Second Annual Reception for Teachers to Be Given This Evening; Federation Church Women Sponsoring the Event

The second annual reception for teachers in the public schools and the Tech College, given by the Church Women's Federation, is to begin at 8 o'clock this evening at the First Baptist church with the teachers, Dr. and Mrs. P. W. Horn, and Superintendent and Mrs. M. H. Dunca, composing the receiving line. The public is invited to call and meet the teachers. It has been announced, although

no personal invitations have been sent to anyone. The executive board of the federation together with five women from each church in the federation, are to compose the house party. This reception was planned for September and was postponed until now. The first reception was given last fall by the federation and it is thought that this will become an annual function.

Mrs. Partain Resigns as Hunt P. T. A. President

Mrs. C. Y. Partain resigned as president of the George M. Hunt Parent-Teacher Association Thursday afternoon at a meeting of the organization at the school. As Mrs. J. N. Michie, vice-president, said she could not serve as president, a nomination committee was appointed. Meetings are to be held only on the second Thursday after this month and reports were heard from various chairmen. There were 25 present. The program for the association was adopted following a report by Mrs. J. N. Michie. Mrs. R. T. Campbell, chairman of the membership committee, reported that there is to be another selected from each room who will sponsor that room and enlist other mothers to join the P. T. A. Mrs. Partain talked on the aims of the organization and the privileges of being a member. Mrs. Hamilton was appointed to look after the sale of tickets to the lyceum course. Miss Mattie Beth Harper reported on the school cafeteria and it was decided that the school Victoria shall go to the room having the most mothers present at each meeting. The nominating committee is composed of Mesdames J. N. Michie, T. W. Jackson and Miss Nell Farley.

Program and Business Meeting of Carter P. T. A. Held

A program and business session of the K. Carter Parent-Teacher Association, was held Thursday afternoon at the school. The program was opened with two songs by children in Mrs. W. A. Bowen's room and an "aeroplane" geography lesson, given to illustrate modern methods in teaching. Charlotte Hopkins gave two readings after which Miss Beulah Dixon read a paper on what the P. T. A. has meant to the George M. Hunt school. She said that over \$2,000 was spent on the school the first year, that a program of beautification was carried out last year and that cabinets have been placed in the rooms this year in addition to repair work on playground equipment. A rummage and food sale for Saturday, October 23, was planned with Mrs. G. M. Cooby in charge and articles that are to be sold are to be left at her house. Mrs. W. A. Bowen's and Miss Beulah Dixon's rooms received the pictures for having the best attendance of mothers.

Mrs. Ray Grisham Is Hostess to Bridge Club Thursday

Mrs. Ray Grisham was hostess to the Idle-A-While Club Thursday afternoon at her home, 2212 Broadway, with a Halloween party. Bowls of garden flowers were used also in the decorations. SHE GOT A BARGAIN

MISS MCCOY ABANDONED TRIP ABROAD AND WON A HUSBAND

By VIRGINIA SWAIN
NEW YORK, Oct. 14.—Ten years ago, Margaret McCoy lost a trip to the Far East and won Brock Pemberton, theatrical producer, as a husband. She still thinks she got the best of the bargain.

Marriage in her case was one of those accidents that happen in the midst of well-laid plans, changing in an instant the whole future course of life.

Miss McCoy, originally an Orange, N. J., girl, returned to spend a winter in New York after several years spent in studying vocal music in Berlin and Paris. She intended that spring to take an extended trip to Sumatra, Borneo and other remote lands of the east.

But she had not counted on Brock Pemberton. He was then a young dramatic critic on the New York Times, fresh from his home town of Emporia, Kansas, and bent on conquering New York with his pen, as William Allen White had prophesied he could do.

At First Sight
Pemberton met Miss McCoy at a studio party given for her by Greta Torpede, the singer. He admits that he liked her at first sight—especially because she had a pleasant voice and wore a pretty dress.

He has always loved music and appreciated artistic clothes, almost as much as his wife does.

WORK IS PANACEA FOR AN UNHAPPY MARRIAGE, SHE SAYS

The success of Brock Pemberton began when he produced "Enter, Madame," a play which swept Broadway off its feet and then went thru the country with equal triumph.

Mrs. Pemberton found her love of clothes useful in her husband's business. Several years ago she became official supervisor of costumes for all his plays. She not only visualized the necessary outfit for each actor in a dress, but shops for the gowns and hats, the shoes and hose and minor accessories of each wardrobe.

Praised by Critics
Her unusual creations for Katherine Cornell in the glamorous role of Inez March in "The Green Hat," were given credit by many critics for contributing much to the play's effectiveness.

"It isn't often that a wife has such a perfect chance to follow her chosen profession in her own husband's business," she says. "We've always worked so closely together and enjoyed each other's hobbies so fully that we had no energy left for quarrels."

"Work is the panacea for unhappy marriage, in my opinion. For women who have children, there is work enough and interest enough at home."

"But the childless woman needs a vocation of her own to keep her out of mischief."

C. T. Byrd has returned from Tulsa where he has been on legal business.

Mrs. E. F. George, 2214 10th Street, was operated upon at a local sanitarium yesterday and is reported doing nicely.

Dr. Jenkins, of Waxahachie, was in Lubbock yesterday making arrangements to have some houses built on his farm near Abernathy.

The Woman's Day

It will vastly relieve the masses of American womanhood to learn from the ruby lips of one of our fairer picture actresses that the chubby finger can be slenderized by wearing long-cut diamonds and sapphires and emeralds, and that the skiny finger can be shortened by wearing square cut diamonds, rubies and so on. Tired women bent from their day's labor on the farm can now rejoice, knowing that with a square or a long-cut jewel upon their finger they can regain their husband's love, and all will be well.

Once upon a time there was a small boy who learned the wonder of having a garden all his very own. He dug up a little spot of earth in his rabbit yard. He had no seeds, so he dug up some tiny seedling trees coming up under the picket fence from the next-door orchard and planted them in his little patch.

FORTUNES

—are still being made by hundreds of Panhandle people in legitimate oil investments.

Why not risk a small sum on a good bet and have the satisfaction of knowing that you at least tried to do something. You might not win but you can certainly not expect your "Ship to come in" unless you have sent one out.

For a limited time we offer for sale an interest in any amount from \$50 to \$1,000 in a block of fifteen thousand acres with a drilling well and wonderful geology. An investment of a hundred or two dollars might mean your independence. This will stand rigid investigation. For particulars write P. O. Box 528 Amarillo, Texas.

THE PAPERS SAY

By Knick

ing fine, they moved into another house, and the little boy pined so for his garden that his father had all the little trees very carefully transplanted. If you have aspirations to be a parent who understands, read Dr. John Bowman's "The World That Was."

Marriages of ordinary mortals don't often hit the news pages, unless there is something extraordinary about the ceremony. "May and December" marriages are always food for newspaper space, especially when "May" is a sweet young thing of 16 and "December" is a sugar daddy of some 70 to 90 winters. Even more space-taking when "December" is the lady of many winters, and "May" is the callow gosling.

Mrs. Margaret Griggs, 42, down Ohio, was, married Chester Primrose, 18, a few days ago. Elmer, too, no local judge being willing to tie the knot. He was a farm hand on her farm. There's much to do about the ways of it. Simple enough. Woman's maternal instinct. She probably darned his socks and wanted a full-time job of babying him. Maybe, too, that one way of keeping a hired man on the farm.

Which one of the more than 500 women Dickens wrote about, would be your choice as interesting enough to merit character sketches? You might try that question out on your club program some evening. Anyway, there's a new book called "Some Dickens Women" worth a club reading. The author picks Mrs. Nickleby, Madame Defarge, Dora, Betsey Trotwood, The Deserted Bride, The Marchioness Satey Gamp, Mrs. Sparst, Miss Wardle, Lizzie Hexam, and Mrs. Litripier among a few others.

George Bernard Shaw in the role of beauty adviser, an authority on how to keep the skin you love to touch, is something new. It appears, however that a recent highbrow luncheon, none less than the great Shaw confided that he had not really washed his face in 50 years. Neither does he cream it with cleansing unguents nightly. "I just wet it once in a while." They do say, girls, that it is pink and clear and smooth as a prize infant's.

At one time the very name of Emmeline Pankhurst caused strong men

to shudder and look about them in the murky shadows. The first, the fiercest of the "Votes-for-Womeners," Emmeline slung a wicked bomb and poured acid at her target straight. That was in the years ago. Today, a writer tells us who has dragged forth Mrs. Pankhurst from her shadows of oblivion, she is frankly old-fashioned, conspicuous in long skirts and no powder or rouge. Emmeline Pankhurst is positively terrified at this advanced woman for whom she harangued and fought in the years ago.

Just another way of saying, why worry about anything? The world moves too fast. It all looks all right by next year, anyway.

"Grow, little thin girls, fatter, fatter," continues to be the warning cry of our nation's physicians. They say that a toxin called cytost results from broken-down tissues after a dieting bat. Tuberculosis, even death, come next. Wasted words. No woman ever got healthy before beauty. Nor will anyone begin now. But, boy, how the fat girls will go to the chocolate pie and marron parfait!

HOW FAR ARE MOTORISTS LIABLE?

Calling upon all motorists and parents for the fullest co-operation, the American Automobile Association has launched a nation-wide campaign to bring to an end "the dangerous practice" of passing automobiles giving rides to school children.

The man who follows out the advice of passing up an opportunity to give a child a lift has the expert opinion of traffic officials everywhere to back up his attitude. The risk is too great to be assumed lightly.

It is far better for the child to ignore his plea for a lift than to allow him to endanger his life and the lives of others. This is not only the case on the rural highways, but we have noticed many boys in the city who make a practice of catching cars and riding from one stop to another on the spare wheels or hanging on in some way.

HOMES FOR CHILDREN

Charitable institutions are notoriously expensive, when the total investment and operating charges are considered. This seems especially true of institutions caring for dependent children.

whenever suitable relatives or other persons can be found to look after them. There are other factors, too, besides money. There is something about the "institutional" stamp that usually tends to blight children.

NEATNESS AND ORDER

One of the first things taught in Boston University's new course for prospective brides is that they should be "orderly but not neat." Here is a distinction that deserves a little elucidation.

TEMPERANCE WORK

Ontario, Canada's chief province, facing its own prohibition problem, has not been content with leaving the burden upon legal enforcement. It has organized a Prohibition Union in which private citizens play a part no less important than the enforcement officers.

GAS WAR OF THE FUTURE

It is evident that chemistry will play an important part in any future war. Any program of national preparedness which does not provide adequate means for meeting gas attacks and other forms of chemical warfare is sadly deficient in a branch of military activity which may prove of vital importance.

And inasmuch as the best defense is a vigorous offensive, our forces should be prepared to carry the fight into the enemy's camp. While the use of poisonous gases is banned by the nations who were parties to the arms reduction conference held in 1922, similar agreements were in effect before the World War, yet they did not prevent the employment of these destructive agencies when the urge of necessity came.

Dr. James F. Norris, president of the American Chemical Society, recently sounded a note of warning on the subject when he said: "When the pressure comes a nation will use any means available to save its life."

Of course, we do not want to see another war. We did not want to see the last one. But another war may come—almost certain to come sooner or later. We should make reasonable preparations to meet any emergency by developing every branch of modern warfare.

General Andrews recently told newspaper men that he insists that all prohibition enforcement officers be total abstainers, but added, rather paradoxically: "The only ones who have to drink are the poor devils who must buy it in getting evidence. I think it's a shame that they have to do it."

MATADORS MEET SIMMONS COWBOYS TODAY

WESTERNERS WILL MEET WITH CLOVIS THIS AFTERNOON

Bullfighters to Meet With Strong Texas Conference Eleven This Afternoon at the Cowboy Gridiron; Special to Run

Matadors are off for Abilene where they will clash with the battling Simmons University Cowboys on their range. A very slight work-out was given the "bull-fighters" yesterday afternoon and the last practice was had prior to the game.

Freeland and Higinbotham are running the Matadors in versus the Simmons club with a hard handicap hanging over them—cripples and plenty of them. They have had the worry of the Tech mentors throughout this week. The regular backfield is short to pieces with Walker, Woolridge and Cappelman injured, together with the injuries of Jennings and White, which happened in the St. Ed. clash.

Simmons will be hard to beat in that they are a well seasoned club and many of their players have had years of experience. The Cowboys have battled with strong aggregations of the Texas Conference and have won a great many contests in that strong conference. Scouts of the Cowboys attended the game here last weekend and most of the plays that the Matadors were exposed in the contest; however new plays have been given the "bull fighters" at the Abilene game. Some 125 followers of the Scarlet and Black will board the special train that is carrying the "bull fighters" to the scene of the battle. The train leaves this morning at seven o'clock and will return from the game late this evening.

Strolling Down Sport Lane With James R. Dow

Well, I will be with the bunch today riding down to Abilene where the Texas Tech Matadors meet with the Simmons Cowboy eleven this afternoon. Try to let you fans at home know about the game at intervals. Know you will be anxious to hear about it.

Tech followers of the Matadors are staying at home—that is a majority of the are (because they are waiting for the T. C. E. game) but the citizens of Lubbock and the South Plains believe in the club and are going to back them.

Westerners have a little battle of their own fight here at home—they will meet with the Clovis high school club this afternoon at the Texas Tech gridiron.

Be sure to be at the high school contest this afternoon. Will be plenty of action—plenty football—and will truly be a good game. It is called at 2:30.

The game with Simmons this afternoon will be the first battle the Matadors have ever had with the "Cowboys." A real contest will be at hand when the game is called—there will be a display of boots, spurs, pistols—and the shapened dagger of the "bullfighter"—think it won't be a thrill even to the lads that screen the motion pictures of the Hollywood district when a Cowboy looks up with a "bullfighter."

The Amarillo professional football club has a battle Sunday with the Claude semi-pro club. It will be the first pro football to be played in the Panhandle—much interest will likely be shown in pro football in the Panhandle and the opinion of the participants of the game feel that it will be a great success.

Michigan Rates First in Honors

CHICAGO, Oct. 15.—When King Football was officially elected to his throne Oct. 9, the Western Conference celebrated its thirtieth year in the gridiron sport. It was organized in 1896.

After 29 years, the Big Ten is, beyond any dispute, the greatest college organization of its kind in the country.

The conference stands as a monument to hard, wise work, by such men as Alonzo Stagg of Chicago; George Huff, Illinois; Fielding Yost, Michigan and many others. They introduced the highest ideals of sportsmanship adopted the highest code of ethics, and regulated the development under the strictest rules.

From a geographical standpoint, the Big Ten has an ideal arrangement. The universities of Wisconsin, Michigan, Illinois, Minnesota, Iowa, and Indiana lie in adjacent states and outsiders—Chicago, Purdue, and Northwestern—sit in or next to the very heart.

The record books reveal that Michigan eleven have dominated the conference, even though they withdrew for a long stretch of years. Michigan has taken the title or tied for it nine times, the last in 1925. It is the best record of any school.

In 1923 Michigan tied with Illinois, in 1922 with Illinois, in 1904 with Minnesota, in 1903 with Minnesota and Northwestern and in 1901 with Wisconsin. The Wolverines took a clear lead to the championship in 1898, 1902 and 1925.

Next to Michigan, in conference victories come the Gophers with eight despite the fact that they have not won undisputed possession of the title since 1911 and have tied for it only once since then, in 1915.

Real Battle for "Big Three"

By NEA Service
NEW YORK, Oct. 15.—The tightest "Big Three" football championship campaign of years appears to be brewing this season.

Princeton, Yale and Harvard, following their opening games, seem of more even caliber than they were in 1925, or the year before for that matter.

In 1924 the Tigers, it will be recalled, swamped Johnny Harvard, 34-0, but lost to Yale, 10-0. Yale in turn took the Crimson down the line, 19-6, thus winning the championship of the triumvirate.

Last fall it was Princeton's turn to suffer. After handling Harvard a terrible 35-0 defeat (one of the worst a Cambridge team ever suffered), the Tigers swooped into the Eli stronghold and when the smoke of battle had cleared, were on the right end of a 25-12 verdict.

In the final game of the season Harvard bucked up and succeeded in holding its old enemy, Yale to a scoreless tie despite advance yarns the Crimson would be virtually annihilated.

Princeton, of course, won the "Big Three" championship—and without much trouble, as the results indicate. This year a somewhat different tale may be unfolded. Harvard has a new coach, also a promising bunch of material. Yale and Princeton, on the other side, don't appear any stronger, if as strong. This is especially true of the Orange and Black.

So, it wouldn't be surprising were every one of the round-robin brushes a hectic affair with the result of each more or less a toss-up.

Clovis, New Mexico, Crack Gridiron Club Will Battle With High School Westerners at the Texas Tech Grid

This afternoon at the Texas Tech gridiron the Westerners are scheduled to meet with the Clovis, New Mexico, high school gridironers at 3:30 o'clock. The game will be one of much interest as it is two schools of about the same—able—end—ability meeting—Clovis for some few years has won the championship of Eastern New Mexico in football and has given a number of the New Mexico Colleges valuable material for their clubs.

Clovis and Lubbock stand fifty-fifty in their grid contests—they have one victory to their credit and Lubbock has one. In both the former games the score has been played to a close margin and have presented to the football fans great games in all contests.

The visiting club is by no means an inexperienced eleven as with the return of this season's card there came six valuable men to the mentors of the Clovis high school from the last season club. These six men are valuable and have good football tactics and know the game thoroughly.

The former record of the Clovis club is nothing to overlook for they have established a gridiron record that few schools in New Mexico has been able to achieve.

Several of the backfield men are to be out of the game on account of injuries received in a recent game. But with this all to the advantage of the Westerners the Clovis club will deal the Westerners much to think of.

At the gathering of crowd at the game tomorrow will be a reunion proper, as Coach "Shorty" Galbraith, mentor of the Westerner forces in

1917 will be present and has requested as many of his former lads to be out as possible. Among those that are here at the present time are: "Dude" Ferris, "Pinky" Lowrey, Kenneth Kinber, Ross McWhorter, J. C. Sanders, Earl Bullock, Chink Pearson, Cleburne Bullock "Red" Graves, Johnny Spikes, and Hugh Elynd, Roger Stubbs.

The starting line-up of the Westerner's will probably be: Braton and Bryan, ends; Cummins and McCollum, tackles; Dickinson and Hill, guards; Allen, center; Powell, quarter; Leland and Dollahite, half, and Brothers, full.

SAYS MILLIONAIRES OUGHT TO DONATE

PHILANTHROPIC CAPITALIST CALLS ON FELLOWS TO DIVIDE SAMPLES

By MAURICE MERMEY United News Staff Correspondent NEW YORK, Oct. 14.—Millionaires are under normal compulsion to give away at least part of the money they are not using, according to August Hecksher, the capitalist who originated "Wholesale Philanthropy."

In an exclusive interview with the United News Thursday, the man who startled the world with the announcement of his intention to wipe out the East Side, "the world's worst slum," by getting \$250,000,000 from 500 millionaires over a five year period, with an equal contribution from the state and city, explained the theory behind his sociological phantasy.

"People who have money over must spend a portion of it for people who have money under," Hecksher said, epitomizing in a single sentence his entire theory. Those who don't, he indicated will be branded as slackers. Hecksher is regarded as one of America's wealthiest men—and also one of its most philanthropic. His interests are manifold yet despite them he is able to devote considerable time to projects which look toward the betterment of mankind.

Appointed "special emissary" of Mayor Walker, Hecksher studied made a trip to Europe studying housing conditions. He saw the slums of Liverpool, London and Berlin. Returning to this country, he drew up a report for the mayor's consideration which created sensation. The report advocated melting of the East Side melting pot. It would take 10 or 15 years, Hecksher said, and it might cost as much as \$500,000,000 during the first five years.

"There are 500 millionaires in New York, considering those who make their millions here and live elsewhere," the capitalist said, "who can afford to give us \$500,000 a year for five years. And I'm going to make a personal canvass to get their pledges."

"At the end of a year I will go to Mayor Walker and say 'these men save, and those did not.'"

Hecksher admitted the possibility of failure. The project was new and somewhat staggering. But he was emphatic in his desire to see it through. "It is our duty," he explained.

The plan is said to be the world's greatest attempt at organized and wholesale philanthropy. Hecksher says he's going to see it through. He made the first bid to give \$100,000 a year for five years.

COOLIDGE LIGHTS CHICAGO

White House Button Illuminates Far Away Van Buren Street

By United News

CHICAGO, Oct. 14.—President Coolidge pressed the famous White House button that opens exhibitions, unveils statues and sets conventions going, and State street from Lake to Van Buren Thursday night became the most brilliantly illuminated city in the world.

While the smoke of gangsters' guns eddied through the back alleys of the "loop" district, Chicagoans turned out by the thousands to take part in the Carnival dedication of its Great White Way.

When President Coolidge pressed the button, current flooded into 149 new 2100 watt lamps set in poles along the curbing. The brilliance of the \$100,000 lighting system extended far up on the fronts of the skyscrapers and the whole street became brighter than the interiors of stores which line it.

AMARILLO CLUB TO BANQUET TONIGHT

"Hark ye Amarillos," was the call issued by Ike Hendricks, president of the club, for a banquet tonight at the cafeteria. The first entertainment of the year. Forty members will be present and a gala time is planned by the program committee. Registrar and Mrs. E. L. Dohney will be guests of honor at the occasion.

The Amarillo club is taking the lead in the "home town" clubs this year, and plans are being made by the officers for the lead all through the year in both athletics and scholarship.

PRESS CLUB TO CONTINUE LIBRARY

The Tech Press Club voted Wednesday night to continue the library of the organization and from now on strive to build it up to one worthy of the school. Each member of the club donated a certain amount to the fund out of which books will be bought for the library. The library was started last year and has a number of volumes of it at present. The books are mostly on the subject of journalism or literature. The club also discussed membership in the Texas Intercollegiate Press association and voted to take further action on entrance at a later date. Following the discussion, Cecil Horne gave a very interesting talk on engraving to the club, explaining the process of the work and the various methods of the industry.

STUDENTS TO TRY OUT FOR LITTLE THEATRE WORK

Tech students will have a part again this year in the Lubbock Little Theatre work, provided they can make the try-outs, according to a statement yesterday by Miss Ruth Pirtle, director of the Little Theatre. The productions last year were staged with the help of the Tech students and their work will be solicited again this year.

Try-outs for the first play, "Clarence," are being held this week by Miss Pirtle in room 292 of the administration building. Students interested in the work are requested to see Miss Pirtle.

HOME ECONOMICS CLUB TO MEET THIS AFTERNOON

The first regular meeting of the Home Economics club will be held this afternoon at 4 o'clock in room 206 of the Home Economics building. The officers of the club urge every student of the school to attend the meeting as matters of importance concerning the work of the year will be settled. The main work of the club is the maintenance of a Home Economics Loan fund which was established last year. The fund is partly loaned out now to students of the school and the girls are planning to make the sum much larger this year.

"BEAT SIMMONS" SPECIAL LEAVES THIS MORNING

At seven o'clock the "Beat Simmons" special will leave for Abilene loaded with students and citizens for the first football game with the Simmons University Cowboys. The train was chartered yesterday and the tickets were sold up until late last night. A number of tickets had not yet been sold last night but are expected to go fast this morning.

Last night the coaches were optimistic over the game when assured that a train load of fans would accompany the team on their first trip to the fair of the Cowboys.

SCHUBERT QUARTET HERE MONDAY

The Schubert Male Quartet, brought here by the Texas Technological College will present their numbers in the High School Auditorium instead of

the Tech Pavilion as previously announced. The program will begin promptly at 8:15 on Monday evening and doors will be closed between numbers so that late comers will not interfere with the enjoyment of the program. Special rates are being made to school teachers and pupils and Mr. Washburn, chairman of the committee is anxious that all deposits on tickets be taken up. Checks should be mailed to him at the Tech and tickets will be forwarded by mail. Regular tickets can be secured from any of the music stores in the city. A very fine and unusual program will be presented by this splendid aggregation. Each member of the quartet is an accomplished soloist with splendid testimonials from the press of New York, Chicago, Boston, Toronto, Montreal and other large cities.

"ON TO FORT WORTH" CRY OF ENTIRE STUDENT BODY

With the "Beat Simmons" special train on its way toward a victory for the Matadors against the Cowboys, the students who are staying here are planning for the "T. C. U. Trip" a committee, was appointed to stir up sentiment among the town people for the game. A thorough advertising campaign will be conducted and the officials of the Avalanche-Journal special are planning for the largest delegation to ever leave Lubbock for the trip.

The Prep squad is planning for the trip and are drilling for the march. The band and the entire special crowd will march up Houston and down Main and let the cowtown know what Texas Tech really is. At the game the crowd will set in a special section and the leaders are working for the hottest cheering contest ever staged between two schools.

After the game, the Tech Band will broadcast over radio station, WBAP.

Mineral Springs, Ark.—"We use Black-Draught in our family of six children," says Mrs. C. E. Nutt, of this place, "and we find it a good bowel regulator. I give it to my children for colds and constipation, or any other stomach disorders, and it certainly is very helpful. I have never known it to fail them. Where there are so many children, it is a good idea to keep a laxative on hand, and Black-Draught is what we use."

"I have taken it myself for indigestion. I would feel dizzy, have gas and sour stomach. I would also feel a tightness in my chest. I took a good dose of Theford's Black-Draught when I felt that way and it would relieve me. I would feel better for days."

"My husband takes Black-Draught for biliousness. He says he has never found its equal. When he has the tired, heavy feeling, he takes Black-Draught night and morning for a few days and he doesn't complain any more. I sure do recommend Black-Draught."

AGGIE'S 50TH BIRTH-DAY SATURDAY

IMPRESSIVE CEREMONY IS PLANNED AT COLLEGE STATION

COLLEGE STATION, Tex., Oct. 14.—One of the most impressive ceremonies of the Semi-Centennial Celebration of the A. & M. College of Texas, is planned for Saturday morning, Oct. 16, when a long procession of officers and delegates, all garbed in academic costume, will move from the Academic building across the campus to Guion Hall where the inauguration ceremonies will be held.

In addition to the officers and faculty members of the College, 125 delegates from other institutions of higher learning, from learned societies and industrial organizations, will be in the procession. All will wear the black caps and gowns that have been the insignia of academic standing for many years.

The dignity of the ceremony will be increased by the military escort that will be in evidence. The more than 2100 cadets of the College, all in uniform, will be stationed in two lines from the entrance of the Academic building to the entrance of Guion Hall. Between these lines of uniformed men, the academic procession will move. The line of march will extend from the Academic building to Military Walk, which runs in front of the building, thence south along Military Walk to Guion Hall, at the extreme south end of the boulevard.

The blending of the academic costume and the military is expected to present a picture of great dignity and impressiveness. It will in a way exemplify broadly the field of service of the institution, learning coupled with military training.

The inauguration ceremonies will begin immediately after the academic procession and the cadets have entered Guion Hall. Francis Marion Law, of Houston, president of the Board of Directors of the College, will preside at the inauguration. In addition to Dr. Walton, who will deliver his inaugural address, speakers will include: President William Bennett Russell of the University of Oklahoma; Dean Charles H. Winkler of the school of Vocational Teaching, A. & M. College, who will deliver the address of welcome to the delegates; and President W. M. W. Spitzer of the University of Texas, who will make the response. President C. C. Seligman of Southern Methodist University will offer the invocation.

The Semi-Centennial Celebration will open October 15, and will continue through October 17. Football game, reviews of the A. & M. College cadet corps, luncheon and business meeting of the Association of Former Students, anniversary dinner, reception at the residence of President and Mrs. Walton and other events will make up the program which has been arranged by Dean Walton as festival chairman of the Semi-Centennial Celebration committee.

SOME NEW HITS HIT BROADWAY

NEW YORK, Oct. 14.—Across the footlights of Broadway, where the theatrical season is in full swing, ten old familiar favorites have survived the weeding out process of summer. A few surprising new hits have shown their way to prominence among this survival of the fittest.

The rest is trash. Around the nimble feet of a slim young man from Atlanta revolves the outstanding dramatic success of the new season, a play called "Broadway."

Low Tresser's performance on the Broadway "bump" in this vigorous drama of New York night life has won the unanimous acclaim of the critics. What is more pertinent, more than 100 persons paid for standing room only on Monday night—a record for the theatre.

Another new and instantaneous success from both artistic and box office viewpoints is "The Captive" by Edward Bourdier, a young Frenchman.

Then there is "Gentlemen Prefer Blondes" from the book by Anita Loos, and tight there the list of new comedies, which can be labelled palpable and certain successes needs abruptly.

With half a dozen new openings each week and a score of good plays awaiting theatres, the list of courses will grow.

Faithful to the good things of the theatre which hold their own against more than 350 new plays seeking places on Broadway, one finds "Abe's Irish Rose" now in the fifth month of its fifth year, heading the list.

"Cradle Snatchers," uproarious and occasionally vulgar, is the only other production now on Broadway which has enjoyed a continuous run of more than a year.

WANT BYRD, WHO FLEW TO NORTH POLE, AT ABILENE

ABILENE, Oct. 13.—Removal efforts are being made in the chamber of commerce to have the Guggenheim Foundation, in charge of the flight of the plane which Lieutenant Commander Richard Byrd flew over the North Pole, include Abilene on the itinerary of the ship on its eastward flight across the continent in the near future.

Henry F. Guggenheim wired the chamber of commerce today that he was deeply impressed with the offer of Abilene to have the ship stop here and pleased at the enthusiasm manifested here over aeronautics.

SHOWER AT TAHOKA

TAHOKA, Oct. 14.—A light shower fell here last night and again threw a check in the wheel of progress, so far as cotton picking is concerned. Open cotton has been damaged by the recent rains and if the picking condition isn't relieved, the crops in Leas county will no doubt be late this year than they were last year.

OPPOSES STANDARD MEDICAL METHODS

SAYS HUMANS WOULD THEN BE REGARDED AS MERE MACHINES

By United News. KANSAS CITY, Mo., Oct. 14.—Standardization of medical treatment would benefit the physician but would prove a detriment to the patient, it is held by Dr. Perry Brown, 6747 1/2 street of New York, who is attending the annual clinical meeting here.

The human make up, according to Dr. Brown, is too individualistic to be brought under a rule that would require the same medical treatment. This standardization idea has been advocated in some parts of the United States, Dr. Brown said.

A too highly standardized plan would result in a state of mind that would induce looking upon human beings as mechanical affairs, Dr. Brown pointed out.

"If such were the case, lives would be like so much tallow, cast into a set mold, which would be an unhealthy condition. Individualism must be perpetuated," the physician asserted.

WASH 800 WHITE DRESSES EVERY DAY AT C. I. A.

Special to The Avalanche. DENTON, Texas, Oct. 14.—Eight hundred white dresses are washed every day at the College of Industrial Arts laundry, according to H. G. Brown, manager. White dresses are particularly favored by 1,600 students attending the institution.

Blue chambrays which have in many respects been distinctly characteristic of this college, are handed to the laundry wagon driver every day in 400 lots. This uniform is worn by many during class periods and is discarded at the evening dinner for white or the conventional blue serge.

The C. I. A. girl is given a latitude of six uniforms to choose from for daily wear. He-designing each year tends to keep these modern in style.

MULLICAN TO TRY CRIMINAL CASES

WILL DEVOTE SEVERAL WEEKS TO CLEANING UP DOCKET IF HOWARD WANTS IT

The last two or three weeks of the next term of the district court will be turned over to the trial of criminal cases, according to a statement from Judge Clark M. Mulligan yesterday. Mulligan stated a major part of the last term will be given to the cases.

"If Howard accepts the appointment of district attorney given by Governor Ferguson and wants to try the cases I'm ready," Mulligan stated. "Of course, the cases will be rather difficult for Howard on the start as he is not acquainted with them and will be new in the office."

The grand jury will be empaneled Monday morning and the jury and non-jury docket called for the afternoon. The appearance docket will be called Tuesday morning, the first week of the term being given entirely to the trial of non-jury cases.

TOMATO CAN MUSIC SAVES HIM FROM JUG

By United News. NEW YORK, Oct. 13.—Homeless, nearly blind, James Williams, colored, convinced magistrate Brodsky that he was no vagrant by producing tunes from an ordinary tomato can with holes punched in it, as his means of earning a living. After a few bars of "Nearer My God To Thee," Williams began on "The Prisoner's Song," and the magistrate turned him loose at once.

DELAY DEBT DECISION

By United News. PARIS, Oct. 13.—Decision as to the American and British debt agreements will be left to the full finance commission of the chamber of deputies. It was agreed by the chamber's sub commission of debts Tuesday, in voting to withhold judgment on the Washington and London pacts, the sub commission ordered all documents on the subject which had been received from Premier Poincare, to be sent to the finance commission.

AIRMEN FALL TO DEATH

Reserve Corps Officers Crash to Long Island Sound in De Havilland Airplane

By United News. FORT JEFFERSON, L. I., Oct. 14.—Two reserve air corps officers were killed tonight when a De Havilland airplane fell into Long Island Sound. One man was dead when boats reached the floating wreckage and the other died within fifteen minutes.

The men were Lieutenant Henry R. Perry, Taunton, Mass., unmarried, and Lieutenant William H. Preston, Jr., Belmont, Mass., who is survived by his wife.

COLDS THAT DEVELOP INTO PNEUMONIA

Perseverent coughs and colds lead to serious trouble. You can stop them now with Cromulsion, an emulsified croscote this is pleasant to take. Cromulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membrane and inhibits germ growth.

Of all known drugs, croscote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Cromulsion contains, in addition to croscote, other healing elements which soothe and heal the inflamed membrane and stop the irritation and inflammation, while the croscote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Cromulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory disease, and excellent for building up the system after colds or flu. Money refunded if any cold is not relieved after taking Cromulsion in accordance with directions. Ask your druggist.

SHE MEETS DADDY

But Daughter Refuses to Go with Widowed Mother Who Drowns Self at Atlantic City

By United News. ATLANTIC CITY, Oct. 14.—Her eyes fixed on a patch of blue sky, her hand firmly grasping the sweater sleeve of her nine year old daughter, Louise, Mrs. Eugene B. Wood, formerly of Pittsburgh, Pa., walked steadily into the surf of the deserted beach here today.

"We are going to meet Daddy," the mother said to the unwilling child.

But Louise, whimpering, twisted free and splashed back to the shore. Mrs. Wood strode unflinchingly seaward with uplifted head.

The child's screams reached the ears of Isaac Soper, a former coast guard. He ran down the white sand, near a jetty, some minutes later, he found the body of the girl's mother, washed ashore after drowning.

Mrs. Wood's husband died seven years ago.

NEW TWIST TO CHICAGO KILLING

OFFICER CLAIMS ATTORNEY WAS DIRECT TARGET OF BULLETS

By United News. CHICAGO, Ill., Oct. 14.—A new twist has been given to the gang outbreak here by the announcement of Detective Captain John Stige that he believes Earl "Hymie" Weiss and Patrick Murray, the two victims, killed each other.

Stige's theory is that the target of the machine gunners who took part in the shooting last Monday afternoon was W. W. O'Brien, the widely known criminal attorney who is recovering slowly with six machine gun bullets in his body.

O'Brien was counsel for Joe Salts, the big gangster who is on trial for murdering Milners Foley, a rival beer runner, and Stige believes that for this reason members of the Foley gang wanted to dispose of the defense attorney.

"It looks like Murray, who was an independent beer runner, merely got excited when the shooting started and fired at Weiss," Stige said. "Weiss probably returned the fire and from the bullets found in both their bodies it looks very much like they shot each other. Neither was hit by machine gun bullets so the supposition is that these were intended for O'Brien."

The coroner's inquest into the killings brought additional complications which indicated that the various gun clubs got their signals badly mixed while at the scene of battle in front of the Holy Name cathedral just north of the "loop." While "Hymie's" body yielded almost nothing in the way of machine gun bullets it ran large amounts of .35 caliber pistol bullets and B B shot.

Although police are certain that the machine gunners were from the "Milters" Foley gang, they are at a loss to explain the presence of the shot gun squad which sprayed its B B shot into "Hymie's" Weiss.

STRATTON LEADS SENIORS AT A. AND M. COLLEGE

Special to The Avalanche
COLLEGE STATION, Texas, Oct. 14.—S. I. Stratton of Freeport was elected president of the senior class at the A. and M. College of Texas in an organization meeting of the class held last week. Other officers elected at the same time were E. A. Goodson, of Jacksonville, vice-president; A. A. Menger, San Antonio, secretary-treasurer; C. A. Altenberg, Savana, Ill., historian; R. E. O. Sloan, San Saba, social secretary; S. J. Baker, Fort Worth, and L. J. Franke, El Campo, student representatives on the Athletic Council.

These men are among the most outstanding of the seniors, and each of them had already won distinction in the student life of the college.

FOUR COMPANIES RACE FOR OIL SAND

OFFSET WELLS AT PHILLIPS NEAR ABILENE, SEND DRILLS FLYING

Special to The Avalanche
ABILENE, Oct. 14.—Four large oil companies are pounding away to be first to the pay sand in the offset wells to the Phillips Petroleum Company's Winter No. 1, 22 miles west of Abilene.

The race is between the Midwest, Phillips, Marland and Hurley. All four are around 500 feet, lacking 1600-odd feet to strike the sand found by the Phillips' Winter. At the present rate of drilling another big well is expected to be brought in in the next thirty days.

Drillers on the wells are stimulated in rapid drilling by the proffer of a heavy reward by the merchants of Merkel, 6 miles from the scene. Rigs for Johnson & Gibson well on the Wheeler tract in Fisher county, four miles northwest of the discovery well, and for the Atlantic Producing Company's Howell well, three-fourths of a mile south, are nearing completion.

A well is to be drilled on the Butman land, 13 miles south of Merkel and near the southwest corner of the Hamley and Grisham drilling block, it was learned today.

The World Company, Fort Worth, is erecting a derrick on its tract a mile northeast of the producer, while both the Marland and Midwest are expected to start preparations soon for spudding in a second well on their leases offsetting the Winter well on the west. The Johnson well on the Sears land, 10 miles southwest of the Winter's well, was drilling today below the 63-inch casing at 2,750 feet. The 53-8-inch casing, through which salt water has been flowing, was pulled yesterday in an effort to find the break. The well is said to be making considerable gas. When the casing has been repaired drilling will proceed to the 3,000-foot level unless a find is made higher.

Taylor Farmers Find Orchards Make Diversification Pay Good Money

Special to The Avalanche.
ABILENE, Tex., Oct. 14.—Good apples in this area are bringing from \$3 to \$5 a box, according to variety. The demand for Black Twig, King David and Delicious, grown in the Clyde fruit belt, is said to exceed the supply.

Lon Childress, famous Texas over for his orchards, is already sold out. On some of his trees as much as 27 bushels to the tree have been gathered and sold. The average yield on his farm, near Bird, was 15 bushels. Five acres produce the maximum of 27 bushels and ten average around 15 bushels. Ten acres of younger trees netted Mr. Childress a profit of \$300 an acre.

SAYS POULTRY WILL BRING PROSPERITY

TAYLOR COUNTY LOOKS TO CHICKENS TO LEAD WAY TO WEALTH

By HAMILTON WRIGHT
Special Correspondent
ABILENE, Oct. 14.—Poultry is the key that will unlock the door of prosperity to Taylor county, according to J. H. Masterson, county farm agent.

That poultry is already getting a place in the farm eye of Taylor county, was readily and convincingly demonstrated during the recent county fairs held in this section, he said. In the community fairs of Taylor county a year ago the average exhibit consisted of only twenty birds, or an average of 200 to the show. At Brodshow last year probably 21 birds were entered and in September this year the number had increased to 150. At Tuscola, in 1925, only four couples were brought while this year there was a total of 216 birds. Only at Merkel, where all overshadowed everything else no poultry was shown this fall. At Trent boys and girls clubs held a contest recently for a prize of \$50 offered by the banker and business men. An excellent quality of stuff was shown there. Another remarkable thing is that no poultry show held in the county this

COOLIDGE INSPECTS ANCESTRAL TREE

PRESIDENT AND COUSIN FROM DIXIE TRACE THEIR PROGENITORS

By United News. WASHINGTON, Oct. 14.—President Coolidge spent the afternoon today in the White House study inspecting his ancestral tree with the family genealogist, Fred J. Coolidge, Jr., of Atlanta. Coolidge is a cousin of the president. They spell their names differently as to several branches of the family but all trace their descent from Captain John Coolidge, who landed in Massachusetts in 1630, ten years after the Mayflower company.

The president has often revealed his interest in the family tree. In his study are several booklets printed privately for the family showing its various branches. Much of this research work has been carried on by another cousin, Dr. Marion Cady of Washington. Dr. Cady and Fred Coolidge are preparing a new history of the family bringing together all of the ancestral data and tracing the collateral branches.

Coolidge's mail contains frequent letters from persons who believe they are related. President Harding once commented rather bitterly on the fact that after he became president "so many relations whose existence he had never suspected, turned up, all wanting good government jobs. The president has been scrupulous in keeping his relatives off of the government pay roll.

SENATE PROBERS TO RESUME IN ILLINOIS

REED AND HIS COMMITTEE GET BACK ON THE JOB MONDAY

By ERAL J. JOHNSON
United News Staff Correspondent
CHICAGO, Oct. 14.—When the senate campaign expenditure committee resumes its investigation of the Illinois primary here Monday, one of the first official duties will be to view the political havoc wrought by its earlier inquiry.

Much has happened in Illinois since Senator James A. Reed's last appearance here, and most of the political scene shifting is attributable directly to the startling evidence which the committee chairman succeeded in turning up.

The Senatorial campaign now is well under way but the going is nothing like it might have been had the Reed committee stayed out. Here is a brief sketch of what has happened.

Split Wide Open

The Republican party has been split wide open by the disclosures that Col. Frank Smith, the republican senatorial nominee, who defeated Senator William B. McKinley on a platform denouncing the world court, accepted huge campaign contributions from Samuel Insull, multi-millionaire public utilities executive.

As a result a number of civic leaders, notably Julius Rosenwald, induced High S. Magill, former state senator, to enter the senatorial campaign as an independent republican. Immediately Magill's candidacy was announced the world court faded from the picture and "utilities slush" became the dominant issue.

Is Dry

Smith announced himself as a "dry" and received the endorsement of the Anti-Saloon League. Magill is also a dry but the league demanded that he withdraw from the campaign. The explanation of this was that Magill's candidacy would only weaken Smith's chances and that the victory might go to George Brennan, the democratic candidate who has conducted his campaign as a "dripping wet."

Meanwhile, Brennan continues to preach beer and is confident that what he sees as a general revolt against Volsteadism will sweep him into office.

The fact that one of the witnesses subpoenaed for Monday's inquiry is George B. Safford, head of the Illinois Anti-Saloon league, would indicate that Chairman Reed plans to go into the political developments which have occurred since the committee's last meeting.

Others Subpoenaed

Others subpoenaed for the new inquiry include Clement Studebaker, multi-millionaire utility operator and associate of Samuel Insull; James Simpson, president of Marshall Field & Co.; Mrs. James F. Morrison, hotel owner and E. J. Davis, president of the Chicago Better Government Association.

Hicklin Yates, secretary of the Reed Committee, said there was little likelihood that the inquiry here would go into the politico-klan scandals that has developed in Indiana. Any investigation of this kind probably would be conducted at Indianapolis, Yates said.

RUNAWAY YOUTHS ARE HOME AGAIN

THEY FOUND HIKING HARDER THAN THEY HAD THOUGHT IT WOULD BE

Three boys and one girl, all of Lubbock, who last Monday decided that they could make their own way alone without a parent's counsel, have changed their minds, and are now safely again lodged under the parental wing after three days of wandering and "rough it, tough it" life.

They made their way as far as a farm house south of Slaton, where the first night out, they bundled themselves into a wagon of cotton that they admitted did not quite feel as comfortable as "the bed mother offers them." The following morning, after a night spent in the cold, damp atmosphere, without mentioning the fact to one another, they all rather instinctively turned their faces toward home and were met by officers in search of them just before they reached Lubbock.

Now, they say they are "O. K." and two of them announce that they are ready to take the whipping from "teacher" that was promised them the day they left.

Aggie Pathologists To Find Out All About Pest Which Destroys the Cotton

ABILENE, Tex., Oct. 14.—A special investigation of the root rot now destroying plant and arboreal life in many parts of West Texas will be made shortly by J. J. Taubenhau, pathologist of Texas A. & M. College. In line with a general study of the situation over Texas preparatory to appeal to the next session of the legislature to take cognizance of the situation.

Taubenhau, said to be an authority on the root rot though unable to give a formula for its annihilation, will arrive in Abilene about November 1. Root rot has prevailed in varying degrees in this section for several years, but became more pronounced this year, according to J. R. Masterson, county farm agent.

JOURNALISTIC STUDENTS AT C. I. A. TO EDIT DALLAS PAPER

DENTON, Texas, Oct. 14.—Students in Journalism at the College of Industrial Arts will publish the Saturday, October 16 edition of the Dallas Journal Junior at the State Fair. VISITOR SPEAKS TO KIWANIS

ORVILLE THORP, OF DALLAS, SHARES WITH DUNCAN HONORS OF MEETING

Orville Thorp, visiting Kiwanian, from Dallas, and M. H. Duncan, of the Lubbock Public Schools, were the principal speakers at the regular weekly luncheon here Thursday, the former discussing briefly the principles of Kiwanis and the latter telling of the school system or which he is head.

Mr. Duncan told of the steady advance made by the city schools here, the expansion due to large increases in enrollment each year, and the number of credits offered in connection with the work.

The program was in charge of Kiwanian Allen T. Stewart, an educational program that will keep every member busy for several weeks was announced.

ANOTHER WELL TO GO DOWN IN ABILENE FIELD

ABILENE, Oct. 13.—Gibson & Johnson, of Abilene have begun construction of a well on their location on the Wheeler lease four miles north of the Phillips Joe Winter, No. 1, discovery well in the Noodle Creek pool.

MORE PECANS THIS YEAR

Trees Loaded Down Along Water Courses of Central West Texas

ABILENE, Tex., Oct. 14.—Pecan yields along water courses in Central West Texas will be much larger than last season, in the opinion of J. R. Masterson, county farm agent.

Trees are loaded down. The nuts seem to be well developed and should yield heavily, according to Masterson. Where trees in this area last year made bumper crops, they will not produce so heavily this season, true to the ways of the pecan tree.

Quite a number of papershell pecans are being set out this year, especially in the sandy bottom lands about Abilene. The Shirley improved pecan orchard near town is doing unusually well, according to the owner.

CAN THE HENS AND ROOSTERS

ABILENE, Tex., Oct. 14.—Immediately upon formation of the Taylor County Poultry Association next week a campaign will be started by the association to "win the rooster and old hen"—literally.

Production of infertile eggs will be stressed. Infertile eggs kept in high temperature five months thrown upon a cement floor a few days ago in a demonstration proved good.

The association proposes to enter the poultry business on an extensive scale.

AL. G. BARNES BIG 4-RING CIRCUS WILL EXHIBIT AT LUBBOCK FRIDAY OCT. 22

The coming of this organization is welcome news, as the Al. G. Barnes Circus is one that always presents a clean, wholesome and entertaining program.

This year, according to announcements, the circus has been greatly enlarged, and in addition to the all new spectacle of Pocahontas at the Court of Queen Anne with the enormous cast selected from the 1880 employees, other new features are: 180 horses in one big act, The Fox-Ton Tribe of Arabs from the Sahara Desert, their first visit to America. The Canton Troupe of Chinese Circus Artists, The Imperial Hoiger Family from Havarti, Joe Martin (himself), The Giant Gorilla Man, Lotus, the only performing hippopotamus in the world, and the Famous Exclusive Al. G. Barnes Feature: 40 Dancing Horses and 40 Dancing Girls, and Al. G. Barnes appears in person at each performance.

Owing to the enormous size of the circus this year, the management announces that no street parade will be given in any city visited, however, in place of the omitted procession, a mammoth Open Air Free Exhibition will take place on the show grounds at 1:00 and 7:00 p. m. immediately preceding the opening of the doors to the circus, and the largest traveling manager in the world, comprising over 400 rare animals from all quarters of the earth.

HUMBLE LEASES FIVE THOUSAND ACRES LUBBOCK OIL LANDS

TWENTY-FIVE LEASES ARE FILED FRIDAY WITH COUNTY CLERK

TOTAL LEASED ACREAGE IS NOW ABOVE 50,000

Are North of City

CONTRACTS SPECIFY WELL TO BE COMMENCED IN 12 MONTHS

Five thousand acres more of Lubbock county land were gathered in yesterday by the Humble Oil Company of Houston in oil and gas leases, bringing the total lease holdings for the company to approximately 25,000 acres in the county. Twenty-five separate leases, covering 5,250 acres, were filed in the office of County Clerk Herbert Stubbs yesterday afternoon.

Clyde Vinson was the lessee in the leases, having been the agent for the company here in all their contracts. He filed assignments of the leases to the Humble people along with the lease contracts.

The tracts lie from 1 to 21 miles northwest and northeast of Lubbock, the leases being taken in the checker-board arrangement frequently used by the large oil companies.

Each lease allowed ten years for exploration for gas or oil but specifically stated that all well must be commenced on the land within twelve months or the contract will be automatically cancelled. A small consideration was named in the leases but the amount per acre was not stated.

The leases yesterday brought the amount of Lubbock county land under mineral oil and gas contract to approximately 50,000 acres. The 87 Capital Oil company is the only company with large lease holdings in the county, these leases comprising the old Robertson ranch of over 15,000 acres. Several individuals have small leases over the various tracts of the county but the Humble company is the only major company with holdings here.

Of his several other large lease companies have shown an interest in this section and developments are expected in the near future. The Pure Oil Company of Chicago sent a representative here a short time ago to check up on the leases here. Other companies have ordered maps of the county from the various surveyors and abstractors here.

AFTER LOST SONS

15 Gold Star Mothers Think That Jerry Tarbot Is Their Missing Child.

PHILADELPHIA, Oct. 15.—Fifteen gold star mothers of the Philadelphia district have applied to American Legion officials to ascertain the identity of "Jerry Tarbot," the missing victim, who can not remember his name.

"He may be my boy," each of the mothers said.

Several members of the 16th company of the 5th marine regiment believe they recognize "Tarbot" as Louis Washburn. The marine corps is looking to trace Washburn's record.

Four to Five Hundred Nazaries Will Gather in Lubbock from Three States for Annual Assembly Next Week

Between four and five hundred members of the Church of the Nazarenes will be here next week to attend the 12th annual assembly of this district, which begins Wednesday morning. According to S. L. Woods, pastor of the local church, arrangements have been made for a very active assembly and plans are being made for the entertainment of the visitors. Three states will be represented in the assembly and some of the most noted men of the church will be here.

The services of the assembly will be held in the First Presbyterian church.

At present she is Princess Diana, 16-year-old daughter of the queen, who wants to marry, says an American husband. She is accompanying her mother on the visit to America.

Thousand Lubbock County Huntsmen Take Field Today as Duck Season Opens; Wofford Will Enforce Law

Duck season opens today. Between 700 and 1,000 hunters will go forth this year in Lubbock county for game according to records in the office of District Game Warden E. E. Wofford; that many licenses having been purchased this season. This is the largest number of licenses ever sold in the county, according to Wofford.

To Enforce Law

"We're bound to enforce the law," Wofford stated in speaking of the law violations. "We will prosecute all violators, we had rather the hunters would stay within the law than break it," Wofford added. "A reward will be offered for anyone caught shooting quails until the season opens, as the department has made large expenditures in stocking this section in the past several months." "Every hunter should watch and report all violations, by doing so we will have game for many years," Wofford said.

Comb the Woods

The bandits fled Elizabeth in two sections, after killing John Enn, wounding his guard, and running down a motorcycle policeman guarding the mail truck from which the currency, comprising several \$100 rolls, was taken.

Believing that the bandits, variously estimated to number from six to ten men, had taken to the hills, Colonel Schwartzkopf ordered his troops to comb the wooded slopes, examine the scattered cabins in the foot hills, and proceed slowly on whatever trails presented themselves on the theory that the gang had a cache somewhere in the mountains.

BOY SCOUTS ARE NOW CALLED ON TO PICK PLAINS COTTON CROP

800 YOUNGSTERS CAN SAVE CROP FOR FARMERS, SAYS PALMER

To Earn Uniforms

EXECUTIVE SAYS LADS COULD GATHER 30,000 POUNDS WEEK

South Plains scouts are being urged to assist in the cotton picking crisis which is hovering over this section according to letters being sent out to the various towns by H. B. Palmer, scout executive. Palmer is urging the boys to spend all of their spare time in the nearby cotton fields and help both themselves and the farmers.

"The 800 scouts of the South Plains can pick 30,000 pounds in a week, allowing 50 pounds to the afternoon and 200 pounds each for Saturday," Palmer estimated. "I want the boys to pick, first, to help save the crop and second to earn enough to buy their own uniforms," Palmer said.

Emphasis is laid on the well dressed scout and the uniforms furnished the proper dress for all occasions. Each scout should pride himself in buying his own uniform.

Texan Sentenced Pardoned, Turned Loose, in One Day

By United News. WACO, Texas, Oct. 15.—Sentenced, pardoned and released in the same day was the novel experience here today for George T. Wiggs, white man, whose home is in Waco. On October 4 last he pleaded guilty to four cases of forgery and eight cases of forgery and passing forged instruments, getting two years in each case. This morning Sheriff Leslie Stegall was advised in a telegram from Governor Ferguson that she had granted full pardon to Wiggs, who had not been sentenced. The sheriff notified District Judge R. L. Monroe who sentenced Wiggs, making terms concurrent, after which Wiggs was released.

MYSTERY WITNESS ENTERS K K PROBE

TWO BLACK BAGS AND "MISSING PAPERS" GO TO THE GRAND JURY

By United News. INDIANAPOLIS, Ind., Oct. 15.—A mystery man carrying two black bags entered the Indiana political scandal today when he was escorted into the room where the Marion county grand jury is investigating charges that the Ku Klux Klan conspired with politicians to dominate the state government.

The investigation now has the aspects of melodrama as the black bags were believed to contain the inevitable "missing papers." These are documents owned by D. C. Stephenson, former grand dragon of the Indiana Klan, and are said to show the full extent of Stephenson's control over high state officials.

In Prison The former dragon is in prison for life as the murderer of Miss Madge Oberholzer but Thomas H. Adams, chairman of the investigating committee of the Republican Editorial Association and the man who started the present probe, says that Stephenson is ready to reveal the whole plot.

Missing papers and pretty women have figured in the case from the first. The latest girl to enter the investigation is Maxine Elliott. She was formerly Stephenson's secretary and was called before the grand jury in its attempt to learn where Stephenson keeps his documents.

OTHERWISE TOWN IS QUIET AFTER KILLING OF SCHOOLGIRL

By United News. BORGER, Oct. 15.—Under the leadership of Major J. H. White, federal prohibition administrator for the Southwest, Dixon creek and the lower part of Borger's main street was raided here this afternoon with the arrest of twelve persons—the woman and eleven men. Most of the prisoners are charged with selling and trafficking in dope.

The squad of federal officers started their activities about 2 o'clock this afternoon, and by 4 o'clock three carloads of officers and prisoners were headed for Amarillo where the prisoners will be arraigned before the federal court.

So far no activity has been seen by the state rangers who were reported due in Borger today.

Borger, the main town in the oil fields is quiet today after much excitement, due to the murdering of Mildred Toothman last Tuesday night by highwaymen.

THINKS TEXAS CAN CARE FOR ITSELF

RESERVE BANK HEAD AT DALLAS SEES NO CAUSE FOR ALARM IN COTTON CASE

DALLAS, Tex., Oct. 15.—"I see nothing in the present situation to warrant any Texas as to the ability of the Southwest to take care of itself," Colonel C. C. Walsh, chairman of the board of the federal reserve bank of Dallas, said Friday in discussing the effect of depression in the cotton market upon financial conditions in Texas.

"The federal reserve bank of Dallas has repeatedly and publicly declared its ability and willingness to make reasonable advances to member banks on red-credits against cotton insured and in the hands of producers or cotton stored against good warehouse receipts for a reasonable time. But up to the present we have received only one application for assistance along this line."

"The depression in the cotton market has somewhat slowed up fall liquidation and purchasing, but this very fact evidences a distinct slowing up in the dumping of cotton by producers. The banks of the Southwest, backed by the resources of the federal reserve system and other federal credit agencies, including the intermediate credit banks, are amply able to finance an orderly marketing of the 1926 cotton crop and are in position, for the first time since 1921, to make their control of the credit supply a decisive factor in the acreage program for the next crop."

DUGGAN TO TALK AT A. & M. TODAY

W. T. C. C. PRESIDENT TO BE AMONG SEMI-CENTENNIAL SPEAKERS

LITTLEFIELD, Tex., Oct. 15.—President Arthur P. Duggan of the West Texas Chamber of Commerce has been invited to address members of the Association on the Former Students of A. & M. College, October 16 at their luncheon and business meeting to be held the second day of the big Semi-Centennial Celebration at College Station October 15 to 17. The event is scheduled to bring all former students of the college together at that date. In addition to the principal address by President Duggan, John Henry Kirby of Houston will make a talk, and A. P. Rollins of Houston, president of the Association will preside as toastmaster.

One hundred and twenty-five delegates from leading educational institutions of the country, from learned societies, industrial organizations, and foreign universities have signified their intention of attending the Semi-Centennial ceremonies. Six foreign universities have already designated representatives. The big celebration will include the address to former students for the inauguration of Dr. Thomas Otto Walton as the twelfth executive head of A. & M. College.

The opening day of the meeting will be devoted chiefly to programs stressing the progress of technical education. The formal inauguration of President Walton will feature the second day of the Semi-Centennial Celebration which has been designated as Anniversary Day. The ceremonies will close with the anniversary sermon Sunday morning, October 17.

Mr. Duggan will go to College Station to make the address to former students from Fort Worth where he is to attend the executive board meeting of the West Texas Chamber of Commerce on October 15.

\$10,000 AMBULANCE IS WRECKED NEAR BIG LAKE

BIG LAKE, Tex., Oct. 15.—A ten thousand dollar ambulance, one of three such machines in service in the United States, was wrecked when ditched here recently after having been in use not quite 24 hours. The machine was covered by wreckage insurance and will be replaced immediately. The drivers of the ambulance were but slightly injured.

STUDENT COUNCIL TO BE ELECTED TODAY

The election of the members of the first student council of the Tech will take place this morning at 11:45. The classes of the four schools will meet and elect their representatives: six from the school of liberal arts, four from the engineers, three from the home economics students and three from the agriculture students. Each class will have representatives with the exception of the freshmen.

The sophomore will meet in room 202 with Elmer Moore presiding, the juniors in room 220 with Winfield Nicklaus presiding and the seniors in room 211 with E. M. Barnett presiding. Then the various school classes will elect their representatives at the instructions of the presiding officers.

PI GAMMA MU, HONORARY SOCIAL SCIENCE SOCIETY TO BE ORGANIZED AT TECH

Authorization was received from the national headquarters of the Pi Gamma Mu, national social science honor society, to establish a local chapter of the society at the Tech. For some months the various students and faculty members of the Tech have been contemplating an organization of a local chapter but it was impossible to organize until the Tech was recognized as a first class senior college. A number of the Tech faculty members are members of the society, and coming members in the schools they attended before coming here.

The fact that the society bears the greek letter name is a mere incident for it is in no way connected with the social fraternities and societies so prevalent in the older schools of the nation. Fraternities and societies of social nature are forbidden at the Tech but the faculty has voted to favor the establishment of any and all honor societies of the Pi Gamma Mu nature.

Initial steps were taken to organize the society at a meeting of the faculty members yesterday afternoon. Several new members of the faculty were admitted into the society and students will be admitted as soon as the qualifications are passed upon by the present faculty members.

Faculty members of the society are: Dr. John C. Granbery, Dr. A. W. Jackson, Prof. Fender, Condray, Gus, L. Ford, C. D. Hayes, and Miss Lela Boone. New members taken in yesterday were Mrs. Mary W. Donk, W. P. Clements, Mrs. A. W. Scott and Prof. A. W. Evans.

YOUNG SELECTED AS BAND MANAGER

John Young, of Lubbock, former president of the student's association and a junior pre-med student, was selected Thursday night as manager for the Tech Band. He will have charge of all financial matters of the band and arrange for all their trips, concerts and other matters. Young has had experience in this line and Prof. Harry Le Maire is highly pleased with the selection made by the band.

ed with the selection made by the band. One of the features of the band work for the year will be a trip through this section similar to the one made by the large bands of the state, including the Longhorn band of Texas. Young stated yesterday that he would begin work on the tour in the near future and the unit would travel several hundred miles in the spring "tooting it up" for the Tech.

AMARILLO CLUB BANQUET POSTPONED

Because of so many members of the Amarillo club attending the Tech-Simmons game at Abilene yesterday, President Ike Kendrick of the club announced that the banquet would be postponed until Wednesday night of next week. The program will be enlarged and a better banquet will be staged, according to Kendrick.

STRONG DEFENSE WORK OF TEXAS HOLDS ROUGH-RIDING COWBOYS SCORELESS ON FIELD BEFORE GOOD CROWD AT ABILENE

Special to Avalanche
ABILENE, Tex., Oct. 15.—The Matadors battling with the Simmons University for the first time in the history of the gridiron relations of West Texas' oldest and newest institutions, held the Cowboys here to a scoreless tie before some 2000 people who attended the game.
The strong defense was just too much for the Cowboys to punch and was impregnable when in a pinch in the shadow of a score. But, fighting like they never did before, the Matadors leveled down and cut back the Cowboy backfields for losses which forced them to rely on nothing but field goal and with three chances for goals they were missed.
Although Freshman and Highball both were handicapped by having a crippled team, the Matadors fought and fought for a game. The line, the pride of the great defense wall of the Matadors, never in the history of football in Texas Tech fought harder, not a man on the club failed to fight. The tackles and guards broke through time and again to snatch the "battering" cowboys for a loss. The work of "Doc" Reed, husky guard, and his teammate of the same position, "Red" Smith put up a brilliant contest and played a spectacular game. Kern Aldridge, starting his first game for Tech, repeatedly rushed the Simmons back field and threw for consistent losses.
The ends, Freshman Calloway, and Vincent did valuable work on the defense also—boxing in the outward end of the Cowboy backfield for the secondary defense to comply.
Bill Woodridge, Lassiter and Archibald made good plays and offered hand tactics to the "cow punching" organization.
Tech's Hamilton broke loose today—fighting a poor offensive game, but a brilliant defense—Hamilton's hard tackling was the feat of the afternoon. His driving and crushing tactics sent the backfield to the ground constantly.
Simmons Stronger in Offense
The Cowboys out-chased the Matadors in every phase of the offense—making a total of 41 first downs to the Matadors 2. The work of Estes, captain of the club, was a feature of the Simmons team—his ability on end runs and driving power often puzzled the Matadors and sent back Davenport, husky full was also greatly responsible for much of the yardage netted for the Cowboys.
The Commuted Summary
Yard gained on running plays, exclusive of passes—Tech 123; Simmons 189. Penalties—Tech none—Simmons 2 for 25 yards. Punt Tech 12 for 274 yards, average of 23 yards; Simmons 2 for 213, average of 106 yards. Passes—Tech 11, average of 25 yards; Simmons 14, average of 54 yards—Yard lost—Simmons 22, Tech 2. First downs—Tech 2, Simmons 11.

Walker was held for no gain; Aldridge was held for no gain; Aldridge dove down Walker for no gain; Hyde fumbled for a 5 yard loss; Bounds kicked for 1 yard out of bounds.
Tech's ball on their 33 yard line. Woodridge netted 1 yard at right tackle; Hill to Lassiter, a pass netted 3 yards; Woodridge punted for 25 yards to Estes who returned for 3 yards.
Simmons ball on their 33 yard line. Estes broke loose and ran for 17 yards around left end; Time out Simmons. Cox was thrown for a 2 yard loss; Corley broke thru to get Cox for a 1 yard loss; Aldridge held Walker for no gain. Bounds punted for 25 yards to Tech.
Tech's ball on their 22 yard line; Davenport for Walker for Simmons. Hill broke thru for 4 yards at left guard; Simmons was penalized for roughness, 35 yards. Tech's ball on the Tech 42 yard line.
Archibald ripped off 3 yards at left end; Hamilton for Archibald for Tech. Hamilton netted 2 yards for a first down thru center. Tech's ball on Simmons 45 yard line.
Calloway on an end around play lost 3 yards; Hill hit line for 4 yards. A pass, Hamilton to Vincent, netted 3 yards out of bounds. Simmons ball on their 11 yard line. Compton punted for 19 yards to Hamilton, who fumbled and Morris for Simmons recovered. Estes hit left tackle for 5 yards; Davenport hit right tackle for 3 yards; and again he ripped through for 3 yards. Simmons ball on their 44 yard line. Davenport on next two plays netted six yards at left tackle.

Clovis Delayed by Mud; Game Put Off
Led roads and piny weather prevented the Westerners from clashing with the Clovis team yesterday and the game was postponed. The visitors were unable to get their team here because of the roads. The local coaches had not decided on the date of the game, but it is likely that an agreement will be reached this morning.
Much interest has been manifested in the contest, because of the excellent records of the local Clovis team and the fans will see a good contest when the game is played.

Just One Big Ten Eleven Defeated In First Game

CHICAGO, Oct. 15.—Every Big Ten football eleven but Purdue came through victorious in the opening games of the season. Purdue, meeting a tough opponent in the Navy, fell after a terrific battle, 17-13.

Of the nine winning teams, however, only five came through without being scored on. They were Illinois, Wisconsin, Minnesota, Northwestern and Iowa. Of these Minnesota ran up the largest total, scoring 51 points against North Dakota.

Michigan, Chicago, Indiana and Ohio State failed to blank their opponents. Michigan watched the Oklahoma Aggies, coached by Johnny Maulbetsch, former Malle and Blue All-America halfback, kick a field goal. Chicago permitted Florida to score a touchdown, while DePaul, though badly outplayed, succeeded in crossing Indiana's goal line.

Ohio State found Wittenberg soft picking, but the little Godfrey eleven put over two touchdowns on the Buckeyes, a rather unusual feat in an opening game.

Of the other big middle western schools, Notre Dame perhaps made the best showing. Rockne's boys ran wild on Beloit and, when the final whistle chirped, were on the long end of a 77-0 score.

Creighton, a pretty good team year in and out, had a tough time over-throwing North Dakota. Aggie's, in fact, did well to eke out a 26-13 victory.

For the second time in as many seasons, Missouri, one of the high-ranking teams in the Missouri Valley Conference, and Tulane, one of the strongest aggregations in the south, fought a 30-decision battle. A year ago the count stood 6-6. This time neither was able to score.

SHE ATE HER CHECK

But Saleslady Also Made Omnivorous Customer Take Off the Clothes She Bought

SANTA CRUZ, Calif., Oct. 15.—A series of unusual events which included the eating of a bank check and the enforced disrobing of a modiste's customer has put Mrs. Della Gable behind the bars of the Santa Cruz Jail.

Convinced that a check for \$124.75 given by Mrs. Gable in payment for a coat and dress, was worthless, Mrs. Nina M. Elson swore out a warrant for the customer's arrest. A short time later Mrs. Gable appeared, asking if she could see her check.

The two women clashed in a bit of argument, one anxious to retrieve her clothing and the other bent on destruction of the check. Both won. Mrs. Gable was stripped of her clothing but, with a triumphant final swallow, disposed of the check.

To furnish a contrasting climax, Mrs. Elson loaned her late customer a dress for the court appearance Thursday.

ABILENE WHISTLE BLOWS AT EIGHT O'CLOCK EACH DAY

ABILENE, Oct. 15.—Housewives of Abilene and the school children know when 8 o'clock arrives without having to look at the clock. The big fire siren gives two long blasts. Housewives whose clocks are run down or incorrect set them and the school kiddies get their hats and books and rush to school.

The innovation was brought about by Mayor C. E. Cocubes after business firms, telegraph companies and others decided to answer no further inquiries about the time from housewives.

NO CHOLERA IN K. C.

Epidemic Sweeping Middle West Misses Stock Yards of City

KANSAS CITY, Oct. 15.—No traces of the hog cholera epidemic which is sweeping several middle western states, has been found in the Kansas City stock yards according to W. H. Weeks, vice president of the Kansas City Stock Yards company. It is reported that the Chicago livestock market is affected by the epidemic.

A close watch is being kept in the local stock yards for traces of the malady.

Iowa, Illinois and Nebraska all are reported to be affected by the cholera. In Illinois the plague is termed the worst in the history of the state.

LIME RECORDS MADE

Seven Plants Shown To Be Producing in Lime in Lone Star State

AUSTIN, Tex., Oct. 15.—According to Dr. E. H. Sellards, associate director in the Bureau of Economic Geology of the University of Texas, records are now complete on the production of lime in Texas for the year 1925. The seven plants producing lime in Texas are located in four counties as follows: Comal, El Paso, Travis, and Williamson. The total production of lime made during 1925 was 74,638 tons valued at \$298,128. These statistics are collected by the Bureau of Economic Geology in cooperation with the United States Bureau of Mines.

KANSAS AGGIES CLASH WITH JAYHAWKERS TODAY

MANHATTAN, Kans., Oct. 15.—The Kansas Aggies Saturday enter their first conference game of the season when they clash with the Jayhawkers of Kansas university. The team is in fine condition and none of the players have been injured in practice. Thousands of fans and alumni are arriving in Manhattan today to witness the battle tomorrow.

At the final practice of the Aggie squad, Donald Meek, right half back was given a try out with the regular team and it is thought that he will be chosen to start in that position tomorrow. Bachman, however, has refused to announce his line up and for that reason is expected to start a different eleven than that which defeated Creighton last Saturday.

EXES PLAN DRIVE

Former Longhorns Start out After Mere Members on October 18

AUSTIN, Tex., Oct. 15.—The membership drive of the Ex-Students' Association of the University of Texas is to be started in Dallas on October 18, according to an announcement from J. A. McCurdy, secretary of the association. The drive is to be the first step toward widening the scope of the activities of the association. The three-fold purpose of the drive will be to increase the membership and the number of subscribers to the "Alumni" as only about 2,500 of the 35,000 ex-students are at present on the subscription list, to increase the number of "blue-book" signers to solicit subscriptions for loan funds and scholarship endowments. In the blue-book are put the names of those who contribute \$50 each year to the ex-students loan fund and to the general maintenance of the association.

Wants Indictments of Several As Accessories After Fact in 4 Year Old Murder Case

By United News
SOMERVILLE, N. J., Oct. 15.—New indictments will be sought Saturday in the Hall-Mills case, by Special Prosecutor Alexander Simpson.

Admitting that the grand jury will convene here Saturday, the prosecutor said that he would ask indictments as accessories after the fact naming Felix Di Martini, private detective of Mrs. Frances Stephens Hall, and "one or two other persons." Simpson will also ask Supreme Court Justice Chas. W. Parker to tell the jury exactly what constitutes an accessory after the fact.

CITY GETS AFTER STREET BEGGERS

POLICE DECLARE OPEN WAR ON REGULAR HARVEST VAGRANCY

Declaring open war on the problem begging in the city of Lubbock, police officers Friday began an intensive campaign to eliminate, or at least to minimize the nuisance that annually makes its appearance with the harvest season. An edict has been issued by Mayor Pink L. French that the vest men which are many "good Samaritans" are "vagrants" must be checked.

While it is probably true that there are cases of this nature that are absolutely worthy of any assistance that may be offered by the free-hearted public, the mayor maintains that these are very few, and that in such cases, thorough investigation will not be protested.

He cited several instances, which he said he had been called upon to deal recently, all of which were worthy of aid. One man, he said, made his home on the street occasionally on his rounds that he had already paid for one nice home, and had another nearly paid for from the funds derived by this means.

As a rule, cases of this kind are handled through the Red Cross, Salvation Army or some other charitable institution, and merchants are urged to cite all cases to one of these agencies. But even officials of these places are sometimes misled by the pitiful tales that are offered, though these cases are few and far between.

\$27 PER CABBAGE HEAD

Man Convicted of Fisking Fifteen Cent Vegetable is Fined Heavily Here

The sum of \$27 per head for cabbage is a dear price, but one man who was apprehended in the act of "cabbageing" a cabbage head from a local grocery store, recently, was called upon to pay this amount in fines for his act when he was arraigned before authorities here Friday.

STOLE THE LAUNDRY

Wash Line Raided as Petty Thieving Epidemic Breaks Out in Lubbock

Petty thieving is being closely watched by Lubbock police officers, and warning after warning has been issued to the public to be on their guard with precautionary measures, but in spite of this fact, one Lubbock family is now entirely without wearing apparel that goes to make the family wash.

The entire outfit of the laundress which was left on the clothes line over night to catch the early morning sun was taken from the line during the night. The thief was tracked to the alley behind the home the next morning when the clothes were missed, but the tracks beyond this were obliterated by the heavy rain that fell shortly before daybreak.

SLIPPERY STREETS GET 2

Accident - Scarce During Muddy Spell Police Say Because Drivers Are Careful

While streets in Lubbock have been slippery during the past few days only two car accidents have been reported. In both instances cars were damaged but occupants escaped with minor or no injuries.

Officers report that speeders have been on good behavior during the week and that the crashes were due to skidding rather to speeding.

SUNDAY SCHOOL LESSON

General Topic: Joshua, Israel's New Leader.

Scripture Lesson: Numbers 27: 18-23; Joshua 1: 1-9.

Num. 27: 18. And Jehovah said unto Moses: Take thee Joshua the son of Nun, a man in whom is the spirit, and lay thy hand upon him:

19. And set him before Eleazar the priest, and before all the congregation; and give him a charge in their sight.

20. And thou shalt put of thine honor upon him, that all the congregation of the children of Israel may obey.

Josh. 1: 1. Now it came to pass after the death of Moses, the servant of Jehovah, that Jehovah spake unto Joshua the son of Nun, Moses' minister, saying:

2. Moses in yervant is dead; now therefore arise, go over this Jordan, thou, and all this people, unto the land which I do give to thee, even to the children of Israel.

3. Every place that the sole of your foot shall tread upon, to you have I given it, as I spake unto Moses.

4. From the wilderness, and this Lebanon, even unto the great river, the river of Euphrates, all the land of the Hittites, and unto the great sea toward the going down of the sun shall be your border.

5. There shall not any man be able to stand before thee all the days of thy life: as I was with Moses, so I will be with thee; I will not fail thee, nor forsake thee.

6. Be strong and of good courage: for thou shalt cause this people to inherit the land which I swore unto their fathers to give them.

7. Only be strong and very courageous to observe to do according to all the law, which Moses my servant commanded thee: turn not from it to the right hand or to the left, that thou mayest have good success whithersoever thou goest.

8. This book of the law shall not depart out of thy mouth, but thou shalt meditate thereon day and night, that thou mayest observe to do according to all that is written therein: for then thou shalt make thy way prosperous, and then thou shalt have good success.

9. Have not I commanded thee? Be strong and of good courage; be not affrighted, neither be thou dismayed: for Jehovah thy God is with thee whithersoever thou goest.

Golden Text: Be strong and of good courage: for Jehovah thy God is with thee whithersoever thou goest. Time: The death of Moses, B. C. 1459. This lesson, after the thirty days of mourning for Moses.

Place: Moab, east of the Jordan, opposite Jericho.

Introduction: "When Moses was warned that his end was approaching, knowing that he himself was debarred from entering the promised land, he desired God to give the people a competent leader who would rightly conduct his momentous undertaking, that the

congregation of the Lord be not as sheep which have no shepherd. No thought of obtaining the post for either of his sons, Gershon and Eliezer, entered his mind. They had shown no aptitude for such an office; and to place the enterprise in incompetent hands would ensure failure, and restrain the favor of the Lord without which success was impossible. Therefore Moses did according to his wont, he laid the problem before Jehovah, and the Lord solved it in the very best way. This was one of the prime evidences of the wisdom of Moses, that he always relied on the wisdom of Omniscience.

Joshua, Verse 18 "And Jehovah said unto Moses, Take thee Joshua the son of Nun, Joshua is the same as 'Jesus.' He was the first to bear the name 'which is above every name' (Phil. 2: 9). Originally Oshea or Hoshea, which means 'salvation of Jehovah.' Of this salvation from God Joshua was to be the human instrument for the people of his race and time. Joshua belonged to the powerful tribe of Ephraim, and with the rest of the Israelites, had been reared as a slave in Egypt.

"Eleazar, the Priest" Verse 19 "And set him before Eleazar the priest, the son and successor of Aaron. Joshua was subordinate to the high priest in the sphere of religion, but the high priest was subordinate to Joshua in the secular sphere. Moses was supreme in both spheres, but this was true of no other leader that followed him till the coming of the Second Joshua, the 'Prophet like unto Moses' (Acts 3: 22).

The Succession of Leaders Bible history is the story of a chain of great leaders, one succeeding the other, and all carrying on the providence of God for his chosen people. Thus Abraham was succeeded by Isaac and he by Jacob and he by Joseph. Thus Moses was succeeded by Joshua and he by the series of judges. So Samuel was followed by Saul and he by David and he by Solomon and the long list of good kings in Judah. Even so Elsha followed Elijah, and the glorious line of prophets came in close succession, and John the Baptist led up to Jesus, and Paul and Peter and John took up the work of the Christ, and Timothy and Mark and Titus took up the work of Paul and Peter.

The Book of Joshua "Joshua might be called the book of conquest and division," with reference to the events in Canaan it records. Its character is that of a military campaign, and I have read a criticism of it from that point of view, which places Joshua in the very first rank of military commanders, classing him with the Cæsar, and Hannibal, and Napoleon, and Wellington, and Grant of all ages. We know, of course, whence he secured his wonderful equipment, and we are not surprised at this estimate of him.

but it is interesting to have it come to us from another source."

Notes: (1) the conquest of Canaan, Chaps. 1-12; (2) the settlement of Canaan, Chaps. 13-22; and (3) Joshua's farewell address and death, Chaps. 23-24.

The River Jordan, Verse 2

"Go over this Jordan, thou, and all this people." The Jordan was near enough to be pointed out and called "this" Jordan. It is the chief river of Palestine, flowing the entire length of the land, more than one hundred miles. At its source it is 1,000 feet above the level of the Mediterranean, and where it enters the Dead Sea it is 1,392 feet below sea level. No other river in the world could so appropriately be named the "Jordan," "the Descender." The river is very swift in its lower reaches, dangerous to wade in, and rarely fordable. The command here given would have seemed impossible of execution, especially for the women and children and the animals.

"The River Euphrates" Verse 4 "Even unto the great river, the river Euphrates." The Euphrates (the word means "the good and abounding river"), being the largest, longest, and most important river of western Asia, is constantly called "the great river" in the Bible. Only twice in Hebrew history did the territory of the Jews extend so far eastward.

"The Great Sea," Verse 4 "And unto the great sea toward the going down of the sun." The great sea was the Mediterranean, the largest body of water known to the Israelites. During most of their history, the Jews did not own the land bordering the Mediterranean, but it was in the hands of the Philistines and other hostile tribes if the Israelites had been true to God, he would have given them all this land in perpetuity.

Moses-Joshua, Verse 5

"As I was with Moses, so I will be with thee." In carrying on any noble enterprise the essential is not man but God. "God buries the workers but carries on the work." Moses was vastly superior to Joshua, but God could and did accomplish as great results through Joshua as through Moses. The Lord's infinity is not lessened by the limited powers of his instruments. One paint brush may have a gold handle and another a wooden handle; the artist paints as well with the second as with the first.

Joshua's Preparation and Training Joshua had an ideal training or his great work. He suffered hardships as a slave in Egypt, and so trained himself to endure. He witnessed the power of God in the plagues, the crossing of the Red Sea, the manna, at Sinai, and in the wilderness, and so trained himself to believe. He led the Israelites at Rephidim, and discovered the power of prayer in conjunction with brave human effort. He heard the law at Sinai and learned to obey. He made a courageous and trustful report after exploring Canaan, and as a reward he alone, with his partner in faith, the stout-hearted Caleb, was allowed to enter the Promised Land.

These are the honey days, full of bargains and fresh things to eat at the CLARENCE SANDERS Store. If you have part of an ounce of brains working in your head you will not fail to get some of these bargains. Remember this, that it is mighty easy for the other Chain Stores to wait and see what CLARENCE SANDERS STORE does before they quote prices. Remember also that even then it's only a few of the many bargains they try to copy. But remember also that it is more sportsmanship like and better business on your part to trade with the price makers than with the store that offers a few bargains because they are forced to do it.
