W.T. Hughes Ends 47-Year Career

W. T. Hughes of Angleton, former Deport school superintendent and teacher at Talco, has retired from the teaching profession after 47 years in Texas schools. His retirement was at the end of the present school term at Angleton, where he had been teaching the past 15 years.

Hughes began his career as a teacher in 1921, when he began teaching on a first grade certificate in lieu of a high school diploma, to enter a Texas college as a freshman.

During his long career he spent 17 years as a class room teacher, served 25 years as a superintendent of schools, and five years as a high school principal. His experience includes 10 different schools.

Hughes did most of his work for his degrees during summer terms at college. He received his B. A. in 1931 and his M. A. in 1941. He majored in education and sociology and has minors in Spanish, English and history. He also has 18 hours of special training in technique of modern foreign language, lab and audio lingual methods.

Mr. Hughes' wife is also a teacher in the Angleton school system. They have three children, Mrs. O. L. Richardson of Sonora, Mrs. Sam B. Kelsey of Deport, and Gaylon Hughes, who is in dental school in Houston.

Methodists Make Appointments

Pastoral appointments for this area have been announced at the North Texas Conference of the Methodist Church in Dallas. Rev. James Westbrook, who has served the Deport charge, is retiring, and will be replaced by Harold Staats, a transfer from the Oklahoma Conference.

Rev. Clay Yeager was returned to Bogata, and Rev. James Walker will serve Talco. District Superintendent Robert M. Walker was moved to Texas Conference and replaced by Carroll H. Thompson of First Church in Brownwood.

Wire Penetrates Youth's Arm

Morris Foster, 16 year old son of Mr. and Mrs. Marlin Foster of Deport, is improving at his home after having a piece of copper wire, approximately 1 1/2 inches long, removed from the muscle of his right arm Thursday night.

He was mowing the lawn at his home when the power mower he was operating hurled the wire into his arm. He was taken to a Paris hospital, where x-rays revealed the wire and it was removed.

Miss Lana Sloan left Sunday for an extended visit with her aunt, Mrs. Spurgeon Peaden and family of Garland.

Mrs. Dan Seay visited her daughter and family, Mr. and Mrs. Mack McLemore and boys of Huntsville, from Wednesday until Saturday. The McLemores returned home with her for the dedication of the First Baptist Church.

The Talco-Bogata Schools

By Talmadge Morgan, Supt. Dear Prof:

Please explain about the school budget and how funds are expended.

Every school district in Texas is required by law to prepare and file a budget and a financial report. This budget is a carefully prepared estimate of anticipated expenditures and receipts for the fiscal year which is September 1 to the following August 31.

Budgets for independent school districts must be prepared not later than August 20 for the next fiscal year. When the budget has been prepared, a meeting of the board of school trustees is called for the purpose of approving and adopting the budget and a five days public notice of the meeting is given. Copies of the school budget are to be filed with the County Clerk and with the Texas Education Agency.

The board of trustees is responsible for having an annual audit made of its school districts fiscal accounts. This audit is to be performed by a Texas certified or public accountant holding a permit from the Texas State Board of Public Accountancy.

The school budget is prepared in conformity with the classifications listed on budget forms designed and furnished school districts by the Texas Education Agency.

The major budget classifications and the estimated expenditures for the Talco-Bogata CISD for the 1967-68 school year are as follows:

100 Administration	\$29,970
200 Instruction	314,454
300 Attendance Services	6,054
500 Pupil Transportation	29,545
600 Operation of Plant	43,325
77 Maintenance of Plant	5,500
800 Fixed Charges	6,850
900 Food Services	2,500
1000 Student Body Activities	4,000
1200 Capital Outlay	56,370
1300 Debt Service	54,974
1400 Outgoing Transfers	5,088

The budget is of course further each major classification but space will not permit a complete list of all items. As an example, Budget Item 600 — Operation of Plant — which has a total expenditure of \$43,325 is made up of the following items: salaries, contracted services, heat for buildings, other utilities, and supplies. Each of the other major classifications in the budget is divided in a similar manner.

Austin. —Texas' Constitutional Revision Commission has completed its series of winter and spring work sessions, rewriting the Texas charter of government. It will not meet again until August.

Any fair analysis of the status of constitutional revision in Texas would have to be based on a note of pessimism regarding the chances for ultimate acceptance of the committees work to date.

Main problem for the 25 revisionists to overcome was created when the Commission was established — by a divided legislature — in the spring of 1967.

Originally the Commission was to be formed by a joint House and Senate resolution. However, the Senate refused to go along with the plan so the House acted alone. Speaker Ben Barnes named a House Committee. But Lt. Gov. Preston Smith declined to make any appointments. Gov. John Connally gave considerable moral support to the Committee, but now he is a "lame duck" and will not be governor when the Commission submits its report to the Legislature next January.

In terms of the substantive proposals for a new constitution, the Commission has been far from decisive to this point.

Reports have been heard from various subcommittees on the executive branch, the judiciary, political subdivisions, taxation and other topics.

These reports have been given tentative approval by the Commission as a whole, but on all votes it was made clear that decisions made now can be reversed during the next slate of meetings this coming fall.

One of the most heated debates in the brief history of the Commission came from a recommendation for the appointment of the judges on the Texas Supreme Court and the Court of Criminal Appeals by a five-man commission. Voters would either approve or remove them. At present these judges are elected by the people.

Two members of the Commission were particularly forceful in their argument against this proposal.

H. S. (Hank) Brown of San Antonio, president of the Texas AFL-CIO, opposed the measure as being a dangerous trend for a democratic society. Brown argued that the people have a right to elect their judges.

Rep. Dick Cory of Victoria contended that such a provision in the revised constitution would insure its defeat when the matter is put to a vote.

Dr. Janice May, government professor at the University of Texas, said Cory and Brown are overlooking the realities of the current system of judicial selection.

"Right now two-thirds of all our judges are initially named by appointment from the governor. Then, as a matter of practice, they run for re-election and are almost always retained in office," she said.

Most of the members of the Commission have expressed some desire to strengthen the hand of the governor. They maintain that a majority of the state agencies are virtually free of his influence and can carry out public policy without regard to his wishes. Opponents of the proposal point out that the governor already has authority to appoint 3,000 office holders.

Commission voted 8-7 to limit the governor to a single term — a procedure which would, in effect,

make every Texas governor a lame duck for some undetermined portion of his term in office. Commission also favors providing the governor with a four-year term rather than the current two-year term.

Tentatively, the group approved a provision which would require the governor to be elected during "off-years" — years without presidential elections.

Many Capitol observers recall that a constitutional revision commission created by the Legislature in 1957 submitted recommendations after several years of meetings, but no action has ever been taken on them.

CONNALLY WIN CERTAIN — Governor Connally's control of the State Democratic Convention in Dallas on June 11 apparently will be by overwhelming majority.

Will Davis, Chairman of the State Democratic Executive Committee, says 215 of the 254 county conventions passed resolutions endorsing Connally's favorite son candidacy, and 22 more counties are sending uninstructed delegations to the state convention.

SPECIAL SESSION — There will be a hot time in this old town . . . extending from the June 4 opening of the special legislative session until whenever it ends . . . and that is anybody's guess.

Main business, of course, is passing a \$2,500,000,000 appropriations bill to finance state government for the 1969 fiscal year beginning September 1 and approval of about \$125,000,000 in new taxes.

Governor Connally has recommended general revenue spending of \$465,200,000. That would require \$123,800,000 in additional state taxation. Legislative Budget Board proposes a budget of \$471,000,000 from the fund over which the legislature has direct control, which would boost the tax bill to \$129,600,000.

Connally's tax bill calls for an increase of the state sales tax rate from two to three per cent, with cities to get most of the additional revenue in the form of a direct rebate. Many services not now taxed also would be included in the three per cent levy. Statewide tax would do away with one per cent local sales tax now charged in more than 300 cities that contain the vast majority of Texas' population.

Session also is expected to come to grips with the explosive issue of liquor by the drink. A slight majority of the legislators live in districts which approved the May 4 mixed drink referendum by margins ranging from slight to overwhelming. But that's no assurance the measure will pass.

Atty. Gen. Crawford Martin, Lt. Gov. Preston Smith and House Speaker Ben Barnes also are urging Governor Connally to submit riot control bills to the legislators. They propose laws which could give cities authority to contract with each other for the exchange of police officers in the event of violent outbreaks; empower cities to enact strict curfew ordinances curbing sale of liquor, flammable materials and weapons; make it unlawful to trespass on public property with intent to interfere with public business; ban disturbances of public meetings and provide stiff penalties for interfering with police and others performing public duties in riot-hit cities.

Hold onto your hats and fasten your seat belts. This could be a good one!

What About College?

More young people than ever before are answering "Yes, I'm planning to attend". College enrollment is increasing at a rate four times as fast as our population growth.

There are good reasons "why".

Besides the fun and aesthetic benefits college offers, the rewards in terms of earning power are tremendous. According to the U. S. Census Bureau, each year of college is worth \$45,000! That means a graduate will probably earn \$180,000 more during his lifetime than one of his classmates who did not attend college.

To help the growing number of high school graduates who plan to continue their education, Community Public Service Company has provided a booklet, "What About College?", to local school authorities. It offers helpful information about college costs, entrance requirements, scholarships, how to choose a college and other valuable facts.

We are happy to cooperate in providing this service to the young people of this community. We sincerely hope it will encourage and help those who face the question "What About College?"
