Schools To Dismiss Friday So Teachers Can Attend TSTA Meet

The Ozona Public schools were dismissed at 2 p. m. today and will observe a holiday Friday in order that Crockett County teachers may attend the District 11 T. S. T. A. Convention being held in Brownwood this year.

The first general session of the convention will be held in Brownwood at 7:30 p. m. tonight and a number of Ozona teachers and officials planned to leave Ozona as soon as school is dismissed this afternoon to be present at that session and at the delegates meeting to be held at 7 a. m. Lions To Sponsor Variety Show For Community Center

Home Talent Event on April 5 To Benefit Rebuilding Fund

The Ozona Lions Club will sponsor a variety show, composed of home talent numbers, at the high school auditorium the night of April 5 as a benefit for the Ozona Community Center building repair fund.

Without extensive repairs since its construction, even after being flooded in the 1954 Johnson Draw flood, the Community Center building has reached the point where repair must be made or the building abandoned.

The Woman's Division of Christian Service of the Board of Mission of the Methodist Church has offered to match dollars in local funds for the repair fund. Repairs are estimated to cost \$10,000 and a fund of around \$2,500 is already on hand. Another \$2,500 raised locally would make \$5,000, which if matched by the Woman's Division fund, would be sufficient.

The Variety Show planned by the Lions Club will be staged at 8 p. m. the night of April 5. An advance ticket sale is to be held with both the Ozona Lions Club and the South Side Lions Club participating.

General chairman of the talent show is Allie Look, with J. A. Pelto as associate chairman. Anyone interested in donating time or talent toward assuring success of the show is asked to call Mr. Look or Mr. Pelto.

Marfa Wins 11th Annual Running Of Ozona Track Meet

Eldorado Second And Ozona Third In Perfect Weather Sat.

By Ernie Boyd

The eleventh annual Ozona Invitational track meet was blessed with its most beautiful days since the meet began, with its largest field of entries and its largest number of spectators last Saturday as the Marfa entry surprised everybody by winning the 16-team meet.

The Marfa club, powered by a well balanced group of athletes, rolled up 82 points to edge Eldorado who scored 78 and Ozona who also surprised by scoring 72 points for a solid third place.

Lewis Robertson, Charles Cox, and Willis Robertson, aided by a well balanced team effort led the Marfa team to victory with the victory in the 880 relay turning out to be the key to the win.

Eldorado in gaining second place also put forth a team effort even though in the case of the Eldorado showing the Eagles revealed a good deal of team depth but very little individual excellence.

The Lions got a supreme effort from Pete Montgomery who scored 37 points for individual high in the meet and at the same time stamped himself as odds-on favorite in both hurdles and the pole vault and a cinch to place in any event he enters.

Big Lake picked up most of its points during the day from the efforts of defending state class A sprint champion Mike Holmes who, even though in training for only a short time this spring, ran a 9.9 hundred and a 22.0 220 to win both events with comparative ease.

Duwayn Coalson, a fine hurdler who made it to the state meet last year while running for Bronte edged Ozona's Montgomery in both hurdle events but by very narrow margin and in the lows Montgomery was considerably spent from the day's heavy action.

County Screwworm Fund Drive Nears Final Completion

103 Contributors To Date Have Given Total of \$17,659

Names of twelve more donors to the Crockett County screwworm control fund, a part of the final million dollars being raised by southwestern livestock producers, sportsmen and others, was announced this week by the county committee.

The additional contributors bring the total to 103 who have so far given to the funds in the second solicitation and brought the total raised so far to \$17,659.70.

Contributors added to the list this week include Arthur Phillips, Clifton Brooks Ranch Company, Sam Mann, Frank McMullan, Jr., George Burger, Joe B. Mayer, W. A. Childress, Rob Miller, James Childress, Roy Henderson, Flying W. Lodge, and Rio Grande Electric Cooperative.

Officials of the Southwest Animal Health Research Foundation announced last week that when state and county drives are completed, sufficient funds will be available to continue the screwworm eradication project.

The board of trustees meeting in Austin said that telephone calls and telegrams from counties, reported about \$850,000 has been banked by county animal health committees in a concentrated drive since February 1. At the same time, county chairmen advised the Foundation that they can collect the additional amount required in early March.

The Foundation trustees issued a call for all counties and states of New Mexico, Louisiana and Oklahoma to follow through and collect funds they advised the Foundation they could still raise. This amount must be collected in order for the fund drive to be completed.

The recent announcement means that when producers wind up county and state drives, sufficient funds will be available to continue the project until September 1. Participation of the State of Texas, through the Texas Animal Health Commission, and the U. S. Department of Agriculture is expected to complete the eradication.

Ozona Volleyball Girls Continue Win Streak In Iran Set

Miss Geneva Knox's Ozona High School girls volleyball team won its fourth set of games in a row last Tuesday night when they traveled to Iran and won both A and B games from the Iran girls.

After a slow start and the recent loss of Frieda Kaye Noelke with a broken foot, the Ozona team has come along and started its winning streak with two wins over Sonora, one in Ozona and one in Sonora.

The team has been hampered by lack of height and the loss of Frieda Kay just about eradicated what height they did have.

The Ozona freshman team continued to show good form

Ozona Gas Field Pipeline Work To Be Started Soon

FPC Approval of Northern Natural's Application Expected

Confirmation of information gained locally on prospects for early granting of authority by the Federal Power Commission for construction of a natural gas pipeline outlet for the production from Ozona area gas fields was contained in an announcement at Midland this week.

Northern Natural Gas Co. is planning the pipeline outlet for gas from the Hunt-Baggett, Davidson-Friend area southeast, south and southwest of Ozona. Dixon Mahon, Ozona attorney, and landowners John Henderson, III, and Embree Hunt, recently attended a hearing in Washington before the FPC relative to the application of Northern Natural for a certificate of public necessity and convenience.

Granting of the certificate is expected within the next two weeks. It was unopposed at the hearing. Construction on the facility will start soon after the certificate is granted. It is understood here, also, that surveys have been made for construction of a gasoline plant to process the gas to go into the pipeline.

The proposal calls for the laying of 35 miles of 12-inch line in a northeast direction from a point about 10 miles south of Ozona to a compressor station on Northern Natural's trunk line system near Eldorado.

In addition, a field gathering system will be built. The new facility would have an initial daily capacity of 80,000,000 cubic feet.

Preliminary field surveys now are being run. A contract for the construction is scheduled to be awarded within 30 to 45 days after the receipt of FPC approval.

Among the producers with whom Northern Natural has executed purchase contracts are The Atlantic Refining Co., Chambers 1 Kennedy, Cosden Petroleum Corp., Phillip Petroleum Co., Santiago Oil & Gas Co., Signal Oil & Gas Co. and Socony Mobil Oil Co. Inc.

Power Without The Will

In answer to a three-pronged question at his press conference on the morning of March sixth — did he have accurate information on the number of Russian troops removed from Cuba, was he satisfied with the rate of removal and had the Russians offered any suggestion or provision for verification of this removal — President Kennedy said:

"No. The answer to your question would really be no to all of them."

But no one asked the President whether he still placed the number of such troops in Cuba at the time of Secretary McNamara's "magic lantern show" at 17,000 or at 38,000. The latter figure is attributed in the March 12 issue of National Review to "usually reliable Washington sources" citing "Administration's own (but closely guarded) intelligence estimates."

In refuting the accusation that the Administration is "slowing down", Mr. Kennedy stated that the military threat in Europe is reduced and that: "I think we have made it clear that we will not permit Cuba to be an offensive military threat."

Replying to other questions, he indicated that movement of Russian-trained Cuban terrorists in Latin America is a matter for the host countries to handle; that "the wisest policy is the isolation of Communism in this hemisphere," but that we would not shut off vital Soviet oil from Cuba since that would require a "blockade" Fidel!

Democrats Draw First Blood

Standing firm on the principle of budget cuts before tax cuts, Virginia's Democratic Senator A. W. Robertson rose in the Senate to show Congress just where \$5.9 billion can be trimmed out of President Kennedy's \$98.8 billion budget.

He predicted a \$10 to \$12 billion deficit by the end of the next fiscal year even if Congress rejects a tax cut but passes the President's "spending schemes."

Passage of the President's "spending schemes," he said, would mean a deficit of \$10 to \$12 billion without any tax cut, and added: "I could not with a clear conscience vote to impose a \$10 billion tax cut on a deficit of those proportions."

Getting down to cases, as the President had invited his critics to do at his press conference the day before, Senator Robertson would save nearly \$2 billion by merely eliminating Mr. Kennedy's new welfare proposals. He listed these savings as \$1.2 billion on Federal aid to education, \$200 million on medical school construction and medical scholarships, nursing homes, hospital renovation, housing for the elderly, rural housing credit insurance and rural recreational facilities.

He would save \$100 million on

(no mere "quarantine" — and that would be an act of war.

Next day, Captain Eddie Rick-enbacker, chairman of the Committee for the Monroe Doctrine, took sharp exception to the President's course of inaction. "The Communist take-over of Cuba", he said in a statement issued by the Committee, "is in direct violation of the spirit, the meaning and the letter of the Monroe Doctrine. Communism in Cuba poses a direct military threat to our own nation and to all the nations in the Western Hemisphere. Through organized campaigns of subversion infiltration, sabotage and guerilla warfare, the Castro regime . . . presents a clear and present danger to all freedom-loving peoples in North and South America."

"The US, as the most powerful nation in the Hemisphere," declared the World War I Ace, "has the means to remove this threat forthwith and thus fulfill its responsibilities to its neighbors and to its own security. Such power is useless without the will. President Kennedy's Administration has not yet shown that it has the will."

And now that Castro has complained that US Marines guarding the Guantanamo Naval Base are being unkind and even heaving rocks at the Commie sentries on the other side of the fence, we'd better watch out. That UN Peace Force, having liberated Katanga for Adoula, may now move against Gitmo to make it safe for Fidel!

The Kennedy youth employment scheme, another \$100 million on mass transit. He would eliminate the proposed \$350 million increase in area redevelopment loan authorizations, cut back new loan funds for REA and civilian research activities of the Government.

The Senator would take a \$1.8 billion bite out of the foreign aid request, and trim the defense budget by \$1.258 billion "without seriously impairing our present military posture."

To round out the picture he recommended a 5 percent reduction "across the board" in Federal employees.

Republican budget-cutters, doubtless a bit useful at having a Democrat beat them to the punch, will surely overtop Senator Robertson's performance when they get around to it. Ohio's Rep. F. T. Bow, who heads up a GOP task force on this problem said detailed budget-cutting plans are now in the hands of Republican members of appropriate committees. Minority Leader Halleck declared: "We'll give them a bill of particulars when the time comes, and we'll be responsible about it."

But we shall wait to see how "responsible" either party can be in resisting tax-cut legislation.

Author of "New Country" and other historical & fictional works

Ed. Note — The original manuscript of Allan Bosworth's "New Country" is now on permanent display in the Southwest Collection of Texas Technological College at Lubbock. Bosworth sent the manuscript at the request of the director of the Southwest Collection, Seymour V. Connor.

On March 8, Bosworth will lecture at the Norfolk Fine Arts Museum, under auspices of the Irene Leach Memorial Lecture Series. "I have spoken there twice before, but this time the subject will be Ozona," he writes, "and who knows? Maybe there will be an influx of Tidewater tourists."

Virginia Senator Harry Byrd's Joint Committee on Reduction of Nonessential Federal Expenditures has discovered that the U. S. Government now has 9,376,656 pounds of goose feathers, and 2,271,000 pounds of noils in its stockpiles of strategic and critical materials. A noil is a shred combed from silk fibers.

The supplies of both goose feathers and noils are in excess of the maximum quota, the Byrd Report said. — News Item.

Feathers and noils,
Feathers and noils —
They are stacked too high
In our stockpiles spoils;
Come troubles and toils,
Or inclement weathers,
We've plenty of noils
And gray goose feathers.
Feathers and noils,
Feathers and noils —
They're both in the pot
Where politics boils:
They're caught in the coils
Of how come, and whether
They're according to Hoyle's,
Or waste, altogether.
Feathers and noils,
Feathers and noils —
They are stacked too high
In our stockpiled spoils:
And the Byrd who moils
Over how come, and whether,
Is no goose and no noil,
But of quite different feather.

"Why . . . I've always left that up to the generals. But you could simulate a pretty good snowstorm with them, of course, even in a cold war — ha ha! We will be able to phase out this item in the foreseeable future when all our planes are jets, but as you know, when an engine conks out, the pilot has to feather its prop. I don't think we have any excess. Napoleon said that an army travels on its stomach, and in that case featherbeds certainly help. And this is simply another case of logistics. It's a matter of getting there fustest with the most."

public servants and freedom

Among free men a public officeholder of any station, appointed or elected — clerk, agent, officer, lawmaker, administrator, or magistrate — who knowingly or carelessly neglects, abuses, or infringes the basic legal rights of a citizen or unjustly imposes any penalty or restriction on him, or takes part in any abridgment of the people's basic legal rights or control of their affairs for any purpose not importantly essential to the public welfare is a traitor to his fellow free men and a contemptible thief of their liberty.

Ozona Track Team To Compete In Sonora's Invitational Saturday

By Ernie Boyd

Coaches Chick Womack and Sonny Cleere will take the Ozona track team to Sonora Saturday morning for a day and night meet to be held at Bronco field with some twenty to twenty-five teams expected to be on hand.

The Lions will be expected have their best chance at points in the hurdles, the pole vault, the shot, and in the mile run.

The locals surprised their followers last week by making a rather strong showing in their own meet and Saturday will possibly be an indication as to just how strong the Lions are.

Based on last week's performance, it would seem that district 8-A is at one of its lowest ebb in a number of years, at least in quality. Eldorado has depth and will be strong favorites to win the championship again this spring but they do not appear to have a great deal of class in many events.

The competition will be strong at Sonora and the failure of the team to make many points would not be very indicative as to how they might do in district but if they succeed in scoring a good bit it would be an indication that they are going to present a rather strong challenge for the league title.

Big Lake and Iraan have more talent in school than they brought to Ozona last week and the same could be true of Sanderson but in all three cases a great deal more strength would be needed than would seem likely to be available to make any of them contenders.

Mrs. Joe Pierce, Jr., Mrs. J. A. Fussell, Mrs. S. M. Harvick and Mrs. V. I. Pierce are attending the Woman's Society of Christian Service Conference in Corpus Christi this week. Mrs. Fussell will visit her son, John Fussell and family, and Mrs. Pierce will visit relatives in Bay City before returning home.

Democratic freedom was fine for colonial America but what will we have in 1976?

THE PEOPLE WANT TO KNOW— the source of freedom

As primitive men grew in intelligence and knowledge some developed such attributes of character as honesty, generosity, compassion, tolerance, and a sense of justice. These qualities are common to men of good will of every race, color and creed. These qualities of men of good will are the primary source of freedom's basic human rights.

DON'T SEND CASH WITH TAX RETURN, IRS WARNS

Don't send cash through the mail to pay your Federal taxes. If cash is lost or misdelivered, there is no way to trace it. This was the warning today from Ellis Campbell, Jr., of Internal Revenue.

The Internal Revenue Service recommends that you use a check

or money order, made payable to Internal Revenue Service and addressed to Dallas. If a check or money order is misplaced, the taxpayer may always stop payment. The check should accompany the return. If for some reason, a check or money order is sent alone, be sure to attach a note explaining the exact purpose of the payment.

THE PEOPLE WANT TO KNOW— freedom - justice - equality

These are Freedom's Basic Human Rights. AMERICANS KNOW THAT UNDER AN HONEST GOVERNMENT OF LAW THESE RIGHTS PROVIDE FREEDOM, JUSTICE AND EQUALITY FOR THE PEOPLE. THEY EVOLVED DURING CENTURIES OF STRUGGLE BY BRAVE AND STUBBORN MEN AGAINST TYRANNY AND OPPRESSION. The right freely to inform the people is the most important of the basic rights by which a nation achieves, strengthens, and preserves its individual liberties.

Universal Suffrage. Worship. The right to worship freely under any form of religion not incompatible with the national standards of morality, decency, and public conduct.

Property. The right to purchase, own, use, sell, and transfer real and personal property in any lawful manner for any lawful purpose subject only to requirements and restrictions clearly essential to the public welfare and imposed equally on all citizens by law.

Engage in Lawful Business or Activity. The right to engage in any lawful business, vocation, or activity of one's

choice, to compete and make a profit and bargain with employees on the terms of employment, subject only to qualifications, standards, and restrictions imposed equally on everyone by law and clearly essential to the public welfare. The right to bargain for goods and services in a free market and to contract about one's affairs. The right to freedom from arbitrary government regulation and control.

Forced Labor. Freedom from forced labor for the government except in times of war and national emergency or after conviction for a crime or in connection with national military policy.

Unlawful Detention or Restraint. The right to travel about freely at home or abroad and to be free from restraint in any lawful activity unless the restriction is universally imposed and is clearly essential to the public welfare. The right to be free from detention unless specifically charged with violation of law; the right to be presumed innocent and to be allowed prompt freedom on reasonable bail pending trial for unproved crime. Freedom from prosecution unless ordered to trial by a court or jury on honest and convincing evidence fairly presented.

Government as Protector and Referee. The right to privacy in one's home and freedom from search or seizure of person, home, or property except by due process of law on honest and compelling evidence fairly presented and proved to the satisfaction of a competent court. The right to have one's guilt or obligation decided by a legally constituted court of competent jurisdiction and a jury of qualified citizens when charged with violation of the law or trespass of the legal rights of another. LOCAL CITIZENS LECTURE AT HIGH SCHOOL DURING PUBLIC SCHOOL WEEK

By Robert Cox

National Public School Week was observed in Ozona High School last week, March 4th through 8th with local speakers lecturing to the classes concerning careers.

Among the twenty-one visiting citizens were Mr. James Glynn and Dr. Jim McMullan, who lectured the agriculture classes, along with Mr. David Allen, local game warden who also spoke to one of Mr. Hickman's biology classes. Dr. Ralph Simon spoke about rheumatic heart disease in another of the biology classes.

The civics class received a talk from Judge Brock Jones; the American history class, from Mr. Ernie Boyd; and the Texas history class, from Rev. Fleming. District attorney Dixon Mahon will speak to the groups at a later date.

Mr. Roger Francis, who works for the Continental Oil Company, presented ideas on the petroleum industry to the chemistry and physics classes. Sergeant Sam Burks, from the radar station, spoke to the physics class only.

Captain Emmitt Gurney, also from the radar station, introduced thoughts on mathematical careers to Mr. Dozier's second, third, fourth, and sixth mathematics classes. During third period, the captain spoke to Mr. Dozier's and Mr. Hoover's combined Algebra I classes.

Mr. Robert Freeman, who is a draftsman with the Continental Oil Company, showed the mechanical drawing class the drawings he had done in college and helped the boys with their projects.

Mrs. Marilyn Cox and Joe Kreklow from Eldorado spoke to the band. Mr. Kreklow, an accomplished musician, teaches piano lessons in Ozona on Thursdays.

Lieutenant Thomas Young, from the radar base, changed the routine by showing slides to the world history and world geography

classes.

Lieutenant Barry Siep presented a talk to Mr. Moody's English classes on the importance of English in our way of life.

Mrs. Mabel Chandler emphasized the opportunities in typing, shorthand, and bookkeeping to Mrs. Taliaferro's classes.

Mr. Ted White presented some new ideas to the Spanish classes, and Dr. Sherrill spoke to Miss Knox's physical education classes.

The faculty, students, and administrators appreciated having these people speak in the classes. Mr. Pelt, the high school principal, said concerning the Public School Week program, "I feel that the program was a success and accomplished its purpose, not only for the students, but for faculty and guest speakers as well."

Mr. Pelt also expressed thanks to Mr. Nicholas, district supervisor for Continental Oil Company and Major W. C. Bowman, the commander of the radar station, for allowing persons to leave their work and speak in the school.

LOOKING 'ROUND

By Penn Baggett

With the Junior-Senior Banquet and Prom over, students at OHS have settled back to their "normal pace."

The girls, who so adequately played the parts of cultured young ladies Saturday night, are once again wearing blue jeans to school and are little concerned with social events.

Boys, who never wanted to put on "gentlemanly airs" in the first place, no longer have to worry about Mama's forcing them to get dates and buy flowers and dress themselves in "monkey suits."

The juniors financially wrecked from buying food for the seniors, faculty, and themselves, have no problem but to satisfy their creditors.

Seniors appear to be in the "lull before the storm." There is no need for them to start worrying about graduation invitations, research papers, six weeks tests, senior parties, or the senior trip

"yet", so they are now calm about all matters.

A look at the school calendar would show that high school students will soon find themselves busier than can now be imagined with six weeks tests, interscholastic league events, the one-act play, the Junior-Senior Play, and even final exams just around the corner. Our season of spring fever might prove to be more packed with events than any previous one.

there are Irishmen, March 17 will be celebrated as St. Patrick's Day. Saint Patrick, an Englishman by birth, lived in an exciting life filled with adventures.

After being captured by pirates and carried to Ireland, he was put into slavery, where he became a Christian.

He escaped to France and studied to become a Missionary, hoping to return to Ireland. His hopes were fulfilled.

When he died at the age of 106, he had founded more than 300 churches and converted some twelve thousand people.

A familiar legend says that the patron saint charmed the snakes of Ireland so that they were driven into the sea and drowned.

The symbols of the holiday are the shamrock and the leprechaun. Emerald green is the representative color.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

Vaccination Reminder — Texas Health Department currently is reminding travelers to foreign countries of the need for certificates of vaccination.

Citizens planning to go abroad or visit the interior of Mexico must obtain a smallpox vaccination certificate.

Lynch Ban Constitutional — A law prohibiting lynching is constitutional, says Atty. Gen. Waggoner Carr.

Carr also held that Floyd R. Palmer Landscape Company can be held to a bid of \$16,161 for landscaping work around a state office building, even though the company says it will lose money on the project.

Vendors Win — The state cannot collect the two percent sales tax on sale through vending machines, where each sale is less than the minimum 24-cent taxable range.

Justice John C. Phillips of the Austin Court of Civil Appeals pointed out that the sales tax is a levy on the consumer, not the vendor.

Texas Railroad Commission ordered an oil allowable of 28 percent for March. This would be a production decrease of 56-559 barrels per day from the 29-percent February allowable.

On March 20, principal executives from oil purchasers throughout the nation will come to Austin to testify on the demand for Texas oil.

"Cheap" Gas Billed — Mexican gas may not be so cheap for Texas motorists in the future.

Rep. Ben Jarvis, Tyler, has offered a House bill which would require payment of a five cents a gallon state tax on all gasoline bought in Mexico, or states adjoining Texas, unless the motorists have been out of Texas more than 24 hours.

He told the House Revenue and Taxation Committee that residents along the Rio Grande, particularly in the El Paso area, find it cheaper to drive their cars and trucks across to Mexico and fill up with gas at 10 to 12 cents a gallon less than the fuel costs in the U. S. border cities.

Rick Hagelstein Top In Sheep Judging At San Angelo Stock Show

Even though the Ozona FFA livestock team didn't place in the top 5 teams announced out of the 65 teams entered in last Saturday's contest at San Angelo, one of the team members, Rick Hagelstein, was the top boy in selecting and placing sheep.

Rick was presented a sterling silver belt buckle for this accomplishment. One of some 225 boys entered in the contest, Rick scored 228 points out of the possible perfect score of 250. Other FFA boys from Ozona in this contest were Carey Pitts, Jerry Johnson, Paul Perner, Hugh Coates, and Larry Williams.

Ozona FFA entered two teams in the plant identification contest. Out of the 17 teams entered Ozona placed 5th and 6th. The boys from Ozona FFA entered in this contest were Ronnie Mason, David Lewis, Moe Barbee, Steve Tallaferrero, Win Saunders, Gary Boyd and Gary Elmore.

TEACHERS RE-ELECTED

All members of the faculty of Ozona Public Schools were re-elected en masse by action of the school board in session Monday night. So far there have been no resignations of teachers effective at the close of the present school term.

The school board held its first meeting in the new administrative office building of the schools, recently completed just south of the Davidson Memorial Gym.

FORMS W-2

A withholding statement (Form W-2) is a receipt for the taxes withheld from your salary. It is not a tax return.

Copies of all W-2s must accompany your 1962 Federal income tax return, whether Form 1040 or Form 1040A, as evidence of taxes withheld.

If you worked for more than one employer during 1962, you will probably have more than one Form W-2.

Miss North Talks On Libraries At Woman's League Meet

The Woman's League met Tuesday in the home of Mrs. John R. Hunnicutt with Mrs. Buddy Russell as assisting hostess. Mrs. Buddy Mills introduced the guest speaker, Miss Mildred North, librarian at the Ozona High school.

Miss North, a graduate of the University of Texas, has been librarian here since 1948. She told the club group that a main objective of a public library is to gather and organize material and to provide encouragement to all ages to continue to educate themselves. Public libraries in rural Texas have been declared inadequate, she said. She expressed a hope to someday see a public library in Ozona.

The club members were reminded that this is pick-up week in the local clean-up campaign. The club was also reminded of the coming Heart o Texas District, Texas Federation of Women's Clubs convention in Ozona March 25 and 26.

Marfa Wins Track —

(Continued from Page One)

vity, particularly two great anchor 220's which sparked the Lions to a second place finish in the 880 relay.

In the finals of the 880 Saturday afternoon the Lions anchor received the baton with the Lions in fifth place but promptly sailed into fourth place then in to third just before the runners hit the straight away to the finish line. Montgomery, with a great final effort, surged past the Eldorado anchor man and finished second with only a great Marfa lead assuring the winners of first place.

Other than Montgomery, the Lions got points from Scott Mahon who was somewhat off in his usual pole vaulting form, Robert Cox, Penn Baggett, and Rodney Stewart in the shot and discus. Jesus Arredondo in the mile and the mile relay and 880 relay teams

each of which finished well up the race.

In addition to the point winners named, the Lions also showed some promising young track talent which will very likely aid the Lions by the time district comes around. David Childress looked very good in the hurdles and a number of other performers look like point winners later in the year.

The eleventh running of the meet attracted the largest field of competitors that the meet has ever drawn with most events having from three to five heats.

A total of sixteen teams took part in the meet which came off in some of the best weather the meet has ever experienced. Partly as the result of the weather and partly due to the large amount of interest in track this spring in cities around the area the meet also drew its largest crowds since its beginning.
