Chamber To Elect Board Members

Ballots have been sent out by the Chamber of Commerce to Colorado City businesses this week to select five new members for the Chamber board of directors.

The new directors will serve three-year terms. Those whose names appear on the ballot are Mrs. Don (Shirley) Delaney, assistant vice president, City National Bank; Rick Bautista, Southwestern Bell Telephone Co.; Billy Bob Hardee, local manager of Texas Electric Service Co.; Delbert Lewis, E-Z Way Superette; Bill Simmons, high school teacher and owner, with his wife, of Mary's Flowers.

Other names may be written in on the ballot, said Sefton Pickens, director of the Chamber. The ballots should be sent to the Chamber office before Dec. 10, he added.

Results of the election will be canvassed after Dec. 10 and new officers will be elected by the new board in a special called meeting, explained Pickens.

Out-going members of the board are Ray Anne Carlock, Rick Perkin, Kenneth Rogers, Don Timberlake and George Witten.

Other members of the board of directors are Murrell Blassingame, Billy Bruce Bridgford, Bob Chalker, Nelda Garrett, Kent Gentry, Don Hodges, Bobby Lemons, John Martin, Eddie Piland and Glenn Thomas.

The nominating committee is composed of Eddie Piland, Bob Chalker and Don Hodges.

New board members and officers will be installed at the Chamber of Commerce banquet in January.

Pickens said that a speaker for the Chamber banquet had not yet been confirmed, but would be by the Dec. 14 deadline for getting a speaker. He felt sure that confirmation of a speaker would be completed by the deadline.

Lone Wolf Tourney Opens This Morning

The Lone Wolf Tournament starts today (Thursday), the first game to be played at 10 this morning in Wolf Gym.

There will be eight games today and eight on Friday and on Saturday.

Two brackets are set up for the tournament, one for Varsity teams and one for Junior Varsity teams.

Teams are entered from Ft. Stockton, Hamlin, Seminole, Pecos, Post, Coahoma, Ballinger and Colorado City in the Varsity bracket.

The Junior Varsity bracket will see action from Hamlin, Seminole, Stamford, Coahoma, Ballinger, Post, Throckmorton and Colorado City teams.

Pecos is the defending champion in the Varsity grouping and either Pecos or Seminole might be considered favorites, said Wolves coach Dean Ingram.

Pre-tournament favorite in the Junior Varsity schedule is Throckmorton, but each team is going to be playing for the championship trophy.

Tickets for the tournament will be $.75 for students and $1.25 for adults on Thursday and Friday. Saturday's finals games tickets will be $1 for students and $2 for adults, except for Saturday night's final action, when the price will again be $.75 students and $1.25 adults.

Spectators will get to see eight games of basketball each day or may come and go as they choose. Tickets are good for one full day's games.

Today's games in the Junior Varsity bracket are:

--11:30 a.m.- Hamlin vs. Seminole;
--2:30- Stamford vs. Coahoma;
--5:30- Colorado City vs. Ballinger;
--8:30- Post vs. Throckmorton.

The Varsity bracket games today are:

--10 a.m.- Ft. Stockton vs. Hamlin;
--1 p.m.- Seminole vs. Pecos;
--7 p.m.- Post vs. Colorado City;
--4 p.m.- Coahoma vs. Ballinger.

Friday's semi-finals and Saturdays finals games also begin at 10 a.m. and continue through the day, with the Junior Varsity championship at 7 p.m. Saturday and the Varsity championship at 8:30 Saturday night.

Trophy

Colorado City Varsity basketball coach Dean Ingram holds one of the trophies which will be presented to winners in the Lone Wolf Invitational Tournament, opening here in Wolf Gym today. Eight games will be played today (Thursday), Friday and Saturday.

Parade

A Christmas parade was part of the downtown promotion held last Saturday in Colorado City. Top picture shows the six pretty girls on six white horses from Hardin-Simmons University in Abilene, leading the parade. First prize winning float, entered by the Business and Professional Women, is shown in the second picture, followed by the second place Zeta Delta float and the third place Brownie float in the third and fourth pictures. Bottom picture shows some of the decorated bicycles entered in the parade.

Community Committee For ASCS

Mitchell County farmers and ranchers have recently sent in their ballots to vote on new members for the community committee. The votes were canvassed Wednesday morning by the county committee with the following results:

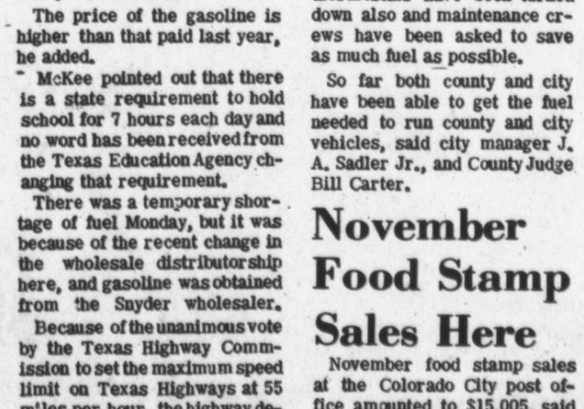

Community A-Harry Dockrey, A Preston Morris and Louis Rees;

Community B-Raymond Watlington, Hubert Meadows and R. B. Golden Jr.;

Community C-Lee Roy Cormutt, Grady Mitchell and Stanley Moore.

The county convention will be held Dec. 12 and a new committeeman will be elected to replace Edward B. Roach, who has served as committeeman for the last 14 years.

The announcement of the results of the election was made by Don Stewart, executive director of the Agricultural Stabilization and Conservation Service, who explained that the community committee serve for one year terms and are elected by the people they will serve.

New Face

Pat Fuller is the new police officer with the Colorado City Police Department. He has been a Colorado City resident since his family came here from Austin in 1952 when he was 2 years old. He is a 1968 graduate of Colorado High School, did two hears of active duty in the Navy and attended Howard Co. Jr. College for a time. He will be a May graduate from Western Texas College in Snyder, earning an associate degree in law enforcement. He has also worked for the Texas Department of Corrections in Huntsville.

Schools Receive Less Gasoline

No changes have been made yet in the operation of the Colorado City schools because of the fuel shortage, said Supt. Lloyd McKee, although the amount of gasoline received by the schools is 10 per cent less than last year's amount.

The price of the gasoline is higher than that paid last year, he added.

McKee pointed out that there is a state requirement to hold school for 7 hours each day and no word has been received from the Texas Education Agency changing that requirement.

There was a temporary shortage of fuel Monday, but it was because of the recent change in the wholesale distributorship here, and gasoline was obtained from the Snyder wholesaler.

Because of the unanimous vote by the Texas Highway Commission to set the maximum speed limit on Texas Highways at 55 miles per hour, the highway department here will probably be changing the speed limit signs in Mitchell County soon. The change-over could be complicated by a legal hassle over the constitutionality of the commission's decision.

City and county officials are doing all they can to conserve the comsumption of energy. There will be no Christmas lights in the city this year, and many citizens are planning to have lightless Christmas trees.

Unneccessary lights in the halls of the courthouse and city hall have been switched off. The thermostats have been turned down also and maintenance crews have been asked to save as much fuel as possible.

So far both county and city have been able to get the fuel needed to run county and city vehicles, said city manager J. A. Sadler Jr., and County Judge Bill Carter.

November Food Stamp Sales Here

November food stamp sales at the Colorado City post office amounted to $15,005, said Postmaster Arlene Morris.

The people who purchased this amount of stamps greatly increased their food-buying dollar, as they paid $6,461.75 for the stamps.

The amount each family pays for the stamps they buy varies in each case, so that the families in greatest need pay less for the stamps.

Santa To Visit

$150 Still Unclaimed

Santa Claus will be visiting boys and girls in downtown Colorado City on the next three Saturdays.

The fifty-five merchants who are sponsoring the cash giveaway of Christmas dollars are also having Santa to visit in their stores.

Santa Claus is also expected to be present at the drawings to be held the next three Saturdays on the City National Bank parking lot at 4 p.m.

The fifty-five sponsoring merchants are giving ticket stubs to their customers for each Saturday drawing. Winning ticket holders have until 5 p.m. the Wednesday following the drawing to check the list of winning numbers posted in the participating stores and claim their money.

Some of the winners may be present at the drawing to collect their money in person, just like Miss Tommie Terry did this past Saturday. She won $25. The other winning ticketholders have not yet claimed their prizes. If they do not claim it will be added to the pot for Saturday's drawing.

Some little boys and girls may have been disappointed that Santa Claus was not throwing candy from the fire truck during last Saturday's parade. Last year someone almost got hit in the eye and Chamber officials were afraid that someone might get run over. Since Santa will be visiting in the stores for the next three Saturdays, every boy and girl will get to see him and tell him about their Christmas wishes.

Mrs. Gladys (Happy) Williams, 62, died in Shannon Memorial Hospital in San Angelo Wednesday morning.

She is survived by her husband of the home; two daughters, Mrs. Gayle Miller of Richardson and Mrs. Jan Heno of Bryan; a son, Charles of Houston; two sisters, Mrs. Dovie Crenshaw and Mrs. Mary English, both of Stephenville; a brother, Charles Sanders of Farmington, N. Mex. and a grandchild.

Car Burns, Kills Youth

A tragedy occurred on Interstate 20 just east of Colorado City early Sunday morning, a direct result of the gasoline shortage.

Steven E. Bingham, 18, of Monahans was killed when the 1968 Ford he was driving hit a guardrail and burst into flames. He was carrying gasoline in four metal cans in the trunk of the car and the sparks from striking the guardrail caused an explosion and fire of such intense heat that parts of the car melted.

Bingham was headed east on Interstate 20, six and a half miles east of Colorado City, enroute to joining his family in Comanche, when he apparently lost control of the car and struck the guardrail. The automobile swerved across the median and struck the guardrail in the westbound lane, sliding along the rail for about 20 feet, according to Highway Patrolman Marvin Keenan, who investigated the accident about 5:55 a.m. Sunday.

Bingham was trapped inside the car as fumes from the gas-

Television Ministry Seeks Pastors

The 700 Club television-telephone counselling ministry which broadcasts on Channel 39 in Dallas and is seen on local cable television systems in this area is looking for ministers to assist in counselling.

"We need to have one or two ministers in the Colorado City area to follow up on the counselling calls we receive from there," said Rev. Bill Ivey, director of Operation Discipleship which puts viewers who need in-depth counselling in contact with Christian groups and ministers in their home towns.

"When the 700 Club is on the air, we get a number of calls for prayer and help from this area," he said. "We always like to have a pastor in their home town who they can turn to for help. We are particularly expecting a large influx of calls this coming Friday through Sunday, Dec. 7, 8 and 9th," he said. "Our telethon will be in progress then. We normally get three or four hundred calls per day, but during a telethon the number of calls for prayer and counselling skyrockets into thousands."

The 700 Club television program is broadcast twice daily at noon and again at 7 p.m. on the local cable channel which carries Channel 39 programming. During the show, viewers are urged to call volunteer counsellors in the studio for help and prayer, and are referred to local ministers for in-depth counselling, if it is needed.

The number of calls remains on the increase, according to Rev. Ivey. "Since we changed our channel frequency from Channel 33 to Channel 39 in mid-November," he said, "We've picked up more than 60 new towns and cities in Texas and surrounding states receiving the broadcast on cable television systems," he said. "Since we have not established contacts there, we're anxious to hear from pastors interested in volunteering their time to this most rewarding aspect of the ministry."

Pastors interested in the outreach are requested to call Rev. Ivey or Rev. Gene Downs at Channel 39, 214-521-3900, or write to The 700 Club, Box 19307, Dallas, Texas.

What TESCO is doing to provide the electricity you'll need:

We're diversifying the fuels we use to generate electricity.

It's necessary, but expensive.

Natural gas is the major fuel for our generating plants, with oil used on a standby basis. Both are in increasingly short supply.

To reduce our dependence on natural gas and oil, we began several years ago to diversify to lignite and nuclear fuels which are not used extensively for any other purpose than the generation of electricity. We now have one East Texas lignite coal plant in operation and two others under construction. But plants that can use lignite cost about twice as much to build as gas-fueled plants.

Because there is also a limit to available lignite supplies, a nuclear-fueled plant, which will cost more than three times as much as a gas-fueled plant, is scheduled to be in operation by 1980.

In the next five years Texas Electric must spend more than $700 million on new construction, as much as we have spent in the last 21 years combined. The only way we can finance these much higher costs and provide the electricity that our customers depend on is to obtain rate increases when they are needed. We have such a need now and plan to ask the cities and towns we serve to approve an increase in electric rates in early 1974.

We are working to supply the electricity you need, but it will have to cost more in the future.

Round-up Of Birthdays

A round-up of birthdays for special people was made last Saturday and birthdays for William Cotton, Mike and Mark Murphy of Ira; Dan and Don Fox of Dunn; Jeff Ellis and his mother Mrs. Jackson Ellis of Colorado City were celebrated at an outing at Katy's Rock on the Colorado River.

Although Mrs. Jackson Ellis was unable to attend the outdoors activities die to her husband's recent surgery, she celebrated in her home with Wright and Jude Huddleston.

Also on the outing to Katy's Rock were Mrs. Lynn Fox, Mrs. Bill Murphy and Mrs. Ruth Weathers.

The partyers had a slingshot shooting contest, then had roasted weinies and chile on buns, roasted and sometimes burned marshmallows, potato chips and a Western chocolate birthday cake with names and candles.

After they had eaten, the boys blew soap bubbles, and a soft breeze down the river blew the many bubbles up and away over the boulders and cedar trees, rainbows glestening. Colored balloons were fun, especially when one would go pop! in a prickly pear bed.

The boys collected keepsakes of river rocks and mistletoe, as the adults took their own keep-sake pictures, to file away for enjoyment many years from now.

Dan Fox narrated a puppet show, "The Two Wives."

oline exploded. The Colorado City Volunteer Fire Department removed his body from the wreckage.

Justice of the Peace Leonard Henderson inspected the scene of the accident and ruled Bingham's death accidental. One of the cans was thought to have only a rag as a stopper to close it.

Law enforcement officials here have issued a warning to motorists about carrying gasoline in containers, especially any kind of container other than standard gasoline cans. Any kind of container is dangerous when gasoline is involved, as the fumes from gasoline are especially explosive, one gallon of gasoline equal in power to six sticks of dynamite, said J. C. Hall Jr., with the Loraine Volunteer Fire Department.

Make this a Christmas shared

Remember all the Christmases
You've shared throughout the years,
With friends and loved ones
near and far away.

It didn't matter where you were

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Not True Any More . . . Egg Production Up and Down . . . Sheep and Lambs on Feed About Steady . . . Cattle, Calf Sales Increase.

Time was when the majority of the beef breeding herds in the state were in West Texas, but this is not true any more. Almost 60 per cent of the Texas beef breeding herd is located in the state east of a line running from Fort Worth to San Antonio and then southeast to Kleberg County.

East Texas is now the home of the biggest percentage of beef cows in the state with 21 per cent. The Blacklands are second with 16 per cent followed closely by south central and coastal bend areas with 15 per cent; the Valley and South Texas account for 11 per cent. The West Texas areas, where at one time the big cattle herds roamed, account for barely 30 per cent of the state's beef breeding herd.

EGG production in Texas during October, the Texas Crop and Livestock Reporting Service notes, is two per cent below a year ago but four per cent above last month.

Nationwide, production was up four per cent from September.

ONLY a one per cent decline in the number of sheep and lambs on feed in Texas is noted during November. Texas sheep and lambs on feed as of Nov. 1 totaled 209,000 head.

Sheep and lambs placed on feed during September and October totaled 197,000 head, up nine per cent from a year ago. Marketings of feed sheep during this period totaled 129,000 head, down nine per cent from a year ago.

SALES of cattle and calves in Texas during October are 26 per cent above a month ago. Sales of sheep are 41 per cent above a month ago and sales of goats are 36 per cent below last month.

Cattle and calves marketed through auctions in the state during October totaled 760,000 head, down six per cent from a year ago, and 26 per cent above a month ago.

Sheep sales totaled 106,000, up four per cent above a year ago and 41 per cent above a month ago.

Goat sales totaled 21,000, or 43 per cent below last year and 36 per cent below last month.

Hogs sold during October at 48,000 head were seven per cent above a year ago and 30 per cent above last month.

DON'T forget. If you are one of 75,000 farmers or ranchers in Texas who have received or will receive shortly a crop and livestock questionnaire from the Texas Crop and Livestock Reporting Service be sure to fill it out as accurately as possible and return it promptly.

You'll be doing your part to make sure that a complete and accurate picture of Texas agriculture is obtained by cooperating in this venture.

Proper Preparation And Cooking Of Deer

The cook and hunter must work together to achieve high-quality, tasty deer.

"Preparation--in the kitchen as well as in the field--requires some special rules," Mrs. Janis Choate, County Extension Agent, emphasized.

"For one, cooking method depends on age of the deer. Animal age has a direct bearing on tenderness--with older, poorer animals being less tender than young ones.

"Young, tender game can be over roasted, broiled, pan-broiled or fried--all methods using dry heat. If meat is lean, basting with fat may be necessary.

"For best results, prepare older, less tender game using moist heat--by braising, stewing or simmering.

Braise Swiss steaks and pot roasts. In other words, add a little liquid to the meat and cook in a covered container. Long, slow cooking tenderized meat without drying it out," she said.

"Flavor, on the other hand, is influenced by cooking procedure, condition of the game and handling in the field.

"To possess good flavor without undesirable gamey tastes, the animal must be handled properly in the field.

"Proper cleaning and quick cooling are key field-handling operations.

"A well-placed shot in a vital area--without hitting the animal's intestines or paunch--is a must.

"As soon as the animal is down, it should be drawn," she explained.

Position the animal with its head uphill. Then make a ventral cut from base of the tail to the breast bone--taking care not to slash intestines or stomach.

Roll out viscera and wipe body cavity with clean cloths or paper towels. Don't use water in this procedure.

Suspend or hang the carcass to facilitate quicker cooling. Quick cooling delays spoilage.

Cover the meat with muslin or cheesecloth bags to protect it from flies and dust--yet allowing air to circulate. Don't use heavy tarpaulins or airtight bags because they keep body heat in and slow down cooling.

"Loading and transporting the carcass also plays a crucial role in quality of the final product," the agent said.

"Recommended procedure involves carrying the deer--wrapped in protective cloth--on top of the car. During cool days, the car trunk also may be used safely.

"Never carry the animal on car or truck hood and fenders. Heat from the motor and sun can counteract all previous good care--and result in spoilage."

For more information, ask the county Extension office for bulletin (B-987) "Wild Game--Care, Cooking" and leaflet (L-634) "Field Dressing a Deer." There is no charge for single-copy requests.

Colorado Jr Hi Chatter

A Christmas play, The Devil and Santa Claus; a farce comedy in one act by Smith E. Wood, is being cast now. The play will be presented by Mr. Moore's speech class, Section D, to the school on December 21.

* * *

The Junior High Band participated in the Christmas parade last Saturday. They did an excellent job, and really looked sharp in their new red blazers. We are very proud of our band and our director, Mr. Bob Newman.

* * *

Teacher Profile of the Week-Mr. Dulin:

Mr. Don Dulin, principal of Colorado Junior High, was born in Colorado City August 3, 1934. He moved to San Antonio when he was in the 2nd grade and moved back to C. City in 1967.

He received his college education at North Texas State, in Denton, Texas. He holds a Bachelor of Science degree, Masters of Administration and has worked some on a doctor's degree.

He married Patricia Crisler of Lebral, Kansas. They have two children, Julie, a Sophomore in High School and Don, an 8th grade student.

Mr. Dulin has served as principal in Jr. High, elementary and High School for a total of 10 years. He also coached at different schools for 9 years and has also taught several different subjects.

Colorado City should feel very fortunate in having such a great Jr. High principal. Students at CJH really look up to him as a principal and friend.

* * *

CJH has just started basketball season. We've got great teams, both 7th and 8th grade. Colorado Junior High students are really going to support our teams this year and we'd like to invite you to come and see our boys play.

Monday, December 3rd, the Colorado Junior High 7th Wolves beat Coahoma. The B team played first. It was a fast game with the Wolves winning 16 to 11. Then the A team came out. It was a well played first half, but the second half tho the Wolves really came to life and put it to Coahoma. The Wolves won 29 to 9. Come out and help back our 7th and 8th grade teams. They are great!

* * *

In speech class we are having group discussion. There are 6 to 4 members in each group. The group leader helps the group organize the discussion and helps the group think as a group. Each group picks a topic and then discusses it before the class. Afterwards, we have a question and answer period where everyone takes part. We find this quite interesting.

* * *

You've heard the expression, "Getting out early," a lot, and it just might come true this year. Can you imagine getting out of school at 2:30 and only going 4 days a week! All of this is to stop the energy crisis.

As of last week and from now on the lights in the halls will be cut off to save energy. During Christmas many people do not plan to use electric Christmas lights this year. Many efforts at conservation are being made that should have happened long before now. So, now getting out early is just a possibility.

County Farm Bureaus Awarded

County Farm Bureaus were recognized for outstanding accomplishments in membership acquisition, information and public relations, and safety education during 1973 at the 40th annual convention of the Texas Farm Bureau at Abilene.

A special recognition and awards program, featuring entertainment by noted country-western singing star Jeannie C. Riley, was held Tuesday.

Receiving the award for having done the most to promote farm safety during 1973 was Wharton County Farm Bureau.

Public relations awards were presented to six counties in three membership categories. In the low membership grouping, Tom Green County FB was the winner, and the second place award went to the Colorado County organization. Bexar County Farm Bureau was named first place winner in the middle membership category with Austin County FB in the second spot. Among high membership counties, Fayette County Farm Bureau was named top winner, and second place went to Ellis County FB.

Texas Farm Bureau had its largest membership growth in history in 1973, and a number of county organizations were recognized for their contributions to this growth. The state organization ended its fiscal year on Oct. 31 with 152,380 member families, a new all-time high, with a gain of 15,437. All of the 209 organized county Farm Bureaus in the state gained in membership during the year.

Question:

Will you have enough natural gas for your home this winter?

Answer: Yes!

Let's lay this question to rest once and for all. Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than *four times the price* we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking... just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.
