U.S. Infantrymen Trapped By Armored North Koreans

Air Mail Being Brought Here Earlier By Bus

Box holders at the post office here are getting their air mail letters a day earlier, due to the new bus service from Lubbock started Saturday. The new plan brings air mail to Snyder the same day that it arrives in Lubbock. Air mail letters thereby reach box holders a day earlier than previously.

Another new bus service was also started Saturday when the Snyder office began dispatching air mail and Sweetwater mail to Sweetwater at 4 o'clock in the afternoon. This new mail route runs every day except Sunday and gives Snyder out-going air mail faster service.

A previous attempt was made to give air mail service between Lubbock and Snyder by bus, but this was disapproved by the District Superintendent of Postal Transportation as impractical on April 21.

The old method of dispatching mail was to send all mail to Sweetwater on the 8:50 eastbound Santa Fe train. This mail averaged over 8,000 letters daily plus magazines, papers, and other mail.

Dawson Moreland, acting postmaster, also stated that the new postal building is going up as scheduled and that the lease on the present building will expire on August 31. George W. Gray of the Snyder Gray Lumber Co. is building the 48 by 83 foot new post office at 2211 Avenue R.

REST FOR WEARY GI'S IN KOREA—U. S. Army ground troops take a much needed rest at an undisclosed place in South Korea on their way to the fighting front from Japan. Man in center, with rifles leaning on his chair, has pulled off his shoes. (AP Wirephoto from Army Radiophoto).

French Regime Last Two Days

PARIS, July 5. (AP) — Socialist objections to the conservative complexion of Premier Henri Queuille's new cabinet toppled the two-day-old regime yesterday on its first test in the national assembly.

Though not required by law to quit, Queuille handed his resignation to President Vincent Auriol. Auriol was expected to ask a Socialist to form a cabinet, but it appeared doubtful that such a premier could get the parliamentary majority necessary for endorsement.

Queuille lost out by a vote of 334 to 221 on a proposal asking endorsement of his cabinet and its policies. He had warned the assembly in advance that he would quit if it demanded an immediate debate on the composition of his cabinet.

Car Wreck Near Albany Fatal To R. C. Miller

R. C. (Bud) Miller, 40 years old, owner of the Bud Miller Service Station, 2416 Avenue S, was killed this morning when a car he was driving turned over three times about 13 miles west of Albany.

Miller left his home here at 4:30 o'clock this morning, bound for Dallas to buy tires. He had hoped to go from Abilene to Dallas by plane, but was unable to do so.

According to word received by members of the family, Miller was

Dies today in highway accident—R. C. (Bud) Miller.

attempting to pass a truck when his car hit gravel on the shoulder of the road and turned over three times.

Miller was born here May 13, 1910, the son of Mr. and Mrs. Homer Miller. His father, who died when Miller was 11 years old, was a ranchman in Scurry and Garza Counties. His mother, Mrs. Lora Miller, 2610 Avenue U, survives.

Other survivors are his wife, Mrs. Janice Miller; a son, Richard Miller, 11 years old; a daughter, Linda Ann Miller, 7 years old, and two sisters, Mrs. Myrle Wade of Clovis, N. M., and Mrs. Bonnie Stoker, Abilene.

Miller received most of his education at Crossroads, N. M., and had been in the service station business here all his adult life. He operated several stations here, having been at the Avenue S location about a year and a half.

He was a member of the Country Club.

Hong Kong Rumors That Red Chinese Will Enter Korea

HONG KONG, July 5. (AP)—Dipuomatic observers today predicted Soviet Russia is setting the stage for a surprise move against the United States in the Far East.

They said the Russians, probably would rush Chinese Communist troops from Manchuria to aid Soviet-supported North Korea in the Korean civil war.

EXPECTED SOON

Such a move "can be expected any time within the next month, and probably within two weeks," they added. All demanded anonymity.

One observer gave these reasons for forecasting a Soviet offensive in the Far East:

1—His country (and he declined use of his nationality as well as his name for diplomatic reasons, has "definite word" that the Chinese Reds have been massing troops in Manchuria since they captured Hainan Island, off the South China coast, a month ago.

The diplomat added that the Chinese Red troops in Manchuria can be expected to cross into North Korea as Russia's answer to American support for invaded South Korea.

2—The recent withdrawal from Tokyo of high level members of the Soviet mission could be considered an "indication that something big is brewing." He declined to elaborate.

SOME AGREE

Diplomatic observers agree generally that Chinese Communist participation in Korea is virtually certain. Nevertheless, they also are inclined to believe that Soviet Russia has not yet made up her mind as to how far she is ready to go in the Far East at this time.

Man Is Fatally Injured When Struck by Car

William Herman O'Rear, about 60, died this morning at 7:25 in Snyder Hospital Clinic as a result of injuries received when he was hit by a car on the Sweetwater Highway last night about 9:30.

The accident occurred in front of the Street Car Cafe. O'Rear had walked out of the cafe, paused outside the door, and then apparently walked into the side of a car driven by Tommy Davidson, 17, son of Mr. and Mrs. W. T. Davidson.

Vernie Head, deputy sheriff who investigated the accident, said that from he account given by several witnesses he was convinced the accident was unavoidable.

He said that Davidson had evidently attempted to stop, skidded sharply to the left, as he saw O'Rear aproaching. Davidson, accompanied by Jack Norris, was driving a 1939 Ford coupe with hydraulic brakes, Head said. He said there was no evidence of speeding and no charges would be filed.

O'Rear apparently walked into the right fender of the car, which was traveling east, and was thrown up over the hood, his head going through the windshield of the car. He was taken to the hospital by a Bolger-Barnes ambulance. He never regained consciousness after the accident.

He had been living in Snyder about three months, with his nephew, Raymond Terry Damron, at Gillam Trailer Court, 2410 Avenue E. Dameron said his uncle had been operating cold drink stands in Snyder.

O'Rear had come to Snyder from Monterey Park, Calif., having moved there about thre eyears ago from Abilene. He had lived in Abilene about 40 years, his nephew said. He was born in Emory, Tex., but his exact age was not known in Snyder this morning.

Damron and his wife said that no funeral arrangements would be made until they could get in touch with O'Rear's son, Thomas O'Rear, in Monterey Park. They said they expected that he would be buried

BULLETIN

TAEJON, South Korea, Thursday, July 6. (AP) — A sizable part of South Korea's army appeared last night to be in full retreat from the area where U. S. forces made their first contact with North Korean Communist invaders.

Corespondents saw thounsands of South Korean soldiers all heading south away from the battle zone.

TOKYO, July 5. (AP)— U. S. infantry forces today were cut off by tankled North Korean troops in a blazing battle on the Central Korean front south of Suwon.

The size of the American force was not indicated.

Anxious air officers waited for a break in the bad weather so they could loose their warplanes for attacks on the invaders.

NO MENTION

Gen. MacArthur's communique made no mention of the trap. This news of the setback for the first American infantry to go into action came from advanced headquarters in South Korea.

Headquarters said only that the northerners drove the "defenders" on to high ground north of Osan. But U. S. troops previously were located there. Osan is 11 miles southeast of Suwon, which in turn is 23 miles south of fallen Seoul.

The communique confirmed a gathering threat of Communist forces east of Suwon, apparently designed to lop off this whole sector of the front. That would open the way for a drive on Taejon, military center 73 miles south of Suwon.

MORE TROOPS

The northerners were pouring more troops and arms across the Han just south of Seoul despite repeated air strikes on the rail lines stretching north of the city.

A constant stream of U. S. reinforcements was flowing into South Korea from Japan by air and sea, the communique reported.

The setback on the Suwon front came after the Communist tanks apparently had been turned back by the fire of U. S. artillery.

The first report came from Associated Press Correspondent O. H. P. King at advanced headquarters. Later a spokesman there confirmed it by saying there still was hope the Americans could make a fighting withdrawal.

VISITS FRONT

Reports of the surprisingly quick Red maneuver came not long after the American commander in Korea, Maj. Gen. William F. Dean, had gone to the front to try to learn details of the tank-artillery duel.

In that engagement, two tanks were reported knocked out and the other six retreated.

But the surviving tanks bypassed the artillery, then cut in between the forward gun positions and their supporting infantry.

Carrier Planes Make Debut In Korean Conflict

By WILLIAM R. MOORE

TOKYO, July 5. (AP)—American and British carrier planes made slashing attacks on North Korea military targets Monday and Tuesday, Gen. MacArthur announced tonight.

It was the first use of carrier planes in the Korean civil war.

The planes were from the American Carrier Valley Forge and the British Triumph.

They hurled their fiercest attacks on Pyogyang, capital of the North Korean Communists.

TWO DOWNED

Two Russian-supplied Yak fighters were shot down Monday, the communique said, and six Yaks and two LI-2s were strafed on the ground Tuesday.

"There were no personnel casualties during the two-day strike," MacArthur added.

Vice Adm. Charles T. Joy, commander of naval forces in the Far East, called the raids "highly successful."

The strike was directed by Vice Adm. Arthur D. Struble, commander of the U. S. Seventh Fleet, to which the Valley Forge is attached.

The naval fighter planes heavily damaged the building and hangar area at the east end of Pyongyang airfield, reported to be the base for most of the North's air operations.

Earlier today, MacArthur's headquarters announced seven North Korean planes have been destroyed and four damaged in U. S. Army air strikes.

Simultaneously, the U. S. Air Force was preparing to send more bombers into action.

MORE ACTION

The carrier planes bombed and machine gunned the main railroad bridge crossing the Taedong River near Pyongyang, the communique said and added:

Vote of Confidence

TEHRAN, Iran, July 5. (AP)—Iran's parliament last night gave the new western-backed government of Premier Ali Razmara a 94-to-7 vote of confidence.

Howard County Wildcat Hits Oil In Pennsylvanian

Shell Oil Co. No. 1 E. T. O'Daniel, Northeast Howard County wildcat, seven miles north of Coahoma, has shown for a flowing oil discovery from a Pennsylvanian lime at 7,985-8,010 feet.

The oil was developed during a 40-minute drillstem test. Fluid appeared at the surface in four minutes after the tool was opened.

The drill pipe flowed out 35 barrels of high gravity oil in 36 minutes, through a five-eights inch bottom hole choke, and a 1-inch top opening. There were no signs of formation water.

Operators were preparing to circulate out the fluid left in the drill pipe after the tool was closed. Gravity of the oil and pressures have not been determined.

Location is 1,997 feet from west and 656 feet from south lines of section 2, block 30, TP survey, T-1-N.

This wildcat had previously shown possibilities of making an oil well in the Wolfcamp lower Permian, in the section between 6,170 feet and 6,240 feet.

Considerable free oil was developed in a series of drillstem tests in that horizon.

This prospector was originally started to drill to about 9,000 feet to explore the Ellenburger.

KENT WILDCAT

L. H. Armer, C. H. Chizum, both of Fort Worth and Castleman and O'Neill No. 1 Girard Trust Estate, wildcat in Northwest Kent County, has developed salt water in a Pennsylvanian lime and shale section.

On the drillstem test at 7,008-7,085 feet recovery after one hour was 600 feet of drilling mud and 5,770 feet of salt water. A strong blow of air surfaced throughout the test, but no gas was developed.

Flowing pressure varied between 500 to 3,050 pounds. Fifteen minutes shutin pressure was 3,150 pounds.

Operators were preparing to drill ahead.

On a previous drillstem test of 6,865-6,955 feet, recovery was 282 feet of drilling mud with no shows of oil, gas or water.

The No. 1 Girard Trust is 660 feet from south and west lines of section 109, block 1, H&GN survey, and eight miles southeast of Spur.

Monroney Has Slight Edge Over Sen. Thomas

OKLAHOMA CITY, July 5 (AP)— Incumbent Elmer Thomas trailed Rep. Mike Monroney by more than 7,000 votes today as tabulation of yesterday's Democratic senatorial primary election neared completion.

A run-off election July 25 was assured by the other five Democratic candidates who had more than 25,000 votes among them.

Returns from 3,261 of 3,786 precincts gave: Monroney 167,592, Thomas 160,435.

MURRAY LEADS

Johnston Murray, who hopes to win the governor's office once held by his father, held a wide lead over his three Democratic opponents but lacked the clear majority avoid a runoff.

Murray, in returns from 3,273 precincts, had 195,075 votes to a combined total of 221,158 for his foes. William O. Coe, Oklahoma City attorney, was second man.

Former Gov. William H. (Alfalfa Bill) Murray, father of this year's candidate, stayed at his son's headquarters until returns proved the younger Murray was definitely ahead.

SEE-SAW RACE

The see-saw race between Monroney, Fifth District congressman for six terms and Thomas, climaxed one of Oklahoma's hottest races since the late President Roosevelt came here in Thomas' behalf in the 1938 election.

Farm support prices and public power policies were the major issues. However, the minority Republican Party furnished its share of the headlines.

The Fourth of July election—first in Oklahoma's history—produced an average primary turnout of about 350,000 voters.

WINS GOP

The Rev. Bill Alexander, who first announced as a Democratic candidate, then switched parties, swept the GOP nomination. Alexander gave the Republicans, who seldom see a real primary scrap, a hard campaign, television shows and an election eve party that had everything from a choir to a cowboy band.

Thomas has at stake a national political career spanning 28 years. At his age, 73, the white-haired senator would probably step out of politics if he lost. Thomas served two terms in the house before his election to the Senate in 1926.

Fire in Borden Well Is Put Out

BIG SPRING, July 5. (AP)—Flames of a blazing oil well were snuffed out near here today, but this created a new danger to life. Work crews and residents were cleared from the vicinity. Blockades were set up.

A cement casing failed to hold when a shot of nitroglyerne blew out the fire at 8:10 o'clock this morning. This caused oil and gas to be sprayed to the southeast of the well. A spark could set off an explosion and fire.

Today's nitro charge was the third attempt to put out the fire. Workmen hope to clean up around the well and shut it in within 48 hours.

The well is the Pan American No. 1 Holley 25 miles northeast of here. It has been out of control for three weeks.

Fire fighting crews installed a heavy hood with an open valve above the well casing last Friday. Concrete was poured around the attachment Saturday. After that, the crews marked time until the concrete steel hood set.

This concrete hood failed to seal the well perfectly today. If it had, gas and oil would have been diverted from the well area through pipes laid earlier.

Truman Plan No Address On Korea Before Congress

WASHINGTON, July 5. (AP) — The White House said today President Truman has no intention of addressing Congress or the nation on the Korean war at present.

Presidential Secretary Charles G. Ross said the question of whether Mr. Truman should appear before Congress as some members have urged, was among those discussed at a secret Blair House meeting Monday afternoon.

Ross said no final decision was made and added:

"The President has no present intention of going before Congress or making a radio speech to the country."

Ross said he could not speculate on what developments might occur later which would change the situation, but indicated it was safe to assume there would be no speech this week.

He told newsmen the Blair House conference was for a "general review" of the situation.

He said there was no advance announcement of it because it was supposed to be confidential. Word of the meeting leaked out, however.

Ross said the President was likely to call in people "at any time" to discuss the Korean situation.

He described the Monday meeting as "impromptu," adding that the president had desired to keep it off the record.

Fire Less Dangerous Than Mad Bull, So Firemen Take Off

INDEPENDENCE, Mo., July 5. (AP)—The fence was flimsy. The bull was big. Fire Chief Tom Pollard made a decision. He let the fire burn.

Children with firecrackers started the blaze in a hollow tree in a pasture at the edge of the city yesterday.

Chief Pollard and his firefighters were called. They started rolling out the hose. Then Cork Daniel, a red-haired fireman, saw the bull coming. "He was big," Daniel said.

Only a flimsy fence separated the animal and the new bright red fire truck.

"Let's get out of here," Chief Pollard shouted.

The fire in the tree still was smouldering early today.

Ceylon Backing UN Action on Korea

COLOMBO, Ceylon, July 5. (AP)—Ceylon has joined the nations backing United Nations military action against Communist-led Korea.

This was announced in parliament last night by Finance Minister Junius Richard Jayawardee.

No Fireworks Death, But Car Wrecks Are Fatal to 29

By The Associated Press

Fireworks failed to show as a cause for violent deaths in Texas during the long Fourth of July holiday week end which began Friday night—but 51 fatalities had been recorded in the state early today.

Accidents on the highways accounted for 29 deaths. Seven persons drowned. Two oil field workers were killed Tuesday in an explosion. Shootings, stabbings, falls, lightning and fire accounted for most of the rest.

LATEST

The latest reports included:

Donald Reeves, 18-year-old Lubbock youth, died Tuesday in a Plainview hospital of injuries suffered Sunday in a crash near Plainview. Two other persons were killed in the head-on collision.

In Dallas, George Herman Miller, 45, who had served four terms in federal prisons for narcotics violations, was shot to death in his bathroom Tuesday. A pistol was by his side. Justice of the Peace W. E. Richburg said he would return a verdict tomorrow.

TWO DIE IN BLAST

Ross Davis and Bert Hasson of Archer City were killed Tuesday afternoon in an explosion at an oil well 15 miles west of Archer City.

James Davis, who lost an eye in an explosion several years ago, lost his second eye and an arm in yesterday's accident.

Henry Ray Banks, Negro, died of knife wounds received Monday night at an Austin east side club.

Candelario Sanchez, 42, drowned Tuesday in the Rio Grande in El Posa's upper valley. It was El Paso's only holiday fatality.

A Smith County welder, George Voyt Haggerty, 25, was killed by a shotgun blast at his home near Troup yesterday. His father-in-law, W. F. Dingler, was charged with murder. Officers said the shooting followed a family argument.

Richard B. Whiteside, 30, of San Antonio died yesterday from traffic injuries suffered in San Antonio Sunday.

Louis J. Warner, 52, of San Antonio, was found shot to death in his parked car near a golf course yesterday. Justice of the Peace J. W. Saye returned a verdict of suicide.

Australia May Seek U. S. Loan

CANBERRA, Australia, July 4. (AP) — Reliable sources said today that Prime Minister Robert G. Menzies soon may visit the United States to seek a dollar loan for Australian development.

These sources said Menzies' departure, which might come as soon as next week end, probably depended on the outcome of a special session of parliament Thursday.

At that session the opposition Labor Party is expected to support the government's action in placing Australian air and naval units in Japan at the disposal of the United Nations for aid to South Korea.

Steel Industry Set For War or Peace

NEW YORK, July 5. (AP) — The steel industry, with an annual capacity of about 100 million tons compared with 81.6 million in 1941, is ready for war or peace, The Iron Age, metalworking trade weekly, said today.

Snyder Reminds Senate That Truman Wants More Oil Tax

WASHINGTON, July 5. (AP) — Secretary of the Treasury Snyder today gave a limited endorsement to the House-approved bill cutting excise taxes by $1,010,000,000 and raising levies on big corporations.

He told the Senate Finance Committee, however, that improvements should be made and recalled President Truman's recommendations for increased taxes on oil and gas producers. The House turned that down.

PREPARED BRIEF

Snyder read to the senators a prepared statement in which he discussed the world situation in general terms as well as taxes.

He implied there is nothing in the Korean situation so far to require dropping the tax revision plans, but remarked that "increased disturbances to world peace" could force tax increases rather than cuts.

Snyder said he understood the Senate committee had decided to hold hearings on the House bill with the understanding that they would be halted "if conditions later indicated that it would be unwise to go through with the legislation."

IN ACCORD

"I am in accord with this view of the committee."

At another point, Snyder commented:

"I am sure that the future course of world events is very much in your minds, as it is in mine. Increased disturbance to world peace would involve increased demands upon us which would require additional fiscal measures.

"The effect of recent international developments on our expenditures will become clearer as events unfold."

He added that if it appeared defense spending would have to be increased sharply he would advise the committee.

The cabinet member was the first witness scheduled by the Senate committee at the start of its hearings on the measure. It was passed by the House last week by a 375 to 14 vote.

Air Force Concentrates On Keeping Sea Lanes Open

WASHINGTON, July 5. (AP)—Protection of the all-important sea route linking Southern Korea with Japan is high priority in the Far East war operations.

Ships of the United States and British navy and land-based patrol planes of the American Navy are scouting the waters along the Korean coasts and the sea lane across to the southern port of Pusan to keep them swept clear of raider vessels or aircraft.

The expected arrival of an Essex class carrier in the area will augment this protective cover for the supply ships and troop transports upon which the heavier part of the military build-up in Korea hinges.

LITTLE MENACE

Dispatches from the Far East and reports at Washington indicate that up to now the only menace has been from small surface craft, chiefly of the motor torpedo boat type, and the North Korean air force. A communique yesterday by the Far East command said laconically that "transportation of munitions, material, supplies and troops from points in Japan to Korea continued unmolested throughout the day."

No one here was inclined to bury, behind fantasy victories of cruisers over motor torpedo boats, the possibility that submarines might enter the picture. As far as is known, the North Korean navy has not included submarines, but there has been speculation that such craft could be transferred or loaned from the fleet of the North Koreans' powerful friend, Russia.

TYPE NOT NAMED

At Washington, Pentagon briefing officers said yesterday they had received no information on what types of aircraft were being used by the navy in the anti-submarine and surface vessel patrol. They assumed the planes were land-based.

This would mean that they operate from bases in Japan, since Pusan is the only Korean airfield suitable for use by heavy or fast airplanes and it is congested. That means the time which the partol planes can spend in actual search is reduced by the hours required to fly the several hundred miles from Japan to the Korean coast lines.

Moreover, the slow, lightly armed patrol planes generally must fly without protection against hostile air attack. Arrival of carrier aviation will provide additional fighter cover for the patrol aircraft.

WEATHER

WEST TEXAS: Mostly cloudy with scattered thundershowers this afternoon, tonight and Thursday. No improtant temperature changes.

EAST TEXAS: Partly cloudy with a few thundershowers in north and extreme east portions this afternoon and Thursday and in southwest portion tonight. No important temperature changes. Moderate southerly winds on the coast.

SUPPLIES LOADED INTO SUPERFORT—Air Force ground crews waste no time loading supplies into one of the 22nd Bomb Wing's Superfortresses which the defense department ordered to Japan. The plane is one of ab out 45 based in March Field, Calif. (AP Wirephoto).

Ask U.S. Propaganda Drive To Harrass Communists

WASHINGTON, July 5. (AP)—Generals George C. Marshall and Dwight D. Eisenhower today urged expanding "Voice of America" program to combat Russia's world propaganda campaign against the United States.

The World War II Army leaders gave strong support to the proposal by Sen. Benton (D-Conn) for a "Marshall Plan of ideas." Among other things, Benton's plan calls for vast increase in "voice" broadcasts overseas.

Marshall was Army chief of staff in World War II and later served as secretary of state.

Eisenhower, wartime allied commander, is now president of Columbia University.

CITES NEED

Citing a need for the kind of program proposed by Benton, Eisenhower said the United States had moved into Korea "with the very best of intentions"—to preserve the independence of the South Korea republic.

But he said the move has been "so twisted by shrewd propagandists" for the Communists that it has been made to look like a "vicious" act of American imperialism.

Benton took a similar line earlier in urging approval of his plan. He said the Korean war stemmed from failure of the United States "to shatter Russian propaganda with truth."

Benton, freshman senator, former advertising man and one-time State Department official, has called the proposal a "Marshall Plan of ideas" to counter and overtake the world wide propaganda of Communism.

HOW TO ATTAIN IT

To attain this goal, he said, the United States and its allies must find ways to pierce the so-called Iron Curtain and reach the eyes, ears and minds of people now getting only Communist-controlled information.

This can be done, Benton contends, if Congress will endorse his program calling for:

1. Steady pressure through the United Nations and diplomatic channels for "freedom of the press" for all kinds of communication media.

2. More support for UNESCO United Nations Educational, Scientific and Cultural Organization and the program of exchanging students with foreign nations.

3. Development of an uncensored world wide radio communications network able to reach all receiving sets.

Japanese Seamen Are Moving Cargoes To Korea for Big Bonus

TOKYO, July 5. (AP) — Guaranteed big bonuses, 2,500 Japanese merchant seamen are manning more than 30 small ships moving supplies to South Korea.

The seamen and ship owners reached an agreement on bonuses for voyages to danger areas.

Bonus payments up to 100 per cent of regular pay will be assumed by the United States Government, Col. H. T. Miller, chief of Gen. MacArthur's Civil Transportation Section, said today.

Historian Succumbs

BERLIN, July 5. (AP) — The death of Walther Brecht, 74, German philologist and literary historian, was announced today in the Berlin press.

Man is Fataly

(Continued from Page 1)

at Abilene, where his wife died three years ago. The body is at Bolger-Barnes funeral home.

Survivors also include two other sons, Charles O'Rear of Durante, Calif., and Chester O'Rear of El Monte, Calif. A married daughter lives at San Jose, Calif.

This was the second traffic fatality in Snyder this year. The first occurred when Herbert Lammert was killed in a motorcycle accident in February.

Proposal to Pool European Wine and Wheat Announced

PARIS, July 5. (AP) — West European leaders studied a proposal today to add wheat and wine to the coal and steel which the Schuman Plan proposes to put under international control.

As experts on five committees began working out details for the coal-steel pool, heads of non-governmental farm organizations in France and Germany recommended that the plan also embrace their produce. They suggested wheat and wine as starters.

The farm leaders proposed that France, an exporter, and West Germany, an importer, first put their wheat problems under the supranational authority slated to control the steel-coal arrangement. Other countries would be asked to join later.

Six West European governments —France, West Germany, Belgium, the Netherlands, Luxembourg and Italy, already have agreed to join the coal-steel plan.

The farmers also suggested a conference of European wine producers to harmonize "legislations, economic, social and fiscal conditions with a view toward creation of a common market."

The five Schuman Plan committees will work in secret, announcing their decisions first to a general plenary session when they have finished work. They will recommen policies on production and prices, scope of the terms "coal" and "steel," wages and working conditions and commercial policy.

More Treason Deaths In the Balkans

PRAGUE, Czechoslovakia, July 5. (AP) — The Prague official radio said today that a military court in Bucharest, Romania, has sentenced two men to death after a treason trial.

Five others received sentences last night ranging from seven to 20 years imprisonment at hard labor. The slightest sentence, the radio said, went to Nicolau Popescu, former chauffeur in the Roman Catholic Apostolic Nunciature (Vatican embassy) in Bucharest.

Vasile Ciobanu, a former pilot for one-time King Mihai, and Nicolae Valsan, former official of the Romanian merchant fleet, were sentenced to death.

Cool Front Brings Scattered Rain To Plains, Panhandle

A very mild cool front brought rain to scattered sections of the Texas Panhandle and South Plains overnight.

The weather bureau said the cool front had caused "unsettled" weather over much of North Texas and was expected to bring the same kind of conditions to East Texas tonight.

The front, the weather bureau said, was not cold enough to reduce temperatures materially except in the Panhandle, where readings in the 50's were reported during the night, and the Red River Valley. The showers, however, had cooling effects elsewhere.

Overnight rainfall readings included Amarillo .95 inch, Lubbock .73, Childress .54, Wichita Falls .49, Abilene .18, Marfa .08, Texarkana .02 and a trace at Fort Worth.

High thermometer readings yesterday were in the 80's in the Panhandle and extreme North Texas and generally in the 90's elsewhere.

Forecast was for scattered thundershowers in West and East Texas tonight and tomorrow. No showers were expected for south and southwest areas. Temperatures would remain about the same today as yesterday.

Number of Polio Cases at New High

AUSTIN, July 5. (AP) — Texas polio set a new black mark for the week ending July 1.

A total of 124 cases were reported to the State Health Department, the highest weekly incidence in the history of the state. The old record of 121 cases for a single week was set Aug. 6 last year.

Thus far, 948 cases of polio from 122 counties have been reported this year. For the first six months of 1949, there were 683 cases from 100 counties.

Dr. George W. Cox, state health officer, urged parents to be especially watchful for polio symptoms. Call a doctor, he said, if a child develops nausea, high fever or soreness in the muscles and joints.

Trace of Rain Falls In Early Morning

A trace of rain accompanied cool, cloudy weather in Snyder this morning. Mrs. D. P. Strayhorn, official weather observer, said there was not enough moisture here to measure.

Rainfall was heavier in the southeast part of the county. About .12 inch reportedly fell in Hermleigh before 8 o'clock this morning.

The Markets

FORT WORTH, July 5. (AP)— Cattle good fed steers and yearlings 27.00 to 31.00; common to medium 20.00 to 26.00; beef cows 18.00 to 22.00; canners and cutters 12.00 to 18.00; bulls 16.00 to 23.00; good and choice fat calves 25.00 to 28.50.

Hogs: Good and choice 185 to 260 lb barrows and gilts 22.25 to 22.75; latter prices highest here since August, 1949; lighter and heavier hogs 20.50 to 22.25; sows 15.00 to 18.50.

Sheep: medium to good spring lambs 24.00 to 27.00; one load of good and choice 75-lb spring lambs topping at 27.50; medium and good slaughter yearlings 20.00 to 21.00; cull to good aged sheep 9.50 to 12.00; most feeder spring lambs 20.00 to 22.00; feeder yearlings 15.00 to 19.00.

NEW YORK, July5. (AP) — Cotton futures noon prices were 65 cents a bale higher to 30 cents lower than the previous close. July 33.60, Oct 33.27 and Dec 33.25.

NEW YORK, July 5. (AP) — Stock traders returned from the July Fourth holiday today with no very pronounced ideas on the subject of price.

In a generally steady market, leading issues showed only fractional changes for the most part. Gains and losses hit a fairly close balance.

After a brief flurry of business at the opening, trading slowed to a walk.

The Korean situation — or, rather, what might develop out of our part in the Korean fighting — continued to dominate trading strategy. On the whole, investors and speculators were inclined to take it easy until Far Eastern affairs clear up a bit.

Hadacol Helps Wife Keep Her Family Well and Happy

HADACOL HELPS FOLKS SUFFERING FROM DEFICIENCIES OF VITAMIN B1, B2, NIACIN AND IRON

Mrs. Edward H. Newton, 4364 Reading Road, Cincinnati, Ohio, feels that a wife's chief responsibility is attending to the welfare of her family at all times. HADACOL has been a big help to her in keeping her husband and little nephew well and happy.

Mrs. Newton's family, like so many, were suffering deficiencies Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

HADACOL brought such wonderful results to her husband, who had suffered from stomach distress that Mrs. Newton gave HADACOL to her three-year-old nephew, Bobby Newton, with equally gratifying results.

Mrs. Newton's Statement

Here is Mrs. Newton's statement: "I gave my little nephew HADACOL because he was pale; he had no appetite; he was run down and he caught colds repeatedly. After taking HADACOL, he has an apetite, has color in his cheeks and he is healthier all the way. My husband has always been troubled with his stomach. After taking five large bottles and three small bottles of HADACOL, he eats anything and is not bothered with his stomach." Mrs. Newton has recommended HADACOL to many of her friends.

Helps You Feel Wonderful

Why not have a similar happy experience happen to you. Now don't keep putting it off—don't say that you'll start taking HADACOL tomorow. START TAKING IT TODAY! If only you'd realize the wonderful benefits that people by the thousands are getting from HADACOL, you wouldn't delay a single minute.

Hundreds of Doctors

. . . have prescribed HADACOL for their patients, have requested quantities of HADACOL for their own clinical use and for their own families. The fact that HADICOL is scientifically formulated, compounded so that it contains therapeutic qantities of Vitamins B1, B2, Niacin and Iron, vital elements and is enriched with helpful amounts of Magnanese, Calcium and Phosphorous (in liquid form), to help account to supply deficiencies of these for its increasing acceptance by doctors.

You'll Feel Great . . .

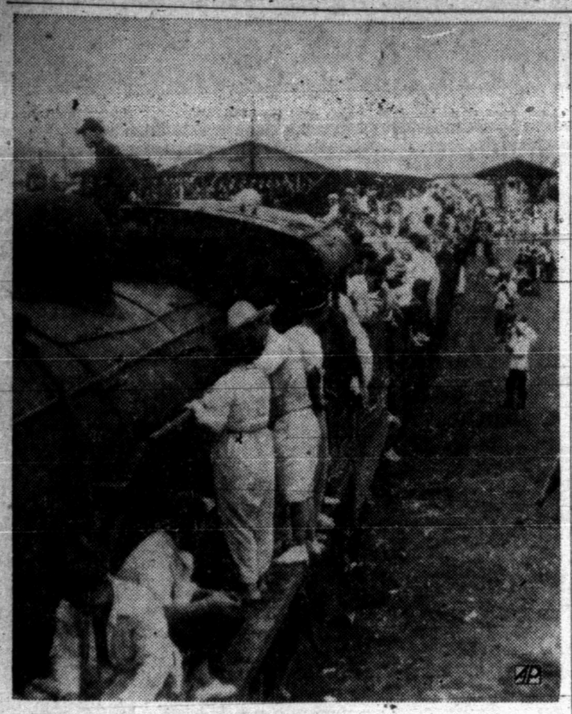

. . . with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give the remarkable HADACOL formula a chance to help you if you suffer from any sickness caused by deficiencies of Vitamins B1, B2, Niacin and Iron. Remember that HADACOL is amazingly different and amazingly effective because it treats the real cause of the conditions you suffed from by supplying the deficient elements of Vitamins B1, B2, Niacin, and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Don't be satisfied with temporary relief. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only $.125 for Trial size. Large family or Hospital size, $3.50.

What a treat it will be next winter to include a summertime variety of delicious garden-fresh fruits and vegetables in your meals. Picture the pleasure of serving full-flavored green beans--- black-eyed peas--- corn-on-the-cob--- strawberries--- in fact, anything you raise---on the coldest days of winter. This summer's vacation fish will taste mighty good next January, too.

Home freezers that make all this possible are available at your electric appliance dealer's in upright and chest models to fit your family's needs.

REFUGEES RIDE THE LOCOMOTIVE—Unable to crowd into the jammed railroad cars, South Koreans, including women and boys, find places on the locomotive of a refugee train leaving Suwon. The city, 20 miles south of Communist-held Seoul, was evacuated when the North Korean invaders continued to sweep southward after taking Seoul, but Suwon was still in South Korean hands. The Communists were reported six miles from the city, preparing for a new assault. (AP Wirephoto).

Philadelphia Music School Trains Orchestra Players

PHILADELPHIA—Symphony orchestra directors long have been uneasy about the dimishing number of well-trained string instrument players.

In Philadelphia the New School of Music is striving to bolster the ranks.

The project is no small one. There are 200 professional symphony orchestras in America, including 20 major ones. Each orchestra averages about 100 players, more than two-thirds of whom are string instrumentalists—violinists, cellists, viola and bass players.

To fill the brass, woodwind and percussion sections is a simple matter—a few auditions and the seat is filled.

Example Of Shortage

But Max Aronoff, founder of the New School of Musie and himself one of the foremost viola players, cited the predicament of the director in a city which supports a major symphony orchestra.

The director wanted one violinist. He had 1,500 violinists in the area from whom to choose. But not a single man could be found whom the director felt qualified to fill the post.

Conductor Dimitri Mitropoulous sighed after a similar experience: "I had to take the less worse of all of them who didn't even know how to play their instruments!"

Aronoff said part of the trouble begins with the aspiring musician. If he chooses a string instrument he sets out with eyes on the consert stage as a soloist. Only a handful make the grade.

But more often, Aronoff continued, he picks the trumpet or the clarinet over the fiddle. The training period is shorter, pay is higher on the average and opportunities to play in dance bands and radio orchestras are more plentiful.

Symphony orchestras, Aronoff said, don't actually need a player of pronounced artistic individuality and temperament. He is useful only if he has these other more important qualities:

1. "A strong flexible sense of rhythm. This demands an all-round bow arm and well controlled, rather than 'flashy' fingers.

2. "A keen ear for intonation and for fitting in with his and other sections of the orchestra.

3. "A knowledge of the orchestral repertoire that is more than a mere scraping acquaintance."

To fill the bill the New School of Music was founded in 1942 by Aronoff. The school workshop is one of the few where symphonists are trained with such thoroughness that they are able to take a chair in a symphony group upon graduation.

Organized Chamber Group

About five years ago, Aronoff organized the new Chamber Orchestra of Philadelphia. Its director is Ifor Jones, head of the Bach Festival at Bethlehem, Pa., and its string section is led by the Curtis Quartet—Aronoff, Jascha Brodsky, first violin; Orlando Cole, 'cello, and Louis Berman, second violin.

School enrollees, who now number over 300 and who pay about $18 a week for the complete course, come from all over the United States and Canada.

SUPPLYING ORCHESTRAS—Max Aronoff drills violinists.

Corrosion Cost Studied

LAKE SUCCESS, N. Y. (AP) — Corrosion cost the United States five and a half billion dollars a year. This report to the United Nations Scientific Conference on the Conservation and Utilization of Resources is made by Herbert H. Uhlig, Massachusetts Institute of Technology. The United Nations released this report in advance of the conference which begins August 17. Biggest single loss is paint, at $2,-945,000,000. This total is $585,000,000 dollars worth of paint and $460,000,000 the cost of labor to replace the paint. Second largest loss is corrosion in your auto and other internal combustion engines, $1,30,000,000. Third is $600,000,000 for underground pipe maintenance and replacement.

Catholic Bishop of Georgia Is Expelled from Romania

LONDON, July 5. (AP) — Romania has expelled Roman Catholic Bishop Gerald Patrick O'Hara of Georgia and two other members of the apostolic nunciature on charges of spying, the official Romanian radio said today.

The Romanian foreign office told the three Catholic officials yesterday they must quit the country within three days, the Romanian news agency said in a newscast.

Besides Bishop O'Hara, of Savannah and Atlanta, Ga., the foreign office ousted Msgr. Delmester de Chonbert, auditor of the nunciature, and Msgr. John Kirk, secretary of the office.

O'Hara was accused last week during the trial in Bucharest on treason charges of his chauffeur and six others of engaging the chauffeur to spy for him. A military court sentenced the bishop's chauffeur, Nicolau Popescu, to seven years imprisonment.

The agency report said the Romanian foreign minister accused the three of making use of their "diplomatic immunity to interfere in Romanian affairs by initiating and taking an active part in the machinations" of a group of spies.

The report said Romania declared activities by the three clergymen violated diplomatic usage and that they were "no longer desirable."

Tradition Has Phils To Win But Cardinals Now In First

(By The Associated Press)

If tradition is to be upheld, the second place Philadelphia club in the National League and the first place Detroit team in the American will meet in the World Series.

For years baseball men have believed the legend that the teams in first place on Independence Day were almost certain to meet in the series. That is only a half-truth.

During the past 15 years thirteen of the American loop pace-setters on July 4 have gone on to win. In the National, only seven have turned the trick.

Of the eight trailing clubs to win in the National, five rose from the runnerup spot to whip the leaders. So it appears the second place Phils, not the frontrunning St. Louis Cardinals, stand a chance of winning the pennant.

THE OUTLOOK

Here's the race today:

Detroit leads New York by four games in the American with Cleveland five games behind and Boston six and a half. St. Louis tops Philadelphia by a game and a half in the National, Boston trails by two and a half and Brooklyn by four.

Of the seven doubleheaders played (rain washed out the Athletics-Red Sox twin-bill), only the Cardinals and Cincinnati Reds won both games. The Cards whipped the Chicago Cubs, 4-1 and 4-3. The Reds smacked Pittsburgh twice, 8-4 and 5-4.

The Phils trampled the Braves, 14-5, but Boston came back to win 12-9. The New York Giants shaded the Dodgers, 5-4, in the first game but dropped the second, 5-3.

Detroit divided a doubleheader with the Chicago White Sox while the Yankees gained a victory and a tie against Washington. After bowing, 4-1, the Tigers struggled to a 10-9 victory. The Yankees won the opener, 16-9, then saw the second game halted by darkness after nine innings with the score deadlocked at 3-3.

The St. Louis Browns whipped Cleveland, 8-3 after the Indians won the opener, 8-7.

Michael Faraday, nineteenth century scientist who contributed much to the early development of electricity, was self-educated.

Odessa Shutout In Two Games By Bronc's Pascual

(By The Associated Press)

Iron men? Boy, the Longhorn League has "em."

Last night a couple of pitchers won double-headers in this circuit.

Potato Pascual of Big Spring turned the trick against league-leading Odessa, allowing only five hits in both games. Big Spring won the first 8-0 and the second 4-0. Pascual went through 10 2-3 innings during the two seven-inning games in which he did't allow a bingle.

It was the most magnificent pitching job of the season in this bustling league.

Not to be outdone Frank Hill of Roswell notched a double triumph against Ballinger. He allowed seven hits all told. Hill twirled a three-hitter in the opener which Roswell won 13-1, leaving midway of the game to save himself for the nightcap which he won 4-0 with a four-hit stint.

The result of all this iron man stuff shoved Roswell within two and one-half games of Odessa.

Midland beat Vernon in a doubleheader, taking the first game 3-2 and the nightcap 10-8. Vernon made six errors in the two games, these contributing largely to the double beating.

San Angelo and Sweetwater split. San Angelo won the first game 9-7 with nine bases on balls helping the Colts along. Sweetwater captured the after-piece 6-2 on Lee Gatewood's three-hit pitching.

FIRST GAME

Israeli Town Booms

NATHANYA, Israel (AP) — Business is booming in this pretty little city along the Mediteranean north of Tel Aviv. Sixty new industrial enterprises have signed contracts with the Nathanya municipality. Nearly $6,000,000 will be invested and some industries expect to start work shortly.

A total of 2,000 workers are to be employed in the new industries which include a big electric bulb factory. Nathanya already is Israel's biggest center for polishing and cutting diamonds.

Few Clues to Help Detectives In Solving Grandstand Death

NEW YORK, July 5. (AP) — A bullet aimed by chance or incredible marksmanship whipped through the Polo Grounds yesterday and struck one of 40,000 baseball fans dead in his grandstand seat.

Twelve hours later part of the 40 detectives working on the case found several empty .22 caliber shells on the roof of a nearby apartment building—and a .22 target pistol and two 22 rifles in an apartment one floor below.

They questioned a 14-year-old Negro boy who lived in the room with his grandmother, but said he denied any connection woth the holiday shooting.

He was detained for further questioning.

The victim was 54-year-old Bernard Lawrence Doyle of Fairview, N. J., a former fight manager who launched James J. Braddock on the path to the world's heavyweight championship.

Doyle, in straw hat and shirt-sleeves, was sitting in an upper left field stand with a 12-year-old neighbor boy, waiting to root for the New York Giants when they opened their Fourth of July doubleheader with the Brooklyn Dodgers.

He was watching the Dodgers' pre-game batting practice when his close neighbors heard a "pop" like a paper bag breaking, and saw Doyle slump back in his seat.

They assumed he had been taken ill suddenly, but then saw blood run from his ears. There was a small hole in his left temple. The bullet had passed through his brain and lodged in the other side of his skull. He died instantly.

An autopsy was ordered later today to recover the bullet.

Police said the shot could have been fired up to half a mile away. Forty detectives were ordered into the needle-in-the-haystack search.

Doyle, who had been working for the Railway Express Co., had almost missed the game.

He had promised to take the neighbor boy, Otto Flaig, last Friday but postponed it when he found it was to be a night game. They bought tickets for the Fourth instead.

Even after police, a doctor and ambulance orderlies came to the stands only a few fans realized what had happened.

The game went on as scheduled and the players did not learn the details until later. Many of them expressed their regrets for the tragedy that marred the holiday play.

The Polo Grounds, home field of the Giants, is across the Harlem River from Yankee Stadium, not far from the northern tip of Manhattan. It is overlooked by several high buildings and bridges. Police surmised the shot may have come from one of them.

It could have been fired, they said, as a prank, or possibly as part of a Fourth of July celebration.

Doyle is survived by his widow, Margaret, and a son and a daughter.

TESTING RESILIENCY IN BASEBALL—Fred W. Gibson, laboratory technician, lines up a 'pitch' for driving machine during test of baseball for resiliency at the A. G. Spalding plant at Chicopee, Mass. The automatic driver can pole out home runs against various wind conditions. (AP Wirephoto).

B-29s Leave March Field for Far East

MARCH FIELD, Calif., July 5. (AP)—B-29 planes of the 22nd Bombardment Group left March Field for the Far East.

Maj. Donald C. Foster, public information officer of the 15th Air Force, declined to say how many of the giant bombers left or to indicate their destination.

Families of the crewmen were on the runway to bid them goodbye. Preparations for the flight have been in progress for the last two days, and unlike the days of the recent war, relatives had been appraised of the departure time.

Saunders Wins Title

MUSKOGEE, Okla., July 5. (AP)—Jim Saunders of Amarillo, won the men's singles title of the Arkansas Valley Tennis Tournament here yesterday, defeating Paul Hurley of Tulsa 6-8, 6-3, 6-4, 6-2.

Boulder, Colo., is known as he "gateway to the glaciers".

Hornsby Manager Of All-Stars In July 21 Contest

By HAROLD V. RATLIFF
Associated Press Sports Editor

The Texas League tugged and hauled through a full slate of July 4 double-headers with the only one thing being decided — Rogers Hornsby will be manager of one of the clubs in the July 21 all-star game.

Beaumont went through Independence Day in fourth place, thus led all the southern teams of the circuit. So, under rules of the all-star game, to be played at Fort Worth, Hornsby, manager of the Roughnecks, will skipper the south all-stars.

Bobby Bragan of Fort Worth already had become manager of the North because his club not only led all the northern clubs through July 4 but topped the league as well.

Now all there is to do is for the sports writers to pick the two all-star squads.

The reason the league race was status quo was because in every double-header the clubs split, so there was no advance and no recession in any instance.

Fort Worth beat Oklahoma City 6-1 in the frist game with Chris Van Cuyk getting his fourteenth decision, allowing only six hits and fanning 14 batters. In the nightcap Oklahoma City came through 12-0 on Leroy Wheat's three-hit hurling. Bob Lemon of the Indians clubbed his thirty-first home run of the season in the second game.

Second-place Tulsa beat Dallas 12-4 in the first tilt with Jim Blackburn doing a nine-hit stint but the Eagles took the afterpiece 4-3, stabbing out a Tulsa rally in the ninth that got two runs across with two still on base.

San Antonio beat Beaumont 6-4 in the opener, blasting out 13 hits featuring homers by Joe Lutz and Andy Anderson. Beaumont took the nightcap 14-4 with a five-run splurge in the fourth and an eight-run blast in the fifth. Among the 17 Beaumont hits was a homer by Ford Garrison.

Houston beat Shreveport 2-0 in the opener with Dick Bokelman holding the Sports to four hits. Shreveport won the second 6-0 on Bob Holloman's five-hitter.

Dallas moves into Fort Worth tonight with Oklahoma City at Tulsa, Houston at Beaumont and San Antonio at Shreveport, all opening three-day stands.

FIRST GAME

Hubbers First As Pampa Splits Double Header

(By The Associated Press)

Lubbock's Hubbers were back on top in the West Texas-New Mexico League today. They hadn't been away very long anyway.

The Hubs whammed cellar-dwelling Clovis twice yesterday to make the leap, downing the Pioneers 9-2 on J. B. May's five-hit twirling and 6-4 on Wilcy Moore's hitting. Wilcy drove in five runs.

Pampa was falling out of first place into second by a half-game through a split with Albuquerque. The Oilers won the first game 21-2 with Roy Parker scattering 10 Duke hits but Albuquerque copped the nightcap 7-4 with southpaw Al Carr giving up just eight blows.

Lamesa licked Amarillo twice, winning the first game 7-5 and the nightcap 9-4 with Bo Dempsey supplying the winning runs in both games with a pair of homers, one a grand slam affair.

Abilene and Borger split. Abilene won the first game 2-1 on Bob McChesney's four-hit twirling and a two-run homer by Rene Vega. Jim Cain held Abilene to three hits in the afterpiece which Borger won 5-2.

Tam O'Shanter Club Is Raided For Gambling

CHICAGO, July 5. (AP) — The plushy suburban Tam O'Shanter Country Club was raided last night by police who seized 27 slot machines and arrested the club owner and president, George S. May.

May, promoter of the annual Tam O'Shanter Golf Tournament richest in the country, was charged with being a keeper of gaming devices. He posted $500 bond for appearance July 10 in the Morton Grove village court.

The raiders, from the office of Cook County State's Attorney John S. Boyle, also hit six other spots in a broad Independence Day sweep.

Boyle's police swarmed into Tam O'Shanter while 2,500 club members and guests were watching a fireworks display.

Boyle had warned 35 private clubs in the county that "slot machines are just as illegal in private clubs as in public places."

MURPHY COMMUNITY NEWS

Mrs. Ben Weathers, Correspondent

Mrs. J. E. Sorrells returned Tuesday from a vacation in Maine.

Mrs. Lula Alexander spent Saturday night with Mr. and Mrs. Harley Smith.

A Vacation Bible school for the boys and girls of the community is in progress this week at the Knapp church.

Mr and Mrs. C. S. Harris of Gail, have been recent visitors in the Ed Murphy home.

Mr. and Mrs. Harley Smith and Maggie Strickland, were in Christoval, Tex., Sunday with Mrs. Cora Weathers returning home with them for a few days stay.

Mr. and Mrs. Hubert Sage and family of Snyder, visited Sunday with Mr. and Mrs. Clarence Carter, and daughter.

Mr. and Mrs. Walter Weathers and Mr. and Mrs. Joe Parks, spent Sunday in the Ben Weathers home.

Mr. and Mrs. C. N. von Roeder of Snyder, visited recently in the J. E. Sorrells home.

Jimmy Joe Key is attending the Boy Scout meeting at Valley Forge, Pa.

Mrs. H. von Roeder and Mrs. Anna Ohlendorf of Lockhart are spending the week in the Ed Murphy home.

Miss Bea Rosser and Miss Lanita Folger, of Hardin Simmons University, Abilene, are spending the week in the Wright Huddleston home, supervising the Vacation Bible school of the community.

PERSONALS

Mrs. Lyman Yoder and Mrs. W. W. Adcock and their children will leave Snyder Thursday morning for Galveston, where they will vacation for an indefinite length of time.

The Rev. and Mrs. M. W. Clark 2811 Avenue X, had as week-end visitors their son and family, Mr. and Mrs. Freeman Clark of Dallas. The younger Clarks are also visiting here with Mr. Clark's sister, Mrs. A. C. Preuitt, and with his neice, and family, Mr. and Mrs. H. F. Clark.

Mr. and Mrs. Wayne Boren spent the week end in Brady, Tex., visiting with Mr. and Mrs. Clyde Hall, Sr., and Mr. and Mrs. Clyde Hall, Jr. They attended the famous Fourth of July Jubilee in Brady, an annual, colorful event with parades, floats, and horse races.

Mr. and Mrs. L. F. Hooper of Abilene arrived in Snyder this week to spend a few days with Mr. and Mrs. Wayne Boren.

Mr. and Mrs. Grady Hicks and family and J. O. Dodson left Saturday morning for a three weeks' vacation trip by car through Colorado and Utah.

Reuben Williams of Dallas, one of the owners of the Canyon Drive-In Theatre, was a visitor in Snyder last week end.

Dr. and Mrs. Robert J. Kidd spent the holidays near Menard, Tex., where they attended a large family reunion of the Kidd family.

Mr. and Mrs. T. D. Wiman, Jr., 2308 Twenty-ninth Street had as visitors Friday night Mrs. Wiman's two brothers and their families, Mr. and Mrs. Cole Trailkill and children and Mr. and Mrs. Joe Trailkill and children. The Wimans entertained in their yard with a fish fry Friday night. The Trailkills are visiting in Roscoe in the home of Mrs. Wiman's parents, Mr. and Mrs. M. A. Trailkill, Sr. Sunday the group was joined by another brother M. A. Trailkill, Jr. The Trailkills are from California. Cole Trailkill is on his vacation from the dairy business, and Joe Trailkill from radio work. They will be in this area another week.

Bill Snyder and children visited over the holiday in San Angelo, where they attended the boat races on the lake with friends, Mr. and Mrs. John R. Howell.

Mr. and Mrs. W. M. McMath, 2400 Avenue N., had as Friday visitors their nephew and family, Mr. and Mrs. J. L. Fargason, Jr., from Big Spring.

Mr. and Mrs. J. G. Lockhart, 2507 Avenue V, will have as their guest this week end Mr. Lockhart nephew, Charlie Lockhart of Dallas. Mr. and Mrs. Lockhart also plan to go Sunday to Abilene where they will attend a birthday celebration for Mr. Lockhart's sister-in-law, Mrs. Jim Lockhart, 90 years old. Accompanying them to Abilene.

Red Monitor Gives Experts Bad Time

LONDON, July 5. (AP) — The Soviet monitor gave international experts a bad 15 minutes last night.

First he released a Tass dispatch from New York saying that Politburo Member Georgi M. Malenkov had written UN Sec.-Gen. Trygve Lie that the Soviet Union would not attend the 11th session of the United Nations.

Later the monitor said it was all an erroneous translation. Tass, he explained, had reported that Soviet UN Delegate Jakob Malik had written Lie that Russia would not attend the economic and social council meeting in Geneva.

Since January the Russians have boycotted all UN meetings attended by representatives of the Chinese Nationalists.

Hugh F. Slimmer, 1012 Twenty-fifth Street.

Raymon Martenis, Box 424.

Mrs. Joe Guerin, 1802 Avenue Q.

Shirley Ryan, 1901 Nineteenth Street.

Yank Pilot Survives Freak Accident

TOKYO, July 5. (AP) — First Lieutenant Jack B. Eno, 28, Lansing, Mich., was blown back to life during a bomber mission last week.

Returning from a strike in Korea, Eno discovered one bomb was stuck in the bomb bay of his B-26. He could not shake it loose. When his gasoline ran low he decided to land in the water because it was too dangerous to come to the field.

His right engine quit as he neared the surface and he hit harder than he intended.

After that, Eno isn't sure what happened except that the plane blew up. Eno found himself on the surface, thrown clear. There was no sign of the plane. He grabbed a liferaft and began a fruitless two-hour search for his gunner.

Eventually he was picked up by Japanese fishing boats and later, from the fishing boats, by a helicopter which returned him to his base. He suffered only minor injuries and has returned to duty.

You can broil fresh mushrooms without turning them. Just put a little butter in the cavity and sprinkle with salt and pepper.

Talk of the Town

By Frances Biow

The Von Roeder orchards, located 26 miles southwest of town, is a sudden oasis after a long, anxious drive over rut-pitted roads and rolling knolls topped by burning flames and soaring rigs. Just as the assembling Independence Day picnickers yesterday decided they were lost beyond help, here appeared cool vistas of trees, a sheltered picnic area, and plenty of hospitality.

The Fourth brought on a flock of gay parties and firecracker outings, but surely merriest was that at the big orchards, attended by the board of stewarts of the Methodist church, the Weslyan Service Guild, wives, guests, etc.

All the august Snyder citizens let their hair down, figuratively, had the big, informal time they do annually for this get-together.

SEEN CELEBRATING THE FOURTH WITHOUT A CARE IN THE WORLD: MRS. R. H. ODOM, aproned, flouring stacks of chicken pieces, passing them on to MRS. B. J. BARTELS, hostess, who expertly fried them a golden brown over the huge, outdoor fire; W. J. ELY and JOE STINSON seated placidly on peach crates, discussing real estate, weather, how good the food was, and Life; MRS PAT BROWN, in a navy nylon frock, passing around among friends; EDWARD BOLGER, alone as Mrs. Bolger is out of town, sending HERMAN DOAK after a second helping of spiced cake and punch for him.

Happening in late were MR. and MRS. BRUCE L. GREER and son, Mr. and Mrs. Dodson. Mr. Greer and Mr. Dodson are administrators of Snyder Hospital. Definite lookalikes are Mr. Dodson and the Rev. W. W. ADCOCK, who quickly got together, assembled a crowd for the bumpy, exhilirating tractor ride out into the orchards, picking peaches. The pleasant twilight outing did everyone worlds of good, it appeared. Spirits were very high.

MR. and MRS. H. JAMES, who tend the orchards and live there, reported yesterday one of the largest days for attendance, people driving from miles around to pick the fruit. Certain types of freestones were ready, but another 10 days will see everything ripe.

Funniest moment came when, it dawned on everybody that PAUL KEATON'S small son and the Adcocks' equally frisky young heir were blissfully pouring sand into and out of SOMEBODY'S Panama hat! Mr. Keaton had generously donated his for the cause; he thought, but BOB DUPREE turned up the fact that his was the one in use.

Large Industrial Area Tied Up By Transit Strike

BUFFALO, N. Y., July 5. (AP)—A strike by 1,700 buss drivers and mechanics today halted public transportation for approximately 800,000 residents of the Buffalo-Niagara Falls area.

At 2 o'clock this morning, an official of the Niagara Frontier Transit Corp. announced:

"The strike is on."

Officials of Local 1342 of the AFL Amalgamated Assn. of Street, Electric Railway and Motor Coach Employees were not available for comment.

INCREASE SOUGHT

The union seeks a 32-cent hourly increase in the present rate of $1.38 an hour. Holiday pay and other fringe issues also are in dispute.

The company originally offered a boost of three cents an hour. This was increased during negotiations to seven cents.

The company also offered several improvements in working conditions. However, union officials charged that the company proposals had "too many strings attached."

HOLDS FRANCHISE

The transit company holds the local franchises in Buffalo, the nation's 14th largest city with a population of 576,000, and in Niagara Falls, which has nearly 80,000 residents. It also serves much of the suburban area for the two cities, which are 27 miles apart.

The firm took over the franchises June 1 from the bankrupt International Railway Co.

Only three days ago, the company retired the last of Buffalo's trolley cars, completing a 100 per cent changeover to buss operation.

Nationalists Will Be Paid in Goods

TAIPEI, July 5. (AP) — All Chinese National Government employees, military personnel and school teachers soon will receive a portion of their salaries in commodities, the official Chinese news agency said today.

The government said that effective in August all employees, regardless of position, will be paid in coal, rice, edible oils, salt and cloth, based on the average monthly need of individuals and families. The balance of salaries will be paid in cash.

Mrs. Lou Lambert
Four Miles from Square on Colorado City Highway

FIFTY YEARS AGO

From the files of the Coming West, Snyder, Texas, July 5, 1900, published in the interest of Scurry County and West Texas.

About 130 pirates, boxers, and other criminals were beheaded by Li Hung Changs orders to terrorize the lawless element in China.

* * *

The 4th celebration was a big success with the Woodmen of the World providing a perfect day. The crowd began to gather by the arbor in the grove near the school and about 10:30. The local lodge, accompanied by the Snyder Cornet Band, and followed by the town people marched to the picnic grounds. Judge H. B. Patterson acted as the MC and after a big picnic lunch was over the contests began.

Roy Autrey and John Woody won the race for boys in the 5-8 age group. In the race for boys 9-12, Autie Bell and Ira Riley won. The race for girls 8-10 was won by Eula May Alley, the prize was a two-pound box of candy. The other events were dispensed with because of blustry, threatening weather.

* * *

W. A. Johnson came into town to get supplies for his new calves.

* * *

A .38 Colt pistol was found on the night of the 4th. The owner may have it by calling Sheriff Ira Kutch.

* * *

C. R. Buchannan and B. L. Crump are finishing the census for the county.

* * *

H. C. Caldwell, visiting the Snyder Odd Fellow's, liked the new school and says he remembers when Snyder had only three houses.

* * *

The brick kiln burnt has been opened and the bricks are first class. They will be used on the new bank building.

* * *

W. A. Johnson purchased a Durham Calf 10 months old and weighing over 800 pounds.

Sailor's Cocktail Called Champ

LONDON (AP)—Ex-sailor Eddie Hopkins is world's champion cocktail maker—British version—on the strength of a concoction named for his old boss, Lt. Commander John S. Keenans of the famous Private Amethyst. He won the honor and a flock of prizes at the British hotel, restaurant and catering exhibition here.

His cocktail consisted of gin, creme de noyaux, grand marnier, orange cordial and angostura bitters.

Trail Ridge Road in Rocky Mountain National Park, Colorado, is the highest continuous highway in the nation. Four miles are above 12,000 feet (timberline).

The U. S. Department of Agriculture says the farmer got about 49 cents of each dollar spent for food in September 1949 and 32 cents in 1933.

RECIPE

FRIDAY SUPPER

Broiled Swordfish — Fresh Green Peas
Scalloped Potatoes — Sliced Tomatoes
Molded Melon and Raspberry Dessert*
Beverage

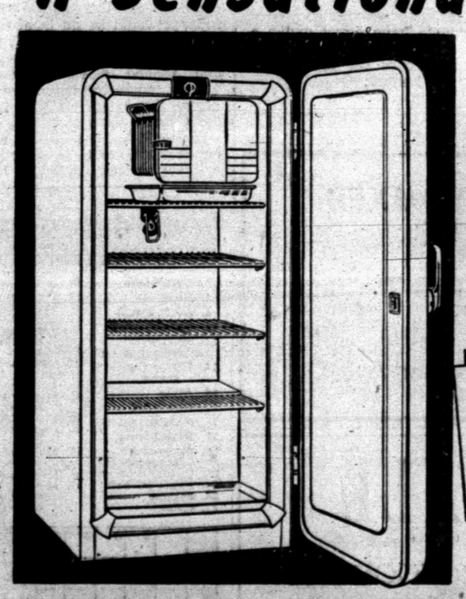

(Recipe for Starred Dish Follows)

MOLDED MELON AND RASPBERRY DESSERT

Ingredients: 1 package lemon gelatin, 1 pint hot water, 1 cup cantaloupe or honeydew melon, (cut in ½-inch pieces), 1 cup fresh raspberries, whipped cream.

Method: Dissolve gelatin in hot water. Chill. When slightly thickened, fold in melon pieces and raspberries. Turn into ring molds. Unmold and serve with whipped cream. Makes 6 servings.

War News Sobers Nation's Fourth Of July Fetes

(By The Associated Press)

United States troops moved forward in a foreign land yesterday to fight in the name of freedom. And here at home their folk observed the anniversary of this nation's independence, war-won 174 years ago.

As in past years, the homefolk thronged the beaches, ball parks and vacation spots. The weather was close to ideal most places. Hot dog and soda pop stands did a booming business. Fireworks, bands and barbecues got their usual play.

But the contingent of troops in South Korea and concern over the possibility that their commitment may lead to another great war had their sobering effects.

In Washington, President Truman passed the day quietly at home, reportedly keeping in close touch with developments in Korea. Echoes of the Far Eastern struggle reached into the Pentagon and other key federal agencies where many gave up the holiday to work.

At United Nations headquarters in New York, top-level officials worked throughout the holiday on a plan to co-ordinate UN action to end the Korean War.

Under UN auspices, the "Voice of America" and the British Broadcasting Co. began a news bulletin service, opening with a statement that governments with more than one billion population are backing the UN efforts to halt the conflict.

FILIPINOS WORRY

In Manila, the Filipinos celebrated the fourth anniversary of their independence and, with anxious attention to the Korean war, they heard President Quirino warn of the "not too far distant threat to Philippine independence."

In an Independence Day address before the American Society in London, Winston Churchill, British Conservative Party leader, said that come what may in Korea the Western World "shall not be trampled down into serfdom and ruin."

He emphasized that he does not believe a third world war is "inevitable."

Korean Decision Was Right, But Not a Triumph

By WALTER LIPPMANN

AS YET THERE IS NOTHING to indicate that in the Korean affair the USSR has departed from the basic line of its policy, which has been to expand the Communist sphere by the use of satellites without committing and engaging its own armed forces. It has sent forward only the pawns. It has guarded the king.

Since V-J day in 1945 there has been much fighting around the periphery of the Soviet orbit and for the purpose of enlarging that orbit. But in none of the theaters of conflict—in Greece, in China, in Indochina, in Malaya, in Burma, in the Philippines, in Korea—have the organized military forces of the USSR as yet been involved directly. All these wars have been civil or colonial wars. In none have the Soviet forces engaged in open combat with the local forces. The Soviet Union, though indubitably it has intervened, has nevertheless contrived to have the active fighting done by Greeks against Greeks, by Chinese against Chinese, or by Asiatics against Europeans.

ADHERING TO ITS RULE OF avoiding direct commitment of Soviet forces, the Kremlin has not been able to carry out every project of expansion. Satellite forces are not always reliable and effective. Thus while in China there has been a resounding success, in Greece and the Balkans the Kremlin has had a setback.

Yet win or lose, the rule has had enormous advantages; by not engaging its own forces, the Soviet Union is reasonably insured against a world war; by not engaging its own forces, its own prestige is not totally committed in any local adventure. Without losing face it can allow the Greek guerrillas to be defeated and it could have waited a much longer time—and probably expected to wait — before Mao was victorious.

It has been a policy quite different from Hitler's—a policy of very shrewdly calculated risks. The Soviets have acted under a rule of policy by which the profits can be very big though the losses are limited.

UNTIL LAST WEEK THE United States had also been able to conduct the struggle without committing its own forces directly. Though the British have been engaged directly in Malaya, the French—at great cost—in Indochina, we, at least, were not. In Europe, including the Balkans and Turkey, no satellite or subversive forces have been able without support of the Red Army to expand the sphere of Communism. The national forces, with help but without armed intervention, have proved to be adequate. The one apparent exception, Czechoslovakia, is not really an exception in view of the fact that it was virtually surrounded by the Red Army and could not possibly have been helped effectively by the West.

BUT ON THE MAINLAND OF Eastern Asia the position has proved to be fundamentally different. Even with arms and supplies and military advisers the native anti-Communist forces would be beaten by the native Communist forces in Indo-China and in Korea as they were beaten in China. The anti-Communist forces, as such, are not able to win the civil wars. The only way to prevent them from losing the civil wars completely has been to engage non-Asiatic forces — French, British, and now American.

It is necessary to keep our heads very clear and very cool. The decision taken this week was necessary and it was right. But it is not a triumph—far from it—to be fighting Koreans while the Soviet Union remains in a position to take a profit from our losses and to lose very little by our gain.

The three leading powers in the Atlantic community — on whom depend the defense and reconstruction of Western civilization—are now fighting Annamites, Malayans, and Koreans, and soon they may be fighting Chinese. They are fighting them in Eastern Asia very far from the main centers of the Atlantic community, and very far from the main centers of the Soviet orbit.

THE FRENCH ARMY IS deeply engaged in this Eastern struggle, so deeply that the bulk of its regular officers and the best of its regular troops are not available for the defense of Europe. It would be an incalculably great Soviet success if the United States were to become involved and pinned down in a long, bloody, expensive, indecisive struggle on the Asiatic mainland with the Chinese-Korean forces.

It should be, it seems to me, a cardinal rule of U. S. policy that at least as long as Soviet forces are not committed in any of these borderland struggles, we shall retain mobility and freedom for our own military forces. We must remember that our power is on the sea and in the air, and that we must not commit our meager infantry forces on distant beachheads, thus engaging large elements of our power in theaters that are not of our own choosing and where no decision can ever be had.

Three Crimes Of Major Proportion Charged to Youth

WILLISTON, Fla., July 5. (AP) — Charges of three major crimes—murder, kidnaping and rape—have been filed against 21-year-old Charles Rogers, just two months out of prison for stealing a motor car.

State Atty. T. E. Duncan said Rogers killed a 75-year-old woman, shot at his aunt, and kidnaped and raped a telephone operator Monday night.

He was caught by a posse as he held the telephone girl as a hostage behind a downtown building. A member of the posse shot Rogers in the shoulder.

Duncan reported this account:

Rogers, just two months out of state prison after serving five years for auto theft, was living with a 45-year-old aunt, Mrs. Ruby Horne. He went with Mrs. Horne to the home of Mrs. Gertrude Hammnod Baxley, 75, on a visit and both women scolded him for drinking.

He went home and drank some more. Then he got a .22 caliber rifle and returned to the Baxley home, where he shot Mrs. Baxley through the head. Mrs. Horne fled and he missed her with two bullets.

Rogers then went home to supper, got a shotgun and planned to leave town. He saw the operator in the telephone building, forced her to go with him behind the building. There he raped her and held her as hostage for more than an hour before the posse got him.

Dead Man Receives Oklahoma Votes

OKLAHOMA CITY, July 5. (AP)—Oscar E. Wyatt, a Democratic candidate for secretary of state, polled several thousand votes in yesterday's Oklahoma primary election although he died a month ago.

U.S., Allies in Korea May Fly United Nations Flag

WASHINGTON, July 5. (AP) — Thenist invasion of South Korea.

blue flag of the United Nations may be flown by Americans and others fighting to stop the Commu-

Diplomats who reported this said also that Gen. Douglas MacArthur probably will be named United Nations commander for the Korean area.

The United Nations flag is light blue, bearing a polar map of the world flanked by twin olive branches.

FORMALIZING

Since the resistance to the invasion is under a call by the United Nations, flying its flag and making the commanding general a UN agent would further formalize the arrangement by which aid was sent to the South Koreans.

There were indications that a resolution to effect the two steps would be offered in the UN Security Council at New York within a few days.

John Foster Dulles, Republican adviser to Secretary of State Acheson and a former delegate to the UN, said in a Fourth of July speech last night that the Korean war offers an opportunity for peace. He said:

"We have today a great opportunity to join with the other free societies to prove that unprovoked aggression does not pay.

MUST PAY

"If we sternly teach that lesson in terms of the North Korean adventure, then our own peace will be more secure than ever before."

Dulles also said that the struggle with Communism is a grim one and "before it is finished we shall all of us have to pay a price.

"Already today in Korea our youth are beginning to pay the final price of life itself," he said. "The rest of us may have to cut down on our economic indulgence so that out of our productive capacity, we can help our friends to match the offensive power which the Soviet Union, out of its economic poverty, supplies to its friends."

Yank Paratrooper Sets New World Mark for Jumps

FAYETTEVILLE, N. C., July 5. (AP)—A hard-boiled 32-year-old paratrooper from Dillon, Mont., has brought the world's record for the most consecutive parachute jumps in one day back to the United States.

Sgt. John W. Swetich, attached to the famed 82nd Airborne Division at nearby Fort Bragg, is the man who did it.

Yesterday he wore out five pilots in making 123 jumps in a dawn to dark marathon.

The previous record of 105 jumps was set by Juan Iriate of Buenos Aires, May 19, 1950.

HUGE CROWD

More than 10,000 persons jammed Sandrock Airport to see Swetich erase that mark and go it 18 jumps better.

Swetich planned to jump 150 times, but quit at 11:15 last night after 123.

At the end, looking tired with a day's growth of beard, his hair tousled and wearing an old sweatshirt, he said, "I'm glad it's over with."

Asked why he did it, he told a reporter: "I wanted to keep the title in the U. S. I did it one time and I wanted to do it again.'

The "one time" Swetich referred to was when he set a U. S. record of 60 jumps at Sioux City, Iowa, in 1946.

Swetich made his first jump at 2 o'clock yesterday morning. He made his 107th jump shortly after noon.

ONE MISHAP

His only mishap came on his 50th try when he suffered a slight knee injury. During the afternoon he rested.

At 6 o'clock in the evening he was scheduled to start again with a goal of 150 jumps. High winds, however, delayed him more than two hours.

It was the wind that caused him to knock off at 123. After that he said, "I almost broke my neck on that jump. I've got the record and I think I better quit now."

It took, besides the five pilots, two piper cub airplanes, seven parachutes, and six parachute riggers, going full blast to keep Swetich going. Also one pack of crackers—that's all he ate from start to finish. He trained for six months to get in shape for the gruelling effort.

LIKE 'OX'

Clyde Woodle, manager of the airport, who flew Swetich on the first jump, the record jump, and the final leap, had this to say about the short, stocky paratrooper: "He's just like an ox."

Miss Mary Cook of Greensboro, N. C., Swetich's girl friend, was more enthusiastic. Her comment: "I think it's just fine. Nobody else in the world could have done it by my sergeant."

Swetich became a paratrooper in 1941 and served with both U. S. and Chinese divisions. During the war he served in the O.S.S. overseas.

What will he do next? He said, "I'd like to try for a record delay." That's going up as high as possible, bailing out, then waiting until the last possible moment to pull the rip cord. He thinks the present record for a free fall of that type is about 40,000 feet.

And about this parachute jumping? "It's O.K. if you like it. I like it."

Bus Wreck Injures Thirty-eight Women

AVERILL, Vt., July 5. (AP) — Thirty-eight women were injured last night when their chartered bus overturned while they were returning from a week-end pilgrimage to the Catholic shrine of Ste. Anne de Baupre in Quebec.

None was critically hurt. The most seriously injured suffered broken bones. They were treated at Coos County in Hospital in West Stewarstown, N. H., about 10 miles away. The women were all residents of the Lewiston, Me., area.

Saunteed chicken livers served with scrambled eggs and garnished with parsley make festive dish for Sunday brunch. Mushrooms may be cooked with the livers if desired.

Gordon B. Goss, Candidate For Sheriff, Gives Platform

Gordon B. Goss, candidate for sheriff, says that his ambition from early childhood was to be a county sheriff.

He first had experience in law enforcement as a special investigator in Kansas City for two years. Following this assignment he went to El Paso police force for one year and then served as deputy sheriff in New Mexico for seven months.

When he entered the Army, in 1942, Goss was assigned to the military police detachment at Fort Riley, Kans., and from there went into military intelligence work for the duration of the war. His work during this time involved investigating espionage, sabotage and subversive activities.

During his residence in Snyder, Goss has owned and operated three cafes and has been in the automobile business. He has also built and sold a number of homes in Snyder. At the present time he is finishing construction and awaiting the opening of Gordon's Drive-In on the new Big Spring highway.

Goss is the last of 14 children of Mr. and Mrs. L. N. Goss of Coleman, Tex. He was born in Birmingham, Ala., July 13, 1910. He attended high school at Coleman, Tex., and graduated in 1925. He is married and has five children, three girls and two boys.

Goss says that if elected to the position of sheriff of Scurry County he will treat all people as citizens until they are proven criminals.

One of four candidates for sheriff—Gordon B. Goss.

"I will diligently work to rid the community of hot check artists and con men, thieves and safe crackers," he says, "and will prosecute bootleggers until they are hard to find."

He promises justice to all and no partiality to anyone.

Goss is opposed by Lloyd Merritt, incumbent, R. L. (Bob) Terry and Walter Morgan.

Political Prisoners Released in Portugal

LISBON, Portugal, July 5. (AP) — A court has released four men and a woman—all political opponents of Premier Dr. Antonio de Oliveira Salazar—after nearly 11 months in prison because they criticized the government in pamphlets.

The defendants were arrested at Mozambique, in Portuguese East Africa, last September, and brought here to Caxias Prison shortly afterward.

But the public prosecutor announced at a hearing yesterday he had no evidence that the five either belonged to the Communist Party, as charged, or had attempted to discredit the country.

Four Are Charged In County Court

Four misdemeanor charges were filed in county court here this morning resulting from arrests made by officers of the sheriff's department over the holiday week end.

Charges of driving while intoxicated were filed against Arthur L. Pittman, 26, of Bennington, Okla., and John Thomas Nix, 36, of Snyder.

Johnny Dean Shoemaker, 40, of Snyder, was charged with unlawfully carrying a pistol, and C. J. Gaines, 33, of Snack Bar Cafe, was charged with possession of liquor for sale in a dry area. Homer Whisnand, deputy sheriff, said that 294 12-ounce cans of beer were confiscated from Gaines.

All arrests were made by Whisnand.

No Honorable Way to Avoid Korean Decision, Ike States

VALLEY FORGE, Pa., July 5. (AP)—Gen. Dwight D. Eisenhower says the U. S. decision to assist South Korea in resisting "outrageous invasion" was inescapable.

And, Eisenhower told 47,000 Boy Scouts at their second national jamboree last night the decision "must be carried to its conclusion by whatever means are necessary."

The general who commanded allied forces in Europe during World War II pointed out American failure to aid South Korea "would be another kind of Munich, with all the disastrous consequences that followed in the wake of the fatal error 12 years ago."

COLLEGE HEAD

Eisenhower now is president of Columbia University.

In his July 4th address he made it clear to the scouts what American freedom means—and what it costs.

Eisenhower said exactly what President Truman did when President Truman opened four days earlier.

But the former supreme allied commander in Europe declared, his voice echoing across the fields where George Washington's army survived the harsh winter of 1777-78:

"Here at Valley Force, every relic, every monument assures us that even hunger, pain, nakedness and indescribable hardship cannot wholly dishearten those whose spirit is steeped in faith and loyalty to a lofty purpose."

TERIFFIC OVATION

A mighty roar from the scouts and leaders seated in the open-air ampitheater greeted Eisenhower when he appeared, unhearalded, to lead the campers in the oath of allegiance to the United States.

His speech was short, ending with the famous words with which he launched the Normandy invasion: "let 'er rip!"

And the words touched off a spectacular display of fireworks watched by some 30,000 spectators in addition to the solid ranks of clapping, yelling scouts.

Eisenhower gave the boys no soothing words.

"That you may not in your young manhood be sacrificed to war," he declared, "is indeed the primary purpose of our foreign policy today.

"And you shall not be if the pledge of allegiance stands always before the world as the guiding light of our national life."

PAGEANT

Eisenhower's appearance climaxed a pageant in which 8,000 scouts depicted the key points in the development of American independence and demonstrated the function of scouting in maintaining the American way of life today.

Today the jamboree program featured scoutcraft exhibits, along with foot tours of Valley Forge and hikes by various units around the historic landmarks of nearby Philadelphia.

The jamboree, first in this country since before World War Two, ends with another pageant tomorrow night.

Bandit King of Sicily Shot Down By Commandos Today

PALERMO, Sicily, July 5. (AP)—Salvatore Giuliano, will-o'-the-wisp bandit king who proclaimed his own Sicilian government and taunted Rome for its desperate seven-year attempt to run him down, was shot and killed in his mountain hideout just before dawn today.

The Italian government said the death of the colorful 28-year-old Robin Hood of the hills meant the end of banditry in Sicily.

Commando police were hot on the heels of Giuliano for the past two weeks. In the last few days they closed in, surrounding him in his lair in the hills of Castevetrano, 50 miles from Palermo.

STARTS SHOOTING

Giuliano tried to shoot his way out of the house in which he was hiding. Police opened fire with submachineguns and cut him down, ending in a blaze of fire the career of a man whose band was accused of killing nearly 100 policemen. Some of Giuliano's comrades escaped.

The police who finally got him were part of a special force of 2,000 carabinieri man-hunter who had been closing a dragnet on him for eight months.

In that time most of his band had been wiped out. A dozen or more are on trial and nearly that many have been killed in fights with the police.

KILL 100

Giuliano and his men have been accused of killing nearly 100 policemen in battles with the carabinieri and local police forces trying to track him down and halt his regime of robberies and kidnapings.

The husky, handsome Giuliano tangled first with the law on Sept. 3, 1943, when he shot down a policeman trying to arrest him for black marketing wheat. After that he carved out a career of murder, banditry and extortion unrivalled in recent years.

Tokyo (AP)— Japanese children are getting taller, heavier and healthier. The second post-war check of more than 16,000,000 school children by public health officials shows that the average is one-third of an inch taller and one to two pounds heavier than on the first survey two years ago.

It also shows a 20 per cent decrease in tooth decay and a 10 per cent decrease in near-sightedness. The Japanese health ministry credits the improved food supply for which the American taxpayer is responsible through imports by the occupation.

Man Injured When Trucks Collide On Road North of City

Claude Elias Lancaster, 48, of the Kale & Lancaster Drilling Co., suffered slight injury at noon yesterday when the pickup truck he was driving and a butane truck driven by Byrd Henry Henderson, 42, of Snyder, collided about six miles north of here on U. S. Highway 84.

Lloyd Merritt, sheriff, investigated the accident and said the pickup truck had just entered the highway from a side road about 600 feet from the point of collision and that the butane truck was attempting to pass it. Both were traveling toward Snyder.

Merritt estimated damage to Lancaster's truck at $400 and about $100 damage to the butane truck, owned by the Lewis Wheat & Sons Co.

Economics Guess Russia Is Not Ready to Tackle U. S.

By J. A. Livingston

Nobody outside, and few persons inside, the Iron Curtain know how strong—or weak—Soviet Russia is. Nevertheless, the Korean conflict, now in full progress, may lend support—add circumstantial evidence—to the contention of many U. S. economists that Soviet Russia is too impoverished for war. (This view, incidentally, prevails in official Washington.)

The analysis runs something like this: Perhaps the powerful Red Army could blitzkrieg through Europe—a highly speculative assumption. But then Russia would have to stave off an assault by the United States. And Russia could not match America in industrial stamina. Therefore, the argument goes on, the Russian game is to nibble, to probe, but never to commit itself to all-out war, because it couldn't win. Not yet anyway.

SIFT REPORTS

Statistics to support this argument are elusive. Soviet information is designed as much to mislead as to reveal. Yet economic statisticians, sifting Russian data much as a detective sifts criminal evidence, have been able to piece together "educated guesses" from speeches, Pravda or Red Star articles, government orders on production, reports on the progress of five-year plans, and so on.

One such analyst is Karl Scholz, professor of economics at the Wharton School of Business Administration at the University of Pennsylvania. He has "detectived up" a comparison of Russian economic power versus U. S. economic power. Economists of the Department of Commerce have arrived at similar results.

If we can rely on economics alone, if economic strength dictates military decisions, then the assumption that Russia will sit the Korean war out seems reasonable. That, incidentially, is Scholz's personal view.

There are three key figures. First, the population of Soviet Russia is 25 per cent greater than ours—200 million to 150 million. That implies more Russian manpower for war. But it also means more bellies to fill. That leads to the second key statistic: Russian grain production, the principal source of food, is estimated by Scholz at 125 million metric tons annually. The United States turns out about 142 million tons. Yet wheat represents only a modest portion of our food supply.

Inference: The Russians have to subsist on a much poorer diet, quantitatively and qualitatively, then we. That casts doubt on Russia's capacity to maintain its man-and woman-power through a long drawn-out war. In the war with Germany, when Germany was fighting on two fronts, Russia depended on lend-lease shipments of food.

The third key figure is steel—the essential ingredient of modern war, used as it is for tanks, guns, airplanes, ammunition, motor vehicles, etc. Scholz estimates that Russia's capacity is only 30 per cent of ours. This estimate is supported by Steel magazine, which placed Russian steel ingot production in 1949 at 23 million tons versus our 78 million tons. (And we had a six-week steel strike in '49!)

IN OTHER FIELDS

Straight down the line, U. S. industrial prowess dwarfs Russia's if the "statistical detectives" are anywhere near right, viz.: U. S. coal capacity is twice the Russian; petroleum output ten times; cement four times; copper three times; automobile and truck output 20 times; tractors five times. The estimates are borne out by experience. In the last war, the United States motorized the Red Army for its final assault on Germany.

But always, the big question is: Do we really know Russia's industrial capacity? Is it possible that mighty industries may have been built beyond the Urals, perhaps with captured German engineers and scientists and slave labor, of which we know little? Can Russia possibly have stored up such an immense quantity of war material that she would be able to stand off America for a long time, so that if the Red Army overran Europe there'd be time to convert German, French, and Belgian factories to production of Russian war material?

Thus, though we can guess at Russian power, we can't really know it. Therefore, we have to measure Joe Stalin's strength by his deeds. So long as he tests and probes, using satellites to do the fighting for him, we can assume he's not ready for war. His actions would support the statistics. And if he sits the Korean war out, we can chalk up a check mark for the statistical detectives. We can assume they're right in saying Russia's not ready for war.

Strange Balloon Is Investigated

WASHINGTON, July 5. (AP)—U. S. Air Force officers are investigating a report that a strange-looking balloon has been found grounded near Dillon, Mont.

The county sheriff relayed the report to federal authorities, including the FBI. The FBI said, however, that the investigation was solely in the hands of the Air Force.

According to information given by the sheriff, the balloon was made of silver-colored material, weighed about 250 pounds and measured 100 feet in length and 50 feet in circumference.

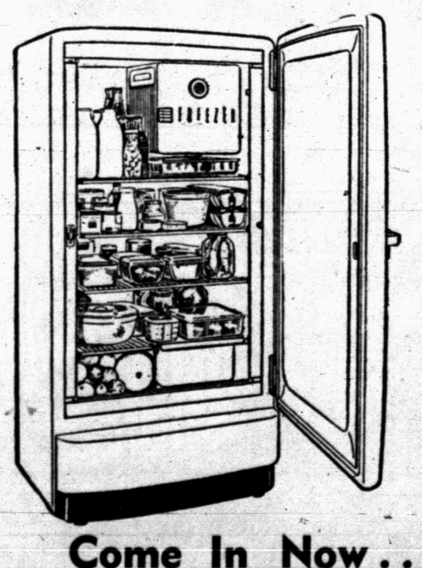

Some officials here expressed the view that it could be a "stray" from a weather observation station.

Leftover cooked veal may be mixed with diced cooked celery and a cream sauce. Season the cream sauce well and serve the veal over rice. Accompany with apple relish or pineapple chutney.

Real Estate Loans
We want city loans in Snyder on new or nearly new homes:
- G. I. 90%
- F. H. A.
- Life Insurance Co.

See us for prompt service.
