WOMEN'S CLUBS MAKE REPORTS

County Council Met June 11; Progress Noted In Home Demonstration Work

The county council met June 11. Mrs. Lumsden being absent the meeting was called to order by Mrs. A. L. Fashion. The roll was called by the secretary, and T-Bar, Edith, Midway, New Home, and Wilson were present.

The letter written to the council was read by Mrs. A. L. Fashion.

The culling campaign was discussed. Mrs. Tom Smith reported that the Draw Club had set aside the first and second weeks in September for culling. A motion was made by Mrs. Jeff Higginbotham and seconded by Mrs. Ben Moore that we set aside the month of September for the culling campaign.

A motion was made by Mrs. Jeff Higginbotham and seconded by Mrs. I. M. Draper that our secretary write a card of thanks to the commissioners court for their loyalty toward us in raising Miss Halsey's salary.

A motion was made by Mrs. Ben Moore and seconded by Mrs. Cowan that our secretary send Miss Halsey a word of appreciation and tell her how we missed her in today's meeting and how we wish for her a speedy recovery and soon to return home.

(Continued on back page)

Barry Miller Is Acting Governor In Moody's Absence

Governor Moody left Texas Monday morning on the "All-Texas Special" as the head of a party of nearly two hundred citizens of Texas on a good-will tour of the cities of the North and East. Upon his exit from the state, Lieutenant Governor Barry Miller was sworn in as acting governor of the state. He will function in this capacity until Governor Moody returns, a week or ten days from this date.

Although Miller is serving his second term as lieutenant governor, this is the first time he has been called upon to function in the capacity of governor, since Mrs. Ferguson never left the state during her term of office.

The purpose of the good-will tour is to cultivate friendly relations with other sections of our country and to lay before the business interests of the North and East the resources and opportunities for investment in Texas, as we understand it.

Making Oil Tests On Central Plains

The Exploration Oil Company announces that material has been ordered for the drilling of a test oil well at Halfway, thirteen miles west of Plainview and that the well will be spudded in at an early date. The drilling contract has been let.

A rig has been unloaded at Abernathy preparatory to drilling a test well near that place.

The well being drilled on the Mullican tract 14 miles southwest of Hale Center is said to have a showing of oil.

A contract has been made to complete the Swisher county well to a depth of 3500 feet. Drilling stopped on this well some time ago at 1600 feet.

Other tests are being made in Castro county.

L. C. Tatum, of Lubbock, district manager for Higginbotham Bartlett Lumber Company, was a business visitor in Tahoka Wednesday.

Miss Donnie Small of Lamesa is a guest this week in the home of G. W. Small.

Simpson Brings In Escaped Prisoner

Jack Burnett, who escaped from the Lyon county jail a few weeks ago, has been captured and lodged in jail again. He was apprehended in Las Cruces, N. M., and Sheriff Simpson went up to Slaton Wednesday night, to which place he had been brought, and took charge of the prisoner.

Burnett is charged with the burglary of a box car on the Santa Fe tracks at this place a few months ago, taking therefrom a quantity of cigarettes valued at $75.00. He escaped from jail a few weeks ago by sawing his way out, using a saw that another prisoner said was found in the bedding.

A SPLENDID FEELING

That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Herbine. You feel its beneficial effect with the first dose as its purifying and regulating effect is thorough and complete. It not only drives out bile and impurities but it imparts a splendid feeling of exhilaration, strength, vim, and buoyancy of spirits. Price 60c. Sold by

THOMAS BROS. DRUG

ACUTE ATTACKS

Of Indigestion Helped By Black-Draught.

Black-Draught was recommended to Mrs. Reathia Edmondson, of Williamson, N. Car., by her father-in-law. She says:

"Shortly after I became a bride, I had a spell of indigestion, and my father-in-law told me to take a dose of Black-Draught. I had never heard of it before, but I tried it, and got such quick relief. I have turned to it ever since.

"About three years ago, I began having acute attacks of indigestion real frequently. I would feel severe pains through the lower part of my body, and they were accompanied by bad gas pains. I took a systematic course of Black-Draught and soon began to feel better. The acute attacks disappeared."

Try Thedford's Black-Draught for indigestion.

You can get it everywhere.

A. & M. COLLEGE TELLS HOW TO POISON OUT GRASSHOPPERS

Reports in various parts of the state indicate that there are small local infestations of grasshoppers, and especially in sections where drought conditions prevail, states R. R. Reppert, Entomologist, Extension Service, A. & M. College. The grasshoppers are moving from the grasslands and doing damage to cultivated crops. It is believed that farmers in some parts stand in immediate need of suggestions in their control as given below.

The formula for poison bran mash to control these insects is as follows:

Coarse wheat bran, 25 lbs.

Paris green or white arsenic, 1 lb.

High grade amyl acetate (avoid cheap grades of banana oil or bronzing liquids) 1 oz.

Cane or sorghum molasses (avoid corn syrup) 2 qts.

Water sufficient to make a moist mash as explained below:

Mix the bran and poison together thoroughly. Dilute the amyl acetate and molasses in about two gallons of water. Pour this liquid over the mixture of poison and bran until every particle is moist. Then make further additions of water and mix thoroughly until a mash is obtatined that is quite moist, yet so it will fall apart after being tightly squeesed and so may be readily sown broadcast.

This quantity of mash should be broadcast so as to cover about five acres. A good practice is to mix at night and sow early in the morning before nine o'clock since the hoppers do not actively feed until the dew rises up. If it is desired to kill hoppers in grass land sow over the entire acreage to be protected. Where they are migrating from fence rows or pastures into cultivated crops sow the fence row or a fairly broad margin of the pasture and also a broad margin of the cultivated crop with the mixture.

Amyl acetate is preferable in the formula but if it cannot be obtained, substitute six lemons for one ounce of the amyl acetate. This should be diluted with water as with the other substance, but one should use both juice and rinds, grinding the latter in a fine food chopper.

Do not place the mash in piles.

Do not use lead arsenate—use Paris green or white arsenic.

Do not use cheap banana oil or bronzing liquids.

CHILDRESS COUNTY ROAD N BOND ISSUE DEFEATED

CHILDRESS, Texas, June 21—The county road bond election here today resulted in defeat for the bonds which lacked just 32 votes of the required two-thirds majority. The vote was 758 for, 395 against, with five precincts holding no election.

Kirkland, a community which is on the Colorado-to-Gulf highway which was to have been paved with the proceeds of the bonds, went against the bond issue 81 to 28, this being enough to bring about the defeat of the proposition. All four Childress boxes went heavily for the bonds.

Success for the bond issue would have assured a hard-surfaced highway from the east line of Donley county to Fort Worth, as all counties except Childress have either paved their portions of the highway or voted bonds for paving.

A combiation of circumstances intervened to prevent the regular services at the Baptist Church Sunday night. In the first place, the pastor was sick and unable to fill the pulpit and in the second place the lights in the main auditorium were found to be out of commission and efforts to locate the trouble were fruitless. The congregation that had assembled therefore dispersed without services, some going to their homes and some to other services in town.

S. L. Forrest of Lamesa, of the Forrest Lumber Company, was a business visitor in Tahoka Tuesday.

Mr. and Mrs. Harley Henderson left Sunday for the Rio Grande Valley, where they will spend the summer buying cotton. They expect to return to Tahoka in the fall.

When ordering bread call for Honey Toast and get a premium for the kiddy with every loaf. adv.

J. Anson Coughran, who had been at Abilene the past few weeks, returned to Tahoka Saturday, donned his working clothes and went out to his farm on the Reiger ranch near Lubbock county line and began farm operations early Monday morning. He is pitching a big cotton and feed crop and hopes to harvest a big yield of both comodities this fall.

RHEUMATISM

If you have it you would give most any price to be rid of it. Here is the answer to your question. RHEUMALAX relieves the trouble by reaching the cause. Is taken internally and not rubbed on. Get a bottle today. Sold and guaranteed by Tahoka Drug Co.

Even Rice Hurt Girl's Stomach

"I had indigestion so bad I was afraid to eat even rice. Adlerika has done me so much good that now I eat anything."—Ardenia Howard.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you will feel. It will surprise you!—Thomas Bros. Drug Co.

Twister Pays Visit To Terry County

The Terry County Herald reports that a small cyclone visited that county Sunday, June 12, striking near Challis school house, a few miles northeast of Brownfield. A congregation assembled at Challis, watching its approach, became alarmed and scattered. Its path was about 100 yards wide, and in this narrow path it pulled up or wrung off fence posts, clipping the wire as if with nippers, seared the grass as if scorched by fire, and swept away all the loose dirt in the plowed fields. No one was injured and there was little property loss. This is said to be the second near-tornado that has visited Terry county, the first one striking near Meadow soon after the Seagraves branch of the Santa Fe was built through the town several years ago.

LUBBOCK SANITARIUM NOTES

(From Lubbock Sanitarium News)

Irene Terry, a 12-year old girl from Tahoka, was brought to the sanitarium last week and was operated on for a ruptured appendix. She is getting along fairly well at this time.

W. A. Tadlock of Wilson, who was operated on recently, returned home Wednesday of last week.

Mrs. P. T. Walker returned to her home last week.

LINDY WELCOMED BY MILLIONS AT WASHINGTON; N. Y.

No King, no victorious emperor, no military hero ever received such a welcome as that which was given Charles A. Lindbergh in Washington and New York recently. Thousands packed the streets in Washington and vociferously acclaimed the hero. But if the welcome in the national capital was wonderful, that in the national metropolis was overwhelming and indescribable. New York's millions turned out to do honor to the man who has performed one of the most spectacular feats of all history. And while the crowds that cheered Lindy in both Washington and New York were wild in their enthusiasm, they were little less vociferous in their greeting of the mother who accompanied him.

Thus far the adulation that is being given him does not seem to have spoiled him and it is to be hoped that he will be able to bear it from here on out without becoming puffed up. He has accomplished a thing that has appealed mightly to the imagination of the people and that is calculated to have far-reaching effects, not only upon the future of aviation but upon the future relations between our country and the nations of Europe. We accord him all honor. Our admiration for him will grow if he continues to bear his honors modestly.

The Texas Electric Service Company has just completed its high line from Big Spring to Midland. The work of extending the line from Midland to Odessa, Crane City, and points i Winkler county will proceed at once.

The City of Roscoe is installing a sewer system. The pipe for the system was arriving last week. Roscoe is a smaller town than Tahoka.

Tahoka Girl In Baylor College Club

BELTON—Texas, June 21—West Texas is the home of thirty three girls who banded themselves together at Baylor College in the fall of 1926 so that they might become acquainted and acquaint others with that great prairie land.

The girls from the cow country chose Helen Watson, Fort Stockton, president; Marguerite McCullum, Haskell, vice-president; Altha McAdoo, Fort Stockton, secretary and treasurer. Pictures of the West Texas Club members are in the Blue Bonnett, year book of Baylor College.

Other members are: LaVerne Baker, Breckenridge; Gussie and Wanda Watson, Ozona; Estella Robertson, New Castle. Willie Mae Reid, Ruth Rainey, Ruby Grantham and Willie Mae Barber, San Angelo; Eula B. May, Sybil and Virginia Myers, Olney; Edna Bennett, Fort Stockton; Edna Poer, Pecos; Maurine Alvis, Roby; Louise Rankin, Abernathy, Lela Lander, Mertzon; Elrys Sparkman and Bernice Lewis, Coleman; Thelma Lee and Helen Norman; Vera Sutherlin, Marfa; Viva Humphreys, Tahoka; Bessie May Humphrey; Clemice McDonald, Kerrville, Charlene Dempsey, Chirsoval. Marjorie Whiteker and Melba Sue Bledsoe, Haskell; Argye Mary McCanlies and Christine Hearn, Eastland; Glenn Richardson, Cisco.

Announecenment is made that the Cole Hotel, which was destroyed by fire a few months ago, is to be rebuilt at Big Spring. It will be a two-story fire-proof structure, 90 by 140 feet in size. The upper story will be used as a hotel while the lower story will be cut up in to spaces for nine business firms.

Many Tahoka people spent Sunday afternoon at Two Draw Lake near Post.

Charley Thompson was in the News office Tuesday and reported that he had 35 acres of maize waist high and looking fine. He also had 70 acres of cotton up and growing nicely, with 30 acres more planted. Charley thinks prospects for a good crop are excellent.

Dudley Simpson returned Sunday from Amarillo, where he spent a couple of weeks. Dudley says that Amarillo is no busier than Tahoka—there are just more people there.

Snyder claims to have the lowest water rate in the state of Texas. Its rate to consumer is $2.50 for the first 10,000 gallons. The supply is said to be inexhaustible.

Ben King and family have moved into the new brick veneer residence recently constructed on the lots where his former home was destroyed by fire.

The American Legion is planning a big celebration at Big Spring on July 4.

The Texas Utilities Company is building a high line from Levelland to Littlefield at an estimated cost of $40,000.

A cotton compress is being constructed at Ralls, Crosby county. A $40,000 sewer system is also being installed there.

Franklin D. Brown, now of Lubbock, was visiting friends here Sunday.

FLOYDADA — Two new brick buildings to serve as business houses will be completed here within the next sixty days. Fifteen new homes, representing an expenditure of more than 40,000 have either been completed or are nearing that stage, since January 1. These bring the total building permits this year to approximately $85,000.

Merkel—Contract has been let by the City Council for paving ten blocks in the business section of Merkel, and for a $23,000 extension of water works. The paving contract calls for two and a half inch concrete base. Additional work will be done on water system at a later date.

AUSTIN, June 18 — Enrollment figures for the first term of summer school at the University of Texas for the first week of registration reached 2,806.

This enrollment figure exceeds by 706 the total enrollment for the summer session of last year.

STEPHENVILLE — Plans are being perfected here for erection of a modern tourists park. The project is under direction of the local chamber of commerce.

John A. Jackson, 17, who resided near Abernathy, fell from a car on the highway a few miles north of Plainview Thursday night and was instantly killed when the wheel of the car passed over his head. He and neighbor boys were on their way to Canyon to work in the harvest fields. He had been climbing in and out of the car and was out on the running board when he fell.

A little premium that the child will enjoy with every loaf of Honey Toast bread. adv.

An election for the purpose of voting bonds in the sum of $20,000 with which to build an addition to the ward school building is to be held in Big Spring on June 28.

MEMBER TEXAS PRESS ASSOCIATION

WILL AMERICA BECOME ATHEIST?

Will America ever become an atheist nation?

Will the world ever become an atheist world?

The atheists are making great claims just now, and much noise.

Most of the Reds in Russia profess to be atheists, and we presumed that there were millions of them. Recently we noted that that claim is discounted. Probably only a small per cent of the Russian people are atheists. Possibly millions of them deny the divinity of Christ but it is doubtful if many of them deny the existence of a God.

But it is not atheism in Russia but atheism in America that most vitally concern us.

Eighteen months ago tthe American Association for the Advancement of Atheism was organized and is being promoted by Charles Smith and Freeman Hopgood of New York City, men bearing perfectly good American names. They make great claims for their organization. They claim to have established atheist chapters in twenty colleges and preparatory schools in America, including both state and denominational institutions, and numerous local organizations, with a total membership of 100,000.

Unique names have been selected for some of the local chapters, such as the "Society of Damned Souls" in the University of Rochester, and "The Devils's Angels" at one place in California. A chapter has been organized in our own state university at Austin, with only a few members, however.

This organization has announced the following nine objectves, which it purposes to bring about:

1. All churches shall be taxed.
2. Chaplains in congress, in legislatures, and in the army and navy shall be done away with.
3. Appropriations of public money for sectarian use shall be stopped.
4. The Bootlegging (their phrase) for the Bible and religion in the public schools of America shall cease.
5. No religious festival or fast shall be recognized by the State.
6. The Bible shall no longer be used to administer an oath.
7. Sunday as a religious Sabbath shall no longer be enforced by law.
8. Christian morality shall be done away with. In its place be natural morality, equal rights, and impartial liberty.
9. "In God We Trust" shall be taken off coin.

The Association boasts, we are told, that in three hundred years there will not be a church in America.

Will it be able to make this boast true?

Will it be able to annihilate the church, destroy the Bible, and abolish God?

We submit that the Atheists have set for themselves a tremendous task They will never be able to do it.

We have neither the space, the time, the ability, nor the inclination to set forth here the arguments in favor of a God. The ordinary individual needs no such argument. The belief in a supreme being seems to be inherent in the human heart. Savage and savant alike believe that there is a Higher Power. Only the fool has said in his heart that there is no God. There is no danger of this organization being able to abolish God nor to destroy popular belief that there is a God. But it may be able to make fools—and moral lepers—of a lot of people.

Suppose this organization could accomplish all of its purposes—what kind of a civilization would we have?

Suppose that nobody believed that there is a God, that nobody believed that there is a Hereafter, that everybody believed that when mother dies, when father dies, when baby dies, they will pass into oblivion just as the dog and the hog and the hyena. Suppose that nobody prayed, that the great truths of the Bible were all forgotten, that the fine old religious songs were all blotted put of our memory; that "Christian morality should be done away with," that the era of "impartial liberty", whatever that may mean, should be ushered in. No churches, no Sabbath, no religious worship, no religious songs, no prayers, no Heaven, no immortality, no Christian morals, no God. What kind of a world would this be?

It would be a world of animals. If "natural morals" are to supplant Christian morals, if God is to be dethroned, Heaven blotted out, the future life abolished, futurp punishment abrogated, the soul made a mere myth, then what is man but an animal, with the liberty to satisfy to the fullest all the animal appetites an lusts?

If the atheists should succeed, if they could succeed, if there should not be a church nor a Bible nor a God in America three hundred years hence, then nobody would need to argue any longer as to whether or not there is a hell; there would be a hell here in American; America; America would be Hell.

No, the atheists will not succeed.

"The fool hath said in his heart, there is no God."

The towns along the line of the proposed Dal-Paso Cavern Highway are doing much advertising of the route and getting much publicity, but as yet this highway exists west of Lamesa only on paper. If the route shall ever be agreed upon west of that place, state designation procured, and the road put in good condition, it will be an excellent route. But there are some difficulties to be overcome which may delay the opening of this highway for sometime, possibly several years. In the meantime it should be remembered that Highway No. 84, passing thru Post, Tahoka, Brownfield, and Plains connects with a splendid state highway at the New Mexico line which leads directly into Roswell, to the wonderful White Mountains, and westward to the Pacific. This is the only highway open and in actual service between the Bankhead on the south and the Lee on the north, leading to Roswell and the mountains and to the great Carlsbad Cavern. This affords the best and the shortest route from Fort Worth, Dallas, and all north and east Texas points to Roswell and the mountains. This is true whether the route through Kent county is ever built or not, for travelers westward may follow No. 7 from Snyder to Post and thence due west over No. 84. Tahoka, Brownfield, Plains, and Post, therefore, should co-operate with Snyder and towns east of that place for the imporvement of No. 83, as well as with Clairemont, Rotan, and Hamlin for the improvement of No. 84. Tahoka will profit by the improvement of both of these highways to the east of us.

Farmers were never more busy than they have been the past few days planting cotton. Perhaps 20 per cent of the acreage had been planted before the fine rains of last week, most of which was already up or came up promptly after the rain. It was Thursday before the farmers in most portions of the county could get into their fields to plant and many of them were detained even to to the end of the week. So urgent was the work that some of them ran their planters Sunday. Since Sunday, every available planter and team has been busy from early in the morning until late in the evening. On account of the lateness of the season, every hour counts. With everybody busy on the farms, there are few people in town, but the business men are not worrying about that. In fact, they are rejoicing, for they know that a few days of intense activity on the farms now may mean business prosperity next fall and winter. The prospects have indeed changed since two weeks ago.

Prospects for good crops in Lynn county are now most promising. Of course the amount of the cotton raised will depend on weather conditions from now until November. There is a possibility of a bumper crop, while on the other hand it may be a very short one. Little more rain will be needed, however, to produce a good crop. The most crucial element in the situation is the time when the first killing frost comes next fall. If a freeze should come early, only a small cotton crop might be gathered, whereas, if freezing weather should hold off until the middle of November, as it sometimes does, a big crop might be matured. Prospects for a good feed crop are very fine. So, everybody is optimistic and hopeful. We have a great people and a great country.

Plant beans. There is money in beans. Beans can be raised as easily as cotton and maize, and there is always a market. Some farmers, we understand, are planting a few acres. There ought to be thousands of acres in Lynn county this year. Let's diversify. This advice is free.

STRICKLIN SEES SOME VERY STRANGE THINGS

The Volstead act is being enforced to the letter over in Terry county. In view of that fact we are unable to explain the strange stories that are being published occasionally in the Terry County Herald. According to the latest, which appeared in that most estimable sheet last week, the editor, Jack Stricklin, appears to have been "seeing things". Just read this:

"Chris. Quante showed us some reptiles or fish, or combination of the two recently that he obtained in a tank on his father-in-law's the Jim Huckabee farm that cooked our meat, and has all who has seen them guessing. In fact everyone who has seen them have ventured a guess but all guess differently, and for that reason we are the more confused until we seriously doubt that our own guess was right.

The four specimen in question are some four inches in length, have a head and tail not unlike a catfish, but no gills. They have 4 fins, two about where they would be on a fish, and two back where a reptile usually has his hind legs, and these fins are shaped somewhat like ill-formed legs

Some here have called them water-dogs, but water dogs have well developed fore and hind legs, as well as the regulation reptile tail. Our idea is that they are a hybrid of the catfish and water-dog. What is your guess?

HOW HAILSTONES ARE FORMED

Everyone is familiar with the presence of hailstones at this season of the year, but few men have ever stopped to think how they are formed and why they are large and small. J. M. Sherier, meteorologist of the United States weather bureau, Denver, is authority for the following interesting story of the way they are formed:

"Hailstones are caused by the upward draft of wind. This causes the formation of heavy blue-black clouds, known as thunderheads to the layman. In the clouds are small pellets of snow as there are in most clouds.

"Each pellet contains a vortex in its center, and the strength of the vertex determines the size of the stone.

"The upward draft catches these pellets, and sends them to a higher atmosphere where the temperature is below the freezing point. There they are frozen and form the nucleus and grow heavier, their weight carries them down toward earth. As they descend, however, they are again caught by the upward draft and ascend again to the cooler air.

"They have picked up a lot of moisture in the trip through the thunderheads, and this again freezes. Again they descend, and again they are caught by the upward draft and propelled to the cold air region.

"This process continues until the stones become so heavy the draft will not support them, and the fall to earth begins.

If one were to cut a stone in half, he would find the center composed of the snow pellet, with a number of concentric rings around it. These will inforna you of the number of times the stone made the trip between the higher cold air, and the lower thunderhead cloud.

The thunderhead that sent the hailstones down on Denver last Thursday was an extraordinary blue-black one, and was quite low in the heavens. These clouds are sometimes as low as 500 feet from earth and average between 1000 and 2000 feet up."

HAY FEVER

A wonderful advance has been made the last two or three years in the treatment of hay fever. By skin tests, it is now possible to determine the exact cause of hay fever and when the cause is found, then a serum made from the particular plant, causing the trouble is given that is of great benefit in preventing the distressing symptoms of hay fever. Advances are constantly being made in medical knowledge.

Mrs. Cora Curry of Glnecoe, N. M. came over to Tahoka last week to visit ther mother, Mrs. M. I. Ray, and to look after some business matters. Mrs. Ray had left before Mrs. Curry's arrival, however, for a visit with the lajter at her home in Glencoe, going via Whiteface, from which place she was to be accompanied by her son, Paul Ray. Mrs. Curry returned to her home Saturday.

Mr. and Mrs. J. C. Ansley of Wichita Falls visited relatives and friends here and at other places in the county last week.

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than $12,000,000.

The General Motors line includes "a car for every purse and purpose"—a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus *only* the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

CLIP THE COUPON

USE THE GMAC PLAN to enjoy a new car *now*. Use it to get a *better* car for what you plan to spend. Have General Motors quality. Share in the economies of volume production. Look over the list of General Motors cars below. See which car suits your purse. Then check and mail the coupon. We will send you full information about that car and about the fair, low-cost GMAC Plan of paying for it out of income. Don't wait. Clip the coupon and mail it TODAY.

GENERAL MOTORS

CLIP THE COUPON

General Motors (Dept. A), Detroit, Mich.

PLEASE send, without any obligation to me, illustrated literature about the General Motors product I have marked below—together with the name of the nearest dealer in case I may wish a demonstration. ALSO SEND YOUR PROVING GROUND BOOK.

Name _____

Address _____

CHEVROLET 7 models—$525 to $745

☐ The quality car of the low-priced field. 3-speed transmission. Strong rear axle. Smooth dry-disc clutch. Over-head valve engine. Fisher Bodies. Duco finish. Fully equipped. CHEVROLET TRUCK CHASSIS: ½-ton, $395; 1-ton, $495.

PONTIAC 5 models—$775 to $975

☐ A low-priced "six" which is a quality product in appearance and construction. Value proved by unprecedented sale. Has largest 6-cylinder engine in its price class. Beautiful lines. Fisher Bodies. Duco finish. All conveniences.

OLDSMOBILE 11 models—$875 to $1190

☐ A fine car at moderate cost. Gratifies your finer taste; satisfies every need. Beautiful Fisher Bodies. Duco finish. Powerful 6-cylinder engine. Harmonic balancer and other new improvements. 4-wheel brakes. And a wide choice of models.

OAKLAND 7 models—$1095 to $1295

☐ Winning and holding goodwill everywhere because of its superior performance. Fisher Bodies. Duco finish. Rubber silenced chassis. 4-wheel brakes. A "six" whose quality is doubly assured as a product of General Motors.

BUICK 18 models—$1195 to $1995

☐ Everybody knows Buick's worth. General Motors emphasizes Buick's statement that its new models represent "The Greatest Buick Ever Built." Vibrationless beyond belief. 6-cylinder valve-in-head engine. Fisher Bodies. Duco finish.

LaSALLE 6 models—$2495 to $2685

☐ General Motors' latest contribution to the fine car field. New and beautiful car designed and built by Cadillac as a companion car to Cadillac. Has V-type 8-cylinder engine. Fisher Bodies. Duco finish. Now on display.

CADILLAC 50 body styles and types—$2995 to $9000

☐ The pioneer in the 8-cylinder field. Standard of the world. Improved V-type 90-degree engine. Marvelous bodies by Fisher and Fleetwood. Duco finish. Choice of 500 different color and upholstery combinations to emphasize individuality.

[ALL PRICES F.O.B. FACTORY]
ALSO—

☐ FRIGIDAIRE electric refrigerators. The largest selling electric refrigerator in the world. Built by General Motors. Many models.

☐ DELCO-LIGHT electric plants. Another General Motors product. Brings you all the conveniences and labor-saving devices of electricity.

Three Lakes

The farmers are all busy at the puresent time planting feed and cotton. Very few of them have any feed or cotton growing.

A large crowd attended Sunday School Sunday morning. Our Sunday School attendance is growing larger each Sunday.

Misses Lorraine Smith, Opal and Ruth Ellis, Lillian Shewmake, and Irma Sikes, and Messrs. T. Ellis and Raymond Edwards were guests for dinner at the home of Alta and Ouida and Harvey Lee Duckett Sunday.

Mr. and Mrs. John Anderson and family of O'Donnell were guests in the G. M. Duckett home Sunday.

Every one present at the singing at Mr. W. E. Sikes' Sunday evening enjoyed the singing very much.

Mrs. Wash Hickerson is on the sick list this week. We hope for her to recover soon and be back with us.

Mr. and Mrs. W. B. Edwards were visitors in Mr. Sam Ellis' home Sunday afternoon.

Mr. and Mrs. W. E. Sikes were in Mr. and Mrs. S. W. Ellis' home Sunday.

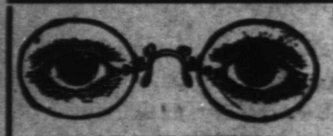

Miss Irma Faye Edwards of Tahoka spent Saturday night with Misses Sarah and Adeline Ellis.

Mr. Fred McGinnis prepared supper for the young people at his home Friday night. Every one had a nice time and good "eats"

There will be a working of the church crop Wednesday morning, I think. Planting will be the main subject.

WHY YOU GET ONLY TEN CENTS A DOZEN FOR YOUR HEN EGGS

BY F. W. KAZMEIER, BRYAN, TEXAS

In a large number of the smaller towns of Texas today, merchants are paying only ten cents per dozen for eggs. This of course is more or less discouraging to the farmer and poultry raiser.

I do not believe the average Texas fertile farm produced egg is worth any more. I do not blame the merchants and produce men for not paying any more. If I had a thousand dollars cash to invest, I would not invest it in the above grade and quality of eggs, because I might lose part of the thousand dollars. I do very much, however, blame the merchants and especially produce buyers for not making an effort to educate the producers, to produce a better egg, as well as poultry products. It is the plain truth, that as a general rule, Texas egg and poultry buyers do not make any effort to encourage farmers and poultry raisers to produce a higher grade product. I have talked with some of the leaders in the produce business, and as a rule they are opposed to any movement that will lead to the production of better eggs and poultry. They seem to labor under the impression that they have been getting along very well so far and do not want any one to stir up anything new. Right here is where just criticism may be placed on the egg and poultry buyers. Of course, there are exceptions to this statement. There are a few that are buying on the quality or loss off basis, but not very many.

Co-operative marketing associations, insist on quality products. One of the wonderful features of co-operative marketing associations is that they make an ever-lasting fight for quality products. At present this can positively not be said in favor of Texas poultry and egg buyers or commission merchants. Unless egg and poultry buyers will take a different attitude on this question, co-operative or group marketing associations will be our only hope and solution to our present poultry and egg marketing problems.

Price of Eggs

A large number of farmers and others are making complaints about the price of eggs. Today for instance in our town, our egg buyer is offering 11 cents per dozen for eggs. Most o fthe farmers in my community are getting 11 cents per dozen for their eggs. Their eggs are not worth any more. Still it also is true that our egg buyer is not willing to pay a premium for quality eggs. We are shipping our eggs in case lots to Houston, and are getting a net price to us of 18 cents per dozen. We are satisfied with this price at this season of the year. These eggs are sold in Houston by grocery retailers at 28 to 30 cents per dozen. Every farmer could get 18 cents per dozen, if they produced infertile eggs, and carefully graded, packed and gathered their eggs each day. Most of these people say that is too much trouble. Laziness is a universal trouble or affliction, and Texas farmers from a standpoint of egg-production alone pay close to a half-million dollars for it each year.

A few more holidays and a more persistent production of fertile eggs, and we may some day look for 6 and 7 cents eggs again in the hot weather months.

The price of 18 cents per dozen, that we are getting is something anyone can get, the only thing necessary would be to produce an egg worth 18 cents per dozen and then look around for a market and not offer it to the first party that makes a price.

The low price of eggs is not caused by an over-production. Less hollering about over-production and more hard hammering on the importance of producing high grade infertile eggs, would do away with the present low price of eggs.

Here is a letter from a large concern in Houston, that makes a business of buying infertile eggs, candling and grading them, and putting them out in their own trade marked carton t oretaill grocery stores:—"The quality of store gathered eggs is so very poor that we have been compelled to eliminate them from our purchases. At this season of the year we begin bringing in northern eggs in refrigerator cars for our local trade, or else the consumers would become disgusted with eggs as food, and discontinue their use, except for cooking purposes, during the summer months."

Please read the above paragraph again. Right there is an actual picture of the true reason, for ten cents per dozen eggs.

The average egg as sold today by the average farmer is an insult to the consumer and the hen.

We already have more laws than we can obey and remember, therefore, some of us have to employ lawyers to help understand and remember the many laws. If if were not for that fact, we would be in favor of a law making it a serious offense to sell a fertile egg on the market for human consumption during the months of June, July, August and September.

Our only solution to our low price eggs is a state wide campaign, backed by a law with teeth in it, to produce only high grade infertile eggs, from hens fed properly and given some care and consideration, besides from the viewpoint as scavengers.

ANOTHER FAILURE

Russia's gigantic and catastrophic experience in Communism has allowed another spectacular failure in the application of Socialist doctrines to pass almost unnoticed. I refer to the experiment which the labor government of Queensland, Australia, has conducted for the past ten years.

Without revolutions, with that calm and methodic spirit which is characteristic of the Anglo-Saxons, the labour party of that wealthy autonomous territory rose to power and dedicated itself to the realization of Socialist doctrines by means of a gradual extension of the powers of the state to the field of industry and production. The government of Queensland thus came to organize vast State farms, State cattle stations and slaughter houses, State mills and bakeries, State factories, Sttae timber yards and brick works, State fisheries, State establishments for production of canned goods and a quantity of other enterprises. Now this same government confesses the ruin of its own initiatives.

Not one of these iniatives has paid for itself. The money of the government has been devoured. To keep up with this orgy of nationalism it has been necessary to more than double taxes. And at the head of these industries were to be found the most competent men available.

Although we refer to the present system as capitalistic and selfish, it is the wisest available, and the only one that will work. Men have studied the social problem for centuries, and experience shows we cannot do better than the present system.— E. W. Howe's Monthly.

Throckmorton—Throckmorton has met the proposal of the Texas and Pacific Railroad for a branch line from Breckenridge with the raising of a $50,000 bonus. The line will be begun about July 1.

Loulynn Briefs

Every one has a smile since our million dollar rain came. This will enable the farmers to go on with their planting.

A nice crowd attended Sunday School Sunday morning. Every one is invited to come and help us.

Little Clyde Jr. Briley of Tahoka spent the week end with his grandparents, Mr. and Mrs. C. L. Tankersley.

Mr. and Mrs. Robert Noble had as their guests last week end the latter's grandmother, Mrs. Cooper, Miss Minnie Cooper, aunt and friend, Miss Cleo Hankins, all of Tulia. They brought them a shower of beautiful gifts from friends in Tulia and from themselves also. They were detained over until Wednesday on account of rain, but the time was quietly passed away visiting and horseback riding.

Mr. and Mrs. James Blackburn and two sons, J. R. and Ted Mayo, were dinner guests of Mr. and Mrs. Lonnie Solesberry Sunday.

Mr. and Mrs. Otto Williamson and children visited in the home of Mr. and Mrs. Bill Thomas Sunday.

Miss Opal Jefferies visited Miss Ila Solsberry Sunday.

There was singing in the home of Mr. and Mrs. Bill Thomas Sunday. There was a good crowd, and every one enjoyed themselves so much.

—REPORTER

ARTISTS WERE SCARCE IN O. HENRY'S DAYS

One of the books for which collecters of early Americans ransack old and rare bookshops is a volume entitled "Indian Depredations in Texas" a collection of source stories of the tragedies of early settlers published in Austin, Texas, in 1890 by a firm of publishers, the Henry Hutchings Printing House. Only a limited number of copies were issued and now there are probably not more than half a dozen in existence.

It has recently been discovered that the twenty-six crude and curious wood cuts which illustrate the volume are by none other than O. Henry the novelist who lived in Austin several years before he became famous as a writer.

A review of the incidents in connection with this early day history and the part played by O. Henry as illusttrator, will appear in the Monthly Magazine Section of The Lynn County News, July 14th.

ANCIENT JAUREZ AND MADERN EL PASO

El Paso possesses the uncommon advantage of having within its metropolitan area a living historical museum in which much of its past is faithfully mirrored. This is Juarez, Mexico, a community of about 20,000 people, just across the bridge, on the Mexican side of the river.

Juarez is on one side of the original settlement at El Paso del Norte; its mission church of Nuestra Senora de Gaudalupe is more than 250 years old, and in its outlaying streets, old Mexico—yes and old California as well—is faithfully preserved.

A story of these two cities—ancient Juarez and modern El Paso—will be printed in the Monthly Magazine Section of the Lynn County News, to be issued July 14. Our readers will find much interest in this story.

Lynn City

Well, Mr. Editor, Uncle Jim wanted to know about Uncle Tom's politics, in regard to Smith being nominated for President. I don't know what the folks will do, I do not have time to investigate Mr. Smith nor no one else. It is not time for that. They always told me not to cross the bridge till I got to it. So, I am still waiting till I get to the bridge before I cross. I don't think he will be President, but I have got better things to think of. I am thinking of how I will soon be eating fried chicken. Mr. Editor, if you and Uncle Jim will come over, I will have Nancy to fry a couple of chickens and we will have a square meal and talk about the good things we have to eat and when we were boys together and rode stick horses, the best days of our lives. I love to think of those days when I used to ride my stick horse and swap horses sometimes with the boys and get a lead pencil to boot. Those days were the best. They called me Buddy then, but it's The Old Man now.

Well, may the Lord help us all to do right and serve Him.

Burton Hackney has returned to Tahoka from Hopkins county, where he went soon after the close of school to visit his parents.

WHEAT RECORDS SET IN FLOYD; HARVEST UNDER WAY

With the harvest in full blast under ideal weather conditions, Floyd County is rapidly making the 1927 wheat crop a matter of history. A total of 130 cars, averaging 1,350 bushels each had been shipped from Floydada this Thursday morning a check on the local elevators showed. This brings the production figures for the new crop to 175,500 bushels, exceeding even the most conservative estimates made earlier in the year to cover the local crop.

Many Records Broken

Record after record has been smashed this year in both early marketing and in high grades. These early movements of the grain in such large quantities has been a record in itself.

One of the outstanding features of the new grain is the consistency with which it tests first grade, No. 1. Grain men say that of the early grain 98 per cent tested 60 and above. The late yields are showing some smut and there is a drop in the quality to a slight degree.—Floyd County Hesperian.

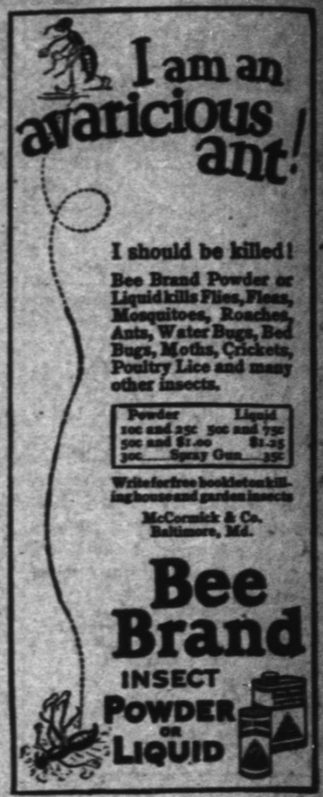

MEADOW MAN DIES IN WINDMILL ACCIDENT

MEADOW, June 10—P J Nettles, while pulling a pipe on a well on the S. W. White farm, 2 1-2 miles southeast of here, was instantly killed yesterday afternoon shortly after 2 o'clock, when the blocks gave way and a chain hit him on the head

Mr. Nettles, 38, is survived by his widow and six children; his father, J. J. Nettles, a pioneer citizen of Terry and Lynn counties; and seven brothers: Ray, Carrol, Eugene, W. M. and Jack, all of Meadow, Arthur and Loyd of Ropes; and two sisters, Mrs. J. J. Williams and Mrs. W W. Terry of Meadow.

Funeral services will be held this afternoon at 6 p. m. at the First Methodist church of Meadow. Rev. G. A. Duncan is in charge and burial will be in the Meadow cemetery.

Commissioners' precinct No. 4 in Hale county a few days ago voted a special road tax of 15 cents on the $100.00 property valuation for maintaining public roads in the county. The other precincts of the county had voted such a tax previously.

The CREAM of Pennsylvania Oils

TO BE sure Conoco Amalie is 100% pure Pennsylvania Oil. But it's even more than that. It is made from *premium* Pennsylvania Crude—from the famous Franklin Field. It is the cream of Pennsylvania Oils.

That's why it has the endorsement of 207 designers of automotive equipment. They know that it will stand up and fight friction under *all* operating conditions. It lubricates thoroughly and completely. It's economical because you have to change it less frequently.

No wonder Conoco Amalie is the recognized choice of lubricating experts. Try it. There's a grade for your motor.

You can get it at the Conoco sign.

South Ward Items

Everybody is very busy in fields and gardens since the fine rain. If the rain hadn't come when it did this community would be less several farmers before now.

Miss Melvina Inman of Tahoka is spending the week with her parents, Mr. and Mrs. W. P. Inman.

Mrs. Irene Gorman left Tuesday to join the husband at Pampa.

Mr. Marvin Walker is at home again since the rain.

We are sorry to report that Mr. and Mrs. Warren Hardt's children have the whooping cough. We hope they will soon be well again.

Mr. John Womack and children and Mrs. Will Womack of Colorado spent the week end with their sister, Mrs. Rosa Cowan.

Mr. and Mrs. T. B. Cowan Jr. and Mr. Roy Cowan and two of his friends from Seagraves spent Sunday with their parents. A nice little singing was enjoyed in the afternoon.

A fine singing was enjoyed at Mr. and Mrs. Taylor's Sunday night.

—CORRESPONDENT

South Ward received a rain of between four and five inches which the farmers were proud to see. Quite a number of farmers were planning to leave for other parts on account of the awful drouth but will remain with their crops after the good rain.

We are still having Sunday school and wish that more parents would come and bring their families.

Misses Thelma and Dessie Smith and little Yina Greenwood spent Saturday night with Mrs. W. E. Hammonds.

Mr. T. J. Renfro visited some of his relatives near Three Lakes Sunday.

Mrs. G. T. Smith spent the week end with her brother, Mr. W. C. Carver, south of Tahoka, waiting on the sick.

Miss Francis gave a singing for the Sunday School. Every one reported a nice time.

Mr. and Mrs. G. E. Lockhart visited Mrs. W. E. Hammonds Monday afternoon.

Mrs. Gather and sons visited Mrs. Alva Samford Sunday.

Miss Melvina Inman is spending this week with her parents, Mr. and Mrs. Inman.

Mr. J. R. Pinkley left here Wednesday for Big Spring.

Mrs. W. E. Hammonds and Mrs. J. F. Greenwood visited Mrs. Henry Disheroon Friday afternoon.

Mrs. J. T. Pinkley and daughter visited Mrs. Alva Samford Monday afternoon.

—South Ward Boosters

SHEPHERD GOES TO SANITARIUM FOR OPERATION

Rev. B. N. Shepherd left Tuesday morning, accompanied by Mrs. Shepherd and Gertrude, for Abilene, where he expected to undergo an operation for appendicitis in the Baptist Sanitarium. After arriving at Abilene he decided to go on to Dallas for the operation. So he left Abilene Tuesday night for the Baptist Sanitarium at Dallas, since which time we have had no report. It is probable that the operation will be performed today. Mrs. Shepherd and Gertrude did not accompany him to Dallas.

LINDBERGH'S MARVELOUS FLIGHT

There has never been an adventure in the air into which was packed so much daring skill and romance as the feat of Lindbergh's flight from New York to Paris. His whole course across the ocean was as straight as a crow flies. It was not only his technical accomplishment which fascinated those who followed him with their hearts; his personality and youth, his reckless courage and cool skill made him a figure like those of King Arthur's time, men "without fear and without reproach."

The absorbing story of his flight, which is an inspiration to every young man in the country, will be told in the Monthly Magazie Section of The Lynn County News, July 14. Be sure to read it.

ANOTHER LAW OFFICE WILL BE OPENED HERE

H. L. Grace, lawyer and dealer in oil leases, has decided to locate in Tahoka for the practice of his profession, according to a statement he made to the News this morning. Mr. Grace was for a time located at Big Spring in the practice of his profession, at which place he was well known to the editor. He hopes to open an office here about July 1.

Mr. and Mrs. H. C. Story returned Saturday from a two weeks visit with relatives at Wylie, Greenville, and Commerce. Mr. Storey says that the paved highways are certainly fine and that he made the entire trip from Tahoka to Wylie in a little more than 16 hours. Crops in Collin and Hunt counties and in all that section of Texas are good, he says, though a little late.

The editor accompanied D. H. Goodnough and Uncle Ben Rogers out to New Lynn Sunday afternoon, where Uncle Ben preached to a most attentive and appreciative congregation. We noticed much cotton already up in the fields along the route and much more had been planted within the last day or two. A number of planters were running Sunday.

The Jersey cattle raisers of Hale county are to organize today to promote the raising of registered Jersey cows and bulls. The organization will be affiliated with the Texas Jersey Cattle club and the national club. It is said that Hale county has more Jersey cows than any other county in the state, with a few possible exceptions.

Elder C. C. Bankhead of Snyder held services at the Church of Christ here Sunday morning. At the evening service Elder J. L. Pummill delivered the discourse. He is here in the interest of the Tipton Orphan Home, of Tipton, Okla., an institution which has grown to large proportions within a few years.

Beef cattle have brought the highest prices this spring that have been realized since 1920. The general price increase over last year and over the average for the last five years ranges from 12 to 27 per cent.

Watch for Honey Toast bread. A little premium with every loaf Friday and Saturday and every day next week. adv

Poultry Exhibit At Fair Being Planned

LUBBOCK, June 11.—Aubrey Ashley of Lorenzo has been re-appointed superintendent of the poultry department of the Panhandle South Plains Fair. He was in Lubbock last week getitng details of his department straightened out. Ashley is looking forward to the biggest poultry show this fall that has ever been witnessed on the South Plains.

D. F. Eaton, superintendent of the Agricultural department has issued a warning to counties and communities that expect to enter the department with exhibits to be sure and get their bundles of small grain put up before it is all harvested.

INFANT DEATHS EXCEED TOTAL TOLL OF WORLD WAR

SAN FRANCISCO, May 28.—Life in a trench in the great war was safer than it is in many American nurseries, Dr. Redinald Knight Smith San Francisco, told the delegates to the sixth annual conference of California hospital directors Friday.

"Of every 1,000 babies born in the United States in 1924 more than 70 died during the first year of their lives—more than 7 times the mortality of our soldiers in the World War," he said. "There were 1,930,614 live births in federal registration area during that year. Of these 137,730 infants died under the age of one year. In addition there were 75,817 still births.

It is foolish to raise scrub chickens when thoroughbreds can be raised just as cheaply. By studying the poultry industry and utilizing the information given by the poultry experts, any family can make chickens on the farm pay handsome dividends. A hen that will lay 200 eggs per year, for instance, is a paying proposition, while a hen that lays only 50 eggs per year is poor property. This entire country should become well stocked with thoroughbred stock, chickens, hogs, and dairy cows Let's diversify.

Mr. and Mrs. J. E. Nance returned Sunday from a visit with relatives at Fort Worth and Sanger. Mr. Nance, who is with the Security State Bank here, was taking his vacation and he reports a continuous round of pleasure. One of the incidents that added greatly to the pleasure of his visit was the news that came flashing over the wires that soaking rains had fallen over west Texas, including Lynn county. Mr. Nance says that all Fort Worth was jubilant over the fine rains that visited this section.

Buy Honey Toast bread at the City Bakery and get a little premium for the baby. adv

Mr. and Mrs. C. A. Thomas and son, Skiles, left Friday morning for Dallas and Blooming Grove, where they will visit relatives. They expect to be gone about two weeks.

M. J. Lewelling, realtor, of Lubbock, was here on business Monday. Mr. Lowelling was a resident of Tahoka from 1916 to 1918 and has many friends here.

Little Miss Jim Ellen Wells of O'Donnell is here for a several weeks visit with the J. S. Wells family.

Nolan county has sold its jail, which stands at the Northeast corner of the public square, for a consideration of about $25,000. The fourth floor of the court house will be remodeled ad converted into a jail, at a cost of about $39,000.

Announcement has been made that the Bankhead Highway will be paved with concrete from Abilene to Sweetwater.

There is a little premium in every loaf of Honey Toast bread at the City Bakery. adv.

An election is to be held in Hockley conty on July 5 to determine whether or not a special road tax of 15 cents on the $100.00 property valuation shall be levied and collected to maintain the public roads of the county.

Slaton—Progress is being made on Slaton's paving program which embraces work on seven blocks. Other paving to follow this project is being talked of and funds are available for this purpose.

Texas Tech To Enter New Phase Of Development

LUBBOCK, June 21.— With an appropriation of $600,000 for buildings and equipment now definitely assured for Texas Technological College for the next two years the institution will enter a new phase of its unprecedented growth. A half million dollars will be used in the erection of buildings and $100,000 for equipment. An engineering building, a practice building for home economics, the first unit of an agricultural building, and a greenhouse will be built the first year of the biennium and a science building will be constructed the second year.

The engineering building will cost $240,000 with $45,000 for equipment. It will be erected in the center of the space between the textile and administration buildings and will face east. The material and architecture will harmonize with the general plan outlined for the entire college group. It will contain two stories and a basement. Construction will start as soon as plans of the architect are completed and the contract can be let. Officials expect this building to be ready for occupancy by the opening of the fall term in 1928.

The practice house for home economic students is to cost $20,000 with $2,500 for equipment. This structure will be located between the home economics buildling and College avenue and will fact east. The young ladies taking home economics will live in this building in turn, thus getting actual experience in carrying out things learned in the class room. This building will be ready by the opening of the fall session.

Although only $10,000 was appropriated for the first unit of the agricultural building it will be one of the most needed structures as this department has been housed in over crowded quarters in the home economics building. This first unit will be located in the aggie quadrangle midway between the main buliding and the stock judging pavilion. On the west side of this quadrangle will also be constructed a hothouse at a cost of $7,500. Both of these buildings will be ready for use this fall.

The four buildings together with equipment will entail an expenditure of $325,000 during the first year of the biennium.

During the second year a science building will be erected at a cost of $225,000, with $50,000 for equipment. This structure will face the college square on the southwest corner.. While in the beginning it will house the various sciences, it will be designed as a chemistay building. This will greatly relieve the congestion of laboratories which are at present crowded into the basement of the administration building.

WOMEN'S COUNTY COUNCIL MAKES REPORT

(Continued from First Page)

where she will again resume her work.

We discusaed sending a member from each club to the A. & M. short course. T-Bar and Edith have each selected a member from their clubs for the short course.

Reports were given from T-Bar, New Home and Midway.

The T-Bar report for May was as follows:

Soap made, lye 17 cans.
Hen eggs set, 1280.
Turkey eggs set, 178.
Chickens hatched, 730.
Quilts made 5.
Chickens sold, value $7.00.
Cream sold, $36.55.
Eggs bought 250.
Dresses made 23.
Flowers planted
Gardens planted
Eggs sold $34.81.
Bread made, loaves 66.
Dresses dyed 1
Dresses righted 2
Baby bonnets tatted 2

New Home

Dresses made 8.
Garments made over 6
Dish towels made 20
Window curtains made 6

Soap made, cans lye, 14.
Members present 6
Visitors 6
Aprons made 2
Dresses made 2

Motion was made by Mrs. I. M. Draper and seconded by Mrs. Lowe that we adjourn.

Secretary County Council.

Clarendon Establishes A Junior College

Some time ago it was decided by the Northwest Texas Conference of the Methodist Church to discontinue Clarendon College and to establish a larger institution at Amarillo. Accordingly the college building and property at Clarendon were sold, the School Board of the Clarendon School District being the purchasers.

At a meeting of this board a few days ago, arrangements were made to establish a Junior college in Clarendon, using the Clarendon College building for the purpose, and a faculty for the new college has been named. Prospects for the new institution are said to be bright.

In the meantime plans are maturing for the establishment of the larger Methodist institution in Amarillo.

NOTICE OF FINAL MEETING OF BOARD OF EQUALIZATION

STATE OF TEXAS
COUNTY OF LYNN

Notice is hereby given that the members of the Commissioners Court of Lynn County, Texas, will sit as a Final Board of Equalization for the year of 1927, at the Court House in Tahoka, Texas, at 10 o'clock a. m., on Tuesday, June 28th, 1927, at which time all property owners will be heard relative to the valuation of taxable property for taxation for the year of 1927.

Done by order of the Board of Equalization this the 14th day of June, 1927.

NEW HOME CLUB REPORTS

The New Home Club met last Thursday at Mrs. J. B. Lowe's for an all day meeting. The luncheon program was carried out. A hot bread demonstration was given by Mrs. Grady Gore.

Owing to the inclemency of the weather there were but a few there and we decided to defer the business of our meeting at a later date.

A social hour was enjoyed while we worked on our braided rugs. Refreshments were served.

Textile Department Publishes Booklet

LUBBOCK, June 11.—A booklet telling of the textile department of Texas Technological College recently issued has caused widespread interest. Among hundreds of other inquiries from all over the country and abroad, a young textile engineer in a cotton mill in China has written for one of the booklets and for information about Texas Tech.

Carpenters are busy constructing ...ce home for F. E. Redwine on ...ts where the Greathouse home ...v stood, the latter being de...y fire a year ago.

PREVENTS INFECTION
The greatest discovery in flesh healing is the marvelous Borosone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. Bad wounds or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (liquid) 30c, 60c and $1.20. Powder 30c and 60c. Sold by
THOMAS BROS DRUG CO.

T-Bar

Well, we have all gone to work again and expect to make some garden produce as well as some feed and cotton. Ye scribe has some garden up, planted since the rain, and no doubt others have likewise. Some who irrigated their gardens have really pretty garden truck now

We may have some fall gardens and pretty yards this fall but not this summer, as summer is here and flowers just now coming up. Our pastures are getting good again. The cotton acreage will be as large on most farms as usual, but more beans and peas than commonly planted, we believe, will be planted this season, for the long dry spell has taught us what we need and can raise here and are going to try to have another year.

Our home demonstration club teaches all this and more—how to take care of it after we have it, how to have plenty of milk, butter, and all its derivaties, and plenty of eggs and chickens and vegetables in all the forms they are served.

Cecil Caraway and wife and baby came back Saturday from Big Lake, having heard of the good rain, and he intends to go on with his crop. He had been down there a month. His wife joined him lately. They came by for a visit with her parents, J. M. Johnson and family, going on to Redwine Sunday eve.

West Hays and wife and daughter, who have been visiting Mr. M. A. Dorman and family, left Saturday for their home in Hagerman, N. M.

There will be dinner on the ground and preaching in the afternoon at the school house next Sunday, June 25.

Charley Nichols came in Friday for a visit with home folks and relatives.

Misses Estha and Vera Nicholls and Vivian Moore spent the week at their uncle's, east of Tahoka.

G. W. Knoy and wife and Miss Katherine spent the day Tuesday with J. M. Johnson and family.

—A. CORR

CARD OF THANKS

We, the undersigned, wish to thank the commissioners' court for raising the salary of Miss Halsey, our C. H. D. A., and also for the courtesy they have shown in the past, as she is a needed helper. Thanking you again we are,

County Council Secy.

SERVICES AT METHODIST CHURCH NEXT SUNDAY

The subject for the Sunday morning sermon at the Methodist Church will be "Why I am Not an Infidel" and the night sermon will be "The End of the Trail," suggested by the painting by that title.

If you are in need of refreshment for the inner man, hear these two sermons.

There is a well equipped cradle roll room for the little tots in charge of competent superintendents. Bring the little fellows and let them begin early to learn the great things of religion.

Every person can find a place in the Sunday school, whether this or any other, and should contribute his part to the building of a great religious community.

A cordial invitation is always extended to strangers and visitors to worship.

Texas Should Have Glass Factories

Austin, Tex. June 18—Glass sand is now produced by at least 2 operators in the state, according to Dr. E. H. Sellards, associate director of the Bureau of Economic Geology of the University of Texas. The producers are Julius E. Espray of San Antonio who produces at Tarbutton in Atascosa County, and the Parker Silica Sand Company at Santa Anna, Texas.

The sand is shipped from both of these localities into Mexico as there are no glass factories in Texas. With an abundance of gas fuel and with glass sands, limestone and salt from which the sodium compounds used in glass manufacture are chiefly made occuring in the state, Texas according to Dr. Sellards, should have glass factories in operation.

THE "CHEAP COTTON" OF 1926 IS NOT WORRYING THIS FARMER!

Because he has some cows, some sows, some turkeys and some hens!

Because he raised more feed on more acres and more cotton on fewer acres.

Because he practices common-sense diversification!

When all farmers do this there will be no "Price of Cotton" problems.
