MRS. E. W. THORNTON, Co-winner in the Clerk of the Month contest. MISS ANNE SELF, Clerk of the month co-winner for July.

Announce Co-Winners 'Clerk of the Month'

Honors as "Clerk of the Month" for July are to be shared by two employees of Floydada stores according to an announcement from the retail trades committee of the Chamber of Commerce. Mrs. Ed Thornton, an employee of Hales Department Store, and Anne Self of White Drug were declared co-winners of the contest. Both were awarded a cash prize of \$10.00 in recognition of their winning the event.

The necessity for naming two persons as winners was pointed out at a meeting of the committee Monday. The contest rules, as announced by A. M. Standefer, secretary-manager of the Chamber of Commerce, did not clear the exact method by which the clerk was to be chosen. A closer examination of the rules by the sponsoring committee disclosed an ambiguity as to the proper method of selection.

It was pointed out that some stores considered the contest open to the solicitation of votes, while others considered the rules as meaning that voting was to be unsolicited. Although the printed rules stated that reasons for choosing a person as "Clerk of the Month" were encouraged, no provision was made to make the reasons mandatory.

A part of the committee had previously ruled that nomination for the honor must be accompanied by a statement of reasons for nominating a clerk. However, after further consideration the rules as they had been stated, the group decided to declare winners of both circumstances as "Clerks of the Month."

Miss Anne Self is a Junior in Floydada High school, and has been employed by Whites for a period of two years.

Mrs. Thornton has been employed by Floyd county establishments intermittently for twelve years. Lewis Anderson, another employee of Hales was the runner-up in the balloting.

The contest which had been scheduled for the month of August has been cancelled, according to an announcement from the committee. The group took this action at a special meeting Monday.

Action Deferred by City Council on Gas Rate Raise

City council of Floydada Monday night discussed the desired natural gas rate raise of the West Texas Gas company, when Roy Leslie, Floydada manager, and W. H. Deardorff, district manager, presented the proposal.

No action was taken by the council, however. The matter will be discussed in a special meeting Monday night of next week, when the gas company officials have been asked to meet with the council again.

Roy Leslie said yesterday the minimum proposed by the company remained the same as since 1941, but that the overall increase in cost to the consumers would be approximately 14 per cent over rates in effect since 1941.

ED KELLEY PASSES

Ed Kelley, long time resident of Floyd county, died early Wednesday morning in Fort Worth. Word was received by his nephew, Rufus Kelley of the Starkey community. The funeral is being held this afternoon in Fort Worth. Rufus Kelley and his father of Plainview left immediately to attend the funeral.

County Agent Gibson won't bet on it but he has "bounded" a steak dinner with a friend that Floyd county will have a 100,000-bale cotton crop this season, rain or no. Less than 2,000 acres in the county will make as little as a quarter of a bale, he thinks, and there are thousands of acres, both irrigated and dry land that are going to make from three-quarters on up. He thinks Ray Lloyd's dry land cotton east of Fairview, for instance, is undoubtedly one of the best fields of the staple in the county.

With such tremendous production at stake the insect infestation is a touchy subject with everybody. Here is his summary of that situation as of noon Wednesday.

Recent inspections of cottonfields in many parts of the county indicate that the boll-worm damage is slightly decreasing, however a few fields are needing plowing, said Robert H. Gibson, county agent, yesterday. Most fields have a few boll-worms hatching but the number of eggs have decreased and the number of small worms had not been as great as expected. This does not mean that we will not have a severe infestation, but that very careful observations should be continued.

Some of the fields that have been inspected and didn't show enough worms to be poisoned are on farms of Wade Deavenport, Thornton and Marble at South Plains, Ray Lloyd in the Fairview community; Henry Hinton, Dougherty, C. T. Morrison, Wayne Battey and A. G. Cardinal, Lakeview community, Mrs. Annie M. Assler, Starkey community, Lee Trice, R. H. Teague, Greer Christian near Floydada, and several farms around Lone Star and John E. Smith in Baker community.

Those fields where enough worms were found to poison were on Tate Jones irrigated farm in Baker community and Lane Decker and surrounding farms in the Barwise community.

Nearly every field examined showed some worms, but in most cases not enough to need poisoning, because beneficial insects were killing the young worms before much damage was occurring, said Mr. Gibson.

Gibson will inspect farms in the Providence community Thursday, August 16, at 9:00 a.m. and will spend the balance of the week in communities where he hasn't been. Every person should examine his cotton very closely for the presence of boll-worms because they seem to be the only insect that is likely to give any trouble in the future, said the agent.

Farmer Tournament Winner Mon. Night

Winning the last game of the doubleheader gave Farmer the grand prize of \$100.00 for winning two out of three games, with Lunch Box in second place and \$60.00 and Ward's Grocery, Plainview, third prize of \$30.00. Rudy's came in for fourth prize of \$20.

Lions Beat the Lions With Gayle Mayo as the winning pitcher for the Floydada Lions club, playing the Lockney Lions club the score was 21 to 19 Tuesday night.

Several sensational plays were made by both teams, as reported by Gene Collins. The Floydada Lions club will go to Lockney Thursday night next week and another game will be played by the two teams. Ed Holmes, aided Mayo, who banged out three hits in four trips to the plate. Thornhill pitched for the Lockney club.

Memorandum of Governor Rural Electrification Week Texas for August 19 to 25

Week of August 19-25, has been designated by Governor Allan D. Shivers as Rural Electrification week.

With the seventy-six other electric cooperatives all over Texas, the Rural Electrification Cooperative, Inc. at Floydada, is celebrating its first anniversary on May 5, 1939, when the first line was first electrified.

Since that time the number of miles of line have been increased to 1,000 miles. The Coop is serving 10,000 homes.

Years prior to 1935, the people of the county were without electric power. It was up with an answer: it was done.

The Rural Electrification Administration was set up as an agency of the Department of Agriculture, established on May 11, 1935, by Executive Order, and authorized to issue 2 per cent interest free bonds.

The private power companies of the county were again approached. Then the job was turned over to the Rural Electrification Cooperative, Inc.

It was then like, A. H. Allen, Geo. T. Meriwether, Snodgrass, Ed Whitfill, R. M. Battey, and many others, working every community, rolling the ball, they were giving of their energy freely until they had 386 members, and applied to the Rural Electrification Administration for a loan of 191 miles of lines.

On September 19, 1938, the loan was made and work was soon under way. The Rural Electrification Cooperative, Inc.

The story was repeated 77 times in Texas and more than 100 times over the United States, and the Virgin Islands. Today include more than 1,000 miles of line serving 10,000 farms and other rural areas.

In 1951, REA had advanced \$100,000,000 in loans, and by April 1, 1951, it had advanced \$1,000,000,000.

Mr. Sherman was president of the Sherman Machine and Iron Works at Oklahoma City, died Sunday following a brief illness.

Mr. Sherman was widely known in the contracting and engineering business in Oklahoma and Texas panhandle. His company had been employed for projects, at Pampa, Floydada, Friona and other points in the plains area. He did work at the Pantex ordnance plant, during World War II.

Mr. Sherman's company has had every contract on water and sewerage works improvement in Floydada since 1908.

At the meeting of the Floydada City council on Monday night, the council adopted a resolution of regret at his untimely death and sent flowers to the funeral, which was held at Oklahoma City, on Tuesday morning.

Mr. Sherman was a native of Greenville, Texas, but moved with his parents to Oklahoma, when a small boy, where he has lived since. He was a Mason, Shriner, and a member of the Oklahoma society of Professional engineers and the Oklahoma club.

Funeral services were held in the First Baptist church at Oklahoma City, with interment in the Memorial park cemetery there.

Survivors include his widow, one son, Joe W. Sherman, a brother Nathan S. Sherman, Jr., and a sister, Mrs. John H. Hope, all of Oklahoma City.

Football Season Reserved Seats Go on Sale Saturday, August 18

There will be approximately 270 reserved seats to be sold for football this year which will be in the center of the stands on the west side of Wester field. Those who are interested should come to the office of the secretary of Floydada Independent school district, located in the Floyd county court house between 8 a.m. and 10 a.m. Saturday, August 18. In order to give everyone the same opportunity, no reserved seats will be sold prior to that date, said school superintendent J. T. Graves this week.

This does not include the general admission, but it will reserve a seat for each of five home football games which will make it more convenient for many that do not prefer to come early in order to get a seat.

USDA Programs Will Be Examined in Grass Roots Meetings Thruout the Nation; Meet Here August 21

A county-wide meeting of all interested persons in Floyd county to be held at the district court room on Tuesday night, August 21, will be a part of a nation-wide review of the present programs of the U. S. Department of Agriculture, and a survey of the future policies to the needs and recommendations of farm families.

The meeting hour will be 8 o'clock. Everyone is invited. There will be free watermelon served. The meetings throughout the nation are being urged and programmed by Secretary of Agriculture, Brannan.

Secretary Brannan's nation-wide family farm policy review program is aimed at obtaining farmer opinion of the present programs of the Department of Agriculture, along with suggestions for their approval according to B. F. Vance, chairman of the Texas agricultural mobilization committee.

In carrying out the most extensive survey of any Secretary of Agriculture, Brannan is calling upon the 3,000 state and county agricultural mobilization committees to take the program to the grass roots. Vance says these committees will hold meetings at the state, county and community levels, during which time representatives and leaders of farm groups, churches and civic organizations will be invited to express their opinions.

According to Vance, the USDA want to adapt future policies to the needs and recommendations of family farms. It is important that all interested persons attend one of the meetings or else send their recommendations and suggestions to the local county agricultural mobilization committee, he says.

The Hesperian has been anxious for rain, plenty of it, during August, but we have doubted right along that it could come during the first 15 days of the month. But beginning yesterday the movements of the rain clouds and the northwinds in the world of meteorology began to synchronize. The rainclouds beat the date set by this column weeks ago, when we said look for moisture in considerable quantities on August 27. Every good provider will have a few turnip seeds planted by that time. Noting sales in the garden seed line recently we'd aver that probably a third of the families in the county have their seed already, mostly dusted in, so the tiny turnip plants will come through the topsoil while it is still wet. Everybody knows what important weekly periodical they have been reading and what good advice they have been taking for a good many years. Newcomers, take note.

Growing pains always accompany the growth of a community, much like the growing pains of children. In Floydada the growing pains keep the governing body in a dither over money matters. For instance, if materials were available this community at this time needs to spend \$50,000 to \$75,000 for water and sewer extensions. Whether it is wise to do so at the present unconscionable level of costs or whether it is poor economy to try to wait it out is the kind of thing you elect a city council to decide. Additionally there is paving that needs to be done, and seriously needs to be done, with a part of the cost falling inevitably on the general public. And another well for ample supply of water, and probably something else for the fire department. And a check up on the street signs. Thus it goes on and on, where there is growth and need to keep abreast of the times.

The old Indian sign that rarely fails indicates that the first killing frost or freeze will occur in Floyd county on November 10. The first "norther" of the year was a distinct one that held out for three or four hours on August 10. Accordingly, say the sign readers, who got it from the Indians, who got it through the necessity of watching the maneuvers of nature, they'll gather their green tomatoes not later than November 9 so they won't get frozen on the tenth of November. A check on the broomweeds is indicated before one goes all out for that date, in our opinion.

While small communities and thinly settled areas of the state clamor for better roads, hard surfaced highways by which they can get to market, the larger communities clamor for ways of relieving traffic bottle necks—four way traffic lanes, belt and express highways and the like. Result both get some help and the state expense budget for maintenance grows larger and larger as the years go by. Texas has the best cared for roads in the nation now, but the saturation point is near. Not too long hence there will have to be more money provided from some source to take care of the tremendous increase in the cost of highway upkeep. The highway department is worried lest the people demand more of them than they can take care of and foresee the possibility that Texas will have the most poorly kept roads in America instead of the best.

Socialist planners leave no stone unturned in their search for things to plan. A new British magazine, Individualism, tells us that the royal Commission on capital punishment spent two years studying all the intricacies of the death sentence, and came up with the fascinating suggestion that radio sets be installed in the death cells on the eve of the execution. In which case programmes would be carefully selected. Who is to select the programs? Not the miserable listener, but one of the planners, who decides, in his wisdom, what a condemned man would like to (or at any rate, should) listen to in his last hours. As Individualism says, "we have moved beyond the helpless delights of 'the cradle to the grave' and officials now draw their salaries all the way from pregnancy to the gallows."

The man on the street has become convinced in the past five days or so that the truce effort in Korea is a ruse of the Communists to gain time, expressed belief of the talent to the contrary that the Kremlin actually wants the war to stop. Reports apparently being minimized, are that the Chinese and North Koreans, when they get sufficient tanks, cannon and air support that in their belief they can wage war on equal basis with the Americans and other UN troops, will call the armistice talk off and blast away. This may have occurred before these lines see print, if the man about town has the right slant on the way things are shaping up.

Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by the Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature (provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000) or as said Act may be hereafter amended, or by other laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The Lands of the veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"Nancy! What a grand surprise!"

An old school chum in town... just driving through...

But there's always time for a telephone call... and a pleasant trip back through memories of other years.

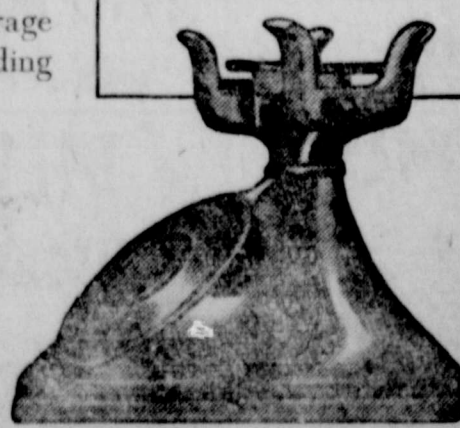

Come to think of it, lots of the pleasant moments we enjoy wouldn't be possible without the telephone.

Yet—with all its worth—the average cost of a local telephone call, including tax, is only about 2½¢.

A bargain? One of the very best.

A REAL BARGAIN

The average wage earner today works less time to earn the price of telephone service than he did ten years ago.

Keeping Water Out of Lakes, On the Upland

(By Carl Muench, district engineer)

Keeping water out of lakes is a popular subject of conversation both to the dry land farmer and also to the irrigator. You might think that you can not do anything about this because none of the generally used mechanical means fit into your particular situation, but have you ever thought about land conditioning as an effective means of controlling run off?

Farmers below the cap tell us that years ago land did not wash like it does today. They say that it had to rain hard before they got much run off but that now even a shower will cause water to run all over the place. You can also see many signs of runoff and water erosion damage on our good wheat land.

A good deal of this trouble is due to land deterioration. Land has lost so much organic matter and the surface condition is such that water runs off at about the same rate as it does off a duck's back.

Crop Residues Help

Statistics tell us that soil having a large amount of grass and litter present on or near the surface will take in five times as much water as land where all grass and soil has been removed. You can improve your soil's water intake by following a good system of stubble mulching and returning large amounts of crop residues to the soil.

Quitaque Soldier Land Mine Victim, War Dept States

QUITAQUE—Mrs. Gladys Wise has a communication giving brief particulars of the death of her son Pfc. Bruce Wise who died in Korea on April 10. The letter, from Capt. John H. Thurman III, 674th Airborne Field Artillery Battalion, extends the sympathy of the officer and his unit, and gives the following information:
"Your son was riding in a 3/4 ton vehicle which ran over a landmine killing him instantly. He served in the capacity of a wireman in this unit and it was in the performance of his assigned duties that he was killed. The accident occurred during a training exercise in Taegu, Korea."
"Pfc. Wise served us well in the battery and those who were close to him felt a keen personal loss at his untimely death. Do not be saddened by your loss, knowing that your son has served his country and you well."
"Your son was buried in a United Nations Cemetery. Adequate measures have been taken by the United Nations to care for the area—a perpetual reminder of those who came so far to preserve freedom. As the exigencies of active military operations permit, the remains of American soldiers who died in Korea are being returned to their homeland for permanent burial."

Home From Korea, Says Turks Good Men on Our Side

Bill E. White, private first class, just home from Korea, and being processed for return to the inactive duty this week, said yesterday he is glad the Turks are on our side in the Korean fracas. "They're tough and they don't shoot, they use the bayonet," said the young soldier who served with the 25th division artillery through the winter retreat and spring campaign. "I didn't see a dead Turk during the whole campaign."

White himself was mighty lucky, he thought. He didn't get a scratch the whole eight months he was in the line. His outfit was with in 72 miles of the Manchurian border when the Chinese hit them. The Chinese his outfit fought are good soldiers.

His previous army service consisted of 18 months in Japan. He has two brothers who have also had army service. They are Robt. V. and John E. They are the sons of Mr. and Mrs. J. R. White, 203 West Jackson street.

ing, and get the views of any person who desires to express his opinion on any part of the future agricultural program.

Many persons have been notified with past programs. This meeting will be held to give them a chance to express their views on a future agricultural program. A meeting is not being held solely for criticism of the existing programs. We all know they have faults, but for the establishment of a better agricultural program, a program that will offer an opportunity for farm people to better themselves and the conditions surrounding rural life.

Every county in the United States will hold these meetings and summary will be submitted to the Secretary of Agriculture. Therefore everyone connected with agriculture in any way should be interested and attend this meeting, because the recommendations received from these meetings will be used to determine the agricultural program in the future.

Do not sit idly by and criticize whatever program is established. This is your opportunity to express yourself, and remember that the future agricultural program is at stake. Come and voice your suggestions. Every suggestion will be given consideration.

Ranch Home Scene of Martin-Archer Nuptial August 4

MATADOR, Aug. 11—In a single-rising ceremony Saturday evening, August 4, Joyce Allene Martin, daughter of Mr. and Mrs. Curtis Martin, became the bride of L. B. Bennett Archer, son of Mrs. L. B. Archer and the late Mr. Archer, formerly of Matador and now of Lubbock.

Rev. Marvin Brotherton, pastor of Matador Methodist church, read the service in the ranch home of the bride's parents. An arch decorated with clusters of greenery and orchid phlox framed the mantel, which was banked with greenery and banquets of garden flowers, and formed the setting for the exchange of vows.

Miss Elwanda Martin, cousin of the bride, sang "Always" and "Because" and Miss Jimmie Louise Davis sang "Indian Love Call." Both were accompanied by Miss Dorothy Trawick, pianist, who also played "The Man I Love," "I Love You Truly" and "Ah, Sweet Mystery of Life" as the guests assembled. The traditional wedding march was used for the processional and recessional, and Miss Davis sang "Wedding Prayer" as a benediction.

Mrs. L. M. Cox attended her sister as matron-of-honor and Miss Melba Jane Kimbell was bridesmaid. Billy Dan Thomas was best man.

Given in marriage by her father, the bride wore her sister's, Mrs. Cox, wedding gown of white lace over satin, styled with a sweetheart neckline, long pointed sleeves and full skirt, which fell into a graceful train. Her veil of finger-tip length was attached to a fitted headdress of satin and seed pearls. She carried a white Bible topped with an orchid.

Mrs. Cox wore a gown of orchid, nipped at the waist with an off-shoulder neckline encircled with a beatha cuff. Her finger-tip length veil of orchid was attached to a bandeau of matching flowers and her corsage was of yellow rosebuds. Miss Kimbell wore a pink net gown with matching veil and a corsage of blue carnations.

The mothers of the bride and bridegroom wore navy crepe dresses with navy and white accessories and corsages of red rosebuds.

Following the ceremony, a reception was held with Mrs. Imogene Gibson of Lubbock, sister of the bridegroom, presiding at the guest register. Covered with a lace cloth, the serving table held a tiered wedding cake, which was served by Mrs. Bill Conroe and Mrs. Edgar Compton of Lubbock, sisters of the bridegroom.

Following a wedding trip to Albuquerque, NM, the couple will be at home in Matador. For traveling, the bride wore a dress in off white with brown accessories and an orchid corsage.

Mrs. Archer was graduated from Matador High school and attended Northwest Texas School of Nursing and Amarillo College. She has been working at Trawick Hospital in Matador.

Mr. Archer, a graduate of Matador High school, attended Shriner's Institute at Kerrville. He works at Jameson machinery.

Whip Scorpion Looks Vicious; Has No Venom

AUSTIN, August—A black, scorpion-like animal strange to most of Texas was brought from Alpine to the Texas Game, Fish & Oyster Commission headquarters for inspection by biologists and bugologists.

It is known as a whip scorpion. Its habitat is the semi-arid sections of the Southwest and is found along the Mexican border of Texas westward from Del Rio.

The arthropod is vicious appearing but, according to the Director of Publications of the Game, Fish and Oyster Commission, it has no venom and the only danger to humans would be from a bite becoming infected.

This animal, also known in Texas as a vinegaroon, has many odd gadgets. Its low slung body is about two and one-fourth inches long. It has two folded pincers in front, eight legs and a tail two inches long.

The antennae-like tail, normally extending upward at an angle, apparently picks up sound. The many-jointed antennae has whorls of hair at the joints, possibly for insulation. Its long, jointed legs are very sensitive to touch.

The Director of Departmental Publications, who has the specimen in a large jar, reports that it is a voracious eater. It has been fed grasshoppers, crickets, cockroaches and flies.

The vinegaroon is strictly a dry area dweller and has no apparent use for water. It seems to get the little liquid it needs from its victims.

Parrish Family Re-Union Held Sat'day, Sunday

(Mrs. Atoka LeMay)

The children of the late Mr. and Mrs. R. M. Parrish had their seventh annual reunion at the home of Mr. and Mrs. E. W. Dunavant of Floydada on August 11-12. All the children except two were present. One sister, Mrs. R. B. Picklesimer of Ingleswood, California, was unable to attend on account of sickness. One brother, Otto Parrish, of Moriton, Arkansas, could not be present either.

It was voted that we had one of the nicest reunions we have ever had. But who could say otherwise with such a wonderful host and hostess as Berlin and Ed?

There were 101 guests in the home Sunday. We had a big old fashioned arbor in the front yard where we had the tables set. We served a wonderful dinner, which consisted of 34 fried chickens, fried in the old fashioned wash pot, and all the trimmings. Dinner was served to 95 people on Sunday.

Brothers and Sisters Present

The brothers and sisters, in-laws, relatives and old friends who were there are Mrs. Hettie Elliott, Mr. and Mrs. N. A. Bilberry and children, Jimmie, Ovidene, and Mary Louise, Causey, New Mexico.

It was voted we have our next reunion in the home of Mr. and Mrs. Delmar Parrish, Ralls, Texas, the second Sunday in August, 1952. So we are next looking for as good a time next year as we had this year. There were seven states represented Missouri, Arkansas, Oklahoma, Kansas, Texas, New Mexico, and California.

For Arthritis

Mrs. J. N. Redd reports an effective relief for arthritis, as given her by a special nurse, who, Mrs. Redd reports, has tried the remedy and found it effective:

Take a small sack and fill with Epsom salts. Dampen with warm water. Put on affected parts, then take a brown paper sack and put over sack of salts. Ring a towel over of vinegar and put over brown sack. Leave on affected parts all night. Next morning bathe and massage with olive oil. Stay off feet. Keep feet elevated.

J. T. Bilbrey, pastor of the Calvary Baptist church and Harry Reeves spent Monday, Tuesday and Wednesday of last week in Quilla, Texas, where they attended an evangelistic conference.

Center News

(By Mrs. J. E. Green)

CENTER, Aug. 13.—It is cooler this morning. The air has a tang of fall. Nights are cool, but afternoons are still hot. Some communities not far away have had rain but we are still dry.

Our revival meeting started Sunday. Reverend Tom Harmonson is preaching and Brother Hodges is leading the song service. Everyone is invited to come and be with us. Brother and Mrs. Hodges and Jerry were Sunday dinner guests of the Frank Dunns.

We were glad to have in our Sunday night service Mr. and Mrs. H. D. Meredith and grand baby, and Mr. and Mrs. Elmer Warren of Dougherty, and Mrs. Marvin Jackson of Floydada. They all visited in the Leo Frizzell home Sunday afternoon.

Norma June Ross returned home last Wednesday after a month's visit with her sister and husband, Mr. and Mrs. Buck Ragsdale of Baileyboro. She reports a good time.

Mr. and Mrs. G. L. Bryant and Johnny returned home the last of the week from a ten-days' vacation trip. They visited their children in Dallas, Hawkins, and Tyler. Their son, Neal Bryant, and family of Big Springs visited here with his parents and brother over the week-end.

Mr. and Mrs. J. E. Green and Margaret were called to Phillips Friday night to the bedside of the mother and grandmother, Mrs. K. J. Matthews. They returned home Sunday, leaving Mrs. Matthews much improved and scheduled to go home from the hospital Monday.

Mr. and Mrs. J. W. Storm of Austin and Mr. and Mrs. J. B. Wheat and daughter of Farwell visited last week with the J. R. Robertson family. Both Mrs. Storm and Mrs. Wheat are sisters of Mrs. Robertson.

Mrs. James Robertson and children from Amarillo and Mrs. John Hambright of Olton visited in the Robertson home Sunday afternoon. James Robertson of the U. S. Navy who was on furlough in July is back at Pearl Harbor.

We enjoyed having in our services Monday evening Mr. and Mrs. W. B. Jordan, also some others from Floydada and Fairview, and the C. L. Ashtons from Dougherty.

The J. D. Welborn family and Mrs. Ida Welborn took a vacation trip through New Mexico last week. They visited among other points in Cimarron with Mr. Welborn's sister and family where Mrs. Ida Welborn remained for a longer visit. The

Please Do This Now

Dear Friends:

The appeal that was sent out several days ago asking you to subscribe to a "Flood Relief Fund" for Mid-Western area suffers has fallen short of the expected goal.

It's hard for the folk of the High Plains to realize that Flood Waters could cause such damage that would wreck hundreds of homes, rendering thousands homeless and causing damage to run into millions of dollars -- BUT SUCH IS THE CASE.

Our National Government subscribed funds and our National Red Cross over-subscribed their capacity and are appealing to us to support them with special gifts.

They asked Floyd County for Only \$733.00 We have to now overlooked doing the thing we intended to do. There has been only about half this amount sent in to date.

Please do what you consider your part today. Mail or hand your check to Mrs. Virgle Shaw, secretary,
