Hail, Wind Accompany Moisture

A SMALL TWISTER swooping out of a thunderstorm Wednesday afternoon is reported to have levelled this garage and shed on the R. E. Hargis farm, located two and a half miles north of Summerfield. Wreckage from the building was scattered over a 100-yard area by the storm, but none of the contents were disturbed. Even though the building and shed were a total loss, the home of the Leonard Bartles family near the garage was undamaged. When the small twister hit, the Bartles' automobile and pets — two cats, four kittens and a dog — were in the farm building. The car was undamaged and the pets were not injured. Only the dog seemed to suffered any after-effects from the twister as his owner said he was very nervous afterwards. At the left are the mother cat and her four kittens. (Staff Photo)

Rain - conscious and tornado - wary residents of the Texas Panhandle and Deaf Smith County kept a close watch on each approaching storm as severe thunderstorms rumbled across the county during the week.

The storms came as warnings were issued during the week placing Deaf Smith County and the surrounding areas on the alert for heavy rains, damaging windstorms, hail and one or two tornadoes.

In Hereford, only heavy rains fell during the storms but sections of the county were buffeted by high winds with some extensive hail damage was reported to wheat in the Dawn area.

The Dawn area was also buffeted by the strong winds and damage was reported from winds.

The hail storms which went through the Dawn area were first reported to the south of Hereford Wednesday afternoon. Some damage was reported to vegetable crops, but was not thought to be extensive.

"Some onions and potatoes suffered light damage," said a grower and shipper here, "but, the storms were early enough so that no serious damage resulted."

The storm was also reported over the Lee Cocanougher ranch about eight and a half miles south east of town with hail ranging from pea-sized to golf ball-sized hail.

A very heavy rain was reported with the storm and 1.10 inches of rainfall was reported at the ranch headquarters.

In the same general area, a cotton patch belonging to Tom Hall was hailed out. The plants were just up and the stand was described as good. After the storm, the 16-acres was said to be "cleaned out."

The storm, as it approached the Cocanougher place, was described by Mrs. Cocanougher as looking like a white wall.

"You could look out and see the hail coming," she commented, "and the cattle running before the storm. It only lasted a few minutes."

The thunderstorm striking the Dawn area about 3:40 p. m. Wednesday was apparently the one crossing the southern portion of the county.

Some heavy damage was reported south of Dawn with extensive damage to wheat occurring north and west of the community.

Pioneer Day Is Set For May 31

President of the Mid-Plains Pioneer Day Celebration, Ezra Norton, announced plans for the annual celebration this week.

Pioneer Day is slated for Thursday, May 31, this year. Former residents from throughout the country are expected to be on hand for the celebration.

Headquarters for this year's event will be the Hereford Community Center. A quiet welcome and business session will occupy the morning, with the traditional basket lunch to be held in the Community Center.

Visiting and entertainment are slated to close out the annual affair, according to Norton.

Former pioneer residents of the county have been invited to attend the Pioneer Day. Among out-of-town residents indicating that they will be on hand are Al McIntosh of Tucumcari, pioneer rancher in the county; Charlie Frizzell of Dallas, early sheriff of the county and Joe and Mary Clark, son and daughter of Randolph Clark who founded the Hereford College and later helped start the forerunner of Baylor University of Waco.

Favorable Legislation For Sugar Beets Seen In Month

Chances are good for a compromise bill on sugar marketing allocations to be passed within the next three weeks. That is the report brought back to the Texas Panhandle by a group who had been in Washington for the first of three weeks of testimony before the House Agriculture Committee.

The climax of two years of work is expected very soon, with a good chance that the Sugar Act will be amended to give additional sugar beet production to domestic areas.

Lee Benefield, president of the Texas Sugar Beet Growers Association, and James W. Witherspoon, legislative chairman of the Association, both of Hereford, were among those from Texas who attended the first week of hearings in Washington.

During the first week, representatives of the Agriculture Department, State Department, cane and sugar industries, import and domestic sugar consumers and users and new areas were heard.

For the next two weeks, representatives of various foreign countries supplying, or hoping to supply, sugar to the United States will plead their cases before the committee.

Witherspoon reported that this is the only instance where foreign countries are able to make direct requests for the United States legislature to pass favorable legislation.

He also noted that Rep. Harold Cooley, chairman of the House Agriculture Committee, had introduced a bill Tuesday on behalf of the Administration for a change in the Sugar Act. Congressman Cooley reportedly said that he did not favor all portions of the bill and that he felt the committee would report out a different bill, with some changes from the Administration backed proposal.

Witherspoon said the Administration-favored bill was a compromise between the sugar industry and the Administration on all points except the "recapture of global quotas," which was included as desired by the Administration.

It was explained that the "global quotas" portion meant that the Administration wanted to "ease off" so that at the end of five years, sugar would be bought on the world market without any specific foreign quotas.

Congressman Cooley favors the foreign quota system which is now in use. Under this form, the foreign portion of the total sugar need for the country is allocated by tonnage to various foreign countries in advance, so that they may determine before harvest where at least a portion of their crop will be marketed.

The compromise bill now being considered would in-

Accident Injures Three Residents

Three Hereford residents and a student at West Texas State College were injured in a head-on car-pickup collision on the Canyon Expressway about 5 p.m. Wednesday during a thunderstorm.

Injured in the accident were Wesley Hjgh, 32; Sylvia High, 29, and Clarence High, 23, all of Hereford. The college student injured was Robert Spoonmore, 22, of Spearman.

The Highs were in a pickup truck driven by Wesley High which went out of control. The truck crossed the median and collided with the Spoonmore vehicle.

Spoonmore suffered a broken ankle and facial lacerations. All of the Highs received cuts and Sylvia High also had an injured ankle.

The accident was witnessed by a highway patrolman. Spoonmore attempted to avoid the collision by slamming on his brakes as he saw the pickup cross the median.

Trick Rider, Horse Slated For Film Work

Sally Skelton and her horse Skokie, both of Hereford, have come out of retirement for a trick-riding part in the film "Hud Bannon", now being filmed at Claude.

Sally (Mrs. Charles) Skelton, well - known in Panhandle rodeo circles for several years, hung up her trick saddle and put her trained horse, Skokie, out to pasture. But the lure of a spot in the film about modern-day Texas was too much to resist.

Sally said that she had written the show's producer, listing her qualifications and seeking a part in the picture. Thursday she was notified that she would be used in three or four scenes, starting about June 1.

Right now, the directors are uncertain about the proposed rodeo scene in which Sally would perform. But she told the Brand that she would appear in several other portions, including a parade and part of a rodeo scene.

Both Sally and Skokie seem to like the idea of trick riding again. They came out of retirement last summer to present a special show for some visiting exchange students, who were guests at an impromptu rodeo.

Although they are still unsure about the roles they might play, both Sally and Skokie are busy polishing their routines and waiting for their first appearance before the cameras.

Around Town

Deadline for voting absentee in the Hereford school bond election is 5 p.m. Tuesday, May 22, in the County Clerk's office. So far, early voting has been very light with only a moderate turn-out expected for the election on Saturday, May 26.

All members, and other interested citizens, are urged to attend a special meeting of the Whiteface Booster Club at the Hereford Community Center on Monday, May 21, starting at 8 p.m. The meeting has been called to discuss the proposed school bond election. President Ed Skypala said, "All persons interested in the promotion of better schools are urged to attend this meeting."

Democratic gubernatorial aspirant John B. Connally will be in Hereford on Tuesday, May 22 at 3 p.m. for a half-hour visit at the Jim Hill Hotel. He is slated to arrive on a special bus, accompanied by aides and reporters covering his campaign trail. All persons interested are invited to attend. There will be free coffee and doughnuts.

Crops Still Dry After Some Rains

Even though the Deaf Smith County area received some heavy rains during the week, the crop picture is relatively unchanged with crops and pastures needing more moisture.

In commenting on the agriculture in the county, Lefty Thomas, county agent, commented that there "hasn't been enough rain to make a big difference."

"Any rain is good," he said, "and pastures and drylands, in particular, need it. The ground is awfully dry."

In order to make a grain sorghum crop this year on the dryland, he continued, it is essential to have rains by the middle of June at the latest.

He predicted that most of the dryland wheat will be low average yields or below this year due to the lack of moisture. Average, he pointed out, is between 15 to 18 bushels.

Irrigated wheat looks good; he commented, but will probably not average as high a yield as a year ago. Average for the 1961 crop was placed at 50-55 bushels.

However, he continued, some producers will have yields that are higher than average because they have been able to get water to wheat fields when needed.

Thomas commented that the vegetable crops are looking good, but that there was some burning due to high temperatures and damage from the high winds.

A local grower and shipper concurred on the outlook for vegetable crops in the Deaf Smith County area.

For the potato crop from the yield standpoint, the prediction calls for this year being as good as any other year.

Even though there are some poor stands of onions, he con-

Don Yarborough Hits Sales Tax, Auto Merit Insurance

Don Yarborough, a newcomer to Texas politics and a candidate for governor of Texas in the June Democratic run-off election, met with a group of Deaf Smith County party members Thursday at an airport reception seeking support for his campaign.

The candidate had been touring the Texas Panhandle during the week aligning "fresh support from those who had backed other candidates in the first primary."

During the one-hour stop, Yarborough in a statement to those greeting him at the Hereford Municipal Airport, lashed out at his opponent, called for a repeal of the sales tax and the merit rating auto insurance plan.

In his opening remarks, Yarborough said, "I envision this campaign as being neither liberal or conservative, but a fight to determine if the little people will have a voice in the government of Texas instead of the eastern lobbyists."

He called for the sales tax repeal, claiming that it was forced upon the people of Texas and that the "eastern lobbyists" had "hoodwinked the people of Texas into believing it was necessary."

Yarborough pointed out that if he is elected, the tax will be repealed and offered a four-point program by which money could be raised to offset the loss in revenue.

The plan advanced by the candidate calls for a substantial increase in the oil allowable, a proportionate tax on interstate gas pipelines, an increase in tourism and an increase in the industrial growth pattern of the state.

In his remarks concerning his opponent, Yarborough a-

Storm Wrecks Garage, Leaves Car And Pets

Two cats, four kittens and the pet dog, along with the Leonard Bartles family, survived what was believed to be a small twister that swooped down out of a thunderstorm Wednesday afternoon.

The pets had taken refuge from the approaching storm in the garage of the home located two and a half miles north of Summerfield on the R. E. Hargis-operated farm.

As the storm approached the buildings, what was described as a low cloud traveling along the ground approached.

However, it was raining so hard that the Bartles family could not tell what was coming.

"The wind got up real high," said Bartles as he described the storm, "and it was raining real hard. Then, it got still, and the garage blew away."

When it hit, he continued, the house also began shaking as if it were going to blow away, too.

After the wind stopped, Bartles stated he looked out of the window to see if the family car, which was also in the garage, was damaged but he could not see more than six feet.

After it was over, Bartles inspected the car and found that it was undamaged and that the pets were all right.

"However, the dog was real nervous for several hours afterwards," he commented.

The small twister hit the garage, ripping it apart. The sheet

Set Annual Golf Begins At Forty Play For 25-27

Fourth annual "Golf Begins At Forty" Tournament will be held May 25-27 at the John Pitman Municipal Golf Course, announced host pro Bud Posey.

Entry deadline for the meet is 6 p. m. Thursday, May 24. All golfers entered must be at least 40 years of age.

A dinner for all contestants and their wives will be staged May 24 at the Hereford Country Club, according to tournament chairman J. W. Robinson Jr.

A large field is expected, including defending champion Dale "Pappy" Tinnin. Golfers will be bracketed according to their handicaps. There will be 16 players to each flight in the 18-hole matches.

First round matches will get underway Friday, with play lasting through Sunday.

DURING A FLYING TOUR of the Texas Panhandle, Democratic gubernational candidate Don Yarborough stopped briefly Thursday at the Hereford Municipal Airport. The candidate was met by 25 members of the Democratic Party here. In his remarks, Yarborough lashed out at his opponent in the June run-off and called for repeal of the sales tax and the auto insurance merit plan. (Staff Photo)

Realtors Urge Voters To Voice Their Opinions

Members of the Hereford Board of Realtors voted in their regular meeting Friday to urge voters to voice an opinion in the May 26 school bond election.

Meeting at noon in the Hereford Country Club, the board decided unanimously to urge local citizens "to study the proposal and vote."

Board president Virgil Justice presided at the luncheon. Secretary Oliver Streu presented the board with literature from the National Association of Real Estate Boards.

Members also discussed proper city zoning laws.

Beginning a drive to enlist more membership in the Hereford Board of Realtors, a committee comprised of J. C. Ricketts and R. V. Smith was appointed to spearhead the drive.

Streu pointed out that the board meets the third Friday of each month at noon in the Country Club. "Other real estate agents and members of the building and loan trades are cordially invited to attend our meetings," he added.

D.E. Survey Shows Effect Of Program

Results of a survey of former students were announced and a new club president was named in the final meeting of the Hereford High School Distributive Education Club last week.

A survey taken recently showed that almost 40 per cent of the students formerly enrolled in Distributive Education are currently employed in the field of work for which they were trained in the high school program.

This survey included college students, college graduates, and persons who have completed armed forces duties, as well as former students currently fulfilling such obligations.

Only graduates from the Hereford Distributive Education Club were included.

Kenneth Hart, local Distributive Education Co-Ordinator at Hereford High School, stated, "I was surprised with the results of the survey, as most local employers will probably be surprised."

At present, 26 per cent of the 61 former Hereford students are working full-time in the field in which they were trained as a high school student.

An additional 13 per cent are working in jobs similar to those which they had through the D. E. program, although still attending college.

"This information will be valuable to employers who are currently employing D. E. students or those who are considering the possibility," Hart pointed out, "since many are concerned with the need for young people in their field of business."

The results of the count also pointed out that only nine per cent of the former D. E. students at Hereford High are working in vocations other than those in which they received D. E. on-the-job training.

Married girls and college students who are not working comprise 33 per cent of the former D. E. students, while 11 per cent are now serving in the Armed Forces. Only eight per cent of the former students were not included in the survey, since their present status could not be learned.

Rondal Long was elected to serve as Distributive Education Club president for the 1962-63 year. Other club officers will be elected next fall. Out going club president was Harold Anderson.

Topic Of Meeting Is Grocery Buying

The Young Homemakers Home Demonstration Club met Tuesday afternoon, May 15, in the Community Room of the First National Bank. Mrs. Richard Clark called the meeting to order with nine members and four visitors answering roll call by telling a "grocery buying aid".

Mrs. Argen Draper gave an interesting program on "Grocery Buying and Home Economics". She also demonstrated making your own salad dressing and mayonnaise. Mrs. Draper distributed some recipes to those present.

Mrs. Don Jackson, in the business meeting, read the minutes of the last meeting. Reports of the standing committees were given. Final plans were made for the club's "42" party slated for May 18, Friday, at the Bull Barn. Mrs. Clark appointed Mrs. Kenneth DeHart, Mrs. Jerry Brown and Mrs. Charles Brothers to serve with her as members of the nominating committee.

Mrs. Draper announced that she was sending survey questions on home management to some of the club members to be answered and returned.

The meeting was adjourned and refreshments were served to Mesdames Buster Miller, Kenneth DeHart, Pete Lowrie, Don Jackson, Melvin Shaw, Bobby Finley, Roy Evans, Dean Paul, Richard Clark, and visitors, Mesdames Charles Brown, Lonnie Cardinal, James Stayton and Mrs. Argen Draper, county home demonstration agent.

Officers Elected At La Madre Mia

The La Madre Mia Study Club held its regular meeting and election of officers Thursday evening, May 10, in the Friendship Room of the Hereford State Bank.

Mrs. John Smith, president, presided at the session of business. Reports from the standing committees were heard. An announcement was made that the club had won first place in the KPAN Community Awards contest. A contribution was made to the hospital being built at the migrant labor camp from the money won in the contest. A portion of the money won was given to the club's project for the past year.

Officers elected for the new year were Mrs. Richard Pickens, president; Mrs. Bill Lankford, vice president; Mrs. Joe Locke, secretary; Mrs. Eugene Sparks, treasurer; Mrs. Joe Whitley, parliamentarian; Mrs. Harold Morton, historian; and Mrs. Bobby Owen, reporter.

Installation will be held on May 24 in the Japanese dining room at the Western Wheel Inn.

Mrs. Lee Drake, hostess, served refreshments to Mesdames Leon Billington, Joe Brooks, James Brownlow, R. V. Hale, Ted Hardwick, Joe Henry, Dean Herring, Joe Locke, Harold Morton, Bobby Owen, Richard Pickens, John Smith, Eugene Sparks, John Beasley, Joe Hacker, Joe Whitley and Mrs. Dale Wynn, a visitor.

Honors Won At State Federated Convention

Mrs. Ray L. Johnson and Mrs. L. H. Lookingbill Sr. who attended the 65th annual convention of the Texas Federation of Women's Clubs held May 8-9-10 in San Antonio, report special honors won by the Pioneer Study Club of Hereford, of which they both are active members.

Out of the 2998 federated clubs of the state represented, Pioneer Study Club won second place in education reports, and Mrs. Ralph McCullough, president of Pioneer Study Club and Texas Heritage department chairman of the Top of Texas district, won second place in the state Texas Heritage division.

Mrs. Ray L. Johnson was installed as first vice president of the state federation at the convention.

Mrs. L. H. Lookingbill Sr., a member of the resolutions committee, introduced resolutions that were adopted at the state meeting. Those resolutions are that "Americanism" of "Our American Heritage" be included on the scoreboard as one of the required programs of the Texas Federation of Women's Clubs; that restrictions, including accompaniment by a parent, be placed on the exit of youths under 18 years of age from the United States to Mexico; and that the Texas Federation of Women's Clubs does endorse the establishment in Texas of a regional program of the Natural Science for Youth Foundation.

BY JIMMIE GILLENTINE

Things are looking up on the sugar front. Jim Witherspoon and Lee Benefield were tired, but feeling pretty fair over the outlook of things when they got back from Washington Thursday night. They seem to think that fate of the proposed sugar bill will be decided by June 15. Benefield says when Witherspoon sees a light on in a congressman's office at the capital that Jim just has to find out what the old boy is doing-regardless of the hour-and he always gets in a plug or two about the importance of domestic sugar.

When the sugar bill finally comes out, it will reflect quite a few compromises on all fronts. Generally speaking, our boys seem to think that it will be acceptable to this area, as well as acceptable to the old beet territories. President Kennedy and Secretary Freeman apparently are not too happy with the bill as amended from time to time, but are not expected to veto. Meanwhile, two beet sugar firms, Holly and American Crystal, are definitely interested in this territory. At least one of the firms is expected to build a plant here if the bill provides sufficient acreage for the area, and some of the more optimistic are predicting that both firms will do some construction in the territory. The way I get it, things are looking unusually rosy — but the whole works could still collapse, depending on the flimsy whim of politices.

If things do pan out, however, Hereford will go on record with its first large scale industry, representing an investment if some $18 million Only time will tell the complete story.

And perhaps the Brand owes an apology for a recent editorial we carried urging parents to support and help coach the Little League teams. Bill Bradly was showing the youngsters on his son's team how to lean out from first base and grab those hot ones when something snapped in his knee — and Bradly is now getting places rather slowly with the use of a cane. Hap Cayness was demonstrating when he sprained an ankle; he also stopped a fast one, which severely bruised his hand. So far, I haven't heard of any of the youngsters getting hurt, but the game is perhaps a bit rough on old men. Like mowing the lawn and killing dandelions, this coaching business is something probably better left to the wives. My boy always insisted that he got better instruction from his mother, anyway.

News to me was the fact that "Red" Jacobs, the Agriculture Department fellow who resigned because of Billie Sol Estes gifts, has been a frequent visitor in Hereford and Deaf Smith County, according to Jack Renfro, who says that he does not believe Jacobs is guilty.

After considerable deliberation, I have decided to vote for John Connally for governor. To me, he represents a lot of things I do not like, including Washington, D. C. influence and possible endorsement of L. B. J., but I still think he would be better than Don Yarborough or Cox. Yarborough is definitely immature for the job in addition to representing organized labor in Texas, and I cannot help but classify Cox as an opportunist who jumped from one party to another with the sole purpose and idea of becoming governor. Connally, on the other hand, is a hard worker and he is a strong, energetic leader. Texas will probably go further under his term of office than under any governor we have had in a long time. If we have a conservative Democrat at all, it is bound to be Mr. Connally. Anyway, that's how it looks to me, and I realize that a lot of folks will disagree, which is still the great American privilege and duty.

Sometime this month the banks will publish a list of inactive accounts in accordance with the new escheat law. I understand that they have instigated a drive and located most of the people, many of whom indicated that they know about and want the money to remain "as is"; a few had completely forgotten and overlooked the accounts, and a very, very few could not be located high or low. I don't like the title of the law, however; it sounds to much like, "let's cheat".

I can't imagine folks forgetting where they put their money, but I guess it happens. My trouble is usually just the opposite, the bank is always sending me one of those nasty little OD notices. However, Leo Forrest came up town this week and forgot where he parked his car, so I guess anything is possible. The car wasn't really lost, though; the police knew where it was all of the time — because they put an over-parking ticket under the windshield wiper.

And it did rain before May 20, which is a good sign. This means that we will get some showers in June and July. Probably enough to keep the range grass going and still not damage the vegetable crops. About hail, I am no expert, but I do recommend Miles Roberson and Les Combs. If they can't tell you, just talk with any of the insurance boys around town. Prospects are good for more scattered showers over the weekend and next week.

We do not have many Brand subscriptions going into the forty-ninth state, but Mrs. J. W. Kirby was in this week to send the paper to her granddaughter, Mrs. John Noakes. Friends will remember Mrs. Noakes as Sue Kirby, daughter of Mr. and Mrs. Jim Kirby. The paper goes to Douglas, Alaska, which is near Juneau, seat of the University of Alaska. John, who is one oof the few people who holds a degree in Oceanography, is setting up a marine laboratory at Douglas in connection with the university. Texas A. & M. is one of the few, if not the only school in the nation, which offers a degree in Oceanography.

A true optimist is a woman who starts slipping into her shoes when the preacher says, ". . . and in conclusion let me say . . .".

After 12 seasons as line coach, Mike Cooley, class of Georgia '48, has the head coaching post at Lehigh University.

Bands Present Spring Concert

The spring concert of the bands of the Hereford Public Schools was presented on Tuesday evening, May 15, in the Hereford High School Auditorium at 7:30 p.m.

The program opened with the Stanton Beginners Band playing the "Star Spangled Banner". "Bolero", "Nobody Knows The Trouble I've Seen", "Schubert Serenade" and "Battle Hymn of the Republic" completed their portion of the program. The band was conducted by Harris Brinson, practice teacher from West Texas State College in Canyon, who was the recipient of the Outstanding Bandsman Award at the college for this year.

Miss Kathy Knox played a flute solo, "Charminade Concertino" by Mozart.

Stanton Junior High School Band presented, as their portion of the concert, "Storm King March", "Balladier", "Prelude to Act V King Manfred" and "Overture For Winds", songs the band had played in contest, winning two first place honors.

Miss Beverley Boyer and Dickie Bob Mason were crowned Band Queen and King. They are members of the Hereford High School Band.

Louise Axe, Pattie Roach, Joyce Linderer and Curtis Crowell, members of the saxophone quarter, played the "Prelude and Beguine" by Williams.

Before the portion of the program presented by the Hereford High School Band, Jim Grubbs, band member, welcomed the listeners and thanked everyone for attending. Glen Nelson Jr. gave a short thank you in behalf of the seniors to the director, Ben R. Gollehon.

"Irish Tune From County Derry (Danny Boy)" by Grainger, "Sound of Music" by Rodgers-Hammerstein, and "Misty", a solo by Louise Axe, by Warrington.

Clee Meharg, president of the Hereford Lions Club, presented the Sousa Award to Curtis Crowell, drum major of the band.

The concert was concluded with "Grecian Theme and Dance" by Cacavas.

Jack Aikin, Stanton Beginners Band; Jerry McCathern and Patricia Maxwell, Stanton Junior High School Band, received awards as outstanding bandsmen. The awards were presented by Gollehon.

ELECTRONICS ANSWERS SERIOUS PROBLEMS

For years some people have been handicapped by not being able to understand voices in noisy places - difficult understanding in group conversations-hearing but not understanding the words. Fidelity Electronics has developed a new AUTOMATIC VOLUME CONTROL SYSTEM that virtually eliminates these serious problems. For those people in the Hereford area who would like more information on this or other hearing problems, contact Mr. Carl Boehm at the Jim Hill Hotel between 1:00 and 5:00 P. M. May 22, 1962, or write to : Amarillo Hearing Aid Center, 3402 Lynette Drive, Amarillo, Texas."

Your Red Cross In Action

By Ramona Noel

Whee — have things been popping these days.

Our swimming classes at Friona are half over and we have had fun. We've been a few instructors short most of the time, but we don't let that stop us. Oliver Streu, Rose Ann Fraser, Ora Hale, Bill Hardwick, Barbara Barrett and yours truly have been giving the instructions. Around fourteen from Hereford have been journeying to Friona each Friday night for these classes, not including the instructors.

While on the subject of swimming. The National Aquatic School will be starting next month, June 3-13, at Athens, Texas. So far, just one name has been sent in to attend the school from Hereford. If you're eligible or interested please call Corrine Neely at EM4-3761. She needs to know in order to get your reservations.

Two women representing the rural area met for a discussion on organizing a rural Motor Corps. These women will serve in case of emergencies in their areas and be of service to the chapter whenever needed. Five women for the Corps and one Gray Lady completed the first two hour class session of orientation.

Shari Prowell has been added to the chapter as a new staff-aide. She will assist Mrs. Frank Wilhelm, who has served for six years. Shari earned this position by working in the chapter office one afternoon a week since October.

Volteens had a disaster program showing a film and appointing committees to be a part of the Chapter Disaster Plan being revised. Buz Gillentine and Mamie Silvertooth are co-chairman of the committee appointments.

Nine girls attended two hour classes on Mother and Baby Care after school and received certificates. Four of the girls were Jr. Gray Ladies.

Next month our summer swimming classes will begin at the city pool.

Piano Recital Is Slated For May 21

Irrigated Pasture Program Reported

"Interest in planting irrigated grasses for livestock grazing remains high", reports Don Newman, head of the Hereford Soil Conservation Service office.

"Many Tierra Blanca Soil Conservation District farmers are planting such irrigated Midland bermuda on land diverted through the Feed Grain and Wheat Programs. Irrigated grasses may be planted anytime from May through August 15", states Newman.

TALL GRASS provides excellent pasture for this cow and calf. Located on the F. L. Eicke farm 15 miles north of Hereford, this 12-acre irrigated pasture of Blackwell stitch grass was planted in June of 1960, with some 80 head grazing the field last week. (S. C. S. Photo by Hugo Bryan)

"There is a considerable acreage of irrigated grasses being grazed for the first time this year and management is extremely important", states Newman. "Many farmers have found that they have not allowed their irrigated grasses to make sufficient growth before grazing begins and consequently they have over grazed their pastures in a short period of time.

"This reduces the vigor and future rate of growth. Grazing should be postponed until grasses such as switchgrass has grown to a height of about 20 inches and bermuda grass to a height of about 8 inches", he points out.

Pastures should then be stocked in accordance with the degree of management expected. Pastures being fertilized and irrigated frequently may be grazed heavier than those with a less degree of management.

"Under proper management, irrigated pastures will furnish considerable profits from grazing. Without proper management many will not get the results from their pastures that they expected," Newman stated.

Assistance in planning proper irrigated pasture management may be obtained from the local office.

EXPLAINING AVIATION FACTS is Cliff Green, (left) executive directive of the Texas Aeronautics Commission, who was the guest speaker at the Lions Club luncheon Wednesday. Green pointed out the Municipal Airport here is far ahead of those for other cities of similar size, but warned that in five years Hereford could possibly be left behind. He suggested the creation of an airport board here to deal with local problems. Green was introduced at the noon meeting by Dr. Milton C. Adams.

gain called for a debate on the issues of the campaign saying that he would meet with him to debate any subject on any platform or over a state-wide TV hook-up.

"My opponent says that he has nothing to gain from a debate," said the Democratic candidate. "I have nothing to gain from a debate either. It is the people of Texas who stand to gain from a debate on the issues of this campaign."

He emphasized that he was a loyal member of the Democratic party as he spoke, and added: "I am the only one in the race."

Yarborough also pointed out that he is for a two-party state saying: "It is the only way the State of Texas can develop as it should. A one-party state is a no-party state."

In expressing his opposition to the automobile merit rating plan, the candidate called it "double jeopardy." He also commended Marshall Formby for his fight against the plan and for being the first candidate in the governor's race to take a stand against it.

Yarborough was question about the charge levelled against him of being "labor controlled" after he was endorsed by Texas labor unions.

"Nobody is going to control me," commented the candidate, "if I am elected. I was not endorsed by the labor movement, but only recommended."

He pointed out that he would work with both labor and management for the betterment of both and would "not represent either one to the betterment of the other."

"Nor will I represent both," he commented, "to the exclusion of the small businessman and the farmer."

During the remarks made to the group at the airport, Yarborough blasted possible control of the state government by what he called "big, eastern lobbyists and interest."

"I don't want to see a comination of power controlling the office of the governor," he emphasized. "Nor do I want to see the office dominated by either Washington or New York."

Yarborough expressed his intention to represent the best interests of all citizens of the state.

"I would rather not be governor," he remarked, "than play up to any one party or group."

He also promised that all sections of the state would be equally represented on boards and commissions in order that all areas would have a voice in the state government.

Yarborough was questioned by the group concerning his stand on the rates to farmers using natural gas to power irrigation pumps.

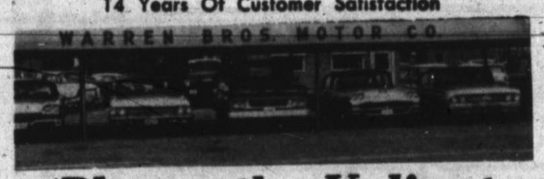

It was pointed out to him the fight waged during a special legislative session to bring the natural gas companies under the control of the Railroad Commission for the fixing of a fair price on agricultural irrigation sales.

The candidate declined to take a stand on the local issue saying that he was not informed over what was involved. He later promised to look into the matter and committed himself promising fairer rates.

As Yarborough arrived, county residents spent a few anxious moments as the candidate excused himself from the group for a long distance call.

However, he overstayed his alloted time talking to the group before flying on his next scheduled stop in Plainview.

run-off, young Don Yarborough, was here for an hour-long visit at the airport Thursday. After being neglected during the first primary campaigns, the Panhandle is getgetting a lot of attention now as the survivors try to capture Marshall Formby's bloc of votes.

Also slated in Hereford Tuesday is the annual Optimist Club Pancake Breakfast. For a small price, you can have all the pancakes, sausage, and coffee or milk you want. The meal will be served at the Safeway Store from 6 a.m. until 9 a.m.

Chamber manager Bill Thompson says the Chamber has been made aware of some mail advertisements coming into the area from a firm which represents itself as selling unclaimed or freight-damaged merchandise as a liquidating firm. Thompson says he is checking with the national Better Business Bureau office, along with the BBB office in the firm's base town for information. He urges that you check with the Chamber before investing any money on any of the so-called "bargains."

There will be a meeting of Pony League Mothers at the Hereford Community Center at 4 p.m. Monday, May 21, to organize and elect officers. All mothers of Pony League players are urged to be present.

Beta Sigma Phi Sorority members in Hereford are canvassing the town for used furniture which they might take to Girls' Town within the next two weeks. Anyone who has such furniture is asked to contact Mrs. Carl Hollingsworth or Mrs. Hicks Roberson, who ask that you don't donate broken furniture. They said that's what Girls' Town has now. The Sorority gals also mentioned that the proceeds from their Style Show were being used to purchase carpets, living room furnishings and electrical repairs for Girls' Town.

Persons who have applied for windbreak trees through the Tierra Blanca Soil Conservation District are advised that delivery will be made beginning at 1 p.m. Wednesday, May 23. The trees may be picked up at the west side of the Fullwood Building, 236 West Third. District officials said the nurseryman also would bring some extra trees for those who didn't make application earlier.

Mrs. Earl Springer plans to teach a Red Cross "Mother and Baby Care" class, starting June 4. There will be three classes a week for two weeks. Six married couples are needed for a class, which will be held from 7-9 p.m. in the High School homemaking department. Call the Red Cross office, EM4-3761, to register.

We didn't say anything—which shows unusual forebearance for us — while KPAN had one window of the Streu building filled with all sorts of stuff. They started filling up the window Clean-Up Week, which seemed to be a slap in the face. But they just left the stuff until Friday, when Clint gathered up his staff and cleaned it out. Trouble is, they felt the Brand should also clean up, particularly some of the news desks. We tried to explain our own particular filing system, but had to give up. They just don't understand. . .and sometimes, we don't either!

Urlin Streu was wandering around next door at the same time. And he came up with a small leather-covered Bible. On the fly-leaf it was inscribed to Katherine Turner from the First Baptist Church of Hereford and was dated Sept. 24, 1933, when the Rev. V. M. Cloyd was pastor. We have the Bible in the Brand office if someone claims it.

A comedian on the Perry Como Show the other night was talking about hooking Lloyd Bridges off the coast of Maine. If there are Hereford residents who have hankered to take his place on Sea Hunt, this is their chance: Don Beer of Amarillo will start teaching a skin-diving class at Friona on Monday, May 28. His classes will run for two hours a night, one night a week for ten weeks. There will be a charge for the class, which will include use of the indoor pool, textbooks, air tanks, regulators, weights and instruction. If you are interested, call Truitt Johnson at the Friona Pool or Ramona Noel at BR6-4111. Happy breathing!

We hear there is s new doll on the market, called the Liz Taylor. You wind it up and it breaks up your family.

Three of the four AA Little League minor games were played during the past week, with the fourth blown out and postponed until another day. The Cubs downed the Angels, 22-8, and the Mets, 7-0, to take the lead. The Senators defeated the Angels 19-18 on a bases-loaded homer. In the Majors, the Giants outhit the Yankees for an 8-4 victory Friday night. In the AAA minors, the Pirates beat the Cards 11-9 and the Braves beat the Pirates 16-7, then the Dodgers beat the Braves 9-4 and the Cards whipped the Giants. 17-8.

I'm sure that not even the great Stengel (Casey) Faces the problems that drive a Little League coach crazy. Imagine finding just before a game, your second sacker has mumps.

crease the domestic marketing base from 1,800,000 tons to 2,650,000 tons a year for sugar beets, an increase of about 25 per cent. It would also increase the marketing allowable for mainland cane sugar by about 40 per cent, to 895,000 tons a year.

Total sugar to be marketed will be about 5,810,000 tons a year, including Hawaii, the Virgin Islands and Puerto Rico.

One important change proposed is that the deficits from domestic growing areas, such as Hawaii and Gulf Coast cane areas, would be allocated to foreign imports rather than to domestic areas, as is now done.

The bill also would raise the domestic sugar beet portion of the growth factor (the natural increase in demand for sugar caused by increased consumption and/or population) from 55 per cent to 63 per cent. This, Witherspoon said, would be an increase of about 12,000 tons a year.

He said that it is proposed that 50,000 tons per year production from the sugar beet production portion of the growth factor be set aside for new mill areas. This, he felt, would be equivalent to one new mill each year for five years, which is the normal length of the Sugar Act. If this allocation were not used, it would revert back to old beet production areas.

Witherspoon said that he felt the compromise bill, with Cooley's amendment on the quota system, would pass the House about June 15. That would give the Senate until June 30 to pass on the measure. The current extension on the Sugar Act expires June 30.

In addition to Witherspoon and Benefield, the Texas delegation included men from Hale Center, Friona and Dimmitt.

Hail...

(Continued from page 1)

Ray Stewart, who lives south of the community, reported that 20-30 per cent of his wheat and barley crops were damaged. All grain in each of his fields suffered some damage, but approximately 50 per cent of the barley was lost.

To the north and west of Dawn, a "lot of marble-sized to golf ball-sized hail" fell as two severe thunderstorms rumbled across the area. Approximately one inch of rain was recorded.

On the Claude Ricketts farm, two and one-half miles west of Dawn, the storm damage from 75-100 per cent of the wheat crop, according to Mrs. J. B. Caraway.

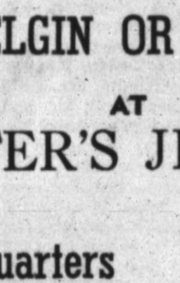

However, on a second place, just to the east, damage was much less with only 25 per cent of the crop being damaged.

All of the damage occurred during a heavy storm which lashed the area for 'not over 20 minutes."

From reports received, the storm lashed an area from five to six miles wide from just south of Dawn north toward the Wildrado area. Spot checks indicated that damage in the area caused by wind and hail ranged from moderate to heavy.

Descriptions of the damage, however, indicated that the hail storms skipped across the area damaging some sections severely while other areas escaped.

Awards Are Given To Mason, Royal

By Mrs. Clark Dobbs

Once again two more boys from the community have gained honors.

Dicky Mason was crowned "Band King" at the Spring Band Concert held Tuesday night in the high school auditorium. The queen was Beverly Boyer of Hereford. Dicky has been in band six years and held an excellent grade average each year. He is the son of Mr. and Mrs. R. M. Mason.

Gary Royal was honored for his Future Farmers of America record books. About a month ago he won district at Boys Ranch, which entitled him to enter the area meet in Lubbock last Saturday. There he won the Star Farmer award and received a plaque in recognition. He has now won the chance to go to state, which is at Fort Worth some time in June. He is the son of Mr. and Mrs. Ted Royal.

Norman Minks left Tuesday for Fort Worth to attend the Hereford Stock Progress Clinic sponsored by the American Hereford Association. He returned home Thursday.

Mr. and Mrs. Marshall Sellman of Santa Fe, N. M., spent last Monday evening with their daughter, Mr. and Mrs. Stanley Stutts and son.

Mr. and Mrs. John David Owens and family spent Sunday evening with her sister, Mr. and Mrs. Joe Wagoner.

Joann West has arrived here from Phoenix to spend some time with her father, Tommy West, and brother Tommy Jr.

Jenette Gregg, seven-month-old daughter of Ed Gregg, has been sick this week with the chicken pox.

The Bill Roberts family spent Mother's Day with their parents, Mr. and Mrs. A. J. Smyth of Olton, and Mrs. Beuna Roberts of Plainview.

Mr. and Mrs. Herb Schmidt, Tommy and Dale, and Mrs. Reba Robinson went to Oklahoma to spend Mother's Day with their mothers. At Cordell the Schmidts visited her mother, Mrs. Lonnie Hines, while Mrs. Robinson visited her mother, Mrs. Ward. The Schmidts also visited his parents at Clinton, Mr. and Mrs. D. P. Schmidt. From there they went to Haggert to visit one of Herb's aunts, Mrs. Ted Schmidt, who is seriously ill in the hospital there.

Marvis Southward and his son Arvis were in an acident Saturday in town. It hurt Arvis' arm, but not seriously. The pick-up received some $300 in damages.

Mr. and Mrs. J. H. Dobbs and Larry and Mr. and Mrs. James Dobbs and LeAnn were Sunday dinner guest of the Clark Dobbs family.

Mr. and Mrs. A. G. Grisham spent Mother's Day with his mother, Mrs. C. M. Grisham, of Amarillo. On the way home they stopped in Hereford and spent the evening with Mrs. Leona Packard.

Mr. and Mrs. Bill Hutson spent Mother's Day with her parents, Mr. and Mrs. G. B. Dennis of Tahoka.

Mrs. Moody Stephan and Mrs. Neily Culp spent Monday afternoon with Mrs. A. G. Grisham.

Mr. and Mrs. J. R. Southward of Friona spent Wednesday with their son, Mr. and Mrs. Marvis Southward.

Shirley Head came Monday to stay with Dusty and Cindy Dobbs until Tuesday morning, when she went to town to stay with her grandparents, Mr. and Mrs. A. A. Head. Her parents, Mr. and Mrs. Harold Head, and Mr. and Mrs. Mayo Phipps of Friona spent a few days in Mexico.

Mrs. Bill Dewery was finally dismissed Monday from the hospital. She will have to spend some time in bed recovering from her accident.

Mr. and Mrs. J. W. Hammersly and Michael of Lubbock spent Mother's Day here with her parents, Mr. and Mrs. L. S. Tice.

The Rural Home Variety Club met with Mrs. C. P. Worthan Thursday with 15 members and two visitors present. The next meeting will be a luncheon on May 31 at Mrs. Bill Roberts' home.

Mr. and Mrs. E. O. Baird and family spent Sunday in Plainview visiting their son and new granddaughter, Mr. and Mrs. Lawrence Baird and Cindy.

Mr. and Mrs. Gary Mason and family of the Frio community honored his mother, Mr. and Mrs. R. L. Mason, Sunday by taking her out for lunch in Friona.

The Woodrow Duttons, Frank and Bill, and Clifton Robison and LaQuita had an outing at Buffalo Lake Sunday.

Mr. and Mrs. Marion Ferguson went to Matador Monday night to attend the graduation exercise. Their neice, Sue Cross, was among those graduating.

The Tom Nance family spent Mother's Day with his mother, Mrs. W. D. Nance of Lockney. Three of Tom's brothers were also there, Bud and Mike of Lockney and Mr. and Mrs. Joe Nance of Silverton.

THE SUNDAY BRAND WOMEN'S SECTION

Helen Nelson, Society Editor — HEREFORD, TEXAS, SUNDAY, MAY 20, 1962 — SECTION TWO

CROWNED QUEEN OF the Morning in a special ceremony was Mrs. Willie Gililland of Hereford, pioneer woman and the only living charter member of the Pioneer Study Club, was honored by her club on Tuesday morning, May 15. A silver crown entwined with fresh orchid flowers was presented to the honoree by the club president, Mrs. Ralph McCullough. A book, "I'll Take Texas", was given to Mrs. Gililland and will in turn be placed in the Deaf Smith County Library in her memory.

Pioneer Woman Honored In Special Ceremonies

Pioneer Study Club met in the Hereford Community Center on May 15 honoring pioneer citizens on Pioneer Guest Day.

The program began at 9:45 a. m. with a song to symbolize the dedication of the new piano at the request of Will Harris, who spearheaded the financial drive for money to buy the instrument. Mrs. C. R. Walser used Proverbs 31:29 as the devotional about virtuous daughters. She asked that each person present read this chapter when they returned home to receive a blessing after the Mother's Day messages and reunions with their families. Prayer was led by Mrs. O. G. Hill Sr.

Mrs. Ralph McCullough, president of the club, introduced Mrs. Willie Gililland, the only living charter member of the Pioneer Study Club. She has been a member for 53 years. After crowning Mrs. Gililland "Queen of the Morning", Mrs. McCullough presented her a copy of the book "I'll Take Texas". Seven members of Mrs. Gililland's immediate family were present.

Two other special mothers were honored: Mrs. Henry Hastings who was elected "Mother of the Year" in KPAN's Mother of the Year contest, and Mrs. Bess Werner, "Home Demonstration Club Woman of the Year", sponsored by The Hereford Brand.

Each pioneer, other than club members, introduced themselves and made a short talk.

Mrs. Ray Johnson, program chairman, paid special tribute to the president, Mrs. Ralph McCullough, who is District Texas Heritage Chairman, for winning second place in club reports out of 2998 clubs in the state.

Mrs. Art Manjeot, Texas Heritage chairman for the Pioneer Study Club, introduced Mrs. Carl Mountz who sang, "When You and I Were Young, Maggie" and "The Yellow Rose of Texas" accompanied by her daughter, Mrs. B. Y. Crosthwait, at the piano.

Mrs. Manjeot presented a few thoughts for study from an article titled "Taking So Much For Granted".

Mrs. Corinne Neely, guest speaker for the day, chose as her topic, "Pioneers of Deaf Smith County and the Pioneer Study Club". She said "It has long been a dream of mine that a history of Deaf Smith County be compiled. Several college students have started a thesis on the subject but so far we do not have a complete history."

She gave a short resume of each member of the Gililland family and praised them for their many works in civic activities. She related stories of the lives of Pioneer Study Club members in the form of new interviews.

In closing the program "The Pledge of Allegiance" was led by Mrs. H. E. Miller and Mrs. L. H. Lookingbill led the group in repeating the club motto in unison.

Guests present were P. H. Dyer, Marlin Gililland and Will Harris; Mesdames Tom Draper, Hugh Witherspoon, Nona Jowell, C. Ora Cockrell, P. H. Dyer, B. Y. Crosthwait, Joe Landers, Odelia Huckert, H. L. Hershey, Vern Witherspoon, Henry F. Neely, D. H. Bryant, H. M. Benefield, Ida Bennett, Maude Orr, Carl Mountz, Mary Bodkin, Willie Daniel, Pearl Boyer, R. J. Smith, Martha Pierce, G. W. Brumley, C. Mildred Ann Meyer Weds William Joseph Wieck

Miss Mildred Ann Meyer, daughter of Mr. and Mrs. Vincent J. Meyer of Umbarger, and William Joseph Wieck, son of Mr. and Mrs. Joe Wieck of Umbarger, exchanged wedding vows recently in the sanctuary of St. Mary's Catholic Church in Umbarger.

The Rev. Monsignor W. F. Bosen read the double ring ceremony before the alter that was decorated with Easter lilies.

Nuptial music was provided by St. Mary's Senior Choir with Mrs. Vincent Ehly of Nazareth as organist.

Mrs. Virginia Meyer of Olathe, Kan., a cousin of the bride, was matron of honor and the bridesmaids were Misses Dorothy Wieck, sister of the groom, Margaret Westhoff and Linda Wieck, cousins of the bridegroom. All the attendants wore dresses fashioned of nylon over rayon taffeta with nylon puff sleeve jackets, matching gloves, shoes and head pieces. They carried cascade bouquets of carnations tinted to match the dresses and trimmed in darker matching colors. Miss Helen Rickwartz, cousin of the bridegroom, was flower girl, wearing a blue dress of nylon organza and carrying a basket of flower petals.

Best man was Fred Wieck of Umbarger and groomsmen were Vincent Meyer and Gene Stocker of Umbarger, and Don Meyer of Hereford. Ushers serving were Lawson Alford of Amarillo and Ed Grabber of Umbarger. Ringbearer was Albert Meyer of Wildorado, nephew of the bride.

The bride, given in marriage by her father, was attired in a formal wedding gown of imported chantilly lace and tulle, fashioned with a sweetheart neckline and long fitted sleeves tapered to petal points over the hands. The bouffant skirt was caught in front with rosettes of lace and fell in tiers of lace and net in the back. Her veil of silk illusion fell from a lace Juliet cap trimmed with seed pearls and sequins. Her only jewelry was a single strand of pearls. The bridal bouquet was a cascade arrangement of carnations, centered with gardenias.

Mrs. Meyer, mother of the bride, wore a powder blue dress, blue hat, and white accessories. The bridegroom's mother, Mrs. Wieck, wore a lavender dress with matching jacket and a lavender hat. White accessories completed her costume.

A reception, hosted by the bride's parents, was held in the fellowship hall of the church immediately following the ceremony.

When the couple left on a wedding trip to Denver, Colo., the bride was dressed in gold suit, fashioned with a box-pleated skirt and three-quarter-length sleeved jacket. Her corsage was gardenias lifted from the bridal bouquet.

The bride is a graduate of Umbarger High School and is a member of St. Mary's Sodality. The groom is also a graduate of Umbarger High School and is a member of St. Mary's Sodality and the Knights of Columbus. The couple will make their home in Umbarger where the groom is engaged in farming.

Out-of-town guests attending the wedding were Mrs. Phil Loftus and Mr. and Mrs. Ambert Meyer and Virginia of Olathe, Kan.

Statues of the Blessed Mother and Saint Joseph, a gift from the Children of Mary Sodality, were presented to the bride and groom after wedding Mass.

Rowland - Fitzgerald Plan June Wedding

Mr. and Mrs. Troy Rowland, 235 Avenue F, Hereford, are announcing the engagement and approaching marriage of their daughter, Patricia Carol, to Billy Wayne Fitzgerald, son of Mr. and Mrs. C. D. Fitzgerald Sr., 105 Avenue K, Hereford.

The marriage will be solemnized on Sunday, June 10, in the home of the bride-elect's grandparents, Mr. and Mrs. W. F. Rowland, in Amherst. The couple will make their home in Hereford at 500 East Third.

Kappa Iota Chapter Has Culture Program And Officers Installation

Texas Kappa Iota Chapter of Beta Sigma Phi sorority met Tuesday evening, May 2, at the Hereford Community Center for installation of officers and a regular meeting.

The Beta Sigma Phi Installation Ritual was conducted by Mrs. Hicks Roberson, outgoing president of Kappa Iota Chapter, assisted by each outgoing officer for the past club year. Those installed for the new year were: Mrs. Howard Gore, president; Mrs. Delmo Williams, vice president; Mrs. Doc Carter, recording secretary; Mrs. Gene Cope, treasurer; Mrs. Howard Walker, corresponding secretary; and Mrs. Bruce Fink, extension officer. Other officers for the year include Mrs. Glenn Wilson, civil defense; Mrs. Larry Summers and Mrs. John Schneider, delegates to city council; and Mrs. Don Baugous, alternate city council delegate. Mrs. Ansel McDowell received the pin of the sponsor and Mrs. Bess Moore received an honorary member pin.

A regular meeting was held after the installation. At this time the members voted to accept the Texas Mental Health Association as its state project for the next year. Each member was urged to make plans to attend the Texas Beta Sigma Phi convention to be held on June 8, 9, and 10 at McAllen, Tex.

Plans were completed for a trip to Girlstown at Whiteface for the purpose of determining how the sorority could help Girlstown, a project supported by Beta Sigma Phi. Proceeds from the recent spring style show will benefit Girlstown.

Various committees were appointed by the president. They are Program-Mesdames Del Bainum, Bruce Fink, Jim Thomas and Glenn Wilson; Membership-Mesdames Delmo Williams, Larry Summers, John Schneider and Bob Fillpot; Social- Mesdames Glen Wilson, Gardner Collins, Walter Kirkland and Bob Fillpot; Friendly Venture-Mrs. C. C. Williams and Mrs. Claude Miller; Ways and Means-Mesdames Don Baugous, Howard Walker, Gene Cope, Walter Kirkland and Robert Hickman; Photography -Mrs. Noland Grady; Service-Mrs. Harold Miller and Mrs. C. C. Williams; Publicity-Mrs. Larry Summers; Yearbook-Mesdames John Schneider, Noland Grady, Robert Tyler, Van Nichols and Gene Cope; Rosebud Chairman-Mrs. Howard Walker; Contacts-Mesdames Doc Carter, Del Bainum and Gardner Collins; Audit-Mesdames Harold Miller and Claude Miller; and Parliamentarian-Mrs. Van Nichols.

Mrs. Robert Tyler presented a portion of the program entitled "Making An Art of Living". She said "We live in deeds, not years, in thoughts, not breaths, in feelings, not in figures on the dial; we should count time by heart throbs. He lives most who thinks most, feels noblest, and acts the best." This was from a quotation by Bailey.

Mrs. Van Nichols presented her program entitled "Enjoyment of Music". She pointed out that "Taste varies in types of music as well as tastes in orchestras and composers. Jazz also has its place in the musical world and that we oftentimes reveal our age by the type of music we prefer."

Hostesses were Mesdames Robert Hickman and Delbert Bainum who served refreshments to the following members; Mesdames Bruce Fink, Doc Carter, Larry Summers, Frank Barrett, Don Baugous, Robert Tyler, Gene Cope, Delmo Williams, Howard Gore, Ansel McDowell, John Schneider, Hicks Roberson, Howard Walker, Van Nichols, Bess Moore and Jim Thomas.

'Deaf' Smith Says

TO: The Spirit Of General Sam Houston
FROM: The Spirit of Erastus "Deaf" Smith
SUBJECT: A Very Busy Week At My Chamber of Commerce

Like a lot of jobs, Sam, my Chamber of Commerce runs into weeks when everything happens at once. This has been the case at 126 East Third this week. The activity started on Sunday with Curtis Traweek, chairman of the Aviation Committee and Benny Womble, chairman of the Air Show, attending the Childress Air Show at Childress. In spite of some very windy and dusty weather, they reported that Childress had a very good crowd and an excellent show.

On Monday morning the Tourist and Conventions Committee met at the Chamber office to hear reports on the annual meeting of the National U. S. Highway 60 Association, an emergency Board meeting of the International Parks Highway Association and to set some policies in regard to the Texas Division of the Highway 385 Association. It was also agreed at this meeting to commence the annual Drive for memberships to the Deaf Smith County Highway Development Association. This Association, an affiliate of the Chamber of Commerce, is set up to provide funds for the memberships in the two highway associations and to meet the expenses of delegates to those association meetings. The money from this drive also takes care of convention souvenirs such as the miniature water bottles that have attracted so much attention and for other convention promotion.

On Monday afternoon Allen Seagrave, Community Consultant with the Texas Industrial Development Commission visited in Hereford and conferred with Neil Cooper, Clint Formby and Bill Thompson. He surveyed the assets, industry-wise of the community, made several suggestions that will be acted upon, and otherwise assisted the industrial effort of the Chamber of Commerce.

On Tuesday the Aviation committee met for luncheon at the Hereford Country Club. The group considered a number of matters in relation to the appointment of an Airport Board by the City. The committee first agreed upon those qualifications of the personnel who could best serve as an airport board and then agreed upon the names of three people to submit as their recommendation. Following completion of that task they heard a report from Benny Womble on the Air Show. After discussion it was agreed that in order for the air show to succeed this year it would need to be a bigger and better show than last year. It is tentatively scheduled for 3 p.m. Sunday, July 22. Efforts are being made to contract a first class show. There will be many more exhibits and other features this year than was possible last year.

On Wednesday morning the Board of Directors of the Chamber of Commerce met to hear a number of reports in their regular monthly get-together. Curtis Traweek reported on the activities of the Aviation Committee. Les Combs submitted sketches of a proposed special presentation item to be given to special community guests such as the presidents of organizations having their conventions here. The proposal was sent back to committee for further study. H. A. Tuck, chairman of the brochures committee, submitted the bids for the printing of the proposed brochure. The Board accepted the low bid of the Ink Spot for the printing of 5,000 brochures with two full color pictures, the cover and inside spread. The brochure will contain 12 pages four by nine inches in size. The final dummy of the brochure will be ready for approval of the Board at its June meeting and the brochure should be ready for distribution in July or earlier.

Thursday evening a special meeting of the Industrial Development Committee and the Board of Directors along with certain other people was held at the Hereford Country Club to discuss some new ideas and means of bringing additional payrolls to this area.

Friday a number of members of the Tourist and Convention Committee travelled to Odessa for the State meeting of the International Parks Highway Association (U. S. 385). Specifically the delegates from here oppose the proposal of some other community delegates to invest Association funds in a billboard advertising program. It was the unanimous opinion of the committee here that while billboard advertising has a very definite function in the advertising field, the use of bill boards for diverting motorists from one route to another is not an effective use of the funds available for highway promotion. Also on Friday the newly organized Hereford Board of Realtors held its regular monthly meeting at the Country Club.

On Saturday the Deaf Smith County Chamber of Commerce was represented in Amarillo at the Armed Forces Day Celebration. President Clint Formby and Manager Bill Thompson received invitations from General Montieth, Air Base Commanding Officer, to attend a noon luncheon, to witness the military review — which will include Hereford's Oliver Streu as commanding officer of the Amarillo-based Naval Reserve unit — and to view the demonstrations planned for the afternoon at the base. This followed an early morning meeting of the Harvest Festival Committee. The Harvest Festival plans are shaping up very well and publicity is now going out on this community event.

Sam, that completes a very busy week and a full report.

The well-stocked kitchen boasts various kinds of vinegar: cider, malt, tarragon and wine (red and white).

TWO SIDES TO THE STORY

SPRINGERVILLE, Ariz. (AP) — Catherine Fisher was furious when she found eight cows clopping across her recently planted lawn. She notified police and the animals were corralled in a city-owned lot.

That night, her husband, Bob, said a crew of his construction company had knocked down a farm fence and eight cows had escaped.

"And on top of that," he said, "some old lady called the police and I have to pay $5 a head to get those cows out of city custody and back to the owner."

ALMOST UNBELIEVABLE

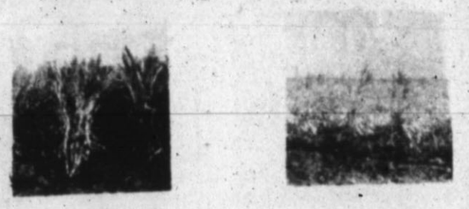

RANCHO SANTA FE, Calif. (AP) — Four years after he shot a hole-in-one on the 7th hole at the Rancho Santa Fe golf course, Jack Matziner of La Jolla came around to pick up an acknowledging trophy.

He tried the course, and shot another hole-in-one on the 7th.

Installation Service Highlights Luncheon

The members of the Dawn Music Club closed the club year on Tuesday, May 15, with a luncheon in the home of Mrs. Robert Strain. Mrs. W. H. Gentry and Mrs. E. C. Reinauer were assistant hostesses.

The invocation for the luncheon was given by Mrs. Strain. The musical selections for the program were "Pretty Polly", a folk musical reading given by Mrs. Steve Bavousett, with piano accompaniment by Mrs. Ray Polan; and "Black is the Color of my True Love's Hair", sung by Mrs. Polan and accompanied at the piano by Mrs. Bavousett. Mrs. Hershel Miller Jr. read "An Ode to a Retiring President" following the installation of the officers for 1962-1964.

Mrs. Strain used the various kinds of music as symbols in installing the following new officers: Mrs. Hershel Miller Jr., president; Mrs. Ray Polan, vice president; Mrs. Clarence Betzen, recording secretary; Mrs. W. H. Gentry, corresponding secretary, Mrs. Steve Bavousett, treasurer; Mrs. L. W. Tooley, parliamentarian; Mrs. H. V. McCabe, reporter; Mrs. Carl Wimberley, choral director; Mrs. Ted Richardson, historian; Mrs. R. T. Stewart, junior club counselor; and Mrs. Ted Richardson, assistant junior club counselor.

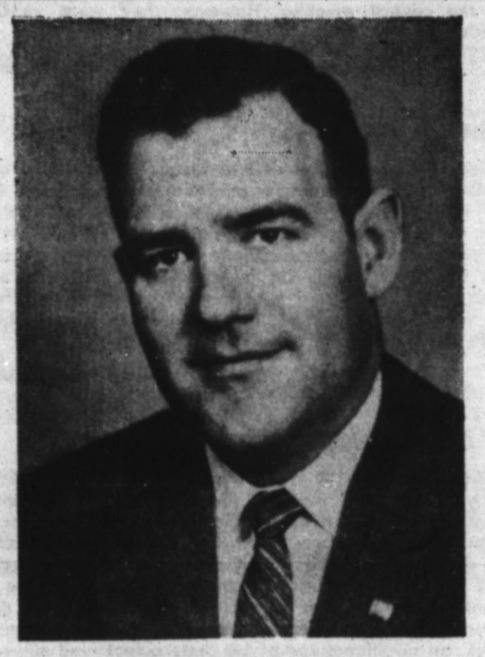

Committees appointed by the new president were: Hymn of the Month, Mrs. R. T. Stewart; Finance, Mrs. Steve Bavousett and Mrs. R. L. Johnson; Yearbook, Mrs. Ray Polan, Mrs. Carl Wimberley and Mrs. Steve Bavousett; Achievement Record, Mrs. H. V. McCabe and Mrs. E. C. Reinauer; Telephone, Mrs. Robert Strain, Mrs. Jim McCabe and Mrs. Ted Richardson; and Cheer, Miss Bertha Frye.

Special guests who are also to become new members for 1962-1964 were Mrs. William Wimberley, Mrs. Edgar Sowell and Mrs. Joe Beard. Another new member, Mrs. Lester English, was unable to be present. Mrs. Baker Womble of Hereford was present for the after luncheon activities.

Mrs. Strain was the recipient of a gift shower in appreciation of her services the past two years as president. Gifts were presented by the club to Mrs. H. E. Miller, Mrs. Carl Wimberley and Mrs. Steve Bavousett for their work in the recent presentation of the Children's Operettas at the Dawn School.

Those present at the luncheon were Mesdames Bill Carthel, Steve Bavousett, Clarence Betzen, W. H. Gentry, H. E. Miller Jr., H. V. McCabe, Jim McCabe, Ray Polan, Ted Richardson, R. T. Stewart, L. W. Tooley, Carl Wimberley, William Wimberley, Joe Beard, Edgar Sowell, Robert Strain and Miss Bertha Frye.

PVT. DONNIE G. COWART

Donnie Cowart Takes Infantry Combat Course

Pvt. Donnie G. Cowart, son of Mr. and Mrs. D. M. Cowart, Star Route, has been assigned to Company K, 398th Regiment, at Fort Chaffee, Ark., where he will receive his basic combat training.

During the 8-week course, he will be given instruction in fundamental military subjects such as first aid, dismounted drill, map reading and military tactics. He will qualify with the M-1 Rifle.

After completion of basic training, he will receive advanced individual training in one of the thousands of specialities required in a modern Army.

The 398th Regiment is part of the 100th Division, an Army Reserve unit from Kentucky. The 100th was the first Division called to active duty in the current military build-up.

Womble Kinship Circle Meets

The Womble Kinship Circle met May 5 in the home of Mrs. Clara Shore. Roll call was answered with news of out-of-town relatives.

A Womble reunion was discussed during the regular business session.

Nickey Bryan and Penny Mitchell were surprised with a pink and blue shower.

Enjoying the occasion were Madge Holly, Joyce Meeks, Irma Mitchell, Penny Mitchell, Eula Womble and Irene Barker, all of Amarillo; Mrs. Josie Combs of Canyon; Dola Phillips, Esse Renfro, Brucie Rose, Lola Rose, Sally Strain, Alice Thompson, Lynn Thompson, Nell Williams, Zoe Williams, Fanelda Williams, Ethel Womble, Ruth Womble, Rena Rae Newton, Nickey Bryan, Wilma Curtsinger and the hostess, Mrs. Clara Shore, all of Hereford.

Walcott 4-H Club Selects Officers

New officers for the coming year were elected in the regular meeting of the Walcott 4-H Club. Following roll call and 4-H exercises, club members picked leaders for the coming year.

Named as president was Thomas Davis. Sheldon White was selected vice president and Eddie Billis was picked secretary.

Treasurer will be Ronnie Buse and Charlie Bass will be reporter.

Following elections, refreshments were served to those present.

Horticulture Workshop Held At Garden Club

The Hereford Garden Club met Friday, May 11, in the Hereford Community Center with Mrs. Colby Conkwright and Mrs. W. C. Hromas as hostesses.

The program subject was a "Study on Horticulture" and a workshop based on flowers of local gardens. Mrs. Art Manjoet was the leader for the day.

The first topic was given by Mrs. A. O. Thompson on "Why I belong to a national plant society". Individual membership includes information and instructions for the care and planting of flowers. Mrs. Thompson is a member of the iris society and as her introductory sentence she said, "I have a very bad disease, 'Irisitis', which no one can cure." She is a member of the society because she can learn of new varieties of iris. Last year 600 new varieties were introduced. Each year she adds some new ones to her collection. She gains knowledge from the information sent to her; receives inspiration in growing iris and working with the soil; and she gets a big thrill out of attending the annual convention of the American Iris Society. She has been a member for the past 15 years. At the conventions she meets personalities and renowned growers of horticulture, and establishes friendships that grow through the years. "The main thing I gain from growing flowers is the privilege of sharing them with my friends, neighbors and my church."

Mrs. John Jacobsen Jr., a national flower judge, spoke on the topic of cutting, grooming and exhibiting horticulture specimens. She first dealt with annuals, among them the dahlias. She gave a detailed talk on roses and peonies.

In the workshop, conducted by Mrs. Art Manjeot, a display of roses brought by Mrs. G. W. Newsom and a display of peonies brought by Mrs. R. L. Wilson were discussed and graded by the club members. Horticulture specimens were brought by Mrs. J. V. Pickens and Jennie Clark- peonies and Mrs. R. W. Mitchell-iris. A round table discussion followed and the displays were scored by points.

Mrs. G. W. Newsom distributed seed of Glorioso Daisies sent from Glorietta, N.M., by Mrs. Slaton.

At the business session, Mrs. R. L. Wilson, president, welcomed Mrs. Robert Veigel as a new member. She also announced that the club had received honorable mention on their yearbook at the state convention.

Mrs. Hugh Clearman, therapy chairman for the blind, filled and packed a box to be sent to Austin.

Present were Mesdames Jennie Clark, Hugh Clearman, C. C. Ferguson, Emmett Hale, O. G. Hill Sr., John Jacobsen Jr., Art Manjeot, G. W. Newsom, J. V. Pickens, M.T. Rutter, S. S. Williams, R. L. Wilson, Roy Calvert, Colby Conkwright, A. O. Thompson and Robert Veigel.

Antonian Circle Makes Future Plans

The Antonian Circle met recently in St. Anthony's School Auditorium. Mrs. Tony Urbanczyk presided over the business meeting with Father Angelus Delahunt leading the prayer. Roll call was answered with a gardening hint.

The group discussed the future plans for the Antonian Circle and were informed that they were to be guests at the next Guild meeting and to watch the church bulletin for the date and time. Plans for the annual picnic were discussed.

An auction of homemade articles was held, after which refreshments were served by the hostesses for the evening, Mesdames Ronald Kershen and Vincent Walterscheid, to the following members: Mesdames Duane Albracht, Tommy Albracht, Jimmie Jesko, William Kahlich, Leander Reinart, Edward Schilling, Raymond Schlabs, Herman Schumacher, J. W. Stengel, Tony Urbanczyk, Leonard Walterscheid, Kenneth Walterscheid, John Warren and Father Angelus Delahunt, S. A. Members were also asked to be thinking about new officers for the coming year.

She is the daughter of Mr. and Mrs. Clarence V. Strange, 203 Bennett.

40 YEARS AGO

A man by the name of Charles Ross Anthony opened his first retail department store in Cushing, Oklahoma. Since he was orphaned at the age of 12, his past experience in farming, wood chopping, hauling feed, furniture business, bookkeeping and working in a general store had prepared him for this big adventure. Anthony had definitely made up his mind the type of store he wanted to run.

C. R. ANTHONY
President and Founder

With limited capital, ambition and a desire to work, he opened his doors to the Cushing store in 1922. By selling for cash and offering the highest quality merchandise at the lowest possible prices the customers began to beat a path to his door.

By employing local men and women as his salespeople, Anthony impressed upon each of them the importance of friendly, courteous service to each customer. As his business grew, his profits grew and the profits of this store helped open another. For the past 40 years the same desire and ambition has been passed along to each Anthony employee. The same policies that were established in the first store still exist and today there are 270 Anthony stores in 20 states to celebrate their 40th Anniversary.

To help celebrate our birthday, your local Anthony store is offering some bonanza values in every department. Check these items carefully, compare price, compare quality, see for yourself that by paying cash you can buy more because you save more. Satisfaction guaranteed on every purchase or your money cheerfully refunded.

TAKING THE GUESSWORK OUT OF SEEDING
(See Planting Guide on Frontier Seed Bag)

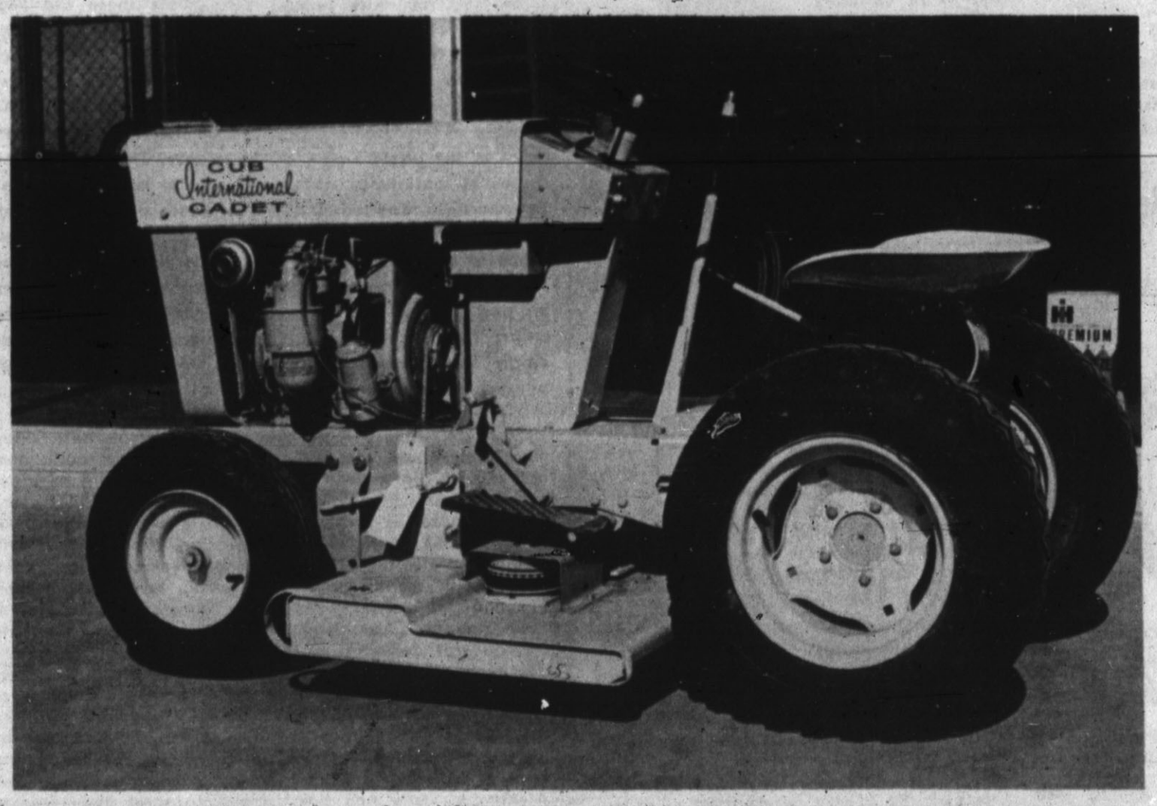

This formula was worked out by Frontier production men and takes the guesswork out of Frontier Hybrid Grain Sorghum Production.

Follow the recommended planting rate for your area using this seeding rate.
1. Run drill (or other type planter) a short distance catching seed as it drops to the ground.
2. Determine the spacing between the seeds in inches, then
3. Multiply this by the row width, in inches.
4. Divide this into 368★, and you will arrive at the number of seeds per acre you are planting.

Example: You drop one seed every two inches - in 40 inch rows.
2 x 40 equals 80 square inches per seed
368 divided by 80 equals 4.6 lbs seed per acre.
★ This "Constant" is based on the seed coverage of one pound of Frontier Seed distributed over one acre, using an average of 17,000 seeds per pound.

'Forgotten Man' Of 60's Gets A Helping Hand In Joint Session

Back in the 30's, Franklin D. Roosevelt did much to glorify the "Forgotten Man" who, in that day, was the average American workman without a job. Mr. Roosevelt did such an outstanding job with Social Security, Wage-Hour regulations, Farm plow ups, and federal assistance in other fields that the entire picture changed. Mr. Roosevelt's "Forgotten Man" is no longer forgotten but, unfortunately, we have another who has taken his place. He is the average tax payer.

For this reason, we were most happy this week when members of the City Commission and the Commissioner's Court sat down around a table to discuss their mutual problems in an orderly, business-like session primarily aimed toward a unified effort to help the average citizen and tax payer.

The group discussed fire protection for the city and county on a joint basis. They talked about welfare, relief measures and police radios. They asked for instance, why it was necessary to operate two sets of equipment and two separate crews on radio calls. Needless to say, other ideas came up in the meeting, and frequently someone disagreed — but the group setteled down to iron out differences.

What impressed us was the fact that the meeting provided the first effort we have seen in many years toward a unified means of cutting down on government costs. Officials were willing to give and take in behalf of the tax payers. Instead of expanding departments and bureaus which over-lapped, they were making a sincere effort to replace cumbersome situations with more efficient methods.

This is what America needs on a large scale, and we admit that our own area is a mere drop in the bucket. We also know that government economy, like charity, should begin at home. So long as we make no effort toward greater efficiency at home it is hardly fitting to expect state and federal officials to not follow our example.

For this reason, we feel that the joint session this week was highly important. Sooner or later, it may well lead to a combination of all three tax assessing and collecting agencies in one office, manned by one crew. It may well be the forerunner of widescale efficiency and economy for the area, which could most easily spread into neighboring communities and territories. Most of all, it indicates that our elected officials are willing and anxious to once again recognize and work sincerely for the forgotten man of the 60's Mr. Average Taxpayer.

Shrine Clinic Sets New Pace

Hereford's annual Shrine Clinic has been scheduled June 1-2, and bids to draw Panhandle-wide interest this year. It has grown from an humble start into a national institution, drawing medical experts from all over the Southwest and from scattered other points between New York and Hawaii. This year approximately 200 Shriners will come from 28 counties to donate their services in helping make the occassion a success.

Why? The answer is simple: "So that some child may be able to walk".

These clinics, as most of us know, cost money. This particular clinic is financed through the sale of bumper stickers to the public — and over a five year period the Oasis Club (Deaf Smith, Castro and Parmer counties) has spent around $90,000 in making the project a success.

Once the project was financed by lotteries, but today it has been spread in scope that all of us may participate on a voluntary basis, and according to our means. The Shriners and physicians donate their time, drawing scant travel expenses. The Hereford Clinic donates its facilities, closing for other business during the annual clinic.

No one looks upon the event as charity. Instead, it is a unified effort on the part of West Texans to help their neighbors. For these reasons, the annual clinic has grown and flourished. Already, it has helped hundreds of boys and girls toward more normal lives. This is the type of giving most of us like.

For these reasons, when you get the opportunity, buy a bumper sticker at "your own price" — and be as generous as possible. Whether it is a few cents, or several dollars, it is definitely going for a good cause.

Educator Talks Of Graduation

Graduating exercises are close at hand and this writer has participated in so many such occasions that, like the old fire horse, he is ready to run the moment he hears the bell ring.

Yet, it may be doubted whether many commencement sermons and addresses ever go further than the outer ear of those they are supposed to bless. By and large seniors are not in a meditative mood during commencement exercises, but probably are in the grip of a variety of emotions. At any rate that was true in each of my four "trips to the bat."

So what I'm saying today really is not meant so much for commencement, as for those quiet meditative moments before and after the formal exercises of graduation.

The truth is, I am using notes I made Oct. 13, 1939, and that have recently come back to my attention.

My first recording that day was a quotation: "If an individual is to become his own best self, he must constantly be in contact with the best that is in humanity."

That quotation evidently prompted me to record my own thoughts as follows:

After all, what is education if it is not the process whereby one comes to appreciate and habitually to appropriate the best that men in all ages have learned and thought and felt and said? One cannot rise in stature by pulling at one's own bootstraps. One grows by extending one's self after the ideas and ideals of the great who have blazed the trail. The great have themselves done this very thing. Indeed, they are called great because they have succeeded in unusual measure in gathering up "the best that is in humanity" and conveying it in some impressive and attractive way to the rest of us. — Moses, Socrates, Luther, Shakespeare, Milton and their kind in every field of human achievement embody, each in his own way, "the best that is in humanity."

Then, on that same October 13, 1939, there was recorded in the same note book the following:

Every man who has enough intelligence to set himself apart from the beasts of the field has at sometime in life concerned himself with what lies beyond. He has asked himself, What is life? Whence does it come? What is it for? What is the plan, the purpose, the will behind human existance? Why suffering and sorrow and physical pain, and death? Why love and hope and aspiration and joy?

All of these questions relate themselves finally to the great First Cause — God; or, if you have a better name let's have it. All of them root in what has come to be called the spiritual nature of man — that part of man which feels kinship with a Supreme Being — that part of man which finds its sweetest satisfactions in the invisible world, where it is more blessed to give than to receive; where the physical is subordinated to the other and better self. The man who ignores these and other questions of their kind, whatever else may be said of him, is not educated.

Education may be defined as the process by which one comes into the habit of giving his best self a good chance. Books, libraries, and laboratories are but means to that end. The chief business of the educator is to lead and inspire youth to move ever toward higher and higher goals.

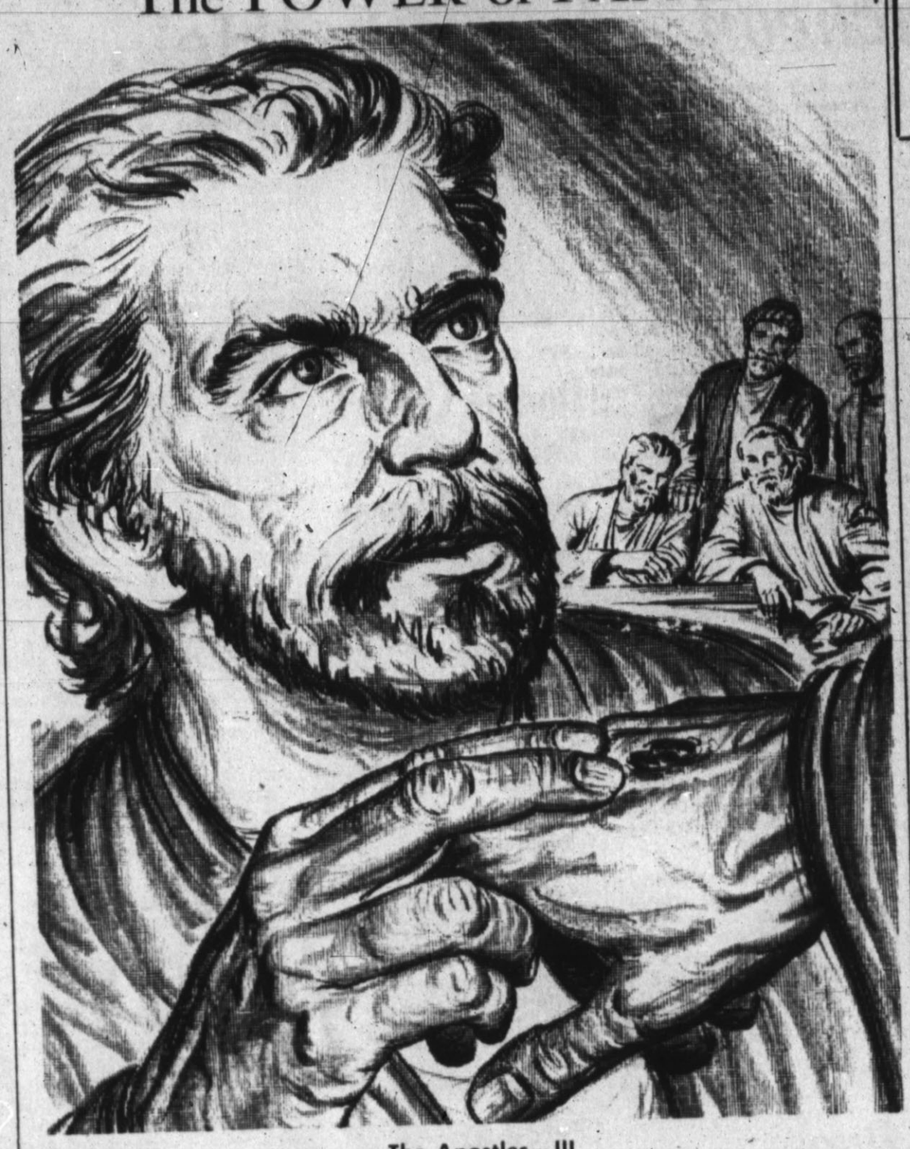

And on another page, this: Religion inheres in the human heart; that is — man by nature is a worshiper.

Jesus is religion raised to the nth power. The church is an institutional form through which religion works. It is not an end in itself, but a means to an end.

Finally, allow me to quote from Robert Louis Stevenson: "You cannot run away from a weakness; you must some time fight it out or perish; and if that be so why not now, and where you stand?"

The POWER of FAITH

The Apostles—III

THOMAS

Where there is faith there can be no doubt. It was one of the first lessons the disciples learned after the Resurrection. As in the case of many of us at times, so it was with Thomas. He had to see to believe.

After Thomas saw the marks of the nails in the hands of the Risen Lord, he made one of the great confessions of Faith in the New Testament with his statement, "My Lord and My God." Jesus said, "Thomas, because thou hast seen me thou hast believed: Blessed are they that have not seen and yet have believed."

Thomas, with his faith and belief strengthened, went on to serve and do missionary work with a strong unswerving devotion.

Despite Claims, Dwarf Seahorses Are Difficult

Bill Thompson, manager of the Deaf Smith County Chamber of Commerce, cautioned consumers regarding the purchase of dwarf seahorses represented as being hardy and "easy for you to keep in a goldfish bowl."

Quoting the National Better Business Bureau, with which the Chamber is affiliated through membership, Thompson said that the dwarf seahorses are usually offered for sale by dealers in Florida for about $3.50 a pair.

"Some of them are dead on arrival, some are sick with a wasting disease. If they arrive alive and are put into a goldfish bowl, they are not likely to be long for this world. The unfortunate fact is that seahorses are not easy to raise in captivity and respondents to advertising which so represents are misled," he said.

Authorities on aquarium management such as C. W. Coates, Director of the New York Aquarium of the New York Zoological Society, report that is well nigh impossible to raise dwarf seahorses in the ordinary home tank or bowl.

Although they recognize that dwarf seahorses can be successfully raised in capitivity, these authorities note that the prolem of maintaining them involves techniques and equipment beyond the experience and facilities of the goldfish bowl aquarist. If seahorses are to survive in a home aquarium they require aeration and filtration equipment, a large suply of real or artificial sea water and extra tanks for hatching the shrimp upon which they feed.

Thompson said that on the basis of this information home aquarists should be wary of attempting to raise dwarf seahorses in a goldfish bowl, jar or simple tank.

Crop Damage By Cattle Becoming Problem Here

The matter of keeping cattle and other stock out of the fields of the farmers is becoming a question. The advent of the farmer into a cattle country always brings up the matter of fences. Most of the farms and pastures have three and four wire fences, but, unless these are kept in good repair, the stock often, without the knowledge and consent of the owners, break through and do much damage to crops. Many stock men employ "fence riders" whose duty it is to keep the fences in good repair. An instance of this has been reported on the Williams Brothers ranch in the western part of the county. They inspect the fences at least twice each week and in case of a break anywhere, if reported to them, proceed at once to repair it. They have from 800 to 1000 head of cattle on their ranch at all times and the farmers in their neighborhood tell that perfect harmony as to the fences, each one doing his part to keep the cattle on the range and out of the crops. This is certainly commendable and an ideal condition. The farmers as well as the stock men are helped by such an arrangement.

25 YEARS AGO

Forty-six seniors — 26 girls and 20 boys — will Friday night walk across the stage in the high school auditorium and receive diplomas. The annual commencement exercises are this year scheduled to begin promptly at 8:15 o'clock and the public is invited to attend. In marking the graduation of 46 young men and women, the exercises will also complete the 1936-37 school year. Seniors have been out of school for the past week, having taken their examinations earlier, and will Thursday night present their annual Class Night program. The Baccalaureate Sermon was delivered at the high school auditorium Sunday night, May 16, by Minister H. M. Redford. Members of the senior class this year voted to hold the Commencement exercises without an out-of-town speaker, and the program includes musical numbers, talks, and poems to be given by individual members of the class. The graduating seniors are Ruth Adams, Beverly Alexander, Mary Lee Alexander, Mary Ann Baird, Nola Margaret Blue, Frances Borden, Virginia Carlyle, Helen Danforth, Dorothy Funderburg, Virginia Lee Hussey, Dorothy Jorgan, Irene Knox, Gladys Lewis, Virginia Miller, Virginia Nix, Ira Jeanne Ricketts, Imogene Roberson, Billie Roberts, Erma Faye Robinson, Helen Seed, Nellie Jo Shreve, Mary Turrentine, Sibyl Weckesser, Madeline Whitehead, Gertrude Wilson, Alva Barber, Jack Barber, Billy Beene, Donald Brotherton, Charles Brown, Varian J. COUNCIL DEADLOCK STYMIES CHANGE

An unexpected move Tuesday night by Mayor M. T. James Jr., threw Olton's city council into a deadlock on a parallel parking question and stalled efforts of three recently elected councilmen to "clean house" at city hall. Plans to discuss the discharge of several city employes came to light as rumors flew after a behind-closed-doors session Tuesday afternoon. Parking on 8th Street between Main and Ave. G. will remain angle for the time being. James pulled his surprise Tuesday night on a motion by C. H. Buchenau to approve an ordinance calling for parallel parking. The mayor announced he would vote on the question and referred to state law which he said made it legal for him to vote on motions other than elections if he announced his intention to vote before the ballot was taken. The result was a three-three split on the issue. The controversial issue brought out a crowd in protest of parallel parking. A petition signed by 185 people of the city and immediate area was presented at the meeting. It asked delay of the ordinance and further study on the matter before it was acted upon. The plans to make some changes in the present list of city personnel were not brought out at the council meeting. However, they were confirmed Wednesday.

ZONING CHANGE MADE

Several changes and deletions were made in the interim zoning ordinance during a joint meeting of the City Council and City Planning Commission Thursday afternoon. The zoning ordinance is designed to protect property owners by providing restrictions as to construction throughout the city and will be in effect only until the master plan is completed and a permanent ordinance is affected. An additional public hearing has been proposed, but no date for it was set at Thursday's meeting.

TV CABLE FRANCHISE APPROVED

Dudley Hughes, who is planning a TV cable hookup for Farwell, reviewed his rate structure Friday afternoon for members of the Farwell City Commission and his rates were approved. Hughes was granted a franchise for installation of the service previously. Customers will be charged a $15 hookup fee which will then be applied to the payment of the first five months of service at three dollars a month. For extensions of more than 150 feet from main lines, an additional fee of 12 cents a foot was authorized. The main lines will be installed in the alleys on well-populated streets, says Hughes, and this charge will not affect most residents.

BOARD APPROVES TAX HIKE

School taxes were raised from $1.75 to $1.90 per $100 tax evaluation at the regular school board meeting Monday night. The tax hike is to become effective with the 1962-63 school year and is expected to produce an additional $30,000 for operation of the growing school system. An appreciable increase in the economic index and increased costs of operating the school plant was cited as major reasons for the increase. Some of the added revenue will go to pay for new uniforms for the high school band and the new field house now under construction on Chieftain Field. An increase in the number of students attending the school requiring the adding of an additional teacher was cited as another reason for the tax increase.

THE BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm reviews the withholding tax situation this week.

Dear editar:

Gradually, over the years, Washington has gotten around to figuring out the surest way to collect income taxes, namely, every time a pay check is written. Just withhold it. This way the tax payer doesn't have to wait till the end of the year to pay it or the government to spend it. I wouldn't say everybody is happy under this arrangement but it seems to work. That is, it holds the national debt to 300 billion instead of 600 billion.

At any rate, I was interested in reading about a new group the government wants to put under withholding taxes — the people who get dividends and interest payments. According to Washington around 800 million dollors a year in taxes could be collected if this income was subject to withholding.

I don't know enough about Washington to know wether this new law will go through, but I was just thinking, if it does, that'll just about wind up the possibilities for any further withholding taxes, with one exception.

That's farming. And what I'm wondering is, just how will Washington go about setting up a withholding tax on farmers? I've never known a faxing agency to get stumped before, but this may be the time.

Say I buy two Jersey steers for $150, keep them six months, feed them all the weeds, thistles and occasional blades of grass they can find, plus $15 worth of corn, and sell them for $175, or a gross profit of $10, not counting my labor, depreciation on my fences, expense of hauling them to market, etc. How much withholding tax should I pay? Or say I don't take them to market at all, just sell them to a neighbor? The trouble is most of my neighbors just ain't equipped to handle withholding taxes. They don't have any government forms around the house.

It won't work. As I see it, farmers will remain the only group of people in the United States the government will have to trust to pay their income taxes on their own on a twelve-months basis.

Yours Faithfully,

J. A.

WINNING TOP HONORS in both the West Texas State Industrial Arts Fair and the Hereford High School shop project contest was this dinning table built by Gary McKee. The table was awarded first place in woodworking at the Canyon contest over the week-end, and was then named the top shop project displayed in the All-School Exhibit at Hereford High Monday night. Carl McCaslin Lumber Co. awarded the tool set for the local contest.

MEN WRITE BEST FOR WOMEN

NEW YORK (AP) — A group of Broadway leading ladies agree that men write better feminine roles than women.

Colleen Dewhurst expressed belief this is "because they are inclined to like women better than other women do." Wendy Hiller pointed out, however, than "even an anti-feminist such as August Strindberg wrote good parts."

"Perhaps it is because they have a slightly more generous attitude," said Margaret Leighton. "And when they do understand a woman, they understand better than another woman can."

Endorsing the viewpoint were Olivia de Havilland and Lillian Roth, who said William Inge had provided the best roles of all. The comments were made at a symposium conducted by the Drama Desk, an organization of theatrical writers.

PART-TIME RELIGION

DETROIT (AP) — "An awful lot of people do an awful lot of church work, but so help me God, they don't witness to their own wives and children," says the Rev. Malcolm Boy, Episcopal chaplain at Wayne State University. "They turn it off when they get home."

A LARGE STORY

GRAND RAPIDS, Mich. (AP) — The entire story of the Bible, from creation to the book of Revelation, is told in the language and character portrayals of a novel in Eugenia Price's new book, "Beloved World," published by Zondervan Publishing House here.

NEW SEMINARY

CAROLINA, Puerto Rico (AP) — A new Protestant Episcopal seminary, built to serve all Episcopal districts in the Caribbean area and dedicated early this year, provides its three-year courses, chapel services and library materials in three languages — French, English and Spanish.

The Law AND YOUR HEIRS

The law is necessarily blind to the wishes of a decedent who leaves no Will defining them. The law provides for distribution of such a decedent's estate according to a fixed, inflexible formula.

But the law can recognize, and will implement fully, estate-distribution wishes expressed in a properly-drawn Will. If you would have *your* ideas for your family's financial future prevail, have your lawyer draw your Will soon, we would suggest.

"I THINK DEKALB'S THE GRAIN TO USE"

"I'm feeding around 200 head here and all on DeKalb Grain. For ensilage I used DeKalb FS-1a forage sorghum and DeKalb Corn varity 1051. For Grain I use DeKalb F-63 sorghum and it does more on less water than any sorghum I've ever grown. I think the way to sell grain is thru cattle and I think DeKalb's the grain to use."
