

10 Cent Cotton Loan Now Available To Farmers

Farmers Are Asked To Wire The Governor

Word came from Senator Arthur P. Duggan, in Austin, that in a conference with Governor Ferguson, he was unable to get her to say she would sign the Pink Boll Worm bill as recently passed by the Legislature, to pay farmers of this section for what they had been out in the enforcement of pink boll worm regulations a few years back.

SUGGESTION: Everybody, wire or write Governor Ferguson immediately urging her signature to this bill. It means suffering in this county and more relief and charity necessary if she fails to sign this bill. It is a just claim and should be paid. The responsibility is now resting on the Governor. If she says "no" she invites more suffering in this section and declares to the world that the State of Texas will not pay her just claims. Further, she repudiates a public promise made in good faith during her last political campaign for Governor from the band stand on the court house square at Lamesa that she would approve such a bill if passed by the Legislature.

Citizens of Dawson County, get busy NOW!!

Good Will Trippers Have Big Time At Lou Last Thursday

The good will trippers were received at Lou last Thursday night by a large crowd, and an excellent and enjoyable program was given. Cecil Speck, manager of Bryant-Link company, had charge of the arrangements of the program. It was full of fun from first to last, and Cecil demonstrated his ability as a Master of Ceremonies.

Conway King and his orchestra entertained as the crowd gathered, between program numbers, and with grand finale. Mrs. Matt A. McCall arranged several comedy numbers by her high school girls. Among them—and they were all good—the cake goes to Margaret Flaniken and Elizabeth Arnett. They each gave comical readings which brought the house down. Marjorie Ferguson went over big again with her famous "Mountain Music" air. Of course she was encored.

Richard Crawley gave a cornet solo and many said it was the very best cornet solo they had ever heard.

Dyre Kirk responded to the elaborate welcome given by one of Lou's outstanding citizens, "Mayor Swede Johnson". Kirk gave a Norwegian sermon which kept the crowd in an uproar and caused Swede Johnson to wonder if Scandinavian blood did not flow from the veins of Kirk also.

But the knockout of the program was the address of the Hon. Robt. (Bob) H. Kirk. Bob has a good one and he put it over big. When he was through, the crowd yelled for more but no more was to be had, as Bob gave it all the first time.

Although Lou does not have a modern brick school house, she has a 3-room frame building, and the entire community is proud of it and her school and community spirit.

Lou is a wideawake community, and under the leadership of Frank Mears and Swede Johnson—Lou's sheriff and Mayor respectively, and known as the "inevitable pair"—is getting things done.

At this meeting, people were present from Lou, Shacktown, Pride, New Moore, Ashmoor, and other communities in that section. According to the leading citizens of the Lou community who attended this program, much good was done for both Lamesa and those attending the program. A fine good will spirit was generated which will result in Lamesa merchants getting more business from that section and better and lower priced merchandise to all who come from these communities to trade with Lamesa business men. Lou people do not believe in mail ordering. They believe in keeping their money in their home county. All their population—Lou, Shacktown, Pride, New Moore, and Ashmoor—can be expected to be in Lamesa next First Monday, November 6—Trades Day. Then they will get hundreds of bargains from Lamesa stores—and tickets to the big show at 4:00 p. m.

LAMESA POLO TEAM WINS AT ARLINGTON

The Lamesa Cowboy Polo Team won over the Dallas White team by a score of 11 to 4 last Saturday afternoon, at Arlington, in the first game played in the Third Annual Fall Tournament, and the Hoot Gibson Challenge trophy.

We are giving the following exactly as it appeared in the Sunday Star-Telegram.

"The tournament started Saturday afternoon, when the hard-riding Lamesa Cowboy Polo team, captained by Sheriff Gus White, and including Jay Floyd, former Midland star, Elmo Smith, A. C. Woodward, Len Parkerson and Bryan Fulkerson, all of whom are deputy sheriffs under White, overwhelmed the Dallas Whites.

The Lamesa team, every member of which is a clever rider received a one-goal handicap at the outset, under handicap rules, but the West Texas hurricanes didn't need the single marker. They scored at will and left the ball within scoring distance each period. Dallas scored two goals in the first period, and a single marker in the sixth and seventh. Lamesa scored in every period, excepting the last two, when the ponies tired. Floyd was high man for the victors with four goals. Fulkerson tallied three times, Smith two goals and Woodward one.

The local team will play the other Dallas team, this afternoon Thursday and if they win, which we are sure they will, they go to the finals. They have already done excellent playing only to have started the team about one year ago.

Hope To Change Date Of Slaton Football Game To Nov. 10th

Business men working with school authorities, hope to be able to change the time of the Lamesa-Slaton football game from Saturday afternoon, November 11, to Friday afternoon, November 10, according to the latest negotiations.

F. T. McCollum, principal of the high school and coach for the Golden Tornadoes, thinks this change can be made.

Business men are in the habit of closing their stores for this game and other November 11 features, but inasmuch as November 11 comes on Saturday this year, they are making plans to observe Friday afternoon, November 10, at which time they will close their stores in the event the change in the date for the game is effected. A specific announcement on this matter will be made next week according to those in charge working on it.

Mr. and Mrs. Walter Harold Collins and daughter Kay visited Mrs. Collins parents, Mr. and Mrs. W. M. Perry in Lubbock Sunday.

CONTRACT BLANKS EXPECTED THIS WEEK

Under a plan announced this week by S. A. Debnam, local county agent, farmers of this area will soon have the opportunity to secure an advance of ten cents per pound for this year's cotton regardless of the market price.

Beginning Monday the Agricultural Adjustment Administration began lending this sum on the present crop provided farmers securing the loans agree to the government's cotton reduction plan for 1934.

Would Increase Value Acceptance of the loans by the majority of the farmers of the area will add several hundred thousand dollars to the value of the South Plains crop this fall. The present price of cotton (Monday) ranges around nine cents, so that the additional one cent per pound will make quite a difference when added to several bales.

Mr. Debnam states that a cotton classifier will be stationed at the compress, where all cotton may be classed. The loans can be made as soon as the contract blanks are received, which are expected some time this week. Farmers have been warned not to sell their cotton for less than the government advance. This ten cent advance will be made on cotton classing low middling or better with a staple 7-8 inch or better. An advance of eight cents will be made on cotton classing below low middling or shorter than 7-8 inch staple.

C. T. Henry, arrived in Lamesa late Wednesday to take up the duties of the Texas Co-operative Association, and will be official cotton classifier, with office at the old co-op office at the Compress. Mr. Henry stated that he would handle all cotton loans and would be ready to make these as soon as contracts and blanks are received.

Mr. Debnam states that a cotton classifier will be stationed at the compress, where all cotton may be classed. The loans can be made as soon as the contract blanks are received, which are expected some time this week. Farmers have been warned not to sell their cotton for less than the government advance. This ten cent advance will be made on cotton classing low middling or better with a staple 7-8 inch or better. An advance of eight cents will be made on cotton classing below low middling or shorter than 7-8 inch staple.

Must Give Note The producer who signs for a loan on this year's crop will be required to give a note for the loan. However, there will be no liability on his part in case the cotton is eventually sold for less. A farmer does not have to be a member of the association to receive a loan on his cotton.

In order to speed and simplify advances, farmers wishing to secure loans are asked to have their cotton at the nearest bonded compress where they can secure cotton compress tickets and samples. These tickets and samples are to be given to the branch manager of the association. Mr. Clark in our case, and he will be able to handle all details incident to making the loan. All compresses in this area will be warehouses for the cotton on which loans are made.

Dr. N. H. Price Now Associated With Dr. J. C. Loveless

Dr. N. H. Price, formerly of Big Spring and Boston, Mass., arrived in Lamesa the first part of this week, to do general practice and surgical work. He will be associated with Dr. J. C. Loveless at his hospital and clinic.

He then entered the Boston City Hospital where he did surgical work for sixteen months. From this hospital he went to the Hartford Hospital, Hartford, Conn., where he did work in all departments for 22 months. For one year he was resident physician and surgeon in the Hartford City Hospital, and then for the past year served as assistant surgical resident doctor in the Memorial Hospital in Baltimore, Maryland, and doing private practice with Dr. J. J. Thompson in Boston.

Rice is Defendant, and said petition alleging that the plaintiff has been a bonafide inhabitant of the State of Texas for over one year and has resided in said county for over six months, next preceding the filing of the plaintiff's petition; that plaintiff and defendant married on March 7th, 1933, and separated on April 12th, 1933, and since said separation have not lived together nor cohabited as husband and wife; that although plaintiff treated defendant as a loving wife should, defendant was guilty of excesses, cruel treatment and outrages toward plaintiff, such ill treatment being of such a nature as to render their living together unsupportable; that defendant drank to excess, making him cross and irritable, so that he cursed plaintiff, abused her; that he was excessive in his demands upon her, all of which greatly distressed plaintiff and caused her suffering, both physical and mental, so that she cannot and will not live with defendant; that plaintiff desires her maiden name, Lois Spruill, restored to her.

JUST BEIGE BROWN TAUPE BISCAYNE SMOKE FRIAR BROWN

Don't these names suggest rich, full-toned shades? Don't they sound new, different? Yet, they aren't half as intriguing as the beautiful Humming Bird colors themselves. You have to see them to know how rich they are, how well they blend or contrast with clothing and accessory colors.

And when you see these colors and realize they are combined with traditional Humming Bird sheerness and wear, you'll decide on Humming Birds for Fall.

November Designated As Library Month

A majority of the library trustees met in call meeting Monday at 2:30 p. m. in the public library to discuss and make plans for the extensive drive during November. All were enthusiastic over the prospects for a very successful campaign.

The aim for this drive is one hundred dollars—cash, one thousand cans of vegetables, meat and fruit, and one hundred good books in good condition.

In connection with there being no membership fee after the campaign, another very worthwhile forward movement is the providing of a rental shelf containing only the most carefully selected late books. F. T. McCollum was named chairman of this committee. He will choose two other people to serve with him in the selection of these books.

The committee is asking that teachers of the county cooperate in this movement by urging the children of their respective rooms to each bring one can of food into the library on library days. A record will be kept of the communities responding, also the names of the children. We wonder which school will be 100 per cent for the library.

On the morning of November 1st several containers will be placed in various business houses where people may drop their spare pennies for the library.

Lets all get behind this movement and make it the best library in West Texas.—Trustees of Public Library
