Col. Ed Littleton and family returned on Tuesday of this week from motor trip to Stillwater, Ponca City, the "101" Ranch and other Oklahoma points.

J. L. Donley is driving a new Chevrolet roadster which he purchased from the Perryton Chevrolet Co.

Mr. and Mrs. G. C. Castleman visited with relatives at Sentinel, Oklahoma last week end.

B. L. Barnes of the Wawaka community was trading here last Wednesday.

Tom Hoghland of the northwest part of the county was transacting business here last Monday.

A. M. Mills of Wichita, Kansas was a business visitor in this city the fore part of the week.

Roy Hoghland of the northwest part of the county was trading here last Wednesday.

Mrs. Ida O. Rifenberg returned on Friday of last week from a visit with her daughter at Woodward, Oklahoma.

THE OUTLOOK FOR FALL BUSINESS

Signs on every hand as well as reports from many sections indicate good prospects for fall trade. From dispatches and financial items covering the country at large the decline in activity thruout the United States reached its low level between the 15th and 20th of July, and from that time there has been a notable gain. According to the last report of the Credit Clearinghouse an increase in general purchasing over the United States amounting to 4.6 per cent over the entire country during the third week of July is recorded. Naturally a lot of people blame the seeming dullness during August on the coming election. Business men in general, however, are becoming more sensible. Business may be draggy in some sections until the opening of the fall season, but on the whole prospects for a better business during the fall and winter months of 1924 are more promising than were those for the earlier months of the present year.

DO YOU SUPPORT YOUR NEWSPAPER?

There is nothing that calls attention and draws people to a town equal to a good newspaper. In order for a man to make a good newspaper he must have the patronage of the people among whom he lives. If he has half-way support it stands to reason that he must make a poorer newspaper, and in doing this every man in town and surrounding country has to bear a portion of the loss. For this reason, if no other, the man who tries to make a good newspaper, should have the support of his own people all of whom reap fully as much benefit from its efforts as he does himself.

Mr. and Mrs. J. R. Strickler came in Wednesday in their car from Enid, Oklahoma to look after their land interests in this county. They own a ranch on Wolf Creek and also several other pieces of property. Mr. Strickler is a firm believer in a brilliant future for this country. He says that the land here is almost identical to that surrounding Enid and that the price and stage of development is about the same as the Enid country when he came there some twenty years ago. Now that land is worth around a hundred dollars per acre so Mr. Strickler says that he can see no reason why the same will not happen here.

Mr. and Mrs. H. C. Wethers of Booker were among the Monday shoppers in this city.

Mr. and Mrs. W. T. Lacey and family have moved into town for the winter months.

W. M. Deck of the southwest part of the county was a business visitor in this city on Wednesday of this week.

Haskell Holland is building a new garage at his residence in the west part of town.

W. B. Lilly is building an addition to his residence in the west part of the city.

W. D. Tenney of the Panhandle Lumber Co. made a business trip to Felt last Wednesday.

Mrs. W. D. Tenney and little son, Jack, visited with friends at Booker last Wednesday.

Harvey Carter of the Grand Valley country was a business visitor in this city the latter part of last week.

10 Reasons Why You Should Prefer

for Economical Transportation

Chevrolet is modern in appearance. All models are of stream-line design, and fine, durable finish. Closed models have genuine Fisher Bodies.

Chevrolet is modern in construction. It has standard sliding gear transmission, Remy electrical equipment, modern cooling system, suction fuel feed with tank at rear, demountable rims, safe steering mechanism—in fact all essential engineering improvements found in the highest priced cars.

Chevrolet is fully equipped as sold. We quote prices on complete cars only. Chevrolet is all there, ready for use as soon as you put on your license plates. Compare the fully equipped Chevrolet with other cars, plus their missing equipment, and satisfy yourself which costs least.

Chevrolet transportation averages less cost per mile than that of any other car at any price. This cost includes the list price of car, insurance operation, maintenance, annual depreciation and interest on your investment. Why pay more per mile for lower quality?

Chevrolet has the most powerful motor of any low priced car. Its supremacy for hill climbing and hard going is well known. Where there are most hills there are most Chevrolets. Why drive a slow car and hold up the line when it costs less to be a leader?

Chevrolet yields solid comfort in riding. This is due to its long wheel base, correct body suspension on extra strong and resilient vanadium steel springs, well-sprung and padded upholstery, deep seats with ample leg room, and correctly inclined backs. The double ventilating windshield and cool motor make driving a pleasure instead of discomfort.

Chevrolet costs are low because so few hours per year are needed in service stations. Chevrolets are built to stay together, and do not require you to be always near a service station. When adjustments or repairs are needed the Chevrolet Flat Rate System keeps the cost down to the minimum.

Chevrolet is a quality car. You are proud to tell of your ownership of a Chevrolet. Your Chevrolet tells the world that you appreciate modern quality and are a good judge of values.

Chevrolet is built for safety. It steers firmly and easily and the steering gear will not lock itself. It holds to the road even at high speed on gravel. Its braking power is ample. It is easy to handle and accelerates so quickly it enables you to get out of a bad position promptly. It is one of the few cars granted Class A rating by insurance underwriters.

Chevrolet is easy to buy and easy to trade. In buying a home, you always consider what you could get for it if you ever wanted to move. Be sure the car you buy has a good trade-in value, so that when the time arrives to get a new one, you can make a good deal. Chevrolet's trade-in value is high because of the big demand for this well-built, long lived automobile.

which is published the final vote of the nation-wide presidential election. The Herald furnishes some very interesting figures for political posters. Approximately one million votes were cast in 45 states, the popular vote being Coolidge leading with 375,940, La Follette's 283,703 and Davis's 280,582.

This Presidential poll is particularly interesting inasmuch as it is the only vote taken which indicates the small town and community sentiment. Both the "Literary Digest" and the Hearst's Newspaper polls are more representative of the big city and large town sentiment.

The tabulation of the votes by states and the arrangement in the electoral column, as published below, furnish many points for discussion—none of which, of course, can be proved until the final official votes on November 4 have been counted.

Davis gains on La Follette in the popular vote during the last two weeks of this vote, can be accounted for in the number of Southern states which sent in returns. The "Solid South" is voting true to form and there seems to be no spot where the Third Party ticket cut in to take Democratic votes. Missouri has come to be classed as a "Border state." Here La Follette seems to be making quite a showing.

Of the three states which did not vote, Maine—as indicated in the recent primaries—will go to Coolidge. The Democrats think they will carry Delaware. How Arizona will go, no one seems to know.

Assuming that the different states will vote as indicated in the Herald

-- PIONEERS OF PROGRESS --

There was a time in the early pioneer days of this state when the services of a bank were used only for occasional important transactions.

Since then, the ever-increasing demands of modern business have made the various functions of the bank a necessary part of everyday life.

Banks are truly Pioneers of Progress in their relation to the up-building and advancement of every community.

The Perryton National Bank

"THERE IS NO SUBSTITUTE FOR SAFETY."

Does This Prove It?

EVERY DAY OF THE WEEK there are nine dollars in bank checks used to every dollar of actual cash that changes hands.

The reason for this is not hard to find.

When bank checks are used they represent money that remains safely in the bank. The risk is eliminated. Checks are also far more convenient and business-like.

Every cancelled check is a valuable record of the transaction—a perfect receipt for payment and proof in case any question ever comes up concerning it.

The checking system is most popular because it is the best method ever devised for handling money.

Don't be satisfied with bad business methods.

Come in and talk it over.

**NATION OF IMBECILES.
GOOD START, BAD END.
WASHINGTON'S TEETH.
RELIGION IN SCHOOLS.
TO BE RICH AND USEFUL.**

At Dayton a lighter-than-air flying machine carried up with it a small airplane, as a fish hawk carries up a fish. Two thousand feet up the little airplane was released by the big Zeppelin and went flying off on its own account. That's interesting in this country which has made no preparation to meet the danger of invasion through the air.

Imagine a similar machine, ten times as big, leaving the coast of Asia, or Europe, carrying beneath it a dozen high powered bombing machines. Imagine that big ship coming out of the early morning sky, releasing its brood of swift destroyers - to wreck cities - the mother ship and the little ships subsequently landing on safe neutral ground in Canada.

This nation will have the world's greatest fighting fleet of airships soon, or the United States of 1924 will be known in later history as "THE NATION OF IMBECILES."

In the Middle Ages not only men but animals were tried for murder when they killed a human being and, if "guilty," were executed. On a certain occasion a sow, with her litter of suckling pigs, had killed and eaten a young child. The sow mother and her offspring were tried in court. The sow was condemned to death, the little pigs were spared, on the ground that "because of their extreme youth they could not be held responsible."

Some murderers have been hanged in the United States, with intelligence not far above that of

the suckling pigs spared by mediaeval justice.

Among letters by George Washington, to be sold in London, one to his Philadelphia dentist tells how much trouble Washington had with his false teeth. They were strung on wires and got loose. They looked about as natural, when he wore them, as a set of small golf balls, being cut out of solid ivory.

Civilization does not realize what it owes to dentists and oculists, good false teeth and good spectacles.

Think of the ancient Greeks, to whom false teeth and eyeglasses were unknown. The marvel is that so many of them lived to be old.

In a California decision, the State Attorney-General forbids, in public schools, even the Lord's Prayer, in the way of religion. There is no doubt that the public school system should teach the three R's and other positive knowledge, leaving religious teaching to the discretion of parents.

It is wise to keep all religious teaching or favoritism out of public schools. On the other hand, it is unwise, and an outrageous interference with the rights of parents, to tell them that they cannot, at their own expense, send their children to private or parochial schools where religion is taught—provided that educational requirements are met.

Young man, do you want to be rich and useful? Learn something about electricity and try to invent a light storage battery. Electricity, which in itself weighs nothing, will not always be carried about stored in heavy metal, weighing as much as the vehicle that the electricity propels.

Don't be discouraged by the fact that you are not an electrical engineer or a scientist. Sometimes knowing too much about a thing prevents seeing its possibilities clearly.

The man who invented the sewing machine couldn't sew. His whole idea was putting the needle's "eye" at the point of the needle instead of at the other end. An expert seamstress would have said, "That's nonsense."

A Filipino laborer, working in the Hamakua sugar mill, is dead of bubonic plague in Hawaii.

Three rats infested with the plague have been caught.

How soon will our exalted civilization, which gladly spends thousands of millions to kill other human beings, spend the few necessary millions to get rid of rats and other disease-spreading vermin?

Mrs. Ida Hagerman and family who left this city a few weeks ago are now located at Wellington, Texas and have ordered the Herald sent to them at that place.

Paul Records killed a sea gull at the Records farm north of town last Tuesday. There are lots of gulls in this country but one seldom sees one of the salt water specie.
