Old Timers Invited To Coffee

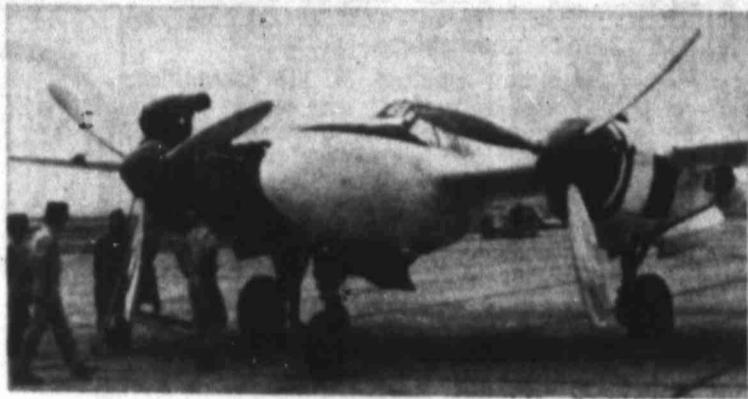

Are you an old timer at the air base? Col. Chester J. Butcher, Webb AFB commander, is inviting all those who served at the base to an Old Timers coffee between 11 a.m. and 12 noon Saturday.

The welcome mat is out to all — particularly those who served when it was the Big Spring Bombardier School. Besides the scores of men who signed and trained here, there are many others who were stationed here, then returned to make Big Spring or area their home.

One Of First

One of the first men to be stationed here — Lonnie Kemp, Ackerly, is planning on being here. He arrived with the first contingent from San Antonio.

"We certainly don't want to leave the Old Timers out," said Col. Butcher. "Right after the show, which should end about 11 a.m., we want them — and their wives and families — to come by the John H. Lees Service Club for coffee and a chance to see some of their old friends."

CONFEDERATE AIR FORCE Stars Of Show Arrive At Webb

Almost certain to be the stars of the show for the 25th Anniversary celebration of Webb AFB Saturday will be five aircraft of the Confederate Air Force, antiques when compared with the modern jets of today's Air Force. But all of them were famous in their day—during World War II.

Col. Lefty Gardner (all pilots in the CAF are colonels), of Brownwood, flew in the sparkling white P-38 Lightning Wednesday. During the weekend, Col. Connie Edwards, of Big Spring, brought in the AT-6 Texan, B-26 Invader, and P-51 Mustang. Fifth aircraft in this group will be the FM-2 Wildcat, which is due in time for the show.

Quake Rocks San Francisco

SAN FRANCISCO (AP)—Two distinct earthquakes jolted sections of California early today but there were no reports of injury or damage.

The quakes came within about an hour, but seismologists at the University of California in Berkeley said they apparently were not related.

The Berkeley seismograph recorded the first at 5:29 a.m. PDT. It centered near the San Andreas fault 12 miles southwest of Gilroy, some 60 miles south of San Francisco. The intensity was between 3 and 4 on the Richter Scale.

The University of California said the second quake was in a "difference area" but could not locate it immediately. California Institute of Technology at Pasadena reported the second quake, somewhat stronger than the first, at 6:46 a.m. Seismologist Charles Richter measured it at 5.5 on the Richter Scale and called it "potentially damaging."

J. T. (Bud) Summers, former of Transient Alert at Webb AFB, had his hands full this week keeping the curious away from the vintage craft, while the owners were putting the final touches on them for the public display.

All five of the aircraft are operational and maintained by the colonels of the CAF as reminders of famous planes of yesterday.

Visitors to the Webb open house will also have an opportunity to see modern jets as well, including the aircraft currently used at Webb AFB in the mission of the base.

Texas Draft Call Sliced

AUSTIN (AP)—Texas draft boards will be asked to furnish 977 men for induction in October, Col. Morris Schwartz, state selective service director, said today. This compares with 1,180 in September and 1,421 in August.

Dozen Texas Oil Firms Ask Allowable Cut

AUSTIN (AP)—Twelve of 16 major oil companies who were invited to a special Railroad commission hearing today asked that the September oil allowable in Texas be reduced because of the changing situation in the Middle East.

Commission Chairman Jim Langdon said Texas crude oil stocks advanced 1,182,000 barrels last week under the 34 per cent allowable factor set for September at the commission's August hearing.

STOCKS SPIRAL

Langdon said stocks in the United States were up 1,477,000 barrels last week, making a total of 263,511,000 barrels.

Companies asking for a lower percentage factor were: Mobil and Sun, 48 per cent; Gulf and Pure, 45; Phillips, 44; and Cities Service and Pan American, 40.

Atlantic-Richfield said that because of its refinery fire at Port Arthur Aug. 18, it could operate satisfactorily if the factor were set as low as 20 per cent of potential.

Companies that expressed their suggested reductions in barrels per day were: Humble 75,000 and Shell 15,000.

Continental and Marathon asked for a reduction without specifying a factor or a barrels per day decrease.

ACTION INDICATED

Texasco, Sinclair and Standard of California all indicated they were getting about what they want but recognized the problem and would abide by the commission's judgment.

The only company that specifically asked that the allowable be maintained at 34 per cent was Skelly.

The commission indicated it would take some action later in the day.

WAR DEMANDS

Twice in the past few months the commission has raised the allowable at mid-month, retroactive to the first of the month, then raised the allowable again for the following month. The allowable increases were made, the commission said, to take care of demands brought on by the Arab-Israeli war, which cut off supplies from that part of the world.

In June the commission hiked the allowable from 33.8 per cent of potential to 33.9 per cent, then raised the production factor for July to 42.9 per cent. In mid-July the commission raised the allowable to 48 per cent, retroactive to July 1, then moved it up to 54 per cent for August, the same factor as this month.

Police Jail Four Walkers

MILWAUKEE (AP)—About 450 civil rights demonstrators walked to the far northern section of Milwaukee Wednesday night and paraded back again in the city's tenth straight night of protests over lack of an open housing ordinance.

Father James Groppi, white adviser to the Council, was reported under a physician's care because of flu and did not join the Negroes.

Police said four walkers were arrested on various charges.

On two occasions the demonstrators approached to within three blocks of the home of Mayor Henry Maier, a major target of civil rights demonstrations.

After leaving St. Boniface Roman Catholic Church, where Groppi is assistant pastor, the procession headed north. There was some singing and chanting before the group, following orders of their leaders, walked in near silence. The walk ended around 2:30 a.m.

Miss Eisenhower Gets Curtsy Tips

NEW YORK (AP)—Post-debutante Julie Nixon, daughter of former Vice President and Mrs. Richard M. Nixon, attended a tea reception Wednesday to greet Barbara Ann Eisenhower, granddaughter of former President Dwight D. Eisenhower, who will be making her debut here this winter.

Miss Nixon, 19, came out last year at the International Debutante Ball.

Strike Stalls Ford Output In 25 States

Governors Nix Romney's Rap

No New Talks Are Scheduled; Pickets Show

WASHINGTON (AP)—Michigan Gov. George Romney's charge that he was brainwashed on Vietnam war policy during a 1966 visit to Saigon has drawn no support from nine other governors who accompanied him.

Most of the Democratic governors who made the trip with Romney, a likely candidate for the Republican presidential nomination next year, rapped his assessment of briefings given the touring politicians by military and diplomatic officials.

FRONT PAGE NEWS

The Republican governors were more charitable, saying Romney may have received information they didn't. But none agreed they were exposed to attempted brainwashing.

The controversy started by Romney's comment — in a *de* Monday as the governor was explaining his shift of stance on Vietnam policy — was front page news in Saigon's English-language newspapers.

It all started when a television interviewer asked Romney what had changed his earlier view that U.S. involvement in Vietnam was morally right and necessary.

'NAIVE MAN'

"When I got back from Vietnam," replied Romney, "I just had the greatest brainwashing that anybody can get when you go over to Vietnam. Not only by the generals but also by the diplomatic corps over there, and they did a very thorough job."

Democratic Gov. Philip H. Hoff of Vermont, one of those

who traveled with Romney, said of the charge: "Who the hell is he to say it was brainwashing? Either he's a most naive man or he lacks judgment."

NO EVIDENCE

Another Democrat, Gov. Harold E. Hughes of Iowa, said he saw "absolutely no evidence" of attempts to influence the governors' viewpoints.

Rhode Island Gov. John Chafee, considered a GOP vice presidential hopeful in 1968, said he didn't feel he was brainwashed, but added: "I don't want to disagree with what someone else felt."

Republican Gov. Tim Babcock of Montana called the briefings "realistic" while Democratic Gov. John Burns of Hawaii said he could "find no justification for Gov. Romney's statement."

BAD INFO

Others, then governors, who traveled with Romney to Saigon included Democrat Carl Sanders of Georgia, and Republicans Clifford P. Hansen of Wyoming, John H. Reed of Maine and Henry Bellmon of Oklahoma.

Another Romney accusation—that accurate information on the war in Vietnam has been lacking—drew a rejoinder from the Pentagon.

"It is the governor who is giving inaccurate information to the public," Asst. Secretary of Defense Phil G. Goulding said.

Romney said his accusation was based on a news conference held jointly by President Johnson and Secretary of Defense Robert S. McNamara just before the 1966 general election.

DETROIT (AP)—The United Auto Workers Union struck the Ford Motor Co. today, paralyzing the nation's second largest automaker and shutting off production of its 1968 models in 25 states.

No new negotiation meetings were scheduled. In contrast to the mass picketing of former years, only token picket lines appeared at most plants.

Although the walkout brought Ford's assembly lines to a halt, the strike was not expected to dry up the firm's supply of new cars entirely.

PARTS SHORTAGE

A spokesman for the company said that under the American-Canadian free trade agreement, cars will still be shipped across the border. He emphasized, however, that Ford does not plan to increase its Canadian production of Falcons and pickup trucks.

If the strike is a long one, Canadian production would be halted in about two weeks because of a shortage of parts from Ford plants in the United States.

SEVERE DAMAGE

The strike cut off all production in American plants, which normally produce some 3,000 cars a day and raised the possibility of severe damage to its standing in the highly competitive market that General Motors and Chrysler will continue to feed with their 1968 models.

As it lengthens, effects of the strike could spread through the steel, trucking and railroad industries which Ford uses heavily for materials and transport of its cars.

The company, second in size to GM in the automaking field, was last struck nationally in 1961.

IMPASSE

Just 30 minutes before the Wednesday midnight expiration of the old three-year contract, Ford rejected a proposal by UAW President Walter P. Reuther for binding arbitration to dissolve the impasse.

By then, and with no sign of progress in eight weeks of bargaining, many of the UAW's 159,000 members at Ford plants already had walked off the job anticipating the strike.

President Johnson has said he fears the stoppage will damage the nation's economy.

Minutes after the strike began, Reuther told newsmen at Ford headquarters in suburban Dearborn that he was "most disappointed."

'TRAGIC EARLY'

He had said earlier this year "this union is going to be tested like it has never been tested before," and he told the news conference: "I think Ford workers are able to stand the test."

Henry Ford II, board chairman and grandson of the company founder, assailed the walkout as "totally unjustified and completely unnecessary."

He called it "a bludgeon against the public interest," and "tragic in its implications for the whole nation."

The gap between the opposing positions was reflected in another news conference when Ford's top bargainer, Malcolm Denise, was asked if the two sides ever came close to a settlement.

'FLAT NO'

"I think I can answer that with a flat no," he said. General Motors and Chrysler, the other members of the Big Three, also stiffened Wednesday to the union demands. While agreeing to continue production and pay wages and benefits to workers according to contract provisions, they refused to extend the three-year pacts that expired with Ford's at 11:30 p.m.

Union and company spokesmen said a decision on when to resume negotiations may not come until Monday.

There was no indication that Ford would present a new offer. Only a day earlier, Denise told newsmen Ford had no new proposals. (See STRIKE, P. 8-A, Col. 2)

De Gaulle Calls On Reds

WARSAW (AP)—President Charles de Gaulle after a tumultuous welcome from nearly half a million Poles called on his Communist hosts Wednesday night to join France in getting the United States out of Vietnam.

The 76-year-old French leader, a longtime critic of U.S. policy in Vietnam, suggested that France is ready to undertake a bigger role in bringing peace to the Southeast Asian battleground.

"If an opportunity arises one day," France and Poland could join forces toward "bringing about an end to the bombing, fighting and presence of foreign armed forces," the French president said at a Polish state reception soon after he arrived for a six-day visit.

Omits Past Criticism

De Gaulle's speech omitted past criticism he had made of the United States. He said Poland and France might join in efforts for peace because Poland is a member of the International Control Commission for Vietnam while France has "numerous ties and possibilities" linking it with its former Indochinese colonies.

Poland's last known Vietnam peace effort was in late 1966. Polish officials charged that efforts to arrange contacts between the United States and North Vietnam in Warsaw were sabotaged by U.S. bombing of Hanoi suburbs in mid-December.

Boundary 'Must Stay'

De Gaulle said a Vietnam settlement should include the ending of hostilities and withdrawal of foreign troops, "next to establish the internal and external political status provided for about 13 years ago by the Geneva agreements, and finally a revival of this horribly bled and devastated area."

Fund Support Grows

Support of the High School Bible Class continued today in a wonderful way with \$187.76 being received. This pushed the total so far given to \$1,774.26, more than halfway to the goal needed to assure the Bible course for approximately 100 students. Yesterday's list incorrectly listed a memorial gift from the Eunice class, First Baptist, when it should be Bethany Class.

Several classes as well as individuals were represented in today's offering, and there was another out-of-town gift. Others who plan to have a part are urged to mail or bring their gifts to The Herald as soon as possible.

Timber Blazes End In Sight

By The Associated Press
An end to the Northwest's siege of timber blazes appeared in sight today as a break in summer weather gave fire fighters their first big advantage in weeks.

The remaining trouble spots—North Idaho and British Columbia—were expected only light breezes and temperatures in the 70s and low 80s, the U.S. Weather Bureau said.

Elsewhere in the vast forest areas from the Pacific to Montana, mop up operations were under way.

A Pacific front which moved across the region Wednesday night brought an apparent end to a month of 90- and 100-degree readings.

Damage estimates—though still unofficial—ran as high as \$50,000 acres for the summer.

In western Canada—where officials say 200,000 acres have been blackened—a second mild Pacific front was reported en route.

Police Join Hunt For Costly Tapes

DALLAS (AP) — Disappearance of valuable computer tape containing space flight data was reported Wednesday at Southern Methodist University.

Six reels of the magnetic tape, which cost \$100,000 and took three and one-half years to assemble, are missing, police in University Park were told by George W. Crawford, head of the SMU computer center.

Crawford said the tapes, prepared for the National Aeronautics and Space Administration, contained data required for proper calculation of radiation hazard and measurement of radiation dosage faced by astronauts on a trip to the moon.

NO CLUES
Sgt. C. D. Mallicote of the

University Park police said there were no clues to what became of the tape. He said the case was turned over to the Federal Bureau of Investigation.

Three of the tapes belong to the Swedish government, Mallicote added.

Crawford said the tapes contained no classified information and the loss did not constitute a breach of national security.

He told a reporter the tapes were part of a set of 18 being prepared for the Manned Spacecraft Center at Houston and containing data gathered in worldwide research. It would take four months and cost \$20,000 to compile the six reels again, he estimated.

REWARD POSTED
Crawford said the taped information was in code and unreadable without proper equipment and understanding of the entire program.

The reels were placed on a hallway table at the campus center Saturday afternoon, he related, and the loss was discovered Monday. SMU personnel made an extensive search before police were notified.

Crawford said the university was offering a reward of \$25 per reel, with no questions asked, for their return.

"We don't know whether they were misplaced or taken, or by whom," he said. "We are going to do everything possible to get them back."

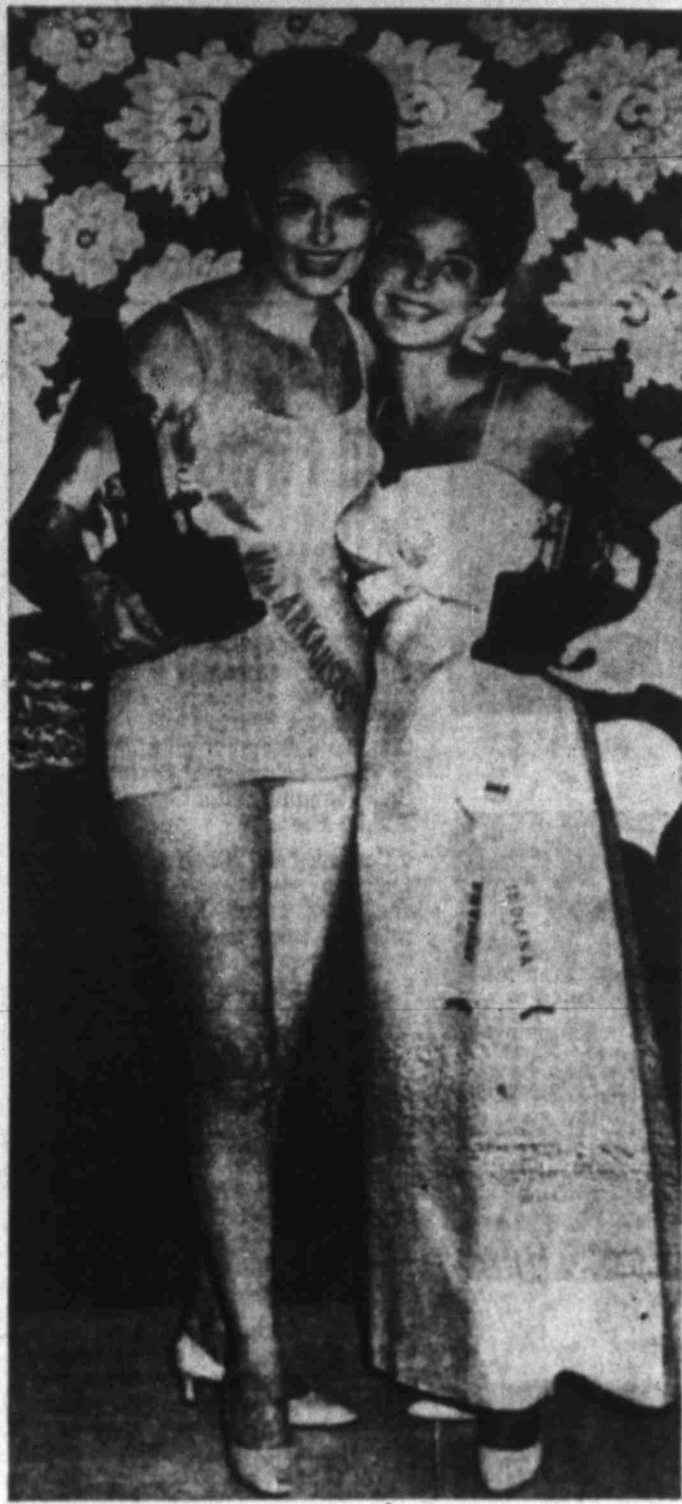

Two Choke To Death

FORT WORTH (AP) — Two persons died in Fort Worth Wednesday from choking on food in separate eating places.

Mrs. Mimi Shaffer, 58, a widow, died at a country club after choking on a piece of meat.

Helen Rutherford, 45, of Clyde, died Wednesday night when she choked on a piece of meat at a cafe.

The deputy medical examiner for Tarrant County said both died of asphyxiation.

'Nellie' Undergoes Neck Operation

HOUSTON (AP) — Mrs. John Connally underwent minor surgery today for the removal of a tiny growth in a neck gland.

A spokesman at M. D. Anderson Hospital & Tumor Institute gave no details. He said a report on a biopsy that was to determine whether the growth is malignant would be made public later in the day.

The spokesman declined to say how long the governor's wife was in surgery. Earlier reports had indicated the operation would last about one hour.

CONNALLY NEARBY
Connally waited nearby in an administrator's office during the operation.

Both the governor and Mrs. Connally, 48, told newsmen upon their arrival at the hospital Wednesday they were "confident" the tumor was not cancerous.

The governor said preliminary tests made by physicians in Austin after the growth was detected during a routine check-up indicated it was not malignant.

HARD KNOT
Connally said it was "sort of a hard knot, on the right side of the neck just under the point of the jaw."

Mrs. Connally, known to thousands of Texans as "Nellie," said she felt fine "although a little nervous" as she entered Anderson Hospital, internationally known for tumor treatment and research.

"I feel fine, in fact real good," Mrs. Connally said. "I'm not afraid, maybe a bit nervous as anyone would be entering a hospital. But I have all the confidence in the world in this hospital and its doctors."

She said the growth did not bother her.

'HIS DEPARTMENT'
"I hardly know it's there," she said.

She said she felt she would be in the hospital "only two or three days." She said the last time she entered a hospital was six years ago.

Holding her husband's hand during the brief interview, she declined to comment on the possibility of the governor running for a fourth term.

"That's his department," she said.

Connally said he had not made up his mind and "probably won't for several weeks."

He said he planned to talk with many people across the state before he made his decision.

He said part of his decision will be based on the way Texans feel.

"What they say, the way they act, the way they smile, the way they speak and shake hands, these are the things I'll look for," he said.

Connally said he had no plans for doing anything special while in Houston "except being close to Nellie." However, he said he would "keep in close touch" with his Austin office.

Pope Plans More Rest

VATICAN CITY (AP) — The Vatican announced today that Pope Paul's temperature has returned to normal again but said his period of rest will be extended.

The pontiff, who will be 70 on Sept. 26, returned to the Vatican Wednesday night after a sudden rise in his temperature prompted him to leave his summer residence at Castel Gandolfo, 15 miles south of Rome in the Alban Hills. He had contracted a cold, stomach cramps and fever Monday toward the end of his summer sojourn, but earlier Wednesday his doctors said he had recovered.

"The Pope had a night of calm rest," a Vatican bulletin said today. "This morning his temperature returned to normal."

Only 12 hours after doctors had pronounced him recovered from the indisposition, a terse Vatican communique reported a sudden temperature rise to 99.5 degrees. His personal physician, Dr. Ugo Piazza, said this was the highest since the beginning of his sick spell.

The pontiff asked his attending physician, Prof. Mario Fontana, to let him return to Rome "because the weather was too damp at Castel Gandolfo and he felt the Roman weather was better for him."

Dr. Piazza said the pontiff badly needed rest. But he minimized the gravity of what the Vatican communique called "a feverish indisposition."

The doctors have been trying to get Pope Paul to slow down his work schedule this summer. He made a two-day trip to Turkey to see Orthodox Patriarch Athenagoras, issued an encyclical on priestly celibacy and announced sweeping reforms of the Vatican Curia, the church's central government.

Heavy Reader Poses Danger

By EDDY GILMORE
LONDON (AP) — Joseph McLaughlin is such a heavy reader that the weight of his books was endangering his neighbors.

Stacked in his second-floor apartment, they caused the ceiling of the apartment beneath him to creak and sag.

The worried occupants of the ground-floor apartment appealed to the borough engineer in suburban Harrow.

Questioned by the engineer, McLaughlin, 52, said he had been collecting books at the rate of 1,000 a year for the last 20 years.

He was told eight days ago he couldn't keep them in his apartment any longer because their weight was too much for the structure of the house.

Eight workmen appeared with a truck and began to move out the books. They finished Wednesday night.

Among McLaughlin's treasures was a 14th century manuscript, a first edition of Byron's "Don Juan," and other valuable editions.

The books were moved to a vacant school room. They filled an entire classroom.

"I shall have to sell them," said McLaughlin, "but I shall miss them."

Jet Crash Kills Student Pilot

KINGSVILLE, Tex. (AP) — Ensign Bruce A. Watts, a student pilot at the Naval Auxiliary Air Station, died Wednesday when his TF9J Cougar jet crashed in an open field about 30 miles southwest of here.

Jeff Carpenter, 7-month-old, touches the Bronze Star awarded posthumously to his father, PFC Douglas J. Carpenter, along with the Purple Heart at ceremonies in Dallas, Tex., yesterday. Mrs. Shirley Carpenter, holds her infant son as Col. Allen E. Simmons of the U.S. Army Reserve Center makes the presentation. PFC Carpenter was killed in Vietnam March 25. (AP WIREPHOTO)

AIR FORCE CHIEF SAYS:

Targets Spared Remind Foe Of More Pressure

SAN ANTONIO (AP) — Air Force Chief of Staff Gen. John P. McConnell said here Wednesday night that valuable bombing targets in North Vietnam are being spared to "remind the enemy that additional pressure could be brought to bear on him."

Death Suspect Kills Himself

HARLINGEN, Tex. (AP) — A justice of the peace returned a ruling of suicide Wednesday in the death of a San Benito man charged with murder in the death of his ex-wife's husband. Lonnie Wilhelm, 57, of San Benito, was found just outside the door of a Harlingen cotton gin not long after officers began a search for him. Wilhelm died as the result of a self-inflicted gunshot wound from a shotgun found beneath his body, according to Justice of the Peace Romero Garza.

Wilhelm was the object of a search by Cameron County officers and Harlingen police when he failed to show up for a pre-trial hearing at Brownsville. The cotton gin employee had been charged with murder May 24, 1967, in the shooting death of Fred M. Bentsen, a prominent Harlingen area cotton gin operator.

Dist. Judge H. A. Garcia ordered Wilhelm's bond forfeited and issued a bench warrant for his arrest when Wilhelm failed to attend the pre-trial hearing. Officers learned that Wilhelm had armed himself with a shotgun.

The general speaking at a dinner here, said those spared targets, which have "obvious vulnerability to destruction by air power," also "provide persuasive evidence that our air operations are being used with great restraint."

"We nevertheless are clearly in a position to increase the weight of our air attacks to any level that may be required to help achieve our national objectives," he said.

ENEMY HURT
Gen. McConnell said evidence from reconnaissance and prisoner interrogations indicate "the enemy has been hurt far more severely than his actions and words indicate."

"We have destroyed a large percentage of his oil storage capacity, over half of his electric power output, most of his facilities for ammunition storage and production and his major military supply depots," he said.

Effective use of air power, he said, has kept the ground war in South Vietnam from an expansion that would have meant "a vast increase in our ground force commitments, far greater battlefield casualties and billions of dollars of added expense."

KEY FACTOR
The heavy air attacks on the North Vietnamese overland logistic systems have forced the enemy to deploy more than 250,000 of his population to repair work and another 300,000 to air defense, Gen. McConnell said, "which means that our air strikes have kept over a half million out of the ground battle."

Tactical air support of land forces, he said, "has become an often decisive factor."

LOSSES SAG
In a recent analysis of the air support, he said, "We found that the average total response from the time a request for close air support received until the delivery of ordnance on target was 20 minutes for fighters on airborne alert and 30 minutes for those on ground alert."

The question of whether bombing operations can be continued in the face of improved enemy defenses, McConnell said, has spurred efforts toward refining methods to attack heavily defended areas.

"As a result, the increase in the number of sorties is not being matched by the increase in aircraft losses which means that our loss rate is going down," he said.

Gen. McConnell spoke at a dinner honoring past commanders of Kelly Air Force Base. The dinner is part of a continuing celebration of the base's 50th anniversary.

Science And You

At Home In Orbit

—By DR. LEONARD REIFFEL

Just about the turn of the decade, things ought to get very interesting in space near the Earth. By that time we hope we'll have astronauts on the moon, but, if plans go according to schedule, we will also have a couple of orbital laboratories buzzing around the Earth.

One of these projects is called the Orbital Workshop, to be put up by the National Aeronautics and Space Administration. The Orbital Workshop will be built into an empty fuel tank from the Saturn IB rocket used to launch it. In the tank astronauts will install various kinds of scientific and house-keeping equipment with the hope of staying in space for up to a year while making scientific measurements. The measurements will be directed toward Earth sciences and astronomy, as well as toward questions of the effects of very long space flights on man himself.

The other orbital laboratory is not so well publicized. It's called MOL and conceived as a project to explore military uses of space. MOL stands for Manned Orbital Laboratory, but it's a rather different animal than the Orbital Workshop. The MOL will make use of a Gemini capsule which has, of course, been well proved by 12 Gemini flights. Attached to the Gemini capsule, at the blunt heat shield end, will be a 42-foot long canister. Inside this, military astronauts will be making their observations and experiments on the military uses of space-flight.

launched by a Titan IIIC rocket which is a modification of one of our big ICBM rockets. The Air Force is not talking much about the purposes of MOL. On the other hand, it's very obvious that there are certain things that anyone would try out in space if they were interested in military matters.

One of the obvious things one would do is look down. Everyone knows about aerial photography and its general capabilities — and everyone knows from our Gemini results that very good pictures can be taken from orbit. Thus, it's perfectly simple to guess that one of the things MOL will probably be doing is taking lots of pictures. Another thing is eavesdropping. If one is directly over hostile territory the "line-of-sight" problems that make it difficult to monitor radio transmissions here on Earth simply don't exist. Thus, a military satellite would logically carry some electronic listening equipment with the intent of learning more about what's going on in various areas of the world which are inaccessible to us.

These are the obvious guesses. One suspects that there are purposes for MOL. Clearly, the basic mission for this military manned satellite will be to find out just which of the many possible military uses of space are the practical and valuable ones. Whether systems to exploit such uses are to be created will then become a question of national policy.

Church-Owned Apartments Plan Revealed

DALLAS, Tex. (AP) — When Dallas Methodists decided they couldn't get enough apartment dwellers into church, they decided to get into apartments — about \$1 million worth.

Methodist officials said Wednesday they plan to build a non-profit apartment complex so that the church will be "working from the inside out rather than from the outside in."

In the 75-unit complex, the Rev. John Rasmussen Jr. of suburban Mesquite will be pastor. He said residents other than Methodists will be welcomed to the apartment complex which will include a parsonage, a church, a swimming pool and possibly a beauty shop.

'LOW-RENT'
Children will be allowed, too, the pastor said, as he prepared to raise about \$700,000 to start construction.

The project, The Rev. Mr. Rasmussen explained is a pilot effort to show the way to deal with the problem of getting apartment residents interested in religion.

Rentals will be about the same as for other apartments, Methodist officials said, emphasizing that the project could not be styled "low-rent."

Methodist Bishop W. Kenneth Pope and the Rev. Earl Harvey, both of Dallas, were among Methodist leaders suggesting the new project.

DAY SCHOOL

Probably to be completed within a year, the project will have the support of various Methodist agencies and boards, the crew-cut pastor said.

To guide and operate the project, the Maple Lawn Foundation has been set up on a non-profit basis, he added, and it is his job to raise the approximately \$700,000 to begin the work.

The project will contain "about everything that would be needed to make a city within a city," he added.

"The entire project is designed for families with children and to provide a Christian atmosphere."

"There will be a full-time day school, a complete after-school recreation program for children and a continuing study activity for adult education. . . . We will be concerned principally with developing Christians instead of Methodists."

Fire Destroys Store

ZAVALA, Tex. (AP)—Fire destroyed Sam's Dam Store today. The store was a supply house for picnickers and fishermen at the Sam Rayburn Reservoir. It was 35 miles south of Lufkin.

Big Spring (Texas) Herald, Thurs., Sept. 7, 1967 3-A

LOANS INQUIRY

Aluminum Firm Comes Under Fire

DALLAS, Tex. (AP) — Officials of an aluminum siding firm which has come under fire in a court of inquiry were to testify today in the third day of a probe into home improvement loans.

Four witnesses have already testified that work on their homes by Triangle Aluminum Industries, Inc., Dallas, came to thousands of dollars more than they had been led to understand.

Three said on the witness stand that their names were forged to mechanics liens taken out on their homes.

A court official said he expects that the grand jury will issue some indictments after the inquiry is over.

MECHANICS LIENS

Several other witnesses have testified about the loan practices of Gulf Coast Investment Corp. of Houston. Two former brokers for the firm said Wednesday that it was company policy to take out mechanics liens on all borrowers' homes, even if it were known that no home improvements were planned.

Tom Unis of Dallas, a lawyer for Gulf Coast, said at the close of Wednesday's session that the firm will cancel all mechanics liens, and thus release the homeowners from obligation, in cases where no actual improvements were made.

He also said Gulf Coast would not try to collect any interest on its loans that would amount to more than the 10 per cent simple charge as allowed by state law.

BIG 'ADD-ON'

"We will check on all these loans in Dallas," Unis said, "and if we find any irregularities, we will correct them."

Testimony from Gulf Coast employees has brought out that the "standard home improvement loans it issued carried interest of 8 to 9 per cent "add-on" which amounts to 14 per cent and more in simple terms.

Dist. Judge Dee Brown Walker has subpoenaed 40 witnesses for the inquiry. Many are homeowners who got loans by responding to advertisements featuring loans for any purpose to Texas homeowners exclusively.

WIDOW TALKS

W. R. Sessions, special counsel for the court, said the Dallas branch office has generated some \$300,000 a month for the past three years in home improvement loans.

Several witnesses have testified that they neither signed

Bid Opening For Housing Set Sept. 26

Sept. 26 has been set as the time for receiving tentative proposals on a low-income housing project proposed for northern Big Spring.

Big Spring Housing Corp. has issued plans for the project, said Bill Johnson, president, and is seeking to determine if proposals will be within the money allocated by FHA.

If this is the case then Big Spring Housing will seek to firm up a conditional commitment for financing.

Plans call for 68 units to be constructed on Northeast Twelfth Street, east of the city water tower, and along the access road to Interstate 20.

Food Commodities Assist Million

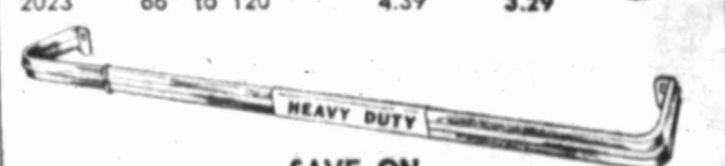

ATLANTA, Ga. (AP) — The Department of Agriculture says more than 1.2 million needy persons in nine Southeastern states received food through the department's food commodities and food stamp program in July.

County Checks On Fire Trucks

Howard County Commissioners visited Midland Wednesday to inspect four pieces of fire fighting equipment available at that city.

Lee Porter, county judge, said that no decision has been reached on what solution may be found to provide the rural areas of the county with fire protection. He said that three of the four pieces of equipment appear to be in fair condition.

The commissioners have been toying with the idea of volunteer rural fire fighting setups for each of the four commissioner precincts.

The recent termination of the contract the county has had with the Big Spring Fire Department to make rural fire runs has created the necessity for the county to find some other means of providing protection for the rural residents.

Currently, the Coahoma Fire Department is filling the breach and providing men and equipment when a rural fire alarm is received.

Si Terrazas, Ray Nichols and Billy B. Tune, with Porter, made the trip to Midland.

Classes Delayed For 600,000

Classes have been postponed for more than 600,000 youngsters as several of the nation's school systems have closed because of teacher salary disputes. The number could increase to more than two million by next week.

Detroit School Supt. Norman Drachler put off indefinitely today's scheduled school opening for 300,000 youngsters. In New York a deadlock continued toward a Monday deadline.

Michigan was the hardest hit of the states, with almost a half-million youngsters in some 17 districts on extended vacations "until further notice." Teachers picketed in some Michigan cities.

PACKAGE PLAN
In New York the Board of Education accepted a proposal by Mayor John V. Lindsay's mediation panel for a two-year, \$125-million contract between the teachers union and the board.

In a telegram to the United Federation of Teachers the board called for a membership vote on the proposal. The union agreed to the vote but predicted the rank and file would reject it

as the negotiating team had earlier. The package would boost most teachers' salaries by \$1,050 over two years to a starting \$6,600 next September. The teachers had called for a scale from \$7,500 to \$15,000.

The union is also seeking a say in educational policy. The teachers have threatened a mass resignation for the scheduled opening Monday to circumvent a state law prohibiting strikes by public employes.

Michigan also has a statute prohibiting strikes by public employes but the measure has never been tested and does not outline penalties.

Detroit teachers have rejected a Detroit Board of Education contract offer of a \$6,400 to \$10,100 salary range. The current scale is \$5,800 to \$9,500 after 11 years. The Board of Education and Detroit Federation of Teachers reported little progress in negotiations Wednesday.

BEACH PARTIES
Some 24,000 pupils in East St. Louis, Ill., continued to remain home from school as a dispute there went into its ninth day. More than 600 of the 850 teachers in the system have stayed away from schools in a salary dispute.

Youngsters were going to beaches or playing in school playgrounds also in Broward County, Fla. Fort Lauderdale teachers rejected Wednesday a plea by the county school board to return to work.

The board voted to keep the schools closed to the 90,000 pupils until Sept. 25. Of the 4,000 teachers in the county, 2,732 submitted resignations Tuesday.

Information and application forms may be had at the YMCA office. There will be a prerequisite swimming examination, and a physical will be required. The fee is \$17.50 for YMCA members and \$30 for non-members. The course is open to anyone 17 years or older.

No equipment will be required for class members immediately. Enrollment will be limited to the first 15 signed. In event any of the enrollees fail to pass the swimming test, the fee will be refunded.

During the course, there will be open water sessions at Balmorhea and at Possum Kingdom.

Instructors will be Dr. J. P. Darby, Dr. Floyd Mays, Roger Brown, Bill Towery, L. Allen Miller and Mrs. Jim Nelson.

Scuba Class Is Scheduled

Applications are now being received for the scuba diving course at the YMCA, and the schedule calls for the first session on Sept. 21. Instruction will follow every Tuesday and Thursday at 7 p.m. until the full YMCA-approved course is completed, possibly toward the end of November.

Information and application forms may be had at the YMCA office. There will be a prerequisite swimming examination, and a physical will be required. The fee is \$17.50 for YMCA members and \$30 for non-members. The course is open to anyone 17 years or older.

Instructors will be Dr. J. P. Darby, Dr. Floyd Mays, Roger Brown, Bill Towery, L. Allen Miller and Mrs. Jim Nelson.

Angelo, Water District Officials Discuss Water

Officials from the Colorado River Municipal Water District and representatives from San Angelo explored the possibility Wednesday of San Angelo obtaining water from the new Robert Lee lake.

Talks were purely exploratory, said Charles Perry, Odessa, president of CRMWD, but he added that the district would be more than willing to work with San Angelo in trying to achieve whatever arrangement would seem best.

Discussions were in broad terms and there were no specifics such as amounts involved. Perry said that efforts were made to look at many angles which would make water available to San Angelo.

Both groups appeared to regard the conference as fruitful, and O. H. Ivie, CRMWD general manager, and J. E. Williams, San Angelo water superintendent, will work with S. W. Foose, Fort Worth consulting engineer, on various facets of some sort of an arrangement.

CRMWD is about 40 per cent toward completion of a dam that will impound a 488,000-acre-foot lake at capacity. This is approximately 25 miles from the north gate of San Angelo.

Participating in the talks at the CRMWD office in Big Spring were Dick Howard, city manager; J. E. Williams, water superintendent; Louis O. Seibert, chairman of the citizens' water committee, all of San Angelo, and Gerald Allen, Robert Lee, chairman of the Upper Colorado River Authority. Representing the CRMWD were Charles Perry, president; John L. Taylor, Big Spring, and Rex D. Fields, Snyder, directors, and O. H. Ivie, general manager.

Texas Probationers Hike Investigations

BEAUMONT (AP)—A case load increase of 14 per cent and a 12 per cent increase in the number of investigations made is shown in the annual report of the Probation Office of the U.S. Eastern District of Texas, recently announced by Chief U.S. Probation Officer Andrew P. Cokinof of Beaumont.

Smokers In Texas Please Read This

LUFKIN, Tex. (AP)—An average of 2,315 forest fires have occurred in Texas in the past three years. If the area burned were reduced to a strip 50 feet wide it would reach twice across the continent.

Houston Tops Texas Walkout Activity

DALLAS (AP)—Houston led Texas' metropolitan areas in strikes with 39 in 1966, figures from the Labor Department show. The Beaumont-Port Arthur area was the next most struck with 21 and the Dallas metropolitan area third with 19.

Activity was up from 1965, with 143 new work stoppages that idled 57,800 workers for 184,000 man days.

ALPINE, Tex. (AP)—Dr. Delbert A. Dyle, who was academic dean at Sul Ross State College from 1961-1963 before accepting an educational assignment in Pakistan, has returned to his former post.

Sawmill Saga

SAN ANGSTINE, Tex. (AP)—What is believed the first Texas sawmill was built in San Augustine in 1825. The Texas Forest Service reports there now are 926 primary and secondary wood processing plants in the state producing goods valued at \$500 million annually.

Ex-Yankee Nixes Political Career

COLUMBIA, S.C. (AP)—Former New York Yankee second baseman Bobby Richardson says he has "no plans whatever" for a political career. Richardson, whose home is in Sumter, S.C., has been mentioned in published reports as a possible candidate for South Carolina's 5th District seat now held by Rep. Tom Gettys, a Democrat.

Sumter, S.C., has been mentioned in published reports as a possible candidate for South Carolina's 5th District seat now held by Rep. Tom Gettys, a Democrat.

Since his retirement from baseball after the 1966 season, Richardson, 32, has been in the insurance business.

GIBSON'S LOW PRICE

LOANS CUT BURDEN

Cost Of College Education Jumps

By JOHN CUNIFF
AP Business News Analyst

NEW YORK (AP)—The cost of a college education continues to rise but, paradoxically, some students this fall will pay out less of their parents' money than students of a few years ago.

New methods of financing more scholarships, a growing number of programs that alternate study with work, low-cost community colleges, and increasing support of industry are evidence and proof of the change.

MOTIVATION

The motivation for most of these programs aimed at lessening the financial burden are the demands of society for better educated citizens, and the rising cost of education.

A survey just completed by the Life Insurance Management Association shows that more than two-thirds of the colleges reporting will charge higher tuition or fees this year.

At Harvard College the fixed costs—tuition and room and board—are \$3,170, at Tulane \$2,625, Stanford \$2,810 and the University of Chicago \$3,330—all hundreds of dollars higher than a few years ago.

EASIEST ANSWER

Even state colleges, whose low tuition represent the easiest answer for financially pressed parents, have hiked their rates for nonresidents. At Oklahoma State, for example, residents will pay \$938, nonresidents \$448 more.

As a result of these costs, many programs are being developed to lessen the burden. And in the process, incidentally, comes a departure from an honored American custom—a custom that dictated that the parents deny themselves to educate their offspring.

Some students now are studying on loans which must be paid back when their earning power develops. Most of these loans are at very low cost and very easy terms since government money backs them.

TALENT LOANS

A change is also evident in the support coming from large corporations which see an opportunity not only to assist students but to provide talent for corporate ranks.

American business long has been a very strong supporter of the nation's colleges, but most of their contributions went directly to the institution.

Some of this money now is going directly to students, especially since sensitive corporations have been disturbed to hear reports of a growing alienation of students and business. Money, which a corporation has and a student needs, is being used as a communications link. The growing need of corporations for skilled workers also is part of the motivation. By helping a

Texas Flood Warnings Out

By The Associated Press

Although a little light rain or drizzle hung on in North Central and part of Northeast Texas today, the state's siege of soaking rains appeared to be about over. Skies cleared down the Rio Grande all the way from El Paso to the Brownsville area, where cloudbursts caused some flooding the fore part of this week.

GLOOMY CLOUDS

Gloomy clouds still overhung much of East and North Texas, but there was no indication of fresh deluges like the 7-inch putting water in some Bonham homes early Wednesday.

The runoff in that section, however, sent the Sulphur River pouring out of banks into farm country. Flood warnings were issued by the Weather Bureau, which predicted a 46-foot crest by late today or Friday near Hagansport in Franklin County.

AT MIDLAND

Official observers reported most of the rain heavy enough to measure late Wednesday and during the night fell from Wichita Falls, Fort Worth, Dallas and Longview northward to the Red River. The amounts were small.

Wichita Falls measured .94 inch, Paris .90, Fort Worth .30, Dallas .23, Texarkana .17 and Longview .08.

Near daylight Amarillo, Dalhart, Lubbock and Midland all shared a temperature of 59 degrees. Readings at other points ranged through the 60s and up to 74 at Brownsville.

Presidio in the Big Bend Country was the warmest spot Wednesday with a high of 96 and Amarillo the coolest with 68.

Dairy Farmers Dip, Production Jumps

BURLINGTON, Vt. (AP)—Dr. Verle R. Houghaboom, University of Vermont extension economist, says that the number of dairy farmers in Vermont declined 51 per cent from 1953 to 1966 but milk production increased 20 per cent during that time.

Israel Reports Two-Hour Duel

By The Associated Press

Israel reported a two-hour machine-gun and artillery duel across the Suez Canal Wednesday night, the fourth breach this week of the Arab-Israeli cease-fire.

An Israeli spokesman accused the Egyptians of firing first toward Israeli-held positions in the Ismailia area, midway along the canal. He said the Is-

raelis suffered no casualties.

There was no immediate counter claim from Cairo.

HOMES WRECKED

Egyptian and Israeli forces fought for seven hours across the canal Monday, and Egyptian authorities claimed that the Israeli shelling of the Red Sea port of Suez killed 4 civilians and wounded 178, wrecked 40 homes and damaged many more.

That battle was followed by an exchange of fire across the canal Tuesday night and by a duel between Jordanian and Israeli forces across the Jordan River Tuesday.

TUG TUSSE

At the United Nations, Egypt blamed Israel for triggering Monday's naval and artillery battle despite a report from a team of U.N. truce observers

that the Egyptians shot first.

Egyptian Ambassador Mohammed A. El-Kony wrote the president of the Security Council that two Israeli motorboats and a tug tried "to force their passage through the canal at the Suez entrance." He said the boats continued despite a warning and "simultaneously opened fire on our positions at Port Taufiq."

WAILING WOMEN

Lt. Gen. Odd Bull of Norway, chief of staff of the U.N. Truce Supervision Organization in the Middle East, reported that Egypt started the fighting with fire directed at an Israeli motorboat. Foreign newsmen toured Suez, a city of 200,000 people, and found wailing women huddled around the wreckage of their homes. An elderly woman moaned, "I lost four of my children."

Israeli Prime Minister Levi Eshkol said Israel, which captured almost all of Egypt east of the canal in the June 5-10 war, would not budge from the occupied territories as long as the Arabs held to their Khartoum summit position of no direct negotiations with the Jewish nation.

The Jordanian newspaper Al Difa said the Arab states were working on a plan to be submitted to the U.N. General Assembly Sept. 19 that would "remove the consequences" of the six-day war with Israel.

Sea Of Red Goo Stalls Traffic

OAKLAND, Calif. (AP)—Ripe tomatoes—19½ tons of them—plopped onto a main Oakland street Tuesday, creating a squishy sea of red goo.

The tomatoes were in a pair of 18-foot-long trailers that overturned when the tractor's air brakes failed.

The accident held up traffic on Broadway for two hours while the fire department plowed into the muck with hoses and flushed it away.

Jap Destroyers Dock In New York
NEW YORK (AP)—Four Japanese destroyers arrived in New York harbor Tuesday for a four-day stay—the first visit to the city by a Japanese training squadron since 1936.

Midland Company Slated To Merge

DALLAS (AP)—Smith Industries International Inc. of Los Angeles and Drilco Oil Tools, Inc., of Midland, Tex., have agreed to a merger, the firms' directors said Wednesday.

The merger is contingent on approval by the shareholders of both companies.

The two companies, which provide sales and services in more than 50 countries, will be known as Smith Industries International, Inc.

Special shareholders meetings will be called in November, directors of the firms said.

Steaks Thief Sought

RALEIGH, N.C. (AP)—A thief broke into a restaurant near Raleigh recently and took \$27 worth of sirloin steaks, rib eye steaks, New York steaks and filet mignons.

American Marines, 4,000 Commies Locked In Fierce Battle

SAIGON (AP) — American Marines and some 4,000 freshly equipped North Vietnamese regulars locked in a fierce battle over the blood-stained rice paddies of the Que Son valley today with 188 Communist soldiers and 70 Marines reported killed.

More than two battalions of Marines sweeping through the paddies and bamboo stands west of Tam Ky hit the Communist force late Wednesday. The battle raged through the night with the Marines and the North Vietnamese alternately charging.

HAND-TO-HAND
There was frequent hand-to-hand fighting beneath the flickering yellow glow of parachute flares.
The battle raged less than a mile from the scarred field where 150 North Vietnamese soldiers were cut down Monday and Tuesday. The Reds have lost 338 killed and 23 captured in the valley in these two battles, and 219 Viet Cong were killed and 16 captured in an abortive attack on the town of Tam Ky early Wednesday.

Marine casualties in the Que Son valley fighting now total 124 killed and 278 wounded.

since the week ending last April 22, when 980 were reported killed.

Action in the ground war had been relatively light for about two months until early this week, when Communist forces began showing signs of readiness for renewed action in the northern zone defended by the Marines.

Marine officers said many of the Communist dead found on the battlefield today wore new, freshly cleaned uniforms. Some of the equipment was brand new, including Chinese gas masks, field radios and sub-machine guns.

Although the Marines estimated that about 4,000 North Vietnamese were engaged in the fight, they identified elements of three units—the 1st, 3rd and 21st regiments of the 2nd Infantry Division. This meant that perhaps 9,000 Red troops were in the immediate area.

The battle apparently was joined when a Marine battalion on the move was struck on its right flank by a savage attack.

Although the Marines hit hard, one company pushed out and charged into the exposed flank of the attacking Reds and rolled it up, killing 50 of the enemy in one sudden surge without losing a man.

Extra police were ordered for standby duty Wednesday night and a similar order was issued for tonight.

Marines were wearing gas masks and helicopter gunships supplied continuous support. The heavy fighting broke off at 4 a. m. after 12 hours of constant combat, but sporadic contacts continued during the day.

1,566 KILLED
The Que Son valley is a fertile plain leading from the coast into irregularly bunched foothills about 15 to 25 miles inland. In the past several months two big sweeps have been made through the valley, netting enemy 1,566 dead. Now the re-equipped Communist forces in the area appear to be making another effort to wrest control from the Marines.

Meanwhile, U.S. Commanders announced that a search operation 26 miles east of Saigon had found the bodies of an eight-man U.S. Army patrol that disappeared two days ago.

Headquarters said the squad had been ambushed by an estimated 50 guerrillas. It said six men were killed almost instantly and two others evidently lived through the battle and were murdered. One man was believed strangled and the second had been shot in the back of the head by a weapon held so close it left powder burns on the body.

TEAR GAS
The Communists used tear gas in one action, but the Ma-

gon, six civilian losers in the presidential election fled for formal protests with the Constituent Assembly claiming the voting was rigged. They were led by Truong Dinh Dzu, who ran second to Chief of State Nguyen Van Thieu.

Dzu said the protesters were asking for a nationwide recount and for the assembly to void the election and call a new vote.

NEW PEACE BID
A new U. S. peace move at the United Nations was reported today by the New York Times.

It said the United States has proposed to its allies on the Security Council that the council call for an international conference for peace in Southeast Asia, based on the 1954 and 1962 Geneva conferences on Indochina.

The Times report from U.N. headquarters in New York said Chief U.S. Delegate Arthur J. Goldberg, in talks with other delegates, had suggested that the Security Council establish these five guiding principles for such a conference:

CEASE-FIRE
A cease-fire and disengagement of forces in North and South Vietnam; withdrawal of

military forces and dismantling of military bases other than those controlled by the two Vietnamese governments; respect for the frontiers of countries bordering on the two Vietnams and for the demilitarized zone between them; settlement of the question of reunification of North and South Vietnam by the peoples of the two countries without foreign interference, and international supervision of the peace arrangements.

About 125 miles south of the Marine battleground, Viet Cong machine gunners sprayed the flight line of the big Tuy Hoa air base early today and then attacked a nearby South Vietnamese district headquarters at Hieu Xuong.

SENTRY SPRAYED
An American sentry was killed at the \$50 million air base, but none of the three squadrons of American F100 Super Sabre jet fighters was hit.

The opening barrage at the district headquarters wounded three Americans, and the Communists also blew up a U.S. Army fuel dump just south of the air base, destroying several tons of gasoline.

Headquarters reported the loss of the 674th U.S. combat plane over North Vietnam, an Air Force Phantom jet which went down Tuesday due to "unknown causes." The two crewmen are missing.

Two Republicans Book Texas Talks

AUSTIN (AP) — Two Republicans from California, Gov. Ronald Reagan and U.S. Sen. George Murphy, will make fundraising speeches in Texas next month.

Murphy will speak at a \$100-a-couple dinner at Fort Worth Oct. 6, the state GOP headquarters announced Wednesday.

Reagan, perhaps the most-sought after Republican speaker in the country today, will speak at a luncheon in Dallas Oct. 26 and to a dinner in Houston the same day. Both functions are \$100 per plate.

"California is prospering under a two-party political system," said Albert Fay of Houston, Republican national committeeman from Texas. "I'm happy Texans will have the opportunity to meet and hear outstanding Republican spokesmen from that state."

Wreck Injuries Kill Sherman Man

FORT WORTH (AP) — Robert Sparks, 21, of Sherman, died today of injuries suffered in a two-car collision near the Lake Worth Bridge northwest of here Saturday.

Jimmy Lee Miller, 21, of Azle, was killed outright.

Horoscope Forecast

—CARROL RICHTER

GENERAL TENDENCIES: The early part of the day is for steady weather with no getting things accomplished by way of rearranging the deck chairs.

ARIES (March 21 to April 19) Morning is best time to handle bills and other obligations, but be sure later that you are not too busy to do so seriously. Aim to please others. They will find that all goes just beautifully.

TAURUS (April 20 to May 20) Associates are more than happy to go along with your ideas in a.m., but later they become almost belligerent. Pragma come really early. Avoid whatever means taking a good deal of risk.

GENI (May 21 to June 21) Make sure that you are not too busy during morning, since aspects change later and become very difficult for you. Clear up misunderstandings with co-workers in a.m. Don't linger or they may change.

MOON CHILDREN (June 22 to July 21) You can be successful in creative matters early, but later you are over-extended where amusement is concerned. Get that final cooperation arranged on time. Then devote little details of your day.

LEO (July 22 to Aug. 23) Making right plans with kin is best in a.m., since later they will be sure that you can give you very little time. Assert yourself in stating your case. Then steer clear of discussions later in the day.

VIRGO (Aug. 24 to Sept. 23) You are thinking very clearly during morning and should handle whatever requires concentration then. Later you may be rather confused. Partners are more available in a.m. also. Be well off today. A better mood.

LIBRA (Sept. 24 to Oct. 23) Any form of business-making, etc., should be clearly handled in a.m., or you will get wrong facts, picture later on. Get current problems straightened out immediately. Take time for the social tonight.

SCORPIO (Oct. 24 to Nov. 21) Get yourself settled up nicely in a.m. and be prepared to take on your stride any difficulties that may come up later on. Prepare for the social tonight. Show that you have true savoir faire.

SAGITARIUS (Nov. 22 to Dec. 21) Search for information you need in a.m., whether of a personal or business nature, then follow through with your aims without disturbing others. Aid also in a.m. Then forest all about it.

CAPRICORN (Dec. 22 to Jan. 19) Put that clever idea through that will convince a friend to help you with your special project you have in mind. State aims specifically. Then do that needs to be done without further delay.

AQUARIUS (Jan. 20 to Feb. 19) Write to one in civic life for advice you have admiration, but take care later you do not do something to ruin your reputation. Be sure that you are not too busy to better show, improve vocational life. Better early in a.m.

PISCES (Feb. 20 to March 20) Show that you understand and appreciate the ideas of others that are different from yours. Then get busy of work you have to do. Correspond with those out of town. Take some time to rest between chores.

IF YOUR CHILD IS BORN tomorrow, he or she will be one of those extremely clever youngsters who will show the full of their potential. If you are a parent, it will be necessary to show some understanding of their needs. The field of investigation into what others want, not able to comprehend in the hour.

Mrs. Tony Barron Is 'Woman Of The Year'

Mrs. Tony Barron was named "Woman of the Year" for the Scenic Chapter, American Business Women's Association, during a dinner meeting held Tuesday at Ramada Inn. She was presented the Abby Award trophy by the chapter president, Mrs. Kyle Cauble.

MRS. TONY BARRON, MRS. KYLE CAUBLE

Mrs. Barron, who was unable to finish high school in her younger years, received her diploma in 1960 and continued her education at Howard County Junior College where she studied accounting and typing.

She began her business career as a saleslady, and later, buyer for J. C. Penney Company. After 14 months, she went to work at the Book Stall where she did sales work as well as window dressing. She also served as a buyer. Later, she was employed by Hester's Office Supply Store before taking the position of deputy clerk in the Sheriff's Department. She is supervisor and bookkeeper for the department as well as head of the "check" department, one of two in the state.

Mrs. Barron and her husband are parents of two children, Jerry Barron and Mrs. Wade Choate. In the past, she was active in P-TA and the Quarterback Club and is now a member of the Rebekah Lodge and College Baptist Church. She has been a Sunday school teacher and participated in various civic activities.

She became a member of the Scenic Chapter in 1964 and served as president in 1966-67. Mrs. Gene Haston, program chairman, introduced the guest

speaker, Dudley Coleman of Ackerly, who showed color movies of a safari in Africa which

he made with a hunting party in 1966. The film documented their ten days in the jungle, showing how natives assisted on the hunt and at the campsite.

Mrs. Herman Taylor, vocational speaker, told of her work in the office of Jess Slaughter, Justice of the Peace.

Miss Shirley White, chairman for the Hand of Friendship tea, announced that the fall affair will be held in the Community Room of the First Federal Savings and Loan Association from 2 to 4 p.m., Sept. 17. Names of guests are to be given in advance to Mrs. Barron, membership chairman.

In other business, it was announced that the attendance contest will be held from October through December and team captains were appointed. Mrs. Floyd White was named banquet chairman to replace Mrs. Pauline Waits who is moving to Lubbock.

Mrs. Cauble described tours which will be available during the national convention Oct. 20-22, and introduced, as guests, Mrs. A. C. Brewer, Mrs. Dudley Coleman and Gene Haston. Seventeen members attended, and Mrs. Bob Hiedeman gave the invocation.

The October meeting will be a salad supper in the home of Mrs. L. V. Misk. Guest speaker will be Clyde Bryan of Southwestern Bell Telephone Company.

Dear Heloise:

My husband needed a fancy dress shirt to wear to a formal affair. Money being a bit short, I hit upon the following idea:

I bought a strip of narrow white ruffling (a pleated sort of ruffle). I sewed this down the front of one of his nice white French-cuffed shirts under both sides of the tuck where the buttonholes are.

Then I replaced the regular white buttons with small black ones.

It cost me less than a dollar to convert a regular shirt into a fancy-dress one. . . . Miriam Miller

(Write Heloise in care of the Big Spring Herald.)

HINTS FROM HELOISE

Man's Shirt Gets Ruffles

HELOISE

Miriam, I just know hundreds of mothers with teenage sons who rent tuxes, but yet can't rent the shirts, are going to dearly love you. Why should we buy one for a special occasion?

Those fancy shirts cost like gold inlays (the only difference being we use our fillings daily) and teenagers outgrow them so fast, too.

And the nice part about this is that the ruffling can be removed later for everyday wear again.

Wives whose husbands already have plain old tux shirts can add pleating, etc. to their husband's old ones too.

A great big squeeze from us all, honey pie. . . Heloise

Dear Heloise:

A tip for the girls who have trouble peeling fresh pineapple. Just slice pineapple as though slicing bread. Then lay the slice flat on a cutting board and cut the peel off as though cutting crust from bread. No more cut hands and fingers.

You may slice off as much as you need and store the balance in the refrigerator with the cut end down on a plate or saucer. . . Esther T.

LETTER OF THOUGHT

Dear Heloise:

Cleaning house is like making hay and is best done when the sun shines.

If you do each room when it receives the maximum amount of light, it will take a little longer because you will see dust you otherwise would miss.

And on the other hand you will never be embarrassed by tattletale marks when the light changes. . . H. M. B.

Dear Heloise:

We have two little ones, a boy and a girl. When we were trying to teach them good morning habits—wash your face, brush your teeth—we found it a great help if the children could see themselves in the mirror.

Try washing your face and brushing your teeth without the

A LOVELIER YOU

Get 'Spa' Treatment With Water, Herbs

By MARY SUE MILLER

Ever since DeSoto discovered Mountain Valley Hot Springs in 1541, American beauties have visited the spa to rejuvenate their skins by drinking and bathing in its mineral waters. The idea is not just the whim of pretty ladies. The internal and external uses of pure mineral water are documented.

If you feel that your skin has become the victim of summer clog and dulled color, it would benefit from spa care. And you can set up a spa right in your own home with a bottle of mineral springs water, some aromatic herbs or spices, and a steamer—either a facial sauna or a plain stove-top pot.

The herbs used are a matter of taste. They add enjoyment and slight therapy to a sauna. Think on these: Bay leaves, cardamom, ginger root, lavender, lemon verbena, mint extract, eucalyptus, peppermint, vetiver or Swiss kriss.

To take the treatment you simply pour in your mineral

water, add your aromatic and let 'er steam. You then apply a cosmetic free face to the steam, from three to five minutes. Thereafter, the face should be gently sussed down, well-rinsed and repeatedly splashed or compressed with cold water. (Caution: Take care not to clog sauna with herb, to remove steam pot from stove before use.)

Begin with three successive treatments. Then take one each week. After that your skin will look cleaner and more radiant, smoother and better toned than had it gone far afield to spa.

KNOWS NO AGE

Some women age before their time; some retain their youthful beauty and charm. Why? The secrets of non-stop attractiveness are revealed in "Beauty Knows No Age". Advice covers ways to a youthful figure, skin and hair; to flattering make-up, hairstyles and fashions. For your copy write to Mary Sue Miller in care of the Big Spring Herald, enclosing a self-addressed, stamped envelope and 25 cents in coin.

Patio Party For Couple

A patio party Tuesday evening honored Miss Gloria Coker and Paul Petterson when Miss Sharron Creighton entertained at her home, 208 Washington.

Guests registered in a bride's book that was placed on an old-fashioned school desk. For the barbecue meal, guests were seated at foursome tables that were decorated with yellow candles in black wrought iron holders. Tables were covered with orange cloths. The serving area was decorated with small paper flowers, the focal point being a small wooden plaque upon which the hostess had painted a Swedish smorgas.

The guests presented the couple with a collection of household tools.

Twenty-one were present. The couple will be married at the First Baptist Church on Sept. 16.

WCS Plans To Hold Garage Sale

Plans were completed for a garage sale to be held Sept. 14-15 at the home of Mrs. Jerry Allen, 610 Bucknell, during the Tuesday morning meeting of the Woman's Society of Christian Service. The group met at Wesley Methodist Church, and members of the Lalla Baird Circle served as hosts.

Mrs. Don Crockett presided, and Mrs. E. A. Guinn brought the program. Mrs. Victor Sharp worded the opening prayer, and Mrs. Alta King gave the devotion and the benediction.

Fourteen members and one guest, Mrs. David Pohl, attended.

TOPS Queens Are Named In Knott

Mrs. James Wells and Mrs. John Jones were named weight-loss queens for the week at the Tuesday meeting of the TOPS Salad Mixers at the Knott Community Center. Mrs. Don Brasher presided, and Mrs. V. L. Jones of Knott is a new member. Mrs. Frank Powell of Big Spring was a guest. Plans were completed for two new contests, and 22 attended.

BSP Unit To Sponsor Brownies

Plans were completed by the Alpha Beta Omicron Chapter, Beta Sigma Phi, Coahoma, to sponsor a Brownie troop through the Coahoma schools at the Tuesday evening meeting. The group met in the home of Mrs. Kent Cearley.

Mrs. Don Cunningham presided and welcomed Mrs. Clarence Hayes, a transfer member from South Dakota whose husband is serving in Vietnam.

Mrs. Don Greer presented the program on sculpture and painting, showing her work as well as displaying works of Mrs. Dalton Conway.

The refreshment table was laid with a blue cloth and centered with a single yellow rose in a crystal vase.

Ten attended.

Garden Group Sets Projects

"Conserve The Old, Consider The New," was announced as the year's program by Mrs. H. G. Keaton, vice president, at the Wednesday luncheon meeting of the Big Spring Garden Club. The group met at Big Spring Country Club, and Mrs. John Coffee served as hostess.

Mrs. G. T. Hall presided, and Mrs. D. S. Riley, Southern Zone Chairman, announced the zone meeting will be held Nov. 16 at the Permian Chateau in Midland. Registration will begin at 9 a.m., business will be conducted at 10 a.m.; workshop, 11 a.m.; lunch, 1 p.m.; and the program at 2:15 p.m. Mrs. J. Garland Monk of Midland will present the program. "The

Creative Woman's Christmas At Home."

Mrs. Riley gave the program on projects. She told of the national project which included the purchase of \$500 worth of trees for New Orleans, La., replacing those destroyed in a recent storm. Another national project is the planting of trees at the John F. Kennedy Center for Performing Arts in Washington, D. C. The local club will contribute to the fund.

Mrs. J. E. Brown, state project chairman, discussed the donation for the beautification of the governor's mansion in Austin, and Mrs. John Balch, local project chairman, announced local projects for the coming year. They include continued maintenance of the rose garden at the City Park, patio planting at the state hospital and the beautification of the local YMCA grounds.

Twenty attended. The next meeting will be Oct. 4, in the home of Mrs. Bruce Frazier, 1606 E. 25th.

Bridge Marathon Set By Mu Zeta Chapter

Mu Zeta Chapter of Beta Sigma Phi met for a salad supper this week in the home of Mrs. Tommy Tompkins, 119-B Kelly

Circle with Mrs. Robert Knight and Mrs. Ronnie Moser as co-hostesses.

Plans were made to sponsor a bridge marathon to begin Sept. 14 and continue through May. Play will be held each second and fourth Thursdays at 7:30 p.m. in the Teen Room at Cadden Country Club. Mrs. Garland Brown, 263-1536, is bridge chairman, and Sept. 11 is the deadline for entry. Prizes will be awarded.

The buffet table featured an orange linen cloth and arrangement of fall flowers.

The next meeting will be Sept. 11 in the home of Mrs. Jack Berry, 2314 Brent, with Mrs. Richard Atkins as cohostess.

Rebekahs Slate Initiation For Tuesday Evening

Mrs. A. F. Hill, noble grand, presided during the Tuesday evening meeting of Big Spring Rebekah Lodge No. 284 at the JOOF Hall.

A. F. Gilliland requested that the degree staff be present at next Tuesday's meeting for an initiation. A salad supper will be served at that time and each member is asked to bring a salad.

Mrs. Travis Melton reported on the Rebekah Secretary Association meeting which she attended last week in Beaumont, and Mrs. J. R. Petty reminded the group that cookbooks are still available at \$2 each.

The evening concluded with a birthday party for Mrs. Petty, Mrs. Mary Martin, Mrs. Emmett Hull, Mrs. Gene Crenshaw and J. L. Unger. Those who served were Mrs. E. H. Sanders, Mrs. Eugene Cockerham, Mrs. Eglee Patterson, Mrs. Eula Pond and Mrs. Charles Stewart.

Next Tuesday's meeting will begin at 7:30 p.m.

Open 'Til 8 Thursday Nights

'Flower People' Spread Sunshine?

LONDON (AP) — Britain's happy band of hippies, the Flower People, say they are different from their American counterparts. The declared aim here is not to "drop out" but to remain in society and change it.

Simon Barley, a California drama student now living in London, says: "Our Flower Power is like gun power, fire power, man power. We spread lightness, joy, sunshine."

Even so, the Flower People still have a lot in common with America's hippies. They stroll along King's Road, Chelsea, in bare feet or sandals. They wear caftans—loose eastern-style tunics. Indian amulets, beads or bells swing from their necks.

'Fugitive' Says He Killed Wife

BOULDER, Colo. (AP) — Sheriff's Lt. Kenneth Strawn said Buryl Bell, 47, who gave no permanent address, signed a statement Wednesday claiming he killed his wife Ann in Houston, Tex., April 2, 1966.

Strawn said Houston officers verified Mrs. Bell's death but told him it was ruled a suicide. No charges have been filed against Bell, who was jailed for investigation of drunken driving.

Strawn reported Bell said he had been traveling all over the nation since his wife's death and quoted Bell as saying, "I'm tired of running."

Strawn said Bell stated he scuffled with his wife over a gun during an argument, then shot her in the left temple. He said his wife fell across a bed in their home, he placed the weapon on her stomach and left.

Houston officers, Bell said, ruled Mrs. Bell's death a suicide because of powder burns on her hands, believed to have been left when she pulled the trigger.

Bell was quoted by Strawn as saying his wife's hands were burned when she raised them to protect herself as he fired.

The officer said Houston authorities reported they were sending a warrant for Bell's arrest and would ask a grand jury to indict Bell in his wife's death.

Bell was arrested after a sheriff's deputy saw his car moving erratically. About 12 hours after his arrest, Strawn said, Bell asked for a statement and he wanted to make a statement. Then he told of his wife's slaying, Strawn said.

Operatic Baritone Lands College Post

TYLER, Tex. (AP) — Operatic baritone Richard Rivers has been named to the Music Department of Tyler Junior College.

Joseph Kirshbaum, chairman of the department, said Rivers has achieved an enviable record and reputation as a professional singer.

Three Girls Found Slain

AUBURN, Ala. (AP) — Three girls were found slain at a residence today. A woman was wounded.

The victims were Mary Lynn Sinclair, 9, Sarah Elizabeth Sinclair, 18, and Mary Durant, 8. Police said Mrs. Juanita Sinclair was wounded in the arm by a shotgun blast.

Officers reported the younger girls were killed with a shotgun, but the older one was knifed. Police said three murder warrants have been issued for Edward Elbert Seibold, 21, a former Auburn University student who attended the university's recently completed summer session.

Police said the Durant girl was a neighbor of the Sinclair's and was spending the night with the younger Sinclair girl.

Dallas Schools Register 139,512

DALLAS (AP) — Integration of Dallas public schools was completed as classes reopened Wednesday, Sept. 6. W. T. White reported.

Teachers at the 171 schools registered 139,512 pupils. Administrators predicted the total will hit 146,828 by the end of the week if rain stops falling.

White said elimination of dual school boundaries for pupils of different races in the 10th and 11th grades this fall finished the desegregation of the school system.

Elephant's Name Key To Mystery

PORTLAND, Ore. (AP) — Hugo Schmitt, in charge of the elephants for Ringling Bros. and Barnum & Bailey Circus, said recently he is asked daily how he talks to an elephant. "It's no mystery language," he said as he was parading 17 elephants toward a circus tent. "We just say the elephant's name and a one-word command. 'Roma, come!' Schmitt hollered. Roma came."

SPACE DOUBLEHEADER

Cargo Of 'Astrobugs' To Rocket Skyward

CAPE KENNEDY, Fla. (AP) — A biological research laboratory filled with millions of bugs and plants is set to rocket into orbit as the first part of a space doubleheader.

The cargo of "astrobugs" is to rocket skyward today in the Biosatellite 2 spacecraft between 3 and 3:30 p.m. EDT. Less than 13 hours later, at 3:39 a.m. Friday, Surveyor 5 is to blast off from another Cape Kennedy launching pad, aiming for a soft landing on the moon. Biosatellite 2 is to circle the earth for three days while its specimens grow, reproduce and eat to determine what happens to biological processes when subjected to weightlessness and radiation.

PEPPER PLANTS

Aboard are such things as parasitic wasps, frog eggs, flour beetles, amoebae, vinegar gnats, wheat seedlings, pepper plants, bacteria and bread mold.

In all, there are more than 10 million things packed compactly in the spacecraft. When it returns to earth for recovery after 70 hours aloft, the passenger list may have swelled to more than 13 billion, primarily through the rapid reproduction of bacteria-cells, which may multiply through as many as 20 generations during the flight.

'CHEMISTRY LAB'

Some might develop strange mutations either in space or after they return to earth. Some of the frog eggs, for example, will be allowed to develop into tadpoles and then to full-grown frogs.

With the 13 experiments, biologists will be able to study the growth and form of entire plants and animals, structure and growth of cells and tissues and basic chemistry of the individual cell.

Surveyor 5 will pack a camera, a magnet to pick up metallic material and a miniature "chemistry lab" to analyze the lunar soil to determine what elements are there.

The spacecraft will attempt a difficult soft-landing in the Sea of Tranquility near the Crater Molke. This is considered a likely spot for landing American astronauts.

DuPont Generates Giant Buying Power

WILMINGTON, Del. (AP) — The Du Pont Co. says its four Texas plants—at Beaumont, Houston-La Porte, Victoria and Orange—generated \$154,893,000 in direct buying power in 1966 within the state.

Du Pont said its estimate was based on \$112,188,000 paid to Texas firms for goods and services and \$42,705,000 in wages and salaries to more than 4,700 employees.

Rains Rake Pensacola

By The Associated Press

Torrential rains swamped the Central Gulf Coast today, overtaxing storm sewers, flooding streets and pushing water up to doorsteps in some communities.

Pensacola, Fla., was deluged with more than 14 inches of rain in 20 hours before it stopped falling at 4 a.m. Gulfport, Miss., measured 7.77 inches and Mobile, Ala., 6.12 inches.

A water spout spawned by the storm center hanging over lower Mississippi churned out of Mobile Bay in the Fowl River Area, but damage was light and there were no reports of injuries.

Pensacola police Capt. Also Rasponi reported streets were flooded in several sections of the Florida Panhandle city. On one thoroughfare five blocks from downtown the water was up to the hoods of cars.

The Weather Bureau at Miami said the downpour was extremely localized in some areas. Milton, just north of Pensacola, received only 1.5 inches of rain.

A 50-foot bridge linking Snake Bayou la Batre, west of the mouth of Mobile Bay, was swept away after two shrimp boats broke loose from a dock and smashed into the span. More than a dozen families were stranded by loss of the bridge.

Scattered and light to occasionally moderate showers continued in parts of waterlogged northeast Texas. But there was

no indication of any gullywashers of the 7-inch variety that hit the Bonham area Wednesday.

Lingering thundershowers dampened the region from the Southern Rockies to the desert Southwest, but rainfall amounts were light. Clear and pleasant weather prevailed over remaining sections of the country.

Early morning temperatures ranged from 36 at Houlton, Maine, to 87 at Blythe, Calif.

Rifle Slayings Hearing Slated

GEORGETOWN, Tex. (AP) — A hearing tentatively has been scheduled for Friday on whether James Wolcott, 16, may be tried as an adult in the Aug. 5 rifle slayings of his parents and sister.

Wolcott's father, Dr. Gordon Wolcott of Southwestern University, his mother and 17-year-old sister were shot to death with a .22 caliber rifle in their home.

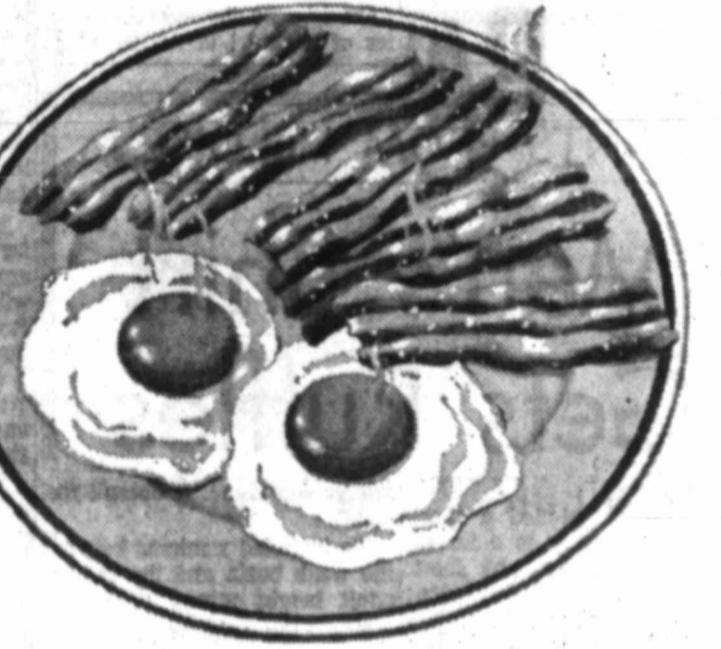

Wolcott has been held without bond in the Williamson County jail since the morning of the triple slaying.

Water Closes Road

AUSTIN (AP) — The Highway Department said today that high water closed Farm 100 between Honey Grove and Monkstown in Northeast Texas between Paris and Bonham. It was uncertain when the route could be reopened.

First Place Traffic Heavy In American

By The Associated Press
First place in the American League is like a can of sardines, a telephone booth holding 84 college students—crowded. Minnesota, Chicago, Detroit and Boston all squeezed into the top spot Wednesday night in a virtual four-way tie which left baseball buffs scratching their heads to recall a similar jam so late in the season.

It took a crowbar to get a percentage point between the four as the Twins and White Sox each sported 78-61 records for a .561 percentage and the Tigers and Red Sox panted that point behind at .560 with 79-72 marks.

HAVE REASON
"We're purposely doing this," says Chicago Manager Eddie Stanky with a smile. "We want to keep football off pace."

WINS NO. 29 Earl Wilson, Detroit

Playoff Would Delay Series

NEW YORK (AP) — Baseball Commissioner William D. Eckert has announced the dates for this year's World Series but the bunched American League race could cause a change in plans. If the pennant is decided when the season winds up Oct. 1, the Series will begin Wednesday, Oct. 4 in the American League winner's park. The second game will be played Thursday, Oct. 5. After a day off for travel, the Series will resume Saturday, Oct. 7 in the National League park. Game four will be played Sunday, Oct. 8 and the fifth game, if needed, will be Monday, Oct. 9. If a sixth and seventh game are needed, they will be played Wednesday and Thursday, Oct. 11-12.

An American League pennant tie could scramble those plans considerably. Under AL regulations, should two teams tie for the pennant they would play a best-of-3 series. If three teams tie, a maximum of five games could be played in a round robin series in which teams losing two games would be eliminated. In the event of a four-way tie, two sets of best-of-3 series will be played with the survivors meeting in another best-of-3 playoff for the title. After Wednesday's games, all four American League contenders—Minnesota, Chicago, Boston and Detroit, were in a virtual first-place tie. Playoff plans, should they be necessary, will be announced by the American League in about 10 days.

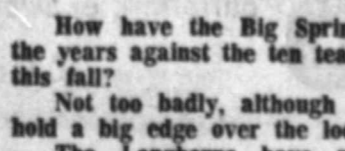

On purpose or not the Tigers rushed in by whipping Kansas City in a two-night doubleheader 8-5 and 6-3; the White Sox entered on tip-toes, nudging California 3-2 in 13 innings; the Red Sox made it by not playing, and the Twins made it all possible by losing an afternoon game to Cleveland 3-2.

No other games were scheduled. Manager Cal Ermer of the Twins took his loss in stride and counted on Cleveland to help clean out the crowd.

"I hope Joe Adeck (Indian manager) plays Chicago the same way he played us," Ermer said. "He saved his best pitchers for us, knocked our hitters down and played for keeps. Cleveland has seven games left with the White Sox and four left with Boston, so the Indians

LOOKING 'EM OVER

With Tommy Hart

How have the Big Spring Steers fared down through the years against the ten teams which grace their schedule this fall? Not too badly, although Abilene High and San Angelo hold a big edge over the locals in their all-time series. The Longhorns have played better than .500 ball against six of the ten opponents they'll be facing.

In 36 games against Lamesa, the Steers have won 19, lost 12 and played five stalemates. The Tornados beat the Big Springers rather convincingly last year, 15-0, however. Big Spring also holds a 9-3 advantage over Plainview in the all-time series, and has barely shaded Snyder, 9-3. Snyder held the edge in the set until 1965 but Big Spring won that year, 34-7, and again last season, 34-0.

The Black and Gold has also won four of five assignments against both Midland Lee and Abilene Cooper and hold a 15-14 advantage in games over the years with Midland High School.

Abilene High has won the astonishing total of 32 games, compared to only three defeats and two ties, in contests with the Bovines. San Angelo has done almost as well, with 20 victories compared to only nine losses and four deadlocks.

Odessa Permian has defeated the Steers five times while losing three. Odessa High had shaded the Steers 15 times while yielding nine decisions. Two other games between the two schools have resulted in ties.

Against this year's ten opponents, the Longhorns have an over-all record of 90 wins, 121 defeats and 13 ties. Don White of Big Spring is one of three Whites listed on the SMU football roster. The Ponies also have three Richardsons, two Jordans and two Livingtons on their varsity roster.

The namesakes are not related but the two Livingtons, Mike and Jimmy, both played for South Oak Cliff High School in Dallas.

could help us a great deal." His losing pitcher, Dave Boswell, did some brooding after Luis Tiant outdueled him with a seven-hitter and singled in the two decisive runs in the fourth inning.

"I was told not to throw fastballs to Tiant because he was supposed to be a good fastball hitter," Boswell said. "So he hit a high slider."

The Twins managed two runs off Tiant, 9-0, in the sixth on Rod Carew's two-run bloop single before Tiant shut the door. Detroit took full advantage behind Eddie Mathews and Earl Wilson.

HIT 2 HOMERS

Mathews, an old hand at helping win pennants, drove in three runs in the opener with two homers, the second capping a four-run seventh inning and snapping a 4-4 tie. His first shot tied the game 2-2 before Ramon

Webster and Dick Green homered for the A's in the fifth. Wilson made sure of becoming the first 20-game winner in the major leagues by belting a tie-breaking two-run homer in the seventh inning of the nightcap for a 4-3 lead.

The White Sox, as is their way, made the scene the hard way against still ambitious California, which had won four straight and seven of eight and could have climbed within five games of the top with a victory. The Sox needed two runs in the 11th on pinch hitter Smoky Burgess' run-scoring double and a passed ball that let in another run to get to the 13th. Then Duane Josephson singled with one out in the 13th and Ken Berry ended the 4-hour, 43-minute battle with a run-scoring double off Pete Grinino, the sixth California pitcher.

Coach Talks Over Chances

"There's a lot of difference between March and September," Spike Dykes, Big Spring High School football coach and athletic director, mused in a talk Wednesday to the Downtown Lions Club.

"In March I was up here telling you how bright the outlook was. Now here it is September, and we haven't got a chance." But Dykes took his tongue out of his cheek and let the club know that he still thought things were bright, and that was because his boys were giving "100 per cent plus effort."

"We like to win, make no mistake about that," said Dykes. "We expect to win, and we're poor losers, but the thing that really matters to us is whether we give it all we've got. We want our fans to be able to leave the stadium with their heads up — win or lose."

He has a number of boys who will improve with experience, he said, and how rapidly they come around may determine how the Steers fare in season's play. To try and remedy this situation for the future, he said juniors who likely won't get into district games will be assigned instead to the junior varsity so they can play regularly.

"People of Big Spring should be proud of their boys," Dykes declared. "In all the time I've been out here I haven't heard a cuss word, haven't had to make anyone put out all he has, haven't had to ask anyone to get a haircut."

Graebner Set For Emerson

FOREST HILLS, N.Y. (AP) — "He'll be more scared of me than I'll be of him—the pressure will all be on his side of the court."

He may be churning inside but scholarly looking Clark Graebner of Beachwood, Ohio, is outwardly full of calm and confidence as he looks toward his quarter-final battle with Australia's veteran Roy Emerson Friday in the National Tennis Championships.

Graebner, booted off the U.S. Davis Cup team a year ago because of his violent temper, swept into the quarter-finals for the second straight year Wednesday by beating Mark Cox, England's No. 3 Davis Cup ace, 6-3, 6-2, 6-4.

Graebner is one of four U.S. survivors. The other three were scheduled for fourth-round action today. Ron Holmberg, the balding veteran from West Point, N.Y., played Gene Scott of St. James, N.Y., in one match while Bobby Lutz, the Los Angeles youngster, faced South Africa's Bob Hewitt in another.

Graebner was joined in the quarter-finals Wednesday by Emerson, who toyed with Marcelo Lara of Mexico, 6-4, 6-2, 6-4; Ron Barnes of Brazil, who beat Australia's Bill Bowrey, 7-5, 3-6, 9-7, 7-5; and Jan Leschly, the remarkable 26-year-old Danish druggist, who scored his third straight upset in beating Thomas Koch of Brazil, 4-6, 6-3, 6-2, 6-1.

The lower bracket of the women's division is slated to go

Packers And Rams Picked In Divisions

NEW YORK (AP) — Green Bay will win the West. Who else? The Packers already have installed an electric heating system to warm the field for the Dec. 31 title game.

The Packers convinced both the NFL and the AFL last season when they added the Super Bowl to their triumphs in the National Football League.

Green Bay's opponent on New Year's Eve probably will be Dallas. Before that game, they must dispose of the Los Angeles Rams, who are the pick here to take the Coastal Division of the West.

It looks like a big season for the snow boot and parka set. Green Bay winds up its regular season at home, Dec. 19. If they win the Central Division, as expected, they play the Coastal winner at Green Bay Sat. Dec. 23. If they win that they play the Eastern champs Dec. 31, once more at Green Bay.

Here's the way the West looks from here:

- CENTRAL**
- Green Bay
 - Detroit
 - Minnesota
 - Chicago
- COASTAL**
- Los Angeles
 - San Francisco
 - Baltimore
 - Atlanta

BIG DADDY SMALLER

EL PASO — Thurman (Big Daddy) Randle, Texas Western strong side tackle from Big Spring, has lost 29 pounds since last spring on orders from head coach Bobby Dobbs.

Randle ballooned to 295 pounds at one time but is now down to 266.

Big Daddy, a senior at UTEP, is running with the Miners' first team. He is still the biggest man in Western's starting unit.

BIG SPRING BUSINESS REVIEW

11-B

BIG SPRING, TEXAS, THURSDAY, SEPTEMBER 7, 1967

11-B

New Pharmacist Added

Joins Staff

Paul Keele, left, aids manager Bennett Brooke in checking inventory his first day on the job. (Photo by Frank Brandon)

Former Soda Jerk Joins Classmate In Business

The customer comes first. With this thought in mind, Paul Keele was added to the pharmaceutical staff at Bennett's Drive-In Pharmacy, 305 W. 16th, last week to provide even more efficient service for Big Spring residents.

Keele is no stranger to Big Spring or Bennett Brooke, manager of the pharmacy. He and his family lived here from 1951 to 1965, then moved to Denison for two years.

"Bennett and I used to jerk sodas together while working at a drug store when both of us were in pharmacy school at Texas University," recalled Keele.

Together again, they will continue to offer fast, friendly service characteristic of the pharmacy. The near-perfect location between the 1600 block of Gregg and Lancaster streets is off the fast traffic of Gregg, away from downtown congestion and away from areas near schools causing extra traffic hazards. It offers a relaxed, non-congested atmosphere with convenient

and ample parking space, both front and rear.

An asphalt driveway leads the customer directly to the side of the pharmacy to the drive-in window built with the customer in mind. Here the customer can pull directly beside the window without having to drive around the pharmacy, or twisting and turning to avoid hitting other buildings too close to the window or other nearby objects as offered by other pharmacies.

"The customers must like the drive-in facilities because we handle almost 50 per cent of our business that way," said Brooke.

A coffee bar with coffee ready at all times for tired customers or customers visiting with other friends is offered by Bennett's. This added convenience is appreciated by many regular customers who have their own "claim to fame" in a personalized coffee cup. Brooke has hand-painted characteristic symbols of some of the regulars on their own coffee mugs. A postman, commemorative stamp, stock market sheet or dog in an aviator's helmet are just a few examples.

Most people need prescriptions between the hours of 9 a.m. and 6 p.m., directly after they see the doctor. And that's exactly the hours Bennett's Pharmacy is open, Monday through Saturday.

Bennett Brooke also takes special interest in everyone's state of health. Heart disease, one of the nation's top killers, is of primary concern to Brooke. He offers these suggestions:

Understand heart disease. Do not fear it. Learn your health status by periodic medical examinations. Reduce weight if obese. Eat less in the hope you will live longer to eat more. Don't experiment with special diets. If your physician thinks you need one, he will prescribe it. Exercise regularly. If you have heart trouble your physician will set your activity limits. Don't smoke. If you must smoke, use cigars or a pipe moderately.

Tourism Increase Hikes Hotel Costs

MEXICO CITY (AP) — Eight hundred million pesos (\$64 million) will have to be invested in Mexico in the next six years to cope with the tourist increase, Mexico's Tourist Department head, Augustin Salvat, says.

Salvat told a symposium on tourism, organized by the American Chamber of Commerce that investment of \$11.2 million annually will permit the increase of the city's hotel room capacity by 100,000 units, which is the estimated annual tourism increase.

He said that as tourists demand for better service, the price of building a hotel room has gone up.

State National Bank Offers Latest In Banking Services

Courtesy, convenience, efficiency. Just three of the reasons customers find banking at State National a pleasant experience.

By keeping up with the latest in banking services, State National is constantly improving its ability to service accounts. One major aid keeping tabs on customer accounts is a computer system centered in Lubbock.

"Customers probably aren't even aware until they receive their statements that their transactions have been to Lubbock and back for processing," said John Currie, president of State National. The only apparent difference is a new design and texture of the monthly statement.

The materials sent from State National — as well as a number of other area banks and businesses — are fed into the National Cash Register 315 Electronic Data Processing system, which represents an outlay of approximately a million dollars. At the rate of about 2,300 per hour, the transactions of the day are fed into the system, balanced, computed, analyzed and printed.

One product of the processing center is a daily journal showing all accounts active on a given day, the credits and debits, and balances. Should there have been an inadvertent over-draft, this will show, together with the balance were it honored. A second report is a statement of all accounts at the end of any day. Thus, tellers or others at the bank will be able, by thumbing to an account number, to tell a

customer quickly what the balance is or if there has been any activity in the account recently.

Customers are encouraged — even urged — to use personalized checks which not only have

the name printed on them but also the coded account number in magnetic ink. The more active accounts will in time be given personalized deposit slips with the coded account numbers on them.

"About 64 per cent of all checks are processed at some time in EDP in their course of clearing," said Currie. Slips won't be long until virtually all are handled electronically — all the way. We're just following a policy of staying in step with the times. It will help out customers, and help us by being able to know about them and their needs."

Another feature of State National is an easily accessible all-night deposit facility. It is located in the north walk of the newer addition of the bank in a well-lighted area. You just drive up, drop in your deposit and you're on your way again.

It's easy to use. Pull down the bar marked "envelopes" and drop the deposit in the opening. It immediately drops into a safe within the bank as the bar is released.

The depository is in addition to drive-in windows on the north side of the bank for more convenient banking — hour business — by those who prefer to bank by car.

These courtesies are representative of steady growth of the oldest bank in Big Spring. It is home owned and operated. Bank at State National. You will find every convenience used by most modern banks in the country, combined with old-fashioned politeness.

THOMAS OFFICE SUPPLY

School Supplies Offered

School days will find students turning to Thomas Office Supply, 101 Main, for a complete line of better — grade school and office supplies — everything from pencil sharpeners to the best in portable typewriters.

A featured item is the new Royal Ultronic portable typewriter, a fully — electric model perfect for home, professional or office use. The electric carriage return is just one convenience that lets the Royal Ultronic show what it's made of. The key moves your carriage, returns it to the margin automatically, advances the cylinder to the next writing line. Every important control is fully electric.

A five year guarantee covers replacement of any defective part (except rubber parts, ribbons or any damaged by accident or misuse); no labor charge is made for repairs within the first 90 days.

Complete with a wider carriage than most typewriters, the Royal Ultronic sells for less than \$200.

A supply of other portable Royal electric and manual type-

writers, both new and used, are available from \$49.50 up. Eugene Thomas, manager, says

Complete Typewriter Line

Eugene Thomas, manager of Thomas Office Supply, demonstrates one of the many Royal typewriters available for students and businessmen. (Photo by Frank Brandon)

the company's most recommended typewriters. Royal's years of research and testing have produced the only finger balanced keyboard. Each key has an individual spring, especially adjusted to the strength of the finger that touches it.

The result is the lightest, most evenly balanced touch of any manual. The Royal 440 is available in over 100 different styles to suit your requirements, and is made in a number of special keyboards.

In addition to the wide range of typewriters to choose from, school supplies for even the youngest student can be purchased at Thomas Office Supply. Better grade notebooks, notebook paper, indexes, pens, pencils, reading aids and an assortment of items to meet the most demanding student's needs are available.

To serve you at Thomas Office Supply are Mrs. Don Anderson, bookkeeper; Mrs. J. D. Caudle, sales clerk; Don Anderson, repairman; and Mrs. Eugene Thomas. For information, dial 267-6621.

Nearly 12,000 Members In BIG SPRING DAILY HERALD Texas Real Estate Assn. New Act Requires Special Training

SEC. C BIG SPRING, TEXAS, THURSDAY, SEPTEMBER 7, 1967 SEC. C

The Texas Real Estate Association is a group of nearly 12,000 members who engage in the real estate business. Its primary purpose is to offer real estate education to its members and to offer service and assistance to local Boards of Realtors. TREA is also responsible for surveillance of the enforcement of the Code of Ethics of the National Association of Real Estate Boards. There are 100 Boards of Realtors across Texas. They are to be found in almost every area of the state where commercial activity is significant. Some Boards of Realtors encompass several counties. Others cover only a city or a segment of a metropolitan county. Jurisdictional limits are determined by the type of market area to be served, and the variety of real properties to be sold in the region. Where Boards have not been established, individual Realtor members are permitted.

MEMBERS

Membership is divided between Realtors, their salesmen who are called Associates, and affiliate members from other areas of the real estate business such as home mortgage men. Realtor members of TREA may join numerous special societies and groups representing specialties in real estate. Among them are the Farm and Land Brokers and Exchangers. The Farm and Land Brokers are specialists in handling large agricultural and industrial land transactions. Exchangers specialize in the unique tax advantages of land exchanges. Generally, the exchange avoids transfers of cash to realize tax savings to the seller.

MULTIPLE LISTING

These groups will sponsor a program on a Multiple Listing Service. MLS, as it is called, was originated for the home buying public. When the new house listing is submitted to the Multiple Listing Service, each member broker gets a copy of the listing with important facts about the home. In this way, every broker in the service then may show the home. Experience indicates a much faster sale for the homes listed in MLS.

Buyers likewise profit from the service. They can go to one broker's office and immediately become familiar with every property in town which may fit their needs. Farm brokers and exchangers will discuss extending this program to farm and land sales and exchanges of real property.

Jeff Brown, arrangements chairman for the local board, stated, "This is a marvelous opportunity for our members to participate, first hand, in TREA activities. Realtors here are striving to serve this community and our own Realtors will profit from this fall meeting of TREA."

OFFICERS

Officers of the Texas Real Estate Association are: P. C. Naylor Jr., San Antonio, president; Lloyd Fadrique, Houston, secretary; and Don Osborne, Lubbock, treasurer. Regional vice-presidents: Don Mason, Amarillo; A. L. Purvis, Fort Worth (who is to become state president in 1968); Lawrence Miller Jr., Dallas; Dennis Wagner, El Paso; Joe Perrone, Austin; K. E. Antone, Houston, and Forrest Allen, Corpus Christi.

Big Spring Group Works Closely With Air Force

The Big Spring Board of Realtors, host group for the fall Directors meeting of the Texas Real Estate Association, is a business group of 33 members. Harold Talbot, president, states "The prime function of a Board of Realtors is to insure that the public may purchase or sell a home more rapidly. The Realtor tries to conduct the whole transaction with the latest, most professional real estate techniques."

AID MILITARY

"In Big Spring," Talbot said, "realtors work particularly hard to place incoming Air Force personnel. We know the problems of husband and wife when they are forced to stay for a long time in temporary housing such as a motel or the guest house at the base. Several children and a pet or two is about more than the mother can take in crowded quarters. We have been most fortunate in finding homes for these families soon after their arrival."

Talbot reports that his members are particularly proud of their designation as Realtors. Not every licensed real estate broker is a Realtor. "The term 'Realtor' can be used only by members of the National Association of Real Estate Boards, the Texas Real Estate Association, and our local board," he said.

CODE OF ETHICS

Realtors are responsible to the public under the Realtor's Code of Ethics. This national code is a series of "do's" and "don't's" designed to give the best in client service. One section, for example, requires that a Realtor should ascertain all pertinent facts concerning every property for which he accepts the agency, so that he may fulfill his obligation to avoid error, exaggeration, misrepresentation, or concealment of pertinent facts."

The public, if it feels our code has been violated, may actually bring a complaint to the Board of Directors, and the Board will conduct a hearing to see what kind of violation there was and how serious it was. Depending on type and seriousness, a member can be fined, or suspended or his membership revoked.

GUARANTEE

"In Big Spring we have not had to take such action against a member recently, but this code is a good guarantee for the home owner," Talbot said. "Realtors strive for professional services to home owners and buyers and maintain such standards by strictly adhering to the code," he concluded. Officers of the Big Spring Board of Realtors, in addition to Talbot, are: Jack Shaffer, vice president; Mrs. Lee Hans, secretary; Thelma Montgomery, treasurer, and Jeff Brown, member of the executive committee.

P. C. NAYLOR JR.
San Antonio
President of TREA

More protection for the home buyer than ever before is promised under a newly revised Real Estate License Act. The new act, effective Aug. 28 of this year, requires both the real estate broker and his salesman to attend courses in real estate instruction.

Pleas C. Naylor Jr., president of the Texas Real Estate Association and also a member of the Texas Real Estate Commission, is enthusiastic about the new act. He had this to say recently: "Texas now has the finest real estate license act in the nation with its guarantees of education for salesmen and brokers and with the new canons of professional ethics it requires."

NOW CHANGED

Before the recent changes only an exam was required of salesmen wishing to enter the business. A broker's license could be obtained after holding a salesman's license for one year. Or the applicant could submit 30 classroom hours of real estate instruction in lieu of the year as a salesman.

All this has changed. A person wishing to be a salesman may take an exam and get a

license as before. Now, however, during his first year he must take a 30 hour course in real estate. He may do this in the classroom or by correspondence. If a person wishes to apply for a broker's license he must now show the Real Estate Commission proof of at least 90 classroom hours of real estate instruction to be eligible for the broker's examination. Each license is obtained only after passage of an examination administered by the Commission.

HAS KNOWLEDGE

The new act guarantees the public that the salesman knows something about real estate. Courses taken by the applicant must have been approved by the Commission. Courses will include the study of residential construction and the effect taxes have on real estate ownership. Salesmen will be required to understand the importance and legal significance in the home buying of all real estate closing papers. Brokers will be required to know even more. Their instruction will go into the problems of commercial real estate, appraisals, capital gains, and property management.

New Vet Loan Program Is Due To Get Approval

Realtors meeting at the fall directors meeting of the Texas Real Estate Association will be discussing key real estate legislation. The TREA Legislative Committee has co-chairmen: Don Osborne of Lubbock and John Stemmmons of Dallas.

High on the list of legislation to be considered is the proposed constitutional amendment to extend the life of the Veterans' Land Program in Texas. Osborne stated before the meeting, "I expect the Board of Directors to overwhelmingly approve of this much needed GI program. It is the only fully self supporting program for our GI's of all wars including the Vietnam conflict."

VOTE ON NOV. 11

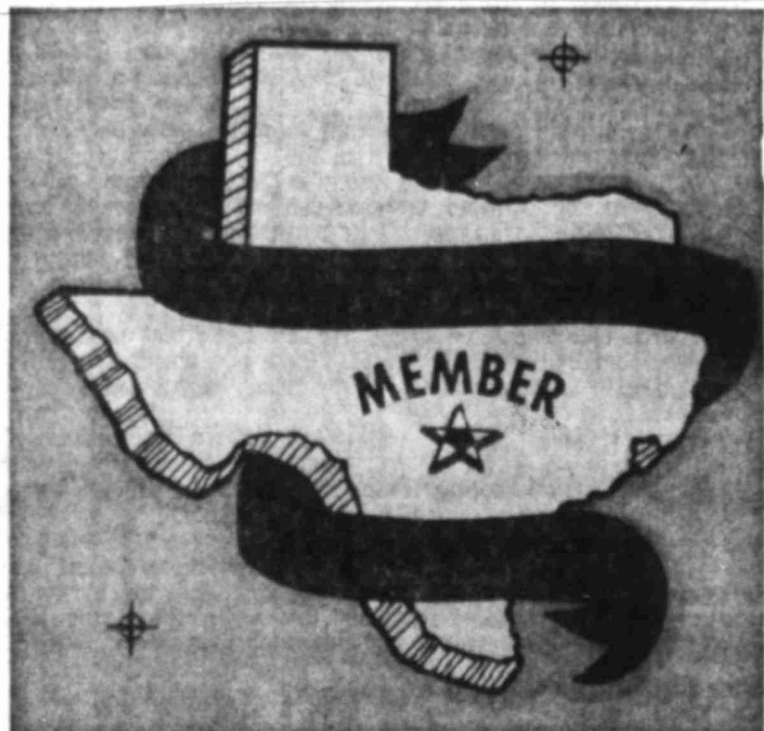

The voters must approve continuation of the program on the general election ballot Nov. 11, 1967. The measure will provide an additional \$200,000,000 in loan funds for the program.

Present funds are exhausted. Veterans will be able to acquire up to \$10,000 in land at only five per cent down and may repay over a 40 year period. The current interest rate on the loan is 4 1/2 per cent.

The state purchases the land and keeps title. A contract of sale is given to the ex-GI. Anytime after three years he may pay off the loan and take title to the land.

RESIDENCY

An important new feature relates to the residency requirement for participants. Under the new plan any ex-serviceman who has resided in the state for at least five years prior to his application will be eligible. This will be most attractive to servicemen planning to retire in Texas. All persons having served honorably in the nation's armed forces for 90 days or more will be eligible.

A BIG BIG SPRING WELCOME

To The Fall Meeting of Directors of

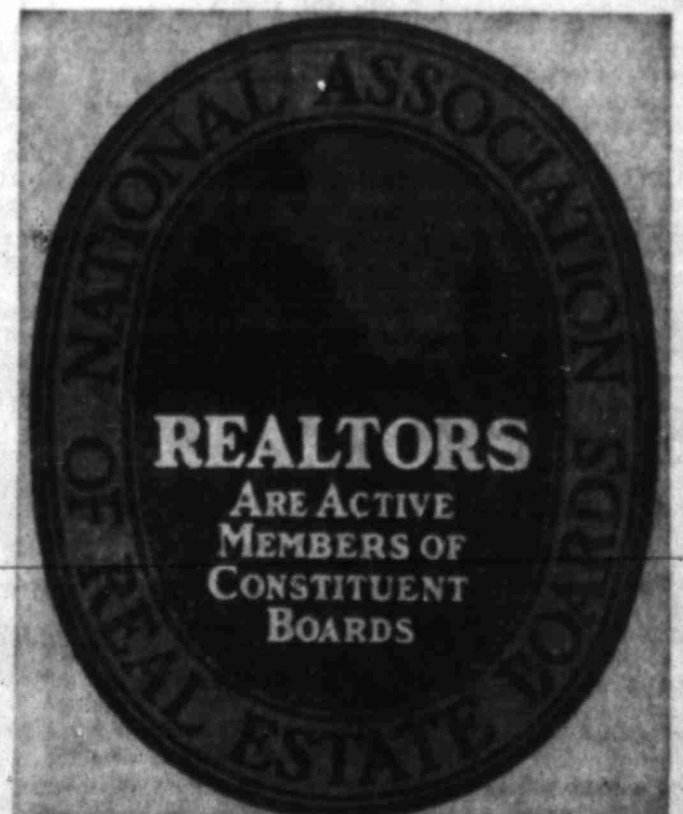

TEXAS REAL ESTATE ASSN.

We, who are closely associated with your operations, express the feelings of all the citizens of Big Spring when we hope you find here pleasant accommodations and a hospitable spirit at every turn. You are meeting in Big Spring for the first time, and we know that all the "home folks" are glad you're here and want to make you feel at home.

We who have intimate relations with the work of Realtors express our appreciation to their business standards and their mission of carrying out their work in a professional and

ethical manner. You occupy an important role in the economy of any community and all the country, and your work is of benefit to buyer, to seller, and to all others with whom you come in contact. The term "Realtor" is something to be proud of, and we know you take pride of your position in this respect.

It is the wish of all of us that your stay in Big Spring will be pleasant and profitable. If you have the time to visit, all our offices are open to you.

MRS. RAY LAWLIS

Cafeteria Head Lets Wife Cook At Home

By RHODA LEMONS

Does a wife whose husband is food service director of the Big Spring Public Schools have to cook at home? Mrs. Ray Lawlis, 2312 Roberts, answers with an emphatic "yes," but explains that like many other husbands, he does most of the backyard barbecuing, and he cooks outdoors in both winter and summer.

The Lawlises moved here about a month ago from Kermit. They have four children, Steve, 13, an eighth grade student at Goliad Junior High; Rob, 12, seventh grade student at Goliad; Susan, 11, sixth grader at Kentwood Elementary; and Scott, eight, a third grader at Kentwood.

Mrs. Lawlis admits that until about five years ago she never really learned to cook because the family had meals in the restaurant her husband operated. She now prepares three meals a day in summer and two meals in winter, as the children and her husband eat at school.

"The most difficult thing for me concerning meal preparation is having sufficient quantity and an interesting variety in meals," said Mrs. Lawlis. She usually plans flexible menus about a week in advance, and shops carefully, maintaining a budget and watching for specials that appear in the papers. She sometimes prepares food in advance, but her freezer is small, and her family prefers things as they are cooked.

Mrs. Lawlis asserts that her husband is very easy to please, and one of the family favorites is a casserole. Meals are always planned around lots of green vegetables and salads as her husband is nutrition conscious. Fresh fruits are provided for between-meal snacks.

Mrs. Lawlis is assisted by her husband in marketing and he usually selects the meat to be served. He is also "marvelous" when she needs extra help in the kitchen, a trait that has been inherited by their sons, who are also adept in the kitchen.

When the Lawlises moved into their tri-level home, they found they needed an extra bedroom for their older sons. They took one-half of the garage and converted it into a handsome den and bedroom combination, with Mrs. Lawlis doing much of the work herself. They have repainted the main floor and plan to take out a door and install a bay window overlooking the dining area.

Mrs. Lawlis enjoys her work at home and is presently involved in crewelwork. She sews

for herself and her daughter. Her theory is to buy fine fabrics and no matter how long it takes, do an excellent job in order to be really proud of the finished product. She recalls making a chiffon cocktail dress for herself that took a couple of months to complete. She feels that the only way to save money sewing for oneself is by making something that would be expensive to buy and perhaps difficult to make.

Mrs. Lawlis is an amateur gardener and works with plants both outdoors and indoors. A deck overlooking the backyard extends from the master bedroom, and she plans to have it arrayed with a variety of plants by next summer.

Mrs. Lawlis has done volunteer work in hospitals in the past and hopes to find a piece of service during her stay in Big Spring.

Barbecue Chops On Stove Top

Ever wonder how we got the word, "barbecue?" One version suggests it comes from a Spanish term, barbacoa. This means an elevated frame used for certain types of outdoor roasting, as for coffee beans.

Another source suggests it comes from a French phrase, "barbe a queue," literally, "beard to tail." At the original barbecue the animal was roasted whole. Now, barbecue means roasted meat served to a gathering.

It's possible, however, to achieve a similar flavor right on range by using sauces and seasonings after meat is browned. These rib pork chops are cooked with moisture, a barbecue sauce.

Rib pork chops are those with a single, large muscle all on one side of the bone. When cut an inch thick, they make an adequate serving for the average appetite.

Fill Cookie Jar For Hungry School Child

If you have adventurous youngsters in your home, you'll certainly want to keep a well-stocked cookie jar all year round. Oatmeal cookies are a proven favorite for good munching. It's amazingly easy to make plenty of goodies when you use soft-type margarine containing liquid safflower oil. The delicate texture and flavor assures marvelous baking results. And it's always ready to use—no need for creaming or waiting for it to soften at room temperature. To make Huck

Finn Oatmeal Cookies you simply mix all the ingredients until well blended and the cookies are ready for baking.

The soft margarine recommended in this recipe contains a high percentage of pure liquid safflower oil which means it is lower in saturated fats than any other spread on the market, including the corn oil ones.

HUCK FINN OATMEAL COOKIES

1 tub (1 cup) soft-type margarine containing liquid safflower oil
2 cups firmly packed brown sugar
2 eggs
1 tsp. vanilla
1 1/2 cups unsifted all-purpose flour
1 tsp. soda
1 tsp. cinnamon
1/2 tsp. salt
3 cups quick-cooking oats
1 cup raisins or chopped nuts

Measure all ingredients into mixing bowl. Beat at low speed of electric mixer or mix by hand until well blended. Drop by heaping teaspoons two inches apart on ungreased baking sheet. Bake in 350 degree oven 12 to 15 minutes. Remove immediately from baking sheet and cool.

Yield: Three to four dozen cookies.

Make Pie For Party

A fresh fruit pie to please your family and guests.

PEACH CHIFFON PIE

1 envelope unflavored gelatin
1/4 cup cold water
4 medium-sized fresh peaches, peeled and crushed (about 2 cups)
1/2 cup plus 2 tbsps. sugar
1 tbsps. fresh lemon juice
1/4 tsp. salt
1 egg white
1/2 cup heavy cream, whipped
1/4 tsp. almond extract
9-inch baked pie shell

Soften gelatin in cold water; place over hot water to dissolve. Combine peaches, 1/2 cup sugar and lemon juice; add dissolved gelatin and mix well. Chill until mixture begins to thicken. Add salt to egg white and beat until soft peaks form; beat in remaining two tablespoons sugar. Fold into peach mixture. Fold in heavy cream and almond extract. Turn into baked pie shell; chill until serving time. Garnish with additional whipped cream and sliced peaches, if desired. Makes six to eight servings.

Exotic Nibbles For Party Fare

1 bag (4 ozs.) Japanese-type peanut snacks
1 bag (4 ozs.) Japanese-type cheese snacks
1 can (6 1/2 ozs.) cocktail peanuts
1 can (6 1/2 ozs.) mixed nuts

In a serving bowl, mix together the snacks and nuts. Makes enough for 1 1/2 to two dozen nibblers. (Store any leftover in a tightly covered tin.) Nice served ladled into Japanese-type small teacups (without handles).

SUMMER SPAGHETTI
Pasta takes to mushroom sauce

Best Spaghetti Recipe Is Perfect For Summer

Well, here it is — an unhackneyed version of spaghetti. Perfect for summer because it's sauced in a light and lovely way. This is one recipe you won't find in any version whatsoever, in cookbooks.

Crisp thin bread sticks are a must. For the salad use cooked snap beans and green onions, marinated in a spicy mixture of vinegar and sugar, and arranged on romaine.

For the beverage serve iced tea along with the pasta and the salad. How to make good iced tea? First, use enough tea — for 4 glasses, use 6 teabags or 6 teaspoons of loose tea. To make a big pitcherful, you might like to follow the directions given after the Summer Spaghetti recipe.

it over the top. Makes four servings.

Food Editor's Note: We found that an inexpensive, robust-flavored domestic Burgundy was perfect to use in this recipe.

Into a saucepan pour one quart of cold water; bring to a boil. Remove from heat; at once add 15 teabags or 1-3 cup loose tea. Stir. Cover and let stand for five minutes. Strain again and strain into a pitcher holding an additional quart of cold water. Cover, but do not refrigerate. When ready to serve, pour into ice-filled glasses and offer with wedges of lemon and sugar or a sugar substitute. Makes 10 servings.

SUMMER SPAGHETTI

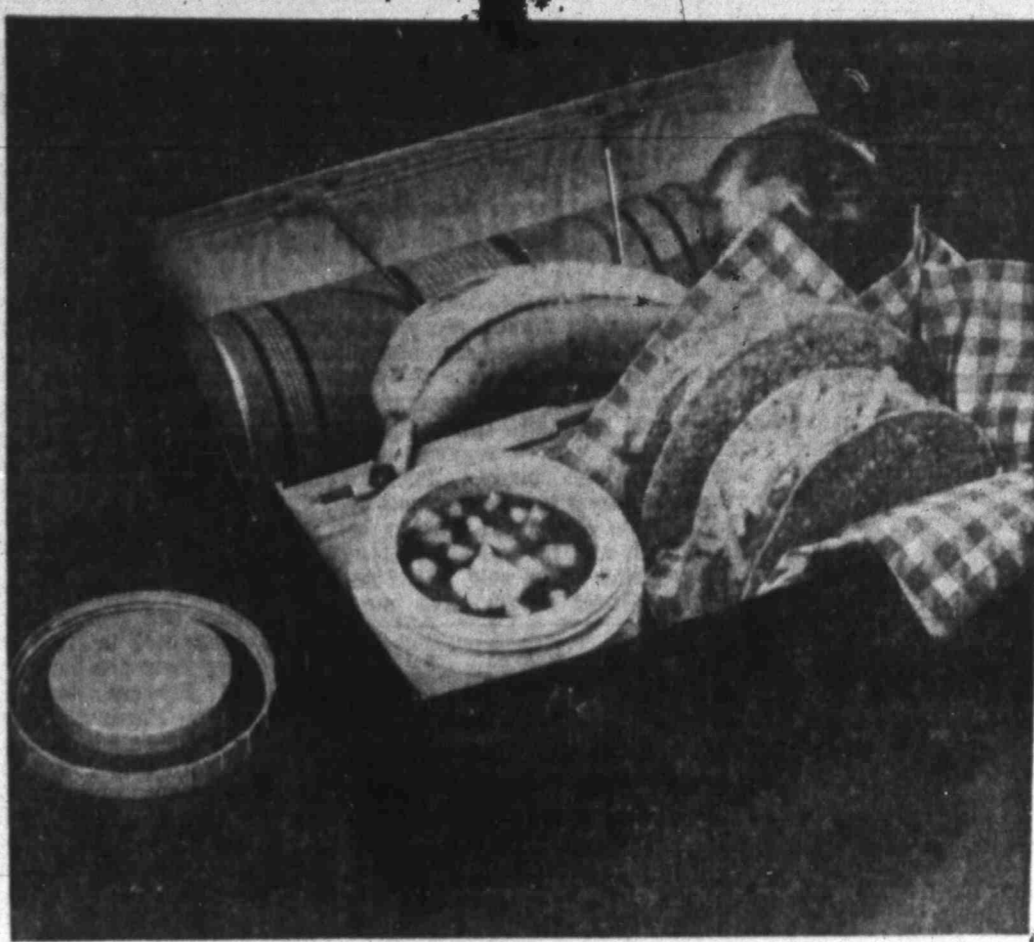

1-3 cup butter
1-3 cup olive oil
3 cloves garlic, minced
1 pound mushrooms, sliced
1-2 tsp. salt
1-4 tsp. dried oregano, well rubbed
1 cup minced parsley
1-3 cup dry red wine
1-2 pound thin spaghetti
Grated Parmesan cheese
Crushed dried red pepper

In a 10-inch skillet, over moderate heat, cook the butter, olive oil and garlic for about one minute; do not brown the garlic. Add mushrooms and cook, turning often, until softened — about 5 minutes. Sprinkle with salt, oregano and parsley; pour in wine. Stir well, heat wine; cover and keep warm off heat. Meanwhile, break spaghetti strands in half and cook according to package directions. Drain well and return to clean pot. Add mushroom sauce and toss well. Serve on hot plates. Accompany with Parmesan and red peppers to those eaters who want this topping can sprinkle

FOR SCHOOL LUNCHES
Try this new twist on the sandwich

Pack Unusual Tacos Sandwich To Brighten Child's Lunchbox

There's more to getting your youngsters ready to go back to school than replenishing wardrobes. There's the staggering array of lunch-box meals to think about.

The busy mother who looks for lunch box suggestions should welcome this imaginative way to pack protein for the school crowd. It's a completely new twist on the staple sandwich-for-lunch. The taco (sandwich, Mexican style), a crisp toasted tortilla with its recommended protein-rich bean and cheese filling, keeps extremely fresh in the lunch box. Chilled soup in the thermos is a refreshing complement to the tacos for early autumn days. Hot soup can be used later on.

TANGY CHILLED SOUP

2 10-ounce pkgs. frozen chopped spinach
6 cups water
3 tbsps. lemon juice
2 eggs
1 tsp. salt
1/4 tsp. nutmeg
Sour cream
8 tbsps. cucumber, diced
8 tbsps. green onion, sliced
Place frozen chopped spinach

and water in a large saucepan and bring to boil. Cook until spinach is tender, approximately 10 minutes. Add lemon juice. In a large bowl, beat the eggs very well with salt and nutmeg. Pour spinach mixture, a little at a time, into beaten eggs, stirring vigorously. Chill overnight. Pour into thermos. For each serving, add a tablespoon or more of sour cream, and a tablespoon each of cucumber and onion. Serves eight.

The soup is made the day before, and the tacos take only a few minutes to prepare. Fresh fruit for dessert completes this back to school menu.

LUNCH BOX TACOS

12 tortillas
Shortening
Canned refried beans (unheated)
1 cup grated cheese
Remove tortillas from freezer and place in refrigerator overnight to thaw. Fry in deep fat until crisp. (Fold the tortillas while frying by holding edges together loosely with tongs. They should be open enough to fill without breaking.) Drain on paper towels and salt lightly. Spoon beans from can into taco

shell and sprinkle generously with grated cheese.

If you flour chicken livers before sauteing, they'll have an attractive brown exterior. An easy way to do this is to put flour, salt and pepper in a brown paper bag, add the halved livers and shake well.

Want a "different" first course? Serve marinated herring fillets with new potatoes (boiled) and sour cream mixed with loads of minced parsley and chives.

Some good cooks have been known to add a few drops of salad (not olive) oil to a confectioners sugar glaze for a cake.

A little dairy sour cream in the refrigerator? Add it to the mayonnaise you are going to use for a salad or sandwich filling.

Some cooks like to add a little horseradish (from a bottle) to a blue cheese dressing. This combination may please the man in your house.

If your sponge cake isn't quite so tender as you would like, try wrapping it tightly in transparent plastic film and allowing it to stand for a day or so before serving it.

Both grenadine syrup and the syrup from preserved ginger are a delicious addition to grapefruit served on the half-shell.

Nice for brunch: fresh fruit all prepared for easy eating. But keep the fruit good-size pieces — each piece just enough for two bites!

For an unusual Southern des-

sert, roll a scoop of vanilla ice cream in chopped peanuts and serve with a dollop of hot fudge sauce.

Mix white vinegar with sugar to taste in a small jar; add thin onion rings; refrigerate overnight. Delicious with hamburgers!

For an interesting salad, toss drained tuna with cooked snap beans plus an olive oil and vinegar dressing.

A cream sauce for seafood tastes especially good when sauteed green pepper and canned pimiento (both diced) are added. Silvered ripe olives also make an excellent addition.

Fresh tuna steaks may be marinated in a mixture of olive oil, lemon juice and crushed garlic before they are grilled.

A four-ounce serving (one-half cup) of orange juice (fresh, frozen or canned) will meet the recommended daily allowance for vitamin C.

Keep that waffle baker in a handy place! Use it for browning French toast.

For a dozen slices of cinnamon toast, use 1/4 cup sugar combined with one teaspoon cinnamon.

Put those frozen bread slices right into the toaster. It takes only a few extra seconds of toasting time before they'll be just right to crunch!

Here's a different idea, and one youngsters will enjoy. Mix instant chocolate-flavored mix (the kind used for mild drinks) with sugar and cinnamon and sprinkle over hot buttered toast.

Add anchovies to a meatless tomato sauce for spaghetti.

RECOMMENDED RECIPES

By Mrs. Ray Lawlis

HOT ROLLS

2 cups warm water
1 pkg. granulated yeast
1 tsp. salt
5 tbsps. sugar
4 tbsps. melted shortening or bacon fat
4 cups flour (may need a little more)

Mix yeast and water together. Add shortening and dry ingredients. Work up dough and put in greased bowl. Let rise until double in bulk. Knead again for about five minutes. Form into rolls (makes about 24 large) and let rise until double in bulk again. Bake in hot oven, 425 degrees until golden brown.

BEEF IN GASSEROLE

1 lb. ground beef
2 tbsps. salt
2 tbsps. sugar
1 (16 oz.) can tomatoes
1 (8 oz.) can tomato sauce
2 cloves garlic, crushed
Pepper to taste
1 cup sour cream
1 green onion, chopped with some tops

Combine in pan beef, salt, sugar, tomatoes, tomato sauce, garlic and pepper. Simmer five to 10 minutes. Cook noodles separately; drain. Add to mixture of sour cream, cream cheese and chopped onion. Arrange in layers in greased casserole, first, meat mixture; second, noodle mixture and third, grated cheese. Heat until bubbling at 350 degrees for about 35 minutes. Makes eight servings. May be prepared in advance, refrigerate and heat just before serving.

MINUTE FUDGE ICING

3 tbsps. cocoa
1 cup sugar
1 1/2 cup milk
1/4 cup shortening
Dash salt
1 tsp. vanilla

Mix all except vanilla and bring to a full, rolling boil for one minute. Stir in vanilla, and

beat until satin in appearance.

OATMEAL COOKIES

1 cup shortening
1 cup brown sugar
1 cup white sugar
2 beaten eggs
1 1/2 tbsps. vanilla
1 1/2 cups flour
1 tsp. salt
1 tsp. soda
3 cups quick-cooking oats
1 cup nutmeats

Cream shortening and sugar. Add eggs and vanilla. Add flour, soda and salt, then oatmeal and nuts last. Drop by heaping teaspoons on cookie sheet and bake at 350 degrees, 10 to 12 minutes.

POWDERED SUGAR CAKE

1 cup shortening
1 box powdered sugar
4 egg yolks
3 cups flour
1/4 tsp. salt
2 tbsps. baking powder
1 cup milk
1 cup coconut
4 beaten egg whites
2 tbsps. lemon extract

Cream shortening and powdered sugar. Drop in four egg yolks one at a time. Beat two minutes. Add flour, salt, baking powder and milk. Beat two minutes. Fold in coconut, beaten egg whites and lemon extract. Bake in greased and floured tube pan one hour at 350 degrees.

BAVARIAN SALAD

20 marshmallows
2 cups water
1 small (regular size) pkg. gelatin (any flavor)
1 1/2 oz. can drained crushed pineapple
1 cup grated round cheese
1 cup pecans, broken in pieces
1 cup whipping cream, whipped

Melt marshmallows in water. Stir in gelatin. When cooled, whip with beater until large bubbles disappear. Fold in cheese, pecans, pineapple and whipped cream. Pour in mold and refrigerate.

Another source suggests it comes from a French phrase, "barbe a queue," literally, "beard to tail." At the original barbecue the animal was roasted whole. Now, barbecue means roasted meat served to a gathering.

It's possible, however, to achieve a similar flavor right on range by using sauces and seasonings after meat is browned. These rib pork chops are cooked with moisture, a barbecue sauce.

Rib pork chops are those with a single, large muscle all on one side of the bone. When cut an inch thick, they make an adequate serving for the average appetite.

BARBECUED CHOPS

8 rib pork chops, cut one inch thick
Flour
1/4 cup lard
2 tbsps. flour
2 tbsps. prepared mustard
1/2 cup chopped onion
1/2 tsp. ground cloves
1 tsp. salt
1/2 tsp. pepper
2 tbsps. Worcestershire sauce
1 cup juice from peach, apple, bread - and - butter or sweet pickles
1 cup catsup

Dredge chops in flour. Brown in lard or drippings. Pour off drippings. Add the two tablespoons flour to mustard and greens, blend well and pour over chops. Cover tightly and cook slowly for one hour. Makes eight servings.

Cooking Odor Tip

Soak vessels in which fish or cabbage have been cooked. Then wash in soapy water and follow with a quick rinse of a solution of vinegar and soda. Rinse again with clear water and the odors of the cooking of these foods will be gone.

A Devotional For The Day

We are labourers together with God; ye are God's handiwork, ye are God's building. (I Corinthians 3:9)

PRAYER: Our heavenly Father, we thank Thee for work to keep our hands and minds busy. Help us in all we do to remember the great lessons Jesus taught that we may be able to give a good account of the time spent. May we finally hear our Master say, "Well done, good and faithful servant." In His name we pray. Amen.

(From the 'Upper Room')

Facing Up To Inflation

If the Administration in Washington has no intention of taking courageous, constructive action to ward off inflation, it should stop pretending that it has. Instead of dithering about, instead of confining itself to anguished expressions of distress, instead of lying flat on its back whenever labor roars, the White House might as well admit that it lacks the political courage and the economic wisdom to do something effective about soaring wages and prices.

Gardner Ackley, chairman of President Johnson's Council of Economic Advisors, said that the action of large steel companies in raising the price of steel bars by nearly two per cent is "particularly distressing."

But it would be unfair to single out steel for corrective federal pressure or action. Notwithstanding its exceptional importance in the national economy, the steel industry is by no means the only offender.

Equally damaging has been labor's role. Today the United Automobile Workers union is demanding an unjustifiably inflationary six per cent increase in wages and benefits. Recently the rubber workers won an almost

equally inflationary rise. Worst of all was last summer's airlines strike when the issue was drawn in crystal clear manner between excessive and exorbitant labor demands and the common weal. It was on that occasion that the Administration showed its most distressing lack of courage and foresight, nervously refusing to take any constructive action.

True, the Administration has called for a 10 per cent surcharge on private and business incomes. True, this would have some deflationary effect. But it is by no means sure that this effect would be enough. Furthermore, the purpose of the surcharge is not primarily deflationary but to cover a portion of the stupendous budget deficit begotten by the war in Vietnam.

No, what this nation needs, but what Washington seems unwilling to give is intelligent, forthright, forward looking, courageous leadership in the anti-inflation fight. There should be a restoration of sensible wage-price guidelines. There should be strong government pressure against both industry and labor when either's demands or actions are unjustifiable.

The Lessons Of History

Everyone is in favor of progress and a constant striving toward improvement — in short, a higher form of civilization. The trouble is that many of us, ignoring the lessons of history, have become followers of centralized government leadership in all important matters.

The new president of the American Medical Association, Dr. Milford O. Rouse, has expressed some fundamental thoughts on his profession and the American system. He says, "Capitalism, free enterprise, is a great deal more than just a system for seeking financial gain. It is a principle which holds that any citizen is entitled to a reward commensurate with his work. That entitlement, in

exchange for effort, furnishes the stimulus that motivates the citizen to do his very best in whatever he undertakes."

Dr. Rouse has said, medicine has made outstanding progress in the U.S. "because practicing physicians, researchers, academicians—all members of the medical profession—have been free to follow their pursuits as they saw fit. They have not been forced to work for the state; for the glory of a party. Instead, they have been free to work for the patient, for the glory of God and for the furtherance of their professional skills." Dr. Rouse has ably expressed the precepts of citizenship that have preserved liberty in the United States for nearly two centuries.

David Lawrence Communist Part In Politics

WASHINGTON—Communists within the United States are active in seeking to influence, if not direct, many phases of the anti-Vietnam-war movement as well as in trying to stir up racial friction.

A federal agency has circulated a memorandum to other agencies in the government and to members of Congress documenting the relationship of the Communists to the convention held in Chicago in the past few days at which plans were made to organize a third political party. This correspondent has obtained a copy of the memorandum, and it follows in full text:

"COMMUNISTS from various parts of the country have been converging on Chicago in recent days. The attraction is the five-day national convention of the National Conference for New Politics, a liberal antiwar group based in New York City. The convention, which is being held in the Palmer House, started on Aug. 31.

"Some of the delegates to the convention want to nominate civil rights leader Martin Luther King for President of the United States and pediatrician Dr. Benjamin Spock as his 1968 running mate. Dr. Spock has been one of the most active participants in anti-Vietnam war demonstrations.

"THE COMMUNIST party, U.S.A., would welcome a third political party with a national ticket headed by King and Spock. In fact, at the annual May Day rally, held in New York City last spring, the Communist chairman of the rally stated that 'peace forces' must mobilize to put President Johnson out of office in 1968. He then

suggested that King and Spock were better suited than President Johnson for the White House.

"THE COMMUNISTS, however, do not want this convention to nominate candidates for a presidential ticket. If the efforts of the Communists to influence policy of the National Conference for New Politics are successful—and qualified observers believe that they will be—this convention will merely agree to the formation of a third-party ticket. Meanwhile, the selection of candidates will be postponed until a nominating convention is held sometime in the spring of 1968.

"THESE QUALIFIED observers advise that the Communists want to combine all the anti-Vietnam-war protesters and all the civil rights forces and merge them into the National Conference for New Politics in order to enlarge the criticism against United States presence in South Vietnam. This tactic, of course, fits into the over-all strategy of the Communist party, U.S.A., as well as that of the rest of the international Communist movement, to get the United States to withdraw from Vietnam so the Communists can gain control of all of Vietnam. Leaders of the Communist party believe, however, that they might lose the support of militant black nationalist leaders for the National Conference for New Politics if a presidential ticket is selected prematurely.

"THE COMMUNISTS also have a strong representation from their youth group, the WEB Dubois Clubs of America, at the Chicago convention. In a recent memorandum sent to all local Dubois clubs, the national office of the Dubois clubs advised that the convention had been made a nationwide priority for the Dubois clubs.

"Also present at this convention at the Palmer House are numerous members of the Trotskyite Socialist Workers Party. Since the Socialist Workers Party always has its own ticket for president and vice president of the United States, it is not trying to influence the decisions made at the convention of the National Conference for New Politics. However, the Socialist Workers Party realizes that the convention has attracted radical youths from around the country. The Socialist Workers Party is present in force at the convention in an effort to bring some of these young people into its ranks.

"WHATSOEVER WERE the intentions of the original founders of the National Conference for New Politics, it is now obvious that the Communists and other subversive groups have moved in on them lock, stock, and barrel. Veteran observers of the political scene already see a parallel between the National Conference for New Politics and the Progressive Party, which was quickly taken over by the Communists when it was formed two decades ago."

Billy Graham

Please explain how it is possible to fear and love God at the same time?

C.V. There is no contradiction between fearing God and loving God, anymore than there is in a child loving his parents, and also fearing to disobey them. When we speak of the "fear" of God, we don't mean to infer that we are to tremble in fear before Him. The word "fear" in our relationship to God means awe and reverence. It is natural for us to have respectful dread for the unknown. Have you ever seen a child look to his parent for approval or disapproval regarding some childish act? He has a reverent dread that he might displease and bring upon himself the consequences of disobedience. Indeed, if a child doesn't have a bit of awe and respect for his father and mother, it is doubtful if he loves them as he ought. If he can do what he likes without disapproval, then it is doubtful if his parents love him as they ought.

Fear and love are reverse sides of the same coin, and there should be no conflict. Fear of God is not a dread of Him — rather, it is a normal uneasiness that we might displease Him. It would be better for all of us if we "feared the Lord" in this sense.

Many U.S. Judges Endorse Antiriot Bill

By JOHN CHADWICK WASHINGTON (AP) — Many U.S. District Court judges not only have endorsed the House-passed antiriot bill but also suggested amendments to make it tougher.

The Senate Judiciary Committee had copies of the bill sent to each of the 338 district court judges, with a request for their comments and recommendations for improving it or making it more readily enforceable.

REPLIES SO FAR from about 100 judges in all parts of the country are running 80 per cent or better in favor of the bill.

Two indicated they opposed the bill, and some replied it would be inappropriate to comment or took no position on the merits of the legislation. Several suggested it might be difficult to enforce.

Perhaps the most unusual reply was the letter from Chief Judge Charles E. Wyzanski Jr. of the U.S. District Court in Massachusetts. He wrote:

"MY POSITION with respect to this bill is identical with that of Sen. Edward M. Kennedy of Massachusetts." At the windup of the Judiciary Committee's hearings on the bill, Kennedy said it had "ample public relations value but very little substantive value." He has maintained it distracts attention from social and economic factors he believes generate riots.

The bill would make it a federal crime to go from one state to another with intent to incite a riot. It would provide penalties of up to five years' imprisonment or a \$10,000 fine, or both.

SOME OF THE JUDGES recommended stiffening the maximum prison term. Judge Edwin D. Steel Jr. of Delaware and Judge Joe Eaton of the Southern District of Florida proposed 10 years. Chief Judge William H. Timbers of Connecticut suggested a maximum 20 years. And Judge Peirson M. Hall of the Southern District of California recommended the bill provide for life imprisonment or death in the event a riot incited by an outside agitator resulted in any one being killed.

Some of the judges recommended deletion from the House-passed bill of language saying that to incite to riot "shall not mean the mere advocacy of ideas or the mere expression of belief."

said: "You are setting forth what might be a defense" for a person accused of inciting to riot.

Judge Carl A. Weinman of the Southern District of Ohio

'Status Inflatus'

NEW YORK (AP) — How can you tell if you're gaining status?

A recent article pointed out the warning signals that let you know that you're losing face in the old rat race.

This inspired a barrage of letters, of which the following is typical:

"ANY ZIPPERHEAD ought to be able to figure out if he's losing. But success is so insidious today—its signs are so subtle—that the big problem in our civilization is to know for sure whether you're gaining ground or simply standing still and treading water.

"What are the signs that let you know positively that your status is inflatus—in other words, that your social and business prestige is on the rise?"

WELL, YOUR standing is getting better if —

When they repaint the firm's headquarters, the boss asks if you mind if he has his office painted the same color as yours.

The junior executives in the office begin to vie for the privilege of taking you to lunch.

The intellectual office boy asks you whether it would be better for him to mold his career on the example of Marcel Proust or Jean-Paul Sartre.

INSTEAD OF dunning you for past dues, the president of your country club inquires offhandedly whether you've ever considered standing for elections to the board of governors.

Although you haven't bothered to buy a color television set yet, the people in your block who do own one still let their children play with your children. They know you're on the way up the ladder.

THE GANG around the office water cooler listens respectfully to your pronouncements on whether it will rain next Tues-

day and why the Green Bay Packers will lose the world football championship before the close of the present century.

You turn down a solid stock-market tip because you just don't want to muddy your tax picture.

You are doing so well that you can now tell your weekend guests: "I trust you won't mind, but I'm afraid we'll have to put you up in the little house."

THE MAILMAN keeps bringing you brochures from people wanting to sell second-hand yachts.

The college you almost flunked out of twice asks you back to make a commencement address and receive an honorary degree.

You've come so far up in the world that you begin to meet your doctor socially, or sometimes even find yourself at the same expensive resort where your dentist goes on his vacation.

BARTENDERS who never paid attention to you before now hail you by your first name and quote your bon mots to other customers.

On payday you no longer have to race to the bank to make a deposit to cover the rent check your wife wrote the day before.

NOW AND then you like to see crabgrass on your lawn because it gives you an excuse to bawl out your uppity gardener.

The board chairman apologizes profusely if he inadvertently parks his car in the space the firm has reserved for you.

The management of the building your office is in asks what is your favorite tune—so it can be played each morning in the automatic elevator as you ride up to work in the morning.

Yep, that's "status inflatus"—you've got life made. Now all you have to do is to hold on to it.

Around The Rim

Nothing New Under The Sun

Although new here, the school district's policy of a closed campus is by no means "new." The Dallas public schools had such a policy, at least as far back as World War II, and as a member of the student politick, I joined in silent protest against it.

ACTUALLY, we had no place to go during the lunch period, and there was no reason for our discomfiture with the rule. Besides, there was little within walking distance worth the trouble of jumping campus.

At the same time, it didn't take long for us to find a reason to leave campus. Someone found out that the penalty for smoking on campus was a terrific number of "detention periods" and perhaps a visit to the boiler room with one of the strongest coaches and his paddle.

ON THE OTHER hand, the penalty for unauthorized leaving the campus was a mere 10 detention periods, with little risk of the boiler room visit. Thus, those who had already been snared by fearsome nicotine, usually took the less costly route for a smoke.

Another thing, there were probably no more than a dozen students in the whole school with a car. Parking was not a problem, indeed very few mem-

bers of the faculty even had private transportation.

THERE WERE times when we practiced the fine art of "air raid drills" during the noon hour. After a snack in the lunch room, we gathered in the hallways, in approved style for the times, and sang songs that were supposed to make us forget the enemy bombers overhead. At first, the school officials doused the lights during these drills, but boys being boys even in those saintly days, this practice was quickly eliminated from the drills.

BY AND LARGE, there was precious little to do during a lunch period, unless there was a drill of some sort, or one risked his afternoon freedom in leaving the campus. For after having munched through the noon repast, the rules forced all and sundry to leave the lunch room. Once the student has passed the swing and slide age, the tail-end-of-a-lunch-period can be quite boring.

Doubtless, the modern day student is more imaginative and resourceful with his time than we were. I have little doubt, that even now, they have figured out a way to make the lunch period exciting.

The Five-Year Marriage

WASHINGTON — Since all our sacred institutions are under attack these days, it comes as no surprise to read that our concept of marriage has been challenged by a member of the American Psychological Assn.

In a paper presented at a conference here, Mrs. Virginia Satir, a psychological social worker from Big Sur, Calif., attacked the marriage vows people in the Western Christian world are forced to take. She said marriage is the only human contract in our society that has no time length, no opportunity for review and no socially-acceptable means of termination.

MRS. SATIR's solution is a simple one. She advocates that marriage should be a five-year renewable contract.

If the marriage goes well for the first five years, the couple could renew the contract for future five-year periods. If it fails, it would automatically be dissolved without undue stress, expense, litigation or social stigma.

When I read the article I naturally became very indignant and said to my wife, "Can you imagine? Some woman psychologist is advocating that marriage be based on a five-year contract, which is renewable only if both parties agree."

"Why do you bring it up?" my wife asked.

"WHY?" I SAID, as I threw down the newspaper in disgust. "Because to me marriage is a sacred institution and once you're married you shouldn't have to decide every five years whether you want to continue it or not. Decisions like that could drive a man crazy."

"Then what you're saying," my

wife said quietly, "is that you're not sure you'd be willing to renew the contract whenever a five-year period was up."

"That's not what I'm saying at all. In our case it would probably be automatic."

"Probably?"

"YOU'RE TRYING to put me in a corner," I protested. "Of course it would be automatic, though if I am to be honest I'd have to admit that as the five-year deadline came near I might give it more thought than I would under the present set of rules."

"Why is that?" she asked with a grim smile on her lips.

"It's just natural. If people have options every five years they would think about them. Marriage is a very serious business and I'm sure you would think much less of me if I just signed a contract every five years without reading the small print. I'm not saying I wouldn't sign after I read it, but I might want to add a few clauses here and there that I hadn't thought of when we first got married."

"Such as what?" she said, as she straightened out the lamp shade next to our bed.

"WELL, I MIGHT put some ceilings on the spending of money, add a few paragraphs about your mother and maybe include a freedom clause for myself. Things like that. But don't worry, there would be nothing in the contract that would stop you from signing it."

"Suppose I wanted to add a few clauses of my own?" she asked.

"What?" I said. "And wreck a perfect marriage?"

A Nixon Comeback?

WASHINGTON — Sometimes, as the Scriptures tell us, the stone that the builders rejected, becomes the head and cornerstone — a way of saying that Richard Nixon is very much in the Presidential picture for '68.

The sayer was former Governor Henry Bellmon of Oklahoma, who now heads the Nixon operations in Washington. He didn't use that language, but he put it in our minds. Bellmon made the point that, while America doesn't like losers, it loves a never-say-die fighter. Nothing is more thrilling in sports or politics than a comeback.

GROVER CLEVELAND, an unseated ex-president, made the political comeback of the 19th Century. In 1892, having been beaten four years before by Benjamin Harrison, Cleveland won under circumstances not unlike those which surround Nixon. Not only was Cleveland up against a sitting president in Harrison, and a dominant party in the GOP, but he had the kind of fringe-opposition that Nixon may get. In 1892, the Socialists, the Prohibitionists and the Populists all had presidential candidates to clutter up the ballot. In 1968, we may have splinter parties headed by George Wallace and Martin Luther King and or Benjamin Spock.

Cleveland won, as Nixon may win, because the nation regretted its previous choice. Cleveland was a man foursquare, a strike-breaker with federal troops, a diehard for fiscal integrity, fearless of unpopularity when he knew he was right, holding the loyalty of his party against the trimmers and the show-offs.

IN THE YEAR of defeat, Cleveland had run 100,000 popular votes ahead of Harrison, but missed out in the electoral college. Democrats thought him unfairly defeated, by machine-politics, as many Republicans feel that Nixon was counted out in 1960 by chicanery in the bossed precincts of Illinois and Texas. If there's a Cleveland-Nixon analogy in the subconscious American mind which pollsters cannot read, then the former vice president may be heading for the comeback of our century.

NIXON'S HANDICAP to date has not merely been his defeats in 1960

and 1962. It's been his membership in a minority party. As John Kennedy repeated throughout the 1960 campaign, it was a contest between the parties of Jefferson - Jackson - Roosevelt and of Harding-Coolidge-Hoover. Nixon failed, and might fail again, by not attracting dissident Democrats and untethered Independents.

But look at what's happened since 1960-62. The GOP today, with 25 state governorships and large gains in Congress, is a minority party in name only. Republican wins all over Dixie have completed the breakup of the once Solid South. Meanwhile, the fallacious mythology of JFK, and the fallacious overestimate of LBJ, have fallen apart in the glare of reality.

WHAT AMERICAN wouldn't rather have had Nixon, the Eisenhower protégé, in the two Cuban crises? Who believes any longer that Johnsonian "consensus" is a way of government? The man who gets the GOP nomination next year may well be running against a White House incumbent who has already defeated himself, or been defeated by circumstances, as was Hoover in 1932.

Skeptics, myself among them, will want to see Nixon perform in the primaries. Doubting Thomases will have to be shown how "new" he really is. (Distributed by McNaught Syndicate, Inc.)

Leapfrog Classes

WAUKEGAN, Ill. (AP) — "Operation Leapfrog" classes have started for more than 100 adults with Spanish-speaking backgrounds to enable them to improve their ability to read, write and speak English.

The Rev. A. Paul Reicher, chairman of the Lake County Migrant Council, sponsors the program, said, "Operation Leapfrog is designed to help these people jump over the language and education barriers that block the road to a better life."

Program funds are provided by a grant from the federal Office of Economic Opportunity.

Dear Abby
Christmas For GI's

DEAR ABBY: A few days ago my boy friend left for Vietnam and I miss him like crazy already. But that's not the problem I'm writing about. It may sound silly, but I would like to know what I can send him for Christmas? I have racked my brain and haven't been able to come up with a thing, except maybe something good to eat, like cookies. But what are the chances for "goodies" arriving in good condition? Abby, can you tell us girl friends (and wives and mothers, too) what those wonderful guys in Vietnam really want for Christmas? BLOOMINGTON DEAR BLOOMINGTON: All right. I am asking "all you wonderful guys" over there in Vietnam. What do you really want for Christmas? (Besides a one-way trip home, that is.) I'm serious. Write to Abby and state your preferences.

DEAR ABBY: For years my widowed mother made her home with us. I am not complaining. We were happy to share our home with her, and did all we could to make her comfortable and happy. I have brothers and sisters who lived their own lives and did not bother very much with Mother. Mother died recently, and when it came time to settle up her estate we find that it is share and share alike! Would we be out of line to submit a bill for her keep, covering all those years we so generously provided for her? Why should the others, who did nothing for her, reap equally? They were equally able to help but didn't. WONDERING DEAR WONDERING: If you would keep peace in your mother's surviving family, you will make no further claims on her estate. Your reward is the knowledge that you made a special contribution to the happiness of your mother. And if that is not reward enough, it should be.

DEAR ABBY: I don't know if you are willing to use your column for safety messages, but I hope you are, because I can't think of a better place to publicize this: Last night I was the first to arrive at the scene of an accident after a little 5-year-old girl had been struck by a car. No one knew where the child had come from. A few minutes later several people walked across the highway from a picnic area to see what all the excitement was about. A man collapsed and a young woman became hysterical when they recognized the child. She was their daughter, who only moments before had been left sleeping on the back seat of their car. I had to tell these grief-stricken parents that an ambulance would not be necessary. Many people left the scene muttering, "I have learned a good lesson." As the father of two young children, I learned one, too. "DON'T HAVE CHILDREN SLEEPING IN AN AUTOMOBILE NEAR A HIGHWAY!" WORCESTER DAD

Language Barrier Proves Too Much For Three Bandits
CHICAGO (AP) — A language barrier proved too much for three bandits Tuesday. Police said the gunmen tried to force three cleaning men to let them into a North Side restaurant. But the workers, who were cleaning outside the restaurant, were unable to understand because they had arrived recently from Brazil and spoke only Portuguese. After a brief struggle, the gunmen fled empty handed. Police were vague about details of the encounter because they, too, were having trouble with the language.

'Treasure Hunt' Game Gains Loot
NEW YORK (AP) — A game of "treasure hunt" by four small children on Staten Island over the weekend turned into the real thing. They found a soggy packet containing \$4,970 in bills. The youngsters, ranging in age from 5 to 11 years, ran to their parents, who took the money to police. A police spokesman said today if no one can prove a claim to the cash within a year it will be turned over to the finders.

700 New Combat Copters Ordered
FORT WORTH, Tex. (AP) — The Army has ordered more than 700 new combat helicopters, Bell Helicopter Co. announced today. Bell President E. J. Ducaet said the order includes 214 AH-1B Huey "Cobras" — high speed gunships — and 533 UH-1H Huey troop carrier ships. Bell said the government has paid down an initial \$27,170,000 for the Cobras and \$37,565,217 for the troop carriers. Delivery of the Cobras is scheduled for January, 1969, with the carriers to be in the Army's hands by December, 1968. Textron's Bell Helicopter Co., a Bell affiliate, will build the aircraft. Bell said the Huey Cobra order brings to 744 the number ordered by the Army.

Texan's Tall Tale?
ATLANTIC CITY (AP) — Here's what sounds like a Texan's tall tale but "believe me, it's true," according to the Texas lady who tells it. It seems a sea gull lifted ballet shoes and leotards from the 12th floor hotel window of Miss Texas Tuesday morning. The gull circled over the boardwalk and headed back to the Claridge Hotel and conveniently dropped the packages, according to Mary Louise Rogers of Fort Worth, the chaperone of Miss Texas, Molly Grubb. "When I told my predicament to the bell captain, he raised his eyebrows and didn't believe me," said Mrs. Rogers. The ballet shoes were in a box closed with a rubber band lying beside the leotards in a plastic bag on a radiator next to an open window. "I heard this fluttering and I saw this big beautiful white bird perched on the sill," she said. "I started to get a piece of bread to feed it, and when I looked up he had his beak wrapped around the two packages. Mrs. Rogers said the bird flew away with the packages dangling from its beak and started to circle in front of the hotel. A few moments later, she was downstairs in the lobby telling her dilemma to the unbelieving bell captain. Just then, she continued, the doorman walked in with the leotards in the plastic bag. The bird had dropped it in the street. A search uncovered the shoes on a second story landing of the hotel. Miss Texas, who was rehearsing in convention hall at the time, laughed when she heard the story and said, "the folks back home won't believe it."

Bad Bartender? Constable Tries To Give Policeman Parking Ticket
BALTIMORE, Md. (AP) — When an electronics company announced the development of an automatic bartender which could be programmed to offer a selection of 1,000 mixed drinks, it admitted the machine can't fully supplant the human bartender. "After all, who ever heard of telling your troubles to a machine?"

Walnut Table Nets \$30,000 In Cash
MARSHFIELD, Mass. (AP) — Jay Johnson, a Marblehead antique collector, purchased at auction recently a 200-year-old walnut dressing table built by William Savery of Philadelphia and paid for it in cash—\$30,000.

Homosexual Orgies Probed

LONDON (AP) — Two British army women employed at the Defense Ministry have made voluntary statements admitting they were involved in lesbian practices among servicewomen stationed in London. Command headquarters said today the two women will be interviewed by a psychiatrist, along with five other women involved in the incidents.

After the psychiatrist has issued a report, the women's commanding officer will decide what action to take. She may decide to dismiss them from service or post them to a new unit, an army spokesman said. The army's special investigation branch recently made inquiries among the 200 members of the Women's Royal Army Corps stationed at Mill Hill barracks in North London, following complaints by a number of the women about abnormal practices. Scotland Yard continued its investigation into parties in London's Mayfair and Chelsea districts and at a country mansion at which young guardsmen and troopers of the Queen Elizabeth's palace guard were said to have been involved in homosexual orgies.

Communications Plan Okayed For Teachers
FREEPORT, Tex. (AP) — As suggested by Dr. J. Raleigh Jackson, superintendent of the Brazosport school system, a new organization, the Brazosport's Council of Professional Employees, has been approved by the Brazosport school trustees and by teachers and other professional employees of the school district. Its purpose is to provide an official channel for communications of the teachers directly to the superintendent and in turn to the board of education.

Isn't Too Worried About Tiny Thieves
GRAHAM, Tex. (AP) — Clyde Guinn isn't too worried about someone making off with the rare museum piece in his front yard. It's a grindstone from Young County's first grist mill, eight inches thick and 39 inches in diameter. Exact weight isn't known, but Guinn had to hire a winch truck to move it to its present site. A. T. Jackson of Austin, who is writing a book on grist mills in Texas, says Guinn's millstone is unique and he knows of only two others in existence similar to this one. Guinn's stone is octagonal. It's not granite or marble. Some authorities conjecture it's native neither to Texas nor the United States, and that it was shipped to America from England. The millstone was uncovered under 15 feet of dirt at the bottom of a well west of Graham. The stone can be traced to the old Vardy & Tackett Grist Mill built in 1872.

Walnut Table Nets \$30,000 In Cash
MARSHFIELD, Mass. (AP) — Jay Johnson, a Marblehead antique collector, purchased at auction recently a 200-year-old walnut dressing table built by William Savery of Philadelphia and paid for it in cash—\$30,000.

The bidding:
North East South West
1 ♦ Pass 1 ♠ Pass
2 ♠ Pass 4 ♠ Pass
Pass Pass
Opening lead: Jack of ♠
When today's hand was dealt in a recent team-of-four contest, a contract of four spades was reached at both tables with South as the declarer. One player succumbed to an accurate defense waged by his opponents, the other declarer, however, found an effective counter-measure. At each table West opened the jack of spades. One declarer put up dummy's king and returned a heart. West was in and led back the ten of spades. South won the trick with the queen and crossed over to the jack of diamonds to play another heart. East put up the king of hearts, and a third round of spades removed dummy's last trump.

'Dick The Fox' Is Honeymooning
BERKELEY, Calif. (AP) — "Dick the Fox" and his bride are honeymooning in Hawaii. They went first class—a far cry from his air-freight journey from Australia to California in 1965. Richard E. Fox, 25, and Ann Britt Wardenar, 26, were married Saturday in a church ceremony with 150 guests looking on. In 1965, he had friends nail him in a crate and send him collect to California so he could spend Christmas with Ann. He escaped from the crate at San Francisco International Airport after a 30-hour flight and left a note saying: "Thanks for the ride—Dick the Fox." Federal officials later arrested him on stowaway charges, but in May, 1966, a federal judge declared a mistrial and charges were dismissed.

Penn Plan Launched
PHILADELPHIA (AP) — When William Penn founded Philadelphia in 1682, he vowed it should be a green country town. So the city's Fairmount Park Commission recently launched a program to plant 791 trees along city streets.

American Teen Pleads Guilty To Killing Girl
LONDON (AP) — An American youth pleaded guilty at the Old Bailey Court Wednesday to the manslaughter of "the girl of my dreams" — the 20-year-old daughter of a New York playwright — and was sentenced to life imprisonment. The presiding magistrate said this did not mean Richard Henry Geffken, 19, Brooklyn, N.Y., would spend the rest of his life in prison. He said he would recommend to the home secretary that Geffken be deported as soon as he was considered fit to leave jail. The prosecution said Geffken stabbed Shannon Gay Love, 20, daughter of playwright Edmund Love, 14 times at a London hotel where they were staying on June 8. Prosecutor Alastair Morton told the court Geffken and Miss Love met at a New York public library where both were employed. Morton said a post-mortem examination showed 14 stab wounds in the girl's chest and back. He said the youth told police when arrested: "I did it, my God I did it. I have nobody now, not even God." A police medical officer testified from the early stages of schizophrenia.

Hemphill-Wells
Mr. Eddie
A dress that's built on the straight and narrow, then relieved by curving seams and a ring collar. Fabulous of fabric too—100% Dacron® polyester rib knit that defies wrinkles, washes beautifully and dries ready to wear...
Antique gold or black, 40.00

Its purpose is to provide an official channel for communications of the teachers directly to the superintendent and in turn to the board of education.

Rain And Cool Weather Boosts Range Conditions

AUSTIN (AP) — Rain and cool temperatures last week boosted range and livestock conditions in parched southern regions of Texas, the U. S. Department of Agriculture says. But moisture and cool weather slowed cotton harvest and maturity, the department's weekly crop-weather report said. High plains farmers need hot dry weather for the cotton crop to mature before frost. The department said that although grazing is now good in parts of Southeast Texas, coastal areas and spotted areas of South Texas and the Rio Grande Valley, "the turf hasn't fully recovered from summer drought conditions." Army worms have moved into some pastures in Northeast Texas. Cotton harvest has started in the plains, with first bales ginned in the Lubbock area during the week. Blacklands harvest is 22 per cent complete and 100 per cent complete in the coastal bend. The report said sorghum harvest is over in the southern third of the state and the crop is beginning to turn color in the extreme northern high plains. The rice crop is 94 per cent harvested. Planting of winter wheat is getting into full swing in the northern and southern high plains. Cantaloup harvest is nearly complete at Pecos. Tomato harvest is at its peak at Dell City. Carrots continued to move in light volume on the high plains. Heavy showers and wet fields continued to halt vegetable planting in the Lower Rio Grande Valley.

25 Years Together

Twenty-five years ago, with the life of the free world at stake, the Big Spring Municipal Airport was converted into a training base for the Army Air Force. Within a few years of the end of that conflict, the Air Force—now a service arm in its own right—reactivated the station as Webb Air Force Base. Thousands of America's finest young men, many of whom sacrificed their lives in the defense of liberty, trained here—first as bombardiers and later as jet pilots.

From the beginning, Big Spring felt itself to be a part of the Air Force team and therefore under heavy obligation to do what it could as a community to help the Air Force do the best training job humanly possible. And in turn, the Air Force has felt itself to be an integral part of the community, thus helping make it a better, happier, more productive home for trainees.

Col. Chester J. Butcher, commander of the 3500th Pilot Training Wing, and Mayor Arnold Marshall symbolize this partnership in the grasp of friendship that binds the base and community together.
