## San Angelo Taximan Is Enthusiastic

Will Maines wasn't sick exactly, but needed something to build him up—says Argotane did it.

"People suffering from stomach trouble and run-down condition ought to try Argotane. For it's the best ever," said Will Maines of 215 W. First Street. Maines has operated a taxi business here in San Angelo for the past 15 years and comes forward with his unqualified endorsement of the triumph preparation.

"For several years," he continued, "I had not been feeling like myself, not sick exactly, but just seemed to be completely run-down and had very little life and energy left about me. My appetite was very poor and I felt dull and sluggish, and some days hardly cared whether I worked or not."

"What I needed was just an all-around building up and Argotane has done that very thing. Almost as soon as I began taking it my appetite improved and my tired worn out feeling began to leave me. I have just finished my first bottle of Argotane and I picked up wonderfully in health and strength. I thoroughly relish all my meals and my old, tired energy and strength have come back to me. So I say to anyone who is in need of a first class stomach medicine one that will straighten them out all around should try Argotane."

Genuine Argotane may be purchased at Lubbock at the Bowler's Drug Store. 44c.

## Denial Is Made On Art Promotion

HOUSTON, Aug. 12.—A warning that neither Ross Sterling nor any person connected with his gubernatorial campaign has sanctioned or approved any form of art promotion or exhibition having to do with the promotion of the Houstonian was issued today at Sterling headquarters.

"Our attention has been called to at least one instance where a circular soliciting money to be used for the promotion of the Sterling campaign has been sent out," the statement said. "Neither Mr. Sterling nor any person connected with him in any capacity has sanctioned or approved any such scheme. We do not subscribe a political message to the person sending such a letter in question but enemies of Mr. Sterling are attempting to make political capital out of it."

"Fair minded citizens will understand that a candidate for public office has no way to protect himself against unsubstantiated appeals of this sort to which his name is used without his knowledge or consent."

## Fall Openings In Paris Reveal Slender Silhouettes; Black Is Smart

These two costumes, sketched for The Journal and NEA Service from cable descriptions of the gowns as they appeared in the recent fall openings in Paris, illustrate important points in the new mode. Right: A black, sheath evening dress from Lejone has a fitted bodice with a narrow belt of self-material fastened with a jeweled buckle. The form-fitting lining flares into voluminous width just above the knee by means of a circular collar. The hemline is straight, reaching the floor. The semi-fitted bodice has a moderate drape with the back lower. A narrow dropped bertha follows the pointed neckline but leaves the shoulders bare. Left: This form-fitting dress of beige crepe has a cowl-shaped neckline and a horizontally draped waistline. The sleeves are elbow length and finished with a short peaked godet. The form-fitting hip yoke flares into a skirt composed of five pointed godets reaching ankle length.

## By ROSETTE HARGROVE NEA Service Writer

(Special Cable Dispatch to The Journal and NEA Service)

PARIS, Aug. 13.—With the first gala opening of fall and winter fashions, Lucien Lelong confidently glorified the new era of long skirts for afternoon and evening wear with diversified effects and a bewildering luxuriousness of materials and accessories. The blossoming charm and dignity of women's dress, hastily introduced yesterday, burst into full flower. The crowded salons echoed with applause and upon the appearance of various striking models, experts raised champagne glasses in appreciation and approval. Lelong sensed a spirit of contentment and good humor in interpreting feminine wishes and achieved artistic triumphs with the

## Health Program Of Lubbock Schools In Demand; Published In Magazine

In the July number of the Texas State Dental Journal appeared the health program of the Lubbock public schools prepared by M. H. Duncan, superintendent.

Dr. G. H. Ater, local dentist, chairman of the Council on Modern Hygiene and Public Instruction for the State Dentists' association, says that he is receiving a large number of calls from dentists over the state and superintendents of schools asking for copies of this program.

The local schools began several years ago a campaign for better health of school children. Last year a health supervisor was added to the teaching staff of the schools and better work was done than ever before in the building of health habits. For next year all teachers will be expected to have prepared themselves in a special way for this work, either by private study, through correspondence courses, or by courses taken in college during the summer.

In the fall the local dentists will again make an examination of the teeth of school children and an effort will be made to have every dental defect corrected. It is the opinion of the superintendent of schools that health is too important a factor in the children's education to be neglected, and a greater effort will be made this year than before to help every child to be one hundred per cent physically.

## Pacific Flight IS HALTED AGAIN

VANCOUVER, B. C., Aug. 13 (AP).—The wreckage of an airplane wrecked on Ladner field here today, as a former moment to an ambitious flight project and one of the craft's owners, Bob Wark, was reported in a serious condition from injuries received in its latest crash-up.

Wark was injured and the plane, dubbed "The Pacific Era," was smashed yesterday when the tier crashed the landing field in returning to Vancouver from Lulu Island air field near here, preparatory to resuming a projected four-step flight from Tacoma, Wash. to Tokyo.

Edgie Brown, partner of Wark, was not in the plane, having gone to Ladner field by automobile with the expectation of continuing the trans-Pacific flight as soon as the ship could be made ready.

Wark's injuries originally were thought to have been slight but it was reported in intensive pain and suffering from a fever after being taken to a hospital last night. A physician's examination was said to have revealed possible internal injuries.

## PLANS ANNOUNCED FOR MORE PROJECTS IN NEAR FUTURE

By Staff Correspondent  
LITTLEFIELD, Aug. 13.—Reports of the activities of the Littlefield Chamber of Commerce for the past few months as well as plans for the coming year, were made Tuesday noon by J. W. Hale, secretary, at the weekly meeting held in the First Presbyterian church. President R. E. McCaskill was in the chair.

Among the projects handled were the following: cotton cooperative association; branch; budget for chamber work and for charity; numbering of houses and signs for the streets; the short course for feeders at Amherst; cooperative creamery; railroad projects, highways, paving, etc.

**New Rural Lines**  
Secretary Hale reported four new rural lines had been secured and were now in operation. In addition a new highway to the Hale county line has been graded by the county at the request of the chamber of commerce. The telephone service has been greatly improved, a new city hall completed, more paving work done and some new business houses secured.

Work is now under way on the erection of an apartment house. It is also hoped that a new modern fire proof hotel will be secured. Location for the hotel has been designated.

**To Get New Depot**  
Officers of the chamber of commerce have been assured of a new Santa Fe depot, about 200 feet in length, for the next year. Anderson, Clayton and company, according to reports, have agreed to build a cotton seed oil mill in Littlefield next year. The chamber of commerce has secured pledges from business men of an investment in a mill.

President McCaskill also reported a telephone line to Beuhler, by way of Pepp, was under way. Speakers Tuesday noon included W. N. Pool, grower of certified seed at Sudan, who spoke of the importance of certified seed for farmers; J. W. Hammock, of Sudan, who announced the contract for the cooperative branch had been returned to Littlefield, signed J. C. Hilburn, president of the Littlefield National bank, who reported on the short course being held at Amherst; Kenneth Hemphill, who told of the plan

## DRUGGISTS WILL AID IN FUNERAL

With members of the West Texas Pharmaceutical association, which closed its semi annual convention here at noon, as pallbearers, funeral services will be conducted this afternoon at 4 o'clock for Mrs. H. F. Ward, 46, wife of a Colorado druggist.

Rev. Walter P. Jennings, pastor of the First Christian church, will have charge of the services which will be held at Bynum Brothers funeral chapel. Burial will be in Memorial Park cemetery.

Mrs. Ward died in a local hospital Tuesday morning about 1 o'clock, following a short illness. She is survived by the husband, her father, J. W. Jones, of Colorado; four brothers, Marvin and Fred Jones, of Mercedes, W. W. of El Paso, and Elby Jones, of Globe, Ariz.; and four sisters, Mrs. W. L. Caldwell, of Meadow; Mrs. M. T. Peters and Mrs. A. U. Swargen of Sades, and Mrs. M. M. Caldwell, of McAllen.

AUSTIN, Aug. 13. (AP)—Returning to his office after twelve days spent in a sanitarium at Marlin, recuperating from the results of a strenuous first primary campaign, Comptroller George H. Sheppard is

sued a statement today thanking his supporters in the primary.

He said it was impossible to write individual letters thanking everyone who had written him congratulations, but he wanted the people of the state to know that he would give them a business-like administration in the comptroller's office. Sheppard led the state ticket with more than 469,000 votes.

# In Justice To Judge E. L. Pitts

We, the undersigned county officials and ex-county officials of Palo Pinto County, Texas, being aware of the fact that the records of this county were carefully perused a few days ago by a certain citizen of Lubbock county, Texas; and, having good and sufficient reasons to believe that such was not being done for any good purpose on the part of the said Lubbock county citizen, took the trouble to ascertain what his motives were and find that he has made an unjust attack on Judge E. L. Pitts, now a citizen of Lubbock county, Texas, and a candidate for county judge there, and a former citizen and county judge of Palo Pinto county, Texas.

While we are not attempting to intercede in any way in behalf of Judge Pitts in his candidacy there, for, knowing him as we do, we believe he is fully able to handle his candidacy himself, yet we will not sit idly by and let an injustice be done to him without raising our voices to prevent it.

We have known Judge Pitts since he was a boy and we voluntarily state that his private life has been above reproach. He is an honest, clean, aggressive citizen and for many years was a leader of civic and community affairs of this county.

His official record of this county stands unsurpassed by anyone, and he, as county judge, presided over the courts that handled some of the biggest problems and largest programs this county ever had.

He was ever faithful to his trust and always protected the best interest of this county and its citizens throughout his official administrations here, and the records of this county and his general reputation here will thoroughly verify the above statements.

And reports to the contrary are untrue and cannot be corroborated by the records of this county and his general reputation here.

Witness our hands this the 12th day of August, A. D. 1930:

- J. W. BIRDWELL, County Judge, resident of this county 50 years.
  - A. C. JORDON, County Commissioner 10 years, worked with Judge Pitts eight years.
  - R. M. LOFLIN, County Commissioner eight years, worked with Pitts four years.
  - W. A. WHEELER, County Commissioner six years, worked with Pitts four years.
  - E. B. GREEN, County Commissioner two years, known Judge Pitts several years.
  - C. V. WHATLEY, County Clerk, and worked with Judge Pitts in the courts for six years.
  - W. F. LOGSDON, Tax Collector for a total of six years, worked with Judge Pitts 12 years.
  - J. A. BREWER, District Clerk 10 years, worked with Judge Pitts eight years in the courts.
  - R. H. SMITH, M. D., County Health Officer 16 years, known Judge Pitts intimately 20 years.
  - W. GIB ABERNATHY, Sheriff 16 years, worked with Judge Pitts eight years, known him 20 years.
  - W. G. (BILL) ABERNATHY, Ex-Tax Collector, and worked with Judge Pitts several years.
  - CARRIE SEARCY LOFLIN, County Treasurer, and worked with Judge Pitts several years.
  - F. B. WATSON, Tax Assessor and Ex-Tax Collector, worked with Judge Pitts eight years, known him 20 years.
  - JACK HITTSON, Ex-Tax Collector, worked with Judge Pitts and known him several years.
  - S. W. JENNINGS, Ex-County Commissioner, worked with Judge Pitts eight years.
  - CHARLTON BROWN, Mayor of Mineral Wells, known Judge Pitts and worked with him for 12 years.
- Hundreds of citizens of this county echo the above and this article is being contributed and paid for voluntarily by Palo Pinto county citizens in justice to a man whose services they appreciated.

**The Packets**

The last Mississippi river packet  
 steambait line has gone from Mem-  
 phis, Tenn.—and if you have any  
 feeling at all for the color and roma-  
 nces of a by-gone generation, that  
 announcement is guaranteed to  
 make you a little bit melancholy.

A few days ago the Valley Line  
 Steamers, Inc., sole survivor of the  
 Memphis packet line, put its three  
 steamers up for sale and discon-  
 tinued operations.

Memphis, as a result, is without  
 packet steamer service for the first  
 time in more than a century—for  
 the first time, as a matter of fact,  
 since the Mississippi had any steamers

at all. Of course, there is still traffic on  
 the river. The big barge fleets are  
 said to carry a greater volume of  
 freight annually than the old-time  
 sidewheel packets did in their hey-  
 day. Furthermore, this kind of trade  
 is increasing. Enormous cargoes  
 come down the river each month, to  
 spill into the funnel at New Orleans  
 for shipment to the East Coast, to  
 California and overseas.

But who can get excited over  
 barges and tugboats? Those old  
 steamers represented a bit of roma-  
 nce left over from a more less-  
 stately and colorful era than our  
 own. They were survivors from a  
 generation which, in retrospect, some-  
 times looks more attractive than ours.  
 And Memphis was lapped in the  
 glamour that they gave.

Trying to imagine Memphis with-  
 out packet steamers is like trying  
 to imagine Gloucester, Mass., with-  
 out fishing schooners. It just isn't  
 right. The picture looks wrong.  
 Memphis ought to do something  
 about it.

Probably it's a mistake to get  
 sentimental about it. After all, the  
 Mississippi valley is a great artery  
 of commerce now than it was in  
 Mark Twain's day. Its cities are  
 more prosperous. Life is easier for a  
 bigger percentage of its people. The  
 railroad and the automobile, which  
 have taken the place of the packet  
 steamer, have certainly been  
 blessings to the valley, as to the  
 rest of the country.

But we have lost something, just  
 the same. Our modern age is ef-  
 ficient and progressive—but it gives  
 us no substitute for the glancing,  
 while-pain-and-bruscutti markets  
 of the old days. It is, in fact, just  
 a little bit dull. The loss of Mem-  
 phis river steamers symbolizes the  
 tendency of the age.

**To Spank, Or Not**

Acting on the impulse, the most  
 natural thing for his dad to do  
 would be to give Billy Jeavons a  
 spanking, but we think we would  
 favor that at all.

Billy—in case you have forgotten  
 —is the 11-year-old Cleveland, Ohio,  
 youngster who stowed away in a  
 big passenger plane bound for De-  
 troit. Fugaled by the unwieldiness  
 of his ship, the pilot landed on  
 Lake Erie to investigate and dis-  
 covered Billy hidden in the hatch.  
 They couldn't very well drop Billy  
 out in the middle of the lake, so  
 the pilot put him in the cabin with  
 the passengers and carried him on  
 to Detroit, returning him next day.

It would be pretty hard for us  
 to spank Billy for what he did, even  
 though he was foolhardy. For he  
 shown himself as a boy with plenty  
 of courage—not a nambypamby  
 sort of kid, but one who probably  
 is going to be a real man with  
 plenty of nerve and courage when  
 he grows up and tackles the prob-  
 lems of the world.

Yes, we are glad it was Billy's  
 dad—not us—who had to make that  
 momentous decision as to whether  
 to spank or not to spank.

Australia, Argentina, Brazil, Ven-  
 ezuela and Mexico have created  
 federal districts for their capitals.

North Carolina has 32 licensed  
 cotton warehouses with a total ca-  
 pacity of 300,000 bales.

 appears doomed by the blight.

**THE PLAINSMAN**

That Girl on Broadway says it's  
 all right to talk about modern times  
 but too many of us are living in  
 the MIDDLE ages.

Cast a tear for Willie Burks. He  
 was a grave digger and buried him-  
 self in his work!

THEY are telling a story about  
 the Texas political campaign that  
 is so humorous that even the  
 pro-Ferguson forces will enjoy it.

With shaggy hair grown down  
 over his collar, a man walked into  
 a barber shop at Ekota—the other  
 day and, stopping at the first chair,  
 said to the barber:

"Be you the feller who cut my  
 hair the last time I was in here?"  
 "Nope, I ain't," said the barber,  
 stropping his razor. "I haven't been  
 here but two years. By the way,  
 how's 'Ma' running out in your  
 neighborhood?"

Speaking of Polly Ticks, The  
 Plainsman is going to do some  
 more of his famous prognosti-  
 cating right here and now and  
 you can take it for what it is or  
 isn't worth.

There are some folks who  
 think Dr. George Butte, former  
 Texas university professor and  
 since governor general of  
 Porto Rico, will run a rapid  
 race as Republican candidate  
 for governor against either Ross  
 Sterling or Mrs. Ferguson.

The Plainsman, however, doesn't  
 believe he will, despite the fact  
 the GOP entry is a  
 most capable man.

In the general elections of 1924  
 Doctor Butte gave Ma Ferguson  
 a tight race—that is, the tight-  
 race he could manage. A Republi-  
 can running in the Democratic  
 stronghold like Texas. He cap-  
 tured thousands of votes which  
 ordinarily would go Democratic  
 but he didn't capture enough. Since  
 then Texas took a short ride on  
 the GOP bandwagon when Hoover  
 was swept into office in 1928  
 and there are many who see the  
 ex-pedagogue in the running  
 again next November.

BUT, regardless of Mr. Butte's  
 ability and the acknowledged  
 respect in which he is held in  
 Texas, the Plainsman doesn't be-  
 lieve he will run as close in No-  
 vember as he did six years ago.  
 He may get more votes, because  
 there are more voters. But he won't  
 come as near beating Mrs. Fergu-  
 son as he did in 1924 should Ma  
 be the nominee of Democracy, and  
 he won't run anywhere near Ster-  
 ling if the Houstonian wins on  
 August 23.

The psychology is wrong for  
 Doctor Butte this year. The pen-  
 dulum, which swung Texas  
 Democrats into the GOP column  
 two years ago has swung back  
 and party bolting today has a  
 much more unsteady taste than it  
 had when Herbert Hoover op-  
 posed wet, Catholic Alfred  
 Smith. Further than that the  
 religious angle which undoubt-  
 edly defeated Smith in Texas  
 is missing from the governor's  
 race. All the candidates being  
 Protestants.

On top of these things, the bug-  
 aboo of Hoover prosperity is haun-  
 ting the Butte campaign and will  
 continue to do so regardless of how  
 unfair it may be. No thinking man  
 blames President Hoover for the  
 business depression which would  
 have been the same regardless of  
 who occupied the chief executive  
 chair. The tariff distasteful and  
 extremely held against Hoover and  
 his party but it is recent legisla-  
 tion and not to blame for the  
 business collapse. Never-the-less  
 the cognomen of Hoover prosperity  
 has stuck on it and will detract  
 from anything the state GOP may  
 try to say in the way of equalization.

No sir, folks, you'd just as  
 well like it. Either Ma Fergu-  
 son, with Jim pulling the  
 strings, is going back to the  
 governor's chair or a success-  
 ful self-made business man will  
 be placed at the helm. The  
 vote which is cast on August  
 23 is going to decide the base  
 so you'd better think it over  
 carefully, then vote to give  
 Texas a new deal and fresh  
 lines in the principle office of  
 the state.

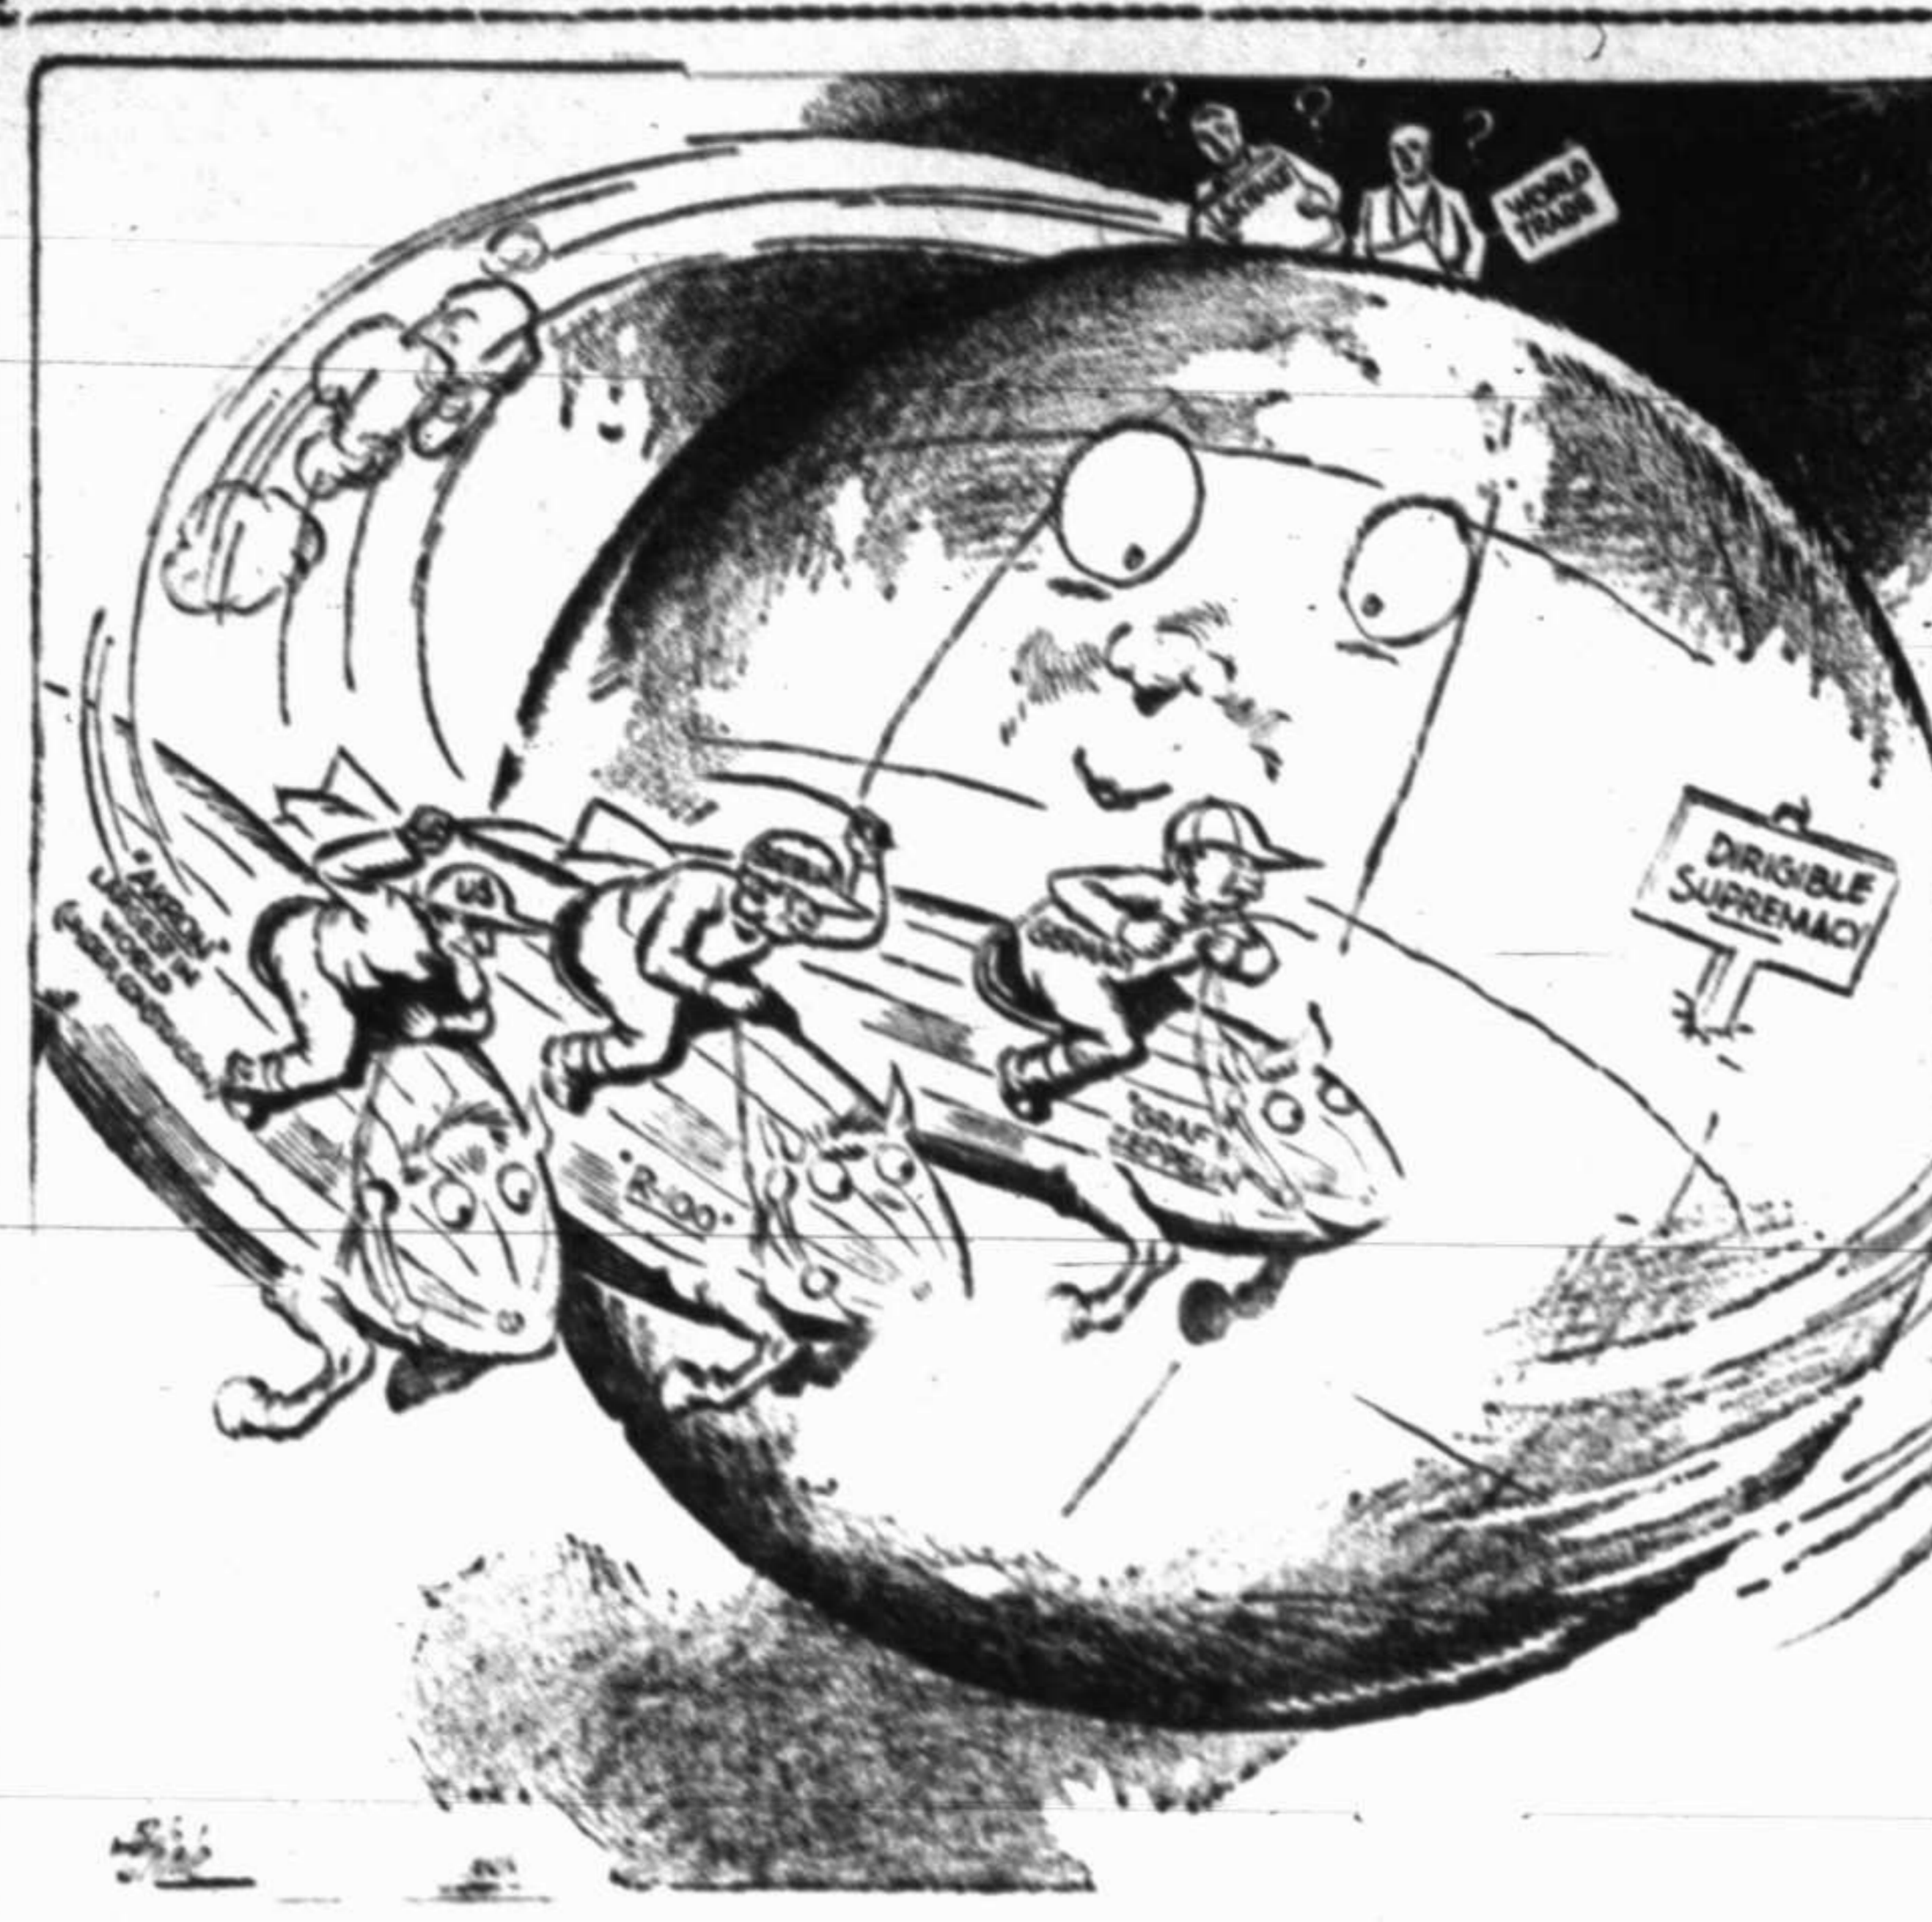

That Man on Avenue Q says his  
 stenographer is only an electrician's  
 daughter but she knows WATTS.

A couple of college students got  
 married the other day and their  
 friends threw grape nuts instead  
 of rice.

THE Lubbock Pioneers associa-  
 tion, composed of the men and  
 women who have resided in Lub-  
 bock county during the entire 25  
 years following 1900, meets in its  
 annual dinner tomorrow at noon  
 and The Plainsman is one of the  
 few outsiders to be invited. It  
 regards it as the premier honor  
 of each year to be asked to gather  
 with the oldtimers when they meet  
 to discuss the days that are long  
 gone.

One of the weaknesses of this  
 column—if you want to call it  
 a weakness—are the men and  
 women who came out in this  
 country when there wasn't any-  
 thing here, who laid the founda-  
 tion for what it is today and  
 what it will be in the future.

**Whoever Is Giving Mr. Hoover His Political Advice Is  
 Anything But Expert, Correspondent Dutcher Has Found**

BY ROSSNEY DUTCHER  
 NEA Service Writer

WASHINGTON, Aug. 13.—The  
 identity of President Hoover's closest  
 political adviser at this  
 time is a matter of speculation be-  
 cause it is so  
 hard to keep  
 track of them  
 but whoever  
 suggested that  
 the President  
 jump into the  
 Republican cre-  
 dentials with  
 his in-  
 dorsment of  
 R. Carroll Reese  
 of Tennessee as  
 his running mate  
 here for any  
 stroke of politi-  
 cal genius.

The quality of the political ad-  
 vice Mr. Hoover seems to have had  
 since his nomination has been a  
 subject of continuous comment and  
 the comment at the moment con-  
 cerns its conspicuous failure to im-  
 prove.

Taking a Firm Policy  
 Nevertheless some of the news-  
 paper boys who every few weeks  
 predict the emergence of the "real  
 Hoover" have been saying that his  
 intervention on behalf of Reese is  
 only one of various attempts which  
 the president will make to reward  
 his friends or punish his enemies  
 by similar methods. That doesn't  
 sound very convincing, even though  
 it seems difficult to explain the  
 endorsement of Reese and its impli-  
 cations as an isolated incident. Mr.  
 Hoover is not notorious for his  
 propensity to bite off large chunks  
 of trouble wittingly.

One of the best things a president  
 does in campaign years is to keep  
 his fingers out of his own party's  
 primaries. Ordinarily he won't  
 even intervene in an attempt to  
 save his best friend from defeat or  
 to place an obstacle before his  
 worst political enemy. If he does  
 such a thing the voters more often  
 than not seem to take delight in  
 telling him to go chase himself  
 while they vote for the other fel-  
 low. On comparatively rare occa-  
 sions when a candidate is directly  
 endorsed by the president for an  
 elective nomination the support  
 sometimes seems to do him more  
 harm than good.

And when a Republican is nomi-  
 nated and elected despite primary  
 opposition from the White House he  
 is sure to come here with a gim-  
 me in his eye which bodes no good  
 for anybody. The president has not  
 only made an enemy among his  
 own ranks in Congress but he has  
 also antagonized the winner's  
 friends back home. The strict  
 neutrality of the Democratic party  
 outside the states involved in con-  
 tests for renomination by such  
 Smith bolters as Senators Simmons  
 of North Carolina and Hefflin of  
 Alabama indicates how completely

In no sense an oldtimer be-  
 cause he has only been on the  
 Plains short of seven years,  
 The Plainsman has always  
 clung to the claim that the  
 folks like himself, who joined  
 the prosperity parade into  
 this country, have never given  
 the pioneers their just dues. If  
 it hadn't been for them most  
 of us here now would be some-  
 where else and wouldn't likely  
 be doing nearly so well as  
 we are.

The Plainsman hopes the old-  
 timers will have a happy time to-  
 morrow and will be here to have  
 many, many more happy times  
 together. This column thinks it is  
 high time that the rest of the folks  
 are having some sort of a cele-  
 bration with the pioneers as honor-  
 aries. At least, they should be  
 made to feel that the rest of us  
 appreciate what they've done.

**Diet and Health**

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

The first requirement we put down  
 for any normal diet was enough  
 fuel. This means enough food. The  
 first requirement for a diet con-  
 sists in the actual  
 amount of food  
 you eat a day.

We pointed  
 out yesterday  
 that the unit of  
 measurement of  
 the fuel value of  
 food is the calorie—  
 you use up one  
 calorie when you  
 perform as much  
 muscular  
 exercise as con-  
 sists in rising  
 from a sitting  
 position and shut-  
 ting a door and sitting down again.

You take into the body one calorie  
 when you eat a quarter of a glass  
 of milk.

Now how many calories do you  
 need a day?

Even when you sleep you are  
 using up some calories. The mere  
 act of breathing requires some muscular  
 movements which result in the  
 burning of calories. While asleep  
 lying quietly you use about half a  
 calorie per pound of weight in 24  
 hours. Or if you weigh 150 pounds—  
 you use 75 calories an hour. This  
 is roughly 1,800 calories in the 24  
 hours.

Walking, even in the performance  
 of the most ordinary activities, raises  
 this very rapidly. Most of us use  
 at least 3,000 calories a day. A food  
 which is not eaten is wasted.  
 This lesson has been learned by  
 most politicians.

The president wrote Reese that  
 he had heard Reese's opponents  
 were charging him with opposing  
 the interests of Tennessee in re-  
 fusing to accept the Norris Muscle  
 Shoals plan passed by the Senate  
 and substituting a private opera-  
 tion plan for it. Mr. Hoover said  
 Reese was quite right and thereby  
 came out definitely for private op-  
 eration for the first time. The im-  
 plication was that Reese had been  
 representing the White House all  
 the way through and was now  
 reaping his reward in the form of  
 this unusual campaign letter.  
 Reese's opponent, Samuel W. Prange,  
 had been attacking him hotly on  
 the Muscle Shoals issue.

Thus, in addition to the dubious  
 expedient of entering a primary  
 fight, Mr. Hoover smoked himself  
 out on his exact stand in the per-  
 sonal fight between the "power  
 trust" and the liberals of the coun-  
 try who seek to curb it. Up to that  
 time he had managed to avoid be-  
 ing smoked out. During his cam-  
 paign for election he had said Mus-  
 cle Shoals was an exception to his  
 general theory of keeping the gov-  
 ernment out of further entry into  
 the business field.

Displeases the Liberals  
 While Reese was busy choking  
 the Senate measure in the last  
 session he said nothing. But now  
 he has laid himself open to attacks  
 from all who believe that Muscle  
 Shoals ought to be developed by  
 the government—no small group, by  
 any means.

It may be well that Reese will  
 be licked. In that case the Hoover  
 political prestige will be damaged,  
 there will be a new anti-Hoover  
 Republican in the House and the  
 liberals and progressives who sup-  
 ported Hoover in 1928 will be still  
 further alienated. If Mr. Hoover  
 hadn't felt Reese was in actual  
 danger of defeat, one supposes, he  
 would have kept silent. Perhaps  
 the President's letter might be de-  
 scribed as a heroic, self-sacrificing  
 gesture, but it hardly seems like  
 good politics any way you look at it.

**In New York**  
 With New  
 Gilbert Swar

NEW YORK, Aug. 13.—For five  
 years Broadway has been an im-  
 personal bystander at a feud of  
 theatrical Titans that threatened  
 to become classic and legendary.

But recently, with David War-  
 field lying at one time or another  
 on the threshold of death, and with  
 David Belasco slipping both melo-  
 dically and youthfully toward his  
 eighties, the story went that the  
 veteran producer had sent a bou-  
 quet to the hospital where lay the  
 stricken little man whose name will  
 always be identified by the bent  
 and emotional music master.

If one listened to the many tales  
 that went up and down the hectic  
 highway, then it became necessary  
 to believe that the break in friend-  
 ship had been solid and tenacious.

For Warfield and Belasco had  
 fought shoulder to shoulder in days  
 when rivalry was howling outside  
 the door. They became a sort of  
 Damon and Pythias of the theater  
 world and when the "street" heard  
 that there had been a rupture in  
 this comradeship, the wise folk  
 laughed and said, "tell me another."

But it was not long before no  
 doubt in the matter remained.  
 Warfield's most regular habit was  
 going to the Lamb Club daily for  
 his game of pinocle. There, year  
 after year, he contested at cards  
 first with one opponent and an-  
 other—but particularly with cer-  
 tain cronies.

And players would leave that  
 club with tales of the atmosphere  
 that had been poured upon the  
 clubroom air. The excitable tem-  
 peramental little actor they would  
 say had pounded the table in re-  
 rage and muttered the most vir-  
 ent maledictions against his op-  
 ponent.

It made matters no better when  
 one considered that each time War-  
 field left or entered the Club he  
 looked upon the sign, "Belasco  
 hanging from the theater sign  
 across the way."

There are many stories about this  
 sudden break, and it is a matter of  
 opinion as to whether it was a  
 result of some accident or of some  
 deliberate act.

Just as there are a score of  
 stories about their personal quar-  
 rels, Warfield had risen from a  
 penny-arcade life into the theater.  
 But it was along about 1901 when  
 he did "The Auctioneer" that he  
 began his theatrical kingdom with  
 David Belasco.

Now as a matter of fact as a re-  
 sult of all this talk there are many  
 people in the world who are tired  
 and constantly worn out because  
 they do not have enough to eat. Es-  
 pecially is this true of women who  
 vainly attempt to keep their  
 figure far slimmer than their  
 height demands.

Some extremists go even further  
 and advocate starvation diets. For  
 such men lead a party of people like  
 the mountains of Colorado last  
 year. They starved to death.

Such exploits and ideas are regarded  
 as jokes in some quarters as very  
 sensible ideas in others. They are  
 neither, because they do a great  
 deal of harm and as in the expe-  
 riment referred to, led even to the  
 death of some of the enthusiasts.

It is a fact that food is not taken  
 in by the mouth but it is taken in  
 by the body attacks its  
 own tissues—fat and flesh—and  
 burns them. Thus a vegetarian who  
 goes on a starvation period is really  
 putting himself on an exclusively  
 meat diet.

For some people of course less food  
 is required than for others. A reduc-  
 tion in the total amount of food  
 consumed by many people is ad-  
 vantageous. But the idea can easily be  
 carried to extremes and in our genera-  
 tion there is much more danger  
 of people taking too little than  
 too much food.

# LAMESA BAND ENTERTAINS

### CONCERT HELD EVERY THURSDAY EVENING; KING DIRECTS

(Special To The Journal)  
LAMESA, Aug. 13.—Music lovers in Lamesa who appreciate martial airs and classical selections are afforded an opportunity to hear their favorite compositions during a band concert on the public square each Thursday. Lamesa's present municipal band was organized in 1928 when a tax of five mills was passed on to support the institution and provide an instructor. The band tax provides a total of more than \$4,000 yearly for the up-keep of the musical organization.

Conway E. King was secured as band master. He is a talented musician and instructs his pupils during the week for their concerts in a band hall that is used solely by this civic group.

**Band Commission Named**  
The city commission appoints a band commission each year to oversee the expenditures and to recommend additional musical instruments and equipment. The band tax commission is composed of J. W. Bryant, W. K. Crawley, and Ross Gibson.

The Lamesa band appears for local concerts on several occasions during celebrations here. Recently it has played for the Independence Day program, the milk plant opening besides its weekly concerts on Thursday. A musical comedy was sponsored by the band here recently to secure funds for new uniforms.

**Won Third At Fair**  
During the State Fair at Dallas in September, 1929, the local band won third place in the three-year class band concert. They were awarded that position instead of first because of the loss of three points due to lack of uniforms.

Members of the band and their instruments are: Ray Lewis, Elyon Cutch, Richard Crawley, Fred Planniken, trumpets; Leroy Serrano, Lloyd Marr, snare drums; Walter Harold Collins, bass drum; Walter Crawley, John Moore, trombones; James Davis, baritone; R. E. Simpson, Jr., Daryl Kirk, Albert W. Smith, bass; John Smith, Joe Hall, Stanley Smith, Robert Crawley, clarinets; Robert Kruger, saxophone; Conway King, trumpet.

A large number of the band members can play two or more instruments and are familiar with a long list of popular compositions. Most of the players are connected with other musical organizations here, such as the Lamesa club orchestra, and the High school orchestra.

### Oil Field Worker Is Blown To Bits

SAINT JO, Aug. 13 (AP)—Marshall McCollum, 27, was blown to his death, and Harper Moore, 25, was probably fatally injured, when a boiler in the Bulcher Oil field exploded Tuesday.

Lee Suteles and two other helpers were slightly injured. McCollum's body was torn to many parts by the explosion and he was identified by shreds of his clothing that were picked up. His legs were severed from the torso. Parts of his body were found 350 yards from the scene of the blast. The boiler was blown about 30 yards.

Several parts of McCollum's body, a part of his head and right arm were found 630 feet from the site of the explosion.

### Cotton Ginning Is Half Over In Valley

DALLAS, Aug. 13 (AP)—Cotton ginning in the lower Rio Grande valley is 51 per cent completed, with ginnings to date estimated at 45,000 bales, according to the Texas Cotton Co-operative association. The Nueces county cotton crop is one-third ginned with the crop developing rapidly and pickers needed in all the counties immediately north of Corpus Christi, the association announced.

Seven steamships leaving Corpus Christi in the past few days carried cotton to important European ports.

**SUGAR CROP SHORT**  
WASHINGTON, Aug. 13 (AP)—Production of sugar in the United States this year was forecast by the department of agriculture in its August crop report published today as 1,251,900 short tons of beet sugar and 189,000 short tons of cane sugar, all of the latter in Louisiana. Last year cane sugar production totaled 200,000 short tons and beet sugar 1,018,000 short tons.

### PAYNE EXPECTS HIS SPEECH TO JURY TO BE AS IMMORTAL AS LINCOLN'S FAMOUS GETTYSBURG ADDRESS BUT MORE IN LINE WITH HOUSTON'S ORATION; IS PREPARING CLASSIC

(By Associated Press)

AMARILLO, Aug. 12 (AP)—A D. Payne self-styled "rich friend" master criminal who described his confessed slaying of his wife as "the most heroic crime in history" is preparing an address he will deliver to the jury that bears his plea of guilty to a charge of murder.

He expects the speech to be as immortal as Lincoln's Gettysburg address but more on the order of the famous oration made by the late Temple Houston in behalf of an outcast woman whom he was appointed to represent.

**Wants To Be Example**  
The accused attorney, consistent with his life's ambition to make history and to be remembered for time immemorial, wants to appear before a jury and make such a speech regarding his own life as Temple Houston made about the woman he wants to hold himself up as an example for others for all time to come.

He would like for that speech to be placed in the archives of history as a classic, to be preserved by bar associations as an example for youthful attorneys, and to be commemorated by newspapers throughout the country as an extraordinary document just as they discussed his 20,000 word confession.

**Willing To Die**  
To do all this, Payne is willing—so he says he is really sincere in his demands—to be electrocuted. He would face the electric chair with a plea of guilty and without a defense for the privilege of making that speech.

Payne did not tell these things in so many words, but he admitted he was working on an important document, and his visitors say that he has mentioned several times making a speech to the jury.

He gave instructions to his brother Sid Payne, to bring him a number of books he said he needed for

reference. Neither he nor his brother would release the titles of the books.

**Refuses Care & Aid**  
To carry out his plan, Payne Monday refused to employ his former law partner and friend, James O. Cade of Amarillo, to defend him when his case goes to trial because Cade asked for authority to present the case in his own way. It is understood they disagreed over the defense of insanity.

Payne would rather die in the electric chair, posing as an arch criminal than have the public believe him insane and be sent to an asylum, he is told here.

It can be gathered from Payne's conversation that he is anxious for his trial and execution for fear if there is too long a delay and he is left in a jail cell to brood over the crime he will become a raving maniac and be adjudged insane.

**Craves Publicity**  
The publicity the newspapers would give Payne's last address to the jury would please his vanity. He is pleased now with the publicity he is receiving and he reads the newspapers daily to get his story.

Persons who have known Payne for many years say he has much false pride. He confessed he had too much pride to admit to his wife that he did not have any money and that he was a failure in his practice. Students who knew him in West Texas State Teachers college said he wanted to attract attention with everything he did. If he failed in an undertaking, he wanted it to be an outstanding failure, they said.

It was evident also in his practice. He enjoyed sensational damage suits and participated in many of them. He has been known to refuse a compromise in a suit that would mean \$10,000 or more to him in order to get notoriety from the trial and take a chance on having the jury find against him.

### Aid In Fight To Free Mooney

Efforts are being made to persuade Governor C. C. Young of California to hear the testimony of John MacDonald, of Baltimore, who has confessed to committing perjury in the trial of Thomas Mooney, before the primary election late in August. Mooney has been in San Quentin prison since 1916, when he was sentenced to life imprisonment, for the Preparedness Day bombing at San Francisco. E. N. Kockels, left, secretary of the Chicago Federation of Labor, and Frank P. Walsh, right, Mooney's attorney, have identified MacDonald as the man who testified against Mooney.

# FORT WORTH CATS CLINGING TO LEAD IN TEXAS

## TIGERS STAGING CLIMB; RUTH IS HERO

**IN THE REALM OF SPORTS**  
With Collier Parria  
Journal Sports Editor

This 1700 Texas League scrap is developing into a real battle with four or five or six teams still in the running, and running hard. The Fort Worth Panthers almost set a precedent this week when they held the leadership for two days, and if they continue to lead the field they will begin to be considered real contenders for the last half. Waco has been shoved down to third place, being unable to cope with the Spudders in the latter back yard. Wichita Falls is winning, but so is Fort Worth, and unless one or the other loses they cannot get any closer together.

Central Texas is all pepped up over Waco's chances to cop the second division, and have started a pennant fund for the purpose. The Waco Baseball Company donated \$500 to set the fund, and it has been generously added to by Waco citizens and friends of the Cubs. The provision reads that the team doesn't get a cent if they lose, but all if they win. Quite a sum has been collected, the people of Waco being willing to pay to see the Cubs win. But the Cubs, although the hardest hitting, best spirited, "fightiest" club Waco has ever had, have some running to do in order to gain the leadership of the race.

It is pure guess work to pick a winner in the league, but a glance at the schedules might give a little light on the subject. Taking it for granted that the home team has the advantage, especially in their team plays night baseball on their own diamond, it appears that Waco has good chances to win. After the present series at Dallas is completed Thursday all of Waco's remaining games will be played at night. Fifteen will be played at home, and nine on lighted fields away from home, except on Sundays. Houston, however, has the most games at home, having only eight more games away all of them on daylight fields. The Buffs, whom someone has wisely said will be the victors in the championship, will be at home for nineteen games, and they play well at night. The Spudders seem to have better luck in the day time, but eleven of their remaining games will be played at night in foreign camps. They have a dozen more games at home. Fort Worth has nine games at home and eighteen away ten of which must be played under the arc. So you pay your money and takes your choice.

Have you a little football spirit in your home? We're not talking about a promising 180-pound half-back or a prospective center, nor do we have reference to Mr. Volstead. We were just wondering what the people of Lubbock would do to see the Lubbock High School Westerners go places and do things in the 1930 football race. Lubbock's prospects for a winning season are bright just now, but they can be brushed to a fine polish with the assistance of the local citizens. Here's a tin on an investment that is bound to pay. Take out a few shares of Western Training Camp Special and trap big dividends. It's no trouble and is inexpensive. A salesman will approach you offer the stock, and you will be wise to grab it off.

Starting today or tomorrow, the local high school will make the drive for funds to provide a training camp for the 1930 edition of the Westerners. The camp will constitute a ten-day period of real football training. Draw the schedule will be adopted and carried out under the supervision of Head Coach Funks and his assistants. Such a training period is not only beneficial but absolutely necessary. Football advancement of the nation. Football season no longer waits for the school session to get under way but is open with the first day of classes, and must be worked on in advance. The success or failure of the training camp depends in large way upon the generosity of Western supporters, and you will be doing a big thing in a little way when you subscribe to the budget.

The Amarillo scribe has the following to say about the Sandies and other teams of 1930. The Intercollegiate league have so many districts presented as wide open races as loom this fall. Right here in District 1, the supremacy of Amarillo's Golden Sandstorm is threatened as has not been for the last four years. A new coach, green material, only two letter men back compare this with Lubbock's dozen letter men who are returning, a veteran coaching staff that has worked with the Westerners for several seasons, and an intense spring training season already behind them.

"Coach Blair Cherry, who came here from North Fort Worth High, will have to build his team from the ground up. Burt Bufkin, backfield ace of last year, and Mike Montgomery, linebacker, are the only 1929 regulars back. It is true that some of the new material looks good, and that the Sandies are bound to present a formidable lineup, but whether they can be whipped into a machine powerful enough to turn back the veteran Blue City aggregation is highly problematical."

What's problematical about that? If the situation corresponds with the statements above, Amarillo might as well be content with building up a team this year that will show some opposition in District

### FORMER MATES TAKE WALKUP FOR COUNT

**SPUDS FOLLOW CLOSELY TO WIN OVER WACO; STEERS WIN**  
BY GAYLE TALBOT, JR.  
Associated Press Sports Writer

Jimmy Walkup, released by Fort Worth soon after the second half began, won six out of his first seven starts for the Beaumont Exporters, but was unable to hold his former mates yesterday and the Cats dominated the Shippers, 4 to 1, to hold their one-game lead over the Texas league field.

Paced by Little Leslie Mallon, rookie second sacker, who punched Walkup's curves for a pair of homers, the Panthers got to the southpaw early to sew up the victory, their fourth straight. Lil Stoner, who with Whitworth and McCabe have formed the Kittens "Big Three" in their belated pennant drive, was touched for nine hits but kept them well scattered except in one round.

Spuds Down Cubs  
It was well for the Snydermen that they swapped their series with the Shippers, as the Spudders were doing likewise against the Waco Cubs to cling to their runner up berth. The first half champs pounded Cannon and Wendt for 27 hits to wrap up their final 24 to 4, every man in the Spud lineup getting at least two hits and Storti, Burns, Bettencourt and Crouch clicking four apiece. One of Bettencourt's wallops was homer No. 38.

By whipping the Buffs, 7 to 3, in the afternoon and then scapping them to a 3-3 tie in a night engagement, which was halted at the end of the ninth to enable the visitors to catch a train, the Shreveport Sports succeeded Houston in fourth place. The Louisianaans outdug Payne and Judd for 10 hits in the daylight fray, before scout finally stopped them in the last two frames. The Bisons started out as though to sew up the night tilt early, scoring six runs in the first three innings and beating Tuero from the hill, but the Sports came back to score five in the eighth and another in the ninth to tie the count.

Dallas Wins 4th  
Dallas made it four straight from San Antonio by taking their final 3 to 2, in the best exhibition of the day. Grady Adkins turned in his best performance of the season to seven hits and blanking them until the seventh, when Leslie Ledgoff with a homer over the right screen. Successive doubles by Burns and Lavette followed to give the visitors their other tally. Leslie, with a single, double and homer, was almost the entire show for the Reddies. Or Cotter limited the Steers to six hits, but issued seven passes and committed two errors to aid his own undoing.

"GREAT SHIRES" IN 24TH YEAR  
WASHINGTON, Aug. 13 (AP)—Charles Arthur "The Great" Shires hasn't set the baseball world afire with his bat but he has established a record for an early reputation. Today was only his twenty-third birthday. Yet he was one of the widest known performers in the national game. And at that he was but a sub for the Senators.

Do something, say something, get a reputation early in life," has been one of Shires' mottoes. He said and did plenty while a member of the Chicago White Sox. His fights on the diamond and in the prize ring have made him a character all by himself.

Just to prove he refused to be worried by the number thirteen jinx the "Great Shires" pointed out that he was born on the thirteenth and had that number stitched on the back of his uniform.

**Justo Suarez Makes Good On Perlick**  
NEW YORK, Aug. 13 (AP)—Justo Suarez, a hard hitting lightweight from the Argentine, has made his second appearance in the United States and given the fight fans something to talk about. Stacking up against the more experienced Herman Perlick of the Kalamazoo, Mich., twin brothers, the rugged South American belted out a ten round decision last night at the Queensboro stadium to the satisfaction of the referee, the two judges and a crowd of some 6,000 which paid \$9,000 to see if Suarez was as good as he looked when he whipped Old Joe Glick in his first appearance here.

The 21-year-old Argentine showed plenty of scrap, forcing the fight from the start to the finish. At times his blows were wild but when he did connect they hurt.

**PETE MEYERS WINS**  
SAN JOSE, Calif., Aug. 13 (AP)—Pete Meyers, San Jose, middleweight, won a technical knock-out in the fourth round of a ten round bout last night over Cowboy Brooks of Texas. Meyers opened a cut over Brooks' left eye. Brooks had a slight edge at the time.

### DETROIT NEARS TOP HALF IN AMERICAN

**CUBS HOLD LEAD OVER ROBINS BY VICTORY; PIRATES ADVANCE**  
By HUGH S. FULLERTON, JR.  
Associated Press Sports Writer

Almost obscured in the struggles of the mighty around the top positions in the major league standings, the Detroit Tigers have been springing on a spurt that has carried them almost into the first division of the American league. The Tigers are only one and one-half games behind the fourth place Cleveland Indians today, despite their inability to cope with the heroic gestures of Babe Ruth in their opening clash with the New York Yankees yesterday.

While the Tigers were losing one game, due to Ruth's demonstration of the reasons for his great reputation, Cleveland was dropping two to the Philadelphia Athletics to make the fourth-place struggle more interesting. The Tiger record for the past month has been of first-division calibre, 18 victories and 12 defeats for an average of 600 in the same period only the rampant Athletics and the Yankee have done better than that.

Ruth Hit Hero  
The Yankees stopped the Detroit club for a while yesterday but only after Ruth had put on a great performance to win a 6 to 5 decision in a close battle. The Babe clouted his third homer in the third inning with his mascot, Jimmy Reese, on a base to climax a big Yankee rally, then drove in the winning run in the ninth at the highly crucial moment when there were two out and two strikes on him.

The victory was not of much use to the Yankees except to hold them in their position behind Philadelphia and Washington in about a series. With Moose Grove and Bill Shires pitching a pair of good games the Athletics twice trounced the Cleveland Indians by scores of 5 to 1 and 7 to 0. Washington held second place a game ahead of the Yankees in scoring runs off Fred Laves in the third inning to take a speedy game from the Chicago White Sox, 3 to 4. The contest lasted only an hour and 22 minutes.

**Cubs Take First**  
The opening of the crucial National League series between the Chicago Cubs and Brooklyn Robins justified an advance notice, in that a pitching duel between Fred Blake and Dazzy Vance, highly competitive of hits but not of runs, lasted seven innings before Chicago gained a 3 to 2 victory and increased its lead to a full game. Two first inning errors by Jake Fowers gave the Cubs two runs and forced Brooklyn into an unsuccessful uphill battle in its effort to regain the lead. It was not until the eleventh that the Cubs were able to bunch enough hits off Vance to score the odd run.

**Pirates Gain**  
With New York and Cincinnati, the Pittsburgh Pirates registered the big gain in the lower part of the National League standing and the St. Louis Cardinals made a lesser one. The Pirates downed the Phillies in both halves of a double-header. They had to go 14 innings to win the first game, 3 to 1. But the second round produced an easy 2 to 3 victory as Glenn Spencer allowed Philadelphia only five hits. St. Louis, although out-hit, 10-8 made good use of its blows to defeat the Boston Braves, 4 to 2. It was the fifth straight victory for the Cards and the fifth defeat for the Braves. Another Boston-St. Louis clash went the other way as the Red Sox gained a 5 to 4 decision over the Browns on the strength of Bob Reeves' single with two out in the ninth.

### HUBBERS LOSE TO BROWNFIELD, LYNN COUNTY CREW WINS FROM LEVELLAND; SOUTHLAND DOWNS ANTON IN 2ND HALF

The teams of the South Plains League started the second half of their schedule yesterday and the results of the games were in accordance with the dope set during the first half. The strong Tahoka outfit, undisputed winners of the first half with only two defeats marring an otherwise perfect record, finally won out in a close game with Levelland, the latter playing on their own diamond and holding the Tahoka sluggers to a shut out until the sixth. The score was 3 to 2. Levelland got their pair early in the game and Knight, former pitcher for Lubbock in the old West Texas league, held the Lynn County crew scoreless until the sixth. Harrison pitched for Tahoka.

Over at Brownfield the Lubbock Hubbers fared rather badly, being taken to a 6 to 0 cleaning by the revised and inspired Brownfield team. Blackie Hoyle stayed on the mound for the Hubbers giving up ten hits, but the Browns succeeded in bunching them to scoring advantage. Nearly all of the runs were earned. Smiling Graham who promises to develop into a real pitcher before the season is over, held the Hubbers to two hits, one by Walker and one by Payne.

Anton, the new member of the league, made its debut yesterday with a tilt against the Southland team, runners up in the first half. The Southland team, playing true to form, won the game 5 to 3, after a stubborn fight on the part of Anton. The new member, elected to membership to take the place of the disbanded Lamesa team, looks as a possible contender for the race. The club has spirit, along with strength, and will be a valuable addition to the league, according to reports.

The teams meet again tomorrow for the second games of the second half. Lubbock will entertain the Anton team at Merrill Park. The game will begin at four o'clock and promises to be full of interest. Tahoka will be at home in an affair with the Brownfield team, while Levelland will play the host to Southland.

He declared such a plan would result in creation of an acceptable system of highways and would relieve the counties of much taxation. He said the present highway commission had built more than 1,500 miles of concrete highways since it had taken charge despite the fact it had found the department in a deplorable condition when the Ferguson administration went out of office.

**MRS. WARNER SPEAKS FOR STERLING**

**PROMINENT WOMAN OF PLAINS HEARD LAST NIGHT**

Speaking in Lubbock last night before a gathering of about 150 persons, Mrs. Phebe K. Warner, of Claude, widely known club woman and supporter of Ross Sterling in the democratic gubernatorial campaign, declared that "West Texas holds the balance of power to elect or not elect the next governor of Texas."

Mrs. Warner pointed out that the Ferguson family already has served three terms in the governor's chair and now again is asking election as the State's chief executive.

Briefly analyzing results of the July primary in the gubernatorial race, the club woman said ballot casting in the opening election had divided Texas into three political sectors, East Texas representing Ferguson power, South Texas Sterling support and West Texas Small influence. North Texas divided, aligning with the candidate to which it was nearest geographically, whether east or west, she said.

**Power Proven**

Although Clint Small was eliminated, West Texas proved its power and now is in a strategic position to balance the scales as it chooses, Mrs. Warner said, warning against laxity which would permit the other sections to settle the issue virtually alone.

Commenting on campaign propaganda that there are 20 battalions in Sterling's Houston home, Mrs. Warner remarked:

"It's the first time I've known a battalions becoming a political issue but if they'll clean up things, I'm for the battalions."

**Injects Crime Issue**

Citing crime and prohibition as issues in the present gubernatorial race, Mrs. Warner said she had an alleged statement of the Ferguson candidate from the state penitentiary, Mr. Ferguson, who she said:

"Sterling has made no statement of his attitude toward prohibition. Mrs. Warner said she had an alleged statement of the Ferguson candidate from the state penitentiary, Mr. Ferguson, who she said:

Golden West Not So Golden For Marion Talley

CHICAGO, Aug. 12.—The girl of the Golden West, Marion Talley, has found the west not so golden as the east after all.

Staying in Chicago yesterday, she said the drought had ruined her crop on her 800-acre Kansas farm and that she may meet the loss by returning to New York Metropolitan grand opera house which she abandoned for the farm a year ago after a marriage success.

A yellow-flowered water lily has been found in the Big Bend section of Texas.

**HASTY MARRIAGES TARGET OF ACTION**

**IN SESSION ON UNIFORM STATE LAWS**

CHICAGO, Aug. 12.—Hasty marriages were the target of a proposed uniform state law recommended today before the opening session of the 48th annual national conference of commissioners on uniform state laws.

The proposal provided that couples intending to marry would have to publish a legal notice of their intent seven days before applying for the license, except in cases of non-residents who would have to give 30 day notice.

A proposed uniform divorce law would set up certain requirements which if observed would make the divorce legal and recognizable in each of the states. Among the requirements were a year's residence in the state where suit was filed.

Another proposal provided for a uniform act to regulate the sale of pistols, and would require a license of both buyer and seller. Any person convicted for a crime of violence would be disqualified from obtaining a license and possession of a pistol at the time of committing a crime would be prima facie evidence of intent to commit the crime.

**EXPANSION OF SANTA FE IS PLANNED**

**BUILDING PROGRAM TO BE INAUGURATED HERE SOON**

Plans for an extensive building program to be inaugurated in this city were revealed here yesterday by R. F. Bayless, general agent of the Panhandle & Santa Fe railroad. The company has acquired block 107, comprising about 20 lots at a cost of approximately \$85,000, plans to lay track and construct building platforms on a plot composed of lots 107 and 91, and proposes to erect a railway office building on block 107, fronting Main street.

Mr. Bayless stated that preparation of the building area will begin soon, though he was unable to estimate cost of the work.

**Trucks To Be Laid**

Block 91, a triangular plot immediately north of the recently acquired 107, already was owned by the Santa Fe organization. Trucks will be laid, roadways built and inclined loading platforms constructed in the area to facilitate movement of wagons and trucks hauling bulk merchandise, hardware, machinery, building materials and other stocks to Lubbock wholesale houses and dealers.

The proposed building would be a one or two story structure, housing offices of road master, yard master, divisional freight and passenger agent, and local freight agent. The entire structure would be utilized by the railroad company. Mr. Bayless said. The present freight depot would be moved to the rear of the brick structure he said.

**Two Buildings There**

A cafe rooming house and a detached building formerly a rooming house are the only buildings on block 107.

Block 107 is bounded on the south by Main street, on the east, by Avenue 1 and on the Santa Fe right of way, on the west, by Avenue 1 and on the north, by Main street.

Block 91 is bounded on the east and south by the right of way of the Santa Fe and on the west by Avenue 1 and on the north by Main street.

**JUDGE RULES MAKING AND SERVING LIQUOR IN HOME FOR GUESTS IS NOT LAW VIOLATION; AFFIDAVIT IS NEEDED**

MIAMI, Fla., Aug. 12.—Possession and use of intoxicating liquor in the home by the family and guests does not constitute a violation of federal law, Federal Judge Ritter ruled here today.

The court also held liquor may be manufactured in the home for the use of the family and guests. While manufacture is a technical violation, Judge Ritter decided no warrant can be obtained to search a home without an affidavit that the liquor is being sold and unless the latter is true, the home is free from search.

The ruling was given in dismissing a charge of possession and manufacture of liquor in the home of Mrs. Mary Finn of Miami.

Brook trout, which thrive in cold water, have been hard hit by the drought, which raised the temperature of brook pools.

**A. H. KING**

**Commissioner Of Agriculture TO THE PEOPLE OF TEXAS:**

No greater honor could come to any man than to render a worthwhile service to the farmers, and through them to all the people of Texas. Having had many years experience in farming and stockraising and firmly believing that the intelligent application of common sense to the problems of agriculture, will in a large measure, overcome our troubles, I ask you to elect me Commissioner of Agriculture. I am optimistic enough to believe there is a better day dawning. I speak the language of the farmer without stammering and have an intimate knowledge of his aims and aspirations. We have before us the accumulated knowledge of the ages, let us use it.

**Agriculture sustains human life; we must sustain agriculture or perish from the earth. Agriculture is the father of civilization and the grandfather of all human progress.**

If I am elected, all the power, influence and facilities of the Department will be used to help you do the following things:

- (1) To make the farm pay you a fair return for your labor.
- (2) To take from farm life the dull, drab drudgery that makes your children hate the thought of spending their lives on a farm.
- (3) To regulate production by education so that no farm commodity will bring starvation prices.
- (4) To broaden and stabilize markets and do away with the "dump system."
- (5) To help you fight insects, insects and inadequate prices.
- (6) To help dignify the business of farming and place you in a more important position as a citizen.
- (7) To do all possible to bring about a restoration of faith in the farm.
- (8) To help protect the farm from soil loss and deterioration.
- (9) To work together in order that we may not starve separately.
- (10) To relieve the farm from excessive taxation.
- (11) To find the cause and cure for root rot in cotton.
- (12) To protect you from speculative hi-jackers.
- (13) To give you accurate information as to acreage and condition.
- (14) To keep the office of Commissioner of Agriculture electric.

If elected, the policy of the Department will be to work in harmony and co-operation to the fullest extent with the A. & M. College, the Federal Farm Board and all other agricultural organizations in their activities for the effective solution of the farmer's problems.

I favor the rigid enforcement of the seed laws that will protect the public in the purchase of good planting seed. This Department belongs to the farmers of Texas and its mission is to help them.

Respectfully submitted,  
**A. H. King, Throckmorton, Texas.**

**RECEIVER ASKED FOR KRESS CHAIN**

NEW YORK, Aug. 12.—Suing for a receiver for S. H. Kress and company, chain store operators, and for an injunction restraining three directors from disposing of the assets of the company was filed in supreme court today by three minority stockholders.

The stockholders, Ota A. Knight, Emil Mayer and Fred Cunningham charge Samuel H. Charles W. and Robert H. Kress, whose firm they did not know, with operating in violation of Kress and company in the purchase of \$15,000,000 worth of stock.

The petition alleges the three Kresses own 90 per cent of the stock of the John Franklin corporation, which was formed in connection with the proposed purchase of sites. The John Franklin corporation, the petition alleged, then purchased the sites and sold them to Kress at greatly enhanced prices.

**EAGLES GAIN MEMBERS**

SAN FRANCISCO, Aug. 12.—President Charles J. Chenu, Sacramento, Calif., reported at the International Eagles convention today the order gained 93,626 members last year.

The president in his annual report said financial strength was increased by \$2,000,000. He said there are more than 700,000 Eagles and 150,000 members of the women's auxiliaries.

During the last year the lodge

disbursed \$2,000,000 for sick benefits, \$800,000 to physicians and \$800,000 in funeral benefits.

The five largest membership centers June 1 were Ohio 83,279; Pennsylvania 83,002; California 42,254; Wisconsin 42,812; and Washington 41,342.
