Ike Is Prepared To Assure Adenauer Virtual Veto Power

By JOHN M. HIGHTOWER
WASHINGTON (AP) — President Eisenhower is prepared to assure Chancellor Konrad Adenauer that West Germany can expect a virtual veto power in the future of Berlin and Germany.

Youth Confesses To Slaying Trio

JUPITER, Fla. (AP) — A posse tracked down Saturday a 17-year-old boy who told officers he killed two Miami gas station attendants and kidnapped and murdered a woman.

Chief Investigator H. L. Conyers of the Palm Beach County sheriff's office identified the youth as Dennis Whitney, 17, of North Hollywood, Calif.

"He admitted to me that he is the man who killed two Dade County gas station attendants," Conyers said.

The youth was trailed by footprints over desolate, palm-treed terrain for almost a mile from the spot where the body of Virginia B. Selby, 60, of Hialeah, was found early Saturday, 20 miles north of her home.

The woman was reported missing after she failed to meet her husband in downtown Miami Friday night. Conyers said the youth admitted crawling into Mrs. Selby's car in a parking lot as she awaited her husband.

"He said he told her to get out, that he wanted the car, but she wouldn't get out," Conyers said. "He said he tried to let her out a couple of times on the way up here, but she refused even when he pointed a gun at her."

Conyers said the youth told him Mrs. Selby hit him with a hammer when he ordered her out of the car near Jupiter, and he shot and beat her to death. He tried to drive on, but couldn't get the car started. Conyers added:

Kenneth C. Mezzarano, 21, died Wednesday after being shot during a filling station holdup in Miami Sunday night, and Arthur L. Keeler, 53, was fatally shot Monday. Total take in the three holdups.

Prizes For Books Given

HOUSTON (AP) — The Texas Institute of Letters has awarded \$3,000 in prizes for the best Texas books of 1959.

Awards For Fair News Coverage

JEFFERSON CITY, Mo. (AP) — Lincoln University announced Saturday it will present awards for the best coverage of racial news to the Associated Press, the Atlantic Monthly and the Columbia Broadcasting Co.

The 1960 Curators' Awards for "significant contributions to better human relations" will be presented March 30, the university's school of journalism.

The Associated Press was cited for "its long record of depth coverage of both racial conflict and racial harmony; its concentrated attention to the multifarious aspects of the integration story, and its extensive use of the survey to interpret public behavior."

CLIBURN (AP) — Van Cliburn, the Kluge pianist, will receive a pledge long made to the Dallas Women's Symphony League when he plays a benefit recital here April 21.

February Brings Little Rain To Area

February was a damp month, but the dampness came in parcels so small that there was little opportunity for measurement.

The total registered on the official rain gauge for the month was only .28 of an inch. There were "traces" on several other occasions, but never enough to measure.

Still, above-average moisture during January kept the total for the year at a respectable figure.

The total for two months is 1.68 inches, while the average during the past 39 years for January and February combined is 1.37 inches.

While February was not giant in moisture production, apparently there was little moisture depletion, despite one of the biggest sand storms in years.

Consequently, moisture conditions are considered good for this stage of the season throughout the area.

Pair Admits Stab Slaying

MCGUIRE AIR FORCE BASE, N. J. (AP)—The Air Force disclosed Saturday that two servicemen have admitted the fatal stabbing of airman 3-C Harold D. Cartwright.

Cartwright, 22, of Temple, Tex., was badly beaten and stabbed in a corridor of a library at this base Tuesday night.

An Air Force spokesman said Airman 4-C Elmer G. Schaeffer and Harry C. Kemp had signed statements admitting the slaying. No motive or other details were disclosed.

Schaeffer, 18, of Fon Du Lac, Wis., has been in the Air Force six months.

Kemp, 20, of Charleston, W. Va., joined the Air Force three years ago.

An autopsy showed that Cartwright died of a stab wound in the heart, probably inflicted with a knife. He had not been beaten severely on the head.

The Air Force said that since the crime was committed on a military installation the men will be tried by court martial as soon as formal charges are filed.

Cartwright was off duty at the time. He apparently had been walking through the corridor on his way to the barracks. The corridor was open but the library was closed.

Cartwright was attached to the 1611th supply squadron. He had been in the Air Force for two years.

Fulbright Gets Laugh

WASHINGTON (AP)—Sen. J. William Fulbright (D-Ark.) today quoted former President Harry S. Truman as calling him "an over-educated s.o.b." in 1946.

Fulbright drew a big laugh from senators and a few dozen spectators who were listening to his early morning speech part of the Southern delaying tactics against civil rights legislation.

The Arkansas senator is a Rhodes scholar, a former president of the University of Arkansas and one-time instructor in law at George Washington University.

Fulbright repeated his theory that the government will not work when the President belongs to one party and Congress is controlled by the other.

Sen. Hugh Scott (R-Pa.) former GOP national chairman, recalled that in 1946, after Republicans captured control of Congress, Fulbright proposed that Truman resign. Scott said he did not know whether Truman had commented.

Melendez Rites Set Here Today

Line Melendez, 605 Twentieth Street, died Friday morning at the age of 77.

Born September 23, 1882, in Old Mexico, he is survived by one daughter, Junia Melendez of Waco, five sons, Selestino of Snyder, Francisco of Waco, Antonio of Old Mexico, Jose of Snyder, Josepedro of Lubbock, 31 grandchildren, and 5 great-grandchildren.

Funeral services will be held at 2 p.m. Sunday in the Twenty-sixth Street Assembly of God Church with Rev. Mike Mendezza of Marbach officiating.

Burial will be in the Snyder Cemetery under the direction of Bell Funeral Home.

First Photographs Made With Scope

MT. HAMILTON, Calif. (AP)—First photographs made with the new 100-inch telescope at Lick Observatory were released today. They show the performance of the big instrument comes up to expectations, said Dr. A. E. Whitford, observatory director.

The telescope is the world's second largest, topped only by the 200-inch "Big Eye" on Palomar Mountain in southern California.

Stock Price Drop, Weather Belt Finance And Business

By JACK LEFLER - AP Business News Writer

NEW YORK (AP)—A steep drop in stock prices and bad weather belted finance and business this week.

The stock market suffered its most severe loss of the year. Some analysts contended the bull market had turned into a bear market. Others argued it was only a temporary setback.

Stock sales amounted to 16,239,695 shares compared with 12,689,645 the previous week. On the bond market, sales amounted to \$2,354,000 par value compared with \$23,207,000 the previous week.

A Business men persisted in their statements that 1960 is going to be a good year. But brokers found discouragement in signs that it may go on to be as good as not. Most everyone thought at the beginning of the year.

Cold and snow swept across most of the nation and played hob with consumer buying. Retail trade's decline from a year ago was as high as four per cent in some areas.

In the Northeast, many industrial plants shut down because of the snow.

The Federal Reserve Board reported that buying on credit got off to a fast start in January.

A nationwide survey of purchasing agents showed they are finding business good but not living up to the "Sizzling 60's" predictions of a few weeks ago.

The Commerce Department reported construction outlays of \$3,600,000,000 in February, a record for the month. The four per cent drop from January was less than the usual seasonal decline.

The steel industry operated at an estimated 93.1 per cent capacity this week, down only 1.3 per cent from last week.

A secondary wave of demand from small users of steel was reported giving the steel market a steadier tone.

Estimated automobile production of 155,000 cars this week showed a slight gain over last week and a sharp rise over a year ago. But some makers started cutting output because dealers' stocks were pretty well clogged.

Production for February totaled 639,303 cars, not 33 many as anticipated but still ahead of the record 1955 rate.

Wholesale food prices crept up this week with Dun & Bradstreet's index—the cost of one pound each of 31 foods in general use—reaching \$5.81. It was \$5.78 a week ago and \$6.11 a year ago.

Briefly around the business scene: Southern Carpet Mills are following textile mills in raising wages. Hart, Schaffner and Marx predicts clothing prices will rise next fall because of wage increases. Filter cigarettes accounted for more than half of the total cigarette sales in 1959. Western Union Telegraph Co. awarded a contract for a 3,700-mile microwave system linking Boston and Los Angeles. The Federal Home Loan Bank Board says the average re-

E. Germany Recognized

BERLIN (AP)—East Germany won full recognition today from a country outside the Communist bloc—the New African Republic of Guinea.

The official East German News Agency, ADN, said Dr. Seydoux Counte, the ambassador from Guinea, presented his credentials to President Wilhelm Pieck.

Western diplomats were discouraged by what looked like the East German regime's first breakthrough to recognition by a non-Communist nation. So far the East German regime has been recognized only by other Communist countries.

Most Western nations hold the East German regime to be only a Communist puppet regime, imposed by the Red army, which never has held a free election. To the Communists, it is a sovereign state, a full member of the Warsaw Pact.

Flowering dogwood is found only in the United States and in small sections of the southern part of Canada.

Commission Still Behind Garrison

AUSTIN (AP)—The Public Safety Commission has "absolute confidence" in Director Homer Garrison Jr., its chairman, told the Associated Press Saturday.

C. T. McLaughlin, interviewed at his office in Snyder, said the commission was unanimously in accord with Garrison in the discharge of Capt. Jay Banks.

"The commission unanimously concurred with Col. Garrison in taking action on his recommendation that Capt. Banks be discharged," McLaughlin said. "We felt he certainly had ample reason for his action."

Garrison said Friday that Banks was fired for failure to carry out orders to crack down on gambling in the Fort Worth area. Banks, who originally announced he resigned in a policy dispute, said it was news to him that he was fired.

The action came at a closed meeting of the Public Safety Commission.

The commission has always followed the policy of holding closed meetings and McLaughlin said that is necessary because it often considers highly confidential police matters.

Asked if he had heard reports that morale on the Ranger force is low, McLaughlin replied: "There is no dissatisfaction. The morale on the Ranger force has never been better."

"We believe Col. Garrison is a great officer, an upright person and a man dedicated to law enforcement."

"In this case we endorsed his thinking. He made a recommendation amply backed up by what he considered to be reliable evidence and we are 100 per cent behind him. He had a situation which he thought could be cured only by the action we took."

McLaughlin said he would recommend to the next meeting of the three-member commission, which is the policy-making board of the Department of Public Safety, that its minutes be made available to the press.

"Do you mean in respect to the confidential matters?" he was asked.

Church In Athens Damaged By Fire

ATHENS, Tex. (AP)—Fire of undetermined origin did an estimated \$25,000 damage to the old sanctuary of the First Baptist Church here Saturday.

The damaged structure adjoins the new administration and educational building and the Nancy Richardson Memorial Auditorium being constructed at a cost of \$275,000.

The auditorium is a memorial to the mother of the late Sid Richardson, who gave \$100,000 towards its construction.

Bernard M. Baruch's father, Simon, was a field surgeon in the Confederate Army.

Rumor Meg Has Set A Date

By PATRICK MASSEY
LONDON (AP)—Whispers flew round the society grapevine Saturday that Princess Margaret's wedding has been set for one day in May.

Nobility was giving the exact date. But titled ladies put it to ward the end of apple blossom season has swung into its elegant stride.

Gossiping when Margaret will march up the aisle has been Britain's most popular parlor game since she announced her betrothal to Antony Armstrong-Jones a week ago.

And as plans for the nuptials went ahead behind palace walls, a few indications inevitably drifted out to those aristocratic echelons living on the fringe of the royal confines.

Canvassing for bridesmaids, for one thing, provided a pointer to the big day. A cousin of Margaret, Mrs. Denis Rhodes, in due composed entirety of little girls' Gribship, bridesmaids would tend to "swoop" above the princess when she stands at the altar, a diminutive 3 feet 1.

One sure bridesmaid is 3-year-old Princess Anne, daughter of Queen Elizabeth.

closed that her 3-year-old daughter, Annabel, had been picked. "I know Princess Margaret would like to be married at the end of May," she said.

Mrs. Rhodes was herself a bridesmaid at Queen Elizabeth's wedding in 1947.

Unlike the Queen Margaret is not a member of the royal family.

Albert H. Bumstead of the National Geographic Society invented the sun compass for use in the Arctic and Antarctic, where neither the magnetic nor the gyroscopic compass works properly.

NEW CHURCH DIRECTORY OUT—Walter Lentz, head of the church directory committee for the Snyder Ministerial Alliance, looks pleased with the new church directory that will be given to members of the alliance at a meeting Monday morning at 11:30 in Sallie's Dining Room. They will be distributed over Snyder this week. Program for the day will touch on welfare agencies. Special guests will be Mrs. Victor Baze of the County Welfare Office, County Judge J. Ray Martin, and Rev. Robert Owens, committeeman for the Salvation Army. Rev. Lentz is pastor of the Grace Lutheran Church.

Bank's Manager Expected Robbery

SALT LAKE CITY (AP)—"I'd been expecting a robbery what with this recent outbreak and I told my wife not to get nervous if it ever happened," said bank manager Thomas Wiseman. "She remembered."

The robbery came Friday while the Wisemans were eating breakfast. Two armed men burst into the home. One held Mrs. Wiseman hostage. The other went with Wiseman to the Continental Bank and Trust Co. branch in the south part of the city, and forced him and several tellers to fill a brief case with nearly \$24,000 in currency. Wiseman called police after learning his wife was free and unharmed.

FBI agents teamed with sheriff's officers to quickly wrap up the case in three hours. Two men are jailed today on bank robbery charges. They are Edwin Albaugh, 25, Arlington, Va., and Milton Jacobsen, 21, San Francisco.

Albaugh has served a term in the Idaho State Penitentiary.

"We were just sitting down to the breakfast table when the front doorbell rang," Mrs. Wiseman said.

"You know what this is, Mr. Wiseman," one of the two gunmen said. "We can mess up your house and hurt you if you don't do as we say."

Wiseman said he and his wife

Course For Physicians

TEMPLE, Tex. (AP)—Physicians from five Southwestern states were among advance registrants Saturday for the eighth annual Scott and White conference in medicine and surgery at Temple Sunday through Tuesday.

The postgraduate conference offers refresher surveys of the major areas of current interests in medicine and surgery. Presentation of 28 papers, films and panel discussions is scheduled during the three days.

The conference, if a function of Scott and White Memorial Hospital as a division of the University of Texas postgraduate school of medicine. Physicians attending may receive 20 hours of credit with the American Academy of General Practice.

Von Conrad Is Acquitted

LAFAYETTE, Ind. (AP)—A jury of 11 men and one woman was dismissed Saturday after failing to agree on a verdict in the manslaughter trial of Prentice G. Von Conrad, 38, former Purdue University graduate student.

The jury was sent home after 13 hours of deliberations over the fatal shooting of James Strain, 26, Laporte, a Purdue student, in Von Conrad's garage apartment July 24.

Von Conrad, who was studying for a doctor's degree in psychology, said on the witness stand the shooting was accidental. He said it occurred while he and Strain were examining Von Conrad's gun collection.

Strain was the son of a retired rear admiral.

Von Conrad's wife, Loyce, came here from Houston, Tex., for the trial.

Today only the foundations remain of the Hanging Gardens of Babylon, one of the Seven Ancient Wonders.

Garrison said Friday that Banks was fired for failure to carry out orders to crack down on gambling in the Fort Worth area. Banks, who originally announced he resigned in a policy dispute, said it was news to him that he was fired.

The action came at a closed meeting of the Public Safety Commission.

The commission has always followed the policy of holding closed meetings and McLaughlin said that is necessary because it often considers highly confidential police matters.

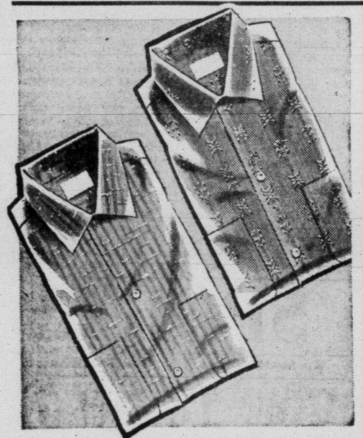

Asked if he had heard reports that morale on the Ranger force is low, McLaughlin replied: "There is no dissatisfaction. The morale on the Ranger force has never been better."

"We believe Col. Garrison is a great officer, an upright person and a man dedicated to law enforcement."

"In this case we endorsed his thinking. He made a recommendation amply backed up by what he considered to be reliable evidence and we are 100 per cent behind him. He had a situation which he thought could be cured only by the action we took."

Bengal Baseball Boys Prepping For Opener

The familiar spring and summer track of hickory against horsehide will begin to ring for day as they prepare for their initial outing of the year. Their first home appearance, again, as Coach Speedy Moffett reports that a bevy of 14 members are returning to form a nucleus for the team. Leading the Bengal moundmen will be Norman Gladson, veteran chunker, who has earned three letters in the sport and has proven himself as a tried and dependable performer.

Charlie Gladson, another pitcher who only recently turned in his basketball tocs for the year, is one of three returning two-numeral winners, along with outfielder Mike Moffett and catcher Ronnie Wiley.

Those players coming back in quest of their second letter include shortstop Spencer Dyer, second baseman Steve Free, third sackers Bubba Fleming and Keith Moffett, first basemen Ronnie Greenfield and Barry Walker, pitcher Freddie Miller, and outfielders Fred and Weidon Ware.

The remainder of the squad includes pitcher Ronnie Jones, catcher Jimmie Don Everett and Bob Smith, shortstop Keith Moreland, second basemen Jerry Franks, Ronnie Maroney and Dalton Walton, and outfielders Richard Ricketts, Ben Franklin, Pete Green, Jerry Gutherie, Joshua John, Mike Morris, Bill Sanders, Tommy Shelburne, Albert Rainwater, and Bill Weaver.

O'Day And Robins Help
Coach Moffett, who will be aided by new assistants Bob O'Day and Donald Robbins this season, is optimistic over this year's crop of prospects, and states that he is expecting a lot of top flight service from returning hurlers Norm Gladson and Miller, who should form the core of his mound staff.

Also, he was enthusiastic in regard to first base prospects, where vets Walker and Greenfield are vying for the starting assignment. Both throw left, while Walker hits left and Greenfield right.

Other positions were held in high esteem by Moffett also. At second base, Fred Miller and outfielders are expected to be a dependable mainstay at short, and has been performing well at that position in workouts to date.

Fleming Switched
Fleming has been moved from last season's shortstop position to third, and should strengthen that hot spot. Several outfielders have been making their presence known, too, with the three "Big Ms" being McMennamy, Moore and Mike Moffett, who look to be a group of the leading stickmen for the upcoming campaign.

In a recent inter-squad game a trio of hurlers looked especially good, as Miller and the two Gladsons all showed up well. Miller threw for four innings, striking out 9, while walking two and giving up a pair of hits. Norman Gladson also went four innings and registered six strikeouts, while walking two, giving up two hits and hitting two batsmen. Charlie chunked for only three innings, striking out six, issuing free passes to a pair, and relinquishing three hits.

New Records Are Marked Up In Border Olympics Meet

LAREDO, Tex. (AP) — David Clark of North Texas State scored 15 feet 1 1/2 inches to set an overall record in the Border Olympics Pole Vault Saturday night.

Clark wiped out the record of 14 feet 1 1/2 inches set by Beatus Bryan of Texas in 1939. It was the oldest undisturbed record in the books.

Clark's great leap came after Barris Almond of Houston ran the mile in 4:11.5 to set an overall record.

Almond's time shaved over two villarrest of the record set by Joe Villarrest of Texas in 1958.

Records fell right and left as the big track and field carnival went through its final events.

Ian Stewart of Lamar Tech first led the overall record in the mile when he did 4:13.7 in the college division. A few minutes later, Almond broke Stewart's record decisively running in the University class.

Sidney Garton, the East Texas State sprint star, met defeat in the 100-yard dash. Homer Jones of Texas Southern bested Garton by a yard in 10 flat.

Howard County repeated as junior college champion with a whopping 32 1/2 points. Midland won the high school division with 34 1/2 points.

Howard County, the Big Spring school with the terrific track team, took six first places in sweeping up the title by almost 20 points over second place Blinn with its 42 1/2. Schreiner was a distant third with 26.

Raymond Wesley, the Negro boy from Aldine Carver, was the individual star but couldn't compete with the manpower of the top teams in the high school division. He was high point man with 13, winning the broad jump and

placing in both sprints.

Midland beat out Miller of Corpus Christi by 11 points. The latter had 23 1/2 and was a point better than Houston Lamar, which finished third. Baytown had 20 and Big Spring 18.

One record fell in the high school division where Arthur Witmer of Baytown ran the 440-yard dash in 49.2. The junior college class also mustered one new standard. R. D. Ross of Howard County ran the mile in 4:33.5 to wipe out the 4:37.1 set by Leslie Brenham of Victoria in 1958.

WOOLEVER FIRST IN LOW HURDLES
LAREDO — Stanley Woolvever, Snyder's ace hurdler, took first place in the 130-yard low hurdles in the High School Division of the Border Olympics here Saturday. Woolvever posted a time of 20.5 seconds, running against a cold wind.

He also capped third place in the 120-yard high hurdles. The Snyder 440-yard relay team took fourth place in the meet.

Running in that event for Snyder were Jimmy Maroney, John Weaver, Jesse Crawford and Woolvever.

Maroney took fifth place in the 100-yard dash to round out a total of 13 points for the Snyder team.

While Howard County easily swept up the junior college championship, it failed to produce the high point man of the meet. That honor went to Ronnie Holiday of Corpus Christi. Del Mar with 22 1/2 points. But Ross scored 10 1/2 points in pacing his team to the title. He won the mile, was second in the half-mile and ran on the third place mile relay team.

Midland won the high school division title with only two first places—E. J. Oehlert in the half-mile and Bob Penn in the pole vault.

Three records were set Saturday morning in preliminaries and a scattering of finals in the university and college classes.

Bobby Weise of Houston threw the discus 187 feet 9 inches to better the record of 185 feet 10 1/2 inches, set by George Kadera of Texas A&M in 1959. In the college division Alfred Hoicomb of Howard County threw the discus 180 feet 1 inch to wipe out the record of 154 feet 11 1/2 inches set by Bob Burch of North Texas State in 1956.

Willis Perkins of Texas Southern threw the shot 50 feet 5 1/2 inches to surpass the record of 50 feet 2 1/2 inches set last year by Tracy Byrd of McMurry.

Wimmer's high school 440-yard record bettered the 49.4 set by Ray Poage of Houston Lamar in 1959.

Little Guys Of Class B Top Choices

The Class B schoolboy basketball all-state team is short on height but long on scoring and rebounding.

The tallest man is Leon Campbell of Henrietta Midway, who measures 6-3 1/2, but the top scorer was 6-1 Jimmy Puryear of Santo, who averaged 24.6 points per game and also averaged 18 rebounds.

Puryear led in the selections of the Texas Sports Writers' Assn. with 50 points of a possible 75.

Morris Schmelzokoff of Kyle was the big rebounder. He averaged 23.8 per game while shooting 12.2 points.

Others on the team were George Scott of McAdoo, who averaged 22 points per game, and Gayle Driver of Woden, who averaged 20.5. Campbell averaged 18.2.

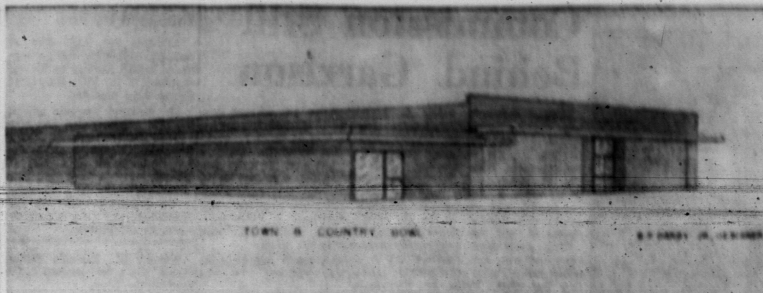

Making up the second team were Jimmy Walker of Masonic Home, David Schmidt of Valley Mills, Billy Wiggins of Hedley, Herb Paul of Copperton Cove and Conroy Lacy of Turkey.

SCHOENDIENST READY TO GO—Red Schoendienst, Milwaukee Braves second baseman who has been out of action fighting a battle with tuberculosis, flips the ball to second as he worked out at the club's spring training camp in Bradenton, Fla. Schoendienst appeared in five games last season, mostly in the role of a pinch hitter. (AP Wirephoto).

NEW FACE FOR TOWN AND COUNTRY—Pictured above is the designer's sketch of what will be the partially new and totally remodeled Town and Country Lanes here in Snyder. At left is the additional structure which will be added to the original building, it being a cafe, including in the plans will be a system of refrigerated air conditioning throughout, and work on the project is slated to begin in the very near future. Designer for the proposed building is B. F. Darby, Jr., while the job contractor has not yet been specified.

AFL Votes Fine Hike For Bolters
OAKLAND, Calif. (AP) — The new American Football League would up a three-day meeting Saturday by throwing another block against possible expansion by the established National Football League into Texas.

The motion to increase the transfer liability was made by Lamar Hunt, president of the Dallas Texans, and was seconded by K.S. Adams Jr., president of the Houston Oilers.

Most of Saturday's session was spent in preliminary discussions over scheduling.

Harry Wismer, president of the New York Titans, said, "We wish to avoid scheduling conflicts with the NFL as much as we can."

Town And Country Planning Addition And Improvements

New and better facilities for local bowling enthusiasts is in the offing, with the announcement of an addition and remodeling of Snyder's Town and Country Lanes.

Work on the establishment located at 2403 2408 Twenty-fifth Street is scheduled to get underway this coming week, and is expected to be completed within 60 days. As of this date contracts have not been let for the work, but are expected to be within a matter of days.

An additional building measuring 20' x 60' will be added to the present structure, and will house a cafe which will specialize in lunches and charcoal burgers for the convenience of both bowlers and townspeople as a whole, in addition to the outside entrance.

SPORTS

6 The Snyder (Texas) Daily News, Sun., March 6, 1960

Texas To NCAA; Led By Arnette

By The Associated Press
Southwest Conference basketball champion Texas—ended the season a full game ahead of Texas A&M and Southern Methodist in conference standings.

But the Aggies, nationally ranked for a great part of the season, ended the overall season conference and non-conference, a full game ahead of Texas.

And SMU, tied for second with the Aggies in conference standings, trailed Texas by a game in the final overall standings.

Texas, with a 11-3 conference record, was 18-6 for the full season while Texas A&M was 19-8 and SMU was 17-7.

Baylar, improving fast at mid-season, wound up the race stumbling and finished with a 6-8 conference mark and a 12-12 season record. Arkansas and Texas Tech were 7-7 in the conference, but the Porkers' 12-12 season mark shaded Tech's 10-14 overall record.

Rice and Texas Christian had dismal conference and season records. Rice was 1-13 in the loop race and 4-20 for the season. TCU, which whipped champion Texas soundly in the season finale, had a 4-10 conference mark and was 7-17 for the season.

The scoring race for most of the season between Texas' great Jay Arnette and A&M's stellar sophomore, Carroll Broussard, threatened for a time to end close to a dead heat. But Arnette pulled away and at season's end had 410 points to Broussard's 430.

Three other players broke into the charmed 400 circle. David Craig of Rice had 412 points, Steve Strangle of SMU had 408, and Del Ray Mounts, the Texas Tech ace, flipped in 405 markers for the leaders.

Carroll Dawson of Baylor and Clyde Rhoden, the Arkansas free-throw wizard, barely missed the 400 mark, with 394 and 389 respectively.

The Texas Longhorns will participate in the NCAA regional tournament at Manhattan, Kan. beginning Monday.

Palmer Has Lead Of 4 Strokes

BATON ROUGE (AP)—Arnold Palmer led Ligonier, Pa., around his lead to four strokes in the \$15,000 Baton Rouge Open Golf Tournament Saturday with a 69.

Palmer took the lead Friday, yard Baton Rouge Country Club course. His last round gave him a 211 total for 34 holes.

Jay Robert Laycoette, La., shot his third straight par-72 for a 218 and a strong third place.

Doug Ford, Orlando, Fla., Alton Gelberger, Studio City, Calif., and Dave Ragan, Orlando, Fla., were tied for fourth at 217.

Doug Ford and Jerry Austin are the new owners of the bowling lanes, while Travis Neff is continuing as manager of the establishment.

Designer for the proposed addition and remodeling is B. F. Darby, Jr., who is also president of the men's city league here.

The sun came out in the afternoon but more cold, cloudy weather and a chance of some rain remained the outlook for Sunday's final round.

The sun came out in the afternoon but more cold, cloudy weather and a chance of some rain remained the outlook for Sunday's final round.

Arch Moore Reinstated

NEW YORK (AP)—The National Boxing Assn. Saturday reinstated Archie Moore as light heavyweight boxing champion providing he and Eirich Schoepner agree to meet Harold Johnson after their summer title fight.

The NBA withdrew recognition of Moore as champion Feb. 15 for failure to sign to meet Johnson of Philadelphia, rated as the No. 1 contender by the association.

Anthony Macaroni, NBA president, said Moore and Schoepner would be required to post a \$5,000 forfeit to meet Johnson providing the Philadelphia still is the leading contender at the time.

Moore and the German are expected to clash for the 135-pound title late in July or August at a still undetermined site.

The 17 inhabited Faeroe Islands between Iceland and Scotland are a self-governing province of Denmark.

ENJOY MODERN Beauty
—CONVENIENCE TOO!

Electric READY LITE

Available in many attractive styles to harmonize with any type of home.

See any authorized Ready-Lite dealer or telephone Texas Electric Service Company for information.

AMUSEMENT

The Snyder (Texas) Daily News, Sun., March 6, 1960

JAZZ GREAT—The pounding drama of "The Gene Krupa Story" from the blaring world of a great music man is coming to the Palace Theater here Sunday, March 13.

Citizens Library Dedication Set

TAYLOR (AP)—The library the citizens donated will be dedicated in Taylor Sunday. Two thousand citizens—a fifth of the population—consider themselves a definite part of the modern structure representing an investment of more than \$50,000. They contributed \$30,000 in gifts ranging from \$1 to \$500, more than enough to pay for the \$30,112 building and go a long way toward equipping it with solid maple fixtures.

Contributions were entirely voluntary, given without any door-to-door solicitation. Few cities of this size construct a project of this magnitude without footing a bond issue.

State library records show 12 Texas cities of Taylor's size still have no public libraries and that 32 counties have no public library services other than visits by bookmobiles.

Names of the 53 citizens who gave \$500 or more are inscribed in stone on the "patrons" and "in memoriam" plaques at the entrance of the "early Texas" Austin chalk and glass building of 2,100 square feet.

A native son and former governor, Dan Moody, himself a contributor to the "in memoriam" plaque, will deliver the dedicatory address.

"Friends of the Library," organized in 1958, will help support the library, but there will be upkeep appropriations from the city.

Taylor has had a library of a fashion since 1899 when the town's first literary club, the Sesame Circle, organized one in the corner of the old City Hall. Sesame Circle members served as librarians, donating their time on the rotating basis. Books were donated.

When World War I broke out the circle suspended activities, including the library.

In 1935 a group of women organized the Chamber of Commerce auxiliary and adopted the library as a project. They obtained donations of books. They also sponsored a matinee at the local theatre, the price of admission

farm workers in the United States under contract.

Daniel made the unusual award to J. Manuel Corral, a 42-year-old citizen of Mexico, who saved the life of the grandson of a Dell City farmer last December. The child had fallen into an abandoned irrigation well.

The governor said he hoped that Corral, who has a wife and four children in Juarez, Mexico, will become a naturalized citizen.

Daniel sent the commission to the First State Bank of Dell City, a farming community in northern Hudspeth county.

Neville Penrose, Fort Worth, former chairman of the Texas Good Neighbor Commission, advised the governor that Thomas has cited Corral to the Carnegie Hero Fund Commission for extraordinary heroism.

December 23, 1959, 3-year-old Randy Gene McKinley, son of Mr. and Mrs. Floyd McKinley, Corral fell 70 feet into the abandoned well after some other children moved a barrel which had covered the opening. The boy's father and grandfather, F. W. O'Connell, were in El Paso at the time. Mrs. McKinley and her sister called rescuers to the scene.

Corral volunteered to be lowered head first into the 16-inch well casing in an effort to save the child, who had managed to keep his head above water. The descent took 15 minutes before Corral was able to grasp Randy and be hauled to the surface.

Cantinflas Finally In Hollywood

AP (AP)—Bob Thomas, AP movie TV writer, HOLLYWOOD (AP)—The studio star was resplendent in his best costumed costume—athletic-looking, handsome figure except for two features.

As any Latin could tell you, these are the trade marks of the great Mexican comic Cantinflas, one of them being his hair. He has made only one non-Mexican film, "Around the World in 80 Days," produced by the late Mike Todd.

The new film is an all-star Columbia epic called "Perce" (The Chamber of Commerce secretary was librarian).

The Woman's Study Club, took over in 1939 and was the library's only continuous support for many years.

During World War II the books had to be moved to a vacant space house to make room for the rationing board.

The library movement got its real start in 1948 when a group of interested citizens met to discuss how to reactivate the library which lay almost dormant for lack of sufficient funds and a regular librarian.

The city agreed to set aside \$100 a month (now \$150) and appointed a Taylor Public Library Board.

Some of the library's outgrowth is small quarters at City Hall and moved into a war surplus barracks building owned by the school system.

In 1958 the library was crowded out again. The building was moved to make room for a new junior high school. However, the "school" system came to the rescue again.

It was at this time citizens decided a new and permanent home must be provided.

Later that year a serious movement began to take shape, sparked primarily by the study club. Out of a committee meeting, the Taylor Public Library Planning Board and the Taylor public library building fund were created.

Donations started coming in as the movement caught on. Site for the new building, located near the schools, was purchased in late 1957. Just before the year ended the planning board met with an architect to discuss the building plans.

An attractive brochure telling the story of the need for a library was prepared for use in public relations.

Contributions have come in almost daily since that time.

Big Bands Wanted By Peggy Lee

HOLLYWOOD (AP)—If rock 'n' roll is on its way out, what will take its place? Peggy Lee hopes it will be the music of big bands.

The blonde songstress harks back to that great band era. She is an excellent jazz singer and pianist.

"I hated it," she said while waiting to record a new Capitol album. "I did only one number which might be called rock 'n' roll. I was reported down 25 per cent. I told them nobody would listen to it. Nobody did."

Thanks to the payola probe and his belief television is what killed the band business, folks started staying home for their entertainment, instead of going out to dance. There should be a campaign to go back to going to dances. I think there's a lot of fun and they'd get into much less trouble."

Peggy herself is going in all directions these days. After the record date, she was leaving for New York and five TV specials, meanwhile singing nightly at a night spot. An accomplished songwriter she has a future assignment to write songs for George Pal's "The Grimm Brothers."

Women's Tournament Celebrates Birthday

ATLANTA (AP)—The Titleholders Golf Tournament, one of the top women's events, celebrates its 21st birthday next week.

The 72-hole championship will be played over the Augusta Country Club course March 10-12.

The Titleholders was conceived by Mrs. Dorothy J. Manice of Augusta, a life-long golfer and daughter of Mrs. Edward A. Manice, a golf star of the early 1900s.

Now he's riding high. Recently he coped the reviews for holding together the wild Las Vegas act comprising himself, Sinatra, Martin, Post, Lawford and Sammy Davis Jr. He's appearing with that gang in the movie "Ocean 11" he reportedly wants him to head a late-night TV show a la Jack Palance and "The Dick Van Dyke Show."

And all because of four minutes. "I'm reflecting."

Bracero Is Made Honorary Texan

AUSTIN (AP)—A Mexican bracero who saved a child from death in a well has been made an honorary Texas citizen by Gov. Price Daniel.

Braceros are not citizens of the United States. They are Mexican

farm workers in the United States under contract.

Daniel made the unusual award to J. Manuel Corral, a 42-year-old citizen of Mexico, who saved the life of the grandson of a Dell City farmer last December. The child had fallen into an abandoned irrigation well.

The governor said he hoped that Corral, who has a wife and four children in Juarez, Mexico, will become a naturalized citizen.

Daniel sent the commission to the First State Bank of Dell City, a farming community in northern Hudspeth county.

Neville Penrose, Fort Worth, former chairman of the Texas Good Neighbor Commission, advised the governor that Thomas has cited Corral to the Carnegie Hero Fund Commission for extraordinary heroism.

December 23, 1959, 3-year-old Randy Gene McKinley, son of Mr. and Mrs. Floyd McKinley, Corral fell 70 feet into the abandoned well after some other children moved a barrel which had covered the opening. The boy's father and grandfather, F. W. O'Connell, were in El Paso at the time. Mrs. McKinley and her sister called rescuers to the scene.

Corral volunteered to be lowered head first into the 16-inch well casing in an effort to save the child, who had managed to keep his head above water. The descent took 15 minutes before Corral was able to grasp Randy and be hauled to the surface.

Thomas said Corral had told him that his great ambition was to become an American citizen and bring his family to Texas.

Complex Factors Help Spur Retail Gasoline Price War

By ED OVERHOLSER
 AUSTIN (AP)—Service station gasoline prices were not triggered by complex factors ranging from trading stamps to oil imports, as many consumers believe.

The industry operates on volume sales and when sales are slow something gets passed and starts cutting, said J. M. Maloe, executive secretary of the Texas Service Stations Association.

Maloe said the "solution" approach with top management of the leading purchasing companies. There is little regulatory action can do unless purchasers are disposed to play fair.

Thompson also feels the industry is refining more oil than can be sold. He says there is a "world-wide glut of oil—a condition of plenty."

Production of oil and gas has paid and will continue to pay a sizeable portion of the state's tax bill. But while the industry continues to produce about the same amount of oil as 10 years ago the size of state government has mushroomed. As a result, taxes on oil and gas don't carry the same load percentage.

The state comptroller's office reported a constant increase in the number of taxable gallons of gasoline sold in the past decade. In the last fiscal year 3,785,403,041 gallons were sold compared to 2,538,762,448 gallons in 1949. The special fuel and gasoline tax take increased eight million dollars over 1955.

How does this general oversupply react at the corner station? Maloe said the trouble begins to brew when gasoline reserves go over 100 million barrels. A price war often starts when a company operated station "gets the word to cut prices a cent or two a gallon." Or he said it may be a dealer who is losing volume to an independent who is underselling him 2-3 cents a gallon.

"Discount houses," the proximity of small refineries or military bases, trading stamps and overbuilding can ignite a price war. Maloe said trading stamps represent about a cent a gallon.

"Discount houses," the proximity of small refineries or military bases, trading stamps and overbuilding can ignite a price war. Maloe said trading stamps represent about a cent a gallon.

Oil sources here explain the obvious fact that the companies want to produce as many high priced products from a barrel of crude oil as the market can stand. Of these, gasoline is the highest priced. To keep the unit cost as low as possible at the huge, expensive refineries, volume must of necessity be high.

Gasoline stocks at more than 100 million barrels, are 30 million barrels higher than the desired level, according to previous estimates by the chief executives of the nation's oil companies.

Latest available figures show imports are flowing in at a rate of 1,704,700 barrels a day. The average barrel price is 70 cents below domestic price. A basic reason is that its production cost less than domestic production.

The Railroad Commission, the state's oil regulatory agency, has no control over what a company does with its purchases of crude and imports. If the companies want to continue to refine an excessive amount of gasoline there is nothing the state can do about it, except indirectly by keeping Texas crude oil production down.

If the companies want to continue to refine an excessive amount of gasoline there is nothing the state can do about it, except indirectly by keeping Texas crude oil production down.

This involves another problem as noted by the Bureau of Business Research at the University of Texas, the Texas Independent Royalty and Producers Assn. and others. They report that when Texas drops its production other states increase theirs to take up the slack.

Harry Jones, president of TIFRO, vice Thompson that oil buyers were taking 100,000 barrels a day more Louisiana crude than they had requested. He said that state's conservation officials explained that buyers had submitted "overabundant" nominations.

Maloe said the "solution" approach with top management of the leading purchasing companies. There is little regulatory action can do unless purchasers are disposed to play fair.

Negro Man Is Executed

HUNTSVILLE, Tex. (AP)—Junior Lee Williams, 33, Negro of Bay City, died in the electric chair at state prison here early Saturday.

He died for raping a white girl in 1954, a crime in which he protested innocence. He told a newsman he was framed because he was a Negro.

Williams was pronounced dead at 12:07 a.m.

Southerners Fresher In Rights Fight

WASHINGTON (AP)—It wasn't supposed to come out that way at all, but Southern filibusters have about worn out civil rights advocates with their marathon talk in the Senate.

There are unmistakable signs that the most grateful for the weekend break in continuous Senate sessions will not be the Southerners but those who originally sought to exhaust them.

This has come about through expert plotting of the 18 civil rights opponents and the inability of the bill's supporters to work out any comparable system.

As a result, many of the civil rights advocates are physically groggy and tired mentally from more than five days of around-the-clock sessions. Some of them said privately they expect their first restful sleep in a week when they relax in their homes over the weekend.

The Southerners look as fresh and as peppy as when the session started last Monday noon.

SENIOR SCOUTS TROOP 111—This is three of the eight Senior Scouts in Snyder who put in many hours of hard work for several years. The girls raised money last year to attend the National Round-up held in Colorado Springs by undertaking various projects such as bake sales, car washing, baby-sitting and the like. The troop has a very enthusiastic leader in Mrs. O. C. Stanley, with Mrs. John Blum as co-leader. They are pictured here as they met with Mr. D. A. Porter, fire chief for a lesson on first aid, with artificial respiration being the topic for the evening. From left to right are Mary Beth Capps, Connie Stanley and Anette Blum, and the instructor Mr. Porter.

BROWNIE TROOP 399—These young ladies are an active group of girls learning the fundamentals of becoming the Girl Scouts of tomorrow. They work and learn under the guidance of their leader, Mrs. D. F. Gallman, and co-leader, Mrs. J. P. Ellis. From left to right, front row are: Mikie Gallman, Janis Parker, Regina Ellis, Nancy Cooper and Martha Redden, second row: Carolyn Stansell, Lorene Stoltz, Shirley Sellars, Charlotte Preslar, Martha Mickler and Evelyn Feather.

THE SNYDER DAILY NEWS

SECTION B SNYDER, TEXAS, SUNDAY, MARCH 6, 1960 VOL. 10, NO. 264

Girl Scouts of Snyder and Scurry County are joining almost three and a half million others, aged seven to 17, this week, March 6-12 in celebrating the 48th anniversary of Girl Scouting in the United States.

Today begins Girl Scout Week, and in Snyder and throughout the West Texas Council area Brownies, Intermediates and Senior Scouts have been selling Girl Scout cookies to help finance the scouting program. Cookie money is used both locally and to finance the summer camping program.

Over the nation, the special week is celebrated in countless ways—with special church programs, civic club appearances, open houses, and the like.

Girl Scouts of the U.S.A. was founded March 12, 1912, in Savannah, Ga. when Juliette Gordon Low called together 12 girls to form the first troop.

Total membership today is 3,402,000, of which 2,623,000 are girls and 779,000 men and women workers. Girl Scout activities are geared to three age groups: girls from 7 to 9 are Brownies; from 10 through 13 are Intermediates; from 14 through 17 are Seniors.

Theme of the 1960 celebration is, "You Can Count On Her To Be Prepared". The West Texas Girl Scout Council embraces 13 West Texas counties and has an enrollment of around 4,800 Girl Scouts and workers.

"You Can Count On Her To Be Prepared"

We can count on the Girl Scouts in our community! We can count on their high standards to prepare the girls of today to be the finer mothers, homemakers and leaders of tomorrow! A Girl Scout learns to get along with others, to accept responsibility, to live Democracy! We salute our local Girl Scouts during this, their very own GIRL SCOUT WEEK! March 6-12.

BROWNIE TROOP 325—This is one of the largest troops in Snyder and is divided into two groups. This group is led by Mrs. Gail Henderson and co-leader Mrs. Harry Redwine. They are pictured at the fireplace where instructions on building a fire was held. From left to right are: Dana Thompson, Chere Reneau, Patty Smyth, Gail Henderson, Jamie Orms, Jeannine Thompson, Regina Butler, Gail Harber, Debbie Lobensker, Jan Williamson and Carla Anderson.

GROUP TWO OF TROOP 325—Mrs. Bill Vestal is leader of this group of troop 325, and co-leader is Mrs. D. A. Porter. The girls enjoy many phases of out-door life, crafts, and safety, but one of the first things taught in Scouting is the respect and allegiance toward the flag of the United States. The girls are shown here giving the pledge. From left to right front row: Leslie Patzick, Melonie McConnell, Deloris Davis, Deborah Slaughter and Cynthia Birdwell. Back row: Paula Redwine, Jamie Mash, Rosemary Porter and Dee Ann Book.

OBSERVANCE HELD—These eleven members of the Ira Parent-Teachers Association spelled out founder's day and lighted blue candles on a large white cake while

giving their part on the program at the recently held unit meeting.

MEMBER HONORED—Mrs. O. W. Holladay, a life P-TA member, was honored recently by members for her outstanding work in the Ira Parent Teachers unit. She is pictured above as Mrs. Leon Sterling made the pin presentation.

Ira P-TA Group Meet Recently

The Ira Parent Teachers Association met in the school study hall recently with 40 members present.

Miss Joan Sherman, president, presided at the business meeting. The unit voted to give a life membership and a committee was appointed to select a member with outstanding work in P-TA. The life membership will be given at the conference.

Mr. Roy Sallee gave a talk on Ira's finances and bond indebtedness.

The eleventh grade won the room count for the month and refreshments were served.

Wanda Eicke Hostess To Sorority

Wanda Eicke of the Lloyd Mountain Road community was hostess to members of Gamma Upsilon Chapter of ESA Thursday evening.

Joyce Williamson, president presided at the business session. Members voted to send a donation to the ESA state project, which is buying sliding doors and supplies for the canteen of the Texas Rehabilitation Center at Houston.

Rush season plans were discussed with the first event to be a madhatters party at the home of Billie Springer.

Members were reminded of the report session of the cancer survey that will be held March 10 at the County Health Unit.

Isasu Minor presented the program for the evening on "Gardening as a Hobby". She discussed proper planting of lawns, shrubs and flower beds.

Refreshments of cake, fruit salad, coffee and Cokes were served to Bobbie Glasscock, Delores Minor, Isasu Minor, Jamie Boren, Adrianna Sparks, Billie Springer, Norma Thompson, Joyce Williamson, Betty Brown, and Wanda Ritchie, a former member who is transferring her membership back to Snyder from Hobbs, N.M.

The Gardeners Corner

By EARL ARONSON

GARDENERS generally are a pretty vocal lot when it comes to their chores. In Abilene, Va., Albert Glass, better known to green thumbs as A. Godunov, has reversed the process and has trees, shrubs and other plants ofering the gardener some sound advice.

"Assuming plants could talk what would they be saying about the guys and gals who do the doctoring on them?" asks nurseryman Glass in a little pamphlet of helpful hints.

To the fellow who prepares to plant a new shrub he has bought:

Will Mr. Fumble take the motion in his head to strip the burlap clean off—cause if it's burlap because then my earthball will break up? Doesn't he know I can grow roots through the eye of a needle? Let along burlap rotting fast in a damp soil—I hope, I hope.

On fertilizing:

Mrs. Meanwell is here to late with too little. My food should go to the side as well as below my roots. Also we can take manure or fertilizer by the fist-full or forkful, when it's well stirred in. Hunting for our food is our way of getting out of the way of heat.

On planting a shrub:

I came pretty nearly getting a planting and a burial all in one. A mound of dirt was piled around my stem. What a relief to have a dog scratch that rainproof umbrella away, and turn it into a depression. That mound could have been my early grave!

On weeding around plants:

Ever since my gardener quit me cold I have developed what can be called plant fever. A better name for this evil thing is jaundice. The greener the weeds grow the yellower I get.

On pruning:

Only the greenest kind of a gardener will shed tears over my shorn twigs. When transplanted my root system to catch up. Do we grow needles? A light haircut. Grow leaves! Any which way Springtime cutting for these! bloom in spring! Cut after blooming.

On transplanting:

Operations out-of-this-world will soon apply to the uprooting Mr. Hap Hazard gave me. A fat lot he cared about the fine tree roots I had, so they were all left behind me. There too remains my future. At best mine will be a short life in the long run.

Hurry up and plant me!

Getting the cold shoulder from Mrs. Sudden Impulse means tough sledding. Rougher still—if this

is kept up until my buds look as drunken. The firmness of our buds always is a gauge of determination to live on. With them, come fall and we issue promissory notes to branch out again in the spring.

On the kind of fertilizer:

The simple problem of what kind of fertilizer to use has put the Simons in a stew. Nonsense! Manure or fertilizer should contain nitrogen to grow foliage, phosphate for the branches, potash for the fruit or flower. Then to Scilla the whole hash around our roots, lots of water on top of the soil.

On spraying and watering:

Since he applies the water, cure to everything from bug-bite to leaf-curl, Dr. DeWet should be barred from practice. Loosening my soil or covering it with something like sawdust (after a soaking) or keeping the ground moist never seems to enter his head.

Whatever we are, raspberry or rose, plum or pine, our main headache in this world is to get falling moisture—15 minutes twice a week during the first summer. Weather Man will throw at us from then on, providing he, too, remembers not to forget.

SANCTUARIES

Girl Scouts have established wild-life sanctuaries throughout the United States in honor of the late Mrs. Herbert Hoover. One of the most enthusiastic supporters of Scouting's outdoor program, Mrs. Hoover was elected national president of the Girl Scouts in 1925 and again in 1933. As First Lady, she was honorary president of the organization from 1928 to 1932.

Want something interesting and different to serve with chicken curry? Add a small bowl of diced syrup-preserved ginger to the tray of condiments.

ENGAGEMENT REVEALED—Mr. and Mrs. Idolph Crooks, announce the engagement and approaching marriage of their daughter, Karen, to Gene Young, son of Dr. and Mrs. B. E. Young of Post. The wedding will be an event of June 3 at the First Methodist Church in Snyder. (Photo by Craft Studio)

Be Sure To Read Your Child's School Books

DOROTHY V. WHIPPLE, M. D., AP Newsfeatures

Children thrive when parents are interested in their activities. If you want to encourage your youngster to do well in school, know what is going on—in the school building and in your child's head.

From the beginning read his books so you can talk about what interests him. You may not find the contents of the pre-primer very stimulating. Maybe you don't really care whether Jane sees Dick or not but the very idea that those little straight and curved lines of print can mean things is a most exciting concept to a child. Share his excitement and you will help him discover the world under the cover of books.

As your child grows older his textbooks become more interesting. Read them, ask your child if you may borrow his book because you are interested in the subject. Talk about what he is studying. Often you can elaborate on the subject matter, and open up new areas. If it is a subject in which you do not have much knowledge, here is your chance to broaden your own horizons.

Go to the library yourself and get some books related to his subject matter. Read them yourself, especially if the books are too long or too difficult for the child.

Go to the library yourself and get some books related to his subject matter. Read them yourself, especially if the books are too long or too difficult for the child. Prime yourself with extra stories and tell them at the dinner table. Encourage your youngster to bring home books from the school library, books which he will be able to read himself.

When American history is being studied there is a wealth of material to be had. You probably know a good deal about American history, but there is always more to learn. The recent bestseller "The Winthrop Woman" is a fascinating book which may well give you some new insights into the Pilgrim Fathers. The "Cod Fish Masket" is an exciting story of early American life. When it comes to English history, "The Brief Gaudy Hour" is a thrilling tale of Anne Boleyn, Henry VIII's second wife. Round out your own education as your children go through school. Your interest in their subject matter will stimulate your children to learn.

As you read your children's textbooks, take a look at the date the books were written. There has been a great deal of time, work, money put into the writing of American textbooks. Some of them are the world's finest—well-written, well-illustrated and up to date.

Are your children getting the advantage of new books? Many school systems try to save money by not buying the new books. Looking into the school budget for books is a worthwhile P-T-A function.

If you find your children are using antiquated textbooks, or the school library is ill-equipped, get a committee started in the P-T-A to investigate. Often a little pressure from parents can do a lot to persuade school boards to allocate more money for books. There is no better way for a P-T-A to use money collected in dues or earned in fund raising activities than to supplement the school library.

Children thrive when parents are interested in their activities. If you want to encourage your youngster to do well in school, know what is going on—in the school building and in your child's head.

Brown Scouts of troop 233 met at the home of their leader Mrs. Doyle Gallman, 3104 Forty-second Street for their regular meeting Feb. 29.

Four Brownies were invested in a candlelight ceremony. Receiving their pins were Nancy Cooper, Evelyn Feather, Charlotte Preslar, and Martha Redden.

Refreshments were served and songs were sung. Others present were Regina Ellis, Mikie Gallman, Jank Parker, Shirley Sellars, Carolyn Stansell, Lorene Stoltz and Martha Mickler, according to scribe, Mikie Gallman.

Ventilation

Blowers of air conditioning systems distribute cooled or heated air evenly throughout the house, depending on the season. Floor to ceiling temperature variations are held to a minimum. The air is changed constantly so it is always fresh. Large disposable filters catch dirt, dust and pollen so your family breathes only fresh clean air in the home.

Mrs. Hartley Named Top Officer

The Canyon Reef Medical Auxiliary met with Mrs. John Raines, 2803 Thirty-fifth recently.

In a business session presided over by Mrs. Wilson Jones, president, the following officers were elected for a two-year period: Mrs. Thomas F. Hartley, president; Mrs. John W. O'Banion, vice president; and Mrs. John W. Raines, secretary-treasurer.

Other members present were: Mrs. Harry W. Ward, Mrs. Carl Dillaha, Mrs. Edward Rogers, Mrs. C. Ray Cockrell, and Mrs. R. B. Pierce.

Fat Girls Also Swim

By DOROTHY ROE

Any woman can look presentable in a bathing suit, no matter how big she is, says Mabel Sheldrick, who designs swimsuits for ladies size 36 to 52.

Miss Sheldrick has been specializing in making large-women smaller for many years, so she knows whereof she speaks. Her advice to outside bathing beauties: "Be sure to try on the swimsuit before you buy it, and for goodness' sake get it big enough. If you try to squeeze into a suit that's too small, it only makes you look bigger.

"Avoid light fabrics and big prints. Don't choose a bare midriff suit, or one that is too brief in the legs. If you have a big bust, choose a suit with a higher neckline.

"Be sure your swimsuit has a built-in bra of heavy perforated fabric, boned for firm support. It also should have a built-up neckline and wide shoulder straps.

"If you have big hips, a suit with a flared skirt probably is your best bet, but the boy-leg suit also can be flattering, if the legs are cut long enough to conceal the heavy part of the thigh. About three inches above the knee is short enough.

"Dark colors, such as navy or black, tend to make you look smaller and muted prints also are flattering."

Miss Sheldrick's firm sells 200,000 big bathing suits per year, and exports them all over the world.

Small-Fry Smiles

By AP Newsfeatures

Mrs. Glen Umbaugh of Jefferson, Iowa, was startled when her 5-year-old son Peter told her, "Mom, I know the facts of life—two of them anyway."

"Please explain," Mrs. Umbaugh said with surprise.

"I know what causes worms and what causes pain," was the reply.

Eight-year-old Cathy Taylor of Nashville, Tenn., had a girl friend over to spend the night after dinner.

"Hey, should it be your turn to do the dishes?"

The young friend returned and said, "That wasn't very nice."

"Oh, it's all right," Cathy said casually. "We never use formalities around here."

Detective Al Leitch of Tulsa, Okla., wonders if he has been a policeman too long. He said he telephoned a man for details of a burglary and a small girl answered.

"Daddy, it's for you," she said. "It sounds like the law."

Mr. J. R. Lawton Jr. of Maitland, La., reported her son came home from kindergarten one day, complaining, "Boy, was my teacher mad today—why she was mad as a mother!"

Two little girls in Des Moines came upon a basset hound— one stopped breathing.

and to please not hang the door when she went out.

Later Mrs. S. overheard her grandchild tell little friend, "You open the door, Davie— you make a quieter noise than I do."

Temporarily without playmates, Bobby Bobble of Louisville, Ky., decided to watch his mother shell peas. He took several pods and opened them. One pod had only one pea in it.

"Poor little fellow," Bobby said sadly. "He hasn't got anyone to play with either."

extend three or four miles from the shoreline beneath the Atlantic Ocean. About 400 feet of rock separate miners from the water above them.

Mrs. Louise Seiler, of New Orleans, told her 5-year-old grandchild that she wanted to take a nap.

Frozen Dinner Tip

If your family likes more cooking on frozen prepared dinner, you can partially remove the foil covering and sprinkle seasoning on the food before baking. Home service consultants recommend every possible eye crossed chicken, roast, many other meat loaf, turkey, beef and onion salt over Swiss steak to give these foods more excitement. Be sure to replace the cover and bake in a preheated oven. The best temperature to use is indicated on the directions of the

Cook green spinach noodles and peas with plenty of sauce, butter and grated Romano cheese, serve with veal chops.

Beauty Tips from ME to YOU

By Jessie Hampton

You can make your eyes more beautiful by daily care, cleanse with eye lotion and rest your eyes by applying compresses. . . . To smooth out lines under eyes use fingertips, massage with rich eye cream . . . eye pads dipped in witch hazel placed on the eyes when you lie down to relax will soothe tired eyes and add sparkle when you are through . . . We know that a calcium deficiency in the body will affect the nature and strength of the bones. Hair too, contains a calcium type protein and practically all other proteins contained in the rest of the body . . . And hair too, is affected by the amount of calcium protein type that it contains . . . thus people who have a high natural hydrogen protein content in their hair will have curly hair and those with a low content will have straight hair. Limp or fine hair has a less than average content of such protein types as Carbon, Hydrogen, etc. . . . Baby fine resistant or easy to curl hair can be cold waved with not frizz, but soft easy to manage waves with the scientific permanent waving method being used at the Modern Beauty Salon.

Some do's and don'ts for large hips:

- 1—Do give yourself room . . . a tight dress will make even the smallest hips look bigger.
- 2—Don't choose shiny fabrics.
- 3—Don't break the line at the widest part of your figure.

MARSH WEDDING—Mr. and Mrs. Archer L. Powell of Spur announced the approaching marriage of their daughter, Nancy Ann, to Randall DeShon, son of Mr. and Mrs. T. R. DeShon, 3798 Sunset, Snyder. The couple will exchange vows on March 11 in the home of the prospective groom's parents. Miss Powell is a graduate of Spur High School and is employed with the Plains Seed Co. in Lubbock. Mr. DeShon is a graduate of Snyder High School and is presently a senior student at Texas Tech.

Relaxation Pays Off In Beauty Dividends

By VIVIAN BROWN
AP Beauty Editor

Relax and look prettier. You may look years younger when you learn to take it easy. Tensions mount each day if we don't call a halt somewhere along the line. The children seem to annoy you from time to time? Are they getting on your nerves? Are you in a nervous state so that anything will upset you? If so get away from the children — for their sake, if not your own. Hire a sitter that day if you can afford it. Perhaps your mother will help. Maybe your neighbor would like to have Suzie and Johnny play in her backyard. You can pay her back in hours of baby sitting when she's in the same sort of mood.

If you find that your are touchier than usual and your hand is driving you to distraction, ask yourself if it is your fault. Bite your tongue if necessary to keep from saying that unpleasant, un-called-for thing that could set off a holocaust. It's the perfect time to do something special for the family—bake a pie, cook pancakes for breakfast, do the favorite time-consuming chore that you normally avoid. It may make the family so happy, all will over-

Accents After Dark

What's the best-looking detail on your property? Is it a lovely tree, the front door, or possibly a flower garden? You can call attention to it at night, by lighting it with a charming lamp. The soft radiant glow will lend an air of enchantment to your home after dark.

WOMEN'S CALENDAR

MONDAY
High School P-TA will meet at 7:30 p.m. in the school cafeteria. Sig Fernstrom is guest speaker. Public invited.

TUESDAY
Business and Professional Women's business meeting, Martha Ann Woman's Club.
Twentieth Century Club meet at 8 p.m. at Martha Ann Clubhouse. Mabel Huckabee, Irene Likes, Mary Dell Schmitt and Sam Peterson, hostesses.

WEDNESDAY
Luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 10 a.m. if possible.

THURSDAY
Central P-TA meeting at 3:45 p.m. at the school. A coffee will be served. Meeting at 9:30. Nomination of officers will be held.

FRIDAY
Luncheon at Martha Ann Club for members and their guests. Reservations by 3 p.m. Saturday.

SATURDAY
The combination washer-dryer completely eliminates handling of heavy wet clothes. After you've put the load in, closed the door, and set the controls, your job is done. It washes, rinses and dries clothes automatically. It is truly a space-saving, efficient appliance.

SUNDAY
Luncheon at Martha Ann Club for members and their guests. Reservations by 3 p.m. Saturday.

MONDAY
The Mariani Group of the First Christian Church will meet with Mrs. Tom Overby, 9:30 a.m.

TUESDAY
Luncheon at Martha Ann Club for members and their guests. Reservations by 10 a.m. if possible.

WEDNESDAY
Luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 10 a.m. if possible.

THURSDAY
Central P-TA meeting at 3:45 p.m. at the school. A coffee will be served. Meeting at 9:30. Nomination of officers will be held.

FRIDAY
Luncheon at Martha Ann Club for members and their guests. Reservations by 3 p.m. Saturday.

SATURDAY
The combination washer-dryer completely eliminates handling of heavy wet clothes. After you've put the load in, closed the door, and set the controls, your job is done. It washes, rinses and dries clothes automatically. It is truly a space-saving, efficient appliance.

SUNDAY
Luncheon at Martha Ann Club for members and their guests. Reservations by 3 p.m. Saturday.

Annual Milk Fund Benefit At Lubbock

The 35-member Lubbock Symphony orchestra will again depart from its regularly-scheduled four-concert season to present its second consecutive annual benefit performance at 8:15 p.m., Monday, March 14, in the Lubbock Municipal Auditorium.

The 1960 benefit will deviate from the tradition in the Milk Fund of the Lubbock Public Schools. Star roles for the benefit will be shared by two names ranked high in American musical circles.

Richard Ellsasser, the eminent young American organist, who will be paying a return visit as guest star with the Lubbock Symphony, and the Texas Tech Choir, under the direction of Gene Kenney, who will also serve as guest conductor for the choir portion of the program.

Classical will be heard in a performance of Handel's Concerto No. 4 in F Major for organ and orchestra, as well as in a group of organ selections unaccompanied.

The Tech Choir has programmed three major numbers for the Lenten concert. The first two selections, "Ted Deun" and "Shabat Mater" are taken from a group of four sacred songs by Verdi.

The concluding offering by the Tech Choir will be the Hallelujah Chorus from "The Mount of Olives" by Beethoven.

The Handel Concerto will be conducted by William A. Harrod. Tickets for the benefit will be on sale through Agencies of the Kiwanis Club, who support the Milk Fund as a major project, and at the Lubbock Symphony Business Office, 1825 Avenue Y, Telephone, Porter 24707.

Admission will be \$2.00 per person and there will be no reserved seats for the benefit concert.

Built-In Ovens
Anyone who can handle a screwdriver can now install a built-in oven. One range manufacturer has incorporated a new expansion lock that firmly grips the inside front of the range cabinet.

A lock is installed on each side of the oven and recessed bolt heads adjacent to the oven door need only to be turned with a screwdriver. The bolt heads are then concealed by a simple chrome button. Connection of the gas line to the built-in oven should be handled by your gas company or range dealer.

STIG OLAF FERNSTROM, foreign exchange student at Snyder High School will speak on "Finland's People and Education" at the regular meeting of the High School P-TA Monday, March 7, 7:30 p.m. in the school cafeteria. The public is cordially invited to attend.

Many of the 1960 ranges identified by the "Gold Star" symbol have features such as removable oven doors, lift-off tops, removable oven bottoms and rack holders that can be taken to the sink for thorough cleaning. These are features to look for when you shop for a new range.

Mrs. Ben W. Boyd of Denton, President of Texas Federation of Women's Clubs leaves soon for Washington, D. C. to represent this organization at the White House Conference.

SEWING CONTEST
District winners in the Vogue Sewing Contest for the Clubwomen of the United States, will be viewed and judged at a luncheon to be held during the State Conference of Texas Federation of Women's Clubs to be held in Austin, May 2nd through the 4th.

The luncheon is set for noon on May 3rd and Mrs. Bob Long, State Chairman of the Contest, will be in charge.

Winners in the eight districts in Texas will have already been judged and selected; then these eight winners will model their dresses at the luncheon, and a state winning entry will be selected by the panel of judges. This winner will then go to New York to the Vogue sewing center for final judging.

Mrs. Long has announced that 160 entries from 40 clubs have been received; that these entries will go to the districts where the elimination will be held. She states that the dresses can be sent to the contest, along with a group of slides showing the dress, or they can be modeled by their makers. However, the dress must be in Austin to be included in the contest.

Hot Water
A new 30-gallon water heater will heat 50 gallons of water in one hour. It works like three water heaters in one by heating cold water at variable speeds. A control dial on the front of the heater adjusts the burner automatically. You dial the amount of water, 30, 40 or 50 gallons—not the temperature. The heater re-adjusts itself to heat only the amount of water needed.

White House Conference

Miss Chloe Gifford, President of the American Home Department, Mrs. Henry Lester Smith, Chairman of the Education Department, Mrs. Charles Smith, Chairman of the Youth Division, and Mrs. Ronald M. Hay, Junior Chairman of the Education Department, will be the official delegates of the General Federation of Women's Clubs at the Golden Anniversary White House Conference on Children and Youth, called by President Eisenhower to meet in Washington March 26 through April 2.

The purpose of the Conference is "to promote opportunities for children and youth to realize their full potential for a creative life in freedom and dignity." Close to 7,000 delegates will attend the six days of meetings and will participate in workshops, forums and theme assemblies touching on every facet of the well-being of American youth.

Mrs. Ben W. Boyd of Denton, President of Texas Federation of Women's Clubs leaves soon for Washington, D. C. to represent this organization at the White House Conference.

MRS. STANLEY WARLICK Photo by Craft Studio

Aleatha Brown, S. Warlick Exchange Vows In Ozona

The First Methodist Church of Ozona was the setting Saturday evening, March 5, at 4 o'clock for the marriage of Aleatha Brown, 2408 Twenty-sixth Street and Stanley Warlick of 805 1/2 Twenty-fifth Street, Snyder.

The bride is the daughter of Mr. and Mrs. C. F. Brown of Ozona and the groom is the son of Mr. and Mrs. I. S. Warlick, Mangum, Okla.

The Rev. B. M. Dennis, pastor of the First Methodist Church, Jal. N.M. officiated at the candlelight service.

Elizabeth Pierce was soloist, accompanied at the organ by Marilyn Cox, both of Ozona.

The bride given in marriage by her father wore a ballerina length white chantilly lace gown, fashioned with long sleeves of lace extending to petal points at hands with buttons up the back.

The bodice was accented with seed pearls and a scalloped neckline. Her veil of imported French illusion fell from a pearl crown. She carried a white orchid surrounded with white carnations on a white Bible.

Miss Gloria Jean Hughes of Ran-

kin, cousin of the bride was maid of-honor. She wore a pink silk organza dress with matching hat. Candles were Cynthia Brown, of Jal. N.M. and Mickie Hughes of Rankin, both cousins of the bride. Their costumes were also of pink silk organza with matching hats.

Health Loaf

Ingredients: 1 1/2 cups sifted flour 1/4 teaspoon salt, 1-3 cup dark brown sugar (firmly packed), 1/4 cup pre-sweetened wheat germ, 1/2 cup sliced dates, 1/2 cup chopped walnuts (medium fine), 1 egg, 3/4 cup milk, 1 tablespoon butter or margarine (melted).

Broiling Tips

Home economists recommend clipping the edges of steak before placing under the flame. This prevents curling and burning. Don't preheat the broiler grid and you'll find it much easier to wash.

The first agricultural fair in the United States was held in Pitts-

Is Johnny Jealous Of New Baby?

DOROTHY V. WHIPPLE, M. D. AP Neofeatures IT IS, NEARLY impossible to prevent a firstborn child from feeling some jealousy when a new baby moves into his home. But the more sensitive you are to the feelings of your toddler, the easier you will make it for him and the more likely he will grow up to have real affection for his younger brother or sister.

The older child should know about the coming of the new baby before the big day arrives. But if the older youngster is under 3 his time sense is not too well developed. Next week, next month, next year, may seem to him all lumped together as "soon".

Try to give your 2 1/2-year-old some concept of what a new baby is like. He may well be expecting a playmate. Take him to visit friends or relatives with babies young enough to lie in cribs so that he sees for himself that the new baby won't be a playmate.

One way to help the toddler to grow up to his Big Brother role is to graduate him to a grown-up bed long before the new baby arrives so that he doesn't feel pushed out and made to give up his place and possessions.

Some preparation for the fact that mother must go away "to get the new baby" is essential. You may explain: "Mother has to work very hard to help her baby, the doctor will help her, but she will be tired out afterwards and will need rest in the hospital for a few days. But she won't be gone long and you and Daddy, or you and Grand-ma can keep house together while she is gone."

Then comes the big day when mother and baby come home from the hospital. Don't expect your toddler to be interested in the baby as you are.

Guest Tea And Art Exhibit To Be Presented Wednesday

The Altrurian Daughters Club will host a guest tea and art exhibit at the Martha Ann Woman's Club Wednesday afternoon between the hours of 2:30 and 4:30 o'clock.

Famous Art Exhibit To Be At Library March 15-27

Advance information regarding the traveling art exhibition of "Paintings from Ford Motor Publications" has just been received by Scurry County Library.

Works include "The Amarna Colony, Iowa" by John Rosenfield, a native of Texas, amusements editor, dramatic music and art critic of the Dallas Morning News and Associate editor of the Southwest Review.

Mr. Paul Sample, one of America's best-known painters, is the artist of "Back Road in New England". Mr. Sample was War Correspondent for Life Magazine during 1942-45, and has worked in the Metropolitan Museum of Art, the White House, The Currier Gallery of Art, and Fort Worth Art Center.
