VOL. 23 NO. 135 SNYDER, TEXAS (79549) WED., OCT. 4, 1972 8 PAGES 10c

The SDN Column

This arrived a little late for use during National Highway Week, which ended last weekend, but it's still appropriate, nevertheless.

It is a quotation from "The Borden Citizen" of June 18, 1914, which was cited in the last issue of the current Borden Citizen, which is now is the official publication of the Borden County Historical Survey Committee.

Said the 1914 item:

"The roads of Borden County are at present in the worst condition they have been in in several years. Several culverts and small bridges are washed out and travelers are having to tear down pasture fences to get around these bad places in the road, while Borden County's Road and Bridge Fund is pretty much in the red at present, but still there will have to be some way provided by which these roads can be fixed and the citizens of the county should urge the commissioners from each precinct to take this matter up at once and have the roads fixed for no other one thing can be any more of a drawback to our county than bad roads. Travelers will drive several miles out of their way in order to travel good roads, even our own citizens living near the county line will go other directions to nearby towns to do their trading rather than drive over these roads.

"This does not speak well for our county in the least, and we should all strive to make our county and public highways equal to any of our neighbor counties. So let's all talk it and have these roads fixed in the near future."

★ ★ ★

Although "good" in 1914 would be considered something less than adequate today, needs and desires have not changed basically over the years. Today, our highways are among the best in the world, but the admonition to keep up is as applicable today as it was then. Which reminds us, some of our neighbors to the west are beginning to stir with new interest in the proposed Interstate 27. This is the Interstate Highway that is due to come south out of the Panhandle and on to South Texas. It has been officially designated from Amarillo to Lubbock and the approved route from Lubbock southward, as listed prior to freezing of Interstate funds a couple years ago, put it on US 84, which would be via Snyder. This appears to be our only chance to attach ourselves to an Interstate Highway, and it should be kept in mind as talk about reviving the project begins to emerge. At last reports it appeared there is a possibility that some decisions will be made within the next two years, regardless of whether any actual contracts are proposed. We need to keep our case active as the time approaches for these decisions to be made.

The US 84 route is a logical one for a north-south Interstate road, because of its proximity to both the Abilene and San Angelo metropolitan areas.

Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, Oct. 4, the 278th day of 1972. There are 88 days left in the year.

Today's highlight in history:

On this date in 1957, the Space Age began as the Soviet Union put the first spacecraft into orbit around the earth.

On this date:

In 1777, Colonial forces were defeated by the British in the Revolutionary War battle of Germantown, Pa.

In 1824, the Republic of Mexico was proclaimed.

In 1910, Portugal's monarchy ended as King Emanuel fled to escape revolutionaries.

In 1940, during World War II, Adolf Hitler and Benito Mussolini conferred at the Brenner Pass in the Alps.

In 1945, the premier of the French Vichy government, Pierre Laval, was put on trial in Paris. He later was executed as a traitor.

In 1965, Pope Paul IV made an appeal for peace at the U.N. General Assembly in New York.

Ten years ago: After four years of domination by President Charles de Gaulle, the French National Assembly voted the overthrow of the Gaulist premier, Georges Pompidou.

Five years ago: Three passenger trains piled up in Belgium and 10 persons were killed and 80 injured.

One year ago: President Nixon made a political trip to Delaware and became the first president to visit all 50 states while in office.

★ ★ ★

The Weather

SNYDER TEMPERATURES: High Tuesday, 81 degrees; low, 52 degrees; reading at 7 a.m. today, 55 degrees.

North Central and Northeast Texas: Clear to partly cloudy tonight and Thursday. Warm in afternoon and mild at night. Low 56 to 63. High Thursday 84 to 90.

Northwest and Southwest Texas: Partly cloudy extreme west portion and generally fair elsewhere tonight. Partly cloudy Thursday. A few showers and thunder storms extreme west tonight and Thursday. Not quite as warm extreme west Thursday. Low tonight 48 to 62. High Thursday 83 to 95.

South Central and Southwest Texas: Partly cloudy and a little warmer through Thursday with a few showers and thundershowers near the coast. Low tonight 55 northwest to 72 along coast. High Thursday 80 to 90.

Coast: Mostly southwest winds 5 to 15 knots through Thursday. A few showers and thunder showers.

Bombing Step-Up Ordered In Saigon Region

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — The U.S. command ordered a stepped-up B52 bombing campaign in the Saigon region today to counter Communist plans for a wave of attacks timed to influence the U.S. presidential elections next month, senior officials said.

Meanwhile, the Command disclosed in a delayed report that three American helicopters supporting South Vietnamese troops were hit by enemy ground fire within an hour of each other Monday near the district town of Ben Cat, 25 miles north of Saigon.

The Command said two of the helicopters sustained light damage and returned safely to their bases, while the third made a crash-landing and was destroyed. A total of three crewmen were wounded in the three incidents, the Command said.

Senior officers reported that South Vietnamese field commanders had shifted their forces closer to Saigon to defend major installations near the South Vietnamese capital, including the big base at Bien Hoa and Long Binh where hundreds of American support troops and airmen are still stationed.

Thirty B52 bombers struck enemy targets on four sides of Saigon. U.S. officers said the strikes were aimed primarily at new stockpiles of war materials and were ordered intensified after earlier raids proved successful.

Over North Vietnam, Typhoon Lorna sharply curtailed U.S. air operations, military sources said. The U.S. Command reported only 120 fighter-bomber strikes over the North Tuesday.

USSR VISITORS TOUR WTC—Engineers from the Soviet Union who are here as technical advisors and observers of tests now underway at the American Magnesium Plant toured the Western Texas College campus Tuesday evening. Following Mrs. Lillian Kassady, interpreter, in the foreground are Dmitry V. Dunaev, O.G. Desyatnikov and N.V. Bondarenko. In the background are Toni Turk, assistant professor at WTC, who speaks the Russian language and helped with interpretation; A.P. Bogdanov and David Loflin, AM instrument technician.

Value Of Space Coin Increases

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston (AP) — A 179-year-old U.S. coin secreted on board the Gemini 7 spacecraft in 1965 was sold recently for $15,000, but could now be worth as much as $100,000, The Associated Press learned Tuesday.

The coin is a 1793 large cent which normally sells in numismatic circles for about $2,000.

A space agency spokesman, in response to a query from The AP, admitted that the coin had been slipped aboard Gemini 7, the 14-day earth orbit space mission in 1965. The spokesman claimed that no one connected with the National Aeronautics and Space Administration, including astronauts Frank Borman and James Lovell, profited from the transaction.

In a prepared statement, the space agency said, "The coin was placed in the in-flight medical kit by Dr. Howard Minners, a flight surgeon who left NASA several years ago."

The coin, said the statement, was the property of William Ulrich, a coin dealer then living in Minneapolis, Minn. NASA said that after the mission Minners and Gemini 7 astronauts Borman and Lovell signed a letter certifying the coin had been in space and then returned it to Ulrich.

Ulrich sold the coin two months ago to William Fox Steinberg, a long-time coin dealer in Fort Lauderdale, Fla.

Contacted at his home in the Bahama Islands, Ulrich, now retired, said he sold the coin for $5,000 in cash, plus a $10,000 lot located next to the Lucaya golf course on Grand Bahama Island.

Ulrich said he now regretted the sale.

"I wouldn't even consider selling it if I had it today," he said. "That coin could be worth today anything up to $100,000."

Martin Rites Set Friday

Sam Martin Jr., 48, who lived at 1901 Merrill Avenue, died at 9:40 p.m. Tuesday in Cogdell Memorial Hospital following a long illness.

A native of Breckenridge, he had lived here for the past 19 years. Prior to his illness he was a heavy equipment operator in the oil fields.

Surviving are his wife of the home; two daughters, Mrs. Nelda Blythe and Samantha Martin, both of Snyder; three sons, Jimmy Martin, serving with the U.S. Air Force on Guam, Jerry and Billy Sam Martin, both of Snyder; his mother, Mrs. Frances Hyde of San Antonio; a sister, Mrs. O.H. Noggle of Breckenridge; two brothers, Ernest Martin of San Antonio and Horace Martin of White Deer and two grandchildren.

Funeral service has been set for 2 p.m. Friday at the East Side Church of Christ, with Sam Kitching, minister, officiating. Arrangements are in charge of Bell-Seale Funeral Home.

Three Share Week's Prize

There was a three-way tie for top honors in last week's Snyder Daily News football contest.

The three winners, each missing five selections, include Vicki Burney, Arah Route, Box 8, Snyder; Bill Fisher, 2900 Thirty-third Street; and David Fisher, 2349 Sunset.

These three will share the first and second prize money for the week.

Fourteen other contestants were just a step off the pace missing six selections each.

Another contest begins today, and the list of games may be found in sponsor's advertisements on the football contest page of this issue of The Snyder Daily News.

FOR FLOOD CONTROL

City For Renewing Deep Creek Request

Initial steps were taken Tuesday night to seek re-evaluation of an application made in 1957 for a flood control project on the Deep Creek watershed.

The Snyder City Council voted to request that the 15-year old application, which was rejected in 1958, be brought up again for study. County Judge Preston Wilson, who sat in on the council session at which representatives of the Soil Conservation Service discussed the procedure for such a project, said he would present the matter to the county commissioners court next Monday.

The city council approved the proposal following a discussion led by Von Kleibrink, SCS unit conservationist here, and Joe McEntire, SCS supervisor of Big Spring. McEntire said the 1957 application was turned down because at that time the cost-benefit ratio was too low. The Aug. 13 flood this year has changed that picture radically, however.

The Soil Conservation Service assists in such projects under authority of Public Law 566, which was enacted in 1954, the council was told. It was adopted for the purpose of carrying out projects for flood protection on small watersheds. Usually, such projects involve construction of several dams which collect the floodwaters and then release them gradually so that areas downstream are protected. Two local taxing agencies must sponsor such a project and in 1957 the City of Snyder and Scurry County sponsored an application.

The local officials were told that some 60 approved projects are now awaiting action by planning crews in various sections of the state and that the SCS has crews that can complete planning work on about six projects per year. So, if the application here should be found feasible, it could be several years before the project actually developed. This time could be shortened, however, if local sponsors desired to finance the planning work, or a portion of it, themselves.

Kleibrink said that fully documented losses from the Aug. 13 flood amounted to at least $2-million in Snyder alone, and this figure does not include the damage to roads, oilwells, farmland and other property outside the city, which would increase the total substantially.

In other business, the city council passed on second and final reading an ordinance authorizing the city manager and city attorney to negotiate settlement of any claims against the city resulting from accidents, provided such claims do not exceed $1,000 each, and passed on second and final reading an ordiance adopting a new electrical code for the city. The electrical code was recommended by the city's interim electrical board which now is in the process of developing examinations which will be required of electricians who operate in the city.

A request by Joe Rylander, who lives east of town, that he be permitted to connect to the Rotan water line was approved, and the council agreed to give an old typewriter, an old addressing machine, an old city seal and machine for cutting water cards to the Scurry County Museum Association. The council voted to purchase 60 three-yard containers from Cleburne Trucking and Body Co. at a total cost of $9,960, which was the lowest of three proposals received in response to an advertisement for bids.

The council was given a report on sub-standard buildings and junk vehicles which have been tagged recently as targets for removal or demolition.

China Critical Of Arms Pact

UNITED NATIONS, N.Y. (AP) — China's first policy speech in the U.N. General Assembly hit the Soviet Union, the United States and their newly ratified strategic arms limitation agreements, but it was harder on the Russians than the Americans.

Chinese Deputy Foreign Minister Chiao Kuan-hua told the 132-nation assembly Tuesday that the pacts were not "a step towards nuclear disarmament" but "the beginning of a new state in the Soviet-U.S. nuclear arms race" because they neither limited the quality nor required the destruction of such arms.

He spoke the same day President Nixon and Soviet Foreign Minister Andrei A. Gromyko, in Washington formalities, brought into force two pacts signed in Moscow May 26 — a treaty limiting each country to 500 defensive missiles and an executive agreement putting a five-year freeze on offensive missile stocks.

Chiao's 65-minute speech in the assembly's general debate was the first since the Chinese Communists replaced the Chinese Nationalists in the United Nations last year.

He alleged there was "Soviet-U.S. collaboration for world domination" and said that for the United Nations to regain its prestige, it must "free itself from the manipulation and control by the big powers."

Two of his positions struck observers as new. He came out for review and possible revision of the U.N. charter, opposed by the other major powers but favored by many smaller countries, and he called for "a Mediterranean of the Mediterranean countries," free of the foreign fleets of "the two superpowers."

F111s Jets Returned To Action

WASHINGTON (AP) — The Pentagon acknowledged today that the swing-wing F111 fighter-bombers were pulled from combat after the loss of one of the planes Thursday, but said the jets returned to action today.

Pentagon spokesman Jerry W. Friedheim said a formal announcement of new air strikes over North Vietnam in which F111s participated will be made later by the U.S. Command in Saigon.

Until now U.S. officials both in Washington and Saigon had refused to confirm or deny reports that the F111s had been restricted from combat missions. Friedheim said Tuesday that they would be available for operations in Southeast Asia but would not state whether they actually flew into combat since the disappearance of one F111 Thursday.

In meeting with reporters today, Friedheim acknowledged however that "they did not fly combat sorties for a couple of days there."

He later said he meant the period between Thursday and today. Part of the problem, Friedheim said, was the weather but added that he didn't know if Gen. John Vogt, U.S. Air Force Commander in Vietnam, "had other reasons for it."

President Makes Mail-Order Pitch

By BROOKS JACKSON
Associated Press Writer

WASHINGTON (AP) — Today the postman will deliver a mail-order pitch from President Nixon to Spanish-speaking voters in California.

"Al fin, un amigo en la Casa Blanca," it reads. Translated: "At last a friend in the White House."

This special appeal to Spanish-Americans, primarily those of Mexican, Puerto Rican and Cuban origin, is part of a sophisticated, multimillion-dollar fusillade of letters Nixon has aimed at a few carefully selected segments of voters in larger states.

The targets include not only Spanish-Americans but elderly Republicans, urban and suburban Republicans and other groups thought ripe for special appeals.

Tuesday, 9.3 million letters were sent to hand-picked lists of voters in California, New Jersey, Illinois and Pennsylvania.

Eventually, the direct-mail campaign will spread to a total of 10 states as letters to out to New York, Ohio, Michigan, Texas, Maryland and Connecticut, a Nixon campaign spokesman said.

Together, these 10 states, where Democratic presidential nominee George McGovern generally is concentrating his own personal appearances, account for 246 of the 270 electoral votes required to win the Nov. 7 election.

Nixon campaign officials say the letters' purpose is to squeeze out a vote increase of 2 per cent or more in these key states by making subtly different appeals to the different kinds of voters to which they're addressed.

Campaign officials have so far been reluctant to discuss the direct-mail campaign in much detail. But one official, at the request of The Associated Press, has made public samples of three different letters intended for use in California.

One letter begins "Dear Fellow Republican" and appears aimed at GOP registrants in general.

Panel Approves Tuition Tax Credit

By EDMOND LeBRETON
Associated Press Writer

WASHINGTON (AP) — A bill to give parents of an estimated 5.1 million children in parochial and other nonpublic schools tax credits against their tuition has cleared its first congressional hurdle. But the measure may be lost in the legislative pile-up as Congress pushes for adjournment.

The House Ways and Means Committee Tuesday approved the measure that would allow parents to deduct from their income tax up to $200 in tuition paid for each child in a nonpublic elementary or secondary school, but not in kindergarten or college. For families with income above $18,000, the credit would be scaled down.

The credit would be a straight offset against income tax paid, not a deduction from taxable income.

The tax credit has been a major objective of Roman Catholic bishops and some spokesmen for other private schools. Both President Nixon and Sen. George McGovern, the Democratic candidate, have endorsed the principle.

However, there is strong opposition from civil-liberties and other groups which contend the credit would be an indirect provision of public funds for religious purposes and therefore would violate the Constitution.

The committee is to take one more vote on the measure when the language is perfected, but is not expected to change it substantially. The panel included a number of provisions relating to the constitutional question:

—No cash payments would be provided for families whose income is so low that they owe little or no income tax.

—The measure provides for a quick court test.

—The tuition would have to be paid to a tax-exempt school, which would cover parochial and many nonprofit private schools. But spokesmen said it would exclude private academies set up to avoid racial integration in public schools, since these have not been accorded tax exemption.

—The credit would be limited to 50 per cent of tuition, on the theory that this would cover the secular, but not the religious, component of education provided.

Sponsors said they intend to expedite handling of the bill but acknowledged that the outlook is doubtful if Congress adjourns next week, as leaders plan.

Marijuana Case Is Filed Here

Christopher Lane Strong was charged in Justice of the Peace Court this morning with illegal possession of marijuana. He was remanded in county jail in lieu of $1,500 bond.

City Police arrested Strong last night while investigating a hit-and-run collision. Officers said the driver of a 1964 Model Chevrolet fled the scene after his car was involved in a collision with a Roscoe, Snyder and Pacific Railway Co. tank car at the 27th Street crossing at 9:17 p.m. Tuesday. There was minor damage in the mishap.

Young Farmers Meet Thursday

FLUVANNA — The Fluvanna Young Farmers Chapter will hold its monthly meeting at 8 o'clock Thursday night at the community center here.

Max von Roeder and Mickey Nunley will explain the function of a county board of development and its effect on rural Scurry County. The board is being proposed with emphasis on industrial development in the area.

All interested persons are invited to attend the meeting.

LETTER TO EDITOR

To the Daily News:

I would like to express my thought. I am 65 years old, born and lived in this state all my life.

We have some very important elections coming up in the near future that everyone should think about. First, the school improvement question. Schools are just as good as the people make them. As I see the future, the young people need to know more as time changes. So, I am going to support the school issue all the way.

Second, there is the city sales tax issue. Well, it takes money to make the mare go, as the old saying goes. What better way is there to put the tax burden equal than a sales tax?

Third, now is the 64 dollar question. No doubt some will disagree with me. But why not make the liquor sales legal in this town instead of letting a few bootleggers have that money? Who ever heard of a bootlegger or a moonshiner paying taxes on his sales?

Then I notice our neighboring wet towns have sales taxes. The only way I can explain that is they are more intelligent than we are here. Enough said on that issue.

Fourth, most important of all, the presidential election Nov. 7. We have had nearly four years of I think good times considering what we have been through. Nearly 10 years of Democratic administration, both state and federal. Now to turn the country over to people that have the thoughts that McGovern and the Sargent have would be one of the worst things since prohibition.

Thanking you sincerely,
Hub Cole
212 Thirty-Fourth St.
Snyder

P.S.: Those of us who remember the prohibition days of the twenties know we couldn't live in this advanced age under such misrule.

Brownwood To Get New Plant

BROWNWOOD, Tex. (AP) — Kohler Co. officials announced today that a new plumbing manufacturing plant will be established in Brownwood.

Sam H. Davis, group vice president of the firm, said the first facility, now in the final stages of design, will be a vitreous china and plastics plant.

It will be built on a 166-acre site purchased from the Brownwood Industrial Foundation.

Davis said, "We expect that the ultimate investment will exceed $15 million."

The vice president added, "The initial 400,000 square foot facility will employ approximately 200 persons, with eventual employment anticipated to be 700 to 1,000."

Construction start is scheduled for December with completion planned for Jan. 1, 1974.

Kohler Co., listed as the nation's second largest plumbing manufacturer, also produces air-cooled internal combustion engines, electric plants and precision controls.

It has plants in Wisconsin, Ohio, Canada and Mexico City.

Davis said Brownwood was picked for the plant because of availability of natural gas, a high quality work force, location in a high-growth market and good rail, highway and air routes.

Smith Adds 16 Topics

AUSTIN, Tex. (AP) — A special session that few legislators seemed to want had a full-blown agenda today thanks to Gov. Preston Smith who controls the flow of topics to the lawmakers.

He piled on 16 more subjects Tuesday, which makes a total of 27, even though the 30-day session has less than two weeks to go.

It is obviously rubbing some the wrong way.

Sen. O.H. "Ike" Harris interrupted a witness at a Senate committee hearing on insurance by exclaiming, "It's difficult to focus your attention when the governor continues to open the call."

The witness, Larry Teaver, ex-chairman of the State Board of Insurance, declined to respond to Harris. Teaver reportedly strongly urged the governor to call the special session to enact a bill setting up competitive rates for automobile and homeowner insurance in place of rates set by the three-member board.

Museum's Schedule Continues

The Scurry County Museum Association plans to continue keeping the museum room at Western Texas College open three afternoons each week, according to Ernest Sears, president of the museum board.

The museum is open from 2 p.m. to 5 p.m. on Tuesday, Thursday and Sunday. Over 200 visitors registered during September and many school classes are expected to visit the museum room during the fall.

Appreciation was expressed for docents and board members who worked three hours each per week during September.

These include Henrietta Lee, Golda Thorpe, Thelma Sims, Lida Rhoades, Sue Walker, Jean Everett, Helen Midkiff Harold Bennett, Ernest Sears, B. J. Donelson and Martha Webb.

Beginning this week, the museum office in the Diamond M Building is open on Tuesdays from 10 a.m. to noon and from 1 p.m. to 5 p.m. Anyone who has items to donate or loan to the museum is asked to bring them to that office on Tuesdays.

Citizens are being encourged to take interest in the museum by taking out memberships. Although all workers currently are volunteers, there are office expenses while the new building goes up. The museum office telephone number is 573-6107 and the mailing address is Post Office Box 696, Snyder.

HOSPITAL NOTES

ADMISSIONS: Eudelia Garcia, 111 Milburn; John Chapman, Fluvanna; Betty Morrow, 308 East Hwy.; Edith Gladson, 105 Thirty-sixth; Gale Gilliland, 2501 Ave. T; Patricia Carricker, Box 357, Jayton; Barbara York, Box 157, Gail; Ina May Farguson, Hermleigh; Chester Guinn, 1607 Twenty-eighth; William Hetfield, 310 Thirty-fourth; Zed Wadzeck, Rt. 1; Dessie Jones, 1100 Twenty-sixth; Aubrey Huddleston, Star Rt., Ira.

DISMISSALS: Carolyn House, A.W. Wallace, Karen Helms, Ida May Callis, Dale Herrington, Ruby Mitchell, Ruby Sellars.

Highest Bid

AUSTIN, Tex. (AP) — Highest bonus bid at Tuesday's sale of oil and gas leases by the School Land Board was $140,005 for a 2,541 acre tract in Brazoria County.

The high bid was made by Dow-North American & Monsanto.

In all the board accepted 120 high bids totaling $2.89 million on 67,379 acres of public school land for an average of $40 an acre.

Writers Guild Here Makes Progress

The newly-organized Snyder Writers Guild is making progress. Interest in the organization is being shown, both by its members and the community. Sales are being made, and interesting and educational programs are being planned by the program committee. Local as well as out-of-town speakers are being invited to speak at the programs.

Among the programs on the agenda are photography, column writing, newspaper articles, collecting and writing history, writing for religious publications, how to write and publish a book, and interviewing. A field trip in November on photography and later an all-day work-shop with a well-known author as the instructor is planned.

The Guild had its organizational meeting in June. In July it had Mrs. Juanita Zachry, president of the Abilene Writers Guild, and Mrs. Elva Morrison, also of the Abilene Guild to speak on organizational planning. In September, Prof. Larry Thompson, instructor of journalism at Western Texas College, gave an informative talk on fiction writing.

Membership is open to anyone who has a genuine interest in any phase of writing, who is willing to corporate in making the meetings a success, and sharing with other members his or her writing and sources of information.

It is the aim of the organization to instruct, to encourage the writer in every aspect of the writing field. Meetings are held the first Thursday of every month at 7:30 p.m. in room 102 in the Learning Resource Center at Western Texas College.

Theft Reported

Someone stole two cables and a gear shift lever from the bicycle of Tommy Masters, 3608 Jacksboro, while it was parked at Snyder High School Tuesday, according to a City Police Report.

Our Traffic Laws

EDITOR'S NOTE: This is another in a series of articles on traffic laws prepared by Snyder Police Chief Bobby Goodwin in the interest of local traffic safety.

* * *

Did you know that, the driver of a vehicle within a business or residence district emerging from an alley, driveway or building shall stop such vehicle immediately prior to driving onto a sidewalk area extending across any alleyway or driveway, and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway?

Alleys were designed for public service and utility type vehicles and as a convenience to those in need of the alley, but City ordinance prohibits parking a vehicle in the alley except for loading or unloading and this must be done in an expeditious manner. Another misconception on the part of some is that, when you are driving in an alley you are exempt from traffic laws. An alley is defined as any street, highway, avenue, or public place, devoted to public use.

SCD Election Set At Gail

Directors election of the Upper Soil and Water Conservation District will be held at 7:30 p.m. Thursday at the Sheriff's Posse building at Gail.

A program by Dr. Roy Miller of the Extension Service, Vernon, will precede the election. The program will be on low frequency, high intensity grazing systems within the area..

The directors election will be for the area north of the Snyder-Lamesa Highway in Borden County. Any landowner and wife owning land within that area and living within the district are eligible to vote in the election. Burl Belew currently holds the office of director from that subdivision of the district.

All interested ranchers and farmers will be welcome at the meeting. Coffee and doughnuts will be served.

Firemen Called

City Firemen answered a call to a grass fire 12 miles out on the Lubbock Highway at 7:40 p.m. Tuesday.

SALES TAX OR PROPERTY TAX

Which Is The Fairest Way To Provide City Services?

The Snyder City Sales Tax election offers Snyder voters a choice.

Voters can choose a one percent city sales tax which everyone pays, or by rejecting the sales tax at the polls, choose to continue reliance on increased advalorem property taxes which home owners and property owners pay.

The proposed city budget is $63,000 short due to the cost to rebuild the bridges which were destroyed in the August 13 flood. This additional revenue can be raised by increasing property taxes about 18%. This would bring in an estimated $64,000.

If the sales tax is approved, it would bring in an estimated $70,000 (1/2 year collection) for use in the 1972-73 fiscal year. This amount would make up the budget deficit and leave a small reserve.

The sales tax would not apply to such items as automobiles, groceries, gasoline, prescription medicines, cigarettes, school lunches, or many other purchases. It would be paid only on the items now included in the state sales tax.

One fact is certain - - - - more money must be raised for operation of our city services. Please go to the polls and vote on October 10 so that Snyder can continue to provide good city services. Pd. Pol. Adv.

No soap, she says— Senator comes to her aid

By Abigail Van Buren

(© 1972 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: I live in Salem, Ore., and here is my complaint. The government gives me food stamps for which I can get anything I want to eat. They even let me have chewing gum. But they won't give me soap or toilet paper! This doesn't make any sense to me, and I would like you to please find out how come, because those items are a lot more important than chewing gum. Thank you.

MRS. C. IN OREGON

DEAR MRS. C.: It didn't make any sense to me either, so I referred your complaint to your very able senator, Mark O. Hatfield. He replied: "Congress sought to get food into the stomachs of the truly needy, so by law, only FOOD can be obtained with food stamps. Not only is cleanliness next to Godliness, it is as essential to good health as food. I agree, poor people need soap more than they need gum. Now you've given ME something to chew on, and I am going to do all I can to improve the situation."

DEAR ABBY: I just read about the woman who is humiliated because her husband gawks at women with big bosoms. The explanation was that such men are little boys still looking for "Mommy."

Well, I have a husband who likes to look, too, but the girls he looks at in no way resemble his "Mommy." They are usually teen-agers. When he sees a young girl in a miniskirt and a nice figure he forgets where he is and whom he's with. He gets as close as he can to her, and just stares and stares. And the look on his face is frightening at times.

My husband is 50 and so am I. I have a figure my married daughters envy and I keep my hair nice and dress well.

Don't tell me to talk to my pastor. He is my pastor. I honestly think this man is sick in the head. What do you think?

WORRIED IN FLORIDA

DEAR WORRIED: I think you ought to get him to a doctor. A man of the cloth can't afford to sully his reputation, and he surely will if he doesn't quit this unbecoming behavior. Pastors are not saints. Pastors are people, and they are susceptible to the same illnesses [and weaknesses] as the rest of us.

DEAR ABBY: I wonder if any of your readers are bothered by the same thing that bothers me. When shopping I will often look up and see someone watching me! I realize that with all the shoplifting going on, they have to watch people, but you would think they would have trained personnel who could do this subtly so as not to make the customers feel they are being spied on.

A friend of mine who works in a supermarket told me that he was told to keep his eye on me! [I have already talked to my lawyer about this.]

If I am suspicious looking it must be from a complex I have. I am shy by nature and do not like to look people squarely in the face. I can't help it. It hurts to think I am not trusted because I would never steal anything.

Thanks for letting me get this off my chest.

INNOCENT BUT LOOKS GUILTY

DEAR ABBY: I think I have an even more touche' reply for the person who says, "I'll tell you something very confidential if you promise not to repeat it."

Say, "Don't tell me. You know I can't keep my mouth shut any better than you can."

STEVEN C.

JUDGE HOLT SPEAKS—District Judge Wayland Holt was guest speaker when the Iota Psi Chapter of ESA met Monday night at the American Restaurant. Pictured with him are Mrs. Holt, seated, and Virginia Johnston, program chairman. Judge Holt spoke on Constitutional Amendments to be voted on in November.

Iota Psi Meet Held Monday

The Iota Psi Chapter of ESA met Oct. 2 at the American Restaurant for its regular monthly business meeting.

The meeting was called to order by Ilasue Minor, vice president. Mrs. Minor read an invitation from the Big Spring club inviting everyone to the District VIII meeting to be held at Big Spring at the air base Oct. 15.

District Judge Wayland Holt was guest speaker. He discussed the fourteen Constitutional Amendments to be voted on in the general election in November. Judge Holt was introduced by Virginia Johnston, program chairman.

Eight members and four guests were in attendance. Guests attending were Delores Jones, Bess Calloway, Joyce Williamson and Maxine Holt. Hostess for the meeting was Norma Book.

Diamond Sells

FREETOWN, Sierra Leone (AP) — President Siakka Stevens said Tuesday his government has sold a New York firm the 968.9-carat Star of Sierra Leone, the third largest diamond ever discovered.

He said the buyer was Harry Winston Inc., which holds a substantial share in production and marketing of diamonds in Sierra Leone. Stevens declined to give the purchase price but it is known the government had set a reserve figure of about $2½ million.

Harvard Is Proud Of New Management Plan

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — Universities seldom have won honors for financial acumen or administrative know-how, despite their other intellectual qualities.

They have done a certain amount of long-range planning, says Stephen Hall, vice president of Harvard, but "in general, they haven't been too intelligent about how they used their money."

When Hall was hired to handle a $40-million administrative budget early last year he found his 10 departments using "municipal accounting," or spending against a set sum and hoping to have something left.

His inheritance, Hall said, was an elaborate system for keeping track of costs, of accounting for money already spent, but with less emphasis on plotting the most effective use of the money in achieving university goals.

"Only one department broke down its budget on a monthly basis," said Hall, a former director of operations support at ITT-Sheraton. Without such a breakdown, progress couldn't be monitored or corrections begun.

Hall now claims that these same department heads have become so financially aware and proficient that, as a team, "they could go into many a large corporation and effect a 100 per cent improvement."

Moreover, he added, Harvard would like to share its knowledge with other universities. "We'll all come out better off if we do. We're all in the same business."

The Harvard administrative plan began to take shape with weekly staff meetings of Hall and the administrators, whose responsibilities ranged from the university press to food services to buildings and grounds, and so on.

From these meetings — strictly limited to one early morning hour because "staff meetings fail if they are strung out" — Hall and the administrators began working out a written management plan made up of seven basic elements.

The first of these in the current management plan, the mission, is always stated in one sentence. This, Hall feels, forces each administrator to define sharply the contribution his department should make to the university.

Next, each administrator lists the scope of his job, the parameters of his responsibility, and lists also the amount that should be required to maintain that scope. Assumptions underlying the budget also are listed.

In food services, for example, G. Graham Hurlburt assumes, among other things, "that the cost of raw food will increase 7 per cent."

The next element is called "future impact," and it includes all those contingencies that might impact the plan. In this category, Hurlburt lists "union negotiations-spring 1973. Pressure will be on the side of higher wages..."

Following that, objectives are listed, both for the immediate year and for the next five. "To effectively integrate the combined work forces of Harvard and Radcliffe," is one near-term objective.

There follows a summation, in which the administrator verbalizes his concerns and hopes. The final section includes the usual charts, "but now they are tied into a system that makes them meaningful."

Before the final draft of the management plan is printed, Hall sits down individually with the administrators for a head to head, adversary discussion of the contents. These may last four hours. Sometimes there are several meetings.

Although these sessions can be blunt and grating, Hall claims that when the two men leave the room they leave behind their frictions, that they have reached a consensus, and that they are both committed to a common goal.

"This is where many institutions, corporations included, fail," he said. "They call it management by objectives but what they mean is that they set the objectives and you get fired if you don't meet them."

Instead, "we negotiate objectives and we both become committed to them. Negotiation leads to total commitment."

It is from this management book that Hall obtains the overall view of his operations. It is the basis also for a monthly progress report that is submitted to the president and the administrative visiting committee.

Junior Editors' Quiz on WHIRLPOOLS

QUESTION: *What are whirlpools and where are they found?*

* * *

ANSWER: When water spins around in a circular fashion, it is called a whirlpool. Sometimes the water in the ocean or even in a brook whirls around in a rotary motion due to the meeting of two currents or the activity of strongly opposite winds.

The larger whirlpools, which are dangerous to ships and sailors, are formed when ocean currents meet in a narrow passage between groups of islands and the shores of the mainland. When the narrow passage is deep where the currents meet, the water moves in spiral fashion through the action of centrifugal force and there is a funnel or downward draft in the center. This situation is aggravated in stormy weather and is a threat to navigation.

Whirlpools occur in many parts of the world. The most famous ones are the Maelstrom, a terrific whirlpool off the coast of Norway; the Charybdus in the Strait of Messina between Italy and Sicily; and the Niagara Whirlpool, a torrent of water in a circular basin below Niagara Falls.

10-4

(Barbara Lynn Pancoe of Youngstown, Ohio, wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Other Jobs Could Be Worse

By HAL BOYLE

NEW YORK (AP) — The man I feel sorriest for in America is the man who doesn't like his job or enjoy his work.

Of course, all of us at times complain about the ordeal by which we earn our daily bread. We may dislike the hours we work or find the man at the next desk or machine a dull nonentity the girl in the office homely, the straw boss an anachronistic Neanderthal, or become annoyed because the office cafeteria serves too few meatballs with the spaghetti.

But, on the whole, most of us are reasonably content with the work we do and wish only that it would pay better.

It must be horribly galling to the soul, however, actually to hate your work and feel you are wasting your life in it. The feeling must be akin to that of a wild animal when its foot gets caught in a trap from which it realizes it cannot escape.

A man who hates his job is almost as bad off as a man who hates his wife.

As other pastures look greener to us, so do other jobs look more attractive at times. But there can be solace to us, too, in the realization that other jobs could be worse than the one we have, whatever its faults.

Name a few? All right, why not? Think how much happier you are at your present job than you would be if you were—

The doorman to Hell during a heat wave.

The social director of a convict ship.

Lassie's understudy during an off-the-scene barking role.

Owner of the hatcheck concession at a nudist colony.

A vegetarian in a sausage-stuffing factory.

Supply officer for Dracula.

Valet at a hippie commune.

Orthopedist for Joe Namath.

Customs inspector on duty when someone is caught smuggling Pandora's Box into the country.

A fat Christian in a Colosseum full of thin lions.

A new broom in City Hall.

A comedian on an afternoon television soap opera.

A pacifist in Belfast.

A liquor store owner in Mecca.

Abbie Hoffman's barber.

Security guard at the Watergate.

Press agent for the Vietnamese war.

Diogenes.

Think it over. Perhaps you should thank your stars for the job you have.

Expensive Suite

GAITHERSBURG, Md. (AP) — A motel in this suburban community, 20 miles north of Washington, offers a seven-room "Presidential Suite" complete with a circular waterbed with scotch, bourbon and martinis on tap at the headboard.

The three-bedroom, four-bath suite rents for $1,400 per night.

The eighth-floor penthouse suite has an executive board room with a brandy-filled decanter, an executive office with a $5,300 desk and leather box of vintage cigars. The dining room is stocked with old books, china, Chippendale furniture and a $3,700 Chinese rug.

Asked if anyone had rented the suite since it became available recently, innkeepker William Dunmore said:

"Well, IBM called the other day. It's really designed for tired executives and foreign diplomats.

The first birds had teeth, but birds of today have instead a gizzard in which their food is ground up.

Sooners Lead In Offense

NEW YORK (AP) — Oklahoma' second-ranked Sooners, averaging a remarkable 621.0 yards per game, lead the nation's major college football teams in total offense, according to official statistics released today by the National Collegiate Sports Services.

The powerful Sooners, who have amassed 1,863 total yards in just 3 games, also lead in rushing offense and scoring. They have rushed for 1,496 yards, a 498.7 average, and scored 169 points, a 56.3 average.

In comparison, their closest rivals are Notre Dame with a 532.0 yard average in total offense, Oklahoma State in rushing with a 410.0 average, and Penn with a 55.0 scoring average. Penn, however, has played only one game.

Columbia, which also has played one game, dominates the defensive statistics. The Lions, 44-0 winners over Fordham, surrendered only a total of 85 yards and held the Rams to minus 12 yards rushing, both low in the nation. The Lions also are the only major team not to have yielded a point.

Detroit Claims East Loop Race

By HAL BOCK
Associated Press Sports Writer

Today's most pressing baseball puzzle is, for a change, not which team will win the American League's East Division race. The Detroit Tigers have answered that month-long riddle. Now, the question is whether Tiger Stadium can survive a possible playoff victory by Detroit against Oakland.

When the Tigers clinched the mini-pennant Tuesday night, it set off a chaotic scene as the frantic fans spilled all over the field, tearing up the bases and mobbing the jubilant players.

The sea of people lasted for a good half hour with the fans ripping huge tufts of turf out of the infield and outfield and celebrating the title it was said nobody wanted to win.

Detroit finally ended the tug of war that started with four teams, dwindled to three and finally two, by beating off Boston 3-1 and old pro Al Kaline was the hero. The 20-year-veteran drove in the tie-breaking run with a seventh inning single and then scored an insurance run on Carl Yastrzemski's error.

He also raised his arms triumphantly, moments before catching the last-out fly ball that set off the rampage of the fans.

Elsewhere in the American League Tuesday night, West Division champion Oakland lost to California 3-0, Texas shut out Kansas City 3-0, Milwaukee trimmed New York 3-2, Chicago edged Minnesota 5-4 and Cleveland split a doubleheader with Baltimore, winning 6-5 before losing 4-3.

In the National League, Philadelphia ripped Chicago 11-1, New York swept a doubleheader from Montreal 5-2 and 4-3 in 12 innings, Pittsburgh dumped St. Louis 6-2, Los Angeles nipped Atlanta 6-5, Cincinnati took Houston 6-1 and San Francisco downed San Diego 7-4.

Kaline was the man most responsible for Detroit's surge to the half-pennant. His seventh inning single gave the 37-year-old veteran 22 hits in his last 44 at bats.

"The older you get," he said, "the harder it is to get up for every game. But for the big ones like this, it's no problem at all."

Manager Billy Martin, hopping from one champagne-drenched corner to another in the Tiger dressing room, pointed to Kaline as the key to the title run.

"There's not a word I can say. All the superlatives ... I would use them all. There aren't words to describe how he played," said Martin.

The Tigers won the ballgame and the division title in the seventh inning against Luis Tiant, who had been Boston's very best pitcher down the stretch.

Dick McAuliffe, whose first inning error had given the Sox an unearned run, doubled with one out in the seventh and Kaline followed with a single. McAuliffe scored on the hit and Kaline raced to second on the play at the plate.

Bill Lee relieved Tiant and Duke Sims beat out a slow roller off shortstop Luis Aparicio's glove, sending Kaline to third. Next, Norm Cash bounced to Carl Yastrzemski and Kaline broke for home. Yaz grabbed the ball, then dropped it as Kaline scored the insurance run.

That was enough to finish the Sox.

"We have no apologies," said Manager Eddie Kasko. "We battled them and nobody expected us to get as far as we did."

Tommy Harper had a simple explanation in the quiet Boston dressing room. "We just didn't hit, and if you don't hit, you don't score. If you don't score any runs, you can't win."

The Tigers now move into the playoffs Saturday against West champion Oakland. The best-of-five series opens in California.

The A's, marking time, bowed to California Tuesday night with Clyde Wright going all the way for the victory. John Stephenson drove in the winning run with a ninth inning single, beating reliever Rollie Fingers.

Baltimore finished the season with a split against Cleveland, clinching third place in the East for the Orioles.

Cleveland took the first game on Frank Duffy's 10th-inning single with Tom McCraw driving in four runs on a single, double and game-tying homer in the eighth inning.

Pitcher Roric Harrison hammered a home run and the Orioles nailed down third place by taking the nightcap.

Milwaukee doomed New York to a fourth place finish by tagging the Yankees with their fourth straight loss.

4 Grid Tilts Slated Here This Week

There will be four football games involving Snyder teams here this week.

Lamar 8th grade hosts Big Spring Goliad at 6 p.m., followed by a 9th grade clash between Lamar 9th grade and the Big Spring Toros.

Friday night, the varsity Tigers host Lamesa. And Saturday afternoon, the junior varsity entertains Abilene Cooper at 2 o'clock.

Also Thursday, Travis 8th grade will be in Big Spring for a 5:30 p.m., clash with Big Spring Runnels, followed by a 9th clash between Travis 9th and the Big Spring Brahmas.

The sophomore varsity will meet Abilene High in Abilene at 4 o'clock Saturday afternoon.

On the area scene, Hermleigh hosts Bula while Ira will be at Brownwood Union Friday night.

Elsewhere in District 4-AAAA, Monterey visits Hobbs, N.M., Plainview hosts Borger, Hereford entertains Amarillo in Friday night affays. Palo Duro is at Lubbock Coronado Saturday.

Hole-In-One

CLEVELAND (AP) — After Tom Weiskopf aced the 196-yard seventh hole at Tanglewood Country Club in the Cleveland Open he said:

"That hole-in-one will send a crippled child to camp."

Weiskopf is national honorary chairman of a hole-in-one idea sponsored by a brewery.

Tigers Hope To Rebound Friday

Coach Maurice (Mo) Hodges said the Tigers were sick, disappointed and hurt after last week's loss to Andrews, 13-9. Hodges spoke at the regular meeting of the Tiger Booster Club, held last night in the high school cafeteria.

The head coach said that we, as coaches, parents or spectators can help the football players get ready for their next game."

"These young men have a lot of pride," Hodges said. "People don't play us a standard defense," Hodges pointed out. "We have to pick up the changes."

Jimmy Don Dyess, starting halfback, is still ill and will miss the next game with Lamesa. Hodges said Kerry Smith will continue to fill in for him. Also, Welton Cobb will be switched to halfback to help out with that position. Tommy Welsh has been working out some, but he still is limping on one ankle. Paul Norred, starting fullback, sustained a bruised leg in the Andrew game, but he probably will be ready to go Friday night, Coach Hodges said.

The head mentor pointed out the Tigers looked "a lot better" in the second half of the Andrew game than they did in the first half.

Coach Milton Ham gave the scouting report on Lamesa, calling them "a fine team." He said they use a 5-man front and run their linebackers through. The offensive line average 190 pounds per man.

Greg Canady, the Tornado quarterback, is an excellent passer, and the Tornadoes have excellent receivers, Ham pointed out. He said halfback Wayne Hogg may be the most "outstanding back in West Texas." He is a great kick off and punt returner. Lamesa has good balance and likes to operate from the Wishbone T attack. Tight end Jay Duncan is an excellent receiver, according to Ham, who said Lamesa has 19 lettermen returning.

Foster, Weems Teams Triumph

Ken Foster's Little Tigers I blanked Geral Mac Greene's Little Tigers I 6-0 and Boxie Weems Little Tigers A bested Jerry Mankins' Little Tigers A by an identical 6-0 score in two 7th grade tilts played here yesterday afternoon.

Kip Riley intercepted a pass and returned it 10 yards in the fourth quarter to give Foster's team the victory.

Charles Cobb raced 15 yards around left end in the first quarter for Weems' team. In the third period, Hubert Thompson blocked a punt but Weem's team wasn't able to capitalize on it.

In the last 10 years Ralph Houk of the Yankees and Earl Weaver of the Orioles have taken their teams to three straight World Series.

Trojans Face Toughest Test

By HERSCHEL NISSENSON
Associated Press Sports Writer

NEW YORK (AP) — Southern California faces its toughest test to date Saturday in an attempt to mintain its top ranking in college football.

Who says so? John McKay.

"Stanford is the best team we've played," says the coach of the Trojans, who travel up the California coast this weekend for a key Pacific-8 Conference game. "They have a more balanced attack with the running of John Winesberry and the passing of Mike Boryla.

"I liked our aggressiveness on defense against Michigan State. We went after 'em all the time. But we can't use the same defense against Stanford. We'll have to play a little bit more cautious."

Stanford, ranked 15th, is trying for a third consecutive Pac-8 crown and Coach Jack Cristiansen insists that "as long as the athletic director continues having this game on the schedule, we'll show up."

Despite 188 points in four games, that defense is the most impressive thing about ... Southern Cal.

Notre Dame at Michigan State—"It's a little too early to determine how good we are," says Notre Dame's Ara Parseghian. Michigan State's 51-6 loss to Southern Cal "wasn't that one-sided," according to Coach Duffy Daugherty. In fact, the Spartans ran the same number of offensive plays as the Trojans. The difference is that Notre Dame's offense can score. Notre Dame.

Alabama at Georgia—Georgia held quarterback Andy Johnson out last Saturday to make sure he'll be 100 per cent for Alabama. One of only two road games all season for the Crimson Tide and it says here it's high time for low tide. Upset Special of the Week ... Georgia.

Auburn vs. Mississippi at Jackson—Neither team has shown much offensively. Auburn upset Tennessee with "a punt and a prayer," according to Coach Shug Jordan. Prayers usually don't help against the Rebels in Jackson. Mississippi.

Louisiana State at Rice—Footballs fill the air as thrown by Bruce Gadd of Rice and Bert Jones of ... LSU.

Missouri at Oklahoma State—Not only is OSU coming off an upset of Colorado, but to make things worse for Missouri, its next three opponets are Nebraska, Notre Dame and Colorado. Ride 'em, cowboy. Oklahoma State.

Colorado at Kansas State—K-State was primed for an upset, but Oklahoma State beat them to it last week. Buffs bounce back. Colorado.

Florida at Florida State—Huff (Florida State quarterback Gary) and Poff (Florida linebacker David). Florida State.

Penn State at Illinois—A Joe Paterno-Bob Blackman meeting was proposed—by Paterno—two years ago when Blackman had an unbeaten team at Dartmouth. Penn State.

Columbia at Princeton—Columbia hasn't won at Princeton since 1945. The Ivy times they are a-changing. Columbia.

Oilers Add Ed Baker

HOUSTON (AP) — The Houston Oilers Tuesday picked up one quarterback and dropped another from their taxi squad.

The Oilers signed Ed Baker, a former QB with the New York Giants for their taxi squad and let go rookie Kelly Cochrane.

Baker played behind Norman Sneed and Randy Johnson at New York and played only one half of the Pittsburgh game during the exhibition season before being waived.

Jobs For Grads In Travel Field

Career Corner

by Joyce Lain Kennedy

Dear Joyce: I am a 17-year-old girl who will graduate from high school next June. I would like to know about some jobs in the travel field that do not require a college education. Would you please mention some? — C.D., Phoenix, Ariz.

TRAVEL COUNSELOR for an automobile club. The American Automobile Association (AAA) has offices in most major cities. Each office operates independently, so particulars may vary. A travel counselor has an interesting, varied non-routine job. The women in this position tend to stay, although the pay is roughly comparable to that of a typist ($400-500/month).

When an auto club member enters a branch office to ask for help in routing an auto trip, the travel counselor makes up a kit of maps and related helpful information about weather, highway conditions, points of interest, etc.

To apply for a job as a travel counselor, you should be a high school grad, have an attractive personality (courteous and helpful), be able to speak clearly, have a sense of curiosity (to dig up all the travel information the client requests), have a feel for geography, an interest in detail to work with maps.

CAR RENTAL AGENT for auto rental companies. This job at car rental counters (airports and other office locations) often requires the wearing of special uniforms. You're expected to look neat and well groomed. Car rental agents handle all the paper work connected with renting a car. Pay depends on the employer and geographic area, but a ballpark range is $400-500/month.

INFORMATION CLERK at city or state convention bureau. These positions are generally open to high school grads, and are interesting jobs. An ability to deal with the public is a must. Often you meet the public face-to-face, passing out literature, maps, guides, special events calendars and so forth. You may also be called on to assist in the registering of participants in large conventions. To determine pay, check with your local or state convention or information bureau.

PASSENGER SERVICE REPRESENTATIVE for AMTRAK. These railroad jobs are often compared to airline stewardesses jobs but there really is a difference. The railroad passenger service representatives (PSR) are management representatives on board trains. They do not serve food or beverages, or sell tickets. Rather, they are the customer relations personnel who try to assure a safe and pleasant journey. At the end of the trip, PSRs make reports on customer comments, good and bad, and suggest ways in which service can be improved. Pay is $600-800/month plus trip expenses and uniforms. Presently there are 44 PSRs, based in 4 cities – New York City, Chicago, Washington, and Los Angeles.

High school grads who are attractive (not beauty queens), alert, can deal with people, and who have some business experience are accepted. (Advancement potential into higher management jobs is easier if you have a college degree, but one isn't mandatory.) Minimum age is 21, although this is subject to change.

OTHER AREAS you might consider include travel agencies (start as clerk), tour operation, bus lines, sightseeing companies, camper sales and parks, and motel/hotel/resort management.

READER SERVICE: For a free resource sheet (1 page, both sides) listing places where you may write for information, and also books, about jobs in the travel industry, send a stamped, self-addressed long white envelope to Joyce Lain Kennedy at this newspaper. Ask for "JOBS IN TRAVEL FIELD LIST."

Senate Rejects Welfare Plan

WASHINGTON (AP) — The Senate has rejected a liberalized version of President Nixon's welfare-reform plan, virtually assuring that this Congress will enact no far-reaching changes in the welfare system.

By a 52-34 vote Tuesday, the Senate rejected Sen. Abraham Ribicoff's proposal based on Nixon's family-assistance plan but enlarging its benefits.

Still another variation of the plan is expected to be called up by Sen. Adlai E. Stevenson III, D-Ill., as debate continues today on the big Social Security-welfare bill. But it appears to have little chance of passage.

The bill has been before the Senate for a week, but repeated interruptions for other business have delayed action on it. The floor manager, Sen. Russell B. Long, D-La., said he still hopes for passage by the end of the week.

The Ribicoff amendment was killed on a tabling motion made by Long.

Ribicoff, D-Conn., first introduced his proposal a year ago with widespread support from governors, mayors and many national organizations.

He later cut it back considerably in an effort to reach a compromise with the administration, but the President rejected any liberalization of his plan.

As it was voted on, the amendment called for a guaranteed annual income of $2,600 compared with $2,400 favored by Nixon, and somewhat broader aid than the President favored for the working poor.

Cotton Destroyed

ENNIS, Tex. (AP) — About 4,000 bales of cotton were destroyed by a fire Tuesday at the Ennis Compress Co.

Manager Roy McBrayer said the cotton, valued at about $750,000, was lost despite the efforts of firemen from Ennis, Corsicana, Waxahachie, Ferris and other nearby communities.

The fire blazed for several hours before it was contained, although firemen said the fire would burn for several days before it is completely extinguished.

McBrayer said some 24,000 bales of cotton were housed in the compress building, which was about one-third destroyed.

Test Your Skill... Win
CASH PRIZES

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only . . .opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie must be specified as a tie or else it will be considered a miss.

If there is a tie for first place the winners will divide the cash money of $17.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split $50.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employes of The Snyder Daily News and their families are not eligible to enter.

IT'S FUN! IT'S EASY! ANYONE CAN WIN! ENTER TODAY!
