'Shoulder To Shoulder' At WTCC Meet

NEWS BITS GLEANED FROM CONVENTION CROWDS HERE

Chaperones Gypsies

Chaperoning the Sweetwater Gypsy Girls is Mrs. J. P. Majors of Sweetwater. Mrs. Majors is the mother of Mrs. F. M. Bowen of this city and is her guest during the convention.

Richardson Here

Hunter W. Richardson, former Lubbock citizen, was "whooping it up" with the Fort Worth delegation this morning. Hunter is educational director of the First Methodist church in Fort Worth, having held a similar position here before moving to Fort Worth.

Portales On Hand

Portales, N. M., high school band had some hard luck and were unable to appear in parade and concert until this morning due to the failure of their director to arrive here until early Friday. The group, after parading through the downtown streets this morning, had to leave in order to get back for graduation exercises tonight. A majority of the players are members of the graduating class.

Stresses Costs

"Low production costs should be the major point stressed by West Texas in telling the nation of its possibilities," W. J. Casey of Dalhart, a director of the organization, declared today. Mr. Casey, formerly of Chicago, has been in the Dalhart area for the past six years and is known as the pioneer of corn planting of that section. The Dalhart area will have more than 8,000 acres in corn this year, he said. Lon McCrory, banker and president of the Dalhart Chamber of Commerce, accompanied Mr. Casey to the convention.

Hulen Is Here

"I was glad to accept appointment as a member of the board of directors of Texas Technological college," General John A. Hulen, Fort Worth, vice-president and general manager of the Fort Worth and Denver, said after his arrival on the special train from Wichita Falls today. "I hope I can get out to the commencement in June. I will do all that I can to help Tech."

Pastor To Talk

Dr. George Green, a pastor at Sweetwater, will deliver the invitation of that city to meet there in 1932, to the convention Saturday, Dr. Green is a chaplain in the division of which General John A. Hulen has been commander and he and General Hulen exchanged old time experiences.

Borger Looks Up

Borger is looking up, with the carbon black industry much easier and shipments of carbon now going out in greater amounts than daily manufacture, Don C Dilley, a city commissioner, who is here for the convention said today.

Girls Like 'Em

Paul Seeds, of Wichita Falls, and his Caballeros, with their bull fighter's uniforms, caused a sensation among the sub-debs of Lubbock and the South Plains. The boys came in, full of pep, with lots of energy and after playing a few concerts, broke up for breakfast. It was then that the boys began to break the hearts of the girls.

Cowtown Parades

The Fort Worth delegation came in last night and today paraded down town with royal purple and white hats. As they paraded down town with the TCU band leading, crowds lined the streets to see the visitors.

Veterans Arrive

Former service men of Wichita Falls comprised a large part of the delegation from that town. There were about 50 Legionnaires, many of them in uniform, in the crowd. After arrival here, some of the boys went to the Legion hall to find it closed.

Says Death Report Temporarily Untrue

CHICAGO, May 15. (AP)—An affidavit was made yesterday by Isaac Irvin, a negro ex-soldier, that a report of his death was "temporarily untrue."

"I suppose," he said "that it will come true sometime, but in the meanwhile I would like some pork chops."

He made this remark in applying to a newspaper for aid in getting some of his bonus money he said he couldn't imagine "how such a story got started unless they mean they expect me to be dead before I get that money."

MURRAY OPENS CHEAP GAS CAMPAIGN

VIOLATIONS OF ANTI TRUST LAWS ARE BEING CHARGED

(By Associated Press)

OKLAHOMA CITY, May 15.—Governor W. H. (Alfalfa Bill) Murray uncovered his ouster card today, dealing for cheap gas from nine Oklahoma public utilities.

The move took the form of plans for action in state courts seeking confiscation of licenses of the companies to operate in Oklahoma and prosecution on charges of anti-trust law violations.

All Affiliated

Principal defendant in the action is the Oklahoma Natural Gas corporation, chief Oklahoma operator of the nine companies all of which are closely affiliated. The O. N. G. serves 53 cities.

E. C. Deal of Tulsa, president of the Oklahoma Natural, branded the threatened litigation as a "vicious" and "undeserved" action toward the utilities.

The governor, announcing appointment of Leon S. Hirsh, Oklahoma City attorney, to represent the state in the case, said "I am merely betting that the ultimate end will be a fair gas rate several years quicker than could be obtained under the present proceeding."

Cases involving rates in towns served by the O. N. G. now are pending in state and federal courts here and before the Oklahoma corporation commission.

Hirsh was retained for a $10,000 fee, to be paid regardless of the outcome of the court action, if a "fair and satisfactory gas rate" results.

Hirsh said suit would be filed in about ten days.

MOURN DEATH OF BELASCO

GRAND OLD MAN OF THE STAGE DIES IN 77TH YEAR THURSDAY

(By Associated Press)

NEW YORK, May 15—The theatrical world was in mourning today for David Belasco, grand old man of the stage, creator of stars, wizard as director and producer.

In his 77th year, he died of heart disease yesterday after virtually a lifetime devoted to the stage. "I shall retire when I am carried feet first out of the theater," he said on his 75th birthday. He never did retire and there was a dramatic touch to his death. "I am fighting for my life," he said as his daughter, Reina, Mrs. Morris Gest, went to his bedside in the Hotel Gladstone, a moment before the end.

Play Goes On

True to the Belasco tradition, his latest play "Tonight or Never" went on as usual last night.

Mr. Belasco was stricken but a few hours before his death. He apparently had recovered from a siege of pneumonia which had kept him abed several months last winter. Earlier this week he had reserved eight tickets for the fights tonight in Madison Square Garden.

Voice Of Pope Is Heard Over World

NEW YORK, May 15. (AP)—The voice of Pope Pius XI was heard clearly throughout America and most of the world again today in his second address via radio from station HVJ, Vatican City.

Reception was equally as good as on the occasion of his first talk February 12, in which nation-wide networks participated, as they did today.

FAVOR STRIKES TO PREVENT WAGE CUTS

PRESIDENT OF LABOR FEDERATION WILL OPPOSE SLASH

(By Associated Press)

WASHINGTON, May 15—Strikes to prevent wage cuts if other means prove unsatisfactory have the approval of William Green, president of the American Federation of Labor.

This statement last night followed an appeal by the federation's executive council that organized and unorganized labor resist "to the fullest extent" any tendency toward less pay or a lower living standard.

The council said it had found a move among some bankers and employers to reduce wages and Green reiterated his belief that any action in that direction would be a direct breach of an agreement industrial leaders reached with President Hoover in 1929.

"We feel labor would be fully justified in resisting attempts to reduce wages even to the extent of striking," Green said.

The labor leader added that every effort would be made to co-operate in the president's program to maintain the wage scale, but that no movements for higher pay, other than those already under way, would be inaugurated.

Classes At Baylor Suspended Today

WACO, May 15. (AP)—Classes at Baylor university were suspended today for the funeral of Dr. S. P. Brooks, for more than 28 years president of the institution, who died early yesterday.

Mayor Tom Bush had asked all Waco business houses to close during the time of the services. Former Governor Pat M. Neff, president of the Baylor trustees and friend of Dr. Brooks for 40 years, was asked by the family to take charge of the funeral.

Members of the senior class formed a guard of honor as the president's body lay in state at Waco hall.

Loving County Town Will Be Organized

EL PASO, May 15 (AP)—The town of Mentone, which appears only on the largest and most up-to-date maps of Texas had no competition today in the choice of a place for the Loving county seat.

In fact it is the only town in the county The last of the unorganized counties in Texas soon will have a sheriff, a judge, and other officials to administer the affairs of its 195 citizens. Decision to that effect was reached yesterday at a meeting of the commissioners of Reeves county, to which Loving had been attached.

CONTRACT AWARDED

HARLINGEN, May 15. (AP)—A contract for construction of approximately 29 miles on the highways in Cameron county today was awarded the F. P. McElwrath company of Harlingen and Corsicana, for $408,800.

JUNIOR DIRECTOR OF DENTON BAND

This is Billy Floyd Brooks, nine-year-old son of Mr. and Mrs. W. F. Brooks of Denton, junior director, pianist and soloist with the North Texas State Teachers college band at Denton. Billy makes all of the W. T. C. C. conventions and has done so for the six years he has played with the band. Besides his musical work, Billy is an expert horseman and has won prizes for his horsemanship.

Legislature In Its Final Week

SAYS FOOTBALL PLAYING HUBBY IS A "GIGOLO"

CHICAGO, May 15 (AP)—George Trafton, 250-pound center of the Chicago Bears professional football team, may be surprised to hear it, but in the opinion of his wife, Alyce, expressed yesterday, he's "just a gigolo."

The description was given by Mrs. Trafton in her answer to Trafton's suit for divorce, which charged her with cruelty. The "gigolo" charge was based, she said, on incidents which occurred at an inn.

Her answer, which contained a counter charge of cruelty against Trafton, alleged that he proved he had a fairly effective wallop when he broke her jaw when he was telling her what he was going to do in the prize ring to a chap named Primo Carnera.

The bout to which she referred was, however, won by Carnera, who knocked George out in 54 seconds.

Local Man Wounded Accidentally Here

Wright Kerr was reported accidentally wounded last night when he stumbled over a tent-rope in the dark while carrying a revolver at his home at 2323 Nineteenth street.

Kerr, a confectionary dealer, was said to have picked up the gun when he believed his supply of peanuts was being ransacked. The wound caused by accidental firing of his gun was reported not serious.

NUMEROUS BILLS OF MAJOR IMPORTANCE FACING SOLONS

(By Associated Press)

AUSTIN, May 15.—The legislature today entered the last week's work of this session with a feeling of anxiety for numerous bills of major importance. Seven more work days remained before the date set for adjournment, May 22, and talk of extending the session another week was heard from several sides.

The talk gained strength with the statement by Gov. Sterling that it might be expedient to extend the session another week or two rather than let much of the legislation die on the calendar. Extension of the session would obviate necessity for a special session, Gov. Sterling said. He expressed himself as opposed to a special session.

Works Under Call

The house exhibited more uneasiness than the senate and last night worked under call. Several general non-contested and local bills were passed and the mass of projected legislation on the speaker's desk was partially cleared away.

Three major appropriation bills, educational, departmental and

(Turn to Page 15, Column 5, Please)

Depression Seen As A Serious Menace

GENEVA, May 15 (AP)—Economic depression is the most serious threat to European accord, Aristide Briand, French foreign minister, declared today at the opening session of the commission to study his project for a Pan-European federation.

The crisis is especially serious in the agricultural countries of southeastern Europe, he said and to those countries the commission will try to give prompt relief both by preferential rates on cereals and by long-term agricultural credits.

LUBBOCK MAN INJURED

BLACKSMITH IS IN SERIOUS CONDITION

S. K. MACLIN HURT AS APRON CATCHES IN EMERY WHEEL

S. K. Maclin, about 64, was injured seriously at about 8 o'clock this morning while at work in the Texas Blacksmith shop at 1211 Avenue G.

Attendants at West Texas hospital said several hours later that he was expected to recover unless unforseen complications arose. Maclin was hurt when his apron became caught in an emery wheel at which he was working.

Bones Fractured

Both bones of his right forearm were fractured, his right thumb was fractured, and his right arm, and head and face were lacerated. He suffered a gash on the forehead.

Two other employes witnessed the accident. Maclin was taken from the shop to the hospital in an automobile. He lives at the rear of 713 Broadway.

ROBERT MYRICK SUCCUMBS TODAY

Robert Myrick, 4-year-old son of Mr. and Mrs. Russell Myrick of near Lubbock, died at 3:40 o'clock this morning in a Lubbock hospital. The death followed an operation to remove a mastoid.

Condition of the boy had been critical about two weeks, and death was not unexpected. Funeral services will be held here Saturday afternoon.

Survivors, in addition to the parents, include:

Two brothers, Russell and Horace Myrick, and a sister, Patricia Myrick, all of the home; five uncles, Walter A. Myrick, jr., of Lubbock, Hubert Wolffarth of near Wilson, and Irwin, Dwight and Donald Wolffarth, all of Lubbock; two aunts, Mrs. Charles C. Tripiett and Miss Dorothy Wolffarth, both of Lubbock, and the grandparents, Mr. and Mrs. Walter A. Myrick, sr., and Mr. and Mrs. G. C. Wolffarth, all of Lubbock.

Thousands Gather For Railway Party

AMARILLO, May 15 (AP)—Thousands of people from all sections of the North Plains are gathering this morning at Morse for the first of a two-days celebration commemorating the completion of the Santa Fe railroad from Morse to Spearman, and the formal opening of the Rock Island lines from Dalhart to Morse.

The first train over the Santa Fe's new line from Amarillo to Boise City, Oklahoma, and to Morse and Spearman and Shattuck, Oklahoma, by the Rock Island from Etter to Morse will leave Amarillo at 9:30 o'clock tonight.

MERRY-MAKING INTERMINGLED WITH BUSINESS AS SPECIAL TRAINS BRING NEW CROWDS

LARGE DELEGATIONS AND BANDS ARRIVE TODAY FROM AMARILLO, SWEETWATER, FORT WORTH AND WICHITA FALLS; PLAN BIG PARADE

Merry-making was intermingled with business today as thousands came to Lubbock by special train, in motorcades and delegations of smaller numbers, bringing bands, instrumentalists, vocalists, dancers and speakers to participate in festivities of the biggest day, from the standpoint of attendance, of the West Texas Chamber of Commerce convention.

Special trains brought large groups from Fort Worth, Sweetwater and Wichita Falls, each accompanied by a band. Amarillo was said to have 300 in a motorcade, due here at noon to join the more than 100 already in the city. They are bringing the new military band of 40 pieces. A large motorcade also was en route from Big Spring. Several delegations were coming from New Mexico, and one from the newly organized Western Oklahoma Chamber of Commerce.

CONVENTION PROGRAM FOR TONIGHT AND SATURDAY FOUND ON PAGE 15

Plan Massed Parade

When the work of the day has been finished, the bands will stage a massed parade of the down town district. Eleven bands were expected to participate, starting at 5 o'clock.

The height of festivities will be reached tonight in the "Pageant of Progress" at Texas Technological College, where a science and engineering show has been a big attraction since the convention opened. About 400, including princesses and maids of honor from 75 West Texas towns, will participate, and the school has arranged to accommodate an attendance of 10,000.

To Crown Kate Boyd

Miss Kate Boyd of Lubbock will be crowned "Miss West Texas" by President Charles E. Coombes.

Oil and gas problems, agricultural development, and an organized plan for paying back the $2,000,000 borrowed from the federal government for drouth relief will be discussed in group conferences this afternoon. A bitter fight over proration and efforts to control the East Texas situation was predicted for the oil and gas conference. Prominent speakers will address each group.

As the time approaches for the election of the 1931-32 president tomorrow morning, the field of probable candidates has been extended to take in Houston Harte, San Angelo; Amon G. Carter, Fort Worth; Wilbur C. Hawk, Amarillo; Walter D. Cline, Wichita Falls; C. M. Caldwell, Abilene, and James D. Hamlin, Farwell.

Although Amarillo and Mineral Wells are making strong fights for the 1932 convention, Sweetwater appeared to be a favorite. Dallas also has invited the chamber to meet in that city.

Resolution Passed

The first resolution from the general assembly was passed today, urging the legislature to pass the redistricting bill, which would give West Texas better representation in the national congress.

The general convention also approved resolutions, adopted resolutions from the breeder-feeder conference urging support of the federal meat board program, education in quality meat selection, more experimental feeding by colleges and experiment stations, and a continuation of the chamber's policies on

(Turn to Page 15, Column 4, Please)

Below are the places where the convention sessions are being held:

General convention hall, Uptown Dance palace, three, blocks north of the Hilton hotel on Texas avenue.

Convention headquarters, 1106 Main street.

American Legion hall, where "My Home Town" contest preliminaries are being held immediately north of City hall.

Registration booths in: General convention hall, convention headquarters, Lubbock Chamber of Commerce, Lubbock and Hilton hotels.

CARTER, HARTE FAVORED FOR WTCC HEAD

LEADING CANDIDATES FOR PRESIDENCY ON GROUND TODAY

Presidential politics in the West Texas Chamber of Commerce convention remained this afternoon as status quo with the two most talked-of possibilities on the ground. They are Amon G. Carter, of Fort Worth, and Houston Harte, San Angelo, both newspaper publishers.

Mr. Harte, present first vice-president, has reiterated his earlier statements that he cannot fill the place during the 1931-32 tenure and sticks to his guns that "Carter is the man". Mr. Carter, on the other hand, has stated that in his opinion a Fort Worth man should not be elected and that he is not a candidate.

Others Are Suggested

While the two more discussed candidates held their ground taken in pre-convention discussion, a possibility that a president might have to be drafted continued to hold. Names of Wilbur Hawk, Amarillo; Walter Cline, Wichita Falls, were openly discussed and the candidacy of Judge J. D. Hamlin, of Farwell, was also a topic of conversation. None of these three has indicated, one way or another, his feelings toward the question.

The field of possibilities, however, was narrowed last night when C. M. Caldwell, of Abilene, who had been suggested as a presidential possibility, declared that he would not consider the position even if efforts were made in his behalf.

Guesses Are Hard

Political observers this morning were at a loss to hazard at the final outcome but were largely agreed that the 1931-32 officers, from president on down, would be filled from the Harte, Carter, Hawk, Cline and Hamlin field.

Regardless of the election, scheduled at directors breakfast tomorrow morning, Manager D. A. Bandeen and his present employed personnel are certain to retain their posts. Outstanding in the convention has been praise for Bandeen's administration which opened a new era of administrative efficiency in the WTCC.

Farm Board Opposes Wheat Acreage Cut

WASHINGTON, May 15. (AP)—A suggestion that the wheat surplus be controlled by a plan involving a nation-wide acreage reduction agreement was vetoed today by Chairman Stone of the federal farm board.

Stone, in a letter to State Senator F. J. Wilmer of Rosalia, Wash., said the problem's solution and higher prices lay in individual effort toward smaller crops. He held as impractical control measures which are contingent upon participation under contract of 75 per cent of the growers.

MAKES TRIAL SPIN

GARDONE, Riviera, Italy, May 15 (AP)—Kaye Don, the British racing motoboat driver who holds the world's record of 103.49 miles an hour, today took out his Miss England 2nd for a trial spin preparatory to making an attempt on his own record.

ELEVEN BANDS ARE TO PARTICIPATE IN GIGANTIC PARADE THROUGH LOCAL BUSINESS DISTRICT AT 5 O'CLOCK

Eleven bands are to participate in a parade to be held through the business district Friday at 5 p. m., O. Fred Litton, chairman of the bands entertainment committee, announced.

The bands will assemble at the general convention headquarters, at 1106 Main street. The line of march will be west to Avenue Q, then south to Broadway, then east to Texas avenue, then north to Main street, then back to headquarters where the parade will disband, Litton said.

Musical organizations to be in the review are from Wichita Falls, Snyder, Fort Worth, Amarillo, Sweetwater, Portales, Denton, Colorado, and the Texas Technological college and high school bands of Lubbock.

The Colorado and Snyder bands were the arrivals yesterday. Unannounced, the Colorado organization paraded through the city early yesterday morning, headed by Jimmie Green, manager of the Colorado Chamber of Commerce.

The Texas Technological college band has been invited by the Dallas Chamber of Commerce to meet the Dallas special train Saturday morning at 7:15 o'clock. The band will head a parade of the Dallas visitors through the business district.

Coronation Of Miss West Texas Will Feature "Spirit Of Progress" Pageant

The coronation of Miss West Texas by C. E. Coombes, Stamford, president of West Texas Chamber of Commerce, will feature a pageant, "Spirit of Progress," to be presented for an hour this evening on the Tech athletic field. The show is to begin at 8:30 o'clock. Miss Kate Boyd is Miss West Texas.

Three episodes will make up the pageant, the first, Texas under six flags, is to be participated in by 84 young women representing towns within the confines of the WTCC, in addition to Miss West Texas' court, of 42 students at Texas Technological college.

The second episode, which depicts West Texas today, represents, principally through dances, products of the section. Cotton, wheat, poultry, cattle, oil, and the climate will be represented.

In the third episode, which is entitled Education and Industry, Dr. Paul W. Horn, president of Texas Technological college, is to head the court of education. Six colleges in the section will have representatives in the scene.

About forty towns have sent representatives to the pageant and many other towns have designated some young woman who is a student in Texas Technological college and who lives in that town as representative, Miss D'Laurel Beville, director, said this morning.

Towns are to be represented in the pageant as follows: Ab-

(Turn to Page 15, Column 6, Please)

Pageant Representatives Are Breakfast Guests

Reception Will Be Event For Visitors

Entertainment for women visitors to the West Texas Chamber of Commerce convention is in full swing today with morning, afternoon and evening events scheduled.

Following a breakfast this morning at which young women pageant representatives were special guests, the afternoon entertainment is to take the form of a reception from 4 until 6 o'clock at the F. R. Friend home, 2005 Broadway. This evening there is to be the pageant at Texas Technological college and dances at the Lubbock and Hilton hotels.

Yesterday's entertainment consisted of a drive over the city and tea at the Tech home management house in the afternoon. Following the engineering show last evening at Tech, there was dancing until a late hour at both hotels.

Misses Kate Boyd, Jean Shelley Jennings and Virginia Bacon, who are Miss West Texas, Miss Tech and Miss Lubbock, respectively, were hostesses at the breakfast this morning, which was served in the E. B Adcock residence, 2601 19th street. Young women who were selected to represent various towns in the section at the pageant this evening were guests.

All women who are here for the convention will be expected to attend the reception this afternoon. Hostesses on this occasion are members of a local entertainment committee: Mesdames F. R. Friend, Homer Grant S C. Arnett, W. D. Watkins, jr., and Miss Margaret Weekz. The house party is to be made up of wives of directors in the chamber of commerce, the mayor's wife, wives of city commissioners, Mrs. Paul W. Horn, Mrs. A. B. Davis, Mrs. B. C. Dickinson, Miss Boyd, Miss Bacon and Miss Jennings.

Other women in the city are assisting with transportation for the visitors.

About fifty out of town young women attended the breakfast this morning at Adcocks. It was served buffet style in the out-door garden.

Miss Boyd served iced fruit punch from an oaken bucket, using a gourd dipper, and Misses Bacon and Jennings served toasted sandwiches coffee and doughnuts.

Yellow poppies and orchid iris were blooming in the garden and were arranged in bouquets on the table.

Mrs. G. Smallwood Is On Committee

Lu Beta Delphians, in a meeting Thursday afternoon at Hilton hotel, elected Mrs. George Smallwood as representative to a steering committee for the state federation meeting here this fall. Each federated club is to have a delegate on this committee, which will be in charge of local entertainment.

A regular program was heard at the meeting with Mrs. J. D. Hassell, jr., as leader. She was assisted by Mesdames H. F. Godeke, Calvin Henson and J. H. Hankins. A resume, preliminary to the regular program, was given by Mrs. A. T. Biggers.

Those present were Mesdames Henson, James M. Gordon, Guy Johnston, Ralph Bedford, Carl Slaton, Godeke, W. L. Stangel, Fred W. Standefer, J. B. Edwards, Joe M. Lizon, J. J. Clements, W. G. McMillen, E. J. Parsons, Fred Snyder, J. S. Johnson, Hankins, R. D. Moxley, Hassell, John Dalrymple, R. A. Mills, George Simmons, Grayson Bell, O. K. Peters, E. L. Pitts, Smallwood, F. A Kleinschmidt, Biggers, W. T. Milam and D. K. Boudreaux.

Tea Is Given Here For Artist Visitor

About one hundred people called at the R. A. Mills home, 2627 22nd street, Thursday afternoon to meet Carl Redin, New Mexico artist, and view a small showing of his paintings. Mrs. Mills and Mrs. J. H. Goodman were hostesses from 5 until 6:30 o'clock to receive art patrons and art lovers. Tea was served.

The receiving line was composed of Mesdames Chester Hubbard, J. E. Vickers Earl Hunt, W. T. Milam, Charles Triplett, E. B. Hopkins of Fort Worth, and Misses Lottye Gowart, Jean Dorrel, Lulu Mae Cravens, Lucile Gill and Martha Pfaff.

Mr. Redin's home is in Albuquerque and he is a member of the teaching staff at the University of New Mexico. He has previously exhibited his paintings in Lubbock.

Mrs. Allan Hill Gives Party For Club

Lucky 13 Needle club members were guests of Mrs. Allan Hill, 1903 18th street, Thursday afternoon in her home. Those who were guests were Mesdames J. L. Bishop, H. A. Weimaker and J. M. Davis. Members present were Mesdames L. L. Kelso, O. W. Ribble, R. E. Dick, R. O. Short, Burton S. Burks, E. F. Alford, S. M. Reed and Sidney Oglesbee.

Watch For Your Name; Free Lubrication Job!

J. T. Hutchinson, bring your car to Beacon Master Service, 13th St. and Ave. L or phone 2000 and we will come and get your car. You have a Firestone specialized lubrication job coming FREE any time you want it. It is the best and most complete you can get any where. We don't have to prove it—the job itself will prove it.

LOCALS

Mrs. Roy Riddle of Aspermont is in Lubbock to attend the West Texas Chamber of Commerce convention and is visiting her husband, Roy Riddle, cashier at the First National bank.

Glen Bates, Plainview, is in the Lubbock sanitarium where he was operated on for appendicitis Thursday morning. Mr. Bates is said to be resting well today. Mrs. Bates is with her husband during his illness

Miss Laura Sue Bass, who has been teaching this winter in Paducah, has returned to her home here and is accompanied by Miss Vivian Chenault, of that city, who will visit here for a few days. Miss Bass is the daughter of W. E. Bass, 1618 Avenue R.

A. J. "Jack" Ford, assistant county agent of Potter county, in charge of club work and head of the calf club shows at the Tri-State and Panhandle Fat Stock shows, is here for the convention. Mr. Ford was the first assistant county agent in Texas north of the T-P.

John Fields, staff correspondent of the Dallas News, arrived yesterday to attend the annual W. T. C. C. convention and report for his paper.

Lunches Served At Two Ward Schools

Lunches were served at two ward schools Thursday noon for teachers in the institutions.

The dinner at K. Carter school was an annual affair and several other guests were invited to attend. Hunt school teachers had no extra guests.

At the latter place, Mrs. Guy L. Trow, principal, was hostess and the meal was served in the school cafeteria. Miss Alice Hones, Lockney, one of the teachers who is to be married soon, was presented with a gift from other teachers.

Supervisors who visit the Carter school and the parent-teacher association presidents for this year and next were special guests at the annual luncheon there. Supervisors are Lovic H. Liston, Mesdames Joe Smith, Eppie Sowder, J. T. Shaver and L. J. Von Tungeln. Mrs. E. B. Wheelock is retiring P.-T. A. head and Mrs. Floyd Beall is president for next year. The school janitor was also a guest for the lunch.

Miss Stella Thurman is principal of the school and teachers are Mrs. D. J. Wilhelm, Miss Dimple Watson, Miss Rozzie Mae McCaslan, Miss Evelyn Jones, Miss Ouida Busby, Miss Mildred Boone, Mrs. E. O. Bergholm, Mrs. E. A. Watson, Mrs. B C. Wells, Miss Mabel Ruth Duke. Miss Katie Bell Crump, Mrs. Josephine Ballenger, Miss Mary Meador Mrs. M L. Shepherd and Mrs. G N. Baucom.

Methodist Girls On Picnic At Park

A picnic was given at the County park Wednesday evening for members of the Ruth Wesley class in First Methodist church. The teacher, Mrs. T. C. Meinecke, accompanied class members for the occasion Those who attended were the following:

Melba Dawn Pearson, Margaret Cosby, Heleniore Reynolds, Pauline Williams and Marjory Johnson, Frances Biggers, Greta Marie Elmore, Mary Peek, Mary Elsie Parrish, Mary Margaret Carter, Norma June Crites, Grace Johnson, La Verne Terrel.

Four Children Are In Music Recital

Four small children were presented in piano recital this morning at 9:30 o'clock by Miss Margaret Huff in the educational building at First Presbyterian church. Those who played were Jacque Lewis, 3; Elizabeth Ann McCelvey, 4; Dorothy Sue Standefer, 5, and Billy Lynn Hilton, 6

Each child played a number of selections.

This recital was the first in a series to be given by Miss Huff. She has another Saturday and six scheduled for next week.

KC BAKING POWDER

SAME PRICE FOR OVER 40 YEARS

Guaranteed pure and efficient.

USE less than of high priced brands.

25 ounces for 25¢

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

It is matchless

in flavor, aroma and richness because no other coffee is roasted as Hills Bros Coffee is roasted . . . evenly . . . continuously . . .

a little at a time

A FLAVOR THAT DELIGHTS YOU EVERY TIME YOU TASTE IT . . . A FLAVOR THAT CAN ONLY BE PRODUCED BY HILLS BROS' PATENTED, CONTINUOUS PROCESS THAT ROASTS A FEW POUNDS AT A TIME—NEVER IN BULK.

COOKING food in large quantities is risky business. *You know that.* You are far more certain of perfect results if you work with small amounts. You control the mixing, the seasoning, the cooking—*everything.*

Roasting coffee in bulk has its risks also. That's why Hills Bros. roast only a few pounds at a time by their patented, continuous process—Controlled Roasting. By this exact method an even roast is guaranteed. No berries are overdone, none are underdone. Naturally, a perfect flavor, such as no other coffee has, is the result.

As fast as Hills Bros. Coffee comes from the roasters it is packed in vacuum cans. By this process, air, which destroys the flavor of coffee, is taken out and kept out. Coffee packed in ordinary tins, even if air-tight, does not stay fresh. But no matter when or where you buy Hills Bros. Coffee, it is as fresh as when it came from the roasters.

Hills Bros. Coffee is sold everywhere. Ask for it by name and look for the Arab—the trade-mark—on the can.

FEEDER-BREEDER, HIGHWAY, INDUSTRIAL EXPANSION TALKED

TALBOT AND WILSON TELL OF METHODS TO CONSUME TEXAS MADE PRODUCTS IN TEXAS

PROGRAM OF "KEEP TEXAS MONEY AT HOME" IS TO BE MAPPED OUT; GOOD CROWD ATTENDS AT GROUP CONFERENCE ON SUBJECT

The manufacture-at-home and buy-at--home creed was the theme of Thursday afternoon's conference on industrial development, presided over by P. W. Campbell of Abilene. The first two speakers in particular drove this doctrine home with enthusiastic arguments that started a siege of animated discussion among their listeners. The speakers were Col. William E. (Bill) Talbt of Dallas, and Lucius Wilson of Austin, the letter representing Progressive Texans Inc.

Talbot, wearing the first pair of dress shoes manufactured in Texas, told the 75 members of the industrial group that the way to increase payrolls in Texas, and to equalize the distribution of wealth is to create a demand for Texas-Made products.

"We Have Everything"

"We have the raw materials; we have the power; we have the fuel; we have the factory sites," he declared "We've everything—everything but the will to buy at home. It isn't a matter of deliberately passing up Texas products. Lots of our retailers and thousands of consumers don't realize that goods of every description are manufactured in Texas, and can be had merely by ordering them.

Talbot quoted figures to show that Texas is 39th in capital wealth among the states, but leads in the production of 31 commodities.

Urges Surveys

"It's up to Texas to convert these commodities into manufactured goods, and sell to Texans," he declared.

The speaker urged that surveys to determine the market for various commodities in Texas, the extent of natural resources, the possibilities for manufacturing plants in various sections of the state, and in other fields pertaining to the industrialization of Texas be made.

"Buy your home town products. If your home town doesn't make what you want, buy Texas products. If these are not available buy Southwestern products. If you must go further afield, buy United States made goods. The idea is, buy as close to home as you can.

Can Compete Against Anybody

Talbot insisted that Texas goods can compete against goods made anywhere.

"I'm not asking you to do this out of sentiment," he said. "But when good Texas sugar, good Texas neckties, good Texas oranges, good Texas cotton goods are available, why shut your eyes, buy something made in Georgia, or Connecticut, or Illinois?"

The Dallas man also praised the textile experiments being conducted at Texas Tech, and predicted that the time is not far off when Texas will stop shipping wool to Boston—"grease, dirt and all" — and shipping worsted suits back to Texas. "We'll make our own clothes," he declared.

Outlines Objective

Mr. Wilson outlined the "double-barreled" objective of Progressive Texans, Inc.,—a definite campaign to increase the sale of Texas products, and an intensive advertising drive in the newspapers of this and border states, to acquaint consumers with the fact that Texas products are available and hold their own in competition with commodities from other states.

"The printed word is needed to affect the market of any commodity, or group of commodities, in a large way," he declared. "Progressive Texans will spend $100,000 a year in this advertising campaign.

Mr. Wilson also said that his organization will sponsor the "Texas Week" idea among Texas retailers. "We will urge merchants to set aside weeks for the display of Texas-made goods, and in this way hope to bring it home more forcibly to the consumer what Texas commodities are available."

Success in industry has always been attendant upon mental skill, which includes salesmanship, plus manual skill, he said. He cited the examples of Bridgeport, Conn., where "brass is made by skilled artisans, perhaps some of it from El Paso copper and zinc smelted at Amarillo. Why is Bridgeport the brass center? Because of the mentally and manually skilled artisans. Brass might just as well be made in Texas. And why is Detroit the automobile center of the world? Not because of any natural advantages, because of mental skill, including salesmanship, coupled with mechanical skill, developed by mechanics in the early day automobile machine shops."

Area To Be Represented

Following Mr. Wilson's talk, it was suggested by Wilbur C. Hawk that P. W. Campbell, chairman of the conference and the new president and manager of the chamber select the five West Texas directors of Progressive Texans who, along with the president and manager of the regional group, will represent this part of the state in the new organization. The suggestion was made a motion, and was carried.

Dean A. H. Leidigh of the Texas Tech school of agriculture, was booked for some remarks on wool marketing and textile possibilities. He introduced two other members of the Tech faculty, C. D. Brandt, head of the textile department at Tech, and J. O. Ellsworth, head of the department of agricultural economics.

Mr. Brandt explained the possibilities of establishing the textile industry in West Texas. The two main drawbacks, he said, are the hard water which must be softened before the wool can be scoured, and the variable humidity of the atmosphere which interferes with spinning.

Can Be Overcome

"However, both of these difficulties can be overcome by the installation of the latest type of plant and equipment," he said.

He pointed to the successful operation of Herbert Jones' cotton mill at Post as an example of what can be done in the way of textile manufacturing in this section.

Mr. Ellsworth declared that it costs Texas $900,000 annually in freight rates to ship raw wool to Boston. Half of this, he declared, is for the "grease and dirt" later removed. He said it is estimated that the total freight charges for shipping the wool east and returning the finished fabrics and garments to Texas is $1,600,000, "much of which could be saved if Texas developed the textile industry."

Sterling C. Evans, district agent of the agricultural extension service at College Station, spoke on the building of creameries and milk plants in Texas. He explained how extension service workers supplied data and advice on such projects, and declared that mistakes in building plants in communities that could not support or supply them, are gradually becoming fewer.

Explains Movement

He explained the creamery cooperative movement in the Middle West which, in the last month, has resulted in the consolidation of 11 concerns handling $20,000,000 worth of products annually. This move, he said, was sponsored by federal agencies, and has resulted in a tremendous saving to the companies, as well as an increase in the quality of the product.

Following Mr. Evans' talk, the conference was thrown open to informal discussion. Many questions were acked, and some of the speakers took the floor again to explain more fully some of the points they made.

A resolution committee made up of D. H. Berry of San Angelo, W. W. Rix, of Lubbock, and J. W. Browne of McCamey, will meet with Mr. Hawk, a member of the industrial group as well as of the convention work committe, to draft resolutions to be presented to the convention Saturday.

MAN FOUND DEAD

LULING, May 15 (AP)—G. W. Mann, aged proprietor of a hamberger stand, was found dead in the ditch in front of his place yesterday, an ice pick sticking in his heart. Apparently he had been dead several hours. Neighbors reported hearing screams after midnight. Officers said they had no clues.

Don't Give Up: Test Konjola!

Profit By The Experiences Of Those Who Know Of The Worth Of This Remarkable Medicine

No medicine ever made good by accident. Surely Konjola has proved its worth when it is a fact that seven million bottles were used in two years.

Would you see how Konjola works? Then read the statement of Mrs. Ella Cooper, 509 W. Richmond street, Ft. Worth, who declares: "I had neuritis for fifteen years, and for several months was helpless. My nerves were shattered and my stomach out of order. I became sick after meals. But almost immediately Konjola began to ease the pain. Today I have no neuritis; my nerves are normal, kidneys are fine and I sleep well. Konjola certainly went to the spot. I can eat anything."

Mrs. Ella Cooper

And see what Konjola did for Mrs. P. F. Cook, 309 Hagerman street, Houston. Read what she says: "I suffered for fifteen years with rheumatism in my hips and legs. I was constipated and had dizzy spells, and bloated after meals. But two bottles of Konjola have greatly relieved the rheumatism, and I no longer have any of the other ills. Konjola surprised me; I did not expect such relief".

Mrs. P. F. Cook

And now read the grateful words of Mr. William Casey, 6600 Washington avenue, Houston: "For fifteen years I had stomach trouble, with gas causing pain and heart palpitation. My kidneys were out of order, causing severe pains in my back, which kept me from my work. Then four bottles of Konjola did the work. Stomach and kidney troubles are gone, and I am better in every way".

Mr. William Casey

The same splendid story when Konjola is put to the test, even though other medicines tried have failed. Try Konjola . . . insist on it, and do not accept a substitute. Konjola is sold by all good drug stores everywhere. Adv.

ACHES

There's scarcely an ache or pain that Bayer Aspirin won't relieve *promptly*. It can't remove the cause, but it *will* relieve the pain! Headaches. Backaches. Neuritis and neuralgia. Yes, and rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross:

BAYER

ELY TELLS HIGHWAY MEETING STATE BOND ISSUE IS ONLY ROUTE FOR TEXAS TO TAKE

WTCC GROUP CONFERENCE HEARS COMMISSION CHAIRMAN SUPPORT STERLING PLAN IN CONVENTION CONFERENCE HERE

The solution of West Texas' road building problem lies in the passage of a state-wide bond issue, such as was recently submitted to the state legislature, Judge W. R. Ely, of Abilene, chairman of the state highway commission, told delegates attending the highway and tourist development conference yesterday afternoon.

Terming his talk as "just a friendly, neighborly chat with neighbors, Judge Ely discussed the proposed bond issue and the effect the passage of such issue would have on West Texas.

Just Beginning

"You people in West Texas are just beginning to build roads," he said. "The state-wide issue would give you a unified system of highways such as you now are planning to build at a saving of many years' time. From the Bankhead highway north to the state line, you have very few miles of paved roads. West of Lubbock, and we might say the western Panhandle, your roads are unpaved," he said.

The highway commission is laboring against an assumed antagonistic attitude of some members of the state legislature, the chairman of the commission said. "Some members of the legislature will tell you that the highway commission is an autocratic body, following the distates of its own members," he continued. "This is untrue. If for no other purpose, I appreciate the opportunity of visiting meetings of the people of Texas to assure them that the commission is a democratic organization, striving to shape its work in such way as to benefit the state as a whole."

Reprimands Committees

Judge Ely mildly reprimanded some of the smaller communities for not being able to "see farther than the filling station at the turn in the road."

Touching the bond issue again, he said he believed it inadvisable to refund the counties for funds spent on highway constructions. Refunds such as have been suggested would cripple the general fund to such extent that it would be impossible to undertake a comprehensive road building program, he said. "So do not cripple this fund," Judge Ely said in conclusion. "Get your legislators to submit the bond issue to the people, regardless of the attitude of some members of the legislature toward the highway commission."

Others On Program

Other speakers on the conference program were Sam Braswell, of Clarendon, Dr. Wallace R. Clark, dean of the West Texas State Teachers college, Mrs. W. W. Carson, of San Angelo, and representatives of six of the ten districts of the West Texas Chamber of Commerce territory, who reported on road conditions and tourist travel in their respective districts.

Four proposed resolutions were approved by the highway group and will be drafted for submission to the general resolutions committee of the convention.

The resolutions approved follow: To endorse the plan for obtaining federal designations for as many West Texas highways as possible; to urge the continuance of federal highway aid and the completion of highways to the West as soon as possible; to request the final passage of a bill pending before the state legislature appropriating $25,000 for the erection of a museum building at West Texas State Teachers college, at Canyon; and to endorse a movement for the restoration and preservation of West Texas' places of historical interest.

Mr. Braswell, a member of the state park board, discussed the state park situation in Texas. While provisions have been made for the development of Texas industries and resources, little effort has been made to develop the state's recreational facilities, he said. The principal work of the highway board to date has been in making Texans "park minded," the conference delegates were told. Mr. Braswell said he felt confident the legislature would approve the plan submitted by Texas Major Parks, inc., as soon as the state was financially able to back the movement.

The plan calls for the establishment of state parks in the Davis mountains, Guadalupe mountains, Palo Duro canyon and at Caddo Springs, he said.

Dr. Clark of Canyon told of the activity of the Panhandle-Plains Historical Society and the development of the society's museum at Canyon. He described briefly some of the collections now found in the museum. This historical data has gained recognition in all parts of the United States, he said.

Describes Museum

Mrs. W. W. Carson, of San Angelo, described the development of the Fort Concho museum. She advocated the passing of a resolution urging the restoration of the old fort as a state museum.

Highway reports were made by the following:

District No. 1, W. W. Chilton, Amarillo; district No. 2, D. L. Granberry, Spur; district No. 3, Frank W. Kennerly, Quanah; district No. 6, W. A. Wilson, Lamesa; district No. 7, Victor L. Minter, Carlsbad, N. M., and district No. 8, H. T. Fletcher, Alpine.

H. T. Fletcher, of Alpine, acted as chairman of the meeting. He appointed W. W. Chilton, of Amarillo, and Victor L. Minter, of Carlsbad, as members of the resolutions committee, headed by L. S. Kinder, of Plainview.

One-ninth of France's 1930 imports were from America.

WTCC ASKED TO PUT WORK ON FEEDER-BREEDER MOVEMENT IN SESSION HELD HERE

RESOLUTIONS PASSED AS GROUP OF COWMEN ARE IN ATTENDANCE; SPEAKERS OUTLINE CAMPAIGN BEFORE INTERESTED PEOPLE

Problems of breeders and feeders of cattle of West Texas were discussed by representative leaders of the state in a conference held Thursday afternoon in the ball room of the Hotel Hilton, with the instruction to a committee to present to the resolutions committee of the W. T. C. C. convention suggestings for furthering the movement. The attendance was over 250.

The meeting was presided over by Frank P. Holland, Dallas, editor of Farm and Ranch and the president of the Breeder-Feeder movement of the state. Paul T. Vickers, Midland, acted as secretary and chairman of the resolutions committee.

Additional Speakers Heard

Besides the announced program of speakers, two of whom did not appear, several additional speakers were heard including Senator Tom Connally, O. B. Martin, director of extension work in the state, D. A. Adam, Lamb county agent; E. R. Eudaly, special county agent leader for this area and Charles T. Watson, chamber of commerce secretary at Big Spring. Mrs. Tom Padgett, Coleman, was another speaker.

Subjects to be handled in the resolutions will include: continuation of efforts along breeder-feeder lines; added support to national meat board program; education in quality meat selection and more experimental feeding work by the colleges and federal government.

Chairman Holland in making his preliminary announcements, pointed out that "the state of Texas ships out a million head of cattle to the corn producing states, and thousands of head of sheep." He urged the establishment of new markets by ranchers and feeders and declared that "bankers must help finance the problem."

"This is the most important gathering of any that has been held since the breeder-feeder movement was started nearly two years ago," W. B. Mitchell, Marfa breeder said in speaking on the problem from the stand point of the producer. "Livestock continues to be one of the basis industries of the state and nation. Texas is the largest producer of livestock in the United States.

"Two years ago, when this movement was started, I thought that in four or five years we might be able to feed 200,000 to 250,000 cattle in the state. This year, I understand, there were 221,000 cattle on full feed."

Senator Connally Talks

Senator Connally in acknowledging the call for a talk, said he was indebted to Chairman Holland for the invitation. "We tried the old one crop system in the eastern part of this state," he declared, "and it has brought us, not prosperity but distress."

"Texas does not get as much for livestock as do the people of New York" he said in pointing out that the finished products of New York packing houses gave to farmers more money than to Texas farmers for live cattle.

"There is a great deal of interest by bankers in the livestock program," W. L. Pier, president of the Stockyards National bank of Fort Worth, who stopped here enroute home from the state convention of bankers at San Angelo. "It has been only in the last three or four years that we felt that we could feed cattle. In the banks of the north they feel free to loan the full amount the purchase of cattle if the farmer has the feed."

WTCC ASKED TO PUT WORK ON FEEDER-BREEDER MOVEMENT IN SESSION HELD HERE

RESOLUTIONS PASSED AS GROUP OF COWMEN ARE IN ATTENDANCE; SPEAKERS OUTLINE CAMPAIGN BEFORE INTERESTED PEOPLE

(Continued from Page 3)

feeder, told of his feeding program the past winter. He had three lots of cattle, one of 120 calves, another of 120 cows and 45 calves and a third of 240 coming three year old steers. "I lost money on all three lots," he admitted.

"We have learned a lesson," he went on. "We must buy our cattel down on a basis where we can make a profit." In the Sudan territory some 3,500 head of cattle were fed this past winter. Cottonseed meal came from Lubbock and the grain sorghum from the territory around the town.

D. A. Adam, county agent of Lamb county, was called upon to tell of the feeding of 4,500 head of cattle in the county. He said there were 30 farmers and 15 club boys who fed from 15 to 80 head. Only three commercial feeders were in on the program. "Most of the men were like Mr. Boesen, but ten of them will feed cattle again this fall," he added. "We are butiding a bigger and better feeding program."

Mrs. Tom Padgett, a ranch woman of Coleman, used charts to illustrate her contentions that in order to increase the consumption of meat, a demand must be created among the women. Meat forms an important part in the diet of the American people if a balanced diet must be maintained, she said.

West Texas Best Place

R. E. Karper of College Station, vice-director of the experiment station, in telling of the plan of Toyah valley irrigation farmers in raising alfalfa for shipment said the best place to feed cattle in in West Texas."

D. Burns, of the national cottonseed products association, pointed out that "Texas is fast becoming a grain growing state," he said "In the United States, Mr. Burns said, "consumption of beef per person has dropped from 64 pounds to 50.1 pounds a year. "Thirteen pounds less beef a year is being consumed," he added. He urged those present to go home and put on a quality meat campaign."

Barnes Outlines Co-op Work

G. W. Barnes, loaned to the federal farm board by the state to organize cooperative cattle marketing associations, outlined the organization and purposes of the Texas Livestock Marketing association, "organized by a committee of livestock men." Breeders can secure loans on cattle and sheep from the board, but not on hogs.

Texas breeders have heretofore sent their cattle into corn states John N. Simpson, livestock specialist of the T-P railroad said. Last year, he said, a census by the state college showed 40,000 cattle on full feed; this year between 80,000 and 100,000 and "we will get many more than that next year."

Mr. Simpson pointed out that the possibilities of Texas cattlemen shipping via the gulf ports to the Atlantic coast ports of the north or to Europe, at least cost than from middle-west corn states to the Atlantic.

Stangel Presents Chart

W. L. Stangel of Texas Tech, presented a chart showing results of a sheep feeding experiment conducted in 1929-30 and in 1930-31 at the school here. He said the basis of the experiment was the use of limestone in the diet, as developed by B. E. Dickson, of the Spur state experiment station.

S. C. Evans was the last speaker on the scheduled program. He declared ranchers and feeders would always find their county agents stood ready to make available all information they have on feeding."

Mr. Budaly told of finding a farmer in Crosby county who "made money feeding cattle this year." "He followed his cattle with hogs" said the speaker. "It is truly said the hog is the mortgage lifter."

C. T. Watson told of the results of feeding at the federal station at Big Spring. The station lost money as did four out of 90 club boys. The merchants of Big Spring bought the club calves at better than market prices "and Big Spring had the best steaks they have had in the five years I have lived there."

O. B. Martin spoke briefly on the work, urging farmers to help in the program. Marsh Holland, brother of the chairman also made a short talk.

TECH EXTENSION GETS MEMBERSHIP

The National University Extension association admitted Texas Technological college to membership Thursday at the association's national convention at Boulder, Colo.

Dr. Paul W. Horn, president of Technological college, was notified of the extension association's move in a telegram from J. F. McDonald, head of the extension department of the state college.

Application of Technological college had been before the association the last two years. Election to membership gives Technological college equal rank with the University of Texas in extension service. They are the only Texas schools belonging to the association.

PICTURES ON DISPLAY

Pictures of Palo Duro canyon are on display at West Texas Chamber of Commerce convention headquarters at 1106 Main street by Roy V. Davis, official photographer for the park. The Palo Duro canyon will be opened Sunday, according to Mr. Davis, who arrived here Thursday.

UNITED PARTY NEEDED IF DEMOCRACY GOES TO WHITE HOUSE, SENATOR SAYS

"The outlook for Democratic success in 1932 is brighter than it has been since the first election of Woodrow Wilson," Senator Tom Connally of Marlin, declared here Thursday in an interview on the political outlook and matters which will come before the next session of congress. Mr. Connally is here attending the West Texas Chamber of Commerce convention and will be heard in an address Saturday morning in the general convention hall.

"However, we must have a united and militant party to achieve success," he continued. "I am opposed to effects of a certain group of Democratic leaders in the east to make the repeal of the 18th Amendment a party issue. This group, if they really want Democratic success and harmony, ought to abandon the movement to make that question a dominant issue."

Citing the short comings of the administrative party, Mr. Connally said: "the failure of the Republican administration and the Republican congress to successfully deal with problems of foreign trade, unemployment and other questions which have been presented in this tragic period of depression proves their incapacity and utter lack of leadership. Under their policies American exports within a single year have fallen one billion dollars. Six million idle men have been anxious for work which they could not secure. Government expenses have been increased until it appears that the treasury deficit will amount to almost on billion dollars. In these times of distress the administration has shown no constructive policies but has pursued a course of waiting and of hesitation, timidity and fear."

"A united democracy has wonderful opportunity in 1932 to return the government to the control of the people and restore our foreign trade, to reduce government expense and to give to the people efficient government, law enforcement **and just laws to control or restrain the monopolies and trusts which have grown up and have fostered under the past ten years of Republican rule. In the next congress I am opposed to a general tax increase as suggested by some Republican leaders. We are seven years ahead of schedule on the retirement of the public debt. Rather than to increase federal taxes in these hard times, I would much prefer to temporarily divert such funds to the expenses of the government."**

"In the next congress," Mr. Connally said, "parties will be so evenly divided, it may be possible for the Democratic and progressive and liberal Republicans to enact remedial legislation, unless it is vetoed by the president. In any event the Republican majority will be so narrow it will be difficult if not impossible to enrich their favorites at the expense of the people. I am looking forward to a most interesting and perhaps exciting session of congress in December."

W. W. Chilton, Amarillo, manager of the highway department of the Amarillo chamber of commerce called on highway department officials while here today.

Bankers Meeting Is Closed On Thursday

SAN ANGELO, May 15. (AP)—Having elected J. W. Hoopes of Dallas as their president and selected Austin as the 1932 convention city, at the final session Thursday, members of the Texas Bankers association left for home last night from their convention here.

T. J. Caldwell of Houston characterized the cotton cooperatives and the federal government, operating under the federal agricultural marketing act, as the "two greatest and most helpless speculators of them all," in an address this morning.

E. C. Kuykendall, general agent of the Fort Worth and Denver South Plains at Plainview, was calling on friends today.

J. D. Tinsley, agricultural agent of the Santa Fe, is here for the W. T. C. C. convention.

CONGRESSIONAL REDISTRICTING BILL FAVORING WEST TEXAS IS BASIS FOR RESOLUTION PASSED BY WTCC HEADS

A resolution urging that the legislature be petitioned to pass the congressional redistricting bill, and asking the free conference committee, which now has the bill under consideration, "to compromise their difficulties to the end that the people of Texas be granted their constitutional rights," was adopted by the convention work committee of the West Texas Chamber of Commerce in session last night.

The resolution the only one passed by the committee thus far, will be presented to the general convention of the organization Friday morning.

Wired To Solons

The resolution, pointing out that under the 1930 census figures Texas is entitled to three more congressmen, and that "great injustice will be done the people of this section and they will be deprived of their constitutional rights unless they obtain the representation in congress to which they are entitled," was wired to Sen. Julian P. Greer of Kemp, and Rep. Penrose B. Metcalfe of San Angelo, members of the free conference committee.

The resolution follows:

Whereas, it is provided in the constitution of the United States that representation in the lower house of congress shall be based on population; and

Whereas, according to the official census figures of the United States government for the year 1930, Texas is now entitled to three additional congressmen; and

Whereas, great injustice will be done the people of this section, and whereas they will be deprived of their constitutional rights unless they obtain the representation in Congress to which they are entitled.

Now therefore, be it resolved that the state legislature, now in session, be earnestly petitioned immediately to relieve this situation by the passage of a congressional redistricting bill that will justly accord the proper representation to the people of Texas, and we request the free conference committee, which now has this matter under consideration, to compromise their differences to the end that the people of Texas be granted their constitutional rights.

The document was approved by the following members of the convention work committee:

Walter D. Cline, Wichita Falls, chairman; Clifford B. Jones, Spur; L. S. Kinder, Plainview; J. D. Hamlin, Farwell; Chester Harrison, Brownwood; Henry F. Fletcher, Alpine; Wilbur C. Hawk, Amarillo; Arthur P. Duggan, Littlefield, and by Charles E. Coombes of Stamford, president, and D. A. Bandeen, general manager.

GIRL IS BITTEN BY RATTLESNAKE

Slight improvement in the condition of 8-year-old Lorene Hooper, who was bitten by a rattlesnake late Thursday afternoon at her home 15 miles south of here, was reported today by attaches of Lubbock sanitarium.

Received at the hospital 35 minutes after the snake had struck her between the foot and knee of the left leg, the child underwent an injection of anti-venom serum. The critical period in such cases is from 18 to 48 hours, the attending physician said.

The snake, which had 12 rattles, was killed. The maternal grandfather of the child made an incision where the snake's fangs had entered and applied a tourniquet.

Mrs. H. E. Hooper, mother of the child, and the grandfather brought her here by automobile.

Hal Yoder, of Snyder, visited friends in Lubbock Thursday.

Try this new WHOLE WHEAT Biscuit (shredded)

KELLOGG'S WHOLE WHEAT Biscuit are deliciously improved. Toasted on top and bottom — crisper than ever.

You'll like the convenient new size — two biscuits just fit the bowl. Made of delicately flavored whole-wheat shreds. Every package is certified for food value.

Order from your grocer. 15 biscuits to the package. Made by Kellogg in Battle Creek.

WAS SLAVE TO LAXATIVES

IF YOU have constipation, read this letter from Mr. John J. Mulligan, 300 So. Cicero Avenue, Chicago, Ill.:

"I tried numerous remedies in vain. Finally in desperation, I turned to Kellogg's ALL-BRAN. The results were remarkable—in fact, the next day long-hoped-for relief became a happy reality."

Kellogg's ALL-BRAN is as good to eat as it is healthful.

Two tablespoons daily are guaranteed to prevent and relieve both temporary and recurring constipation. In stubborn cases, use ALL-BRAN with each meal. ALL-BRAN also supplies needed iron, which builds up the blood, and helps tone-up the system.

Delicious with milk or cream, fruits or honey added. At all grocers in the red-and-green package. Made by Kellogg in Battle Creek.

Kellogg's ALL-BRAN

ENGINEERS ARE AT HOME HERE TO VISITORS

TECH SHOW PROVES TO BE POPULAR PLACE FOR WTCC FOLK

Third annual engineer's show of the school of engineering at Texas Technological college, got underway yesterday in the engineering building with a fair attendance. Hours of the show Tuhrsday were from 2 to 10 p m., while those today are for 2 to 6 and Saturday will be from 1 to 10 p. m.

Faculty members, under the direction of W. J. Miller, dean of school of engineering, are assisting students in the management of the affair, a strictly student enterprise. Cary Lodal is the general manager, with Sam Hopper as assistant. Each department has a student manager: E. V. Middleton for civil; W. T. White, for drawing; John A. Davis for architectural engineering; W. S Galloway for mechanical engineering and Roger Clapp for the shops; W. A. Wardell for the textile work and W. I. Pearson for electrical.

Three Floors Used

Both the first and second floors and the basement of the engineering building are being used for the show. The south wing of the engineering building is in use for the civil work. Here are to be found machinery and apparatus for highway construction work. On the second floor are the architectural and mechanical drawing departments, where students' work is to be found. Also some of the drawings were made by members of the faculty in their student days.

The electrical engineering show is also being held here. Mechanical engineering shops on the first floor and in the basement are open.

In the textile building is found the textile show. Carl D. Brandt is the faculty man in charge and W. A. Wardell the student head.

To alleviate the tedious trips through the show, students have arranged some original entertainment that is the cause of considerable amusement. Manufacture of home made electricity, a mechanical dog, some "hot air," a patent vacuum test, a personality test, and welding of wire by electricity are some of the stunts."

CHARGED WITH MURDER

LONGVIEW, May 15 (AP)—Fred Allen, 30, surrendered to Sheriff Martin Hays here yesterday and was charged with murder for killing H. H. (Doc) Green, 28, at Kilgore. Allen said Green had accused him of stealing some whisky and attacked him with a knife

Is Your Face Covered With Pimples?

Wichita Falls, Texas — "My son was in poor health when he was about twenty years of age. His blood became thin and he was pale. He was also troubled with his stomach and his face broke out with pimples. Finally, I decided to have him try **Dr. Pierce's Golden Medical Discovery.** By the time he had taken a few bottles of the 'Discovery' he was completely relieved of all these troubles, his blood was healthy, and he had no more stomach trouble."—Mrs. Beulah Singleton, 1101 18th St. Tablets or liquid. Druggists.

Write to Dr. Pierce's Clinic in Buffalo, N. Y., if you desire free advice, enclosing wrapper from medicine.

LUBBOCK HUBBERS TO MEET LAMESA LOBOES THIS AFTERNOON

LOUGHRAN MEETS CAMPOLO TONIGHT

Collier Parris

Clarence "Nig" McCarver has been elected coach at Tahoka High school. He succeeds "Wee Willie" Weir Washam who steps to Spur this year. Thus two of the best Class B schools in the district are provided with some of the finest athletic brains in the southwest.

* * *

McCarver made quite a name for himself at Howard Payne and had little trouble taking all-Texas Conference honors during his sojourn at Brownwood. It is safe to say that he is one of the best backfield men ever to play in the Texas Conference. His popularity ranks along with the better class of Southwest conference gridsters and should individual comparison be made between Nig and any other Southwest conference gridder during the last three years we doubt if little difference could be found.

* * *

Nig's coming to Tahoka should be a signal for considerable rejoicing in Lynn county. But Tahoka does not take so strongly to football as some other towns of the South Plains. The coaching salary at the school is not conducive to extended stay and unless it is raised Tahoka will have trouble holding a coach. Washam laid the foundation for a good athletic regime at Tahoka, though lack of material prevented his gaining wide recognition. McCarver will find that the remaining athletes have a fine knowledge of the game and of its fundamentals. It remains for him to instill his own fighting spirit and ability into his charges and see them through what promises to be another hectic Class B season.

* * *

Lubbock and Texas Tech remember how Nig has maltreated the Matador teams in days past. Last fall at Brownwood he was an important cog in the machine that drove over Pete Cawthon's lineup to take a 26 to 7 victory. Nig did not score many touchdowns but his passing to Buck Gibbs and Masur made up for his failure to break loose in an open field. Gibbs was the star of that game but McCarver was the hero of nearly every other game the Jackets played.

* * *

While trying to think up something to say about the coming West Texas golf tournament we were told that one George Samson, of Post, was in town for the convention and probably to get a line on what kind of golf to shoot in order to win the championship next week. Samson is one of West Texas' pioneer golfers, and the story is told that he has probably laid out more golf courses than any other one man in West Texas.

* * *

Samson is a golfer of the old school, having learned the game in Scotland, his native land. He counts among his pleasant memories that of playing over the famous St. Andrews course at Edinburgh. Asked to name the oldest golf course in West Texas, George said, "The Post golf course is the oldest west of Mineral Wells. I started it in 1908, a year after I came here. Others came to Post to see us play and to try the game. Soon I had calls from many towns in West Texas to come and lay out courses. I laid out the course at Post, and others at Colorado City, Lubbock, Big Spring, Spur, Floydada, Eastland, Sweetwater, and Plainview."

* * *

The Lubbock Country club, where Samson will play as a Post entry next week in a field of some 750 West Texas Golfers, was originally planned and laid out by the old Scotsman. It has since been changed but he can recognize the original fairways and greens today.

* * *

ODD FACTS:—Babe Ruth has hit better since hurting his leg than he did before . . . to save his leg from strain he took different stance at the plate and shortened his grip on the bat. . . . Jimmy Reese said that when he collided with the Bam chasing a fly the other day he thought a building had fallen on him. . . . Walter Hagen, rated as the greatest pro in the world, won only $80 in prize money during the winter of 1930. . . . Wallace F. Baker of Dallas made five holes-in-one during a period of 13 months. . . . In April, 1930, there were 5,648 golf clubs in the U. S. A. . . . the number probably has increased by at least one-fourth during the past year. . . . English golfers spent $141,250,000 in pursuit of their game in 1929. . . . There are 564,000 golfers.

* * *

Joe Swift, left handed golf champion of Post, has sent word that he is coming to the convention today to select as many left handed golfers as he can find to enter a special West Texas golf contest next week. Joe, who recently sold his red golf clubs, has been presented a new set by several Postites. He plans to warm up a bit on the Country club course this week.

Standard time was adopted by the United States in 1883.

SEASON TO BE OPENED IN LUBBOCK

AMATEUR CLUBS WILL CLASH AT MERRILL PARK, 3 O'CLOCK

Lubbock's 1931 baseball season officially opens this afternoon when the Lubbock Hubbers meet the Lamesa Loboes at 3 o'clock at Merrill park. The Hubbers have been organized as an independent amateur club and is not to be confused with the Hubber team of former years which played in the South Plains league and in the West Texas league.

The game this afternoon, the first of a series of two, appears as a special entertainment attraction on the West Texas Chamber of Commerce convention program. Visitors to Lubbock as well as home fans will have an opportunity this afternoon and tomorrow to see two of the best amateur lineups in this section and a large attendance is expected.

Won Last Friday

The team which composes the Lubbock Hubbers is practically the same which defeated the House of David team from Benton Harbor, Mich., here last Friday night. With the exception of two players, the same lineup will be used by Managers Joe Chism and "Dirty" Waller. Del Morgan, veteran baseball figure and Tech coach, will be found at first base instead of White, who played here last Friday night, and Buddy Brothers will be in the outfield. Waller will shift himself to the hot corner in the event Red Gaither, who played the position last week, does not put in an appearance.

The rest of the lineup will consist of Lawrence France, popular Texas Tech gridder, at short stop and lead off man. Clarence Hodges, another Tech gridiron man, will line up second and play at second base on the defensive. Ed Hambright, with the Lubbock Hubbers last season in the South Plains league campaign, and Raymond Marshall, one of the best baseball players ever turned out by Texas Tech, will patrol the outer gardens with Brothers.

Hoyle To Pitch

"Big" Galey, perhaps the outstanding catcher on the Plains, will back up the batsmen. Blackie Hoyle has been named to pitch the opener. Del Morgan may be called on Saturday. Hoyle held the House of David sluggers to five scattered bingles.

CITY LEAGUE WILL OPEN

FOUR OF SIX TEAMS IN LOOP TO PLAY NEXT TUESDAY

Lubbock's city baseball league will open its season next Tuesday afternoon with four of the six teams in the organization playing. According to the schedule released yesterday by President J. R. "Dutch" Leuenberger, the league season will open May 19 and close August 28. If it is decided to split the season, the division will come about July 18.

Two games will be played on Tuesdays and Thursdays with one game scheduled for Wednesdays and Fridays. No games will be played on Sunday, Monday or Saturday. While two playing fields have not been designated yet, it is thought that Merrill Park will be used for some games while Lions Park probably will be put in shape for other games. Places of the games will be announced later.

The league was first organized with eight member teams but two consolidated, two withdrew from competition and another was added to the original list. As the membership now stands the teams and their managers are as follows:

Avalanche-Journal, Hollis Payne; Rainbows, M. D. Newton; Texas Utilities, A. D. Chase; Wholesalers, Virgil Goodman; Santa Fe, Bill Hargrove, and American Legion-Lubbock Lions, managed jointly by O. B. Conley and Vaughn Wilson.

Wichita Falls Pair Arrives In Plane

Mr. and Mrs. W. E. Hamilton of Wichita Falls and Arnett Durbank of Sweetwater arrived here by airplane Thursday, attaches of municipal airport said.

Mr. and Mrs. Hamilton flew here in a chartered plane guided by a commercial pilot, Mr. Darbank flew his own plane.

A factory representative landed at the Lubbock field and remained several hours Thursday.

TOBIN INELIGIBLE

DALLAS, May 15 (AP)—Frank Tobin, first string catcher for Dallas last year and who has held down the same job this season, has been placed on the ineligible list by the Steers, Bob Tarleton, vice-president of the club, said waivers would be asked on Tobin, and if he is not claimed, he will be given his unconditional release.

The cat is thought to be the oldest pet of man.

S. M. U. STAR IS MEDALIST

TWO COLLEGIANS WILL ENTER GOLF FINALS THIS AFTERNOON

BY BILL PARKER
Associated Press Sports Writer

DALLAS, May 15 (AP)—Sometime late this afternoon, two collegiate golfers will be in the final round of the Southwest conference's fourth annual championship. Tomorrow they will play 36-holes over the Dallas country club course for the 1931 individual championship trophy.

The tournament opened yesterday with qualifying round, team championship and first round matches. John Falconer, Southern Methodist university student and Dallas country club member, turned the first nine in 38 and the home nine in 39 to win the medalist prize with a 77.

Southern Methodist won the team championship with a total of 321 strokes. Texas A. and M. ranked second with 332 strokes. Texas Christian, 387; Rice Institute, 354, and University of Texas, 342 were other team scores. Baylor university and the University of Arkansas did not compete. The Baylor players arrived for the tournament, but withdrew on learning of the death of Dr. S. P. Brooks, Baylor president. The Southern Methodist team was composed of John Falconer, 38-39—77; Louie Becker, jr., 37-44—81; O'Hara Watts, 41-40—81; Dale Lindsay, 42-40—82.

STATES RABBIT BALL HAS GONE

BOSTON, May 15 (AP)—After watching his Cardinals in 18 games this season, Manager Gabby Street has decided, "they've taken just about all the rabbit out of the ball."

"I believe you're going to see a change in baseball strategy from now on," Street commented today. "Instead of waiting until the seventh inning, I believe the Cardinals will start playing for one run as early as the fifth innings. I withheld my decision as to whether there had been an important change in the liveliness of the ball until we played in Philadelphia and that game convinced me they've taken just about all the rabbit out of the ball.

"Look at all the low scores and look at the low batting averages. Balls were hit right on the nose in that Philadelphia game the other day, and last year the same hits would have crashed against the right field wall. But all day long only two carried as far as the fence and one of the two went over."

Street said "smart hitters" will start choking up on the bat, "because those who just whale away at the fences are going to hit a lot of harmless flies."

PLAN NIGHT GAME

DALLAS, May 15 (AP)—Texas night baseball will be seen in Dallas for the first time tonight with the Steers battling the Houston Buffaloes. An opening night campaign has been staged and a crowd of twenty thousand is expected.

Larry Cox Hero Of Texas League

FORT WORTH FIELDER HITS HOMER WITH BASES LOADED

(By Associated Press)

Thursday's hero in the Texas league was Larry Cox, right fielder for the Fort Worth Cats.

Cox's circuit wallop in the fifth inning with the bases loaded gave the Cats a 7 to 2 decision over Galveston. Before that drive, the score was 2-all. Fowler, Brown and Perry contributed their bit to down the Buccaneers with two hits each. The win let the Cats share first place with Houston for a few hours—until Houston stopped the Shreveport Sports in a night contest, 8 to 3.

Houston Holds Lead

Oscar Tuero, Cuban spitball pitcher, worked a fine game for the Sports for seven innnings, but his mates spoiled it all when they made three errors in the eighth, allowing Houston to score six runs. The victory lifted Houston out of a tie with Fort Worth, giving the Buffaloes a half game lead.

A fist fight and a ball game served as bargain day for Wichita Falls fans. The Spudders defeated the San Antonio Indians 6 to 3 but the wallop of the game occurred in the ninth when Manager Robertson charged out of the San Antonio dugout and at Hillin, Wichita Falls pitcher. Robertson's ire was roused after Hillin, who had pitched a three hit game up to the ninth, weakened and hit Edwards and Flaskamper. Hillin did not fight back but held Robertson at arm's length until players separated the pair.

It was the same old story for the Dallas Steers who dropped their third straight to Beaumont, 6 to 5. Oscar Fuhr, southpaw, pitched hitless baseball for five innings, but the Exporters finally solved him and scored in each of the last four innings to take over the game.

FIGHTS LAST NIGHT

(By Associated Press)

CANTON, O.—Freddy Fitzgerald, Youngstown, outpointed Eddie Anderson, Chicago, (10), newspaper decision.

OMAHA, Neb.—George Manley, Denver, outpointed Tiger Jack Payne, Omaha, (10).

TEXAS MEETS RICE

HOUSTON, May 15 (AP)—The University of Texas Longhorns and the Rice institute Owls of Houston were scheduled for a semi-final Southwest conference baseball game here today. A victory for the Longhorns would send them into their final game tomorrow against Texas A. and M., tied for the conference championship and with the title depending on the final game tomorrow.

More than 1,000,000 fish were distributed from Missouri hatcheries during 1930.

GIANT ITALIAN TO ATTEMPT COME-BACK

PHILADELPHIAN RULES AS A FAVORITE IN NEW YORK MATCH

NEW YORK, May 15 (AP)—Tommy Loughran, whose accurate left hand is a source of constant embarrassment to his fistic rivals, meets the huge Italian from the Argentine, Victorio Campolo, in a ten-round bout in Madison Square Garden tonight.

Although Tommy will be giving away 40 pounds in weight, six inches in height and more than that in reach, the clever Philadelphian rules an 8 to 5 choice to win.

Won Seven Straight

Loughran, who has won seven successive fights in an amazing comeback campaign after his knockout by Jack Sharkey, will scale little more than 180 pounds as compared with the 225 or 230 pounds Campolo will weigh.

A victory for Loughran should reestablish him in the position he held before he met Sharkey. Then he was rated on about equal terms with the Boston sailor, Max Schmeling and Young Stribling. It is an important match for Campolo too for the South American has not fought for 11 months and would like to fight his way into a battle either with Sharkey or Primo Carnera.

WASHINGTON SENATORS GO WEST TO HIT STRIDE IN AMERICAN CAMPAIGN

BY HUGH S. FULLERTON, JR.,
Associated Press Sports Writer

The Washington Senators had to go west to hit their stride in the American league pennant campaign. Playing against their strong eastern rivals, the Senators could get no better than an even break and were in fifth place when they set out for their intersectional battles.

In the west Washington has won four games out of five—only a fair performance compared to the clean sweeps scored so far by the Philadelphia Athletics and New York Yankees—and has climbed up to third place. But Washington has been pitted against the two strongest western clubs, Cleveland and Detroit while the Yanks and A's have been knocking over St. Louis and Chicago. The fourth victory yesterday, a 5-4 triumph over Cleveland, did not alter the standing but it did give Washington the league leading pitcher, Sad Samuel Jones won his third straight game, allowing only eight hits.

The Athletics won their sixth straight game yesterday, downing Chicago 5-2 on a fine pitching performance by Rube Walberg. The win enabled them to retain their lead of a few points over the Yankees.

Big Charley Ruffing added another great pitching performance to the list of this year's mound achievements and Lou Gehrig clouted his fifth and sixth homers of the year to head the Yankee attack that brought a 14 to 2 victory over St. Louis.

The Boston Red Sox, who have climbed from last place to sixth in their western tour, had only one good inning against Detroit but that was enough for a 4 to 3 victory.

Autoists and cyclists in England are protesting that nails from soldiers' boots are causing much tire trouble on roads near large military centers.

STARS OF GAMES ON YESTERDAY

(By The Associated Press)

Lou Gehrig and Charlie Ruffing, Yankees—Former drove in six runs with two home runs and single, latter held Browns to four hits, all of them in eighth and ninth innings.

Rube Walberg, Athletics—Allowed White Sox seven scattered hits and beat them, 5-2.

Wiley Moore, Red Sox—Gave Tigers only three hits in four innings in relief role to protect Red Sox lead.

Sad Sam Jones, Senators—Pitched Washington to 5-4 victory over Indians and drove in two runs himself.

OPPOSE WAGE CUT

MANSFIELD, O., May 15 (AP)—Flat refusal to accept any wage reduction was voted by 1,600 striking employes of the Empire Steel corporation at a mass meeting here last night. The men walked out early this week when asked to take a 15 per cent cut and the vote was on the company's compromise offer of a 10 per cent reduction.

NEGRO CONVICTED

PORT WORTH, May 15 (AP)—The fourth 99-year sentence of the year was assessed by a jury in criminal district court Thursday against Elzia Payne, negro, convicted of attempting to commit a a criminal assault on 10-year-old Violet Jones on the night of April 12. The jury deliberated 22 minutes before returning its verdict.

London had 13,899 marriages in the last three months of last year.

RADUATION IS HELD HERE

NIOR HIGH SENIORS HOLD EXERCISES ON THURSDAY NIGHT

raduation exercises were con-ted for Lubbock Junior High ool Thursday night in the new h school auditorium. About 235 ificates were presented by S. C. son, vice-president of the board education.

Jackson Speaker

The commencement address was Dr. W. A. Jackson, head of the artment of government at Tex-Technological college.

elections by the junior high ool band began the program at . m. The audience filled the wnstairs part of the auditorium t acout half of the balcony.

Other Numbers Given

Rev. R M. Hocker, pastor of Nap-ne church, delivered invocation. other numoers on the program luded selections by the junior h school choral club, the junior h school violin choir, a violin o by James Wendell Day, high ool music instructor, and a read-by Dorothy Cowan, junior high ool student.

Members of the graduating class g their class song to end the ex-ises.

The junior high school commence-nt was the last event on the 0-31 program of the Lubbock blic schools. Students were to re-n for their grade cards this af-noon

OSTER SCHOOL EXERCISES HELD

eventh and tenth grade classes Foster school were graduated at rcises there Wednesday night.

peakers included Miss Mae Mur-, county superintendent of ools; P. F. Brown, former county ge and past county superintend-of schools; C. M. Moore and D. Williamson, president and secre-y, respectively, of the Foster ool board of trustees, and E. F. wkins, principal of the school.

Miss Murfee also presented four s won by Foster school in the school year.

Mr. Moore distributed diplomas d attendance certificates.

Visitors were welcomed by Her-man Payne, an all-A student. Estelle Eades gave the class prophecy and Billie Hopper a farewell address.

Members of the seventh grade class who participated were:

Leola Painter, Purnis Wassom, Jessie Payne, Myrl Pruitt, Raymond Eaves and J. C. Pointet.

Attendance certificates were received by Ralph Williamson, Dorotha Hitt, Dorcas Hill, Chester Alexander, and Nellie Ann Hitt.

Miss Watson and Miss Hancock, teachers at the Foster school, also spoke.

Three one-act plays were presented by the graduating group.

Australia is trying to rationalize its oversea transport.

BOWEN'S Has It

CAN THERE BE FREE! ELECTRICITY?

No!

Even if it were possible to **manufacture** electricity without cost, your bill would be reduced by only about one-fourth.

The reason for it? Because you cannot go to your electric light company, pay cash and carry your electricity home. We must deliver it to you.

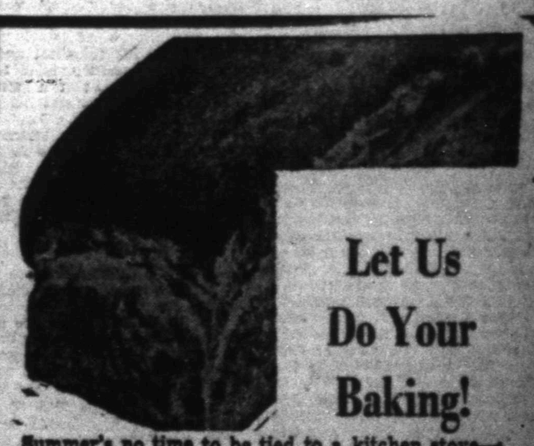

We must build lines and keep them in constant repair; pay wages to engineers, linemen, "trouble-shooters," bookkeepers, stenographers, telepphpone opeprators, meter readers, collectors and others; check your meter; maintain an office; and last, but not least, pay wages on the money which has built this business.

There is no such thing as "something for nothing"—at least not in business.

Thought For Today

Because he considereth, and turneth away from all his transgressions that he hath committed, he shall surely live, he shall not die.—Ezekiel 18:28.

* * *

Our hearts must not only be broken with sorrow, but be broken from sin, to constitute repentance. —Dewey.

By Products

Judged by its fruits, modern science may not be quite as magnificent an edifice as its builders have been fond of believing. So, at any rate, says Professor Arthur H. Compton of the University of Chicago, winner of the Nobel prize for physics in 1927.

Professor Compton told a meeting of the American Physical Society in Washington the other day that splendid scientific achievements often seem to bring rather puny results.

"Is a girl smoking and listening to jazz from a loud speaker what the great electrical pioneers have been working for?" he asked. "Think of Benjamin Franklin and his kite, of James Clerk Maxwell, Marconi, De Forest and others. Is this what they were after, or is there something more?"

The question, now that he asks it, is something of a poser. It can be duplicated, too, with other inventions.

The automobile is a marvel of mechanical ingenuity; but sometimes its chief results seem to be clogged highways, a rising toll of fatal accidents and a deplorable tendency on the part of youngsters who ought to be at home to find shabby roadhouses or shaded "lovers' lanes" in the country.

Mr. Edison performed a miracle in inventing the moving picture, but some of the treacle that gets thrown on the silver screen today hardly seems worthy of his brilliance.

Mr. Bell's telephone, likewise, is quite an invention; but did Mr. Bell ever dream of the hours upon hours of idle gossip that would be sent over the wires by suburban housewives?

So it goes. If the present age has a genius for producing men who can accomplish the impossible, it also has a genius for debasing the miracles that these men produce and putting them to silly and inconsequential ends.

However, that isn't quite the whole story. Inane radio programs, dizzy movies, moronic auto drivers and telephone gossipers are, after all, only byproducts. The important thing is that these bright and marvelous new tools have been put in our hands. We may misuse them for a while, and we may even cut ourselves with them, but once we learn how to handle them properly the scientists who brought them forth will be vindicated.

Brainy Pastimes

One of the surprising things in this fickle life of ours, if you have ever stopped to think about it, is that the much harrassed crossword puzzle is still alive and lusty eight years after the experts predicted it would die a speedy and quiet death.

Ordinarily not much significance would attach to this fact, but since acrostics, as cross-word puzzles are dignifiedly called, became the rage, the trend in pastimes has been toward the intellectual. It would hardly be stretching the point to say that the cross-word puzzle introduced a new era in brainy sport.

To compare the diversions of a generation ago with those of today is to liken a chocolate-eclair to a substantial cut of steak. The old favorites like dominoes, lotto, cribbage, parchesi and more recently, mah jong, are dead and forgotten. Today we require a more intensive celebration. Bridge is popular because it is scientific and requires a certain mathematical skill to play. Anagrams, the game of word-making, is currently a favorite because of its intellectual appeal. Puzzlers, stickers, brain teasers flourish more now than ever. It is even reported that chess is finding popular fancy.

A New York woman suggests a "traffic dance" as a means of avoiding death and injury. The only trouble is that it is liable to make a "hit" with the motorists.

The PLAINSMAN Says:

That Girl on Broadway says oculists can do almost anything with the eyes except make them see an opportunity.

* * *

Hammering breaks glass—but it hardens steel.

* * *

WITHIN a few hours the West Texas Chamber of Commerce will have selected a new president. To step right out in the open, The Plainsman hopes it is Houston Harte, of San Angelo.

* * *

The difficulty will not be in electing Mr. Harte. It will be in inducing him to take the post for which he is well fitted—which he has earned through many years of service on the WTCC directorate and through the past year as first vice-president.

* * *

MR. HARTE, of course, is a busy man. He is a newspaper publisher who is interested in papers over a very considerable portion of Texas. But he is the go-getter type — the "I'll-do-it-if-it-breaks-my-neck" kind of a fighter, whose judgment is as strong as his determination. He couldn't be beat as a WTCC president.

* * *

Don't get the idea that The Plainsman is hoorah-ing for Mr. Harte just because at one time they were associated in publishing The Journal. This column favors the San Angeloan for the reason that he is top timber and possesses everything necessary to putting over the big job—if he'll only make the sacrifice and accept it.

* * *

That man on Avenue Q says breadwinners have no time to loaf.

* * *

Movie queens spend thousands of dollars every year, trying to look young. That recalls the old favorite, "Wrinkle, Wrinkle, little star!"

* * *

A GREAT and good man lies dead at Waco. Dr. S. P. Brooks, who has guided Texas' oldest institution of higher learning to a place in the educational sun has run a good race and has finished the course. His place will be filled, of course, for none of us humans are indispensible. But it will be a long, long time before as imposing a figure stalks majestically across the horizon of the South.

* * *

The life of Doctor Brooks has been such as to afford the youth of his state an example unexcelled, even in story books. He rose from an humble beginning to a place of honor. He lived cleanly, an inspiration to those who would leave clear cut footsteps in the sands of time.

* * *

IN connection with Doctor Brooks' rise, J. A. Humphries of Lubbock, tells The Plainsman a story so romantic that it might well come from the pages of romance. But it is a true story, symbolic of the man who today lives no more, but who leaves behind him a line to which all of us may well hew.

Nearly 45 years ago, S. P. Brooks, then little more than a lad, was working on a railroad section crew in Texas. The division superintendent, in his private car, steamed to a stop along side of the laborers.

Without dismounting from the car, without a word to the men, the superintendent gave brief orders to the crew foreman and steamed away again.

Young Brooks drove his pick into the ground and turned to the foreman.

"What's the difference", he asked, "between me and that fellow?"

The foreman thought a moment before replying.

"There may be no difference between you", he concluded. "But there's a big difference in the jobs you hold."

* * *

S. P. Brooks never again picked up the tool which he had buried in the dirt.

He called for "time," was through, he said, with ganging on a railroad.

He went back to school and finished his learning, later to climb to a position of respect and honor which he still holds though silent in death.

There's a sermon—a sermon more powerful than mere man can preach—in that true tale as told by Ab Humphries.

It shows again what can be done when the youth replies "I Will!"

* * *

ONE of the biggest things in the WTCC convention, according to the way an old country boy looks at it, is the bands. There are nine bands parading around in Lubbock and if you ask The Plainsman a convention isn't a convention without a lot of music.

* * *

There are fewer bands here than have been at any of the previous WTCC conventions, due probably to the fact that the annual band concert was eliminated from the program this year. But local people and convention visitors alike should be glad the seven came because they are sure helping to pep things up.

* * *

"Shoulder - To - Shoulder," the WTCC slogan, is being put into action in hotels, restaurants and on the streets. There's so many people around they're crammed in like sardines in a tin.

* * *

The convention program and group conferences list 135 speakers during the three days—more than one speaker for each of the 122 counties included in WTCC territory. That many speakers ought to produce enough helium to float the new Akron!

Line's Busy!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Conception Of Unemployment Being Accepted In U. S. As Responsibility Of Business Men; Can Relieve Jobless

BY RODNEY DUTCHER

WASHINGTON, May 15. — The management of every kind of business enterprise can exert some measure of control over the economic forces which produce intermittent unemployment.

There is scarcely a line of industry in which some American company has not effected an appreciable reduction in irregularity of employment.

It is only within the past year that in the United States the conception of unemployment as a primary responsibility of business men has received general acceptance.

The year 1931 may be expected to mark the beginning of a period in which a vast number of employers will give concentrated attention to the amelioration of unemployment.

These are among the findings of a subcommittee on employment regularization of the American Section of the International Chamber of Commerce which included some of the country's industrial leaders and highly qualified experts.

By 1930, according to the survey of this group, more than 200 companies had begun systematic programs to provide maximum continuity of employment. Early in 1930, with the depression well begun, more than 300 industrial establishments in New York state were found to have adopted stabilization policies and there were hundreds of others throughout the country. But it is admitted that employment regularization programs have been far too limited in range and scope to have an appreciable effect on general employment fluctuations.

The committee cites the three principal types of unemployment:

Seasonal, responsible for the major portion of unemployment in the long run, especially affecting manufacturing industries with their peak and dull seasons.

Cyclical, experienced in general business recessions such as the current one and reducing employment 12 to 18 per cent below corresponding seasons of more prosperous years and figuring in the 34.5 per cent of factory employment from July, 1929, to January, 1931.

Technological, the displacement of workers by machines, referred to as a readjustment problem which now carries a majority of affected workers to go for long periods without work, although theoretically eventually creating more jobs than it destroys.

Must Halt Fluctuation

Regularization of employment is achieved or approached by co-ordinating production and distribution policies so as to level off violent fluctuations both in volume of output and total sales, the committee says. Next come personnel policies relating to employment security for individuals.

Systematic sales forecasting is essential. Thus the Eastman Kodak Co. solved the problem of a highly seasonal market so that in 1929 the number of its employes deviated less than 1 per cent from the average number for the year. The policy is to schedule a comparatively constant volume of production for each month of the year, with a 20 per cent cut during the July-August vacation season. The Walworth Co., makers of valves and fittings, found it could well afford to eliminate about 4000 of its 5000 customers, estimate advance sales and let inventory fluctuate instead of production.

President Alvan Macauley of the Packard Motor Car Co. told the committee that regularization of production and employment costs money in capital investment and storage facilities, but is "far more than offset by lower production costs, by the contentment of employes, by their zeal and loyalty and by lessening the turnover in labor which is always expensive."

"In 1919, the Proctor & Gamble Co., makers of soap, varied 65 per cent in the number of employes at its principal plant. By selling to retailers, budgeting sales and coordinating production schedules it had reduced that to 7 per cent in 1929 and guaranteed 48 weeks' continuous work each year to its permanent force. Simplification and standardization, in which great strides have been made by many concerns, ahs also served to stabilize production and employment.

The Campbell Soup Co., concentrating on soup but diversifying kinds, regularizes production by making tomato soup in late summer and fall, vegetable soup, consomme and bouilion in fall and winter, asparagus soup in spring, pea and chicken soup in early summer and celery soup in early fall. Besides diversifying products, companies have often stimulated off-season purchase of their goods.

To meet the problem of individual employment security, the four principal methods adopted have been:

1—Flexible working periods to provide more equitable distribution of available work.

2—Inter-company transfer of employes.

3—Unemployment reserve funds.

4—Dismissal wages and other financial assistance.

In the 1927-28 business recession, three-fourths of companies whose methods were surveyed reported that they had resorted to working time reduction before laying anyone off. Even a larger proportion, it appears, did that in 1930. The Delaware & Hudson Railroad, with an elastic work day system, has cut its labor turnover 78 per cent in nine years.

Such systems do not sustain purchasing power and proportionately reduce individual earnings, but do prevent complete loss of income for employes and save heavy expenses of recruiting and training new forces when full time operation resumes. Several large manufacturing concerns definitely plan to transfer employes from one type of job to another when necessary and some even train employes to be ready to accept other jobs in the same plant. The growth of private plans for indemnifying the unemployed has "proceeded slowly and along highly individualistic lines," the committee says.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE—Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 3 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening in care of this paper, or Central Press Association, 1413 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding," and "Instructions for the Treatment of Diabetes." The articles are "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

GALL BLADDER

A LARGE number of recent observations on the physiology of the gall bladder have passed in practical medicine. With the development of the dye method of gall bladder diagnosis, it has become necessary to make the gall bladder empty itself in order to test out its powers of contraction. To do this the patient is given some fat to eat—a glass of cream or a hard boiled egg and the full gall bladder is immediately seen under the X ray to empty.

Dr. Clendening

For no good reason except experience, people of middle age have instinctively taken some cheese at the end of a meal. Especially at the end of the heaviest meal of the day. This, so far as I know, was not done out of any profound knowledge of physiology but simply because they knew that they felt better that way.

Deeply instinctive habits are usually found sooner or later to have some reason in fact. And the newer knowledge of the gall bladder seems to furnish the explanation of the eating of cheese by middle-aged people at the end of a heavy meal.

Children, incidentally, do not readily acquire such a habit. They like desserts at the end of a meal. This taste lasts up to about the age of 30, and then for most people the curve of dessert eating gradually drops until it finally disappears. Cheese as the last course, or salad with a cheese dressing or an olive oil (fat) dressing means the same thing.

The explanation is that gall bladder disease is a very common disease of middle age. It is very uncommon in young people and begins to be observed at about the age of 35. Statistics show that about 40 per cent of people over this age have either gall stones or infected or sluggish gall bladders. Of course, a gall bladder when distended and when somewhat inflamed, gives a certain amount of discomfort. This may not be very acute, but may only amount to a feeling of heaviness or fullness in the region of the stomach. Cheese is the same in action as the cream or hard-boiled egg the X--ray man gives his patient to empty the gall bladder. It drains the gorged gall bladder of these middle-aged folk and makes their meals "set" well. A sweet dessert will not do the same thing. So when you choose cheese as the finale to your meal you are using the very latest principles of modern medical practice.

* * *

QUESTIONS FROM READERS

A. W. B., Everett, Mass.: "I understand that tinea trichophyton, or "athlete's foot," if not given proper care, will develop into something serious. Is this true?"

Answer: It may develop into a very chronic and deep-seated infection. When severe secondary infection occurs from scratching, cellulitis of the leg (blood poisoning) may develop.

All heavy eaters, points out the office sage, have to reckon some day with expense accounts.

The recently opened Fontana, N. C., copper mines are producing 11 carloads of ore daily.

DAILY ALMANAC

Warm

WEST TEXAS: Fair, warmer in extreme southeast portion tonight; Saturday fair.

EAST TEXAS: Partly cloudy, warmer in northeast portion tonight; Saturday partly cloudy. Light to fresh southerly winds on the coast.

OKLAHOMA: Fair, warmer in east portion tonight; Saturday fair.

In New York With Gilbert Swan

SWAN

NEW YORK, May 15 —Can you dance the "bandy twist"? Or the "gogo," the "Maxey Ford," the "ginger," "roll over," or "cracker-jack"?

No! Then you're not a hoofer and you are not likely to be until you can dance the entire routine, and throw in for good measure the "beans," the "catsup," and the "loop." There are at least a dozen others.

And if you think they are unimportant, let me advise you that 10,000 young women of America, who dance for a living—or seek to—are being told that there is little use trying to crash the Broadway gates unless they are prepared to put on something like 20 intricate and difficult steps that bear names such as those mentioned above.

It's the Chorus Equity Association, a branch of the Actors' Equity, that is breaking the news to chorines across the land.

Some 10,000 letters have issued from this office in the course of the past week advising chorines that Broadway wants "hoofers" rather than ladies of the ensemble. The chorine situation in New York is not a simple one; there are thousands out of work, few music shows running and fewer summer shows than usual likely to open.

The producer wants something more than just beauty this time. He wants something more than straight heel-and-toe work; something more than the old dance routine.

Chorus Equity finds that he wants dyedin-the-wool "hoofers."

Now even in Broadway, there are not so many professional chorines who can qualify. And taking dancing lessons runs into money.

So Chorus Equity runs a dancing school on the side. As an aid to the girlies who get but a nominal salary even when they get work, the charge is 50 cents. Prof. William McPherson is the trainer, and he tutors as many as 350 at a time.

A glimpse at one of these classes in actior is an amazing sidelight on what goes on behind the scenes of the main stem.

Most routines begin with what is known as the "Primrose take-off," named after the famous minstrel man who invented the step. It's a sort of back and forth shuffle that works into a soft shoe routine. The straight clog and buck-and-wing are still part of a beginner's training, but the clog now develops into a waltz rhythm.

It's the "time-step," however, that makes the big difference. Unless this can be mastered there is little chance of a dancer graduating, for dozens of other steps depend completely on a thorough knowledge of "time tapping."

Listening in on one of Prof. McPherson's lessons presents an entirely new lingo to the average eardrum.

"All right, snap into the hauty twist . . . hey, there, fall off the log, now over the top and pivot . . . a little catsup and beans and now for a cracker-jack."

What all this means, only the professionals know.

And after all this has been mastered, the girl still must be able to pick up the intricate new steps and routines invented by chorus directors. This, of course, if she is lucky enough to get a chance with a show.

And if you don't think a chorine earns her money—let it be known that when rehearsals begin, she works from ten in the morning until early in the evening; that once the show gets "warmed up" and the director knows what is going to happen, they work 12 hours at practice, which is from ten in the morning until ten at night. And just before opening, it's midnight when they get through.

Garvihi at last has been induced to appear in the talkies. And Hollywood is already talking about a revival of Indian pictures.

Princess Ileana of Rumania met her future husband at a flying school. Was it a case of love at first flight?

Prisoners at Sing Sing are asking for more reading matter. With the intention, perhaps, of forming an illiteracy society.

Then there's the censor who complained of the scant attire at the baby show.

Flapper Fanny

A blossoming love affair is a blooming expense.

THE TINYMITES

STORY by HAL COCHRAN—PICTURES by KING

(READ THE STORY, THEN COLOR THE PICTURE)

While walking 'round the Chinese street one Tiny said, "That place is neat." He pointed to a little shop. A man stood in the door. Then Clowny said, "Can we come in?" The man just spread a friendly grin, and then replied, "Of course you can. That's what this place is for.

"The folks around here trade with me. I sell them rice and lots of tea. Just peek into my windows. You can see what is for sale. Of course you do not need to buy. I welcome visitors, passing by. The goods are fresh. I never keep a thing until it's stale."

And so the Tinies walked right in. It was the queerest place they'd been. On top of shelves was Chinese food, all packed up safe and sound. A showcase stood upon the floor. Inside of it they saw lots more. 'Twas really fun to watch them as the Tinies looked around.

The Travel Man said, "I will buy some Chinese nuts for you to The shell is hard, but with teeth just bite through to the me The Tinymites were thrilled at Said Clowny, "Not a thing miss." And as he tasted a nut added, "My, they're sweet."

In just a little while they outside to walk around, intent seeing other things that they never seen before. Soon Sc cried, "Look down the street. camel we are going to meet. look! His back is loaded dow wonder what that's for."

"Why, gee, I thought you k of course, the camel's used just a horse in China," said the Tr Man. "You'll see them everywh They carry lots because the strong. Just watch that fe plod along." Just then the ca snorted and it gave the bunc scare.

(The Tinymites have a ca ride in the next story.)

YESTERDAY'S ANSWER

Round The World Flight Is Planned

OKLAHOMA CITY, May 15 (AP)—Wiley Post and Harold Gatty will leave Sunday for Roosevelt field, New York, start and finish their projected around the world flight, their financial backer, F. Hall, oil man, said here. Hall will accompany the fliers to New York, where, if pending negotiations have failed in the meantime, other efforts will be made to obtain permission from soviet authorities for the fliers to cross Russian territory.

TWO EXECUTED

TORREON, Mexico, May 15 (AP)—Two alleged members of a bandit gang that raided a summer resort at Raymonde, Durango, Monday and killed three persons, were executed by troops here yesterday.

Rates, Rules and Requirements of Classified Advertising Of The
Lubbock Daily Journal
(Afternoon)
Lubbock Morning Avalanche
(Morning)
Sunday Avalanche-Journal
(Sunday Morning)

All classified advertising will appear in both the Morning and Afternoon papers—both papers counting one insertion. All classified advertising is printed in the Lubbock Morning Avalanche first and the Daily Journal of the same date, no classified originating the afternoon paper.

Classified for Sunday's issue will appear in the Avalanche-Journal counting one insertion, as this paper is sent to all subscribers of both the afternoon and morning papers.

AVALANCHE-JOURNAL
Combined Rates:

Minimum words, per insertion, 10.
One insertion, per word 4c
Two insertions, per word 6c
Three insertions, per word 7c
Seven insertions, per word 12c
Thirty insertions, per word 45c

These rates are for consecutive insertions only. Additional consecutive insertions over 30 times, of 1½c per word each.

All out of town ads received by mail must be Cash with order. No exceptions.

PHONE 13 or 14

Our experienced ad taker will receive your ad and help you to word it, then our collector will call the following day. These accounts are "accommodation accounts" for our patrons and for one day only.

No advertisements accepted on an "until forbid" order. A specified number of insertions must be given.

We reserve the right to place an advertisements under the proper classification and reject unclean or objectionable copy.

Obituaries and cards of thanks at regular classified advertising rate.

The publishers are not responsible for copy omissions, typographical errors, or any unintentional error that may occur further than to correct it next issue after it is brought to their attention. All advertising orders are accepted on this basis only.

Classified Advertising accepted until 5:30 P. M. on week days, and 5:30 P. M. on Saturdays, and all advertising received after 5:30 P. M. will be placed under "Too Late To Classify."

For classified display advertising information,

PHONE 13 or 14

TO DISCONTINUE AN AD

Notice to Discontinue An Ad must be given after 8 A. M. and before 5 P. M. to some member of the Classified Advertising Department. We cannot be responsible for notices given before or after these Hours, and to a member of some other Department.

"I Find Many Uses for Avalanche-Journal Want-Ads,"
—says Mrs. Housewife

"Such a time-saver! And results follow so QUICKLY! They're my very first thought whenever there's a WANT to be satisfied.

"When we moved last fall, our delightful bungalow was located through these Want-Ads. We sublet our old apartment in the same way. And last week they helped us again! You'd know what I mean if you saw it on our driveway . . . the cutest, prettiest sedan you ever laid eyes on, almost new. And we found it in the Avalanche-Journal Want Ads.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, May 15. (AP)—Prices continued to recede slowly in today's stock market with stubborn selling persisting in the rails and U. S. Steel.

American Can, Allied Chemical, General Electric and Bethlehem Steel were well supported but General Motors slipped off 1 1-2 points. U. S. Steel got down nearly 2 points to a new low at 104 3-8. American Telephone lost 2 and North American 1 1-2.

In the rails, Missouri Pacific preferred rallied more than 2 on declaration of the regular dividend but the rest of the group remained heavy. Issues off 1 to 2 points included Pennsylvania, New York Central, Baltimore & Ohio, Union, Southern and Northern Pacifics, Atchison and Lackawanna.

Call money renewed at 1 1-2 per cent.

W. B. Lee, president of the Spur National bank, is spending the day here attending the West Texas chamber of commerce convention.

W. D. GIBAND,
Referee in Bankruptcy.

Cotton Market

NEW ORLEANS REPORT

NEW ORLEANS, May 15. (AP)—Cotton here had a quiet and barely steady opening today. Cables were hardly as good as due and first trades showed loses of one to two points. The market continued to ease off after the start owing to a rather easy opening in stocks, July trading down to .66 and October breaking through the ten-cent line to 9.99 or four to five points down from yesterday's close on the active months.

Near the end of the first hour, prices rallied a point or two and there appeared to be some disposition of shorts to cover.

NEW YORK COTTON

NEW YORK, May 15. (AP)—Cotton opened steady today unchanged to 2 points lower.

Traders found very little inspiration in Liverpool cables which were slightly lower than due and it looked as if selling yesterday had discounted the better weather reports of this morning. There was some pressure of local and commission house offerings, however, and July eased off to 9.65 during the early trading while December declined to 10.23, making net losses of about 3 to 4 points on the more active positions. Business was quiet with the market showing no special feature at the end of the first half hour.

Liverpool cables said buying for a reaction and covering had absorbed some continental liquidation in that market.

NEW ORLEANS OPEN

NEW ORLEANS, May 15. (AP)—Cotton futures opened steady today: May 9.84-bid; July 9.70; Oct. 10.02; Dec. 10.24; Jan. 10.34-bid; March 10.57-bid.

NEW YORK OPEN

NEW YORK, May 15. (AP)—Cotton futures opened steady today: May 9.47; July 9.67; Oct. 10.01; Dec. 10.25; Jan. -0.35; March 10.53.

Livestock Market

LUBBOCK LIVESTOCK

The following report furnished by McDonald Packing Co.

Calves:—Choice white face 6.00 to 6.50; good medium 5.00 to 6.50; common and dogies 2.50 to 3.50. Yearlings and heavy heifers:—Choice 3.50 to 4.50. Cows:—Choice 2.50 to 3.50; good medium 2.00 to 2.50; common and cutters 1.50 to 2.00. Bulls:—Heavy butchers 2.50 to 3.00; heavy bolognas 2.00 to 2.50.

Hogs:—Choice butchers 6.00 to 6.35; choice light weights 6.00 to 6.25; choice heavies 4.50 to 5.00; packing sows 4.00 to 4.50; stocker pigs 5.50 to 6.50.

KANSAS CITY REPORT

KANSAS CITY, May 15. (AP)—(U. S. D. A.)—Hogs: 3,000; steady to 15 higher; top 6.85 on 170-210 lbs.; packing sows 275-500 lbs. 5.00-5.50; stock pigs 70-130 lbs. 6.50-7.00.

Cattle 700; calves 200; generally steady; killing quality plain; steers 600-1100 lbs. 7.00-9.00; heifers 550-850 lbs. 6.25-8.25; cows 4.75-5.75; vealers (milk-fed) 5.50-9.00; stocker nad feeder steers 6.50-8.50.

Sheep 5,000; spring lambs steady; Texas sheep 25 higher; top native spring lambs 9.50; shorn two year old Texas wethers 4.85; lambs 90 lbs. down 6.75-7.60; ewes 150 lbs. down 2.00-3.00.

Grain Market

CHICAGO REPORT

CHICAGO, May 15. (AP)—Showers in Canada and weakness of stocks tended to depress grains early today. Declines were checked by reports that preceeding moisture in Canada heavy storms had prevailed.

Starting 3-8 cent off to 1-8, 1-4 cent up, wheat afterward held near to the initial range. Corn opened unchanged to 3-8 down and subsequently fluctuated but little.

CONVENTION

(Continued from Page 11.)

the breeder-feeder movement launched two years ago.

Resolutions from the highway and park group asked a continuation of federal aid policies until western highways have been completed, the designation of more federal highways in West Texas, final passage of the $25,000 appropriation for the Panhandle-Plains Historical Society museum at Canyon, a program of restoration and preservation of old fort sites and other points of historical interest in the area.

Elizabeth Lucas of Breckenridge and Stanley Sutton of San Angelo placed first and second respectively in the "My Home Town" oratorical contest elimination last night, progressing to the finals to be held Saturday morning. Two speakers were selected Wednesday night and two others will be picked tonight for the finals.

A forecast of the fight that looms in the oil conference appeared on the convention floor this morning when C. M. Caldwell of Abilene asked the convention to authorize resolutions passed at the group meeting to be sent direct to the legislature. Walter Cline of Wichita Falls, chairman of the committee on convention work, opposed the motion, stating: "There are many differences of opinion among oil men in West Texas, and we would not want to authorize something we have not seen".

Compromise Reached

Amon G. Carter, of Fort Worth supported the Caldwell motion, and a compromise was reached when Cline offered to call his committee to go over the resolutions from the group conference, dispatching the message this afternoon.

It was said the resolution would support proposed legislation for stricter enforcement of the proration laws.

The treasurer's report was made by E. G. Keese of Stamford, showing a cash balance of $15,489. On motion of Mr. Carter, the convention voted its thanks to Manager D. A. Bandeen, and President Charles E. Coombes for their successful management. The motion recalled the $28,000 debt of two years ago.

In the absence of Governor Ross Sterling, Col. William E. Talbot of Dallas Frank P. Holland of Dallas, and Dr. Tate Butler, editor of the Progressive Farmer, Memphis, Tenn., addressed the general assembly.

Support Pledged

Resolutions from the industrial conference, pledging support to the program of Progressive Texans, Inc., were approved, and the convention voted favorably on a motion of the convention work committee urging legislation that would minimize the danger of hog cholera, tending to strengthen hogs as collateral for farm loans.

An additional resolution from the breeder-feeder conference recommended that the West Texas chamber sponsor a feeding day, where proper methods might be studied within the feed lots.

Dr. Butler declared that agriculture had never kept up with development in commerce and industry because of natural and governmental handicaps, and encouraged the aiding of farm conditions through economic methods rather than reduced production plans advocated by the government.

Carroll Makes His First Solo Flight

M. O. Carroll, a postoffice carrier, made his first solo flight in an airplane Tuesday from the municipal airport, Ben Branson, instructor-pilot for the Branson School of the Air, said today.

"Carroll made his solo flight after seven hours and fifteen minutes in the air," Branson said.

There are about ten or twelve other students taking instructions at the port from Mr. Branson. Others are about ready to make solo flights.

Mr. and Mrs. H. M. Ellsworth, of 2224 Main street, are the parents of a daughter who was born at the Lubbock sanitarium.

Mrs. G. O. Hubbert, of Olton, is to arrive today for a two weeks visit in the Henry Prnka home.

WTCC BRIEFS

(Continued from Page One)

About that time Commander Glenn Hess, of Allen Brothers post, came along and local men rounded up to entertain the visitors. Walter Gaines led the 18 men of the drum and bugle corps of the "Forty and Eight" who were on the train.

Exhibits Good

Half a dozen booths in the display space at W. T. C. C. convention headquarters, 1106 Main, show some of the things that are raised in West Texas. Not all of the districts of the W. T. C. C. availed themselves of the opportunity of making a display.

District No. 1, the Amarillo district, has a booth showing the agricultural products of the North Plains.

"Best Part of Texas" is the slogan of the South Plains, district No. 2. Interesting information is displayed on the walls including the statement that 91 per cent of the area is tillable and that cotton costs here are lowest in the U. S. A.

District No. 3 displays its products—Some at least ,under the slogan "An Empire within an Empire".

Mineral Wells has an exhibit advertising its campaign for 1933. It consists of a portable motion picture machine to show films of the resort town and territory.

Wayne Hickey, secretary of district 5, arranged the exhibit from that district. Resources of the area are stressed in the display.

District 6 shows the resources of that section of the South Plains, including the West Texas Dairy Products plant at Lamesa, the only one of its kind in West Texas.

District 8, the "Big Bend" district, also has a display from "ten counties and 16 towns". Resources of the district, its natural scenic beauties and attractive literature are portrayed.

Amarilloans Here

Amarillo has hit town and everybody knows it. The second half of the City of Roses delegation brought nearly 100 additional visitors in at 10:30 o'clock this morning. The Old Gray Mare band headed the parade of Amarilloans up Broadway with the old gray mare herself in the van. Mrs. O. V. Vernon was astride the prancing equine which led the delegates up the street to the tune of their favorite anthem.

Huff Arrives

William E. Huff, president of the Wichita Falls Texas league Spudders, arrived with the Wichita delegation this morning and was busy meeting old friends here. Among them J. O. Smith, of local drug store and golf popularity. It was learned that Huff and Smith played on the Wichita team in their earlier days and their meeting was filled with reminiscences.

Bands Make Merry

The Wichita Falls delegation was accompanied by two bands of musicians. The Cabellero Boys and the American Legion drum and bugle corps, the latter resplendent in shiny tin hats, paraded through the streets and otherwise made merry to the popping of balloons and cheers of the crowd.

Buys Texas Suit

Col. Bill Talbot of Dallas, true to his statement in an address yesterday that he would buy a Texas-made cotton suit today, blossomed out this morning in a well tailored white summer outfit that was the envy of all his friends.

Music, News Mix

The office of the Avalanche-Journal was filled this morning by the Texas Christian university Horney Frog band. The musicians filed into the editorial rooms and literally "stopped the presses" while they played a couple of peppy numbers. The Portales, N. M., school band entertained the Avalanche-Journal crowd with a brief concert in front of the building.

LEGISLATURE

(Continued from Page One)

eleemosynary, were in free conference committees. The congressional redistricting bill also was hanging in free conference, with numerous predictions that no report could be made that would meet with the approval of both houses.

Bills to increase efficiency in the comptroller and treasury departments were passed by the house. It was estimated they would sa several hundred thousand dollars. The bills also would tighten restrictions around state expense accounts and the use of state automobiles.

Bitterly Opposed

The senate passed a bill to allow persons over 25 to take advantage of the suspended sentence act in liquor law violation cases. The bill was bitterly opposed by some prohibitionists.

The bill to authorize juries to suspend driving rights of persons convicted dof operating a motor vehicle while intoxicated was passed by the senate and sent to the governor. Driving rights could be suspended for two years.

The house cut the proposed increase in the state highway patrol from 100 to 30 and adopted an amendment to the senate bill to require one-fourth of the patrol to work nights. The bill will go to a free conference.

A senate bill limiting payments for delinquent tax collections to 15 per cent was passed by the house.

Col. W. E. Talbot, of Dallas, who has been visiting friends and attending the W. T. C. C. convention is leaving tonight for Roswell, N. M. He will visit the New Mexico Military Institute while there.

Mrs. Ed Hutson and her children, 1211 19th street, left Thursday for Harlingen where they will spend the summer months.

H. Kling, of Plainview, was a visitor in Lubbock Thursday.

MARY ALEXANDER CHOSEN AS "MISS GREATER LUBBOCK" IN CONTEST HERE

Miss Greater Lubbock in the annual beauty pageant at Wichita Falls will be Mary Alexander, 18-year-old athletic blonde, and Miss Lubbock will be Billie Margaret Elkins, 16, possessor of blonde hair and dark eyes.

Judges of a bathing beauty contest conducted Wednesday and Thursday nights at the Palace theater selected Miss Alexander and Miss Elkins as first and second place winners. They will be given free trips to Wichita Falls with chaperones, to compete for the opportunity of entering the international beauty pageant at Galveston.

Winners of third, fourth, and fifth and sixth places, respectively, were: Rachael Campbell, Martha Alice Penney, Floiss Adell Apperson, and Opal Patterson. Fourteen Lubbock young women competed.

Miss Mayde Smith and Miss Evelyn Foreman, who will be Miss Mineral Wells and Miss Borger in subsequent revues in Texas, also appeared on the Palace stage last night.

David Dallas, West Texas director of beauty pageants, expected to go to Vernon today to supervise selection of Miss Vernon.

Miss Alexander was Miss Levine's and Miss Elkins was Miss Dee's Cafe in the local contest.

"MISS CLARA WILL HANDLE DETAILS" FAMILIAR SAYING AT WTCC OFFICE

"Miss Clara will handle the details."

The above is a familiar saying around the general offices of the West Texas Chamber of Commerce at Stamford, and yet the person referred to, Miss Clara Lively, is little known outside of official circles, those acquainted with the regional organization often say.

Veteran In WTCC

From the point of service with the chamber, Miss Lively is the oldest member of the staff. Two years after the West Texas Chamber of Commerce was started at Fort Worth in 1918, she became office secretary and publicity director of the organization. During the 11 years she of her connection with the chamber she has served under four general managers, beginning with Porter Whaley, the first executive. Since Mr. Whaley's tenure of office, Miss Lively has been "right hand woman" of Managers Homer D. Wade, A. M. Bourland and D. A. Bandeen.

All of the executives have praised work highly. One of the former managers introduced her before a convention, stating he did not know how the West Texas Chamber of Commerce could get along without Miss Lively.

"She always looks after the details at the right time," he said.

Miss Lively's present official position with the organization in cashier and Secretary to Mr. Bandeen.

Enjoys Work

"I have received a great deal of enjoyment of the chamber of Commerce work," she said yesterday. "Every accomplishment of the organization and every achievement of the large territory it serves affords me a great deal of satisfaction."

Miss Lively is a former resident of Lubbock. She attended high school here for two years.

Here's the catch—she does not mind telling her age.

"I am 29 years of age, if any one cares to know," she said last night, as she paused a short time while carrying out her job of "looking after details" of the convention.

Tumble-N Swimming Pool To Be Opened

Tumble-Nn swimming pool in city park will be opened for its fourth season Saturday, K. N. Clapp, who leased the pool from the City commission, said this morning.

Clapp has supervised operation of the pool since it was built three years ago. It will continue to be operated in a sanitary manner and a life-guard will be on duty while the pool is open, or from 9 a. m. to 10 p. m., Clapp said.

Red Cross life-saving classes will be continued, and free swimming classes will be started, the manager said.

Prices will remain the same. They are 25 cents for adults and 10 cents for children. Suits may be rented, and a bathhouse is provided.

Our ready-to-wear section is featuring a new and varied collection of sheer attractive Voile Organdy and handkerchief linen dresses that is truly outstanding. This season promises to be one where such garments will be decidedly in vogue—a type garment that should especially appeal to all West Texans. May we have the pleasure of showing you these pretty garments?

FORMAL EMBROIDERIED ORGANDY AND NETS

Pastel colorings in new typed Embroidered Organdy are decidedly attractive for formal occasions. Fresh looking and appropriate for this season they are also decidedly inexpensive for such unusual styles can be chosen for

$10.85 to $18.50

HANDKERCHIEF LINEN AND PRINTED VOILE DRESSES

New assortments in drawn Handkerchief linen dresses are shown in white and pastel colorings. These are in sleeveless and cap sleeve styles and are especially smart. Garments for street and afternoon can be chosen for

$5.85 to $9.85

SOLID AND PRINTED PONGEE DRESSES FOR SPORT

Pongee is by odds the most popular sport silk of the 1931 season. New arrivals include unusual styles in both natural and pastel shades—dresses that are so appropriate for every sport occasion—the car trip or general utility wear. Prices are decidedly modest.

$4.85 to $6.85

Hemphill-Wells Co.

Small House Here Damaged By Blaze

Fire Thursday destroyed a small house and part of the furnishings and slightly damaged an automobile.

A two-room house was destroyed near Fifth street and Avenue C shortly after noon.

It virtually was razed when firemen arrived, although occupants had saved some furniture. Fire Chief W. E. Twitty said. Loss on the house was estimated at $300.

The fire was the fifth at that address in about four years, the fire deparment head said. Thursday's blaze may have resulted from a makeshift stove, he said.

A neighbor woman entinguished fire in an automobile at 2022 Main street by throwing soda on it before fire-fighting apparatus arrived. The automobile, which was in a garage, belonged to R. E. Strickland of the Main street address. Damage was negligible.

BILIOUSNESS DRIVEN AWAY

"Feel So Much Better After a Few Doses of Thedford's Black-Draught."

"When I get bilious, I lose my appetite, feel dull and tired, and do not feel like doing my work," writes Mrs. S. M. Fulton, of Fort Payne, Ala.

"I take a few doses of Black-Draught until I feel my system is cleansed, then I leave it off. It is about the only medicine I take, and I am sixty-nine years old.

"I have been using Black-Draught for about twenty-five years, and think it is wonderful."

Mrs. D. W. DeShane, of 4216 South Twenty-fifth Street, Redfork, Tulsa, Okla., also has used Black-Draught, and she writes:

"I felt the need of a good medicine for biliousness. I saw Black-Draught advertised and decided to use it. I have never been sorry, for I certainly have found it a great help in my family.

"I would have dizzy spells and feel like I was going to faint. I would have a bad breath and bad taste in my mouth. I found Black-Draught would clear this up and make me feel so much better. After a few doses, I would be rid of dizziness and feel full of pep." adv

Thedford's BLACK-DRAUGHT for Constipation Indigestion, Biliousness

GREEN TO SPEAK

HOUSTON, May 15 (AP)—President William E. Green of the American Federation of Labor will address members of the Brotherhood of Railroad Trainmen, in convention here, Monday, May 19, it was announced today by President A. F. Whitney of the brotherhood. The convention will close May 25.

TO RESTORE RATE

MONTGOMERY, Ala., May 15 (AP)—The St. Louis and San Francisco railroad today advised the Alabama Public Service commission its experimental passenger rate of 2 cents a mile "had not served to increase travel" and that it would seek to restore the 3.6 rate effective July 1.

ASK YOUR NEIGHBOR!

HOW SHE HAS SOLVED THE REFRIGERATION PROBLEM

Ask your neighbor what her General Electric Refrigerator has cost her, then multiply that by a million times and you will know why General Electric now protects each purchaser of a General Electric with an unqualified replacement guarantee.

By choosing a General Electric now you obtain new and improved refrigeration at lower prices than you had expected, at an operating cost that will hardly be noticed.

We ask you to check the basic value of General Electric—from the time tested hermeticaly sealed unit to the rugged all steel box. Heavy porcelined if you like.

Now more than ever you can afford a General Electric, as low as $10.00 down, 24 months to pay.

These South Plains Homes Are Qualified to Testify the Superority of General Electrics
