.

Washington, a 6-foot-3 substitute, was the key to UCLA's title triumph just as he was the year before in the championship game against Duke.

The back - to - back titles chalked up by UCLA represent only the fifth time such a feat has been accomplished. The others were by Oklahoma A&M, Kentucky, San Francisco and Cincinnati.

"Kenny Washington came in and gave us the lift we needed," UCLA Coach John Wooden said. "It was a team effort, really, but I was worried when Keith Erickson came out with his lame leg. I thought we would be very hard put.

"But Kenny went in and made a couple of interceptions right away and hit a couple of baskets. It was just tremendous."

The Bruins got their whirlwind attack in motion, swept to a 47-34 halftime lead and had margins ranging from 15 to 20 points through the last half until Wooden cleared his bench.

A New FREE BOOK for

MEN PAST 40

Troubled With Getting Up Nights, Pains in Back, Hips, Legs, Nervousness, Tiredness.

If you are a victim of the above symptoms, the trouble may be traceable to Glandular Inflammation . . . a condition that very commonly occurs in men of middle age or past and is often accompanied by despondency, emotional upset and other mental reactions.

Although many people mistakenly think surgery is the only answer to Glandular Inflammation, there is now a non-surgical time-tested treatment available.

Non-Surgical Treatments

This New Free Illustrated BOOK tells about the modern, mild, Non-Surgical treatment for Glandular Inflammation and that the treatment is backed by a Lifetime Certificate of Assurance. Many men from all over the country have taken the NON-SURGICAL treatment and have reported it has proven effective.

The Non-Surgical treatment described in this book requires no painful surgery, hospitalization or long period of convalescence. Treatment takes but a short time and the cost is reasonable.

NEW FREE BOOK

Receiving this book may enable you to better enjoy the future years of your life and prove to be one of the best investments you ever made.

Lincoln's Girls Win; Boys Second

Lincoln High girls took first place while Lincoln boys finished second in their own invitational track meet here Saturday.

Lincoln girls scored 25 points to nose out Hamlin, which scored 24½, and Plainview boys won the boys division with 190 points, compared to 129 for runnerup Lincoln.

In the girls division, Johnnie Goosby won the baseball throw at 228 feet and Mary Goosby placed fourth at 176-5; the relay team of Johnnie Goosby, Mary Goosby, Pearlie Jo Scott and Roann Cobbs took a first and a second in the two relay events; Mary Goosby was first in girls discus at 87-5½, Pearlie Scott tied for third in the 50 yard dash and placed second in the discus.

Lincoln scoring in the boys division included Leon Riggins second and Sam Davis fourth in the 120 yard high hurdles; Vernon Clay tied for third in the 100 yard dash and ran fourth in the 220; Leon Riggins ran second and Sam Davis fourth in the 180 yard low hurdles; Vernon Clay was second and Brady Cobbs sixth in the shot put; Daniel Crayton was first at 118-6 and L. J. Brooks second at 110-4 in the discus; the 440 yard relay team of Vernon Clay, Sam Davis, M. C. Powell and Curtis Clay was second.

Also, Hayward Clay was fifth in the 880 yard dash; Vernon Clay was first in the pole vault at 9-6; M. C. Powell was second and Curtis Clay third in the 440 yard dash; M. C. Powell was fourth in the broad jump at 19-3; Vernon Clay was third and Paul Barnes fifth in the high jump; Calvin Barnes was fourth in the mile run; the mile relay team of M. C. Powell, Leon Riggins, Roy Clayton and Curtis Clay placed third.

Wilt, Pettit Lead Teams Into Playoff

By The Associated Press

Wilt Chamberlain, ailing but available, and Bob Pettit, taking his last fling on the way to the bank, lead the Philadelphia 76ers and St. Louis Hawks into National Basketball Association playoff action Wednesday night.

The 76ers, with NBA scoring king Chamberlain hampered by a stomach disorder, visit Cincinnati's injury-plagued Royals in the first game of a best-of-five Eastern Division semifinal series.

The Hawks, with all-time point leader Pettit winding up an 11-year pro career before retiring to a Baton Rouge, La., banking business, entertain Baltimore in the opener of a Western Division semifinal set.

The Boston Celtics and San Francisco Warriors, winningest and losingest club, respectively, in NBA history, begin vacations today.

The Celtics, who set a season record of 62 victories, are idle until Arpil 4, when they take on the Philadelphia-Cincinnati survivor.

The Warriors, having established an all-time mark of 63 losses during the season, are through until next October.

Snyder Track Team Shows Power In Levelland Meet

LEVELLAND — The Snyder Tiger Tracksters battled the elements and seven opposing schools here Saturday to run away with the Levelland Chamber of Commerce Invitational Track and Field Meet. The Tigers scored 145 points to 90 for runnerup Littlefield.

The Tigers won 7 of the 12 individual events, and both relays. They won all running events except the shortest and the longest, and placed in those two. Tom Kincaid took second in the 100 yard dash and Mike Tipping placed third in the mile. The Tigers failed to place in only 3 events, the shot, discus and broad jump. The only other team to win more than one first pace was Brownfield, which had two winners.

Because of the cold weather, few of the times were real impressive. The mercury had dropped to around 5 degrees early in the morning, and most of the preliminaries were run off in the 20 degree neighborhood. Although the temperature rose to near 40 degrees in the afternoon, the cold wind still hampered the athletes.

The meet gave Snyder coaches Dutch Stehley and V. V. Shearburn an opportunity to size up the district competition, as no less than 5 District 3-AAA schools participated. The only two missing were Sweetwater and Lake View.

Biggest point - getters for the Tigers were Tom Kincaid, Paul Tidwell, Leslie Anderson and Leon Smith. Kincaid won the 220 yard dash, took second in the 100, and ran on the winning sprint relay to chalk up 23 points to lead the Snyder team.

Tidwell won his specialty, the 440 yard dash, in a respectable 50.4 seconds. He also ran on the winning sprint and mile relays for his total of 20 points. In the latter relay he had to overcome a Littlefield lead of around 35 yards to nose out the Wildcats.

Anderson also chalked up 20 points with two firsts in the low and high hurdles. Smith took second in the 440 yard dash and ran on the winning relays for 18 points.

Other first place winners for the Tigers were J. B. Murphy in the 880 yard run, Jackie Rice in the pole vault, and Phillip Floyd in the high jump.

Coach Stehley said that he felt that one or two Snyder boys should have been awarded places, but were not. It is easy sometime for judges to miss the lower places when the finishers are coming in all bunched together. Stehley said that Jimmy Townsend actually finished fifth in the 440 yard dash, but was somehow overlooked.

Other Snyderites who placed are: Alex Rios, who placed 6th in the mile run, Robert Jones, 6th in the low hurdles, and Jerry Jackson, 6th in the 880 yard run.

The next outing for the Snyder thinclads will be this weekend when they participate in the San Angelo Relays.

880-YARD RUN — 1. Murphy, Snyder; 2. Davila, Littlefield; 3. Dearmon, Seminole; 4. Barnes, Brownfield. Time 2:05.

440-YARD RELAY—1. Snyder (Park, Kincaid, Smith, Tidwell); 2. Littlefield; 3. Levelland; 4. Hereford. Time: 44.1.

POLE VAULT — 1. Rice, Snyder (11-9); 2. Cox Canyon (11-6); 3. Kelsner, Littlefield (11-6); 4. Gomez, Seminole (11-6); Places decided on fewer misses.

120-YARD HIGH HURDLES—1. Anderson Snyder; 2. Cox, Brownfield; 3. McMahon, Snyder; 4. Kruger, Levelland; Time:15.4.

BROAD JUMP — 1. Bentley Brownfield (20-3); 2. Gauntt, Brownfield (19-3); 3. Willis, Levelland (18-8); 4. Lewis, Littlefield (18-3¾).

100-YARD DASH—1. Justice, Hereford; 2. Kincaid, Snyder; 3. Conway, Lamesa; 4. Sitton, Littlefield. Time: 10.1.

SHOT PUT — Keyes, Seminole (50-11¾); 2. Foster, Lamesa (49-9¾); 3. Williams, Seminole (46-2½); 4. Waters, Levelland (44-4¼).

440-YARD DASH—1. Tidwell, Snyder; 2. Smith Snyder; 3. Stamford, Canyon; 4. Bell, Levelland; Time: 50.4.

180-YARD LOW HURDLES —1. Anderson, Snyder; 2. Coffman, Littlefield; 3. Cox, Brownfield; 4. Willis, Levelland; Time: 20.2.

220-YARD DASH —1. Kincaid, Snyder; 2. Schovasja, Littlefield; 3. Brewer, Canyon; 4. Park, Snyder. Time:23.1.

MILE RUN—1. Foncesca, Brownfield; 2. Cole, Brownfield; 3. Tipping, Snyder; 4. Sanders, Littlefield; Time: 4:51.6.

DISCUS—1. Graham, Lamesa (158-5); 2. Foster, Lamesa (138-3); 3. Willard Littlefield (131-0); 4. Keyes, Seminole (127-6).

MILE RELAY—1. Snyder (Smith, Brown, Townsend, Tidwell); 2. Littlefield; 3. Levelland; 4. Hereford. Time: 3:29.9.

HIGH JUMP —1. Floyd, Snyder (6-0¼); 2. Turnbow, Brownfield; 3. Krueger, Levelland; 4. Coffman, Littlefield.

TEAM TOTALS

Snyder 145; Littlefield 90; Brownfield, 65; Levelland, 55; Seminole, 40; Lamesa, 40; Hereford, 31; Canyon 31.

Lamar's Track Teams Rank High

SWEETWATER — Snyder Lamar track teams made a strong showing here Saturday in the Sweetwater Junior High Invitational Track Meet, with Lamar 7th winning its division, Lamar 9th finishing a close second in its ranks and Lamar 8th winding up 5th in its division.

A total of 18 schools with nearly 1,000 athletes participated in the meet.

Snyder Travis placed 5th in the 7th grade division.

The hottest battle of the day developed between Snyder Lamar and Abilene Franklin in the 9th grade division. Franklin finally won out with a total of 40½ points to 35 for Lamar 9th. The Texan relay team suffered a heartbreaking jolt in the 440 yard relay when a fumbled baton put them out of the race when they had a substantial lead. However, the same team, composed of Tommy Bullard, Jerry Hardwick, Kent Noble and Z. B. Rinehart came back later to set a new meet record in winning the 1320 relay with a time of 2:41. The old record was 2:43.9.

Other Lamar 9th points came when Rinehart placed first in the pole vault with a 9-10 and Frankie Grimmett placed second in the same event; Rinehart placed second in the 100; Hardwick placed second in the 330 yard dash; Bullard placed second in the 120 yard low hurdles; Grimmett was second in the high jump; Noble was second and Rinehart fourth in the broad jump; and Allen Rasco fourth in the 1320 yard run.

Lamar 7th scored 42½ points to win its division, with Sweetwater finishing second with 31 points. Phillip Turner was first in both the shot and discus throw, with Carlos Preston second in the discus; Neal Rinehart was first in both the high jump and broad jump, with Larry Greene second in the broad jump; Rinehart was second in the 100 yard dash; the relay team composed of Rinehart, Rickey Arnold, Lee McNair and Larry Greene finished second in both the 440 and 880 relays; Arnold was fourth in the 75 yard dash, and Greene was fourth in the 70 yard low hurdles.

Abilene Mann won the 8th grade division with 38½ points, with Baird second, Colorado City third, Sweetwater fourth and Lamar fifth. Lamar 8th got 12 points on Dewey Grinslade's first in the high jump, Larry Lofton's second in the 120 yard low hurdles, Steve Holder's third in the 330 yard dash and Lofton's third in the 50 yard dash.

Snyder Travis got 10 points in the 7th grade division as Howard Murphree won the 75 yard dash in 8.6, Faustino Torres placed second in the 50 yard dash and the relay team of Wesley Bishop, Murphree, Torres and Merce Hernandez placed fourth in the 440 yard relay, and a team composed of Bishop Tim Patrick, Torres and Rickey Glasscock got fourth in the 880 yard relay.

Bennie Ward tied for fourth place in the high jump to score half a point for Travis 8th.

SHS Golfers Lead District 3-AAA Race

BROWNFIELD — The Snyder High School Golf Team got off to an encouraging start in the District 3-AAA race, firing an aggregate of 323 to take the lead after the first round of district play here Saturday.

The Snyder No. 1 team finished eight strokes ahead of Sweetwater, which had a 331. Others, in order, were Lamesa 334, Littlefield 362, Levelland 363, Snyder No. 2 367, Sweetwater No. 2 368, Lamesa No. 2 391 and Brownfield No. 1 405.

The entire round was played in sub - freezing weather, with the thermometer standing at 10 degrees at the start.

Snyder first team scores included Jimmy Featherston 76, Darrell Haney 77, Don Copeland 82 and Richard Waters 88. For Sweetwater's first team, Jim Whitaker had 82, Ballard 82, Rice 83 and Wetsel 84.

Scores for Snyder's No. 2 team included Alex LeFeuvre 89, Jimmy Hogan 90, Larry Anderson 93 and Bill Taylor 95.

Second round of the district tournament will be played April 3 at Lamesa, while the final round is set for April 10 on the Snyder Country Club course.

Local Team Wins Tourney

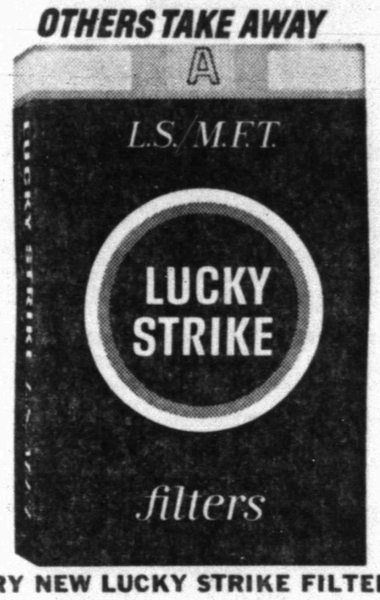

A team sponsored by the Lincoln School P-TA won an invitational basketball tournament at Plainview over the weekend, defeating Pace of Sweetwater, 106-102 in the finals.

In the final game Ronald Greene scored 36, David Wood 33, Buford Thompson 15, Randolph Williams 12, Albert Malone 8, A. C. Thompson and Jack Newsom 2 each.

Lincoln defeated the AF Hawks of Sweetwater, 120-96 in the opener as Greene and Williams scored 30 each, Thompson 20, Malone 14, Oscar Nelson 14 and Thompson 12. In the second round an Abilene team fell, 121-111, as Williams got 37 points, Malone 20, David Woods 19, Greene 18, Thompson 12, Charles Lindsey and Nelson 6 each and A. C. Thompson 3.

Cardinals, Yankees Hope They're Off To Good Start

By MURRAY CHASS
Associated Press Sports Writer

Dean Chance has been stalled temporarily, but the St. Louis Cardinals and the New York Yankees hope they are off at high speed once again.

Chance, the Los Angeles Angel pitcher who won last year's Cy Young Award, will be out of action for two to four days following a mishap in Sunday's exhibition baseball game with the Chicago Cubs.

Across the continent, the world champion Cardinals snapped a six - game losing streak by stopping the Chicago White Sox 2-0 while the Yankees nipped Detroit 2-1, halting a four-game losing string.

Pitching first in the Angels' 3-2 victory, Chance was struck in the right arm by a line drive off the bat of Cub catcher Vic Roznovsky.

Until then, the 20-game winner had allowed only two scratch singles while striking out two and walking none in 2 1-3 innings.

The injury was diagnosed as a bone bruise. X rays taken at a hospital revealed no further damage.

While upset over the injury to their ace hurler, the Angels were heartened by the showing of bonus baby Rick Reichardt, who signed for a reported $175,000 last year.

Batting .176 going into the game, the 22-year-old outfielder drove in two of the Angels' runs with a two-run homer in the fifth inning off Lew Burdette and scored the other run on Winston Llenas' single after doubling against Burdette in the seventh.

The Cardinals, who won their first two spring games before dropping six straight, defeated the White Sox behind the pitching of veterans Curt Simmons and Bob Purkey. Simmons scattered four hits in the first five innings, and Purkey finished up with four hitless innings.

Ken Boyer singled across a run in the sixth, an inning before Jerry Buchek homered off Hoyt Wilhelm.

Al Downing limited the Tigers to four hits in six innings in the Yankees' triumph, their first since they won five in a row at the start of their schedule.

In other games, Kansas City broke a four-game losing streak in edging Milwaukee 5-4, Philadelphia nipped Pittsburgh 4-3, a grand-slam homer by Rich Rollins powered Minnesota to a 9-5 victory over Washington, the Los Angeles Dodgers stopped Baltimore 5-4 and San Francisco whipped Boston 10-5.

Leon Wagner hit a grand-slammer in Cleveland's 13-2 triumph over another Chicago Cub squad. Houston defeated its Oklahoma City farm team 4-2 and Cincinnati tied the New York Mets 2-2 in 12 innings.

Bear-Aggie Tilt Tops Week's Slate

By The Associated Press

Baylor risks its leadership in the Southwest Conference baseball race against Texas at Austin Wednesday in the top game of the week.

The Golden Bears, who knocked over defending champion Texas A&M 2-0 last week, will now be after the team the Aggies beat to prevent the Longhorns from sharing the lead.

De Gaulle's Arm Program Taking Big Bite Of Budget

By GARVEN HUDGINS

PARIS (AP) — President Charles de Gaulle's program to strengthen French military might is approaching a crucial — and expensive — phase. The average Frenchman appears willing to pay the price.

French military planners say 1965 starts what they call 'a new era in the development of France's armament policy."

Basically, the military blueprint calls for increasing efforts to modernize French armed forces, culminating in the goal of six nuclear-armed combat divisions by 1970.

Work on the program in 1965 will cost $4.21 billion, or one-fifth the national budget.

Behind the long-range campaign is De Gaulle's stated aim to establish a policy which will "contribute to the maintenance of peace without conceding anything that might jopardize France's independence."

De Gaulle insists on developing France's own nuclear capability to deliver an atomic response if war is thrust upon it by an aggressor. But he says if the free world is attacked, either in Europe or in America, "France will take part in the common defense at the sides of its allies and with all the means that it has."

The cost of plans to revitalize France's military establishment has stirred criticism in some quarters, particularly among extreme leftists. Frenchmen in general, however, appear pleased with the prestige they believe independent and powerful armed forces will bring.

Independent newspapers and commentators, as well as average people in cafes and at meetings, express a conviction that France has the right — and duty to itself — to build up its own, modernized military organization.

Close to half of the current defense budget is earmarked for atomic development.

The atomic program includes research aiming for eventual production of a nuclear-powered, missile-launching submarine; work in French Polynesia for the establishment of thermonuclear test centers to replace sites in the Sahara; and research on isotopic separation to produce a high-power nuclear fuel and material for France's first hydrogen bomb.

France's defense expenditures, including those for atomic research and development, break down to about $98 per person, a Western European Union survey reports.

U.S. defense expenditures — which involve far greater commitments — amount to $282 per capita.

French military planners do not relate defense expenditures to inflation in the French consumer market. They argue that capital expenditures for military equipment flow back into the national economy.

The big year for French military planners is $970, when they hope for the payoff.

Here is what they want the French armed forces to look like then:

1. A strategic nuclear force including an air command based on supersonic Mirage IV and Mirage III-V bombers, nuclear, missile-launching submarines and surface to surface ballistic missiles.

2. A force of maneuver including five nuclear-armed and mechanized divisions and one so-called light division equipped to strike quickly as a commando unit; a naval force of two aircraft carriers, one helicopter carrier, two cruisers, one missile launching frigate, 40 destroyers, 5 corvettes, 21 submarines, 10 maintenance ships, 13 amphibious landing ships and 100 minesweepers, 60 carrier-based fighter planes, 35 interceptor planes, also carrier-based, 60 antisubmarine aircraft and 15 assault helicopters; an air force of 200 combat airplanes, 200 training planes, 100 transports and more than 200 surface-to-air missiles.

3. A territorial defense force including an Alpine brigade, five combat car regiments and 20 commando infantry regiments.

Commander in chief of all the armed forces will be the president of the republic. He alone can order them into action.

California Demos Ask End To Viet Raids

SACRAMENTO, Calif. (AP) — The 70,000-member California Democratic Council is asking President Johnson to call a halt to U.S. bombing of North Viet Nam.

Delegates to a state convention of the volunteer organization, after a two-hour debate Sunday, adopted a resolution asking an end to the attacks and urging Johnson to seek a cease-fire through the United Nations.

Delegates defeated a resolution calling for withdrawal of all American troops and war material from South Viet Nam.

Science Brings Gadget-Marvels

NEW YORK (AP) — Want to turn your house lights on while driving home at night? Or keep the house at the same temperature even if the kids leave a door open? Or make sure without getting out of bed what doors are locked or unlocked?

The wonders are available, and the costs can be lowered as demand develops.

Some 1,000 exhibitors are showing $20 million worth of the latest electrical and electronic equipment at the New York Coliseum. A few blocks away members of the Institute of Electrical & Electronic Engineers are hearing scores of highly technical papers on the latest breakthroughs. The stress is on aerospace, defense, industrial technology.

But across the country space age electronics quietly is slipping into homes, offices, cars, hospitals and supermarkets.

"It takes time," said William D. Lee, General Electric's electronics components official, in an interview. "What are now looked upon as gimmicks will in time be commonly used. The electronic industry is making life easier already, thus giving people a change to utilize their time better."

Example — new low cost photoconductive cells are being used in cars to dim auto headlights automatically for approaching cars. The same gadget can be used in a home to turn on lights at dusk.

Microelectronics, as now found in hearing aids, can be used for remote control thermostats. This can let a driver open the garage doors without leaving the car. And the same device could be used to turn on the lights in the house as the car enters the driveway.

At the industrial human relations level, L. H. Noggle, Westinghouse Electric, Pittsburgh, has a paper this week on "meeting the manpower requirements for an electrical equipment manufacturer."

And early in May the University of California's extension center at San Francisco will hold a seminar on ways of creating new business and industrial activity from today's scientific breakthroughs.

Sales volume of consumer electronics this year is expected to rise to $2.7 billion, a gain of 7 per cent over 1964.

Among household devices which Lee says are available now and just waiting wider public acceptance are sensors to be spotted through the house to relay temperature and humidity changes to a rectifier control unit which adjusts the central heating and cooling plant automatically.

Electronic devices can feel out the exact humidity level desired in a clothes dryer and shut it off, thus preventing overdrying, reducing shrinkage and wrinkles, and even letting the housewife go to the store knowing the dryer will take care of itself.

And maybe in five or 10 years, Lee says, the cost of computers will be brought down to the point where one can become a kitchen appliance. It will be used to keep records, pay bills, maybe even figure the family income tax.

Baytown Scene Of Naphtha Explosion

BAYTOWN (AP) — A 55,000-barrel Humble Oil Co. tank containing three feet of heavy naphtha exploded Sunday night. The ensuing blaze was put out shortly after midnight.

No injuries were reported and the cause of the blast was not immediately determined.

Naphtha is used in making gasoline.

BUSINESS and INDUSTRIAL NEWS

WAITING TO BE CHOSEN to beautify a person's home or yard are hundreds of plants at Snyder Nursery. R. C. Eoff, owner of the firm, is pictured with a Nolina Palm, typical of the exotic indoor plants offered. In the background are various types of rose bushes, which are representative of the wide variety of the strong, healthy outdoor plants to be found at Snyder Nursery.

Homes, Yards, Cities, And Lives Can Be Brightened By Snyder Nursery Plants

Spring is here.

Not only does the calendar say so, but folks can tell it's Spring in lots of other ways.

For one thing, people are looking at their yards — wondering what they can do to make them prettier this year. Even the City of Snyder is busy on a beautification project along the banks of Deep Creek.

Much of the new beauty in Snyder this year can be credited to one man — Mr. R. C. Eoff, the owner of Snyder Nursery.

Whether it's one corner of a back yard that needs a little beauty, or whether it's an entire river bank, Mr. Eoff will have the correct suggestion. The City administration turned to him, not only for some of the plants, but more important, for the know-how of how to do the job.

Mr. Eoff is a graduate landscape architect who took his training at the National Landscape School in Los Angeles. Further, his experience in landscape planning spanis 21 years, many years of which were spent with the largest nurseries and landscape companies in the Southwest.

He has had experience in seven Southwestern states, and also in Mexico. Mr. Eoff was called in as the landscape architect for a national Biscuit Company plant in Monterrey, Mexico, and while there did several other landscaping projects in addition to the Nabisco job.

It is this experience and training that he offers to the people of this area. He purchased the local firm last May 12, and since that time his services have been in increasing demand here.

Snyder Nursery, located at Twenty - fifth Street and Avenue N, offers as complete line of nursery stock and garden supply items as are to be found in West Texas.

Fruit trees, pecan trees, shade trees, evergreens and flowering shrubs are all in stock at Snyder Nursery. But there's more to a successful landscape project than just obtaining the plants.

A place must be prepared for the new plant, and fertilizers should be used if the plant is to do as well as possible.

Snyder Nursery is headquarters for Fertilome fertilizers, plant foods, soil conditioners, and all gardening needs. In addition they offer services such as bed preparation, landscape designing, planting, pruning, spraying, fertilizing and treatment of sick or diseased trees and shrubs.

The landscape design service offered is free, and can be applied to any size area, large or small, using regular or exotic plants. The customer may do his own planting or may have the nursery do it. Information and help with landscape problems can always be found at Snyder Nursery.

Snyder Nursery is planning an Open House, and will have a Spring sale featuring dozens of money-saving items on Mar. 26-28. Advertisements listing these outstanding values will appear in the Daily News.

But actually, a person doesn't have to wait for an Open House. Folks are welcome to come in any time and browse through the aisles of Snyder Nursery.

THE ORIGINAL "ROADRUNNER" dress is displayed here by Mrs. Rachel Rogers, owner of Rachel's Dress Shop. Mrs. Rogers recently returned from a visit to the factory where the garments are made, and saw the manufacture of these dresses and other styles the firm is now manufacturing.

Rachel's Shop Is Up-To-The-Minute-- Thanks To Owner's Trip To West Coast

Shoppers in stores near the fashion centers have no advantage over local folks who shop at Rachel's, right here in Snyder.

Mrs. Rachel Rogers, owner of Rachel's, returned just last week from a trip to the West Coast where a lot of her time was spent in studying the latest ideas in merchandise and merchandising ideas.

Included in her trip was a style show of the Jonathan Logan Junior and Petite lines — lines that are available at Rachel's right here in Snyder, just as they are in the finest stores from coast to coast.

But Mrs. Rogers went even further than just seeing the finished products which were on display.

On the way to California, she stopped and toured the Novis Dennie factory in Scottsdale Ariz. the factory where the extremely popular "Roadrunner" line is manufactured.

"Roadrunners" have been one of Rachel's most popular lines, appealing as they do to all ages, and with their exceptional ability to "dress up" or to "dress down" to suit almost any occasion.

Mrs. Rogers said that it was extremely interesting to see the garments being manufactured, and that she was impressed by the skill of the workmen and the high quality of workmanship that went into each and every garment. The firm, Mrs. Rogers said, started out with one basic "Roadrunner" dress style — the one that caught the fancy of the nation.

Building on that base, the factory is now manufacturing the Roadrunners" in not only the original material, but in woods as well, and has also expanded into the manufacture of related lines such as sun dresses, scarves, and coordinated sets of short, skirt, and blouse.

So popular is the line, that the firm also makes available a "Roadrunner" pin to be worn on the garments so folks will know that it's a genuine "Roadrunner" their friends are wearing.

It isn't just accident that the "Roadrunner", Jonathan Logan, and other popular lines are to be found at Rachel's. It takes more than just having a building with clothes in it to have a truly good dress shop. It takes knowledge of the market, imagination, and buying know - how.

Even more, it even takes the out-of-town trip occasionally to stay really abreast of what's going on the fast changing fashion world. Folks in Snyder are lucky that they have such a store owner, and such a store as Rachel's here.

Rachel's is on the south side of the Snyder Square.

Oklahomans Object To Ellender's Award

OKLAHOMA CITY (AP) — An honorary doctor of laws degree awarded Sen. Allen J. Ellender, D-La., by Oklahoma City University last week drew added fire Sunday on the steps of the state Capitol.

More than 100 students and clergymen, both Negro and white, assembled at the Capitol to demonstrate support for the civil-rights march from Selma, Ala., to Montgomery.

They heard the Rev. Robert McDole of Corpus Christi Roman Catholic Church take the university to task for honoring "in a formal way a man representing the racism eating away at the heart of America."

Public award of the degree was canceled when students rebelled because of Ellender's avowed intention to fight President Johnson's proposed voting-rights bill. School officials gave the degree to the Southern senator in his hotel room.

Now—you need never change your oil. Frantz protects your present oil from time and mileage...**because it cleans, not merely filters!** Oil stays sparkling clean, engine parts remain free of abrasive particles. At 2000 miles you change a simple 15¢ tissue element available in any grocery store. Your car stays on the road, out of repair shops—while YOU pocket the BIG savings. Models to fit all car, truck, tractor and industrial engines. Your phone call puts you in touch with company-trained installation
