DENVER PARTY DUE IN AFTERNOON

FIVE HUNDRED ATTEND CONFERENCE

PASTORS MUST KEEP IN STEP WITH PRESENT

MOORE MAKES OPENING ADDRESS; WRIGHT NEW SECRETARY

BY HAMILTON WRIGHT
Special Staff Writer

The nineteenth annual session of the Northwest Texas Methodist Conference convened at the First Methodist Church at 9 o'clock this morning with Bishop John M. Moore of Dallas in the chair. Approximately 500 clergymen and laymen are in attendance. The morning session was given over to business and the addresses of a number of general connectional officers.

This afternoon at 3 o'clock, G. L. Morelock, connectional officer, spoke to a large gathering of laymen at the regular anniversary of the Board of Lay Activities of which Dean Boyd McKeown of McMurtry college, Abilene, is leader. Tonight Rev. Paul B. Kern, pastor of Travis Heights Methodist church, San Antonio, will preach.

The auditorium of the church was well filled when Bishop Moore wielded the gavel calling the session, and the congregation sang, "Come Thou Almighty King." The invocation was by Rev. W. B. McKeown, supernumerary minister. Bishop Moore then spoke at length on a portion of the third and fourth chapters of second Timothy, imparting ministers to administer to the religious needs of the present age rather than to ape the

CAMPUS CONDUCT INVESTIGATED

BIRMINGHAM, Ala., Nov. 21 (AP).—Howard College, one of the largest Baptist schools of the South, was in an uproar today as a special committee appointed by the board of trustees reviewed charges preferred by 21 students of improper conduct on the campus.

Among the charges was an allegation that a member of the faculty had asserted that "if all Bibles in the world were piled up and burned the world would be better off within 100 years."

Three other charges being probed are that students, during a recent fraternity rush, staged a mock "military" wedding on the campus, witnessed by a mixed group of students; that gambling and drinking had occurred on the campus, and that fraternities had permitted dancing in their houses, contrary to school regulations.

The complaints were placed before the Alabama convention of the State Baptist Association recently at Dothan, Ala., by students. The board of trustees was then directed to appoint a special committee of investigation which resulted in the present probe.

OMAHA POLICE LAY DRAGNET FOR AXE FIEND

REIGN OF TERROR GRIPS CITY AS MANIAC IS STILL AT LARGE

(By Associated Press)

OMAHA, Neb., Nov. 21.—Not since the rifle of Frank Carter, "The Sniper," a death weapon that sent fear racing through the city, has Omaha been gripped by the dread inspired today by its "hatchet-man."

The new slayer who, like "The Sniper," appears to pick his victims at random, has slain three, beaten a fourth so severely he will not live, and seriously injured a fifth. All the attacks have taken place since early Sunday morning.

Mrs. Harold Stribling, only victim of the madman's hand who was not killed or critically wounded, had provided police with a description of the man: "they hybrid responsible for all five attacks."

"He is of dark complexion, about 21 years old, five feet seven inches tall and weighs about 140 pounds," she said. "He was well dressed. His trousers were neatly pressed, and he wore a belted overcoat, a dark gray cap and a bow tie."

Harold Stribling, who was beaten by the hatchet man early yesterday morning, lies dying at a hospital with four district skull fractures.

Tells Of Attack

Mrs. Stribling was a man standing beside the bed. The hatchet was on and her husband's head was bleeding. The slayer hit him again and then struck at her. She moved and received a glancing blow.

Then she pleaded with the man and offering him anything if he would. He consented, but ordered her to leave with him. The Striblings were

URGES AID FOR STATE SCHOOLS

Urging members of the Methodist Episcopal church to continue their aid in state schools, Dr. Paul W. Horn, president of Texas Technological college, today welcomed visiting pastors and laymen of the Northwest Texas Methodist conference to Lubbock for their five day session.

Dr. Horn believes aid in the form of dormitories, particularly, should be extended into the state college field, especially in those colleges which have more Methodist students and regular church supported institutions.

DR. PAUL W. HORN

LEON MALONE MAY DIE FROM GIN ACCIDENT

HEAVY MACHINERY HITS HARD BLOW ON MAN AT SHALLOWATER

Leon Malone, about 35, was critically injured near 10:30 o'clock this morning at the Shallowater gin where he is employed when a large shaft of the gin machinery struck him in the head.

The injured man was brought to the Lubbock Sanitarium in an automobile by co-workers at the gin. Immediate medical aid was rendered and attending physicians were unable to determine the seriousness of the injuries at noon today. It was feared that the skull was fractured and that Mr. Malone possibly would lose the use of one eye.

According to employees of the gin, Mr. Malone had started to put a seed scale when the belt caught slipped off belt on the automatic on another pulley, releasing the shaft which struck him.

The wife of the injured man is at his bedside at the sanitarium. He is a brother of Mrs. Jewell Hall, secretary in the office of the Lubbock Chamber of Commerce.

OFFICER CURBS BELLIGERENT

Boasting that there were not enough officers in Lubbock to put him in jail resulted in a local man's spending the night in the county jail on a charge of drunkenness. The arrest was made by Constable J. C. Roberts.

The arrest was at the request of the man's wife who reported to officers that her husband was drunk and that she could do nothing with him. He had repeatedly made threats to any officer who would try to arrest him, declaring that "he would not be put in jail."

He went peacefully enough however, after Constable Roberts convinced him that he meant business. The man was still in jail at noon today, the wife saying that she would pay him out after he had time to sober up and think things over.

Four men were arrested by officers last night on charges of drunkenness and one woman was arrested charged with disturbing the peace.

WICHITA FALLS TRAIN TURNS BACK AFTER SUDDEN DEATH OF CIVIC LEADER AT PLAINVIEW

Death stepped in today to mar the good-will and pleasure tour of the Wichita Falls special train, which with six others began a rail parade over the new South Plains extension of the Fort Worth and Denver railway yesterday. John W. Bradley, 53, director of the Wichita Falls Chamber of Commerce and president of a furniture company there, met death in Plainview at an early hour this morning as a result of heart failure and acute indigestion.

The Wichita Falls special turned homeward this morning carrying the body of one of the public-spirited delegates who was congratulating the South Plains upon the completion of the new railway. The train was to have accompanied the rail caravan into Lubbock today to complete the good-will excursion over the newly completed 204-mile trackage.

The other four specials, from Dallas, Fort Worth, Amarillo, and the one containing the officials of the Denver and Burlington railway systems, were scheduled to arrive in Lubbock at ten minute intervals, beginning at about 3:20 o'clock. The Children's special and the combined Memphis and Estelle special turned homeward last night following the Plainview celebration.

The Wichita Falls train, containing about 200 delegates, was the largest of the caravan with the exception of the Children's special which contained more than 700 persons. Amarillo's train is next with 140. Dallas had about 120 representatives and Fort Worth 115.

Auto Ride Planned

Upon their arrival here the special will be met by several hundred cars driven by local citizens, under the direction of G. P. Kuykendall, chairman of the transportation committee of the celebration arrangements organization. The train will be carried on an extended sight-seeing tour of the city and Texas Technological college, then they will be released on Texas Avenue between Broadway and Main Street to follow their own fancy until 6 o'clock when they will be carried to the College gymnasium where a buffet dinner will be served.

An elaborate program has been

FT. WORTH NEWS

SPECIAL FLASHES BY THE STAR TELEGRAM

The following special dispatches, dealing particularly with new events of interest to the Ft. Worth Good Will evangelists who are guests of the city this evening, are presented by the Daily Journal in co-operation with the Ft. Worth Star-Telegram. The Star-Telegram takes this method of keeping its touring homelinks in touch with Ft. Worth items and the Daily Journal is returning the courtesy of the Star-Telegram, extended in 1926 when the Journal similarly furnished Lubbock news in the Star-Telegram for the local people attending the first Tech-T. C. U. football celebration in Ft. Worth.

FORT WORTH, Nov. 21.—L. M. (Lon) Barkley, 75, former "cowboy postmaster" of Fort Worth, dies. Funeral services will be held Thursday.

Gas stove explosion causes \$2,000 residence fire.

Finley Johnson Shephard, New York railroad official and financier, is optimistic over the progress of Fort Worth, he tells in an interview here.

Many filling stations here posted a two-cent cut in the price of gasoline today.

State highway commission lets contract for the paving of Camp Bowie Boulevard to the city limits. Assessments against abutting property will be fixed today.

Walter B. Cayce, 1907 Tremont, is injured in automobile crash.

Dr. Stephen S. Wise, rabbi of the Free Synagogue of New York will speak here tonight.

First consignment of office records of Southern Crude Oil Purchasing company, moving here from Shreveport, arrived Wednesday.

Approximately 35,000 Ft. Worth families are permanently established in Dallas, a survey of the city commission shows.

Burglar, fleeing from home when a woman screams, drops his purse but escapes with two diamond rings, a watch and \$2.

The journalism department of North Side High school plans to publish the 1929 Lasso, yearbook of the school.

City tax office collect \$600,000 in day as rush to pay taxes begins.

Semi-annual auction of dead parcel post brings \$1,800.

Retail credit men of Fort Worth will honor John E. Phillips, state president, and L. W. Bevan, state head of the Retail Merchants Association at a banquet Thursday night.

Defense motion is overruled in the \$75,500 damage suit against Swift & Co. brought by Mrs. Louise Osborn of Oklahoma City in federal court.

Fort Worth will send speaker to the Red River session of the West Texas Chamber of Commerce in Decatur Friday.

County commissioners will appoint a constable to succeed A. B. Carter, who was named county detective by District Attorney-Elect R. A. Stuart.

HUBERT WORK NEXT IN QUIZ OF OIL LEASES

WASHINGTON, Nov. 21 (AP).—Secretary West today issued a call for bids for the sale of royalty oil from leases on government land in the Cat Creek oil field in Montana for a period of three years beginning February 1, 1929. The bids to be opened at the interior department next January 2.

BLAZE OF SCANDAL, PUT OUT IN STEWART CASE, FLARES UP ANEW

WASHINGTON, Nov. 21 (AP).—Oil is highly inflammable. The blaze started some years ago by the inquiry into the conditions surrounding leasing of the naval oil reserves is no sooner quenched in one place than it breaks out in another.

Robert W. Stewart, chairman of the board of directors of the Standard Oil company of Indiana, was acquitted yesterday in the District court on the charge of conspiracy.

Fire Does Damage At Mill Warehouse

Fire originating from friction this morning at about 5 o'clock razed the No. 1 warehouse of the Economy Mills, corner of 15th and Avenue B, for an estimated damage of from between 1,000 to \$1,500. Although a complete check-up had not been made today, officials of the company stated that the damage would approximate that amount. The warehouse was damaged to the extent of about \$500, the machinery of the plant sustained considerable damage, and four carloads of material, consisting of heads, hay, and ground feed, were damaged both by the fire and water.

Friction or defective wire were the only possible causes of the fire which could be advanced this morning. Although the blaze had gained a sizeable headway, the local fire department made quick work of it upon the arrival of the fire trucks at the scene of the fire.

GINNINGS SHOW JUMP FOR YEAR

WASHINGTON, Nov. 21.—Cotton of this year's crop ginned prior to Nov. 14 totaled 11,320,202 bales, including 440,900 round bales counted as half bales, the census bureau announced today.

Ginnings to November 14 last year totaled 10,894,912, including 401,020 round bales and in 1926, 12,956,444 bales including 427,323 round bales.

The year's crop was estimated by the Department of Agriculture at 14,133,000 equivalent 500 pound bales in its first report on the Nov. 1 condition.

Ginning by states to Nov. 14 this year were:

Alabama	940,513;	Arizona	76,440;
Arkansas	823,437;	California	100,698;
Florida	18,678;	Georgia	891,362;
Louisiana	626,657;	Mississippi	1,211,964;
Missouri	70,919;	New Mexico	44,330;
North Carolina	615,902;	Oklahoma	832,971;
South Carolina	605,987;	Tennessee	271,706;
Texas	4,098,349;	Virginia	29,923;
All other	2,366.		

Father Enjoined From "Bothering"

Application for an injunction to prevent the father of two young children from bothering or having any connection with them was filed by the mother of the children in 9th district court this morning.

The mother, who was divorced from her husband last April, operates a boarding house in this city. She was given custody of the children in the divorce decree but the father was given the right to visit the children.

According to the petition filed today, the father has threatened to carry the children away to parts unknown. It is charged that he is unfit to have possession of the children, one of which is a girl 8 and the other a boy 12 years old. They attend the Lubbock public schools.

MAN HELD FOR EMBEZZLING OF LIBERTY BONDS

THEFT OF \$176,000 IS ADMITTED BY PAST BANK TELLER

NEW ORLEANS, Nov. 21.—Admission that he is James B. O'Hara, former teller of the First National Bank of Los Angeles, Calif., wanted for theft of \$176,000, was made to police today by the man arrested last night who had passed as Kenneth T. O'Hara. He said he would waive extradition. He had worked here as a newspaper reporter for the last nine months under the name of O'Hara.

TWO YEARS IS GIVEN WATSON

J. A. Watson, on trial in 99th district court yesterday on a charge of violation of the prohibition laws, was found guilty by a jury and sentenced to two years in the state penitentiary.

This was the second conviction this year on a liquor violation charge, giving evidence that the courts are staging an extended effort for strict enforcement of the prohibition laws. Earlier this week Ed Stovall was found guilty of liquor law violations and sentenced to three years in the penitentiary.

Watson was indicted by a recent grand jury of the 99th district court. Following the return of the verdict this morning the jury of the court was dismissed for the remainder of the week.

TRIAL ON PRO CHARGE BRINGS CONVICTION IN LOCAL COURT

J. A. Watson, on trial in 99th district court yesterday on a charge of violation of the prohibition laws, was found guilty by a jury and sentenced to two years in the state penitentiary.

This was the second conviction this year on a liquor violation charge, giving evidence that the courts are staging an extended effort for strict enforcement of the prohibition laws. Earlier this week Ed Stovall was found guilty of liquor law violations and sentenced to three years in the penitentiary.

Watson was indicted by a recent grand jury of the 99th district court. Following the return of the verdict this morning the jury of the court was dismissed for the remainder of the week.

RAIL JUBILEE AT PLAINVIEW

GREAT THRONG JOINS IN CELEBRATING DENVER ENTRY

(Special To The Journal)

PLAINVIEW, Tex., Nov. 21.—Ten thousand Plainview and South Plains citizens and visitors who are gazing the area served by the new Denver-South Plains extension gathered at Plainview last night for a jubilee commemorating the entry of the new artery of commerce into this virgin territory.

Seven special trains, carrying business and professional leaders from Dallas, Wichita Falls, Fort Worth, Amarillo, Childress and Memphis, arrived in Plainview over the new Denver rails during the afternoon, and the 1200 persons brought in this great train parade

Twenty Million Is Flood Loss Figure

KANSAS CITY, Nov. 21 (AP).—With the flood damage estimated at \$20,000,000 in Kansas and the toll of deaths 11, in addition to five in Missouri and Oklahoma, stricken Kansas cities were striving to get back to normal today.

Food From Wood Is Now Practical German Avers

By HOWARD W. BLAKESLEE
Associated Press Science Editor

PITTSBURGH, Nov. 21 (AP).—The human food that can now be made from wood may not appeal to persons desiring to reduce, but it is otherwise one of the widely used elements in table diet.

What elements will constitute this food from wood were disclosed by Dr. Friedrich Bergius at the international conference on bituminous coal at the Carnegie Institute of Technology. He is the youthful appearing German chemist who has converted wood waste into an animal fodder. It is selling in competition in Germany with natural fodder. He also has told the conference how wood is turned into real coal.

Dr. Bergius said the human food product that can be made from wood is a white substance that may be described as between starch and sugar. It is not sweet. He termed it a pure, flavorless product rich in edible carbohydrates, and said it can be turned into normal glucose. "Though we have not converted this cellulose into human food," he said, "it may be done so readily that food from it for human consumption is now a possibility. To produce this food it is only necessary to remove the chlorides and some small impurities from the cellulose food now made for animal fodder."

He said that it has been possible in Germany to demonstrate the value of the synthetic fodder in a balanced ration to improve the weight of pigs. He thought that this fodder may replace corn as an animal food in Germany.

\$30,000 Taken From Bank At Dayton, O.

DAYTON, O., Nov. 21 (AP).—Forcing D. A. Blair, manager and Harry Schmidt, his assistant, to lie face down on the floor, three bandits about noon today robbed a branch of the City National bank of approximately \$30,000.

Mrs. Etta Overpeck, customer, was bound in a chair in the room. The robbers, who were unmasked, escaped in an automobile.

High School Girl Hurt In Accident

Miss Billie Harper, 16-year-old daughter of Mr. and Mrs. Henry Harper, 2304 4th Street, was slightly injured at about 7:30 o'clock this morning when the car in which she and her father were riding collided with another auto.

The Harper car was turned over as a result of the accident and was badly smashed. The young girl received gashes about the knees when she was thrown from the car by the impact of the collision.

The other car a light sedan, was not seriously damaged and the occupant escaped serious injury.

Body Of Infant Is Found Stuffed In Lard Bucket

(By Associated Press)

HOUSTON, Nov. 21.—The theory that the mother of an unidentified murdered baby also met death at the hands of a fiend was advanced here today when police records failed to show a report of a missing infant. The baby's mutilated body, stuffed into a lard can, was found in a lonely gulch near here yesterday.

The nine-months-old girl had been stabbed and shot and the body dismembered. Police believed the bucket charge which probably caused her death also killed her mother, and that dense underbrush in the vicinity of the gruesome find may yield another body.

Search was halted by darkness last night, and a thorough combing of the vicinity was planned today.

The find was made by D. H. Evans, and his 10-year-old son. The boy threw a stick into a small creek for his dog to retrieve, and the dog uncovered the can when he climbed out of the water.

Physicians who examined the baby's dismembered body held to the belief that it was severed by one with a knowledge of anatomy. They said the head was cut out from the body at a point where the spinal column would be reached most easily. The finding of several jagged wounds and two leaden pellets resembling bird shot under the skin led to the belief that the baby was shot or stabbed to death and its body then cut to pieces.

Three carefully wrapped bundles were found in the can. One contained the arms and legs, tied together with a string, another the head and the third the torso.

TRAINS DELAYED IN ARRIVAL HERE

Due to unavoidable delays the four special trains will not arrive in Lubbock until shortly after 5 o'clock and as a result the local celebration plans have had to be revamped. Board of City Development official announced at 3 o'clock.

As soon as the trains arrive visiting delegations from Fort Worth, Dallas, Amarillo and the Denver lines will march uptown. At 6:30 o'clock they will assemble at the courthouse square and will be taken to the Tech gymnasium for the Denver dinner. Lubbock business houses are urged by the B. C. D. to remain open until 7 o'clock to give visiting Good Will evangelists opportunity to visit in them. There are 50 railroad men on the Denver lines special: 122 on the Dallas train; 150 on the Amarillo train and 150 on the Fort Worth train.

Fire Does Damage At Mill Warehouse

Fire originating from friction this morning at about 5 o'clock razed the No. 1 warehouse of the Economy Mills, corner of 15th and Avenue B, for an estimated damage of from between 1,000 to \$1,500. He said that it has been possible in Germany to demonstrate the value of the synthetic fodder in a balanced ration to improve the weight of pigs. He thought that this fodder may replace corn as an animal food in Germany.

\$30,000 Taken From Bank At Dayton, O.

DAYTON, O., Nov. 21 (AP).—Forcing D. A. Blair, manager and Harry Schmidt, his assistant, to lie face down on the floor, three bandits about noon today robbed a branch of the City National bank of approximately \$30,000.

Mrs. Etta Overpeck, customer, was bound in a chair in the room. The robbers, who were unmasked, escaped in an automobile.

High School Girl Hurt In Accident

Miss Billie Harper, 16-year-old daughter of Mr. and Mrs. Henry Harper, 2304 4th Street, was slightly injured at about 7:30 o'clock this morning when the car in which she and her father were riding collided with another auto.

The Harper car was turned over as a result of the accident and was badly smashed. The young girl received gashes about the knees when she was thrown from the car by the impact of the collision.

The other car a light sedan, was not seriously damaged and the occupant escaped serious injury.

Body Of Infant Is Found Stuffed In Lard Bucket

(By Associated Press)

HOUSTON, Nov. 21.—The theory that the mother of an unidentified murdered baby also met death at the hands of a fiend was advanced here today when police records failed to show a report of a missing infant. The baby's mutilated body, stuffed into a lard can, was found in a lonely gulch near here yesterday.

The nine-months-old girl had been stabbed and shot and the body dismembered. Police believed the bucket charge which probably caused her death also killed her mother, and that dense underbrush in the vicinity of the gruesome find may yield another body.

Search was halted by darkness last night, and a thorough combing of the vicinity was planned today.

The find was made by D. H. Evans, and his 10-year-old son. The boy threw a stick into a small creek for his dog to retrieve, and the dog uncovered the can when he climbed out of the water.

Physicians who examined the baby's dismembered body held to the belief that it was severed by one with a knowledge of anatomy. They said the head was cut out from the body at a point where the spinal column would be reached most easily. The finding of several jagged wounds and two leaden pellets resembling bird shot under the skin led to the belief that the baby was shot or stabbed to death and its body then cut to pieces.

Three carefully wrapped bundles were found in the can. One contained the arms and legs, tied together with a string, another the head and the third the torso.

REPAIRS WERE NEEDED, AVER VESTRIS CREW

VARIOUS PARTS PAST WHICH WATER CAME NEEDED FIXING

NEW YORK, Nov. 21.—Testimony that the lost steamship Vestris needed repairs was given at the federal trade inquiry today.

United States inspectors reported that the British liner was seaworthy before she left on her last voyage, yet members of the crew told Federal Commissioner O'Neill yesterday that various parts through which the sinking ship took water had been out of repair.

The testimony was given by Gilbert Ford, chief fireman; Isaac James Scott, a saloon waiter, and Thomas Connor, head waiter in the first cabin.

Ford testified the ash ejector valve in the stokehold during rough weather. He said he tried to tighten the screws on the valve but they were rusty.

Officers of the Vestris previously had testified that water coming in through this pipe and other places in the coal bunkers contributed to the foundering of the vessel.

Foured Through Door.

Scott and Connor told of a half door on the starboard side of the vessel about 10 feet above the water line, through which the water poured in such a stream after the ship started to list on Sunday night, 20 hours before she sank, the baffling efforts of several men could not keep up with it. They testified that on previous trips when the weather was rough seas had been shipped through this door.

Scott also told of being assigned to No. 4 lifeboat, which he testified was loaded with women and left suspended five feet above the water. He said it was carried down with the ship.

While these witnesses testifying before Commissioner O'Neill and the two nautical representatives of the United States and British governments, D. N. Hoover, Inspector general of the steamboat inspection service, was conducting an inquiry into the inspection of the Vestris before she sailed.

Captain Edward W. Keane, in charge of the three inspectors, said they had made a thorough inspection of the ship and found her seaworthy in every respect. He admitted, however, that he had made his inspection of six of the fourteen coal ports at a distance because he could not get near them due to the vessel having already been coaled.

STOCK STORM SLOWS TICKER

QUOTATIONS TO SHOW CURTAILMENT IN TRY TO SPEED SERVICE

NEW YORK, Nov. 21.—In an effort to keep pace with the record-breaking "Hoover market," the New York Stock Exchange beginning tomorrow will drop from the ticker all sales volume except at the opening.

This action was decided upon when yesterday's tape at the close of the market was two hours and 44 minutes behind. By carrying only the prices on sales it is believed the ticker can be speeded up from 25 to 30 per cent. Total sales of individual stocks will be given to Press associations and newspapers two or three times daily. Total sales yesterday reached 6,811,900 shares in contrast to the previous high of 6,714,000 last Friday.

Attracted by the booming market hundreds of visitors have been thronging the financial district daily swelling the crowds of employees and traders and straining the restaurants and customers' rooms of brokerage offices to capacity. Whose sales and floors of hotels have been taken by brokerage firms for their employees who do not wish to waste the time going to and from their homes.

T. R. Stubbs Estate Left With Brother

The entire estate of about \$8,000 of the late T. R. Stubbs of Lubbock, who died last March 21, was left to his brother, Monte J. Stubbs, following a probe of the will yesterday by County Judge Charles Nofyke. The only will found was written on a sheet from a small notebook. The document was dated December 1, 1924.

Urges Europe As Market For Fruit

ATLANTA, Ga., Nov. 21.—Wells A. Sherman, head of the federal bureau of agricultural economics, appearing before the southeastern trade conference, outlined means of developing markets in Europe, particularly in England, for southern fruits and vegetables.

Grape fruit has become more popular in England, especially on the luxury market, the speaker said, but urged that southern producers attempt to compete other fields on the general market.

NEW YORK — "Cherish," who tries daily at 8:30 a. m. to have listeners over WEAF's network start the day in a happy frame of mind, was a class mate of Herbert Hoover at Stanford, otherwise, his identity, long a secret, remains undisclosed. Mr. Hoover helps him occasionally with suggestions for his efforts to promote good health by creating good cheer early in the day.

McClung To Hear Of Paving Issue

SLATON, Nov. 21.—A meeting will be held at McClung, seven miles north of Slaton, on Wednesday night this week, to discuss the proposed road bond issue to be voted on in Lubbock county on Saturday, Dec. 1. This was announced here Tuesday by J. T. Overby and P. G. Stokes, two local members of the

Lubbock County Good Roads Association

Voters of McClung school district have been invited to attend the meeting, and several Slaton men will be present to take part in the discussions.

Heels Help To Fly

PHILADELPHIA—Praise for high heels comes from Lady Heath. They help women to fly, not because they get the wearers higher up in the air, but because they improve the sense of balance.

GARNETT ABBOTT BUYS LUBBOCK TO ROSWELL BUS LINE

Purchase of the bus line known as Lone Star Stages, operating between Lubbock and Roswell by way of Brownfield and Tatum, has been announced by Garnett C. Abbott,

pioneer bus operator of West Texas. Mr. Abbott has just purchased the bus route outright from Dick Abbott, and immediately assumed charge. He is assisted by two veteran bus men.

Mr. Abbott told the Avalanche-Journal that he would use the best of equipment on the bus route and that only competent and courteous operators would be employed.

A new set of schedules to give favorable connections with bus lines east of Lubbock and west of Roswell is being worked out by Mr.

Abbott in order that complete service over bus lines can be maintained from Los Angeles to New York City. Immediate connections will be made at Roswell with Pickwick stages and at Lubbock with all lines running out of the local terminal.

Girl Is Heroine

VERMILION, Alberta—Rosetta Annett, 9, is a heroine. She carried eight children to safety from a burning farmhouse while the parents were away.

John Barrymore To Wed Miss Costello

LOS ANGELES, Nov. 21 (AP)—Hollywood's arena of motion picture romance buzzed today with discussions of the impending marriage of John Barrymore, stage and screen star, and Dolores Costello, film actress. Barrymore applied for the license yesterday. The marriage will be Barrymore's third venture into matrimony and Miss Costello's first. Neither would

discuss plans for the wedding but close friends intimated that they probably would wed during the coming week-end.

Amundsen Debt Free

OSLO, Norway—The wish of Roald Amundsen that he be free of debt is to be fulfilled. Conrad Langaar has bought the explorer's medals for a sum sufficient to pay the obligations of the estate. The medals are to be presented to King Frederick University.

STOCK REDUCING SALE

McDONALD CASE TO JURY TODAY

LENGTHY LITIGATION IS EXPECTED TO CLOSE IN WILL CASE

PARIS, Tex., Nov. 21 (AP)—Jurors who have sat through more than two weeks of testimony hearing on the questioned sanity of William J. McDonald, late Paris millionaire, when he prepared his will leaving \$1,250,000 to Texas University for an observatory, probably will hear the last of attorneys arguments today.

Kinsmen of McDonald waged a two-year fight to have set aside his bequest to the university. A previous lower court hearing resulted in a verdict for proponents, but the decision was reversed by the supreme court.

When court recessed yesterday five attorneys had spoken. A. P. Park, Paris, member of contestant's counsel, reviewed testimony introduced to show that McDonald was a "solitary" character, sitting his alleged mode of living on his farm near Paris. He maintained that the relatively small bequests to relatives in the will was not the expression of a man in his right mind.

He was followed by S. M. B. Long, who called attention to the fact that in the first trial of the case only one witness testified McDonald told him it would be possible "to see into the gates of Heaven," but at the present hearing several had so testified.

Road Board Ends November Session

AUSTIN, Nov. 21 (AP)—After awarding contracts amounting to \$1,185,216 for projects in 18 counties in two days, the state highway commission adjourned yesterday. Aid granted during the session will probably be in excess of \$25,000. Contracts awarded yesterday were: Collard county, 16.95 miles highway \$2,496,484.02; Bell county, 6.78 miles highway 1,837,239.21; Tarrant county, highway 1, \$111,239.31; Nolan county, 7.81 miles highway 70, \$35,393.14; Hardin county, truss on highway 8, \$72,777; Dallas county, concrete and steel bridge, highway 114, \$124,146; El Paso and Hudspeth counties, 20 miles highway 130, \$127,782.93.

Seek Other Bodies In Debris Of Blast

PARIS, Nov. 21 (AP)—In the fear that other bodies might still be buried under the debris, search was continued today in the ruins of a cartridge factory which exploded yesterday in Vincennes. Seven persons were known to be dead. Five other persons were reported to be missing and 21 persons, including four women were injured.

Unofficially it was reported workmen dropped a case of cartridges in a room used for filtering powder. NEW YORK—Harrison Williams, utilities magnate, is to have the largest privately owned yacht in the world. It will cost more than \$3,000,000.

THE TINYMITES

(READ THE STORY, THEN COLOR THE PICTURE)

The Tinymites were tickled pink. Said one of them, "Well, just to think that we should meet the funny man who rules the skies above." Then to the man another said, "Oh, Mister, kindly go ahead and take us on a long, long trip. That's something we will love."

"All right!" the small man said. "First I will float this cloud high in the sky. You wonder how I'll do it? Well, just watch and you shall see. The clouds obey whatever I say, and we will soon be on our way." He clapped his hands and shouted, "Rise!"

The Tinymites yelled, "Where?"

"Up, up the cloud went. My, what fun! The promised trip was now begun. The Tinies sat still in their boat and never said a word. The funny man sat right nearby, with his balloon still in the sky. The cloud kept moving faster, almost flying like a bird.

Soon Scouty said, "I'd like to know just how far up we're going to go. Suppose we hit the sky of blue! What's going to happen then?" The Sky Man answered, "Don't you fret. That's further than we'll ever get. I'll promise you no harm will come. I like you little men."

All of a sudden Copsy cried, "Oh! There's the moon." Then Carpy sighed, "I've often heard about him. I just wish that he'd come near." Real soon this simple wish came true. The Moon Man shouted, "Howdy do!" He drifted up beside the boat and added, "Have no fear."

"Oh, can I take a ride on you?" "I would be a dandy thing to do," said Clowey. "I have watched you as around you've soared." This made the brilliant Moon Man grin. And shortly he stuck out his chin and said, "Why sure you can, my lad. I'm ready! Hop aboard!"

(Clowey has a ride with the Moon Man in the next story.)

LAMESA BUS DEPOT OPENS

UNION TERMINAL FOR DAWSON TOWN IS NOW IN USE

LAMESA, Nov. 21.—Hundreds of Lamesa citizens attended the formal opening here last night of the new union bus terminal at Lamesa. The terminal is centrally located, adjoining the Dal-Paso hotel and being just across the street from the telegraph and telephone offices.

A Lamesa orchestra furnished music for the formal opening and refreshments of coffee and cake were furnished to the hundreds of citizens who attended the event.

Five bus lines operate out of Lamesa making this the hub for transportation in the lower South Plains country. The lines radiate out of Lamesa to Lubbock, to Carlsbad, to Snyder and Sweetwater, to Midland and to Big Spring.

Bill Watson, bus operator at Lamesa, is manager of the terminal.

Bomb Wrecks Home Of Australia Solon

SYDNEY, New South Wales, Nov. 21 (AP)—A bomb was thrown in Kew today and seriously damaged the house of a Mr. Swanton, who is managing director of the Crosby company, shipping agents.

Mr. Swanton was absent but his family were asleep upstairs and had a narrow escape.

Police attribute the outrage to work of the worst criminal elements of the water front.

Labor Government At Victoria Quits

MELBOURNE, Victoria, Nov. 21 (AP)—The labor government of Victoria under Premier E. J. Hogan has resigned. Sir William McPherson, former state treasurer, today accepted a mandate to form a new ministry.

A vote of censure was passed on the government last Thursday for its failure to supply an adequate police force during disorders attendant upon the strike of water-side workers. Yesterday the government was again defeated in the legislative assembly when Premier Hogan submitted a motion for adjournment of the house.

Horses Healthy

MONTCLAIR, N. J.—For health and longevity ride a horse. E. Omar Carrington at 50 seemed to be an incurable invalid. He was advised to take to the open. He bought a ranch and spent every possible moment for years in the saddle. He has just died at 92.

Dogs Banned

LONDON.—Americans will have trouble if they bring their dogs on tours to England next summer. After Jan. 1 the dog or cat will be permitted to land without special detention, inspection and license.

HOOVER TRIES LUCK AT FISHING

EXTENDED ARMS INADEQUATE IMPRESSION OF THE FISH "THAT GOT AWAY"

ON BOARD U. S. S. MARYLAND ENROUTE TO AMPALA, HONDURAS, Nov. 21 (AP)—Herbert Hoover today was in the emerald green waters off Cape San Lucas where extended arms give a very inadequate impression of the fish that got away. They grow to six and eight hundred pounds in this part of the sea.

Idaho Wins First In Stock Judging

KANSAS CITY, Nov. 21 (AP)—Idaho won first place in the stock judging contest of the national congress of vocational agriculture high school students at the American Royal Livestock exposition here.

John Preis, Twin Falls, Idaho, had the highest score, 671 out of a possible 800 for general stock judging. The others:

Second—Kansas. Third—Wyoming. Fourth—Colorado. Fifth—Texas: E. F. Hughes, Troy Tatum and J. T. Fulford of the Dublin high school.

Millard Huey of Yuma, Colo., was awarded second place in the individual judging, and J. T. Fulford, Dublin, Texas, fifth.

In beef cattle judging Kansas was first, Texas second and Idaho third.

Girl Reappears

NORFOLK, Va.—After many thrilling experiences working in various cities or visiting them, Miss Maude Nesselrodt, who vanished from S. Lawrence university, New York, last July was returned to her home near Williamsburg. She says she disappeared for educational reasons.

LUBBOCK FANS TO SEE FUTURE WESTERNERS THIS AFTERNOON

NEBRASKA-ARMY GRID TUSSLE DRAWS NATIONAL INTEREST

OTHER MAJOR TILTS BETWEEN NEARBY FOES

NEITHER HUSKERS NOR CADETS HAVE CLEAR RECORD FOR YEAR

NEW YORK, Nov. 21.—Nebraska fans will be the only spectators at the football game in the East Saturday. The game is not drawing the same public interest it might have but for two unforeseen incidents during the last two weeks or so. Army apparently was a favorite to win the battle with the Cornhuskers until that on November 10. Last Saturday, Nebraska unbeaten and untied, was held to a scoreless draw by Pittsburgh.

GOLFERS WILL PLAY ON COAST

PROFESSIONALS CHOOSE SANTA BARBARA FOR NEXT TOURNAMENT

By BRIAN BELL (Associated Press Sports Writer) NEW YORK, Nov. 21.—Golf professionals are canny business men and their again showed keen judgment in deciding to hold the 1929 tournament of the P. G. A. in California. The title contest will be held in the winter when the men whose business is playing golf will be on the Pacific coast in the natural westward trend of the profession at that season of the year. Leo Dwyer will defend his championship at Santa Barbara.

The executive committee of the United States Golf Association meeting in New York last week is expected to announce a departure from the usual custom of holding the open championship in June. It is understood that the dates for the 1929 tournament will be the Western Open course, Birmingham, N. C., will be in June.

FIGHT RESULTS

MINNEAPOLIS, Minn., Nov. 21.—Billy Light, St. Paul, outboxed Herman Ratoff, Minneapolis, N. D. (10). King Tom Mintonko, outboxed Tommie Peter, Chicago, outboxed Jack Shaker, Minneapolis (6).

INDIANAPOLIS, Ind., Nov. 21.—San Francisco and Johnny Mason, Scranton, Pa. drew (15). Norman Brown, Chicago, knocked out Cecil Hart, Indianapolis (3).

Loughran To Fight Disregarding Rule

PHILADELPHIA, Nov. 21.—Barred by the New York Athletic Commission from boxing heavyweights in that state while he holds the light-heavyweight championship, Tommie Loughran has issued an edict of his own. He says he will go right ahead with his plans to meet all comers.

FIRST GOTHAM SNOW NEW YORK, Nov. 21.—New York felt the first real touch of winter today when snow began falling. The fall was light.

Speaking of Football

What Good Does Football Do? Coach Sutherland Answers That Question in This Article

By "JOCK" SUTHERLAND
University of Pittsburgh Football Coach

To the player there is nothing that challenges and develops the best that is in him as football does. The rules provide that he must play fair and clean and that his conduct on the field be exemplary of a gentleman.

The average player wants to do the manly thing. He carries a responsibility that he fully appreciates. He is the representative of his school and he is inspired to give his best. He trains faithfully, works hard and sacrifices time and energy.

Football develops a wholesome respect for the other fellow. The player respects opponents, aggressiveness and sportsmanship. Friendships made on the football field are enduring and permanent. Men who play side by side under the fire of competition are not going to forget each other.

Football teaches aggressiveness and team play in operation and in practice that brings results. Patience and thoroughness are essential qualities that bring precision, perfection and confidence.

The tremendous growth in football interest has been in keeping with the development of the game and the training of spectators have learned a code of sportsmanship by watching the players demonstrate it.

The years I spent on the Pittsburgh squad are invaluable to me. I made life-long friends. I learned to take the bumps that come in football and in life without whimpering. I learned to accept responsibility.

The experience a boy gains in football is valuable to him in his life. He has learned to meet adversity to stand under punishment, to overcome and to believe in himself and to have a wide circle of acquaintances who will stand by him.

Football and athletics in general are democracy worth while. They are building up the bodies and the minds of a keen, aggressive group of young men, many of whom will be leaders of the next generation.

JACKETS HAVE GOOD RECORD

ONE LOSS, THAT TO THE MUSTANGS, MARS YEAR FOR HOWARD PAYNE

(Special to The Journal) BROWNWOOD, Nov. 21.—Yellow jackets of Howard Payne have advanced this far in the season without meeting a single defeat at the hands of a conference foe in three states and have a season's record of seven victories and one lone defeat, the single reverse being at the hands of the powerful Southern Methodist university Mustangs. And although one more non-conference game that with Burleson college in Brownwood Wednesday, Nov. 21, is on the Jackets' schedule, Coach Chaney and his assistants have begun work in earnest preparation for the two final conference games of the year.

The game with Burleson college will be little more than a practice affair for the Jackets and it is expected that the Jackets' mentors will use reserves against the junior college eleven. At any rate the game will not be taken seriously. Due to the fact that bigger tasks are before the Jackets and those in the near future.

Prepare for Pirates —Coaches Chaney and Keaton began preparations Monday for the invasion of the Southwestern university Pirates on Thanksgiving. The Pirates crew will be encountered on jacket field as the feature holiday attraction for Brownwood and for the Texas conference. Southwestern has always been more or less a lock to the Jackets and the season at Howard Payne are taking this game as seriously as any in the 1928 program. They are faced with the necessity of winning the game or lose their commanding lead over other Big Six eleven in the 1928 title chase. In addition to the Pirates, the Jackets have a defeat to reverse when the Pirates are encountered, this having been a handicap of them last year in a game by a score of 25 to 18.

However the Jackets have been pointing to the game with Simmons university ever since the dust began settling on the Cowboys' gridiron in Abilene last Thanksgiving. The Jackets had left the field with the losers end of a 3 to 0 score. The Cowboys invade Brownwood December 7 and they will meet a determined defense and stalling bunch of Yellow Jackets, set on one thing, and that victory.

JUNIOR TEAMS WILL MEET ON TECH GRIDIRON

PLENTY OF ACTION IS PROMISED IN GAME WITH PLAINVIEW

Lubbock's youngest football team, fortified with plenty of confidence and "rearin' for action," will furnish a mid-week gridiron attraction this afternoon on the Tech field when Coaches Mule Davis and George Brown send their youthful warriors forth to battle the invading Bulpups from Plainview. The game starts at 3:30.

With an entire season of training behind the junior gridiron warriors, are in splendid condition for the second tussle with the fighting second string aggregation from Plainview high school. The members of the team have not seen action in some time and are anxious for the opening whistle today when they can strut their wares before the home crowd.

Proceeds of the game will go toward buying new football outfits for the junior gridsters, athletic manager E. J. Lowrey announced. A small admission will be charged. Students will be admitted at a requested price.

The starting lineup for the local team follows: Ends—Dalton Blagg and Horsey Douglas; tackles—Bertram Williams and "Chief" Jones; guards—Verne Beebe and Hollis Payne; center—Possum Blackwell; quarterback—Archie Corley; halves—Frank Smith; fullback—Gene Brown.

INFANT ANGLER

Four-Year-Old Fisherman Is Given License

"Me have to flo him back; him too little," said Russell Myrick, Jr., 4-year old son of Mr. and Mrs. Russell Myrick of Shallowater, when he landed a 10 inch bass recently at the club lake. It happened that Deputy Game Warden M. W. Dickinson was in the party and because of the fine spirit displayed by the young angler, the game official has issued a fishing license to what he believes is the youngest fisherman in the state. Young Myrick is not only a capable fisherman but he believes in observing the game laws to the letter.

Deputy Dickinson tells the story about the four year old sportsman with keen delight. Russell landed the fish successfully and although elated over his catch, he immediately recognized the fish as one too small to keep. Whereupon his beaming countenance faded and he reluctantly threw his prize back into the water.

The local game official reiterated his recent statement concerning the enforcement of the state game laws, laying especial emphasis on young people hunting without license. Three boys were caught hunting without license Sunday and three more were brought in Monday for the same offense. All were fined to the full extent of the law.

HAGEN HEADS RYDER GOLFERS

INVASION OF ENGLAND WILL BE CAPTAINED BY FAMOUS ACE

(By Associated Press) CLEVELAND, Nov. 21.—Walter Hagen, defeated recently as National professional golf champion, will captain the American Ryder cup team of United States golf pros when it invades England next spring.

The honor went to Hagen when Leo Durell, present title holder, endorsed for the captaincy at the final session of the National Golfers' association's annual meeting here, demurred in favor of Hagen.

The association recommended a list of 12 leading professionals from which the American team of ten will be selected.

FARMER-STEER CLASH IS KEY TO LOOP TITLE

REVAMPED AGGIE TEAM PROMISES PLENTY OF FIGHT FOR TEXAS

(Special To The Journal) COLLEGE STATION, Nov. 21.—Holding, as has been the case many times in the past, the key to the Southwest conference title for the current season, the coming Thanksgiving day battle between the Texas Longhorns and the Texas Aggies promises to loom across a considerable portion of the football horizon throughout southwestern circles from now until the fateful score has been chalked up. The Texas Memorial stadium at Austin will be the scene of this forthcoming struggle and judging from the demand for tickets that has persisted virtually since the opening of the season, Austin will be host that day to a veritable host of eager, if not to say rabid, fans. A. and M. and Texas athletic officials are looking forward to what may set a record for attendance in football in southwestern circles and possibly in the south. All in all, indications point to a big day.

Aggies Loom Stronger —Even though the alluring plume of conference title will dangle, by reason of the fortunes of the game, only before the eyes of the Longhorns, the fact that they will be meeting their traditional foes of the gridiron will furnish sufficient stimulus for the Aggies to make the game as warm for them as though they too had a chance at the flag. And the Aggie team that will meet the Steers on turkey day promises to be a much different gridiron machine than the team that lost to Centenary, to T. C. U. and to Arkansas. Dana Bible and Chuck Bassett literally started the season anew on the return of the defeated Aggie warriors from Fayetteville. Evidence of this is now history, the 44 to 0 defeat of the North Texas Teachers and the 19 to 0 defeat of the Rice Owls. A win over the Longhorns Thanksgiving day would give the Aggies a percentage mark of 500 and a fair record to round out what it appeared not so very long ago might prove a very disastrous season.

As for the Longhorns, there is little doubt that the lure of a conference title almost within their grasp for the first time in several years will make of them unusually dangerous opponents. With the title at stake, the Steers doubtless will be hard to stop. Yet the fact that the Aggies will not have the worry of winning or losing the flag on their minds, is expected to afford them considerable advantage in play.

JUST ANOTHER CASE OF STAYING IN THE FIGHT TO REACH SUCCESS

By NEA Service PHILADELPHIA, Nov. 21.—Sydney Gervin won for himself a regular job with the Pennsylvania eleven because he didn't know what it was to quit. He starred in the Chicago-Penn game, and he has the inside track at that end position for the rest of the season—and just a few weeks ago he was about eighth among eight ends on the Penn squad. Gervin has been on and off the varsity squad for three seasons, and every time he was relegated to the scrubs he just fought his heart out to get back with the varsity. He has tried making the grade in the backfield and at tackle, but it wasn't until he got a chance to play at end did he finally crash through as a regular. He's regarded as one of the two best ends on the Penn squad now.

BIG GAME PASSING, HUNTERS SAY

LOCAL PARTY REPORT NEW MEXICO CANYONS INFESTED WITH ARMY OF SPORTSMEN

Doctors Hall and Baugh of Lubbock and Walter E. Taylor, B. W. Taylor and H. D. Hughes of Leveland returned this week from a camp hunt in the mountains of the Black Range in New Mexico. From Walter E. Taylor, comes the following report: The big game, usually so abundant in the mountains of New Mexico has become exceedingly scarce. The army of hunters and would-be hunters have increased each fall, from a few hundred to thousands. Every mountain canyon that was accessible to cars and in which there was water was crowded with camps. High-powered guns roared constantly in every mountain gorge and canyon. Would-be hunters miss-took any thing that moved in the bushes for a deer or turkey.

Two horses were shot and killed from under their riders and one man seriously wounded, not so far from our camp. Notwithstanding the fact that we had two good doctors in our party, we decided that it was dangerous to remain in that range and we came out six days before the season closed. "If we ever go hunting in that country again, which is doubtful, we will insure our lives to the limit and practice dodging bullets for 30 days before we start. Wild woods in the Southern States have about disappeared and the big game with it. "One buck a wolf, and a few squirrels was the limit of our success. Doctor Baugh killed the buck and the wolf."

SOUTHWORTH IS CHOSEN PILOT OF CARDINALS

OUTFIELDER ON TEAM OF '26 IS TO SUCCEED BILL McKECHNIE

(By Associated Press) ST. LOUIS, Nov. 21.—Billy Southworth, outfielder on the St. Louis Cardinals' world's championship team of 1926 and manager last year of Rochester, N. Y., a Cardinal farm, today was named manager of the Cardinals, succeeding William McKechnie, President Sam Breadon withheld details of the one year contract.

Shirts with Laundered Attached Collars

--Triumphs Of Styling--

Fashion has long favored separate matching laundered collars. We now announce Eagle Shirts of Kolton Madras with a smart 3 1-2 inch-pointed laundered collar attached—combining the crispness and character of a laundered collar, and the comfort of an attached collar.

- Features of Eagle SHIRTS**
1. "Neckurve" collar and neckbands.
 2. Flat lock-stitching.
 3. Gapsless full-length center-plate.
 4. Six-buttoned front.
 5. Every button sewn with 24 stitches.
 6. Fast colors.
 7. Cut extra full and extra long.

A new departure in shirts that has won the approval of the well-dressed.

\$3.00

In sprightly patterned effects or in pastels of tan, green, blue and lavender.

*These collars are soft on the inside; starched on the outside

BUILDING IS ON UP TREND

PERMITS DURING PAST TWENTY-FOUR HOURS TOTAL \$21,000

Building permits continued on the upward trend today, this morning's permits added to the ones granted yesterday totalling \$21,000. Following a several weeks slump in issuance of permits soared high 1 of this week, passing the goal of 600,000 for the year last Monday. The year's total now stands at \$59,719 for 641 permits, and the month's permits aggregate \$12,530 or 30 permits.

Permits issued during the past 24 hours are: \$100 to E. T. Proctor for the construction of a garage at 1809 Avenue F; \$3,000 to A. L. Stovall for the construction of a residence for Mrs. Billie Mitchell at 1922 6th street.

J. J. Modrak, 2503 Eighth street, five room brick veneer residence, \$4,000, W. A. Perry, contractor.

W. F. Coburn, 2623 Twenty-second street, seven room brick veneer residence, \$7,000.

W. W. Nelson, 1907 Twenty-third street, six room brick veneer residence, \$4,500.

J. T. Collier, 1210 Avenue J, repairs to residence, \$400.

Declaring "You are the best assets we have," Mr. Bean extended a royal welcome to the city and church. "You were here as pioneers when Lubbock came," he said.

Hon. Marvin Jones, president of Texas Tech College, representing the educational interests of Lubbock, also gave a great welcome and stressed the necessity of Methodism giving heed to the needs of Methodist students in the Tech College, erecting here a Bible chair and such other facilities as are usually placed by the denomination at the seat of great state institutions.

R. J. Murray, chairman of the local building committee of the church, was introduced to the conference. Bishop Moore responded to the welcome addresses and declared the operation of special trains into the city today over the new Denver railroad attested to the rapid development of this area and the general interest being manifested by the world in the Lubbock area.

After seating of alternate delegates, Dr. E. B. Ellis, secretary of the general board of church extension, Louisville, spoke of church construction and ecclesiastical architecture. A. W. Martin, representing the general Sunday School board, Nashville, stressed importance of providing for the needs of the local church and the extension of Sunday school work.

Dr. C. W. Webber, who said that seven out of every ten Methodist churches were rural. "Southern Methodists do not have a rural problem," he said, "but they are a rural people."

Bishop Moore announced the following transfers of preachers: Into the Northwest Texas conference, Revs. E. C. Rainey, from East Oklahoma conference; B. W. Dodson, from New Mexico conference; H. W. Strong and George W. Davis, from West Oklahoma conference; S. L. Culwell, from Central Texas conference; C. A. Norcross, from Central Texas; J. L. Willis, from North Texas; Clifton L. Hodges, transferred out; Revs. Virgil Fisher, Central Texas; M. R. Timberlake, to East Oklahoma conference.

Dr. C. W. Webber spoke at the forenoon session in the interest of the superannuate endowment fund. The church at large is raising \$10,000,000 for this cause. It is to provide for worn-out preachers of the various conferences.

The conference adjourned at 12:30.

Transfers announced: Bishop Moore announced the following transfers of preachers: Into the Northwest Texas conference, Revs. E. C. Rainey, from East Oklahoma conference; B. W. Dodson, from New Mexico conference; H. W. Strong and George W. Davis, from West Oklahoma conference; S. L. Culwell, from Central Texas conference; C. A. Norcross, from Central Texas; J. L. Willis, from North Texas; Clifton L. Hodges, transferred out; Revs. Virgil Fisher, Central Texas; M. R. Timberlake, to East Oklahoma conference.

On nomination of Dr. J. W. Hunt, president of McMurry College, Rev. Carl C. Wright, pastor at Baird, was elected secretary, succeeding Dr. Hunt. On the nomination of the new secretary assistants were elected as follows: Dr. J. W. Hunt, Abilene; Rev. J. W. Watson, Quanah; Rev. W. B. Hicks, Muleshoe; M. B. Norwood, Avoca, was elected statistical secretary. Dr. J. W. Hunt was elected journal editor. Rev. A. L. Moore, presiding elder of the Elwell district and for sixteen years secretary of the conference, was present and asked to sit with the corps of secretaries.

George R. Bean, representing Mayor Harley Woods, and the First Methodist church, welcomed the ministers and laymen to Lubbock.

AMONG VISITORS

HON. MARVIN JONES

"One of the Home-folks" here to help Lubbock and the South Plains celebrate the opening of service on the New Fort Worth and Denver South Plains railroad, is Hon. Marvin Jones of Amarillo, United States congressman from this district.

over the Plains country for the celebration here.

Promptly at 7 o'clock a banquet was laid in the Municipal auditorium where more than 1,000 persons were seated and a program headed by Hon. R. A. Underwood, banker, as toastmaster, was presented. After the program, in which 26 persons were called upon for remarks and addresses, Plainviewans were hosts at a dance, honoring the visitors, who were to take an early run to Dimmitt, northwest terminus of the line, Wednesday morning.

They will then proceed to Lubbock where another gigantic celebration is scheduled for late Wednesday afternoon and Wednesday night.

Program Is Begun Following the banquet, which was typically West Texan both in quality and quantity and for which 980 ducks had been afforded by Plainview hunters, Maury Hopkins, secretary of the Chamber of Commerce and Board of City Development, introduced Toastmaster Underwood. After the invocation had been read by Rev. Leslie G. Smyth, pastor of the First Christian church, R. H. Knoohuisen, welcomed the visiting Good Will evangelists and the railroad officials.

Response to Mr. Knoohuisen's welcome was delivered by J. H. Barwise, of Fort Worth, chief counsel of the Fort Worth and Denver lines, and Frank E. Clarity, general manager and executive vice-president, then made a few remarks in which he touched upon the completion of the new line.

Frank Kell, pioneer West Texan and "the daddy" of Wichita Falls, delivered the principal address of the evening. Touching upon the wonderful record of all West Texas and the South Plains in general, the leader of "The City That Faith Built" advised young men to stay in this section where there are big things to be done. Before Mr. Kell took his place on the floor the audience rose to its feet at the mention of his name and deafening cheers greeted his appearance.

BATTERY C TO STAGE SHAM BATTLE

LUBBOCK PEOPLE INVITED TO SEE ARTILLERY SHOOT ON JOHNSTON RANCH THIS SUNDAY

Sham war-fare will be staged on the Johnston ranch, near Sunday in the annual firing event of Battery C, 131st Field Artillery, Lubbock National Guard, it was announced yesterday by Captain Harold H. Griffith, commander.

Arrangements have already been completed for the firing exhibition and the occasion is expected to offer entertainment and education to several hundred cars of Lubbock people. The firing will begin at 9 o'clock in the morning and will continue until 1 o'clock in the afternoon.

A miniature army camp will be established at the scene of the shooting, and a full wartime battery of four French 75 MM guns, manned by members of

the local unit, will do the firing. In addition, about 2,000 rounds of training gun ammunition will be fired at a designated range. Spectators will be stationed on top of the caprock with full view of the shooting in the canyon below.

Col. Charles A. Davis, commander of the 131st Field Artillery will attend the annual firing event here. Other army officials in attendance will include Major H. E. Carmichael and Captain Alpha Brummage.

This firing event was formerly scheduled for several weeks ago but was postponed until the next Sunday.

HATCHET MAN

lings' baby, sleeping in a crib nearby, was not harmed.

Mrs. Stribling walked with the abductor three miles before he said she could go. He walked in one direction, and she in another, until she met a patrolman. She told her story and she and her husband were taken to a hospital.

This attack followed the killing of Mrs. Waldo Resso and her sister, Creta Brown, early Monday morning in their home and the slaying of Joseph Blackman, a drayman, early Sunday.

Dragnet Spread Eighty policemen, in pairs, armed with shotguns drove over Omaha last night.

A squad of 200 American Legion men, national agents, federal and prohibition agents have volunteered their services. Rewards of \$1,000 have been offered for the slayer's arrest or information leading to his capture.

RECEPTION

Rix, program committee chairman, arranged for the dinner by W. W. Following the dinner, the visiting delegates will be brought back to the city. The Fort Worth Special will leave at 8:10, Dallas at 8:20, and Amarillo at 8:30 o'clock. With the arrival of the special

this afternoon the visitors will be accompanied by a local committee of twenty-five men, headed by Richard Douglas, who met the trains at Plainview and extended a welcome to this city. C. E. Maedgen, general arrangements chairman, said this morning that everything was in readiness for the reception of the visitors.

The Lubbock visit of the special will end the excursion over the new line, which commemorates the opening of daily train service tomorrow over the new extension.

METHODISTS

methods of a half century or more ago.

"The pulpit has not lost its force and the church still is a power to be reckoned with," the divine declared. The old-fashioned emotional revival of a quarter century ago is out of place in this day of new needs and demands, he emphasized. "The tenor of the message," the bishop said, "was to bring to the ministers a sense of their responsibility to the present age."

Rev. C. C. Wright New Secretary On nomination of Dr. J. W. Hunt, president of McMurry College, Rev. Carl C. Wright, pastor at Baird, was elected secretary, succeeding Dr. Hunt. On the nomination of the new secretary assistants were elected as follows: Dr. J. W. Hunt, Abilene; Rev. J. W. Watson, Quanah; Rev. W. B. Hicks, Muleshoe; M. B. Norwood, Avoca, was elected statistical secretary. Dr. J. W. Hunt was elected journal editor. Rev. A. L. Moore, presiding elder of the Elwell district and for sixteen years secretary of the conference, was present and asked to sit with the corps of secretaries.

George R. Bean, representing Mayor Harley Woods, and the First Methodist church, welcomed the ministers and laymen to Lubbock.

Nine-Tenths Preventable Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from

Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowels trouble.

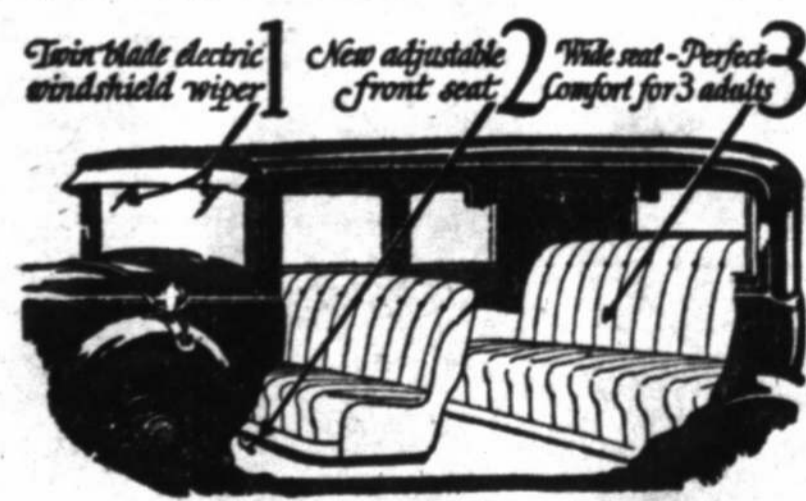

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physically wrecked. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of herbs, berries and roots—nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

Tanlac

Three wonderful new comfort-factors not combined in any other automobile.. all playing their part in the tremendous country-wide demand for the new Buick

In addition to its vivid new beauty—in addition to sensational performance—the Silver Anniversary Buick provides comfort and convenience not combined in any other automobile.

A new adjustable front seat—an electric windshield wiper with two wiping blades—seats affording plenty of room for three full-grown adults—all combine with countless other comfort factors to make the Silver Anniversary Buick the easiest car in the world to ride in and to drive.

The new Buick marks a new epoch—a new era—in all elements of style, comfort, performance.

LUBBOCK DAILY JOURNAL

VOL. 4, NO. 53

LUBBOCK, TEXAS, "THE HUB OF THE PLAINS" WEDNESDAY, NOVEMBER 21, 1928

(P) MEANS "BY ASSOCIATED PRESS"

Denver Line To Lubbock Opens Rich Trade Empire

New Railroad Means Direct Link To One of Fastest Developing Regions In Nation; Promises Better Service

South Plains Expansion Immeasurably Enhanced By Addition of Another Main Line Railroad

Lubbock, key city in the great potential agricultural kingdom of the United States, is also the most important wholesale distributing center in this part of West Texas. Its future as a shipping center is dependent upon favorable rail connections and the new Denver railroad makes a "Greater Lubbock" a certainty for the future.

Advent of the Denver into Lubbock gives connection with a rich agricultural and livestock territory and immeasurably widens Lubbock's possibilities as the hub of the South Plains. Direct rail connections with Breco, Floyd, Motley, Hall and other counties to the northeast, having a combined population of near 100,000 are afforded and favorable connections into Castro, Hale and other counties are made possible.

These counties have a tremendous buying power and Lubbock should be the logical trading center for most of them.

Gives Additional Outlet

A new railroad means direct everything to Lubbock. Although the city was already served by six direct outlets affording favorable connections with other parts of the virgin territory of which Lubbock is the center—there was one potentially wealthy part of the Plains which was virtually inaccessible for the city. This was that part lying northeast of Lubbock.

The new extension of the Denver gave Lubbock direct rail connections with dozens of towns which heretofore had been almost untouched by the trade interests of this section. It makes it possible for people in Becton, Petersburg, Quitaque, Lockney, Silverton, Sterley, Turkey, Tampico and scores of smaller intermediate points to come into Lubbock for their trading. It makes it possible for merchants in these towns to do their purchasing in Lubbock and take advantage of reductions in freight rates which will thus accrue to them.

Opens New Era of Expansion

The new railroad means service for towns heretofore without the stimulus of rail transportation. Many of the cities who have been touched by the Denver were heretofore from 15 to 45 miles from a railroad. Some were at even greater distance from this greatest of modern conveniences. To these cities the new road opens up an altogether new vista of development and expansion.

Lubbock business men generally are rejoicing over the advent of the new road. The town fought in a body for the I. C. C. sanction needed

See NEW RAILROAD, Page 10

Lubbock And South Plains Are Both Benefitted By Denver's New Service

Welcome To Our City

The people of Lubbock are heartily joined by the *Avalanche-Journal* papers in extending to the Fort Worth and Denver officials, and their train crews, a most hearty welcome to our city, and we also include in the extended hand the Methodist Conference with its hundreds of preachers from all over the Denver territory, and as many laymen, who are here to transact business for their church.

Welcome Folks!

Mayor and President of B. C. D. Sound City's Greetings

Howdy folks. Put 'er there! "Welcome to our city!" "The town's yours." "Glad to see you." "Come again."

The right hand of friendship is extended to every one of Lubbock's several hundred visitors today," declared Mayor Harley D. Woods. "The keys to the city have already been given. It cheers us to have so many representative business men from other great cities to see us on this great celebration of a marvelous achievement."

"The Hub of the Plains is glad today," said B. Sherrod, president of the Chamber of Commerce. "And rightly so. Coming of the Denver road stamps upon the nation the fact that the South Plains has arrived. As a growing empire, like a young giant, today it steps out of its swaddling clothes and does the work clothing of full-grown manhood."

Words can never express the true meaning of how much we welcome our visitors who have taken the trouble and expense of coming to see us. We hope the smiles of greeting on our countenances will convey a welcome and that the warm clasp of true friendship's handshake will tend to clinch it.

"Today's glad event is proof that the South Plains, by itself, can not accomplish a great deal. It is further proof that Dallas, Fort Worth, Wichita Falls, Amarillo, and all the other bustling cities of Texas, possess men who realize that they, of themselves, can do little.

"Therefore what makes Lubbock

Big Spring Seeks Athletic Stadium

(Special To The *Avalanche*)

BIG SPRING, Nov. 20.—A permanent athletic association has been organized in the Big Spring high school to sponsor athletics throughout the school. The main object of the association will be to obtain a permanent athletic field and stadium and to care for the equipment and maintenance of athletics.

The members of the association are Supt. W. C. Blankenship, faculty; Dr. W. B. Hardy, alumni; Lillah Wright, seniors; Mildred Patterson, juniors; Walter Deats, sophomore, and Lottie Harrell, freshman.

SAN ANGELO — Although the market on turkeys slumped 2 cents per pound Friday quoting them at 28 cents per pound, poultry buyers here predicted an even lower price for the Christmas market.

glad, also gladdens those other Texas cities. So, we welcome our visitors who come today to tell us they welcome Lubbock's and the South Plains' good fortune in acquiring another great rail service."

Bum Eye Betrays Hunted Bank Teller Is Arrested

ST. LOUIS, Nov. 20. (AP)—

The blind right eye of Frank Canning, absconding bank teller, betrayed him to police and caused his arrest here Saturday on a charge of embezzling \$51,000 from the First National Bank of Garfield, N. J.

Detective Arthur Egenreither recognized the face on a \$500 reward poster, as that of a man he had seen several days previously on a street corner. After watching the corner for several days he got his man. Canning had only 5 cents in his pockets when found.

Files Answer Suit

CHICAGO, Nov. 20. (AP)—Franklin S. Harding, 61, wealthy oil heater manufacturer, today filed answer to Miss Anne Livingston's \$250,000 breach-of-promise suit, charging she made the proposal of marriage to him.

General Manager Of Denver Lines

FRANK E. CLARITY

Vice-President and General Manager of the Fort Worth and Denver Lines, including the Ft. Worth and Denver South Plains Railway Co.

Chief among the visitors to the South Plains today is Frank E. Clarity, of Fort Worth. "The man behind the gun," in the Denver lines. Mr. Clarity is no stranger to this section of the country and has many friends here. He is a member of the Board of Regents of Texas Technological college.

Denver Depot To Be Completed By January The 1st

Although Only Partly Done, New Building Presents A Good Appearance Already; Cost Is \$75,000

Construction of the new \$75,000 depot of the Fort Worth and Denver South Plains Railway 206-mile extension which terminates here will not be completed until about the first of the year, according to the contractors.

The baggage and express department of the depot in the southwest corner of the building is to be converted into a temporary waiting room until the remainder of the building is completed. Seats and a heating system are being placed in the quarters.

Presents Good Appearance

Located on 18th street, between Avenues F and G, the building, even in its semi-completed condition, presents one of the nicest appearances of any in the city.

James Valentine, passenger and freight agent, who is to be stationed here, is in the city and is ready for the opening of service over the new line tomorrow.

Specifications of the structure were arranged to meet the needs of Lubbock for many years to come, officials of the railway company basing this action upon a firm belief in the future development of this city and section.

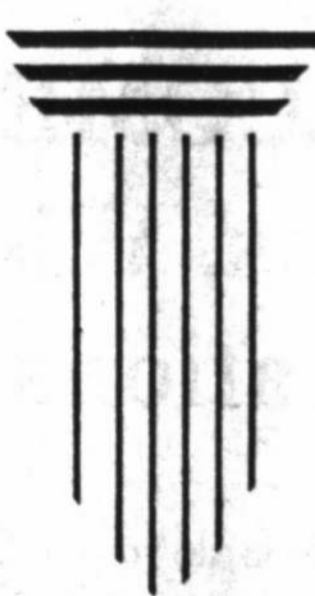

COLORADO, Nov. 20. (AP)—Contract has been awarded by the Colorado Country Club for a dam across Lone Wolf creek which is expected to impound water for a lake more than one mile long. The dam, to be 15 feet high and 108 feet in length, is to cost about \$9,400.

Insurgent Chiefs Shot

MEXICO CITY, Nov. 20. (AP)—A universal dispatch from Guadalajara today said that the insurgent chiefs Antonio Ramirez and Cesar Franca were captured in a battle near Arandas, state of Jalisco, and executed by a firing squad.

Another Spoke Is Added

With the Arrival of the First Denver Train

Movement for State-wide Road Bond Issues Is Spreading, R. S. Sterling, Texas Highway Commissioner, Says

Road Leader Continues His Work for State-Wide Issue for Highways; Cites Recent Action of States

(Special to Avalanche)

HOUSTON, Nov. 20.—Omens of success for his proposal of a \$350,000,000 state road bond issue, to be spent over a period of 10 years, are seen by R. S. Sterling, chairman of the state highway commission, in the passage of similar bond issues by four other states in the November 6 general election.

The people of Iowa, by popular vote, authorized the issuance of \$100,000,000 of bonds to complete their state road system. Missouri voted a \$75,000,000 highway bond issue, its third since 1916. Pennsylvania voted \$50,000,000 and Louisiana \$50,000,000.

"Most of the progressive states," declares Mr. Sterling, "are adopting the 'pay as you ride' plan, via the state bond issue route, as the best possible method of getting their roads paved quickly. Texas, too, must come to it, if she is to take full advantage of her opportunities."

As indication of the growing popularity of state bond issues, as a means of financing state highway building, Mr. Sterling has pointed out that 24 states had passed bond issues for that purpose, prior to the recent presidential election. Last year eight states adopted them, and Georgia, West Virginia and others are planning to "pay as they ride."

With the national campaign out of the way, the decks are cleared for consideration of Texas highway development, which will be the most important issue before the state legislature early next year.

Selection of Governor Moody's citizens committee, one member by the lawmakers of each senatorial district, has been completed. The committee will be convened soon to work out or adopt a program and a policy of state road financing, for recommendation to the legislature.

Among the various solutions of the highway problem that have been proposed, Mr. Sterling has attracted the most widespread attention. Program Explained. Mr. Sterling has suggested a 10-year program of construction, to be financed by a state road bond issue of \$350,000,000, secured by the gasoline tax, with refund of money paid by counties for state road construction. The refunds to be used by the counties for building lateral roads. The bond issue would be sold and the money spent in annual installments as required.

Under this program, the highway

GOP Spends Nearly \$60,000 In Texas

DALLAS, Nov. 20. (AP)—The republican campaign in Texas cost \$59,835.68, an average of a little more than 16 cents for each ballot cast for Herbert Hoover, Leonard Withington, state director of republication organization, said in an expense report filed with County Judge Alexander of Dallas and Shannon of Fort Worth.

Total contributions, less bad checks and advances, were \$60,790.24, the report showed, leaving a balance of \$64.56, which sum Withington estimated would be required for payment of telegraph and telephone bills.

High-heeled gray suede shoes, at-

ter the style of Louis XIV, are recommended for modern business men by a French actor.

OFFICIALS INDICTED

Herrin Mayor Is One Said To Have Protected Thugs

EAST ST. LOUIS, Ill., Nov. 20. (AP)—Mayor Marshall McCormick of Herrin, Ill., his chief of police, John Stamm; Water Superintendent Myrker, and the mayor's brother, Elmer McCormick, were indicted today by the Federal Grand Jury on charges of conspiracy to violate the National prohibition act.

Ralph Leseeman, assistant U. S. attorney charged the four collected "regularly from Williamson county bootleggers, the sums running into thousands of dollars.

Galveston-Bolivar Ferry Has Charter

AUSTIN, Nov. 20. (AP)—The Galveston-Bolivar Ferry corporation of Port Arthur, capitalized at \$100,000 to establish a ferry line from Galveston to Fort Bolivar was chartered today by the secretary of state, R. L. Murray, of Port Arthur, counsel for the concern, said the ferry will shorten the traffic distance between Galveston, Port Arthur and Beaumont approximately 20 miles. Incorporators are L. L. Abshire, A. T. Edgington and A. L. Burge, of Port Arthur.

The total quantity of cured (pickled) herring exported from Scotland in a recent month amounted to 198,401 barrels.

FOR TEMPERANCE

WCTU In General Session In Boston, Hears Report

BOSTON, Nov. 20. (AP)—Miss Charl Ormond Williams, field secretary of the legislative division of the National Education association speaking at the fifty-fourth annual convention of the National Woman's Christian Temperance union tonight, said that while there is some disagreement among scientists as to the effects of alcohol, "the evidence on all sides has been overwhelmingly in favor of temperance education."

At a recent gathering of the employees of the Duke of Portland at Wellbeck Abbey, there were 60 persons with 40 or more years' service to their credit.

Shooting's Cause Is Liquor, Claim

BROWNWOOD, Nov. 20. (AP)—Belief that Clyde Manser had given liquor to his son caused Mayor Palmer C. McInnis of Brownwood to shoot Manser through the chest when they met on the highway here last Sunday. It was said in testimony by Mrs. Manser, wife of the injured man at an opening trial yesterday.

Mrs. Manser declared that she had seen her husband several times with his fist, club, pistol and fired once.

Frank Wood, police officer, told this could not be done without a search warrant. McInnis left in anger, Wood declared. McInnis was released under \$2,500 bond. Manser's condition is not serious.

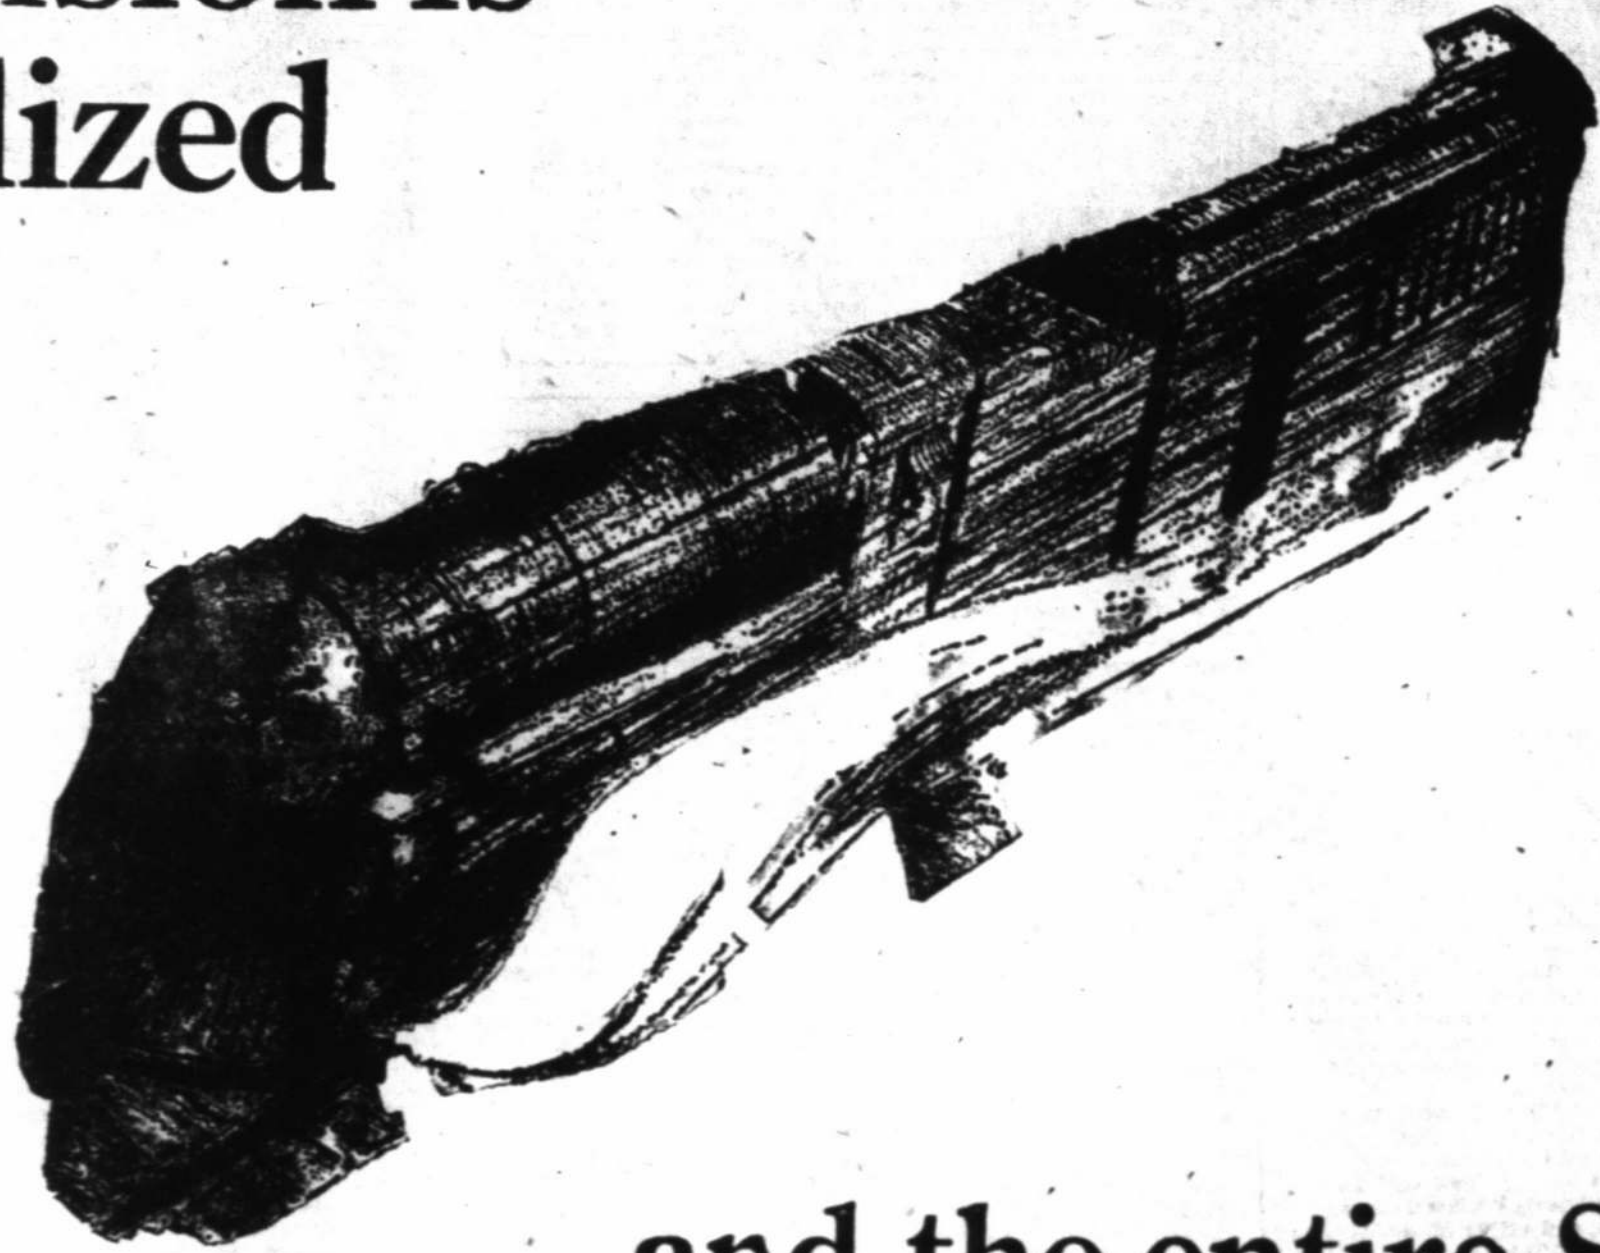

GAS WASTE IS CHARGED

AUSTIN, Nov. 20. (AP)—Alleged waste of casinghead gas in the Nocona oil section will be investigated by R. D. Parker, chief of the state railroad commission's oil and gas division.

He will leave tonight for Wichita Falls for a hearing on the Nocona oil company's application for a permit to reapply pressure on some of its production, and while on the trip, will inspect the Nocona section.

A great number of meteorites bombard the earth each day, but they seldom fall within range of civilization.

A vision is realized

and the entire South Plains is benefited

Many of those who worked and pioneered in this vast Empire that is West Texas, dreamed of the day when the communities that make it up might be brought closer through an adequate network of railway systems.

Today it is a reality—and distances that once took whole days to cover, are now reached in just a few hours. Its benefits are many for all who live in this territory, and passenger and freight transportation facilities are greatly enhanced by the addition of the service in stilled by the Fort Worth & Denver together with that already available.

It is another mark of progress—another step forward in the development of this vast Empire, and exhibits too, the attention that far-sighted business men are directing toward this most promising section.

WELCOME

Ft. Worth, Dallas, Wichita Falls delegations

This institution joins in the welcome to you on the occasion of your visit to Lubbock today. The hearty spirit of cooperation it exhibits in this important celebration of an important event is ample evidence of contact between these communities that will result in more rapid development—through which all will benefit.

Rail Officials Visit Floydada

Frisco High Officers Pay First Visit to South Plains Section; Feted By Floydada C. of C.

(Special To The Avalanche-Journal) FLOYDADA, Nov. 20.—Making their first visit to the South Plains of Texas and expressing themselves as especially well pleased with the growth and development of this territory, the president, vice-president and Board of Directors of the Frisco Railroad System were visitors in Floydada last Thursday evening as the special guests of Charles H. Sommer, president and A. F. Sommer, vice-president and general manager of the Quanah, Acme & Pacific Railroad, which recently completed their extension into this city. The visitors arrived in a special through train from Tulsa, Oklahoma and made the visit to Floydada upon the special invitation of the president of the Quanah road, which is a subsidiary of the Frisco System. The officials had been on an inspection tour of their properties in Oklahoma.

Those Present Aboard the special were the following: E. N. Brown, Chairman of the Board, New York City; J. M. Kurn, President of the Frisco System, St. Louis, Mo.; C. W. Michel, Vice-president, New York City; Geo. C. Fraser, of Fraser, Speer & Mver, Lawyers, New York City; Jesse Wirschman, retired capitalist, New York City; Henry Ruhliender, retired capitalist, New York City; Grant R. McCullough, President First National Bank, Tulsa, Okla.; Theo G. Smith, vice-president, Central Union Trust Co., New York City; H. P. Wright, Investment Securities Company, Kansas City, Mo.; James Speyer, of Speyer & Co., New York City.

In addition there was J. C. Ray, representative of Seligman & Co. of New York City and the following officers: F. H. Hamilton, vice-president, secretary and treasurer, St. Louis, Mo.; J. R. Kootz, vice-president, St. Louis, Mo.; J. E. Hutchinson, C. P., St. Louis, Mo.; H. L. Worman, Supt. Motive Power, Springfield, Mo.; F. H. Shaffer, general manager, Springfield, Mo.

Obregon Slayer, Nun, On Stand

The climax of Mexico's most sensational murder trial has been reached with the appearance in court at San Jose of Leon Toral, young artist, and confessed slayer of President-elect Obregon, together with Mother Superior Maria Concepcion, who has been charged with being the "intellectual author" of the crime. Above shows Toral and the mother superior in the courtroom during the trial. Below, Toral is snapped speaking before the radio at the trial. The broadcasting has been discontinued since this photo was taken.

Romance of Fifty Years Shattered By Car Accident

ATLANTA, Ga., Nov. 20. (AP)—A college romance that culminated in marriage fifty years later ended in tragedy here when a 70-year-old bride of less than two weeks died of injuries received in an automobile wreck of her honeymoon. The death of Mrs. Charles

H. Haines, wife of Dr. Charles H. Haines, retired Methodist minister of College Station, Texas, in a local hospital was announced Sunday. Injured in Car Crash Mrs. Haines and her husband, L. S. Smith and Mrs. Smith of Frankfort, Ind., who were en route to Orlando, Fla. for the winter, were injured Monday near Jonesboro, Ga., when another car crashed into their machine. All except Mrs. Haines received only minor injuries. Mrs. Haines, who was the former Allie K. Beale of Frankfort, Ind., and Dr. Haines met when the two were students at old Asbury university, now De Pauw university, Greencastle, Ind., in 1877. Recently the friendship was renewed and on Nov. 2 they were married. BIG SPRING.—M. H. O'Brian of Martin County nets \$50.00 per month for milk sold the Snowwhite Creamery at Big Spring.

TO RUN FOR GOVERNOR B. H. McKinnon, Will Be Candidate DALLAS, Nov. 20. (AP)—Special dispatch to the News—Edom, Van Zandt county, tonight B. H. McKinnon, Edom banker and stockman, planned to run for the governorship of Texas, 1930. The dispatch said McKinnon, an ardent supporter of Gov. Al Smith, announced today that it is his "intention" to make the

the candidate of "Piney woods of East Texas." ORDER REARGUMENT WASHINGTON, Nov. 20 (AP)—The Supreme Court today ordered for a reargument on next January 14, the case involving the rate of fare on New York city's elevated and subway services. CURVED LOUNGE A black cashmere coat has a curved, flat flounce of leopard slanting from a low position in the rear to almost waistline in front.

Yesterday

When the Great South Plains of Texas was in its "toddling" clothes, this Bank was pioneering. A belief that it had potentials of a vast empire—the dream is realized.

To-day

As the smoke pours from the first "Iron Horse" of a new transportation artery, we are proud that we pioneered this belief—proud of the part we have played in its development—happy that we saw meandering cow paths turn to glistening rails of steel.

Five Train-Loads of Boosts Are Helping Lubbock and South Plains Commemorate Coming of New Line

Chamber of Commerce Urges Lubbock Citizens To Be "On The Job" With Lots of Hospitality

"Why are they coming?" The question was put to the Chamber of Commerce Monday afternoon, regarding the reason for the arrival here Wednesday afternoon of the five special trains and their more than 800 visitors, over the new Denver South Plains railway line.

"They are coming to commemorate the building of the Denver road to the South Plains," the organization reported, "in celebration of the completion of the longest single piece of railroad construction in all of the United States since the world war, 202 miles in length."

"This visit of so many special trains on this newest of railroads marks the successful termination of years of fighting on the part of South Plains towns and cities to secure competitive rail service, to the east and to serve many towns that have heretofore not had any rail connection whatsoever."

"Gives More Connections" The South Plains will be placed much closer touch with points to the east, north and south, from which a great deal of manufactured products, wholesale products and all will come, and to which a great deal of raw products from the millions of acres of South Plains farms will go to market.

Visitors on these five special trains will include big officials from the Denver and Burlington systems, as well as the biggest business men, bankers, wholesalers and retailers from the biggest cities in the largest state in the union. Heads of big business concerns are coming, some of whom have never seen the South Plains country. It will be a treat to them to look upon this empire which plains people have built and to look also upon the unlimited possibilities yet to be developed.

"Big Smiles Needed" Lubbock citizens should put on their broadest smiles, their heartiest welcoming hands, their warmest turn out en masse Wednesday, to make these big men welcome," said B. Sherrod, president of the Chamber of Commerce.

"The spirit of opportunity to have a better this gathering show itself than in any other Wednesday afternoon."

It stands to reason that if it were not for this big thing, these big men would not be coming here on these special trains. It will undoubtedly

SALES SALLIES

It's the old flame that puts an end to many a match.

be the greatest gathering of boosters ever to assemble in Lubbock. And the biggest need, it is believed, is for 150 Lubbock automobiles, chauffeured by Lubbock's leading citizens, to be present to show the visitors the city.

Cost More than \$8,000,000 Cost of this 202 mile stretch of railroad is more than \$8,000,000. Surely the Denver officials have a great faith in the South Plains, or else they would never have invested that amount in this railroad.

The specials will be from Dallas, Fort Worth, Wichita Falls and Amarillo, and one of railroad officials of both the Denver line and the great Burlington railroad system, of which it is a part.

A telegram just received by the Chamber of Commerce from Albert L. Reed, the traffic attorney of Dallas, who represented the South Plains interests in the hearing at Plainview before the Denver's right to build this line, is self-explanatory. It reads: "Find at last minute I can not make trip for celebration of entry of the Ft. W. & D. It is a great disappointment to me to not be with you on this memorable occasion. However, I want you to know that I am with you in spirit and believe the new railroad, bringing competitive service to the Panhandle country, will give added impetus

Amarillo Youths Held for Thefts

AMARILLO, Nov. 20. (AP)—Nine school boys, from 13 to 18 years of age were arrested today in connection with the disappearance of 18 motor cars here within the last month. The boys were charged, in juvenile court, with auto theft, and released to their parents for appearance Friday. Police said the youths were members of a gang which took cars for joy rides and abandoned them later. Charges were filed against Jack Myer, Eugene Slaton, Terrell Leonard, Billy Hurt, Stump Ashby, Hampton Hurt, Anthony Smyers, Lafayette Bailey and Alfred Betty.

AUSTIN — Calls for primary teachers, manual training teachers and college instructors have been unusually large in number at the office of the Teachers Appointment Committee of the University of Texas according to Miss Miriam Doster, secretary.

AUSTIN—With a record enrollment of 136, classes in typewriting at the University of Texas are making rapid progress, according to Miss Florence Stulken, adjunct professor of business administration who is in charge of the classes.

BIG SPRING—January 29th and 30th have been set as dates for Foultry school and show by the agricultural committee of the Big Spring chamber of commerce.

Containing gems of very high quality, a precious-stone mine has been discovered in the grounds of a residence near Sauternes, France.

to the already marvelous development of your section. I extend you every good wish for a successful celebration."

Brownwood Coach Has Good Record

Joe Bailey Cheaney, Howard Payne Mentor, Has Made Impressive Showing With Jackets

(Special To The Avalanche) BROWNWOOD, Nov. 20. — Joe Bailey Cheaney, former star grid assistant coach under Dad Amis, is serving his first year as head mentor of the Howard Payne Yellow Jackets and if the results of the first seven games played by the Jackets can be taken as true indicators, it can be truthfully said Cheaney has made a decided suc-

cess. And if the Jackets go through their remaining four games with equal success, Cheaney will have accomplished a feat that his predecessors have failed in, that of winning the Texas Conference football championship. While playing with the Yellow Jackets, Cheaney gained a statewide reputation as being one of the best backfield men and ball carriers in Texas. His sensational runs of from 50 to 90 or more yards for touchdowns stamped him as one of the game's greatest men. In addition to this, Cheaney was an excellent passer and a fair punter and his defensive play was equal to his stellar work on the offense. In England one-seventh of the divorces take place after five years of marriage.

ANOTHER MARK OF PROGRESS

Welcome to Lubbock, the Hub of the Plains, Your visit on the occasion of the opening of the South Plains extension of the Fort Worth and Denver City Railroad is a concrete expression of your interest in the development of this section—an expression of your good-will and cooperation. We are glad to have you as our guests, and know that you will enjoy every moment of your visit with us.

Lubbock's future as well as that of the South Plains and West Texas, is assured because of the location, climate, and soil. These added transportation facilities aid in making that prosperity more secure, and we extend our congratulations to the officials of the Fort Worth and Denver City Railroad on their South Plains Extension.

Memorable Train Parade Is Being Staged Over Line

Leading Professional And Business Men of State Are Represented In Delegation On Way Here

Good will ambassadors from the six Texas cities principally affected by the entrance of the Fort Worth and Denver City railway into the South Plains today will stage a memorable train parade over the newly constructed 204-mile track—the greatest railway construction project in the United States since the World War.

The leading business and professional men of the entire southwest will be represented in the specials from Dallas, Fort Worth, Wichita Falls, Amarillo, Childress and Memphis. These delegations will be met at Plainview today by representatives of Lubbock who will accompany the hundreds of visitors into this city.

Jobbers, Wholesalers Coming
Jobbers and wholesalers comprise the majority of the delegates on the special trains, although virtually all types of business are represented. Many of the visitors will see the vast virgin territory of the South Plains for the first time.

The Fort Worth special left that city Monday night for Childress. The delegation contained 108 business men and thirty-three members of the Texas Christian University band. The special is headed by

Charles G. Cotten, manager of the trade extension department, and Jack H. Holt, manager of the Fort Worth association of commerce. The seventh train of the rail caravan to visit this section will be the official train of the railway, containing the officials of the company, Frank E. Clarity, vice-president and general manager of the F. W. and D. C. railway, will head the special.

146 From Amarillo
Amarillo's special is sponsored by the Jobbers and Manufacturers of that city and is under the direction of H. E. Westmorland, John Cowan, and W. N. Noland, special committee of the organization. The special contains 108 business men of Amarillo and thirty-five members of the high school band.

The Memphis special is made up of delegates from that city, Clarendon, Estelline, Hedley, and other near-by towns. The chamber of Commerce of that city asked for a six car special and stated that it would contain about 400 delegates. The Memphis and Childress specials will return home in one day.

The Dallas and Wichita Falls specials each contain more than 125 delegates, the minimum number required to charter a special train. These specials were sponsored by the Chamber of Commerce organizations in each city.

While trying to torture a frog by means of a high tension circuit, a Bayeux, France, laborer recently electrocuted himself.

ALPINE—Dr. J. E. Wright, president of the Highland Poultry Show association, has announced December 18 and 19, as the date of the third annual poultry show.

Official Returns Give McClosky Win

County Judge Gets 809 Vote Majority Over Wurzbach In Congressional Race; Wurzbach Is Ill

(By Associated Press)
SAN ANTONIO, Nov. 20.—On the face of official returns canvassed by the Bexar county commissioners' court, County Judge Augustus J. McClosky today was declared elected congressman from the fourteenth district over the republican incumbent Harry M. Wurzbach by a majority of 309 votes.

Congressman Wurzbach today was reported near a nervous breakdown and resting near his home at Seguin.

Wurzbach in a brief submitted to the court, alleged that erasures had been found on tally sheets which the court checked, that some of the envelopes containing the returns had been open when they were given to the court and that in some boxes more votes had been counted than there were qualified voters in the precincts.

GREENVILLE MAN DIES

Aged Dentist Found Dead In Home; Dead 60 Hours

GREENVILLE, Nov. 20. (P)—Dr. Sam G. Duff, 64, former president of the Texas Dental association, was found dead in his home here today by neighbors who had missed him for the past two days. A coroner's verdict was that he had been dead for probably 60 hours and that death was due to natural causes.

AUSTIN—Extension of the work of the Bureau of Industrial Engineering of the University of Texas to include free engineering advice in water supply problems for any city or municipality in Texas has been announced by Dr. E. P. Schoch, director of the Bureau.

It is estimated that more than 11,000,000,000 bottles of soft drinks and non-alcoholic beverages are consumed in the United States each year.

The commercial apple crop of Canada this year is estimated at 3,157,360 barrels, the largest in any year since 1923.

A Tribute to Another Public Servant

The New Ft. Worth and Denver Railroad

As the final nut of this \$7,000,000 investment is tightened, as the echo of the staccato tattoo of hammers gives way to the rumble of seven special trains coming to christen the ribbons of steel that constitute an added spoke to the Hub of the Plains, we pause—another Public Servant—to bid you WELCOME. The Hub of the Plains is proud of your achievement.

You are also a spoke in another wheel that means much in the development of any section — the Public Utilities Wheel. Each compliment the efforts of the other. Each meet at the Hub of this wheel for a common cause, happiness, prosperity and service.

It is faith that has given us the ultimate achievement. Faith, that has covered the Western country with cities. Faith, that is giving us greater skylines. Faith, that will make the Hub of the Plains a live, bustling metropolitan city of 100,000. And again, if we may quote the other Public Servants, we say that as one we stand united to ever foster prosperity and happiness in the South Plains of Texas.

A Hearty Welcome

To the visitors from the nearby towns who are accompanying the Rail Road officials on the initial run of this new West Texas transportation artery!

TEXAS UTILITIES CO.

Serving The Great South Plains Of Texas

The History Of Bringing The Fort Worth & Denver Into Lubbock

Arrival of the five special trains today and the inauguration of regular service tomorrow over the new South Plains extension of the Fort Worth and Denver City Railway marks the terminus of a three and a half year fight for the 265-mile track, serving a vast section of the South Plains heretofore untouched by rail and giving the entire section a new through route to Dallas and Fort Worth.

Starting at Estelline, this new extension reaches Sterley Junction, formerly a mere speck on the Plains just above the Caprock, with a single line of track, then branches into three distinct routes, one extending northeast to Silverton, another north through Plainview to Dimmitt in Castro county, and the third terminating at Lubbock.

Taps Fertile Section
Silverton, Turkey, Quitaque, Dimmitt, Petersburg, Becton and a number of small places previously served by no railway, the only line through this area being the extension of the Santa Fe from Plainview to Floydada which connects with the recently completed extension of the Quannah, Acme and Pacific line from McBain to Floydada.

Movement to secure this Denver line began March 6, 1925, with the granting of a charter to the Fort Worth and Denver South Plains Railway company. Application to place the proposed South Plains extension was made April 7 of that

same year. Upon the contest of the Santa Fe and other railways a hearing before the Interstate Commerce commission was set for July 29 at Plainview. Representatives of the Railway commission of the State of Texas sat in at the hearing.

Before the date of the hearing, Frank E. Clarity, vice-president and general manager of the Denver lines, negotiated with the Lubbock Chamber of Commerce and a number of Lubbock citizens in the interest of bringing the proposed line to Lubbock. A contract to this effect was entered into on May 15, by Mr. Clarity and one hundred Lubbock citizens who guaranteed right-of-way through the county and terminal facilities.

Application Is Granted
Four months following the hearing at Plainview, C. E. Boles, Interstate Commerce commission examiner, recommended a decision granting the application of the Denver lines, with the requirement that construction of the line be completed within eighteen months. Construction of the line began shortly afterwards and was completed within the required time, reaching Lubbock in May, 1928, meeting the requirements of both the commission and the city of Lubbock.

Headed by O. L. Slaton, the railway committee of the Lubbock Chamber of Commerce was largely responsible for bringing the extension to this city. The committee included Sam C. Arnett, C. E.

Madgen, J. O. Jones and R. W. Blair. After the project was underwritten by local citizens an intensive campaign was launched in which \$175,000 was raised by subscription. This was held until the permit for the road was granted and was used as needed. The right-of-way committee consisted of Roger Q. Pierce and P. H. Sammons in the city of Lubbock and Dr. I. E. Barr and Ed Green in the remainder of the county. Much of the right-of-way land was donated by the owners and the other was purchased by the subscription money.

Construction of the Lubbock depot of the new Denver line began the latter part of the summer and is nearing completion at this time. With the opening of over-night service to Dallas and Fort Worth next Thursday, the South Plains of Texas, with Lubbock as its center, will be afforded not only a new direct route to Central Texas points but connection with the main Denver line which extends northward to Denver City.

SCURRY COUNTY LEADS

Schools Are Ahead In New Students for Year

(Special To Avalanche)
SNYDER, Nov. 20.—The state department of education in announcing the gains and losses made in the recent school census shows that Scurry county leads in this section of West Texas with a gain of 342 scholars over last year.

Dawson county gains 105, while Fisher county shows a loss of 14. Mitchell county gains ten, Nolan 110, Garza 63, while Kent county shows a loss of 63 students.

All rural schools in Scurry county are now under way, according to County Supt. A. A. Bullock.

VOTE PROBE TO START

Houston Attorney of Act As Counsel In Hidalgo

HOUSTON, Nov. 20. (AP)—George G. Clough, Houston attorney, said today he had been retained as counsel for the Citizens-Republican party of Hidalgo county in an investigation of alleged election irregularities there by a congressional committee, enroute from Washington.

Mr. Clough said the investigators were expected to arrive here Saturday night or Sunday. The attorney said he understood several hearings would be conducted here before the committee went to the valley.

HOWARD HAS 9,102

1928 Crop Expected To Run Near 20,000 Bales

BIG SPRING, Nov. 20.—According to Public Weigher Ory, 9,102 bales of cotton has been weighed so far this year. 300 round bales have been received in addition to the 9,102 square bales. The 1928 crop will average approximately 20,000 bales.

A recent census shows more than 28,000 motorcycles in Great Britain.

As a Student, She Shines

Miss Louise N. Lyon of Glenwood, Ia., shines as a student at the University of Wisconsin—for that's the way she's earning her way through school. Dressed in man's garb, she works as shoe shiner, porter and general handy man at a Madison (Wis.) barber shop.

Pioneer Educator Claimed by Death

FREDERICK, Md., Nov. 20. (AP)—Milton Wylie Humphreys, said to be the last surviving member of the original faculties of University of Texas, Vanderbilt university and Washington and Lee university and for 25 years professor of Greek at University of Virginia, died today at the University of Virginia hospital in Charlottesville, Va., he was 84.

REPORT IS EXPECTED

Federal Grand Jury To Give Decision On Robbery

FORT WORTH, Nov. 20. (AP)—Report of the federal grand jury in Wichita Falls investigating mail robbery charges against three Fort Worth residents is expected Wednesday or Thursday. Forrest Cutcheon, assistant United States district attorney, announced today on his return from Wichita Falls where he laid the case before prosecutors there.

A scientist says insects have been on the earth for 50,000,000 years, while the human race is only 500,000 years old.

To see a bull licking his hoofs is said to indicate rain.

DAN ELUDE QUESTIONS

GOVERNOR IS SILENT ON PRISON BOARD MEMBER
AUSTIN, Nov. 20.—Governor Moody today eluded questions as to whether A. H. Chan of Wichita Falls had offered his resignation as a member of the state prison board, with the answer that Mr. Carrigan is still a member. Beyond that, the governor had nothing to say, he declared.

When Jean Lois came, ship's carpenter of the U. S. ship West Cusseta, recently visited Calcutta with the ship, he recognized his ability as a carver, and paid him high praise. Artists and press representatives called on him and praised his work. Among the works shown were a panel "Pleasures of Tantalus," composed of 33,000 pieces of colored woods, elicited greatest interest while D'Esque's ship was at Calcutta a large block of flesh-colored wood was delivered to him. For this he will carve a three-quarter size nude, entitled "The Cave."

The second reported instance of a meteorite hitting a human came from Japan where a tiny piece of celestial origin scared the neck of a three-year-old baby girl playing near Tokio.

Wrestling Match Between Edison And Wanamaker Is Related Doctor

Late Millionaire's Physician Related Unusual Scuffle Between Aged Geniuses Over Snag of "Dickey" Tie, In Trial for Recovery of Federal Taxes

(The Associated Press)
 PHILADELPHIA, Nov. 20.—The story of a wrestling match between Thomas A. Edison and the late John Wanamaker was told here today at a hearing of the government's claim for an estate tax of \$10,000,000 of the Wanamaker estate.

Dr. William Z. Quicksall, for some years Mr. Wanamaker's physician told the story. He said he had gone to St. Petersburg, Fla., in 1919 to care for Mr. Wanamaker.

Were Close Friends
 "Mr. Edison also was at St. Petersburg," Dr. Quicksall said during his testimony as to Wanamaker's health, "and he and Mr. Wanamaker were close friends."

"I recall one day when Mr. Wanamaker approached Mr. Edison and snatched back one of those patent 'Dickeys' ties that Mr. Edison was wearing. The elastic broke and the tie fell off."

"The men clinched and wrestled furiously despite their ages. Mr. Edison finally got Mr. Wanamaker's head in 'chancery' and rubbed his head hard with his knuckle. They reminded me of two boys a play. When Mr. Edison released Mr. Wanamaker they were both smiling and seemingly enjoyed the scuffle."

Was of Unusual Vigor
 Dr. Quicksall's testimony as to Wanamaker's physical condition in 1920, when he turned over the stock of his department store to his son, Rodan, indicated him to be a man of unusual vigor. The government says Mr. Wanamaker gave his son \$40,000,000 worth of stock two years before his death "in contemplation of his death," and that it is taxable. Wanamaker heirs claim the gift is not subject to tax.

Children Killed In Fall From Skyscraper Home

While Mrs. Hazel Waldman of New York City was visiting at a friend's home on the roof of a New York skyscraper, her two children, Benjamin and Terrence, were killed in a fall to the roof of another building, far below. Mrs. Waldman says that while she was holding the baby, the other child, in playing knocked the infant from her arms and both children fell from the roof. Mrs. Waldman, the two children and the father, Milton Waldman, newspaper man, are pictured above.

Resent Inquiry British Indignant Over Vestris

LONDON, Nov. 20.—The conduct of the inquiry in New York into the sinking of the Vestris drew indignant comment from two of this morning's papers.

The Daily News characterized the procedure as "bullying, biased, ignorant and inconceivably stupid, suggesting a pre-conceived resolve to vilify British seamanship at all costs and despite all proof to the contrary." The paper added that the methods had aroused deep indignation in Great Britain.

The Daily Express said "bitter methods of treating unfortunate witnesses as if they were criminals conspiring to deceive cause the greatest resentment in this country."

Has Good Supply Brewster Marble Is Drawing Attention

(Special To The Avalanche)
 ALPINE, Nov. 20.—Brewster county marble is attracting attention in Chicago and other large cities of the United States. This week the Chamber of Commerce here received a letter from a Chicago banker requesting samples of the Alpine marble, stating that they contemplated using the marble in the marble work of their new bank building. The marble deposits here are of the very finest quality and in almost any shade or color imagined. One only has to choose the color of his marble palace. If a solid marble palace is wanted, for there is a sufficient quantity for a palace for every man, woman and child in Brewster county, and then there will be enough left for the rest of Texas.

BRIGGS IS SUED Divorce Against Famed Cartoonist Is Asked

WHITE PLAINS, N. Y., Nov. 20.—Sued for divorce against Clare Briggs, cartoonist, has been filed by Ruth Owen Briggs, it was disclosed today.

It was learned they have been living apart under a separation agreement for two years.

A great number of meteorites bombard the earth each day, but they seldom fall within range of civilization.

Citizens Warned of Heater Vents

All Lubbock citizens who are owners of hot water heaters should make a close investigation to see whether or not their vent pipes extend beyond the roofs of their homes, as there are about 50 water heaters so installed in the city that a dangerous fire hazard exists, according to Fire Chief W. E. Twitty.

One fire has already resulted from the fact that vent pipes of a water heater did not extend through the roof of one home.

"Everybody who has such hazardous pipes should either have them fixed immediately or prepare to take out a lot more insurance," said Chief Twitty.

McClung Citizens Plan Improvement

At a largely attended meeting held at the McClung school house Monday night, representative citizens of that community discussed plans for creating an independent school district and started circulation of four petitions calling upon the county board of education to create such a district, according to County Superintendent W. M. Pevhouse.

As soon as the petitions have been circulated throughout the community, they will be presented to the county board.

At Monday night's meeting it was also suggested that \$5,000 in bonds be voted for building a community auditorium, which, received unanimous consideration although no action was taken on it.

The McClung school is housed in a four-room brick building, erected three years ago at a cost of \$10,000.

South Africa is an important consumer of burlap and cotton bags.

TEXAS BULL IS WINNER
 KANSAS CITY, Nov. 20.—Anoka White Frost, shorthorn bull owned by the Singleton Farms, Midlothian, Texas, was awarded the senior and grand championships in the shorthorn class at the American Royal Livestock show, here today.

The total quantity of cured (pickled) herring exported from Scotland in a recent month amounted to 198,401 barrels.

Greetings To—
 The new Fort Worth & Denver R. R. we sincerely congratulate you on this commercial achievement.

LEARN TO CLOG
 Advanced classes in Physical Education are learning the art of clogging according to the teacher, Miss Gail Riegel. Under classes in are dancing folk dances. Anyone who wishes to see the girl at work it is invited to visit the classes at any time.

Convocation Friday
 According to announcements posted there is to be a general convocation Friday November 23 at 10 o'clock in the gym. The convocation is called by President Henson and important business is to be done before the student body at this time.

To Play Soccer
 The soccer field has been laid off and the boys are to begin playing this week. The field is next to the tennis courts near the cafeteria. Any girl in college who wishes to go for field soccer is invited to go. The game will be played Monday, Wednesday and Friday afternoons at 3 o'clock.

There is also announced the beginning of a tennis tournament for girls. Miss Riegel is to post a paper in the Administration building and girls will sign up for tryouts.

FISH WILL FROLIC
 The Freshman are to have a party all their own on December 6, at 6 o'clock. Dancing, acts, confetti, stunts, music, are to be in evidence and a good time is assured all attending. Only Freshman are invited and a fee of fifteen cents is to be charged.

RELIGIOUS BELIEFS LISTED
 Methodist and Baptists are in the greatest majority among students of Technological college, a compilation of the religious affiliation of students for the fall term reveals.

several faiths have only one representative in the school, one of these being the Buddhist.

Leading the list are the Methodists with 671. Baptist follow with 23 and the numbers then drop to the Presbyterians with 151. Other churches have students in the following order:

Assembly of God 1; Buddhist 1; Catholic 6; Christian 130; Christian Science 3; Church of Christ 112; Congregational 2; Cumberland Presbyterian 5; Episcopal 24; Free Baptist 1; I. B. S. A. 1; Jewish 2; Latter Day Saints 1; Lutheran 10; Nazarene 2; P. E. 1; Primitive Baptist 2; No preference 98.

The new German Hygiene Museum, the first monumental structure to be erected in Dresden, Germany, since the World War, has just been opened. Germans consider the large block of buildings a masterpiece of practical as well as dignified architecture. The Hygiene Academy occupies two wings, and the remaining part of the building is devoted to the hygiene museum. The famous hall entitled "Man," with the marvel of the "Transparent Man" will form the center of the building. Many new exhibits are being added.

More schools with more women teachers was asked in a recent plea for women of Burma, made by Miss Miranda Wiseman, Inspector of Schools, before a committee that is investigating education in Burma. She declared that enthusiasm for education is growing as Burmese girls realized the paying side of it. Mohammedan girls are taking an interest and would eagerly enter school if there were more women educators to attract them, she added. There are only two schools for Mohammedan girls and only one for adults in Burma.

Gentlemen of Paris now show a preference for brunettes. As a result blondes are disappearing only to reappear as dreams in dark brown or black hair style glory. These shades match the dark complexion which has become the vogue since the sunbaths at Deauville tanned the skin to a deep ochre. The only powder now used is a deep yellow which gives a Moorish tint. The present vogue has hit hard those who bleached their locks to fit the blonde era, and now must dye them black.

Shoes with uppers made of paper may soon be on sale in England.

another link in the chain of South Plains progress is forged

The new transportation system available now through the South Plains Extension of the Fort Worth and Denver City Railroad means that the communities that make up this area are brought even closer together, and progress and development will be even more rapid in the future than it has in the past.

an empire in reality

... It has been only a comparatively few years since the territory served by the South Plains Extension of the Fort Worth and Denver was characterized as an "Empire in the Making."

... now it is an Empire in reality, and with these added transportation facilities, we foresee far greater expansion in the immediate future.

... It is our purpose and we deem it a pleasure to be an important factor in this development—to contribute to it by maintaining our service to a high standard at all times.

... to the Fort Worth and Denver, and to those who inhabit the great South Plains territory we extend congratulations, for this extension without question means great prosperity for all.

WELCOME

Visitors to the Great South Plains

To our guests today, we wish to extend the most hearty welcome and good wishes. We feel it an honor to have the privilege of entertaining you on this occasion—an occasion which marks a new milestone in the progress of the South Plains of Texas.

We feel that we need the helpful cooperation of such men as you in building a great empire on the South Plains.

We want you to have full information about this new section—the development that is possible in the future. We need your assistance and co-operation, your friendship and advice. It is our wish that your visit here will result in friendships that will be continued and further developed as the years go on.

Our congratulations too, to the Fort Worth & Denver and to the Burlington.

To the railroad systems that made this new extension possible, we wish to extend congratulations—to welcome you into our midst. We hope your venture will prove successful beyond your fondest hopes and that we may have the privilege of assisting you in every possible way.

to insure the route and now the dreams of those who pioneered the venture are being brought to fruition.

Gives Major Lines
The Denver will afford two major rail lines for Lubbock. Generally speaking, competition is good for any business and this should prove the case here, civic leaders point out. More favorable freight and passenger schedules are believed to be one result which will accrue through the advent of a new line.

The "Hub of the Plains" as Lubbock has become generally known, now has spokes stretching away in every portion of the South Plains. There is no part of this great territory—a rich prize for the merchants and business men who are awake to the opportunities for trade which it presents—which is not now served by some rail connection with Lubbock.

Means Additional Payroll
The Denver line, looking from another angle, means additional payroll for the city—its trucking and warehousing facilities mean a boost

Quest for Wealth Since Boyhood Gets Results As Royalties from Invention Begin Coming In; Will Be Millionaire

George Campbell Is Realizing Life-long Desire After Years of Prospecting In Western Mountains

(By Associated Press)
SAN FRANCISCO, Nov. 20.—A quest for wealth which started in boyhood began to bear fruit today for George Campbell Carson, who grubbed the desert for thirty years in a vain search for gold and then in the evening of life invented a copper smelting furnace which promises to make him a millionaire.

Gets Judgment In Suits
Almost simultaneously came word from Tucson, Arizona, that judgment had been entered in his favor in a suit against the Phelps Dodge Corporation and the Calumet and Arizona Mining company.

Although the amount of money accruing to the old prospector and his associates cannot be computed in exact figures, it is said the total will be between \$7,000,000 and \$30,000,000.

After years of prospecting, Carson turned to the study of chemistry and engineering. The furnace was the result. The copper companies contended it was based on an old principle and Carson was not entitled to royalties.

Penniless, Carson formed the Carson Investment company to press claims against the copper producers and stock was sold to finance the litigation.

New Rail Line Opens Vast Area To Development, Official Says

BY L. M. HOGSETT

General Freight Agent Fort Worth and Denver City Railway Co., The Wichita Valley Co., Fort Worth and Denver South Plains Railway Company.

The Fort Worth and Denver South Plains Railway has completed not only the largest railroad construction in Texas the past 10 years but also set a new record for fast construction.

Stretching out over 204 miles of practically all virgin territory insofar as contact by railroad is concerned, the new line affords this section of West Texas an opportunity to grow and develop into one of the richest of all the Southwest.

Has Outside Contact
Through its parent companies, the Burlington System, the Colorado and Southern, and its closely associated relative, the Fort Worth and Denver City Railway, the new line has a contact with outside transportation world which affords Texas and this new territory unlimited expansion opportunities.

The Burlington System, to which the Fort Worth and Denver City Railway, the Colorado and Southern, the Wichita Valley Railway and the new line belong covers the richest traffic fields of the United States, with over 11,000 miles of steel rails.

While completing the work in record time, the Fort Worth and Denver South Plains Railroad has had to deal with difficulties heretofore not encountered in railroad construction in Texas.

Two of the three tunnels in Texas have been built by the new line. From an elevation of slightly more than 1,800 feet at the Estelina end, the road climbs to an elevation of more than 3,000 to 3,500 feet at the point South Plains, Texas and west located on top of the "Caprock". The construction was completed in less than two years from the time it was started, December 20, 1926.

History of Growth
Looking backward for a moment we find that the Fort Worth and Denver City railway, from which the new line has grown, was chartered by a special act of the legislature in May, 1873, but it was nine years later before the first link—35 miles, from Fort Worth to Decatur was completed.

Slowly but steadily the road pushed forward—62 miles to Bowie was completed in July, 1882; Wichita Falls, 114 miles was reached in September, 1883, to Harold, 144 miles, in 1885, to Vernon, 163 miles, in 1886, to Clearendon, 276 miles, in October, 1887, and to the state line at Texline, 453 miles, on January 25, 1888.

Through service from Fort Worth to Denver was inaugurated March 1, 1888. Thus it is seen that modern methods making for speed can accomplish far better construction in far better time.

The Wichita Valley Railroad, from Wichita Falls to Seymour, was built in the early 90's. Later followed construction of the line from Seymour to Stamford and from Abilene to Stamford. Still later the line was extended from Stamford to Spur, Dickens county. It was not until 1923 that the Wichita Valley was extended northward from Wichita Falls to Waurika, Oklahoma, which is just across Red River from Texas. In 1925 the Fort Worth and Denver City line was extended eastward from Fort Worth to Dallas.

Mileage Is Long
The group of roads in Colorado and Texas composing the Colorado and Southern System has an aggregate mileage of about 2,000, of which about one-half is in Texas alone. Consolidation of lines composing the Colorado and Southern System was effected in 1890.

Originally the lines were known as the Union Pacific, Denver and Gulf, which was but an arm of the Union Pacific, one of the first trans-continental trunk lines.

The Union Pacific was reorganized and the Colorado and Southern was formed as the parent company, with the Fort Worth and Denver line arm in Texas. Later the Wichita Valley was added to the group.

Through purchase still later the Colorado and Southern obtained an outlet to the Gulf of Mexico. This was effected by joint purchase with the Fort Worth and Denver line and Brans Valley Railroad.

Burlington Is Parent Road
Watching over all these various roads and branches is the Burlington System. And through an alliance the Texas and Colorado lines are afforded uninterrupted service to and from the Northwest over the Great Northern and Northern Pacific, two great roads within themselves.

It was through the efforts of the Burlington System that construction

Stores at LUBBOCK and PLAINVIEW

Extends Congratulations

—to the people of all the towns and communities to be served by the new Fort Worth & Denver railroad; and to the builders of this great system into the fast developing empire.

Let Us Serve YOU

Now that you have quick and convenient transportation to Lubbock and Plainview —we seek to serve the people along the new railroad with our fast growing stores.

Grollman's stores CAN serve you—and well!

To the hundreds of business men of Texas who are complimenting the South Plains today with their visit—we join all the people of this section in bidding you a welcome and a profitable stay.

Lubbock

(Continued from Page 1)

Wichita Falls at 11:40 and departs at 11:50; arrives Vernon 1:36 a. m.; Turkey 5:02; Quitaque 5:26; South Plains 6:19; Sterley Junction 6:30 and departs 6:40; arrives Lockney 6:53; Petersburg 7:28; Beeton 7:42; arriving at Lubbock at 8:30 o'clock in the morning.

This schedule becomes effective Thursday, November 22.

SAN ANGELO—The first actual step in extending San Angelo's fire protection was made this week when the first of four planned substations was opened in North San Angelo equipped with a 500 gallon pumper, and four attendants on duty.
